

BART Agreement Number: 6M8120
Work Plan No. B.15 - R-Line Tunnel Water Mitigation

Approval Date: 08/03/18

Scope:

The Design Team will perform inspection planning, on-site visual inspections at areas of tunnel water intrusion, and a written Inspection Report that documents the inspection findings. The Design Team will also perform a state of the art review of infiltration mitigation efforts that have been successfully carried out on similar tunnels world-wide, determining which of those efforts are applicable to the infiltration issues that the BART experiences and could, with adaptations, be implemented as needed to meet specific infiltration regimes.
