

**BART Agreement Number: 6M5159**

**Approval Date: 12/16/22**

**Work Plan No. C.03-01 Stormwater Inspection BART Stations (4)**

**Scope:**

1. As part of BART's environmental compliance requirements the provisions of the State of California MS4 stormwater requirements must be met. This includes inspections of BART facilities for stormwater compliance verification. This workplan will ensure that BART stations are following all applicable requirements as required by the State of California Regional Water Quality Control Board.
2. Areas/subject of inspections shall include but not be limited to the following:
  - a. Existing storm drains
  - b. Existing floor drains
  - c. Parking structures
  - d. Landscaping/bioretention areas
  - e. Refuse areas
  - f. On site outdoor equipment
  - g. Existing/temporary erosion control measures
  - h. Storm drain/trash interceptors
  - i. Current construction activities
3. Within 30 days of inspection draft inspection report will be submitted to project manager.
  - a. Report will contain summary of finding
  - b. Report will identify any instances on non-compliance
  - c. Report will include corrective action recommendations for non-compliance
  - d. Report will include recommendation for improvement
4. Within 14 calendar days of draft approval from project manager, final report will be submitted to project manager.

**Prime: C2PM**

**Subconsultants: None**

**Total Work Plan Value: \$ 55,459**
