Discussion continued. President Saltzman moved adoption of Ordinance No. 2017-1, An Ordinance of the San Francisco Bay Area Rapid Transit District Repealing All Enactments Adopted into Law by Ordinance No. 2016-1 which Sought to Prohibit Patrons from Utilizing More than One Seat in a Train during Commute Hours in the Counties of Alameda, Contra Costa, and the City and County of San Francisco, and which Was Duly and Regularly Introduced, Passed, and Adopted by the Board on the 14<sup>th</sup> Day of April, 2016. Director Dufty seconded the motion. Director Blalock made a substitute motion that the vote be deferred for 30 days. Director Keller seconded the substitute motion. Discussion continued. The substitute motion failed by electronic vote. Ayes – 4: Directors Allen, Blalock, Keller, and McPartland. Noes – 5: Directors Dufty, Josefowitz, Raburn, Simon, and Saltzman. President Saltzman returned to the main motion. The motion to adopt Ordinance No. 2017-1 carried by electronic vote. Ayes – 5: Directors Dufty, Josefowitz, Raburn, Simon, and Saltzman. Noes – 4: Directors Allen, Blalock, Keller, and McPartland.

Director Keller requested staff be directed to develop a one ticket/one seat policy pilot program for implementation on the eBART extension upon start-up in May 2018, with the policy to address concerns including potential targeting of certain groups and service delays. Director Blalock seconded the request.

President Saltzman announced that the order of agenda items would be changed.

Director Raburn, Chairperson of the Planning Committee, brought the matter of Dublin / Pleasanton and West Dublin / Pleasanton Stations Parking Strategy, Advance Environmental Activities, and Planning for Multimodal Access Projects before the Board.

The following individuals addressed the Board.

Don Biddle

Melissa Hernandez

Director McPartland moved that the item be continued to a future meeting. Director Blalock seconded the motion. The item was discussed.

Robert Allen addressed the Board.

The motion to continue the item carried by electronic vote. Ayes – 7: Directors Allen, Blalock, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 2: Directors Dufty and Josefowitz.

President Saltzman brought the matter of Proposed Revision to Rules of the Board of Directors, Section 3, Committees, Number and Functions, before the Board, and presented the item. Director Raburn moved that the Board of Directors adopt President Saltzman's revised Standing

Committee proposal for the period of July through November 2017 and ratify the Proposed Standing Committee Appointments. Director Dufty seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes - 0.

President Saltzman announced that the Board would enter into closed session under Item 12-A (Conference with Real Property Negotiator) of the regular Meeting agenda, and that the Board would reconvene in open session upon conclusion of the closed session.

The Board Meeting recessed at 1:10 p.m.

---

---

The Board Meeting reconvened in closed session at 1:22 p.m.

Directors present: Directors Allen, Blalock, Dufty, Keller, Raburn, Simon, and Saltzman.

Absent: None. Directors Josefowitz and McPartland entered the Meeting later.

Director Josefowitz entered the Meeting.

Director McPartland entered the Meeting.

The Board Meeting recessed at 1:35 p.m.

---

---

The Board Meeting reconvened in open session at 1:37 p.m.

Directors present: Directors Allen, Blalock, Dufty, Josefowitz, Raburn, Simon, and Saltzman.

Absent: None. Directors Keller and McPartland entered the Meeting later.

President Saltzman announced that the Board had concluded its closed session and that there were no announcements to be made.

Director Raburn brought the matter of Lake Merritt BART Transit Operations Facility before the Board.

Director McPartland entered the Meeting.

Mr. Val Menotti, Acting Assistant General Manager, Planning, Development, and Construction; Ms. Hannah Lindelof, Principal Planner; and Ms. Seema Parameswaran, Senior Administrative Analyst, presented the Project Update and Title VI Siting Analysis.

Director Keller entered the Meeting.

President Saltzman exited the Meeting and Vice President Raburn assumed the gavel.

The presentation was discussed. Director Blalock moved approval of BART's Transit Operations Facility Title VI Siting Analysis. Director Simon seconded the motion, which carried by unanimous acclamation. Ayes – 8: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, and Simon. Noes – 0. Absent – 1: Director Saltzman.

Vice President Raburn called for the General Manager's Report.

Mr. Paul Oversier, Assistant General Manager, Operations, reported on the service provided for the Warriors' championship parade. General Manager Grace Crunican reported on steps she had taken and activities and meetings she had participated in, ridership, upcoming events, and outstanding Roll Call for Introductions items. Ms. Crunican reported that the BART team had placed first in the overall competition at the 2017 American Public Transportation Association (APTA) International Rail Rodeo.

Vice President Raburn called for the Controller/Treasurer's Report. Ms. Rosemarie Poblete, Controller/Treasurer, presented the report.

Vice President Raburn brought the matter of 2017 Schedule of Board Meetings before the Board and briefly presented the item.

Vice President Raburn called for Board Member Reports and Roll Call for Introductions.

Director Simon reported she had attended Carnival in San Francisco, the West Oakland Community Advisory Council, and the groundbreaking ceremony at McArthur Commons.

Director Blalock reported he had attended the Alameda County Mayors' Conference in San Leandro and the Mineta Transportation Institute's graduation ceremony.

Director Keller reported he had attended the APTA Rail Conference in Baltimore, Maryland.

Director McPartland reported he had attended two staff briefings, the BART Police Citizen Review Board meeting, the standing committee meetings, an Alameda/San Joaquin working group meeting, the Alameda County Mayors' Conference, an ACEforward DEIR open house, and the Capitol Corridor Joint Powers Board meeting.

Director McPartland requested staff determine Cal/OSHA noise rate requirements and test all trackways for compliance and develop a plan for bringing the system into compliance, report the findings to the Board, and submit the plan for compliance to Cal/OSHA for comment. Director Raburn seconded the request.

Director Allen reported she had attended a staff briefing, the Capitol Corridor Joint Powers Board meeting, and the megaregional rail workshop.

Director Raburn reported he had attended an affordable housing workshop, the Temescal Street Fair, the Island Jam, the Capitol Corridor Joint Powers Board meeting, and the megaregional rail workshop.

Director Raburn brought In Memoriam before the Board.

Director Simon requested the meeting be adjourned in honor of the three UPS employees who had been killed in San Francisco: Wayne Chan, Michael Lefiti, and Benson Louie.

Vice President Raburn called for Public Comment. Aleta Dupree addressed the Board.

The Meeting was adjourned at 2:41 p.m. in memory of Wayne Chan, Michael Lefiti, and Benson Louie.

Kenneth A. Duron  
District Secretary

## Introduction:

The San Francisco Bay Area Rapid Transit District (BART or District), as a recipient of federal funds, is required by the Federal Transit Administration (FTA) to comply with Title VI of the Civil Rights Act of 1964 and its amendments (Act). Title VI of the Civil Rights Act of 1964 requires that no person in the United States, on the grounds of race, color or national origin be excluded from, be denied the benefits of, or be subjected to discrimination, under any program or activity receiving federal financial assistance. Presidential Executive Order 12898 “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” addresses environmental justice in minority and low income populations. Presidential Executive Order 13166 “Improving Access to Services for Persons with Limited English Proficiency” addresses services to those individuals with Limited English Proficiency (LEP).

Federal Transit Administration (FTA) Circular 4702.1B, dated October 1, 2012, entitled *Title VI Requirements and Guidelines for Federal Transit Administration Recipients* (Circular), requires that federal funding recipients, such as BART, complete a Title VI equity analysis on the determination of the site or location of facilities. Per 49 CFR Part 21.5(b)(3): “In determining the site or location of facilities, a recipient or applicant may not make selections with the purpose or effect of excluding persons from, denying them the benefits of, or subjecting them to discrimination under any program to which this regulation applies, on the grounds of race, color, or national origin; or with the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the Act or this part.” In accordance with the Circular, the equity analysis ensures that site or location or facilities is selected without regard to race, color, or national origin.

49 CFR Part 21, Appendix C, section (a)(3)(iv) provides that “[t]he location of projects requiring land acquisition and the displacement of persons from their residences and businesses may not be determined on the basis of race, color, or national origin.” It is noted here that only property currently owned by BART or that would be leased by BART are considered in this study; in no case would residences or businesses be displaced as a result of this project.

This report, the Transit Operations Facility Title VI Siting Analysis (Siting Analysis), ensures that the proposed site location options for BART’s new Transit Operations Facility (TOF) were selected without regard to race, color, or national origin. In January 2015 BART conducted a preliminary Site Alternatives Evaluation which evaluated five alternate locations to the Lake Merritt Complex (where the current facilities are located) with respect to criteria developed by BART staff. This Siting Analysis summarizes the findings from that earlier report and adds a Title VI assessment to that 2015 evaluation.

# Section 1: Background and Project Description

---

## 1.1 Background:

Much of BART's current transit system management facilities are located in the Lake Merritt Complex, underneath the Lake Merritt Plaza. The existing facilities require increased physical space and state of good repair improvements to achieve state-of-the art functionality, support improved BART operations, and accommodate operation of planned BART extension projects over the next 40 years, including the extension to Silicon Valley. Therefore, BART is currently proposing to design and construct a new Transit Operations Facility (TOF) to modernize current operations control infrastructure and technology to support system expansion.

Phase 1 of the Silicon Valley extension, which will extend the system to Milpitas and Berryessa stations, is forecast to be open by the end of 2017. Current estimates put a new facility operational in 2021, leaving a 3- to 4-year gap. For the interim years BART will need to make some minor improvements to the existing facilities to make it operable, but these improvements will not be sufficient for long-term operation.

## 1.2 Project Description:

For the new Transit Operations Facility (TOF), BART is exploring potential site locations, including a TOF rebuilt at the Lake Merritt Complex (at grade on the Lake Merritt Plaza), or a TOF constructed elsewhere in the BART system. The TOF would consist of new and enlarged facilities required to support improved & expanded BART operations. It is worth noting that the new facility would not replace all operations currently located at the Lake Merritt Complex and several related systems, such as communications hubs, would continue to be located at the Lake Merritt Complex regardless of the location of the new TOF. For the purposes of this study it is assumed that the TOF will be a secure 3-story facility (57 feet tall plus roof equipment), with opportunities for retail and/or community uses at the ground floor. The facility will also require a back-up generator. For the Lake Merritt Complex site alternative, it is assumed that the TOF would be constructed where the BART Administration building was previously located, making use of the foundations that supported that building. This report will describe the alternative potential site locations and evaluate each site location's impact on Title VI communities.

# Section 2: Study Purpose

---

## 2.0 Study Purpose:

BART objectives for this study are to:

1. Identify the most appropriate locations for construction of a resilient, high-functioning TOF.
2. Undertake a review of potential site locations for the TOF, comparing the existing Lake Merritt Complex location to other potential sites.
3. Review demographic data of each proposed site location to determine if any protected populations (minority and low-income) would be disproportionately impacted by the location of the new TOF building.<sup>1</sup>
4. Analysis of potential adverse impacts and benefits on each proposed site and compare impacts among the sites and also analysis of equity impacts of alternative sites.
5. Conduct community outreach on proposed site locations.

---

<sup>1</sup> A subsequent Environmental Justice/Impacts Analysis will be conducted for the TOF project which will evaluate construction and operational impacts of building and operating a TOF in the chosen site location.

## Section 3: Title VI Compliance

---

### 3.0 Transit Operations Facility Title VI Compliance:

Per FTA Circular 4702.1B, BART as a recipient of federal funds is required to complete a Title VI equity analysis during the planning stage with regard to where a project is located or sited to ensure the location is selected without regard to race, color, or national origin.<sup>2</sup> While the siting analysis section of the Circular does not specifically mention low-income populations, it does require that BART “engage in outreach to persons potentially impacted by the siting of facilities.” Following this language and the principles outlined in FTA Circular 4703.1 (EJ Circular) and BART’s current practice and policies, this report will also conduct an analysis on low-income populations. The Title VI equity analysis must compare the equity impacts of various siting alternatives, and the analysis must occur before the selection of the preferred site

This report determines if the site selection for the new TOF would have a disparate impact on minority populations or place a disproportionate burden on low-income populations. To determine if a disproportionate impact is borne by protected populations, BART will refer to the threshold in its Board adopted Disparate Impact and Disproportionate Burden Policy (DI/DB Policy).<sup>3</sup> BART uses the DI/DB Policy as a measure to determine if fare changes or major service changes result in disproportionate impacts on protected populations. For new service and new fares, a disparate impact to minority riders or a disproportionate burden on low-income riders will be found if the applicable difference between the proportion of Project riders that are protected and the proportion of protected system-wide riders is equal to or greater than 10%. For the TOF, BART will use this 10% DI/DB threshold to evaluate potential impacts of various siting alternatives on minority and low-income populations. BART’s DI/DB Policy does not specify a threshold for siting analysis, but given a 10% threshold is used for new fares and new service, BART shall apply a 10% threshold for a new site location.

---

<sup>2</sup> Per 49 CFR Part 21.5(b)(3): “In determining the site or location of facilities, a recipient or applicant may not make selections with the purpose or effect of excluding persons from, denying them the benefits of, or subjecting them to discrimination under any program to which this regulation applies, on the grounds of race, color, or national origin; or with the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the Act or this part.”

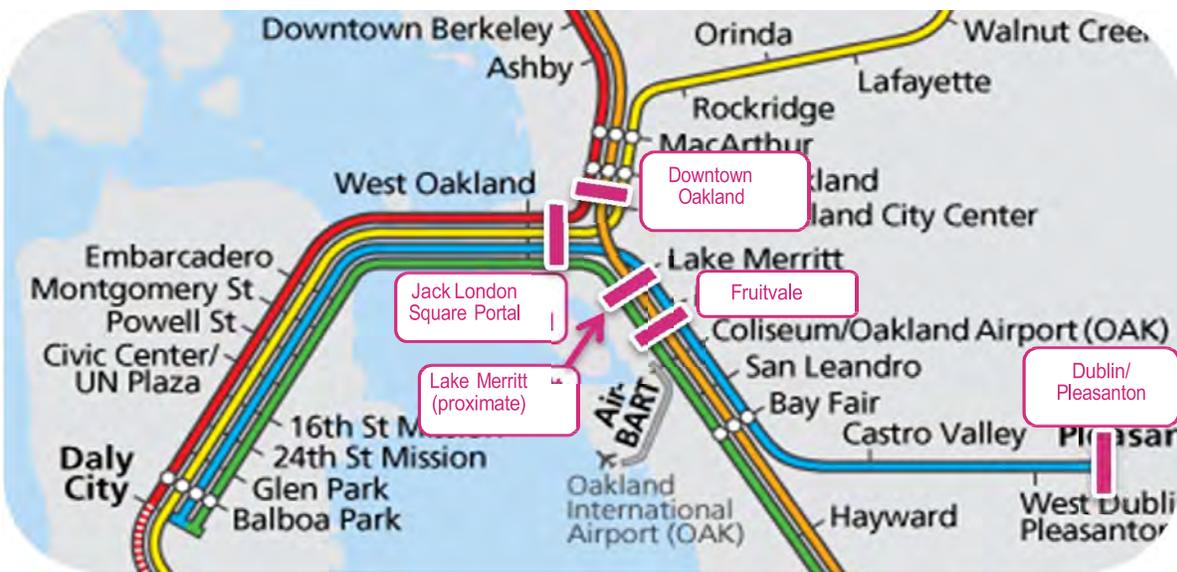

<sup>3</sup> BART’s DI/DB Policy was developed pursuant to the Circular, following an extensive public participation process, and adopted by the BART Board of Directors on July 11, 2013.

# Section 4: Alternative Locations

## 4.0 Selection of Alternative Locations for Transit Operations Facility:

This section describes how five alternative locations to the Lake Merritt Complex were identified (see Figure 1). Access to the Lake Merritt Complex is important to the function of the TOF because it is at the center of the system which is host to important equipment and facilities. Given BART's preference for TOF proximity to these features, only locations within a 10-minute response time by BART or car to the Lake Merritt Complex were reviewed. A central location also provides ready access to all parts of the system and proximity to both the BART Headquarters and the existing facilities at Lake Merritt. Further, only locations near BART tracks and close to BART stations were considered. An edge-of-system location was added for comparison to the central-system TOF site locations.

FIGURE 1: ALTERNATIVE TOF LOCATIONS IN RELATION TO THE BART SYSTEM MAP

#### 4.2 LOCATIONS SELECTED FOR REVIEW:

Five alternatives were selected for review against the current Lake Merritt Complex location.

The five alternative locations are:

1. **Downtown Oakland** – near either the 12<sup>th</sup> St/Oakland City Center or 19<sup>th</sup> St/Oakland Station in a basement location of a building adjacent to the station. Assumed to be the basement of the Central Building, 436 14<sup>th</sup> Street, at the corner of 14<sup>th</sup> and Broadway for illustrative purposes. While this specific location was analyzed in this report, other similar locations not currently owned by BART, but close to existing stations, would be expected to have similar results in the evaluation.

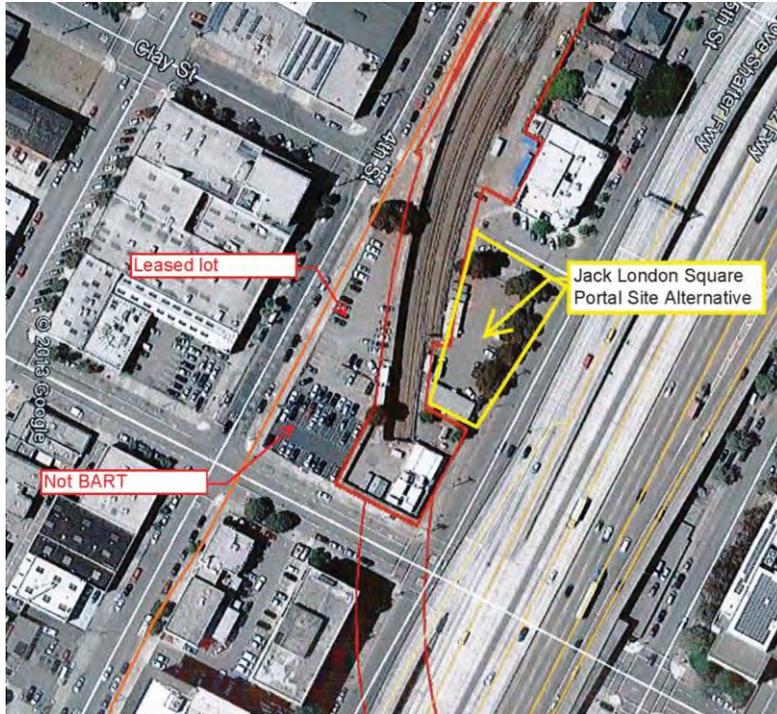

2. **Fruitvale** – at the parking lot pictured and located between 36<sup>th</sup> and 37<sup>th</sup> Avenues.

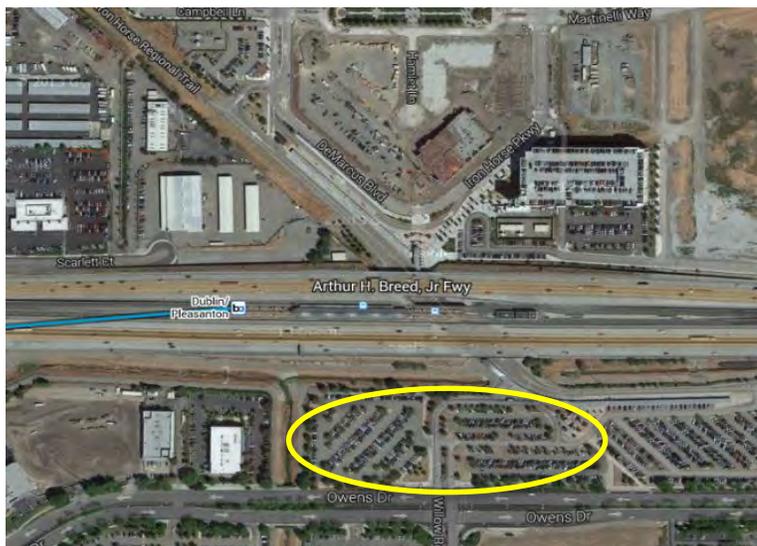

3. **Lake Merritt (Proximate to Station)** – BART-owned surface parking lot currently used for BART maintenance vehicles, adjacent to the freeway off-ramp, and two blocks from the station entrance.

4. **Jack London Square Portal** – where the BART tracks emerge from below ground as they leave Downtown Oakland, using the BART-owned parcel currently used for support equipment.

5. **Dublin/Pleasanton** – one location in the outer part of the BART system was selected for comparison to the locations selected in the system's core. The location is the Dublin/Pleasanton BART station, on a portion of the existing surface parking lot south of the BART station, in the city of Pleasanton.

### 4.3 ELIMINATED LOCATIONS:

A long list of possible alternative TOF locations was created based on the initial criteria described above. Sites on the long list were then screened to eliminate those with limited space for TOF construction, either with transit-oriented development (TOD) under construction or with an RFQ released for development, with extended access time compared to others on the list, with very similar characteristics to another site being evaluated (assuming a similar rating outcome), and with elevated risk of sea level rise.

The following locations were reviewed and eliminated for the following reasons:

1. Coliseum Station – eliminated due to exceptional sea level rise risks as well as planned TOD.
2. MacArthur Station – eliminated because any plausible locations for construction of a TOF would interfere with TOD currently under construction.
3. West Oakland Station – eliminated because the immediate station area and vicinity are occupied with station-serving uses and BART is currently seeking development partners to implement TOD. The uncertain timing and complexity of TOD in this location would likely result in schedule delays and increase the complexity of the TOF project (due to many unknowns in the site and context), ultimately negatively impacting the overall schedule for new TOF operability.
4. Oakland Shops – eliminated for several reasons: a. the location is currently overcapacity with little employee parking; b. it has no access to a BART station; c. there would be a delayed response to emergencies should dispatch of TOF employees be required; and d. location could be better used for on-rail vehicle storage if land were acquired from the railroad.
5. West Oakland Proximate – eliminated because it has similar characteristics to the near-station Lake Merritt location (selected for review) and is currently being leased.

# Section 5: Methodology

## 5.0 Title VI Populations and Methodology:

This section identifies the Title VI communities in the project area and the methodology used to assess potential impacts of the TOF site selection on Title VI populations. Title VI populations analyzed in this report include minority and low-income populations. A ½ mile radius around each proposed site location was drawn – this area is the site study area and used to determine the demographics of each site location. US Census 2010 data was used to identify minority populations and data from the American Community Survey (ACS 2010 - 2014) was used to identify low-income populations.

### 5.1 TITLE VI POPULATIONS:

For this analysis, BART’s four-county service area definitions and thresholds for minority and low-income populations are used. The definitions and thresholds are described as follows:

- **Minority Definition:** Pursuant to the Circular and Federal guidelines, minority populations are defined as individuals who have identified themselves to be American Indian and Alaska Native; Asian; Black or African American; Hispanic or Latino; or Native Hawaiian or Other Pacific Islander.
- **Low-Income Definition:** BART defines the low-income populations as those who are at or below 200 percent of the poverty level established for households by the Department of Health and Human Services (HHS) poverty guidelines. This assumption is more inclusive of low-income populations, accounting for higher incomes in the Bay Area as compared to the rest of the United States. The 200% threshold is also consistent with the assumptions employed by the Metropolitan Transportation Commission (MTC) in its February 2009 Equity Analysis Report. This definition takes into account both the household size and household income, the combinations of household size and income that are defined as “low-income” are as follows. For reference, this threshold defines a four-person household with an annual income under \$48,600 as low income in 2016.

**TABLE 1: 2016 POVERTY GUIDELINES: FEDERAL\* AND THE BART SERVICE AREA**

<b>Persons in family/household</b>	<b>Poverty guideline (federal)</b>	<b>200% (BART Service Area)</b>
1	\$11,880	\$23,760
2	16,020	\$32,040
3	20,160	\$40,320
4	24,300	\$48,600
5	28,440	\$56,880
6	32,580	\$65,160
7	36,730	\$73,460
8	40,890	\$81,780

\*For the 48 Contiguous States and the District of Columbia  
Source: U.S. Department of Health & Human Services.

BART's four-county service area populations include:

- Minority population: 59.4% (US Census 2010)
- Low-income population: 26% (ACS 2010-2014)

## **5.2 METHODOLOGY:**

To evaluate impacts on minority and low-income populations, a demographic assessment was conducted. The assessment evaluates whether populations living within the project study area of each proposed site location may be adversely affected by a TOF complex are disproportionately minority or low-income.

Description: The Demographic Assessment compares the proportion of minority and low-income populations in each site location's project study area (½ mile radius from each proposed TOF site location) to BART's four-county minority and low-income populations.

Data Used: US Census 2010 and American Community Survey (ACS) 2010-2014.

### *Step 1: Identify the Data Source*

US Census 2010 was used to identify minority populations and ACS 2010-2014 data was used to identify low-income populations in each TOF site alternative's project study area. The US Census 2010 and ACS 2010-2014 provides population and demographic data at the census tract level.

### *Step 2: Determine Project Catchment Area*

The project study area for each of the five proposed site locations are shown in Appendix A (minority) and Appendix B (low-income). Consistent FTA Circular guidance and previous BART equity analysis under the guidance of FTA Circular 4702.1B, a ½ mile radius was drawn around each proposed site alternative location. This ½ mile radius is the project catchment area for each site alternative. The Lake Merritt Complex and Lake Merritt Proximate sites use the same ½ mile radius, and therefore are shown on a single map.

*Step 3: Determine the share of protected riders for the Project Catchment Area*

For this analysis, BART's four-county service area definitions and thresholds for minority and low-income populations are used. Each census tract within the study area was analyzed to determine if the percentage of minority and low-income populations exceeded the four-county service area average based on the minority and low-income population definitions and thresholds defined in Section 5.1. The maps in Appendix A and B display census tracts within each proposed site alternative's project study area where the percentage of minority and low-income populations exceeded the four-county service area average.

*Step 4: Determine the share of protected riders for overall BART ridership*

For the new site Demographic Assessment, BART will use the minority and low-income population data for the City of Oakland. According to the US Census 2010, the City of Oakland's minority population is 73.5% and according to ACS 2010-2014, the City of Oakland's low-income population is 41.5%. As a comparison group for the proposed site alternative in Dublin/Pleasanton, BART will use the City of Dublin data. According to the US Census 2010, the City of Dublin's minority population is 57% and according to ACS 2010-2014, the City of Dublin's low-income population is 10.6%.

*Step 5: Apply BART's Disparate Impact and Disproportionate Burden Policy*

Pursuant to the Circular, BART must evaluate equity impacts for fare and service changes using its DI/DB Policy (See Section 3.0). As mentioned previously, BART will refer to its DI/DB Policy, in determining whether the difference between the affected area's protected population (minority and low-income) share and overall protected population share (City of Oakland or City of Dublin) exceeds a 10% threshold. For new site demographic assessment, a disparate impact to minority populations or a disproportionate burden on low-income populations may be found if the difference is 10% or more.

*Step 6: Alternative Measures*

If this siting analysis finds that minority populations experience disparate impacts, pursuant to FTA Circular 4702.1B, BART may proceed with the proposed location of the Project only if BART can show:

- A substantial legitimate justification for locating the Project there exists; and
- There are no alternatives serving the same legitimate objectives that would have a less disparate impact on the basis of race, color, or national origin.

While the Circular does not necessarily outline how to proceed if the assessment finds that low-income populations experience a disproportionate burden from the proposed location of a siting, using language from the FTA Circular 4702.1B as it applies to low-income populations for fares and service changes, principles from FTA Circular 4703.1 as it applies to adverse effects on low-income populations, and to ensure consistency with how BART generally analyzes impacts to this protected group, BART should take steps to avoid, minimize, or mitigate these impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the proposed new site.

# Section 6: Alternatives Analysis

## 6.0 Title VI Alternatives Evaluation:

This section includes the Title VI demographic analysis for the Lake Merritt Complex and each of the alternative locations, to evaluate whether populations living within the project study area of each proposed site location may be adversely affected by an TOF complex are disproportionately minority or low-income.

As mentioned in Section 4 above, the five alternatives selected for review against the current Lake Merritt Complex location include:

- Downtown Oakland
- Fruitvale
- Lake Merritt (Proximate to Station)
- Jack London Square Portal
- Dublin/Pleasanton

49 CFR Part 21, Appendix C, section (a)(3)(iv) provides that “[t]he location of projects requiring land acquisition and the displacement of persons from their residences and businesses may not be determined on the basis of race, color, or national origin.” It is noted here that only property currently owned by BART or that would be leased by BART are considered in this study; in no case would residences or businesses be displaced as a result of this project.

**6.1 STUDY AREA PROTECTED POPULATIONS:** Table 2, shows the demographic breakdown (minority and low-income) for each proposed site location and the current Lake Merritt Complex (also a proposed site location). US Census 2010 and ACS 2010-2014 data was used to identify low-income and minority populations in each TOF site alternative’s project study (determined by a ½ mile radius around each site).

**TABLE 2: ALTERNATIVES DEMOGRAPHIC SUMMARY**

	Lake Merritt Complex	Downtown Oakland	Fruitvale Station	Lake Merritt Proximate	Jack London Square Portal	Dublin/Pleasanton Station
% minority	77.3%	78.1%	90.5%	77.3%	81.5%	59.5%
% low-income	50.2%	48.1%	58.7%	50.2%	50.7%	11.1%
% LEP	36.7%	29.8%	44.9%	36.7%	33.2%	13.3%
*Data for Dublin/Pleasanton Station includes an average of City of Dublin population data and City of Pleasanton population data as the site is located in both cities. Source: US Census and ACS data						

## 6.2 DEMOGRAPHIC ASSESSMENT

Pursuant to the Circular, BART must conduct a demographic assessment to evaluate equity impacts of building a TOF. Using the DI/DB Policy, the demographic assessment determines if minority or low-income populations experience a disproportionate impact from BART building a TOF in each of the site locations. In applying the DI/DB Policy, the determination is made as to whether the difference between the affected area's protected population (minority and low-income) share and overall system's protected population (minority or low-income) share exceeds the 10% threshold in the Policy. For new site demographic assessment, a disparate impact to minority populations or a disproportionate burden on low-income populations may be found if the difference is 10% or more.

In the case of this new site assessment, the overall population value is the City of Oakland's minority and low-income data. Since all proposed site alternatives which are the top contenders for the new TOF site, with the exception of Dublin/Pleasanton Station, are located within the City of Oakland, BART determined this to be the most accurate comparison value as this data is a closest representation of the local community.

Dublin/Pleasanton Station located in the outer part of the BART system was selected for comparison to the locations selected in the system's core (locations within the City of Oakland). For this location, the City of Dublin, minority and low-income population data will be used as a comparison value as it is the closest representation of the local community.

Table 3, 4, and 5 show the results of the minority and low-income demographic assessment for the 5 proposed site alternatives.

**TABLE 3: MINORITY POPULATION DEMOGRAPHIC ASSESSMENT**

	Lake Merritt Plaza	Downtown Oakland	Fruitvale Station	Lake Merritt Proximate	Jack London Square Portal	Dublin/Pleasanton Station
<b>½ Mile % Minority</b>	77.3%	78.1%	90.5%	77.3%	81.5%	59.5%
<b>City % Minority</b>	74.1%	74.1%	74.1%	74.1%	74.1%	50.1%*
<b>% Difference</b>	3.2%	4.0%	16.4%	3.2%	7.4%	9.4%
<b>Potential Disparate Impact</b>	No	No	Yes	No	No	No
*Data for Dublin/Pleasanton Station includes an average of City of Dublin population data and City of Pleasanton population data as the site is located in both cities. Source: US Census and ACS data						

**TABLE 4: LOW-INCOME POPULATION DEMOGRAPHIC ASSESSMENT**

	Lake Merritt Plaza	Downtown Oakland	Fruitvale Station	Lake Merritt Proximate	Jack London Square Portal	Dublin/Pleasanton Station
<b>½ Mile % Low-Income</b>	50.2%	48.1%	58.7%	50.2%	50.7%	11.1%
<b>City % Low-Income</b>	41.5%	41.5%	41.5%	41.5%	41.5%	10.8%
<b>% Difference</b>	8.7%	6.6%	17.2%	8.7%	9.2%	0.3%
<b>Potential Disparate Impact</b>	No	No	Yes	No	No	No
*Data for Dublin/Pleasanton Station includes an average of City of Dublin population data and City of Pleasanton population data as the site is located in both cities. Source: US Census and ACS data						

**6.2 LOCATION RANKINGS:**

In addition to the Title VI siting analysis, BART staff developed selection criteria related to the resiliency and operational functionality of each site alternative, and a scoring system for those criteria. Criteria address locational features only, and criteria related to building design, which would be incorporated into any building site, are not included. The criteria were reviewed by BART staff representatives from multiple departments, including: transportation and system services, property development, BPD security and emergency management, planning, capital systems, and maintenance and engineering. The scoring criteria and approach, on a scale of 1 to 3, are presented in Table 5. They are grouped into four sets of closely related criteria:

- Fundamentals
- Access & Operations
- Land Use
- Hazards

**TABLE 5: RESILIENCY AND OPERATIONAL FUNCTIONALITY CRITERIA**

			Score: Scale of 1 (low) to 3 (high)		
Group	Name	Description	1	2	3
Fundamentals	1 Availability	Real estate readily available to BART, either through current ownership or purchase.	Not BART-owned	BART-owned, but has a structure on it	BART-owned (could have surface parking use, but no structure)
	2 Space	Location large enough to allow for security (either through buffer or design), support flexibility of use, facilitate projected view of whole BART system, allow replacement of support facilities, and allow related uses, including emergency control center and development complex to be integrated into the building. Assuming 35,000 sq. ft., with a minimum width of 90 feet based on preliminary architectural drawings.	Not large enough	Large enough, with design constraints	Large enough
	3 General cost comparison	Order of magnitude costs.	Higher cost than those currently budgeted	Similar cost to those currently budgeted	Lower cost than those currently budgeted
	4 Time to completion	Can facility be constructed in time to support SVRT project, opening by 2021? <sup>4</sup>	No	Yes, but schedule is tight	Yes
Access & Operations	5 Centrality	Location within the BART system, particularly proximity to the Oakland Wye/Track Section A05.	Further than 2 BART stops from the Oakland Wye	Within 2 BART stops of the Oakland Wye	Immediately adjacent to the Oakland Wye
	6 TOF staff access	Accessible via BART and via major roadways to facilitate 24-hour operations access and emergency access. Also consider safety from parking and/or BART Station to TOF.	Access difficult (distant from BART and/or highways)	Access possible on BART and highways	Easy access on BART and highways
	7 Headquarters access	Reasonable proximity to headquarters, so management and support staff from headquarters can access the TOF.	More than 20 minutes by any mode	0-20 minute access by any mode other than walking	0-20 minute walk
	8 Communications networks system connection	Access to communication networks	Not attached to communication networks (not in station)	Attached to communication networks (station)	Center of communication networks (central station)
Land Use	1 Constructability	Location allows relative ease of construction to minimize costs, risks, and service disruptions.	Difficult to construct	Construction has some challenges	Very straightforward construction -- clean, open site
	1 Transit-oriented development	Consider opportunity cost with respect to current or future potential for transit-oriented development (TOD) at BART stations.	Limits opportunities for TOD	Some drawbacks with respect to TOD	Neutral with respect to TOD
	1 Context and standards	How well can an TOF be woven in with adjacent land uses and local building design standards?	Design for compatibility is difficult	Can be designed to be compatible	Readily compatible
Hazards	1 Flooding/sea level rise hazards	Does the location have vulnerability to sea level rise, storm surge, or local flooding, based on Cal-Adapt and ABAG mapping?	Subject to all three	Subject to one or two of the three	Not vulnerable
	1 Seismic hazards	The whole BART system is in seismically active locations; the score is in terms of ability to provide a building that meets the standards for essential structures.	Existing structure would be difficult to upgrade	New or existing structure would meet standards	Structure would meet standards and is in a lower-risk location
	1 HazMat and threats	Does the location's place in the system or location above/below ground or near a highway make it more vulnerable to hazardous materials, terrorism, group violence, or vandalism?	Yes	Unlikely, but possible	No

<sup>4</sup> An earlier version of this report used 2019 as the baseline year for project completion. More recent estimates indicate that 2021 will be the more likely year of completion.

Further, a weighting system was developed to ensure that the ultimate scores adequately reflect the relative importance of each criterion in selecting a location, and that the locations are sufficiently differentiated. The weighting system reflects the following priorities:

1. Highest Priority (Weight 3): The Fundamentals grouping of criteria, the centrality criterion, and the communications network connection criterion are of particular importance because they support the basic ability of the TOF to function successfully and received the highest weighting of 3.
2. Medium Priority (Weight 2): The TOF staff access, headquarters access, transit-oriented development, and HazMat and threats criteria are similarly important to those described above, but not as crucial to system function. For this reason, they received a weighting of 2.
3. Lowest Priority (Weight 1): The remaining criteria: constructability, context and standards, flooding/sea level rise hazards, and seismic hazards received weightings of 1; these criteria are important, but can generally be addressed through careful planning and design.

The weighted scores for each location are summarized in Table 5. Detailed scores can be found in Appendix C.

**TABLE 5: WEIGHTED ALTERNATIVES EVALUATION SUMMARY (WEIGHTED SCORE/TOTAL POSSIBLE SCORE)**

	Lake Merritt Complex	Downtown Oakland	Fruitvale Station	Lake Merritt Proximate	Jack London Square Portal	Dublin/Pleasanton Station
<b>Fundamentals</b>	33 / 36	12 / 36	30 / 36	27 / 36	27 / 36	33 / 36
<b>Access &amp; Operations</b>	30 / 30	25 / 30	22 / 30	24 / 30	20 / 30	17 / 30
<b>Land Use</b>	8 / 12	10 / 12	9 / 12	9 / 12	11 / 12	9 / 12
<b>Hazards</b>	9 / 12	8 / 12	8 / 12	9 / 12	7 / 12	8 / 12
<b>Total</b>	80 / 90	55 / 90	69 / 90	69 / 90	65 / 90	67 / 90

The Lake Merritt Complex receives the highest score, with 80 weighted points, followed by the Lake Merritt Proximate Location and Fruitvale Station locations with 69 points. The Dublin/Pleasanton Station location received a score of 67, followed closely by the Jack London Square Portal location with 65 weighted points. Finally, the Downtown Oakland location received the lowest weighted score of 55 points. While the Lake Merritt Complex receives the highest score, the Lake Merritt Proximate and Fruitvale locations scored highly enough in the analysis to further review its viability as a potential TOF site.

### 6.3 ANALYSIS

Based on the demographic assessment of each TOF site location, we have determined the following

- Dublin/Pleasanton site's location, outside the core of the BART system, is not ideal for a TOF. A resilient TOF location requires centrality for staff access, headquarters access, and reliable connection to BART's communication hub. Furthermore, this location, while not resulting in a disparate impact, is very close to the 10% threshold, impacting a higher % of minority populations compared to other site alternatives.
- Lake Merritt Proximate has the same demographics as Lake Merritt Complex which do not result in a disparate impact on minority populations or a disproportionate burden on low-income populations. This site's location features are very similar to those of the Lake Merritt Complex because of their close proximity (500 feet) to one another, though the site is not directly connected to the Lake Merritt Complex, so received lower marks for communications network access. The site also faces similar challenges to the Lake Merritt Complex in terms of supporting potential TOD and requiring careful design to fit into the neighborhood (the proximate location is partially located in a historic district as defined by the City of Oakland, and is adjacent to single family homes).

Lake Merritt Complex is the highest scoring site in the resiliency and operational functionality assessment analysis in Table 5. Furthermore, from a Title VI perspective, building a TOF does not result in a disparate impact on minority populations or a disproportionate burden on low-income populations because the percentage of each population group (within the ½ radius studied) is within the 10% threshold for disproportionate impacts minority impacts at 3.2% and low-income impacts at 8.7%). Compared to other site alternatives studied, the Lake Merritt Complex presents the least amount of impacts to the local community and protected populations. This location impacts the least percent of minority population (after Dublin/Pleasanton) at only 3.2% difference from the City of Oakland population.

While the Complex may impact a higher proportion of low-income populations, at 8.7%, this number is within our 10% threshold. Furthermore, another element of the Lake Merritt Plaza site is that it includes sufficient area to incorporate redesign of the remaining plaza area to serve as an enhanced transportation hub and to support the vision of the Lake Merritt Station Area Plan, adopted by the City of Oakland in 2014. The Plan envisions the BART blocks as catalytic sites that establish an active neighborhood hub, provide pedestrian-oriented spines along 8th and 9th, and connect neighborhood assets – including BART, Chinatown, Laney College, the Oakland Museum of California, and the Jack London District, among others. The addition of the TOF to the area has the potential to benefit the community in many ways, including:

- Creating an improved an improved transit plaza.
- Facilitating expanded and improved BART operations, which connect the neighborhood to the region.
- Engagement in the plaza design process so that it meets local objectives of activating the area and improving local transportation connections (for transit, pedestrians, and bicycles in particular).

- Incorporation of local and relevant art and amenities into the project.
- The addition of new retail spaces to activate the area and bring more jobs to the neighborhood.

Based on the results of this siting analysis, the Lake Merritt Complex is the preferred alternative for BART's new TOF for the following reasons:

- Least impacts on Title VI populations.
- Colocation with related systems found in other parts of the Lake Merritt Complex, which supports a high functioning system.
- Central location in the BART system.
- Space and availability to construct the TOF.

#### **6.4 CONCLUSION & RECOMMENDATION**

Based on the results of the Title VI Siting Analysis and the resiliency and operational functionality assessment, the Lake Merritt Complex is the preferred site location for BART's new Transit Operations Facility.

# Section 7: Public Participation Report

---

## 7.0 Purpose:

Pursuant to FTA Circular 4702.1B (October 2012), BART conducted public outreach to provide information to the public about the new TOF to solicit feedback on the preferred alternative location and potential impacts the project could present to the local community. A key component of the Title VI outreach is to seek input from minority, low-income, and limited English proficient (LEP) populations. BART used established information outlets to engage the stakeholders who would be directly affected by the building of a new TOF site in the preferred alternative location, Lake Merritt Complex. By doing so, BART ensures consistency with its Public Participation Plan (2011) as well as ensures efficiency in communication with community members. Below is a brief summary of Title VI outreach and engagement conducted for the Transit Operations Facility Title VI Siting Analysis Report. In addition, BART staff met with City, Mayor's Office, and Council to inform them of the project. Overall, feedback received did not show any disagreement with the preferred TOF site location at the Lake Merritt Complex.

## 7.1 ADVISORY COMMITTEES

Staff presented information on the TOF, including potential Title VI impacts to each site alternative location, to BART's Title VI/Environmental Justice Advisory Committee and BART's Limited English Proficient (LEP) Advisory Committee. The meeting details are listed below and agendas for the meetings are included in Appendix D:

- Title VI/EJ Advisory Committee: Monday, February 8, 2016 from 2:00 – 4:30PM at the BART Board Room (Kaiser Center 20<sup>th</sup> Street Mall – Third Floor, 344 20<sup>th</sup> Street, Oakland, CA)
- LEP Advisory Committee: Tuesday, February 23, 2016 from 10:30AM – 1:00PM at the BART Board Room
- LEP Advisory Committee: Tuesday, February 28, 2017 from 10:30AM – 1:00PM at the BART Board Room
- Title VI/EJ Advisory Committee: Monday, May 8, 2017 from 2:00 – 4:30PM at the BART Board Room

Both BART's Title VI/EJ Committee (8 CBOs, 10 members) and LEP Committee (12 CBOs, 14 members) members are active participants of local-community based organizations (CBO) that serve minority, low-income, and LEP populations within the BART service area. The meeting was open to the public and the agenda was noticed at least 72 hours in advance of the meeting. At the meeting, staff presented a PowerPoint with an overview of the Project, a list of each potential site location and demographic data on minority and low-income populations, potential impacts to protected populations, and information about the building design in the preferred alternative location, Lake Merritt Complex.

Committee members expressed the following questions and comments:

- 2016 Advisory Committee Meetings
  - *Ensure that construction, employment, and operational impacts will be studied in the Environmental Review.*
  - *When public process starts to communities, provide detail about plans for the old location, what will happen to the old location, and a backup plan for the TOF. Provide more detail on emergency preparedness, upgrade technology, and security.*
  - *Provide information about what will happen to the current parking situation in the area*
  - *Provide information about noise impacts and impacts to the elderly population in that area*
  - *Clarification if the outreach meetings will be about the siting analysis or if it will provide information about environmental and construction impacts.*
  
- 2017 Advisory Committee Meetings
  - *It is a very good project. Clarification of construction start date*
  - *Keep the space available for public use for exercise, as is currently*
  - *Information about the homeless issue in that area will be addressed*
  - *Information about the relationship between the area residents and ridership. Wanted information if the passengers using the station live in the Chinatown area or coming of somewhere else.*
  - *Understand the criteria for choosing language translation for outreach. There is a rising African population. Suggest talking to East Bay Refugee Forum*
  - *Keep the Committee informed of meeting and outreach dates*

Staff responded to the Committee members' questions and followed up with further information via email and at subsequent Committee meetings and also referred them to attend the community Open House. Committee members did not have any concerns about the preferred site location of the new TOF site at the Lake Merritt complex.

## **7.2 COMMUNITY WORKING GROUP**

BART staff directly contacted local stakeholders representing several neighborhood CBOs and nearby institutions for participation in a community Working Group. Participants of the working group include:

- |                                 |   |
|---------------------------------|---|
| • Asian Health Services         | • Bike East Bay   |
| • EBALDC                        | • Chinatown Improvement Initiative  |
| • APEN                          | • Transform   |
| • Chinatown Chamber of Commerce | • Jack London District Association  |
| • Tai Chi users                 | • City of Oakland Parks and Recreation, Planning and Building, & Office of the City Administrator |
| • Laney College                 |   |
| • Oakland Museum of California  |   |

Additional invitations were sent to Family Bridges, Oakland Asian Cultural Center, Oakland Heritage Alliance but these organizations have not participated in Working Group meetings to date.

*Working Group 1:* BART staff and consultant provided an overview of the project and discussed plaza design goals and elements. Key feedback from the group included:

- Create / Enhance visual corridors into plaza, and from plaza to surrounding context/features
- Create / Enhance physical access to the plaza
- Connect all 3 blocks / Laney to Chinatown – visual and physical connections
- Catalyze / Activate the public realm
- Create open space for large group activities and community use
- Include gatherings spaces for users of all ages
- Including benches for sitting and playing games
- Develop consistent streetscape design and wayfinding
- Provide shade / Protection from sun and rain
- Implement crosswalks improvements
- Design Building as activating asset in plaza

Materials are available online at [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt).

*Working Group 2:* BART presented the following design objectives based on the feedback from Working Group 1: Catalyze & Activate; Connect & Integrate; and Safe & Welcoming.

Three design concepts for the plaza were presented to the group and the Working Group provided feedback on the design elements. The two options preferred by the group were then refined for feedback at the open house.

Materials are available online at [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt).

### **7.3 STAKEHOLDER MEETINGS**

An additional stakeholder meeting was held at Lincoln Recreation Center to meet with current Tai Chi and recreational users to hear suggestions and feedback on the approach to design of the plaza.

### **7.4 COMMUNITY OPEN HOUSE**

Community Open House #1 was held on May 10, 2017 at the Metro Center Auditorium at 101 8th St, in Oakland. The purpose of this meeting was to introduce the new Transit Operations Facility and Plaza Redesign project to the public, share alternatives (Concepts 1 and 2) for the Lake Merritt Plaza, and secure their feedback on the project via the use of survey handouts. Several Stations were setup with consultant and BART staff available to discuss and answer questions. Large format boards depicting information on the project and the two plaza design concepts were displayed in English and Chinese, and smaller handouts were available with Vietnamese and Spanish translations. Two stations also included video ‘fly-throughs’ of the site. Light refreshments were provided. Materials are available online at [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt). A more detailed report on the Open House feedback is included in Appendix D.

### **Publicity**

Publicity for the open house was conducted through print and online media, and outreach to community organizations. The following publicity and outreach methods were used for this project:

- A multilingual mailer in English, Chinese and Spanish, (including reference to the availability of translation services for the meeting) was mailed to all residents and businesses within ½ mile radius of the site.
- A multilingual flyer in English, Chinese, Spanish, and Vietnamese, (including reference to the availability of translation services for the meeting) distributed in station, dropped off at local community gathering places (such as Laney College, Lincoln Recreation Center, Asian Library, Oakland Asian Cultural Center), posted on the website, and emailed to stakeholders, local community-based organizations, and institutions.
- An oversized simplified version of the multilingual flyer was displayed at Lake Merritt station.
- BART website announcement.
- BART social media announcements (Twitter and Facebook).
- Additional email notices were sent to stakeholders, local community-based organizations and institutions.

The mailer and flyer are included in Appendix F.

### Interpretation

Chinese and Vietnamese interpreters were available on-site, though the Vietnamese interpreter was not needed.

### Survey

A survey was available for open house attendees to fill out and was available online for one week following the event. The survey was available in English, Chinese, Spanish and Vietnamese. 90 people submitted a hand-written survey form. After the May 10 meeting, BART received an additional 48 survey forms online for a total of 138 completed surveys. Individual surveys were submitted in 3 languages from the community as shown in Table 6. The survey is included in Appendix F (versions in English, Chinese, Vietnamese, and Spanish).

**TABLE 6: TOTAL SURVEY RESPONSES BY LANGUAGE**

Language	Written Surveys	Online Surveys	Total surveys
English	56	45	101
Chinese	33	3	36
Vietnamese	1		1
<b>Total Surveys</b>	90	48	<b>138</b>

The full demographic responses are included in Appendix E. This section summarizes some key demographic responses of interest:

- 56% of survey respondents live within walking distance and 38% work within walking distance of the site

- Respondents identified themselves as part of the following racial/ethnic groups:
  - 64% Asian or Pacific Islander
  - 33% white
  - 8% Hispanic, Latino or Spanish Origin
  - 3% Black/African American
  - 2% American Indian or Alaska Native
  - 3% other
- 43% of respondents indicated that they speak a language other than English at home; of those respondents 30% indicated that they speak English “Not well” or “Not at all.”
- 39% of respondents had an annual household income of less than \$50,000.

### Feedback

Full survey responses are included in Appendix E. This section summarizes key feedback received. For the purposes of this report, the open-ended feedback is most relevant.

Questions 1-6 (concept comparison): The results of the first 6 questions clearly indicated that Concept 1 was preferred for overall design, concept idea, and spatial layout. The single exception was the preference for the larger shade canopy shown in concept 2. The responses were fairly split on how a café on Oak and 9<sup>th</sup> street might be oriented towards, with a slight edge towards the plaza.

Question 7 (preferred plaza features): Results from question 7 reflected a diverse range of preferences. However, a few items stand out above the others. In reviewing the results of each individual question first and comparing the bars for “extremely important”, the following selections stand out in order of results:

1. Improved Streetscape (highest rated as “extremely important”)
2. Large Open Plaza
3. Places to sit / gather / meet
4. Green Landscaping

Looking at the weighted average results which accounts for all grades of importance for the specific plaza feature, the same results are produced although in a slightly different order:

1. Improved Streetscape (highest average weight)
2. Places to sit / gather / meet
3. Green Landscaping
4. Large Open Plaza

Question 8 invites the community to share additional ideas and suggestions for the project. Four recurring comments resulted from this question:

1. Provide adequate community space including active uses/retail, a restroom and space for tai chi, community events, activities, and performance.
2. Need for safety – including recommendations for a police station, improved lighting, clear visual paths, and addressing concerns related to homelessness.
3. Emphasize and recognize cultural significance of the site, including several recommendations to rename Station to Oakland Chinatown Station.

4. Improving connections and circulation, making better connections to Madison Park and Chinatown, and improving the station drop-off areas.

Specific Comments included:

*It is important that whatever wayfinding and signage program is implemented at the plaza identify Oakland Chinatown as a nearby destination. the plaza was originally part of that neighborhood, and the iconography and public art in the plaza should reflect that.*

*No business displacement, restrooms for public. As much as possible have active storefronts along Madison instead of blank wall space. Lighting very important. Bike parking is important.*

*The plaza should provide accessible space for people to practice tai chi and provide connections to Madison Park and Chinatown. It should not be a barrier or island that is disconnected from the surrounding neighborhood. It should also recognize the cultural presence of Chinatown by include wayfinding signage directing people towards Chinatown and Include Oakland Chinatown as part of the station name.*

*Let's make it well lit at night so it feels safe. Safety is key. Also let's make sure we budget for lots of trash recycle and compost because we don't want it to get dirty over time. Will there be art that reflects the heritage of the neighborhood?*

*Please emphasize pedestrian safety, lighting, clear visual paths, BART police presence at night (now totally absent), longer street light times. Please make improvements conducive for all age groups.*

Question 9 asks the community to express their concerns with this site, or if there are potential impacts to them as a result of this project. The following recurring comments resulted from this question.

1. Need a restroom.
2. Issues with building creating visual and physical barrier between the plaza and Madison Park/Chinatown core.
3. Connection to Madison Park and surroundings.
4. Final design/look and feel of the TOF building.
5. Some additional concerns expressed by participants include:
  - a. Traffic
  - b. Safety
  - c. Homelessness
  - d. Displacement of long-term residents
  - e. Station access during construction

Specific comments included:

*To have a big building blocking off the park across Madison street seems to be a big shame. A new BART plaza at this location should really be mindful of connecting the neighboring assets. Ideally, it would open up to the park across the street and provide for a pedestrian thoroughfare toward Chinatown.*

*It blocks the plaza from Madison Park. it is like a large obstruction that visually blocks people coming up out of the station from the public park and from the neighborhood.*

*I do not want to see an ugly concrete building in the middle of our neighborhood. Please work with Chinatown to create an artistic historical display honoring Chinatown because it has been displaced from this area by BART, Laney, 880.*

*This may limit the available public space on the plaza.*

*The plaza should connect and open up to Madison Park. It should visually invite people towards Chinatown, provide space for recreation programming connecting to Madison.*

*I want to make sure that the plaza is designed in a way that connects with the surrounding Chinatown neighborhood, with Madison Park, and with community usage needs.*

*Not welcoming to have a big opaque box in middle of plaza ... Make sure ground floor has plenty of retail. Maximize height and mixed use with housing wherever possible.*

*Traffic on Oak and Madison. Station closures.*

*The building can create a significant visual/physical barrier to Madison Park and the rest of Chinatown.*

*More workers there will create more traffic and demand for parking.*

Other Written Comments: BART also received a comment letter from the Oakland Chinatown Coalition that outlined several principles for design at Lake Merritt. The principles are summarized/abbreviated below; the full comment letter is included in Appendix E.

1. Reduction of the footprint of the facility as much as possible.
2. Provide as much community serving, small business and nonprofit, and recreational space around the edge of the facility as possible.
3. Connection to Madison Park.
4. Design and program the Plaza for people of all generations, and maximize the amount of space available.
5. Visual connection and wayfinding towards core Chinatown.
6. Physical pedestrian and street improvements leading towards core Chinatown, with a prioritization of pedestrian orientation towards 9<sup>th</sup> Street.
7. More visible representation for neighborhood and location specific public art.
8. Community representation in decision making.
9. Rename the BART Station from "Lake Merritt" to "Oakland Chinatown".

Appendix E includes a more complete summary of feedback received on the project at the community open house, including the comment letter from the Oakland Chinatown Coalition.

## **7.5 ADDITIONAL OUTREACH PLANNED**

Building and plaza design will continue over the next several months, and will take public comments into account during that process. Further, the following additional meetings are planned for the project:

- Working Group #3: Feedback on design development
- Open House #2: Feedback on design development
- Additional stakeholder and Working Group meetings as needed

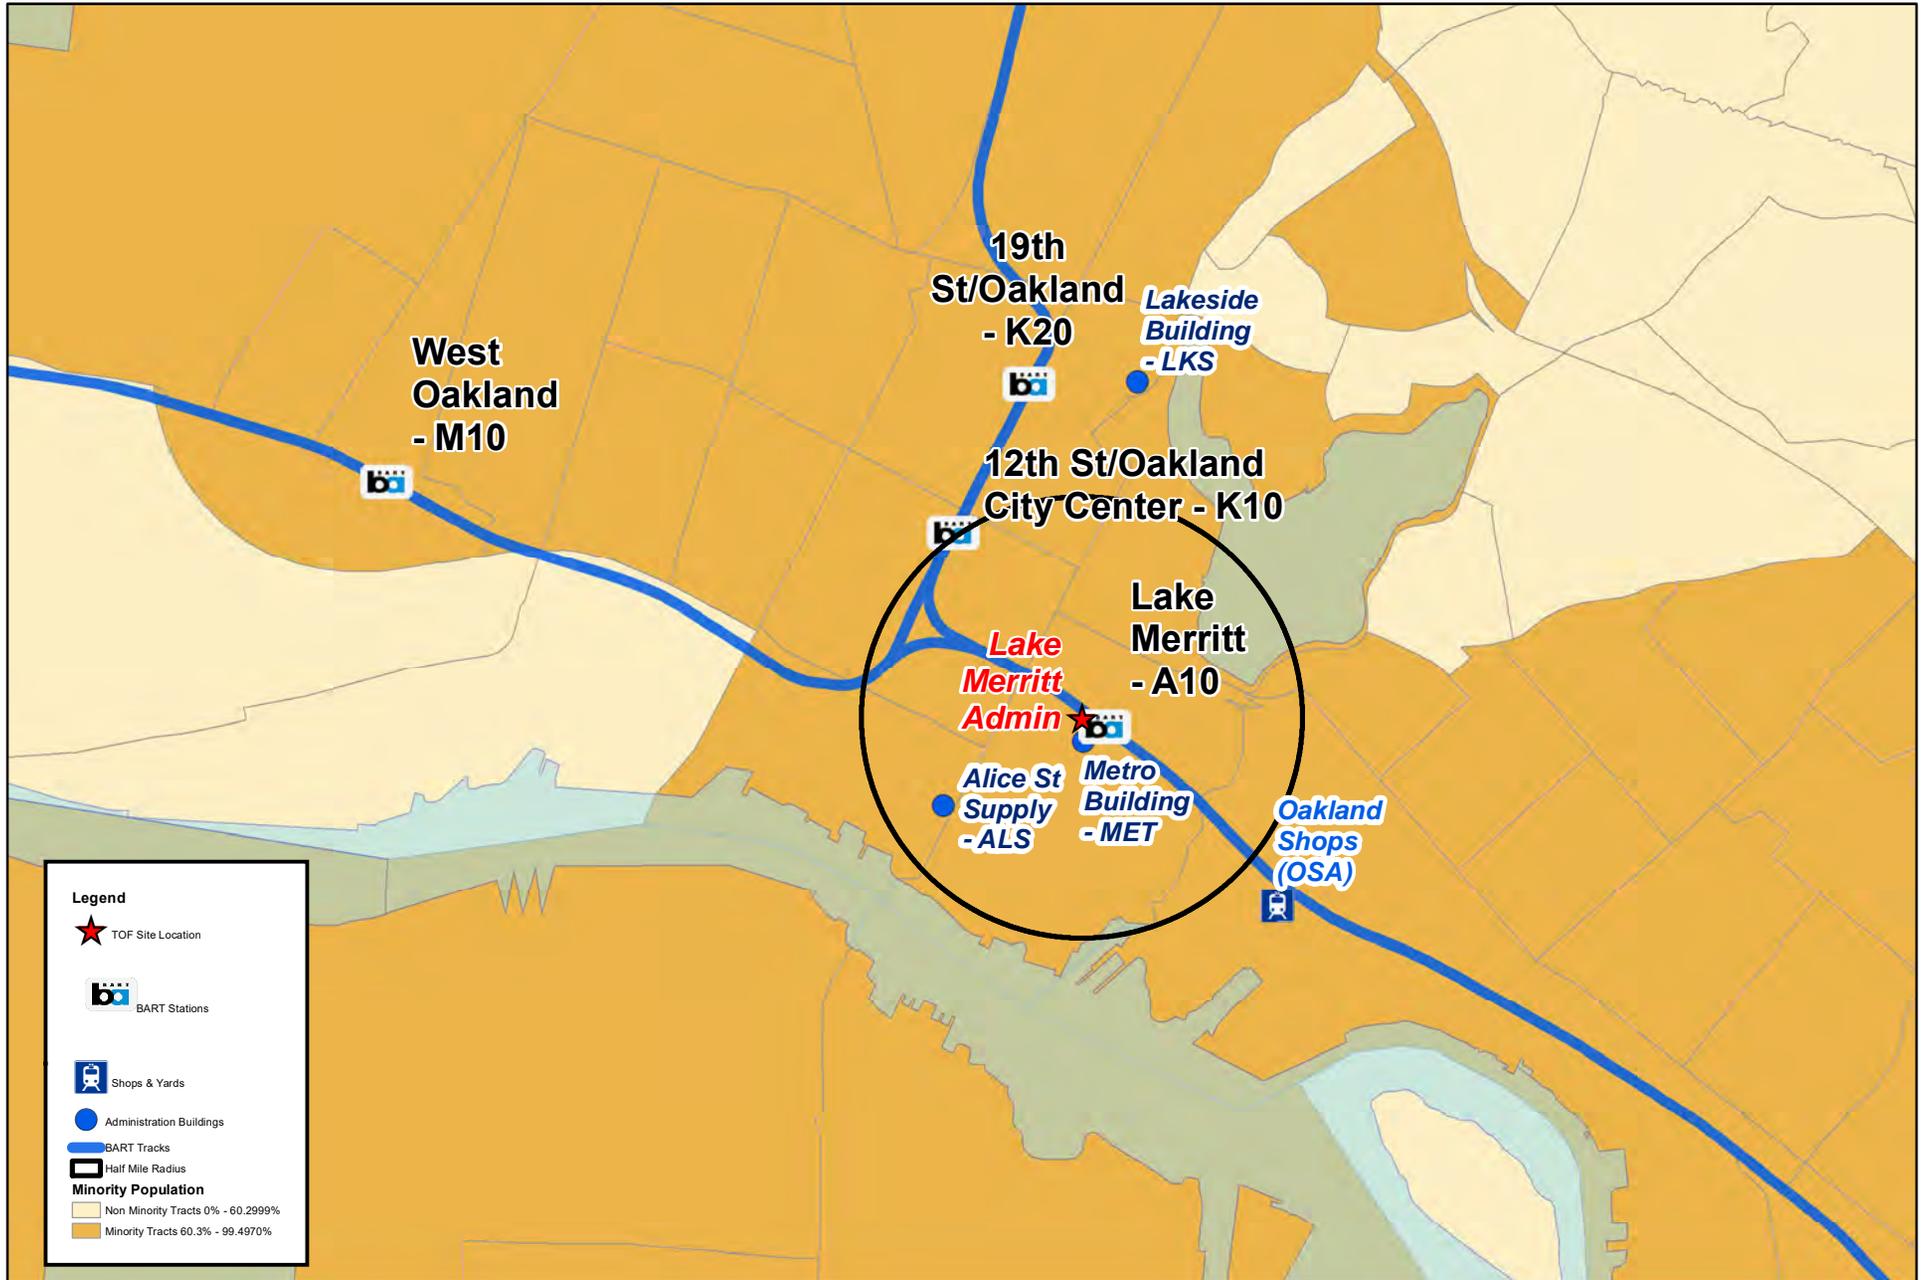

In addition to outreach related to the project design, the project will undergo environmental review as required by CEQA. The required public review periods will be provided as required for that process.

# Appendix C: Detailed Resiliency and Operational Functionality Scoring Table

---

*This page intentionally left blank.*

Appendix C: Site Alternatives Evaluation Results for Resiliency and Operational Functionality: Scored on a scale of 1 (low) to 3 (high); Weighted on a scale of 1 (low) to 3 (high)

Grouping	Name	Explanation of Weight	Weight (1 to 3 scale)		Lake Merritt Complex Existing location			Downtown Oakland Basement of adjacent building			Fruitvale Station Adjacent/under elevated tracks			Lake Merritt Proximate 1/5 mi Southeast of Lake Merritt Station			Jack London Square Portal East of West Oakland station			Dublin/Pleasanton Station Surface Parking Area on south side of tracks			
			Weight	Possible Weighted Score	Score	Weighted Score	Notes	Score	Weighted Score	Notes	Score	Weighted Score	Notes	Score	Weighted Score	Notes	Score	Weighted Score	Notes	Score	Weighted Score	Notes	
Fundamentals	1	Availability	Required for successful project	3	9	3	9	Existing facilities at Lake Merritt Complex	1	3	Basement of building adjacent to 12th St Station; requires long-term lease or purchase	3	9	Existing BART parking lot located adjacent to tracks	3	9	Existing BART parking lot for maintenance vehicles	2	6	BART-owned property currently used for telecommunications	3	9	BART-owned property currently used for BART patron parking.
	2	Space	Required for successful project	3	9	3	9	Yes--multi-story configuration fits in available space	1	3	15,200 sq ft site; size and availability of building basement unknown	2	6	36,000 sq ft site (parking), can be multiple stories, but width from 50-90 feet may result in design constraints	1	3	15,270 sq ft site, can fit required functions, but width of 60 feet may be too narrow, other functions to remain at Lake Merritt Complex	2	6	12,560 sq ft site, can be multiple stories, but width of 75 feet may result in design constraints	3	9	97,000 sq ft lot provides ample room
	3	General cost comparison	Cost drives ability to complete project	3	9	2	6	Same cost	1	3	Planning and securing space	2	6	Above ground site, assume same ROM Cost	2	6	Above ground site, assume same ROM Cost	2	6	Above ground site, assume same ROM Cost	2	6	Above ground site, assume same ROM Cost
	4	Time to completion	Project must be possible to complete in timely fashion	3	9	3	9	Planned for completion	1	3	Uncertainty due to lack of site knowledge and control	3	9	Relatively few constraints	3	9	Relatively few constraints	3	9	Relatively few constraints	3	9	Relatively few constraints
Access & Operations	5	Centrality	Key to successful support of systemwide operations	3	9	3	9	Adjacent to Oakland Wye	3	9	Adjacent to Oakland Wye	2	6	Within 2 stops of Oakland Wye	3	9	Adjacent to Oakland Wye	3	9	Adjacent to Oakland Wye	1	3	8 stops from Oakland Wye
	6	Staff access	Important for staff; can operate successfully without it	2	6	3	6	Excellent -- BART and highway	2	4	Good -- BART; more distant from highway	3	6	Excellent -- BART and highway	3	6	Excellent -- BART and highway	2	4	Good -- BART and highway, but neither immediately adjacent	3	6	Excellent -- BART and highway
	7	Headquarters access	Useful, but not required for daily operations	2	6	3	6	18 min walk	3	6	15 min walk	2	4	1+ hour walk; 11-17 min (drive or BART)	3	6	18 min walk	2	4	25 min walk and 5 min drive	1	2	30 min drive and 50 min BART/walk
	8	Communications system access	Proximity to communications hub is associated with reliability and prompt repair/troubleshooting.	3	9	3	9	Center	2	6	Attached	2	6	Attached	1	3	Not attached	1	3	Not Attached (but adjacent)	2	6	Attached
Land Use	9	Constructability	Can be overcome with design/funding	1	3	2	2	Highly constrained site with underground facilities and active station requires special design considerations	1	1	Under existing building, adjacent to 12th St Station	3	3	Parking lot adjacent to/under BART elevated tracks.	3	3	Parking, no structures on site	3	3	Parking and temporary structures on site	3	3	Parking, no structures on site
	10	Transit-oriented development	Very important to BART, but project requires relatively little space	2	6	2	4	Project in this location constrains flexibility for TOD development	3	6	Located in basement of existing building	2	4	Site could be developed as part of Fruitvale Transit Village Phase 2	2	4	Site could accommodate residential use	3	6	Not a station area	2	4	Site could ultimately be used for TOD.
	11	Context and standards	Can be overcome with design/funding	1	3	2	2	The facility would be above ground and would require careful site design and may require Lake Merritt Plan exceptions	3	3	Integrated into existing building	2	2	General plan zoning: mixed housing and business; adjacent Transit Village sensitivity	2	2	In historic area and opportunity area per Lake Merritt Plan; adjacent 1-2 story uses.	2	2	General Plan/Estuary calls for retail, entertainment, and dining establishments	2	2	General Plan (Pleasanton) calls for mixed-use, encouraging high-density residential near BART.
Hazards	12	Flooding/sea level rise hazards	Can be overcome with design/funding	1	3	3	3	No	3	3	No	2	2	Flood Zone X500 (500 year and other concerns)	3	3	No	3	3	No	2	2	In 100-year flood zone for local flooding
	13	Seismic hazards	Can be overcome with design/funding	1	3	2	2	Lake Merritt Complex recently retrofit; project would be new construction	1	1	Renovation of part of existing building	2	2	New construction	2	2	New construction	2	2	New construction	2	2	New construction
	14	HazMat and threats	Very important, but mitigable with design/funding	2	6	2	4	Underground and above-ground facility in dense residential neighborhood	2	4	Underground location in dense city center context with history of large gatherings/protest	2	4	Location under elevated tracks and near road may pose risk	2	4	Proximate to highway; not at station, unlikely target	1	2	Near key portal to underground system, proximate to highway	2	4	Proximate to highway
Overall Score/Weighted Score					90	36	80		27	55		32	69		33	69		31	65		31	67

# Appendix D: Title VI/Environmental Justice and Limited English Proficiency Advisory Committee Agendas

---

*This page intentionally left blank.*

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P. O. Box 12688, Oakland, CA 94604-2688

**NOTICE OF MEETING AND AGENDA**  
**OFFICE OF CIVIL RIGHTS TITLE VI/ENVIRONMENTAL JUSTICE ADVISORY**  
**COMMITTEE**

February 8, 2016  
2:00 p.m. – 4:30 p.m.

A meeting of the Title VI/Environmental Justice Advisory Committee will be held on Monday, February 8, 2016, at 2:00 p.m. The meeting will be held in the Board Room, Kaiser Center 20<sup>th</sup> Street Mall – Third Floor, Conference Room 303, 344 20<sup>th</sup> Street, Oakland, California.

**AGENDA**

1. Review of Proposed Parking Fee for Warm Springs/South Fremont Station. For discussion.
2. Overview of BART's Transit Career Ladders Training (TCLT) Program. For information.
3. Overview of Operations Control Center (OCC) Siting Analysis Process. For discussion.
4. General Discussion and Public Comment.
5. Next Committee Meeting Date.
6. Adjournment.

Please refrain from wearing scented products (perfume, cologne, after-shave, etc.) to this meeting, as there may be people in attendance susceptible to environmental illnesses.

BART provides services/accommodations upon request to persons with disabilities and individuals who are limited English proficient who wish to address BART Board matters. A request must be made five days in advance of a Board or committee meeting. Please contact the District Secretary's Office at (510) 464-6083 for information.

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P. O. Box 12688, Oakland, CA 94604-2688

**NOTICE OF MEETING AND AGENDA**  
**OFFICE OF CIVIL RIGHTS LIMITED ENGLISH PROFICIENCY (LEP) ADVISORY**  
**COMMITTEE**

February 23, 2016  
10:30 a.m. – 1:00 p.m.

A meeting of the Limited English Proficiency (LEP) Advisory Committee will be held on Tuesday, February 23, 2016, at 10:30 a.m. The meeting will be held in the BART Board Room, Kaiser Center 20<sup>th</sup> Street Mall – Third Floor, Conference Room 303, 344 20<sup>th</sup> Street, Oakland, California 94612.

**AGENDA**

1. Overview of BART's Transit Career Ladders Training (TCLT) Program. For information.
2. Overview of Operations Control Center (OCC) Siting Analysis Process. For discussion.
3. Review of Real-Time Information Displays. For discussion.
4. Better BART, Better Bay Area. For information
5. General Discussion and Public Comment.
6. Next Committee Meeting Date.
7. Adjournment.

Please refrain from wearing scented products (perfume, cologne, after-shave, etc.) to this meeting, as there may be people in attendance susceptible to environmental illnesses.

BART provides services/accommodations upon request to persons with disabilities and individuals who are limited English proficient who wish to address BART Board or Committee matters. A request must be made five (5) days in advance of a Board or Committee meeting, depending on the service requested. Please contact the District Secretary's Office at (510) 464-6083 for information.

300 Lakeside Drive, P. O. Box 12688, Oakland, CA 94604-2688

**NOTICE OF MEETING AND AGENDA**  
**OFFICE OF CIVIL RIGHTS LIMITED ENGLISH PROFICIENCY (LEP) ADVISORY**  
**COMMITTEE**

February 28, 2017  
10:30 a.m. – 1:00 p.m.

A meeting of the Limited English Proficiency (LEP) Advisory Committee will be held on Tuesday, February 28, 2017, at 10:30 a.m. The meeting will be held in the BART Board Room, Kaiser Center 20<sup>th</sup> Street Mall – Third Floor, Conference Room 303, 344 20<sup>th</sup> Street, Oakland, California 94612.

**AGENDA**

1. Overview of BART's Multimodal Access Design Guidelines. For information.
2. Update of Lake Merritt BART Transit Operations Facility & Plaza Redesign. For discussion.
3. Introduction of BART's Language Translation/Interpretation Services Contractor: International Contact, Inc. For information.
4. General Discussion and Public Comment.
5. Next Committee Meeting Date.
6. Adjournment.

Please refrain from wearing scented products (perfume, cologne, after-shave, etc.) to this meeting, as there may be people in attendance susceptible to environmental illnesses.

## Appendix E: Community Open House Feedback

*This page intentionally left blank.*

# BART LAKE MERRITT PLAZA & TRANSIT OPERATIONS FACILITY

## COMMUNITY MEETING 1 SUMMARY

**CONCEPT 1**

**CONCEPT 2**

**Community Open House #1:**

The Community Open House #1 was held on May 10, 2017 at the Metro Center Auditorium at 101 8th St, in Oakland. The purpose of this meeting was to introduce the new Transit Operations Facility and Plaza Redesign project to the public, share alternatives (Concepts 1 and 2) for the Lake Merritt Plaza, and secure their feedback on the project via the use of survey handouts. Several Stations were setup with consultant and BART staff available to discuss and answer questions. Light refreshments were provided.

The Stations were set up as follows:

- |   |  |
|---|--|
| <ol style="list-style-type: none"> <li>1. Sign in Desk</li> <li>2. Background Information and context</li> <li>3. Concept 1 plan</li> <li>4. Concept 1 fly through</li> </ol> | <ol style="list-style-type: none"> <li>5. Concept 2 plan</li> <li>6. Concept 2 fly through</li> <li>7. Summary of Concepts</li> <li>8. Food and water station</li> </ol> |
|---|--|

The community was encouraged to move around the stations and then fill out their surveys for submittal. Overall we had 98 people fill out the sign in sheet with 90 people submitting a hand written survey form. Subsequent to the May 10 meeting we received an additional 48 survey forms online for a total of 138 completed surveys. Individual surveys were submitted in 3 languages from the community.

**Statistics:**

Language	Total surveys submitted	Written surveys	Online surveys
English	101	56	45
Chinese	36	33	3
Vietnamese	1	1	
Total combined surveys	138	90	48

In order to manage the written responses (Q8 and Q9), rhaa created broad categories of concerns in order to present a snapshot of where the focus seemed to be concentrated on. This begins on page 9. Detailed responses can be found beginning on page 17.

## Overall Feedback:

**Questions 1-6 (Concept comparison):** The results of the first 6 questions clearly indicated that Concept 1 was preferred for overall design, concept idea, and spatial layout. The single exception was the preference for the larger shade canopy shown in concept 2. The responses were fairly split on how a café on Oak and 9th street might be oriented towards, with a slight edge towards the plaza.

**Question 7** which covers preferred plaza features showed a diverse range of preferences. However a few items stand out above the others. In reviewing the results of each individual question first and comparing the bars for “extremely important”, the following selections stand out in order of results:

1. Improved Streetscape (highest rated as “extremely important”)
2. Large Open Plaza
3. Places to sit / gather / meet
4. Green Landscaping

Looking at the weighted average results which accounts for all grades of importance for the specific plaza feature, the same results are produced although in a slightly different order:

1. Improved Streetscape (highest average weight)
2. Places to sit / gather / meet
3. Green Landscaping
4. Large Open Plaza

It is worth noting that the Bike Station and the Bike Lockers were selected as the least important of the features on both the individual charts, and the weighted average chart.

**Question 8** invites the community to share additional ideas and suggestions for the project. Four recurring comments resulted from this question:

1. Provide adequate community space including active uses/retail, a restroom and space for tai chi, community events, activities, and performance (Program & Amenities)
2. Need for safety – including recommendations for a police station, improved lighting, clear visual paths, and addressing concerns related to homelessness (Safety)
3. Emphasize and recognize cultural significance of the site, including several recommendations to rename Station to Oakland Chinatown Station (Identity & Way finding)
4. Improving connections and circulation, making better connections to Madison Park and Chinatown, and improving the station drop-off areas.

**Question 9** asks the community to express their concerns with this site, or if there are potential impacts to them as a result of this project. Three recurring comments resulted from this question.

1. Need a restroom
2. Issues with building creating visual and physical barrier between the plaza and Madison Park/Chinatown core (Circulation & Access)
3. Connection to Madison Park and surroundings (Connectivity)
4. Final design/look and feel of the TOF building

5. Some additional concerns expressed by participants include:
  - a. Traffic
  - b. Safety
  - c. Homelessness
  - d. Displacement of long-term residents
  - e. Station access during construction

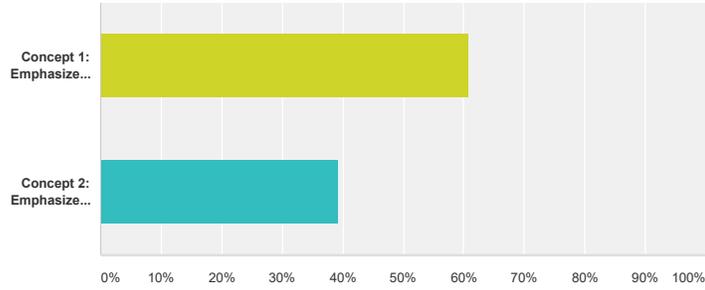

### **Demographic Overview:**

The full demographic information is included below. This section summarizes some key demographic responses of interest:

- 56% of survey respondents live within walking distance and 38% work within walking distance of the site
- Respondents identified themselves as part of the following racial/ethnic groups:
  - 64% Asian or Pacific Islander
  - 33% white
  - 8% Hispanic, Latino or Spanish Origin
  - 3% Black/African American
  - 2% American Indian or Alaska Native
  - 3% other
- 43% of respondents indicated that they speak a language other than English at home; of those respondents 30% indicated that they speak English "Not well" or "Not at all."
- 39% of respondents had an annual household income of less than \$50,000.

### Q1 Compare the two concepts and let us know which you prefer:

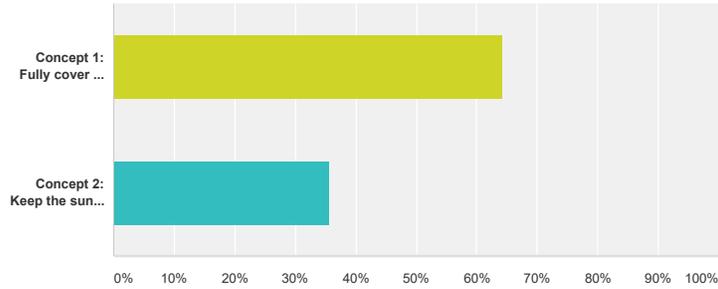

Answered: 117 Skipped: 21

Answer Choices	Responses
Concept 1: Emphasize diagonal pedestrian connection through transit plaza, reflecting BART tracks	60.68% 71
Concept 2: Emphasize pedestrian connection along 9th Street	39.32% 46
<b>Total</b>	<b>117</b>

### Q2 Compare the two concepts and let us know which you prefer:

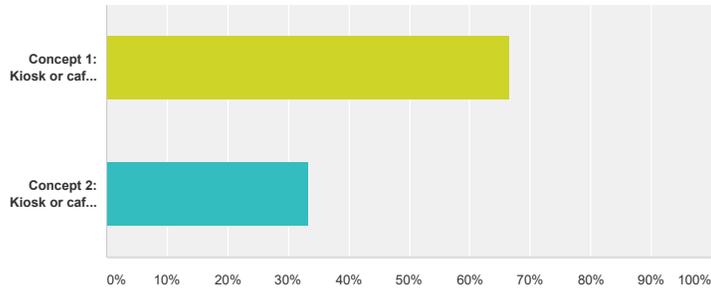

Answered: 126 Skipped: 12

Answer Choices	Responses
Concept 1: Fully cover the sunken courtyard to create a larger plaza, using glass paving to allow natural light into station	64.29% 81
Concept 2: Keep the sunken courtyard partially open to add access from plaza to BART Station concourse and allow light below	35.71% 45
<b>Total</b>	<b>126</b>

### Q3 Compare the two concepts and let us know which you prefer:

Answered: 108 Skipped: 30

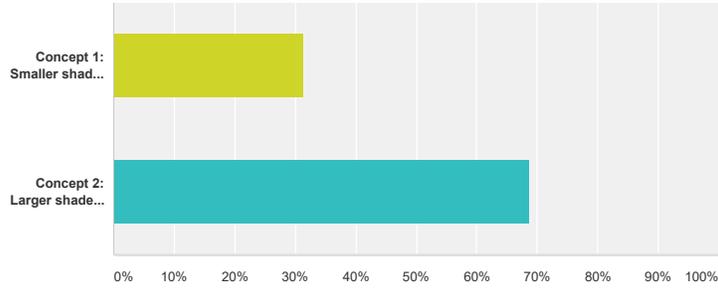

Answer Choices	Responses
Concept 1: Kiosk or cafe seating at 9th & Oak oriented toward plaza	66.67% 72
Concept 2: Kiosk or cafe seating at 8th & Oak oriented toward street	33.33% 36
<b>Total</b>	<b>108</b>

**Q4 Compare the two concepts and let us know which you prefer:**

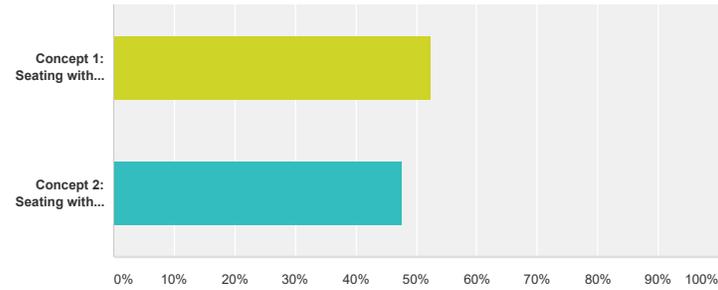

Answered: 112 Skipped: 26

Answer Choices	Responses
Concept 1: Smaller shade structure	31.25% 35
Concept 2: Larger shade structure	68.75% 77
<b>Total</b>	<b>112</b>

**Q5 Compare the two concepts and let us know which you prefer:**

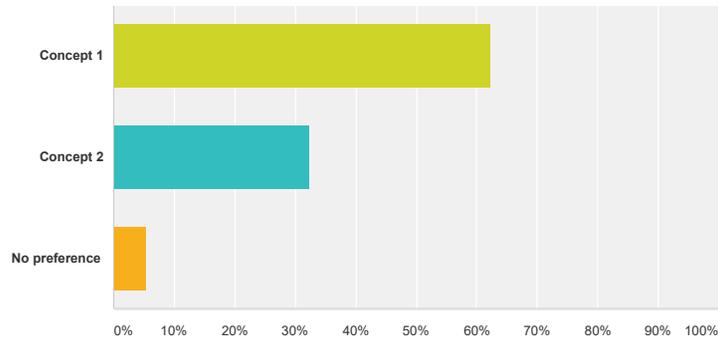

Answered: 126 Skipped: 12

Answer Choices	Responses
Concept 1: Seating with larger, low planting areas frame smaller gathering spaces within plaza	52.38% 66
Concept 2: Seating with smaller, integrated planters located throughout a more open plaza	47.62% 60
<b>Total</b>	<b>126</b>

**Q6 Overall, which plan option do you prefer (check one)?**

Answered: 127 Skipped: 11

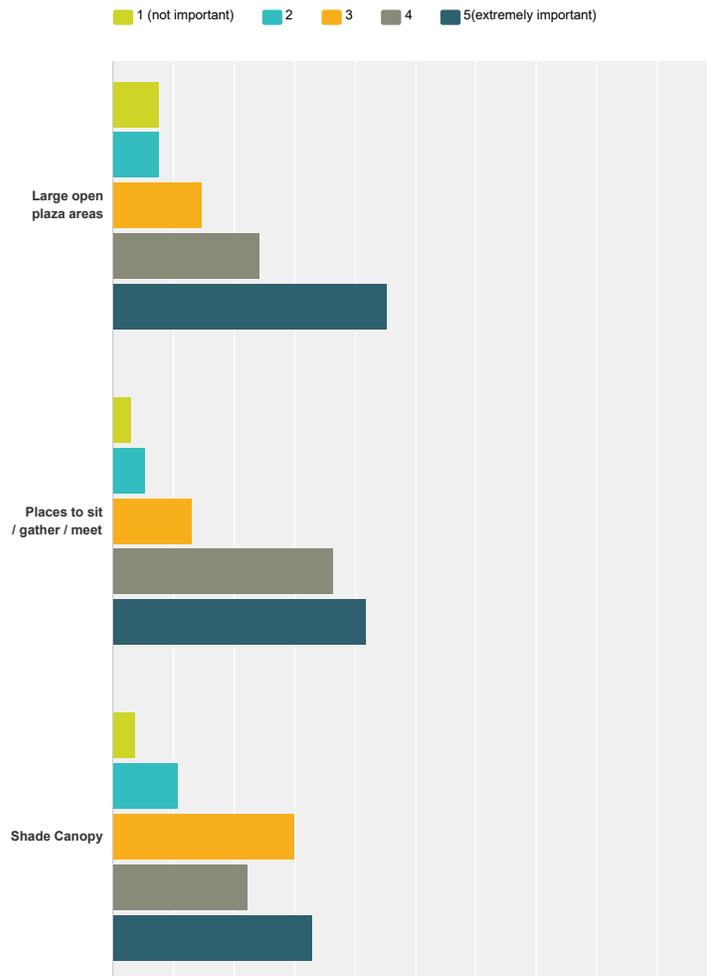

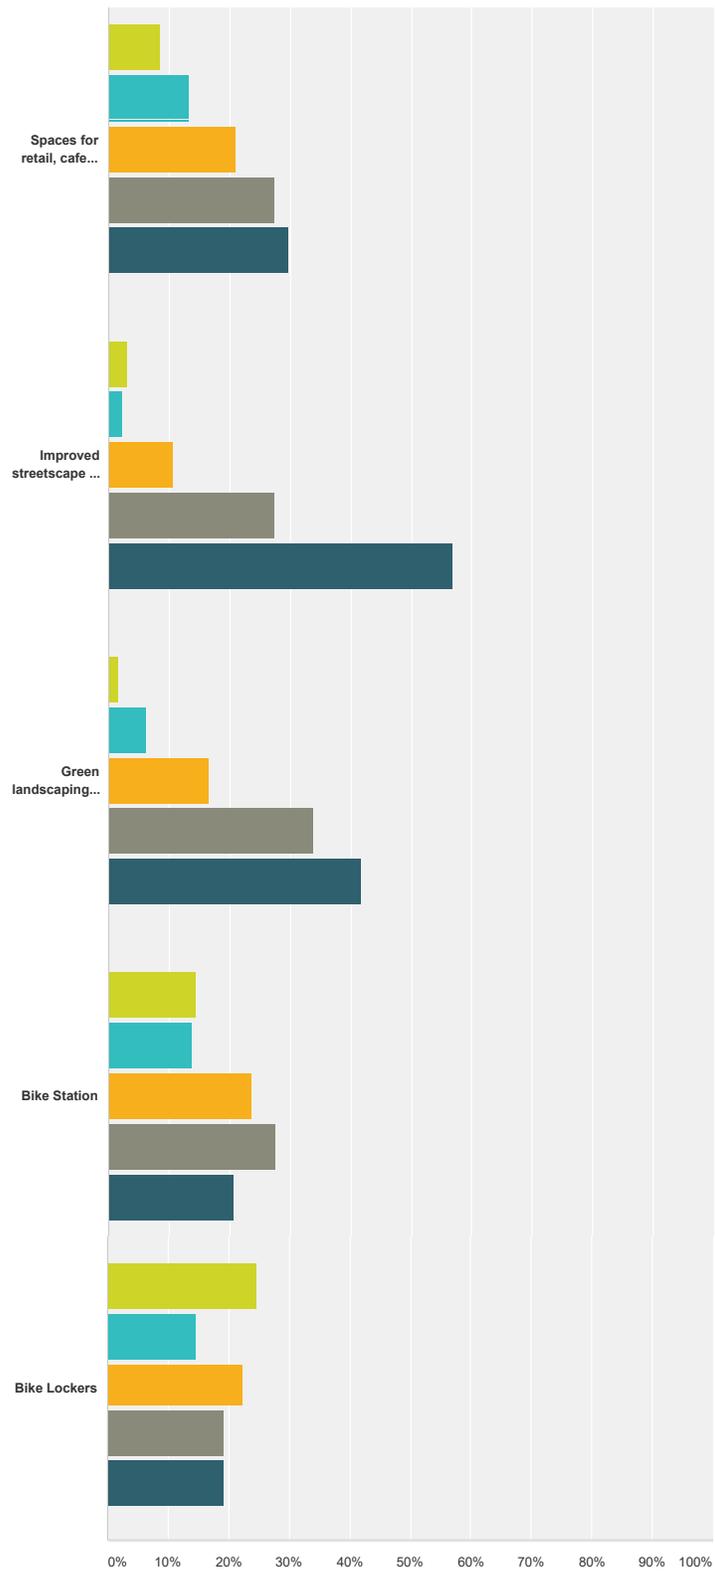

Answer Choices	Responses
Concept 1	62.20% 79
Concept 2	32.28% 41
No preference	5.51% 7
<b>Total</b>	<b>127</b>

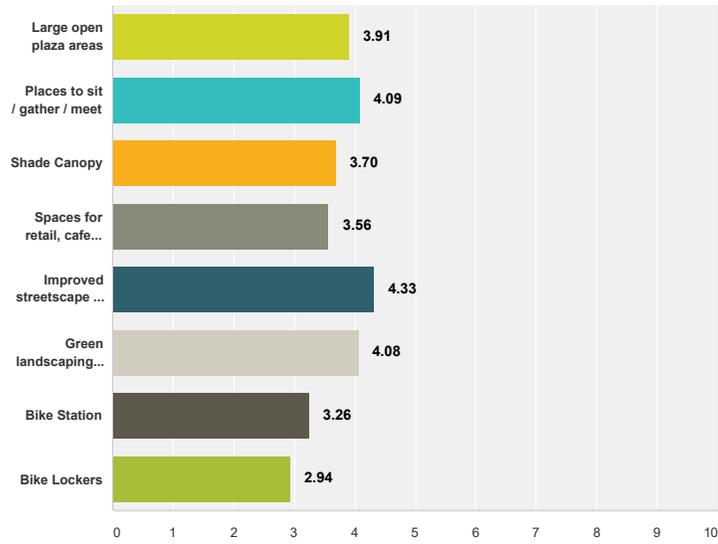

**Q7 Which of the following plaza features are most important to you? On a scale of 1 - 5 where 1 is “not important” and 5 is “extremely important”, please rate how important each of the following is to you:**

	1 (not important)	2	3	4	5(extremely important)	Total
Large open plaza areas	7.81% 10	7.81% 10	14.84% 19	24.22% 31	45.31% 58	128
Places to sit / gather / meet	3.10% 4	5.43% 7	13.18% 17	36.43% 47	41.86% 54	129
Shade Canopy	3.85% 5	10.77% 14	30.00% 39	22.31% 29	33.08% 43	130
Spaces for retail, cafes or kiosks	8.59% 11	13.28% 17	21.09% 27	27.34% 35	29.69% 38	128
Improved streetscape - wider sidewalks, lighting, trees, wayfinding	3.03% 4	2.27% 3	10.61% 14	27.27% 36	56.82% 75	132
Green landscaping (plantings, trees)	1.57% 2	6.30% 8	16.54% 21	33.86% 43	41.73% 53	127
Bike Station	14.50% 19	13.74% 18	23.66% 31	27.48% 36	20.61% 27	131
Bike Lockers	24.62% 32	14.62% 19	22.31% 29	19.23% 25	19.23% 25	130

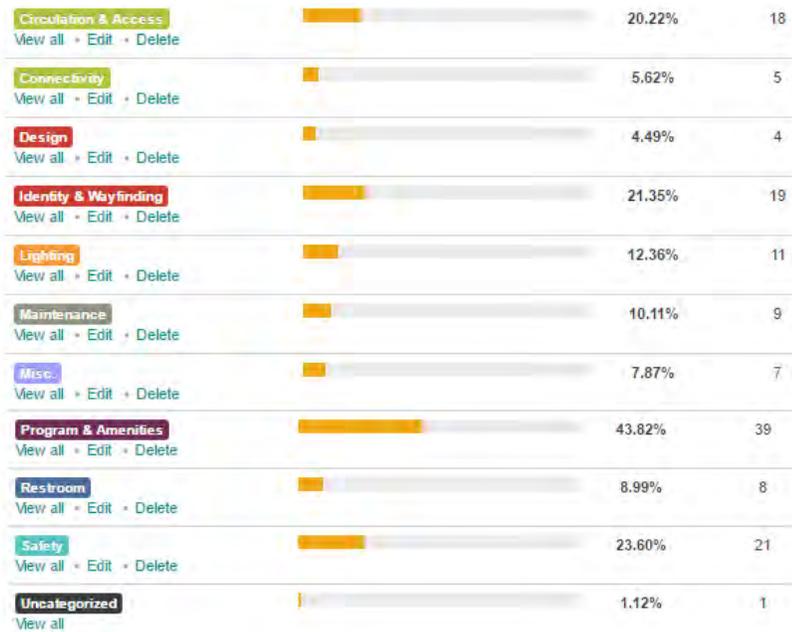

Q7 - average weighted chart, all features

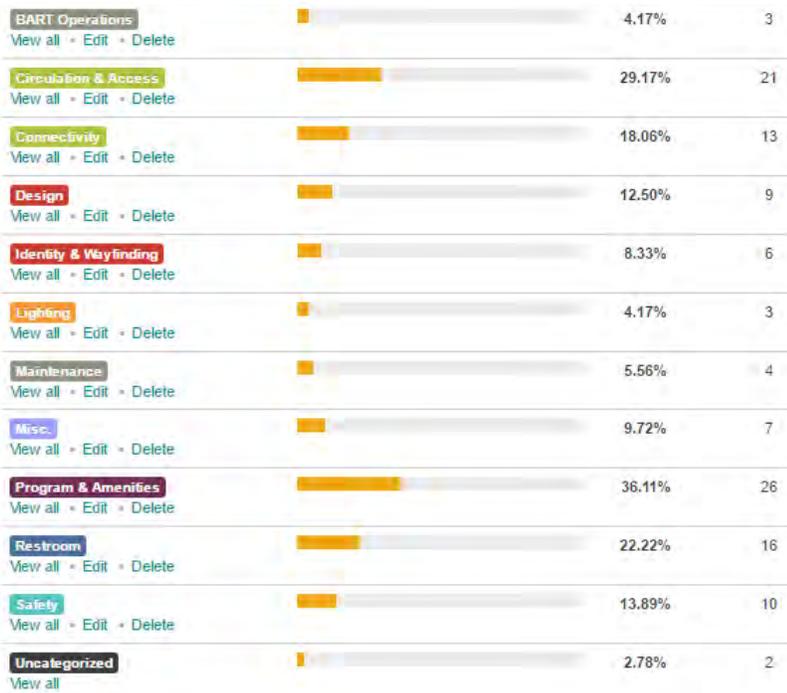

Q8 Please share any other ideas or suggestions for this project:

Answered: 89 Skipped: 49

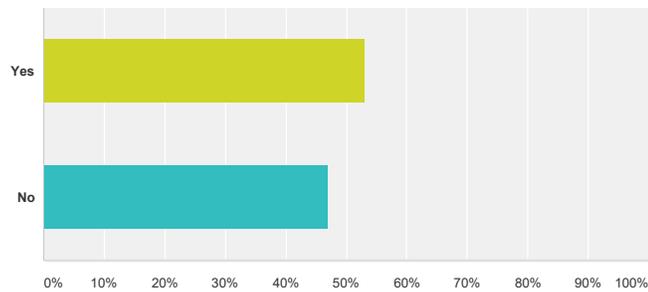

**Q9 The Lake Merritt plaza is BART's preferred site alternative for the Transit Operations Facility. What impacts might this project have on you? What concerns, if any, do you have with this site?**

Answered: 72 Skipped: 66

**Q10 Would you like to receive email updates about this project?**

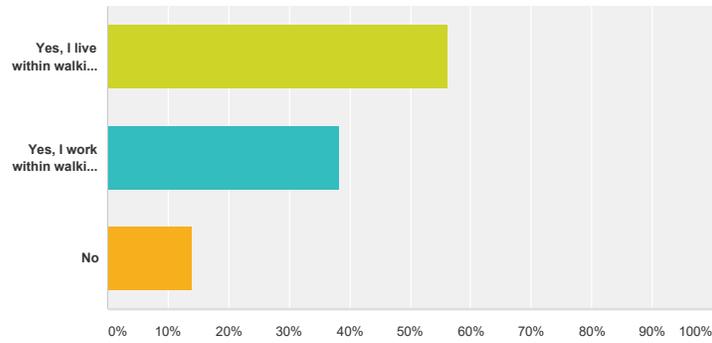

Answered: 102 Skipped: 36

Answer Choices	Responses	Count
Yes	52.94%	54
No	47.06%	48
Total		102

### Q11 Do you live or work within walking distance of Lake Merritt BART Station?

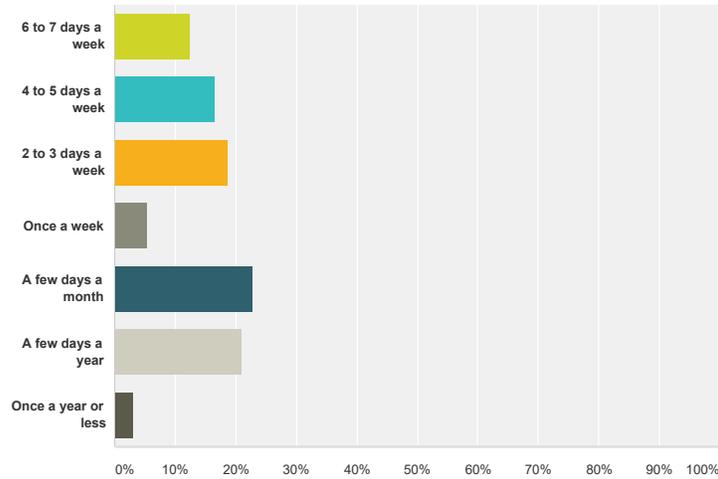

Answered: 128 Skipped: 10

Answer Choices	Responses
Yes, I live within walking distance of Lake Merritt BART Station	56.25% 72
Yes, I work within walking distance of Lake Merritt BART Station	38.28% 49
No	14.06% 18
<b>Total Respondents: 128</b>	

