

BART Agreement Number: 6M8123
Work Plan No. B.13 - Design for Slope Rehabilitation

Approval Date: 12/04/18

Scope:

BART Maintenance and Engineering has requested the services of STV Incorporated, including subconsultants Geotechnical (Parikh), Civil (Aetypic), Estimating (M Lee), and Survey (Cinquini & Passarino) to provide Design documents (Drawings and Construction Specifications) and construction support services for numerous slopes within the BART Right- of-Way. Slope Rehabilitation design and construction will take place along the A, C, L, M and R Lines.

Parikh will continue working under work plan B.13-01 under agreement 6M8070. Their overall budget is being reduced now that the scope of work is clearer. M. Lee Corp. and Cinquini & Passarino can be added to the existing work plan using Parikh's unused budget.

Due to capacity limitations of agreement 6M8070, Aetypic will be under a new work plan under agreement 6M8123.

Prime: STV

Subconsultant	Amount	DBE (Y/N)	SBE (Y/N)
Aetypic	\$346,769	Y	Y

Total Work Plan Value: \$583,291