### Q12 How often do you use the Lake Merritt BART Station?

Answered: 128 Skipped: 10

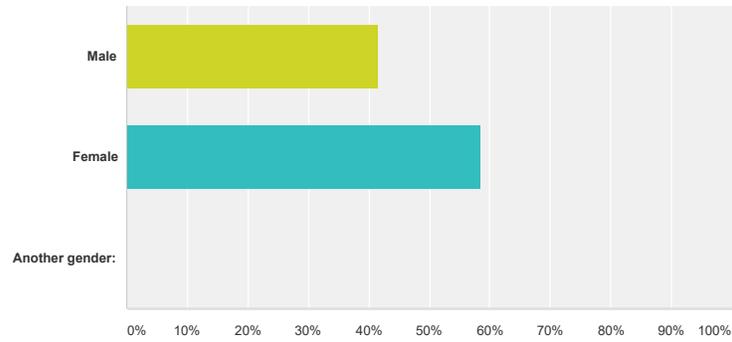

Answer Choices	Responses
6 to 7 days a week	12.50% 16
4 to 5 days a week	16.41% 21
2 to 3 days a week	18.75% 24
Once a week	5.47% 7
A few days a month	22.66% 29
A few days a year	21.09% 27
Once a year or less	3.13% 4
<b>Total</b>	<b>128</b>

### Q13 What is your gender?

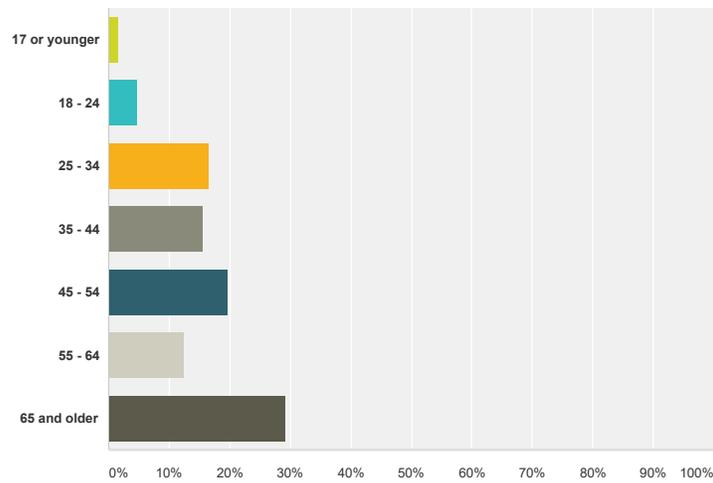

Answered: 125 Skipped: 13

Answer Choices	Responses	
Male	41.60%	52
Female	58.40%	73
Another gender:	0.00%	0
<b>Total</b>		<b>125</b>

### Q14 How old are you?

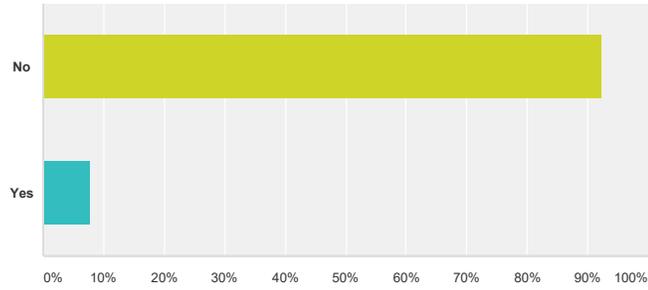

Answered: 127 Skipped: 11

Answer Choices	Responses	
17 or younger	1.57%	2
18 - 24	4.72%	6
25 - 34	16.54%	21
35 - 44	15.75%	20
45 - 54	19.69%	25
55 - 64	12.60%	16
65 and older	29.13%	37
<b>Total</b>		<b>127</b>

### Q15 Are you of Hispanic, Latino or Spanish origin?

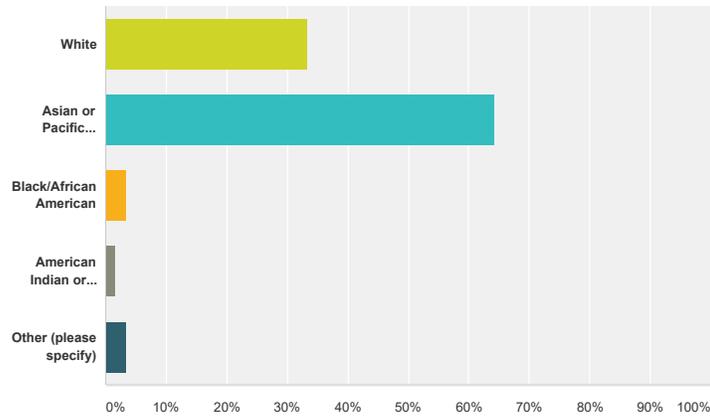

Answered: 117 Skipped: 21

Answer Choices	Responses	
No	92.31%	108
Yes	7.69%	9
<b>Total</b>		<b>117</b>

### Q16 What is your race or ethnic identification? Select all that apply. (Categories based on US Census.)

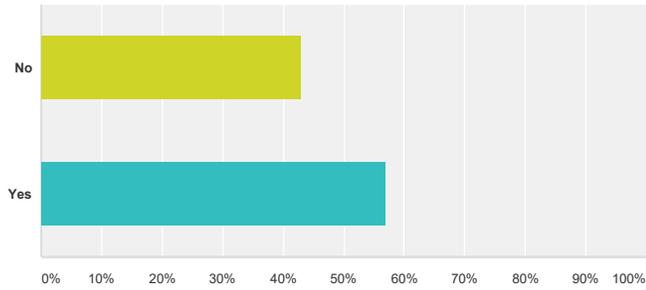

Answered: 123 Skipped: 15

Answer Choices	Responses	
White	33.33%	41
Asian or Pacific Islander	64.23%	79
Black/African American	3.25%	4
American Indian or Alaska Native	1.63%	2
Other (please specify)	3.25%	4
<b>Total Respondents: 123</b>		

### Q17 Do you speak a language other than English at home?

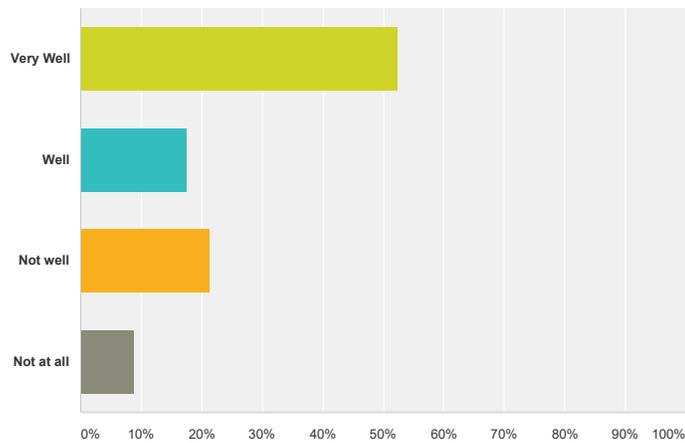

Answered: 123 Skipped: 15

Answer Choices	Responses
No	43.09% 53
Yes	56.91% 70
<b>Total</b>	<b>123</b>

### Q18 If "Yes" to Question 17, how well do you speak English?

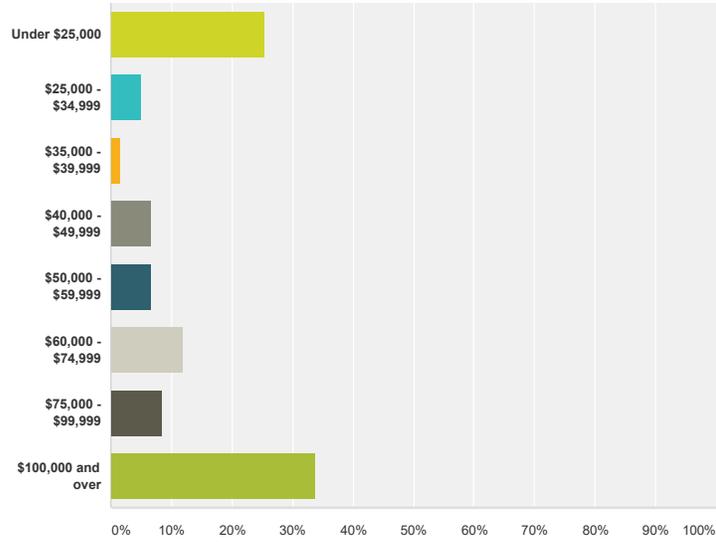

Answered: 80 Skipped: 58

Answer Choices	Responses
Very Well	52.50% 42
Well	17.50% 14
Not well	21.25% 17
Not at all	8.75% 7
<b>Total</b>	<b>80</b>

### Q19 What is your total annual household income before taxes?

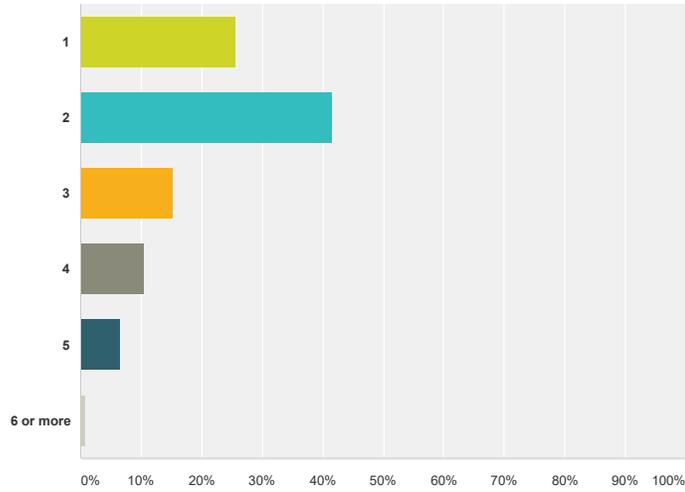

Answered: 118 Skipped: 20

Answer Choices	Responses	Count
Under \$25,000	25.42%	30
\$25,000 - \$34,999	5.08%	6
\$35,000 - \$39,999	1.69%	2
\$40,000 - \$49,999	6.78%	8
\$50,000 - \$59,999	6.78%	8
\$60,000 - \$74,999	11.86%	14

1	<b>Identity &amp; Wayfinding</b> Rename the station to Chinatown BART Station	5/18/2017 7:00 AM
2	<b>Identity &amp; Wayfinding</b> Rename the station to OAKLAND CHINATOWN BART STATION	5/18/2017 6:58 AM
3	<b>Identity &amp; Wayfinding</b> Rename the station to Chinatown BART Station	5/18/2017 6:56 AM
4	<b>Identity &amp; Wayfinding</b> Rename the station to Oakland Chinatown BART Station	5/18/2017 6:51 AM
5	<b>Identity &amp; Wayfinding</b> Rename to Chinatown BART Station	5/18/2017 1:56 AM
6	<b>Program &amp; Amenities Restroom</b> There got to be a public bathroom. A open-space round/theatre for small-scale performances and public events will be great.	5/17/2017 8:40 AM
7	<b>Lighting Safety</b> More street lamps and a police office	5/17/2017 8:27 AM
8	<b>Lighting Safety</b> More street lamps and a police office	5/17/2017 8:25 AM
9	<b>Lighting Safety</b> More street lamps and policemen	5/17/2017 8:23 AM
10	<b>Safety</b> Need a police office	5/17/2017 8:20 AM
11	<b>Safety</b> Need a police office	5/17/2017 8:18 AM
12	<b>Safety</b> Need a police office	5/17/2017 8:06 AM
13	<b>Safety</b> Need a police office	5/17/2017 8:05 AM
14	<b>Safety</b> Need a police office	5/17/2017 8:03 AM
15	<b>Safety</b> Need a police office	5/17/2017 8:00 AM
16	<b>Safety</b> Need a police office	5/17/2017 7:58 AM
17	<b>Safety</b> Please help keep the space safe and accessible to people, especially students!	5/17/2017 7:52 AM
18	<b>Program &amp; Amenities Restroom</b> Hope there would be a designated area for practicing Tai Chi, and public restroom.	5/17/2017 5:57 AM
19	none	5/17/2017 5:56 AM
20	<b>Program &amp; Amenities</b> Hope there would be a senior center.	5/17/2017 5:23 AM
21	<b>Identity &amp; Wayfinding</b> Please consider renaming the BART station to 'Oakland Chinatown', as it rightfully should be...	5/17/2017 4:07 AM
22	<b>Identity &amp; Wayfinding</b> Years ago, there was a promise from BART that this station be re-named Oakland Chinatown. I would like to see the promise be fulfilled. The land that BART is currently operating on in these few blocks has historically been Chinatown. BART needs to do the right thing here. I would like to see the Chinese language be displayed more prominently in all signage at the station (and beyond - ideally, all BART signage and announcements should be available in at least Spanish and Chinese).	5/17/2017 2:39 AM
23	<b>Identity &amp; Wayfinding</b> It is important that whatever wayfinding and signage program is implemented at the plaza identify Oakland Chinatown as a nearby destination, the plaza was originally part of that neighborhood, and the iconography and public art in the plaza should reflect that. additionally, it's important that the station be renamed "Oakland Chinatown". just as rockridge bart station is named for that neighborhood, this station should be named for the neighborhood in which it exists as well.	5/16/2017 3:29 PM
24	<b>Identity &amp; Wayfinding</b> Rename station to acknowledge Oakland Chinatown's 140 year history.	5/16/2017 9:25 AM
25	<b>Circulation &amp; Access Connectivity</b> Chinatown is the main retail/business hub for this area. The plaza should have better harmony and connection with Madison Park and the Chinatown corridor. The operations center blocks the flow from the neighborhood and park to the plaza. A feng shui consultation may be helpful.	5/16/2017 3:58 AM
26	<b>Identity &amp; Wayfinding Program &amp; Amenities</b> Rename station to "Oakland Chinatown" to honor historical neighborhood and its cultural significance. Allow room for community events and community use of the plaza, including storage for items needed to make this happen.	5/16/2017 2:40 AM
27	<b>Identity &amp; Wayfinding</b> Renaming the Station to "Oakland Chinatown"	5/16/2017 2:34 AM
28	<b>Circulation &amp; Access Program &amp; Amenities</b> More bus stops/transbay access, strong lighting, ample trashcans, places to sit and eat (especially if retail like cafes are there), patches of grass for picnics	5/16/2017 12:52 AM
29	<b>Identity &amp; Wayfinding</b> Keep the current name of the Station as Lake Merritt.	5/16/2017 12:48 AM
30	<b>Identity &amp; Wayfinding Program &amp; Amenities</b> Rename the station to "Oakland Chinatown" Community storage and space	5/15/2017 2:04 PM
31	<b>Identity &amp; Wayfinding</b> Chinese or Asian Station	5/15/2017 11:27 AM
32	<b>Identity &amp; Wayfinding</b> Rename" Oakland Chinatown"	5/15/2017 11:06 AM
33	<b>Identity &amp; Wayfinding Program &amp; Amenities</b> community space and storage, public art and placemaking that opens the plaza up to Chinatown. The station should be renamed to "Oakland Chinatown" station given the history of displacement of Chinatown families and institutions through imminent domain	5/15/2017 9:20 AM
34	<b>Circulation &amp; Access Connectivity Identity &amp; Wayfinding Program &amp; Amenities</b> The plaza should provide accessible space for people to practice tai chi and provide connections to Madison Park and Chinatown. It should not be a barrier or island that is disconnected from the surrounding neighborhood. It should also recognize the cultural presence of Chinatown by include wayfinding signage directing people towards Chinatown and Include Oakland Chinatown as part of the station name.	5/15/2017 9:13 AM

35	<b>Identity &amp; Wayfinding</b> <b>Lighting</b> <b>Maintenance</b> <b>Safety</b> Let's make it well lit at night so it feels safe. Safety is key. Also let's make sure we budget for lots of trash recycle and compost because we don't want it to get dirty over time. Will there be art that reflects the heritage of the neighborhood?	5/14/2017 3:45 AM
36	<b>Lighting</b> <b>Program &amp; Amenities</b> Maintain daylight to station (skylights along path of tracks?) Mix of uses/retail to catalyze a 'place' at the station.	5/12/2017 5:58 AM
37	<b>Misc.</b> (Additional feedback on Question 2 - Also selected Concept 2)	5/12/2017 5:53 AM
38	<b>Maintenance</b> <b>Safety</b> Prevent skateboards, round sharp corners (decrease injury, increase flow)	5/12/2017 5:47 AM
39	<b>Lighting</b> <b>Safety</b> 1) Traffic light and crosswalk at 8th and Fallon St. 2) Good lighting 3) Police presence 4) Make it such that homeless people cannot camp out 5) Relocate the addict recovery facility at 7th & Oak St. 6) Lock up after 10 pm	5/12/2017 5:43 AM
40	<b>Maintenance</b> <b>Program &amp; Amenities</b> I love the game tables. Hosting events or beginning them there would be great - rallies, bike party, movies. I think grassy patches are nice but wonder about dogs.	5/12/2017 5:37 AM
41	<b>Program &amp; Amenities</b> <b>Restroom</b> Bathrooms! Community garden! We are in a food desert! More community space less kiosk. If there are kiosk community owned. Outlets!	5/12/2017 5:29 AM
42	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> (Response to Question 6 - Prefers a combinations of Concept 1 & 2 - green space of Concept 1 plus new station access of Concept 2.) I prefer chairs toward middle instead of street with plenty of shops & cafes.	5/12/2017 5:29 AM
43	<b>Misc.</b> (Additional feedback on Question 15 - interesting question)	5/12/2017 5:28 AM
44	<b>Program &amp; Amenities</b> (Additional feedback - Rates stage/outdoor theater as "5 Extremely Important") (Additional feedback - Put bike station underground) Performing arts are interested and can bring the plaza to life.	5/12/2017 5:28 AM
45	<b>Lighting</b> <b>Program &amp; Amenities</b> <b>Safety</b> Please emphasize pedestrian safety, lighting, clear visual paths, BART police presence at night (now totally absent), longer street light times. Please make improvements conducive for all age groups.	5/12/2017 5:27 AM
46	<b>Maintenance</b> <b>Safety</b> Must keep homeless away	5/12/2017 5:27 AM
47	<b>Program &amp; Amenities</b> More greenscape? Urban lawns can be successful like at Jack London, Potrero 1010, Yerba Buena, etc. Also more bike lockers! Thanks!	5/12/2017 5:27 AM
48	<b>Program &amp; Amenities</b> Mixed use above and street level	5/12/2017 5:26 AM
49	<b>Circulation &amp; Access</b> <b>Design</b> <b>Program &amp; Amenities</b> Cultivate community partnerships with Laney College, OMCA, Chinese preschools and program the site for activation. Creating official drop-off zones to avoid conflicts with cars and bikes; make BART track on paving more explicit (make it fun! striping so kids can play on path).	5/12/2017 5:26 AM
50	<b>Circulation &amp; Access</b> Pickup/dropoff area for cars	5/12/2017 5:26 AM
51	<b>Misc.</b> <b>Program &amp; Amenities</b> Please don't spend too much on this project. I would prioritize repairs to keep trains running properly over an extravagant BART plaza. I support cafes to generate revenue for BART.	5/12/2017 5:24 AM
52	<b>Program &amp; Amenities</b> More kids' playing facilities	5/12/2017 5:19 AM
53	<b>Program &amp; Amenities</b> <b>Restroom</b> Public restrooms are better than having the community space becoming a toilet. Community garden in community space. Partnership with Oakland Museum.	5/12/2017 5:10 AM
54	<b>Program &amp; Amenities</b> mixed use - condos, stores	5/12/2017 4:56 AM
55	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> (Additional feedback on Concept 1 - flows better.) (Additional feedback on Question 4 - solar panel generating) Public art and artists should have already been chosen, not a later add-on.	5/12/2017 4:38 AM
56	<b>Circulation &amp; Access</b> <b>Connectivity</b> I like the diagonal path, but it seems like a path to nowhere if it doesn't connect to a crosswalk across the street.	5/12/2017 4:16 AM
57	<b>Circulation &amp; Access</b> <b>Lighting</b> <b>Program &amp; Amenities</b> In Concept 1, add lights above tracks that illuminate when there is a train. AC Transit coordination. Consolidate bus stops. Game tables for chess players who currently use space. Road diet. 2 way streets. Huge bike/auto conflict area at Oak and 9th- cars in bike lane. Add bus stops to other side of Oak Street and make 2 way.	5/12/2017 4:07 AM
58	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> Narrow roads around site, parklets near retail, bike parking with racks, signage that easy to read.	5/12/2017 3:53 AM
59	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Safety</b> make sure the plaza is structured appropriately and safe for seniors. make sure the Madison St edge is open/welcoming to china town foot traffic.	5/12/2017 1:23 AM
60	<b>Program &amp; Amenities</b> please add more cafes - students at Laney have no outlet to go get food other than cafeteria.	5/12/2017 1:16 AM
61	<b>Maintenance</b> <b>Safety</b> Include self-cleaning features, personnel safety, and limit abuse, built-in safety (sight lines), easy to clean and maintain, built-in security cameras, wifi	5/12/2017 1:14 AM
62	<b>Identity &amp; Wayfinding</b> as this project is in chinatown, more emphasis to include some Chinese design aspects	5/12/2017 1:10 AM
63	<b>Circulation &amp; Access</b> check the feng shui	5/12/2017 1:08 AM
64	<b>Program &amp; Amenities</b> create destinations within the plaza and enhance pedestrian experience (Yerba buena connection to market)	5/12/2017 1:05 AM
65	<b>Design</b> look at the museum quarter in Vienna, Austria and borrow from that. It's perfect.	5/12/2017 1:03 AM
66	<b>Circulation &amp; Access</b> <b>Design</b> <b>Program &amp; Amenities</b> Oakland is no longer the city behind SF. It is the city globally attracting attention. Bring true world class design. Think Big an Global. Don't think it's just an operational headquarter. Make it Classy. Lighted pavement is fun. Concept 2 divides open space that doesn't make sense. Add water feature that "wow's"people. Seating should be economical (space wise) yet beautiful. Both concepts are too rectilinear. Having a beautiful water feature draws people, soothes the nerves, and attracts people to it. Why not make it the most prominent feature w/ sculptures/ art elements.	5/12/2017 12:58 AM
67	<b>Lighting</b> <b>Misc.</b> <b>Program &amp; Amenities</b> <b>Restroom</b> no business displacement, restrooms for public.as much as possible have active storefronts along madison instead of blank wall space. Lighting very important. Bike parking is important. think about bikeparking also within paid area.	5/12/2017 12:51 AM
68	<b>Program &amp; Amenities</b> there were no options for prioritizing community space and engagement on the other side	5/11/2017 9:57 AM

merge  
conceptual design

69	<b>Maintenance</b> <b>Safety</b> maintenance (cleanliness, repairs, refuse) and safety are key to improve TOF	5/11/2017 9:53 AM
70	<b>Misc.</b> there needs to be an ewph (?)	5/11/2017 9:51 AM
71	<b>Lighting</b> <b>Program &amp; Amenities</b> having it well lit at night is important, have enough space for community events, there is a large chinese community here, ping pong table? chess? the SF chinatown park is very successful in supporting the surrounding community.	5/11/2017 9:49 AM
72	<b>Program &amp; Amenities</b> wifi access, water fountain	5/11/2017 9:46 AM
73	<b>Circulation &amp; Access</b> <b>Maintenance</b> <b>Restroom</b> police emergency exit, parking for BART maintenance, no parking drop off site, uber pick up site, solar panels on head houses and TOF, public restrooms especially late at night. Better wayfinding on street and inside station.	5/11/2017 9:44 AM
74	<b>Circulation &amp; Access</b> restore the drop off zone, right now you are liable to be ticketed for stopping there even though it was the original intent	5/11/2017 9:40 AM
75	<b>Circulation &amp; Access</b> additional escalator/exit	5/11/2017 9:38 AM
76	<b>Circulation &amp; Access</b> add more escalator at the 8th st and oak entrance. The escalators should go both up and down at the same time.	5/11/2017 9:31 AM
77	<b>Lighting</b> solar, more lighting	5/11/2017 9:28 AM
78	<b>Design</b> <b>Program &amp; Amenities</b> other ideas from landscapers, other cities/states with unique contemporary functional designs, opportunities to hire/train local area residents for the tof (including seniors/veterans)	5/11/2017 9:24 AM
79	<b>Program &amp; Amenities</b> <b>Safety</b> Not too many trees; prefer more open space; easy access for day and night security.	5/11/2017 6:34 AM
80	<b>Program &amp; Amenities</b> <b>Restroom</b> 1) Rainproof canopy to allow for Tai Chi etc. on rainy days. 2) Public restrooms. These were previously available on the first floor of the MetroCenter but the public is now denied access. There is no other place within 3 blocks. BART restrooms downstairs have been closed since 9/11.	5/11/2017 12:52 AM
81	<b>Circulation &amp; Access</b> <b>Maintenance</b> <b>Program &amp; Amenities</b> <b>Safety</b> 1. As few places as possible where homeless and transient populations can gather, loiter, or use the open/green spaces as toilets and lounging/living spaces. 2. It would be lovely if the city/BART could provide one of its free, electric shuttle buses to make trips from the Lake Merritt BART Station to popular stops along Oak Street and/or up 8th/9th Streets to nearby downtown/neighborhood locations.	5/10/2017 2:04 PM
82	<b>Misc.</b> Leave the glass enclosure open. No glass	5/10/2017 11:50 AM
83	<b>Program &amp; Amenities</b> I don't do tai chi, but leave space for the neighbors that do! Only sign of life around the plaza for many years.	5/10/2017 9:13 AM
84	<b>Program &amp; Amenities</b> Add as much retail as possible. Another shop near 9th/Madison would be good. Try to find businesses that will be open late and on weekends. A lack of open shops in this area makes the station area feel even more deserted.	5/10/2017 9:01 AM
85	<b>Restroom</b> Public bathrooms	5/10/2017 8:48 AM
86	<b>Program &amp; Amenities</b> Most of BART's plazas are pretty terrible. Anything to minimize open space would be preferable. Building a building in place of the plaza with a ground level entrance into the station would be the best option if it was feasible.	5/10/2017 8:13 AM
87	<b>Misc.</b> Thanks for your work on this! Much appreciated.	5/10/2017 7:37 AM
88	<b>Maintenance</b> Keep it simple. Keep it easy to clean. Plan on cleaning with high pressure water hose	5/10/2017 7:19 AM
89	<b>Connectivity</b> <b>Program &amp; Amenities</b> How does this relate to the parking lot on the other side of Oak? That has to be the worst use of space for that location. How does this relate to the park on the other side of Madison, the park could use investment, and get input of community groups that use it for morning meditation/exercise, school PE throughout the day, and homeless support.	5/10/2017 6:26 AM

## Detailed Response

### Q9 The Lake Merritt plaza is BART's preferred site alternative for the Transit Operations Facility. What impacts might this project have on you? What concerns, if any, do you have with this site?

Answered: 72 Skipped: 66

15	<b>Restroom</b> Restroom	5/17/2017 8:00 AM
16	<b>Restroom</b> Restroom	5/17/2017 7:58 AM
17	none	5/17/2017 5:56 AM
18	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Program &amp; Amenities</b> Open up to Madison Park.. need to connect the Chinatown community.. must have open space for recreation, for gathering.. a space encompassing the Chinatown area..	5/17/2017 4:07 AM
19	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Program &amp; Amenities</b> What are the other site alternatives for the TOF? To have a big building blocking off the park across Madison street seems to be a big shame. Might the TOF be placed underground? A new BART plaza at this location should really be mindful of connecting the neighboring assets. Ideally, it would open up to the park across the street and provide for a pedestrian thoroughfare toward Chinatown. A large open plaza area for recreation and programming would be a great addition to the area - something like Union Square in San Francisco. In terms of the proposed cafe, I would like to see preference given to a local, small, and independent owner. Is there a way to make the decision as a community?	5/17/2017 2:39 AM
20	<b>Circulation &amp; Access</b> <b>Connectivity</b> it blocks the plaza from madison park. it is like a large obstruction that visually blocks people coming up out of the station from the public park and from the neighborhood.	5/16/2017 3:29 PM
21	<b>Design</b> <b>Identity &amp; Wayfinding</b> I do not want to see an ugly concrete building in the middle of our neighborhood. Please work with Chinatown to create an artistic historical display honoring Chinatown because it has been displaced from this area by BART, Laney, 880.	5/16/2017 9:25 AM
22	<b>Connectivity</b> <b>Program &amp; Amenities</b> It appears that the plan is progressing without complementary plans for the surrounding areas: parking lot, Madison Park, Metro Center. These should integrate well together and provide space for recreation, campus activism and community programming along the Chinatown-Laney corridor.	5/16/2017 3:58 AM
23	<b>Program &amp; Amenities</b> This may limit the available public space on the plaza.	5/16/2017 2:40 AM
24	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Identity &amp; Wayfinding</b> It should invite people to Chinatown and connect to Madison Park	5/16/2017 2:34 AM
25	<b>Circulation &amp; Access</b> Need more bus stops here	5/16/2017 12:52 AM
26	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Identity &amp; Wayfinding</b> <b>Program &amp; Amenities</b> The plaza should connect and open up to Madison Park. It should visually invite people towards Chinatown, provide space for recreation programming connecting to Madison.	5/15/2017 2:04 PM
27	<b>Connectivity</b> <b>Identity &amp; Wayfinding</b> plan should facilitate visitors to visit nearby area, including Madison Park & beyond	5/15/2017 9:27 AM
28	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Identity &amp; Wayfinding</b> <b>Program &amp; Amenities</b> the plan should connect and open up to madison park and also visually invite people towards chinatown, provide space for recreation programming	5/15/2017 9:20 AM
29	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Program &amp; Amenities</b> I want to make sure that the plaza is designed in a way that connects with the surrounding Chinatown neighborhood, with Madison Park, and with community usage needs.	5/15/2017 9:13 AM
30	<b>Design</b> Height and bulk relative to public space and other uses.	5/12/2017 5:58 AM
31	<b>Design</b> Make it iconic + beautiful so people like to take photos	5/12/2017 5:47 AM

32	<b>Circulation &amp; Access</b> <b>Lighting</b> <b>Program &amp; Amenities</b> <b>Safety</b> I live near the Lake Merritt BART station. My concerns are as stated in #8 above.	5/12/2017 5:43 AM
33	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> Do you do tours? :) Love having more foot traffic around here hence more cafe, restaurants. The one-way streets! The worst! Encourage speeding I know it's outside the scope.	5/12/2017 5:37 AM
34	<b>Restroom</b> Well there are no public bathrooms here at this site and none included in the design plans.	5/12/2017 5:29 AM
35	<b>Design</b> <b>Program &amp; Amenities</b> Not welcoming to have a big opaque box in middle of plaza - put vines all over it? Make sure ground floor has plenty of retail. Maximize height and mixed use with housing wherever possible.	5/12/2017 5:29 AM
36	<b>Program &amp; Amenities</b> Not to overshadow community use	5/12/2017 5:28 AM
37	<b>Circulation &amp; Access</b> <b>Safety</b> traffic flow, pedestrian safety	5/12/2017 5:27 AM
38	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> More people walking around, more traffic will keep place busy & alive.	5/12/2017 5:27 AM
39	<b>BART Operations</b> Usage of BART - hopefully it can stay open with phasing efforts!	5/12/2017 5:27 AM
40	<b>Misc.</b> Improve area	5/12/2017 5:26 AM
41	<b>Maintenance</b> <b>Program &amp; Amenities</b> I'm concerned that it won't get used enough and therefore, won't be maintained as well. That's why I think programming and activity most days will encourage foot traffic and visibility in plaza. People are worried about homeless encampments, but I think allowing for a variety and diversity of users and uses will prevent one group from taking over the public space.	5/12/2017 5:26 AM
42	<b>Misc.</b> No concerns	5/12/2017 5:19 AM
43	<b>Program &amp; Amenities</b> Keeping the community/kiosk spaces within the community, no chain retail!	5/12/2017 5:10 AM
44	<b>Circulation &amp; Access</b> traffic	5/12/2017 4:56 AM
45	<b>Program &amp; Amenities</b> With NYC best pocket parks in mind think of the CAFE as KEY to success of project. (Additional feedback - I am a former landscape architect and current public artist.) (Additional feedback - Owns a smart phone and hates it.)	5/12/2017 4:38 AM
46	<b>BART Operations</b> <b>Circulation &amp; Access</b> Traffic on Oak and Madison. Station closures.	5/12/2017 4:16 AM
47	<b>Program &amp; Amenities</b> I am concerned the site will not have people in it.	5/12/2017 4:07 AM
48	<b>Design</b> <b>Program &amp; Amenities</b> <b>Safety</b> Improved experience! I hope. Concerns: bike parking, arch/urban design, too many ugly buildings, hodge podge, pedestrian safety.	5/12/2017 3:53 AM
49	<b>Circulation &amp; Access</b> <b>Connectivity</b> <b>Design</b> the building can create a significant visual/physical barrier to madison park and the rest of china town. Making it inviting more windows on upper level, windows on street/plaza side to allow vision through park to plaza.	5/12/2017 1:23 AM
50	<b>BART Operations</b> Hopefully this does not cause major delays	5/12/2017 1:16 AM
51	<b>Safety</b> traffic, personnel safety, include building security cameras	5/12/2017 1:14 AM
52	<b>Design</b> what building is covered with taller TOF for Madison St. Neighbor across the street!	5/12/2017 1:08 AM
53	<b>Connectivity</b> <b>Misc.</b> I hope this development can assist in rehabilitating the park	5/12/2017 1:05 AM
54	<b>Design</b> <b>Program &amp; Amenities</b> Positive impact. Make this the most beautiful, vibrant, well-used, encourage people to hang out/ gather and be inspirational with artistic design at building and landscaping.	5/12/2017 12:58 AM
55	<b>Program &amp; Amenities</b> Make sure public understands what happens in TOF	5/12/2017 12:51 AM
56	<b>Safety</b> security, safety, and emergency readiness in case of earthquake or terrorism	5/11/2017 9:53 AM
57	<b>Maintenance</b> <b>Safety</b> safety is a big concern trash and having homeless stay in this area is a major concern.	5/11/2017 9:49 AM
58	<b>Circulation &amp; Access</b> increased traffic	5/11/2017 9:46 AM
59	<b>Identity &amp; Wayfinding</b> <b>Program &amp; Amenities</b> Cafe on top of head house, signs for arriving buses, wi-fi on plaza.	5/11/2017 9:44 AM
60	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> More workers there will create more traffic and demand for parking.	5/11/2017 9:40 AM
61	<b>Design</b> build something beautiful and attractive	5/11/2017 9:31 AM
62	<b>Circulation &amp; Access</b> <b>Lighting</b> <b>Restroom</b> need public bathrooms, for users and more lighting & side walk	5/11/2017 9:28 AM
63	<b>Maintenance</b> <b>Misc.</b> <b>Safety</b> Let us know area impact - first the positive, second the concerns for increase patronage, etc. Biggest concern is solicitors, homeless, garbage-litter, graffiti, assaults, robberies, gangs, vandalism	5/11/2017 9:24 AM
64	<b>Safety</b> Public safety issues especially in the evenings. Less trees would give a safer image.	5/11/2017 6:34 AM
65	<b>Program &amp; Amenities</b> <b>Safety</b> none. Although the increasing homeless population might make the plaza a bit unwelcoming...	5/11/2017 3:56 AM
66	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> If the facility will be populated with BART employees for the majority of the day, I think this is attractive. The more the space can be seen as a legitimate transit space, space for neighborhood gatherings and retail opportunities, and protected space with safe access from all surrounding areas, the better.	5/10/2017 2:04 PM
67	<b>Circulation &amp; Access</b> <b>Program &amp; Amenities</b> <b>Safety</b> No parking. Already hard. Homeless problem too.	5/10/2017 11:50 AM
68	<b>Connectivity</b> <b>Misc.</b> <b>Program &amp; Amenities</b> No impacts. This is fine. But please incorporate as many active ground floor uses as possible and minimize blank walls. And please get started on redeveloping the parking lot and old MTC building as soon as possible. This station really needs more adjacent land use intensity!	5/10/2017 9:01 AM
69	<b>Circulation &amp; Access</b> <b>Lighting</b> <b>Maintenance</b> I go through this station 3-4 days a week, even when I'm not working. The sidewalks (even though recently ground in places) are still uneven and poorly lit at night -- and in the afternoon in winter. For those of us with disabilities, it's very hard to navigate. Add human piss pooled in places, and it's gross.	5/10/2017 8:48 AM
70	<b>Program &amp; Amenities</b> I think one of the issues (that we already have) and this project should also be sensitive to is how with the 'homeless' use the space?? We need a better solution for our homeless, to assist with some type of shelter/housing. Otherwise, the homeless will use any open space, especially with covering. We need empathy and innovative solutions for those who are on the 'fringes' of society.	5/10/2017 7:37 AM

merge  
conceptual design

71	None	5/10/2017 7:19 AM
72	<b>Connectivity</b> I'd like to see the park adjacent activated in a responsible way. How can this investment translate across Madison street. Make this block connect across Madison to the park, Across Oak to Laney College, and Up Oak to OMCA. More interested in how this investment can have "fingers" of investment to connect the station to OMCA, Laney, and the park.	5/10/2017 6:26 AM

**Subject:** Oakland Chinatown Coalition comment letter on Lake Merritt BART Station Plaza redesign  
**Date:** Thursday, June 01, 2017 12:17:00 AM

---

Dear Ms. Lindelof,

The Oakland Chinatown Coalition (OCC) is made up of 21 signatory organizations and individuals. We support new development that brings tangible community benefits to the current residents, small businesses, service agencies, and cultural/social institutions that make Oakland Chinatown a vibrant, economically diverse neighborhood, and which will help to preserve its cultural and economic legacy within the City of Oakland. Our Coalition's involvement with Lake Merritt BART Station specifically as a place and redevelopment opportunity formally date back to 2008 when BART, the City of Oakland, and MTC began to consider work on the Station Area Plan that encompassed a one half mile radius around the station, an area which is generally most recognized for its connection to the historic Chinatown neighborhood. In fact, individuals within the Oakland Chinatown Coalition still have first-hand memories and experiences of the blocks that were taken under threat of eminent domain from local Chinatown property owners, community churches, the orphanage, etc. in order to create the current BART Station. The images of the land, the scars of the pits and tunnels, still resonate with us nearly 50 years later (see attached photo). If this land was taken from private individuals for public purpose, then we believe that the obligations of any future programming on this site continue to fulfill a public purpose for the neighborhood around the Station. The design and execution of the new BART Station Plaza in Chinatown is an opportunity to create public benefits to help to heal those scars.

The OCC has consensus on key overarching design and programmatic principles for the Plaza, and this letter outlines those consensus items which have been discussed over time and in more detail at a full meeting of the Coalition in May 2017. Individual people and organizations within the OCC will have a diverse range of opinions on specific design elements of the Plaza, and those interested individual members will continue to provide feedback on specifics throughout this process, which may be outside the scope of this letter. Here are the items which OCC has strong consensus on, and we urge BART to incorporate these principles into any design and future RFPs that it may issue in connection with this project.

1. Reduction of the footprint of the BART Operations Control Center (BOCC) as much as possible. While we are pleased that the design of the building has evolved from a monolithic 3 story bunker, the mass of that building still "blocks" the connection of the of the Plaza to Madison Park and the rest of Chinatown. We would like to see the profile of the building slimmed as much as possible, with the priority for opening up the Plaza to Madison Street at the 9<sup>th</sup> Street corner.
2. Provide as much community serving, small business and nonprofit, and recreational space around the edge of the BOCC as possible. We especially want to prioritize this kind of space

towards Madison Street.

3. Connection to Madison Park. As we have stated in nearly all of our public comments, it is important to link the Plaza to a redesigned and updated Madison Park both in the Plaza's design and programming. We suggest exploring a partnership with the City to program a small rec center facility here with staffing and programming for Madison Park and the Plaza (including well maintained public restrooms!). This would help relieve some of the usage pressure on Lincoln Park.
4. Design and program the Plaza for people of all generations, and maximize the amount of space available. Seniors and adults who practice Tai Chi and dance should be prioritized, but the space should be attractive to young children as well. Playful and whimsical features attract people of all kinds and all ages, and make the space more interesting to visitors, which in turn deters people from setting up longer term shelter in the Plaza and the surrounding blocks. We suggest removing the bike lockers, and moving the majority of the bike storage down below the street level. We also ask that the Plaza include ample trash receptacles (which are an opportunity for public art) to reduce litter.
5. Visual connection and wayfinding towards core Chinatown. The Plaza should have easily identifiable signage and other wayfinding mechanisms and art that lead people coming out of the BART station towards the commercial core of Chinatown (the blocks surrounding 9<sup>th</sup> and Webster). Any landscaping (trees, hedges, etc) should be easily maintainable and not be so dense that it blocks visibility or passage through the Plaza towards Chinatown.
6. Physical pedestrian and street improvements leading towards core Chinatown, with a prioritization of pedestrian orientation towards 9<sup>th</sup> Street. These physical improvements could include pedestrian scale lighting, greenery, modifying 9<sup>th</sup> street to be less auto-oriented, more street art, bulb-outs, more scramble crosswalks consistent with those in core Chinatown, etc. These improvements to neighborhood walkability would help to improve public safety, both in terms of reducing crime, and reducing auto/pedestrian conflict.
7. More visible representation for neighborhood and location specific public art. There are many opportunities for placemaking and art in the Plaza, and on the streets leading towards core Chinatown.
8. Community representation in decision making. Any decision making body relating to the Plaza should include members of the Chinatown Community.
9. Rename the BART Station from "Lake Merritt" to "Oakland Chinatown". As mentioned in the paragraphs above, the blocks that were taken and excavated were historically part of the Chinatown neighborhood. Today, the vast majority of the residents of the surrounding blocks are Chinese and Asian. When the Oakland Chinatown Coalition was involved in the Lake Merritt BART Station Area Plan process, we were told that we would have an opportunity to change the name when the Warm Springs Station was opened because all of the maps would have to be changed anyway. That never happened, much to our collective

disappointment.

These are the comments we have at this time, based on the information available to the public in the planning meetings for the Plaza thus far. The Oakland Chinatown Coalition is pleased at the early and proactive outreach that BART staff have engaged in thus far, and we hope to be able to support a great project that connects the Bay Area region to this place, and celebrates the cultural history and future of our neighborhood.

If you have any questions, please do not hesitate to contact members of the Oakland Chinatown Steering Committee: Julia Liou (AHS), Mike Lok (AHS), Vivian Huang (APEN), Alvina Wong (APEN), Ener Chiu (EBALDC). We also welcome you to our monthly meetings which are held on the third Mondays of the month, from 4pm to 6pm.

The Oakland Chinatown Coalition is:

Asian Advisory Commission on Crime; Asian Health Services; Asian Pacific Islander Legal Outreach; Asian Pacific Environmental Network; AYPAL; Buddhist Church of Oakland; Chinese American Citizens Alliance – Oakland Lodge; Chinese Community United Methodist Church; East Bay Asian Local Development Corporation; Family Bridges, Inc.; Filipino Advocates for Justice; Friends of Lincoln Square Park; Lincoln Elementary School; Oakland Asian Cultural Center; Oakland Chinatown Lions Foundation; Wa Sung Community Service Club; Alan Yee; Gilbert Gong; Heidi Kong; Karolyn Wong; Lailan Huen

Sincerely,

**Ener Chiu**

# Help Plan the Plaza!

協助規劃廣場！ • ¡Ayude a planificar la Plaza!  
Hãy Giúp Lên Kế Hoạch cho Plaza!

Please join BART for a community open house and give us your input on the future BART Transit Operations Facility and Lake Merritt Plaza redesign.

BART is working together with the community to achieve a shared vision for the site that better serves the neighborhood and create a safe and welcoming place for all ages.

Light refreshments will be served and translation and interpretation will be provided. For more information and to fill out a survey, go to [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt).

請參加 BART 社區參觀日活動，並針對未來的 BART 交通營運設施和美麗湖廣場重新設計提供意見。

BART 積極與社區共同合作，期望對工程現址遠景取得共識，以更有效服務社區，並建立一個能吸引所有年齡層的安全場所。

現場有茶點招待，並會提供翻譯和口譯服務。若需要更多資訊及填寫調查問卷，請前往 [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt)。

Únase a BART para una sesión abierta a la comunidad y denos su opinión sobre el rediseño futuro de BART Transit Operations Facility y Lake Merritt Plaza.

BART está trabajando en conjunto con la comunidad para lograr una visión compartida del sitio que brinde un mejor servicio al vecindario y crear un lugar seguro y acogedor para todas las edades.

Se servirán refrigerios ligeros y se proporcionará traducción e interpretación. Para obtener más información y contestar una encuesta, visite [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt).

Xin quý vị vui lòng tham gia buổi giới thiệu thông tin cộng đồng của BART và đóng góp ý kiến cho các Cơ Sở Hoạt Động Giao Thông của BART trong tương lai (BART Transit Operations Facility) và thiết kế lại Lake Merritt Plaza.

BART đang hợp tác với cộng đồng để có chung tầm nhìn cho địa điểm sẽ phục vụ tốt hơn cho cộng đồng và tạo nên một nơi an toàn và thân thiện cho mọi lứa tuổi.

Chúng tôi sẽ phục vụ đồ ăn nhẹ và cung cấp dịch vụ thông dịch và phiên dịch. Để biết thêm thông tin và điền vào bản khảo sát, hãy truy cập [www.bart.gov/lakemerritt](http://www.bart.gov/lakemerritt).

# LET US KNOW WHAT YOU THINK!

BART is starting work on a new Transit Operations Facility and redesign of the Lake Merritt Plaza to support improved & expanded BART operations and create an enhanced multimodal transportation hub and transit plaza. We'd like your feedback on the following questions to ensure the plaza better serves the neighborhood.

**CONCEPT 1**

**CONCEPT 2**

Compare the two concepts and let us know which you prefer (check one in each row):

- |    | Concept 1   | or | Concept 2   |
|----|---|----|---|
| 1. | <input type="radio"/> Emphasize diagonal pedestrian connection through transit plaza, reflecting BART tracks                            |    | <input type="radio"/> Emphasize pedestrian connection along 9th Street  |
| 2. | <input type="radio"/> Fully cover the sunken courtyard to create a larger plaza, using glass paving to allow natural light into station |    | <input type="radio"/> Keep the sunken courtyard partially open to add access from plaza to BART Station concourse and allow light below |
| 3. | <input type="radio"/> Kiosk or cafe seating at 9th & Oak oriented toward plaza  |    | <input type="radio"/> Kiosk or cafe seating at 9th & Oak oriented toward street   |
| 4. | <input type="radio"/> Smaller shade structure   |    | <input type="radio"/> Larger shade structure  |
| 5. | <input type="radio"/> Seating with larger, low planting areas frame smaller gathering spaces within plaza                               |    | <input type="radio"/> Seating with smaller, integrated planters located throughout a more open plaza                                    |
| 6. | Overall, which plan option do you prefer (check one)?   |    |   |
|    | <input type="radio"/> Concept 1   |    | <input type="radio"/> Concept 2   |
|    |   |    | <input type="radio"/> No preference   |

7. Which of the following plaza features are most important to you?

On a scale of 1 - 5 where 1 is "not important" and 5 is "extremely important", please rate how important each of the following is to you:

	1 (not important)	2	3	4	5 (extremely important)
Large open plaza areas	<input type="radio"/>				
Places to sit / gather / meet	<input type="radio"/>				
Shade Canopy	<input type="radio"/>				
Spaces for retail, cafes or kiosks	<input type="radio"/>				
Improved streetscape - wider sidewalks, lighting, trees, wayfinding	<input type="radio"/>				
Green landscaping (plantings, trees)	<input type="radio"/>				
Bike Station	<input type="radio"/>				
Bike Lockers	<input type="radio"/>				

8. Please share any other ideas or suggestions for this project:

---

---

9. The Lake Merritt plaza is BART's preferred site alternative for the Transit Operations Facility. What impacts might this project have on you? What concerns, if any, do you have with this site?: \_\_\_\_\_

---

10. Would you like to receive email updates about this project?

- Yes - Email: \_\_\_\_\_  No

## PLEASE TELL US ABOUT YOURSELF

(your answers will help us evaluate how well we are reaching all the communities we serve).

11. Do you live or work within walking distance of Lake Merritt BART Station?

- Yes, I live within walking distance of Lake Merritt BART Station  No  
 Yes, I work within walking distance of Lake Merritt BART Station

12. How often do you use the Lake Merritt BART Station?

- 6 to 7 days a week  2 to 3 days a week  A few days a month  Once a year or less  
 4 to 5 days a week  Once a week  A few days a year

13. What is your gender?

- Male  Female  Another gender: \_\_\_\_\_

14. How old are you?

- 17 or younger  25 - 34  45 - 54  65 and older  
 18 - 24  35 - 44  55 - 64

15. Are you of Hispanic, Latino or Spanish origin?

- No  Yes

16. What is your race or ethnic identification? Select all that apply. (Categories based on US Census.)

- White  Black/African American  Other (specify): \_\_\_\_\_  
 Asian or Pacific Islander  American Indian or Alaska Native

17. Do you speak a language other than English at home?

- No  Yes - Language: \_\_\_\_\_

18. If "Yes" to Question 17, how well do you speak English?

- Very Well  Well  Not well  Not at all

19. What is your total annual household income before taxes?

- Under \$25,000  \$35,000 - \$39,999  \$50,000 - \$59,999  \$75,000 - \$99,999  
 \$25,000 - \$34,999  \$40,000 - \$49,999  \$60,000 - \$74,999  \$100,000 and over

20. Including yourself, how many people live in your household?

- 1  2  3  4  5  6 or more

21. Do you own a smart phone?

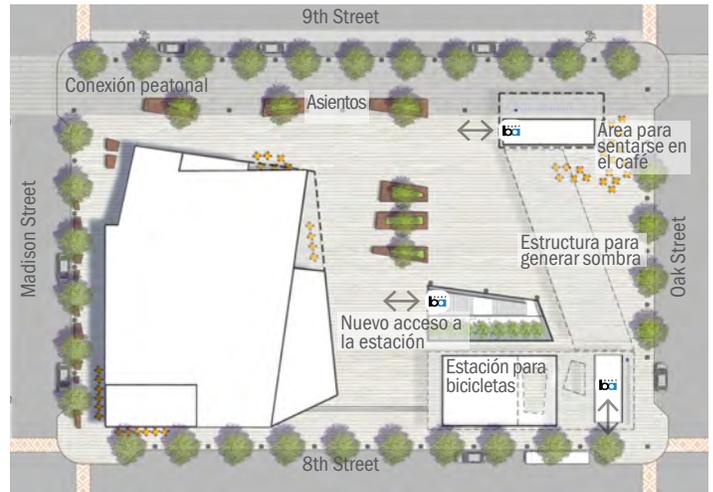

- No  Yes

# ¡DÍGANOS LO QUE PIENSA AL RESPECTO!

Bay Area Rapid Transit (BART) está trabajando en un nuevo edificio para operaciones de transporte y en el rediseño de Lake Merritt Plaza para respaldar la mejora y expansión de las operaciones de BART, además de crear una terminal y centro de transporte multimodal mejorado. Nos gustaría recibir sus comentarios con las preguntas siguientes para asegurarnos de que la plaza sea más funcional para el vecindario.

**CONCEPTO 1**

**CONCEPTO 2**

Compare los dos conceptos y díganos cuál prefiere (tilde una opción en cada fila):

- |    | Concepto 1  |   | Concepto 2   |
|----|---|---|--|
| 1. | <input type="radio"/> Hacer énfasis en la conexión peatonal diagonal a través de la plaza, lo que refleja las vías de BART  | o | <input type="radio"/> Destacar la conexión peatonal a lo largo de 9th Street   |
| 2. | <input type="radio"/> Cubrir por completo el patio en desnivel para crear una plaza más grande, con pavimento de vidrio que permita la entrada de luz natural a la estación | o | <input type="radio"/> Mantener el patio en desnivel parcialmente abierto para agregar el acceso desde la plaza a la explanada de la estación de BART y permitir la entrada de luz en el nivel inferior |
| 3. | <input type="radio"/> Kiosco o área para sentarse en el café en 9th y Oak con orientación a la plaza  | o | <input type="radio"/> Kiosco o área para sentarse en el café en 9th y Oak con orientación a la calle   |
| 4. | <input type="radio"/> Estructura para generar sombra más pequeña  | o | <input type="radio"/> Estructura para generar sombra más grande  |
| 5. | <input type="radio"/> Asientos con cancheros bajos más grandes que enmarcan espacios de reunión más pequeños dentro de la plaza   | o | <input type="radio"/> Lugares para sentarse con cancheros más pequeños e integrados ubicados en una plaza más abierta  |

6. En general, ¿qué opción prefiere (tilde una)?

- Concepto 1                       Concepto 2                       No tiene preferencia alguna

7. ¿Cuáles de las siguientes características de la plaza son más importante para usted?

En una escala del 1 al 5, en donde 1 es “nada importante” y 5 es “muy importante”, por favor califique qué tan importante es para usted cada uno de los siguientes asuntos:

	1 (nada importante)	2	3	4	5 (muy importante)
Amplias áreas abiertas de plaza	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lugares para sentarse/reunirse/encontrarse	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Toldo para generar sombra	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Espacios para comercios minoristas, cafés o kioscos	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Paisaje urbano mejorado: aceras más amplias, iluminación, árboles, señalización	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Jardinería ornamental (plantas, árboles)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Estación para bicicletas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Casilleros para bicicletas	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. Comparta cualquier otra idea o sugerencia para este proyecto:

---

---

9. Lake Merritt Plaza es el sitio preferido de BART como alternativa para el edificio de operaciones de transporte. ¿Cómo podría este proyecto afectarle a usted? ¿Qué inquietudes tiene sobre este sitio, si las tuviera?: \_\_\_\_\_

---

10. ¿Le gustaría recibir información reciente por correo electrónico en relación a este proyecto?

Si la respuesta es sí, escriba su dirección de correo electrónico: \_\_\_\_\_  No

## PROPORCIÓNENOS INFORMACIÓN ACERCA DE USTED

(sus respuestas nos ayudarán a evaluar qué tan bien nos estamos comunicando con todas las comunidades a las que atendemos).

11. ¿Vive o trabaja a una corta distancia de la estación de BART en Lake Merritt?

Sí, vivo a una corta distancia de la estación de BART de Lake Merritt.  No  
 Sí, trabajo a una corta distancia de la estación de BART de Lake Merritt.

12. ¿Con qué frecuencia usa la estación de BART de Lake Merritt?

6 a 7 días por semana  2 a 3 días por semana  Unos cuantos días al mes  Una vez al año o menos  
 4 a 5 días por semana  Una vez a la semana  Unos cuantos días al año

13. ¿Cuál es su sexo?

Masculino  Femenino  Otro sexo: \_\_\_\_\_

14. ¿Qué edad tiene?

17 años o menos  25 a 34 años  45 a 54 años  65 años o más  
 18 a 24 años  35 a 44 años  55 a 64 años

15. ¿Es usted de ascendencia hispana, latina o española?

No  Sí

16. ¿Cuál es su raza o identificación étnica? Marque todas las opciones que correspondan. (Categorías, según la Oficina del Censo de los EE.UU.)

Blanco  Negro/afroamericano  Otra (por favor, especifique) \_\_\_\_\_  
 Asiático o de las Islas del Pacífico  Indígena norteamericano o nativo de Alaska

17. ¿Habla usted un idioma que no sea el inglés en el hogar?

No  Si la respuesta es sí, indique qué idioma: \_\_\_\_\_

18. Si respondió "Sí" a la Pregunta 17, ¿qué tan bien habla inglés?

Muy bien  Bien  No muy bien  Nada

19. ¿Cuáles son los ingresos totales anuales de su hogar antes de impuestos?

Menos de \$25,000  \$35,000 a \$39,999  \$50,000 a \$59,999  \$75,000 a \$99,999  
 \$25,000 a \$34,999  \$40,000 a \$49,999  \$60,000 a \$74,999  \$100,000 y más

20. Incluyéndose a sí mismo, ¿cuántas personas viven en su hogar?

1  2  3  4  5  6 o más

21. ¿Tiene un teléfono inteligente?

No  Sí

# HÃY CHO CHÚNG TÔI BIẾT CẢM NGHĨ CỦA QUÝ VỊ!

BART đang bắt đầu thực hiện Cơ Sở Điều Hành Vận Chuyển mới và thiết kế lại Lake Merritt Plaza để hỗ trợ cho các hoạt động BART mở rộng và tăng cường và tạo ra một trung tâm giao thông đa phương thức nâng cao và plaza vận chuyển. Chúng tôi mong muốn nhận được phản hồi của quý vị cho các câu hỏi sau để bảo đảm plaza phục vụ khu vực lân cận tốt hơn.

**KHÁI NIỆM 1**

**KHÁI NIỆM 2**

Quý vị so sánh hai khái niệm và cho chúng tôi biết quý vị thích khái niệm nào hơn (chọn một trong mỗi hàng):

- |    | Khái niệm 1  | hoặc | Khái niệm 2  |
|----|--|------|--|
| 1. | <input type="radio"/> Nhấn mạnh kết nối chéo dành cho người đi bộ qua plaza vận chuyển sử dụng các tuyến BART  |      | <input type="radio"/> Nhấn mạnh kết nối dành cho người đi bộ dọc theo 9th Street   |
| 2. | <input type="radio"/> Bao gồm hoàn toàn khoảng sân bị lún để xây một plaza lớn hơn, sử dụng kính lát ngoài để lấy ánh sáng tự nhiên vào bên trong trạm |      | <input type="radio"/> Giữ cho một phần khoảng sân bị lún được mở để thêm lối vào từ plaza đến phòng đợi Trạm BART và lấy ánh sáng bên dưới |
| 3. | <input type="radio"/> Quầy hàng hoặc chỗ ngồi uống cà phê ở đường 9th & Oak hướng về phía plaza  |      | <input type="radio"/> Quầy hàng hoặc chỗ ngồi uống cà phê theo hướng đường 9th & Oak về phía đường đi                                      |
| 4. | <input type="radio"/> Cấu trúc mái che nhỏ hơn   |      | <input type="radio"/> Cấu trúc mái che lớn hơn   |
| 5. | <input type="radio"/> Chỗ ngồi với các khu vực trồng cây thấp lớn hơn tạo ra các không gian tụ họp nhỏ hơn bên trong plaza                             |      | <input type="radio"/> Chỗ ngồi với các bồn cây được tích hợp nhỏ hơn đặt khắp nơi trong một plaza không gian mở rộng hơn                   |

6. Tóm lại, quý vị thích lựa chọn nào hơn (chọn một)?

- Khái niệm 1                     
  Khái niệm 2                     
  Không có ý kiến

7. Các tính năng plaza nào sau đây là quan trọng nhất với quý vị? Trên thang đo từ 1 - 5 với 1 là "không quan trọng" và 5 là "cực kỳ quan trọng", vui lòng xếp loại mỗi mức độ quan trọng ra sao đối với quý vị:

	1 (không quan trọng)	2	3	4	5 (cực kỳ quan trọng)
Các khu vực plaza không gian mở rộng	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nơi ngồi / hội họp / gặp gỡ	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Tầng Mái Che	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Các không gian dành cho bán lẻ, cà phê hoặc quầy hàng	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Chỉnh trang cảnh quan đường phố – lề đường rộng hơn, ánh sáng, cây xanh, hướng dẫn đường đi	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cảnh quan xanh (trồng cây xanh)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Trạm Xe Đạp	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Các Chỗ Để Xe Đạp	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. Vui lòng chia sẻ ý kiến hoặc đề nghị khác dành cho dự án này:

---

---

9. Lake Merritt Plaza là địa điểm thay thế được ưu tiên của BART cho Cơ Sở Điều Hành Vận Chuyển. Dự án này có thể có những tác động nào đối với quý vị không? Quý vị có mối quan ngại nào dành cho địa điểm này không?

---

10. Quý vị có muốn nhận các email cập nhật về dự án này không?

Có - Email: \_\_\_\_\_  Không

## XIN QUÝ VỊ CHO CHÚNG TÔI BIẾT VỀ BẢN THÂN QUÝ VỊ

(các câu trả lời của quý vị giúp đánh giá chúng tôi đang tiếp cận ở mức nào đối với các cộng đồng mà chúng tôi phục vụ)

11. Quý vị có sinh sống hoặc làm việc gần Trạm BART Lake Merritt không?

Có, tôi sinh sống gần Trạm BART Lake Merritt  Không

Có, tôi làm việc gần Trạm BART Lake Merritt

12. Quý vị sử dụng Trạm BART Lake Merritt thường xuyên như thế nào?

6 đến 7 ngày một tuần  2 đến 3 ngày một tuần  Vài ngày một tháng  Một lần một năm hoặc ít hơn

4 đến 5 ngày một tuần  Một lần một tuần  Vài ngày một năm

13. Giới tính của quý vị?

Nam  Nữ  Giới tính khác: \_\_\_\_\_

14. Tuổi tác của quý vị?

17 hoặc trẻ hơn  25 đến 34 tuổi  45 đến 54 tuổi  65 tuổi trở lên

18 đến 24 tuổi  35 đến 44 tuổi  55 đến 64 tuổi

15. Có phải quý vị là người gốc Tây Ban Nha, Bồ Đào Nha hoặc Latinh?

Không  Có

16. Chủng tộc hoặc sắc tộc của quý vị? Chọn tất cả các phần phù hợp (Phân loại dựa trên Điều Tra Dân Số Hoa Kỳ.)

Da Trắng  Da Đen/Người Mỹ gốc Phi  Khác (ghi cụ thể): \_\_\_\_\_

Người Á Châu hoặc người Á Châu Thái Bình Dương  Người Dân Châu Mỹ hoặc Thổ Dân Alaska

17. Quý vị có sử dụng ngôn ngữ nào khác ở nhà ngoài tiếng Anh không?

Không  Có - Ngôn ngữ: \_\_\_\_\_

18. Nếu quý vị trả lời "Có" cho câu hỏi 17, quý vị nói tiếng Anh như thế nào?

Rất Tốt  Tốt  Không tốt  Hầu như không nói được

19. Lợi tức trước thuế hàng năm của gia đình quý vị?

Dưới \$25,000  \$35,000 - \$39,999  \$50,000 - \$59,999  \$75,000 - \$99,999

\$25,000 - \$34,999  \$40,000 - \$49,999  \$60,000 - \$74,999  \$100,000 trở lên

20. Tính cả bản thân quý vị, có bao nhiêu người sống trong gia đình quý vị?

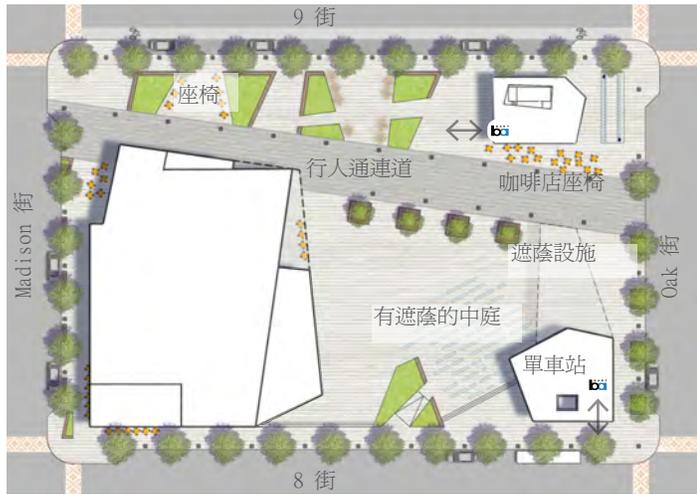

1  2  3  4  5  6 hoặc hơn

21. Quý vị có điện thoại thông minh không?

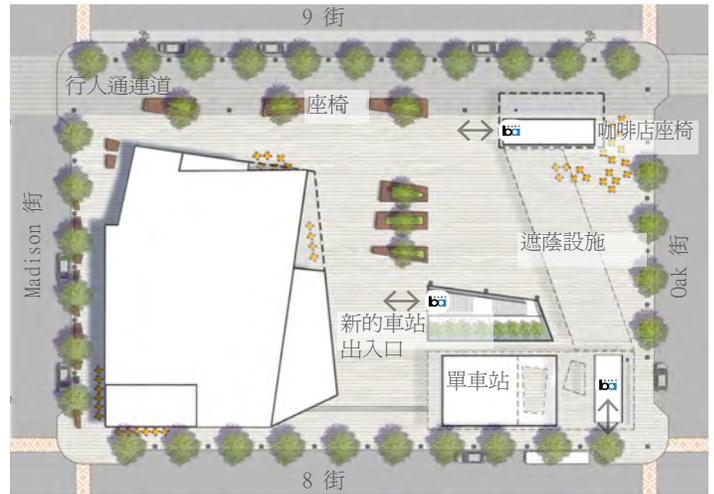

Không  Có

# 請讓我們知道您的想法！

舊金山灣區捷運(BART)正開始規劃一項新的交通營運設施(Transit Operations Facility, TOF)和重新設計美麗湖廣場(Lake Merritt Plaza)，以期能支援BART在營運上的改進和擴展，並且打造一個加強型多模式聯運樞紐和交通運輸廣場。我們想知道您對以下問題的看法，以確保廣場能為鄰里提供更好服務。

概念 1

概念 2

請比較兩個概念，告訴我們您比較喜歡哪一個 (每一行勾選一個答案)：

- | 概念 1  | 或 | 概念 2  |
|---|---|---|
| 1. <input type="radio"/> 強調穿越交通運輸廣場的對角線行人通連道，與 BART 軌道互相輝映          |   | <input type="radio"/> 強調 9 街沿路的行人通連道                                  |
| 2. <input type="radio"/> 完全覆蓋下凹式中庭廣場，以打造更大的廣場空間，並使用玻璃鋪設地面，讓自然光能照進車站 |   | <input type="radio"/> 保持一部分的下凹式中庭廣場開放，增加從廣場至 BART 車站大廳的出入口，並且讓光線能向下照射 |
| 3. <input type="radio"/> 販賣機或咖啡店座椅設在 9 街夾 Oak 街處，面向廣場               |   | <input type="radio"/> 販賣機或咖啡店座位設在 9 街夾 Oak 街處，面向廣場                    |
| 4. <input type="radio"/> 較小的遮蔭設施                                    |   | <input type="radio"/> 較大的遮蔭設施   |
| 5. <input type="radio"/> 座椅擁有面積較大的低密度植栽區，框架出廣場內多個較小的聚集空間            |   | <input type="radio"/> 座椅擁有面積較小的密集式植栽區，分布於較開闊的廣場空間                     |

6. 總體上，您比較喜歡哪一個計劃選項 (勾選一項)？
- 概念 1                       概念 2                       沒有偏好

7. 下列哪些廣場特色對您最重要？若以 1 - 5 來代表評分標準，1 代表「不重要」，5 代表「極重要」；請就下列每個項目對您有多重要進行評分：

	1 (不重要)	2	3	4	5 (極重要)
廣大的開放式廣場空間	<input type="radio"/>				
坐下 / 聚集 / 會面的地方	<input type="radio"/>				
遮篷	<input type="radio"/>				
零售、咖啡或販賣機空間	<input type="radio"/>				
更好的街景 - 更寬的人行道、照明、樹木、路標	<input type="radio"/>				
綠色造景 (花壇、樹木)	<input type="radio"/>				
單車站	<input type="radio"/>				
單車寄放櫃	<input type="radio"/>				

8. 請分享您對於本項目的其他任何構想或建議：

---

---

9. 美麗湖廣場是 BART 較中意的交通營運設施備選場址。本項目可能對您造成哪些影響？您對此場址有什麼顧慮（若有）？

---

---

10. 您是否想透過電子郵件收到有關本項目的最新資訊？

是 - 電子郵件地址：\_\_\_\_\_  否

## 請告訴我們一些有關您的資訊

(您的答案有助於我們評估本公司社區服務的成效。)

11. 您的住家或工作地點與 Lake Merritt BART 捷運站的距離是否在步行範圍內？

是，我的住家與 Lake Merritt BART 捷運站的距離在步行範圍內  否

是，我的工作地點與 Lake Merritt BART 捷運站的距離在步行範圍內

12. 您多常去 Lake Merritt BART 捷運站乘車？

一週 6 至 7 天  一週 2 至 3 天  每個月幾天  一年一次或更少

一週 4 至 5 天  一週一次  一年幾天

13. 您的性別？

男  女  其他性別：\_\_\_\_\_

14. 您今年幾歲？

17 歲或以下  25 - 34 歲  45 - 54 歲  65 歲和以上

18 - 24 歲  35 - 44 歲  55 - 64 歲

15. 您是否為拉美裔或西語裔？

否  是

16. 您的族裔為何？可複選。(根據美國人口普查分類。)

白人  黑人/非裔美國人  其他 (請註明)：\_\_\_\_\_

亞裔或太平洋島國人士  美洲印第安人或阿拉斯加原住民

17. 您在家是否說英語以外的語言？

否  是 - 所說語言：\_\_\_\_\_

18. 如果 17 題回答「是」，您的英文程度有多好？

很好  好  不好  完全不會

19. 您的稅前家庭年收入總共多少？

\$25,000 以下  \$35,000 - \$39,999  \$50,000 - \$59,999  \$75,000 - \$99,999

\$25,000 - \$34,999  \$40,000 - \$49,999  \$60,000 - \$74,999  \$100,000 和以上

20. 包括您在內，您家裡共住多少人？

1  2  3  4  5  6 人或更多

21. 您有智慧型手機嗎？

否  是

Appendix 10d:

BART to Antioch Station Title VI Service Analysis  
and Board Minutes

---

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P.O. Box 12688, Oakland, CA 94604-2688

Board of Directors  
Minutes of the 1,800th Meeting  
October 26, 2017

A regular meeting of the Board of Directors was held October 26, 2017, convening at 5:00 p.m. in the Board Room, 344 20<sup>th</sup> Street, Oakland, California. President Saltzman presided; Kenneth A. Duron, District Secretary.

Directors present: Directors Allen, Blalock, Dufty, Josefowitz, McPartland, Raburn, Simon, and Saltzman.

Absent: None. Director Keller entered the Meeting later.

President Saltzman called for Introduction of Special Guests. President Saltzman requested the video “Agent of Connection” of Station Agent William Cromartie be shown.

Consent Calendar items brought before the Board were:

1. Approval of Minutes of the Meeting of October 12, 2017.
2. District Base Pay Schedule.
3. Award of Contract No. 6M3378A, Procurement of Fasteners.
4. Easement Quitclaim and Grant of New Easement Pleasant Hill Transit Oriented Development at the Pleasant Hill/Contra Costa Centre BART Station.

Director Raburn made the following motions as a unit. Director McPartland seconded the motions, which carried by unanimous acclamation. Ayes – 8: Directors Allen, Blalock, Dufty, Josefowitz, McPartland, Raburn, Simon, and Saltzman. Noes - 0. Absent – 1: Director Keller.

1. That the Minutes of the Meeting of October 14, 2017, be approved.
2. That the base pay schedule in effect July 1, 2017, be approved.
3. That the General Manager be authorized to award Contract No. 6M3378A, Procurement of Fasteners, an estimated quantities contract, to Fastenal Company, for the Bid Price of \$385,024.72, including all applicable sales taxes, pursuant to notification to be issued by the General Manager, and subject to compliance with the District’s protest procedures.
4. Adoption of Resolution No. 5360, In the Matter of Authorizing Acceptance of a Quitclaim Deed from the Contra Costa Water District, and the Execution of an Agreement and Easement Deed to the Contra

Costa Water District BART Parcels: O-C50W-E1 and O-C50-8950-06-E1  
(Portions of APN 148-221-045-5).

President Saltzman called for Public Comment. The following individuals addressed the Board.

Clarence Fischer  
Aleta Dupree  
JP Massar  
Sangeet Lal  
Pamela Michaud  
Brian Biancardi  
Ernest Mahr  
Cathy Kora  
Matt Woll

Director Keller entered the Meeting.

President Saltzman announced that agenda items would be taken out of order.

Director Raburn, Chairperson of the Planning and Legislation Committee, brought the matter of Fruitvale Transit Village: Agreements for Phase II, before the Board. Ms. Abigail Thorne-Lyman, Manager of Planning, presented the item, including portions on Modify Construction Covenant, Developer Transit Benefit Fee Agreement and Unit Owner Transit Benefit Fee Agreement with City of Oakland for Fruitvale Transit Village Phase IIA (Casa Arabella); and New Easement Agreements with the City of Oakland, East Bay Asian Local Development Corporation and/or BRIDGE Housing to Create Limited Private Access Easement and/ or Emergency Vehicle Access Easement for Fruitvale Transit Village Phase IIA and a Reciprocal Vehicle Access Easement to Non-BART Property for Phase II.

The following individuals addressed the Board.

Noel Gallo  
Chris Iglesias  
Jerry Grace

The item was discussed.

Director Raburn made the following motions as a unit. Director McPartland seconded the motions, which carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes - 0.

1. That the General Manager or her designee be authorized to modify the existing recorded agreements between BART and the City of Oakland for Fruitvale Transit Village Phase IIA (Casa Arabella) in order to waive the Delayed Transfer Fee requirement and acknowledge that the other major terms of the agreements do not apply to this development, so long as the development includes 92 units of rental affordable housing for households earning less than 80% area median income, and 2 units of rental market rate housing.

2. That the General Manager or her designee be authorized to enter into agreements as needed with the City of Oakland, Fruitvale Transit Village II-A, L.P., East Bay Asian Local Development Corporation, Unity Council, and BRIDGE Housing to provide a limited private access easement to allow for garbage pickup and tenant loading; an emergency vehicle access easement for Fruitvale Transit Village Phase IIA (Casa Arabella), reserving rights to allow pedestrian and bicycle facilities to occupy the same area; a reciprocal easement allowing BART maintenance and other vehicles to access non-BART property adjacent to Fruitvale Transit Village Phase II; and a storm drain easement.

Director Raburn brought the matter of Lease to Richmond Business Hub, LLC, at Richmond BART Station Parking Structure before the Board. Mr. Paul Voix, Principal Property Development Officer, presented the item. Director Simon moved that the General Manager or her designee be authorized to execute a Lease with Richmond Business Hub, LLC, for ten years, with three additional five-year options, for approximately 9,000 square feet of commercial space on the 1500 block of Macdonald Avenue, located on the ground floor of the Richmond BART Station parking structure. President Saltzman seconded the motion.

The following individuals addressed the Board.

Bill Lindsay  
Ernst Valery  
Andrea Bailey  
Jim Becker  
Amanda Elliott  
Janet Johnson

The motion carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 0.

Director Josefowitz, Chairperson of the Finance, Bond Oversight, and Administration Committee, brought the matter of BART to Antioch Title VI Service and Fare Equity Analysis and Participation Report before the Board. Ms. Jennella Sambour-Wallace, Manager of Special Projects, and Mr. Thomas Tumola, Program Manager, presented the item. The item was discussed.

The following individuals addressed the Board.

Clarence Fischer  
Jerry Grace

Director Keller moved that the Board approve the BART to Antioch Title VI Equity Analysis and Public Participation Report. Director Blalock seconded the motion, which carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 0.

Director Josefowitz brought the matter of Maintenance and Reimbursement Agreement with the City of Hercules and the Western Contra Costa Transit Authority for the Hercules Transit Center before the Board. Mr. Bob Franklin, Department Manager, Customer Access, presented the

item. President Saltzman moved that the General Manager or her designee be authorized to execute a Maintenance and Reimbursement Agreement with the City of Hercules and the Western Contra Costa Transit Authority for the Hercules Transit Center. Directors Simon and Allen seconded the motion. The item was discussed. The motion carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 0.

Director Keller, Chairperson of the Operations, Safety, and Workforce Committee, brought the matter of Revised Proposed Ordinance to Require Persons inside the Paid Area of BART to Provide Proof of Payment before the Board. Mr. Paul Oversier, Assistant General Manager, Operations; Chief of Police Carlos Rojas; and Deputy Chief of Police Lance Haight presented the item. The item was discussed.

The following individuals addressed the Board.

Clarence Fischer

Aleta Dupree

Director Keller moved adoption of Ordinance No. 2017-2, An Ordinance of the San Francisco Bay Area Rapid Transit District to Require Persons inside the Paid Area of BART to Provide Proof of Payment. Director Blalock seconded the motion, which carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 0.

Director Keller brought the matter of Proposed Ordinance Prohibiting Fare Evasion by Minors before the Board. Deputy Chief Haight presented the item. The item was discussed. Director Keller moved adoption of Ordinance No. 2017-3, An Ordinance of the San Francisco Bay Area Rapid Transit District Prohibiting Fare Evasion by Minors. Director Blalock seconded the motion, which carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 0.

Director Keller brought the following items before the Board.

1. Change Order to Contract No. 09AU-130, BART Earthquake Safety Program Oakland Shops Spur Tracks, with Shimmick Construction Company, Inc., for Weld Shop Improvements (C.O. No. 1, Part 2)..
2. Change Orders to Contract No. 79HM-120, SFTS MB, with Manson Construction Company, Inc.
  - a. Engineering Costs (C.O. No. 74).
  - b. Impacts from Revised Bearing Pad Sizes (C.O. No. 93).

Director Raburn made the following motions as a unit. Director Simon seconded the motions, which carried by unanimous acclamation. Ayes – 9: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, Simon, and Saltzman. Noes – 0.

1. That the General Manager or her designee be authorized to execute Change Order No. 1, Part 2, Weld Shop, to Contract No. 09AU-130, BART Earthquake Safety Program Oakland Shops Spur Track, with

Shimmick Construction Company, Inc., in an amount not to exceed \$186,000.00.

2. That the General Manager be authorized to execute Change Order No. 74, COWI Engineering Costs, in an amount not to exceed \$350,000.00, for Contract No. 79HM-120, SFTS MB, with Manson Construction Company, Inc.
3. That the General Manager be authorized to execute Change Order No. 93, Impacts from Revised Bearing Pad Sizes, in an amount not to exceed \$272,555.00, for Contract No. 79HM-120, SFTS MB, with Manson Construction Company, Inc.

Director Simon exited the Meeting.

Director Raburn brought the matter of Memorandum of Understanding with QIC Limited to Study Improved Connections to The Shops at Tanforan Mall at the San Bruno BART Station before the Board. Mr. Sean Brooks, Department Manager, Real Estate and Property Development, presented the item. President Saltzman moved that the General Manager or her designee be authorized to execute a Memorandum of Understanding with QIC Limited in connection with the San Bruno Station and The Shops at Tanforan to pursue a Feasibility Analysis and Assessment to determine the commercial viability of integrating the San Bruno Station with the proposed initial phase of Tanforan redevelopment. Director Dufty seconded the motion. The item was discussed. The motion carried by unanimous acclamation. Ayes – 8: Directors Allen, Blalock, Dufty, Josefowitz, Keller, McPartland, Raburn, and Saltzman. Noes – 0. Absent – 1: Director Simon.

Director Raburn brought the matter of State and Federal Legislative Update before the Board. Mr. Roddrick Lee, Department Manager, Government and Community Relations, and Ms. Amanda Cruz, Program Manager of Government Relations and Legislative Affairs, presented the item. The item was discussed.

Jerry Grace addressed the Board.

President Saltzman called for the General Manager's Report.

General Manager Grace Crunican reported on steps she had taken and activities and meetings she had participated in, ridership, upcoming events, and outstanding Roll Call for Introductions items.

Mr. Oversier reported on the District's participation in the annual Great ShakeOut.

President Saltzman called for Board Member Reports, Roll Call for Introductions, and In Memoriam.

Director Josefowitz mentioned the plywood coverings at the Civic Center Station entrances.

Director McPartland requested the Police Department have a designated Public Information Officer. Director Keller seconded the request.

Director Raburn reported he had attended an Oakland African American Chamber of Commerce business event and an Asian American Architects and Engineers event.

Director Dufty reported he, Director Allen, Director Keller and staff members had attended a meeting with the Contra Costa County H3 Homeless services agency. Director Dufty noted he continued his weekly sweeping at the 16<sup>th</sup> Street/Mission Station. Director Dufty reported he had attended a planning association meeting for the San Francisco Richmond district. He requested a presentation on the LEAD SF program.

President Saltzman requested a presentation on the SCOOP parking program.

President Saltzman called for Public Comment. Jerry Grace addressed the Board.

The Meeting was adjourned at 9:15 p.m.

Kenneth A. Duron  
District Secretary

## Title VI Equity Analysis and Public Participation Report

---

### **Executive Summary**

In October 2011, staff completed a Title VI Analysis for Antioch Station (formerly known as Hillcrest Avenue Station). A Title VI/Environmental Justice analysis was conducted on the Pittsburg Center Station on March 19, 2015. Per the Federal Transit Administration (FTA) Title VI Circular (Circular) 4702.1B, *Title VI Requirements and Guidelines for Federal Transit Administration Recipients* (October 1, 2012), the District is required to conduct a Title VI Service and Fare Equity Analysis (Title VI Equity Analysis) for the Project's proposed service and fare plan six months prior to revenue service. Accordingly, staff completed an updated Title VI Equity Analysis for the BART to Antioch (Project) service and fare plan, which evaluates whether the Project's proposed service and fare will have a disparate impact on minority populations or a disproportionate burden on low-income populations based on the District's Disparate Impact and Disproportionate Burden Policy (DI/DB Policy) adopted by the Board on July 11, 2013 and FTA approved Title VI service and fare methodologies.

### **Discussion:**

The BART to Antioch Extension ("BART to Antioch" or "Project") will introduce a new rail passenger service comprising approximately 10 miles of new track between the existing Pittsburg/Bay Point BART Station and the City of Antioch. The Project will use independently propelled railcars known as Diesel Multiple Units (DMUs) that will operate on standard gauge rail. Stations for the new service will be located in the cities of Pittsburg and Antioch.

### **Proposed Service:**

- *Travel Times:*

Westbound passengers traveling towards SFO will have the following estimated travel times:

- Antioch → Pittsburg Center: 6 min
- Pittsburg Center → Pittsburg/Bay Point: 9 min
- Total trip time: 15 min

Eastbound passengers traveling towards Antioch will have the following estimated travel times:

- Pittsburg/Bay Point → Pittsburg Center (includes transfer time): 8 min
  - Pittsburg Center → Antioch: 8 min
  - Total trip time: 16 min
- *Transfer Times:*

Staff has established a service plan for the BART to Antioch Stations. This service plan is subject to change once BART introduces new rail cars into revenue service. All passengers travelling between a "BART to Antioch" DMU train and the rest of the BART System will transfer at a designated 'Transfer Platform' directly east of the Pittsburgh/Bay Point BART Station.

Depending on capacity, there are proposed transfer times for a two-DMU train consists or a three-DMU train consists. In a two-DMU train consists scenario, AM westbound passengers board BART and depart within two minutes. AM eastbound passengers arriving from BART will wait for eight minutes on the 'Transfer Platform'. In the three-DMU train consists scenario, AM westbound passengers board BART and depart within two minutes. AM eastbound passengers arriving from BART will transfer to a DMU train at the 'Transfer Platform' and depart within three minutes.

For detailed information on the BART to Antioch service plan, ridership, and vehicle load, please see Appendices B, C, and D.

### **Proposed Fare Plan:**

Staff proposes to apply BART's existing distance-based fare structure to calculate fares for the new service. As such, no new fare structure is being implemented as a result of the BART to Antioch Project. The proposed fare increment for Pittsburg/Bay Point Station to Pittsburg Center Station (and vice versa) is \$0.15 for approximately 85% of trips and \$0.20 for the remainder. The proposed fare increment from Pittsburg/Bay Point Station to Antioch Station (and vice versa) is \$0.80 for approximately 85% of trips and \$0.85 for the remainder. The nickel difference in the two cases is due to rounding to the nearest nickel, which is part of BART's existing fare structure. In January 2018, for example, the fare between Pittsburg/Bay Point and Embarcadero Station will be \$6.70. The proposed incremental fare between Pittsburg Center Station and Embarcadero is \$0.15, for a total fare of \$6.85. The proposed incremental fare between Antioch Station and Embarcadero is \$0.80, for a total fare of \$7.50.

As the BART to Antioch Stations are East Bay stations, the East Bay Suburban Zone fare (equal to the 2018 minimum fare of \$2.00 when using Clipper)<sup>1</sup> and applied to certain other East Bay station fares has been proposed. This fare would be charged for trips between six and 13 miles from BART to Antioch, e.g., for the 9.1-mile trip between Pittsburg/Bay Point Station and Antioch Station. No new surcharges are proposed for fares to, or from, the new BART to Antioch Stations, and all existing discounts will be applied to these fares as part of the extension of BART's distance-based fare structure.

### **Title VI Service Equity Analysis Findings:**

The Title VI Service Equity Analysis includes a demographic and travel time assessment of the Project's projected ridership.

The demographic assessment evaluates whether the projected riders of the new BART to Antioch service are predominantly minority or low-income when compared to BART's five-county system-wide population, based on American Community Survey (ACS) 2011-2015 data. The assessment also evaluates whether riders who may be adversely affected by a service option are disproportionately minority or low-income.

Per the DI/DB Policy, a disproportionate impact or disproportionate burden results when adverse effects disproportionately affect the protected populations described above. For new service, a disparate impact to minority riders or a disproportionate burden on low-income riders will be found if the applicable difference between the proportion of Project riders that are protected and the proportion of protected system-wide riders is equal to or greater than 10%

The demographic assessment found that these riders were not disproportionately or predominantly minority or low-income, as defined by BART's DI/DB Policy. Accordingly, the study found that minority or low-income riders will not be disproportionately affected by adverse impacts resulting from the new service. Accordingly, no disparate impact or disproportionate burden was found on minority or low-income populations.

The travel assessment compares the estimated travel time for riders affected by the service change before and after the new service. The results of the travel time assessment found that the Project would benefit all populations, including minority and low-income, within the Project catchment area described in Section 2.3.2 and Figure 2. The demographic assessment found that the projected riders benefitting from the new service are 60.6% minority and 30.1% low-income.

<sup>1</sup> In January 2018, the fare will be an additional \$0.50 per trip for a customer using a mag-stripe paper ticket.

With Project service, all populations are expected to experience the same time savings when comparing current bus travel times with BART to Antioch travel times. For the AM Peak (5 AM-8 AM)<sup>2</sup> all populations are expected to experience the same time savings of:

- 61 minutes between Antioch Parking Lot and Pittsburg/Bay Point with one stop at Pittsburg Center Station (80% reduction in travel time).
- 51 minutes between Antioch Parking Lot and Pittsburg Center Station only (89% reduction in travel time).
- 12 minutes between Pittsburg Center Station and Pittsburg/Bay Point BART only (57% reduction in travel time).

All populations are expected to experience the same time savings for PM Peak (4:45 PM-7:45 PM)<sup>3</sup> of:

- 58 minutes between Antioch Parking Lot and Pittsburg/Bay Point with one stop at Pittsburg Center Station (78% reduction in travel time).
- 50 minutes between Antioch Parking Lot and Pittsburg Center Station only (86% reduction in travel time).
- 14 minutes between Pittsburg Center Station and Pittsburg/Bay Point BART only (64% reduction in travel time).

#### **Title VI Fare Equity Analysis Findings:**

The proposed BART to Antioch fares would not change BART's existing distance-based fare structure; BART's distance-based fares would not increase or decrease. As BART's distance-based fare structure, which has been previously evaluated to not result in any disparate impact or disproportionate burden on minorities or low-income populations, is unchanged for BART to Antioch service, there is no disproportionately adverse effect on minority and/or low-income

<sup>2</sup> While the 2017 Title VI Civil Rights Program Update to the FTA uses BART AM peak time of 6:41 AM-9:41 AM and PM peak time of 4:00 PM-7:00 PM, a BART to Antioch ridership projection analysis conducted in 2016 found that the AM and PM Peak times used throughout this Title VI analysis were the appropriate peak periods to use specifically for the Project. The BART to Antioch ridership projection analysis can be found in Appendix C.

<sup>3</sup> See footnote 2 above.

riders because the same minority and/or low-income riders will enjoy the off-setting benefit of new rail service and improved travel times.

Public input has confirmed this finding:

- In the 2017 surveys, a little over a quarter of surveyed riders (approximately 26.4%) assessed the proposed fare as reasonable and not adverse. Of these survey respondents, 53.3% were minority and 46.6% were non-minority. 10% of these respondents were low-income and 90% were non-low-income.
- However, while 26.4% were in favor of extending the distance-based fare structure, that does not mean that everyone else who took the survey opposed the distance-based fare structure. In fact, close to half of survey respondents, 46.4% or 174 respondents, chose not to comment regarding the BART to Antioch fares (either leaving it blank or indicating they had no comments), which can indicate neutrality or potentially some level of acceptance.
- A small number, 8%, or 30 respondents, wrote comments unrelated to the fares. Finally, 19.2%, or 72 respondents, were opposed to extending the distance-based fare structure. Of these survey respondents, 68.1% were minority and 31.9% were non-minority. 15.3% of these respondents were low-income and 84.7% were non-low-income.
- In the 2011 Hillcrest survey,<sup>4</sup> while a higher number of survey takers believed the fare was too high, note that the 2018 fare from Pittsburg/Bay Point Station to Antioch is proposed to only be \$0.80 for about 85% of fares and \$0.85 for the remainder (the nickel difference is due to rounding). The current proposed fares of \$0.80 or \$0.85 are much lower than the \$2.25 proposed in 2011 and these lower fares are in line with what most survey takers in 2011 requested.

Since there is no adverse effect on riders, the proposed BART to Antioch fares would not result in a disparate impact on minority riders or a disproportionate burden on low-income riders.

### **Public Participation:**

Staff conducted extensive, inclusive, and multilingual public participation for the Title VI Equity Analysis during the month of August 2017. Three in-station outreach events were held in the BART to Antioch catchment area. Project outreach consisted of informing the BART to Antioch community of the new service and the proposed fares, and application of BART's existing distance-based fare structure to this new service.

<sup>4</sup> The 2011 Hillcrest survey data is being used for informational and supportive purposes only; the data is not considered current per the Title VI Circular.

Additionally, input was sought from BART's Title VI & Environmental Justice (Title VI/EJ) and Limited English Proficiency (LEP) Advisory Committees.

For detailed information on the public participation and outreach, please see the attached BART to Antioch Public Participation Report.

# Section 1: Introduction

---

The Title VI Service and Fare Equity Analysis for the BART to Antioch Extension (Project) evaluates whether the service and fare plan for this Project may disproportionately and adversely affect minority and low-income riders.

This study was conducted pursuant to the FTA's Title VI requirements and guidelines, including but not limited to, FTA Title VI Circular 4702.1B "*Title VI Requirements and Guidelines for Federal Transit Administration Recipients*" (Title VI Circular). This report determines if the new service and new fares proposed for the BART to Antioch extension would have a disparate impact on minority riders or place a disproportionate burden on low-income riders based on BART's Disparate Impact and Disproportionate Burden Policy (DI/DB Policy).<sup>5</sup>

In accordance with the District's DI/DB Policy, for new service, a disparate impact to minority riders or a disproportionate burden on low-income riders will be found if the applicable difference between the proportion of Project riders that are protected and the proportion of protected system-wide riders is equal to or greater than 10%.<sup>6</sup> BART proposes to apply its existing distance-based fare structure to determine the Project's new fares. The proposed BART to Antioch fares would not change BART's existing distance-based fare structure; BART's distance-based fares would not increase or decrease. Although the proposed BART to Antioch fares would not result in a fare change under the DI/DB Policy, this Title VI Analysis includes a New Fare Findings section, which provides demographic information for the BART to Antioch study area populations compared to BART's overall ridership and an equity finding regarding the proposed fare-setting.

This report includes the following sections:

1. **Project Description:** A description of the proposed BART to Antioch service and fare plan, as well as a demographic summary of the Project area riders.
2. **Methodology:** A description of the methodology used to evaluate the effects of the proposed plan on minority and low-income riders.
3. **Findings:** A detailed description of the study's findings and conclusions of the Project's proposed service and fare plan.
4. **Public Outreach:** An overview of the public outreach efforts and a summary of public input received from riders affected by BART to Antioch's proposed service.

<sup>5</sup> BART's DI/DB Policy was developed pursuant to the Circular, following an extensive public participation process, and adopted by the BART Board of Directors on July 11, 2013.

<sup>6</sup> Per the Circular, an adverse effect is measured by the change between the existing and proposed service levels that would be deemed significant. In accordance with the Circular and BART's FTA approved methodology, staff evaluated potential adverse effects for new service "affected populations" which includes ridership for the new service and ridership for any existing lines whose service will change because of the new service.

## Section 2: Project Description

The BART to Antioch Extension (BART to Antioch, Project) will introduce a new rail passenger service comprising approximately 10 miles of new track between the existing Pittsburg/Bay Point BART Station and the City of Antioch. Stations for the new service will be located in the City of Pittsburg and the City of Antioch.

The Project is being built in coordination with the Highway 4 widening project. The combined projects represent approximately \$1 billion invested in East County transportation improvements. The Project will use independently propelled railcars known as Diesel Multiple Units (DMUs) that will operate on standard gauge rail. The tracks will be located in the median of State Route 4. Figure 1 below shows the location of both new stations.

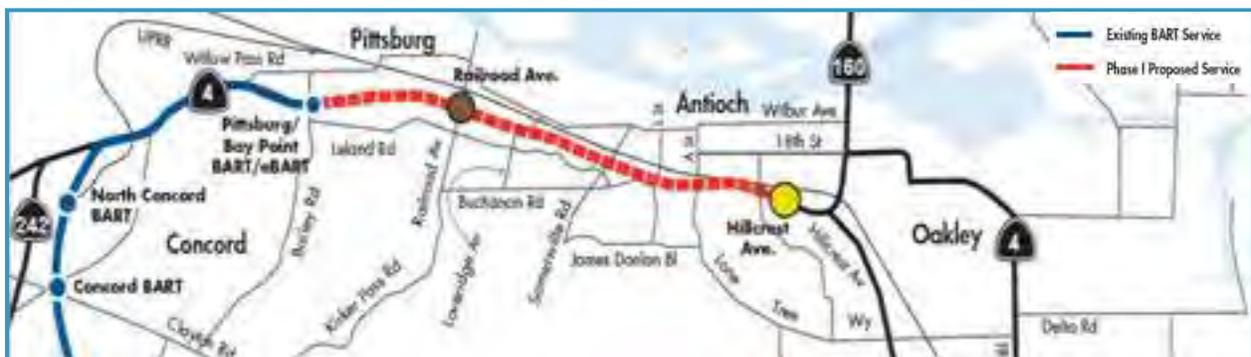

Figure 1

The DMU train was chosen to bring BART-quality rail service to East County at a much lower cost than conventional BART. The \$525 million BART to Antioch project is 60% less expensive than a conventional BART project of similar size and scope. BART to Antioch is implemented in such a manner as to allow for construction of conventional BART in the future if ridership and funding are adequate.

BART to Antioch environmental benefits include:

- Removing cars from highway and roads;
- Reducing vehicle miles traveled by 99 million miles per year;
- Carrying a number of riders equivalent to a lane of Highway 4 drivers;
- Improving freeway operations;
- Reducing greenhouse gas emissions by 260,000 lbs per day; and
- Reducing consumption of energy and petroleum.

The new rail passenger service will enable passengers to board a train at a new station in Antioch near Hillcrest Avenue and arrive at the Pittsburg/Bay Point BART Transfer Platform.

Passengers will also have access to/from a new station located in the City of Pittsburg which will be located at the intersection of Railroad Avenue and State Route 4. The hours of operation are the same as the existing BART system.<sup>7</sup>

<sup>7</sup> Further information on the Project can be found on [bart.gov/eBART](http://bart.gov/eBART).

## 2.1 Project New Service and Fare

As BART waits for its new Fleet of the Future, a temporary service plan will be implemented for the BART to Antioch extension for 2018. In 2016, a consultant conducted analyses on the BART to Antioch ridership projection and BART Yellow Line (C-line) vehicle loads for BART to Antioch to assist BART in developing its service plan for the Project. For more detailed information on these studies, please see Appendices C and D.

BART is proposing to apply its existing distance-based fare structure to calculate fares for the BART extension from the Pittsburg/Bay Point Station to the new Pittsburg Center and Antioch Stations. For example, in 2018, a one-way trip from Pittsburg/Bay Point Station and Embarcadero Station will cost \$6.70; the fare between Pittsburg Center Station to Embarcadero Station is proposed to be \$0.15 more, or \$6.85, and the fare between Antioch Station to Embarcadero is proposed to be \$0.80 more, or \$7.50.

The BART to Antioch Stations are East Bay stations and therefore the East Bay Suburban Zone fare (equal to the 2018 minimum fare of \$2.00 when using Clipper and applied to certain other East Bay station fares) is proposed. This fare would be charged for trips between 6 and 13 miles from BART to Antioch, e.g., the 9.1-mile trip between Pittsburg/Bay Point Station and Antioch Station. No new surcharges are proposed for fares to, or from, the new BART to Antioch Stations, and all existing discounts will be applied to these fares as part of the extension of BART's distance-based fare structure.

Both stations will have Clipper Card-only vending machines. Customers will be able to use mag-stripe paper tickets for entry and exit only. In January 2018, mag-stripe ticket users will be charged an additional \$0.50 per trip using a mag-stripe paper ticket. In June 2017, the BART Board approved a separate Title VI fare equity analysis for the mag-stripe ticket surcharge which included extensive public outreach.<sup>8</sup> Passengers can avoid this surcharge by using the Clipper Card for fare payments.

<sup>8</sup> The 2017 Title VI fare equity analysis can be found on [bart.gov/guide/titlevi](http://bart.gov/guide/titlevi).

## 2.2 Alternative Modes

### 2.2.1 Tri Delta Transit

Alternative modes of transit between Pittsburg/Bay Point BART Station and the BART to Antioch Stations include bus routes operated by Tri Delta Transit. BART to Antioch is projected to be used mainly by existing Pittsburg/Bay Point commuters in the BART AM peak period (5 AM-8 AM) and PM peak periods (4:45 PM-7:45 PM).<sup>9</sup> In the charts below, all the Tri Delta Transit bus routes that travel from Antioch Parking Lot to Pittsburg Center Station and Pittsburg/Bay Point Station (i.e. comparable to the BART to Antioch service) are shown. The charts below show the one-way travel times for the AM and PM peak period commutes.

**Table 1a: Alternate Modes Service Levels\***

Service Parameter	Existing Service between Antioch Parking Lot and Pittsburg/Bay Point BART with One Stop at Pittsburg Center Station								BART to Antioch	
	Tri Delta Transit Route 380		Tri Delta Transit Bus Route 388		Tri Delta Transit Bus Route 390		Tri Delta Transit Bus Route 391		BART 2/3-DMU Train Consists	
Minimum Fares <sup>1</sup>	\$2.00		\$2.00		\$2.00		\$2.00		\$2.00	
One-Way Travel Time <sup>2</sup>	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM
	122 Min	128 Min	89 Min	86 Min	49 Min	45 Min	45 Min	38 Min	15 Min	16 Min
Hours of Operation	3:00 AM to 11:30 PM (weekdays)		5:00 AM to 11:30 PM (weekdays)		4:30 AM to 8:30 PM (weekdays)		4:00 AM to 1:15 AM (weekdays)		4:00 AM to 12:00 AM	
Headways	30 Min		60 Min		30 Min		30 Min		15 Min - Weekdays until 7 PM.	
									20 Min – Weekdays after 7 PM & weekends	

\*Travel time comparison offered for information purposes only.

<sup>1</sup>**Tri Delta Transit:** Fares are one-way and do not include senior/passengers with disabilities discounts or passes/bulk passes. For those continuing a trip from BART, Tri Delta Transit provides a discount fare of \$1.25 for a BART transfer.

**BART:** Fares are based on BART's current distance-based fare structure for 2018 using Clipper. One-way fare will cost an additional \$0.50 per trip if using mag-stripe paper ticket. Fares do not include senior/passengers with disabilities or youth discounts.

<sup>2</sup>**Tri Delta Transit:** Calculations (rounded) were made using averaged bus travel times between hours of 5 AM-8 AM and 4:45 PM-7:45 PM, weekdays from schedules posted on 08/2017. These are the peak AM and PM periods for BART to Antioch based on a 2016 BART C-line vehicle load study (attached as Appendix D).

**BART:** AM and PM one-way travel time includes transfer time.

<sup>9</sup> While the 2017 Title VI Civil Rights Program Update to the FTA uses BART AM peak time of 6:41 AM-9:41 AM and PM peak time of 4:00 PM-7:00 PM, a BART to Antioch ridership projection analysis conducted in 2016 found that the AM and PM Peak times used throughout this Title VI analysis were the appropriate peak periods to use specifically for the Project. The BART to Antioch ridership projection analysis can be found in Appendix C.

**Table 1b: Alternate Modes Service Levels\***

Service Parameter	Existing Service between Antioch Parking Lot and Pittsburg Center Station Only								BART to Antioch	
	Tri Delta Transit Route 380		Tri Delta Transit Bus Route 388		Tri Delta Transit Bus Route 390		Tri Delta Transit Bus Route 391		BART 2/3-DMU Train Consists	
Minimum Fares <sup>1</sup>	\$2.00		\$2.00		\$2.00		\$2.00		\$2.00	
One-Way Travel Time <sup>2</sup>	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM
	92 Min	106 Min	68 Min	64 Min	39 Min	37 Min	32 Min	27 Min	6 Min	8 Min
Hours of Operation	3:00 AM to 11:30 PM (weekdays)		5:00 AM to 11:30 PM (weekdays)		4:30 AM to 8:30 PM (weekdays)		4:00 AM to 1:15 AM (weekdays)		4:00 AM to 12:00 AM	
Headways	30 Min		60 Min		30 Min		30 Min		15 Min - weekdays until 7PM.	
									20 Min – weekdays after 7PM & weekends	

\*Travel time comparison offered for information purposes only.

<sup>1</sup>**Tri Delta Transit:** Fares are one-way and is not including senior/passengers with disabilities discounts or passes/bulk passes. For those continuing a trip from BART, Tri Delta Transit provides a discount fare of \$1.25 for a BART transfer.

**BART:** Fares are based on BART's current distance-based fare structure for 2018 using Clipper. One-way fare will cost an additional \$0.50 per trip if using mag-stripe paper ticket. Fares do not include senior/passengers with disabilities or youth discounts.

<sup>2</sup>**Tri Delta Transit:** Calculations (rounded) were made using averaged bus travel times between hours of 5 AM-8 AM and 4:45 PM-7:45 PM, weekdays from schedules posted on 08/2017. These are the peak AM and PM periods for BART to Antioch based on a 2016 BART C-line vehicle load study (attached as Appendix D).

**Table 1c: Alternate Modes Service Levels\***

Service Parameter	Existing Service between Pittsburg Center Station and Pittsburg/Bay Point BART Only										BART to Antioch	
	Tri Delta Transit Route 380		Tri Delta Transit Bus Route 387		Tri Delta Transit Bus Route 388		Tri Delta Transit Bus Route 390		Tri Delta Transit Bus Route 391		BART 2/3-DMU Train Consists	
Minimum Fares <sup>1</sup>	\$2.00		\$2.00		\$2.00		\$2.00		\$2.00		\$2.00	
One-Way Travel Time <sup>2</sup>	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM
	30 Min	32 Min	34 Min	38 Min	21 Min	22 Min	10 Min	8 Min	13 Min	12 Min	9 Min	8 Min
Hours of Operation	3:00 AM to 11:30 PM (weekdays)		4:45 AM to 9:15 PM (weekdays)		5:00 AM to 11:30 PM (weekdays)		4:30 AM to 8:30 PM (weekdays)		4:00 AM to 1:15 AM (weekdays)		4:00 AM to 12:00 AM	
Headways	30 Min		60 Min		60 Min		30 Min		30 Min		15 Min - weekdays until 7PM.	
											20 Min – weekdays after 7PM & weekends	

\*Travel time comparison offered for information purposes only.

<sup>1</sup>**Tri Delta Transit:** Fares are one-way and is not including senior/passengers with disabilities discounts or passes/bulk passes. For those continuing a trip from BART, Tri Delta Transit provides a discount fare of \$1.25 for a BART transfer.

**BART:** Fares are based on BART's current distance-based fare structure for 2018 using Clipper. One-way fare will cost an additional \$0.50 per trip if using mag-stripe paper ticket. Fares do not include senior/passengers with disabilities or youth discounts.

<sup>2</sup>**Tri Delta Transit:** Calculations (rounded) were made using averaged bus travel times between hours of 5 AM-8 AM and 4:45 PM-7:45 PM, weekdays from schedules posted on 08/2017. These are the peak AM and PM periods for BART to Antioch based on a 2016 BART C-line vehicle load study (attached as Appendix D).

**BART:** AM and PM one-way travel time includes transfer time.

Tables 1a-1c show that in both the AM and PM commute hours, a passenger traveling between Antioch Parking Lot and Pittsburg/Bay Point BART, or between Pittsburg Center Station and Pittsburg/Bay Point BART, or between Antioch Parking Lot and Pittsburg Center Station, will arrive at their destination station faster than riding on any available Tri Delta Transit bus route. The only exception is for a passenger riding on Tri Delta Transit bus 390 in the PM commute hours from Pittsburg/Bay Point BART Station to Pittsburg Center Station, which takes the same amount of time (8 minutes) as riding on the BART to Antioch train.

### 2.2.1 Tri Delta Transit Express Bus 300

Tri Delta Transit Express Bus 300 provides express routes directly from the Antioch Parking Lot to Pittsburg/Bay Point BART Station (and vice versa). Because Express Bus 300 does not stop at Pittsburg Center Station, which is a stop on the BART to Antioch extension, it was not included in the charts above, all of which are comparable to the BART to Antioch route in that there is a stop at Pittsburg Center Station. However, Express Bus 300 is important because most commuters ride this express bus as it is currently the fastest way for them to get between Antioch Parking Lot and Pittsburg Bay/Point (and vice versa).

Accordingly, relevant information about Express Bus 300 is shown below:

**Table 1d: Tri Delta Transit Express Route 300\***

Service Parameter	Antioch Parking Lot to Pittsburg/Bay Point (Direct)		BART to Antioch (with a stop at Pittsburg Center Station)	
	Tri Delta Transit Express Bus Route 300		BART 2/3-DMU Train Consists	
Minimum Fares <sup>1</sup>	\$2.50		\$2.00	
One-Way Travel Time <sup>2</sup>	AM	PM	AM	PM
	21 Min	20 Min	15 Min	16 Min
Hours of Operation	4:15 AM to 10:00 PM (weekdays)		4:00 AM to 12:00 AM	
Headways	20 Min		15 Min -weekdays until 7PM.	
			20 Min – weekdays after 7PM & weekends	

\*Travel time comparison offered for information purposes only.

<sup>1</sup>**Tri Delta Transit:** Fares are one-way and is not including senior/passengers with disabilities discounts or passes/bulk passes. For those continuing a trip from BART, Tri Delta Transit provides a discount fare of \$1.75 for a BART transfer.

**BART:** Fares are based on BART's current distance-based fare structure for 2018 using Clipper. One-way fare will cost an additional \$0.50 per trip if using mag-stripe paper ticket. Fares do not include senior/passengers with disabilities or youth discounts.

<sup>2</sup>**Tri Delta Transit:** Calculations (rounded) were made using averaged bus travel times between hours of 5 AM-8 AM and 4:45 PM-7:45 PM, weekdays from schedules posted on 08/2017. These are the peak AM and PM periods for BART to Antioch based on a 2016 BART C-line vehicle load study (attached as Appendix D).

**BART:** AM and PM one-way travel time includes transfer time.

Because Express Bus 300 does not make any stops between Antioch Parking Lot and Pittsburg/Bay Point (and vice versa), its average AM and PM peak travel times are significantly shorter than the average travel times of the other buses shown in Tables 1a-1c above. However, BART to Antioch riders will still experience shorter trip times (even with an extra stop at Pittsburg

Center Station) than a rider on Express Bus 300. For AM peak, BART to Antioch riders will experience a 6 minute or 29% reduction in travel time, and for PM peak, BART to Antioch riders will experience a 4 minute or 20% reduction in travel time. (See Table 5a.2 in Section 4.2, Travel Time Assessment Findings).

Note that taking the Express Bus 300 also costs more than the Tri Delta Transit minimum fare, at \$2.50 rather than \$2.00, which is also higher than BART's minimum fare (using Clipper). Additionally, for a rider continuing a trip from BART, the Tri Delta Transit BART transfer rate is also higher, at \$1.75 rather than its usual \$1.25 BART transfer rate for its other buses.

Because BART to Antioch will be a smoother transition to BART, the fares will be cheaper than taking the Express Bus 300, and because most riders are already heading to or from Pittsburg/Bay Point BART, Express Bus 300 riders are assumed to be the projected BART to Antioch riders. Outreach (including one at the Antioch Parking Lot where people were waiting for Express Bus 300) also showed that people would switch to BART to Antioch for these reasons. The following comment is transcribed as written by the survey taker.

- *"I catch the express bus from Antioch now so this is more cost effective for me."*

Tri Delta Transit has not indicated that they will discontinue any of the bus routes described above once BART to Antioch revenue service commences for the Project, however, bus stop changes and schedule changes will be made to account for BART to Antioch service. A final schedule from Tri Delta Transit will not be released until BART to Antioch revenue service begins. In anticipation of BART to Antioch service, Tri Delta Transit conducted its own Title VI service equity analysis- "Bus Route Evaluation and Redesign Title VI Service Change Equity Analysis." For more information on Tri Delta Transit bus routes, schedules, or the analysis, please refer to the Tri Delta Transit website at [www.trideltatransit.com](http://www.trideltatransit.com).

## 2.3 Prospective Project Ridership

When analyzing the effects of the Project service it is important to consider prospective ridership. The prospective ridership of the Project is anticipated to be riders who currently use the Pittsburg/Bay Point Station.<sup>10</sup> A demographic profile has been developed for the prospective ridership of the BART to Antioch stations, based on population data using the ACS 2011-2015.

### 2.3.1 Definitions

For this analysis, BART’s five-county service area definitions and thresholds for minority and low-income populations are used. The definitions and thresholds are described as follows:

- **Minority Definition:** Pursuant to the Circular and Federal guidelines, minority populations are defined as individuals who have identified themselves to be American Indian and Alaska Native; Asian; Black or African American; Hispanic or Latino; or Native Hawaiian or Other Pacific Islander.
- **Low-Income Definition:** BART defines the low-income populations as those who are at or below 200 percent of the poverty level established for households by the Department of Health and Human Services (HHS) poverty guidelines. This assumption is more inclusive of low-income populations, accounting for higher incomes in the Bay Area as compared to the rest of the United States. The 200 percent threshold is also consistent with the Metropolitan Transportation Commission’s definition. This definition takes into account both the household size and household income; the combinations of household size and income that are defined as “low-income” are as follows in Table 2:

**Table 2: 2016 Poverty Guidelines: Federal\* and the BART Service Area**

Persons in family/household	Poverty Guideline (Federal)	200% (BART Service Area)
1	\$11,880	\$23,760
2	\$16,020	\$32,040
3	\$20,160	\$40,320
4	\$24,300	\$48,600
5	\$28,440	\$56,880
6	\$32,580	\$65,160
7	\$36,730	\$73,460
8	\$40,890	\$81,780

\*For the 48 Contiguous States and the District of Columbia  
Source: U.S. Department of Health & Human Services.

<sup>10</sup> A 2016 BART to Antioch ridership projection analysis projected steady growth of BART to Antioch ridership through 2030. The analysis can be found in Appendix C.

BART's five-county service area minority population is 62.4% and five-county service area low-income population is 24.8% (American Community Survey [ACS] 2011-2015).

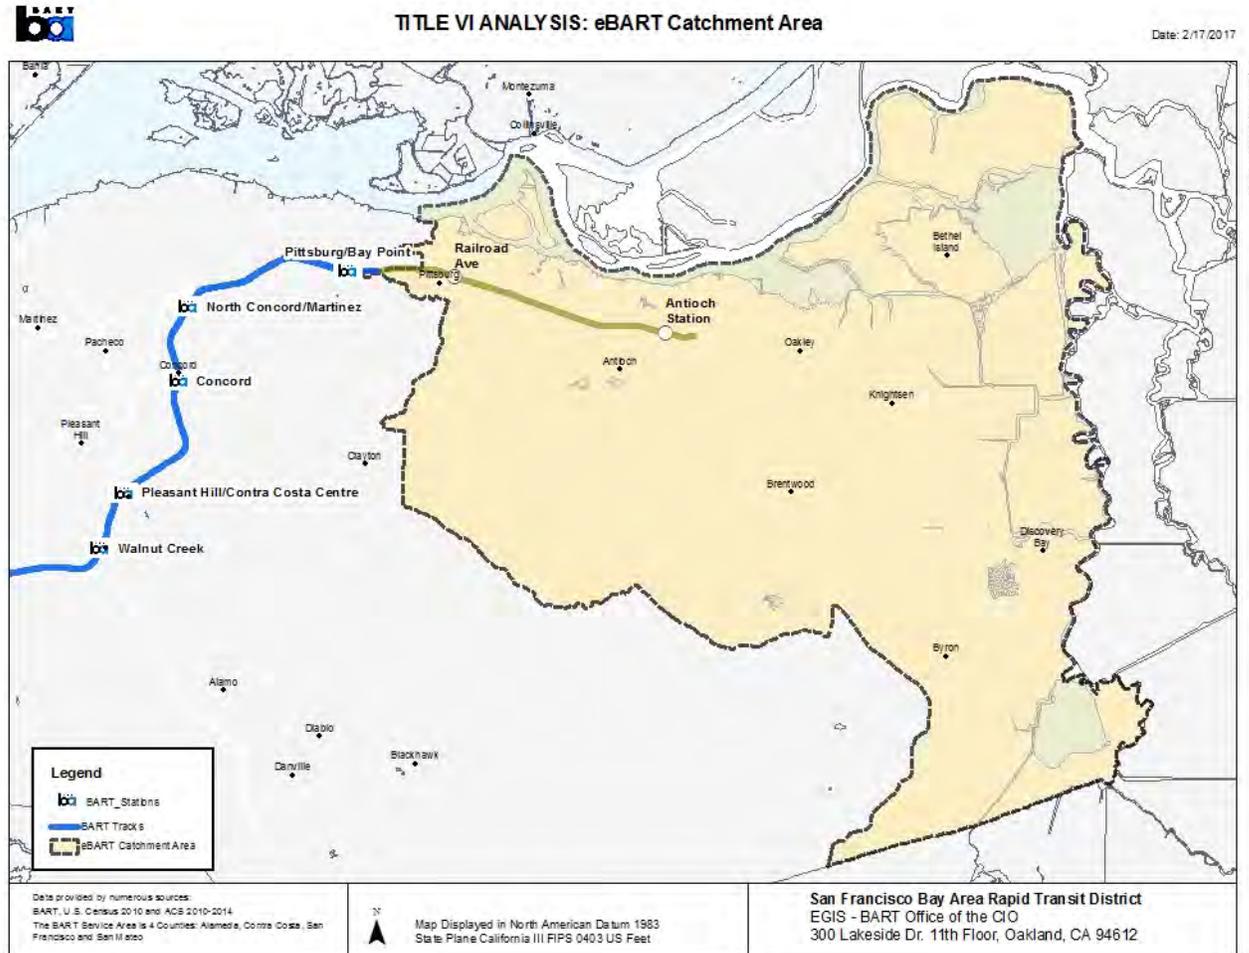

***2.3.2 Project Catchment Area:***

The BART to Antioch Stations' prospective ridership is projected to come largely from areas designated in Figure 2 as the BART to Antioch catchment area. A detailed methodology of how the Project catchment area was developed is in Section 3 of this report. In developing the project catchment area, the goal was to define an area where a majority of riders will reside.

***2.3.3 Prospective Project Ridership Demographics:***

Based on an analysis of census data covering the catchment area, prospective ridership for the BART to Antioch stations is projected to be 60.6% minority and 30.1% low-income.

**Figure 2: BART to Antioch Catchment Area**

**2.3.4 Ridership Data:**

Ridership data is gathered via surveys. Ridership demographics were collected through a public outreach survey, distributed in August 2017, targeted at current and potential BART riders. Surveys were distributed at outreach events at the North Concord and Pittsburg/Bay Point BART Stations, the Antioch BART parking lot, and through online surveys.

The survey instrument was designed to generate a profile of current and future BART riders who might be impacted by the opening of the new BART to Antioch Stations. The survey was used to determine riders' existing travel behaviors, solicit input on future travel choices in the context of new stations in Pittsburg Center and Antioch, and solicit feedback on applying BART's distance-based fare structure to the new station. A total of 375 surveys were collected (339 responses from the online survey). Note that as the purpose of this survey was to collect public input, it was open to everyone and was not based on a random sample. As such, these survey results

can't be projected to the overall population, and statistical calculations such as margins of error can't be computed.

Ridership demographics collected from the survey are displayed below in Table 3. For further information about the BART to Antioch Title VI outreach, please see the attached BART to Antioch Public Participation Report.

**Table 3: Survey Demographic Summary  
All Respondents\***

	Percent	Sample Size
<b>Gender</b>		
Male	48.2%	
Female	47.2%	
Another Gender	3.8%	
<b>Total</b>	<b>100%</b>	<b>375</b>
<b>Ethnicity</b>		
White	49.6%	
Black/African American	15.7%

\*Note: Due to rounding, percentages may not add to 100%; sample sizes vary between categories as not all survey questions were answered.

\*\*Low-income and non-low-income percentages are determined by factoring in household size with annual household income.

## Section 3: Methodology

---

The methodology used for this study analyzes the effect of the new service and new fare on minority and low-income riders. Pursuant to the Title VI Circular, BART staff developed major service change and fare change methodologies that were reviewed and approved by the FTA in May 2013 and January 2014. The latest Title VI Civil Rights Program (Triennial Update) was submitted to the FTA in January 2017 and is currently under FTA review. This 2017 update also includes a Board approved revised Major Service Change Policy. No changes were made to the major service change and fare change methodologies in this latest Triennial Update from the previous FTA approved update.

BART's Title VI service and fare methodologies are also consistent with BART's DI/DB Policy. The Board adopted this Policy on July 11, 2013 following extensive public engagement that included staff presentations to the Title VI/ Environmental Justice Advisory Committee and focus group meetings with local transportation equity advocacy groups.<sup>11</sup>

<sup>11</sup> Additionally, the DI/DB Policy was posted on [bart.gov](http://bart.gov) and social media outlets such as Facebook and Twitter, and a corresponding webinar was available on BART TV via YouTube.

## 3.1 New Service Analysis

Pursuant to the Title VI Circular and BART's DI/DB Policy, BART's New Service Analysis will include a demographic and travel time assessment of the BART to Antioch catchment area. This section describes the methodology to complete both assessments.

### **3.1.1 Demographic Assessment:**

- Description: The New Service Demographic Assessment compares the proportion of minority and low-income populations projected to use the new Project to BART's five-county minority and low-income populations.
- Data Used: American Community Survey (ACS) 2011-2015.
- Requirement: Pursuant to the FTA Title VI Circular and BART's DI/DB Policy Section 3(a), a demographic assessment is required for any major service change.

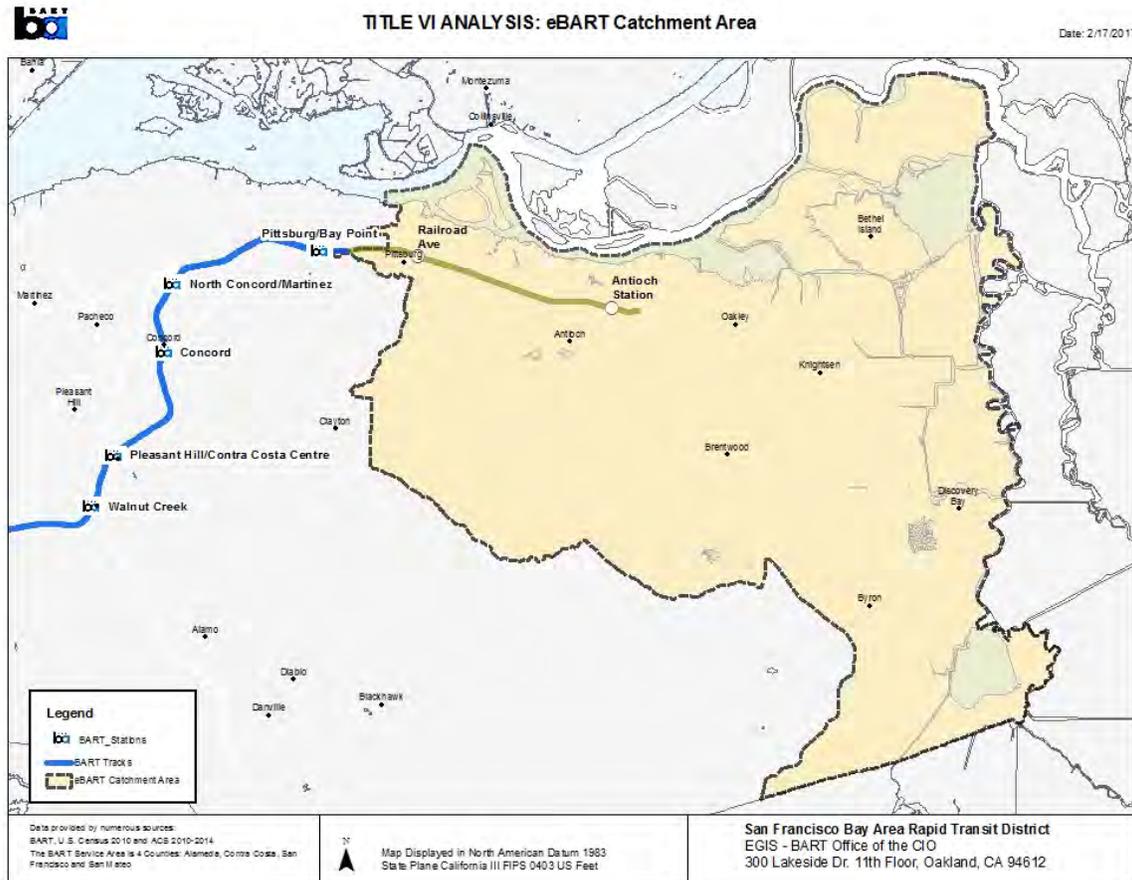

#### **Step 1: Identify the Data Source**

ACS 2011-2015 data was used to project potential riders using the Antioch and Pittsburg Center Stations. ACS 2011-2015 provides population and demographic data at the census tract level in the BART to Antioch catchment area.

#### **Step 2: Determine Project Catchment Area**

The project catchment area is shown again in Figure 3.

**Figure 3: BART to Antioch Catchment Area**

The project catchment area used for this analysis is based on the definition used in the 2011 eBART Title VI Service Impacts Analysis Report-Analysis for Hillcrest Avenue Station<sup>12</sup> (2011 Hillcrest Title VI analysis) and on a BART to Antioch ridership projection analysis conducted in 2016.

**2011 Hillcrest Title VI Analysis**

In the 2011 Hillcrest Title VI analysis, data was gathered from two primary sources: the 2008 BART Station Profile Survey (SPS) and 2000 U.S. Census. The 2000 U.S. Census data provided an extensive set of demographic data at the census tract level in the eBART<sup>13</sup> catchment area, which included significant populations of minorities and low-income individuals. The U.S. Census data captured these entire population sets, which was then applied to SPS data to confirm that the appropriate census tracts were assigned to the proper station. The vast availability of data in the U.S. Census set was combined with the BART specific questions of the

<sup>12</sup> Hillcrest Avenue Station was later renamed Antioch Station; a copy of the 2011 Hillcrest Analysis is available upon request to BART’s Office of Civil Rights.

<sup>13</sup> The term eBART is interchangeable with BART to Antioch.

SPS to define a reliable and more complete data set for the analysis. All population figures for this analysis, including those that reference "with eBART," in the 2011 Hillcrest Title VI analysis used 2000 U.S. Census data.

For reference, the study area was defined based on the 2008 Station Profile Survey, which indicated that 92 percent of ridership to and from the Pittsburg/Bay Point Station was home-based and located in eastern Contra Costa County in the cities of Pittsburg, Brentwood, Antioch and Oakley, as well as unincorporated communities such as Byron and Discovery Bay. Census tracts included in the study area were within close proximity to the future eBART station and included existing BART riders.

For the 2011 Hillcrest Title VI analysis, it was assumed that Pittsburg Bay-Point BART Station riders would switch to eBART in areas located close to the new station. This assumption was confirmed by the ridership forecasts developed using the Contra Costa Transportation Authority (CCTA) model during the BART to Antioch EIR process in 2008. The Hillcrest catchment represented the area where most Hillcrest Avenue station users' origins and destinations are located and is defined by census tract.

- Hillcrest Catchment Area - The Hillcrest Station catchment area includes census tracts in the eastern part of Pittsburg<sup>14</sup> to the eastern edge of Contra Costa County and includes the cities of Antioch, Brentwood, Oakley, and portions of Byron. The west side of the catchment area includes census tracts extending approximately three miles west of the Hillcrest Avenue Station. The catchment area was determined based on transit trip generation from each Transportation Analysis Zone (TAZ) to the station.

### **2016 BART to Antioch Ridership Projection Analysis**

In 2016, a ridership projection analysis conducted on model results were adjusted based on revisions to the 2006 land use projections reflected in the 2013 projections. The original CCTA model run included SR 4 highway improvements, which include the widening of the highway and addition of carpool lanes to ease traffic congestion.

Changes in the number of households were analyzed, as well as changes in Pittsburg/Bay Point ridership between the eBART projections in the 2008 EIR and 2015, comparing projected changes in households and actual increases in ridership. It was found that 2003 Association of Bay Area Governments (ABAG) population, household and job projections in Eastern Contra Costa County that were used for eBART ridership projections done in 2008 are higher than actual 2010 and 2014 US Census figures as well as revised 2013 ABAG projections.

<sup>14</sup> The 2011 Hillcrest Title VI analysis did consider that there may have been a potential station at Pittsburg Center Station, but did not include the catchment areas surrounding the station. The 2016 BART to Antioch ridership projection analysis did account for the area around the Pittsburg Center Station which is the catchment area used in this analysis.

The 2016 BART to Antioch ridership projection analysis uses the same catchment area as in the 2011 Hillcrest Title VI analysis, but is expanded to include the Pittsburg Center Station.

### **2017 Title VI Equity Analysis**

This equity analysis uses the same catchment area as proposed in the 2016 BART to Antioch ridership projection analysis (which was based off the 2011 Hillcrest Title VI analysis) because it includes Pittsburg Center Station. However, the minority and low-income demographic data has been updated with ACS 2011-2015 data. The last US Census was in 2010 so updated ACS data was used for this Equity Analysis. Per the Title VI Circular, ACS data may be used between decennial censuses (Title VI Circular, Chap. IV-8).

### **Step 3: Determine the share of protected riders for the Project Catchment Area**

For this analysis, BART's five-county service area definitions and thresholds for minority and low-income populations are used. Each census tract within the study area was analyzed to determine if the percentage of minority and low-income populations exceeded the five-county service area average based on the minority and low-income population definitions and thresholds defined in Section 2.3. Below, Figures 4 and 5, display census tracts within the catchment area where the percentage of minority and low-income populations exceeded the five-county service area average.

**Figure 4: Percent Minority by Census Tract**

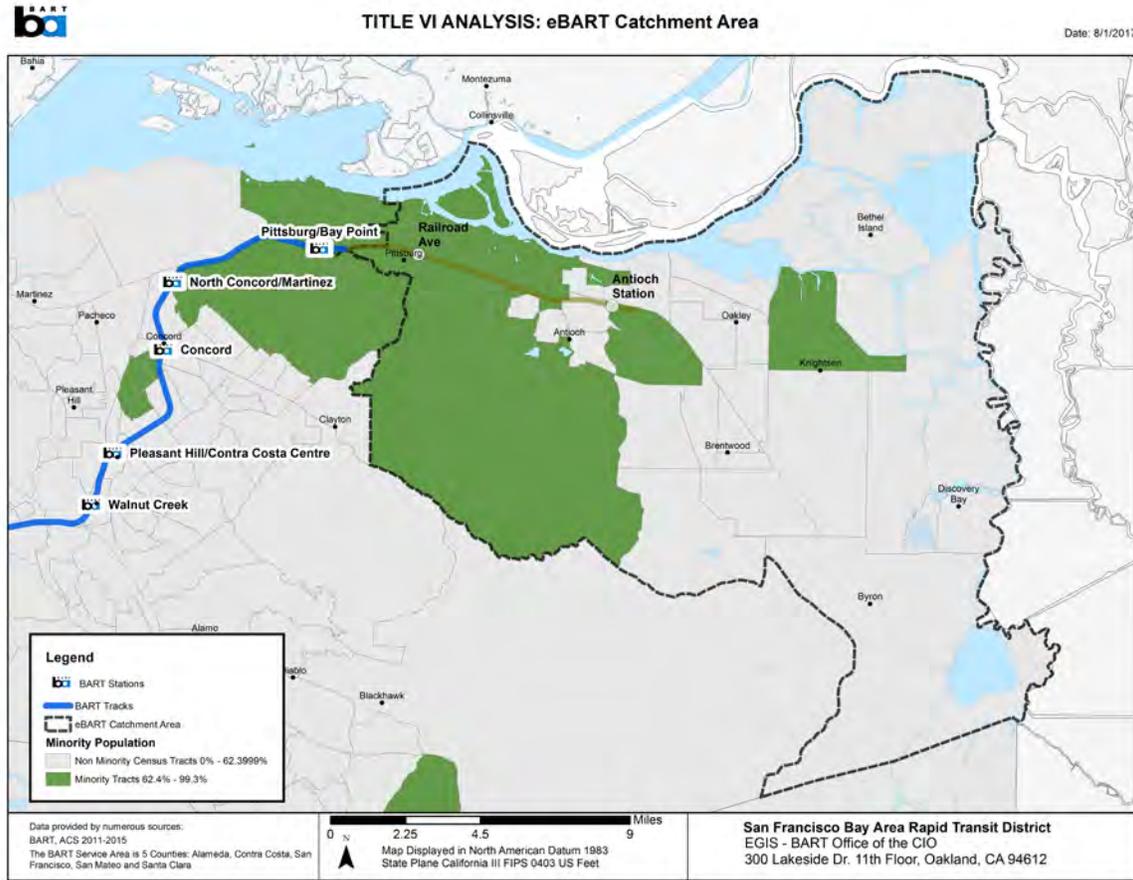

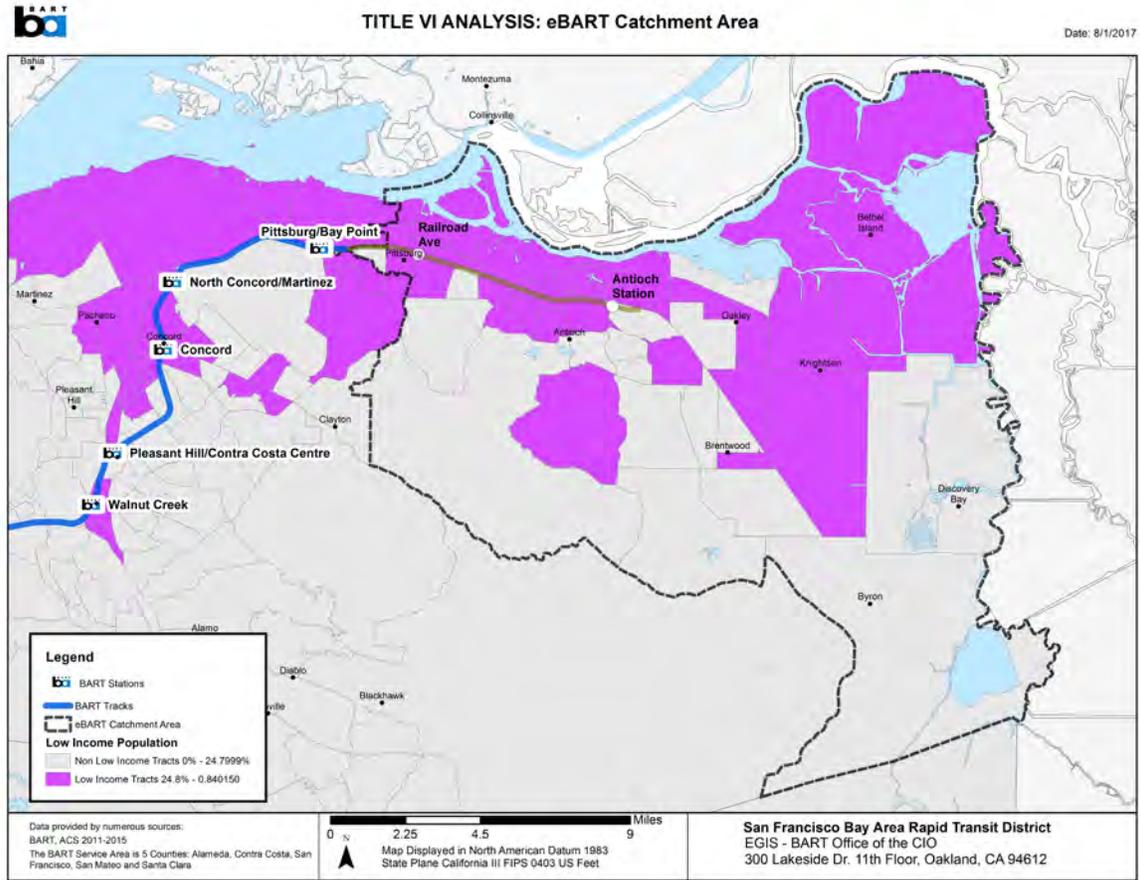

Figure 5: Percent Low-Income by Census Tract

#### **Step 4: Determine the share of protected riders for overall BART ridership**

For the New Service Demographic Assessment, BART's system-wide minority and low-income populations was determined by the ACS 2011-2015. According to the ACS 2011-2015, BART's five-county service area minority population is 62.4% and BART's five-county service area low-income population is 24.8%.

#### **Step 5: Apply BART's Disparate Impact and Disproportionate Burden Policy**

Pursuant to the Circular, BART must evaluate impacts of proposed service changes using its DI/DB Policy. In applying the DI/DB Policy, the determination is made as to whether the difference between the affected service's protected population (minority or low-income) share and overall system's protected population (minority or low-income) share exceeds the 10% new service threshold set forth in the DI/DB Policy. Note, a 10% difference is not considered a disparate impact if the new service benefits protected populations. For this new service affected populations include ridership for the new service and include ridership for any existing lines where service will change because of the new service. For a new service demographic assessment, a disparate impact to minority riders or a disproportionate burden on low-income riders may be found if the difference is 10% or more.

#### **Step 6: Alternative Measures**

If this service impact assessment finds that minority populations experience disparate impacts from the proposed service change, BART will take steps to avoid, minimize, or mitigate these disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority populations, pursuant to FTA Circular 4702.1B, BART may proceed with the proposed major service change only if BART can show:

- A substantial legitimate justification for the proposed Project service change exists; and
- There are no alternatives serving the same legitimate objectives that would have a less disproportionate impact on protected populations.

If the assessment finds that low-income populations experience a disproportionate burden from the proposed new service, pursuant to FTA Circular 4702.1B, BART should take steps to avoid, minimize, or mitigate these impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the proposed new service.

#### **3.1.2 Travel Time Assessment: BART to Antioch Catchment Area**

- Description: The New Service Travel Time Assessment compares the travel time between the Proposed Antioch and Pittsburg Center Stations and the existing Pittsburg/Bay Point Station before and after the new service.
- Data Used: American Community Survey (ACS) 2011-2015 and Tri Delta Transit Existing Bus Schedules.
- Requirement: Pursuant to the Title VI Circular and BART's DI/DB Policy Section 3(a), a travel time assessment is required for any major service change and US Census population data should be used for this analysis.

### **Step 1: Identify the Data Source**

ACS 2011-2015 data was used to project potential riders using the BART to Antioch Station. The ACS 2011-2015 provides population and demographic data at the census tract level in the BART to Antioch catchment area.

Travel time data for BART service between the proposed BART to Antioch Stations has been provided by BART's Operations Planning Department. Tri Delta Transit's existing bus transit schedule as of August 2017 is used to determine alternative travel times.

### **Step 2: Determine Project Catchment Area**

The project catchment area is the same as defined above in section 3.1.1 Demographic Assessment.

### **Step 3: Determine the share of protected riders for the Project Catchment Area**

For this analysis BART's five-county service area definitions and thresholds for minority and low-income populations are used (Section 2.3). According to ACS 2011-2015, BART's five-county service area minority population is 62.4% and five-county service area low-income population is 24.8%.

Based on 2011-2015 ACS data the minority population for the BART to Antioch is 60.6%; and the low-income population for BART to Antioch is 30.1%.

### **Step 4: Determine the percent change in travel time, before and after service change**

The New Service Travel Time Assessment compares the travel times between the proposed Antioch and Pittsburg Center Stations and the existing Pittsburg/Bay Point Station before and after the Project new service for populations within the catchment area. Existing travel times are based on existing Tri Delta Transit bus routes running from Antioch Station and/or Pittsburg Center Station and the Pittsburg/Bay Point Station.

The Tri Delta Transit bus routes from Antioch Parking Lot and/or Pittsburg Center Station to Pittsburg Bay/Point Station are the 380, 387, 388, and 391 routes; the average AM and PM travel times along this route are listed in Table 2. Travel times with the Project new service were provided by BART's Operations Planning Department.

The existing and future travel times are assigned to the protected and non-protected populations within the catchment area. Travel times for minority and low-income populations are compared to the travel time for non-minority and non-low-income populations.

### **Step 5: Apply BART's Disparate Impact and Disproportionate Burden Policy**

Pursuant to the Title VI Circular, BART must evaluate impacts of proposed service changes using its DI/DB Policy. In applying the DI/DB Policy, the determination is made as to whether the difference between the affected service's protected population (minority or low-income) share and overall system's protected population (minority or low-income) share exceeds the 10% new service threshold set forth in the DI/DB Policy. Note, a 10% difference is not considered a disparate impact

if the new service benefits protected populations. For this new service affected populations includes ridership for the new service and includes ridership for any existing lines where service will change because of the new service. For new service demographic assessment, a disparate impact to minority riders or a disproportionate burden on low-income riders may be found if the difference is 10% or more.

#### **Step 6: Alternative Measures**

If this travel time assessment finds that minority populations experience disparate impacts from the proposed service change, BART will take steps to avoid, minimize, or mitigate these disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority populations, pursuant to Title VI Circular, BART may proceed with the proposed major service change only if BART can show:

- A substantial legitimate justification for the proposed Project service change exists; and
- There are no alternatives serving the same legitimate objectives that would have a less disproportionate impact on protected populations.

If the assessment finds that low-income populations experience a disproportionate burden from the proposed new service, pursuant to Title VI Circular, BART should take steps to avoid, minimize, or mitigate these impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the proposed new service.

## Section 4: Service Analysis Findings

---

The findings from the New Service Change Analysis indicate that BART to Antioch Extension Project service will not result in a disparate impact to minority riders nor will it disproportionately burden low-income riders.

## 4.1. Demographic Assessment Findings:

### 4.1.1 Projected Ridership, New Service

The New Service Demographic Assessment estimates the proportion of minority and low-income populations projected to use the new BART to Antioch Station, as compared to BART's five-county minority and low-income populations. The demographic assessment evaluates whether the projected riders benefitting from the new BART to Antioch service are predominantly minority or low-income when compared to BART's five-county system-wide population, based on ACS 2011-2015 data. The assessment also evaluates whether riders who may be adversely affected by a service option are disproportionately minority or low-income. The results of this assessment are shown in Table 4.

**Table 4: Protected Share of Ridership**

	<b>BART Five-County Service Area</b>	<b>BART to Antioch Catchment Area</b>	<b>Percent Difference</b>
Minority	62.4%	60.6%	1.8%
Low-Income	24.8%	30.1%	-5.3%

The projected minority ridership for the BART to Antioch is slightly less minority than the BART five-county service area threshold, with a 1.8% difference. Because the catchment area is less minority than BART five-county service area, it does not exceed BART's DI/DB Policy and therefore the ridership is not disproportionately or predominantly minority riders.

The share of the Project ridership that is low-income when compared to BART's five-county service area protected ridership does not exceed the DI/DB Policy's 10% threshold: the low-income ridership is higher by 5.3%. Since the DI/DB Policy's 10% threshold is not exceeded, the finding is made that the ridership is not disproportionately or predominantly low-income. Regardless of whether the new service benefits or burdens its prospective ridership, such benefit or burden would not be disproportionately borne by low-income riders.

### 4.1.2 Existing Line Ridership:

Per the DI/DB Policy, a disproportionate impact or disproportionate burden results when adverse effects of a service change are disproportionately borne by protected populations. Here, the new service will not adversely affect its protected ridership, originating from the BART to Antioch catchment area, because the Project will provide better service, frequent headways, and travel time savings. Instead, the projected ridership, which is predominantly minority and low-income, will enjoy new benefits as a result of the change. Accordingly, no disproportionate impact was found on protected populations because the service change will benefit, not burden, its

predominantly protected ridership.<sup>15</sup> Therefore, minority riders will not experience a disparate impact and low-income riders will not experience a disproportionate burden from the Project.

<sup>15</sup> For more information on the C-line vehicle load, please see Appendix D.

## 4.2 Travel Time Assessment Findings

The travel assessment compares the estimated travel time for riders affected by the service change before and after the new service. This assessment consists of two parts. First, travel times between the proposed Antioch & Pittsburg Center Stations and the existing Pittsburg Bay/Point Station are compared before and after the new service for protected and non-protected populations.<sup>16</sup> Second, estimated travel times for existing riders affected by the service change are compared before and after the new service, based on the proposed service plan. (See Section 2.2 Alternative Modes). The results of this assessment are shown below in Tables 5a-5c.

**Table 5a.1: Travel Time Assessment: Protected and Non-Protected Populations (Between Antioch Parking Lot and Pittsburg/Bay Point BART with One Stop at Pittsburg Center Station)**

	Average AM Travel Time Min (Existing) <sup>1</sup>	Average AM Travel Time Min (Future)	Time Difference	Percent Change	Average PM Travel Time Min (Existing) <sup>1</sup>	Average PM Travel Time Min (Future)	Time Difference	Percent Change
Entire Population	76	15	-61	80%	74	16	-58	78%
Minority Population	76	15	-61	80%	74	16	-58	78%
Non-Minority Population	76	15	-61	80%	74	16	-58	78%
<b>Difference between Minority and Non-Minority</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>
Low-Income Population	76	15	-61	80%	74	16	-58	78%
Non-Low-Income Population	76	15	-61	80%	74	16	-58	78%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>

<sup>1</sup>Average rounded travel time combines Tri Delta Transit bus routes 380, 388, 390, and 391.

For riders traveling between the Antioch Parking Lot to Pittsburg/Bay Point BART (with a stop at Pittsburg Center Station), with Project service, protected and non-protected populations during AM peak period are expected to experience the same time savings of 61 minutes between Antioch and Pittsburg/Bay Point Station; an 80% reduction in travel time. Protected and non-protected populations during PM peak period are expected to experience the same time savings of 58 minutes between Antioch and Pittsburg/Bay Point Station; a 78% reduction in travel time.

<sup>16</sup> Protected populations refer to minority and low-income populations. Non-protected populations refer to non-minority and non-low-income populations.

**Table 5a.2: Travel Time Assessment: Protected and Non-Protected Populations  
(Tri Delta Transit Express Route 300)**

	Average AM Travel Time Min (Existing)	Average AM Travel Time Min (Future)	Time Difference	Percent Change	Average PM Travel Time Min (Existing)	Average PM Travel Time Min (Future)	Time Difference	Percent Change
Entire Population	21	15	-6	29%	20	16	-4	20%
Minority Population	21	15	-6	29%	20	16	-4	20%
Non-Minority Population	21	15	-6	29%	20	16	-4	20%
<b>Difference between Minority and Non-Minority</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>
Low-Income Population	21	15	-6	29%	20	16	-4	20%
Non-Low-Income Population	21	15	-6	29%	20	16	-4	20%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>

Tri Delta Transit Express Bus 300 provides express routes directly from the Antioch Parking Lot to Pittsburg/Bay Point BART Station (and vice versa). Because Express Bus 300 does not stop at Pittsburg Center Station, which is a stop on the BART to Antioch extension, it was not included in the average bus times in Table 5a.1 above, all of which are comparable to the BART to Antioch route in that there is a stop at Pittsburg Center Station. However, Express Bus 300 is important because most commuters ride this express bus as it is currently the fastest way for them to get between Antioch Parking Lot and Pittsburg Bay/Point (and vice versa).

Because Express Bus 300 does not make any stops between Antioch Parking Lot and Pittsburg/Bay Point (and vice versa), its average AM and PM peak travel times are significantly shorter than the average travel times of the other buses in Table 5a.1 above. However, BART to Antioch riders will still experience shorter trip times (even with an extra stop at Pittsburg Center Station) than a rider on Express Bus 300. Protected and non-protected populations during AM peak period are expected to experience the same time savings of 6 minutes; a 29% reduction in travel time. Protected and non-protected populations during PM peak period are expected to experience the same time savings of 4 minutes; a 20% reduction in travel time.

**Table 5b: Travel Time Assessment: Protected and Non-Protected Populations  
(Between Antioch Parking Lot and Pittsburg Center Station Only)**

	Average AM Travel Time Min (Existing) <sup>1</sup>	Average AM Travel Time Min (Future)	Time Difference	Percent Change	Average PM Travel Time Min Existing) <sup>1</sup>	Average PM Travel Time Min (Future)	Time Difference	Percent Change
Entire Population	57	6	-51	89%	58	8	-50	86%
Minority Population	57	6	-51	89%	58	8	-50	86%
Non-Minority Population	57	6	-51	89%	58	8	-50	86%
<b>Difference between Minority and Non-Minority</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>
Low-Income Population	57	6	-51	89%	58	8	-50	86%
Non-Low-Income Population	57	6	-51	89%	58	8	-50	86%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>

<sup>1</sup>Average rounded travel time combines Tri Delta bus routes 380, 388, 390, and 391.

For riders traveling between the Antioch Parking Lot to Pittsburg Center Station, with Project service, protected and non-protected populations during AM peak period are expected to experience the same time savings of 57 minutes between Antioch Parking Lot and Pittsburg Center Station; an 89% reduction in travel time. Protected and non-protected populations during PM peak period are expected to experience the same time savings of 50 minutes between Antioch and Pittsburg/Bay Point Station; an 86% reduction in travel time.

**Table 5c: Travel Time Assessment: Protected and Non-Protected Populations  
(Between Pittsburg Center Station and Pittsburg/Bay Point BART Only)**

	Average AM Travel Time Min (Existing) <sup>1</sup>	Average AM Travel Time Min (Future)	Time Difference	Percent Change	Average PM Travel Time Min (Existing) <sup>1</sup>	Average PM Travel Time Min (Future)	Time Difference	Percent Change
Entire Population	21	9	-12	57%	22	8	-14	64%
Minority Population	21	9	-12	57%	22	8	-14	64%
Non-Minority Population	21	9	-12	57%	22	8	-14	64%
<b>Difference between Minority and Non-Minority</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>
Low-Income Population	21	9	-12	57%	22	8	-14	64%
Non-Low-Income Population	21	9	-12	57%	22	8	-14	64%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.0%</b>

<sup>1</sup>Average rounded travel time combines Tri Delta bus routes 380, 387, 388, and 390.

For riders traveling between Pittsburg Center Station to Pittsburg/Bay Point BART, with Project service, protected and non-protected populations during AM peak period are expected to experience the same time savings of 12 minutes between Pittsburg Center Station and Pittsburg/Bay Point Station; a 57% reduction in travel time. Protected and non-protected populations during PM peak period are expected to experience the same time savings of 14 minutes between Antioch and Pittsburg/Bay Point Station; a 64% reduction in travel time.

These results find that the Project would benefit all populations, including minority and low-income, within the Project catchment area.

Since protected and non-protected populations experience the same travel time savings in all 3 routes, the DI/DB Policy's 10% threshold is not exceeded. The finding is made that minority populations will not experience a disparate impact and low-income populations will not experience a disproportionate burden with the new service.

### 4.3 Project Benefits and Burdens

Under the New Service analyses performed, the Project would benefit all populations, including minority and low-income communities in the surrounding areas. Minority and low-income populations will not only have improved access to transit (the new BART extension will add an additional transportation mode to the BART to Antioch area) but will also experience travel time savings. For example, for a rider traveling between Antioch Parking Lot to Pittsburg/Bay Point Station, headways will be reduced by over 78% (Table 5a.1), and there will be enhanced service consistency due to consistent headways and the fact that the BART to Antioch extension, as a new fixed guideway is not dependent on road or traffic conditions compared to alternate modes serving the area (Tables 1a-1d).

Public comments collected by BART during its outreach in August 2017 support the findings that the new service would benefit, not adversely affect all riders; and therefore, there is no disparate impact on minority populations and no disproportionate burden on low-income populations.

Feedback was generally positive for the opening of the new BART to Antioch Stations. All comments throughout this analysis was transcribed as written by the public. Comments showed that people were willing to pay to use the new stations and parking:

- *“BART is convinient (sic) and accessible. I'd pay any reasonable price to use it.”*
- *“Coming from Brentwood, I would gladly pay the additional to be able to park at Antioch Station.”*

Customers did, however, have concerns about other aspects of BART to Antioch, including capacity on the trains:

- *“You need to add more trains and you need to remove more seats. There is not enough capacity during the heavy commute hours. All lines need more capacity. Multiple trains are too full to take passengers wishing to board in am and pm commutes. Capacity expansion is big issue. Also reconsider bikes during commute - those are creating serious space issues.”*
- *“They [fares] should be higher. New riders overload the system with people in W Oakland not even able to get on some times. They also take all seats which take most room.”*

Survey respondents were diverse and represented protected populations (see Table 4). For more information on the BART to Antioch Title VI public participation please refer to the attached BART to Antioch Public Participation Report.

## 4.4 Conclusion

In accordance with FTA Circular 4702.1B, and as outlined in paragraph 3 of BART's DI/DB Policy, and using BART's FTA concurred Service Methodology, any major service change must be assessed using two separate analyses, a demographic assessment and a travel time assessment. Section 4, as described above completes both of these analyses. The demographic assessment did not find a disproportionate adverse impact on protected riders.

The travel time evaluation was conducted of the average travel time between the Project locations and Pittsburg/Bay Point BART Station, comparing the average travel time with and without the new Project on protected and non-protected riders. The results of the travel time assessment show that protected and non-protected riders are anticipated to experience almost equal reductions to travel time with the Project service and will not result in an adverse impact to minority or low-income riders. Accordingly, the proposed Project's new service will not result in a disparate impact to minority riders nor will it disproportionately burden low-income riders but rather will provide a benefit to projected riders by offering faster, more frequent service, to Project riders who are minority and/or low-income.

## Section 5: Fare Analysis Findings

---

This section reports on the demographics of BART to Antioch study area populations compared to BART's overall ridership to determine if the projected BART to Antioch ridership is more minority or low-income than BART's system-wide ridership. This section also includes a description of the proposed fare-setting for the new BART to Antioch service and an equity finding regarding the proposed fare-setting.

## 5.1 BART to Antioch Study Area Populations: Demographic Data Source

Demographics for BART to Antioch study area populations are provided by responses to surveys administered in 2017. BART used a survey to solicit input from the public, which was inclusive of minority, low-income, and Limited-English proficient populations. The survey was designed to generate a profile of BART riders, especially current riders and potential riders who could use the new BART service to Antioch.

The survey was distributed and collected at three outreach events hosted by BART with information tables where staff spoke directly with customers and communities that will be directly affected by the new BART service to Pittsburg Center and Antioch and its related service changes. Outreach for the Project consisted of informing the BART to Antioch community of the new service and the application of BART's existing distance-based fare structure to this new service.

Outreach events were scheduled at various times, the morning and evening weekday commutes, in an effort to reach the largest audience. They were held on the following dates and locations with available on-site Spanish interpreters:

- North Concord BART Station: Tuesday, August 15, 5-7 PM
- Antioch BART Parking Lot: Thursday, August 17, 6-8 AM
- Pittsburg/Bay Point BART Station: Wednesday, August 23, 6:30-8:30 AM

The surveys and project fact sheet were available in hard copy in English, Spanish, and Chinese, at the three outreach events. Postcards in English (front side) Spanish, and Chinese (back side) with the survey link ([www.bart.gov/antiochsurvey](http://www.bart.gov/antiochsurvey)) were distributed to riders who were unable to stop and take the survey in person. The postcards also had language assistance taglines in English, Spanish, Chinese, Korean, Tagalog, and Vietnamese.

Additionally, the survey, project fact sheet, and project website link were available online at [bart.gov/guide/titlevi](http://bart.gov/guide/titlevi) for the public to view and provide feedback. The survey link and surveys were posted online from Monday, August 14, 2017, to Friday, September 1, 2017 and were available in English, Spanish and Chinese.

Outreach events and survey links were advertised widely to the public online, via email, and through ethnic media. Surveys were also distributed to BART's Title VI/EJ and LEP Advisory Committees for distribution to the community. For more information please see the attached BART to Antioch Public Participation Report.

## 5.2 Survey Findings: Demographics

The 2017 results for the BART to Antioch study area populations are compared to 2016 Customer Satisfaction Survey results, which report on BART's overall ridership.

### 5.2.1 Minority

A "non-minority" classification refers to those who identified themselves in the survey as "white." A "minority" classification includes the combined responses from all other races or ethnic identities. Respondents to the 2017 survey are 54% minority compared to 63.3% of BART riders who are minority, based on results from BART's 2016 Customer Satisfaction Survey.

### 5.2.2 Income

To determine if a survey respondent is "low-income," BART and the Metropolitan Transportation Commission (MTC) consider both the respondent's household size and income level. Consistent with BART's Title VI Triennial Program standards, low-income is defined as 200% of the federal poverty level. This broader definition is used to account for the region's higher cost of living when compared to other regions. Approximating 200% of the federal poverty level is done by considering both household size and household income of respondents to the 2016 Customer Satisfaction Survey. The table below shows the household size and household income combinations that comprise "low-income."

**Table 6**

LOW INCOME	
Household Size	Household Income
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

As an example, a household of two or more people with an income of \$33,000 would be considered low-income. According to 2016 Customer Satisfaction Survey responses, 26.4% of BART riders are considered low income.

The eight income ranges used in the 2016 Customer Satisfaction Survey are the following:

- Under \$25,000
- \$25,000-\$34,999
- \$35,000-\$39,999
- \$40,000-\$49,999
- \$50,000-\$59,999
- \$60,000-\$74,999
- \$75,000-\$99,999
- \$100,000+

The results of the above demographic analysis are summarized in Table 7 below.

**Table 7: Demographic Analysis**

	2017 BART to Antioch Equity Analysis Survey	2016 Customer Satisfaction Survey	% Difference
Minority	<b>54%</b>	<b>63.3%</b>	<b>-9.3%</b>
Low-Income	<b>17.3%</b>	<b>26.4%</b>	<b>-9.1%</b>

These results indicate that BART to Antioch 2017 survey respondents are less minority (by 9.3%) and less low-income (by 9.1%) than BART's overall ridership.

Comments from the 2017 BART to Antioch survey are outlined in section 5.3 below.

## 5.3 Survey Findings: Public Outreach

### 5.3.1 2017 BART to Antioch Survey

The 2017 outreach survey included a question asking respondents to provide any general comments about BART's proposed fares for BART to Pittsburg Center and Antioch Stations. Note that as the purpose of this survey was to collect public input, it was open to everyone and was not based on a random sample. As such, these survey results can't be projected to the overall population, and statistical calculations such as margins of error can't be computed.

Approximately 26.4% of survey respondents (sample size 375) are in favor of BART extending its distance-based fare structure to apply to the Project. Of these survey respondents, 53.3% were minority and 46.6% were non-minority. 10% of these respondents were low-income and 90% were non-low-income.

However, while 26.4% were in favor of extending the distance-based fare structure, that does not mean that everyone else who took the survey opposed the distance-based fare structure. In fact, close to half of survey respondents, 46.4% or 174 respondents, chose not to comment regarding the BART to Antioch fares (either leaving it blank or indicating they had no comments), which can indicate neutrality or potentially some level of acceptance. A small number, 8%, or 30 respondents, wrote comments unrelated to the fares.

Finally, 19.2%, or 72 respondents, were opposed to the distance-based fare structure. Of these survey respondents, 68.1% were minority and 31.9% were non-minority. 15.3% of these respondents were low-income and 84.7% were non-low-income.

Comments regarding the Project's proposed fares included:

- *"I think the increases to use e-BART to Pittsburg & Antioch is a very fair price."*
- *"Sounds reasonable"*
- *"I have never taken any public means of transportation going to work aside from BART. I think it is still the most affordable means of public transportation."*
- *"Those rates are pretty high. A lot of commuters already struggle to pay the fares that are already in place."*

## 5.4 Alternative Transit Modes Including Fare Payment Types

BART operates a heavy rail system, as well as an automated people mover that links the BART Coliseum Station and Oakland International Airport. BART to Antioch is a DMU light rail system. Tri Delta Transit provides bus service between the existing Pittsburg Bay/Point Station and the new BART to Antioch Stations with these routes: 380, 387, 388, 391. As mentioned earlier, Tri Delta Transit does have planned schedule and route changes for these routes, but will not release the changes until BART to Antioch revenue service opens. The changes as they impact BART thus cannot be assessed in this analysis.

Table 8 shows BART's proposed fares for service between Pittsburg/Bay Point Station and BART to Antioch Stations as of January 2018 and fares for comparable Tri Delta Transit service. This chart is applicable to those who are traveling only from Pittsburg/Bay Point to Pittsburg Center or Antioch, or vice versa.

**Table 8**

	<b>Local Cash Fare</b>	<b>Day Pass</b>
<b>BART: Pittsburg/Bay Point to Pittsburg Center Station</b>	\$2.00*	N/A
<b>BART: Pittsburg/Bay Point to Antioch Station</b>	\$2.00*	N/A
<b>Tri Delta Transit: Routes 380, 387, 388, 390, 391</b>	\$2.00	\$3.75

BART is proposing to charge its minimum fare of \$2.00 (as of January 2018) when the rider uses a Clipper card<sup>17</sup> for a BART trip that begins at Pittsburg/Bay Point and ends at either Pittsburg Center Station or Antioch Station (or vice versa), which is equivalent to Tri Delta Transit's cash and Clipper fare of \$2.00.

Table 9 shows the incremental fares proposed to be charged for trips between the rest of the system (except for Pittsburg/Bay Point) and Pittsburg Center and Antioch stations. For example, the fare for a trip between Embarcadero and Pittsburg/Bay Point will be \$6.70 effective January 2018. The additional fare proposed to be charged to get the rider beyond Pittsburg/Bay Point to Pittsburg Center is \$0.15, for a total fare of \$6.85. \$0.15 is the incremental fare for approximately 85% of trips, and \$0.20 is charged for remaining trips.

The additional fare proposed to be charged to extend this trip from Pittsburg/Bay Point to Antioch Station is \$0.80, for a total fare of \$7.50 between Embarcadero and Antioch. \$0.80 is the incremental fare for approximately 85% of trips, and \$0.85 is charged for remaining trips.

<sup>17</sup> BART riders using a mag-stripe paper ticket will have to pay an additional \$0.50 per trip.

The nickel difference in these two cases is due to rounding to the nearest nickel, which is part of BART existing distance-based fare structure. Each of these incremental amounts is lower than Tri Delta Transit’s local cash BART transfer fare. Tri Delta Transit currently offers a reduced fare of \$1.25 instead of \$2.00 for those riders who are exiting a Pittsburg/Bay Point Station and continuing their trip on a Tri Delta Transit bus.

**Table 9**

	<b>Fare</b>
<b>BART to Pittsburg Center Station</b>	\$0.15 or \$0.20 (Distance-based)
<b>BART to Antioch Station</b>	\$0.80 or \$0.85 (Distance based)
<b>Tri Delta Transit: Routes 380, 387, 388, 390, 391</b>	\$1.25 (Tri Delta BART transfer)

The East Bay Suburban Zone fare has been part of BART’s fare structure since 1975, and the minimum fare is charged for trips in the zone that range from 6.3 miles to 13.0 miles on the Pittsburg/Bay Point, Fremont, Richmond and Dublin/Pleasanton lines, and now BART to Antioch. BART’s minimum fare is usually charged for trips of six miles or less. The East Bay Suburban Zone fare was intended to build ridership between suburban stations and in so doing also to promote trip-making that fills a BART seat twice during a single run in the peak period.

Survey takers noted that the distance-based fare would be cheaper than taking Tri Delta Transit:

- *“Seems reasonable. This is actually lower than rumored rate increases. Also cheaper than riding Tri Delta express bus route.”*

A rider could pay a fare using Tri Delta Transit’s day pass that would be less expensive than the \$2.00 or the \$0.15/\$0.80 incremental BART fare only if they took more than a certain number of trips on a given day, as shown in Table 10:

**Table 10**

<b>Tri Delta Transit Day Pass</b>	<b>\$2.00* Min BART Fare Rider Takes</b>	<b>\$0.15 Incremental Fare BART Rider Takes</b>	<b>\$0.80 Incremental Fare BART Rider Takes</b>
\$3.75	2+ trips per day	25+ trips per day	5+ trips per day

\*Using Clipper. Proposed one-way fares are \$2.00 with Clipper and an additional \$0.50 per trip with a mag-stripe paper ticket.

Therefore, the proposed fares for trips between the new BART to Antioch Stations and Pittsburg/Bay Point, which are calculated using BART's existing distance-based fare structure and paid for with the Clipper card, will not be more expensive than fares for existing transit alternatives.

## 5.5 Proposed Fares for BART to Antioch Stations

Proposed fares for service between the Pittsburg/Bay Point Station and the new stations in Pittsburg and Antioch would be calculated by applying BART's existing distance-based fare structure. For example, the current fare between Pittsburg/Bay Point Station and Embarcadero Station is \$6.70. The fare difference between Pittsburg/Bay Point Station and Pittsburg Center Station for a trip to Embarcadero Station is proposed to be \$0.15 more, or \$6.85. The fare difference between Pittsburg/Bay Point Station and Antioch Station for a trip to Embarcadero Station is proposed to be \$0.80 more, or \$7.50

As Pittsburg Center and Antioch Stations are East Bay stations, the East Bay Suburban Zone fare (equal to the January 2018 minimum fare of \$2.00 and applied to certain other East Bay station fares) is proposed. BART's minimum fare is usually charged for trips of six miles or less. The East Bay Suburban Zone fare would be charged for BART to Antioch trips between six and 13 miles, as shown in the table below:

**Table 11**

<b>Trip between:</b>	<b>Distance</b>
Pittsburg Center and Antioch	6.2 miles
Pittsburg Center and North Concord	7.8 miles
Pittsburg Center and Concord	10.0 miles
Pittsburg/Bay Point and Antioch	9.1 miles

No new surcharges are proposed to be assessed for trips to or from the BART to Antioch Stations.

Thus, the BART to Antioch fare-setting proposal applies BART's existing distance-based fare structure and so would not be a fare change; it would not increase or decrease BART's distance-based fares. Additionally, while BART to Antioch is a new fare for new service, it is comparable to new fares for similar new service recently opened by BART, such as for Warm Springs/South Fremont Station. The minimum fare between the recently opened Warm Springs/South Fremont Station and the adjacent station at Fremont will be \$2.00 as of January 2018, identical to the fare proposed for the trip between Pittsburg/Bay Point and the BART to Antioch Stations. In addition, the fare between East Dublin Station and West Dublin/Pleasanton, another of BART's newer stations, will be \$2.00 as of January 2018. West Dublin/Pleasanton fares also have the East Bay Suburban Zone fare applied so that the minimum fare is charged for a trip between the West Dublin/Pleasanton Station and its other adjacent station, Castro Valley.

## 5.6 Equity Finding for Proposed BART to Antioch Fares

The proposed BART to Antioch fares would not change BART's existing distance-based fare structure; BART's distance-based fares would not increase or decrease. As BART's distance-based fare structure is unchanged, there is no disproportionately adverse effect on minority and/or low-income riders because the same minority and/or low-income riders will enjoy the benefits of new rail service and improved travel times.

Public input confirmed this finding. In the 2017 surveys, a little over a quarter of surveyed riders (approximately 26.4%) assessed the proposed fare as reasonable and not adverse. Of these survey respondents, 53.3% were minority and 46.6% were non-minority. 10% of these respondents were low-income and 90% were non-low-income.

However, while 26.4% were in favor of extending the distance-based fare structure, that does not mean that everyone else who took the survey opposed the distance-based fare structure. In fact, close to half of survey respondents, 46.4% or 174 respondents, chose not to comment regarding the BART to Antioch fares (either leaving it blank or indicating they had no comments), which can indicate neutrality or potentially some level of acceptance.

A small number, 8%, or 30 respondents, wrote comments unrelated to the fares. Finally, 19.2%, or 72 respondents, were opposed to extending the distance-based fare structure. Of these survey respondents, 68.1% were minority and 31.9% were non-minority. 15.3% of these respondents were low-income and 84.7% were non-low-income.

In the 2011 Hillcrest survey,<sup>18</sup> while a higher number of survey takers believed the fares was too high, note that the 2018 fares from Pittsburg/Bay Point Station to Antioch are proposed to only be \$0.80 or \$0.85. The current proposed fares of \$0.80 or \$0.85 are much lower than the \$2.25 proposed in 2011 and in line with what most survey takers in 2011 requested.

As previously stated, both new stations will have Clipper-only vending machines with no on-site station agent. District add-fare machines (AFMs) have traditionally only accepted cash payment to add sufficient fare to mag-stripe tickets or to the Clipper card for exit at BART gates. This can present a problem for customers not having sufficient fare with no cash on hand. To address this issue for Project riders, BART has modified AFMs for the BART to Antioch stations to allow customers to add sufficient fare to their mag-stripe ticket or Clipper card using credit cards. This effort should mitigate any potential impacts on BART to Antioch customers.

Customers will have access to courtesy phones that go directly to the BART to Antioch Control Center which is manned 24 hours a day. There are also emergency phones at the stations that go directly to the BART Police Department. The new stations will also have roving supervisors that will be at the stations or available to respond if necessary. Staff is working on implementing language assistance measures for its limited English proficient customers.

<sup>18</sup> The 2011 Hillcrest survey data is being used for informational and supportive purposes only; the data is not current per the Title VI Circular.

## 5.7 Conclusion

The analysis shows that the BART to Antioch service does not disproportionately adversely affect minority and/or low-income riders. As stated previously, all riders will enjoy the benefits of new rail service and improved travel times.

# Appendix A: 2017 BART to Antioch Survey

---

# New BART Service to Antioch and Pittsburg Center Stations

**Comments and Feedback** Please answer the questions below. Your answers will help us evaluate how well we're reaching the communities we serve. BART values your input. Information will be treated confidentially.

### USAGE OF BART

- Which BART station do you usually enter when making a trip from your home (i.e., your "home" station)?  
\_\_\_\_\_
- At which BART station do you usually exit the system (i.e., your "destination" station)?  
\_\_\_\_\_
- What time of day do you typically use BART? Select all that apply.  
 Morning    Afternoon    Evening    Late night
- Do you plan to use the Antioch and/or Pittsburg Center Station? Select all that apply.  
 Yes, Antioch Station  
 Yes, Pittsburg Center Station  
 Neither, I plan to use: \_\_\_\_\_
- How will you get to the Antioch and/or Pittsburg Center Station? Select all that apply.  
 Walk all the way  
 Bicycle  
 Tri-Delta Transit bus  
 County Connection bus  
 Drive alone  
 Carpool  
 Get dropped-off  
 Uber/Lyft/etc.  
 Taxi  
 Other: \_\_\_\_\_

### SERVICE

- How often do you plan to use the new BART service to/from Antioch and/or Pittsburg Center Stations? Please check one.  
 5 or more days per week  
 1-4 days a week  
 1-3 days a month  
 A few times a year  
 Will not use

### PROPOSED BART FARES AND FARE MEDIA

- Do you currently use a Clipper card to pay your BART fare?  
 No    Yes
- What type of BART fare do you currently pay?  
 Regular BART fare  
 High Value Discount (\$48 or \$64 value)  
 Senior discount  
 Disabled discount  
 Student discount  
 Other: \_\_\_\_\_
- All ticket vending machines at Antioch and Pittsburg Center stations will sell Clipper cards only (no paper BART tickets). Do you have any general comments about this?  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_
- BART plans to extend its distance-based fare structure for the BART to Antioch extension. For example, in 2018, a one-way trip from Pittsburg/Bay Point Station to Embarcadero Station will cost \$6.70.

Continued in next section →

If you need language assistance services, please call 310-464-6732.  
Kung kailangan mo ang tulong ng mga serbiyo ng wika, paki tawagan ang (310) 464-6732.

A trip from Pittsburg Center Station to Embarcadero Station is estimated to cost \$6.85 (\$.15 more) and a trip from Antioch Station to Embarcadero Station is estimated to cost \$7.50 (an additional \$.65). Do you have any general comments about BART's proposed fares for Antioch and Pittsburg Center Stations?  
\_\_\_\_\_  
\_\_\_\_\_

### PARKING

- Do you currently park at a BART station or plan to use BART parking?  
 Yes    No
- If yes, please tell us the station where you park or plan to park:  
\_\_\_\_\_
- BART may charge up to \$3 for parking at Antioch Station and Pittsburg Center Station. These fees are consistent with most stations in the BART system. Do you have any general comments about BART's proposed parking fee at these stations?  
\_\_\_\_\_  
\_\_\_\_\_

### PLEASE TELL US ABOUT YOURSELF

- What is your gender?  
 Male    Female    Another gender: \_\_\_\_\_
- NOTE: Please answer BOTH Questions 15 and 16.*
- Are you of Hispanic, Latino or Spanish origin?  
 No    Yes
  - What is your race or ethnic identification? (Check one or more. Categories based on US Census.)  
 White  
 Black/African American  
 Asian or Pacific Islander  
 American Indian or Alaska Native  
 Other (specify): \_\_\_\_\_
  - Do you speak a language other than English at home?  
 No    Yes → Language: \_\_\_\_\_
  - If "Yes" to Question 17, how well do you speak English?  
 Very well    Well    Not well    Not at all
  - What is your total annual household income before taxes?  
 Under \$25,000    \$50,000 - \$59,999  
 \$25,000 - \$34,999    \$60,000 - \$74,999  
 \$35,000 - \$39,999    \$75,000 - \$99,999  
 \$40,000 - \$49,999    \$100,000 and over
  - Including yourself, how many people live in your household?  
 1    2    3    4    5    6 or more
  - Do you use a smart phone (can access the internet, download apps, etc.)?  
 No    Yes

Please turn in completed survey to a BART representative. For more information or to complete this survey online please visit [www.bart.gov/antiochsurvey](http://www.bart.gov/antiochsurvey).

홍역이 필요하신 분은, 310-464-6732 로 문의하십시오.

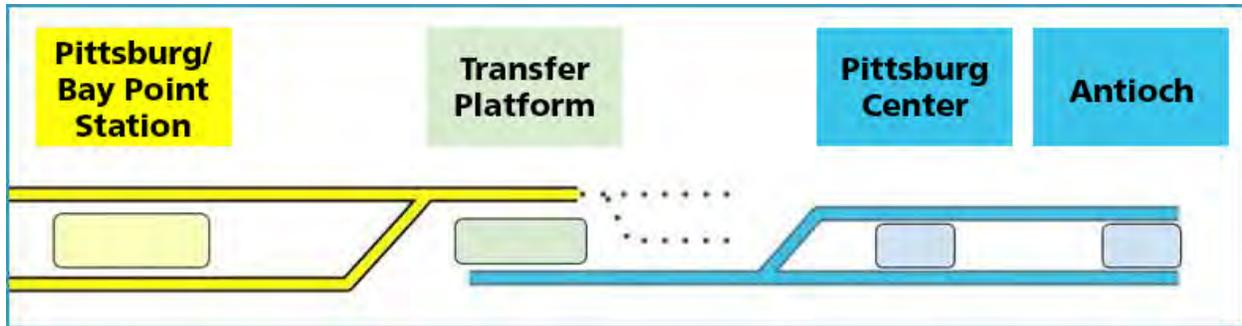

## Appendix B: 2018 Service Plan

---

The Project will add a transfer platform to allow for easy transfer between BART to Antioch and the Pittsburg/Bay Point-SFO Trains. The diagram below illustrates the transfer platform.

### **Travel Times**

Westbound passengers traveling towards SFO will have the following estimated travel times:

- Antioch → Pittsburg Center: 6 min
- Pittsburg Center → Pittsburg/Bay Point (includes transfer time): 9 min
- Total trip time: 15 min

Eastbound passengers traveling towards Antioch will have the following estimated travel times:

- Pittsburg/Bay Point → Pittsburg Center (includes transfer time): 8 min
- Pittsburg Center → Antioch: 8 min
- Total trip time: 16 min

### **Transfer Times**

The following 2 tables illustrates the proposed transfer times for a two-Diesel Multiple Unit (DMU) train consists or three-DMU train consists. The demand for capacity will determine whether the train will be two-DMU train consists or three-DMU train consists.

Time Period	Toward SFO	Toward Antioch
4AM-12PM	2 min	8 min
12PM-7:30PM	7 min	3 min

In the two-DMU train consists scenario, AM westbound passengers board BART and depart within two minutes. AM eastbound passengers wait for eight minutes on BART train/platform.

Time Period	Toward SFO	Toward Antioch
4AM-12PM	2 min	3 min
12PM-7:30PM	2 min	3 min

In the three-DMU train consists scenario, AM westbound passengers board BART and depart within two minutes. AM eastbound passengers board eBART and depart within three minutes.

# Appendix C: eBART Ridership Projection Analysis

---

March 10, 2016

Page 2

to meet demand assumes that no more than one vehicle is out of service at any one time for unscheduled maintenance. Preventative vehicle maintenance is scheduled to take place outside of the peak periods in the evenings and on weekends.

The parking analysis shows that the parking supply at the Hillcrest station, consisting of approximately 1000 spaces, will likely fill up by 7:00 a.m. in the morning in the opening year. As ridership grows each year, parking supply will fill up earlier in the morning. There is a site that can accommodate another 1,600-space parking facility at the Hillcrest station in the future. It is estimated that this facility would fill-up in the year 2030 by 10:30 a.m.

## Methodology

Updating the ridership forecast involved the following tasks:

1. For the eBART catchment area (see Figure 1), ABAG 2013 Land use projections were compared with 2003 projections, which were used in the last ridership forecast.
2. Recent ridership patterns at Pittsburg/Bay Point station analyzed for entries by time of day to determine when the peak usage is at this station.
3. The Tri-Delta Transit service plan was reviewed for the planned service at the Hillcrest station in the peak period to determine if the anticipated volume passengers transferring to eBART would impact vehicle loading;
4. Vehicle capacity analysis was conducted to determine the load of each peak period train; and
5. Future parking demand at the Hillcrest eBART station was projected.

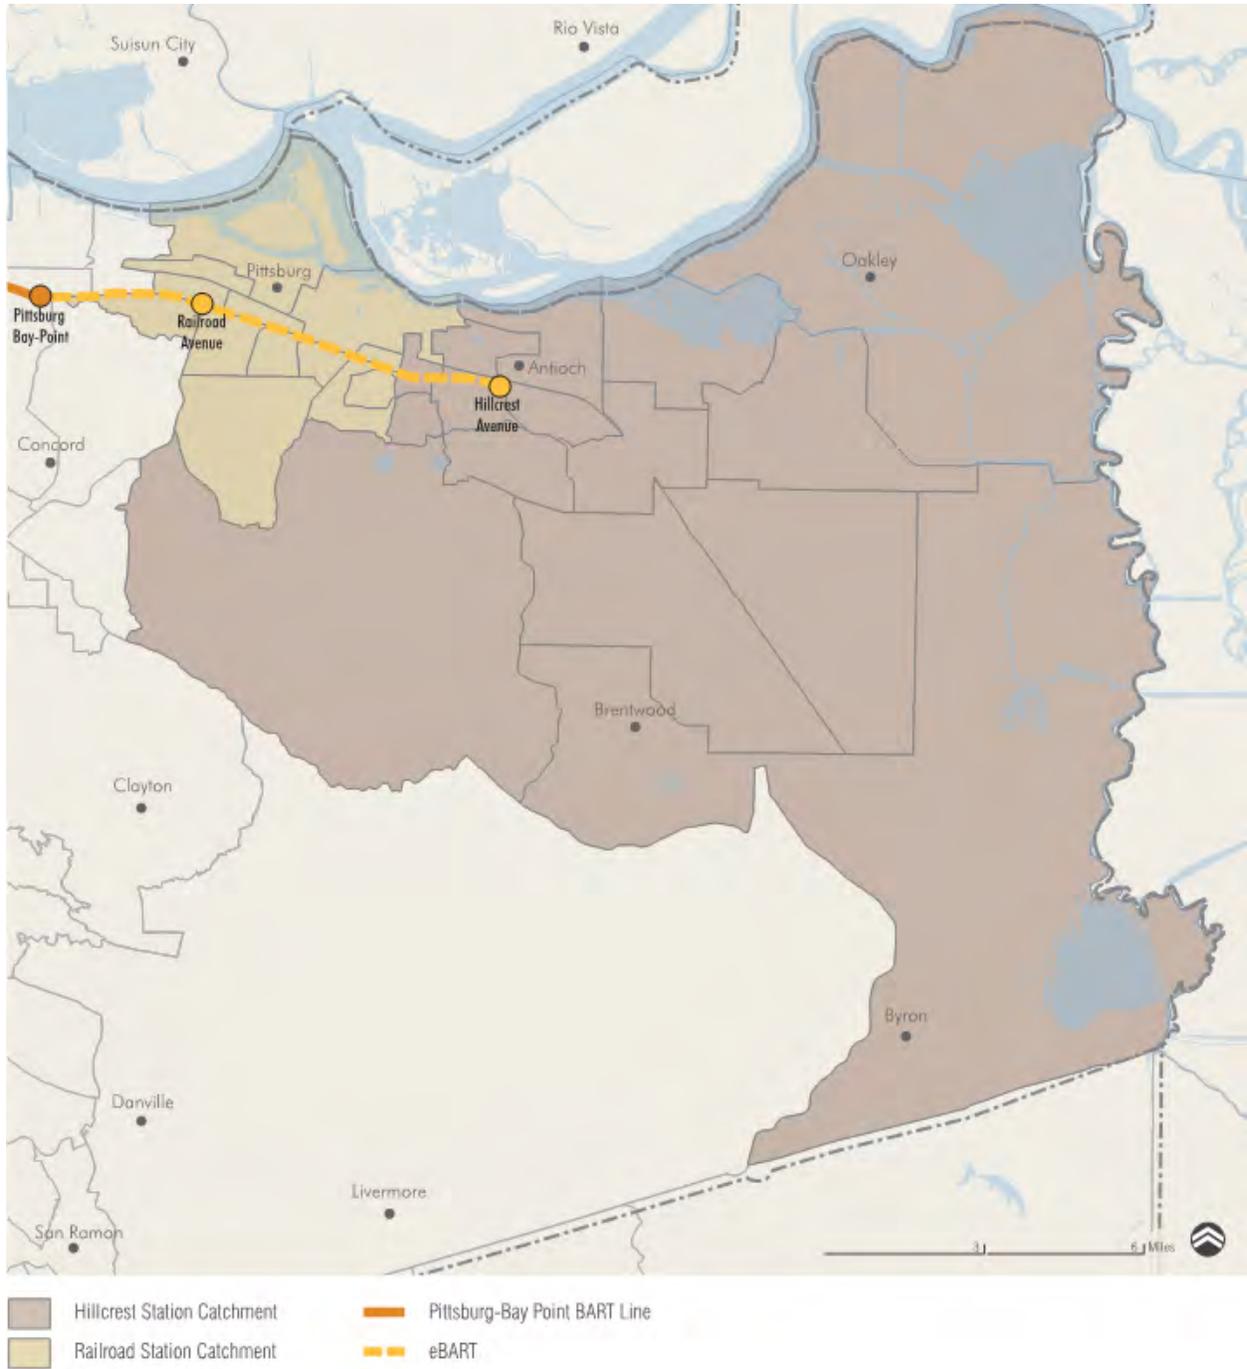

The following is a description of the methodology of each task and the key findings.

### *Land Use Projections*

For this update, the project team agreed not to rerun the Contra Costa Transportation Authority (CCTA) Countywide Transportation Model. Instead, model results were adjusted based on revisions to the 2006 land use projections reflected in the 2013 projections. The original CCTA model run included SR 4 highway improvements, which include the widening of the highway and addition of carpool lanes to ease traffic congestion.

Changes in the number of households were analyzed, as well as changes in Pittsburg/Bay Point ridership between the eBART projections in the EIR and 2015, comparing projected changes in households and actual increases in ridership. It was found that 2003 ABAG population, household and job projections in Eastern Contra Costa County that were used for eBART ridership projections done in 2008 are higher than actual 2010 and 2014 US Census figures as well as revised 2013 ABAG projections.

Figure 1: eBART Catchment Area

March 10, 2016

Page 4

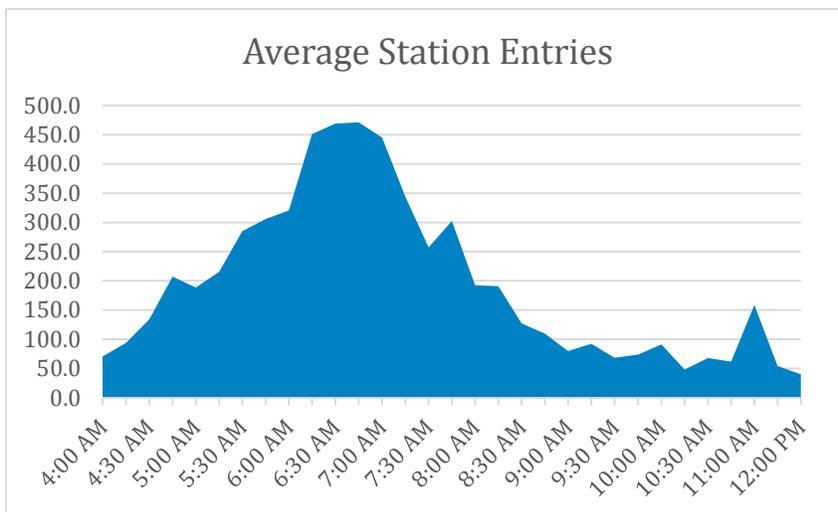

### *Ridership Patterns at Pittsburg/Bay Point Station*

Between 2008 and 2015 BART ridership increased approximately 20 percent at the Pittsburg/Bay Point BART station, likely due to regional job growth.

According to the 2008 Station Profile Survey (SPS), about three quarters of the riders accessing the Pittsburg/Bay Point Station home origin are coming from Railroad or Hillcrest eBART station catchments. In 2008, this accounted for 3,930 passengers.

Ridership data at the Pittsburg/Bay Point station (entries by time on a typical weekday - September 29, 2015 and October 7, 2015) was analyzed to determine when the peak hour takes place. The AM peak hour for Pittsburg/Bay Point station entries is from 6:15 a.m. to 7:15 a.m., when there is an average of over 450 entries every 15 minutes.

*Table 1: Average Number of Weekday Entries at Pittsburg/Bay Point Station (2015)*

Based on the travel time between the Hillcrest Station in Antioch and Pittsburg/Bay Point, our assumption is that Hillcrest Station entries will occur approximately 15 minutes earlier compared than at Pittsburg/Bay Point station. This led to the estimate that the peak hour at Hillcrest station will occur between 6:00 a.m. and 7:00 a.m.

### *Ridership Projections*

The original eBART ridership estimated daily ridership in 2015 (opening year) and 2030. We estimated daily ridership for 2018 (revised opening year) and 2021 by assuming a linear increase in ridership between 2015 and 2030. The purpose of estimating 2021 ridership was to get a sense for vehicle loading after eBART has been in service for several years.

To estimate ridership, daily ridership was adjusted down due to slowed housing growth in the area, but increased due to the travel demand created by regional job growth for riders to BART. The

revised forecast is 5,590 daily passengers on eBART in 2018, 7,000 daily passengers in 2021, and 11,200 daily passengers in 2030.

*Table 2: eBART Daily Ridership Projections by Station and Year*

<b>Year</b>	<b>Railroad Ave. Station</b>	<b>Hillcrest Ave. Station</b>	<b>Total eBART ridership</b>
2018	1050	4540	5590
2019	1140	4920	6060
2020	1230	5300	6530
2021	1320	5680	7000
2022	1410	6060	7470
2023	1500	6440	7940
2024	1590	6820	8410
2025	1680	7200	8880
2026	1770	7580	9350
2027	1860	7960	9820
2028	1950	8340	10290
2029	2040	8720	10760
2030	2100	9040	11140

*Ridership at Peak Load*

The daily ridership estimates were used to determine what the AM peak load on the eBART trains would be after passengers board at Railroad Ave. Station using the methodology from previous analyses. In the previous peak load analysis (WSA, 2009), two peak hour load points were used:

- Low - 22 percent of entries occurring within the Peak Hour; and
- High - 32 percent of entries occurring within the Peak Hour.

Based on current Pittsburg/Bay Point data, 25 percent of entries occur during the peak hour. However, to be conservative, 32 percent was used as the peak hour load point because the peak becomes more pronounced at stations located further east (away from San Francisco). The following table shows the estimated peak load during the AM peak for a two-vehicle train at 160 passenger capacity. The vehicle capacity of 160 passengers was established through a Title VI analysis as the maximum threshold for seated and standing passengers. However, according to the vehicle manufacturer each vehicle can hold up to 200 seated and standing passengers.

*Table 3: Vehicle Loads in the AM Peak Hour by Year, Two-Vehicle Consist*

Year	Peak Train Ridership	Percent Capacity - 2 vehicle-consist (160 passengers)
2018	225	70.3%
2019	243	75.9%
2020	262	81.9%
2021	281	87.8%
2022	300	93.8%
2023	319	99.7%
2024	338	105.6%
2025	357	111.6%
2026	376	117.5%
2027	395	123.4%
2028	413	129.1%
2029	432	135.0%
2030	448	140.0%

At 160 passengers per vehicle, a two-train consist is anticipated to reach maximum seated capacity (99.7 percent) in the year 2023. The ability of three two-vehicle consists to meet demand assumes that no more than one vehicle is out of service at any one time for unscheduled maintenance. Preventative maintenance is scheduled to take place outside of the peak periods in the evenings and on weekends.

*Tri Delta Transit Service Analysis*

Tri Delta Transit currently serves the Pittsburg/Bay Point station and plans to reroute most of these lines to serve the Hillcrest station. Tri Delta Transit service plans were analyzed to see how the arrival of feeder buses at Hillcrest station (all at once or spread out throughout the peak period) might affect ridership on eBART. Based on current plans for future Tri Delta Transit routes, the buses will arrive at various times during the peak hour and will be spread throughout the peak (see

████████████████████  
March 10, 2016

Page 7

*Table 4*). Based on this information, we decided to disperse the 32 percent of current (2015) Tri Delta Transit AM arrivals at Pittsburg/Bay Point station throughout the peak hour in 15-minute increments. The greatest number of buses to arrive within a 15-minute increment would be five buses.

March 10, 2016

Page 8

Table 4: Tri Delta Transit AM Peak Arrivals at Hillcrest eBART station, Antioch

Bus Route	Bus Arrival	eBART Train Departure
300	6:05 AM	6:15 AM
385	6:20 AM	6:30 AM
388	6:20 AM	
380	6:25 AM

379	7:28 AM	
300	7:35 AM	7:45 AM
388	7:50 AM	8:00 AM
380	7:55 AM	
300	8:05 AM	8:15 AM
385	8:20 AM	8:30 AM
388	8:20 AM	
387	8:20 AM	
380	8:25 AM	
300	8:35 AM	8:45 AM
387	8:50 AM	9:00 AM
388	8:50 AM	

Note: TriDelta Transit schedules are not yet set and will be adapted to eBART schedules.

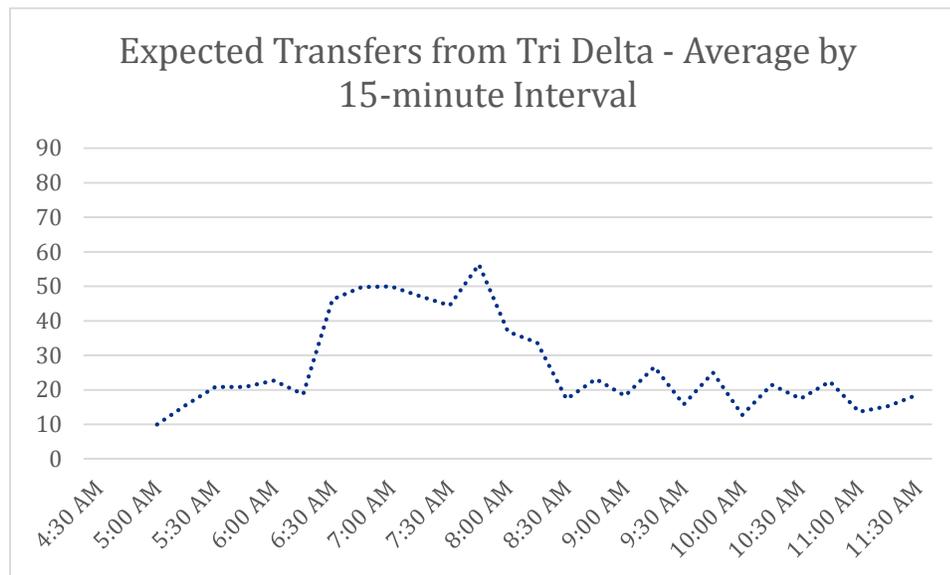

In the DEIR it was estimated that 16 percent of eBART riders would take transit to Hillcrest Station and 10 percent to Railroad Avenue. More recent 2008 SPS data shows that 20 percent of riders currently access the Pittsburg/Bay Point station. Further analysis of Tri Delta ridership (along with a 2014 on-board survey) shows that 1,650 riders use Tri Delta to access BART at the Pittsburg/Bay Point BART Station, which accounts for about 25 percent of entries at that station.

Approximately 900 of the 1,650 Tri-Delta Transit passengers are travelling from the eBART catchment areas and it is assumed they would continue to use Tri-Delta to access eBART. It is assumed that these 900 passengers are already accounted for in the daily ridership estimate for

eBART. The most number of passengers transferring from Tri Delta buses to BART arrive on Route #300.

Based on Tri Delta alightings at the Pittsburg Bay Point Station, it is projected that transit riders will likely arrive later compared to those who arrive at the station by automobile, and arrivals by transit will be more spread out throughout the morning (see Figure 2). In the opening year, the morning peak hour for transfers from Tri Delta Transit riders to eBART is estimated to be between 6:30 a.m. and 7:30 a.m. Given that this estimate is based on Tri Delta Transit ridership at the Pittsburg Bay Point station and a new service plan, the chart presents a moving average trendline of expected arrivals at Hillcrest station, not an exact forecast of passengers by route.

Figure 2: Expected AM Peak Transfers from Tri Delta Transit to eBART at Hillcrest Station by 15-minute Interval (Opening Year)

### Parking Analysis

A high-level parking analysis was conducted to estimate when the 1000-space facility planned at Hillcrest station would fill-up. Current models show that the parking facility at Hillcrest station will become full in the second half of the peak hour around 7:00 a.m. In future years, the lot is anticipated to fill up earlier as ridership increases (see Table 5). The EIR call for plans to provide 2,600 spaces at Hillcrest station by the year 2030 and there is a site that can accommodate a 1,600-space facility. It is assumed that this facility will fill up daily once it is built, as there is high demand for parking system wide. In any year, the actual number of available spaces may be less given that BART has a policy to reserve a percentage of supply for premium permit parking.

March 10, 2016

Page 10

Table 5: Estimated Parking Occupancy at Hillcrest Station by Year and Time of Day

	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
3:45 AM	18	20	21	23	25	26	28	29	31	32	34	35	37
4:00 AM	43	47	50	54	58	61	65	68	72	75	79	82	86
4:15 AM	78	85	91	98	105	111	118	123	130	136	143	149	156
4:30 AM	132	144	154	166	177	188	199	209	220	231	242	253	264
4:45 AM	179	195	208	224	239	254	269	283	298	313	328	343	357
5:00 AM	232	253	270	291	310	330	349	368	387	406	426	445	463
5:15 AM	302	329	352	379	404	430	455	480	505	530	555	580	603
5:30 AM	378	411	440	474	505	537	568	600	631	662	694	725	753
5:45 AM	448	487	522	562	599	637	674	712	749	786	823	860	893
6:00 AM	584	635	681	733	781	830	879	928	977	1025	1073	1122	1164
6:15 AM	724	786	844	908	968	1028	1089	1150	1210				
6:30 AM	865	939	1009	1085	1157								
6:45 AM	966	1048											
7:00 AM	1023												
7:15 AM													

Analysis of overall parking demand shows that demand will outpace supply in the first year of operation. The estimate assumes that 62 percent of riders drive to the station and 5 percent of riders arriving by car are carpoolers. The estimate also assumes that Hillcrest is the end-of-the-line station.

Table 6: Estimated Parking Demand and Parking Deficiency at Hillcrest Station by Year

Year	Parking Demand	Parking Capacity	Parking Deficiency
2018	1,340	1,000	340
2019	1,450	1,000	450
2020	1,560	1,000	560
2021	1,670	1,000	670
2022	1,780	1,000	780
2023	1,900	1,000	900
2024	2,010	1,000	1,010
2025	2,120	1,000	1,120
2026	2,230	1,000	1,230
2027	2,340	1,000	1,340
2028	2,460	1,000	1,460
2029	2,570	1,000	1,570
2030	2,660	1,000	1,660

████████████████████  
March 10, 2016

Page 11

According to the Next Segment Study, if a station opens farther east ridership, and thus parking demand, will decrease at Hillcrest. If a station is opened at Mokelumne, parking demand at Hillcrest is estimated to be 2,240 in 2030.

# Appendix D: C-Line Vehicle Loading Analysis

---

- All transfers were assumed to occur at MacArthur station for the Richmond, Dublin/Pleasanton and Fremont lines, including future stations south of Fremont and the Oakland Airport, and at San Bruno for passengers bound for Millbrae.

After developing the vehicle load projections, the passenger volume was divided by the vehicle capacity to determine the volume-to-capacity ratio (V/C ratio). The capacity used to determine the V/C ratio is 115 passengers per car, consistent with BART Title VI practices.

## **Findings**

### *Existing Capacity Scenario*

Tables 1 and 2 below summarize the findings of the vehicle load and V/C ratio analysis as described above using the existing train assignment and schedule. The eBART and North Concord-Concord screenline peak hours are relatively early, including trains that would arrive at Embarcadero station between 7:10 AM and 8:10 AM. The peak hours for screenlines from Orinda to Rockridge, MacArthur to 19<sup>th</sup> St, and West Oakland to Embarcadero are served by the same set of trains, which would depart Pittsburg/Bay Point station between 6:55 AM and 7:55 AM, and arrive at Embarcadero station between 7:45 AM and 8:45 AM. The Civic Center to 16<sup>th</sup> Street screenline peaks between 7:59 AM and 8:59 AM, about 10 minutes later than the trains that serve the peaks of the previous three stations.

V/C ratios are high from Orinda to Embarcadero during the peak hour, but only exceed 1.0 between West Oakland and Embarcadero. Peak hour volumes exceed capacity at the West Oakland to Embarcadero screenline with a V/C ratio of 1.06. The Orinda to Rockridge and MacArthur to 19<sup>th</sup> Street screenlines also have V/C ratios above 0.8, but below 1.0.

During the 3-hour peak period, which includes 1-hour shoulders before and after the peak hour, no screenline exceeds an average V/C ratio of 1.0. At the MacArthur to 19<sup>th</sup> Street and West Oakland to Embarcadero screenlines, the V/C ratios are still fairly high at 0.93 and 0.92 respectively.

An important consideration for this information is that the riders per car values for screenlines are averaged over multiple trains, some of which do not begin at Pittsburg/Bay Point and do not connect to eBART and typically have lower loads.

**Table 1 - Peak Hour Loads and V/C, Existing Capacity Scenario**

Screenline	Peak Hour	Total eBART Riders	Total Riders	Net New eBART Riders	Number of Trains	Number of Cars	Average Riders per Car	V/C Ratio
North Concord – Concord	6:25 AM to 7:25 AM	862	3,104	457	8	76	41	0.36
Orinda – Rockridge	7:20 AM to 8:20 AM	446	9,653	236	11	103	94	0.81
Macarthur – 19 <sup>th</sup> St	7:29 AM to 8:29 AM	352	11,705	187	11	103	114	0.99
West Oakland – Embarcadero	7:41 AM to 8:41 AM	295	12,569	156	11	103	122	1.06
Civic Center – 16 <sup>th</sup> St	8:14 AM to 9:14 AM	51	1,533	27	9	85	18	0.16

**Table 2 - 3-Hour Peak Period Loads and V/C, Existing Capacity Scenario**

Screenline	Peak Period	Total eBART Riders	Total Riders	Net New eBART Riders	Number of Trains	Number of Cars	Average Riders per Car	V/C Ratio
North Concord – Concord	5:25 AM to 8:25 AM	1,625	6,541	861	17	165	40	0.34
Orinda – Rockridge	6:20 AM to 9:20 AM	1,279	22,673	678	27	255	89	0.77
Macarthur – 19 <sup>th</sup> St	6:29 AM to 9:29 AM	1,011	27,384	536	27	255	107	0.93
West Oakland – Embarcadero	6:41 AM to 9:41 AM	847	26,887	449	27	255	105	0.92
Civic Center – 16 <sup>th</sup> St	7:14 AM to 10:14 AM	192	3,786	102	20	192	20	0.17

*eBART Opening Day Additional Capacity Scenario*

BART expects to increase the number of trains and cars in operation during the peak period before eBART's opening in 2017. This capacity increase will include one new nine-car train during the peak hour and conversion of some nine-car trains to ten-car trains. The total number of trains and cars by screenline peak hour are shown in **Tables 3** and **4** below, along with the new V/C ratios for this scenario.

During the peak hour under the opening day scenario, no screenlines experience a V/C ratio above 1.0, although the V/C ratios in the MacArthur to 19<sup>th</sup> Street and West Oakland to Embarcadero screenlines remain high at 0.89 and 0.95 respectively. Across the 3-hour peak period, V/C ratios are slightly lower than the existing capacity scenario, with the highest at 0.91 in the MacArthur to 19<sup>th</sup> Street screenline.

**Table 3 - Peak Hour Loads and V/C, Proposed Opening Day Scenario**

Screenline	Peak Hour	Total eBART Riders	Total Riders	Net New eBART Riders	Number of Trains	Number of Cars	Average Riders per Car	V/C Ratio
North Concord – Concord	6:25 AM to 7:25 AM	862	3,104	457	8	79	39	0.34
Orinda – Rockridge	7:20 AM to 8:20 AM	446	9,653	236	12	115	84	0.73
Macarthur – 19 <sup>th</sup> St	7:29 AM to 8:29 AM	352	11,705	187	12	115	102	0.89
West Oakland – Embarcadero	7:41 AM to 8:41 AM	295	12,569	156	12	115	109	0.95
Civic Center – 16 <sup>th</sup> St	8:14 AM to 9:14 AM	51	1,533	27	10	97	16	0.14

**Table 4 - 3-Hour Peak Period Loads and V/C, Proposed Opening Day Scenario**

Screenline	Peak Period	Total eBART Riders	Total Riders	Net New eBART Riders	Number of Trains	Number of Cars	Average Riders per Car	V/C Ratio
North Concord – Concord	5:25 AM to 8:25 AM	1,625	6,541	861	18	178	37	0.32
Orinda – Rockridge	6:20 AM to 9:20 AM	1,279	22,673	678	27	261	87	0.75
Macarthur – 19 <sup>th</sup> St	6:29 AM to 9:29 AM	1,011	27,384	536	27	261	105	0.91
West Oakland – Embarcadero	6:41 AM to 9:41 AM	847	26,887	449	27	261	103	0.90
Civic Center – 16 <sup>th</sup> St	7:14 AM to 10:14 AM	192	3,786	102	21	205	18	0.16

# Section 1: Public Participation Process

---

## 1.1 Purpose

Pursuant to FTA Circular 4702.1B (October 2012), BART, with consultant support from Imprinta Communications, conducted public outreach to provide information to the public about the new BART service to Antioch and Pittsburg Center Stations and solicit feedback on key service changes and proposed fare-setting. A key component of the Title VI outreach is to seek input on service changes and new fares from minority, low-income, and limited English proficient (LEP) populations. BART used established information outlets to engage the stakeholders who would be directly affected by the new BART service to Antioch and Pittsburg Center stations. By doing so, BART ensures consistency with its Public Participation Plan (2011) as well as ensures efficiency in communication with community members.

Below is a brief summary of Title VI outreach and engagement conducted for the BART to Antioch Title VI Equity Analysis. BART's source of public input from which to draw feedback on proposed service changes and fare-setting is the BART to Antioch survey administered in 2017. This Public Participation Report focuses on the result of BART's 2017 public outreach efforts. All comments in this report were transcribed as written by the survey-taker.

## 1.2 Outreach Events and Publicity

### 1.2.1 Outreach Events

BART hosted a series of outreach events with information tables where staff was able to speak directly with customers and communities that will be directly affected by the new BART service to Pittsburg Center and Antioch and its related service changes. Outreach for the Project consisted of informing the BART to Antioch community of the new service and the application of BART's existing distance-based fare structure to this new service.

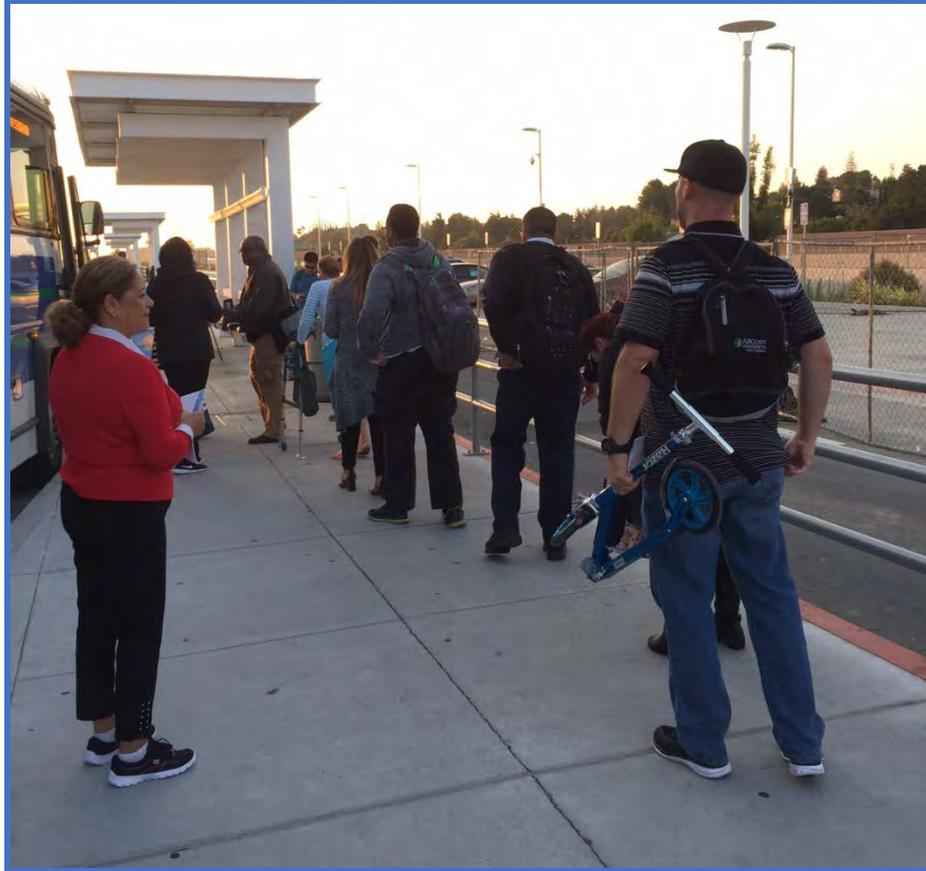

At the outreach events, the public had an opportunity to read information about key service changes and the application of BART's distance-based fare structure to the new BART service to Antioch and provide comments by completing a survey. The English, Spanish, and Chinese copies are provided in Appendix PP-A of this report.

The outreach events provided customers with the following information:

- A "Project Fact Sheet" handout with project information, travel time, facts about the new service, and facts about the major service changes and new fares associated with the new service; and
- A survey for customers to provide comments and feedback on the service options, application of BART's current distance-based fare structure, and selected demographic data for BART to use in its Title VI analysis process.

BART sought the public's input on the proposed service options and fare-setting for the new BART to Antioch service at outreach events in Antioch BART lot, Pittsburg/Bay Point Station, and North Concord Station from Tuesday, August 15th to Wednesday, August 23rd. Outreach events were held on the following dates and locations:

- North Concord BART Station: Tuesday, August 15, 5-7 PM
- Antioch BART Parking Lot: Thursday, August 17, 6-8 AM
- Pittsburg/Bay Point BART Station: Wednesday, August 23, 6:30-8:30 AM

Antioch BART Parking Lot Outreach, 8/17/17

Outreach events captured input from current riders and potential riders who could use the new BART service to Antioch. Events were scheduled at various times, the morning and evening weekday commutes, in an effort to reach the largest audience. Spanish on-site interpreters were available at all 3 outreach events.

The surveys and project fact sheet were available in hard copy in English, Spanish, and Chinese at the 3 outreach events. Postcards in English (front side) Spanish, and Chinese (back side) with the survey link ([www.bart.gov/antiochsurvey](http://www.bart.gov/antiochsurvey)) were distributed to riders who were unable to stop and take the survey in person. The postcards also had language assistance taglines in English, Spanish, Chinese, Korean, Tagalog, and Vietnamese.

Additionally, the survey, project fact sheet, and project website link were available online at [bart.gov/guide/titlevi](http://bart.gov/guide/titlevi) for the public to view and provide feedback. The survey link and surveys were posted online from Monday, August 14, 2017, to Friday, September 1, 2017 and were available in English, Spanish and Chinese.

### **1.2.2 Publicity**

Publicity for the outreach events was conducted through print and online media, community organizations, and existing email lists (described below). The following publicity and outreach methods were used for this project:

- A multilingual flyer/factsheet in English, Spanish, and Chinese (including reference to the availability of language assistance services)
- Flyer/factsheet in English, Spanish, and Chinese posted on Tri-Delta Transit buses advertising upcoming outreach events
- Survey, flyer/factsheet, and outreach event postings on [BART.gov/guide/titlevi](http://BART.gov/guide/titlevi)
- Announcement broadcasted at the BART Destination Sign System (DSS) at all BART stations throughout the District
- Advertisements in local print ethnic media including:
  - La Opinion de la Bahia (Spanish) – placed on Sunday, August 13, 2017
  - World Journal (Chinese) – placed on Saturday, August 12, 2017
- Email notice to Title VI/Environmental Justice and Limited English Proficiency Advisory Committees with flyer and survey attachments
- Email notice of outreach events through Government & Community Relations to BART Board Director Joel Keller
- Email notice of outreach events through Government & Community Relations to their local organization lists

## Section 2: Public Comments

Informational handouts, postcards with survey link, and surveys were made available to the public at the public outreach events, on BART's website, and through outreach efforts described in Section 1. This effort resulted in 375 survey responses. The demographics of all respondents are shown below in Table 2-1.

**Table 2-1: Survey Demographic Summary All Respondents**

	Percent	Sample Size
<b>Gender</b>		
Male	48.2%	
Female	47.2%	
Another Gender	3.8%	
<b>Total</b>	<b>100%</b>	<b>375</b>
<b>Ethnicity</b>		
White	49.6%	
Black/African American	15.7%	
Asian or Pacific Islander	20.5%	
American Indian or Alaska Native	1.9%	
Other or Multiple Race	9.1%	
<b>Total</b>	<b>100%</b>	<b>369</b>
Hispanic, Latino, or Spanish Origin	17.3%	
<b>Total</b>		<b>360</b>
Minority	54%	
Non-Minority	45%	
<b>Total</b>	<b>100%</b>	<b>361</b>
<b>Annual Household Income</b>		
Under \$25,000	5.4%	
\$25,000 - \$29,999	3.7%	
\$30,000 - \$39,999	4%	
\$40,000 - \$49,999	6.6%	
\$50,000 - \$59,999	6%	
\$60,000 - \$74,999	10.2%	
\$75,000 - \$99,999	14.2%	
\$100,000 and over	49.5%	
<b>Total</b>	<b>100%</b>	<b>351</b>
<b>Income**</b>		
Low-Income	17.3%	
Non-low-Income	82.7%	
<b>Total</b>	<b>100%</b>	<b>347</b>
<b>Limited English Proficient (LEP)</b>		
Yes	2%	
No	98%	
<b>Total</b>	<b>100%</b>	<b>94</b>

\*Note: Due to rounding, percentages may not add to 100%; sample sizes vary between categories as not all survey questions were answered.

\*\*Low-income and non-low-income percentages are determined by factoring in household size with annual household income.

## 2.1 General Comments

The public outreach effort resulted in 375 survey responses (339 online respondents and 36 hard copy), with one survey completed in Spanish.

The survey provided questions for the public to comment on specific service, fare-related, and parking questions; however, some respondents provided general comments regarding BART. All comments throughout this report was transcribed as written by the public. Samples of such comments are provided below:

- *“We need more BART security in the Antioch Park N’ Ride parking lot. Every day there are break-ins. I never see any police presence to feel safe.”*
- *“Need machine to reload money to our Clipper and accept debit and for parking fee.”*
- *“More express trains need to run more often in the morning and evening past the Pleasant Hill station to Montgomery! Those going past Pleasant Hill wait for the Pittsburg/Baypoint train and they are more crowded at 6:08AM, 6:23AM, 6:38AM from North Concord to SF are full! Additional windows and seats need to be added to the new model cars. It is very difficult to stand for 1 hour or more.”*

Customers were excited about the opening of the BART to Antioch Stations and some expressed that taking BART was still the most affordable means of transportation. General comments were mainly concerned about the train and station cleanliness, reliability, and safety and quality of service and parking costs and availability.

## 2.2 Service

One purpose of the outreach survey was to determine the public’s feedback on how often they would use the new BART service to Antioch and which of the stations they would use.

### 2.2.1 Question 4

Question 4 asked the respondents:

*“Do you plan to use the Antioch and/or Pittsburg Center Station?”*

Of the 375 survey respondents, 41% said they would use Antioch Station, 9.9% said they would use Pittsburg, 15.7% said they would use both, and 33.3% said they would use another station.

### 2.2.2 Question 6

Question 6 of the survey asked respondents:

*“How often do you plan to use the new BART service to/from Antioch and/or Pittsburg Center Stations? Please check one.”*

The total results of question 6 are displayed in Table 2-2, below.

**Table 2-2: Total Survey Respondents Service**

Options	Percent	Sample Size
5 or more days per week	59.8%	
1 – 4 days a week	17.8%	
1 – 3 days a month	8.9%	
A few times a year	10.4%	
Will not use	3%	
<b>Total</b>	<b>100%</b>	<b>259</b>

\*Note: Due to rounding, percentages may not add to 100%; sample sizes vary between categories as not all survey questions were answered

Table 2-3 provides a breakdown of Question 6 survey responses by minority and low-income status.

**Table 2-3: Survey Responses, by Minority and Income Status**

Responses	Percent Minority	Percent Non-minority	Option Sample Size	Total	Percent Low-Income	Percent Non-low-income	Option Sample Size	Total
<b>5 or more days per week</b>	63.2%	36.8%	155	100%	3.3%	96.7%	150	100%
<b>1 – 4 days a week</b>	46.7%	53.3%	45	100%	18.6%	81.4%	43	100%
<b>1 – 3 days a month</b>	39.1%	59%	22	100%	22.7%	77.2%	22	100%
<b>A few times a year</b>	28%	72%	25	100%	16%	84%	25	100%
<b>Will not use</b>	80%	20%	5	100%	0%	100%	5	100%

\*Note: Due to rounding, percentages may not add to 100%; sample sizes vary between categories as not all survey questions were answered.

## 2.3 Clipper

Since the BART to Antioch Stations' vending machines will only dispense Clipper cards (and no mag-stripe paper tickets) one purpose of the outreach survey was to determine the public's feedback on only being able to purchase Clipper cards at these 2 stations, and what fare media and type of BART fare they currently pay.

### 2.3.1 Question 7

Question 7 asked respondents:

“Do you currently use a Clipper card to pay your BART fare?”

Of the 370 survey respondents, 84.3% said that they use Clipper cards. Of those who use Clipper cards, 56% were minority respondents, and 44% were non-minority respondents.

### 2.3.2 Question 8

Question 8 asked respondents:

“What type of BART fare do you currently pay?”

Of the 371 survey respondents, 64.2% said that they pay the regular fare. The next highest response was the High Value Fare, at 28%. Other options had 11 or fewer responses.

### 2.3.3 Question 9

Question 9 asked respondents:

*“All ticket vending machines at Antioch and Pittsburg Center stations will sell Clipper cards only (no paper BART tickets). Do you have any general comments about this?”*

Approximately 47.5% of respondents provided comments on the Clipper card vending machines. A list of all responses to question 9 can be found in Appendix PP-B. Samples of comments are below:

- *“Absolutely support this; it would be nice if the stations had reduced/no paper ticket handling as it would increase clipper participation on the feeder buses to make boarding faster (thus making the bus more viable as their cash handling is very slow).”*
- *“Although I will not be using this station, I think occasional riders will be very unhappy at being forced to use/purchase a Clipper card. I do not commute but use BART often which is why I find the Clipper Card convenient. However, many of my friends and family only ride occasionally and would find having to purchase a Clipper Card inconvenient and unnecessary.”*

- *“As long as someone can show up with cash in hand and then buy a thing that lets them ride the train, it's fine.”*
- *“Clipper card cost \$ 3, while paper tickets are free. Clipper card should be offered at no cost instead of the current \$ 3. Paper BART ticket should still be made available at this station, just like other current BART stations.”*
- *“I think it may be a disservice to people who may want to try the new BART extension or to those who only ride a few times a week. Getting a Clipper card may seem like a much bigger commitment than it really is.”*
- *“I think it's better that Bart will start going to all clipper. It saves time and money. Using concepts like the Metro Card in NY for visitors and the Oyster Card in London for commuters would be a big improvement.”*
- *“Time to modernize! Great move!”*
- *“Yay, the future is here! You should slowly roll this out to the entire system.”*

The majority of respondents seemed in favor of the full transition to Clipper cards, although many expressed concerns about the cost of purchasing a Clipper card. Also, some expressed concerns about the impact of the transition on occasional riders and tourists.

As mentioned in the attached Title VI Equity Analysis, both new stations will have Clipper-only vending machines with no on-site station agent. District add-fare machines (AFMs) have traditionally only accepted cash payment to add sufficient fare to mag-stripe tickets or to the Clipper card for exit at BART gates. This can present a problem for customers not having sufficient fare with no cash on hand. To address this issue for Project riders, BART has modified AFMs for the BART to Antioch stations to allow customers to add sufficient fare to their mag-stripe ticket or Clipper card through the use of credit cards. This effort should mitigate any potential impacts on BART to Antioch customers.

Customers will have access to courtesy phones that go directly to the BART to Antioch Control Center which is manned 24 hours a day. There are also emergency phones at the stations that go directly to the BART Police Department. The new stations will also have roving supervisors that will be at the stations or available to respond if necessary. Staff is working on implementing language assistance measures for its limited English proficient customers.

## 2.4 Distance-Based Fare Structure

The proposed fares for the new BART service to Antioch will be calculated using the distance-based fare structure. As part of the Title VI outreach, the survey provided the public information that BART would be extending its distance-based fare structure to the Project and also provided the public an estimate of the proposed fare for BART service to Antioch.

### 2.4.1 Question 10

Survey question 10 asked respondents:

*“BART plans to extend its distance-based fare structure for the BART to Antioch extension. For example, in 2018, a one-way trip from Pittsburg/Bay Point Station to Embarcadero Station will cost \$6.70. A trip from Pittsburg Center Station to Embarcadero Station is estimated to cost \$6.85 (\$.15 more) and a trip from Antioch Station to Embarcadero Station is estimated to cost \$7.50 (an additional \$.65). Do you have any general comments about BART’s proposed fares to Antioch and Pittsburg Center Stations?”*

Approximately 53.6% of total respondents provided comments to Question 10. As stated in the BART to Antioch Title VI Equity Analysis, almost half of all respondents, or 46.4%, did not provide any comments (either leaving it blank or indicating they had no comments), which can indicate neutrality or potentially some level of acceptance.

A list of all responses to Question 10 can be found in Appendix PP-C. Samples of comments are provided below:

- *“There should be reasonable prices for low-income recipients to sign up for.”*
- *“They should be higher. New riders overload the system with people in W Oakland not even able to get on some times. They also take all seats which take most room.”*
- *“The fare sounds reasonable, as long as parking fees are comparable to Pittsburg & N. Concord’s fees.”*
- *“The higher fare is fine as long as there is adequate service to and from the destination.”*
- *“Please keep the fares down as much as possible. It’s getting really expensive to commute. Keep the parking free at the Park and Ride lot in Hillcrest.”*
- *“It is what it is. I’ve been riding Bart to commute to work for years (12+). The fare goes up, but it beats driving to Oakland/SF from the east bay. My biggest complaint is the parking/lack of, BEYOND crowded trains during commute hours and the unruly passengers.”*

- *“I was expecting it to cost more so I am pleasantly surprised. \$0.65 is worth not having to be in traffic to north concord for almost an hour every morning. Plus the cost of gas alone is more than that.”*
- *“I think the costs should be lower.”*
- *“BART is becoming way too expensive.”*

Of those that were in favor of BART applying its distance-based fare to the Project, many felt that the fares were fair and expressed that the fares were acceptable as long as they could get reliable, clean service. There was also a general sentiment that the fare was still a good deal for the transit service offered. However, there was concern that the increased fare would negatively impact low-income riders from being able to take BART.

## 2.5 Parking Options

One purpose of the outreach survey was to determine the public’s feedback on BART’s parking locations and fares in the Antioch and Pittsburg Center Stations.

### 2.5.1 Question 12

Question 12 asked respondents:

*“If yes [to BART parking] please tell us the station where you park or plan to park.”*

Of the 371 survey respondents who answered Question 12, 33.4% said they would not park at all, and 66.7% said they would park at a station. There is a slight discrepancy due to rounding errors. Of the people who said they would park, below is the breakdown of stations via number of respondents:

**Table 2-4**

Station	Respondents
Pittsburg/Bay Point	115
North Concord	65
I don't know	18
Concord	14
Antioch/Hillcrest	8
Pleasant Hill	6
West Dublin	3
Ashby	2
Walnut Creek	2
West Oakland	2
Dublin Pleasanton	2
Rockridge	2
12th Street	1
Daly City	1
El Cerrito Del Norte	1
Hayward	1
Lafayette	1
Millbrae	1
Richmond	1
Union City	1

### 2.5.2 Question 13

Question 13 asked respondents:

*“BART may charge up to \$3 for parking at Antioch Station and Pittsburg Center Station. These fees are consistent with most stations in the BART system. Do you have any general comments about BART’s proposed parking fee at these stations?”*

Approximately 57.9% of total respondents provided comments to Question 13. A list of all responses to Question 10 can be found in Appendix PP-D. Samples of comments are provided below:

- *“Should be substantially more to encourage alternative forms of transportation.”*
- *“Strongly disagree. \$18 total from ANTIOCH? People can't afford that, much less the penalty fee if ticketed.”*
- *“This seems reasonable. However, I am concerned that the parking at the Antioch station might quickly fill up and not be enough to accommodate the demand.”*
- *“Up to \$3 for all day parking is fine but I would expect some type of security measure (cameras, security personnel) to be in place to prevent any thefts.”*
- *“Why can't you keep parking free for a while? This project has been delayed time and time again. As a result, we have been forced to pay for parking at other stations. If you are going to require parking fees, I want to know immediately how I can reserve a space so that I can actually use the station I have been waiting for four years.”*
- *“Expensive for communities that are lower income than many of the other suburbs.”*

The majority of respondents were in favor of charging \$3 for parking at Antioch Station and Pittsburg Center Station, but expressed concerns about the availability of parking. There was also concern expressed about the public safety of BART parking lots.

## Section 3: Title VI/Environmental Justice and Limited English Proficiency Advisory Committees

---

Staff presented a preliminary overview of the BART to Antioch Title VI Equity Analysis to BART's Title VI/Environmental Justice and Limited English Proficiency Advisory Committees. The joint meeting was held on Tuesday, August 22, 2017 from 10:30AM – 1PM at the BART Board Room, Kaiser Center 20th Street Mall (344 20th Street, Oakland, CA). The meeting was open to the public and the agenda was noticed at least 72 hours in advance of the meeting.

The LEP Advisory Committee consists of members of community-based organizations that serve LEP populations within the BART service area. The committee assists in the development of the District's language assistance measures and provides input on how the District can provide programs and services to customers, regardless of language ability. The Title VI/EJ Advisory Committee, which also consists of members of community-based organizations, ensures that the District is taking reasonable steps to incorporate Title VI and EJ Policy principles in its transportation decisions.

At the meeting, staff presented an overview of the Project, BART fares and fare media options, projected service, and parking options. Staff distributed the surveys in English, Spanish, Chinese, postcards, and the Project Fact Sheet handout in English, Spanish, and Chinese.

Committee members had questions and comments concerning the impact of the BART fares as a whole on low-income populations. Committee members also had concerns about whether bus routes would be eliminated or changed because of BART to Antioch. Also, one committee member encouraged further extensions of BART farther out where people have been displaced. Members were supportive of the BART to Antioch extension.

Staff responded to the Committee members' questions and followed up with further information.

# Appendix PP- A: 2017 BART to Antioch Surveys

---

# New BART Service to Antioch and Pittsburg Center Stations

**Comments and Feedback** Please answer the questions below. Your answers will help us evaluate how well we're reaching the communities we serve. BART values your input. Information will be treated confidentially.

### USAGE OF BART

- Which BART station do you usually enter when making a trip from your home (i.e., your "home" station)?  
\_\_\_\_\_
- At which BART station do you usually exit the system (i.e., your "destination" station)?  
\_\_\_\_\_
- What time of day do you typically use BART? Select all that apply.  
 Morning    Afternoon    Evening    Late night
- Do you plan to use the Antioch and/or Pittsburg Center Station? Select all that apply.  
 Yes, Antioch Station  
 Yes, Pittsburg Center Station  
 Neither, I plan to use: \_\_\_\_\_
- How will you get to the Antioch and/or Pittsburg Center Station? Select all that apply.  
 Walk all the way  
 Bicycle  
 Tri-Delta Transit bus  
 County Connection bus  
 Drive alone  
 Carpool  
 Get dropped-off  
 Uber/Lyft/etc.  
 Taxi  
 Other: \_\_\_\_\_

### SERVICE

- How often do you plan to use the new BART service to/from Antioch and/or Pittsburg Center Stations? Please check one.  
 5 or more days per week  
 1-4 days a week  
 1-3 days a month  
 A few times a year  
 Will not use

### PROPOSED BART FARES AND FARE MEDIA

- Do you currently use a Clipper card to pay your BART fare?  
 No    Yes
- What type of BART fare do you currently pay?  
 Regular BART fare  
 High Value Discount (\$48 or \$64 value)  
 Senior discount  
 Disabled discount  
 Student discount  
 Other: \_\_\_\_\_
- All ticket vending machines at Antioch and Pittsburg Center stations will sell Clipper cards only (no paper BART tickets). Do you have any general comments about this?  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_
- BART plans to extend its distance-based fare structure for the BART to Antioch extension. For example, in 2017, a one-way trip from Pittsburg/Bay Point Station to Embarcadero Station costs \$6.70.

Continued in next section →

A trip from Pittsburg Center Station to Embarcadero Station is estimated to cost \$6.85 (\$.15 more) and a trip from Antioch Station to Embarcadero Station is estimated to cost \$7.50 (an additional \$.65). Do you have any general comments about BART's proposed fares for Antioch and Pittsburg Center Stations?  
\_\_\_\_\_  
\_\_\_\_\_

### PARKING

- Do you currently park at a BART station or plan to use BART parking?  
 Yes    No
- If yes, please tell us the station where you park or plan to park:  
\_\_\_\_\_
- BART plans to charge up to \$3 for parking at Antioch Station and Pittsburg Center Station. These fees are consistent with most stations in the BART system. Do you have any general comments about BART's proposed parking fee at these stations?  
\_\_\_\_\_  
\_\_\_\_\_

### PLEASE TELL US ABOUT YOURSELF

- What is your gender?  
 Male    Female    Another gender: \_\_\_\_\_
- NOTE: Please answer BOTH Questions 15 and 16.*
- Are you of Hispanic, Latino or Spanish origin?  
 No    Yes
- What is your race or ethnic identification? (Check one or more. Categories based on US Census.)  
 White  
 Black/African American  
 Asian or Pacific Islander  
 American Indian or Alaska Native  
 Other (specify): \_\_\_\_\_
- Do you speak a language other than English at home?  
 No    Yes → Language: \_\_\_\_\_
- If "Yes" to Question 17, how well do you speak English?  
 Very well    Well    Not well    Not at all
- What is your total annual household income before taxes?  
 Under \$25,000    \$50,000 - \$59,999  
 \$25,000 - \$34,999    \$60,000 - \$74,999  
 \$35,000 - \$39,999    \$75,000 - \$99,999  
 \$40,000 - \$49,999    \$100,000 and over
- Including yourself, how many people live in your household?  
 1    2    3    4    5    6 or more
- Do you use a smart phone (can access the internet, download apps, etc.)?  
 No    Yes

Please turn in completed survey to a BART representative. For more information or to complete this survey online please visit [www.bart.gov/antioch/parking](http://www.bart.gov/antioch/parking)

# Nuevo servicio de BART a las estaciones de Antioch y Pittsburg Center

**Comentarios y opinión** Sírvase contestar las siguientes preguntas. Sus respuestas nos ayudarán a evaluar cuán bien nos entendemos con las comunidades a las que servimos. BART agradece su participación. La información será tratada de forma confidencial.

## USO DE BART

- ¿Qué estación de BART usa generalmente cuando hace un recorrido desde su casa (es decir, la estación más cerca de su casa)?  
\_\_\_\_\_
- ¿En qué estación de BART suele bajarse de los trenes del sistema (Es decir, su estación "de destino")?  
\_\_\_\_\_
- Normalmente, ¿en qué horario del día utiliza el servicio de BART? Marque todas las opciones que correspondan.  
 Mañana  Tarde  Noche  Altas horas de la noche
- ¿Planea utilizar las estaciones de Antioch y/o Pittsburg Center? Marque todas las opciones que correspondan.  
 Sí, Antioch  
 Sí, Pittsburg Center  
 Ninguna, planeo usar: \_\_\_\_\_
- ¿Cómo irá a las estaciones de Antioch y/o Pittsburg Center? Marque todas las opciones que correspondan.  
 Caminaré todo el trayecto  
 En bicicleta  
 En el autobús Tri-Delta Transit  
 En el autobús County Connection  
 Conduciré solo  
 En viajes compartidos en auto  
 Me llevarán en auto  
 En Uber/Lyft/etc.  
 En taxi  
 Otro: \_\_\_\_\_

## SERVICIO

- ¿Con qué frecuencia planea utilizar el nuevo servicio de BART a/desde las estaciones de Antioch y/o Pittsburg Center? Por favor, marque una.  
 5 días por semana o más  
 De 1 a 4 días por semana  
 De 1 a 3 días por mes  
 Unos cuantos días por año  
 No las usaré

## TARIFAS Y MEDIOS DE PAGO PROPUESTOS POR BART

- ¿Utiliza actualmente la tarjeta Clipper para pagar en BART?  
 No  Sí
- ¿Qué tipo de pago de BART hace actualmente?  
 Tarifa normal de BART  
 Descuento de alto valor (con valor de \$48 o \$64)  
 Descuento para mayores de 65 años (Senior)  
 Descuento para discapacitados  
 Descuento de estudiante  
 Otro: \_\_\_\_\_
- Todos los despachadores automáticos de boletos en las estaciones de Antioch y Pittsburg Center solo venderán tarjetas Clipper (no venderán boletos de BART de papel). ¿Tiene algún comentario general sobre esto?  
\_\_\_\_\_  
\_\_\_\_\_
- BART planea extender su estructura de tarifas basada en la distancia para la extensión BART a Antioch. Por ejemplo, en el 2017, un recorrido en un solo sentido desde la estación de Pittsburg/Bay Point a Embarcadero cuesta \$6.70.

Se estima que un recorrido desde la estación de Pittsburg Center a la estación de Embarcadero cuesta \$6.85 (\$0.15 más) y se calcula que un viaje desde la estación de Antioch a la estación de Embarcadero cuesta \$7.50 (\$0.65 adicional). ¿Tiene algún comentario general sobre las tarifas propuestas de BART para las estaciones de Antioch y Pittsburg Center?  
\_\_\_\_\_  
\_\_\_\_\_

## ESTACIONAMIENTO

- Actualmente, ¿estaciona en una estación de BART o planea utilizar un estacionamiento de BART?  
 Sí  No
- De ser así, díganos cuál es la estación en la que estaciona o planea hacerlo: \_\_\_\_\_
- BART planea cobrar hasta \$3 por estacionar en las estaciones de Antioch y Pittsburg Center. Estas tarifas son coherentes con las de la mayoría de las estaciones del sistema BART. ¿Tiene algún comentario general sobre las tarifas de estacionamiento propuestas de BART para estas estaciones?  
\_\_\_\_\_  
\_\_\_\_\_

## PROPORCIONENOS INFORMACIÓN ACERCA DE USTED

- ¿Cuál es su sexo?  
 Masculino  Femenino  Otro: \_\_\_\_\_

**NOTA:** Por favor conteste AMBAS preguntas, 15 y 16.

- ¿Usted es de origen hispano, latino o español?  
 No  Sí
- ¿Cuál es su raza o identificación étnica? (Marque una o más respuestas. Categorías en base al Censo de los Estados Unidos.)  
 Blanco  
 Negro/afroamericano  
 Asiático o de las Islas del Pacífico  
 Indígena norteamericano o nativo de Alaska  
 Otro (favor de especificar): \_\_\_\_\_
- ¿Habla en el hogar un idioma que no sea el inglés?  
 No  Sí → Idioma: \_\_\_\_\_
- Si respondió "Sí" a la Pregunta 17, ¿cuán bien habla inglés?  
 Muy bien  Bien  No muy bien  Nada
- ¿Cuál es el total de los ingresos anuales en su hogar sin descontar los impuestos?  
 Menos de \$25,000  \$50,000 a \$59,999  
 \$25,000 a \$34,999  \$60,000 a \$74,999  
 \$35,000 a \$39,999  \$75,000 a \$99,999  
 \$40,000 a \$49,999  \$100,000 o más
- Incluyéndose a usted mismo, ¿cuántas personas viven en su hogar?  
 1  2  3  4  5  6 o más
- ¿Utiliza un teléfono inteligente (puede acceder a internet, descargas aplicaciones, etc.)?  
 No  Sí

Entregue su encuesta completa a un representante de BART. Para más información o para completar esta encuesta por internet, favor visite: [www.bart.gov/antiochsurvey](http://www.bart.gov/antiochsurvey).

# BART 開往 Antioch 和 Pittsburg Center 車站的新服務

**意見與建議** 請回答下列問題。您的答案有助於我們評估我們的社區服務成效。BART 重視您的意見。問卷資料將會保密。

## BART 使用情況

- 您從家裡出發時，通常在哪一個 BART 捷運站上車 (您家在哪一站)?  
\_\_\_\_\_
- 您通常在哪一個 BART 捷運站下車 (您的目的地在哪一站)?  
\_\_\_\_\_
- 您通常在一天中什麼時候搭乘 BART? 選擇所有符合選項。  
 上午  下午  晚上  深夜
- 您計劃使用 Antioch 和/或 Pittsburg Center 站嗎? 選擇所有符合選項。  
 是, Antioch 站  
 是, Pittsburg Center 站  
 皆否, 我計劃使用: \_\_\_\_\_
- 您將如何前往 Antioch 和/或 Pittsburg Center 車站? 選擇所有符合選項。  
 全程走路  
 騎腳踏車  
 Tri-Delta Transit 公車  
 County Connection 公車  
 自己一個人開車  
 汽車共乘  
 他人接送  
 Uber/Lyft/其他  
 計程車  
 其他: \_\_\_\_\_

## 服務

- 您計劃多常使用新的 BART 服務往返 Antioch 和/或 Pittsburg Center 站? 請勾選一項。  
 每週 5 天或更多  
 一週 1-4 天  
 一個月 1-3 天  
 一年幾次  
 不搭乘

## 建議的 BART 票價和車票形式

- 您目前是否使用 Clipper 卡支付 BART 票價?  
 否  是
- 您目前支付哪一種 BART 票價?  
 正常 BART 票價  
 High Value 折扣 (價值 \$48 或 \$64)  
 老人折扣  
 殘障人士折扣  
 學生折扣  
 其他: \_\_\_\_\_
- Antioch 和 Pittsburg Center 站的所有售票機將只販售 Clipper 卡 (不販售紙張 BART 車票)。您對此次有任何總體意見嗎?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
- BART 計劃將距離費率制用於 BART 至 Antioch 的延伸段。例如, 在 2017 年, 從 Pittsburg/Bay Point 站到 Embarcadero 站的單程票價為 \$6.70。

從 Pittsburg Center 站到 Embarcadero 站的票價預計為 \$6.85 (多 \$0.15), 從 Antioch 站到 Embarcadero 站的票價預計為 \$7.50 (再多 \$0.65)。您對於 BART 為 Antioch 和 Pittsburg Center 站提出的建議票價有任何總體意見嗎?  
\_\_\_\_\_  
\_\_\_\_\_

## 停車

- 您目前是否在 BART 捷運站停車, 或計劃使用 BART 的停車場?  
 是  否
- 如果是, 請告訴我們您目前或計劃在哪一站停車:  
\_\_\_\_\_
- BART 計劃在 Antioch 站和 Pittsburg Center 站收取最多 \$3 停車費。該費用與 BART 系統中大部份車站一致。您對於為這兩站提出的建議停車費有任何總體意見嗎?  
\_\_\_\_\_  
\_\_\_\_\_

## 請告訴我們一些有關您的資訊

- 您的性別?  
 男  女  其他性別: \_\_\_\_\_
- 注意: 請回答 15 和 16 兩個問題。
- 您是西班牙裔或拉美裔嗎?  
 否  是
- 您屬於什麼族裔? (可勾選一或多項。分類以美國人口普查為依據。)  
 白人  
 黑人/非裔美國人  
 亞裔或太平洋島國人  
 美洲印第安人或阿拉斯加原住民  
 其他 (請註明): \_\_\_\_\_
- 您在家是否講英語以外的語言?  
 否  是 → 語言: \_\_\_\_\_
- 若 17 題回答「是」, 您的英文程度有多好?  
 很好  好  不好  不會說
- 您的稅前家庭總年收入是多少?  
 \$25,000 以下  \$50,000 - \$59,999  
 \$25,000 - \$34,999  \$60,000 - \$74,999  
 \$35,000 - \$39,999  \$75,000 - \$99,999  
 \$40,000 - \$49,999  \$100,000 或以上
- 包括您自己在內, 您家裡住了多少人?  
 1  2  3  4  5  6 或更多
- 您是否使用智慧型手機 (有上網、下載應用程式等功能)?  
 否  是

請將問卷填好並交給 BART 代表。若想了解更多資訊或上網填寫問卷, 請造訪: [www.bart.gov/antiochsurvey](http://www.bart.gov/antiochsurvey).

## Appendix PP-B: Question 9, Clipper-Only Vending Machine Comments

Response ID	Language	Outreach Event Date (2017)	Do You Use Clipper?	Response to Question 9, Comments
190	ENGLISH	Online	Yes	Absolutely support this; it would be nice if the stations had reduced/no paper ticket handling as it would increase clipper participation on the feeder buses to make boarding faster (thus making the bus more viable as their cash handling is very slow).
158	ENGLISH	Online	Yes	Although I will not be using this station, I think occasional riders will be very unhappy at being forced to use/purchase a Clipper card. I do not commute but use BART often which is why I find the Clipper Card convenient. However, many of my friends and family only ride occasionally and would find having to purchase a Clipper Card inconvenient and unnecessary.
114	ENGLISH	Online	No	Are we able to pay for parking without the use of a Clipper card? I know sometimes I use credit card to pay for a paper BART ticket that's used to pay for the parking.
316	ENGLISH	Online	Yes	As long as someone can show up with cash in hand and then buy a thing that lets them ride the train, it's fine.
81	ENGLISH	Online	Yes	As long as there isn't an extra charge for the clipper card, I think it is a good idea!
148	ENGLISH	Online	Yes	As long as these machines accepts cash, as well as debit and credit cards, that should be equally accessible to

				everyone - should be a reasonable system.
320	ENGLISH	Online	Yes	Awesome!
345	ENGLISH	8/15	Yes	Because I am a regular commuter with a need for a clipper card, I think it is fine.
105	ENGLISH	Online	Yes	better if there is a paper bart ticket
61	ENGLISH	Online	Yes	Clipper card cost \$ 3, while paper tickets is free. Clipper card should be offered at no cost instead of the current \$ 3. Paper BART ticket should still be made available at this station, just like other current BART stations.
26	ENGLISH	Online	Yes	Clipper is the way to go.
124	ENGLISH	Online	Yes	Create more parking space and do not charge anymore on parking.
322	ENGLISH	Online	Yes	Depending how much it card
236	ENGLISH	Online	Yes	Do not extend BART! There already is not enough room on the trains during rush hour. No seats left and packed in like sardines from Pleasant Hill to Montgomery in the morning and then from Montgomery to Pleasant Hill in the evening. An extension would be irresponsible and cruel.
313	ENGLISH	Online	Yes	Does not seem fair for tourists and casual users.
89	ENGLISH	Online	Yes	Doesn't seem very good for people who just need to ride every once in a while. Will probably get lost between rides
117	ENGLISH	Online	No	Dont use clipper. Have clients that come to bay area frequently and they use tickets bc they dont use bart enough to purchase clipper.stop trying to force

				everyone on clipper.infrequent riders only want a ticket.
237	ENGLISH	Online	Yes	Dumb!
123	ENGLISH	Online	Yes	Finally!
304	ENGLISH	Online	Yes	Finally. I think all BART statons should have clipper machines. I can't belive they don't already!
224	ENGLISH	Online	Yes	Fine with me.
189	ENGLISH	Online	Yes	Fine. Clipper cards are easier and more convenient anyways.
31	ENGLISH	Online	Yes	For emergencies, it will help to sell paper tickets.
4	ENGLISH	Online	Yes	For those who use it rarely, wouldn't it be a waste. People will soon be throwing Bart cards everywhere. The paper tickets are thrown everywhere too. Recycle please. Find a way to have cards returned into the system. It will also save the Bart money from printing more tickets.
59	ENGLISH	Online	Yes	F**k it, the service sucks. Concentrate on improving the service, i.e. repairing cars, cleaning stations from that foul urine smell. The system is a disgrace. Removing seats and adding stations with more passengers is a s**tty deal for the money you charge us.
330	ENGLISH	Online	Yes	Good
111	ENGLISH	Online	Yes	Good
137	ENGLISH	Online	Yes	Good for me, not so much for non-commuters.

249	ENGLISH	Online	Yes	Good idea
241	ENGLISH	Online	Yes	Good idea
213	ENGLISH	Online	Yes	Good idea!
299	ENGLISH	Online	Yes	Good, it is quicker and more efficient. Easier to add money too and can keep forever. I can only image that those stations would be used more for commuting anyways and most of the commuters have clipper.
134	ENGLISH	8/15	Yes	GOOD!
323	ENGLISH	8/15	Yes	Good! It's about d**n time!
15	ENGLISH	Online	Yes	Good! You need more parking spaces, perhaps build a parking structure, rather than just a lot
182	ENGLISH	Online	Yes	Good. I don't use the paper tickets. They are a waste of time.
343	ENGLISH	Online	Yes	Great
341	ENGLISH	Online	Yes	Great idea
77	ENGLISH	Online	Yes	Great idea for commuters.one timers may not like that idea
206	ENGLISH	Online	Yes	Great idea.
175	ENGLISH	Online	Yes	GREAT!
318	ENGLISH	Online	Yes	Great!
274	ENGLISH	Online	Yes	Great. All BART stations should become this.

256	ENGLISH	Online	Yes	Hopefully there will be Clipper card vendors close to the stations
118	ENGLISH	Online	Yes	How does student/senior rates translate on a clipper card?
246	ENGLISH	Online	Yes	I do not usually see long lines going in the booth where you tap your clipper to go in. Long lines at the ticket vending machines yes. I think it works just fine on what we have. I guess offer both.. Usually the bart is delayed and that is the cause of people pilling up.
257	ENGLISH	Online	Yes	I don't agree with that, but sounds like you already made up your minds.
17	ENGLISH	Online	Yes	I don't think this is fair to those who only ride occasionally. Why should those people have to get a clipper card if they only ride occasionally.
286	ENGLISH	Online	Yes	I like
367	ENGLISH	8/15	Yes	I like that idea. Much more reliable, especailly in poor weather
28	ENGLISH	Online	Yes	I like that. I feel it'll be very efficient
141	ENGLISH	Online	No	I need use paper ticket
1	ENGLISH	Online	Yes	I only use a clipper card so this will work fine for me
174	ENGLISH	Online	Yes	I only use my discount card for city bus and everything like that
232	ENGLISH	Online	Yes	I really like this idea!!
155	ENGLISH	Online	Yes	I think BART is generally trying to pressure people to use Clipper cards. Looks like it will be harder to by paper tickets and I understand there will be a 50 cent per trip surcharge for using a

				paper ticket. For commuters, especially a senior like myself, it makes sense to use a Clipper card. However, my dream is to never ride a BART train again once I am not commuting for work and the idea of having money tied up on a Clipper card does not appeal to me. Being penalized for not using Clipper seems unfair.
156	ENGLISH	Online	Yes	I think it is great actually.
50	ENGLISH	Online	Yes	I think it may be a disservice to people who may want to try the new BART extension or to those who only ride a few times a week. Getting a Clipper card may seem like a much bigger commitment than it really is.
149	ENGLISH	Online	Yes	I think it's a good idea. However, it won't make much of a difference if there is no crack down on turn-style jumpers who don't pay their fair share. I see this already so often at the Pittsburg/Bay Point station and it's extraordinarily infuriating.
13	ENGLISH	Online	No	I think it's a great idea. The public needs more access to Clipper cards.
215	ENGLISH	Online	Yes	I think it's better that Bart will start going to all clipper. It saves time and money. Using concepts like the Metro Card in NY for visitors and the Oyster Card in London for commuters would be a big improvement
283	ENGLISH	Online	Yes	I think it's great. Anything you can do to phase out paper tickets is much appreciated.
33	ENGLISH	Online	Yes	I think it's not a problem

12	ENGLISH	Online	Yes	I think it's about time Bart stops taking the paper tickets. It would make entering and exiting the stations faster
121	ENGLISH	Online	Yes	I think its a great idea. Clipper cards are the way of the future, paper tickets need to be phased out. Adding contactless credit card readers should be something BART looks into.
24	ENGLISH	Online	Yes	I think that is a great idea, paper is the thing of the past
160	ENGLISH	Online	Yes	I think that is crap. A lot of folks take bart maybe once or maybe twice and will not use the clipper card on a regular basis. Making them purchase a clipper card is not reasonable.
350	ENGLISH	8/15	Yes	I think that its nore fair for riders that will be using this station once in a while or who visit family in Antioch. All rider should be able to have access to paper tickets.
75	ENGLISH	Online	Yes	I think that's a good idea. It would reduce paper waste and lines out of the Bart station will reduce. No one will be fidgiting to get the paper ticket in the right way. For the clipper card i think it's important to tell people they don't have to wait once they place their card on the sensor. I see so many people placing their card on the sensor and waiting for the "OK" to disappear. Drives me nuts.
202	ENGLISH	Online	Yes	I think this is a great idea! It will help riders transition into using a clipper card.
238	ENGLISH	Online	No	I think this is a huge inconvenience for people who casually use public transit and don't need a Clipper card, and will be awful for people visiting the Bay Area who would never use Clipper again.

138	ENGLISH	Online	Yes	I use a Clipper card so only need refill service.
92	ENGLISH	Online	Yes	I use clipper
335	ENGLISH	Online	Yes	I wouldn't imagine single day riders will like that.
250	ENGLISH	Online	Yes	I'm cool with this because I ride Bart every week day but I can see how it would frustrate people that rarely ride Bart.
245	ENGLISH	Online	No	I'm not sure what a Clipper card is
18	ENGLISH	Online	Yes	If paper tickets are not available there should be measures in place to curtail fare evaders. The current system at other stations is completely ineffective. People simply jump over the gate or tailgate behind a paying passenger. The gate should be made higher and set up so that only one person can go through at a time.
29	ENGLISH	Online	Yes	If the Clipper Cards include a fee (\$3), that might irritate those who use BART only once in a while, but I do understand the goal to move everyone to Clipper Cards as much as possible. I use BART for my daily commute, so this is okay for me.
35	ENGLISH	Online	Yes	If you forget clipper card. Do u have to purchase new clipper card for a minimum amount \$20?
45	ENGLISH	Online	Yes	If you want patrons to use just the Clipper Card, then you need to make sure that we can use clipper cards to pay for parking. Right now, you either pay by cash, or you can use a paper bart ticket.

185	ENGLISH	Online	Yes	If you're going to do this i highly recommend that each station have a 24hr clipper vendor even if its just a machine that vends them for \$5 (or what ever the fee is these days) its all good and well having a clipper only station but you MUST provide a way for those WITHOUT one to get one on their 1st visit there.
310	ENGLISH	Online	Yes	Is there a good reason,like? Then ok.
173	ENGLISH	Online	Yes	Is this the new direction for BART? Does this same paradigm also effect the new Fremont Stations. San Jose and Livermore stations? If so, that is fine. If you are doing something different than they other new planned stations, that is wrong and needs to be adjusted.
42	ENGLISH	Online	No	it is not good as only regular passanger use the clipper card but the person who travel once a while will have to take bart tkt paper, this is not a good idia
128	ENGLISH	Online	Yes	It should have the paper Bart ticket for the people who does not have Clipper cards.
99	ENGLISH	Online	Yes	It won't affect me since I already have a clipper card. I do notice when everyone is trying to rush out all at once people with clipper card move faster than having the paper. I like this new change.
361	ENGLISH	8/15	No	It would be good to have one paper BART ticket there for people that don't use clipper cards like me
312	ENGLISH	Online	Yes	It would be more convenient to also offer the paper bart tickets.
325	ENGLISH	Online	Yes	It's a good idea in theory, but probably won't work in practice. I still see lots of people using paper tickets at all BART

				stations. I assume they have their reasons for not using Clipper card instead. I love mine.
273	ENGLISH	Online	Yes	It's about time.
191	ENGLISH	Online	Yes	It's high time everyone started using Clipper Cards but there has to be options when people forget their Clipper Cards. Charge 50 cents more for paper tickets. This what NY subway does and it's great. People don't litter the floor with expended tickets because those tickets have some value.
242	ENGLISH	Online	Yes	It's unfair to those who either aren't internet savvy, don't have access to a bank acct or internet, or don't trust their financial information being online
362	ENGLISH	8/15	No	Its stupid
230	ENGLISH	Online	No	just make sure the public is aware upfront, especially if there are additional upfront costs associated with the card
248	ENGLISH	Online	Yes	Love it!
8	ENGLISH	Online	Yes	Many seniors do not understand the clipper card and many do not know how to up date a card.Most do not have a computer.
78	ENGLISH	Online	Yes	Might impact very occasional Bart riders, such as my husband or our guests.
48	ENGLISH	Online	Yes	Moving away from paper tickets is great.
356	ENGLISH	Online	Yes	Need clipper vendor at BART station
205	ENGLISH	Online	No	Need paper bart tickets

46	ENGLISH	Online	Yes	no comment, hopefully there will be enough staff there to help with the adjustments
16	ENGLISH	Online	Yes	No comments about the vending machines at Antioch and Pittsburg Center stations only selling Clipper cards. However, as a Bart rider, I do not desire to stand up from Civic Center to North Concord/Martinez (vice versa), and prefer to have more available options to sit, as opposed to standing for an hour. Thank you!
34	ENGLISH	Online	Yes	No concerns.
192	ENGLISH	Online	Yes	No concerns. I like clipper cards.
85	ENGLISH	Online	Yes	No good to know
97	ENGLISH	Online	Yes	No I don't.
188	ENGLISH	Online	No	No it is not good
342	ENGLISH	8/15	No	No problem
247	ENGLISH	Online	Yes	No, but you need to do something about fare evasion.
14	ENGLISH	Online	Yes	No, I feel this is a way to create efficiency and gear the program to everyday Bart riders. It does limit people who might only be one time users such as people going to the airport, but since they have to get off and walk three quarters of a mile to the regular Bart they probably won't want that service anyways. / / Sorry guys, but this is just a poor design and a miss allocation of tax payers dollars.

133	ENGLISH	Online	No	No, I have been meaning to switch to clipper card seems faster and i can get a discount..
339	ENGLISH	Online	Yes	No, paper bart tickets always end up with unused value
10	ENGLISH	Online	No	No, that's fine with me.
122	ENGLISH	Online	Yes	No, they should allow the ones inside the station after the gates to be able to top up with a credit card
365	ENGLISH	Online	Yes	No, works for me
3	ENGLISH	Online	Yes	No. Clipper cards are better than paper cards
172	ENGLISH	Online	Yes	None. But if I'm unable to load funds via cash or debit, there's gonna be problems.
357	ENGLISH	Online	No	Not a good idea! Paper tickets should be an option for those who cannot afford the \$3 surcharge
107	ENGLISH	Online	No	Not considerate for the less fortunate person who is unable to obtain a clipper card.
66	ENGLISH	Online	Yes	Not happy about that at all. if i happen leave my card in a different car or purse, why would i be forced to purchase another clipper card.
154	ENGLISH	Online	Yes	Not really, seems fine for commuters but could be awkward for one time riders going to the airport or something
193	ENGLISH	Online	Yes	Not really. It's the way things are going, and I have a Clipper card, so it's fine by me...
140	ENGLISH	Online	Yes	Not really. Though it may be inconvenient for those who do not intend

				to travel enough for the Clipper to be useful.
165	ENGLISH	Online	Yes	Paper tickets should remain available for people who only occasionally ride BART and have no use for a Clipper Card.
103	ENGLISH	Online	Yes	People who only need to make a trip once should not be forced to purchase a clipper if they will not make use of it.
86	ENGLISH	Online	Yes	Please allow clipper card to pay for parking,
20	ENGLISH	Online	Yes	Please consider passengers who do not use BART on a regular basis. Forcing them to buy clipper cards might be too much for them.
67	ENGLISH	Online	Yes	Please make sure all machines take credit cards.
25	ENGLISH	Online	Yes	Seems like one BART ticket vending machine would be helpful. Everyone that rides BART is not a frequent enough rider possibly to warrant getting a Clipper Card.
161	ENGLISH	Online	Yes	Should be system-wide
291	ENGLISH	Online	No	so long as I can use my SFO Bart discount card, no worries. Have at least one for those who have only cash in case of emergencies.
229	ENGLISH	Online	Yes	Sounds better
163	ENGLISH	Online	Yes	sounds great
184	ENGLISH	Online	No	Sounds like a good idea as long as you can add with cash
153	ENGLISH	Online	Yes	Sounds like a great idea.

166	ENGLISH	Online	Yes	That probably will not work for everyone. Why isn't it the same as all other Bart stations?
253	ENGLISH	Online	Yes	That seems reasonable for commuters. Given that this station is likely to be mostly commuters, it should be okay although ideally people taking a single ride, such as to and from the airport would not be required to buy a clipper card.
254	ENGLISH	Online	Yes	That will be great
32	ENGLISH	Online	Yes	That will confuse people, you'll have to deal with training the public. But for me no issues.
212	ENGLISH	Online	Yes	That's a bit unfair to someone just riding periodically.
112	ENGLISH	Online	No	That's dumb
2	ENGLISH	Online	Yes	The Clipper card is more convenient than the paper tickets.
68	ENGLISH	Online	Yes	There are times when I don't have money on my clipper card. That amount is being deducted from my bank account. So, I would sometimes have to buy a paper ticket with my credit card (AMEX) since ClipperCard doesn't accept AMEX online for payment. Will the clipper cards being sold at the new stations allow cc AMEX as a payment? If so, then no issues there.
93	ENGLISH	Online	Yes	There should be a way to combine clipper cards at the machines. I sometimes have to get a ticket if I forget my clipper card. If only clipper cards are available you should be able to turn them in and get their value back plus some of the cost of the card. Also the online

				management of the clipper cards should be better
126	ENGLISH	Online	Yes	This doesn't affect me because I already have a clipper card.
294	ENGLISH	Online	Yes	This is a good thing to move people to clipper cards. Clipper cards should be useable for bike link as well.
288	ENGLISH	Online	Yes	This is great! Even for tourist using Antioch and Pittsburg Center stations.
221	ENGLISH	Online	Yes	This seems like an efficient upgrade, although I worry it may be inaccessible to lower-income residents. Will Clipper cards be available at the stations as well?
135	ENGLISH	Online	Yes	This should also be the case at all existing BART stations
281	ENGLISH	Online	Yes	This should be required at all fare gates.
142	ENGLISH	Online	Yes	This will not allow people from to start at those stations with a paper ticket and forces more people to continue to use Pittsburg/bay Point station
116	ENGLISH	Online	Yes	Time to modernize! Great move!
115	ENGLISH	Online	Yes	Very good!
333	ENGLISH	Online	Yes	What about nonfrequent riders who only want to purchase a single ticket?
196	ENGLISH	Online	Yes	What about the one-time use people who just need paper BART tickets for a one time. You need to count the folks who are not regular BART riders. Why would you make them purchase a clipper card. Clipper cards are ideal for daily/regular BART users.

87	ENGLISH	Online	Yes	What happens if some1 is just a one time user
108	ENGLISH	Online	Yes	What if I want to purchase just a single ticket? How is that doable?
74	ENGLISH	Online	Yes	What will people do if they do not have a clipper card? There should be at least 1 paper machine as some may use the system infrequently. Also many seniors do not know how to use the clipper card and find it easier to purchase a paper ticket.
98	ENGLISH	Online	Yes	What! BART still sales paper tickets!! :)
266	ENGLISH	Online	Yes	When are you going to make an app that you can scan your phone?
197	ENGLISH	Online	Yes	When family comes to visit we take BART, what about visitors to the area that will not use a Clipper card? Would we have to travel to a station that still use paper tickets?
47	ENGLISH	Online	Yes	Where is the discount that was in the paper ticket??? / I Don't see it in the clipper card.
44	ENGLISH	Online	No	While Clipper Cards are convenient, I refrain from using them because of not feeling comfortable having it linked to my banking account. With that said, if this is the only option then I will have to start using a Clipper card. It will beat spending an additional 30 minutes on the road from Brentwood to Bay Point Station.
276	ENGLISH	Online	Yes	Why not?
348	ENGLISH	Online	No	Will never use this station due to paper ticket

204	ENGLISH	Online	Yes	will there be different design for these clipper cards, such as limited edition or a celebration design for different seasons/sport teams/ events. / also how much will the clipper initial card cost before the ride cost?
84	ENGLISH	Online	Yes	Works for me but the folks that don't regularly use bart may not be a fan.
270	ENGLISH	Online	No	Would be nice if you could use either.
337	ENGLISH	Online	Yes	Would it be a \$3 additional cost for when I forget my clipper card?
217	ENGLISH	Online	Yes	Yay, the future is here! You should slowly roll this out to the entire system.
292	ENGLISH	Online	Yes	Yay!
52	ENGLISH	Online	No	Yay! / / Cards are free, and will make it quicker and easier for everyone with less waste.
284	ENGLISH	Online	No	Yeah, why? This makes things so much harder.
57	ENGLISH	Online	Yes	Yes, this would be perfect
64	ENGLISH	Online	Yes	Yes. Make sure there is sufficient and highly visible notice regarding this on all trains that service the current Pittsburg Station. Will BART hand out free clipper cards to to compensate for this inconvenience, or eliminate the \$3 charge for each card.
5	ENGLISH	Online	No	Yes. Are you implying that riders who use the train temporary now are restricted to Clipper cards only. Clipper is really geared toward the commuter not visitors. This doesn't seem fair to the riders in the Antioch/Pittsburg area.

180	ENGLISH	Online	Yes	You will sometimes have one time users and paper tickets are important to have. Don't take that away!!
106	ENGLISH	Online	Yes	You're not taking into consideration travelers and commuters who don't utilize paper tickets. If you're going to go plastic, make sure the purchasing line is fast. Commuters have to go go go.

## Appendix PP-C: Question 10, Fares Comments

ID	Language	Outreach Event Date (2017)	Response to Question 10, Comments
346	English	8/15	2 mile difference fare shoul be no more than \$5 one way
340	English	8/15	Although not a huge price increase, I would probably prefer to get dropped off at the Pittsburg BART Station
349	English	8/15	Appears low compared to costs to BART from SF to East Bay
345	English	8/15	BART is convinent and accessible. I'd pay any reasonable price to use it.
350	English	8/15	BART is getting extremely expensive, we already contribution through taxes and on top of that we still have to pay reall high parking & fare.
343	English	8/15	Great
341	English	8/15	It is still affordable transportation
359	Spanish	8/15	It is too high for the service we get
360	English	8/15	Just regarding factoring parking fees into the price
362	English	8/15	No
363	English	8/15	No
364	English	8/15	No

342	English	8/15	No problem
365	English	8/15	No, works for me
366	English	8/15	Parking fees and safety
354	English	8/15	Reasonable
353	English	8/15	Seems fair
351	English	8/15	Seems far
367	English	8/15	That seems reasonable
355	English	8/15	That's okay with me
361	English	8/17	This is what I pay already
356	English	8/17	Too expensive
357	English	8/17	Too expensive
12	English	Online	I was expecting it to cost more so I am pleasantly surprised. \$0.65 is worth not having to be in traffic to north concord for almost an hour every morning. Plus the cost of gas alone is more than that.
23	English	Online	It is reasonable to charge additional for the eBART portion
336	English	Online	Have it be affordable to everyone who uses it, including people in wheelchairs, and senior disabled people.
263	English	Online	Still pricy for decent transportation. No offense. You have trains with no AC, trains the have problems, the Antioch station is taking forever. Maybe do something to help the people versus filling your pockets and paying over 200k to janitors.

13	English	Online	That sounds like a reasonable and equitable amount.
115	English	Online	Ok
140	English	Online	No.
24	English	Online	Nope
193	English	Online	None you probably want to hear. I know all about BART's rate hike in general, and my personal feeling is if BART were better managed through it's board, BART wouldn't be in the situation to have to raise the rates. That being said, it is what it is, and it won't stop me from taking BART and using the Antioch station.
240	English	Online	Poorer people live further away charge the rich
121	English	Online	It's unfortunate but I understand the necessity. Fares must increase to keep up with inflation. But it is unfair that wealthy people in Orinda, Lafayette, and Walnut Creek get to pay lower fares than the predominately lower income riders in Pittsburgh and Antioch. This is a very regressive policy and I would think BART would want to help low income riders, not hurt them.
276	English	Online	A one-way trip from Pittsburg/Bay Point Station to Embarcadero Station costs \$6.55. It should be kept that way
300	English	Online	Dont open Antioch station!!!!
175	English	Online	PUBLIC TRANSPORTATION IS GETTING MORE EXPENSIVE EACH YEAR
67	English	Online	Please keep the fares down as much as possible. It's getting really expensive to commute. Keep the parking free at the Park and Ride lot in Hillcrest.

17	English	Online	Why is there such a huge increase to go one more station from Pittsburg Center to Antioch? Seems like too much
88	English	Online	Horrible. We pay more to get to a near bart station in the first place! Now we have to pay a higher ticket fare that's not right. We only make so much to be spending on a parking permit or parking passes plus the ticket fee. It's not feasible. These are your average joes taking the train to work! Your single families! Come on now.
42	English	Online	fare is little high and if increasing fare it should valid in train and bus also as it is in new York and other cities
250	English	Online	80 cents more is great compared to the 1.75 that it would cost to ride the 300 Tri delta transit bus back with a Bart transfer. But I will say it only costs an extra 5 cents to get from SF city to Pittsburg versus North Concord. So 65 cents more to get one stop farther than the Pittsburg center seems steep.
201	English	Online	No
73	English	Online	Sounds reasonable
251	English	Online	Great plan! I was worried there may be an upcharge to travel on the extension
69	English	Online	I have never taken any public means of transportation going to work aside from BART. I think it is still the most affordable means of public transportation.
98	English	Online	I am willing to pay for the service when the trains are kept clean and safe.
137	English	Online	Build the Livermore station.
257	English	Online	The fares in general are ridiculously high given the disgusting quality of the trains and the lack of reliability.

16	English	Online	I ride Bart from North Concord/Martinez to Civic Center and I feel that we currently pay enough already; if the Bart fares for North Concord/Martinez to Civic Center or from Antioch or Pittsburg/Bay Point Station will increase, the amenities of the Bart trains: no homeless, cleanliness, and Bart stations, escalators working, elevators safe and clean and more Bart Police at Civic Center (on a daily basis, I place a call for the Police/Bart Police to clear the area and make it safe for riders and pedestrians in the area) station would be need to happen in order for me to be okay with the fare increase.
86	English	Online	Please instruct the driver to nicely inform rides to take off there fully packed backpack during commute time. It's nothing worst then a crowded train with backpacks moving and bouncing off riders. Back packs like another body added to a already crowd train,they have no consideration for others.
296	English	Online	please dont
127	English	Online	This seems high
4	English	Online	The Bart fares are too expensive as it is. With constant breakdowns of the train, ticket machines, ticket gates, unhygienic stations. Where does the money go. They NY subway operates well and costs incredibly less. There is no discounts for regular users and it doesn't promote the use of the public transport.
47	English	Online	I don't know. Maybe it is reasonable...
100	English	Online	That's much cheaper than driving!
214	English	Online	It seems very weird to me that these are lower than fares to SFO. (Mostly because I don't understand why the fares to SFO are so high.)

11	English	Online	Coming from Brentwood, I would gladly pay the additional to be able to park at Antioch station.
232	English	Online	I like the fare structure.
59	English	Online	The passengers from new stations should pay a premium. Parking at North Concord costs \$3.00 a day, that should be added in the fare from Antioch and Pittsburg Center. Bus fare from those points is \$2.00, the sensible thing is to at least make it comparable. Who is friggin thinking of this s**t !!
148	English	Online	That is fair, as long as the E-BART connector is reliable and timely (running consistently) with the regular Pitt/Bay Point line. Realistically, it would cost more than say, \$.65, to drive from Antioch to the Pittsburg Station during the regular morning commute hours on Highway 4.
154	English	Online	I understand it but it will just make my commute more expensive. Tri-Delta is not going to drop their fares. Instead of paying one bus and one BART, which I do now, I will pay one bus, one BART and the extra eBART distance. An extra \$1.30 per day is not so much, but it is an added aggravation because my ride will also be broken up more. Now I just get on the bus in Brentwood and get off at BART Pittsburgh. I will take a bus to the eBART, transfer, and then transfer again at BART. Now I can nap on the long bus ride. With eBART each ride will be too short.
317	English	Online	Please use the fares to keep the station clean and patrolled
79	English	Online	I'd say \$0.15 for the extra distance to Pittsburg City Center seems fair.
30	English	Online	This is fair, personally would not mind paying more to provide funding to increase the quality of service.
312	English	Online	There should be reasonable prices for low-income recipients to sign up for.

163	English	Online	\$300.00 a month is a car payment! I know we need to factor in gas, insurance, car upkeep but wow.
123	English	Online	I can afford that
212	English	Online	No
179	English	Online	Are you calling the Pittsburg Center Station the Station were we would board on at Hillcrest? or is the Pittsburg Center Station the one by Railroad? CONFUSING!
118	English	Online	I personally don't agree with distance based pricing. If one is living in the suburbs then there's a good chance their income is lower. I feel so bad that basically people are only earning a salary only after they have worked the first hour since it will only be given to commuting costs. Minimum hourly wage=round trip ticket from Antioch=\$15. This doesn't even factor in gas and parking if your charging for that. Why should the rich live closer, have the shorter commute and have the cheaper fares? More and more people will end up jumping the turnstills or get in their cars, because you can find \$15 parking in the city.
245	English	Online	Unfair because we have to pay 65 cents more
236	English	Online	Don't extend BART! BART already can't handle its existing passengers. It should be illegal from a safety perspective to extend BART.
330	English	Online	should be even more expensive the greater the distanced travelled, and cheaper for shorter distance
274	English	Online	Sounds about right.
89	English	Online	Seems reasonable

122	English	Online	Need to make sure that the return cost is less than parking at the station because in the end it may work out cheaper to just drive to Pittsburg and pay for parking there
248	English	Online	Fair
15	English	Online	Bart fares are insanely high! the trains are a mess, homeless sleeping in them, trains aren't reliable and lack of parking. if you plan to charge so much, then you should offer better service, cleaner trains, more policy patrolling, and more parking. I think \$7.50 one way is excessive.
205	English	Online	The Pittsburg station fares seem too expensive.
85	English	Online	As long as I'll be closer home
288	English	Online	I think the costs should be lower.
221	English	Online	This seems reasonable
283	English	Online	It's not a route I would normally take, so I have no comment.
19	English	Online	no
142	English	Online	no
135	English	Online	Distance-based fares should also apply for trips on the Peninsula via Caltrain
152	English	Online	WOW! don't you think we already pay enough? PLEASE STOP rising the fares. I'm OK with paying more for the ride from Antioch to Pittsburg but you are raising the fares altogether.
266	English	Online	how much will parking be?
306	English	Online	Are there potential commuter discounts?

141	English	Online	additional 0.50 is acceptable
299	English	Online	I mean, that makes sense, everything goes up. But it would be nice to have someone at stations to catch the fare evaders. Honestly think of all the money you loose with people going thru the wheelchair gate.
1	English	Online	Prices are so high
188	English	Online	Yes it should not increase
133	English	Online	The \$.15 increase for Pittsburg Center Station seems fair but \$.65 for Antioch seems like a stretch. \$.35 increase might be better accepted by folks. When you calculate the cost of bart plus parking and maybe Lyft to bart for someone commuting past Embarcadero it is very high...
34	English	Online	I am not concerned with the additional fare. I already pay for the bus given the lack of available parking at the Pittsburg station.
61	English	Online	None.
114	English	Online	I feel that many people from Antioch have been paying the price for a Pittsburg/Baypoint station cost for YEARS. Because of this, I feel that Antioch should be the same price as Pittsburg.
165	English	Online	You are given money via elections and current ticket fares and do absolutely nothing useful with it. You should be working to make the trains better, bigger/higher capacity so we aren't packed like sardines in a hot musty train, cleaner and ON TIME or making BART safer so I don't feel the need to carry pepper spray and a taser just to get to school; but instead you are using it to make fancy pathways to Todos Santos Plaza in Concord or to make trains with fewer seats and more standing room or give your employees bonuses and raises that they don't deserve. You don't use the money you have in a responsible way. Get your priorities straight and

			make BART safe, on time and clean, then try asking for more money or raising our fares. We shouldn't have to pay more just to get to work or school on a transportation system that is a pile of garbage (literally) and not improving for the rider, in fact it's getting much worse.
271	English	Online	You need to add more trains and you need to remove more seats. There is not enough capacity during the heavy commute hours. All lines need more capacity. Multiple trains are too full to take passengers wishing to board in am and pm commutes. Capacity expansion is big issue. Also reconsider bikes during commute - those are creating serious space issues.
149	English	Online	I think that's probably fine. However, I worry that it won't alleviate a problem that already exists at the Pittsburg/Bay Point station which is that I know that people drive to it from Antioch/Pittsburg and take up all the parking spots before 7:00 a.m. My hope is that opening stations closer to Antioch will alleviate some of the parking congestion at Pittsburg/Bay Point. I wonder if the higher fare will still mean that people drive from Antioch to Pittsburg/Bay Point to avoid the increase in fare.
138	English	Online	So long as it is cheaper than parking I can surrender my reserved parking space and walk/bike to the Pittsburg Center Station. Very much been looking forward to this.
226	English	Online	Too much.
207	English	Online	Not applicable
326	English	Online	As long as it attract riders at those stations which can help ease traffic and parking at the other stations that typically always full.
66	English	Online	I would not be happy with a fare increase until Bart starts providing a cleaner environment on trains and i the stations. There are continuous rate increases, but yet several very unpleasant things stand out for

			me in my daily commute. Daily I am on trains with sticky floors where I am expected to take my backpack off and sit on the floor, I walk in or try to jump over urine stained (or puddles) stairwells and platforms, and on top of this not feeling totally safe.
161	English	Online	It's consistent so I'm ok with it.
101	English	Online	The fares seem very reasonable.
167	English	Online	I need seating and reliability
83	English	Online	No
183	English	Online	Bart is bad at using money so not suprised
282	English	Online	It is a good idea. The Pittsburg/Bay Point station is a mess. Way too crowded during peak hours.
93	English	Online	You might get too many people trying to go to Pittsburg Station instead of antioch
158	English	Online	no
117	English	Online	Not right! Is the service going to be better?! Tired of paying more to ride bart when trains are crowded.constant delays.urine in elevators and stairwells.poor security.fix those issues b4 constantly raising fares! There is no fare increase between downtown sf stops so why an increase in short distance between pitt and antioch? Greed and poor service
18	English	Online	Yes, an additional \$0.65 is excessive. Why only \$0.15 for Pittsburg and a whopping \$0.65 for Antioch-whose residents have been paying for this extension for years? A fair increase would be \$0.15 making the one way fare from Antioch to Embarcadero \$7.00.
247	English	Online	Will there be anything additional fare for riding the train from Antioch?

82	English	Online	Sounds reasonable
62	English	Online	I don't understand why Antioch has been paying taxes to get BART out to us since the 70's and when we finally do, it's not even the same BART as the rest of the system.
302	English	Online	Yes the fare is high
261	English	Online	Stop swrvice until trains work
253	English	Online	That seems fine.
147	English	Online	no
38	English	Online	Seeing that this station is not a full functioning station it will cost Bart less money to run. There will be no station agent (what were you thinking). No Bart police until there is funding to do so. Solar power. Does.not justify your fare hike.
254	English	Online	That is a great price.. only concern about the parking.. Pittsburg Bart station seems to be tiny
102	English	Online	The higher fare is fine as long as there is adequate service to and from the destination
37	English	Online	We should not have to pay for parking fees.
277	English	Online	Makes sense
31	English	Online	I Think it should be with increments of \$0.10. Not everyone get a raise every year.
150	English	Online	To expensive
181	English	Online	No comments
217	English	Online	A little more than the cost of taking a bridge and you don't have to park once you get there.

228	English	Online	No surprise. BART is the most expensive subway in the country. It sucks that you also charge for parking. Round trip from Antioch (a city of mostly lower middle class and poor people) to SF would be 20 bucks or 100 a week. These people can't afford 400 a month for the train. But why should you care, right?
108	English	Online	Too expensive! Can you lower fares to \$6?
210	English	Online	Ridiculous and way over priced! It's becoming cheaper to drive into SF.
33	English	Online	That is a very expensive fare. That would put my daily round trip ticket to almost \$14. It's ridiculous considering how many delays and dirty trains I have to deal with on daily basis
146	English	Online	The increase in fares are not an issue if trains are consistently running on time and are well cleaned and sanitized. However, that is not occurring. I take the train 5 days a week and unfortunately, the following trains are always running late: 7:17am, 7:32am, 7:47am and 8:02am. Additionally, they're are filthy.
180	English	Online	I get the feeling that once Bart sees that people use it, the fare will rise again. Put a freeze on fare for 5 years. Also offer discounts to City employees from Bay Area.
190	English	Online	The proposed fares seem a little low. It would seem to me the fares should be more like \$0.45 extra to Pittsburg Center and \$.90 to Antioch to help recover costs more effectively.
65	English	Online	That is a big jump between the 2 stations. I might use Pittsburg station and not Antioch.
71	English	Online	Expensive
32	English	Online	Seems worth it to me.

106	English	Online	It's too expensive for the service provided by your organization. You're an unreliable system. You're never on time. There's never enough trains to transport passengers. The trains are frequently dirty and disgusting. Your scheduling isn't realistic to the needs of your customers and to a growing commuter population in the Bay Area. You don't police enough in the Contra Costa region and have frequent gate jumpers, then you complain about not having enough money. And what money you do receive, you don't manage well and don't allocate the resources for MORE trains, BETTER trains for the environment and trains that are AFFORDABLE for the general population. This pricing structure is ridiculous and just too expensive for what the customer receives when using BART.
58	English	Online	No, I don't believe I have a choice!
77	English	Online	Bart is becoming way too expensive
70	English	Online	I feel it's getting a bit too expensive. It makes no sense to raise the price after the stations are already built. With two extra station, you all are going to get more money anyways, please keep the fare down, we need the money for other things too, like food.
44	English	Online	That seems fairly reasonable.
204	English	Online	it looks like the antioch station costs more to fund more future east bay projects, to building more expansion past antioch station.
160	English	Online	Yes, I am not going to pay the increase. I am concerned about the parking structure at both new stations in Pittsburg and Antioch. Is there going to be a charge for parking?
196	English	Online	No, all of BART is greedy and hungry for money all the time anyway.

173	English	Online	The BART fare schedule should not be that different from any other BART station. Antioch and Pittsburg are in the BART Tax zone and we have been paying for BART for years without direct service. BART decided to put in a less costly solution to service the area. This solution has additional inconvenience for riders, such as having to Transfer to Regular BART. There should some form of fare relief for that. It should be cheaper for us to go the distance on E-BART than the same distance on BART.
104	English	Online	Anticipated an increase, so not unexpected. I will say this, the lack of urgency for fixing elevators and escalators for your handicapped ridership is deplorable! I hope you invest in quality equipment and upkeep. It is shameful the way staff engages handicapped ridership!
134	English	Online	It is what it is. I've been riding Bart to commute to work for years (12+). The fare goes up, but it beats driving to Oakland/SF from the east bay. My biggest complaint is the parking/lack of, BEYOND crowded trains during commute hours and the unruly passengers.
286	English	Online	No
182	English	Online	The price sounds about right. We've all been hearing rumors that each ride to the Bart station will cost us \$5.00 one way. That would not be cost effective for the Bart Riders. It's already expensive to ride.
57	English	Online	If there is an increase in fares the stations and trains really need to be clean and do not let homeless people sleep in them overnight. Every morning at the Pittsburgh station there is someone sleeping in the train when it pulls in and urine and other bodily fluids on the train.
29	English	Online	The price seems reasonable for the distance from Antioch to Pittsburg BART. That saves me money versus using the Park and Ride Bus from Antioch to

			Pittsburg, or driving to Pittsburg or North Concord for BART.
223	English	Online	No comment
99	English	Online	Makes sense it'll cost more the further back it is from SF.
246	English	Online	I think 65 cents is reasonable. I hear rumors upto \$3-\$5 is alot.
126	English	Online	If BART is going to raise fares - on a project that was dangled in front of homebuyers 20+ years ago - I think it's complete CRAP. Residents in the area have been paying more in taxes into a system that is so poorly managed. The stations are filthy and WHY does Pittsburg BayPoint station seem to have the most MENTALLY ILL on their trains? EVERY SINGLE DAY there is a mentally ill person in a car!! Is there a mental facility that is giving their outpatients BART fare and sending them to the station? I've seen passengers harassed and NO BART Police ANYWHERE. Put the BART police ON THE TRAINS! ANSWER these questions PUBLICALLY - put it everywhere so we know there's an effort to make things BETTER!!! You're going to charge more for something that the public has already paid for - 20+ years and then some in taxes and increased fares already. BART holds the Bay Area hostage with all of this. SHAME ON YOU!!! Surveys and questionnaires? JUST STOP IT. Make it cleaner...make it more efficient...put the money INTO THE SYSTEM. The Bay Area needs a system that SHOWS it's integrity and pride for being here. Right now - you just look like a d**n profit center that is hustling the hard working people who are already struggling.
90	English	Online	No
136	English	Online	No

256	English	Online	None
84	English	Online	I catch the express bus from Antioch now so this is more cost effective for me.
87	English	Online	I hope it's not too much more expensive because we don't have parking structures plus we've been paying taxes for this for years in Pittsburg and still only get e-trains
49	English	Online	Yes I have a comment and concern., public transportation should be an incentive to reduce cars on the road. At \$15 roundtrip from Antioch to Embarcadero or 75.00 a week, 300.00 a month it is almost flat to driving. Your pricing structure does not make sense.
81	English	Online	Keep the fare increase per station \$0.15 each.
112	English	Online	That's confusingly
5	English	Online	Without providing information about the distance I cannot provide feedback. I thought there was only one new station that would be in Antioch but now through this survey I am learning that the eBART now comprises of two stops. Not enough information provided.
291	English	Online	sound reasonable; using the Bart SFO discount card, I pay \$14 and change round trip now but I have to drive from Brentwood to Pittsburgh/Bay Point-just get me off of Highway 4! please! And please let parking at the new station be sufficient so I don't have to be there at the crack of dawn to get a parking spot.
162	English	Online	Clean the trains, stations and make sure the fare gates work correctly in all stations before you decide to increase the fare. Oh and it would be nice if the trains arrived on scheduled time. It's only fare don't you think!?
242	English	Online	No

218	English	Online	NO
258	English	Online	Those rates are pretty high. A lot of commuters already struggle to pay the fares that are already in place.
171	English	Online	The fare sounds reasonable, as long as parking fees are comparable to Pittsburg & N. Concord's fees.
124	English	Online	That is only for the train fare itself. Parking should be free.
213	English	Online	Not st this time
230	English	Online	no
132	English	Online	I think the increases to use e-bart to Pittsburg & Antioch is a very fair price.
6	English	Online	I think the Antioch fare is somewhat high in comparison to the Pittsburg Center fare. \$.50 more seems more appropriate.
131	English	Online	Really, but that is not the overall cost!! PARKING FEES should be eliminated. You should listen and do this. You keep raising BART fares every year and at the same time, you want to increase the Parking fees!! That is greedy.
46	English	Online	I think that's ok for now as long as we don't get hikes in our fares like bart has done for years. If bart can clean up and have regular security in the downtown stations especially civic center, i don't mind the fare increase.
56	English	Online	That's ridiculous! Plus the cost of parking. Please re evaluate the price between Pitt and Antioch.
325	English	Online	BART is SO expensive. I don't know too many people who can afford to pay \$15/day on public transit. BART really needs to get more subsidies from the govt so people earning a minimum wage can afford to use it. There are never enough seats, the train cars are dirty, homeless people sleep in

			them, and the bathrooms are too disgusting to use. Equipment and track problems constantly. Police actions holding up travel.
92	English	Online	Sounds good, we need it soon
155	English	Online	BART's fares are too high given the over crowded conditions of the trains, the unreliable nature of the system. If I could take a transbay bus from Brentwood, I would certainly do so. I'm also not happy about the fact that the line from Antioch to Pittsburg Baypoint is like a "connector" train. So I'll have to get off the bus, get on the connector train and then get onto BART at Pittsburg Baypoint. Every time I have to make a connection, there is a margin of error that I will miss the next part of the trip. I sometimes I am glad that I am older and hope I can figure out a way not to commute to the city to work, and again, NEVER RIDE BART AGAIN! EVER!
184	English	Online	What are the fees for?
52	English	Online	The Antioch and Pittsburg communities are heavily low-income. Consider that somehow - discounts for frequent users or those on SNAP or WIC, something like that.
9	English	Online	No
270	English	Online	It's a lot, but every bit helps to alleviate the congestion on our freeways.
39	English	Online	sounds good.
68	English	Online	It sucks but sure beats driving into the City..cost wise.
3	English	Online	If you raise rates, makes sure the trains are clean, security camera work, and track maintenance is dine in off peak commute hours.

172	English	Online	None.
191	English	Online	I am don't see why folks taking train from Pittsburg/Bay Point have to pay more. It's not like we are getting added benefit unless you make a parking structure. I have to drive to North Concord just because there is no parking in Pitts/Bay Point parking lot. I don't see problems with Antioch Station costing more because it's farther away.
28	English	Online	No. I pay \$6.65 one way to South San Francisco and I think that's reasonable
202	English	Online	The additional \$0.65 is well worth it. It will cost more if they rider was using the bus from east Antioch to the Pittsburgh/Bay Point Station. This lower fare will help the lower income people that ride the system afford the increase. /
303	English	Online	Sounds acceptable but keep in mind other cities' mass transit trains, like New York City, are much cheaper over long distances.
268	English	Online	No. Seems reasonable.
281	English	Online	That's f**king great. Make us pay more and more ti rude on your cr*ppy trains that never have uniformed law enforcement on them. Seriously, how mych more money do you need?
10	English	Online	No comments about the proposed fares, but I would like to see BART increase the parking. I live in Antioch but I have to drive all the way to North Concord/Martinez station every morning to catch the BART because no available parking at the Pittsburg station. Hopefully there will be plenty of parking at the new Antioch station.
109	English	Online	Should be cheaper
224	English	Online	This is good news. A separate fare for the extension would NOT be good news.

145	English	Online	I will save on gas and time, so fare increase is not an issue.
21	English	Online	sounds fair
229	English	Online	Nope
74	English	Online	Nope
166	English	Online	People will Then think "I should just take the train out of Pittsburg". Why such a price increse? We already pay too much, if you're going to increase the fare then you should make sure to clean the trains, stations and provide a more Bart police on the trains. Honestly if I had another way to get to work besides driving I would NEVER use Bart.
323	English	Online	Doesn't effect me, yet.
116	English	Online	Fair pricing.
168	English	Online	No
48	English	Online	BART fares are already too high as is.
185	English	Online	I feel that these are reasonable prices for the trips, specifically as the tracks are constantly being extended, those some money really needs to be put into upgrading and maintaining the older Pittsburgh to SF tracks.
234	English	Online	Too much
78	English	Online	Seems reasonable. This is actually lower than rumored rate increases. Also cheaper than riding Tri Delta express bus route.
241	English	Online	Cheaper than driving

111	English	Online	Bart itself is very very costly. Please do something in general to reduce the prices overall
54	English	Online	No
50	English	Online	Seems "fare" enough.
8	English	Online	How much will it cost just from Baypoint to Hillcrest?
64	English	Online	That's significantly lower than expected. However, that's based on the assumption that future stations are services near Oakley, Brentwood, and possibly Discovery Bay. If those stations don't come online, is there a possibility of escalating the fare increases to offset lost planned revenues?
278	English	Online	Nothing to do with fairs i want the homeless problem fixed Bart needs to some serious fixing on rider safety!
206	English	Online	The Antioch Station fare seems excessive compared to the Pittsburg Station fare. That means that you'll people who should use the Antioch Station driving to the Pittsburg Station to save that additional \$.65 which adds up. I hope BART anticipates the extra parking and traffic flow required at Pittsburg that will be brought on because of the fare difference.
310	English	Online	They should be higher. New riders overload the system with people in W Oakland not even able to get on some times. They also take all seats which take most room.
63	English	Online	No.
45	English	Online	I normally don't use either of those stations, but paying the additional fare because of distance sounds fare. Although, what is set up now in Antioch doesn't seem useful except the extra parking spaces.

36	English	Online	That is a pretty significant amount for the antioch extension, so if those are the prices and if there's additional wait time required from the extension to regular bart, then I will most likely try to take bart from pittsburg still
14	English	Online	Well this is another clever attempt to hide the fact that Bart is once again going to increase the rates on standard fares. For someone who rides the train everyday that's a annual \$78.00 dollar increase. / / Bart's poor decision making strikes again. I'm not sure whats worse that Bart continues to defend it's terrible decisions such as paying a janitor over \$200K annually or that they keep pushing these cost of their decisions onto their consumers. No ones happy about the shape of the cars, the homeless problem, the terrible customer service, increased crime and lets not forget about parking.
174	English	Online	No
105	English	Online	too expensive. over all lowered prices for an affordable way of getting to and from the office is better
313	English	Online	You already charge too much for what we get in return - dirty cars, homeless riders. Your employees admittedly sleep on the job, hide in closets, etc. Make them work or get rid of them. Us riders might not mind paying so much.
110	English	Online	Fares are too high. Most folks will continue to drive to work.
7	English	Online	The fares seem reasonable

## Appendix PP-D: Question 13, Parking Comments

Response ID	Language	Outreach Event Date (2017)	Response to Question 13; Comments
188	English	Online	"Tis is again too much
141	English	Online	\$1.5 is acceptable at antioch station. because it already add too much for commuter. I hope eBart can match regular Bart schedule for the start and end time
287	English	Online	\$17 in fare(fees) per day? Wow
340	English	8/15	\$2 would be optimal
133	English	Online	\$3 seems fair since most stations charge \$3 for parking but if the cost for bart is going up significantly (\$.65 increase) might be fair to reduce parking fee.
123	English	Online	\$3?! It's not fair to have to pay so much when we're already riding the train for so long and paying so much already. \$100 per week including parking is a lot for transit. Makes me consider driving sometimes.
47	English	Online	\$3.00 is too much for the Bart to charge now, that is why a lot of people are cheating.... / Maybe \$1.00 is enough for everyone to pay and reasonable and acceptable.
137	English	Online	Add more parking. Everywhere.
49	English	Online	Again now it becomes 390.00 a month to use public transportation, might as well drive.
162	English	Online	Again, clean the trains, stations and fix the half opening fare gates and work on the trains arriving on scheduled time. The Bart ride experience is so NOT pleasant.

58	English	Online	Again, I don't feel I have a choice, it's my only option.
270	English	Online	Also costly. But, even if riders drive a few times a week and take BART a couple of times a week, it will help alleviate freeway congestion.
242	English	Online	Antioch, maybe. But charging for parking at another pittsburg station, no!
328	English	Online	Are you planning on having parking permits at Antioch? I think a lot of people are interested in that.
131	English	Online	As I mentioned before you keep raising fares every year. Plus, you want to increase parking fees every year also. In my opinion this is too expensive base on my income and the distance of my commute from Bay Point to Embarcadero station.
264	English	Online	As long as my car is not stolen, then we're good.
114	English	Online	As long as there is enough parking at these stations, I'm alright. Pittsburg has a really small parking lot, and sometimes I need to park really far just to make it to the station.
20	English	Online	At least offer free parking, probably with an incentive. These passengers have diligently paid their taxes which is part of what has enabled eBART extension.
39	English	Online	availability is a concern.
121	English	Online	BART needs to do a better job promoting alternative transport to the stations.
117	English	Online	Bart needs to offer parking discounts for weekly round trip riders.parking use to be free! Connecting buses offer fare discounts but greedy bart now charges for parking! Im sure that price will also rise

135	English	Online	BART should charge more for parking and use the money to provide better local bus service.
175	English	Online	CAN'T IT START AT A LOWER COST DEPENDING ON HOW MANY SPACES AVAILABLE AND LOCATION?
292	English	Online	Charge more!
295	English	Online	Charge more. Also stop please stop building giant parking structures in general.
314	English	Online	Charge more. Parking should be priced at market rate at high demand facilities
55	English	Online	charging for parking as well as riding the train is a bit excessive to me. I plan on parking at the Antioch station(Hillcrest) location.
14	English	Online	Considering that is a park and ride station and is incorporated with Tri Delta transit, I'm not sure how Bart actually can do that.
183	English	Online	Crazy how much money bart makes and now raising rates. Why??
178	English	Online	Depending on how quickly Antioch parking gets filled up and the effects on Pittsburg / Bay Point parking. I might end up driving to Pittsburg and parking there
274	English	Online	Discounts for carpoolers?
21	English	Online	dislike parking fees.
126	English	Online	Does BART have ANY Idea how many people have moved out to East Contra Costa County?! / / WAKE UP. There is NOT enough parking at ANY BART station! Take the money and turn one parking lot into a PARKING STRUCTURE. You want to raise parking fees? SHOW what you're are doing with the money! BETTER the SERVICE.. BETTER THE ACCESS...and MAKE IT SAFER!!

22	English	Online	Don't increase beyond 3
300	English	Online	Dont open Antioch station!!!!
337	English	Online	Due to the availability of land and added fare for distance, \$3 is a bit pricey for parking
281	English	Online	Enough with tge d**n fees!!!
298	English	Online	Expensive for communities that are lower income than many of the other suburbs.
56	English	Online	Extremely high cost for parking.
248	English	Online	Fair
304	English	Online	Fair enough.
341	English	8/15	Fair fee, it is fine.
82	English	Online	Fee is kinda high
31	English	Online	For at least 6 months to a year should be free. it will be a lot for parking plus bart ticket.
223	English	Online	F**k your parking fees for all stations that continue to rise. Service goes down and fares, fees and your salaries go up up up.
342	English	8/15	Good
265	English	Online	Good idea
343	English	8/15	Great
190	English	Online	Hopefully reserved permits will be available on a monthly basis as well as Airport/longterm temporary permits (i.e., match existing permit availability). / / Parking costs should rise based on demand to help prevent availability issues. Pittsburg currently fills by 7:00am. If the fee were to rise with demand, the demand on the limited supply would moderate.
151	English	Online	Hopefully they will have the monthly reserved parking

202	English	Online	I actually currently park at the Antioch Park and Ride, which will soon be the Antioch station.
325	English	Online	I already pay \$3/day st Hayward. In a 2-3 year time frame, first parking was was free, then it was \$1, then \$2, and then \$3. I feel sorry for the people of Antioch having to fork over another \$3/day on top of their \$14/day tickets.
89	English	Online	I always thought the parking fees were too high. I am looking forward to parking freeing up at Pittsburg/Bay Point station
319	English	Online	I can never find where to pay for parking.
179	English	Online	I currently park at Hillcrest. I have tried to park at Antioch; however, it is full by 6:30 a.m. Whoever, is thinking of reducing the parking at Concord/Martinez needs to have their head examined. With more housing slated for that area, the parking will be necessary. It is standing room only by the time we pick these folks up. Do not give up parking!!!!
23	English	Online	I currently park at North Concord because that's the station I use (and the only one with parking available during my commute). I plan to park at the new Antioch station when I begin using it. It is reasonable that I would be expected to pay similar parking fees there as well.
146	English	Online	I currently pay for reserved parking. Is reserved parking available at the Antioch Station? If so, will the cost increase as well?
344	English	8/15	I didn't think there should be a fee
99	English	Online	I don't park at BART so it won't make any difference to me

154	English	Online	I don't park at BART. I understand having some fees. I think \$3 per day is not bad but if the BART board managed things competently then it could be lower. I think charging parking to the poor people who have to ride BART the farthest is a little weak. I think charging parking at the Hillcrest Park and Ride (Antioch Station) is basically bogus because people don't just use that for BART.
5	English	Online	I don't think this is fair. Already you are inconveniencing riders by making them switch trains once they get to the Pittsburg/Bay Point train. Why not offer it for free for all the years property owners paid taxes for BART but are only just recently getting a train near them. Also, I heard this is a diesel train and if that is correct, air quality is affecting those very same riders. Give them a break.
50	English	Online	I have an opinion about the fees in general: / 1. When will we see significant improvements at the stations? I've been paying for many years and my car isn't any safer, the station isn't any cleaner, nothing has really changed for then better. / 2. Why will rates go up if parking remains 95% full? Don't you want people to park? Or are you just trying to milk riders even more? Seems a bit punitive.
246	English	Online	I have been paying \$3, but I think \$2 is reasonable. Its antioch land here is cheap. Lol
251	English	Online	I hope the parking charge starts low and slowly increases based on parking demand, just as it did when implemented at other stations
98	English	Online	I hope there is enough parking.
33	English	Online	I park at north concord only because bay point parking fills up very early. You should charge less for parking -\$2. If you make tickets and

			parking that expensive people will drive instead of using bart
166	English	Online	I pay to park at Pitts now so that wouldn't be a problem to pay in Antioch
57	English	Online	I plan on parking at the new station in Antioch. It concerns me that there is not a parking garage at this new station. It seems as if there will not be enough parking. Why does parking become the after thought? There are some many people that will utilize this station and I would think there would be parking garages. I had to select Pittsburg, but that is no my station. Also why are there no garages at Pittsburgh?
100	English	Online	I plan to park at antioch if available space
66	English	Online	I plan to part at Antioch location but I don't see it on the pick list. why charge patrons to park? if you do charge, all locations should charge to park.
192	English	Online	I recommend free or lower-cost motorcycle parking at the new stations.

156	English	Online	I think it is ridiculous that you charge for parking at BART stations when you barely have enough space to park as it is. / / Add on top of that the monthly permits that have a multi year wait list, which causes nothing but frustration as you force regular riders to park at the back of lots, when there are a glut of unused monthly parking spots available EVERY DAY. / / This has caused dangerous situations and people parking off site and walking down busy roads to get to the station. Just take a look any day at the road that leads to the N Concord station. / / I would like to get a monthly permit for the Antioch station but have been told that one does not exist. I am afraid I will miss the announcement and then face again a year long wait list. / / This is really the only frustration I have with the BART system. Are you really generating that much revenue from it? / /
13	English	Online	I think it's a good source for revenue. \$3 is a fair price for parking and at long last the trains will reach East County.
283	English	Online	I think it's fair.
194	English	Online	I think that one of the three parking lots should be free. There are not going to be enough spaces for parking at Antioch e-Bart. I also think people should only have to pay \$2 because they have to pay more for the BART trips. / / By the way, the question about where we park now or plan to park needs to have the Antioch selection added to the choices.
132	English	Online	I think the parking fees are outrageous in general. But happy to see that the e-bart parking will be inline with all other parking lots.
323	English	Online	I think the price should start out cheaper and approximately every 6 month or so rise the the average parking price.

149	English	Online	I think the standard parking rate is fair and should be applied to Atioch and Pittsburg Center.
60	English	Online	I think they aould pay the same amount I do at North Concord. Not only has m parking increased significantly over the last two years bit now I won't get a seat even in the morning now.
69	English	Online	I was hoping it will be free for sometime.
51	English	Online	I will not be parking at this station if there is a fee.
345	English	8/15	I'm not excited about the increase in parking but I know its necessary.
68	English	Online	I'm not planning to park there. Just so I can save \$ on parking.
76	English	Online	If I pay \$3 a day. Then there should be more disabled parking spaces. Im a disable individual and if the carpool is filled up there is no place to park. I have parked in the reserved parking area due to lack of disabled parking. The parking is ridiculous
36	English	Online	If parking prices go up in addition to fare prices, then I think soon it might be cheaper and less time consuming to just drive to work.
46	English	Online	if you close the concord/martinez station, it will be hell at pittsburg baypoint and concord, please keep our commute as safe and stress free as possible please!
320	English	Online	It should be higher at ALL stations.
122	English	Online	It should cost less, and have more patrols. I used to park at the station but since my car got broken into, I cannot afford to do that anymore. There are already break ins at the Antioch Station, you need to do something about this not just worry how much you intend

			to charge people for the pleasure of having their cars broken into
228	English	Online	It sucks. You're pricing out the people who really need public transportation.
254	English	Online	It would be great if there is ample parking space at new bart station
335	English	Online	It's a bit steep. That's \$18 a day round trip for someone who works in SF
217	English	Online	It's a fair price.
182	English	Online	It's already expensive to ride the train. Now we have to pay to park at the station we've been parking at for free. It's not going to be pleasant to have to pay this fee every day.
1	English	Online	It's the same high price I already pay. Wish parking was lower at all the stations
87	English	Online	It's too expensive especially when we don't generally pay to park anywhere in our city plus there's not even a parking structure and cars always getting broken into.
193	English	Online	It's what I expect. I will say this about parking in general at the new Antioch station: PLEASE DON'T UNDERESTIMATE THE COMMUTERS WHO WILL USE THAT STATION!! Please make enough spaces for straight fee parking, and not an inaccurate ratio of fee to permit parking, like you have done at Pittsburg.
219	English	Online	It's what I pay now at Concord. A bit steep.
105	English	Online	its ok

206	English	Online	Its very expensive to ride and park at BART 5-days a week!
296	English	Online	just don't raise fares
17	English	Online	Just hoping the fees don't go up any more. Those of us who ride daily pay quite a bit already. I don't have an issue with those stations paying the same amt as most other stations.
116	English	Online	Just make sure security is a priority especially Antioch
134	English	Online	Just wish I could get a spot! I'm over 1,000 on the waiting list for a permit in Pittsburg! If you don't get to the station by 6:30 a.m. you can't park! It's super frustrating and we are moving out of the area because of this. I'm sure opening up the new stations will help a little, but still not good!
81	English	Online	Keep the parking fee at \$3.00 at each of the new stations
35	English	Online	Leaving from Antioch will cost an additional est \$3.65-\$4 a day, \$20 weel \$100 month. Expensive. Suggest paid parking for reserved only and free spaces for others
346	English	8/15	less since BART ride will be more
347	English	8/15	Lower fares
103	English	Online	Make it possible to purchase single day parking from home. / / Provide real time updates on parking availability from home / app.
266	English	Online	Make more and make it \$1
180	English	Online	Make more parking spaces and more importantly get BETTER security. Hire an outside company that's professional.

3	English	Online	Make sure trains are kept up if you are going to charge.
277	English	Online	Makes sense
329	English	Online	More parking
28	English	Online	My husband parks his car at North Concord and the parking fee is reasonable
338	English	Online	My taxes were raised to pay for BART I do not think it is right to charge for parking. There will be plenty of parking available at the Hillcrest station.
185	English	Online	N/A i dont drive
10	English	Online	No comments about the fees, but there should be enough parking spaces.
16	English	Online	No comments, as at North Concord/Martinez station, the parking fee is already \$3.
191	English	Online	No issues with it. I already pay \$3 anyway. Build a parking structure in Pittsburg. For a station that takes all the commuters from Pittsburg, Bay Point, Antioch, Brentwood, you give no s**ts about the lack of parking.
348	English	8/15	No paper ticket, will not use
142	English	Online	No problems with the parking fee. / I currently do not park at BART but will start parking there next week. Due to the limited parking at Pittsburg/Bay Point I have to drive to North Concord to park. I am hoping that with these new stations that parking will free up at Pittsburg/Bay Point very soon. / Are there any plans to add more parking at Pittsburg/Bay Point station?
18	English	Online	No, as long as this lot receives the same amount of security as the other BART parking lots.

19	English	Online	No, but I don't think selling the North Concord parking lot is a smart idea.
333	English	Online	No, but parking is so hard at Pittsburg Bay Point which why I drive to concord, hopefully, with these new stations, there will be more parking. Any plans to create more parking at Pittsburg Bay Point?
145	English	Online	No, expect to pay for parking as I do now.
196	English	Online	No, parking has gone up in all the stations. It's ridiculous.
140	English	Online	No.
63	English	Online	No.
256	English	Online	None
215	English	Online	None
229	English	Online	None
45	English	Online	none
249	English	Online	Nope
24	English	Online	Nope, \$3 is what I pay so they should too
245	English	Online	Not bad
104	English	Online	Not enough parking - ever.
241	English	Online	Not high enough to stop people from driving solo
278	English	Online	Nothing to deal with cost Bart needs to address the small sanitary of the homeless and health of rider safety!
59	English	Online	Now someone is thinking reasonable, at least \$3.00
7	English	Online	Odd that Antioch isn't an option on the "Where to park" pick list. Since motorcycles do not pay to park, it does not impact me.

349	English	8/15	Ok
232	English	Online	Ok
173	English	Online	Once again, I have been paying tax subsidies for BART for years and my only service was to get on a crowded freeway early to get a spot at a station. The freeway trip takes 30-40 minutes coming from Antioch to the The Bay Point Station. BART chose to put E-BART in because it was less expensive. We the under-served community should have some benefit. / / I would have chose Antioch Station in the drop down because I plan on Parking there. But it is not a selection criteria.
326	English	Online	Parking are getting ridiculously expensive. Need to reduce parking fees since the Bart fare are already expensive.
291	English	Online	Parking at Pittsburg/Bay Point sucks! I start work at 10 am at SFO but if I am not at Bart by 6 am, no parking is available. We already pay \$3 to park at Pittsburg/Bay Point-no problem with \$3 at the new place.
263	English	Online	Parking fee is fine.
124	English	Online	Parking fees should be eliminated. BART DO NOT charge for parking before. Where does the extra money goes? I don't see any improvements on trains itself for example it's dirty, frequent delays, rude employees and a lot of break ins on cars mostly park at Bay Point station.
48	English	Online	Parking has gone from free to \$3 in a very short time. It is getting ridiculous to pay \$3 to park in a huge lot.
90	English	Online	Parking should be free
324	English	Online	Parking should be FREE @ ALL STATIONS!

42	English	Online	parking should be free as the fare is already too high why we pay for bus and bart and now parking it is too much
350	English	8/15	Parking should be free, BART already makes enough money through fares.
37	English	Online	Parking should be free, because we are being charged for riding the heart anyway.
210	English	Online	Parking should be FREE! You guys are greedy!!!!
351	English	8/15	Pay \$105 now
26	English	Online	Paying for parking is criminal on top of the high cost of public trans.
74	English	Online	Permit parking should also be made available. / /
163	English	Online	Pittsburgh has no room. Will Antioch have room or can I get a parking space?
4	English	Online	Place the parking machines in the parking lot. I have inserted the wrong number in the parking machines on many occasions at the Bart station in Martinez. Not the most efficient.
257	English	Online	Please build enough parking!!! So crucial to decreasing road congestion into SF!
125	English	Online	Please don't increase that amount - I pay for monthly parking
110	English	Online	Provide enough spaces so that the lot is not full by 6 am.
261	English	Online	Rip off
52	English	Online	Same as with fare - consider that Antioch and Pittsburg are very low income areas and have little choice but to drive to the location - providing discounts or incentives for low income residents could make a significant difference.

352	English	8/15	SB 1
32	English	Online	Seems consistent. You'll probably need to add more parking quickly.
268	English	Online	Seems expensive
353	English	8/15	Seems high to North Concord
184	English	Online	Seems high. Maybe can offer a discount if you buy at Flipper card with \$30 or more
299	English	Online	Seems normal price to me
72	English	Online	Should be equal to or less than Pittsburg Bart. / Should allow those with Pittsburg parking pass opportunity to transfer it to Antioch Station parking.
294	English	Online	Should be substantially more to encourage alternative forms of transportation.
12	English	Online	Sounds like it is in line with the other local stations.
171	English	Online	Sounds reasonable
253	English	Online	Sounds reasonable.
118	English	Online	Strongly disagree. \$18 total from from ANTIOCH? People can't afford that, much less the penalty fee if ticketed.
79	English	Online	That seems to be in line with cost of parking at the other stations, so that seems fair.
218	English	Online	That sounds fair
354	English	8/15	That's fine
355	English	8/15	That's okay even higher cost is ok
112	English	Online	That's really expensive for the Antioch area
144	English	Online	That's too high rate.

11	English	Online	The fee is fine, my main concern is there being enough parking spaces at Antioch Station.
155	English	Online	The issue isn't so much the price of parking but the lack of availability of parking. I'm assuming I will take the bus from Brentwood because (a) I feel safer parking in Brentwood than at Antioch or Pittsburg, and (b) there is never any parking available at most BART stations.
101	English	Online	The parking fee is reasonable, but it would be great if the parking structure could have more levels for additional parkingb
38	English	Online	There is already a sustantial amount of us that currently park at Hillcrest Station and bus to Bart. Hillcrest ParknRide lwas not an option on your list. Totally against \$3 parking. Barts parking rates are totally backwards. The closer to the city rates should be the highest...the further out lowest.
93	English	Online	They should be the same. One option will be to have them lower for first year to encourage people to take those trains instead of their current station
138	English	Online	This is a good price for the rare occasion I may need to park at Pittsburg Center Station.
29	English	Online	This seems reasonable. However, I am concerned that the parking at the Antioch station might quickly fill up and not be enough to accommodate the demand.
313	English	Online	Those are also too much. I was parked up front, first row and my license plate was stolen at BART. Shouldn't we get some kind of security paying these prices to park?

148	English	Online	To encourage more BART users to park at Antioch vs. Pittsburg BART station, it might be a temporary solution to charge less to part at the Antioch station. Otherwise, many drivers that reside mid-way between both points, may opt to continue to use the Pittsburg BART station to save the extra fee of eBART connector. The savings in parking may tip the scale to encourage more patronage at the Antioch station. This can be a temporary discount - maybe for the first 6-12 months of operation.
61	English	Online	To encourage people to use public transportation, the parking fee shouldn't be that high. I propose \$ 1.50 for Antioch and Pittsburg stations.
356	English	8/15	Too Expensive
357	English	8/17	Too expensive
108	English	Online	Too expensive
358	English	8/17	Too expensive. Provide CCTV Cameras for riders safety
62	English	Online	Too high.
359	Spanish	8/17	Too much
234	English	Online	Too much
15	English	Online	Too much money.
360	English	8/17	Two high for the lack of parking spots
161	English	Online	Up to \$3 for all day parking is fine but I would expect some type of security measure (cameras, security personnel) to be in place to prevent any thefts.

165	English	Online	Use the money you are already generating through current fares, and measures on the ballot you've won to make BART safer, cleaner, more enjoyable (even just slightly) and on time. Then maybe people would be willing to pay slightly more for fares and parking. Until you do that there is absolutely NO reason you should raise prices in ANY way when BART is just becoming worse and worse with the money you already have.
152	English	Online	Well you are really trying to squeeze water out of a rock. Your cost is very HIGH for parking; the only reason we use it is because we have no choice.
64	English	Online	While \$3 is not as high as the \$5 charged at very busy stations, does BART plan to implement paid parking immediately upon passenger service, or will there be a 6-month to 1-year grace period?
67	English	Online	Why can't you keep parking free for a while? This project has been delayed time and time again. As a result, we have been forced to pay for parking at other stations. If you are going to require parking fees, I want to know immediately how I can reserve a space so that I can actually the use the station I have been waiting for for four years.
78	English	Online	Wish it was cheaper, but understand it aligns with parking fees at other stations.
44	English	Online	With parking and the BART transit fare it does add up each day and for some of us it is cheaper to drive.
247	English	Online	Yes I currently pay more than \$100.00 per month for permit parking at Pittsburg. Paying this, and additional fees for parking at Antioch, will probably make me not use the Antioch extension.

168	English	Online	Yes less than 3.00\$
201	English	Online	Yes you should only charge 1\$
160	English	Online	Yes. Too expensive and not enough parking available. If you are not at Bay Point by 6 am there are no spaces available. When is Bart going to expand parking at the inland stations?
302	English	Online	You are robbing your passengers by charging parking. You already hiking ip the fare quite substantially
106	English	Online	You don't have enough parking for the Pittsburg Bay Point BART station and I already saw that you don't have enough parking for Antioch. The Contra Costa region is growing significantly and the population numbers are only going up. Housing here in Antioch is among some of the few BART pockets that there's been an increase of buyers in the real estate market. Bottom line, YOU NEED MORE PARKING.
271	English	Online	You should charge parking. Rates should be more comparable at all stations
172	English	Online	You should only charge \$1 for parking, to encourage more East County residents to use BART. Otherwise, they'll still drive on Hwy 4 and Hwy 242, defeating the purpose of extending BART to Antioch.

# Appendix PP-E: Publicity and Outreach Materials

---

# BART wants to hear from you!

The San Francisco Bay Area Rapid Transit District (BART) is nearing completion of a new rail passenger service on approximately 10 miles of new track between the existing Pittsburg/Bay Point BART Station and Antioch at Hillcrest. The Pittsburg Center and Antioch stations are expected to open for service May 2018.

*Here are some facts about the new stations and service:*

## TRAVEL TIME

Estimated travel time to board a train at Antioch and arrive at the Pittsburg/Bay Point Transfer Platform is 10 minutes.

## ENVIRONMENTAL BENEFITS

- Removes cars from highway and roads
- Reduces vehicle miles traveled by 99 million/year
- Carries as many people as an additional lane of Highway 4
- Improves freeway operations
- Reduces greenhouse gas emissions by 260,000 lbs/day
- Reduces consumption of energy and petroleum

## TRANSIT CONNECTIVITY

Access to Tri-Delta Transit and County Connection buses, as well as parking, taxi, and “kiss and ride” passenger drop off areas.

## PROPOSED FARES

BART plans to extend its distance-based fare structure for the BART to Antioch extension.

## PROPOSED SERVICE

The hours of operation are the same as the existing BART System. The BART to Antioch trains will connect with BART trains at the Pittsburg/Bay Point Transfer Platform.

# ¡A BART le gustaría enterarse de lo que **usted** piensa!

El Bay Area Rapid Transit District (BART) de San Francisco pronto concluirá un nuevo servicio de tranvía para transporte de pasajeros que consta de aproximadamente 10 millas de vías nuevas entre las estaciones existentes de BART de Pittsburg/Bay Point y Antioch en Hillcrest. Se espera que las estaciones de Pittsburg Center y Antioch inicien su servicio en mayo de 2018.

*Aquí encontrará algunos hechos sobre las estaciones y el servicio nuevos:*

## TIEMPO DE TRANSPORTE

El tiempo de transporte desde la subida al tranvía en Antioch y la llegada a la plataforma de trasbordo Pittsburg/Bay Point es de aproximadamente 10 minutos.

## BENEFICIOS AMBIENTALES

- Elimina la presencia de vehículos en autopistas y calles.
- Reduce las millas recorridas en vehículos en hasta 99 millones por año.
- Transporta a tantas personas como un carril adicional de la Autopista 4.
- Mejora las operaciones en carreteras.
- Reduce las emisiones de gases de efecto invernadero en hasta 260,000 libras por día.
- Reduce el consumo de energía y petróleo.

## CONECTIVIDAD DEL TRANSPORTE PÚBLICO

Acceso a autobuses Tri-Delta Transit y County Connection, así como también a estacionamientos, taxis y áreas para dejar pasajeros.

## TARIFAS PROPUESTAS

BART planea extender su estructura de tarifas basada en la distancia para la extensión BART a Antioch.

## SERVICIO PROPUESTO

Las horas de trabajo son las mismas que para el sistema BART ya existente. Los tranvías BART a Antioch se conectarán con los tranvías BART de la plataforma de trasbordo Pittsburg/Bay Point. Para obtener información adicional, visite [bart.gov/antiochsurvey](http://bart.gov/antiochsurvey).

# BART 希望聽取您的意見!

舊金山灣區捷運局 (Bay Area Rapid Transit District, BART) 新的載客列車服務即將完成。這項工程將在現有的 Pittsburg/Bay Point BART 捷運站和位於 Hillcrest 的 Antioch 捷運站之間架設長約 10 英里的新軌道。Pittsburg Center 和 Antioch 車站預計於 2018 年 5 月開放啟用。

以下是關於新的車站和服務的一些事實：

## 行程時間

從 Antioch 搭乘列車到抵達 Pittsburg/Bay Point 轉車月台的預計行程時間為 10 分鐘。

## 環境效益

- 減少公路和馬路上的車流量
- 每年汽車行駛里程數可減少 9 千 9 百萬英里
- 載運人數相當於 Highway 4 多開一線車道
- 改善高速公路運作
- 每天溫室氣體排放可減少 26 萬磅
- 減少能源和石油消耗

## 與大眾交通系統聯結

可轉乘 Tri-Delta Transit 和 County Connection 公車，並設有停車場、計程車招呼站和臨停接送區。

## 建議票價

BART 計劃將距離費率制沿用於 BART 至 Antioch 的延伸段。

## 建議服務

營運時間和現有的 BART 系統相同。從 BART 往 Antioch 的列車將在 Pittsburg/Bay Point 轉車月台與 BART 列車銜接。欲知詳情，請瀏覽 [bart.gov/antiochsurvey](http://bart.gov/antiochsurvey)。

### BART 希望聽取您的意見!

我們想聽聽您對 BART 即將新增開往 Pittsburg Center 和 Antioch 車站的服務有何意見。

新的載客列車服務將在現有的 Pittsburg/Bay Point BART 捷運站和位於 Hillcrest 的 Antioch 捷運站之間架設長約 10 英里的新軌道。

請參加我們的站內活動，或上網到 [bart.gov/antiochsurvey](http://bart.gov/antiochsurvey) 填寫問卷，告訴我們哪些方面對您最為重要。

如需語言協助服務，請致電 **(510) 464-6752**。

Discontinuing the BART Orange Ticket Title VI  
Fare Equity Analysis and Board Minutes

---

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P.O. Box 12688, Oakland, CA 94604-2688

Board of Directors  
Minutes of the 1,815th Meeting  
June 14, 2018

A regular meeting of the Board of Directors was held June 14, 2018, convening at 9:01 a.m. in the Board Room, 2040 Webster Street, Oakland, California. President Raburn presided; Patricia K. Williams, Interim District Secretary.

Directors present: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, and Raburn.

Absent: Director Josefowitz. Director Simon entered the Meeting later.

Consent Calendar items brought before the Board were:

1. Approval of Minutes of the Meeting of May 24, 2018.
2. Title VI Fare Equity Analysis for Discontinuing the BART Discounted Orange Ticket Program for Students at Participating Middle and High Schools.
3. Agreements with the California Department of Transportation (Caltrans) for the Sustainable Access Strategy for BART's Transit-Oriented Development Program.
4. 2018 Organization of Committees and Special Appointments Revision.

Director Saltzman requested Item 2-B, Title VI Fare Equity Analysis for Discontinuing the BART Discounted Orange Ticket Program for Students at Participating Middle and High Schools, be removed from Consent Calendar. Director Allen requested Item 2-C, Agreements with the California Department of Transportation (Caltrans) for the Sustainable Access Strategy for BART's Transit-Oriented Development Program, be removed from Consent Calendar.

Director Saltzman made the following motions as a unit. Director Blalock seconded the motions, which carried by unanimous electronic vote. Ayes – 7: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, and Raburn. Noes – 0. Absent – 2: Directors Josefowitz and Simon.

1. That the Minutes of the Meeting of May 24, 2018, be approved.
2. That the Board ratify the appointment of Director Robert Raburn as alternate to the South Hayward BART Station Access Authority.

Mr. Maceo Wiggins, Acting Department Manager, Office of Civil Rights; and Ms. Kerry Hamill, Assistant General Manager, External Affairs, presented Item 2-B, Title VI Fare Equity Analysis

for Discontinuing the BART Orange Ticket Program for Students at Participating Middle and High Schools. The item was discussed.

Director Simon entered the meeting.

Aleta Dupree addressed the Board.

President Raburn moved the Board approve the Title VI Fare Equity Analysis for Discontinuing the BART Discounted Orange Ticket Program for Students at Participating Middle and High Schools. Director Blalock seconded the motion, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, Simon and Raburn. Noes – 0. Absent – 1: Director Josefowitz.

Mr. Val Menotti, Chief Planning and Development Officer, presented Item 2-C, Agreements with the California Department of Transportation (Caltrans) for the Sustainable Access Strategy for BART's Transit-Oriented Development Program. The item was discussed.

Director Saltzman moved adoption of Resolution No. 5372, In the Matter of Authorizing the General Manager to Execute Agreements with the California Department of Transportation for the Sustainable Access Strategy for BART's Transit-Oriented Development Program. President Raburn seconded the motion, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, Simon and Raburn. Noes – 0. Absent – 1: Director Josefowitz.

President Raburn called for Public Comment.

The following individuals addressed the Board.

Aleta Dupree  
Erick Arguello  
Rodrigo Duran  
Carlos Gonzalez  
Marri Sorenson  
John Mendoza  
Jean Walsh

Director Allen, Chairperson of the Administration Committee, brought the matter of Update on Proof of Payment before the Board. General Manager Grace Crunican; Police Chief Carlos Rojas; Mr. Russell Bloom, Independent Police Auditor; Ms. Pamela Herhold, Acting Assistant General Manager, Performance and Budgets; and Ms. Tamar Allen, Chief Maintenance and Engineering Officer, presented the item. The item was discussed.

The following individuals addressed the Board.

Joshua Davis  
Victoria Fierce  
Sasha Perigo  
Kaziah Platiner

Aaron Eckhouse  
Aleta Dupree  
Liar Zavodivker  
Gena Alexander  
Jerry Grace

Director Allen brought the matter of Resolution Approving the Fiscal Year 2019 Annual Budget before the Board. Ms. Crunican; Ms. Herhold; and Mr. Dennis Markham, Department Manager, Operating Budgets, presented the item. The item was discussed.

Director Saltzman moved adoption of Resolution No. 5373, Approving the Annual Budget for the San Francisco Bay Area Rapid Transit District and Authorizing Expenditures for the Fiscal Year July 1, 2018, to June 30, 2019; and moved that staff be directed to delay the hiring of two Community Service Officer positions until after a six-month report on the Proof of Payment program was presented to the Board. Director Simon seconded the motion.

Director Allen requested the motion be amended to include direction to staff to prepare a report on station hardening by September.

Directors Saltzman and Simon accepted the amendment. The motion carried by unanimous electronic vote. Ayes – 8: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, Simon, and Raburn. Noes – 0. Absent – 1: Director Josefowitz.

Aleta Dupree addressed the Board.

Director Allen brought the matter of Pension Funding Strategies Update before the Board. Mr. Michael Jones, Assistant General Manager, Administration; Ms. Herhold; Ms. Diane Iwata, Human Resources, Division Manager; and Ms. Mary Beth Redding, Vice President, Bartel Associates, presented the item. The item was discussed.

Gena Alexander addressed the Board.

Discussion continued.

President Raburn announced that the order of agenda items would be changed.

Director Simon brought the matter of Award of Professional Services Agreements to Provide Construction Management Services for BART Projects before the Board. Ms. Tamar Allen and Mr. Robert Mitroff, Chief Planning and Development Officer, presented the item.

The following individuals addressed the Board.

Raewyn Butcher  
John Cockle  
Chuck Tran

The item was discussed.

President Raburn moved that the General Manager be authorized to award, subject to the negotiation of fair and reasonable cost reimbursement rates and fees, the below listed Agreements to provide Construction Management Services for BART's Projects in an amount not to exceed \$25,000,000.00 each, pursuant to notification to be issued by the General Manager and subject to the District's protest procedures and Federal Transit Administration (FTA) requirements related to protest procedures.

- a. Agreement No. 6M8132, with AECOM Technical Services, Inc./Cooper Pegueda Management, Inc., a Joint Venture, Oakland, CA
- b. Agreement No. 6M8133, with Ghirardelli Associates, Inc., Oakland, CA
- c. Agreement No. 6M8134, with HDR Construction Control Corporation, Walnut Creek, CA
- d. Agreement No. 6M8135, with Jacobs Project Management Company, Oakland, CA
- e. Agreement No. 6M8136, with Parsons Transportation Group, Inc., Oakland, CA
- f. Agreement No. 6M8137, with PGH Wong Engineering, Inc., San Francisco, CA
- g. Agreement No. 6M8150, with PreScience Corporation, Oakland, CA
- h. Agreement No. 6M8151, with Allen Group, LLC/Vali Cooper & Associates, Inc., a Joint Venture, San Francisco, CA

Director Dufty seconded the motion, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, Simon, and Raburn. Noes – 0. Absent – 1: Director Josefowitz.

Director Simon brought the following items before the Board.

1. Award of Contract No. 09AF-111A, TBT Cross Passage Doors Replacement.
2. Change Order No. 79HM-120, SFTS MB, with Manson Construction Company, Inc., for Extension of Time for Revised Cathodic Protection (C.O. 104).

Director Simon made the following motions:

1. That the General Manager be authorized to award Contract No. 09AF-111A, TBT Cross Passage Doors Replacement, for the Base Bid Price of \$6,388,000.00, pursuant to notification to be issued by the General Manager and subject to compliance with the District's protest procedures; and that the General Manager be also authorized to exercise either Option A for the Bid Price of \$300,000.00 or Option B for the Bid Price of \$200,000.00 for upgrades to the door monitoring system.
2. That the General Manager be authorized to execute Change Order No. 104, Part 1, Time Extension for Revised Cathodic Protection, in an amount not to exceed \$400,000.00, and extend the Contract completion date by 196 calendar days, for Contract No. 79 HM-120, SFTS MB, with Manson Construction Company, Inc.

President Raburn seconded the motions, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, Simon, and Raburn. Noes – 0. Absent – 1: Director Josefowitz.

President Raburn announced that the Board would enter into closed session under Item 11-B (Public Employee Employment), Item 11-C (Conference with Negotiators), and Item 11-C (Conference with Legal Counsel) of the Meeting agenda, and that the Board would reconvene upon conclusion of the closed session.

The Board meeting recessed at 12:30 p.m.

---

---

The Board reconvened in closed session at 12:41 p.m.

Directors present: Directors Allen, Blalock, Dufty, Keller, McPartland, Saltzman, Simon, and Raburn.

Absent: Director Josefowitz.

The Board Meeting recessed at 1:24 p.m.

Director Saltzman exited the meeting.

---

---

The Meeting reconvened in open session at 1:25 p.m.

Directors present: Directors Allen, Blalock, Dufty, Keller, McPartland, Simon, and Raburn.

Absent: Directors Josefowitz and Saltzman.

President Raburn announced that the Board had concluded its closed session, that Item 11-A (Conference with Labor Negotiators) was not discussed and would be continued to a future meeting, and that there were no announcements to be made.

Director Allen brought Agreements for Temporary Bus Bridge Services before the Board. Ms. Tamar Allen and Mr. Joel Soden, Senior Transportation Engineer, presented the item. The item was discussed.

Director Blalock moved that the General Manager be authorized to enter into agreements with public and/or private bus operators and vendors, including but not limited to the Alameda-Contra Costa Transit District, to provide temporary bus transportation services and related expenses in a total amount not to exceed \$200,000.00 per day for each day the District is unable to provide complete train service due to maintenance projects; and that these authorizations will expire on December 31, 2018. President Raburn seconded the motion, which carried by unanimous electronic vote. Ayes – 7: Directors Allen, Blalock, Dufty, Keller, McPartland, Simon, and Raburn. Noes – 0. Absent – 2: Directors Josefowitz and Saltzman.

Director Blalock, Chairperson of the Planning, Public Affairs, Access, and Legislation Committee, brought the matter of Scoop Carpool Matching Service Contract Amendment before the Board. Mr. Carl Holmes, Assistant General Manager, Planning, Development and

Construction; and Ms. Jumana Nabti, Manager of Access Programs, presented the item. The item was discussed. President Raburn moved that the General Manager be authorized to negotiate and enter into a contract amendment with Scoop Technologies for a not-to-exceed amount of \$230,000.00 to provide interim carpool services until a long-term carpool program can be implemented. Director Keller seconded the motion, which carried by unanimous electronic vote. Ayes – 7: Directors Allen, Blalock, Dufty, Keller, McPartland, Simon, and Raburn. Noes – 0. Absent – 2: Directors Josefowitz and Saltzman.

Director Blalock brought the Resolution in Support of Advocating for BART’s Transit-Oriented Development and Station Access Policies in Santa Clara County BART Stations before the Board. Mr. Holmes and Mr. Menotti presented the item. The item was discussed. President Raburn moved adoption of Resolution No. 5374, In the Matter of Directing the General Manager to Advocate for BART’s Transit-Oriented Development and Station Access Policies at Santa Clara County BART Stations, with an amendment to the Resolution to include BART’s approved performance measures. Director Blalock seconded the motion, which carried by unanimous electronic vote. Ayes – 7: Directors Allen, Blalock, Dufty, Keller, McPartland, Simon, and Raburn. Noes – 0. Absent – 2: Directors Josefowitz and Saltzman.

Director Blalock brought the matter of North Concord Transit-Oriented Development Update before the Board. Mr. Holmes; Mr. Sean Brooks, Department Manager, Real Estate and Property Development; and Mr. Ian Griffiths, Senior Planner, presented the item. The item was discussed.

Director Blalock brought the Art Master Plan Update before the Board. Ms. Ellen Smith, Department Manager, Strategic Planning; and Ms. Jennifer Easton, Art Program Manager, presented the item. The item was discussed.

Director Simon exited the meeting.

Jerry Grace and Charlotta Wallace addressed the Board.

President Raburn called for the General Manager’s Report.

Mr. David Kutrosky, Managing Director, Capitol Corridor, gave a brief presentation on the draft agenda for the Capitol Corridor Joint Powers Board Meeting of June 20, 2018.

Ms. Crunican reported on steps she had taken and activities and meetings she had participated in, ridership, upcoming events, and outstanding Roll Call for Introductions items. Ms. Tamar Allen gave a report on the ridership and activities during the Golden State Warriors Parade.

Ms. Crunican reported on the BART to Antioch (eBART) Grand Opening and the American Public Transportation Association (APTA) Rail Rodeo results, and gave an update on the Fleet of the Future.

President Raburn called for the Controller/ Treasurer’s Report.

Ms. Rose Poblete, Controller/Treasurer; and Mr. Christopher Gan, Assistant Controller, presented the Quarterly Report of the Controller/Treasurer for the period ending March 31, 2018. The report was discussed.

President Raburn brought the matter of Resolution to Direct Profits Derived from Paid Advertising by Progressives for Immigration Reform to BART's Office of Civil Rights before the Board. The item was discussed and was continued to a future Board meeting.

President Raburn called for Board Member Reports, Roll Call for Introductions, and In Memoriam.

Director Dufty thanked the Salvation Army for its participation at the 24<sup>th</sup> and Mission BART Station with the BART Police and District staff working on the homelessness and cleanliness issues.

Director Dufty exited the meeting.

Director Blalock reported he had given a presentation on Rebuilding BART at a senior housing facility in Union City.

Director Allen reported she had attended the Tri-Valley - San Joaquin Regional Rail Authority meeting, the BART Citizen Review Board Meeting, the Contra Costa Mayors Conference, and the eBART Grand Opening. Director Allen thanked Director Dufty for all his work with homelessness and cleanliness.

Director Keller reported he had attended the APTA Rail Conference, and thanked employees and rodeo participants. Director Keller thanked staff for the successful eBART Grand Opening.

Director McPartland reported he had attended the eBART Grand Opening and the Tri-Valley – San Joaquin Regional Rail Authority meeting.

President Raburn reported he had attended the eBART Grand Opening and a crane event at the Coliseum Station, ridden a safety train with Capitol Corridor, and attended the BART and AC Transit Coordinating Committee meeting.

Director Blalock requested the Meeting be adjourned in memory of James Van Houten.

President Raburn called for Public Comment. Jerry Grace and Aleta Dupree addressed the Board.

The Meeting was adjourned at 3:11 p.m. in honor of James F. Van Houten.

## **I. Title VI Fare Equity Analysis**

Executive Summary

Section 1: Introduction

Section 2: Minority Disparate Impact & Low Income Disproportionate Burden Analysis

Section 3: Public Participation

Section 4: Equity Findings for Discontinuing Orange Ticket

## **II. Public Participation Report**

## EXECUTIVE SUMMARY

To ensure compliance with federal and state civil rights regulations, including but not limited to Title VI of the Civil Rights Act of 1964 and FTA Circular 4702.1B [dated October 1, 2012 (Circular)], BART must perform an analysis of any fare or fare media change to determine if the change has a disparate impact on minority riders or a disproportionate burden on low-income riders. In accordance with the Circular, BART makes this determination by comparing the analysis results against a threshold, as defined in its Disparate Impact and Disproportionate Burden Policy.

The fare change discussed in this report is the discontinuation of the BART Orange magnetic stripe ticket, which is a fare type. The Orange ticket is sold at participating middle and high schools at a 50% discount; students pay \$16 and receive \$32 in BART value. The Orange ticket program has been in effect since the late 1990s in order to provide students a discount on school-related trips they make during the week and currently has 147 participating schools.

FTA-approved methodology has been used to assess the effects of a fare type change; draws on data from BART ridership surveys and BART automated fare collection equipment; and includes public outreach undertaken in accordance with BART's Public Participation Plan to receive public input on discontinuing the BART Plus ticket from low-income, minority, and limited-English-proficient (LEP) riders.

This report finds that the fare change could disproportionately impact minority and low-income riders, as Orange ticket users are disproportionately more minority and low-income compared to BART's overall ridership, exceeding BART's Disparate Impact/Disproportionate Burden Policy threshold of 10%, as shown in the table below.

	Minority	Non-Minority	Total	Sample Size	Low Income	Non-Low-Income	Total	Sample Size
<b>All Riders</b>	63.3%	36.7%	100.0%	5,211	26.4%	73.6%	100.0%	4,880
<b>Student Riders Using the 50% Discount Orange Ticket</b>	77.6%	22.4%	100.0%	58	38.0%	62.0%	100.0%	50
<b>Difference from All Riders</b>	14.3%				11.6%			

This report concludes that existing fare product alternatives avoid, minimize, or mitigate adverse effects of Orange ticket program termination. The existing discounted fare medium alternatives to the Orange ticket include the Clipper youth discount card and the youth red magnetic stripe ticket, as shown in the table below. These fare products offer better or similar fares and, particularly in the case of the youth discount Clipper card, enhanced benefits compared to the Orange mag-stripe ticket.

Youth Fare Medium Alternative	Discount	Surcharge per Trip	Use Limitations	How to Obtain	Additional Benefits
<b>Youth Clipper Card</b>	50%	No	None--good any time or day and for any purpose	At 3 Clipper Customer Service Centers; at more than 20 locations through Clipper partner transit agencies; via mail, e-mail, or fax (proof of eligibility required)	Youth Clipper card is free of charge. If card lost or stolen, new card can be obtained and card balance of funds restored. Value can be loaded at any BART ticket vending machine using cash, credit or debit card; autoloading also available.
<b>Youth Red Mag Stripe Ticket</b>	50%	Yes (25 cents)	None--good any time or day and for any purpose	Via mail or at BART Customer Services Center, Lake Merritt Station	--
<b>Orange Ticket</b>	50%	Yes (25 cents)	Only for school-related purposes, travel Monday through Friday	Sold only at participating schools	--

As part of the Title VI assessment, BART has undertaken public outreach to receive public input on discontinuing the Orange ticket from low-income, minority, and LEP populations, in accordance with BART's Public Participation Plan (completed in May 2010 and revised in July 2011), and the Circular.

In order to publicize the Orange ticket survey and online survey link to parents of Orange ticket riders, extensive outreach was conducted with all participating schools. The survey remained open for six weeks from February 20, 2018 through April 6, 2018. The survey was offered in English, Spanish, and Chinese. Additional language support services were offered in Korean, Tagalog, and Vietnamese and all surveys were completed online. An incentive in the form of a \$100 BART Clipper card drawing was offered as a prize for those households that returned the survey. A copy of the survey is included in the attached Public Participation Report.

The outreach effort resulted in 103 total survey responses. Of the 103 responses, 59 were from parents of students who used the Orange ticket. The remaining 44 responses were excluded from consideration either because respondents' children did not use the Orange ticket or the respondent was unsure if their children used the Orange ticket.

Fifty-eight survey respondents chose to report ethnicity, and 77.6% of these respondents identified as minority 50 survey respondents elected to report income, and of these 38.0% identified as low income.

The survey included a question for the public to comment on how the elimination of the Orange ticket program would impact the respondent's household:

*Question 7: How would the elimination of the Orange Ticket School Discount Program impact your household, if at all?*

All of the survey responses for Question 7 are included in Appendix PP-C.

Approximately half of respondents (29 of 59) were either supportive of eliminating the Orange ticket program or had no comment about the change. Below is a sample response:

*"Assuming we can receive the same youth discount with a youth discount Clipper card, there is no impact at all. Or, it means greater convenience, as we can just purchase the tickets easily, rather than going through the BART Orange program. I am glad to see the switch."*

The remaining half of respondents (30 of 59) expressed concerns about the change. Some of these comments specifically addressed the transition from Orange tickets to Clipper cards, including the following:

*"Makes it harder because you have to pre-pay Clipper and keep it separate for school and personal use."*

However, many of these comments that expressed concerns seemed rooted in confusion about how the change would impact their households. Despite the fact that the survey form itself reiterated that a youth discount was available through the Clipper card, many respondents believed this change would result in significant financial hardship. Others did not realize that Clipper cards could be used for BART rides. Some comments also raised concerns about whether BART would continue to accept Orange tickets that have already been purchased. Should the Orange ticket program be discontinued, Orange tickets will continue to be accepted at the fare gate.

An analysis of the responses by protected populations shows that 46.7% of the 45 minority respondents either supported or did not comment on the elimination of the Orange ticket, while 53.3% did not support the proposal. Of the 19 low-income respondents, 47.4% either supported or had no comment, and 52.6% were not in support. Not commenting on a proposal can indicate neutrality or potentially some level of acceptance of it. As noted above, analysis of the comments shows that many people were confused regarding implementation of the youth discount Clipper card, costs, and the fact that those who have pre-existing Orange tickets could still use the tickets in the system.

Input was provided by members of BART's Title VI/Environmental Justice (EJ) Advisory Committee and Limited English Proficiency (LEP) Advisory Committee. BART formed the two committees to ensure that the District is taking reasonable steps to incorporate Title VI and Environmental Justice principles and the needs of LEP populations in BART's transportation decisions. Committee members are appointed to represent the needs and viewpoints of minority, low-income, and/or LEP populations and are active participants in local community-based organizations that serve one or more of these groups.

BART staff met with the Title VI/EJ and LEP Advisory Committees in a special joint meeting on April 2, 2018, with the Title VI/EJ Advisory Committee on May 7, 2018, and the LEP Advisory Committee on May 22, 2015. Members were supportive of eliminating the Orange ticket fare media and program. One member stated that her organization hosted a BART/MTC mag-stripe ticket surcharge mitigation outreach event which was very successful in helping people sign up for Clipper cards, including the youth discount Clipper card.

An equity finding is made after considering both the fare change analysis results and public comment received. This report finds that the fare change could disproportionately impact

minority and low-income riders, as Orange ticket users are disproportionately more minority and low-income compared to BART's overall ridership, exceeding the DI/DB Policy threshold of 10%. However, the disproportionate impacts are not adverse because the existing youth discount Clipper card and the red magnetic stripe youth ticket fare products offer better or similar fares and, particularly in the case of the youth discount Clipper card, enhanced benefits compared to the Orange mag-stripe ticket. Therefore, the report concludes that the termination of the Orange ticket program will not result in a disparate impact or disproportionate burden on minority riders or low-income riders, respectively.

# Section 1: Introduction

---

To ensure compliance with federal and state civil rights regulations, including but not limited to Title VI of the Civil Rights Act of 1964 and FTA Circular 4702.1B [dated October 1, 2012 (Circular)], BART must perform an analysis of any fare or fare media change to determine if the change has a disparate impact on minority riders or a disproportionate burden on low-income riders when compared to overall users. In accordance with the Circular, BART makes this determination by comparing the analysis results against a threshold, as defined in its Disparate Impact and Disproportionate Burden Policy (DI/DB Policy), adopted on July 11, 2013 by the BART Board.

The fare change discussed in this report is the discontinuation of the BART magnetic stripe Orange ticket, which is a discounted ticket for students attending middle or secondary schools that participate in the Orange ticket program. Almost 150 schools currently participate in the program, and a list of these schools is provided in Appendix PP-D. Per BART policy, the Orange ticket may be used only for trips to and from school or school-sponsored events and on Monday through Friday only. Discounted Orange tickets have been sold to students by program-participant schools since the late 1990s.

The BART Orange ticket gives a discount of 50% to the full fare. The table below shows the pricing structure of BART Orange tickets, which are sold only by participating schools. Schools collect payment in advance from students and place ticket orders directly with BART. The student pays a discounted amount of \$16 and gets Orange tickets with a BART value of \$32.

Value of Orange Ticket	Price Student pays for Orange Ticket	Discount Student Receives
\$32	\$16	50%

**Table 1**

Effective January 1, 2018, BART implemented two fare changes that are relevant to this report. First, trips made with magnetic stripe tickets began to have a per-trip surcharge added; the surcharge does not apply to trips made with the Clipper regional smart card. For Orange magnetic stripe tickets, the per-trip surcharge is \$0.25, a 50% discount to the \$0.50 per-trip surcharge on regular fare blue magnetic stripe tickets. Second, the age youth became eligible for a 50% discount was increased from through age 12 to through age 18.

When the Orange ticket program began in the late 1990s, a technical limitation was present in BART's automated fare collection equipment that meant an Orange ticket could not have value added to it at a BART add value machine so the rider could exit the system. To address this technical limitation, the Orange ticket had to have a "last ride feature" so that a rider with a nickel or more left on the ticket could use that ticket to take one last ride within the BART system. This technical limitation is not present in the youth Clipper card or the youth Red mag-stripe ticket, and so these fare media do not have a last ride feature.

The level of discount the last ride feature provides depends on both the amount of value remaining on the ticket and the fare for the last trip taken, and so the discount varies by rider. For example, BART's average fare is currently \$4.00, so at a 50% discount, the average fare would be \$2.00. If a student has a nickel left on their ticket, the value of the last ride

feature would be \$1.95; if the student has \$1.15 left on the ticket, the value of the last ride feature would be \$0.85, or a \$1.10 less. Thus, the last ride feature benefits riders differentially. With Clipper, riders neither have unused value on their tickets nor receive widely varying discounts.

The youth Clipper card has additional advantages over the Orange ticket. The youth Clipper card can be used to get the 50% discount any time, any day, and for any purpose, which is not the case for the Orange ticket. The discount the student gets with the youth discount Clipper card on weekends and for non-school related trips should more than make up for any differential value of the Orange ticket last ride feature. In addition, youths who use Clipper do not pay the \$0.25 per-trip magnetic stripe ticket surcharge, which could equal a monthly savings of \$10 if the student uses BART to commute to and from school. Also, as noted above, youth Clipper cards are automatically registered when they are issued so that if the youth Clipper card is ever lost or stolen, a new card can be obtained and the balance of funds at the time on the card restored. Value can be loaded onto the Clipper card at any BART ticket vending machine using cash, credit or debit card, and there is also an option for auto-loading funds onto the card. Thus, the youth discount Clipper card provides the 50% discount, has no per-trip mag-stripe surcharge, and offers students significantly more functionality as a fare medium than the Orange ticket.

This report uses FTA-approved methodology to assess the effects of a fare type change; draws on data from BART ridership surveys, BART ticket sales, MTC card-issuance, and BART automated fare collection equipment; and includes public outreach undertaken in accordance with BART's Public Participation Plan.

# Section 2: Minority Disparate Impact and Low-Income Disproportionate Burden Analysis

---

## 2.1 Assessing Fare Change Effects

This section describes the data and methodology used to assess the effects of a fare change on minority and low-income riders, in accordance with the fare equity analysis procedures in the Circular.

Data analysis shall include the following steps as outlined in Chap. IV-19 of the Circular:

- i. Determine the number and percent of users of each fare media being changed;
- ii. Review fares before the change and after the change;
- iii. Compare the differences between minority users and non-minority users; and
- iv. Compare the differences for each particular fare media between low-income users and non-low-income users.

As stated in the Circular App. K-11, comparing protected riders and non-protected riders can “yield even clearer depictions of differences.” For fare type changes, BART will assess whether protected riders are disproportionately more likely to use the affected fare type or media, and if such effects are adverse. In accord with BART’s Disparate Impact/Disproportionate Burden Policy (DI/DB Policy), impacts will be considered disproportionate when the difference between the affected fare types’ protected ridership share and the overall system’s protected ridership share is greater than 10%.

When the survey sample size of the ridership for the affected fare type is too small to permit a finding of statistical significance, BART will collect additional data if viable. If the resulting survey sample size is also too small to permit a finding of statistical significance, BART may conclude that a finding of disparate impact and/or disproportionate burden cannot be determined based on the available data.

Should BART find that minority riders experience disparate impacts from the proposed change, BART should take steps to avoid, minimize, or mitigate disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority riders, pursuant to the Circular, BART may proceed with the proposed fare change if BART can show that:

- A substantial legitimate justification for the proposed fare change exists; and,
- There are no alternatives serving the same legitimate objectives that would have a less disparate impact on minority populations.

If a finding is made that the proposed fare change would place a disproportionate burden on low-income riders compared to non-low income riders, BART will take steps to avoid, minimize, or mitigate impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the fare change. Mitigation is neither necessary nor required where no disparate impact and/or disproportionate burden is found.

## 2.2 Methodology and Data Used

Circular Chap. IV-19 states that an agency shall analyze any available information from ridership surveys when evaluating the adverse effects of fare changes. The fare change under study is a change to a specific fare media type, and the methodology and data used are described below.

### 2.2.1 Methodology

BART uses FTA-approved methodology to assess the effects of a fare type change. The methodology for fare type changes assesses whether protected riders are disproportionately more likely to use the affected fare type or media. Recent rider survey data are used to make this determination. In accordance with the DI/DB Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare type and the protected ridership of the overall system is greater than 10%.

### 2.2.2 Data Sources

#### A. BART Customer Satisfaction Survey

The BART Customer Satisfaction Survey provides data on BART's overall ridership. Conducted every other September, this survey allows BART to track trends in rider satisfaction, demographics, and BART usage across the system. The most recent survey conducted in 2016 has a sample size of 5,342, including weekday peak, off-peak, and weekend riders. Survey data provides demographic information on BART riders' fare type and media usage.

For the 2016 Customer Satisfaction Survey and the Orange ticket survey distributed as described above, minority includes riders who are Asian, Hispanic (any race), Black/African American, American Indian/Alaskan Native, and Other (including multi-racial). Non-minority is defined as white. Responses to the 2016 Customer Satisfaction Survey indicate that 63.3% of BART riders are minority.

For the purposes of this analysis, low-income is defined as 200% of the federal poverty level. This level is approximated by considering both the household size and household income of respondents to the 2016 Customer Satisfaction Survey and respondents to the Orange ticket survey. The household size and household income combinations that comprise "low-income" are as follows:

LOW INCOME	
Household Size	Household Income
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

Table 2-1

As an example, a household of two or more people with an income of \$33,000 would be considered low-income.

The eight income ranges used in the 2016 Customer Satisfaction Survey are the following:

- Under \$25,000
- \$25,000-\$34,999
- \$35,000-\$39,999
- \$40,000-\$49,999
- \$50,000-\$59,999
- \$60,000-\$74,999
- \$75,000-\$99,999
- \$100,000+

According to 2016 Customer Satisfaction Survey responses, 26.4% of BART riders are considered low income.

#### **B. 2018 Survey for Parents of Youth at Schools Participating in BART's Student Discount Orange Ticket Program**

This survey provides data for middle and high school students who currently use the 50% discounted Orange ticket ("Rider Group 1"). BART with the assistance of Imprenta Communications Group surveyed parents and guardians of middle and high school students at the 147 schools participating in the Orange ticket program. The survey response period was open from February 20, 2018 through April 6, 2018, and schools were offered the choice of either distributing the survey online or handing out paper surveys for parents to complete. An incentive of a \$100 Clipper card was offered as a prize in a drawing for those households that returned the survey.

While the option to drop off paper surveys to the school was provided, all the schools chose to publicize the online survey link. Imprenta also kept in close contact with Orange ticket school administrators to answer questions and urge active participation in getting surveys returned. The survey was offered in English, Spanish, and Chinese. Additional language support services were offered in Korean, Tagalog, and Vietnamese, and all surveys were completed online.

BART received 103 responses to this survey, 59 of which were from parents of students who used the Orange ticket. The remaining 44 responses were excluded from consideration either because their children did not use the Orange ticket or the respondent was unsure if their children used the Orange ticket.

Of the 59 responses from parents of students who did use the Orange ticket, 58 chose to report ethnicity and 50 elected to report income. Due to the relatively small sample sizes, margins of error for data from this survey will be relatively high (+/- 11.6 percentage points). The relatively small sample size was expected, however, as the total universe of Orange ticket users is also relatively small (approximately 350 students per weekday, assuming round-trips). The relatively low response rate, even after the significant outreach undertaken as described in the attached Public Participation Report, could also indicate that potential survey takers opted not to take the survey because elimination of the Orange ticket was not of particular concern to them. A comparison of the current response rate of 59 to the response rate of almost 300 to a fall 2014 Orange ticket survey, as described in the next

section, could indicate students have already begun the shift from the Orange ticket to the Clipper youth card, which gives a 50% discount and provides additional benefits. These survey results, shown in the table below, indicate that students using Orange tickets are more minority and low-income than BART's overall ridership.

**Rider Group 1: 50% Student Discount Orange Ticket Rider Demographics from 2018 Orange Ticket Elimination Survey Results**

	Minority	Non-Minority	Total	Sample Size	Low Income	Non-Low-Income	Total	Sample Size
All Riders	63.3%	36.7%	100.0%	5,211	26.4%	73.6%	100.0%	4,880
Student Riders Using the 50% Discount Orange Ticket	77.6%	22.4%	100.0%	58	38.0%	62.0%	100.0%	50
Difference from All Riders	14.3%				11.6%			

**Table 2-2**

### C. 2014 Survey for Parents of Youth at Schools Participating in BART's Student Discount Orange Ticket Program

As the sample size of the 2018 survey of Orange ticket users was relatively small, this report also provides data on Orange ticket student riders ("Rider Group 2") gathered during fall 2014 for the "Title VI Fare Equity Analysis of Possible Changes to the Fare Discount Offered to Youth Riders" (2017 Youth Fare Equity Analysis), which the BART Board approved in June 2017. To analyze the fare change options, BART with the assistance of Imprenta Communications Group gathered survey data during fall 2014 about youth riders from age 5 through 18 years, including students who used Orange tickets. The parent or guardian of the youth rider provided the data to ensure the accuracy of the income data. The Orange ticket student data gathered for the 2017 Youth Fare Equity Analysis is within the parameters of what is considered appropriate and current survey data (within five years) for use in a Title VI fare equity analysis, per the Circular.

The fall 2014 survey had almost 300 responses regarding Orange ticket student ethnicity and household income. These results show Orange ticket student riders to be very similar to BART's overall ridership, with an identical percentage of minority riders and a variation of less than 3% for low-income between the Orange ticket users and BART's overall ridership. The data in Table 2-3 is provided for informational and comparison purposes only and is not used in this report to make a finding of disproportionate impact.

**Rider Group 2: 50% Student Discount Orange Ticket Rider Demographics from 2017 Youth Fare Equity Analysis**

	Minority	Non-Minority	Total	Sample Size	Low Income	Non-Low-Income	Total	Sample Size
All Riders	63.3%	36.7%	100.0%	5,211	26.4%	73.6%	100.0%	4,880
Student Riders Using the 50% Discount Orange Ticket	63.3%	36.7%	100.0%	294	29.0%	71.0%	100.0%	276
Difference from All Riders	0.0%				2.6%			

**Table 2-3**

## 2.3 Analysis Results

Pursuant to the Circular, BART is to perform an analysis of any fare change to determine if the change disproportionately impacts minority and/or low-income riders. In accordance

with the Circular, BART is to make this determination by comparing the analysis results against the appropriate threshold defined in BART's DI/DB Policy.

This section applies BART's DI/DB Policy threshold to the survey data described in the previous section.

### *2.3.1 Minority Disparate Impact and Low-Income Disproportionate Burden Analyses and Findings*

Survey data gathered in 2018 shows that students using the Orange ticket are more minority and low-income than BART's overall ridership. Students using Orange tickets are 14.2% more minority than BART's overall ridership and 11.6% more low-income. Each of these differences exceeds the DI/DB Policy threshold of 10%.

## 2.4 Alternatives Available for People Affected by the Fare Change

BART Orange ticket users have fare media alternatives available to them that would avoid, minimize, or mitigate disproportionate impacts of discontinuing the ticket.

### *2.4.1 Alternatives Available to Avoid, Minimize or Mitigate Disproportionate Impact*

#### **A. Youth Discount Clipper Card**

The first alternative is the youth Clipper card, which is free of charge, and gives youth riders age 5 through 18 a 50% youth discount on BART. Customers can get their free youth Clipper cards immediately at three Clipper Customer Service Centers (two in San Francisco and one in Oakland) and from Clipper partner transit agencies at more than 20 locations throughout the Bay Area. Youth Clipper card applications can also be submitted via mail, e-mail, or fax. The completed application must be accompanied by proof of eligibility such as a copy of a birth certificate, passport, or other official document verifying age.

Youth Clipper cards are automatically registered when they are issued. If the youth Clipper card is ever lost or stolen, a new card can be obtained and the balance of funds at the time on the card restored by contacting Clipper Customer Service. Value can be loaded onto the Clipper card at any BART ticket vending machine using cash, credit or debit card, and there is also an option for auto-loading funds onto the card once the card's balance reaches a certain level.

Extensive outreach was conducted on the youth discount Clipper card by BART and MTC staff from December 2017 through March 2018, with many youth applications handed out at 29 outreach events. Information on this outreach can be found in the attached Public Participation Report.

#### **B. Red Magnetic Stripe Discount Ticket for Youth age 5 through 18**

The second alternative is the red mag-stripe ticket that can be purchased by mail or at the BART Customer Services Center at Lake Merritt Station. The red mag-stripe ticket also provides a 50% discount for youth ages 5 through 18 and, like the Orange ticket, has a 25-cent per trip magnetic stripe ticket surcharge.

## 2.4.2 Comparison of Alternatives Available to Avoid, Minimize or Mitigate Disproportionate Impact

This section provides data that shows student riders are choosing to use the Clipper discount youth card instead of the Orange ticket, which can indicate they find the Clipper discount youth card to be a better fare medium and a better choice for them compared to the Orange ticket.

### A. Orange Ticket Sales

The graph below shows the decline over time in Orange ticket purchases by schools after the implementation in January 2018 of the mag-stripe per-trip surcharge and extension of a 50% discount to youth ages 13 through 18.

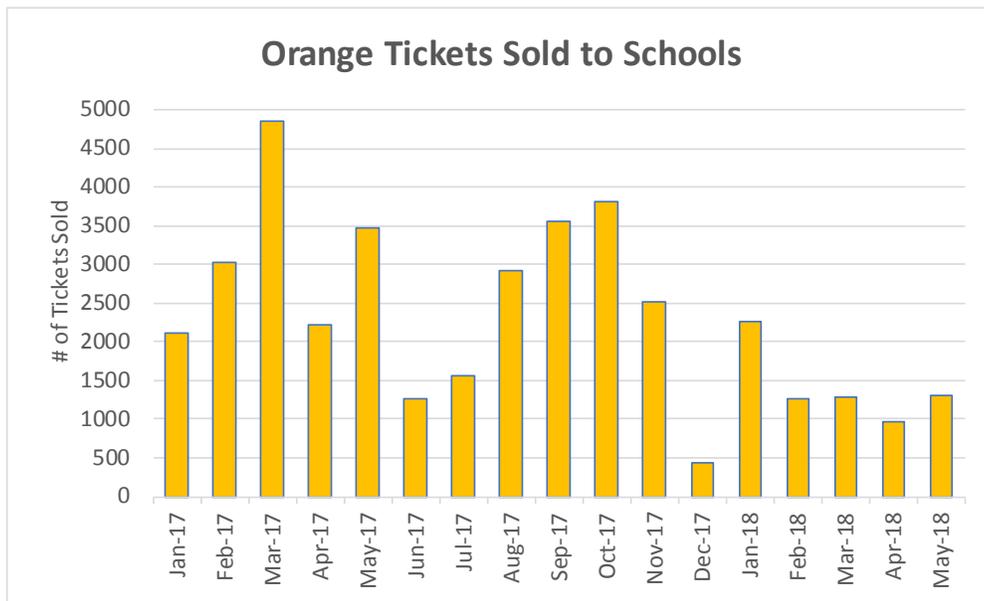

Figure 2-1

Following Board approval of the 50% youth discount in June 2017, BART staff notified schools that the Orange ticket program could be going away effective July 1, 2018. The spike in sales from July 2017 through November 2018 could be attributed to the school administrators of the Orange tickets not being aware of how the 50% student discount would be applied as of January 2018, when the change would be implemented. Accordingly, they may have stocked up on Orange tickets in the remaining months of the program.

Since implementation of the fare change in January 2018, there has been a significant decline in Orange ticket purchases by schools, as shown in the table below. For example, comparing March 2017 to March 2018, tickets sales have declined by almost 75% to 1,292 from 4,850. This could be attributed to extensive outreach by BART and MTC staff on the availability of free youth discount Clipper cards that give the 50% youth discount and allow students to avoid paying the discounted 25-cent per trip Orange ticket surcharge, and educating the public and administrators on the extension of the 50% youth discount for riders aged 13-18. Further information on this education and outreach can be found in the attached Public Participation Report.

	2017	2018	Change Yr- to-Yr
<b>January</b>	2120	2265	6.8%
<b>February</b>	3030	1255	-58.6%
<b>March</b>	4850	1292	-73.4%
<b>April</b>	2213	976	-55.9%
<b>May</b>	3471	1300	-62.5%

Table 2-4

## B. Clipper Card Issuance

The following table provided by MTC shows that there has been an increase in youth discount Clipper card applications and issuance by various agencies and through MTC from FY14 through to FY18.

Table 2-5: Youth Discount Clipper Card Issuance by Agency

	FY 14-15 Quarter 3			FY 15-16 Quarter 3			FY 16-17 Quarter 3			FY 17-18 Quarter 3

<b>Total by quarter</b>												
Email/mail/fax and major distributors			3132			3391			3531			6319

\*Through May 2017, youth applications received at BART were processed as mail/email/fax applications.

Table 2.5 shows there has been a very dramatic recent increase in issuance of youth discount Clipper cards. Card applications have grown by 79% from January-March 2017 when compared to January-March 2018. Possible reasons for this could include the impact of handing out many youth applications at all the mag-stripe ticket mitigation events and the extensive outreach undertaken to educate the public on the youth discount Clipper card, which are described in detail in the attached Public Participation Report.

**C. Youth Discount Clipper Card vs. Orange Ticket Usage Data**

The following graph shows that youth Clipper card usage has grown by 324% from January-March 2018 compared to the same three-month period in 2017, while student Orange ticket trips have decreased by 39.7%.

**Figure 2-2**

**D. Comparison of Fare Media Providing Youth Discount**

The table below shows the differences between using the youth fare medium alternatives for Clipper and mag stripe fare media as of January 2018.

<b>Youth Fare Medium Alternative</b>	<b>Discount</b>	<b>Surcharge per Trip</b>	<b>Use Limitations</b>	<b>How to Obtain</b>	<b>Additional Benefits</b>
<b>Youth Clipper Card</b>	50%	No	None--good any time or day and for any purpose	At 3 Clipper Customer Service Centers; at more than 20 locations through Clipper partner transit agencies; via mail, e-mail, or fax (proof of eligibility required)	Youth Clipper card is free of charge. If card lost or stolen, new card can be obtained and card balance of funds restored. Value can be loaded at any BART ticket vending machine using cash, credit or debit card; autoload also available.
<b>Youth Red Mag Stripe Ticket</b>	50%	Yes (25 cents)	None--good any time or day and for any purpose	Via mail or at BART Customer Services Center, Lake Merritt Station	--
<b>Orange Ticket</b>	50%	Yes (25 cents)	Only for school-related purposes, travel Monday through Friday	Sold only at participating schools	--

**Table 2-6**

The Circular’s requirement regarding alternatives provides for latitude, from the stricter requirement to “avoid” through to the less strict direction to “minimize” the effects of the fare change. This report finds that although there may be impacts to minority and low-income users as the Policy’s 10% threshold is exceeded based on a relatively small survey sample size, existing fare products such as the youth discount Clipper card and the youth red mag stripe ticket offer better or similar fares and fare media functionality than the Orange ticket. As mentioned previously, BART and MTC staff educated the public on the availability of free youth discount Clipper cards and how using the Clipper card avoids the per-trip surcharge on mag-stripe tickets (the surcharge is 25 cents for Orange tickets) and that a 50% discount was now available to youth ages 13 through 18. Further information on this education and outreach can be found in the attached Public Participation Report. The next section summarizes these public participation efforts

## Section 3: Public Participation

---

Consistent with BART's Public Participation Plan completed in May 2010 and revised in July 2011, BART conducted outreach to inform the public and solicit feedback on ending the BART Orange ticket program. Extensive outreach was conducted through schools administering the Orange ticket program to specifically reach low income, minority and Limited English Proficient (LEP) parents of children using the Orange ticket.

### 3.1 Process for Soliciting Public Input

BART reached out to Orange ticket program administrators at all 147 schools that currently participate in the program. In order to publicize the survey and survey link, extensive outreach was conducted with the schools. The survey remained open for six weeks from February 20, 2018 through April 6, 2018. Prior to February 20, 2018, preliminary phone calls were made to administrators so they would be aware of the upcoming outreach. Each administrator received three emails and multiple follow-up phone calls requesting them to share the online and paper surveys with parents of students who use the Orange tickets. While the option to drop off paper surveys to the school was provided, all of the schools chose to publicize the online survey link. Email responses from school administrators and the full list of contacted schools is included in the attached Public Participation Report.

The survey was offered in English, Spanish, and Chinese. Additional language support services were offered in Korean, Tagalog, and Vietnamese and all surveys were completed online. A \$100 BART Clipper card prize drawing was offered as an incentive for those households that returned the survey. A copy of the survey is included in the attached Public Participation Report.

Presentations were also made to BART's Title VI/Environmental Justice Advisory Committee and Limited English Proficiency (LEP) Advisory Committees in April and May 2018.

### 3.2 Survey Respondent Demographics

The outreach effort resulted in 103 total survey responses. Of the 103 responses, 59 were from parents of students who used the Orange ticket. The remaining 44 responses were excluded from consideration either because the respondents' children did not use the Orange ticket or the respondent was unsure if their children used the Orange ticket.

Fifty-eight survey respondents chose to report ethnicity, and 77.6% of these respondents identified as minority; 50 survey respondents elected to report income, and of these 38.0% identified as low income. The attached public participation report has more detailed information on demographics and provides a database of all survey respondents and comments received.

### 3.3 Public Comments

The survey included a question for the public to comment on how the elimination of the Orange ticket program would impact the respondent's household:

*Question 7: How would the elimination of the Orange Ticket School Discount Program impact your household, if at all?*

All of the survey responses for Question 7 are included in Appendix PP-C.

Approximately half of respondents (29 of 59) were either supportive of eliminating the Orange ticket program or had no comment about the change. Below is a sample response:

*"Assuming we can receive the same youth discount with a youth discount Clipper card, there is no impact at all. Or, it means greater convenience, as we can just purchase the tickets easily, rather than going through the BART Orange program. I am glad to see the switch."*

The remaining half of respondents (30 of 59) expressed concerns about the change. Some of these comments specifically addressed the transition from Orange tickets to Clipper cards, including the following:

*"Makes it harder because you have to pre-pay Clipper and keep it separate for school and personal use."*

However, many of these comments that expressed concerns seemed rooted in confusion about how the change would impact their households. Despite the fact that the survey form itself reiterated that a youth discount was available through the Clipper card, many respondents believed this change would result in significant financial hardship. Others did not realize that Clipper cards could be used for BART rides.

Some comments also raised concerns about whether BART would continue to accept Orange tickets that have already been purchased. Should the Orange ticket program be discontinued, Orange tickets will continue to be accepted at the fare gate.

An analysis of the responses by protected populations shows that 46.7% of the 45 minority respondents either supported or did not comment on the elimination of the Orange ticket, while 53.3% did not support the proposal. Of the 19 low-income respondents, 47.4% either supported or had no comment, and 52.6% were not in support. Not commenting on a proposal can indicate neutrality or potentially some level of acceptance of it. As noted above, analysis of the comments shows that many people were confused regarding implementation of the youth discount Clipper card, costs, and the fact that those who have pre-existing Orange tickets could still use the tickets in the system.

Input was provided by members of BART's Title VI/Environmental Justice Advisory Committee and Limited English Proficiency (LEP) Advisory Committee. BART formed the two committees to ensure that the District is taking reasonable steps to incorporate Title VI and Environmental Justice principles and the needs of LEP populations in BART's transportation decisions. Committee members are appointed to represent the needs and viewpoints of minority, low-income, and/or LEP populations and are active participants in local community-based organizations that serve one or more of these groups.

BART staff met with the Title VI/Environmental Justice and LEP Advisory Committee in a Special Joint meeting on April 2, 2018, the Title VI/EJ meeting on May 7, 2018, and the LEP Advisory Committee on May 22, 2015. Members were supportive of eliminating the Orange ticket fare media and program. One member stated that her organization hosted a

BART/MTC mag-stripe ticket surcharge mitigation outreach event which was very successful in helping people sign up for Clipper cards. She noted that BART/MTC staff provided very helpful information on the benefits of and how to get the youth discount Clipper card at this event and expressed approval of the mitigation measure of moving youth towards Clipper cards.

# Section 4: Equity Findings for Discontinuing Orange Ticket

---

This section provides equity findings for the fare change of discontinuing the Orange ticket program. An equity finding is made after considering both the fare change analysis results described in Section 2, as well as public comment received, as described in Section 3 and in greater detail in the attached Public Participation Report.

## 2.5 Minority Disparate Impact and Low-Income Disproportionate Burden Finding

This report finds that there may be impacts to minority and low-income Orange ticket users as survey results show they are more minority and low-income than BART's overall ridership, exceeding the DI/DB Policy's 10% threshold, but that existing fare products—the youth discount Clipper card most notably as well as the youth red mag-stripe ticket—offer better or similar fares and fare media functionality compared to the Orange ticket. Even with Orange ticket availability, data shows that Orange ticket trips decreased by almost 40% in the first three months of 2018 compared to that time period in 2017, and youth discount Clipper card issuance and usage have gone up dramatically. The decline in Orange ticket trips and the increase in Clipper card use indicates youth riders find the Clipper youth discount card to be a very good option for their trip making purposes.

As mentioned previously, BART and MTC staff educated the public on the availability of free youth discount Clipper cards and that using the youth Clipper card would avoid the Orange mag-stripe ticket per-trip surcharge of 25 cents (a 50% discount to the full fare mag-stripe surcharge), and on the extension of the youth discount for ages 13-18. A BART YouTube video and efforts from BART Police Department further helped publicize the youth discount Clipper cards. Further information on this education and outreach can be found in the attached Public Participation Report.

Although significant outreach and education were undertaken, some public comments show that people were confused regarding implementation of the youth discount Clipper card, costs, and the fact that those who still had pre-existing Orange tickets could still use the tickets in the system. While it appears that more education and awareness of Clipper youth card and discount would have been helpful, it should be noted that concurrent with this Orange ticket Title VI outreach process and surveying, the multiple outreach processes described above were occurring to encourage youth discount Clipper card registration and the public is potentially much more aware now of the better options available to them than during the Orange ticket elimination outreach. These various types of outreach are described in the attached Public Participation Report in more detail.

BART staff met on this topic with the Title VI/Environmental Justice and LEP Advisory Committees in a special joint meeting on April 2, 2018, with the Title VI/EJ Advisory Committee on May 7, 2018, and the LEP Advisory Committee on May 22, 2018. Advisory committee members were supportive of eliminating the Orange ticket fare media and program.

## 2.6 Equity Finding Conclusion

This report finds that the fare change of eliminating the Orange ticket may impact minority and low-income users of the Orange tickets, as they are more minority and low-income than BART's overall ridership, exceeding the DI/DB Policy's 10% threshold. However, the disproportionate impacts are not adverse because existing fare products offer better or similar fares and fare media as the Orange ticket. Therefore, the report concludes that the elimination of the Orange ticket and the termination of the Orange ticket program will not result in a disparate impact or disproportionate burden on minority riders or low-income riders, respectively.

Title VI Fare Equity Analysis for Discontinuing the  
BART Discounted Orange Ticket Program for Students at  
Participating Middle and High Schools

# Section 1: Public Participation Process

---

## 1.1 Purpose

BART, with the assistance of Imprenta Communications, conducted public outreach to solicit feedback on a proposal to eliminate Orange magnetic stripe (mag-stripe) tickets, which are sold at a 50% discount to students at participating middle and high schools. This proposed change supports migration of student riders to the youth discount Clipper card, which also offers them BART's 50% discount, and gives them a discount on the region's other transit operators. A key component of the Title VI outreach is to seek input on these types of fare changes from minority, low-income, and limited English proficient (LEP) populations.

BART reached out to all 147 schools in the Bay Area that participate in the Orange ticket program and distributed surveys to parents of students who use the discounted tickets. The survey was made available online at <http://www.bart.gov/orangeticket> and in a hard-copy paper format as an option for each school. The survey remained open for six weeks from February 20, 2018 through April 6, 2018.

This section describes the Title VI public participation process and the public comments by respondents to BART's Orange ticket program survey.

## 1.2 Outreach

BART reached out to Orange ticket program administrators at all 147 schools that currently participate in the program to get parents to complete the survey. In order to publicize the survey and survey link, extensive outreach was conducted with the schools. The survey remained open for six weeks from February 20, 2018 through April 6, 2018. Prior to February 20, 2018, preliminary phone calls were made to administrators so they would be aware of the upcoming outreach. Each administrator received three emails and multiple follow-up phone calls requesting them to share the online and paper surveys with parents of students who use the Orange tickets. While the option to drop off paper surveys to the school was provided, all schools chose to publicize the online survey link. Email responses from school administrators are listed in Appendix PP-B, and the full list of contacted schools is included in Appendix PP-D.

The survey was offered in English, Spanish, and Chinese. Additional language support services were offered in Korean, Tagalog, and Vietnamese and all surveys were completed online. An incentive of a \$100 BART Clipper card was offered as a prize for a drawing for those households that returned the survey. A copy of the survey is included in Appendix PP-A.

## Section 2: Public Comments

---

The outreach effort resulted in 103 total survey responses. Of the 103 responses, 59 were from parents of students who used the Orange ticket. The remaining 44 responses were excluded from consideration either because their children did not use the Orange ticket or the respondent was unsure if their children used the Orange ticket.

While the analysis does not factor in comments from program administrators, BART did receive some comments during the outreach process from school administrators indicating that they had no students currently participating in the Orange ticket program or that their students had already converted to Clipper cards to receive the youth discount. Their comments have been indexed in Appendix PP-B.

The comments from the administrators may also help explain the level of response rate by parents to the surveys. Since many students have already converted to youth Clipper cards, parents may not have felt it was necessary to complete a survey regarding the Orange tickets. This is also supported by comparing the 59 parent responses to this survey to the almost 300 parent responses to a survey of the parents of Orange ticket users done in fall 2014, before BART began to offer a 50% discount to youth through age 18, which is available with the youth Clipper card.

Of the 59 parent responses, 57 were in English and two were in Spanish. All comments throughout this report have been transcribed as written by the public.

A demographic summary of the relevant survey respondents is shown below in Table 1.

**Table 1: Survey Demographic Summary**

<b>All Respondents</b>		
	<b>Percent*</b>	<b>Sample Size*</b>
<b>Used Orange Ticket</b>		
Yes	57.3%	<b>59</b>

<b>Total</b>	<b>100%</b>	<b>59</b>

\*Note: due to rounding, percentages may not add up to 100%, sample size dependent upon completed answers.

\*\*Low-income and non-low-income percentages factor in both household size and annual household income.

## 2.1 BART Orange Ticket Usage

Students attending participating middle and high schools can purchase magnetic stripe Orange tickets at a 50% discount, paying \$16 for \$32 in value. The purpose of this survey was to collect feedback on the impact of eliminating the Orange ticket program

### 2.1.1 Question 1: School Name

BART contacted all 147 schools that participate in the Orange ticket program, and parents at 21 of the schools responded to the survey.

**Table 2-1: Respondents' Schools**

Sample Size = 59 (parents of students participating in the Orange ticket program)

	School Name	Respondents	Percentage
1	James Logan High School	17	28.8%
2	Moreau Catholic High School	5	8.5%
3	Saint Mary's	5	8.5%
4	San Francisco Waldorf High School	5	8.5%
5	El Cerrito High School	4	6.8%
6	East Bay School for Boys	3	5.1%
7	The College Preparatory School	3	5.1%
8	Lick-Wilmerding	2	3.4%
9	Oakland Military Institute	2	3.4%
10	Bayhill High School	2	3.4%
11	Urban High School	1	1.7%
12	Good Shepherd School	1	1.7%
13	Crystal Springs Uplands	1	1.7%
14	Bezier Academy	1	1.7%
15	Mentoring Academy	1	1.7%
16	Alameda Community Learning Center	1	1.7%
17	Averroes High School	1	1.7%
18	Schools of the Sacred Heart Convent High School	1	1.7%
19	De La Salle High School	1	1.7%
20	City Arts & Technology High School	1	1.7%
21	California Crosspoint Academy	1	1.7%
	<b>Total</b>	<b>59</b>	<b>100.0%</b>

### 2.1.2 Question 2:

*Has a child in your household used a discounted orange ticket (purchased at school) to ride BART within the last six months?*

There were 103 responses to Question 2, with the results shown in Table 2-2 below.

**Table 2-2: Discounted Orange Ticket usage**  
Sample Size = 103

Options	Percent
Yes	57.3%
No	37.9%
Unsure	4.9%
Total	100%

Surveys for respondents that indicated “No” or “Unsure” were automatically removed from consideration. The total sample size for all remaining questions was 59.

### 2.1.3 Question 3:

*How many children in your household use orange tickets to ride BART?*

There were 59 responses to Question 3, with the results shown in Table 2-3 below.

**Table 2-3: Number of children in household who use the Orange Ticket**  
Sample Size = 59

Options	Percent
Just 1 child	62.7%
2 children	27.1%
3 or more children	10.2%
Total	100%

## 2.2 Demographics of BART Orange Ticket Users

### 2.2.1 Question 4:

*How old is the child who uses orange tickets to ride BART?*

There were 59 responses to Question 4 as shown in Table 2-4 below.

**Table 2-4: Age of BART Orange Ticket Users**  
Sample Size = 59

Options	Percent
12 or younger	1.7%
13 – 18 years old	96.6%
19 or older	1.7%
Total	100%

**2.2.2 Question 5:**

*How often does this child currently ride BART?*

There were 59 responses to Question 5, with the results shown in Table 2-5 below.

**Table 2-5: Frequency**  
Sample Size = 59

Options	Percent
6 - 7 days a week	13.6%
5 days a week	49.2%
3 - 4 days a week	22.0%
1 - 2 days a week	11.9%
1 - 3 days a month	3.4%
Total	100%

**2.2.3 Question 6:**

*What is this child's race or ethnic identification?*

There were 59 responses to Question 6, with nine respondents indicating "Other" or multiple races and one respondent that declined to state.

**Table 2-6: Ethnic Identification**  
Sample Size = 59

Options	Percent
White	22.0%
Black/African American	18.6%
Asian or Pacific Islander	18.6%
American Indian or Alaska Native	3.4%
Hispanic/Latino	20.3%
Other or Multiple Races	15.3%
Declined to State	1.7%
Total	100%

## 2.2.4 Question 7:

*What is your total annual household income before taxes?*

There were 50 responses to Question 7, with the results shown in Table 2-7 below.

**Table 2-7: Household Income**  
Sample Size = 50

Options	Percent
Under \$25,000	10.0%
\$25,000 - \$34,999	4.0%
\$35,000 - \$39,999	10.0%
\$40,000 - \$49,999	18.0%
\$50,000 - \$59,999	10.0%
\$60,000 - \$74,999	12.0%
\$75,000 - \$99,999	6.0%
\$100,000+	30.0%

## 2.3 General Comments

The survey included a question for the public to comment on how the elimination of the Orange ticket program would impact the respondent's household:

*Question 7: How would the elimination of the Orange Ticket School Discount Program impact your household, if at all?*

All of the survey responses for Question 7 are included in Appendix PP-B.

### 2.3.1 Support or No Response Regarding the Elimination of the Orange Tickets:

Approximately half of respondents (29 of 59) were either supportive of eliminating the Orange ticket program or had no comment about the change. Sample responses are included below:

*"Not at all, she has a clipper card and now that it gives us a discount we don't purchase the orange tickets. We also had a problem with the orange ticket - it got demagnetized or something - so we lost some money. My child was told we had to go to a special station to get it fixed and it was too much of a bother."*

*"Assuming we can receive the same youth discount with a youth discount Clipper card, there is no impact at all. Or, it means greater convenience, as we can just purchase the tickets easily, rather than going through the BART Orange program. I am glad to see the switch."*

*"As long as we can access the discounted rates via a Youth Clipper, then should be not be an issue"*

*"With new youth discount Clipper card rules not a big deal."*

*"not at all / clipper card is much better"*

### 2.3.2 Concerns about Eliminating the Orange Tickets:

The remaining half of respondents (30 of 59) expressed concerns about the change. Some of these comments specifically addressed the transition from Orange tickets to Clipper cards:

*"We purchased a Clipper Card for my son, but he is having a hard time using it. The detector keeps rejecting it, even though I put \$45 dollars on it. So the Orange Tickets are much easier to use."*

*"Makes it harder because you have to pre-pay Clipper and keep it separate for school and personal use."*

*"It would cause us an incredible hardship to not be able to use the orange tickets-- they provide us with the flexibility we need as a family to ensure transportation, especially to school for the children. The clipper option is not as useful to us. Please do not eliminate the orange tickets. Thanks."*

However, many of these comments that expressed concerns seemed rooted in confusion about how the change would impact their households. Despite the fact that the survey form itself reiterated that a youth discount was available through the Clipper card, many respondents believed this change would result in significant financial hardship. Others did not realize that Clipper cards could be used for BART rides.

*"We currently use the Orange ticket program for both of our sons, ages 11 & 13. Without the program, our transportation costs would double and we'd have to cut back elsewhere. Our kids already receive subsidized tuition and they Bart home after school so we don't have to pay childcare costs."*

*"I would not eliminate it at all, it is very helpful in paying the expenses to send my child to school every day"*

*"Nos afectaria mucho economicamente, porque pagar el precio regular los cinco dias que mi hijo lo usa para transportarse a Saint Maty's in Berkley, seria muy caro , ojala que no eliminen este programa . El BART con su ayuda esta ayudando a estos estudiantes que son nuestro futuro." [Translation: "It would affect us a lot financially because paying the regular price for the five days that my son uses it to commute to Saint Maty's in Berkley, would be very expensive, hopefully this program is not eliminated. BART with your help is helping these students who are our future."]*

Some comments also raised concerns about whether BART would continue to accept Orange tickets that have already been purchased:

*"We will have a several Orange Ticket Discount Cards that would be rendered useless. Effectively, we would have prepaid for this cards and received nothing for them."*

*"The portion of remaining inventory assigned to our student would be lost unless BART would buy them back."*

Should the Orange ticket program be discontinued, Orange tickets will continue to be accepted at the fare gate. BART’s magnetic stripe tickets have a per-trip surcharge applied, and the surcharge for Orange tickets will continue to be \$0.25 per trip, which is a 50% discount to the full-fare Blue ticket surcharge of \$0.50. There is no surcharge for Clipper users, including youth.

### 2.3.3 Minority and Low-Income Responses

Of the 45 minority respondents, 22.2% expressed support for the BART Orange ticket elimination, 24.4% chose not to comment regarding the question, which can indicate neutrality or potentially some level of acceptance, and 53.3% did not support the proposal.

Among the 19 low-income respondents, 15.8% indicated support, 31.6% chose not to comment regarding the question, which as noted above can indicate neutrality or potentially some level of acceptance, and 52.6% were not in support.

The breakdown of comments by minority and low-income respondents is included in Table 2-7.

**Table 2-8: Comments on Elimination of Orange Ticket Program by Minority and Low-Income Respondents**

Comments	Minority	Non-minority	Low-Income	Non-Low-Income
<i>Sample Size</i>	45	14	19	40
Support	22.2%	50.0%	15.8%	32.5%
Do not Support	53.3%	35.7%	52.6%	47.5%
No Response	24.4%	14.3%	31.6%	20.0%
Total	100.0%	100.0%	100.0%	100.0%

### 2.3.4 Assessment

An analysis of the responses received shows that 46.7% of the 45 minority respondents either supported or had no comment on elimination of the Orange ticket, while 53.3% did not support the proposal. Of the 19 low-income respondents, 47.4% either supported or had no comment, and 52.6% were not in support. However, analysis of the comments shows that many people were confused regarding implementation of the youth discount Clipper card, costs, and the fact that those who have pre-existing Orange tickets could still use the tickets in the system.

These results could point to the need for more education to increase parents’ awareness of the facts and benefits of the discount Clipper youth card if the Orange ticket were to be eliminated. However, it should be noted that concurrent with this Orange ticket Title VI outreach process and surveying, there were multiple outreach processes occurring to encourage youth discount Clipper card registration and the public is potentially much more aware now of the better options available to them than during the Orange ticket elimination outreach. These various types of outreach are described in section 3 below.

## Section 3: Education and Outreach

---

### *3.1 Mag-stripe Ticket Surcharge Mitigation Action Plan Outreach*

The BART Board approved a Title VI Fare Equity Analysis in June 2017 that determined whether several proposed changes could disproportionately impact minority or low-income riders. Staff found that a mag-stripe ticket surcharge could result in a disproportionate impact on low-income riders.

BART then focused its efforts on getting free Clipper cards to low-income riders so they could avoid the surcharge through the following outreach efforts:

- Twenty-nine promotional outreach events (December-March) in cooperation with Metropolitan Transportation Commission (MTC) at 20 BART stations and 9 community-based organizations that serve low-income populations.
- MTC has partnered with Community Based Organizations (CBOs) referred by BART's Office of Civil Rights that service low-income communities and the CBOs have become part of MTC's Clipper card distribution program so they can continue to provide the populations they service with free Clipper cards on an ongoing basis.

Throughout this outreach process, BART/MTC staff were educating the public about the free youth discount Clipper cards and how to sign up. Youth discount Clipper card applications were handed out at all 29 in-station and CBO events.

The following table provided by MTC (which is also in the analysis) shows that there has been an increase in youth discount Clipper card applications and issuance by various agencies and through MTC from FY14 through to FY18.

**Table 3-1: Youth discount Clipper Card Issuance by Agency**

	FY 14-15 Quarter 3			FY 15-16 Quarter 3			FY 16-17 Quarter 3			FY 17-18 Quarter 3		
	2015	2015	2015	2016	2016	2016	2017	2017	2017	2018	2018	2018
	Jan-15	Feb-15	Mar-15	Jan-16	Feb-16	Mar-16	Jan-17	Feb-17	Mar-17	Jan-18	Feb-18	Mar-18
<b>Card Issuance by Operator: Mail/Email/Fax</b>												
Mail In Applications: Youth	380	320	386	498	485	485	454	433	511	1178	949	773
<b>Card Issuance by Operator: Embarcadero Station</b>												
Bay Crossings Embarcadero Station: Youth	155	121	144	129	137	124	169	131	153	367	291	396
<b>Card Issuance by Operator: AC Transit</b>												
AC Transit: Youth	253	188	214	180	199	190	184	150	157	208	172	272
<b>Card Issuance by Operator: BART</b>												
BART: Youth*										171	117	118
<b>Card Issuance by Operator: SF Muni</b>												
SF Muni: Youth	30	504	437	397	324	243	392	368	429	395	564	348
<b>Total by month</b>												
Email/mail/fax and major distributors	818	1133	1181	1204	1145	1042	1199	1082	1250	2319	2093	1907
<b>Total by quarter</b>												
Email/mail/fax and major distributors			3132			3391			3531			6319

\*Through May 2017, youth applications received at BART were processed as mail/email/fax applications.

Table 3-1 shows a steady increase in card issuance of Clipper cards when comparing quarter-to-quarter figures over the past four years. However, applications for youth have increased dramatically--by 79%--when January-March 2017 is compared to January-March 2018. The reason for this may potentially be due to youth Clipper card applications being handed out at all the mag-stripe paper ticket mitigation events as well as extensive outreach educating the public on the youth discount Clipper card, which will be described in sections 3-2 and 3-3. In addition, effective January 1, 2018, BART extended the age at which youth receive a 50% discount to 18 years.

### *3.2 Youth discount Clipper card “How-To” YouTube Video*

In an effort to encourage youth discount Clipper card registration, BART produced a video that was distributed to the public and advertised as described below:

- August 9, 2017: <http://www.bart.gov/news/articles/2017/news20170808> Teens take note: BART has new discount for your Clipper card starting Jan. 1
- December 18, 2017: <http://www.bart.gov/news/articles/2017/news20171218> Teens can now get a big discount on BART with a Youth discount Clipper card (this one has the video embedded)
  - This story and video was emailed to 56,991 BART subscribers with a 23% open rate: 16,446
- March 6, 18: <http://www.bart.gov/news/articles/2018/news20180306> Teen spring break checklist: Get Youth discount Clipper card, save money exploring the Bay!
- The video <https://www.youtube.com/watch?v=BYCt9zFR0UE> was posted on:
  - You-Tube (1,800 views),
  - Facebook (13,000 views and a reach of 27,000, shared 56 times), and
  - Twitter (25,907 views, 118 retweets)

The advertisement and video may be one of the contributing factors to the increase in youth discount Clipper cards that have been issued throughout the Bay Area.

### *3.3 BART Police Department Youth Outreach*

BART Police Department (BART PD) has traditionally reached out and worked with youth advocacy groups. The following is a summary of how BART PD assisted in educating the public about the youth discount Clipper card and discount.

- Information on mag-stripe paper ticket surcharge/expanded youth discount/Clipper card availability in BART stations was distributed via approximately 100 emails to community contacts including all BART PD, other police departments, neighborhood community groups, schools, non-profits that focus on children/families, churches, and residential housing near BART stations.
- December 2017: BART PD distributed Clipper applications/information on Clipper and spoke to BART customers during two Holiday Safety Awareness events.
- January 4-5, 2018: BART PD shared the Clipper changes on our BART PD Facebook Page which included dates for the District’s scheduled Clipper outreach events. BART PD attended some of the Clipper outreach events. See following for posting:

 **BART Police Department**  
January 4 · 🌐

Learn how to save money on BART with Bay Area Clipper. By using the Clipper and Easy Rider hang tag, patrons can quickly pay for parking and BART tickets.

There are dozens of outreach events coming to BART stations where free Clipper cards will be available and riders can also learn about the new 50 percent discount available for teens.

The next events will be held on:  
January 4 - West Oakland BART Station - 4-7pm  
January 8 - Dublin/Pleasanton BART Station 4-7pm  
January 9 - Bay Fair BART Station 4-7pm

Each week BART will post a new schedule. BART is also working with local community based organizations to hand out free Clipper cards.

Everyone is encouraged to register a Clipper card because it can protect the balance and has an auto-load option to avoid ticket vending lines. Use Clipper anonymously without registering it and load with cash at BART ticket machines, as needed.

More details about how to save with Clipper may be found at <http://bddy.me/2qhb1gf>. Questions can be promptly answered by visiting <https://twitter.com/sfbart>.

**CLIPPER CARD**  
The easiest and fastest way to pay  
for daily parking fee at BART

- No waiting in line.
- No need to remember your parking stall number.
- No need to enter a cash payment each time you park.

*Just tap at parking validation machine and go!*

Moving forward, many opportunities still exist to promote public awareness of the new Clipper card youth discount to families that may benefit from this program.

## Section 4: BART Title VI/Environmental Justice and Limited English Proficiency Advisory Committees

---

Staff presented on the Orange ticket fare and program elimination at a special joint BART Title VI/Environmental Justice (EJ) and Limited English Proficiency (LEP) Advisory Committee meeting held on Monday, April 2, 2018 (10:30am-1pm) in the Joseph P. Bort Metro Center, located at 101 8th Street in Oakland. Additional follow-up presentations were made to the Title VI/EJ Advisory Committee meeting on Monday, May 7, 2018 (2pm-4pm) and to the LEP Advisory Committee meeting on Tuesday, May 22, 2018 (10:30am-1pm) in the BART Board Room, located at 2040 Webster Street in Oakland. The meetings were open to the public and the agenda was noticed at least 72 hours in advance of the meeting.

The LEP Advisory Committee consists of members of community-based organizations that serve LEP populations within the BART service area. The committee assists in the development of the District's language assistance measures and provides input on how the District can provide programs and services to customers, regardless of language ability. The Title VI/EJ Advisory Committee, which also consists of members of community-based organizations, ensures that the District is taking reasonable steps to incorporate Title VI and EJ Policy principles in its transportation decisions.

At the meetings, staff presented an overview of the Orange ticket program, background information and the reason for its elimination, and the benefits of the youth discount Clipper card as an alternative to the Orange ticket.

Members were supportive of the Orange ticket fare media and program elimination. One member stated that her organization hosted a BART/MTC mag-stripe ticket surcharge mitigation outreach event which was very successful in helping people sign up for Clipper cards. She noted that BART/MTC staff provided very helpful information on the benefits of and how to get the youth discount Clipper card at this event and expressed approval of the mitigation measure of moving youths towards Clipper cards.

# Appendix PP-A: Orange Ticket Program Surveys

---

# Orange Ticket Survey

Please complete this survey to provide your input on BART's Orange Ticket School Discount Program.

## Dear Parent/Guardian,

As you may be aware, BART recently expanded its youth discount. Now children ages 5-18 can receive a 50% discount on all of their BART rides. (The easiest way to get this discount is by using a Youth Clipper card. Note that children under age 5 still ride BART for free.)

Since this discount is now available to all youth, **BART is considering the elimination of its Orange Ticket School Discount Program.** Please complete this brief survey to help BART understand your household's use of orange tickets. To thank you for your time, you can enter to win a \$100 Clipper card at the end of this survey.

**1** School name: \_\_\_\_\_

**2** Has a child in your household used a discounted orange ticket (purchased at school) to ride BART within the last six months?  
 <sub>1</sub> Yes  
 <sub>2</sub> No (skip to Q12)  
 <sub>3</sub> Don't know (skip to Q12)

**3** How many children in your household use orange tickets to ride BART?  
 <sub>1</sub> Just 1 child uses orange tickets  
 <sub>2</sub> 2 children use orange tickets  
 <sub>3</sub> 3 or more children use orange tickets

## Please tell us about the child who uses orange tickets to ride BART.

*(If more than one child in your household uses orange tickets, please tell us about the oldest one.)*

**4** How old is the child who uses orange tickets to ride BART?  
 <sub>1</sub> 19 or older  
 <sub>2</sub> 13 – 18 years old  
 <sub>3</sub> 12 or younger

**5** How often does this child currently ride BART? *(Check one)*  
 <sub>1</sub> 6 – 7 days a week  
 <sub>2</sub> 5 days a week  
 <sub>3</sub> 3 – 4 days a week  
 <sub>4</sub> 1 – 2 days a week  
 <sub>5</sub> 1 – 3 days a month  
 <sub>6</sub> Less than once a month → *How many times a year?* \_\_\_\_\_

**6** What is this child's race or ethnic identification?  
*(Check one or more. Your response will help us to evaluate how well this program is reaching all of the communities that BART serves.)*  
 <sub>1</sub> American Indian or Alaska Native  
 <sub>2</sub> Asian or Pacific Islander  
 <sub>3</sub> Black/African American  
 <sub>4</sub> Hispanic, Latino or Spanish  
 <sub>5</sub> White  
 <sub>6</sub> Other: \_\_\_\_\_  
*(Categories are based on the U.S. Census)*

## Orange Ticket School Discount Program

**7** How would the elimination of the Orange Ticket School Discount Program impact your household, if at all?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## About You and Your Household

- 8** Including yourself, how many people live in your household?  
1  1   2  2   3  3   4  4   5  5   6  6+
- 9** Do you use a smart phone (can access the Internet, download apps, etc.)?  
1  Yes  
2  No
- 10a** Do you speak a language other than English at home?  
1  Yes, I speak: \_\_\_\_\_  
2  No
- 10b** If you answered "Yes" to question 10a, how well do you speak English?  
1  Very well  
2  Well  
3  Not well  
4  Not at all
- 11** What is your total annual household income before taxes?  
1  Under \$25,000  
2  \$25,000 - \$34,999  
3  \$35,000 - \$39,999  
4  \$40,000 - \$49,999  
5  \$50,000 - \$59,999  
6  \$60,000 - \$74,999  
7  \$75,000 - \$99,999  
8  \$100,000 or more

## Optional

- 12** If you would like to enter the drawing to win a \$100 Clipper card, please enter your contact information here:

Name: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Please read the statements below and check all that apply.

- Contact me with important BART updates (no more than once per year), or in case of a major system-wide emergency (email only).
- Sign me up for BARTable this Week. It's a free weekly email filled with events, discounts and chances to win free tickets to great BARTable events! (email only)

# Encuesta sobre el Boleto Anaranjado

Por favor complete esta encuesta para brindar su opinión sobre el Programa de Descuento Escolar de BART, el Boleto Anaranjado.

## Estimado padre/madre/tutor legal:

Tal vez ya conozca que BART amplió recientemente su descuento para jóvenes. Ahora, los niños de 5 a 18 años de edad pueden recibir un descuento del 50% en todos sus viajes en BART. (La manera más sencilla de obtener este descuento es usar una tarjeta Clipper Card para jóvenes. Tenga en cuenta que los niños menores de 5 años siguen teniendo la posibilidad de viajar en BART en forma gratuita).

Como este descuento ahora está disponible para todos los jóvenes, **BART está considerando eliminar su Programa de Descuento Escolar del Boleto Anaranjado**. Por favor complete esta breve encuesta para ayudar a BART a comprender cómo se usan los boletos anaranjados en su hogar. Para agradecerle por su tiempo, al finalizar esta encuesta puede participar en un sorteo para ganar una tarjeta Clipper Card de \$100.

**1** Nombre de la escuela: \_\_\_\_\_

**2** ¿Algún niño que viva con usted usó un boleto anaranjado de descuento (comprado en la escuela) para viajar en BART en los últimos seis meses?

- 1 Sí
- 2 No (continúe con la P12)
- 3 No sé (continúe con la P12)

**3** ¿Cuántos niños de su hogar usan boletos anaranjados para viajar en BART?

- 1 Solo 1 niño usa el boleto anaranjado
- 2 2 niños usan el boleto anaranjado
- 3 3 o más niños usan el boleto anaranjado

**Por favor proporciónenos información sobre el niño que usa el boleto anaranjado para viajar en BART.**  
(Si más de un niño de su hogar usa el boleto anaranjado, por favor infórmenos sobre el mayor de ellos).

**4** ¿Cuántos años tiene el niño que usa el boleto anaranjado para viajar en BART?

- 1 19 años de edad o más
- 2 13 a 18 años de edad
- 3 12 años de edad o menos

**5** ¿Con qué frecuencia viaja este niño en BART actualmente? (Marque una respuesta)

- 1 6 a 7 días a la semana
- 2 5 días a la semana
- 3 3 a 4 días a la semana
- 4 1 a 2 días a la semana
- 5 1 a 3 días al mes
- 6 Menos de una vez al mes → ¿Cuántas veces al año? \_\_\_\_\_

**6** ¿Cuál es la raza o la identificación étnica de este niño?

(Marque una o más opciones. Su respuesta nos ayudará a evaluar cuán bien está llegando este programa a todas las comunidades a las que BART presta servicio).

- 1 Indígena norteamericano o nativo de Alaska
- 2 Asiático o de las Islas del Pacífico
- 3 Negro/afroamericano
- 4 Hispano, latino o español
- 5 Blanco
- 6 Otro: \_\_\_\_\_

(Categorías en base al Censo de los Estados Unidos).

## Programa de Descuento Escolar del Boleto Anaranjado

**7** ¿Cómo afectaría a su hogar (si lo afectara) la eliminación del Programa de Descuento Escolar del Boleto Anaranjado?

---

---

---

## Acerca de usted y las personas que viven en su hogar

**8** Incluyéndose a sí mismo, ¿cuántas personas viven en su hogar?

- 1    2    3    4    5    6 o más

**9** ¿Utiliza un teléfono inteligente (puede acceder a Internet, descargar aplicaciones, etc.)?

- Sí  
 No

**10a** ¿Habla usted un idioma que no sea el inglés en el hogar?

- Sí, hablo: \_\_\_\_\_  
 No

**10b** Si respondió "Sí" a la Pregunta 10a, ¿qué tan bien habla inglés?

- Muy bien  
 Bien  
 No muy bien  
 Nada

**11** ¿Cuáles son los ingresos totales anuales de su hogar antes de impuestos?

- Menos de \$25,000  
 \$25,000 a \$34,999  
 \$35,000 a \$39,999  
 \$40,000 a \$49,999  
 \$50,000 a \$59,999  
 \$60,000 a \$74,999  
 \$75,000 a \$99,999  
 \$100,000 o más

## Opcional

**12** Si desea participar en el sorteo para ganar una tarjeta Clipper Card de \$100, por favor escriba su información de contacto en este lugar:

Nombre: \_\_\_\_\_

Teléfono: \_\_\_\_\_

Correo electrónico: \_\_\_\_\_

Por favor lea las afirmaciones que se incluyen a continuación y marque todas las que correspondan.

- Comuníquese conmigo con respecto a importante información actualizada sobre BART (no más de una vez al año), o en caso de que ocurra una emergencia grave de todo el sistema (sólo por correo electrónico).
- Inscríbanme en BARTable this Week. Es un mensaje de correo electrónico semanal gratuito repleto de eventos, descuentos y oportunidades para ganar boletos gratis a increíbles eventos de BARTable. (sólo por correo electrónico)

### Gracias por contestar esta encuesta.

# 橙色票問卷調查

請完成該項調查，提供您對 BART 橙色票學校折扣計劃的意見和建議。

## 尊敬的家長/監護人：

您可能知道，BART 最近擴大了未成年折扣適用範圍。現在，5-18 歲的未成年人每次搭乘 BART 均可享有 50% 折扣。(要享有這項折扣，最簡單的方法就是使用 Youth Clipper 卡。請注意：5 歲以下兒童仍可免費搭乘 BART。)

由於這項折扣現已適用於所有未成年人，因此 **BART 正在考慮取消橙色票學校折扣計劃 (Orange Ticket School Discount Program)**。請填寫這份簡短問卷，幫助 BART 了解您家中的橙色票使用情形。為感謝您抽空接受調查，您還可參加問卷最後的抽獎活動，有機會贏得一張價值 \$100 的 Clipper 卡。

**1** 學校名稱： \_\_\_\_\_

**2** 在過去六個月內，您家中有任何子女使用橙色折扣票 (購自學校) 搭乘 BART 嗎？

- 1  是
- 2  否 (直接跳到第 12 題)
- 3  不知道 (直接跳到第 12 題)

**3** 您家中有幾名子女使用橙色票搭乘 BART？

- 1  僅 1 名子女使用橙色票
- 2  2 名子女使用橙色票
- 3  3 名或更多子女使用橙色票

## 請告訴我們關於使用橙色票搭乘 BART 的子女資料。

(如果您家中有超過一名子女使用橙色票，請以年齡最大的子女為準回答。)

**4** 請問使用橙色票搭乘 BART 的子女現年幾歲？

- 1  19 歲或以上
- 2  13 - 18 歲
- 3  12 歲或以下

**5** 這名子女目前多常搭乘 BART？(勾選一項)

- 1  一星期 6 - 7 天
- 2  一星期 5 天
- 3  一星期 3 - 4 天
- 4  一星期 1 - 2 天
- 5  一個月 1 - 3 天
- 6  一個月不到一次 → 一年幾次？ \_\_\_\_\_

**6** 這名子女的種族或族裔為何？

(可勾選一或多項。您的回答將幫助我們評估該計劃是否觸及 BART 服務的所有社群。)

- 1  美洲印第安人或阿拉斯加原住民
- 2  亞裔或太平洋島裔
- 3  黑人/非裔美國人
- 4  西班牙語裔/拉丁美洲裔/西班牙裔
- 5  白人
- 6  其他： \_\_\_\_\_

(類別以美國人口普查為依據)

## 橙色票學校折扣計劃

**7** 如果取消橙色票學校折扣計劃，您的家庭會受到什麼影響 (若有任何影響)？

---

---

---

## 關於您和您的家庭

- 8** 包括您在內，您家中共住了多少人？  
1  1   2  2   3  3   4  4   5  5   6  6+
- 9** 您是否使用智慧型手機 (有上網、下載應用程式等功能)？  
1  是  
2  否
- 10a** 您在家是否說英語以外的語言？  
1  是，我說： \_\_\_\_\_  
2  否
- 10b** 如果 10a 題回答「是」，您的英語說得怎麼樣？  
1  很好  
2  好  
3  不好  
4  完全不會
- 11** 您的稅前家庭總年收入是多少？  
1  \$25,000 以下  
2  \$25,000 - \$34,999  
3  \$35,000 - \$39,999  
4  \$40,000 - \$49,999  
5  \$50,000 - \$59,999  
6  \$60,000 - \$74,999  
7  \$75,000 - \$99,999  
8  \$100,000 或以上

## 自由選答

- 12** 如果您想參加抽獎活動，贏得一張價值 \$100 的 Clipper 卡，請在此填寫您的聯絡資料：

姓名： \_\_\_\_\_

電話： \_\_\_\_\_

電郵地址： \_\_\_\_\_

請閱讀以下聲明，並勾選所有適用項目。

若 BART 有重要消息(每年不超過一次)，或發生全系統性的重大緊急事故時，請與我聯絡 (僅發送電郵)。

我要訂閱 BARTable this Week 電子報。這是每週發送一次的免費電郵，其中介紹有關 BART 的各項活動和折扣，並有機會贏得 BARTable 精彩活動的免費入場券！(僅發送電郵)

### 謝謝您完成這項問卷調查。

請放入已付郵資信封寄回，  
或自行寄到：

Imprenta Communications Group  
c/o Jay Cheng  
301 Grove Street  
San Francisco, CA 94102

如需語言協助服務，請致電 (510) 464-6752。

## Appendix PP-B: Administrator Email Comments

School Name	Email Response
<b>SFUSD</b>	<p>Paper BART tickets are a critical support for homeless and other foster youth. Programs that serve these students need a way to hand them an immediate solution to their transportation dilemmas. Youth in crisis often have no access to their possessions - including clipper cards and the IDs necessary to get them. This can be an unnecessary barrier to these kids attending school as they move between shelters, family members, and the streets. It is unbelievable the lengths young people will go to stay in school - often the only stable place they have during a period of crisis - if they can get there. I have known kids to commute 2 hours each way day just to get to their school. We have to have passes we can give them in these circumstances.</p> <p>This will never show up on a parent survey, but it is a critical function for BART to provide.</p> <p>I understand that as a consultant this may be outside of your project scope. Please acknowledge that this has been received and communicated to BART. If you would like to put me in touch with someone directly, please do so.</p>
<b>Bezier Academy</b>	<p>I'll be happy to help with the survey.</p> <p>We are in a funny situation, as I signed up for BART Orange for my student in our homeschool - since my son has been taking BART to CC classes for high school in some instances.</p> <p>I have been needing to get him signed up for the youth Clipper Card, and due to family emergencies have just not gotten around to it. We are out of BART Orange tickets, so I need to take action soon. I am sure it's not as complicated as I have made it out to be in my mind!</p>
<b>Omia Academy</b>	<p>I have requested that this be sent out in the next parent bulletin.</p> <p>As an administrator, I am concerned about how we are going to serve the small population (about 10) of homeless students we have without the paper BART tickets. All schools are required by The McKinney-Vento Act to arrange transportation to and from school for homeless students. We satisfy that requirement for most of them by giving them the paper BART tickets as needed.</p>
<b>Heritage High School</b>	<p>I forwarded to our student to fill out.</p> <p>Thank you</p>
<b>San Francisco University High School</b>	<p>I was curious what the survey looked like and so I clicked a few buttons and now it submitted for me. Please delete that from your stats since I'm not a parent using the survey. I didn't realize there wasn't a "submit"</p>

	<p>button and thought I could just back out but alas...not the case.</p> <p>I only have a couple of families who used it so I'll send the survey on to them. No guarantee they'll respond though...</p>
<b>John O'Connell High School</b>	Thank you Rob we are but we have not had funds this year.
<b>Diablo Valley School</b>	<p>Dear Rob,</p> <p>I will pass along the survey to our parents who have used orange tickets in the past.</p> <p>Warm regards, Anne-Martine</p>
<b>Richmond College Prep Schools</b>	Received, thank you
<b>Mary's College High School</b>	Thanks Rob - I will send it out today.
<b>Mission High School San Francisco</b>	<p>Dear Rob,</p> <p>We only have one student participating the program right now. We'll communicate with his family about the survey.</p> <p>Best,</p>
<b>Orion Academy</b>	Orion Academy is a very small school - 45 students. We probably had an average of three families using the program at any one time. We have not used the program since it was discontinued last Fall/Winter.
<b>Synergy School</b>	<p>Sorry you didn't hear from me after the first time, Rob. Crazy busy around here.</p> <p>I do not actually have any parents buying orange tickets this year. I still buy them for field trips though. Hopefully BART will end up with a way that I can still do that.</p>
<b>Newark Unified</b>	<p>Hi Mr. Chua,</p> <p>I am the Coordinator of Pupil Services, and the Homeless Liaison for Newark USD. Some other responsibilities also bring me into d discussions about bus transportation of Newark students.</p> <p>Can you please look up in your records which of our school are</p>

	<p>participating in your Orange Bus Pass Program? Or is this a program available to everyone? (If so which ages/ grade level are the target audience?) I didn't see that in your email, and I'm not aware of our sites' participation. I just need this to know how to direct your request to parents of students participating in the program.</p> <p>Many thanks! Bill</p>
<p><b>Newark Unified</b></p>	<p>Hi Rob,</p> <p>I forwarded your request to the High School, asking them to dispatch the link for the survey to the proper clientele. I was told that they would address it shortly. Hopefully you'll receive something in a few days. Thank you for your patience!</p> <p>Martine</p>

## Appendix PP-C: Responses to Question 7 (Comments on Household Impact)

---

Response ID	Survey Date	Language	Response on Impact
1	2/20/2018	English	dfhjk
2	2/20/2018	English	no internet access
3	2/20/2018	English	The portion of remaining inventory assigned to our student would be lost unless BART would buy them back.
4	2/20/2018	English	
5	2/20/2018	English	Assuming we can receive the same youth discount with a youth Clipper Card, there is no impact at all. Or, it means greater convenience, as we can just purchase the tickets easily, rather than going through the BART Orange program. I am glad to see the switch.
6	2/21/2018	English	
7	2/21/2018	English	My kids uses Bart 5 days a week as a part of their transportation to thier school to have a higher education, this will impact my family, please consider to handle this situation in the possible matter that will not have negative effect.
8	2/22/2018	English	She commutes from Oakland to Pittsburgh to go to school and we are already covering private school tuition the financial weight would be hard. We also won't have someone who can go pick up the clipper ticket.
9	2/27/2018	English	
10	2/28/2018	English	The children who use the orange tickets are over 18, and therefore would not be eligible for the youth clipper card prices.
11	2/28/2018	English	My children will only be able to take the bus due to the cost.
12	3/11/2018	English	
13	3/12/2018	English	We will have a several Orange Ticket Discount Cards that would be rendered useless. Effectively, we would have prepaid for this cards and received nothing for them.
14	3/12/2018	English	Huge Impact on our students: We are a commuter school that serves some under the poverty level students. We provide them with the discounted orange cards to get to school and back (along with bus passes) at the school's cost. This would significantly impact 5% of our population.. I'm not sure how we would be able to implement the discounted clipper cards to these students and monitor their use.

15	3/12/2018	English	It would be difficult financially wise we are low income family
16	3/12/2018	English	
17	3/12/2018	English	We currently use the Orange ticket program for both of our sons, ages 11 & 13. Without the program, our transportation costs would double and we'd have to cut back elsewhere. Our kids already receive subsidized tuition and they Bart home after school so we don't have to pay childcare costs.
18	3/13/2018	English	not at all / clipper card is much better
19	3/13/2018	English	We purchased a Clipper Card for my son, but he is having a hard time using it. The detector keeps rejecting it, even though I put \$45 dollars on it. So the Orange Tickets are much easier to use.
20	3/13/2018	English	It wouldn't as we got it before receiving our clipper card, but we'd like the opportunity to spend it down until zeroed out.
21	3/14/2018	English	
22	3/14/2018	English	Financial hardship as during sports season, my child uses it in order to return home after games. She would probably not be able to participate in sports any longer because of the hardship.
23	3/15/2018	English	
24	3/15/2018	English	Current cost is 64\$/month for have price tickets. Full fair would be 64\$ month more for 10 months. 640\$ year is \$1000 before tax. That's a lot to get a child to school.
25	3/16/2018	English	We depend on Bart discount ticket program to get our son home safely. Without it the cost to pick him up would be prohibitive as we both work long hours and have no other way to pick him up.
26	3/16/2018	English	My child still has orange tickets but he now has a clipper card
27	3/16/2018	English	So long as the Clipper card offers the same discount, then not at all. However, if Clipper card does not offer 50% youth discount, then It would be a hardship for our family.
28	3/17/2018	English	The increase cost of traveling on Bart will impact our family
29	3/19/2018	English	Would be disappointing, but if the same 50% discount is available for children under 18 and includes a Clipper Card, we would prefer this to all of the paper tickets, and the onerous process currently in place to order the Orange Tickets.
30	3/19/2018	English	N/A
31	3/19/2018	English	As long we can access the discounted rates via a Youth Clipper, then should be not be an issue
32	3/19/2018	English	
33	3/19/2018	English	We purchase five orange cards each time so child will not have to carry a pre paid clipper card.

34	3/19/2018	English	
35	3/19/2018	English	
36	3/19/2018	English	
37	3/19/2018	English	
38	3/19/2018	English	
39	3/19/2018	Spanish	
40	3/20/2018	English	
41	3/20/2018	English	It would cause us an incredible hardship to not be able to use the orange tickets-- they provide us with the flexibility we need as a family to ensure transportation, especially to school for the children. The clipper option is not as useful to us. Please do not eliminate the orange tickets. Thanks.
42	3/20/2018	English	
43	3/20/2018	English	Horribly. I'm a single mom and the discount greatly helps my budget.
44	3/21/2018	English	
45	3/21/2018	English	
46	3/21/2018	English	With new youth clipper card rules not a big deal.
47	3/21/2018	English	More cost for Clipper card which we already have switched to due to the very high surcharge of 50 cents per usage for paper tickets. That is mercenary.
48	3/21/2018	English	I thought it was already eliminated. She has to purchase the clipper
49	3/21/2018	Spanish	Nos afectaria mucho economicamente, porque pagar el precio regular los cinco dias que mi hijo lo usa para transportarse a Saint Maty's in Berkley, seria muy caro , ojala que no eliminen este programa . El BART con su ayuda esta ayudando a estos estudiantes que son nuestro futuro.
50	3/21/2018	English	
51	3/21/2018	English	
52	3/22/2018	English	
53	3/22/2018	English	I would not eliminate it at all, it is very helpful in paying the expenses to send my child to school every day
54	3/23/2018	English	it would be easier
55	3/26/2018	English	
56	3/26/2018	English	
57	3/26/2018	English	We can barely afford for my kids, nieces and nephews to get to school without the youth orange discount cards.
58	3/26/2018	English	
59	3/26/2018	English	
60	3/26/2018	English	
61	3/26/2018	English	

62	3/26/2018	English	Financial burden
63	3/26/2018	English	
64	3/26/2018	English	
65	3/26/2018	Spanish	
66	3/26/2018	English	
67	3/26/2018	English	
68	3/26/2018	English	
69	3/26/2018	English	
70	3/26/2018	English	
71	3/26/2018	English	
72	3/26/2018	English	
73	3/26/2018	English	
74	3/26/2018	English	The easiest way to get more discount.
75	3/26/2018	English	it will additional expenditures a month to our finances
76	3/26/2018	English	
77	3/26/2018	English	
78	3/26/2018	English	
79	3/26/2018	English	We are a low income family we would not be able to afford bart at all
80	3/26/2018	English	
81	3/26/2018	English	We are a low income family and all savings help
82	3/27/2018	English	
83	3/27/2018	English	
84	3/27/2018	English	It would cost us more for the BART ride, unless we get the 50% discount that was mentioned in a email from the school.
85	3/27/2018	English	
86	3/27/2018	English	I would impact my son more because he pays for his own ticket
87	3/27/2018	English	As long as the clipper card can be used, not at all
88	3/27/2018	English	
89	3/27/2018	English	not at all he is already using clipper.
90	3/27/2018	English	
91	3/27/2018	English	
92	3/27/2018	English	
93	3/27/2018	English	
94	3/27/2018	English	My child commutes from east oakland to south SF so the costs would go up astronomically. including bart on the clipper card would be a help but 50% would still be more money for us
95	3/27/2018	English	It would require changing her current Clipper card, used only for SF Muni . I do not know if the means getting an all new account, or if I can add Bart to her current card.
96	3/27/2018	English	I don't believe it will negatively impact my children at all.

97	3/27/2018	English	Makes it harder because you have to pre-pay Clipper and keep it separate for school and personal use
98	3/28/2018	English	
99	3/28/2018	Spanish	
100	3/28/2018	English	
101	3/28/2018	English	Not at all, she has a clipper card and now that it gives us a discount we don't purchase the orange tickets. We also had a problem with the orange ticket - it got demagnetized or something - so we lost some money. My child was told we had to go to a special station to get it fixed and it was too much of a bother.
102	3/29/2018	English	
103	3/31/2018	English	

## Appendix PP-D: Orange Ticket Program Schools

---

	School Name	County
1	Alhambra High School	Contra Costa
2	Acalanes High School	Contra Costa
3	Alameda Science and Technology Institute	Alameda

MTC's Means-Based Fare Discount Pilot Program  
Title VI Fare Equity Analysis and Board Minutes

---

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P.O. Box 12688, Oakland, CA 94604-2688

Board of Directors  
Minutes of the 1,839th Meeting  
April 25, 2019

A regular meeting of the Board of Directors was held April 25, 2019, convening at 9:04 a.m. in the BART Board Room, 2040 Webster Street, Oakland, California. President Dufty presided; Patricia K. Williams, District Secretary.

Directors present: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon and Dufty.

Absent: None.

President Dufty called for Introduction of Special Guests. General Manager Grace Crunican introduced Daschal Tinianow, 5<sup>th</sup> grader at Burton Valley School, visiting for Take Our Daughters and Sons to Work Day.

Consent Calendar items brought before the Board were:

1. Approval of Minutes of the Meeting of Meeting of April 11, 2019.
2. Appointment of BART Police Citizen Review Board Member.
3. Delegation of Recruitment Activity and Relocation.
4. Amendment to Agreement No. 6M4636 with Krauthamer & Associates, Inc. to Provide Executive Recruitment Services.
5. Mandatory Amendment to the Non-Federal Small Business Program to Include a Policy to Prevent Fraud and Abuse.
6. Resolution Authorizing Execution of a Master Funding Agreement with the California Department of Transportation for State Funded Projects.

President Dufty requested that Item 2-C, Delegation of Recruitment Activity and Relocation, be continued to a future meeting.

Director Raburn made the following motions as a unit. Director Saltzman seconded the motions, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

1. That the Minutes of the Meeting of April 11, 2019, be approved.
2. That the Board ratify the appointment of Robert Pirone – District 5, to the BART Police Citizen Review Board, for a term expiring on June 30, 2020.

3. That the General Manager be authorized to execute an amendment to Agreement No. 6M4636, Provide Executive Recruitment Services, awarded to Krauthamer & Associates, Inc., to increase funding by \$125,000 from \$99,000 to \$224,000, and to extend the timeframe until June 30, 2020.
4. That the Board adopt proposed modifications to BART's Small Business Program for Non-Federal Contracts, to include a policy to prevent potential fraud and abuse on the part of contractors or suppliers as required by Public Contract Code Section 2002.
5. Adoption of Resolution No. 5396, In the Matter of Authorizing the General Manager to Execute the Master Agreement, and Program Supplements for State-Funded Transit Projects.

President Dufty called for Public Comment. L. Autumn King addressed the Board.

Director Simon, Chairperson of the Administration Committee, brought the matter of Title VI Fare Equity Analysis for BART Participation in Regional Means – Based Fares Pilot Program before the Board. Ms. Pamela Herhold, Assistant General Manager, Performance and Budget; Mr. Maceo Wiggins, Department Manager, Office of Civil Rights; and Ms. Jennella Sanbour-Wallace, Manager of Special Projects, presented the item. The item was discussed.

Lieutenant Lance Haight introduced his daughters Avery and Riley Haight visiting for Take Our Daughters and Sons to Work Day.

Director Saltzman moved that the Board authorize the Title VI Fare Equity Analysis and Public Participation Report for BART Participation in the Metropolitan Transportation Commission's Regional Means-Based Transit Fare Discount Pilot Program. Director Raburn seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

Director Simon brought the matter of Performance and Audit Department Overview before the Board. General Manager Grace Crunican; Ms. Herhold; Mr. Dennis Markham, Chief Performance Audit Officer; and Ms. Tricia Yang, Senior Manager, Performance Analytics, presented the item. The item was discussed.

Director Foley, Chairperson of the Engineering and Operations Committee, brought the matter of Award of Contract No. 01VM-120, Union City Intermodal Phase 2A - BART Station Improvements, before the Board. Mr. David Hardt, Chief Mechanical Officer; and Ms. Shirley Ng, Group Manager Capital Programs, presented the item.

The following individuals addressed the Board:

Mark Evanoff  
Joan Malloy  
Fei Tsen

The item was discussed.

Director Ames moved that the General Manager be authorized to award Contract No. 01VM-120, Union City Intermodal Phase 2A – BART Station Improvements, to Clark Construction Group – California, LP, for the Bid Price of \$18,492,910.00 pursuant to notification to be issued by the General Manager. President Dufty seconded the motion, which carried by electronic vote. Ayes – 8: Directors Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 1: Director Allen.

President Dufty made the following motions as a unit. Director Saltzman seconded the motions, which carried by unanimous roll call vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

1. That the General Manager be authorized to award Contract No. 6M4549 for the Emergency Restoration, Preventive Maintenance, Non-Emergency Repair and Seismic Relocation Work of Commercial Fiber Optic and Wireless Networks for the Base Bid amount of \$1,561,814.00 to Phase 3 Communications, Inc., pursuant to notification to be issued by the General Manager.
2. That the General Manager be authorized to execute Change Order No. 002 to Contract Number 15TD-250, Track Geometry Car, in the not to exceed amount of \$458,730.00, and to extend the Contract completion date by 90 calendar days.

Director Foley brought the matter of Asset Management Policy Update before the Board. Mr. John McCormick, Department Manager, Operations Planning, presented the item. The item was discussed. Director Saltzman moved that the Board authorize the update to the Asset Management Policy. Director Simon seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

Director Raburn, Chairperson of the Planning, Public Affairs, Access, and Legislation Committee, brought the matter Surveillance Policy: Automated License Plate Readers (ALPR) before the Board. Mr. Carl Holmes, Assistant General Manager, Design and Construction; Ms. Mimi Bolaffi, Manager of Security Programs; and Lieutenant Kevin Franklin presented the item. The item was discussed.

The following individuals addressed the Board:  
Mike Katz-Lacabe  
J.P. Massar  
Tracy Rosenberg

Discussion continued.

Director McPartland moved that the Board find, pursuant to District Ordinance No. 2018-1:

1. That the benefits to the community arising from the implementation of ALPR Technology outweigh the costs, and thereby the General Manager or her designee be authorized to proceed with the ALPR implementation and data collection thereof.

2. That the Surveillance Use Policy for ALPR Technology will reasonably safeguard civil liberties and civil rights, and thereby approves the Surveillance Use Policy, Impact Report, and Annex for ALPR Technology.

Director Allen seconded the motion.

Director Saltzman made a substitute motion that that the Board find, Pursuant to District Ordinance No. 2018-1:

1. That the benefits to the community arising from the implementation of ALPR Technology outweigh the costs, and thereby the General Manager or her designee be authorized to proceed with the ALPR implementation and data collection thereof.
2. That the Surveillance Use Policy for ALPR Technology will reasonably safeguard civil liberties and civil rights, and thereby approves the Surveillance Use Policy, Impact Report, and Annex for ALPR Technology.
3. That the Surveillance Use Policy for ALPR Technology will be brought back to the Board for reconsideration and potential amendments before or at the same time as contract award for ALPR technology.

Jerry Grace addressed the Board.

Director Allen seconded the substitute motion, which carried by unanimous electronic vote.  
Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty.  
Noes – 0.

Director Raburn brought the matter of Federal and State Legislation for Consideration before the Board. Mr. Roddrick Lee, Department Manager of Government and Community Relations; and Ms. Amanda Cruz, Program Manager I, Government and Community Relations, presented the item.

Director Allen moved that the Board support the following Federal bills:

S. 654 I H.R. 1517 The Transportation Connecting Efficiencies Opportunities Act through  
Mobility Metrics and Unlocking  
S.793/H.R. 1782 Apprenticeship Act  
S. 923/H.R. 1978 The Fighting Homelessness Through Services and Housing Act  
H.R. 1507 The Bicycle Commuter Act of 2019

President Dufty seconded the motion, which carried by unanimous electronic vote. Ayes – 9:  
Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

Director McPartland exited the Meeting.

The State bills were presented to the Board. The item was discussed.

President Dufty moved that the Board defer taking a position on Senate Bill (SB) 40 - Conservatorship: serious mental illness and substance use disorders. Director Simon seconded the motion, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Ames, Foley, Li, Raburn, Saltzman, Simon, and Dufty. Noes – 0. Absent – 1: Director McPartland.

Director Saltzman moved that the Board support SB 128 - Enhanced infrastructure financing districts: bonds. Director Li seconded the motion, which carried by electronic vote. Ayes – 5: Directors Foley, Li, Saltzman, Simon, and Dufty. Noes – 3: Directors Allen, Ames, and Raburn. Absent - 1 : Director McPartland.

Director McPartland re-entered the Meeting.

Director Li moved that the Board defer taking a position on SB 152 - Active Transportation Program. Director Raburn seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

President Dufty brought the matter of Earthquake Safety Program Citizens Oversight Committee Annual Report before the Board. Mr. Derek Schaible, Chairperson of the Committee, presented the report. The item was discussed, and the Directors thanked Mr. Schaible for his dedication and the service of the Committee.

President Dufty brought the matter of 2019 Organization of Committees and Special Appointments Revision: Creation of General Manager Ad Hoc Committee before the Board. Director Raburn moved that the Board ratify the following appointments to the General Manager Recruitment Ad Hoc Committee: Bevan Dufty, Chairperson; Rebecca Saltzman, Vice Chairperson; Debora Allen; and Mark Foley. Director Simon seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

President Dufty called for Board Member Reports, Roll Call for Introductions, and In Memoriam.

Director Saltzman made the following request.

BART created a time lapse video from the operator's cab on a BART train, but BART's security committee did not allow this video to be shared publicly. I request a memo to the Board on why the committee decided against sharing the video and for the committee to reconsider, including considering mitigations to security concerns, such as blurring some images, speeding up parts, or overlaying text or images when necessary.

Director Foley seconded the request.

President Dufty acknowledged an email from Aleta Dupree praising General Manager Grace Crunican and requested the comments be included in the record. (The email is attached and hereby made a part of these Minutes.)

President Dufty requested the Meeting be adjourned in memory of Ernie Asten, owner of Cliff's Variety store, a landmark in San Francisco.

President Dufty reported he had participated with the 4 a.m. Fare Evasion team at all four downtown San Francisco stations.

Director Simon thanked the External Affairs staff and their support in working with Richmond Mayor Tom Butt, and Contra Costa Supervisor John Gioia regarding the Richmond Station end of line issues.

Director Li acknowledged the District's "Get on Board Day" promotion and thanked Chief Rojas for his service.

Director Raburn reported he had met with the American Planning Association and Fruitvale Business Improvement Group and had toured the Hayward Maintenance Complex with Latitude 38.7 ° Oakland High School students.

Director Ames thanked the External Affairs staff for their support with the Earth Day celebration in Fremont and Rolling Stocks and Shops staff for a tour of the Hayward Maintenance Complex.

Director Raburn requested the Meeting be adjourned in memory of former Mayor of San Leandro, Tony Santos.

President Dufty called for the General Manager's Report.

Ms. Crunican reported on steps she had taken and activities and meetings she had participated in, ridership, upcoming events, outstanding Roll Call for Introductions items, and weekend closure and bus bridge weekend dates. She reported that the District had won the National Government Finance Officers Association Award for the District's Fiscal Year 2019 Adopted Budget Manual.

President Dufty called for Public Comment. Jerry Grace addressed the Board.

President Dufty announced that the Board would enter closed session under Item 10 of the Regular Meeting agenda, and that the Board would reconvene in open session upon conclusion of the closed session.

The Board Meeting recessed at 11 :55 a.m.

---

The Board reconvened in closed session at 12:00 p.m.

Directors present: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty.

Absent: None.

Director Saltzman exited the meeting.

Director Simon exited the meeting.

The Board Meeting recessed at 2:31 p.m.

---

---

The Board reconvened in open session at 2:32 p.m.

Directors present: Directors Ames, Allen, Foley, Li, Raburn, and Dufty.

Absent: Directors McPartland, Saltzman, and Simon

President Dufty announced that the Board had concluded its closed session and that on Item No. 10 – C, Public Employee Employment/Appointment, the Board had voted unanimously 9-0 to appoint Robert Powers as the Interim General Manager at such time as General Manager Grace Crunican completes her service to the District.

The Meeting was adjourned at 2:35 p.m. in honor of Ernie Asten and Tony Santos.

Patricia K. Williams  
District Secretary

Sent: Friday, April 19, 2019 4:49 PM  
To: board\_BoardofDirectors <BoardofDirectors@bart.gov>  
Subject: BART Board of Directors Comment from Aleta Dupree

Secretary Williams, thank you, please forward this message to the full BART Board for the Regular Meeting of 25 April 2019.

Greetings again President Dufty and Members of the Board.

Aleta Dupree for the record.

Today I write to you with General Public Comment concerning BART related matters that are not on the posted Agenda.

First I write this. I was watching the video archive of the Meeting of 11 April, 2019, and during the General Manager's Report, I watched our GM, Grace Crunican, announce her retirement. I mention to you that I am indeed saddened by this.

I first met Grace when I attended and spoke at my first BART Board Meeting on 25 May, 2017, the same Meeting where Carlos Rojas was sworn in as Chief of Police, such was the first of many Meetings where I had a front row seat to the most important public Proceedings of BART business, and frequently conversed with you in Public Comment periods.

Grace has always been approachable and responsive to my concerns, an attentive listener, and generous with her time, we have met up in stations and ridden on trains together, discussing diverse subject matters.

Grace has indeed exemplified true leadership in this most challenging endeavor that is Public Transportation, and spoke on many subjects with reason and clarity, using understandable language. I always enjoy pulling up the archives of her brief and succinct GM reports when I am not present at Meetings to hear them in person.

Grace I think most of all in her time at BART has advanced the cause and conversation for making BART a welcoming System. For I am a person who does not particularly meet societally established definitions, but I am just as much a person. Grace has helped make BART a more welcoming system for all who set foot on Bay Area Soil.

I wish Grace the best in her retirement and future endeavors.

There are some Title VI matters which I can comment about in separate messages, briefly it is essential that we keep Clipper in mind as a means to advance equity for all of our patrons, especially in communities of concern.

Parking at BART facilities must not be Cash Only, but allow diverse options for payment.

As summer and warmer weather approaches it is essential to have a conscious mindset of energy costs, keeping demand spikes down, to keep a 40+ million dollar electric bill under control.

Be a voice in banking and electronic payments, especially as we approach a day when open source payment becomes commonplace.

Incentivize prepayment and Clipper website and auto loading.

And so it goes.

I leave you with this.

Be willing to think outside the box.

Be pragmatically futuristic in your mindset and decision making.

I look forward to attending a Meeting in person with you soon.

Thank you.

# Title VI Fare Equity Analysis

## BART Participation in the Metropolitan Transportation Commission's Regional Means-Based Transit Fare Discount Pilot Program

Appendix B: Pilot Program Public Participation Report	

## EXECUTIVE SUMMARY

### Background

This report analyzes a proposed fare change that would introduce a new fare type that offers a 20% discount per trip to regular BART fares for adult riders with incomes at or below 200% of the federal poverty level. The new fare type is the outcome of the Metropolitan Transportation Commission's (MTC) Regional Means-Based Fares (RMBF) Study, which had these objectives:

1. Make transit more affordable for Bay Area low-income residents.
2. Move towards a more consistent regional standard for fare discount policies.
3. Define a transit affordability solution that is financially viable and administratively feasible, and does not adversely affect the transit system's service levels and performance.

The new fare type would be offered through a regional means-based fares pilot program as overseen by MTC. On May 23, 2018, MTC approved the Means-Based Fare Discount Pilot Program Framework (Pilot Program), which was presented to the BART Board of Directors as an informational item on April 26, 2018. Pilot Program participants are BART, Caltrain, Golden Gate Transit (bus and ferry), and San Francisco Muni. The rider will use one card--a regional Clipper smart card--to receive a means-based fare discount when riding the services of either of the four operators mentioned above. This specially encoded Clipper card will be free to eligible low-income riders.

BART's proposed discount is 20% per trip to the regular fare. The table below shows the regular and means-based fares for a sample trip. BART's fares are in nickel increments, so the discounted fare is rounded down to the nearest nickel to ensure the rider gets at least a 20% discount. Fares will be unchanged for a low-income rider who elects not to utilize the discount.

Trip	Regular Clipper Fare	20% Discount Means-Based Clipper Fare
Pittsburg/Bay Point to Embarcadero	\$6.70	\$5.35 (rounded down to nickel)

The Pilot Program is expected to last between 12 and 18 months, and data gathered from it will be used to evaluate and determine the feasibility of a permanent program. As the proposed duration of the Pilot Program exceeds six months, to ensure compliance with federal and state civil rights regulations, including but not limited to Title VI of the Civil Rights Act of 1964 and applicable implementing guidance (FTA Title VI Circular 4702.1B, dated October 1, 2012), BART has performed this equity analysis using FTA-approved methodology to determine if minority and/or low-income riders are disproportionately more likely to use the new fare type and if such effects are adverse.

## Disproportionate Impact Findings

Chap. IV-19 of the FTA Title VI Circular requires that a data analysis include the following steps:

- i. Determine the number and percent of users of each fare media being changed;
- ii. Review fares before the change and after the change;
- iii. Compare the differences for each particular fare media between minority users and overall users; and
- iv. Compare the differences for each particular fare media between low-income users and overall users.

The impacts of a proposed fare change are evaluated by applying the District's Disparate Impact/Disproportionate Burden Policy (DI/DB Policy) adopted by the BART Board on July 11, 2013. For fare type changes, BART assesses whether protected riders are disproportionately more likely to use the affected fare type or media. Impacts are considered disproportionate when the difference between the affected fare type's protected ridership share and the overall system's protected ridership share is greater than 10%.

If a new fare type results in a disproportionate impact on minority and/or low-income riders, then BART may need to take additional steps to avoid, minimize, or mitigate disparate impacts. BART also performed the required outreach to receive public input from low-income, minority, and Limited English Proficient (LEP) populations, in accordance with its Public Participation Plan, and FTA Environmental Justice Circular 4703.1.

The 2018 BART Customer Satisfaction Survey data found that BART's overall ridership is 20.2% low-income. Every low-income rider is eligible to get the free Clipper card and receive the new benefit of a 20% discount on each BART trip. As the discount fare type would be available to all low-income riders, introduction of this new benefit would not place a disproportionate burden on BART's low-income riders.

The share of low-income riders who are minority is 81.5%, which is 17.0% more minority than BART's overall ridership of 64.5% (2018 Customer Satisfaction Survey). This difference exceeds the DI/DB Policy threshold of 10% for new fare types, which indicates that low-income riders are disproportionately minority. Therefore, minority riders who are low-income would be more likely to receive the benefit of the 20% discount on each trip, and so this new discounted fare type would not result in a disparate impact on minority riders.

Consistent with BART's Public Participation Plan, BART conducted outreach to inform the public and solicit feedback on the potential discount for low-income riders. More detailed information on the public outreach can be found in Appendix B.

An equity finding is made after considering both the fare change analysis results and public comments received. The equity finding of this report is that the new fare type will not

disproportionately impact minority or low-income riders. Therefore, the report concludes that the new fare type will not result in a disparate impact or disproportionate burden on minority riders or low-income riders, respectively.

## Section 1: Introduction

---

This report analyzes a proposed fare change that, through a pilot program, would offer a new benefit for low-income riders. Adult riders with incomes at or below 200% of the federal poverty level would be eligible to receive a new fare type: a free, specially encoded Clipper card that would give them a 20% discount per trip to regular BART fares. The new fare type is the outcome of the Metropolitan Transportation Commission's (MTC) Regional Means-Based Fares (RBMF) Study, which had these objectives:

1. Make transit more affordable for Bay Area low-income residents.
2. Move towards a more consistent regional standard for fare discount policies.
3. Define a transit affordability solution that is financially viable and administratively feasible, and does not adversely affect the transit system's service levels and performance.

The new fare type would be offered through a regional means-based fares pilot program as overseen by MTC. On May 23, 2018, MTC approved the Means-Based Fare Discount Pilot Program Framework, which was presented to the BART Board as an informational item on April 26, 2018. Pilot Program participants are BART, Caltrain, Golden Gate Transit (bus and ferry), and San Francisco Muni. The rider will use one card--the regional Clipper smart card--to receive a means-based fare discount when traveling on either of the four mentioned operators. This specially encoded Clipper card will be free to eligible low-income riders.

BART's proposed per-trip discount is 20% off of the regular fare. For example, a low-income rider who takes BART to work five days a week will get the fifth day of travel free. Table 1.1 below shows some sample trips taken with the regular fare and with a 20% low-income discount. BART's fares are in nickel increments, so discounted fares are rounded down to the nearest nickel to ensure the rider receives at least a 20% discount.

The fares would be unchanged for low-income riders who elect not to get the discount. Seniors and people with disabilities would continue to receive a discount of 62.5% and youths ages 5-18 a discount of 50%. The low-income discount cannot be combined with any other discount.

**Table 1.1**

Trip	Clipper Fare	
	Regular	20% Low-income Discount (rounded down to nearest nickel)
Pittsburg/Bay Point to Embarcadero	\$6.70	\$5.35
Downtown Berkeley to 12 <sup>th</sup> St/Oakland	\$2.00	\$1.60
Fremont to MacArthur	\$4.60	\$3.65

The Pilot Program is expected to last between 12 and 18 months, and data gathered from it will be used to evaluate and determine the feasibility of a permanent program. The proposed duration of the Pilot Program exceeds six months. Accordingly, to ensure compliance with federal and state civil rights regulations, including but not limited to Title VI of the Civil Rights Act of 1964 and applicable implementing guidance (FTA Title VI Circular 4702.1B, dated October 1, 2012), BART has performed an analysis using FTA-approved methodology to determine if minority and/or low-income riders are disproportionately more likely to use the new fare type and if such effects are adverse. This determination is made by applying the appropriate threshold from BART's Disparate Impact/Disproportionate Burden Policy (DI/DB Policy).

The next section of the report describes this analysis and determination. In addition, BART has undertaken public outreach to receive public input on the options from low-income, minority, and Limited English Proficient (LEP) populations, in accordance with BART's Public Participation Plan and FTA Environmental Justice Circular 4703.1. Summarized public outreach results are reported in Section 3 of this report and in the attached and more detailed Public Participation Report (Appendix B).

## Section 2: Minority Disparate Impact and Low-Income Disproportionate Burden Analysis

---

### 2.1 Assessing the Effects of a Fare Change

This section describes the data and methodology used to assess the effects of a fare change on minority and low-income riders, in accordance with the fare equity analysis procedures in FTA Title VI Circular 4702.1B.

Chap. IV-19 of the Circular requires that a data analysis include the following steps:

- v. Determine the number and percent of users of each fare media being changed;
- vi. Review fares before the change and after the change;
- vii. Compare the differences for each particular fare media between minority users and overall users; and
- viii. Compare the differences for each particular fare media between low-income users and overall users.

The impacts of a proposed fare change are evaluated by applying the DI/DB Policy adopted by the BART Board on July 11, 2013. For fare type changes, including new fare types, BART assesses whether protected riders are disproportionately more likely to use the affected fare type or media compared to overall riders systemwide, and if such effects are adverse. Impacts will be considered disproportionate when the difference between the affected fare type's protected ridership share and the overall system's protected ridership share is greater than 10%.

Should BART find that minority riders experience disparate impacts from the proposed change, BART should take steps to avoid, minimize, or mitigate disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority riders, pursuant to FTA Title VI Circular 4702.1B and BART's DI/DB Policy, BART can only proceed with the proposed fare change if BART can show that:

- A substantial legitimate justification for the proposed fare change exists; and
- There are no alternatives serving the same legitimate objectives that would have a less disparate impact on minority populations.

Should BART find that low-income riders experience a disproportionate burden from proposed fare changes, pursuant to FTA Title VI Circular 4702.1B and BART's DI/DB Policy, BART should take steps to avoid, minimize, or mitigate impacts where practicable. BART shall also describe alternatives available to low-income populations affected by fare changes.

Should BART find that a fare change results in a disproportionate impact on both minority and low-income riders, then BART shall follow the requirements as described above for addressing a finding of disparate impact on minority riders.

## 2.2 Methodology and Data Used

FTA Title VI Circular 4702.1B Chap. IV-19 states that an agency shall analyze any available information from ridership surveys when evaluating the effects of fare changes. The fare change under study is the introduction of a new fare type that provides a 20% discount to the fares of adult low-income riders, and the data and methodology used are described below.

### 2.2.1 Methodology

BART uses FTA-approved methodology to assess the effects of a fare type change. The methodology for fare type changes assesses whether protected riders are disproportionately more likely to use the affected fare type or media. Recent rider survey data are used to make this determination. In accordance with the DI/DB Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare type and the protected ridership of the overall system is greater than 10%.

### 2.2.2 Data Sources

#### A. 2018 BART Customer Satisfaction Survey

The BART Customer Satisfaction Survey provides data on BART's overall ridership. Conducted every other September, BART's Customer Satisfaction Survey allows BART to track trends in rider satisfaction, demographics, and BART usage across the system. The 2018 survey has a sample size of 5,113, including weekday peak, off-peak, and weekend riders. Survey data provides demographic information on BART riders' fare type and media usage. FTA Title VI Circular 4702.1B defines protected riders as anyone who describes themselves as minority or low-income.

For the 2018 Customer Satisfaction Survey, minority includes riders who are Asian, Hispanic (any race), Black/African American, American Indian/Alaskan Native, and Other (including multi-racial). Non-minority is defined as white. According to responses to the 2018 Customer Satisfaction Survey, 64.5% of BART riders are minority.

For the purposes of this analysis, low-income is defined as 200% of the federal poverty level. This broader definition is used to account for the region's higher cost of living when compared to other regions. This level is approximated by considering both the household size and household income of respondents to the 2018 Customer Satisfaction Survey. The household size and household income combinations that comprise "low-income" are as follows in Table 2-2:

**Table 2-2**

<b>LOW INCOME</b>	
<b>Household Size</b>	<b>Household Income</b>
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

For example, a household of two or more people with an income of \$33,000 would be considered low-income. According to 2018 Customer Satisfaction Survey responses, 20.2% of BART riders are considered low income.

The steps used to assess the effects of a change to a fare type are described in Appendix A.

**B. 2018 Survey for BART Participation in Regional Means-Based Fares Pilot Program**

This survey provides data on low-income BART riders. Note that as the purpose of this survey was to collect public input, it was open to everyone and was not based on a random sample. As such, these survey results cannot be projected to the overall population, and statistical calculations such as margins of error cannot be computed.

BART hosted three in-station outreach events (described in detail in the attached Public Participation Report) to survey BART riders on the potential 20% discount for qualifying low-income riders. An online survey link ([www.bart.gov/discountsurvey](http://www.bart.gov/discountsurvey)) was also available and advertised through multi-lingual newspaper ads, BART social media, BART’s electronic Destination Signage System (DSS), and postcards handed out at the in-station outreach events throughout the survey response period (December 4-December 31, 2018). A \$120 Clipper card was offered as a prize in a drawing for those who completed either an online or paper survey.

The survey and outreach aimed to reach low-income riders who were most likely to be impacted and to benefit from the low-income discount. BART received 3,708 responses to this survey, of which 3,530 indicated their income status. Of that number, 1,233 survey takers, or 35%, identified themselves as low-income.

**2.3 Analysis Results**

**2.3.1 2018 Survey for BART Participation in Regional Means-Based Fares Pilot Program Results**

Table 2.2 is a summary of the survey results from the outreach conducted in December 2018:

**Table 2-2 Survey Demographic Summary: All Respondents (N=3708)**

<b>Minority Status</b>	<b>96% of all survey respondents answered this question</b>	<b>Sample Size</b>
Minority	57%	2028
Non-Minority	43%	1533
<b>Total responses</b>		<b>3561</b>
<b>Ethnicity</b>	<b>96% of all survey respondents answered this question</b>	<b>Sample Size</b>
White	43%	1533
Black/African American	7%	245
Asian or Pacific Islander	19%	697
Hispanic, Latino, or Spanish Origin	22%	792
Other, non-Hispanic	3%	95
Multi-racial	5%	170
American Indian	1%	28
<b>Total responses</b>		<b>3560</b>
<b>Low income Status**</b>	<b>95% of all survey respondents answered this question</b>	<b>Sample Size</b>
Low-income	35%	1233
Not low-income	65%	2297
<b>Total responses</b>		<b>3530</b>
<b>Annual Household income</b>	<b>95% of all survey respondents answered this question</b>	<b>Sample Size</b>
Under \$25,000	23%	797
\$25,000 - \$34,999	10%	364
\$35,000 - \$39,999	5%	194
\$40,000 - \$49,999	8%	275
\$50,000 - \$59,999	8%	293
\$60,000 - \$74,999	9%	312
\$75,000 - \$99,999	10%	340
\$100,000 or more	27%	962
<b>Total responses</b>		<b>3537</b>
<b>How well is English spoken?</b>	<b>28% of all survey respondents answered this question</b>	<b>Sample Size</b>
Very well	85%	898
Well	11%	112
Not well	3%	33
Not at all	1%	6
<b>Total responses</b>		<b>1049</b>

\*Note: due to rounding, percentages may not add up to 100%, sample size dependent upon the number of respondents that answered each survey question. Not all questions were answered on many surveys.

\*\*Low-income and non low-income percentages factor in both household size and annual household income, so this sample size includes only respondents that answered both of these survey questions.

### 2.3.2 Minority Disparate Impact and Low-Income Disproportionate Burden Analyses and Findings

Pursuant to FTA Title VI Circular 4702.1B, dated October 1, 2012, BART is to perform an analysis of any fare change to determine if the change disproportionately impacts minority and/or low-income riders. In accordance with the Circular, BART is to make this determination by comparing the analysis results against the appropriate threshold defined in BART’s DI/DB Policy. This section applies BART’s DI/DB Policy threshold to the survey data described in the previous section.

The proposed fare change is to offer a 20% discount per trip to BART’s low-income riders using a free, specially encoded Clipper card. This is a fare type change, and so BART assesses whether protected riders are disproportionately more likely to use the affected fare type or media, and if such effects are adverse. In accordance with the DI/DB Policy, impacts will be considered disproportionate when the difference between the affected fare type’s protected ridership share and the overall system’s protected ridership share is greater than 10%.

As the table below shows, 2018 Customer Satisfaction Survey data indicate that BART’s overall ridership is 20.2% low-income. Every low-income rider is eligible to get the free Clipper card and receive the new benefit of a 20% discount on each BART trip. As the discount fare type would be available to all low-income riders, introduction of this new benefit would not place a disproportionate burden on BART’s low-income riders.

**Table 2-3**

	Low-Income	Non Low-Income		Sample Size
All Riders	20.2%	79.8%	100.0%	4,649

The next table shows 2018 Customer Satisfaction Survey data for all minority riders and low-income riders who identify as minority.

**Table 2-4**

	Minority	Non-Minority		Sample Size
All Riders	64.5%	35.5%	100.0%	5,113
Low-Income Riders	81.5%	18.5%	100.0%	1,067
<b><i>Difference from all Riders</i></b>	<b>17.0%</b>	<b>-17.0%</b>	--	--

This data shows that the share of low-income riders who are minority is 81.5%, which is 17.0% more minority than BART’s overall ridership. This difference exceeds the DI/DB Policy threshold of 10% for new fare types, which indicates that low-income riders are disproportionately minority. Therefore, minority riders who are low-income would be more

likely to receive the benefit of the 20% discount on each trip, and so this new discounted fare type would not result in a disparate impact on minority riders.

### 2.3.3 Summary of Disproportionate Impact Test Results

The table below summarizes the results of the minority disparate impact analysis and low-income disproportionate burden analysis. There is projected to be no disparate impact on minority riders and no disproportionate burden on low-income riders.

**Table 2-4: Disproportionate Impact New Fare Type Test Result Summary**

	Minority Riders	Low-Income Riders
Low-Income Fare Discount	No Disparate Impact	No Disproportionate Burden

## 2.4 Alternatives Available for People Affected by Fare Change

This section analyzes alternative transit modes, fare payment types, and fare payment media available for riders who could be affected by the fare change, the introduction of a fare type that gives a 20% discount to low-income riders, being analyzed. The section also includes a demographic profile of users by BART fare payment type.

### 2.4.1 Alternative Transit Modes including Fare Payment Types

BART operates a heavy rail system and an automated people mover that links the BART Coliseum Station and Oakland International Airport. There are four major operators in the BART service area that provide service parallel to some segments of the BART system:

- AC Transit: Bus operator with service in Alameda County and parts of Contra Costa County, and between parts of Alameda County and downtown San Francisco.
- Caltrain: Commuter rail with service from Gilroy in the South Bay through to downtown San Francisco.
- SamTrans: Bus operator with service in San Mateo County.
- San Francisco Muni: Bus and light rail operator serving the City and County of San Francisco.

Table 2.5 below compares BART fares and the fares of operators providing service in parts of the BART service area. The proposed low-income fares of Caltrain and San Francisco Muni as participants in MTC’s RMBF Program are included.

In comparing the other operators’ fares to BART fares, the local cash fares of the other operators are higher than BART’s minimum fare. BART’s proposed low-income fare is lower than Caltrain’s 20% discounted fare, but higher than San Francisco Muni’s 50% discounted fare. A rider on other transit systems would need to use their respective agency monthly pass a given number of times in order for the pass to be less expensive than BART’s low-income discounted minimum one-way fare, as shown in Table 2-5.

Table 2-5

	Current Local Minimum Clipper Fare	Proposed Low- Income Clipper Fare	Low-income Discount	Monthly Pass Price
<b>BART</b>				
	\$2.00	\$1.60	20%	n/a
<b>Other Operator Fares</b>				
<b>AC Transit</b>	\$2.25	n/a	n/a	\$84.60
<b>Caltrain</b>	\$3.20	\$2.56	20%	\$96.00
<b>SamTrans</b>	\$2.05	n/a	n/a	\$65.60
<b>San Francisco Muni</b>	\$2.50	\$1.25	50%	\$39.00*

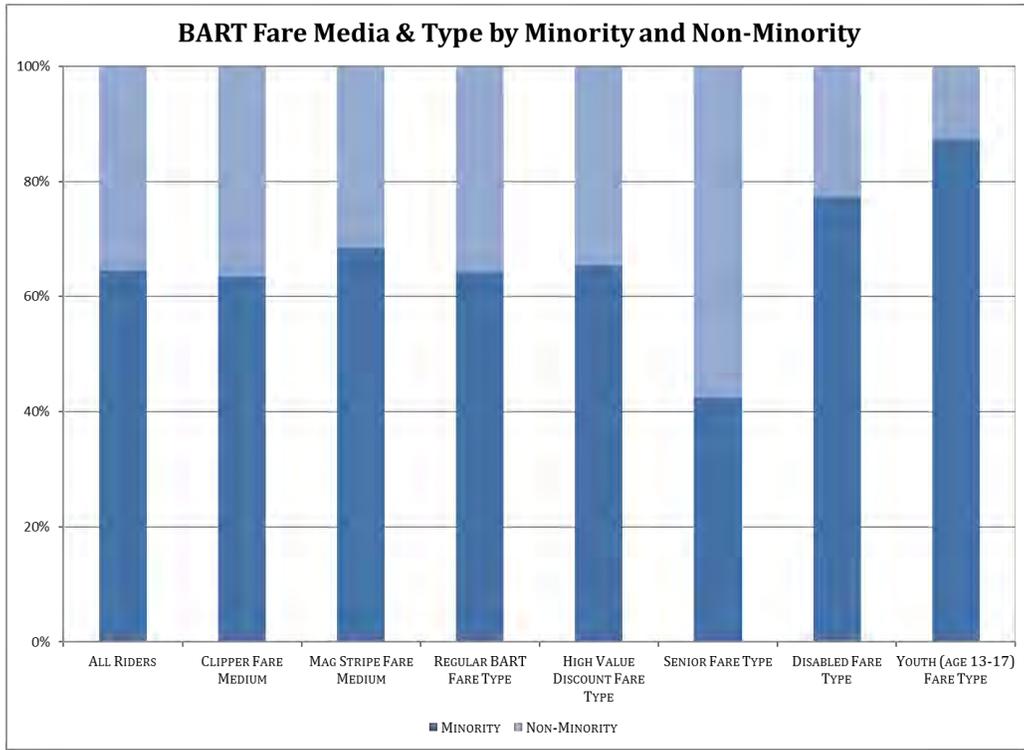

\*SFMTA Lifeline Pass for limited-income riders.

*2.4.2 BART Fare Payment Types, Fare Payment Media and Payment Method by Protected Group*

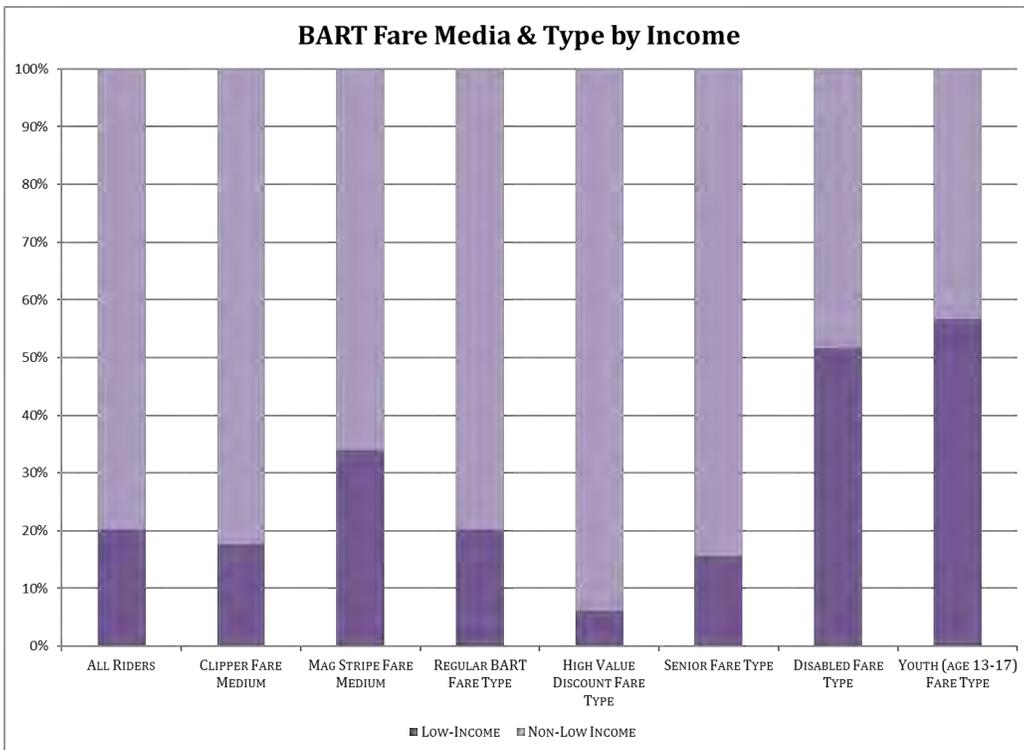

Tables 2-6 and 2-7 on the next page show the demographic profiles of users of BART’s fare media--Clipper and magnetic stripe tickets--and fare types from the 2018 Customer Satisfaction Survey data. Although BART offers the youth discount to riders age five through 18, BART does not survey riders under the age of 13. Thus the demographics for the youth fare discount type are from the survey’s age grouping of 13 through 17 year-old riders; demographics for 18-year-old riders are not included because they are part of the survey’s next age category of 18 through 24.

Each bar in the charts is made up of the protected and nonprotected percentages of riders who use that fare media or fare type, which together add up to 100%. Table 2-6 shows that the percentages of minority riders using Clipper and magnetic stripe tickets are very similar to BART’s overall percentage of minority ridership; data also indicates that minorities use the disabled and youth fare types more and the senior fare type less when compared to overall minority ridership. Table 2-7, on the other hand, shows that a higher percentage of low-income riders use magnetic stripe tickets compared to the overall percentage of low-income ridership; data also indicates that low-income riders use the disabled and youth fare types more when compared to overall low-income ridership, but the high-value discount fare type less.

**Table 2-6**

**Table 2-7**

## Section 3: Public Participation

---

Consistent with BART's Public Participation Plan, BART conducted outreach to inform the public and solicit feedback on the potential discount for low-income riders.

### 3.1 Process for Soliciting Public Input

BART hosted a series of in-station outreach events with information tables where staff could speak directly with riders about the proposed RMBF Pilot and any potential effects it may have on low-income and/or minority riders. At the outreach events, the public had the opportunity to interact with BART staff regarding the proposed discount amount, BART's current fare structure, eligibility requirements to receive the discount, and any concerns they had related to program implementation.

The public was also able to read information provided by MTC about the proposed pilot program, and complete a BART survey in person. Riders who did not have time to complete the survey on-site were handed informational double-sided postcards that had English on one side, Spanish and Chinese on the other, with the hyperlink for the online survey: [www.bart.gov/discountsurvey](http://www.bart.gov/discountsurvey). The postcards included additional taglines for language assistance in Tagalog, Vietnamese, and Korean.<sup>1</sup>

The survey period began Tuesday, December 4, 2018 and ended Monday, December 31, 2018. Digital and hardcopy surveys were made available to riders in English, Spanish, and Chinese. A \$120 Clipper card was offered as a prize in a drawing for those who completed either an online or paper survey. More detailed information on the public input process and copies of the survey and postcard distributed to riders unable to complete the survey during the outreach event is included in the attached Public Participation Report (Appendix B).

### 3.2 Survey Response Demographics

The outreach resulted in a total of 3,708 surveys completed. Of this, 3,530 respondents indicated their income status, with 1,233, or 35%, being low-income. 3,561 respondents indicated their minority status, with 2,028, or 57%, being minority.

### 3.3 Public Comments

Most respondents, both low-income and non low-income, were supportive of the RMBF Pilot Program. While some believed that the discount should be more than 20%, any discount was better than no discount. The topic of fare evasion spanned all categories, showing that it is a concern for most BART riders, regardless of whether they supported or did not support

---

<sup>1</sup> Spanish, Chinese, Tagalog, Vietnamese and Korean are the top five languages in BART's four-county service area (BART Title VI Language Assistance Plan, January 2017).

the Pilot Program. More detailed information on the demographics of respondents and the public comments can be found in the attached Public Participation Report (Appendix B).

## Section 4: Equity Findings

---

This section provides equity findings for the implementation of a low-income discount. An equity finding is made after considering both the fare change analysis results described in Section 2, as well as public comment received, as described in Section 3 and in greater detail in the attached Public Participation Report (Appendix B).

### 4.1 Minority Disparate Impact and Low-Income Disproportionate Burden Finding

Low-income riders are disproportionately minority and so would be more likely to receive the benefit of the 20% discount on each trip, and so this new discounted fare type would not result in a disparate impact on minority riders. Every low-income rider is eligible to get the free Clipper card and receive the new benefit of a 20% discount on each BART trip. As the discount fare type would be available to all low-income riders, introduction of this new benefit would not place a disproportionate burden on BART's low-income riders.

### 4.2 Equity Finding Conclusion

Public input received also overwhelmingly supports offering the low-income discount. The equity finding of this report is that the new fare type is not projected to disproportionately impact minority or low-income riders. Therefore, the report concludes that the new fare type will not result in a disparate impact or disproportionate burden on minority riders or low-income riders, respectively.

# Appendix A

---

## Methodology Used to Assess the Adverse Effects of a Fare Type Change

The methodology for fare type changes assesses whether protected riders are disproportionately more likely to use the affected fare type or media. Recent rider survey data are used to make this determination. When the survey sample size of the ridership for the affected fare type is too small to permit a determination of statistical significance, BART collects additional data. In accordance with the Disparate Impact/Disproportionate Burden Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare type and the protected ridership of the overall system is greater than 10%.

The table below shows the data by fare type for protected and non-protected riders from the 2018 Customer Satisfaction Survey. As an example, increasing fares for the fare type used by riders with disabilities would be considered to have a disproportionate impact because the use of the “disabled” fare type by low-income riders compared to overall low-income riders exceeds the Policy threshold of 10%.

	Minority	Non-Minority	Sample Size <sup>1</sup>	Low-Income	Non-Low Income	Sample Size <sup>1</sup>
<b>All Riders</b>	<b>64.5%</b>	<b>35.5%</b>	<b>5,113</b>	<b>20.2%</b>	<b>79.8%</b>	<b>4,649</b>
<b>Regular BART fare</b>	<b>64.3%</b>	<b>35.7%</b>	<b>3,935</b>	<b>20.9%</b>	<b>79.1%</b>	<b>3,601</b>
<i>Difference from All Riders</i>	<i>-0.2%</i>			<i>0.7%</i>		
<b>High Value Discount</b>	<b>65.4%</b>	<b>34.6%</b>	<b>553</b>	<b>6.2%</b>	<b>93.8%</b>	<b>502</b>
<i>Difference from All Riders</i>	<i>0.9%</i>			<i>-14.0%</i>		
<b>"A" Muni Fast Pass</b>	<b>70.6%</b>	<b>29.4%</b>	<b>77</b>	<b>26.8%</b>	<b>73.2%</b>	<b>73</b>
<i>Difference from All Riders</i>	<i>6.1%</i>			<i>6.6%</i>		
<b>Senior</b>	<b>42.5%</b>	<b>57.5%</b>	<b>246</b>	<b>15.6%</b>	<b>84.4%</b>	<b>82</b>
<i>Difference from All Riders</i>	<i>-22.0%</i>			<i>-4.6%</i>		
<b>Disabled</b>	<b>77.3%</b>	<b>22.7%</b>	<b>93</b>	<b>51.6%</b>	<b>48.4%</b>	<b>82</b>
<i>Difference from All Riders</i>	<i>12.8%</i>			<i>31.4%</i>		
<b>Youth (age13-17; under 13 not surveyed)</b>	<b>87.3%</b>	<b>12.7%</b>	<b>69</b>	<b>56.7%</b>	<b>43.3%</b>	<b>50</b>
<i>Difference from All Riders</i>	<i>22.8%</i>			<i>36.5%</i>

# Section 1: Public Participation Purpose

---

## 1.1 Purpose

Pursuant to FTA Circular 4702.1B (October 2012), BART conducted outreach to provide the public with information about the Metropolitan Transportation Commission's (MTC) proposed Regional Means-Based Fares (RMBF) Pilot Program (Pilot Program), and to solicit rider feedback about BART's proposed participation in this program. A key component of Title VI outreach is to seek input on fare changes inclusive of minority, low-income, and limited English proficient (LEP) populations. BART used established information outlets to engage the stakeholders who would be directly affected by the fare changes under consideration. By doing so, BART ensures consistency with its Public Participation Plan (2011) as well as ensures efficiency in communication with community members.

Through the Pilot Program, BART would offer a new benefit for low-income riders. Adult riders with incomes at or below 200% of the federal poverty level would be eligible to receive a new fare type: a free, specially encoded Clipper card that would give them a 20% discount per trip to regular BART fares. For example, a low-income rider who takes BART to work five days a week will get the fifth day of travel free when using the discount.

The District is required to conduct a Title VI Fare Equity Analysis (Title VI Equity Analysis) any time there is a proposed change to BART's fares. Accordingly, staff completed a Title VI Equity Analysis to determine if BART's participation in the proposed Pilot Program would result in a disparate impact on minority riders or a disproportionate burden on low-income riders.

The next sections describe the outreach and community engagement conducted by BART staff. All comments in this report have been transcribed as written by the respondent with the redacting of any profanity and personal identifying information.

# Section 2: Public Participation Process

## 2.1 Outreach Events

BART hosted a series of in-station outreach events with information tables where staff could speak directly with riders about the proposed Pilot Program and any potential effects it may have on low-income and/or minority riders. At the outreach events, the public had the opportunity to interact with BART staff regarding the proposed discount amount, BART’s current fare structure, eligibility requirements to receive the discount, and any concerns they had related to program implementation.

The public was also able to read information provided by MTC about the proposed Pilot Program (Appendix PP-F), and complete a BART survey in person. Riders who did not have time to complete the survey on-site were handed informational double-sided postcards that had English on one side, Spanish and Chinese on the other, with the hyperlink for the online survey: [www.bart.gov/discountsurvey](http://www.bart.gov/discountsurvey). The postcard included additional taglines for language assistance in Tagalog, Vietnamese, and Korean.<sup>1</sup>

The survey period began Tuesday, December 4, 2018 and ended Monday, December 31, 2018. Digital and hardcopy surveys were made available to riders in English, Spanish, and Chinese. A copy of all versions of the survey is provided in Appendix PP-B. Appendix PP-C provides a copy of the postcard distributed to riders unable to complete the survey during the outreach event. An incentive of a \$120 Clipper card was offered as a prize in a drawing for those who completed either an online or paper survey.

BART sought public input on the proposed Pilot Program at outreach events at Pittsburg/Bay Point, Coliseum, and the 16th Street Mission BART stations on the following dates and times:

**Table 2-1: Outreach Locations, Dates, and Times**

Location	Date	Time
<b>Pittsburg/Bay Point Station</b>	Wednesday, December 12, 2018	7am-10am
<b>Coliseum Station</b>	Thursday, December 13, 2018	6pm-9pm
<b>16th Street Mission Station</b>	Tuesday, December 18, 2018	7am-10am

Based on a demographic and frequency of contacts at stations analysis, interpreters were placed as necessary at specific stations, as shown below.

**Table 2-2: Interpreters**

Location	Interpreter
<b>Pittsburg/Bay Point Station</b>	Spanish
<b>Coliseum Station</b>	Spanish
<b>16th Street Mission Station</b>	Spanish

<sup>1</sup> Spanish, Chinese, Tagalog, Vietnamese and Korean are the top five languages in BART’s four-county service area (BART Title VI Language Assistance Plan, January 2017).

### Coliseum Station Outreach: December 13, 2018

## 2.2 Publicity

Publicity for the outreach events was conducted through print and social media. BART staff worked to ensure all available information related to the Pilot Program and survey was available to riders in multiple languages. The following is how BART advertised the upcoming outreach events and survey link.

### 2.2.1 Multilingual Newspaper Ads

Multilingual newspaper/media ad placements with readership covering BART's four-county service area were placed prior to and during outreach. The ads ran one to two times (depending on the newspaper's publication schedule) and advertised the upcoming in-station outreach events and a link to the BART survey. The following are the newspaper publications where ads were placed. Copies of some of the ads can be found in Appendix PP-D.

- La Opinión de la Bahía (Spanish)
- Viet Nam Daily News (Vietnamese)
- Korean Times & Daily News (Korean)
- Sing Tao (Chinese)
- World Journal (Chinese)

### 2.2.2 Social Media

In partnership with the Metropolitan Transportation Commission (MTC), BART staff developed and posted all pertinent information regarding the Pilot Program via Twitter and BART.gov. The posts were uploaded Wednesday, December 5, 2018 and ran through the close of the survey period (Monday, December 31, 2018). Sample posts are included in Appendix PP-E for reference.

### *2.2.3 Electronic Destination Sign System*

On all BART station platforms, there are multiple electronic destination signs (DSS) that inform riders of train arrivals and display other important information BART needs to communicate. Throughout the survey period (December 4-31, 2018), the DSS regularly displayed the [www.bart.gov/discountsurvey](http://www.bart.gov/discountsurvey) link to alert riders to take the survey.

### *2.2.4 Community-Based Organization Outreach*

To ensure that data was collected from a wide range of minority, low-income, and limited English proficient (LEP) populations, staff emailed information about the RMBF program and the survey link to 415 community-based organizations in Alameda, Contra Costa, San Francisco, and San Mateo counties. The list of organizations came from BART's Government and Community Relations and Office of Civil Rights community-based organizations database. Staff additionally emailed information and the survey link to contacts at community colleges for their assistance in publicizing the outreach events and survey link to students.

### *2.2.5 BART Advisory Committees*

BART also distributed information on the outreach events, survey link, copies and hardcopies of the survey in English, Spanish, and Chinese to the Title VI/Environmental Justice and Limited English Proficiency Advisory Committees to distribute to the communities that they serve. For more information on the BART Advisory Committees' input, please see section 2.4.

## **2.3 Focus Group Sponsored by the Metropolitan Transportation Commission**

As part of MTC's framework for branding and development of the Pilot Program, a focus group was hosted at Focus Pointe Global in San Francisco on Thursday, December 6, 2018. Ten public transportation riders from across the Bay Area were selected by Focus Pointe and MTC to participate and provide feedback about the Pilot Program. The riders chosen were selected based on their frequency of transit use (regular riders), eligibility for the program, and usage of one of the participating transit agencies. All agencies participating in the program (BART, Caltrain, Golden Gate Transit, and San Francisco Muni) were invited to attend and observe the riders' feedback about the program.

Participants' overall reactions to the Pilot Program were positive. Most participants expressed excitement, with all of them agreeing it would be a great benefit to low-income riders. Two participants questioned whether or not the program was sustainable given that it results in lost revenue for the transit agencies. Four participants questioned whether or not the agencies' discounts did enough for low-income populations. One participant wanted to know if the discount could be combined with other existing discounts, e.g. for seniors, people with disabilities, and youth. The overall sentiment was one of agreement with the program. The views expressed in the focus group were similar to the overall input from respondents to the BART survey on the Pilot Program.

## **2.4 Title VI/Environmental Justice and Limited English Proficiency Advisory Committees**

MTC staff presented a preliminary overview of the Pilot Program to BART's Title VI/Environmental Justice (EJ) and Limited English Proficiency (LEP) Advisory Committees. The joint meeting was held

Tuesday, December 11, 2018 from 10:30AM – 1PM at the BART Board Room, Kaiser Center 20<sup>th</sup> Street Mall (2040 Webster Street), Oakland, California. The meeting was open to the public and the agenda was noticed at least 72 hours in advance of the meeting.

The Title VI/EJ Advisory Committee consists of members of CBOs and ensures that the District is taking reasonable steps to incorporate Title VI and EJ Policy principles in its transportation decisions. The LEP Advisory Committee, which also consists of members of CBOs, assist in the development of the District's language assistance measures and provide input on how the District can provide programs and services to customers, regardless of language ability.

At the meeting, committee members showed strong support for the program. Some mentioned that they appreciated staff's efforts in the program development. The committee members also offered suggestions on how to complete more robust outreach, specifically by reaching out to local workforce and employment development offices to try to reach unemployed populations. Suggestions were also made for MTC to partner with CBOs in addition with the proposed third-party verifier to help streamline the verification process. The members also expressed concerns about reaching out to the homeless populations who frequent BART. MTC staff expressed that the homeless population was also a part of their target outreach demographic and that plans were in development to reach them specifically through case-management efforts.

Committee members were e-mailed copies of the survey in English, Spanish and Chinese, a copy of the postcard, and were also provided the survey link to distribute to their communities. Committee members can also request hardcopies of the survey. One member made this request and copies of the survey in multiple languages were mailed to this CBO to ensure everyone was afforded the opportunity to take the survey.

MTC staff also plans to have a follow-up meeting with the Advisory Committees to discuss additional program details once they are available.

# Section 3: Outreach Results

---

## 3.1 Surveys Collected

BART’s public outreach efforts resulted in three thousand seven hundred eight (3,708) surveys received. Nearly 98% of all surveys received during the open survey period were obtained online. Public outreach at BART’s 16th Street Mission Station resulted in the most hardcopy surveys received (46). Table 3-1 provides the breakdown of where and how many surveys were received.

**Table 3-1**

Location	No. of Surveys Collected
Pittsburg/Bay Point Station	6
Coliseum Station	14
16th Street Mission Station	46
Community-Based Organizations	9
Online	3,633
<b>Total Surveys Received</b>	<b>3,708</b>

## 3.2 Survey Demographic Data

Table 3-3 provides a demographic breakdown of all survey respondents. Table 3-4 provides a demographic breakdown of all low-income riders, those who are potentially eligible for this program.

### 3.2.1 Minority

A “non-minority” classification refers to those respondents who self-identified as “white.” A “minority” classification includes the combined responses from all other races or ethnic identities including those identifying as multi-racial.

### 3.2.2 Income

Consistent with BART’s Title VI Triennial Program standards, low-income is defined as 200% of the federal poverty level. This broader definition is used to account for the region’s higher cost of living when compared to other regions. This level is approximated by considering both the household size and household income of respondents to the 2018 Customer Satisfaction Survey. The household size and household income combinations that comprise “low-income” are as follows:

**Table 3.2**

<b>LOW INCOME</b>	
<b>Household Size</b>	<b>Household Income</b>
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

For example, a household of two or more people with an income of \$33,000 would be considered low-income. According to 2018 Customer Satisfaction Survey responses, 20.2% of BART riders are considered low income.

**Table 3-3 Survey Demographic Summary: All Respondents (N=3708)**

<b>Minority Status</b>	<b>96% of all survey respondents answered this question</b>	<b>Sample Size</b>
Minority	57%	2028
Non-Minority	43%	1533
<b>Total responses</b>		<b>3561</b>
<b>Ethnicity</b>	<b>96% of all survey respondents answered this question</b>	<b>Sample Size</b>
White	43%	1533
Black/African American	7%	245
Asian or Pacific Islander	19%	697

Under \$25,000	65%	797
\$25,000 - \$34,999	19%	241
\$35,000 - \$39,999	7%	84
\$40,000 - \$49,999	6%	73
\$50,000 - \$59,999	3%	38
<b>Total responses</b>		<b>1233</b>
How well is English spoken?	39% of low-income survey respondents answered this question	Sample Size
Very well	82%	391
Well	12%	56
Not well	5%	26
Not at all	1%	6
<b>Total responses</b>		<b>479</b>

\*Note: due to rounding, percentages may not add up to 100%, sample size dependent upon the number of respondents that answered each survey question. Not all questions were answered on many surveys.

\*\*Low-income and non low-income percentages factor in both household size and annual household income, so this sample size includes only respondents that answered both of these survey questions.

### 3.3 Low-Income Rider Program Benefits

As described in Section 3.2, 1,233 or 35% of survey respondents are identified as low-income riders. The survey sought to answer two important questions about the proposed Pilot Program.

1. How many low-income riders currently do not receive some form of discount?
2. How many low-income riders would ride more if they received a discount?

#### 3.3.1 Current Type of Fare Paid by Low-Income Riders

Question 3 of the Low-Income Discount Survey asked the following:

**What type of fare do you usually pay when you ride BART?**

- Option 1. Regular BART fare (no discount)
- Option 2. High Value Discount (\$48 or \$64 value)
- Option 3. Muni Fast Pass
- Option 4. Senior Discount
- Disabled Discount
- Option 5. Youth Discount
- Option 6. Other Discount: \_\_\_\_\_

Table 3.5 provides data on responses to question 3 by low-income riders.

**Table 3-5: Current Fare Type**

Fare Type	Number of Respondents Paying	% of Total
Regular BART fare (no discount)	1017	83%
Disabled discount	69	6%
High Value Discount (\$48 or \$64 value)	59	5%
Senior discount	27	2%
Other discount	23	2%
Youth discount	23	2%
Muni Fast Pass	13	1%
<b>Total</b>	<b>1231</b>	<b>100%</b>

Of these low-income respondents, the great majority--89%--could benefit from the 20% discount because they currently pay the "Regular BART fare (no discount)," receive the 6.25% "High Value Discount (\$48 or \$64)," or use the "Muni Fast Pass" (the discount level of which depends on the number of trips the rider takes per month). Low-income riders paying the senior or disabled discounted fare already receive a greater discount at 62.5% and, although the Pilot Program is for adults, it is worth noting that youth riders get a 50% discount.<sup>2</sup>

<sup>2</sup> The low-income discount cannot be combined with any other discount.

### ***3.3.2 Potential Increase in Low-Income Tripmaking***

Question 4 of the Low-Income Discount Survey asked the following:

**If you received a 20% discount off of regular BART fares, do you think you would ride BART more often?**

- Option 1. Yes, I would ride BART more if I received a 20% discount
- Option 2. No, this discount would not change how often I ride BART
- Option 3. Don't know

Question 4 had answers from 1,231 low-income riders, of whom 87% or 1,073 selected Option 1, stating they would ride more with the discount. This result underscores the benefits of the Pilot Program as almost 90% of low-income rider respondents could make more trips with the discount. The remaining 13% of these riders would not ride more often or didn't know how the discount would affect them.

# Section 4: Public Comments

## 4.1 Overview

By reaching out to the public via in-station events, Title VI/Environmental Justice and Limited English Proficiency Advisory Committees meetings, social media posts, and community-based organization solicitation, BART received 3,708 survey responses. Of this total, 2,119 or 57% chose to respond to Question 5 by writing comments. All comments have been categorized, sorted, and color-coded by general theme in Appendix PP-2.

## 4.2 Public Comment Grouping Analysis: Methodology

While comments can be generally categorized and reviewed for popular themes, they should not be analyzed numerically as doing so would give undue weight to the more subjective feedback solicited from respondents. Categorizing the comments, however, provides a general indication of the points the public outreach participants choosing to comment wished to communicate. The four categories in which the comments are grouped are as follows:

1. Support (Unconditional)
2. Support (Conditional)
3. Don't Support
4. Miscellaneous

BART staff reviewed all comments and placed each into one of the above categories. "Support (Unconditional)" comments are those where riders made it clear they wanted to see the program implemented. "Support (Conditional)" comments indicate some level of support but often with caveats. Comments are in the "Don't Support" category when it can easily be determined the respondent did not wish the program to move forward. "Miscellaneous" comments are those that do not directly address the proposed low-income discount program. There were 66 miscellaneous comments that have been removed from the overall calculation of comment percentages. The next sections provide sample comments from each category.

## 4.3 Support (Unconditional) Comment Overview

Support (Unconditional) comments express full support for the program. Table 4-1 provides a breakdown of all comments categorized as supporting the program unconditionally.

**Table 4-1 Support (Unconditional) Summary of Responses**

	Number of Support (Unconditional) Commenters	Total Number of Commenters	Percentage of Support (Unconditional)
<b>Non Low-Income</b>	827	1358	61%
<b>Low-Income*</b>	447	594	75%
<b>Unknown Income**</b>	47	101	47%
<b>Total</b>	<b>1321</b>	<b>2053</b>	<b>64%</b>

\*Low-income commenters are highlighted as they are the riders who are eligible for the Pilot Program.

\*\*Unknown income respondents are those who provided comment but did not provide complete income information.

Examples of the comment category Support (Unconditional) are as follows:

#### 4.3.1 Low-Income Respondents

- *BART rates disproportionately affect low-income riders. Please create this program!!!!*
- *I strongly believe that a BART discount for low-income riders is highly needed. Public transportation fees are rising and it can be difficult to cover costs in the bay area for transportation.*

#### 4.3.2 Non Low-Income Respondents

- *I don't need it, but please make it available to those who do.*
- *I think it is a fantastic idea! I would be happy if my tax money contributed to a program like this, I think it is great for income equality in the Bay Area and would support the economy in countless ways. With this program, BART has the opportunity to be a pioneer and set a positive example for other transit systems across the country.*

As shown above, 1,321 commenters, or 64% of all commenters, unconditionally support the Pilot Program. Of commenters who are low-income, 75% support the program unconditionally.

### 4.4 Support (Conditional) Comment Overview

Comments categorized as supporting the program but with caveats are categorized as Support (Conditional). Table 4-2 shows the breakdown of how many individuals conditionally support the program using the established methodology.

**Table 4-2: Support (Conditional) Summary of Responses**

	Number of Support (Conditional) Commenters	Total Number of Commenters	Percentage of Support (Conditional)
<b>Non Low-Income</b>	316	1358	23%
<b>Low-Income</b>	126	594	21%
<b>Unknown Income</b>	27	101	27%
<b>Total</b>	<b>469</b>	<b>2053</b>	<b>23%</b>

\*Low-income commenters are highlighted as they are the riders who are eligible for the Pilot Program.

\*\*Unknown income respondents are those who provided comment but did not provide complete income information.

The following are examples of comments in this category:

#### 4.4.1 Low-Income Respondents

- *20% isn't enough. It should be 50%*
- *Great concept... need more trains and better reliability... already over-capacity during peak hours...*

#### 4.4.2 Non Low-Income Respondents

- *It seems like your income threshold is too low. It should be higher. Theoretically anyone earning minimum wage and lower should be eligible. The Bay Area is insanely costly to survive in and*

*while this program can go a long way to retain our most vulnerable residents, let's make it truly effective and wide-reaching*

- *It would be great if Bart was able to give a larger discount to low income families. Also discounts on connecting bus rides.*

Of the 2,053 comments received, 469 are categorized as Support (Conditional), which is approximately 23% of all survey respondents who chose to comment. Of the commenters who are low-income, a similar percentage, 21%, expressed conditional support of the Pilot Program.

## 4.5 Don't Support Comment Overview

The Don't Support category captures all comments where the respondent expresses some form of objection to the program. Table 4-3 shows a breakdown of how many commenters did not support the program by income category.

**Table 4-3: Don't Support Summary of Responses**

	Number of Don't Support Commenters	Total Number of Commenters	Percentage of Don't Support
<b>Non Low-Income</b>	215	1358	16%
<b>Low-Income</b>	21	594	4%
<b>Unknown Income</b>	27	101	27%
<b>Total</b>	263	2053	<b>13%</b>

\*Low-income commenters are highlighted as they are the riders who are eligible for the Pilot Program.

\*\*Unknown income respondents are those who provided comment but did not provide complete income information.

Examples of unsupportive comments are as follows:

### 4.5.1 Low-Income Respondents

- *While this proposal is motivated by good intentions, BART should not decrease revenues via a discount program. Transit is already terribly underfunded in America compared to other developed countries. BART needs every cent it can get from its riders. I believe BART should be fiscally responsible so it can focus on improving the service it provides to all its riders via increased investment in new cars, repairs, funding a 2nd Transbay crossing, Transit oriented housing development, etc. It is not the responsibility of BART to means-test its fares. Everyone should pay the same price.*
- *Instead of a discount program how about changing the fare system in which one gets charged per ride instead of mile and a monthly pass is included.*

### 4.5.2 Non Low-Income Respondents

- *This discount scheme is a complete waste of BART time and resources. BART should outsource its station staffing and maintenance and cut fares 25% for everyone.*
- *I do not approve of the new discount program for low income riders.*
- *Do not want gas tax now used for BART discount!! That was not the intent! If money is available, should be used for upgrading system for ALL, not as a discount.*

Of the 2,053 comments received, 263 are categorized as Don't Support, or about 13% of all survey respondents who chose to comment. Of the commenters who are low-income, 4% did not express support for the Pilot Program.

## 4.6 Miscellaneous Comments

Comments are categorized as Miscellaneous when there appears to be no connection between the respondents' comment and the low-income Pilot Program. So that data is not skewed by non-program related comments, Miscellaneous comments are not included in the total comment count of 2,053 (shown in the tables above). 66 comments are categorized as Miscellaneous, which is approximately 3% of the total comments received. The following are examples of Miscellaneous comments:

- *The current program for getting the disabled discount is really inaccessible*
- *No, but add security to make riders feel safe (sic)!!*
- *Good means of transportation*

## 4.7 Overall Comments

Most respondents, both low-income and non low-income, were supportive of the Pilot Program. While some believed that the discount should be more than 20% discount, any discount was better than no discount. The topic of fare evasion spanned all categories, showing that this is an issue of concern for most BART riders, regardless of whether they supported or did not support the Pilot Program.

Appendix PP-A:  
Question 5-Public Comments about the  
Low-Income Discount

---

Legend	
	Support
	Conditional Support
	Don't Support
	Miscellaneous

**Note on “Unknown” categorization for the following columns:**

- Low Income: Respondent did not provide all the necessary information (both annual household income before taxes and household size) to determine income status.
- Minority: Respondent left the question blank and therefore unable to identify minority status.

Survey ID	Comments	Low-Income	Minority
1487	Prices are very steep, i think even those who are well-off economically feel that way. The bay area is very expensive, these burdens need to be lessened.		
1234	A 20% discount will offer many already-strained commuters some relief in their continued struggle to afford cost-of-living in the Bay Area. BART could look to MUNI's Lifeline Pass as a model; those with current MediCal and/or EBT cards automatically qualify for their monthly low-income pass.	X	X
71	A Blessing for low Income	X	Unknown
2561	A discount definitely would've helped me out when I was commuting part time to the city. And it might incentivize more people who wouldn't normally be able to afford the commute to find work further into San Francisco.		
2002	A discount is imperative given the high and continually rising cost of living in the bay area. The region's low income families need these cost savings, and the region at large needs to use policy levers to move folks from cars to transit.		X
1968	A discount program for low-income riders is an excellent idea and would have substantial need!		

Survey ID	Comments	Low-Income	Minority
1400	A discounted fare will help the working poor access to their jobs and in turn boost local economies. A reduction in fare is needed now more than ever considering the rise in rent, food and transportation costs. A reduction would be a proactive step in reducing the loss of workers from their current local communities and would result in extended commutes that increasingly congest highways and unnecessarily contribute to auto emissions pollution. We need this discount program NOW.		X
731	A good idea.		
1258	A lot of the people that need BART to get to and from work would see a huge benefit in discounted fares since most jobs don't pay a living wage in California. BART is such an integral part of the bay area, it shouldn't be what stands between a person and their livelihood.	X	X
636	A monthly unlimited pass system rather than the negligible bulk ticket discount would also be very good		
1166	A step in the right direction!		
523	Absolutely need this new program. Thanks!	X	X
1413	Absurd! Homeless and vagrants constantly get away without paying any fare at all already.		
284	Accessible transportation for everyone is essential.		X
1954	Admirable program.		
3013	Affordability of transit is critical for low income riders when considering whether to drive or take BART.		
1804	After paying regular fares since BART opened, I see how valuable my senior clipper card fees are too me. I often wonder how low income people afford riding BART. They need help too. This would lower the amount of people who are jump. I see low income people using the elevators outside stations to access the platform for rides so often. I think this is because of the expense of the regular Bart fees. Please help these people.....		X
56	Agree it serves Low income	X	X
1589	altho all public transportation ought to be free for all this certainly is a good start.	X	Unknown
2347	Although not applicable for me, I most certainly approve of this program!		
2596	Any discount is a good idea in the Bay's high-priced climate.	Unknown	X

Survey ID	Comments	Low-Income	Minority
844	Any discount would really encourage people to take BART. It's a big expense and the regular people who live here could use all the help we can get.		
3145	Any program to offer discounts for low income riders is a positive. However, fares have been very high for a long time, while ridership has increased drastically. Rates need to be brought to normal levels for the average person in addition to these specific programs.	X	X
3319	Any way to help low income riders with their transportation needs would be great		
1185	Anything that can be done to reduce car traffic is good.		X
2192	Anything that gets folks on PT more, I'm all for.	Unknown	
48	Anything that improves accessibility is a win	X	
3666	Anything to make BART more affordable for low-income riders is a good thing. I hope you consider making it free for low-income users.		
837	appropriate for low-income riders		X
2684	As a college student it is really hard to budget everything and adding transportation on top of that is difficult. A low income fare would be amazing if it could also apply to those working part-time and balancing school.	X	X
3415	As a full time employee, student, and rider, I rely on bart to timely get me from stop to stop multiple times a day, at least 5 times a week. With this, I find myself reloading several times, sometimes only less than \$2. Commuting adds up, since bart isn't the only public transportation I utilize in Oakland. However, I depend on it and must pay the fees. If bart discounted low-income riders, it would allow me to feel more secure in my finances without concern for how (or how much) I'll get to work that day/week/month. Living in the Bay Area is costly and being able to afford transportation is a lifeline for many of its residents.	X	X
3157	As a high school student, it would benefit myself and other riders like me.		X
955	As a higher income BART rider, I want this service to be accessible to everyone, so I fully support the potential new discount program for low-income riders.		

Survey ID	Comments	Low-Income	Minority
1626	As a low-income Bay Area resident, and as a full time student, BART's prices are far too expensive for me to afford. I often have to find cheaper ways of transportation to get to and from work/school. If BART provides discounts for low-income folks, I think it would be an incredibly helpful resource. With a discount I would definitely use BART more, and it would make getting to and from my destinations a lot faster and easier.	X	X
3629	As a minimum wage employee who commutes to San Francisco every day, BART represents a significant portion of my income and is tremendously unaffordable for me and for many other riders of BART. I have lived in the Bay Area my whole life and have watched BART fares rise drastically alongside the cost of living. Making public transportation unaffordable and off-limits to anyone who is not wealthy is a form of discrimination, segregation, and an aggressive rezoning practice to reduce the mobility of low-income people. At the same time, BART's services and quality not only have not improved but have actually decreased. I have often been late for work due to inexplicable delays. I would strongly advise BART to look into unlimited fare options, 50% reductions for low-income people (20% fare reductions willnot make the commute any more affordable, in truth), and reconsidering the corrupt governmental and private corporate practices that lead to money squandering, policing, and public services that are utterly useless and alienating to the actual public.		Unknown
708	As a senior with limited financial resources, I pretty much avoid using BART because of the cost unless there is no other viable alternative. Although a 20% discount wouldn't make a huge difference, it would make BART service more of a possibility for me and my family members, especially for medical trips between East Bay and SF.	X	

Survey ID	Comments	Low-Income	Minority
3104	As a volunteer at Berkeley Free Clinic and The Suitcase Clinic, the requests for public transportation tickets have been non-stop. I know many people who would benefit immensely from this discount and could truly improve the livelihoods of many low-income folks. It can mobilize people to access more employment opportunities or healthcare offices and would overall better the community. In addition, as a college student, I know many people who would rather Lyft or Bart because it's more cost-effective and this discount may incentivize eligible people to use Bart instead.	X	X
3377	As one of the few Bay Area residents who actually makes a living wage, I'd be thrilled to see BART made more accessible for low-income riders. Public transit is a public good, and it should be for everyone. (This is also why I oppose BART throwing money down a hole on fare enforcement. People jumping the gates are primarily poor people, accessing a basic need of city life in the only way available to them.)To be honest, I think public transit should be entirely tax-funded, rather than depending on fares with the occasional means-tested discount. But I understand that will require some legislative changes at the city and state levels.		
1023	As people are displaced due to the housing crisis, their cost to ride BART increases because of the way the system calculates fares. This seems like a good first step to help people who are hurt the most by rising cost of mobility.		
1256	As rent prices skyrocket and jobs pay less, it is so important and vital that transportation be affordable for those of us who are struggling to make ends meet. I avoid riding BART as much as possible because I cannot afford it, particularly to commute from Oakland to San Francisco and back. I strongly support this discount.	X	

Survey ID	Comments	Low-Income	Minority
1180	As someone who is not low income, I think this program is important and I strongly support it. I have been a daily BART commuter for previous jobs and I assume I will be again in the future (it just doesn't work for my current job). I appreciate that we have BART and I want it to be accessible for all -- it is always going to be faster than BRT in Oakland (and so, so, so much faster than AC Transit) and low-income people already spend so much time waiting for so many things to save money/because they can't afford a faster way. Making BART more affordable is a matter of justice.		
282	As someone who no longer lives in the Bay Area, but plans on relocating back in the next 7-8 months, low-income BART tickets would be extremely helpful to those who may lack means to pay for their fares. This is a much needed program.		X
2218	at this point, I would not need the extra 20% discount. but if I ever did need it, I would certainly choose bart more often than the bus.I travel a lot for work, and use public transport in other cities when available, as much as possible. many other transit systems are so much more affordable. we should do all we can in the SF bay area to make bart more affordable for those in the lower income ranges.		
375	Bart and muni are my only source of transportation. I use a fast pass, which is unlimited within the city. So a break won't change my daily, but I know it will help those that can't afford a fast pass.  I used to not be able to afford a fast pass, and would walk miles instead of paying for a ride.		
871	BART can be cost prohibitive! I don't qualify as low-income, but I think it's really important to support low income riders and make sure public transit is accessible to everyone!		
1948	Bart cannot be thought of as a luxury form of transit, or something that would just be used by a few. It has become a necessity for all of the bay area, and the increasing prices make it difficult for any low-income riders to afford using BART. It needs to be discounted, for everyone but low-income riders most of all	X	

Survey ID	Comments	Low-Income	Minority
2498	BART does not offer a monthly pass, so a higher price discount will greatly help those who take BART every day because it's fast, affordable, and good for the environment.		
835	BART fares are a burden for low income riders, who must use the system to get to work and school. A low-income discount is long overdue.	X	
2672	Bart fares are too expensive for a student who doesn't have a car and have to ride BART. A 20% discount can reduce my expenses a lot.	X	X
509	Bart fares plus parking fees are extremely limiting to low income riders. I wouldn't qualify, but I would be happy to know that others were getting a discount who so badly need it.		
3269	BART gets expensive do any help would be welcomed	X	
3042	BART has gotten too expensive that I no longer go into SF for the weekends. I don't seem to fall under your low-income levels so the 20% off would not apply to me, but I can see how it would be beneficial to someone who earns minimum wage.		X
1746	BART increasingly gets more expensive over the years, making it difficult for low income people who rely on public transportation to even afford it, then criminalizes people that cannot afford the fare when they "bart hop". I think discount programs would be extremely beneficial and prevent the number of tickets given for fare evasion.	X	X
435	BART is a crucial means of transportation for many people in the Bag Area. It is important to implement this program to provide support the most vulnerable population.	X	X
643	Bart is a huge expense for students like me, and for low income folks. I spend way more on transportation than I do on food or other expenses. Please seriously consider this discount for low income people and adult students. Thank you so much.		X
659	Bart is a really prohibitive cost for a lot of people with no income. I've worked with people who had to forfeit access to free dental/ medical services because they couldn't afford the transit costs. This isn't a complete solution but a step in a very valuable direction.		X

Survey ID	Comments	Low-Income	Minority
2018	Bart is a vital form of transportation for many, keeping it as accessible as possible is your duty to your community.	X	
3418	BART is an efficient means of getting around, especially from the East Bay and in SF. Yet, it is pretty expensive. Offering discounts to low-income people is a great idea to help them and keep more cars off the road.		
3155	BART is expensive now. Reducing the fare would increase access and ridership		
1093	Bart is expensive. Thankfully i have a full time job that pays well and i can afford the fees. Someone who doesn't have my privilege would not be able to afford the fees. Give them the low income riders discount		X
895	Bart is for the working class, but it's getting harder and harder for the working population to afford riding public transportation or commuting especially with the oncoming toll hike. A discount program will greatly be utilized by many workers in the Bay Area.		X
1930	Bart is insanely expensive- especially if you're trying to get in and out of the city. I think this makes sense		X
1985	Bart is prohibitively expensive even for our working class bay area residents. I would very much like to see a discount esp in SF where it will incentivize more people to use Bart over Muni		X
3351	Bart is too much expensive and I would love for there to be a low income discount, even though I wouldn't be eligible for it.		
2222	BART is very expensive for working class and low-income riders, and because of gentrification and folks having to leave the bay area they are still reliant on BART for transportation. A discount program would go a long way to helping them.		X
207	BART is very expensive, but can be the most efficient way to get across the bay into SF from the East Bay, for example. A fare reduction is a great idea - please redirect funds that are going for "fare police" to fund this program widely.		
535	Bart is very expensive. I would be happy to see a fare reduction for low-income riders.		X
2802	BART is way too expensive for the poorest among us! I strongly support a discount program for low-income riders.		

Survey ID	Comments	Low-Income	Minority
3605	BART needs a low income discount program. Especially for those working between SF and the east bay as well as no-income people who are seeking employment and are confined geographically in the east bay, SF or Peninsula because of the extraordinarily high cost of BART.		
407	BART rates disproportionately affect low-income riders. Please create this program!!!!	X	X
1175	BART should absolutely implement this program. Rather than punishing low-income riders and wasting money through fare evasion programs, BART should make its services affordable to low-income riders--who are most likely to be transit dependent. BART should actually be free for those people!		X
1386	BART should be accessible to everyone because it is such a large part of the Bay Area commute, especially as the expense of driving a car has increased significantly in the past 10 years. BART deserves to be fast and accessible for all in order for the Bay Area to live up to its potential for its infrastructure.		X
2528	BART travel is the best way I have to get to my job in SF and is very expensive (my friends who use transit in large cities like Boston are consistently shocked by how much I pay.) I'm able to use a pre-tax income program to pay fare that saves me money in the long run and can manage alright, but I think BART needs to find ways to be more affordable for lower income riders. I think this discount program would be a good strategy to try.		
3124	Bay Area living is expensive and this would be a great help to low-income riders like myself!		
1239	Because of the cost of living (rent) in the Bay Area. It is very necessary to have this program. In the past, I have called out for work because I didn't have enough to ride BART to SFO (where I worked) I actually had to quit that job and take a less paying job where I can drive 20 minutes to work because I couldnt afford to ride BART.Secondly, it would probably prevent fare evasion because passengers can more likely afford to ride. Lastly, Bay Area toll is increasing, so this program would make a difference. Please consider this program		X

Survey ID	Comments	Low-Income	Minority
1702	Being a reverse commuter, having a smaller income and higher living standard means double disadvantage. With free parking at suburban jobs, they might as well just drive. There are seats available especially in the reverse commute. Having lower fares would definitely bring in more riders and reduce the cost of living for current and potential riders.		X
1391	Being that the Bay Area is filled with POC, this discount would benefit them greatly due to the statistics of low-income families being minorities and potentially help them get out of the low-income status by increasing their ability to commute to work across the Bay Area.		X
29	beneficia al usuario (benefits the user)		X
2036	Brilliant		X
1227	Brilliant. Definitely do it.		
2518	Card must be indistinguishable from other cards so users of the service are not shamed or otherwise targeted by others		
2597	Current discounts serve as proxies for being low income. It makes perfect sense to expand the program to cover the full intended audience.	X	
3214	Definitely at least do this program but also make bart free to everyone free public transportation is mandatory for a just society	X	
1853	Definitely for it! For our neighbors in the Bay Area who are struggling to live with stagnant salaries and sky-high rents, a subsidy for transportation could make a big difference.	Unknown	X
3341	Definitely hope it comes to fruition. The reality low-income riders are being cited for fare evasion in an area where residential prices are already pricing them out of their communities is ridiculous.	X	X
344	Depending on the salary amount I am all for the discount program for low income		
792	Discount for low income riders should be a given. A healthy society provides for all of it's residents.	Unknown	Unknown

Survey ID	Comments	Low-Income	Minority
1727	Discounts for low-income folks is much-needed because they already likely live further away from where jobs are, so many low-income folks likely already pay 20% more than others. However, we should make sure that it's easy and not a hassle for low-income riders to achieve this discount.		
940	do it		X
1275	Do it		X
2025	Do it		
1857	DO IT ALREADY		
2110	Do it because this is needed as the cost of BART fares have been on the rise.	Unknown	X
3404	DO IT DO IT DO IT I would happily pay a little more if it meant lower fares for low-income folks (though I'd take it as a kindness if the money can be found elsewhere first, I'm not a techbro making millions at Google or Twitter).		X
748	Do it!		
833	Do it!		X
1952	Do it!		
41	Do it! Please! People need this! I take BART to work so discount would not change my ride frequency (I have to go to work every day!) But it would allow my paycheck to go to more important expenses		
3497	Do it! We should support low-income Bay Area residents as much as we can. The discount should be more.		X
2171	Do it!!!		
2086	Do it!!!!!! It sounds great!!	X	X
446	Do it.		
588	Do it.		X
2329	Do it.	X	X
2731	Dont let rich snobs who dont like it sway your decision. People need help. Be better.	X	
2371	encourages more people using bart instead of driving, less pollution and save traffic jam. eventually bart make more profits if everyone try to ride bart when they receive discount on their fare		X
1005	Equality is important in a changing bay area and everyone deserves the right of public transportation		
2123	Essential!		
13	estaria muy bien *would be great*	X	X

Survey ID	Comments	Low-Income	Minority
2418	Even if I don't qualify, I am a huge supporter of this program!		
2679	Even if I don't qualify, I think the program is very necessary.		
2676	Even though I don't fall in the "low-income" bracket, I think this discount will help those who are in need and can benefit from it. This discount will help those who can't afford to commute to work at long distance because of commute cost in Bart or because of traffic. Yes, it will increase the amount of people taking bart, even during peak hours but that will also benefit bart and force them to decrease the intervals between trains. We might get more Bart's on track to assist in crowd controlling.		X
2255	Even though I wouldn't personally benefit from this type of discount, I strongly support the idea!		X
2633	Excellent idea & very much needed. My son has worked minimum wage jobs in SF & the commute on BART takes a huge chunk of his paycheck.		
3173	Excellent idea!		X
1499	Families need it! SF is too **** expensive!	X	X
2386	fares should be lowered for low income folks.		
1708	Finally! Low-income riders should have access to a discount.		X
1350	Financially accessibility to public transportation is a necessity for any civilized society to respect the struggle of lower income and working class people, especially in such a costly area as the bay. Please move forward with this quickly. THANK YOU!	X	
294	For families that are low-income and rely on public transit, every decision has to be weighed carefully. Riding BART may be faster, but more expensive for some families or individuals, and that decision is probably never easy--especially if commutes are long. Access to transit is absolutely an equality issue! I am all for this program!		
221	For low income families who don't own a car bard is an important lifeline to high-paying jobs in the bay area. This seems like a promising program.		

Survey ID	Comments	Low-Income	Minority
3472	Frequent commuting to assist an elderly friend causes my monthly BART fares to add up quickly. Any help with a discount would be highly appreciated.	X	
3025	From what I have read, I would not qualify for the BART discount. That said I support 100% this initiative. What is more upsetting to me are people who bust through the toll takers. I understand that they maybe low income and may not be able to afford transportation and for this reason I sympathize with them but not enforcing "payment" what ever that looks like does not help the psyche of the low income and full paying riders alike		X
1208	Fully in support	X	
60	Fully Support		
3103	Fully support it especially if funded by a gas tax	X	X
1813	Fully support it.		
1272	Geat idea!!! Please do it!	X	
2348	Given that BART is so necessary for my own commute, this discount would raise my opinion of BART as a responsible service provider, even though I myself wouldn't qualify for the discount. Local transportation, particularly commuting, should not be a luxury that low-income families can ill-afford.		
1055	Given that low-income riders are being pushed further to the end of lines and seeing their fares increase, a discount program would at least help make things less regressive than they currently are.		
1105	Giving these discounts could make employment for many low income families much more possible in that their transportation costs would be cut down, making it more affordable to get to work or even school. The opportunity this would give to low income persons would be amazing.		
558	Go for it ... make it even cheaper		X
2937	Good good good good		X
1044	good idea		X
2134	good idea		
2852	Good idea		X
979	Good idea! Income inequality is the biggest issue compounding other challenges.		
3544	Good idea, a lot of people would be able to ride bart with the discount	X	X

Survey ID	Comments	Low-Income	Minority
1846	Good idea. Should help reduce expenses for working poor. Please keep trains and restrooms clean and available too.		X
1929	Good idea. You guys need all the goodwill you can get.		
456	Good news	X	
31	Great	X	
26	Great Idea		
366	Great idea		
615	Great idea		X
1432	Great idea		X
2469	Great idea	X	
2982	Great idea		
3017	Great idea	X	X
3630	great idea especially for seniors on a fixed income. it will help seniors get out of the house and become less isolated	Unknown	Unknown
1128	Great idea!		
1293	Great idea!		
1443	Great idea!		X
1703	Great idea!		
2302	Great idea!		
715	Great idea! Fully support.		
1548	Great idea! Transportation access is a key indicator for an individual's ability to move out of poverty.		
2346	Great idea! I'm higher income and receive a BART subsidy through work and it's a huge help.		
1958	Great idea! Lots of your fare evaders are just low income people trying to get to work/school etc. I think fare evasion rate would go down.		X
2285	Great idea!!		
3271	Great idea!!	X	X
1363	great idea, encourage more people to get out of their cars. also, often I take longer to get somewhere by bus because it is cheaper.	X	
3333	Great idea.	X	X

Survey ID	Comments	Low-Income	Minority
195	Great idea. I don't need it but we have so many people struggling to afford living in the Bay Area, and get to and from jobs far away, we need to help them as we can. You should figure out how to tax employers to pay for this! They are creating the demand and the pressure on our infrastructure and workers and housing.		
1355	Great idea. BART is essential transportation for many people but many can not afford it.	X	X
30	Great idea. California's cpst living is not in balance w/ FPL		X
1629	Great idea. Please help diminish low income transportation expenditures!	X	X
470	Great idea. Providing reasonably priced, reliable transportation to those with low incomes can be a huge help to finding and keeping jobs.		
3345	Great program for lower income households.	X	X
1639	Greatly needed please approve.		X
1015	Having a cheaper fare will allow me to save commute time from taking the slower alternatives and help me focus on other aspects of life rather than use them on the commute.	X	X
1938	Having a discount for low income riders would make transit to and from work more accessible and increase Bart usage. As Bart is public transportation it should be accessible to all people regardless of income.		X
2253	Having a discount for low-income individuals would be GREAT service to the bay area public. IT would allow for more job access and help in addressing the financial disparity that exists between race and class in the bay area. By saving money, increasing access to job employment and health services by making transport more accessible for low income folks, it will contribute to addressing issues of equity.	X	X
2680	Help low income families live in the bay area. Stop pushing us out		X
2713	Hi! I am in a higher income family and would not qualify for the BART discount BUT I think it's an excellent idea to buffer the intense impacts of income inequality in the region. PLEASE IMPLEMENT THIS POLICY. I AM HAPPY TO PAY 10 cents more a ride or whatever to make it happen!		

Survey ID	Comments	Low-Income	Minority
1259	Highly encourage this program		
3705	Highly interested in this program, see numerous benefits for large groups of people, definitely approve	X	X
473	Highly support it. Public transit fares are a de facto tax, and taxes should be progressive.		Unknown
68	Hopefully will happen		
2996	Huge supporter of this. Bart is extremely expensive compared to public transit in other major cities while offering few services. Fares should be lower in general, but particularly for low income people. Also, why not consider a flat fare for unlimited rides per month similar to the NY public transit system? I believe that would increase ridership overall.		X
2056	I absolutely support a discount for low income riders. Bart is a vital service to so many people working in the bay, many of whom have longer commutes because of the housing crisis. a		
828	I absolutely support a discount program for low-income people. BART should be accessible to everyone.		
3446	I absolutely support it. Transportation costs keep rising, and lower income folks often can't afford to live close to their jobs.		X
1706	i absolutely support this program. i know Apple & tech companies GIVE loaded clipper cards away & Sfbay area is in an economic crisis. y'all are shaming people on trains & have KILLED people over fares. i EXPECT this program to be approved and y'all to study public policy & sociology. thanks- dandelion of berkeley.	X	
1529	I already did a fantastic fear and part because I have the senior clipper card. Our daughter lives in Oakland and finds the BART fares for commuting into San Francisco prohibitive. She ends up using casual car pool instead. I definitely am in favor of reduced fares for low income riders.		
1086	I already get a discount so i almost never drive to San Francisco, or anyplace else i can get to by BART. Since you give discount to all seniors without means testing, i certainly think you should give a discount to low income folks.		
2265	I am 100% for it.		

Survey ID	Comments	Low-Income	Minority
889	i am a disabled man with a cane, so this will surely help me alot	X	X
2801	I am a low income rider of bart and the cost of BART often prevents me from using BART because I can't afford the high costs of transportation. I would use BART more often if the new discount program for low income riders took place	X	X
245	I am a low income working student who is spending about \$100 each month on Bart or more it would be helpful if Bart made some kind of low income or student discount for those of us that only have this one way of transportation	X	
3005	I am a physician who works for a clinic in the mission in San Francisco at a clinic for the low income. I pay full price with a monthly pass and am happy to support public transport in the bay area. However, many of my patients come to clinic on the BART and the cost is significant and very difficult for them. I believe many of them would take BART and public transport significantly more if it were more affordable. I want to encourage public transport and walking especially in the young people I work with so that they get used to taking this rather than walking. I am very much in support of this discount.		
3428	i am a student who makes very little money and would be interested	X	
2698	I am absolutely in favor of this new discount program. I think it's a fantastic way to approach more equitable transportation. I would argue for an even bigger discount, in fact. I am not low income, so I would not be affected by it.		
3168	I am all for a discount for low-income riders even though I would not benefit from it. As many low-income workers travel significant distances to get to work, their primary means of transportation needs to be affordable enough for them to use it and so that the strain of living in the Bay Area can be lifted some.		
3445	I am filling out this survey in support of low income individuals and having the option of low income fares. This should be a given. I could go on. But in sum, low income individuals deserve lower fares, it is an injustice otherwise.		X

Survey ID	Comments	Low-Income	Minority
1167	I am fortunate to not be low-income. For me, using BART is much preferable to driving either way.  I think it is important to help others for whom every dollar must be squeezed. I support the idea of a discount program for low-income riders.		
856	I am greatly in support of this new discount program as I believe this makes access to public transportation more equitable for people who are struggling more and more to afford living in and getting around the Bay Area.		X
3397	I am high income now but previously made a middle income in the bay area. I grew up low income. I think this is an important and terrific idea! I would be more than happy to pay any tax to offset costs for low income riders.		X
3628	I am highly in favor! I would not qualify, but those of us who can afford it should subsidize the fares of people who struggle to remain in San Francisco (or the Bay Area in general).	Unknown	X
2366	I am in favor		X
1384	I am in favor and I think it would be great if it was an even bigger discount. (I would not currently qualify.)		
2661	I am in favor of it even though I don't qualify.		
1914	I am in favor of this program and would support raising the maximum qualifying income. The cost of living in the Bay Area is out of control and this is a much needed, albeit small step towards making public transit affordable for those who need it most.		X
3442	I am in full support. The cost of a daily commute for low-income riders really adds up. As a low-income rider myself, I pay a significant chunk of my daily budget on public transit. I easily spend \$50 a week on BART most weeks. A 20% discount would really help me.	Unknown	

Survey ID	Comments	Low-Income	Minority
3376	I am in support of this program. Low-income residents of the Bay Area are increasingly being pushed out further from the job centers of SF and Oakland. I have a friend who commutes 2 hours via BART and bus just to get to her job in San Francisco. She lives at the end of the line (Antioch). Not only is she paying more to travel, it is taking up a major part of her day. Residents should not be penalized for their inability to afford to live in the more central parts of the Bay Area. Thank you to BART for considering such a discount!	X	X
1250	I am in total support of this discount. I would not qualify, but I think it is essential to make transportation affordable to everyone. It is one of the key steps we need to take to have a better functioning city		
831	I am not a Bart rider with low-income, but I do believe this discount program for people with low-incomes would have a strong positive impact on Bay Area communities. The cost of living is incredibly high, and this program would help those who feel that cost burden the most, but work and live in the Bay. Less stress, more mobility for jobs and more financial freedom for these riders will benefit us all.		X
3167	I am not a low income rider but I think we should make BART more accessible for low income folks. Already at that income level (200% of poverty line) people are choosing between essentials. Please make transit less of a burden.		
2767	I am not a low income rider, but bay are public transit is abominably expensive and I support any measure that makes it more accessible for those in need		X
1146	I am not a low income rider. I think BART should give fare discounts to low income riders, and especially families. Thank you.		
3678	I am not a low income rider. I use BART almost every day of the week, and I am grateful for the convenience. I definitely am aware that not everyone can afford to ride BART as frequently as I do, and if this measure helps more people to get around and enjoy the speed and comfort of BART, then I strongly support it!		
1987	I am not a low-income rider but I believe they should get a discount	Unknown	X

Survey ID	Comments	Low-Income	Minority
2413	I AM NOT FINANCIALLY INSECURE, AND MY DECISIONS ARE STILL IMPACTED BY REGULAR FARE. REDUCED PRICES ARE NECESSARY FOR THOSE WHO ARE LOW INCOME.	X	
2751	I am not low income but I approve of this discount program for low income riders.		
3616	I am not low income but I support a discount program for low income riders		
1031	I am not low income myself, but riding bart is very expensive and I support this program for those who need it		
1111	I am not low income, but I fully support this.		
821	I am not low income, so I do not need the discount. However, I think the discount could be really helpful for anyone who qualifies.		X
3551	I am not low income. I think it's a great idea.		
2043	I am not low-income but fully support this change		
735	I am not low-income but think this is a great idea! fully support it		X
285	I am not low-income myself but think it is SO important to create this program for others who are. BART is so expensive and we need to make it more affordable for those with lower incomes!		
482	I am not low-income, but feel that this is EXTREMELY important and should be done to help low-income residents of the Bay!!	Unknown	
1608	I am not low-income, but I would support this program for low-income riders.		
742	I am single and make \$20,000 à year.	X	
1444	I am strongly in favor of discounted fares for low income riders. I receive a senior discount without regard to income and while I am grateful for the discount, I am sure that there are low income workers who need it even more than I do.		
464	I am strongly in favor of the program! Accessible public transportation is so important for our community!	X	

Survey ID	Comments	Low-Income	Minority
641	I am very excited to hear this could be possible. Not for myself, but for folks in much more dire need for affordable transport. We need an equanimous fare system that doesn't penalize folks who live farther away from the city center/ have a longer commute since they are coming from city outskirts to work. These folks are often the most marginalized and in financial need, but they currently are paying the most to ride BART.		
898	I am very much in favor of it. Living in the Bay Area is already super expensive.		
1581	I answered no to the 20% discount question, only because I'm in a high enough income bracket that I can afford the BART fare. However, I frequently consider the price of BART vs. the toll of driving from Oakland to SF, and they are too close to make much of a sway toward public transportation. I have friends who frequently cite high BART prices as the reason they don't participate in certain activities across the bridge. I think that a 20% discount for low income families is an incredibly important thing, and thank you for considering it!		
2588	I applaud BART for their efforts in creating a more accessible platform for all. When someone is living paycheck to paycheck any discount could mean the difference between lunch or not		X
3212	I appreciate this potential new discount program. It helps a lot of low-income riders for better surviving. People with low-income may have a chance to buy enough food for themselves if they are able to receive discount while using bart.		X
1949	I appreciate using public transit for many reasons. For myself, I am fortunate to be in a position where affordability is not a critical issue -- but in future, I may be on a fixed income and this will matter more. I feel that it is important for public transit to be accessible to those who need it most. I am happy to pay full fare in my current situation, and I agree completely that fares should be discounted for my low-income neighbors.		
246	I Approve. The costs are too high for low income customers.		

Survey ID	Comments	Low-Income	Minority
1965	I believe it is not even a question of whether Bart should institute this program but why its taken so long. Most major cities have these programs in place; New York's subway system has a flat rate for one way travel which is less than \$5. Bart is becoming more and more for high income earning professionals and out of budgetary reach for the average rider that actually has no vehicle, or low wage earners that really needs a reliable affordable means to travel to make a living.		Unknown
549	I believe it will help a lot of people which is what we need	X	X
1560	I believe it would be beneficial if the rates were a single flat rate instead of rate per station. that way it could be easier and more cost effective for riders.	X	X
2113	I believe that it would be utilized by many people. We need this for those who are lower-income and can't afford a car and gas.		X
758	I believe that low income riders would be able to use BART more often if their travel costs were reduced per trip.	X	
2151	I believe that offering low-income riders a discount would be of benefit to everyone.		
540	I believe that public transit in general should be more heavily subsidized so that commuters are diverted from single occupant cars into mass transit. I believe this has both infrastructure and environmental benefits.		X
980	I believe there are many things that BART could do to lower costs for riders. A great start would be to offer discounts to low-income riders. Low-income riders have less disposable income and anything to lessen their day-to-day burden is beneficial to our community.		
2646	I believe this is a great program to help commuters	Unknown	X
2411	I believe this is a great proposition to put in place		X
452	I believe this is an incredibly beneficial program! Especially for folks who commute to work and spend almost a quarter of their income trying to get to work every day!		X
474	I believe this program would make BART a more accessible and affordable lifeline for many low-income riders.		X

Survey ID	Comments	Low-Income	Minority
237	I believe this would be a great idea especially with all the fare evaders I encounter at the station. People will then be able to afford BART rides while paying rent and for food!		X
3498	I believe this would help many low income people access more job opportunities and generally improve their quality of life.	X	
2114	I can take my mom and niece out way more.	X	X
1242	I commute to UC Berkeley for school 5 days a week and although I have youth discount, it will go away in a few months and paying 200 a month is hard on a college student once I pay regular fare. I hope this program goes through.	X	X
3087	I completely think this should happen		
342	I currently receive a 60% discounted clipper rides. An additional 20% would make it even easier to use BART. My single-household income comes to about \$25,000.00 annually.	X	
128	I definitely feel that a discount program would help those many people living in the area who struggle financially and commute on BART. Hope it's implemented.		
744	I definitely support it!		
3226	I do not personally need to discount. I would love to see all the low income folks in the bay area benefit from a BART discount. It is so expensive.		
986	I do not qualify in the low-income group, but I absolutely support it. In fact kids under 12 accompanied by parents and people above 65/70 should be able to ride for free. Also, atleast for Bay area, this discount should be extended to a household income < \$60,000		X
2844	I do not ride BART too often, but I know that a lot of people use it to commute to work, school or to simply visit family and friends. Not all riders can afford to pay regular price for their BART ticket and a discount could help alleviate that issue. I hope the discount can be implemented!! It would help a lot of low income people.		X
1671	I don't need a discount; but I am for low income riders getting one. BART is expensive and it's almost a tax for the working poor. Please do this!		

Survey ID	Comments	Low-Income	Minority
2699	I don't need this discount because I'm lucky to have an employer who pays about 80% of my Muni/BART monthly pass. But until very recently this wasn't the case and I had to be careful about limiting my rides. I STRONGLY support discounted BART tickets and passes for low-income riders. It is the right thing to do. Please move forward with the discount program!		
2599	I don't qualify for this discount, but I am so glad you are considering this for our very-low income community members!!		X
1387	I don't know if I would qualify but I absolutely support it being implemented; BART is one of the most expensive transit systems I've travelled on and one of only a few that don't even have the option of a discounted 10 ride or monthly pass. Please make BART more affordable for those who need it most!	X	
741	I don't need it, but please make it available to those who do.		X
3386	I don't need this discount as I'm fortunately able to afford the regular price of a ticket. However, given the raising cost of living in the Bay Area I highly recommend that BART institutes this low-cost fare for low income families. Happy to pay a higher tax at the pump to fund this. Thank you.		
3330	I don't personally need it but strongly support it and would be happy to subsidize it with my ticket price.		
1843	I don't qualify for a low income discount, but I think you should do it!		
409	I don't want to be a grunt, I want to be afford going places. Please government, allow easier access to BART for everyone.	X	X
3029	I doubt I'll be eligible - but you should totally do it.		
100	I feel giving those who need assistance a discount would increase ridership and reduce the number of non-paying riders.	X	X
861	I feel it would be wonderful	X	X
1669	I feel that if we had this new discount program that more people would be inclined to take Bart and this also gives more low income riders abilities to get more jobs because they have a way to transport themselves in a timely manner that is both efficient and cost effective.	X	X

Survey ID	Comments	Low-Income	Minority
3133	I feel that there would be more riders (myself included) if you had more safety processes in place. It's a great idea to offer more discounts but until the transient and crime on board and at the stations are addressed you're ridership will not increase.		X
796	I feel that with so many working at minimum wage this would be a great help in commuting since they can not live within the city.		X
339	I fully support a discount for low-income adults!		
2397	I fully support a discount program for low-income riders.		
1060	I fully support a discount such as this. I think the discount amount should be higher (30-50%).		
3552	I fully support a discounted BART ticket for low-income riders.		
1741	I fully support it!		X
3282	I fully support it. BART can be very expensive for those with low incomes		
3190	I have a great salary and not being a Republican would be more than happy to help low income folks by paying more myself or donating to their cause.		X
447	I have lived (mostly as a poor student) in many cities in many countries in the world, and find it ridiculous that public transportation is so costly here in the Bay Area, particularly given the impossibility for most people who work in San Fransisco to actually live there. It is shameful that a haven of technological advancement such as the Bay Area has such poorly developed infrastructure. The possibility of a low- income discount is not only reasonable and welcome but long overdue, even if it is only a half-measure.		
2949	I have many low income friends who simply cannot afford to get to school or work because the cost of bart is so expensive. This is why there are so many people who dont pay. The prices are unrealistic.	X	X
790	I have no choice to ride bart to and from work every day from Oakland to SF. It is so expensive that the cost is a burden on me and my family.	X	

Survey ID	Comments	Low-Income	Minority
1619	I have to ride BART to get to my workplace, so I probably wouldn't ride more with a discount because I don't have any other reason to ride other than commuting. However, I do think this program would benefit low income riders because the cost is expensive especially for longer routes for people who have been pushed out of the urban centers and now live farther from their workplaces.		
2381	I highly suggest and support the decision to provide discounted tickets for low-income individuals!		
3054	I highly support this idea for a discount program for low income riders. I hope it will be implemented.		
521	I highly support this new idea for a program. It would benefit so many recently graduated students like myself.	X	
2924	I hope I qualify	X	X
35	I Hope it does threw good idea	X	X
1116	I know Bart is difficult to manage financially for many of my friends on a regular basis.	X	
2944	I know several people who feel they cannot take Bart often because it is too expensive for them	X	
1878	I live at an end of the line station, Dublin Pleasanton, and the roundtrip fares to San Francisco have gone through the roof! Public transit needs to be affordable for people like myself who are on Medi-Cal.	X	X
1374	I live in Livermore, STILL NO BART TO LIVERMORE, however in the service area the discount will be helpful.		Unknown
2649	I live in San Jose and work only part time in San Francisco. I pay Bart fare and parking total \$17.50 everyday round trip, 5 days a week. I DO wish to get the 20% discount because I earn less than \$1500 a month	X	X
993	I live near a MUNI line and BART. I often take BART downtown, not always across the bridge. If I had a discount, I would make BART my main way to travel from home to downtown.	X	
444	I love it! I think it will cut down on the number of people who "jump the gates" and don't pay the fare	X	X
3215	I love it, I use bart every day and a discount would really help me out.	X	X
1858	I love it. Make it happen! :)	X	X

Survey ID	Comments	Low-Income	Minority
65	I love riding BART since it opened. I am not disabled + on a low income. Paying regular BART fare created financial difficulties for me. I had to forgo my favorite coffee shop etc.. To be able to ride BART. (monthly treats-restaurants, etc.)	X	
3669	I love the idea, low income families, who are mostly using bart to commute to work or just using it to get back and forth from school, this would be a huge money saver for them.	X	X
2159	I make north of \$200k, you should absolutely do this program, your fare box recovery rate is way too high		
1788	I moved closer to work because public transit was too expensive. Now I live closer to work and have a MUCH smaller space for my family but can afford the commute. 20% discount would have let me not have to move my family into a shared home.	X	
646	I need any discount I can get	X	
1767	I NEED this new discount given I'm a graduate student that only is able to work 20 hours a week (according to my graduate program) which caps my wage; therefore, categorizing me as "low-income". I commute 6 days week for school and work from Richmond to Powell then have to take muni once I'm in the city which costs me around \$500/month. I greatly support this proposal.	X	X
1006	I often do not ride BART because it is cheaper to go by car when there is more than one person in my party. I would ride more regularly we're it cheaper.		
2317	I only occasionally ride BART as Muni Metro is more convenient. But I'm very grateful BART is available. I firmly believe low income riders should receive a discount. So many people travel long distances to get to work each day. Perhaps this would help people who typically receive lower wages, such as restaurant workers, be able to afford working in places like SF and Oakland which would be better for everyone.		
566	I personally would not qualify for it but I think this is a great idea and I support it 100%		X
2763	I personally wouldn't use this but think it would be good for low income families to travel Kore frequently		
1484	I really hope I qualify.		X

Survey ID	Comments	Low-Income	Minority
440	I really hope you can offer it. I wouldn't qualify nowadays, but in the past it would've been valuable to me in between contract jobs, and right after moving to the Bay Area.		
457	I really hope you implement this. BART fares add up quickly and it takes out a pretty solid amount of my income per month.	X	
1568	I really like it.	X	X
129	I really would love to see a discount program for low income riders, I think it would expand their opportunities greatly! I would also love to see a discount program for students!		X
2499	I receive a subsidy through my work to take public transportation- I can spend pretax dollars on bart tickets. So I think it's fair to give low income people a discount since I make a decent salary and am receiving a discount		
876	I receive commuter checks as a bart subsidy from my work— I support this discount for low income riders		
713	I recently decided not to move from SF to the East Bay as I crunched the numbers and realized that even with reduced rent, I couldn't afford the move due to the added BART commuting costs. It was a huge wake-up call at how much people spend each month on BART, and I can't imagine adding that onto our already high cost of living.		
3437	I ride BART because I have to. I can't afford a other methods of transportation when commuting from Oakland to SF regularly, so the program wouldn't necessarily change how much I ride. However, it's important to me because I am very low income and I have to cancel plans or not buy food because I can't afford them. At the very least, I could get more rides for my money, and free those funds up for other necessities.	X	
904	I ride BART everyday for work, and would not ride more with a discount but I definitely know many other people who would, and in general am wholeheartedly in favor of you providing a 20% fare discount for low-income riders. I believe this is important for many reasons, and also might support the effort to reduce fare evasion. I hope BART decides to create this program.		

Survey ID	Comments	Low-Income	Minority
3020	I ride Bart everyday from Concord into the Rockridge or Downtown Berkeley. It's the only option for me to get to work like most people who get onto Bart where I do as well. The prices keep going up. And the amount of time I'm on there everyday seems to get longer as well. I feel like people are getting priced out of Bart like other living options. This would be a great relief to many riders.		
2191	I ride BART out of necessity, I depend on it to get to school and work everyday. This is a huge financial commitment and burden every month. Offering a discount would be so incredibly important for people like me who rely on BART to make a living. I support this program 100 percent!!!		
2216	I ride BART to commute to/from work and probably wouldn't ride it more if there was a discount. But i do think it's prohibitively expensive for some folks, especially as we see poor communities pushed further out of Oakland/Berkeley and I completely support providing discounts to these folks.		
3370	I save more than this because my employer offers me the ability to buy high value packs with pre-tax money. Hopefully a program like this can also extend discounts to some folks in the community who need it the most.		
1119	I shouldn't receive a discount, to I'm not low income now. There were times in my life, however, when a discount would have been a huge relief for me, would have allowed me to afford more nutritious food, etc. Please make this available to folks who would benefit.		
2263	I strongly believe that a BART discount for low-income riders is highly needed. Public transportation fees are rising and it can be difficult to cover costs in the bay area for transportation.	X	X
3667	I strongly support a discount program for low-income riders! I think you should take all the money you are currently spending on fare evasion reduction and put it towards discounts for low-income riders. In an ideal world, BART would be free for everyone!		
3633	I strongly support discounted fares for low income riders!	Unknown	Unknown

Survey ID	Comments	Low-Income	Minority
2972	I strongly support increasing access to and equity in, BART rides. This discount would be a great, welcomed first step in doing so. Thank you so much for considering public input.		Unknown
1863	I strongly support the effort, even though I would likely not qualify.		
3340	I strongly support the idea. BART is pretty expensive, especially transbay, so this program would be a step in the right direction.	X	
2224	I strongly support this idea		
639	I strongly support this!!!		
51	I support a discount for low income riders!		
3180	I support a discount for low-income riders	X	X
3656	I support BART making fares affordable for low income people		X
644	i support it		
1841	I support it		
2007	I support it		
141	I support it and I think attention should be paid to how easy it is for qualifying people to enroll.		
2479	I support it and think the discount should be based on regional income parameters, not federal. I don't expect to qualify and I am not filling out this survey with hopes of qualifying. I'm responding in support of social equity.		
1482	I support it! Getting around the city is crucial to people supporting themselves and engaging in society!	Unknown	
891	I support it! I'm just not low-income myself.		
1328	I support it.		
2707	I support it.	X	
53	I support it. I am not low-income.		X
2223	I support it. Would not be eligible for it myself.		X
1217	I support the discount for low-income riders! I take BART daily and will continue to do so for my commute to downtown SF from the East Bay, and I would be even more excited if low-income riders were supported to do so. I know many people for whom BART is a large expense that they cannot always afford.		
3112	I support the idea of a discount BART ticket for low-income riders and would even like to see BART be free in the future.		X

Survey ID	Comments	Low-Income	Minority
25	I support the idea of having discounted options for low income and other deprived individuals.		X
1051	I support the potential new discount program.		X
42	I support the potential to make BART accessible to all people		
2737	I support this 100%		X
750	I support this as BART is quite expensive, especially for folks with low-incomes. I actually support a larger discount than 20%. I personally get a higher discount already b/c I have an RTC card based on disability, which has made BART more financially accessible to me.	X	
2286	I support this idea.		
3118	I support this program, and believe this is a good use of gas tax and MTC funds.		X
24	I support this, although I doubt I would qualify now. In the past I have struggled financially and I do not wish that state for anyone.		X
2069	I think it would be great for people commuting to and from work, especially since the cost of living is so high	X	X
2516	I think a discount for low income riders is a great idea		X
2376	i think a discount for low income riders is a great idea.		
1267	I think a discount for low-income riders is a critical need in the Bay Area and should be a highest priority for transit.		
241	I think a discount is a great idea. The cost of living is high and a daily round trip of \$10+ can hurt a family that isn't making much.		X
2712	I think a discount program would allow people to ride more often and may also decrease fair jumping.		
1162	I think a fare discount could help people who are low income and rely tremendously on Bart to get to and from work.	X	
1390	I think a low-income rider discount is a great idea! I am personally not low-income anymore, but when I know I would of appreciated such a program growing up.		X
1359	I think a steep discount for low income riders would be a great gift to this region.		
1571	I think anything that encourages use of mass transit or that supports low income individuals in their struggles should be supported		

Survey ID	Comments	Low-Income	Minority
463	I think BART should absolutely be more accessible and affordable for low-income riders.		
2978	I think Bart should allow people who earn less into this new program it will benefit a lot of people	X	X
711	I think creating a new discount program for low-income riders is going to be highly efficient and very beneficial. Transportation fares are increasing which stresses out low-income riders. By creating this discount program, more riders will be encouraged to use BART without the stress of high fares.	X	X
526	I think discounts should be given to low income riders and accessibility should be increased.		X
371	I think everyone would benefit by having public transportation be more affordable, from our environment to the community.		X
307	I think having a low income option is really really important to the Bay Area. As cost of living anyware is raising, it becomes harder and harder to get around, which isolates poorer people and allows the wealthier to move freely. Thank you for considering providing the poorer people with access to mobility.	X	
2658	I think helping those with lower incomes in their everyday lives is a great idea and exactly what more large, metropolitan areas like the Bay Area need.		
2721	I think if BART would be less expensive then driving a LOT of people would choose to ride BART. Currently it is still more expensive then driving. Those who can afford more, should pay more, those who make less need to pay less. It's simply fair.		Unknown
3523	I think it great. I have a family of six and a round trip to SF cost us roughly \$60 bucks. Which causes us a grave financial hardship!	X	Unknown
1063	I think it is a fantastic idea! I would be happy if my tax money contributed to a program like this, I think it is great for income equality in the Bay Area and would support the economy in countless ways. With this program, BART has the opportunity to be a pioneer and set a positive example for other transit systems across the country.		
1699	I think it is a fantastic idea. Anything that helps people get around the Bay Area without impacting traffic on freeways and roads has my support.		X

Survey ID	Comments	Low-Income	Minority
2838	I think it is a good idea to support lower income people despite it not benefiting myself.		
1898	I think it is a good idea.		
3251	I think it is a good idea. How are you going to prove your income.	Unknown	Unknown
3259	I think it is a good thing to get anyone to use more public transportation. And I know it would help myself with my Bill's as traveling on bart and bus is currently one of my highest costs monthly.		
3069	I think it is a good way to help struggling families to get to school or work. Parking should be included in a discount program.	Unknown	Unknown
1491	I think it is a great idea		
2057	i think it is a great idea	X	
2539	I think it is a great idea	X	X
2046	I think it is a great idea and would support making public transit more affordable.		
1194	I think it is a great idea it would help me out but why not offer it to frequent riders as well. Traveling on bart everyday does add up	Unknown	Unknown
2066	I think it is a great idea that will improve utilization of public transportation! Often I don't take BART because ridesharing services are only a couple dollars more so I pay little for the convenience (it's like \$7-8 to get from my BART station into the city). If BART was cheaper it'd be much more attractive.	X	Unknown
3576	I think it is a great idea to help low income riders with a discount. I used to ride BART everyday. The cost really adds up even for those who are not classified as low income. Thank you.		
1685	I think it is a great idea to offer the discount for students, seniors and low-income riders. In Tokyo there a long term commuter pass for discount (1, 3 & 6 months for different discount). Why can't we do this?		X
1156	I think it is a great idea!		
1159	I think it is a great idea!		X
3235	I think it is a great idea!		
1897	I think it is a great idea, I'm just not low income.		

Survey ID	Comments	Low-Income	Minority
429	I think it is a great idea, lower farrs would enable those with low income to expand their job search horizons to all over the BART system while also keeping their cars off the already overpacked highways and bridges	X	
1720	I think it is a great idea.		
3015	I think it is a great idea.	X	
3701	I think it is a great idea.	X	X
2804	I think it is a great idea. Anything we can do to provide access to all people is important. Please do this!		X
2625	I think it is a great idea. Even though I would not qualify, I still find BART expensive to the airports and to the East Bay.		
2079	I think it is a great offer considering the high cost of living here in the Bay Area		X
900	I think it is a great option, I spend around \$300 on Bart every month and it adds up, I could be paying a new car for that much money, if would be a good option to help people :)		X
3413	I think it is a great plan, I hope you will go forward with it. I won't qualify, but would like to see low income have as much of a discount as possible		
3405	I think it is a great way to encourage more ridership, less private car use, and less fare evasion all while supporting low-income families and residents in the Bay Area.	X	
147	I think it is a wonderful program	X	
312	I think it is a wonderful proposed program.		
168	I think it is amazing and a great idea		
1633	I think it is an awesome idea. I hope you are able to provide this.		
1108	I think it is an excellent idea		
2199	I think it is an excellent idea.		X
405	I think it is brilliant and needed.		X
1124	I think it is fabulous. Making public transportation available to people with low income is extremely important.	Unknown	
2575	I think it is good		
869	I think it is great as Santa Clara county has a program for its residents and employees who utilize public transport. Thank you for the consideration, it believe many would benefit!	X	X

Survey ID	Comments	Low-Income	Minority
725	I think it is highly necessary. My wife works with young people with poor parents, and often they express reluctance to take good educational or occupational opportunities due to cost of transit. A discount would hopefully eliminate some of the reluctance and help them to be productive.		X
2775	I think it is long overdue. Many low income people can't afford a car and depend on BART and bus to get to work, school etc. Please bring this into effect. And come up with an easy way for people to access it (don't add a lot of hoops to jump through as this will create lots of barriers to access). Thanks!		X
1076	I think it is super important to provide these discounts since transportation can often be a major barrier for individuals who are seeking important things such as health care, legal counsel, food, and transportation to work/school. BART can be extremely pricey, but is definitely much faster than bus transit. Cutting down prices via discounts would help increase accessibility for low income rider to important resources and day-to-day needs as well as decrease time spent on transportation so they can be present in other necessary capacities.		X
2462	I think it might help prevent fare cheats and make it more accessible to people.		
1456	I think it seems like a wonderful idea that'll allow people better access to transport!	X	
149	I think it should be available for them.		
1438	I think it should be mandatory for most services to have a discount program for low-income riders, and something as necessary as bay area transportation should definitely be implementing this discount. I think it's long past due.	X	X
2325	I think it sounds like a great idea. I already ride BART every work day thus I do not think a discount would make me ride it more. However, if I were weighing which mode of transport to use between, for example, a car and BART, I think this discount could sway my decision.		
1882	I think it sounds like a great program that would make BART more accessible	Unknown	X

Survey ID	Comments	Low-Income	Minority
1547	I think it will be extremeley beneficial for low-income riders so that they can 1) spend less on transportation and save and use that money for other things such as food to sustain themselves or for anything else they would usually not be able to afford or 2) if they usually don't travel much due to costs, it would give them incentive to travel more/give them better reason to use bart.		X
1911	I think it will help single parents who have to put money on their and their kid bart/clippers. I know it will help me a lot since I have a lot bills.	X	X
756	I think it will possibly help the people that cannot afford to ride BART.		Unknown
130	I think it would be a good idea because it would be less of a burden for people to get to and from work. I think it is a goo idea		X
514	I think it would be a great opportunity for those less fortunate. It would give them the ability to commute further on the same amount of funding (and so live outside of SF or other higher-rent areas).

2077	I think it would be incredibly useful and allow underprivileged people to expand their transportation	X	X
2068	I think it would be so great because in order to get to work, I need transportation, and right now transportation is eating out a lot of my paycheck.	X	X
2261	I think it would be very appreciated, every little bit counts.		X

Survey ID	Comments	Low-Income	Minority
1139	I think it would be very useful- I'm an aspiring nursing student who's looking to start part-time work, and a discounted BART fee would help me afford to travel to and from work, and to and from school.	X	
234	I think it would be wonderful to help make it easier for low income community members to be able to travel at a cost that's easier to manage.		X
3452	I think it would benefit low-wage workers in an economy that doesn't work for them. It's a step in the right direction.		
2072	I think it would help a lot of people out and more people would ride Bart.		X
2693	I think it would help a lot of people use your service more freely and would be a great thing to have.		X
2889	I think it would help low income people in the bay area. who may be surviving on low wages. I support the plan	Unknown	
3644	I think it would help many people get to work and leisure activities. I would vote for it.		
3164	I think it would help mobility but will we you be able to manage it while also removing the paper ticket fee?		X
399	I think it would make Bart more affordable for low -income riders, thus giving them the opportunity to ride bart vs. busses that take much longer		X
794	I think it would make it very accessible, especially for low income students who have to commute to go to school!	X	
1919	I think it'd be extremely helpful for people who have financially limited access to transportation but don't qualify for the other discount programs.	X	X
3002	I think it's a fantastic idea that would greatly help out lower-income residents. Given the pervasive economic disparity of the east bay, programs like this could be an important way to level the playing field, so to speak, even if slightly. I would even support a fare hike for the rest of us to support this program.		
2233	I think it's a good and necessary thing		
1172	I think it's a good idea considering all other major metropolitan areas have a flat rate for their trains that are much cheaper.		
3689	I think it's a good idea.		

Survey ID	Comments	Low-Income	Minority
2578	I think it's a great idea - it wouldn't help me, but others definitely could use it.		
2660	I think it's a great idea and could potentially decrease the number of people driving		
1523	I think it's a great idea and long overdue. BART is very expensive. When I was livin in the east bay my husband and I were paying over \$500/m just to get to work. Luckily we had the means to afford it, but there are tons of folks that can't swing that, especially with the high cost of housing.		
3278	I think it's a great idea and would love to see it implemented on a year-long trial basis or other similar scheme.		
1794	I think it's a great idea for low income people		
2853	I think it's a great idea for students of all ages, and people in poverty, to be able to access this terrific, efficient, transportation system.		
2720	I think it's a great idea given the high cost of living in the Bay Area. My rent has gone up dramatically and my nonprofit salary has not.		X
493	I think it's a great idea idea!		
59	I think it's a great idea this will increase rider use.	X	
1231	I think it's a great idea to help low-income riders be able to afford getting around better.		
585	I think it's a great idea to keep Bart realistic and useful for all riders!		
2798	I think it's a great idea to make public transit more accessible to low income ppl, especially as more and more folks are forced to live further away yet still commute to SF/oak/Berkeley from the outlying Bay Area. Make it happen!!	X	X
3506	I think it's a great idea!		
3685	I think it's a great idea! Bart is great and should be accessible for all!		
2961	I think it's a great idea! BART is really expensive especially without something like a monthly pass since more and more people have to move out of the city but still work in SF.		X
3390	I think it's a great idea! I'd be interested to know how many people in the area qualify, rather than just the qualifications by poverty level percentage.	X	

Survey ID	Comments	Low-Income	Minority
1187	I think it's a great idea! Transportation is a great way to empower to those who are economically disempowered.	X	
1886	I think it's a great idea! Wealth disparity in the bay area is so intense it feels like it's the middle ages. Poor people are dying because they don't have enough basic necessities to survive and maintain an income. Transportation is one of those necessities in a place dominated by roads rather than walkways	X	
279	I think it's a great idea, and can't see any downside.	X	X
353	I think it's a great idea, especially for young adults and students	X	
2825	I think it's a great idea. I am not low income and used to ride BART every day, but have moved and though it is more expensive, the ferry is more convenient. Lots of people work in SF for the higher salary and with the potential of almost \$20 a day is a big financial hit.		
718	I think it's a great idea. I feel like people would still ride the same amount, however they'd be saving from having a 20% discount. I recently came back from New York and cannot understand why Bart is ridiculously expensive. Families who are being displaced from SF and moving to Oakland have to pay almost \$20 round trip per day which is ridiculous for the distance.	X	X
582	I think it's a great idea. I wish bart had monthly unlimited passes too for regular commuters.		
1043	I think it's a great idea. It will encourage lower income families to travel around the Bay more.	X	X
3453	I think it's a great idea. My employer (the federal government) pays for my commute, so it probably would not affect me.		
104	I think it's a great idea. Paying full price for transportation can really be a hindrance for people to get to work or to be able to see family and friends around the Bay.		X
2097	I think it's a great idea. We need to make transit as accessible as possible for low-income individuals.		
2141	I think it's a great program, but not sure how many people would actually take advantage		X

Survey ID	Comments	Low-Income	Minority
3456	I think it's a great program. I work at a low income school with many struggling families. This would be such a benefit to them. I hope this program becomes a reality, good luck!		
3567	I think it's a great proposal and will help keep the Bay Area affordable/accessible for low-income families.		X
726	I think it's a great, more inclusive idea.	X	X
2467	I think it's a really great idea to make Bart more accessible for low income workers. Hopefully will help them if they struggle to find jobs within walking distance or if their job is far. Wonderful idea!		X
2946	I think it's a wonderful and civic minded idea. Bart is very expensive public transportation and pretty inaccessible because of that.		
1333	I think it's a wonderful idea to help low-income riders commute and travel		
2322	I think it's an excellent idea. Please offer this! I would not qualify but I know it would be a huge help to families who are struggling with the high cost of the area. We need more ways to keep the region accessible and this is one opportunity.		
2226	I think it's awesome!	X	X
367	I think it's great		
2023	I think it's great and I hope BART is proactive in showing people how to sign up for the discounted rate if they qualify. Lots of ads would be helpful		
3632	I think it's great- I'm not low income		
3581	I think it's great. BART is expensive for a daily commuter trying to make ends meet. Though I don't think the discount would effect me personally, I hope low-income riders have the chance to lessen the burden of their commuting expense a little bit.	X	
1381	I think it's great. I hope that by offering lower fares to those that need it, it will further discourage fare evasion.		
953	I think it's great. Let's help those already struggling to make ends meet. They work hard, raise families, contribute to the local economy.		
680	I think it's important and necessary sometimes it's jug hard to pay for a ticket this needs to be done	X	X

Survey ID	Comments	Low-Income	Minority
3416	I think it's long overdue! Living in the Bay is hard enough for low-income residents, and a little ease off the cost of transportation certainly would not hurt!!!		
3695	I think it's much needed and thoughtful idea!!	X	X
3519	I think it's necessary	X	X
664	I think it's really important, though BART obviously needs more funding. It will decrease the fair evasion we keep hearing about, and regardless about whether or not that affects income, it will give low-income riders more dignity.		
3335	I think it's the right thing to do		
2173	I think it'd be a good idea if it can be incorporated into a high value ticket since I take BART for work.	X	X
1822	I think it'll be very beneficial.		X
1513	I think it's a fantastic idea! The economic disparity in the Bay Area is crazy. There are so many people who can afford to pay the full fee and deal with price increases as they may happen as BART needs it, but for so many people, these discounts will make a huge difference.		
1255	I think it's a fantastic idea.		
649	I think it's a good idea, assuming it's easy enough to prove! (also want to note I rode bart 5 days/week for 10 years up until a couple years ago)		
862	I think it's a good idea, especially considering the increasing bridge tolls affecting people's ability to get to work.		
2163	I think its a good idea.		
712	I think its a good idea. Lots of residents all over the bay area have to ride BART to get to work or school and it can be very expensive. I commute from Oakland to SF everyday for work and it costs me \$7.90 round trip everyday which is about \$160.00 a month I spend on my commute. If someone is very low income, which you can be with the price of housing in the bay area, that could be a significant amount of their take home pay. Plus other large cities like Chicago and New York have much less expensive transit systems that are comparable to BART.		X

Survey ID	Comments	Low-Income	Minority
1580	I think it's a good idea. Sometimes, I have to catch the bus because I don't have enough money for BART and I prefer BART because it's faster.	X	X
122	I think it's a good incentive and opportunity for those who need access to transportation. It may increase ridership - I just hope BART has the capabilities to handle the surge of patrons.		X
652	I think its a great idea		X
2535	I think its a great idea	X	
1311	I think its a great idea and could reduce the burden of individuals trying to get where they need to be.		X
1348	I think it's a great idea and I would happily pay more so BART was more accessible for everyone		
2726	I think it's a great idea and would help out many low-income families.	X	X
3202	I think it's a great idea for low income people/family	X	
96	I think its a great idea for low-income people.		X
120	I think it's a great idea to accommodate people who utilize BART for work, school and commuting in general rather than forcing them to choose a cheaper, longer commute and perhaps riskier.		X
2052	I think it's a great idea to be pushing for equitable and accessible transportation for everyone living in the Bay area		X
266	I think it's a great idea to give low income people a discount. I would be happy to pay a higher gas tax to do my part. Housing is so expensive and rising that its extremely hard for low income people to afford it.		
1226	I think it's a great idea!	X	
3558	I think it's a great idea!		
2158	I think it's a great idea! Helping low-income riders get where they need to go and allow them to save money for food & other necessities at the same time could really help them.		
1956	I think it's a great idea! I wouldn't qualify, but I still think we should do it!		
3062	I think it's a great idea, and essential for making public transit more accessible.		

Survey ID	Comments	Low-Income	Minority
462	I think it's a GREAT idea, especially as an increasing amount of low-income people are commuting long distances between locations where housing is affordable to places where they can generate the highest income. Yes, please do it!		
1815	I think it's a great idea, especially as low income people are being pushed outside of the city and forced to commute from farther distances to jobs in Sf		X
1392	I think it's a great idea, even though I wouldn't qualify.		
2925	I think it's a great idea, public transportation should be accessible to all Bay Area residents and providing a discount to low-income passengers is a big step towards equity.		X
1376	I think its a great idea.		X
1881	I think it's a great idea. The least wealthy people often have the most expensive commute because they can only afford to live in the outer Bay Area. They are often coming in to work low -paid service jobs and we need to help them get to work. I think children, youth and low-income people should pay less.		
2975	I think its a great idea. If a commuter is working for minimum wage, they basically work the first hour for free because of how expensive BART is to get there and back. The Bay Area is just expensive in general. A discount would really help.	X	X
264	I think it's a great idea. The bay area is one of the most inequitable places in the country right now, and public transportation is the only option for many people. Let's help our community.		X
1740	I think it's a great program. Ideally though, people in need should be able to ride BART for free. Thanks!		
2309	I think it's a great step forward in addressing how a utility like BART can serve as an economic hurdle to growth. Acknowledging the reality of many of your riders, and the "invisible" pressure of more and more people slipping into dire economic straights	X	
1766	i think it's a really great idea, and i'd also love to see it expanded in the future!		
1760	I think it's a small drop in the fight against income inequality, but every little bit helps!		

Survey ID	Comments	Low-Income	Minority
2101	I think it's a very great program especially with the economy and prices of gas going up it'll also help people learn to commute more on BART are public transportation if the fares are reasonable enough to fit in their budget thank you for what you are doing single mother of five you helping me out a lot	X	X
2181	I think it's a WONDERFUL idea! People would DEFINITELY be saving A LOT of money!	X	
2637	I think it's a wonderful idea. I know other cities that offer lower fares for low income people. It would be much appreciated on BART	X	
2356	I think it's an excellent idea! Public transportation should be as accessible as possible.		
2746	I think it's an excellent idea. Often low-income people have to live far from where they work, where housing costs are lower. They may rely more heavily on BART than people for whom driving is easier or not expensive. Plus young people rely on BART.		
1947	I think it's an excellent idea. I can afford to ride the Bart but for someone on minimum wage it must feel very expensive.		
1059	<p>I think it's crucial to have discount program because it will incentivize people to use an affordable type of transportation, such as Bart -- more often. Even though Bart is already considered cheaper than other modes of transportation, i feel that the cost of Bart has been rising faster in a short period of time. This puts more stress on the low income population who are trying to meet basic needs and commute to work and school at the same time.</p> <p>Having this program will encourage students, teachers, and professionals to use Bart without putting a dent in their pockets. With the cost of living increasing so drastically and wage declining, it is so difficult to live in the bay area. Having this program will really incentivize people to use Bart more and shop more. Overall, it's a good thing for the economy.</p>		X
1411	I think it's good -- BART is really expensive but also really useful, so this would help those that need to make use of BART but can't afford to do so	X	X
66	I think its great	X	X

Survey ID	Comments	Low-Income	Minority
1475	I think it's great		
983	I think its great as long as the eligibility is kept simple and doesn't frustrate the consumer. For instance, CalFresh and MC recipients just need to show their card or even someone can self-declare if there is no other means of proof.		X
969	I think its important means of transportation for everyone and should be accessible. The discount would make it more affordable for low income people who often use part as a main source of transportation to their jobs and to fulfill other daily duties.	X	X
250	I think it's only right for a discount to be available to those in low-income situations. The cost of living in the Bay is insane - people are being forced to live further and further away from where jobs are located - yet most are not paid enough to cover bills, transportation, and daily needs comfortably... At least a discount would help alleviate some of that!		
3590	I think its the only equitable way forward. But 20% discount is insulting to poor people. most cities are 50% off for poor folks. This is a joke.	X	
1202	I think k it's a good idea to provide discount t program for the low income family. As such, Bay area affordability is sky high and is definitely is very hard on low income people. If this can help their situation a little better, I would strongly support it.		X
2013	I think low income people deserve better access to public transportation! It would allow people greater access to community, commerce, medical, etc. If ridership increased to these communities who need it most, I would imagine an overall net gain for everyone.		
1796	I think low income people would benefit greatly, and teachers would also benefit as well. Many teachers who teach in SF can't afford to live there and rely on BART to get to their jobs. While teachers may make more than the federal poverty level, a discount would be significantly helpful.		X
2088	I think making transit mobility more affordable would be a good way to help low income households.		

Survey ID	Comments	Low-Income	Minority
2005	I think nits a wonderful idea since many low-income people don't tend to leave their general areas or drive places due to the expense of taking BART. This would increase public transit usage.	X	X
388	I think offering this discount is a wonderful idea to help facilitate the continued ability of low-income riders to be able to use the system. The yearly fair increases for BART will likely continue, and the cost of riding BART each way may soon become untenable for some riders who contribute greatly to jobs all over the bay area.		X
973	I think passing this shouldn't even be a question. it would be a massive help to low income individuals and should be extended to accommodate anyone earning under \$50k annually when you consider the exhorbitant cost of living near Bart lines		
3322	I think prices should be lowered all around, but especially for low-income riders.		X
1732	I think proposing this is a great idea, as prices for everything around us goes up i.e. gas, housing, tolls; providing alternatives like this would definitely encourage me to use bart over driving more, however extension to the southbay is imperative.	X	X
1027	I think t is a great idea. Living and commuting in the Bay Area is very expensive and anything that would help low income individuals and families would be great.		X
2722	I think that a discount for low income riders would be a small, but good, step toward mitigating the high cost of transportation costs for our areas more vulnerable population.		
1855	I think that a new discount for low income would be beneficial for the rider and for Bart. It'll make it easier for the regular rider who is already struggling to get by. I think it would discourage some from evading fare,	X	X
2372	I think that it's a great idea because you're allowing more people to have a better means of transportation.		X
2665	I think that it's an amazing idea to have a discount program for low income riders		X
2408	I think that this is a great idea!		X
36	I think that this is an excellent program to help low-income BART riders.		

Survey ID	Comments	Low-Income	Minority
798	i THINK THAT THIS WOULD HELP SERVE THE GROWING POPULATION OF PEOPLE WITH DISABILITIES AND THOSE WHO ARE HOMELESS OR AT RISK OF HOMELESNESS.		X
1349	I think the discount program for lower income riders is a great idea		X
683	I think the discount program is a good idea		X
1829	I think the discount would be fair to low income residents of the Bay Area who rely on BART to commute to their jobs. The cost of living here is atrocious, and residents who are forced to live far from the jobs deserve a break in the cost of their commute.		
1895	I think the discount would help all low income peoples		X
451	I think the discounts on Bart would increase accessibility of transport to more people allowing them to more efficiently get to places of employment and aiding them in providing for themselves and their families.	X	X
840	I think the fares are extremely high. NYC subway is cheaper, Bart should be too. More people would ride it maybe. Aside from that, there should absolutely be a discounted rate for low income riders. And how about having it run all night?		X
346	I think the new discount program would be a great idea. So many of us are struggling with the high cost of living in the SF/Bay area. So a discount on transportation that we use everyday would help us save a couple bucks a month	X	X
813	I think the potential new discount program for low-income riders is a great idea. With how much cost of living is in the Bay Area, every little bit of discount would help.		X
1383	I think the program is a good idea; public transportation should be accessible to everyone, not just the well-to-do.	X	X
1082	I think there would be more incentive for low-income people to commute to get jobs. I also think it would be easier for homeless people to travel to a new job.		X
20	I think they should offer this program		X
1879	I think this a great for low income and elder riders.		X

Survey ID	Comments	Low-Income	Minority
834	I think this could be a really great program. It would allow low-income riders a more affordable means of transportation which could potentially enable their lives in other ways (ability to get to a job in a different area opening up potential job opportunities). Additionally, if these low income riders are not already riding BART, this could be potentially increase revenue for the BART systems.		X
1526	I think this discount program is important for making BART/public transit more accessible for all of the Bay Area's residents, and it would increase BART usage.	Unknown	
2200	I think this discount program is vital for people with low incomes in the Bay area. Given the tremendous cost of living in the Bay, anything helps for people who are financially struggling.		X
2269	I think this discount would be extremely beneficial and help ensure that transportation is available to people of all economic backgrounds.	X	
1474	I think this is a benefit that should be available to low-income households.		
127	I think this is a good idea because the cost of housing in the Bay Area is so high that it makes it difficult for families to afford everything else.		X
3648	I think this is a good idea. For seniors I think the 20% should apply on top of their already discounted tickets.	X	X
305	I think this is a good idea. I won't qualify for the discount, but I think it would benefit my community. I like my tax dollars going toward helping people, and people should be encouraged to use mass transit.		X
1507	I think this is a good idea. I would also be happy to opt in to an opposite program that lets me pay more for tickets. Perhaps round up to the next dollar. I'm able to afford it, but there's no way to do it that I know of.		
816	I think this is a great idea and should be implemented as soon as possible!	X	
1302	I think this is a great idea and would be so beneficial to those living in such a wonderful area but one that is difficult for many to afford.		
2602	I think this is a great idea to increase ridership.		

Survey ID	Comments	Low-Income	Minority
1248	I think this is a great idea! All public transportation should have a discounted fare. Please help these people out!!!!		X
508	I think this is a great idea! I think the reason more people don't take bart is that many times, it is more expensive than Muni although BART is a better alternative.	X	X
1304	I think this is a great idea, and necessary to help ensure long time Bay Area residents can continue to live and work here as living costs skyrocket. I'm not low income and would not qualify, and 100% support this change. I would also support a larger discount - it's needed.		
3102	I think this is a great idea, given that many people rely on BART who qualify as low income and keeping in mind the rising costs of the Bay Area.	X	
1579	I think this is a GREAT idea. As a young starving student, I use BART to get to campus (and then work) 6+ days/week. I ride alongside the well-dressed SF commuters every morning who are presumably headed to well-paying jobs in the City, while I'm struggling to make ends meet. Right now, I pay the same fare as they do.	X	X
360	I think this is a great idea. Bart needs to do something for the community besides arresting kids who are fare jumping in an attempt to get home or whatever.		
3505	I think this is a great idea. Lower income people are at a great disadvantage to successfully keep employment when they have to struggle to get to work.		X
1449	I think this is a great idea. As a UC Berkeley student and Bay Area native, the housing crisis made it difficult for me to live near campus. I had to use BART for 2 semesters as it was a more affordable option for me to continue my studies. Having a Discount for low income folks would be great (and maybe even students).	X	X
2312	I think this is a great idea. I took Bart as a kid while living in a homeless shelter. Sometimes I couldn't go to school because I couldn't afford bus and Bart fare.		X

Survey ID	Comments	Low-Income	Minority
2291	I think this is a great idea. I used to ride BART daily when I commuted to work from Oakland to SF. The costs really added up and were a burden on my fixed income. When I sought out a new job my goal was to work in Oakland to cut back costs. By discounting tickets low income working class BART riders, BART can great impact people's ability to make ends meet.		
3221	I think this is a great idea. It could help individuals get to work more easily, especially those for whom transportation is already a huge cost and potential barrier to work and financial security.	X	X
1206	I think this is a great idea. It just wouldn't effect me personally.		
1312	I think this is a great idea. Public transport is meant for the entire public (duh)	Unknown	Unknown
784	I think this is a great option for Bay Area residents who qualify with low income.		X
1755	I think this is a great way to provide a safe and accessible way to move throughout the city. I know people who work late at night and would benefit from having a discounted program. It is a great way to serve the community. If this program is created, please make sure to promote it and make sure that communities are aware of this opportunity.	X	X
1876	I think this is a no-brainer. For many low-income families transportation can be a cause of major stress: coordinating one vehicle or not owning a vehicle at all, inability to afford maintenance on a vehicle; there are many reasons a discount program would ease transportation stress for low-income riders.	X	X
2641	I think this is a really good idea! As the cost of living in the Bay Area has gotten higher and higher, transportation costs have also been a big expense that adds to the barriers for low-income people in the Bay. This program would be a big improvement in making the Bay more affordable and accessible for long-time residents.		
949	I think this is a wonderful idea		X
1663	I think this is a wonderful idea. Even if I don't personally qualify, I think this option would help a lot of people.		

Survey ID	Comments	Low-Income	Minority
2520	I think this is an awesome idea!!! This could open up many opportunities for people to not only commute on BART instead of by car, but for those who don't have a car, they could find jobs or housing in cities in the bart area.	X	X
2541	I think this is an excellent idea and support this program. I am not low income anymore, but remember the transportation struggle from when I was, and reducing BART costs for low income people will make public transportation a more viable option for them. This should also be extended to include AC transit, cal train, ferry service and county buses.		
413	I think this is an important step to making the bay area more equitable and fair!		X
3194	I think this is an important step, and I think it would be additionally helpful to eliminate increased fares for exiting and entering at the same station for low income riders.		X
2273	I think this is an incredibly important step for BART to take. Low-income riders need discounts for transportation. The Bay Area has become nearly unlivable for low-income people. Public transport must be affordable.		
335	I think this is an incredibly positive idea.	X	X
1377	I think this is awesome and very helpful, especially for low-income college students and workers that have to commute for long-distances. Hopefully the lower middle class could get a 10% discount years later too.	X	X
1251	I think this is essential for the increasingly expensive Bay Area!	X	
2923	I think this is great because it could allow people to travel to SF for higher paying jobs if fares were lower.		
2628	I think this is great for low-income riders because their cost of transportation will be decreased and they can have more money to spend on themselves or on their families. Life is hard for many in the Bay Area and with an incentive for low-income people, this will be a great idea because this can potentially lead to more BART ridership and can possibly decrease vehicles on our roadways, therefore, decreasing congestion.	X	
1188	I think this is great. The Bay Area has a lot of struggling families, and every little bit helps.		

Survey ID	Comments	Low-Income	Minority
696	I think this is long over due. Living expenses in the Bay Area are too high to begin with. I've literally turned down jobs or didn't even consider because I couldn't afford to get there on a regular basis due to its proximity to public transportation.	X	X
672	I think this is much needed. Bay Area is an expensive place to live and people commute long distances. This will definitely help!		X
3568	I think this is necessary for low income folks. People need to get to work and go to school! The Bay Area is getting harder and harder for folks like me who have lived here over 20 years to stick it out in. The cost of living has become ridiculous. Please institute this discount! Thank you and Happy 2019.		
3297	I think this is really important to expand fees for low income folks. With more and more telecommuting, it would help more people get to work and around the Bay.		X
1183	I think this is super important. Transportation is a crucial part of survival for many people it's takes them home, to school, work, everywhere. People deserve to have access to these parts of life.	X	X
110	I think this is very crucial to many low-income riders. It would offer a multitude of opportunities not otherwise afforded to them. To do this would open doors in career and education for many folks.	X	X
1034	i think this is very necessary as many low-income people rely on BART for transportation, and it is important for this means of transportation to remain accessible to them.		X
691	I think this is wonderful. As my mother and who father have been blind all their life needed to go places I would have to pay full price..This is wonderful.	X	X
1622	I think this new discount program is a good idea. I also think that this program can reduce fare evaders.	X	X
3200	I think this new program would be great for low income riders. It would prevent them from jumping the rails because they can afford to travel on Bart . The bay area is a very expensive place low income people need transportation to get from and to there destination	X	X

Survey ID	Comments	Low-Income	Minority
1659	I think this program is a good idea. Anything that helps alleviate the cost of living for low income families is welcomed.		
893	I think this program is great, I've been riding Bart since I was a kid and I've seen the fares increase over the years and it makes it harder on low income riders because we depend on public transportation. Increased fares/high fares makes much harder on families.	X	X
2957	I think this program is great. I used to take BART from the East Bay into Downtown SF Monday-Friday for work and the cost was an enormous burden. I was spending upwards of \$400 month on my BART costs alone- this took a huge percentage of my income. I have had the opportunity to take public transportation in other areas of the country and the world and I've always been impressed not only with the efficiency, cleanliness, expansiveness, and reliability of their networks, but by their fare prices as well. Other areas prove that reliable and effective transportation systems can be offered at a lower cost to the rider- regardless of income level. 20% off for our most vulnerable members of the population is just a start. If the system was more affordable I truly believe that far more people from all walks of life and all incomes would start using BART to travel in the Bay Area.	X	
1597	I think this program is very necessary to provide access to public transportation for all individuals as many rely on this mode of transportation. I fully support all programs that offer access to programs for low income riders.		
3432	I think this program should happen. While I can afford to pay the current bart rates, this is a means of public transportation and discounted/free public transit would allow folks to be able to travel more effectively and safely.	X	X
2094	I think this program would be very helpful ??	X	X
243	I think this program would be very helpful for me as a low-income college student.	X	
85	I think this program would be WONDERFUL, if a family is making so little money in the Bay Area- they are going to need a little help!		

Survey ID	Comments	Low-Income	Minority
3276	I think this will benefit or make it an incentive for people to ride BART instead of driving, potentially	X	X
1772	I think this will help so many people.		X
3611	I think this would be a great help for low-income riders. Because it encourages the use of BART, low-income folks might find it easier to travel to jobs/job interviews, health care check-ups or housing opportunities that they might find difficult to get to without financial assistance on BART.	Unknown	
1711	I think this would be a great program because many people use BART to commute to minimum wage jobs or to school. However BART does need to make sure to do proper outreach to communities that would benefit the most like Spanish speaking communities or communities whose main language is one other than English.	X	X
3704	I think this would be a great program.Bart can get very expensive especially when you commute every day of the week.I alone spend \$500 a month on bart	X	X
1287	I think this would be a very important new program that I'd fully support seeing in action.  In my opinion BART has indeed gotten too expensive for low-income riders, and probably the price increases are just fine for richer folks (which helps subsidize the whole system), so this seems like a smart way of increasing accessibility for those that need it, as opposed to just pushing for lower fares unilaterally. So good job on this, I support.	X	
2037	I think this would be an excellent way to reduce traffic, help the environment, and to give back to the community who needs it the most.	X	
776	I think this would be an important program for many people		
1473	I think this would be incredible for low income riders, especially because they often have long commutes.		X
3275	I think this would be incredibly useful and important for those who rely on bart to get to work		X
2305	I think this would definitely help low-income riders be able to get from point A to point B without having additional financial burdens.		X

Survey ID	Comments	Low-Income	Minority
3192	I think this would make bart more impacted and Bart already cannot support the number of riders it services each day.		
497	I think we need this program in the Bay Area where too many people have fewer options because of their income.	X	X
2297	I think we should make Bart more affordable for people who can't pay. I'm all for it		
392	I think we should pass it. It will help stop fair evasion. It helps people who travel into the city for low paying jobs. Also, with the amount of wealth in SF we should be creating programs exactly like this to help those who live here and barely get by. I hope this passes. Good work Bart! (I commute on the Muni but my husband uses Bart everyday).		
717	I think you should definitely do it.		
2149	I use BART to commute to work M-F already so I wouldn't use it any more for a discount. I am all for a discounted fare for adult riders from low-income families. BART is expensive!		X
2252	I use Bart to visit friends and family as almost all have moved out of SF. I would visit more if it were more cost effective.	X	X
2813	I used to commute by BART around 5-6 days each week at my old job. I was spending about \$200 per month on fares, which took up a significant portion of my income (I was making about \$1600-2000/month). Saving on BART fares would have helped me a lot in terms of extra discretionary income and saving more money.	X	X
504	I used to ride BART far more often (multiple times a day, on average) before getting my license. A low income discount would have relieved my budget immensely. One of the biggest obstacles to people living in poverty, especially people of color, is access to reliable and affordable transportation. This would be a huge help to probably thousands of people throughout the Bay Area, especially if outreach and support were done to assist people in accessing this wonderful program.		
2341	I was going to get a youth clipper card last summer when I was 17 and working in SF. Until I saw you had to buy a separate youth clipper card. This 20% would save me a lot of money.		X

Survey ID	Comments	Low-Income	Minority
2879	I whole heartedly AGREE that we must provide this discount to low income riders. Great idea!!!		
929	I wholeheartedly support assistance for those being left behind by income inequality in the Bay Area. Do it!		
3573	I work as a nanny to a family in San Francisco and live in concord. The family I work for does not pay for my BART. This discount would help me afford to take BART more often on the weekends to school.	X	
1500	I work in tech and receive a transit benefit (tax free) from my employer, so I'm not a candidate for the program but I hope BART decides to put it into action! While I'm not currently low-income, BART has only gotten more expensive over the years and the cost affects many Bay Area residents and their options. This summer I watched my very low-income partner give up a new job he loved because he couldn't afford his daily BART commute. I think this discount program is an amazing proposal and I'm in full support.		
1709	I work in the Tenderloin District in San Francisco with many low-income residents who would having something like this would be life-changing. It would make traveling across the city more efficient.		X
499	I work with many underserved folks in the East Bay and see how challenging of a barrier transportation is to their inability to access appropriate services or find jobs. It is incredible that BART is considering providing discounts to low-income riders. This decision would make the Bay Area much more equitable - truly transforming opportunity and support for more vulnerable members of our beautiful and diverse community. On behalf of others in my work and the lovely individuals I've had the privilege to know, I strongly recommend that this discount program be implemented. Thank you so much for your care, compassion, and consideration.		X
1423	I worked with a lot of the homeless/unstably housed community living in and around Berkeley, and knew SO MANY folks who rely heavily on BART to make it into SF and other places for job interviews and the like. We often gave them Clipper Cards/BART tickets out of our nonprofit budget, so this initiative is a huge positive step in supporting underserved people in the Bay.		X

Survey ID	Comments	Low-Income	Minority
143	I would actually choose bart over driving to most places instead	X	X
2882	I would appreciate this discount very much.		X
322	I would be one of these riders. I've had days where I can't afford BART and have to walk for miles to get where I need to go. This would help me out so much.	X	
2671	I would be willing to pay higher fares to support subsidies for low income riders. And I am a teacher, making *only* \$78k/yr.		
2095	I would be willing to pay more on my muni fast pass to make more discount programs available for low-income riders.		
2544	I would benefit in a HUGE WAY from to a 20% discount; as I am a very-extremely-low-income resident of San Francisco, and I have been able to call this beautiful city my home for the past 43 years. I've calculated the POTENTIAL savings, and if this 20% discount DOES take effect, it would allow me at LEAST (2) Round-Trip Bart fares Per Month (!!!) to visit my immediate family, which are all "Bart-able" from my home in downtown SF!! And so that is why I am looking forward in the most hopeful, and positive way to seeing this 20% discount take effect as soon as possible!		X
996	I would definitely support this as someone who relies heavily on BART and all connecting transit systems (Golden Gate Transit, Marin Transit, AC Transit...) I spend \$20 a day on my commute, which cuts heavily into my budget as a recent college grad bogged down with debt.	X	X
1803	I would hope it would lower fare evasion while making the Bay more livable for struggling families. Win-win situation.	Unknown	Unknown
880	I would like to sign up		X
1457	I would LOVE IT if BART provided our low-income riders a discount program. BART is a central entity of the Bay Area, and our low-income brethren are just trying to get to work/their business like the rest of us. If BART could be a champion of this, as an agency that seeks to help its patrons, I would love yall forever.		
362	I would love to know more when this is available. Paying for my commute weekly is becoming a headache and I feel like it's not worth it to commute		X

Survey ID	Comments	Low-Income	Minority
829	I would love to see BART support lower income families in the bay area with this discount program		
1585	I would love to see low income earners in the area get some sort of a break, and this is a great way to start!		
2373	I would not benefit from this discount program but believe it is a great idea.		X
963	I would not personally be eligible, but I think it is a great idea.		
947	I would not personally benefit from this program, but I strongly support it and I'd be willing to pay a little more in fares or taxes to support it.		X
705	I would not qualify for a low-income program but I strongly support the creation of one for people who would benefit. Cost of living is so high in our area; people need relief.		X
454	I would not qualify for the discount but I think it should be made available for those who do qualify.		
3273	I would not qualify for the discount, but I strongly support it even though my fares might increase as a result. Transportation is so very important to the survival of Bay Area families, especially with rising rents forcing people further and further toward the fringes of the Bay. A discount for low income riders would be a huge help for people trying to keep their jobs when they have to move. Better access to transportation for low income Bay Area residents will enrich life for all residents.		
1631	I would not qualify for the program, however I am in favor of it. I think good, fast public transit such as BART should be financially accessible to all.		
1946	I would not ride BART if I didn't have the disabled discount.  I think the new program is a good way to make the cost of fare increases less of a "regressive tax" on low income riders.		
1421	I would really appreciate it! Public transit needs to be accessible and it really adds up, especially for folks who commute every day		X
1921	I would still ride BART the same amount as it's necessary to get to my job, but it would make commuting more affordable		

Survey ID	Comments	Low-Income	Minority
1874	I would use BART a lot more if I received a discount. It would be very helpful in my commute to work. Right now I can't afford to use BART to go to work.	X	
1427	I would utilize this five days a week to get to school in the east bay. As it stands, it would cost me nearly 14 a day. Also— can we please find a way to end the gate jumping? It's super frustrating that I'm paying so much and there are no consequences for evading your fare.	X	
3602	I would visit friends more often. Easily.	X	X
3339	I would welcome such a program, and feel this would give many the chance to better their employment situations. Depending on the job, transportation costs can make it almost not worth having the work! I think this would help the low income bay area residents pick themselves up improve their lives, and the over all economy too. Thanks for this opportunity to give input.		
2845	I wouldn't qualify for the low income program however it is important to offer discounts to low income communities. It's a great step for the Bay Area and a good bar to set for public transportation.		X
57	I wouldn't need one but I'm all for it		
3366	I wouldn't personally benefit from it but it's a great idea. But to make BART really valuable for low-income riders, it's probably more important that it is reliable and efficient.		
3122	I wouldn't qualify for this discount personally, but I think it is very important to make transportation more affordable for low income families. I strongly support a discount for low-income members of the community and encourage the discount to be even more discounted than proposed.		
3052	I'm a broke college student with a part time job, please make it cheaper for me to go back home to sf every month.	X	X
2080	I'm a full time student and full time retail worker. i make above minimum wage in sf and STILL only make around \$16,000 a year. I support my disabled partner and pay both our rent, and have to figure out transportation on top of everything else. Bart is incredibly expensive for me and i often just don't have the extra funds to take it.	X	X

Survey ID	Comments	Low-Income	Minority
1988	I'm a low-income first gen student at UC Berkeley and this would be extremely beneficial. I'd be able to get internships in SF. BART prices are ridiculously high	X	X
3367	I'm a single mom of 3 kids. I'm working in San Francisco I pay the parking and taking bart 6 days a week. I have Medical and WIC program little saving will help me in our family expenses.	X	X
1371	I'm all for it.		
3329	I'm been on disability so a program to help out lower income families/people would help immensely.	X	X
2647	I'm in favor of adding this new discount! This provides an alternative solution for low-income families on transportation and I am in agreement		X
1282	I'm in favor of whatever support will help lower income riders navigate the high costs associated with living in the Bay Area.		X
3604	I'm not a low-income rider, but I support the idea of discounted or subsidized fares.		
1557	I'm not low income but I think this would be amazing for those that are		X
1207	I'm not low income, but think it's very important to offer this. Too many people hop turnstiles/get ticketed, or lose out on opportunities because they can't get somewhere because they can't afford BART		
3209	I'm supportive!		
1650	I'm very excited about this program! I wouldn't qualify but I think it would be a great way to help those less fortunate in our community.		
3079	If and when BART gets the following, I'd ride more.....all new cars on the Dublin/Pleasanton line all the time, and guarantee better safety. Until then, I won't ride BART! PERIOD!!!!	X	
754	If I have 20% discount, I will use Bart more frequent.	X	X
389	If it does not raise fares for others and also does not impact the current Dev plan it's fine. Please ensure that people can atleast get breathing space. The trains to east bay are so packed that one cannot have breathing space	Unknown	Unknown
2540	If it were to encourage people that normally don't pay, to contribute to the system, I would prefer it.		

Survey ID	Comments	Low-Income	Minority
1860	If someone is low-income enough for free muni, they should get free Bart. That said, I'll take what I can get I guess	X	
1603	If you want to encourage public transport and less economic disparity, this could help a lot of people in a lot of ways		
1916	I'm a low income rider on food stamps and its often very hard for me to afford commuting to my campus. This would help a lot of low income workers and families.	X	X
778	I'm glad BART is considering this option. I'd also like you to institute a monthly pass option, something available from nearly all other major bay area transit agencies. This would benefit everyone.		
3556	I'm in favor and would accept my own fare or taxes increasing in order to afford a discount for those who need it.		
37	I'm in favor of it		X
595	I'm in favor of it in general. Will BART have more trains if this proposal increases ridership?		
3337	I'm not a low income rider, but I would support higher discounts for low income riders including 100% discounts.		
933	I'm not a low-income rider, but I think this program is a great idea for those who would qualify. BART fares can be expensive for people living paycheck to paycheck, and this will be one less thing for people in precarious financial situations to worry about. Thank you for considering this and making mass transit more accessible to people who most need it.		
3384	I'm not in a low-income situation, so I don't think the discount program would really affect me personally, but I think it makes a lot of sense to implement it. Transportation is a necessity, so why not lessen the financial burden on people who already have enough financial burdens?		
1806	I'm not low income, but I generally take busses because they cost a lot less than Bart fares. For those who have to come from a longer distance, reduced fare Bart can mean not having to skip a couple meals a week		X

Survey ID	Comments	Low-Income	Minority
3139	<p>I'm not low income, I'm actually on the high income scale which makes me middle class in the bay.</p> <p>I commute into the city on bart for work so I probably wouldn't use bart more if it was cheaper.</p> <p>But low income ppl need this. The cost of living has increased so rapidly, ppl need transportation.</p> <p>Bart should be expensive for tourists and cheap for low income</p>		
3239	I'm not personally low-income but I deeply believe we need to keep transit accessible for everyone.		
3295	in favor		
598	In the past, when I have had friends who had fallen upon hard times, I have offered to pay for a clipper card for them, because I recognized that the ability to get from place to place, including to see family and to job interviews, was an important part of people able to get their lives back on track. However, I am only one person (specifically not a multi-millionaire) and so I can only help a small number of people in this way. I think that this program is a great way to begin to extend this assistance to those in need on a larger scale. I hope that in time the 20% discount will be increased.		
2550	In think it would be a great idea for video makers. Traveling around on BART all day filming can be expensive, and this would be interesting for someone like me.	X	X
2673	In this past year when I was injured and I had to take muni in addition to bart, i found that the cost of transportation was pretty unbearable. I had to make some hard decisions about what to cut or find a way to not go into work. for less mobile riders, especially elders on a fixed income, i imagine that this could mean the difference between riding to the hospital and being able to pay for the rising cost of medical care. i support the proposal of having a 20% discount off the increased prices that the seniors.	X	X
3035	Increased number of riders, making the system more efficient and more people will want to use it.	X	X

Survey ID	Comments	Low-Income	Minority
109	Increases in BART prices have impacted many residents of the Bay, specifically all throughout Oakland. It would be encouraging to be able to provide a discount for riders so that the convenience of BART will be used by everybody.	X	X
965	It could be a lifeline and get cars off the road. Win win		
2753	It could increase mobility for low income folk which could expose them to opportunities that are farther away. For example education and job opportunities to put knowledge and money in the hands of low income folks		X
3679	It good!! Do more!!!		
2773	It has the potential to benefit those with the greatest need.		
1624	It is a critical step to make BART/public transit more accessible for those who most need it in the Bay Area. BART is far more expensive than many public transit options in other major cities like Los Angeles and New York City (and maybe even Seattle). Yet, inequality is growing in the Bay Area, and people who do not have cars are most likely to need BART, but it is often too expensive for those very people.		X
2313	It is a good idea to have a new discount program for low-income riders.	X	
692	It is a good idea!	X	
170	It is a great idea		
1555	It is a great idea and I really hope you go through with it	X	
1816	It is a great idea and much needed to alleviate pain for lower income folks in the Bay Area. Do it!		
2054	It is a great idea!		X
255	It is a great idea! Transportation is a huge barrier for many people who face financial difficulties, so a discount program could be a good solution. This program could make it more feasible for people to get to grocery stores, medical appointments, or even job interviews.	Unknown	X
907	It is a great way to use the gas tax!		X
3499	It is a nice program	X	X
999	It is a start		
830	It is a very good idea since a lot of people rely on BART for transportation	X	

Survey ID	Comments	Low-Income	Minority
506	It is an amazing opportunity! Paying for bart is very expensive and it feels like a relief knowing that there's a chance that our expenses could start being reduced.		X
1861	It is an great idea and i fully support it!		
472	It is completely inexcusable that BART is so expensive and as the only transit system of its kind in the area, not monetarily accessible nor safe for the majority of low-income, working class, and marginalized community members to ride. I feel such a discount program to be necessary and vital.	X	
2189	<p>It is costing me \$260 per month approximately for my BART and Muni usage to/from East Bay to SF. That is over \$2000 per year. There should be a larger discount for those using both systems as those of us that work away from downtown need to take both systems. The high cost of transportation is a factor when I look at finding work in the East Bay or moving out of the Bay Area entirely.</p> <p>I am all for giving a discount to those at poverty level...great idea.</p> <p>I would appreciate more attention to the large numbers of people sleeping across multiple seats that are there in the a.m. when the commute starts, resulting in mess, difficulty for commuters (one guy had vomited on himself for example). I suspect they have not paid and the situation seems NOT to be well managed by BART.</p>		
3298	It is definitely going to help out people with low income		X
3509	It is essential for poor, working class and seniors to get access to work, food and social n medical appointments!		X
54	It is good.		X
1661	It is great idea that would be helpful to those already struggling to get by.		X
1493	It is important to provide such opportunities for low income riders as there is clear evidence and data showing that low income folks are continuously being displaced from their home and continue to rely on public transportation to get to work. Transportation is becoming a necessity for families to have employment and it must be made accessible.		X

Survey ID	Comments	Low-Income	Minority
956	<p>It is much needed! As housing costs rise, folks who are low-income have to move farther and farther away from SF and a burgeoning job market. Instead of alleviating the poverty of these families, BART has chosen to contribute to it by increasing ticket prices and hiring extra fare inspectors. To make matters worse, fare evasion citations are racially disproportionate:  <a href="https://www.sfchronicle.com/bayarea/article/Nearly-half-of-BART-fare-evasion-citations-go-to-13264277.php">https://www.sfchronicle.com/bayarea/article/Nearly-half-of-BART-fare-evasion-citations-go-to-13264277.php</a></p> <p>The logical answer is to instill a discount for low-income riders, especially when every other public transportation system provides a low-income discount. BART has consistently chosen to respond punitively to those economically disadvantaged, and this certainly impacts the trust (or lack of it) riders have in BART. Do the right thing.</p>		
765	it is necessary to provide transportation to low income people so they can get to work, hospital, school, etc		X
3372	It is needed. I work 3 jobs and have a family of 5. I can barely afford the BART fare.	X	
1160	It is only fair to offer a discount to lower income families. Upper income families have advantages such as a cap on SSI payments, tax exemption for home ownership, not available to renters. Lower income families pay a disproportionate portion of their income on sales taxes for necessities. Upper income families are also a larger burden on earth systems. More lower income families cannot afford to own and maintain a car. Lower income are more dependent on public transportation. Lower income are more likely to own older, more polluting cars. A twenty percent discount for lower income families is the least we should do to make the system more fair and reduce pollution, including GHG.		
3496	It is sorely needed. I believe in public transportation and now my commute is way too expensive.	X	
34	It is very good	X	X
693	It is very important and should be implemented asap	X	
3169	It is very important to make Bart affordable for everyone, especially for the low income community.		X

Survey ID	Comments	Low-Income	Minority
919	It makes perfect sense to me. It's only fair, considering how expensive the Bay is now.		X
2124	It makes sense to provide more access to the individuals that could benefit from support.		X
3516	It makes sense. I feel that techies should pay more to fund Bart to make rides affordable for low income people. Not everyone can afford the increasing costs of Bart.		
2918	It needs to be available by 2019!		X
2258	It really adds up for those of us who pay for our kids' cards as well as our own.	X	
1315	It seems fair to me to give a lower rate to people who need it. I'd feel much better about supporting this program than paying for all the people I see evading fares every day.		
349	It seems like a great way to attract increased ridership. I'm in full support of such a proposal.		X
2049	It should be in place because I'm so sick of seeing people hop over the gates. Or worse, shuffling up behind me when I scan my card.		Unknown
1832	It should definitely be passed. The reason some people don't ride bart/don't pay for their tickets is because it's too expensive. I rather go on bus and have it take longer than pay for bart because of bart's high prices.	X	X
1289	It should not be implemented. Everybody should pay their fare share while riding BART. I don't want to pay even more in transportation costs (gas tax etc.) so a bureaucracy can be created that will cause more problems than it solves.		
1505	It sounds good!		
944	It sounds like a good plan. Encouraging BART use by lower-income riders seems a benefit to all. Providing access for those in need seems important.		
3033	It sounds like a great and well-needed program.	X	
2504	It sounds like a great benefit for single mothers		X
2942	It sounds like a great idea!		Unknown
676	It will encourage more people to use Bart. The current carpool system for transbay sucks at the moment.		X
380	It will help and it encourage me to drive less.	X	X
2215	It will help numerous people		X

Survey ID	Comments	Low-Income	Minority
1724	It will increase ridership and boost the economy by making it easier to commute for both train riders and drivers.	X	
2636	It wont change hiw i ride bart because i use it for work but i could afford food more easily with the discount. I pay almost \$10 a day, that would be \$2 more for food.	X	X
423	It would alleviate a lot of pressure	X	X
1594	It would allow for me to seek work further away without worrying about spending too much on transportation	X	X
1653	It would allow me to save money because I have no rainy day savings. I sometimes ride bart from Oakland TWICE to go to my two jobs	X	
2555	It would allow more accessibility for low income riders to ride BART and lessen the financial burden on people who use BART as their main form of transport.	X	X
1676	It would be a great addition. Others and I would ride Bart more often if it were cheaper.	X	X
2011	It would be a great benefit and hope gain more people paying, keeping prices stable.		
3160	It would be a great help to low-income riders. The Bay Area is a very expensive place to live, and I feel it would benefit riders and BART, not only financially.	X	X
3617	It would be a great idea		X
2968	It would be a great idea because people with low income could visit more places around the bay area. If this passes it would be an improvement for Bay Area transportation services.	X	X
3450	It would be a great way to encourage Bart usage		
707	It would be a really great way to save more money for riding Bart so frequently to work. The high value discount is nice and convenient to use. But since I make minimum wage, it'll help me cut costs for personal expenses.		X
3691	It would be amazing to have this option. I live in the east bay and commute to SF for work. I make just enough to survive if you had this then this could mean the difference between a few more times to eat out that week or more frequent trips. Either way its noticeable for people like me and I'm sure others in the same boat.	X	X
22	IT WOULD BE AWESOME FOR THE COMMUNITY!		X

Survey ID	Comments	Low-Income	Minority
3439	It would be awesome if it's approve this discount	X	X
3302	It would be extremely helpful to everyone that's low-income	X	X
1263	It would be good but people would take advantage of it and it would be more dangerous.		X
1527	It would be good for student commuters to also get a discount if they are low income as well.	X	X
1795	It would be good for those who qualify given how hard it is to financially survive here, and how much harder it is becoming with time. Please do this.		
899	It would be good if it encourages more passengers to pay fares		
2523	It would be great for students that aren't minors.		X
3073	It would be great, especially for people like me that always have struggles when it comes to put more money in the clipper	X	X
50	It would be great, especially with how many low income families commute from outside of SF.		X
203	It would be great. So helpful for those who need to spend money on things other than commuting expenses.	X	
2030	It would be helpful for many people		X
258	It would be helpful to many who need public transportation		X
3545	It would be incredibly helpful for poor folk	X	X
2204	It would be life changing. I am a college student & I need all the help I can get.	X	
1824	It would be really helpful to those making fewer than \$40 or \$30k a year. Sometimes we wish BART was just a go-to option but it's expensive to buy round trips for a whole family. I know many would benefit from a discount of any kind.	X	X
1007	It would be significantly positive. Especially for those riders who must use slower forms of transportation because it is lower cost.  Also should consider a discount for public employees.		
1435	It would be so helpful because bart fares add up.	X	X
586	It would be so helpful for my low income friends and family. Mae t easier t get to work.	Unknown	X
3267	It would be so helpful if this existed	X	X

Survey ID	Comments	Low-Income	Minority
2979	It would be very beneficial especially for those low-income riders who have to utilize BART frequently in order to go to work or other places. Especially if individuals are choosing to use other forms of public transportation such as the the bus because it is cheaper even though it could entail a longer commute.		X
2878	It would be very beneficial for the low-infome community.		Unknown
2926	It would be very beneficial to have a program like this. Yes there are alot of fare evaders that can afford the fare but alot cannot and that is why they do it. This would be beneficial for those of us who have to commute from the east bay.		X
2368	It would be very helpful for the low income riders	X	X
448	It would become even more accessible for families and working class parents and commuters	X	X
1064	It would become extremely accessible for the community if this discount program was put into place. Low income riders utilize BART the most, and rely on BART the most for transportation to school and work. This would be the best way to pay reparations to the communities that BART and BART police have hurt and profited off of for years.		X
3486	It would benefit very much	Unknown	Unknown
3491	It would certainly increase ridership and also make people view BART more favorably.		
645	It would certainly make using bart more accessible to more people	X	
1294	It would definitely help students, such as myself, commute from home, school and to work.	X	X
913	It would greatly benefit low-income riders and our community overall. It would increase accessibility and efficiency for those that cannot afford to use BART as their regular transportation. Low-income riders would be able to travel farther distances with a faster travel time compared to the time it takes using the discounted bus pass. They may be able to access jobs that are farther away or healthcare facilities or family support, all of which benefit those with money struggles.		X
2188	It would greatly put more money in my pocket, and out to the city more often.		X

Survey ID	Comments	Low-Income	Minority
1370	It would help a lot!	Unknown	Unknown
3220	it would help a lot, I only make \$16 an hour. I commute everyday from Baypoint to 16th and Mission and back and that costs me \$14.50 a day. My commuter Check covers \$255 a month but I always have to add more cash to last me until the 1st when my Clipper reloads. It's very expensive	X	X
2076	It would help make it easier for adults to get to work.		
3003	It would help many people struggling with finances and is the right thing to do in a city with such high living costs.		
3037	It would help me a ton I'm struggling to afford the rising transit costs. AC transit is raising the Transbay ticket a full \$1 on January 1st and 50 cents a year after that. adds up super fast. If Bart had a similar increase I would be in trouble	X	
3347	It would help out the community immensely. I just moved to the Bay Area and when I first started taking BART it used up quite a bit of my paycheck, I'm lucky enough that I can afford rent every month now but because of BART fares on top of the bus fares, I would barely make it.	X	X
2648	It would help reduce congestion on highways and help make transit accessible to low-income residents. It benefits the individual and our region.		X
194	It would make Bart more accessible to the people who rely on it. Many low income people don't have cars	X	
2240	It would mean not having to plan and save for when they want to visit friends in Berkeley and Oakland, given that I already use it for work in downtown.		X
698	It would not affect it for me because I am not low-income but I think you should definitely give a discount to low-income riders! Please it is so expensive to live in the Bay Area.		
1625	It would not affect me because I'm not low income, but I know it would help make people I know take jobs they wouldn't have due to high commute costs		
3108	It would not apply to me, but I am for it.		
1817	It would provide strong support for a lot of multi-generational Native San Franciscan families.	X	X

Survey ID	Comments	Low-Income	Minority
3537	It would really help me and my family members save money. They live in San Mateo County but travel to SF a lot for work and for pleasure. This discount program could help convert some of their car trips to transit trips.		X
1329	It would really help me I travel with my 5 kids on bart	X	X
1220	It would really help me save money which could be used to pay bills	X	X
2032	It would really help me And my family	X	X
3626	It would really help must people. I still see people using paper tickets. You to start another campaign to let people know that they spend more money on paper tickets. Having a discount will encourage more people to use bart more often.		X
1008	It would tremendously help low income riders and this program should		X
2481	It would vastly improve my expenses if I could spend less on the BART fare getting to and from work each day.	X	X
782	It wouldn't apply to me but I'd be happy to see it implemented. Transportation is essential for people's livelihoods and the fewer barriers there are to access the better!		X
3308	It'll definitely benefit riders who rely heavily on public transportation.	X	X
2155	It'll help those who really need it. Please think about the children		
1201	It'll make it so much easier to commute to work and not have to spend so much money		X
2618	It's a good idea		
543	It's a good idea - Bart is expensive.		
1640	It's a good idea as it can cause people to stop begging for money and much more suspicious for passengers as they may be cheated out of their money through panhandlers.		X
2098	It's a good idea, given the higher cost of living in the Bay Area. I doubt that it would have significant impact on ridership. It might make a difference, for a small number of persons, whose decision to use BART vs. their personal automobiles can be driven by a simplistic comparison of BART fare to the toll at a bridge.		
3420	It's a good idea. It costs me a lot to go to work and school.		X

Survey ID	Comments	Low-Income	Minority
2988	It's a good idea. It's expensive to be poor and this could help cut cost for many people.		X
2914	It's a good strategy to get them to pay for the services they're either: likely already using (and not paying for), or would like to use but can't justify cost.	Unknown	Unknown
2454	It's a great idea and I fully support it.		
385	It's a great idea and would make transit more accessible to more Bay Area residents.		
760	It's a great idea for families that make under \$50k/year.		
1339	It's a great idea!		X
2652	It's a great idea!	Unknown	Unknown
2905	It's a great idea!	X	
3007	It's a great idea!		
2203	It's a great idea! It makes more sense than investing in officers to give poor folks tickets.		
2278	It's a great idea!! I know many low-income riders that use bart to get to their low-income jobs. Giving a 20% discount to those who need it would help increase riders and therefore income for BART.		X
1913	It's a great idea.		X
2416	It's a great idea. Bart is very expensive for low-income riders.		
1495	It's a great idea. It would enable ability to get better jobs if commute prices are reduced.		
308	It's a great idea. Things are expensive in the Bay Area. Every act of compassion helps those in need.		
2990	It's a very good idea I also have to change from Bart to Muni and it makes more expensive my fare !!		X
101	it's about time! i have had lifeline pass for years and often avoid bart because it's expensive.	X	
3440	It's about time... also I'm not sure if I'd meet the poverty time but I make 25k, my husband makes about 15k (annual). If that's not poverty in the Bay Area... what is?		X
1247	It's absolutely vital to maintain accessibility to all people who need it. Most of the service workers in SF commute from outside of the city and it impacts greatly	X	X
341	It's better to offer a discounted program than having them steal rides & make no money at all.		
218	It's equitable		X
3255	It's good	Unknown	

Survey ID	Comments	Low-Income	Minority
303	It's good for people who have to commute to their jobs everyday and save some money	X	X
2355	It's great		X
2178	It's great!		
3268	It's necessary to take bart sometimes for work since it's faster although taking just muni instead of transferring is overall cheaper. It'd probably make it a lot easier for many commuters to take shorter shifts and make it worthwhile.	X	X
2042	It's the right thing to do!		X
1081	It's very much needed		X
2536	It's very much needed, especially for low income Bay Area natives		X
2201	It's a fantastic idea, and I think would help with some negative press / stigma that BART has received!		
373	It's a good idea, surprised there already isn't a program like this.		
2819	It's a good idea.		
1088	It's a great idea - do it!		
3528	It's a great idea - for the environment, for our roads, for low-income workers and families - especially for workers who live in adjacent cities so BART is a better option than bus. Also given our clogged roads, it's a better transportation alternative. When I worked in SF I rode BART daily. When I lived in SF I also rode BART daily. I'm older now but understand the need, especially as fares rise and wages stay stagnant.		
3016	It's a great idea - I don't qualify as a low-income rider, but increasing public transportation is a great idea to get people to have affordable housing and more options in work.		X
466	it's a great idea and long overdue!		X
3694	It's a great idea to offer a discount to low income riders. Thank you!		
2345	It's a great idea!	X	
479	It's a great idea! So many folks in the Bay (including me) commute from long distances for work and this would really help make it more affordable.		X
2916	It's a great idea, please do it!		
3403	It's a great idea, please do it!		
1171	It's a GREAT idea.	X	X

Survey ID	Comments	Low-Income	Minority
3495	It's a great idea. Fares are rising but there are still plenty of people who can't afford the increases. More low-income people are being evicted from areas near their jobs and are facing longer, more expensive commutes.		
1762	It's a great idea. I hope it goes through.	Unknown	
3430	It's a great idea. I'm originally from New York City where metro rates cost a fraction of what Bart is and its not as limited. I feel it's cheaper to drive in the Bay Area than to take the Bart which defeats the purpose of public transport.	X	
1338	It's a great idea. Make bart accessible and team it with cracking down on fare evasion so everybody in the system is benefitting.		X
637	It's a very good idea; please adopt fares that make it easier for low income people.		
2385	It's about time		
552	It's an imperative. Public transit is a de facto tax, and progressive taxes are inherently fairer.		
3166	It's an important step towards equity.	X	
3690	<p>It's essential for us to make public regional transportation more accessible. It reduces carbon emissions and moves us closer to the reality of transportation being a right rather than a privatised privilege. This is especially important for low-income residents as we have less transportation options. A reduced rate would incentivize more frequent use of BART and other public regional transportation.</p> <p>My experience getting MUNI Lifeline Pass at a 50% discount has made a major impact as I can continue to move around San Francisco with \$39 more available to me every month. Getting a discount for BART would likely increase my use of it. I don't own a car and I find it prohibitively expensive to leave SF.</p>	X	X
519	It's fair and equitable.		
1147	It's great and fair, thank you so much for considering.	X	
2129	It's really important! Please make it a reality!		

Survey ID	Comments	Low-Income	Minority
491	Its very sad when low income people that live in low income neighborhoods cant afford to get to their job all the way on the other side of the city. Its weird and unethical to force low income people use so much money to go and earn money... with cost of rent and food being so high in the city, its not fair to make us pay so much for the only modes of transportation that we can barely aford ( sometimes we cant aford it at all) with our low income. I think a discount for low income people would vastly improve our experience with bart, i would definetely ride more often, i have places i want to see other than my job, but it all depends on if i can even afford to get there.	X	X
2527	Ive been paying the regular price for years to arrive late to work every day due to delays so this is a good thing to offer to your riders.	X	X
3081	I've been waiting for this to happen since I was little (I'm a lifelong bay area resident and have always been appalled that there isn't a lower income option). I also think it could reduce fare evasion. I would much rather see money put into subsidizing rides than on cracking down on fare evasion.	X	X
2752	Just do it. Nobody should be prevented from riding public transportation because of the cost. Just get on with it.		
1277	Just get on with it. Poverty should NEVER exclude someone from riding public transit. Just let people ride. The train doesn't cost appreciably more to operate with a few extra people on it.		
233	Less people will jump over the bridge	X	X
1701	Let's do it! More people on public transport would be great!		
853	Let's do this!		
2795	Like sf program i think bart should have this service. Helpful to low income may prevent evaders.	X	X
1797	Living expenses way to high in the Bay area. Low income working people are taking a real hit just getting to and from work. Many low income people are working more hours, and are also working jobs that are more dangerous and/or difficult than people who make many times more money.	X	

Survey ID	Comments	Low-Income	Minority
225	Living on a low fixed income I am limited to where I can go, Bart brings you all over the Bay area. I am inexperienced in Bart transit and fear being lost, however I would love the experience of going to different areas.	X	X
280	Long overdue		X
1793	Long overdue program for those who are struggling financially here in the Bay Area. Would love to see this program implemented for all of those who need it.		X
3388	Love it!

2103	Love this idea, makes it accessible to more individuals		X
728	Low income folks in the Bay Area are getting forced out. We have to live farther out, and Bart is one more expense that makes life in the Bay that much harder. This place is not only for the wealthy	X	
1565	Low income in the Bay Area means that you most likely work in the city but commute from east or south bay, where rent is more affordable. This would save a lot of people money because the bridge fair is about to rise.		X
2697	Low income people need all the help they can get in the Bay Area.	X	
2954	Low income people NEED this!!	Unknown	X
2394	Low income riders NEED a discount program. Or atleast a time-based fare instead of distance-based. Low income people have moved further away from the places where there are the most jobs, which means they have to spend more money to get to work, and more time away from their home and families.	X	X
137	Low income riders should get a discount to make public transit more accessible.		
866	Low income riders should get the discount; I should not.		X
729	Low income riders should have the opportunity to get discounted BART tickets. This is a great idea.		
730	Low income workers need access to transit!		X

Survey ID	Comments	Low-Income	Minority
2396	Lowering the fare for low-income riders would result in a much more equitable transit system. As it is, I avoid BART because of its high prices, and I know many others who struggle to get to work and around the Bay because of this, too.	X	X
358	Low-income riders should absolutely get a discount. It aligns with our regions growth policy of getting residents on transit. As lower-income residents are priced out of certain markets, ensuring they have reasonable means of transportation to work locations is pivotal for the health of our region.		
1316	Low-income riders should be able to use BART and get around the bay without having to pay the full fee, which can be very expensive when added up		X
3270	Low-income riders should receive a discount.	X	
1839	Low-income riders would benefit immensely from a discount; the price hikes reflect an average income increase for only a small percentage of the bay area population, and most people riding BART do so for convenience and price.		
948	Make bart more accessible for low income riders.	X	X
481	Makes a lot of sense, not sure what the downside is		
1050	Makes sense to me, these are people that may not have access to cars and would use BART to travel longer distances, this would be a great incentive to use public transportation.		X
1757	Makes sense.		X
2570	makes sense. Would, or might, help prevent fare evasion.		
734	Making public transit lower cost (ideally, free) is vital to a Transit First policy.		

Survey ID	Comments	Low-Income	Minority
1851	<p>Making public transportation financially accessible to low income riders is incredibly important, especially in an area like the Bay where living costs are already so high.</p> <p>If I did not qualify for the disabled discount that I currently have, I would be spending hundreds of dollars a month on BART and bus fares in order to get to my two jobs. Without that discount I would not be able to afford to rent a room in my shared apartment, let alone live in my current city.</p> <p>I think other riders with limited finances who rely on public transportation need programs like a low-income discount in order to be able to afford to ride BART.</p> <p>When you're riding BART from El Cerrito to Montgomery to San Leandro back to El Cerrito like I have to for work, fares pile up. Even a 10% discount can make a huge difference financially.</p>	X	
3152	<p>Many low income people rely on public transportation to get to work. I would ride BART more myself if it connected to Marin. This will help people who need to get to work every day.</p>		
2156	<p>Many of my friends do not ride BART because it has become more and more expensive. A discount for low-income individuals would absolutely be an incentive to ride BART more frequently.</p>		X
210	<p>Many riders are commuting with their kids to work since cost of living is so expensive in SF. We need to make commutes more attainable and affordable to lower working class families.</p>		X
1983	<p>Maybe it would cut down on fare-beaters</p>		
2930	<p>More people need this! My family struggles to ride Bart consistently to work and it's important that the city help provide this.</p>	X	X
2246	<p>Much needed since many low come riders have to Bart in for their jobs.</p>	X	X
61	<p>Much needed to make BART more accessible!</p>	X	X
3321	<p>Much needed.</p>		

Survey ID	Comments	Low-Income	Minority
2783	My BART fare is deducted from my paycheck as part of commuter benefits. The only reason I can afford BART on a takehome salary of \$4k per month is bc it's a pre-tax benefit. I would otherwise probably have to move out if the area. We have a housing crisis. SFMTA can't evdn find bus drivers for its new, state of the art fleet. Working single parents and young riders, or those living on public assistance, need similar discounts. I believe fare evasion would drop if discounts were offered. (We all know that the federal Govt pays the bulk of mass transit costs. Even with millions of riders taking BART every week, it's not self sustaining. But we can't live w/out mass transit.)		
2205	My household income is too high to qualify for the discount but I think it would an awesome thing to have for the general good		X
2810	My income fluctuates and I currently spend a lot of money trying to get from Daly City Bart to Embarcadero/Montgomery Bart Station everyday and the cost adds up if I take Bart 5x a week, twice a day. I would love a low-income riders pass to be initiated.	X	X
2029	My income it's low and still have to pay regular fare		X
882	My teenage children would be able to ride BART more often if they were able to get this discount.	X	
2472	Necessary.	X	X
52	No I think it's a good thing	X	X
1092	No I think it's a great idea!	X	X
47	No, GREAT IDEA		X
1675	Nothing other than this being a great idea!	X	
951	Our cities need folks for working class jobs. Until we solve the housing affordability crisis, we should make sure people aren't spending a huge portion of their paychecks commuting to continue working in cities they've been displaced from.		
3620	Overall I think this is a good idea. BART transit is cost prohibitive and if cost can be lowered for those who need it most it may help with decreasing traffic on the road and people fare evading.		X

Survey ID	Comments	Low-Income	Minority
606	People are riding the bus more frequently because they are cleaner on the inside and Bart cars are dirty, overcrowded and the fair is outrageous. The cost of living in the Bay Area already cost to much. With this discount, families can have one less expense to worry about.	X	X
2608	People should have affordable access to transportation		X
1530	People will probably hop over the barriers less -- we need more affordable transportation here		
1678	Please do it!		X
3664	PLEASE DO IT!!!! I doubt I'd qualify but so many folks would greatly benefit, especially those commuting long distances to work because they can't afford to live closer!	X	
139	Please do it. As a privileged person who makes plenty of money, I don't mind paying a bit more to help people who need it.		
1292	Please do it. Low income assistance is crucial for helping income inequality. I have lived in the Bay Area for 15 years and used bart for the duration, often during commute hours.		
1964	Please do it. Low income folks change the world for the better and I'm totally down with supporting their transport.		X
2380	Please do this I am low income and BART is expensive	X	X
500	Please do this!		
2815	Please do this! And stop policing fare skippers. Makes us all less safe and no one cares who doesn't already hate poor people.		
1883	Please do this! I think I would go back to school if this program started	X	X
501	Please do this! Low income people should be able to ride public transit at a price that they can easily afford		
1785	Please do this!! I am not low income but I work at a nonprofit where people often don't show up because they can't afford the fare. This would help!		
2548	Please do this, I would really appreciate it as a low-income person.	X	X
1211	please do this, it seems small, but it really helps and does make a difference!!	X	

Survey ID	Comments	Low-Income	Minority
2505	Please do this. Bart is so expensive for any person making less that \$70,000		
3243	Please do what you can to get cars off the road and increase use of transit. Thank you for your hard work. We really appreciate it!		
321	Please implement	X	
950	Please implement it	X	X
2771	Please implement it, 40% of my earnings goes to Bart everyday	X	X
146	please implement it.		X
3601	please implement this program in order to further support transportation needs of multiply marginalized communities of color, the economically disadvantage, gender and sexually minoritized communities, the differently abled among other communities that might be advantageously effected by a low income rider program	X	X
1583	Please implement this! Giving as many people the lower possible barriers to public transportation is crucial in our fight for a more equitable society.		
3071	Please institute this program as it would offset the low wages currently afforded working class workers in the notorious, astronomical expensive bay area. When higher education is free and wages are fair we don't need these types of programs but as long as the system creates disparity we continue to pretend that charity is a viable alternative to equality. Thank you.	X	X
3598	Please make discounted fair available to low income riders! BART is a great system and is the only lower income option available to so many folks. Back when I was making only a little money it was a life saver. Charge folks that can afford it a little more, and make it that much more affordable for those that can least afford it.		
2053	Please make this available.		
1768	Please offer allow income discount I spend more then I can afford to	X	
661	Please please do it! I work with low income people who struggle so much just to get by. This is a wonderful idea!!!		
1728	Please provide low income riders w a discount.		X

Survey ID	Comments	Low-Income	Minority
1825	Please use grassroots organizers to spread the word so that more people can know about it	X	X
3627	Please, please, bring it on. It's desperately needed. We have so many low-income citizens who could greatly benefit from such a program.	X	
3461	Please, please, please do it	X	X
2896	Pls do it. With the housing crisis, low income folks are being pushed out further and further away, many still needing to work in SF, and the further you travel, the more it costs. This would be a great help!!!		X
2121	Prevents fare evasion!		
843	Prices have surged relatively high for low income people like me, this would help alleviate and encourage me riding Bart	X	X
1416	Pro discount even though I wouldn't probably qualify.		
1896	Providing a discount for low-income riders would be amazing for people from the bay area trying to provide for their families. BART is a large part of many people's commute around the bay area and allows people to get around for a lower price at an efficient time. BART prices have risen, but people's income has not which is causing a lot of people harm.		X
669	Providing affordable transportation will allow more low to moderate income earners to save and or/ help reduce the cost burden they're already enduring due to minimum wage jobs and the high cost of living.		X
453	Public Transit is getting more expensive every year. This discount would make a difference.		X
942	Public transit is important and should be accessible for everyone.	X	
2818	Public transportation is very expensive in the Bay Area and a discount for low income riders is a good idea.		
1656	Public transportation needs to be affordable for all. Low income riders should receive a discount.		X
198	Public transportation should be funded by the public. It is a public good and contributes to the well-being of the entire community. I think reducing costs is always a good thing, but especially now, in the era of extreme wealth inequality, low income people should receive as many benefits as possible.		X

Survey ID	Comments	Low-Income	Minority
2549	Public transportation should be just that; accessible to all members of the public regardless of income. It should be even more than 20%, but this is an amazing start.		X
2743	Really good idea and very much needed (just not by me) - BART's distance-based fares are a huge impediment to lower-wage workers who've been forced to be outer edges of the region. Also you should pay for it with a tax on billionaires named Jack Dorsey.		
667	Reduced fare is must needed for BART riders		X
3483	Rides over shorter distances can be comparable to AC Transit fares, but it costs me almost \$10 round trip from El Cerrito to downtown San Francisco, which seems high for public transit. It would make so much more sense for transit fares to stay as low as possible because a lot of us do not own cars due to cost of gas, tolls, maintenance, etc. not just for environmental reasons. Tax/charge single occupant cars on the road, not the poor people who depend on public transit to get around.	X	X
138	Riding BART daily can really add up - from the parking fee to the cost of the ride.		X
3043	San Francisco has many low wage earners and the high price of housing has caused people to leave and as a result take public transit . This would help .		
3518	seems fine		X
38	Seems like a good idea I thought there was already a low-income option...?		
826	Seems like a great idea		
2586	Seems like a great idea to make it easier for the less wealthy among us to take BART; and also to reduce traffic!		
648	Sería bueno tener descuentos especial para los de bajos ingresos.cada año suben el precio del clipper *It would be good to have special discounts for low income. Each year the price of Clipper increases.	X	X
3206	SF is already prohibitively expensive for working-class people. It should be easier and less expensive for them to commute.	X	
2434	Should apply to students...should be a student discount not just youth	X	

Survey ID	Comments	Low-Income	Minority
3312	Should deter turnstyle jumpers by making it easier to afford tickets	X	
417	Should have been something implemented way sooner. Hope it carries out! BART should also be free but....	X	X
11	Si es un poco alto la Tarifa para el Pasaje *yes, the passage rate is a bit high.	X	Unknown
2358	Simply because of my schedule, my ride frequency wouldn't change, but I think that families that are eligible for the discount would definitely use BART as a transportation option more frequently if the discount is approved!	Unknown	X
3441	Since Bart is so expensive, I know it will benefit low-income riders.	Unknown	X
421	Since more and more people who work in San Francisco can't afford to live there, I support efforts to reduce the cost of living for low income riders		
1283	Single household of one with no kids, high rent, and annual income of less than 25,000/year with raising Bart fare each year. Discounts are much needed	X	X
544	So happy this may be happening. I'm a low income college student working in a non profit in my field that cannot afford to pay my commuting costs. I spend 75% of one of my monthly checks just on commute fees. This would be of huge help to someone like me and many of the people that I know who are in the same situation.	X	X
3572	So important as transportation is necessary and increasingly expensive especially for low-income families.		
739	So many of my friends can't ride BART because of the price. In a time of escalating homelessness in the Bay, please make BART accessible to all.		X
3557	So, so valuable to make transportation more accessible for the people in SF. Long overdue		X
620	Some of us have to attend school and I would definitely ride the Bart if it was a lot cheaper for me to do so, or i would have chosen a better schedule instead of smushing my classes into 2 days when I could have them spread out and it also has forced me to take more online classes	X	X
287	Sounds good to me	X	X

Survey ID	Comments	Low-Income	Minority
563	Sounds great to me (even though I wouldn't qualify). Not only do low-income riders pay a much higher percentage of their income for transportation, but they're also less likely (I think) to get commute benefits through their work. Discounted fares would help level the playing field.		
63	Sounds great!		
1494	Sounds great!		
2846	Sounds incredible. I essentially had to find a new job because the cost of commuting by BART for my minimum wage job was not worth it and i had to find something bikeabke	X	X
2875	Sounds like a good idea		
3494	Sounds like a good idea		
2563	Sounds like a good idea - it doesn't apply to me, but would address a small part of the challenges of living in the bay area for low income folks.		X
774	Sounds like a good idea to me.		
579	Sounds like a good idea. It's hard enough living in the Bay Area so any help low income riders could get would be helpful. Wondering how the discounts would be funded though (higher fares for riders who are not low income) and how the low income status would be verified so that people who are truly in need of the service get it as opposed to the greedy who just want to abuse the system.		X
650	Sounds like a good idea. My Disabled rider discount has made it possible for me use BART.	X	
3174	Sounds like a good option as long as it is only for those who are low income		
1613	Sounds like a good program.	X	X
295	Sounds like a great idea!		
851	Sounds like a great idea!		
1933	Sounds like an amazing idea to increase access to public transportation		X
2811	sounds like BART will be much more accessible for a diverse income range! wahoo!	Unknown	X
2457	strongly in favor of it		
858	Strongly support		
1303	Strongly support it.		

Survey ID	Comments	Low-Income	Minority
1310	Students like myself who rely on bart for school and work would greatly benefit from a fare reduction please	X	Unknown
1110	Such a great idea.	X	
1428	Support even though I may not qualify		
2524	Support low income workers who can't afford to live in the cities they work		
3171	Thank you and thats very nice of you	X	X
1716	Thank you for considering this policy. It would be very helpful to me and my family.	X	
1169	Thank you, I was asking for help and this means alot	X	X
72	That its awesome program and will help alot.	X	X
2031	That will make me want to ride bart with prices of fares in low prices	X	X
21	That would be a great asset to my commute	X	X
1181	That would make BART much closer in price to other muni transit systems and would greatly improve Quality of Life in the bay area.	X	
3521	That's good, I can save money. Thanks.	X	X
1891	The Bay Area deserves a transit system that is reliable and affordable for its low income residents and not geared towards aggressive fare inspectors. We deserve more respect from BART.	X	X
1605	The bay area has an extremely high cost of living, even someone 300% or 400% the federal poverty level struggles with the ever increasing cost of the bay. The program should be extended to a higher level of federal poverty levels.		X
2020	The Bay Area has become unlivable for so many people who were born here. I believe that there should be a discount to help ease the burden of high living costs here in the bay.		X
2374	The Bay Area is so **** expensive as it is. If people are truly low income or in poverty, this seems like a good idea to test.		

Survey ID	Comments	Low-Income	Minority
1408	The cost of BART isn't a burden for me but hopefully this would make BART less burdensome for those who ride. Another interesting question is if this would make people who sometimes choose to ride without paying more likely to pay the fare? If so it would be a win for them (in that they're less likely to get in trouble) and a win for BART (getting a discounted fare is maybe better than getting nothing, so long as BART is charging fares).		
252	The cost of living in the Bay Area is absurdly high, and transit is a real problem for the working poor. Please set your guidelines for qualifying accordingly.		
3382	The disabled discount makes it much easier for me to get around on Bart and Muni. I ride more often than if I was paying full fare and I get out of the house more often. The Bart disabled fare is one of the things I most appreciate and I'm sure a similar discount would have similar effects for low-income riders. It may also reduce fare cheats a bit.	X	X
1196	The discount can help incentivize BART use by some people with lower incomes. I support this discount.		
17	The discount is needed for Low Income it is most, their only mode of transportation		X
270	The discount likely wouldn't impact me, but I welcome it for low income riders.		
215	The low income discount is a great idea to boost ridership among the less fortunate.	Unknown	Unknown
2006	The only reason I do not take BART more often is because I cannot afford to. When I do take it, I get on at Embarcadero then get off at West Oakland and rely on buses from there and vice versa.	X	
2922	The potential for low income riders to have access to a discounted bart ticket is an excellent idea and makes a lot of sense. With the rise of gentrification and displacement of low income folks in the Bay Area, coupled with the new bay bridge toll raise starting in the new year, this program could be extremely beneficial for many people facing hardship right now.	X	
2460	the program seems like an extremely great idea to have for those who need to take BART to different cities for jobs and different opportunities	X	X

Survey ID	Comments	Low-Income	Minority
1601	There are many low-income communities throughout the Bay Area and this program could help many people get affordable transportation.		X
2877	there are times where I choose to miss out on my education because I don't have enough money that week to commute to college. A discount would make a difference on my transportation spending.	X	X
1807	These families need these. Not being able to travel for work significantly decreases opportunities and, as we all know, living out here can be a struggle even if you're 'financially stable'. Let's help these people.		X
3473	They probably need discounts more than I do	X	X
1479	Think this would help low income riders take Bart more and help with people who are skipping the fair or unable to afford it.		
841	This (potential) new discount program would be a huge help, as the cost of riding is prohibitive for myself & people I know. An aside: for years, the DMV has sent me a disabled parking whatsit for the rear view mirror, but I've never seen anything regarding 'disabled fares' on the BART system. Aware that it may be due to my simply not noticing signage or such; just commenting as I saw it listed as an option here in your survey. Thanks.	X	
2777	This could be a great opportunity to involve more low income residents to take part in a more environmentally friendly way to get places	X	X
3012	This discount is a key access for so many low-income riders to have the chance to make a difference in the world. 20% would make a HUGE difference for people who use BART everyday and is a chance for BART to actually make more money.		X
1598	This discount is vital for fighting inequality in one of the most unequal regions of the US. I will not benefit from this discount but hopefully families, students, and people struggling to stay on their feet will. Thank you.		
559	This discount program is very needed! I work with low-income people in the Berkeley area and transportations is a major obstacle financially for many of them to get to work or to the services that they need to.		X

Survey ID	Comments	Low-Income	Minority
2739	This discount will have a substantial impact on poor and working class people's ability to continue living and working in the Bay Area. This discount should be implemented ASAP and doesn't go far enough, in my opinion.	X	X
1291	This discount would be essential to ensuring that everybody has access to ride bart and it will surely help weaken the growing gentrification.	X	X
3529	This discount would help people who have low income to get to work, needed services, medical appointments, and to see family. Thank you!	X	
3362	This discount would make it easier for commuters from low-income communities to seek out jobs in more places without the expensive costs.	X	X
2863	This discount program would be huge for low-income folks. Not only would it allow them the necessary mobility to travel to work, it would give increased access to those in extreme poverty to the necessary supportive services to help them rise out of poverty. However, I do believe BART should do more of this, specifically for critical populations such as the homeless or those in extreme poverty. Transportation is one of the biggest barriers to connecting with services and help. To this end, I urge BART to work with local service providers to distribute subsidized Clipper Cards, because there is a high demand and need for such a program.		
2412	This is a badly needed thing.	X	X
3588	This is a fantastic idea		X
1131	This is a fantastic idea! The Bay is difficult to get around in. Low income earners and families need the ability to get around too.		
3309	This is a fantastic idea. BART rides can be very expensive when they add up, especially when traveling long distances. This is an issue for low income people who can't afford to live near central cities where they work, and have to take BART from outlying areas. Their fares are unsustainable, and we should do our best to subsidize them. Make public transit accessible and affordable to the most vulnerable among us in the Bay Area.		

Survey ID	Comments	Low-Income	Minority
1722	This is a fantastic idea. There are so many inequities baked into our way of life and steps like this are necessary to bring systems in line with values of fairness and equity. Bravo.		
3526	This is a fantastic proposal for riders who are forced to the fringes of the BART system due to housing cost. Than you for considering this progressive pricing scheme!		
1554	This is a good idea, especially as people are being priced out of the Bay Area.		X
2260	This is a good idea. I would not be eligible for this discount but support it		X
2928	This is a good idea. In an area where prices and cost of living seem to go nowhere but up this would be very helpful to the community		X
171	This is a good policy and a good use of gas tax money; BART fair is a huge expense for low income commuters who rely on public transit to get into Oakland or San Francisco for work.		
2323	This is a great idea		
174	This is a great idea -- BART is a vital system for all members of the Bay Area community but can be unaffordable to low income riders who need it to commute.		
1684	This is a great idea and I hope BART adopts it!	X	
2062	This is a great idea and I hope it goes through!	X	X
2249	This is a great idea and I hope to see BART implement this program.		
2495	This is a great idea and is very necessary for our area. The Bay is already very pricey and commuting regularly puts a large financial burden on all of us		X
906	This is a great idea for lower income people and I support it.		
1884	This is a great idea!		
2254	This is a great idea!	Unknown	
562	This is a great idea! I hope this program can be expanded over time.	Unknown	Unknown
577	This is a great idea! I wouldn't be eligible, but I strongly support making Bart more broadly accessible.		
1517	This is a great idea!! Its about time there were more equity programs with BART.		
657	This is a great idea.		

Survey ID	Comments	Low-Income	Minority
2567	This is a great idea. I would see if other transit authorities would align with you. This way the 20% can be tied to a specified clipper card. Many folks, usually working class or low income, use other forms of public transit in addition to Bart. Cards could be color coded and eligibility renewal every year. Just a thought		X
3607	This is a great idea. It's very expensive to ride bart, or even to drive for that matter. Gas is fluctuating all the time. With 20% discount it can definitely help out the less fortunate. That's extra money that could toward bills and/or food.	X	X
966	This is a great idea. Many low income people BART to get to work .		X
2626	This is a great idea. The high cost of BART relative to public transportation in most other major cities is a major barrier to BART's accessibility and use by the general public		X
3675	This is a great initiative from Bart. It would help a lot of families in the bay are who struggle financially and can't afford to spend a lot of money in transportation.	X	X
3693	This is a great initiative that could help low income families make ends meet as well as allow them to have their children gain educational opportunities without sacrificing necessities simultaneously.	X	X
1744	This is a great step for helping low-income riders. Affordable transit is so important to everyone in our society so they can go to work, get to dr appointments, visit friends, etc. This is a great idea and so important.		X
3185	This is a great way to curb traffic and improve the air quality and help low-income Bay Area residents! Yes to this program!		
656	This is a great way to help low income families. I find the cost of BART cost prohibitive for my needs and I am single with 50k income.		
2250	This is a higher priority than stopping fare cheats		
136	This is a hypothetical because I wouldn't qualify, but absolutely yes, and as someone who does not qualify I'm so excited this is finally being offered for low-income riders.		

Survey ID	Comments	Low-Income	Minority
2274	This is a major form of transportation that low income communities utilize and should become affordable in order to ensure we are able to travel to school, work, and other societal responsibilities.		X
2546	This is a moral imperative and it'd hadn't occurred to me that there wasn't something like it in place already.		
281	This is a much needed program for low income individuals, the underserved populations, and those who are looking for work and in need of affordable transportation. The high price of BART rides, coupled with the lack of reasonable day passes or value tickets for adults, has made a discount program inevitable.		X
2229	this is a necessary measure in a region gripped by the sharpest contradictions of capitalism, where wealth inequality and the suffering of the masses is most deeply felt.	X	Unknown
1016	This is a program that Metro in Los Angeles already has. It is a great way to help local community members from sneaking onto the trains without pay. This will allow more people to have access because currently, it's too expensive.		X
3662	This is a really good program because a lot of people need bart to get to where they are going but it's expensive and \$10 round trip 5 days a week is a lot.	X	X
1750	This is a very important program to make it more affordable for low income riders to ride BART, which is already so expensive for low income riders.		
3207	This is a very important step to making BART more accessible and inclusive!	X	X
311	This is a very important tool to help ease the incredible burden on Bay Area working class families.		
2509	This is a wonderful idea that would help my family get to work and necessary appointments.		
622	This is a worthy program/service to the Community of need. It has my whole hearted support	X	
2365	This is absolutely necessary, but just as a start. BART should be much less expensive for all, and as low-income people get increasingly pushed out of urban areas, they will be paying more for fare than the wealthy people displacing them.		X

Survey ID	Comments	Low-Income	Minority
2945	This is absolutely necessary. While I believe it would be best to charge the same fee no matter the distance traveled, say \$3 each person, I think this discount program is a great start. Make BART accessible for everyone! If anything, I would consider a higher discount percentage. Great work, BART!		
2453	THIS IS AMAZING AND WOULD HELP SO MANY PEOPLE &t3		
2280	This is an absolutely essential program to make BART more affordable for low-income riders, something that is sorely needed. As it is, for certain rides BART fares seem astronomical, and offer no incentive to riders to consider taking BART instead of just driving, which defeats the entire purpose of BART.		X
613	This is an amazingly important program that must be put in place.	X	X
2488	This is an excellent idea and should have been put in place a long time ago. Public transit in the Bay Area is prohibitively expensive, especially for low income residents who are already being priced out of their homes		
3646	This is an excellent idea. I personally would not benefit from it and I ride BART less often than I did a few years ago — but this should absolutely be done.		
1730	This is an important step in reducing the financial burden of living in the bay area.	X	
3561	This is an incredible opportunity to improve access and make the Bay Area a more just, accessible place! Low income rider discounts will also help reduce traffic and the use of older, less environmentally friendly cars. Our transit system should be for everyone.		
1163	This is AWESOME	Unknown	Unknown
350	This is crucial and could help many people as well as lower bart hopping a tad.	X	X
2704	This is crucial for the environment and for the economy of the city and for boosting the lives of low income people. Looking at Bart in comparison to New York City metro, the metro is a flat rate for any distance and is cheaper than Bart this is what allows a city to move diverse people around and creates culture that benefits everyone. Bart should definitely go in this direction!		
3619	This is desperately needed.		X

Survey ID	Comments	Low-Income	Minority
3117	This is essential to living in our huge bay area.	X	X
1307	This is good. Cutting cars helps the poor save money and helps the environment!		X
1950	This is great considering displacement of some lower income populations, we need to do the right thing and help out those who struggle to afford BART		
507	This is great! I am glad to hear that BART is doing something to help offset the high cost of transportation for our Bay Area neighbors who need the help the most.		X
2339	This is great, we should lower all fares though!	X	
1409	This is incredibly important. We need to make transit more affordable for low income folks especially those that need to commute to jobs in higher paying areas.		
2106	THIS IS NECESSARY! BART is way too expensive and a big reason why people don't ride it. It's cheaper for me to drive my hybrid car than to ride BART but since I don't want to pay for parking, I ride BART. It's too expensive to live in the bay area, to begin with and having an affordable way to travel would help us so much! PLEASE DO THIS!	X	X
39	This is necessary! I spend >15% of my paycheck on BART every month.	X	
848	This is really important for making public transportation more available for members of the public in the Bay Area who most need it, especially to incentivize its use and decrease carbon emissions		
1665	This is really important. Lowering fares for low income riders is a great way to improve access and make the Bay more affordable.	X	
709	This is really necessary especially since the bridge toll will be going up in the upcoming year.	X	X
3363	This is really needed in the Bay Area. The cost of living is so high and people need BART to be affordable so they can get to work.	X	Unknown
1233	This is so important and it should definitely happen! Good for y'all :)	X	X
2284	This is so important- Bart is very expensive compared to other transit companies around the globe.		

Survey ID	Comments	Low-Income	Minority
2998	This is so important, as a student and an artist, having less financial strain on getting around the city I grew up in would be so greatly appreciated. I commute from South San Francisco to SFSU to the mission for work almost every day of the week and bart and muni are the most important parts of that journey. Thank you.		X
3229	This is so important, please!	X	
2812	This is so necessary! BART fare makes it inaccessible to so many people who can't afford it	X	X
1791	This is so necessary.		
3230	This is something that absolutely should be done. Folks need to get around and things are expensive here, especially for folks on the margins.	X	
3455	This is such a good idea! Seattle has a robust fare discount program with slightly different parameters and it makes such a difference with feasibility. Please go ahead with this, it will make transit just that much more doable and lead to fewer Uber/Lyft/car rides for sure, helping everyone.	X	
2824	This is such an amazing and important initiative! I hope you decide to put this through!!!		
28	This is the greatest idea, since folk, should have access to equal opportunities + resources.		X
1737	this is urgently needed !! Discount for low-income is a must.	X	
3294	This is very helpful especially for the low income passengers	X	X
2938	This is very important for the community. Transportation is necessary for all means and to make it affordable is one major step into aiding the community and also good for business and morals.	X	X
3692	This is very smart and actually a family of four in oakland to come to sf round trip is \$40 now they have to leave the kids and one adult at home which is hard to bring home more groceries	X	X
1715	This needs to happen. Why is that there is no discount option available for residents who don't live in SF? Discount programs for public transportation already exist in populous areas such as LA.	X	X

Survey ID	Comments	Low-Income	Minority
3653	This new discount program for low-income riders is a step in the right direction. It is crucial and necessary that we make public transportation accessible and equitable to all. With low-income folks in the Bay facing gentrification and displacement everyday making the price of living impossible, the absolute bare minimum that can be done is helping folk with their transportation.	X	X
3480	This pilot program would be amazing for low-income riders. It would help make what has become a very expensive area to live in much more affordable for those with lower incomes.	X	X
1100	This potential new discount would be of great advantage to individuals from low-income communities as not only has BART become increasingly more expensive over the years, but individuals living in these low-income communities more often than not do not have reliable modes of transportation, and BART offering a discount program for low-income riders would largely help in offsetting this problem.	X	X
1578	This program can be really beneficially, especially because cost of living in the Bay Area is so expensive. I am low-income college student and many of my BART rides were out of necessity for school projects and volunteer work. I could not afford the high fares, so I would often have to miss the opportunity to work with high school students because the cost of traveling.	X	X
3569	This program can work if other riders don't have to pay more.	X	
396	This program could make transportation more accessible to low-income riders and make it more affordable for folks to go about their day to day lives with work, school, and any other personal tasks.		X
125	This program seems like a good way to help those of low-income make it in the expensive Bay Area we now live in.	X	
2781	This program seems like it would be very beneficial to low-income people who regularly commute.	X	

Survey ID	Comments	Low-Income	Minority
1324	This program should definitely exist to combat income inequality in the Bay Area. We owe it to our communities to take actions to retain the beautiful diversity of ethnicity and income levels, and this program is one way to do that. I would advocate for a larger discount and higher income ceiling.		X
1632	This program would allow for low income families to retain more money and be able to provide more to support their families.	X	X
2045	This program would be extremely beneficial, especially to commuters working low and minimum wage jobs on opposite sides of the bay. Having a more affordable commute can add to join people's job security and stability living in the most expensive region in the country.		X
974	This program would be great for those low income adults who still have to pay to commute to work. A discount would be of some help.	X	X
927	This program would be incredibly helpful for folks struggling to make ends meet in a place with not only high cost of living but also high cost of travel. Sometimes people can pay \$15 in a day or more just to get to work!		
1672	This program would be really helpful for me if it applies to unemployed adult students!	X	X
1228	This program would improve access to transportation for a lot of students and families.		X
3536	This program would not apply to me, but it should absolutely happen.		
3583	This really would help low income riders. Cutting the transportation cost down for them will actually put more money in out pockets for rent, utilities, etc. Due to the cost of living increasing rapidly, transportation for riders especially low income riders should be discounted. I spend a lot on transportation everyday to get back in forth to work.	X	X
2012	This seems like a great idea.		
2458	This seems like a really great program that could help a lot of people.		X

Survey ID	Comments	Low-Income	Minority
3443	This should be put into place yesterday. It's terrible that the poor are disproportionately burdened by cost of public transit when they're the ones who need it most. It is unlikely to affect me personally but I fully support this proposal!		
3385	This should've been offered sooner. Bart is already expensive where it makes more sense financial wise to drive. I would ride more if I qualify for the discount	X	X
761	This sounds fantastic. I would not qualify but I support the program.		
855	This sounds great! Due to a lack of an unlimited pass and dodgy transfer implementation BART is kind of expensive. I wish BART was free for everyone, but I guess a discount would be good.		
459	This sounds like a fantastic program. SF does this with Muni and it helps a lot go people but many are limited to accepting employment within the confines of bus only Schedules. Adding BART as an option would really help the workforce a lot by expanding where they can live, work and send their children to school.		X
3381	This sounds like a good idea to make it easier for anyone outside SF to have BART as an alternative to AC as a way to get into the city.		
2871	This sounds like an amazing idea. I have struggled to pay Bart fare after a job loss, and my partner has struggled to pay Bart fare for years. It makes it difficult to get around and we often decide not to make certain trips because we can't afford it. Any kind of discount, even at 20%, would be an enormous help to thousands of low-income riders.	X	X
458	This system should already be in place, but the implementation of this discount will greatly affect the low-income rider demographic in a positive light.	X	
2927	This will be a big help to me personally as a single mom with 2 kids.	X	X
3019	This will curb fare evasion like you don't even know.	X	
361	This will help more people to be able to travel and not stress about means of money.		X

Survey ID	Comments	Low-Income	Minority
584	This would allow those of a lower income to access more opportunities ie getting to jobs/job interviews, appointments (like physicals/dentist appointments), reuniting with family or friends (who may be dealing with health issues or other serious emergencies) and/or getting out of a dangerous situation. No one should be deprived of any of these things simply because they lack the finances.	X	X
3053	This would also potentially reduce gate hopping and maybe improve traffic, since that is a huge financial incentive.	X	
674	This would be a fantastic way to increase public transit access and mobility for those with fewer resources.	X	
1150	This would be a game-changer and even out the playing field as those with the lowest income tend to live farther from city centers (e.g. Richmond, Antioch, etc.).		X
1326	This would be a great benefit to all those in poverty. Sometimes the price of a BART ticket is high enough to prevent job opportunities anywhere not in my neighborhood.	X	X
2823	This would be a great idea! discounted Bart fare would truly benefit low income folks who are already struggling to keep a roof over their heads with these Bay Area housing prices.	X	X
3511	This would be a great improvement and help maintain long time Bay Area residents in the bay		X
3222	This would be a great opportunity for the low income families like me but I wonder how Bart is going to distribute low income passes?	X	X
2388	This would be a great program for riders, would love to see it expanded		X
2659	This would be a great program that can help people. Especially for people who have children with them in the evening time or at night riding bus instead they can get on BART for a quicker way to get where they're going without to much stress about the cost	X	X
153	This would be a huge bonus. I had to leave the city because I couldn't afford it. I could move back.		
1786	This would be a huge help for me!	X	

Survey ID	Comments	Low-Income	Minority
214	This would be amazing for several friends and family members that can't afford to visit anyone.  This would be a huge benefit for tons of people who can't afford to get around and see their families, it would be great to see a further discount if possible, but I understand BART has to run somehow.	X	X
1360	This would be amazing! I'm a student and I live in Antioch but go to school in San Francisco. I pay for an uber to Bart ranging anywhere from \$5-17 depending on the time of day, pay almost \$10 for a one way ticket to SF, pay for another ticket home after class and the uber from Bart to home. It adds up quick.	X	
2275	this would be an AMAZING program to offer for low income riders!		
864	This would be an excellent program that would make public transit more accessible and affordable. This would boost ridership, reduce economic inequity, and be environmentally friendly.		X
3618	this would be extremely helpful as bart is my commute to work and home everyday.	X	X
1902	This would be extremely helpful for those who need public transportation in order to get to work, especially when they already have other expenses to worry about.	Unknown	Unknown
2971	This would be great because service workers and students commute too.		X
3293	This would be incredibly helpful for low-income riders who rely on BART to transport them to work from neighborhoods that may be far away (especially due to high housing costs in central areas).		
3315	This would be life changing for many people and help offset the ridiculous bay area cost of living		
921	This would be very beneficial for low-income riders who need to use bart for transportation.		
2694	This would be very helpful	X	X
16	This would be very helpful to not only myself but to the community. I hope this actual takes place it would be great.	X	X

Survey ID	Comments	Low-Income	Minority
3470	This would definitely assist a lot of low income within the Bay Area. I come from SoCal and go to school at Cal State East Bay. Sometimes it's a little hard to pay for the full \$18 round trip from Hayward to OAK Airport. I come from low income and this will benefit a lot. I would be able to grocery shop and find things I need for my dorm at a much more cheaper price to travel. It will be more accessible	Unknown	Unknown
2820	This would definitely increase my BART usage because I would be able to plan my trips differently.	X	X
3663	This would definitely lure me back. I live in Antioch but I haven't used the new station because the cost of parking and tickets would be more per month than my car maintenance and gas cost.	X	X
1378	This would help a lot with the cost of living so expensive in the Bay Area, most have to commute and spend a lot throughout the week for transportation and getting to work on time.	X	X
1644	This would help immensely between commuting to school, work, and home. It would also save me from remaining in dangerous parts of town in order to avoid paying for additional rides. And I would be able to enjoy more leisurely activities more often and throughout the city, not just confined to one area in order to save money. Thank you for taking my experience and need of BART into consideration.	X	X
2179	This would help me to keep my job.		X
575	This would help riders like me very much who feel the dent of BART fares weekly.	X

3258	This would increase transportation to those who don't have access or can't afford to be traveling, it'd be beneficial for people like me who attend college and must take Bart.	X	X
2758	This would provide a very important service for the people and the city.		X
2122	This would revolutionize my ability to travel and accept work I otherwise would not be able to.	X	
1925	To help get people out of their cars and reduce congestion yes, please give discounts to lower-income riders.		

Survey ID	Comments	Low-Income	Minority
397	To whom it may be concerned my name is Hilda and I think this idea of understanding people situation Thank you Bart for understanding that we all need to get to our final destination	X	X
2702	Totally - it's a great idea, so do it :)	X	
2478	Transportation can be a huge burden for those who are low-income, and low-income riders are likely to travel farther distances to work because housing is often cheaper in the outskirts of the Bay Area-- so not only are prices greater, but also, commute times are longer. I think lowering the discount for low-income riders can help to reduce some of this burden.	X	X
594	Transportation is a huge expense for people. You have no idea how many opportunities you will open up for people on limited incomes if you discount fares. People will be able to attend schools they couldn't before to get jobs they couldn't before. This discount could be game changer for many people of limited means. I really hope you open up the possibilities for people who are struggling to make it.  Thanks a	X	
806	Transportation is a right and no one should be turned away for economic reasons.		X
3597	Two of my children have benefitted from the Pilot program, it has been a big help financially.		X
987	Very beneficial. Will attract more people to Bart.	X	X
2112	Very essential, would probably allow more low income people to pay rather than hopping the gate/driving	X	
161	Very good idea.	X	
2991	Very important initiative to ensure BART stays accessible for low income individuals.	X	X
2907	Very much needed. The bay area is a high cost of living. People need to get to work and we need less cars on the roads.		X
1215	Very necessary		X

Survey ID	Comments	Low-Income	Minority
2640	very support to this potential new discount program for low-income riders, even longer commutes could not save those riders' time but could save a little bit of money. And less traffic on the freeway and less accidents. more people would like to take bart to many places if they receive discount on riding bart	X	X
2234	Vital	X	X
2367	We desperately need this in the Bay Area. I make \$70,000 a year and a 20% would go a long way for me (even tho I know I wouldn't qualify for the proposed plan) so I can't even imagine how helpful this would be for others who make less than I do.		
2890	We need a discount program bc BART is becoming very unaffordable along with other public transit		X
611	We need this it's a dded expensiv e thing when we ride Bart 4-5 days a week. It adds up	X	
2125	We need this program badly- right now bart is only for the rich		
3507	We need this program!	X	
1394	We need this!		X
1344	We need this. Riding to college ever day from El Cerrito Del Norte to Balboa Park is already so difficult. we need to usher in more equity in the Bay Area and that change can begin with BART.	X	X
685	we need to protect the most vulnerable among us. please introduce this discount	X	
449	We should absolutely have a discount program for low-income riders.		X
3008	We should help people with low incomes as much as possible, especially youth and seniors. Transportation can mean access to education, healthcare and other necessary benefits.		X
701	We'd be able to afford it	X	X
892	What a great idea! Thank you!	X	
3422	What a great idea, with such a high cost of living more people need to commute in from far away and use BART and this could significantly save costs for low income folks and families	X	
746	What took so long?		X
175	When and where do I sign up?		X

Survey ID	Comments	Low-Income	Minority
1021	While a discount would not encourage me to personally ride BART more often, I would strongly support a discounted fare for lower income riders!		
2901	While a discount would not make a difference in how often I ride BART (I take it for my commute to/from work), I support the creation of a discount program to help low-income riders.		X
2738	While I don't think I would qualify for a discount, I think it would be great if BART offered such a discount to those who did qualify. Many people come from far away to high cost of living cities that the BART line serves in order to work "bread and butter" jobs, but if their employers don't reimburse for transportation, then BART really takes a huge chunk out of their paycheck.		X
2290	While I would not qualify for or need this discount I do think we should offer this for those who do need it.		
3649	While I would not qualify for this discount program with my current income of \$54,000/year, I wholeheartedly support the proposition. My BART commute costs a total of \$178 monthly (Ashby to Civic Center and back 5x a week). I cannot imagine the intense burden this same cost must have on those earning below \$50K/year, especially those who have the added expenses of families and even greater fare costs from commuting farther distances. I understand that from an economic perspective, there is a concern that a decreased cost will increase usage and therefore impart greater costs to BART. In my opinion, I doubt this is a major concern. Those who are riding BART and will be eligible for this discount are not riding BART for recreational purposes, they are riding exactly as much as they have to. They are using it to get to jobs, likely service sector jobs that are struggling to find suitable employees as it is due to exorbitant housing costs. It is an economic certainty that the money these families will save on their BART fares will instead go to their other expenses: food, clothing, emergency expenditures. This is economic stimulus in it's best form.		

Survey ID	Comments	Low-Income	Minority
2357	While the potential ticket discount may not affect me personally, I think it is a wonderful idea for making BART and transportation for accessible to the greater Bay Area community and would impact the frequency with which many folks would use BART. Thank you for considering implementing this program, and I hope you proceed with offering discounts to low-income riders!		
6	Why haven't Bay Area Rapid Transit (BART) implemented this sooner. You objective should be to assist the public; which the service is for.	X	Unknown
961	With the increases in housing cost in the city, I think it would be a welcome relief for families trying to get to work or school.		
2242	With the price of living in the Bay Area continuously skyrocketing, I'm in favor of such a proposed discount for low-income individuals such as myself and I feel it would allow me to utilize BART more frequently. Thank you for your consideration!	X	X
354	With the rising cost of living in the Bay Area, this would be extremely helpful for low income families	X	X
3218	Wonderful idea to have a discount for low-income riders	Unknown	
1173	Wonderful idea!		
565	Worked a minimum wage job, discount is very much needed	X	X
3421	Would be a big help to lots of folks and students, and etc		
2833	Would be amazing to see this program implemented		X
3098	Would be great for low income riders who commute every day		X
2797	Would benefit and help so many more individuals, a minimum wage job in the bay area can not sustain a healthy life for an individual.	X	X
1836	Would help low income families save money in their commute.		X
2900	Would help others and encourage more use of public transportation, and remove some cars from the road.		X
467	Would rather that a decrease for some doesn't result in an increase for everyone else, however family really likes this idea.		
191	Wouldn't qualify, but 100% in support!		X
3475	Y'all should've proposed it sooner!	X	

Survey ID	Comments	Low-Income	Minority
2870	Yes - it should happen. I'm not in the target group but too many are and need assistance.	Unknown	Unknown
1271	Yes I am currently unemployed with a recently diagnosed child on the spectrum. She enjoys riding public transportation but at times with fare prices it is costly. Currently on public assistance til ai can get back on my feet.	X	X
1743	Yes I believe they should get a discount.	Unknown	
224	Yes I have family members who desperately need this program		X
1011	Yes I think this would be especially beneficial. Perhaps less use of Bart police for those not paying fare	X	X
2655	Yes I would like to get the low-income riders discount. I am a 67 year old senior	X	X
3396	yes please give riders that are low-income discounts	Unknown	X
2884	Yes please. Ive been stranded at BART so many times, often at night, often in the rain, due to lack of funds.	X	X
2279	YES PLEASE. spending \$300 a month to get to my job where I make \$15/hr is killing me	X	
671	Yes! Bart is too expensive and it doesn't run 24 hours. Not ok. Everything here is way too expensive. I work 3 jobs just to get by. Also not ok.	X	
1069	Yes! Living in the Bay Area is hard.		
1061	Yes! Makes complete sense — esp since workers in the city already receive tax-free BART fares		X
920	Yes! This is needed. Any support for those who need to commute to do groceries and to work a discount would help in getting us where we need to be.		X
3408	Yes, bart fare is extremely high and could be even more expensive for low income families. I support to give them 20% discount		X
2756	Yes, I believe it will be a life changer for low-income riders relying on BART to commute to work. It is often a stress to account for transportation costs amidst such a high cost of living in the Bay. I recruit interns at a non-profit and they often ask for financial aid to supplement their commute to our locations.		X
3264	Yes, I think it is a wonderful idea. It will save them much hard-earned money and get them riding public transit.	Unknown	

Survey ID	Comments	Low-Income	Minority
564	yes, my daughter travels to city college daily and working a part time job. our household funds are limited for she is paying her own way through school. this program would be beneficial because she simply can not afford the hiking fair. it would be greatly appreciated to help our struggling young adults	X	X
1635	Yes, we should give discounts for low-income riders since BART has the highest farebox recovery in the nation and we can afford to give some of that surplus back to lower income riders.		X
1327	Yes, yes, yes, very very needed, please please please do this		X
3466	You should absolutely give discounts to low income riders		
945	You should definitely do it	X	X
3238	\$50k families of 4 is a good threshold! But it would be nice if single people earning less could qualify too.		
238	希望优惠方案不单只是给低收入乘客，经常乘坐捷运的乘客也希望得到优惠 * I hope the discount will not only be for low-income passengers, but passengers who frequently take BART also want preferential treatment*		X
2507	20 percent is a joke. to someone on low income, what is that?		
1014	20% doesn't make that much of a difference. 40% discount would help those of us that do not make \$50,000 a year.	X	X
2800	20% doesn't seem particularly aggressive. I would have thought a steeper discount might make more sense.	Unknown	Unknown
93	20% is an insultingly low discount, particularly when you are using a FRACTION of the FEDERAL poverty line as a metric for receiving the discount in the most expensive metro area in the country. Someone in a family of four making less than \$50k/year cannot even live in this region, so I guess this is a great way of making it look like you're doing something positive without actually having to disburse the discount to a meaningful number of people.		

Survey ID	Comments	Low-Income	Minority
1003	20% is great, but won't make that much of a different for truly low-income (not those considered "low-income" because the cost of living is out of control here, but those who have no access to cars, are having trouble paying the bills, may be unemployed, homeless etc.)	X	
3201	20% is not enough of a discount	X	
3191	20% is not enough. 50% please!		
1246	20% is the best you can come up with. ?????		
3280	20% isn't enough. It should be 50%.	X	X
1120	20% off is not enough for low income people with cost of living.	X	
2706	200% of the federal poverty line is NOTHING use the state poverty line or better yet the local average.  117k is considered low income in San Mateo county...		X
1343	200% of the poverty level isn't high enough to cover people a lot of folks who need this. The eligibility should be aimed to cover anyone earning up to the living wage (~ enough to spend less than 1/3 of your income on rent).  (20% off also isn't that much.)	X	
1572	200% of the poverty line is far too low. People making much more than that struggle to afford a Bay Area commute. Additionally, a 20% discount is measly. The low-income discount (especially given the chosen definition of "low-income") should be more comparable to the senior or disability discount.		X
3438	A 20% discount is not enough for working families. A greater discount of 30% or more may make BART more accessible to all riders.		X

Survey ID	Comments	Low-Income	Minority
3140	<p>A 20% discount isn't enough. It should be much larger. Like the senior rates at least. What about low income seniors? Are their fares additionally discounted?</p> <p>With that being said, how would BART offset the increase in ridership this incentive would create?</p> <p>Increasingly large portions of BART are dangerously overcrowded at peak travel times, and this could make that marginally worse.</p> <p>Tax me, raise regular fares that aren't part of a package, whatever needs to be done.</p> <p>Just make the system sustainable for everyone.</p>		
2208	A discount between 30% to 40% would be even better since there is a significant percentage of low income BART riders daily. This would help to increase ridership.	X	X
1112	A discount on longer distances or taking Bart past 24th and Mission. As well as non peak hours would be great		X
960	A discount program for low-income riders is badly needed. I rarely take the bart because of how expensive it is. I will take a much longer muni ride to avoid it. However I do not feel that a 20% discount is enough. For our community members living at 200% of the poverty line or below, a 50% discount would be much more appropriate and would really make bart more accessible.		
1924	A discount program would lower the barrier to using transit for folks who would benefit from it to get to work, but at their current income level can't afford to use it. I don't have an issue with the price, so a 20% discount would not incentivize me to use BART more, for me it's more a matter of time than expense that decides whether I drive or use transit.		
2983	A great idea, but it needs close and regular monitoring. What proof would a person need to show and would it be re-evaluated annually? Also, there should be a photo on the ticket for ticket inspectors so that the ticket doesnt get handed out to non qualified people.		
3225	A student discount would be great	X	X

Survey ID	Comments	Low-Income	Minority
2241	Add a discount for auto pay riders. And actually monitor stations, I see so many people evading fares.		Unknown
3034	Advertising would be great for people who don't know about discounts	X	X
2855	All public transportation should be affordable for EVERYONE. That's the entire point. It should already be at a price that all can afford		X
1539	All riders should ride FREE. That would increase ridership, lower auto traffic problems, etc. public transit should all be a free service, not profit making companies. Everyone compares the poor service in U.S. with the efficiency in Japan and Europe. How are those services compensated?	X	X
1279	also provide a discount for students		X
823	Any discounted tickets should be issued through registered Clipper cards to ensure accountability.		X
486	As long as all the other prices aren't raised because of it, who cares	X	
714	As long as it doesn't affect the overall profitability or BART and doesn't translate poorly to regular riders, I see no problem with it.	Unknown	X
408	As long as the fares are not transferred or subsidized by regular Bart riders. So don't increase fares of regular transit riders. Also watch the fare evaders. It is so easy not to pay at Bart stations like civic center and El Cerrito Del Norte.		X
2894	As long as you don't tax the middle class to pay for the discount . I can barely afford living here and in fact I cannot afford to heat my apartment despite having a job .		X
2999	As long the regular HONEST FARE payers aren't subsidizing this program. BART needs to enforce Fare evasion not just do photo ops.		X

Survey ID	Comments	Low-Income	Minority
1154	as of now the bay is the most expensive metropolitan in the world with one of the least functional public transit systems. making bart accessible to lower income folks would be a positive change that could set a precedent to other cities. the bay area has always been known for progressive practices and has been sliding with putting in place systems to uphold the more oppressed class. offering a discount to low income families could help them from being pushed out of where they have lived their entire lives. let's lead the nation in making public transit more accessible	X	X
2532	As service workers are forced to live further from their jobs it's important that reliable public transit is affordable. The 20% discount IS NOT ENOUGH. It should be 50-80% to really allow those that work minimum wage to commute daily. If BART remains a train for the upper class it's not doing it's job serving the public good.	X	
1126	As the years go by, it is more and more expensive to ride BART. Last year because I wasn't making ends meet, I had to quit my job in SF because it was too expensive to travel across the bay. Accessibility is imperative in big cities, especially since BART is the most expensive and least taken care of transit system in the United States.	X	X
1531	BART exists in the Bay Area, the federal poverty line is much lower than what Bay Area poverty is. For example, my household is a family of four, we make 70k a year, live in a 1 bedroom apartment. i stopped taking Bart because it was too expensive to get to work at about \$180 a month or more. Instead I carpool and drive to work to afford the bridge at about \$60 a month so I can then use the extra money on groceries. Please adjust the line of poverty to match what actual low income families in the Bay Area are making.		X
3591	Bart is exponentially more costly than other cities rapid transit. This isn't enough but it's a start.	X	

Survey ID	Comments	Low-Income	Minority
1582	BART is far too expensive even for middle-income riders. A 20% discount for low-income riders is a pittance. If we ever are going to move away from car ownership, fares should be dropped by 50%, and low-income riders' fares discounted by 80%-100%. It is hard enough to rely on BART when trains are late and overcrowded, and then unavailable for so much of the night. Worse, being late to work means losing the job of which you just spent an hour's wages on a BART + bus commute.		
278	Bart is inaccessible and needs to be less expensive		
885	BART Is more expensive than to drive, this needs to change	X	X
2663	Bart is really expensive and working low income folks find the expense of commuting a major burden. There should definitely be a hefty discount, more than 20%	X	
2283	BART is ridiculously, preposterously expensive for all riders. In many cases, it's cheaper to drive or take Uber. I don't understand why other major metropolitan areas (NYC, Washington DC, Boston) can offer more frequent service for less money. Pretty soon, even LA will have better and cheaper train service. I'm baffled by how high Bart fares are.		
554	BART is too expensive for middle income people as well, especially given the low quality service provided. There should be a pilot program to improve BART so that it's actually worth the expensive fare. There should be a student discount that extends to university students. There should be more funds from the state put toward maintaining cleanliness of the BART cars so that they can be cleaned more than twice per year.	X	
1323	Bart is too expensive. Many times if you carpool it is cheaper to drive than for each person to pay the bart fare. That doesn't make sense	Unknown	Unknown
581	BART is transportation for those who cannot drive. It is convenient. Higher prices impact lives of those who work in farther cities (IE Antioch to San Francisco). Higher rates mean difficulties to work.		X
1604	BART is very expensive and many people have no other option to get to work or school. The fares are too high. I get a good transit subsidy for commuting through my government job but it doesn't cover the cost of BART.	X	

Survey ID	Comments	Low-Income	Minority
578	BART is very expensive for the quality of rides - I ride it everyday and I'm constantly squished into trains to make it to and from work everyday.		
1651	Bart is very important for me and my family. I work in SF and commute to work. The tolls are very expensive so I depend on Bart.		X
873	BART is way too expensive. Fares determined by distance discourage riders from outlying suburbs. Fares should be overhauled to be more in line with other Bay Area Transit systems.	X	
1935	Bart needs to be clean and safe!!!		
58	BART needs to be less cost	X	
618	Bart needs to make it safer to ride on their trains if they want to have more customers. It does nothing about customer safety to give out discounts.	X	X
2558	Bart really should not be as expensive as it is already. You make more than enough and even more with parking fees.	X	Unknown
2486	Bart should be accessible to EVERYONE, including FREE fares for those who cannot afford it. Any public infrastructure that is not available to EVERYONE is unjust and only serves to exacerbate inequities. As the richest city in the history of the Earth, we are absolutely able to provide these critical public services. It's not a matter of how, it's a matter of political will.		
1425	BART should be accessible to everyone.		
1885	BART should be free for anyone receiving SNAP ie food stamps or SSI	X	X
2577	BART should be FREE for Students (August to June) and Seniors (year round).	X	
1095	BART should go to flat fares. This would inherently help low income riders, since they usually live further away from the city.		
3260	BART should have a flat price monthly pass.		
3004	BART will need to create new plan, to have BART Train Monthly Pass like did with ACE Train, Caltrain, SF Muni Rail, and VTA in San Jose. I think BART is a long overdue to have train monthly pass for unlimited rides	X	X

Survey ID	Comments	Low-Income	Minority
1018	Bay Area is an expensive region to live in and with the current income bracket, many residents in San Francisco do not qualify because they are outside of the maximum income level. Is BART open to expand the maximum income level to be more inclusive of riders who are outside of current maximum income level or find another way to be inclusive of riders who are in the lower-medium income bracket?		X
205	Before my senior discount kicked in, riding BART was a hardship. At that time I was working and using Bart to and from work at least 6-7 days a week and sometimes more than 4 times a day.	X	
1157	Besides low income, a college student discount would help so much. Not just for local Bay Area colleges, but for Bay Area residents who go to school out of the area and need a mode of transport when they come back as well.		X
553	Besides of the low-income riders, please also consider a higher discount for frequent riders. Many low-income/ welfare receivers are already collecting supportive services (transportation).		X
3596	Can we get a subscription program that reduces the amount for a month, also please improve technology capacity. I would like to use my phone to prevent having to purchase at the Bart station	X	X
154	Can you please make a transbay BART/Muni monthly pass?		
3227	Change the income thing to include any artist (or person who has to commute via bart and doesn't work for a tech company)and young people under the age of 25. I stopped taking BART because it was too expense. Cheaper to just take a Lyft or drive a car when I need too. Or just make a multipass, bulk buy pass, something. BARTs fees are outrageous. Also, stop allowing the murder of black people on your properties.		X
378	Collaborate with other agencies such as CALfresh and EBT to reduce the paperwork strain		X
2851	College students should also receive a discount	X	X
115	College students should be included. I know SFSU students have a 25% discount but some of us have to pay \$16 round trip when commuting from Antioch		X

Survey ID	Comments	Low-Income	Minority
2503	Consider single households especially for those who are part time students.	X	X
1336	Coordinate it with free bus to BART because big issue is the getting to the BART station.		
3448	Cut rates for everyone, onstead of on the earnings of tax payers.		
302	Definitely lower costs to ride BART. It should cost less to ride BART than drive over the bay bridge.		
3262	Discount for disability.	X	
2387	Discount has to be given to all frequent riders, not only to low income riders.		X
2287	Discount is a great ideal, but not at the expense of the rest of the riders. Like rate hikes or less services.		X
738	Discount should be bigger; mass transit is too expensive in the Bay Area.	X	
2465	Do not use the federal poverty line limit. Bay area is more expensive to live. Almost no one would qualify for the discount. Also consider student discounts.	X	X
1584	Do they already receive a 50% discount, that used to be 62.5%?		X
3400	Does this program potentially reduce fare evasion?		
3216	Don't know anything about this yet		
95	Don't think people who are that poor will know about the program		
1230	Due to the housing crisis, commuting is becoming the only option for service workers and low income work in the city and inner Bay Areas. Now, outer Bay Areas have become just as pricey, and outer Bay Area residents heavily rely on Bart to get to their jobs. Transportation costs more against the wages of lower income, which dont have work from home or drive to work options.	X	
2814	Ensure that the discount program is not offset by fares paid by regular users		Unknown
690	Even a 20 percent discount isn't enough. Fares are really expensive!		

Survey ID	Comments	Low-Income	Minority
827	First, about time! What took so long? You should take it 10 steps further, by providing up to 40% off in addition to providing an option of a day pass for those that don't meet the ridiculous 200% poverty line. I spend \$60 per week (\$240/month) , and that's with a commuter card, but I've always felt you should have a \$10 day all commuter pass. Ideally, make it work between muni, AC, etc. Do something for the people other just keep asking us to pay for your repairs. You have plenty of \$\$\$, but do you have ??.		Unknown
3219	Folks that work service jobs shouldn't have to pay a quarter of their pay check commuting because they can't afford to live near their jobs.		
1960	For low income riders at the currently proposed eligibility requirement, it feels too out of reach and not enough of a discount to significantly help.		X
1028	for now I only really take bart for work, but i'd love to be able to afford to go out dancing like I used to. It'd really help if bart ran a little later as well!	X	
1032	For students also paying loans and fees and coming back and home from school to work to home	X	X
1077	For the bay area, families of 4 making more than \$50k would still need the discount.		X

Survey ID	Comments	Low-Income	Minority
1345	<p>For those that can document their use, not just income alone, this could be a game changer for those families.</p> <p>If someone not currently using bart but would otherwise do so because of the discount should be given an opportunity to demonstrate that use via a probationary period.</p> <p>At the end of a 90 day period (?) riders that meet income requirements AS WELL AS meeting a minimum number of rides per week/month would be allowed to stay. Those not doing so would not be allowed to utilize the program.</p> <p>This should be targeted, not wholly based on income. Or more frequent ridership lends itself to greater discounts, etc...</p> <p>Joseph Camacho 510.691.9183 josephbcamacho@gmail.com</p>		X
1085	Give low-income riders even higher discount like 50%		X
642	<p>Given the high cost of living in the Bay Area alone, using the federal standard of poverty isn't realistic. Being considered "very low" income at the federal level is already low in much cheaper places such as North Dakota. You need to use a better measure of low income that is more appropriate for our area such as level of housing burden or being a certain percentage below the local median income. This would make it more accessible to people rather than setting the bar so low that almost no one can qualify. I do understand that this is harder to do logistically but I think that it would be more beneficial to the people who are living so far out in places at the end of the line (and further) due to gentrification and have to pay hundreds of dollars in bart fares to get to their jobs that may only pay \$50K for a one person household, which isn't much in the Bay Area at all especially after they budget out Bart fare.</p>		X
2099	Good idea but I would like to see a greater discount for low income riders		

Survey ID	Comments	Low-Income	Minority
3198	Good idea, as long as it doesn't require too much bureaucracy to receive a discount. BART is quite expensive, particularly for Transbay trips. Ensure that it has a consistent policy with connecting transit agencies, and make it so that applying for a discount with one agency makes it apply to the rest.	Unknown	X
2127	Good idea. Then enforce the gate jumpers.	Unknown	Unknown
468	Great concept... need more trains and better reliability... already over-capacity during peak hours...	X	X
431	Great idea also kids thru 12 grade should ride free tied to library cards maybe Discount for college students tied to college Id		
3217	Great idea and will really benefit the community, but the cut off for what is considered low income should use Bay Area specific statistics NOT the federal level as the cost of living is much higher here than almost every other region in America		
2073	Great idea to help low income riders get to work and be productive. However, I worry about attracting some of the wrong crowd. Can you increase security and the number of trains so that trains don't get overly crowded, and keep commuters feeling safe and comfortable?		
3247	Great idea! And even better idea would be to make it a 50% discount. I wonder if a Medicaid number could be easily verified and substitute for whatever financial forms would need to be filled out to qualify.	Unknown	X
1084	Great idea!! I would offer a sliding scale discount based on income. Riders who fall below 100% FPL get a 30% discount, between 101- 200% of the poverty level get a 20% discount, between 201- 300% then a 10% discount. The FPL does not take into account the higher cost of living in the Bay Area and I feel that a lot of riders would not meet the 200% or below criteria.	X	
1102	Great idea, but 20% is too small of a discount for true low-income people.		X
3234	Great idea. 20% is too puny of a discount though. Get more taxpayer funding to lower fares more.		X
2190	Great idea. How about a bigger discount? 50%		Unknown

Survey ID	Comments	Low-Income	Minority
1436	Hace cerca de 18 años tomó el BART de lunes -viernes y los fines de semana ocasionalmente pero causa frustración ver todos los días personas de todo tipo de sexo,jóvenes,adultos,y de toda condición económica q se pasa sin pagar y no tienen ninguna consecuencia sus acciones . Espero q este descuento no origine el aumento de tarifas para subsidiar a toda esas personas q se beneficiarian gracias *About 18 years ago I began taking BART Monday-Friday and weekends occasionally. It causes me frustration to see every day people of all sexes, age, and of all economic status not pay fares and do not have any consequences for their actions. I hope that this discount does not originate the increase of rates to subsidize all those people (fare evaders) who would benefit. Thank you.*		Unknown
2067	Happy to have low income riders ride more so long as they are qualified, working individuals. My worry is this could increase more vagrants or delinquents on board. Has a study been done to see how many people are actually not using BART currently that otherwise would with a discount? Would like to think this isn't being done just from political pressure without any substantial data to back it up.		X
3176	Have been considering having to quit job bc the pay to get there is \$16 a day. Already inflated rent and toll. At least let Bart have some decency	Unknown	Unknown
348	Higher forms of discount should be applied to students taking Bart and seniors 60 and over		X
2015	Honest question: What are the reasons you believe this program is important or would benefit your riders?  Related comment: I see dozens (not exaggerating) of folks jumping the gates every single day (weekdays and weekends). Many are between the ages of 15-25 years. They are taking up spots in the cars without paying. Who will subsidize their fares plus this discount you are proposing to low income riders? I don't mind implementing a generous program like this, but it's unfair to have honest customers offset extra costs.		Unknown
301	Hopefully it doesn't raise my fare to give discount to the low income		X

Survey ID	Comments	Low-Income	Minority
1000	Hopefully would encourage less gate jumpers and lower the fares for everyone		X
2654	How about discount for everyone? The current Bart fare is way expensive for average riders.		Unknown
1025	How about having a weekly and monthly pass?? That would save commuters money, stabilize your fare income, and also you could discount it for low income riders. Metro North and the nyc subways also do this.		
1941	How can you gas tax dollars for this?	Unknown	
1974	How can you possibly verify who is low income? How will you prevent everyone from claiming they are low income?	Unknown	Unknown
1590	How do you measure the success of this program?		X
33	how do you qualify?		
469	How does BART propose low-income qualifications will be verified. I suspect these benefits would be abused with the burden falling the shoulders of full-fare riders.		
724	How is this being paid for? BART can't keep the escalators running and has so much differed maintenance to clean up. I worry that this would end up being another revenue drain when the basics aren't being covered.		
3263	How will BART make up the lost revenue? Perhaps this program should be funded by the low-income riders cities of residence.		
1368	How will it effect your regular riders like myself who do not receive any discounts and use bart 5 days a week. You should as give your daily rides a discount.		X
2898	How will the discount program for low income riders reduce fare evasion?		X
787	How will the program be paid? Will fares increase for regular riders to offset the discount? Will this be a ballot measure?		X
177	How will this other than the event for this discount, how will this discount be advertised to the public? This discount would be a great thing for most people and if it wasn't properly advertised, I think not many people would know it existed.	X	X

Survey ID	Comments	Low-Income	Minority
522	How will you fund this? Can't be taxes or bonds, so higher rates for the rest of us. And then why not lower rates everywhere? Tolls, gas, cars, food. You get discount, and you get a discount, and you get a discount! Everyone gets a discount!	Unknown	Unknown
3088	How would it be enforced? How can BART make sure riders don't allow there family and other's ride with there pass?		X
2526	How would low income riders receive the discount if they ride with multiple transit agencies such as VTA and AC Transit? I find it more useful to Auto-Load cash to my Clipper card for easy transfers from one agency to another.		X
1216	How would this be verified?		X
2003	How would this program affect other riders. Will this mean fares would increase for riders not in the program? Who will foot the bill?		X
1733	How would you prove you qualify? Would a medi-cal card do it?	X	
3671	I already have discounted travel on account of being disabled but many of my friends cannot afford to ride as often or as far as I can simply because they are low-income and let's face it, in the Bay, that's a lot of people	X	
3163	I am a San Francisco native who was forced to move because of the rent. Now i am forced to pay for Bart just to work in a city i can not afford. I am a single mom who makes 48k a year. My 1 year old son rides Bart Monday - Thursday (driving is too expensive and too much of a hassle). To qualify as low income to commute would not only help me but other natives and families who are struggling to survive.		X
3687	I am all for helping who need assistance with paying the fare that they can afford. Yet I concerned it is not going to do anything. It is much easier to just skip the fare and not pay at all than getting a discount. It would also need to be a seamless experience in order for people to utilize it.		
2989	I am concerned about how this will affect the need and funding of safety on BART since the amount of revenue will change in a negative direction.		X

Survey ID	Comments	Low-Income	Minority
1713	I am not a low-income rider, but I do think you should consider a much higher discount / lower cost program. There is a lot of turnstile jumping already; I am not sure 20% will disincentivize it. For a family of four making less than \$52k, it should be 40-60% off. The benefits to the communities they serve would offset the cost.		
2874	I am student at CAL, and we receive free AC transit bus rides but no discount on Bart. Many of us have jobs and internships that require us to be in the city and it's difficult to do so on such a low budget as a student.	X	X
932	I assume proof of income would be required?	X	X
697	I cant afford Bart at the moment, but a 20% discount is not enough, especially when considering how poor the service is for the cost. In London, the oyster card, their version if the clipper card, gives users a 50% discount on a fare. The transport system is incredibly vast, and the trains and stations are in much better condition. Considering how poorly kept the BART system is, and how small our BART system, the cost of transport is ridiculous and only a 20% discount is pathetic.	X	Unknown
675	I can't afford to ride BART often even though I want to. Just for myself, it is expensive, but when considering riding with my three kids, it's just too much. The discount should be higher, 50%. And, like other metropolitan areas and MUNI, youth fares should be provided.		X
2231	I commute between Concord and Civic Center five days a week. Every day I see a dozen or so BART riders waltzing into or out of the Civic Center elevator, without paying. Most of them in their 20's, and able-bodied. And never see any BART personnel doing anything about it. I'm disabled, but pay full fare. I hope this program helps the people who really it. BART is EXPENSIVE to ride! BTW, I appreciate the clip-boarding staff in the Civic Center elevators, which are no longer being used as bathrooms.	Unknown	
512	I do not think the discount is enough - it should be the same as for low-income riders in other defined categories - i.e. disabled and senior adults. There's no reason to distinguish and this program needs a steeper discount to make a meaningful change!		

Survey ID	Comments	Low-Income	Minority
1522	I don't think the discount is enough to make a significant difference. The BART tickets should be more reasonably priced for everyone.	Unknown	Unknown
2569	I don't believe BART should use the federal poverty level to measure this discount. The Bay Area is so expensive to live in that any comparison to nationwide income levels is laughable. Anyone who is 200% below the federal poverty line is either homeless or has already moved away. Unless the bar is raised, this will help no one.		
2512	I don't qualify for this - my income is too high - but I did want to note that I was surprised to hear that the target discount is 20%, compared with the RTC discount for seniors/disabled (which I do qualify for) of 62.5%.		
1826	I don't the rate should have to be so high (200% of the poverty level). I believe it should take in consideration that this is the Bay Area. That even though we make more in wages that expenses are higher as well. Also this should go through either way, we need to support those who are less fortunate.		X
227	I don't think 20% is enough, although of course it's better than nothing. MUNI's discounted monthly pass, Lifeline, is HALF the cost of a regular Fast Pass and for truly low-income that \$39/month is still a lot. I can't tell you how many times I haven't taken BART when it would have been much faster, just because I couldn't afford to pay the fare on top of MUNI.	X	
186	I don't think it captures enough of the low-income riders or would-be riders. The information provided didn't show what the income for households of one or two should be to qualify, but I'm assuming if it can't only be \$50,000 for a family of four, a family of one or two would need to be significantly poorer (\$10,000/year) to qualify. While I believe programs are needed to assist such families, the Bay Area is a very expensive place to live. The curve is very different from federal definitions of poverty. A family of one in the Bay Area should be considered poor if they earn less than \$40,000 per year.	X	X

Survey ID	Comments	Low-Income	Minority
852	I don't think it's good enough. I commute from Marin, and I think there should be reciprocity. I should not have to pay for Bart to travel the 4-stops to get closer to work after I've already spent \$6 and nearly an hour coming from San Rafael.		X
2547	I don't think most people would care if it's only 20% because the green and red bart cards have a higher discount value, so they would still stick with those.	X	X
839	I feel like the discount could be even more. Maybe 50%? I think bart is quite expensive.		X
460	I feel that the price of my Bart fare is inelastic. The fare of Bart never stops me from purchasing a ticket or choosing to ride it.		X
527	I fully support this as long as BART takes a more aggressive stance on fare evasion and other bad actors abusing the BART system.		
3137	I have genuine concerns about the cost to manage such a program. If it could be done with little overhead, I would favor it. I also wonder if it will reduce revenues in a way that requires eventual fare hikes for other riders down the road. I love the intention behind this, but not sure it makes sense to implement social transfer payments at this small a level—leave that to broader policy initiatives that can reap economies of scale. Thank you.		
815	I have the free muni rtc program card until 2023 and would like bart to offer that as well at least in the city so getting to ccsf would be easier.		
2909	I hope discount would apply to BART daily parking during the week as well.	X	X
991	I hope it's easy to sign up and access! I feel like if folks have to go through a lot of steps to register they won't know about it and it won't be as accessible.		
1121	I hope that there will be income verification options that folks of various backgrounds could provide. I worry that the program could be exclusionary to immigrants, who we know rely on transit more heavily than the general population		X
1893	I hope that these fares will affect the disabled riders as well.	X	
1176	I just don't want to see this discount program subsidized through a fare hike on other riders.		X

Survey ID	Comments	Low-Income	Minority
2096	I know that sometimes these programs are easy to get started by using qualifications for services like CalFresh, etc to validate need, but I hope you will just also take income verification through tax returns, as I don't use many services but would for this BART program.	X	X
2010	I love the idea of it but it should definitely be a higher discount for low income students. UCB, Laney, and Berkeley City college are the most BARTable and you have probably thousands of low income students riding every single day to each of them.	X	X
2973	I make an okay amount. I already ride BART a lot so I would not ride BART more often, but back when things were tighter and I was not obligated to ride BART (could take bus instead), a 20% discount would probably have encouraged me to use BART. Although a 40% discount would have been better		X
379	I personally do not meet low-income qualifications but nevertheless struggle to make ends meet day to day. I am concerned that the funding for a 20% discount would come from increased fares passed to non-discounted riders and that is something I cannot afford.		Unknown
3066	I qualify for the disabled discount and could not ride bart without this discount. I know people who work full time who have to ride bart, but in reality can not afford the fair. What do they cut back on in their budget? Food. Make the low income discount the same as the disabled discount or its just good PR, not real help.		X
455	I regularly use the BART app to report issues and I never receive a response. How is BART prepared for the influx on potentially a large influx of more riders? Bart is already astronomically high and this cost has to be consider when taking a job, all riders could benefit from a discount.		Unknown
2197	I support it. I think the threshold should be an even higher income and the discount should be 80%.		
946	I support low income discounts. However, I do not support increases in regular fares.		
1773	I support the idea in principle! But it's almost laughable how small the scope is. How many families of four can survive on \$50k in the Bay Area and how much difference would a 20% discount make? If anyone can make that work here they should be riding for free.		

Survey ID	Comments	Low-Income	Minority
978	I support this and I think it should be extended to people who make more than just 200% of the median income (maybe 150%?). To be clear I would not qualify for either version but I support the concept of a low income discount for people for whom the fare is difficult. Thank you.		
608	I think 20% isn't enough. Low income riders should pay the same fare as disabled/senior riders. In Portland all of the above pay 50% per ride/28% for a monthly pass and it's lifesaving	X	X
2349	I think 200% of the poverty rate is too restrictive. Perhaps 150%- 125% would be more encouraging.		
475	I think a discount program for low-income riders is a great idea! I think it should be a greater discount (i.e. the discount of senior and disabled riders).		Unknown
510	I think a discount should also be given to middle income households as well.		X
445	I think a family of 4 making \$89k a year would still have a hard time paying for Bart every day. They would benefit from a program like this. The low income restrictions in SF are ridiculously low most of the time. SF is becoming unaffordable more for the middle class than poor and rich classes.		X
2164	I think BART fairs are higher for everyone but people still use it to avoid very bad traffic and very very expensive parking. It will be more economical for whoever gets this benefits, but who will pay for their discounts?		X
3565	I think daily commuters with low income coming from further away where housing is cheaper will need a significant discount to help them achieve a better standard of living. I also wonder why BART can't be automated, cost lowered by increasing riders volume, and made to cover the BayArea more extensively, so that driving becomes no longer necessary. Why doesn't BART stretch to Marin county, and connect across bridges like Dumbarton, etc	X	Unknown

Survey ID	Comments	Low-Income	Minority
3399	I think dropping the rate for those in poverty would benefit a great number, however, if BART wants to survive with the ever unstable economy, it should invest more in high speed rail to gain more support from the public.		X
1478	I think it could/should be a higher discount than 20%.	X	
3378	I think it is a great initiative and wish it could be a greater discount for those who are homeless or unemployed.		X
3196	I think it is a sound policy in comparison to other less sustainable options (i.e. automobile). However, fare evasion ENFORCEMENT is lacking at 16th St. & Mission. I travel daily (roundtrip) between Pleasant Hill and 16th St. & Mission. The station gate agents at Pleasant Hill enforce the gates and do not allow fare evasion. The station gate agents at 16th St. & Mission DO NOT enforce the gates and allow fare evasion right in front of them. That is if they bother to wake up or look up from their phones. SAD!		
123	I think it is important to keep public transit accessible to those who need it most. I am in favor of a program such as this which would make it easier for low income passengers to move around the bay. But there are many things to consider: many people fare evade when riding BART because they simply cannot afford to pay the proper fare. I am concerned that, because the fares are already very high, even with the discount, the fare may still be too high for those who are struggling financially. Furthermore, fare evasion on BART is rampant, resulting in major loss of revenue and thus better enforcement of fare evasion would be needed. I believe that if fare evasion could be eliminated, BART would actually be able to make fares more affordable for all of us.		
658	I think it should be 30-50% off sliding scale depending on how much you make, if you're a student etc. The cost of bart is so prohibitive, especially with the new toll hikes on the bridge! Yikes! How will low income folks like us ever afford to keep making it to work or school?	X	X

Survey ID	Comments	Low-Income	Minority
3283	I think it should be a bigger discount. I hopefully won't qualify, but commuting in and out of SF every day costs me over \$300/month - comparable to my health insurance payments. Families making less than \$50k a year in the Bay Area are likely to live farther from where they work than wealthier families, and may run up transportation costs even higher than mine! Anything that gets that fixed cost down will be a big help, and businesses in SF and the surrounding cities need people to be able to afford to get to work.		
2320	I think it should be fair enough to match the low-income riders discount with the senior and student current discount rates.	X	X
722	I think it should be more than 20 percent because Bart is very expensive and when you are low income and have to ride the Bart everyday it really puts a dent in your wallet.	X	X
1509	I think it should be more than 20%, perhaps 40% for a proper discount. Or, simply half to match the other discounts and keep it simple. 200% of the poverty line is income unstable and not a good place to be; help folks out more than 1/5th.	X	X
249	I think it will make it more accessible to those who use it. Also having more trains would be good.	X	X
2969	I think it would be better if the limit was more than 200% as a lot of people in the region are struggling as it is, and 200% really only serves the absolute most destitute and not the low income working class who use BART to get to and from work/home. Additionally, a zone scheme should be set up where low income customers can link their Clipper to BART and can get discounts for riding within a specific zone..example would be SF as a zone, where riders can use clipper card that's registered in the program to ride at a lower cost or unlimited rides within that zone for lower cost than the BART/Muni passes.		
1875	I think it would be great to start a program like this. Please look into it for the youth as well.	X	X
3132	I think it's a great idea and would support an even larger discount.	X	

Survey ID	Comments	Low-Income	Minority
1862	I think it's a great idea, but if it does encourage more Bart riders, Bart needs to find a way to make the actual system more reliable and have less delays. I feel like a lot of people choose other ways for transportation because of how unreliable it can at times.		X
770	I think it's a great idea. I think that making it free for low income people would be the next logical step which I agree with.		
2009	i think it's a good thing.  i also think there should be more enforcement when it comes to well to do folks that skip out on fare because they think it's fun/funny. it happens a lot.  i understand when low-income folks skip out on BART fares and personally feel fine when it comes to subsidizing fares that are hopefully more affordable for them (which is basically the situation as it stands already).		
2580	I think it's a great idea if, and only if, fare evasion is no longer ignored.		
2862	I think it's a great idea, however, I'm curious about how you will be able to implement it. Are you asking for W2's or what. Very interested in how this will play out without offending anyone.		X
687	I think it's a great idea, the Bay Area is very expensive for all, especially people who make minimum wage. I also think running 24/7 with limited trains would be even better. Many people have to be at work for graveyard shifts can't commute to work.		X
2294	I think it's a great idea. To keep things simple PLEASE use the exact same qualification rules and activation process as the Muni Lifeline Pass. Ideally such a system should be available regionwide, but AT A MINIMUM you MUST coordinate with Muni.		

Survey ID	Comments	Low-Income	Minority
1535	<p>I think it's a nice suggestion, but misguided approach. There are several concerns. 1) What is the suggested procedure to acquire a low-income discount? How long does it take to authorize a discount-card? BART and many Bay Area transit suffers from lack of easy-to-acquire information about transit - especially on-site (it's ironic that it's easier to find information online than offline). So I wonder if BART will be successful in getting sufficient numbers to sign-up for this program. I would suggest setting-up human information booths at each station with sufficient advertising, so that riders can easily sign-up. Also, if the sign-up process requires days/weeks, I think that it will discourage low-income riders who would want the immediate effect, especially when they are tight on money at the daily level. Can they get a paper-permit that they can show to operators?2) How will you manage abuse of this discount? How will this prevent discrimination? Will certain types of people be barred from this program? I presume that this discount program would require some application with tax-return information. What are the requirements to obtain this discount? Does this study account for the actual and potential socio-economic demographics of the riders? 3) Will this require annual renewal program? Can riders apply any time? This is pertinent for riders who experience sudden financial struggles and may want the immediate effect. 3) My daily BART-ride frequency has not changed despite having the 15% discount for SFSU-affiliates. This is because my work-commute has not changed and has required BART either way. In the grand scheme, the few cents saved on my BART rides have not had a significant effect on my budget.</p>		X
2605	<p>I think it's a very good idea. While I was studying and low-income, the muni lifeline pass was really important to me. It allowed me to go to class and to work. I know that discounted BART passes would be similar for other people. In fact, I think the discount should be 50% like the lifeline passes.</p>		

Survey ID	Comments	Low-Income	Minority
766	I think it's a wonderful idea. I would gladly "suffer" a small fare increase if it meant that low-income workers would have a few extra dollars at the end of the week. My only concern would be whether it would lead to an increased number of unhoused individuals taking advantage of the discount and behaving poorly or taking up space on crowded trains. I don't mean this to refer to homeless people in general, just to a minority that would use the trains as a place to sleep.		X
1655	I think it's absolutely necessary for low income folks and I don't think 20% is enough - the discount should be higher.		
1325	I think it's an important step, but it should be a deeper discount. BART is unaffordable for low-income people, especially youth, young adults, and seniors. It's often cheaper for me to drive than to take BART.		X
1334	I think it's great. I see a lot of fare evasion at my stop, so it would be good to offer incentives to pay while enforcement is stepped up.		
1266	I think low income riders should qualify for 50% off tickets, or even free ones. Bart is very inexpensive and 20% doesn't do much. We know the money is in the city. Findit and help low income folks ride without worry.	X	X
2943	I think low-income riders and students should pay a flat monthly rate. In Madrid I've used their metro system where I payed 20€ a month and paid every month. I believe it'll increase the number of riders and highly benefit the East Bay/ Bay Area community.	X	X
2858	I think that the discount should be even more for low-income riders, and there should be a BART-sponsored commuter benefits program for low-income people who ride to work, or maybe a flat fee for longer-distance riders.		
2668	I think the discount program should not use the 200% federal poverty line as the threshold, because the cost of living in the Bay Area is so much higher than most metropolitan areas in the US. For example, the max a family of 4 can make to qualify for this program is about 50K. Whereas if you look at the Bay Area median income, a 100K income still makes you low income. The program should use AMI (area median income) instead.		X

Survey ID	Comments	Low-Income	Minority
2582	I think the discount should be increased to 30%, and that the eligibility guidelines should be more inclusive to ensure all families who need this discount can receive it.		X
1335	I think the discount should be more than 20% but no more than 40%. All in all the fares getting to and from the city, still isn't affordable with a 20% discount. Also, I doubt that level of discount will be effective to what is the growing cost of traveling to and from the city.	X	X
3577	i think the discount should be offered to people who actually need it (commuters such as students and workers) as well as people of low income.		X
2417	I think the discount should take into account the amount one spends on BART as a percentage of their net income. Someone who parks at Antioch and BARTs to SFO will benefit more from the discount than someone who rides from Berkeley to 19th.		
2247	I think the low income discount should be 50%		
2622	I think there needs to be documentation to prove income because there are a lot of cheaters out there! Also, perhaps this will reduce the number of people who cut the turnstiles.		
1153	I think this can provide a beneficial potential for both the recipients and BART. However, I believe that the discount should reflect closer to the disabled and elderly discount.		
1931	I think this is a good idea. Just make sure cheaters are held to a minimum.		
2351	I think this is a great concept/idea. However, fare evasion is a major issue that requires more and faster attention than BART is putting forth. With less fare evasion, BART would have millions of additional dollars per year in its budget to fully fund programs such as this proposed one.		
401	I think this program is a fantastic idea! I am concerned about people potentially conning the system in order to get a discount even if they don't qualify, but I still think it is worth pursuing.		
2613	I think this program is great in its intentions, but needs to be tinkered with before releasing it publicly.		X
2239	I think this should be expanded across all platforms that take clipper card. I also believe that it should be more than 20%		X

Survey ID	Comments	Low-Income	Minority
2747	I think this would be a fantastic and equitable idea if BART took into account costs of living vs. actual income for the Bay Area. While it's a start, I don't think that needing to be 200% below the poverty level to qualify for this discount is reasonable. Consider how much expanding the criteria could BOTH save riders money AND thus increase BART's attraction and revenue	Unknown	Unknown
3571	I think this would be great! I don't think I'm in this low income bracket but I think that those who are should get an even greater discount than 20% off!		
2236	I think we should make it FREE for anyone using public assistance, food stamps, WIC, etc. Anyone making 200% below poverty line should ride for free. Tax the f'ing tech/finance/corporate sector at a fair rate and we could ALL ride for free!!		
3525	I think you need to take into account many single people don't make a living wage and still don't qualify for low income options. I make \$17,000 per year and am not eligible for assistance.	X	
2304	I think you should consider some local measurement of poverty. It is well established that the poverty level in the bay is much higher than federal. It is a good idea, but Bart will be criticized if you don't consider local factors.		
1823	I think you should give this discount to the thousands of riders that ride your system every single day as well. \$10.90 a day is too much for the poor service I get on bart. I get a way better experience on caltrain for way less. The HVD ticket is not valuable at all when I have to pay \$220/month on train tickets (not counting the additional \$60/month for parking.)While I commend you trying to give low-income riders a more accessible price point for the system, I wonder how this will affect the current homeless problem within the system. Will there be more homeless people peeing and shooting up on the trains while hardworking, paying customers pay the brunt of the discount?		

Survey ID	Comments	Low-Income	Minority
2664	I think you should help low income riders. I would not be opposed to letting them ride for free and charging more during rush hour to compensate for it. However, I understand this would be a hard sell for the general public. When I was low income, there were days it was hard to come up with transportation money and there is no option to walk across the bridge.		
1932	I totally support it.		
870	<p>I was just looking at this article that talked about your discount:  <a href="https://www.nbcbayarea.com/news/local/BART-Seeks-Public-Input-on-Proposed-Discount-for-Low-Income-Riders-503413201.html?fbclid=IwAR37doX6scaXuGj4IyadCwFFuSdtzwLpbU7npTi9o3bESNgKkKtrT2lEV6Y">https://www.nbcbayarea.com/news/local/BART-Seeks-Public-Input-on-Proposed-Discount-for-Low-Income-Riders-503413201.html?fbclid=IwAR37doX6scaXuGj4IyadCwFFuSdtzwLpbU7npTi9o3bESNgKkKtrT2lEV6Y</a></p> <p>I think a 20% discount is better than nothing but I also feel like Bart is extremely expensive compared to the bus or compared to transit in other cities. It's not clear to me why Bart is so expensive. I feel like a 20% discount is not much for a family of four who is living on \$50k a year. I would like to see a higher discount for individuals at 200% of the federal poverty line. I would also like to see a discount for other low-income individuals who are not as in dire straights as a family of four living on \$50k a year. Honestly, this is the Bay Area and it is expensive to live here. Public transit should be accessible to all.</p>		X
2888	I won't qualify. I would like the discount to be higher		X
3696	I work hard for the money I make. Why shouldn't middle class people get a discount as well. Lower all fares by 20% and maybe you'll get more riders. Between the high prices and dirty cars I hardly ever ride any more. Giving discounts to low class riders will just increase the crime on BART. Allowing the thugs easier access.		X

Survey ID	Comments	Low-Income	Minority
3065	I work in the nonprofit sector, and while I make a good income (65k/yr), the cost of living in the bay means that commuting via bart is a *huge* but necessary expense for me. There are other people who need a bigger break more than I do, but I think anyone making less than 80k a year would benefit from a little relief. Crazy to think that 65-80k a year is "low" income in this day and age.		
678	I would also suggest a type of discount/subsidy for individuals who make more than 50,000. Making a bit more than that does not amount to being financially secure in the bay area.		X
18	I would appreciate a flat monthly payment that would give unlimited rides. When I lived in NYC, MTA providing this service really helped support the people living there		
3482	I would have expected the discount to be larger than 20%. Regardless, this idea is a no-brainer -- just do it!		X
197	I would just stress that though it would be great, make sure proper procedure is in place to not allow fraud...		Unknown
166	I would like to see discount rates at different levels based on a variety of factors  Really glad to see that you're doing this		
369	I would love to ride bart more, but I can't afford to be late to my job. Having the discount would be nice, but if I'm constantly late because of Bart, I won't ride it.	X	
684	I would support it if it targeted lower income people (maybe 50% of AMI)		
390	I would support the program as long as fare evasion at the stations is prevented.		
2682	I would think a larger discount would make more sense. Ticket prices, especially transbay, will still be quite significant even with a 20% discount, and what is easy for financially secure people to pay could be very difficult for low-income riders to pay.		
2836	I wouldn't qualify unfortunately but I know that 20% discount isn't enough for lower income families. Bart gate along with having to pay for parking it's all very expensive. The discount should be higher.		X

Survey ID	Comments	Low-Income	Minority
428	I'm for this program to increase equity but I think that bart should reserve the right to revoke participation in this if the pass holder is found guilty or in violation of any bart or local crimes — fare violations, public defecation or urination in a station, etc. Also the pass should have a photo on it to reduce trading and theft, like the disabled permits.		X
32	I'd prefer a larger discount for low income - across the Bay and Long trips especially. It's cheap in cities		
1934	If it's helpful to families then great. As long as there are not more homeless people sleeping on BART.		X
1083	If low income riders pay less, would that mean that future BART extensions would need to consider higher-income areas a higher priority for fare reasons?		X
176	If low middle income riders could have a discount as well, it would be more great.		X
1963	If such a program was implemented, it should be available to those in need and there should be penalties for those who abuse the program. Heading into it, BART should be aware of how many riders jump the faregates (will a discount program prevent this?), how many utilize BART as a warm spot to take a nap out of the cold (does BART know how many do so?), and how many low-income riders this would actually benefit. Could this be paired with other incentives - discount on food or drink at participating cafes/restaurants?		
1269	If you increase it, it would make more of a difference to the community.	X	X
825	If you want the money to offer a discount, build more parking structures, end permit parking, and charge a flat fee so people can park any time. I ride at Fremont and the parking lot is half empty in the mornings. People park on the street because permits are too expensive, daily permits have to be printed out, and even if it's after 10am, you can't pay for parking with your clipper card. You're losing revenue by making it too hard to park.		X
113	If you're going to do it, you need to be thoughtful about how to make it accessible to those who need it. Too often programs like these create boundaries that prevent participation by requiring a linked credit card/bank account or internet connection or signing up during limited hours at select stations.		

Survey ID	Comments	Low-Income	Minority
1819	I'm a student who makes 0\$	X	X
1912	I'm all for helping out low income families, the Bay Area is an incredibly expensive place to live, and I'd even be for increasing the threshold to households earning less than \$75k/year; but I want to see a crackdown on fare avoiders. I've heard talk all year about how BART was going to crack down on people who don't pay their fair share - yet everyday on my ride from Richmond to 16th and Mission (and back) I see people who don't pay. Fix this so we can actually pay for helping low income families out rather than by increasing my fare's.		
998	I'm curious about how one's low income status would be verified.		X
3373	Im currently in the free muni rtc program until 2023 and expect renewal. Id like to see free bart for the rtc program within the city.	X	
2591	I'm not technically low-income, but I also support a more generous high-volume ticket discount. I spend SO MUCH MONEY on BART tickets -- I need more than two high-volume \$64 cards per month to commute daily between Glen Park and Downtown Berkeley, and the \$4 discount per ticket is really paltry.		X
1848	I'm tired of paying more and more taxes to subsidize others. So many people hop the turnstiles anymore, I feel like I'm one of the few fools that still pay full price. Fund this program by catching more cheaters instead of punishing the paying public more.		
1042	In addition there should be a program for commuters - especially transbay. Fares are quite steep - a family with two daily commuters must spend quite a bit of their budget on commuting when using BART		
2687	In Bart you usually encouter foul behaviour, public nuisance by not so well to do people. This program should ensure that it's not attracting more of those to keep the decorum		X
3099	Include those on social security. It's getting tougher to reside in CA on 2300.00 a month Those on SSI don't qualify for food stamps or other programs.		X
2986	Income based if under a certain level. Also, implement monthly passes like Caltrain!		

Survey ID	Comments	Low-Income	Minority
81	Income level to qualify should be higher. The cost of living warrants an expansion of the persons qualifying for this discount.		
3120	It doesn't go far enough. BART is extremely expensive for poor and working class people. I get a disabled discount which is 75% and actually makes it affordable. 20% is just grandstanding.	X	
140	It needs to be easy to apply and simple to verify eligibility. I am disabled and the reason I haven't gotten that discount is it has been hard to figure out how to get it.	X	X
3086	It seems 20% is quite a small discount for low income riders- with fares at nearly \$3, 60 cents is very little.		
192	It seems like your income threshold is too low. It should be a bit higher. Theoretically anyone earning minimum wage and lower should be eligible. The Bay Area is insanely costly to survive in and while this program can go a long way to retain our most vulnerable residents, let's make it truly effective and wide-reaching		
777	It should be 100%, and you should tax all the billionaire tech scum who profit off our labor.	X	X
2118	it should be 50% not 20% actually bart should be tax funded and free for everyone no matter the income level		
647	It should be a 40-50% discount, as in Seattle (with ORCA Lift), in Minneapolis, and even in SF (with MUNI lifeline).	X	
2515	It should be a higher discount. 30%-50%. Bart prices have gone up significantly in the last five years and my income doesn't match that hike . It's harder to make ends meet because of this and I wind up driving more.	X	
490	It should be applied monthly and rely on the same data used for EBT or CalFresh	X	X
180	it should be easy to access and require zero hoops to jump through unlik other benefit programs		X
3469	It should be greatly expanded, and the discount raised as high as possible. The burden of paying for it should be assumed by taxes on landlords and businesses.		
2892	It should be higher and you know it		X

Survey ID	Comments	Low-Income	Minority
450	It should be more than 20%. Bart costs are too ***** high. Los Angeles metro is not only cheaper, but runs ON TIME. You could learn from them.	X	X
2729	It should have higher discount or discounted monthly plan to encourage more Bart usage.	X	Unknown
1265	It should reflect the cost of living and income in the Bay Area.		X
3136	It sounds like a great idea, however I can imagine the backlash from people who almost qualify but unfortunately don't.		X
187	it would be good to include students for a discount - including graduate students		
2410	It would be great if Bart was able to give a larger discount to low income families. Also discounts on connecting bus rides.		
3301	It would be nice to include employers into this program. If employers/businesses make this option available by providing pre-tax funds from the paychecks to do an automatic purchase of monthly, discounted BART fares, it would be a much easier process. The BART ticketing machines are terrible to use (bad UX) and it can be detrimental to these riders because they find themselves spending a lot of time trying to figure out how to use the machines. Also, the machines do not do automatic discounts.		X
251	It's good but you really need to solve parking problems in east bay. Specifically Dublin. It's horrendous and those paying full fare need better support.		
3625	It's not enough of a discount. Bart is expensive. And casual carpool free. It would still be a splurge to take Bart on this income.	X	
3127	it's ridiculous. you have to a family of 4 earning less than \$54k a year?? really?? bart is ***** expensive and ***** service. how does anyone even qualify for this? what about the working class that live far make more than \$54k and need this type of discount???		X
1013	It's a good idea, but Bart needs to run ontime, not "just a minute late." Reliability is important. Low-income riders can be heavily affected by late trains, which negates the purpose of the discount.	X	

Survey ID	Comments	Low-Income	Minority
670	It's a good idea, it will help elderly people the most I suspect. You should offer a frequent rider discount. After your 10th trip the 11th is free or something		
1814	It's a good start but should be more - at least 50% off		X
206	It's a great idea. You should consider a discount much higher than 20% - 50-75% would be better.		
1559	It's a nice idea. However, many people simply jump the gates and don't pay for BART rides at all. Why not focus on making everyone pay and then look at new ideas. The fares are too expensive to begin with, so making sure everyone pays would allow BART to lower fares across the board.		
536	It's good, but it may be better to have a monthly pass program like SFMTA does with Muni. It'll encourage more use of the Bart system since it's not limited to a a single bart fare.		X
757	It's good, it should be an even bigger discount. Make public transit free for all riders!		
2581	I've been hoping a program like this would come out for a while. Another suggestion may be to not inflate yearly prices for low income customers. Keep it at the 20% off price of the year its issued. It's really hard every year to budget that much more for bart, when my paycheck remains the same. Maybe also consider monthly passes that are flat rate for travel outside of San Francisco. Do different tiers if you have to.	X	X
2392	I've been riding Bart since moving to the Bay Area in 2002; I've steadily seen the trains, the stations, everything in bart just grow more dirty, more in need of repair.  Bart is just dirty and grungy — it's worse than Muni, and Muni's pretty bad. When I think about whether I'd take Bart more, I always now opt to not take bart... only when there's really no other way.  I see the great need to help those with low incomes, but, man, the folks with just regular incomes are suffering greatly on these stinky, crowded, trains.		
2592	Just wondering how it would work for people who add to their clipper card online.		X
719	Let them ride for free.		

Survey ID	Comments	Low-Income	Minority
75	Like more discount	X	
3175	Looking at the federal poverty level shouldn't be the baseline, look at regional numbers instead as the baseline.		
1465	<p>Low income people should get a break on public transit costs. Especially for work commutes.</p> <p>My main concern is avoiding encouragement of more antisocial riders. Get the nasty disgusting homeless drunks, crazies and druggies off BART. I am tired of not being able to sit because of their trash and piss, of reading stories of people seeing them shoot up. Yelling schizophrenics. Groups of normal riders unwilling to sit in a section or even a whole car during commute hours due to stench. Seriously WHAT THE ****?</p>		
1951	Low income program is ok. However BART board of directors should focus on citing or kicking off riders who do not pay their fare at all. Instead of raising fares and spending unnecessary money on things that don't work and let Bart PD do their job.		X
1971	Low income riders may be less likely to use clipper for various reasons including no or poor credit or no account to link it to. Could program provide participants a clipper card without need for a credit account? Absent this, low income riders should not be charged a fee for disposable tickets.	Unknown	
265	Low-income individuals or family couldn't afford the housing or renting closed to where they work, they spend a lot of time commute and pay expensive fare just in order to survive. Since they spend much longer time on Bart, they actually deserve more than 20% discount for their fare. It is a great idea to offer discount to those low-income riders since it would save less traffic jam. It also encourages more people using Bart to go to work or outside the city instead of driving cars. Less cars on the road, less accidents and traffic jam, better air for all of us. In the long term, Bart gain more by offering discount on fare.	X	X
2050	Low-income rider program would be great but families making less than \$50,000 aren't the only individual's struggling. Perhaps discount can be extended to frequent riders, single individuals or have discounted riding days.		X

Survey ID	Comments	Low-Income	Minority
2843	Make BART free for all!		
2078	Make BART in San Francisco free for seniors or the disabled, like MUNI does...! Happy Holidays to BART...!	X	
967	Make compatible with Pre-Tax Commuter Benefit Credit Cards	X	X
2431	Make it 50% discount ON ALL TYPES OF PAYMENT.	X	X
1520	Make it cheaper for students too		X
274	Make it easy and convenient to use please!	X	
3550	Make it easy for people to sign up for, especially non-English speakers.		X
412	Make it free for all residents of counties that pay into Bart! I pay high taxes for poor folks and kids to use our sidewalks for free, let me pay more taxes so that they can ride the subway too! And every fare I pay is pre-tax, so I'm getting a ~30-40% discount anyway!		
3080	make it more	X	
200	Make sure it is easy to register and accessible. Be proactive with advertising and registering people and provide the opportunity to purchase a low income pass when riders face fare evasion enforcement	X	X
651	Make the discount far larger than 20%. And ideally, BART would be sufficiently publicly funded to be free for all users at point-of-use.		
762	Make this easily accessible for people to receive - like one pay stub as evidence of income and quick turnaround for receiving the discount.		
3500	Many low income riders don't use tickets; they hop the gates and use the emergency exits. BART should give a discount commensurate with their lower income, but they also need to change to higher fare gates and actual enforcement.		
376	Many would benefit from it. But will fares go up for everyone else? BART really needs to start cracking down on fare evasion. I see it nearly every day, usually multiple times a day. No one stops these people.		X

Survey ID	Comments	Low-Income	Minority
838	Maybe bump up the income limits because using FPL in Bay Area is laughable. Consider having an "off peak" discount program to encourage ridership in non-commute hours.		X
3051	More low income riders on bart	X	X
471	More of a student discount would have been very helpful when I was at University. Or an easier to find discount anyway, I ended up taking 13 hours worth of classes a day so I could cut down on commuting	X	X
2319	Most of the Bay Area riding Bart is low income, why only 20%? We are trying to make a living traveling to work and paying high prices as if we are tourist? The discount should be 45-30%, how about you help your low income community out?		X
3638	My hopes would be to see less brazen misuse of the emergency exits for personal use and more fair paid use.	X	X
1300	Need a monthly discount for frequent riders. 20% off is not enough		
3595	No. Is there a age limit?		X
3306	Not enough of a discount.		X
3634	Of the discount is approved, there should be more promotional discounts offered throughout the calendar year		X
2169	Perhaps more important than a 20% discount would be more generous transfers between BART and feeder services.		X
3159	Please consider everyday riders, we could a break as well.		X
3090	Please consider increasing the discount in the future at least. 20% is a good base but many commuters who have been priced out of the city have to pay more to go to work the farther they live, and this doesn't include what they spend on parking at BART parking lots.	X	X
2193	Please have it reflective of what is considered low-income in the Bay Area, not just the national consensus.		X
236	please include low-middle income riders too. i can't afford to buy a car, no available passes cover ac transit and bart together. my monthly transit expenses are almost half my rent.		

Survey ID	Comments	Low-Income	Minority
660	Please lower cost. BART fare always stresses me out. Make it fair for all. 20 percent for those who make less than \$50,000 but it should be 40 percent for the majority of us who make less than \$30,000	X	
1490	Please make it a seamless and hassle free way (allow me to use my clipper card!)		
3661	Please make sure only qualified riders are accepted. There are many illegal residents who work for cash and make more than \$50K per year, but declare they are low income. I know this because I know these people who abuse the government system.		X
3223	Please make the income threshold lower to reflect the cost of living in the Bay Area.	X	X
164	Please make this as user friendly to undocumented people as much as possible. We do not feel comfortable giving personal information to government	X	X
2768	Potentially offer specifically some form of student discount please or some other program for college students.		X
593	Prioritize low income youth/students that commute to college, high school and so on. I think 20% discount might not be enough but it's a great place to start.	X	X
872	psychologically it seems low -- 25% sounds a LOT bigger than 20%.		X
1980	Public transit should be free. The Bay Area has failed its responsibility to ensure that all of its residents can access the Bay's resources, opportunities, and jobs, forcing more people onto crowded roads and freeways. This automotive traffic increases pollution, increases the burden of regressive gas taxes and bridge tolls, and decreases time that working parents can spend with their children. Bay Area governments must do their duty to build high-quality, accessible, and comprehensive public transit.		
1317	Public transport should be no cost per ride	Unknown	Unknown
363	Raise it to 50% discount. I usually take the BART from downtown Berkeley to Oakland Airport for necessary trips, and \$8.80 for a one-way trip is too much. A 20% decrease lowers that to \$7 and I still believe that is too much. To a low-income rider, that's a meal or two I'm putting into transportation. Paying \$4.40 at 50% is much more ideal.	X	X

Survey ID	Comments	Low-Income	Minority
43	Re-consider what it means to be low-income in the Bay Area.	Unknown	X
3116	Riders who are low income and ride the Bart daily or almost daily, should receive a larger discount. We are more than likely riding the Bart at least 2-3 times a day	X	X
1546	Set up low income riders, teirs such as HS student, COLLEGUE, park & ride pricing, monthly cards etc. to attract more would be riders if it was more economical than driving. SFO/Oak park and fly pricing etc.		X
1243	Should be a privilege - revoked if causing trouble on system	X	X
3049	should be more than a 20% discount		Unknown
2796	So many of us even with decent incomes are having trouble making ends meet and the cost of BART and travel is becoming prohibitive. This is not only a good idea, it's so necessary for the extremely high costs of living in Bay Area and the terrible traffic congestion. I would want to see an even greater discount for low-income riders.	Unknown	X
628	Sounds like a good thing. Public transit should be free.		
1588	Sounds like a great program. Please allow those with disabilities that prohibit them from driving to apply their disability discount in addition to the low income discount there are many of us who have disabilities and are also on Social Security.	X	
2461	Students between K-12 should receive a discount especially, equitable access is crucial. Tech folks making above 100k should not pay the same price as a low-income family.		X
3674	Students should get 50% discount on BART.		X
1831	Suggest stimulating employers to pay the discount BART conditions require funding. Suggest having BART decision-makers experience the new Metro trains in Washington, DC for ideas to upgrade BART.		X
3409	Support this program to make BART more accessible, as long as it does not result in service cuts		X

Survey ID	Comments	Low-Income	Minority
2912	Teachers need this discount also. I want to win the clipper prize to give to my friends daughter who is a teacher at Mission Dolores Academy she's raising her aunts two children because he4 aunt died of a heart attack recently. They can't afford to live in SF.	X	X
1564	The 50K threshold seems very low for the entire Bay Area-- that's half our median income in SF! At that standard, I think eligible riders would *really* need the discount, particularly commuters from Oakland. I don't know if 20% is enough to switch low-income commuters from driving, but I do think it's a good idea. I did personally say "yes I would ride BART more" because I'd probably take more downtown rides, but to be clear, I would not be eligible for this.		
3252	The Bay Area is one of the wealthiest places on earth. All rides should be free on our transit system. Short of that, anyone under 25 and over 50 should ride for free		
2700	The cap is too low, what family of 4 making less than 50k can afford to live in the bay area? 50k for two is probably still too low. I make over 200k and am fine paying Much more than I currently do per ride to subsidize low income riders. Please consider giving the rich the option to pay more to expand this program.		
2865	The cost of BART is too high. In Chicago, you can take the train from one end of the city to the other for 2.25. The turnstiles in Chicago severely limit the ability of people to evade fares. Why not find ways to make it harder for fare evaders and bring the price down for all?	X	
3210	The cutoff for income should be much higher given the cost of living in the Bay Area		X
2859	The definition of low income should be re-assessed. A lot of people who earn at least 100k per year are also struggling. San francisco defines low income around the 108k threshold. Maybe lets follow that?		X

Survey ID	Comments	Low-Income	Minority
158	The discount is insufficient for some one at the Poverty Level or below. I suggest a sliding scale discount starting @ the proposed 20% for income level 250% of the Poverty level. Consideration needs to be made regarding the significant differences between locations within the Bay Area inherent in the Federal calculation determining the Bay Area Poverty Level. There is a significant difference in the cost of living in San Francisco & the Silicon Valley as compared to the rest of the Bay Area. This is important because the Area Poverty Level is not able to accommodate the economic impact of the discrepancy. Then there is the impact of Commutation expenses causing an unfair restriction on low income individuals who would like to take advantage of the job market in city centers. This is especially significant when the minimum wage in cities like San Francisco, which is \$15, and others which can be as low as \$10.50.	X	
2685	The discount isn't enough, public transit should be free for the public, tax corporations and the rich	Unknown	Unknown
1986	The discount program should raise the threshold to be at least 300% or 350% of the federal poverty level. People who make \$35k a year still have to pay more than 30% of their take-home (after taxes) on rent that is still a ways away from jobs in SF. Not to mention, the discount is only 20% (so instead of paying ~\$160, I'm still paying ~\$128 a month on transit alone). I would suggest a tier-system as well. Those who make below 200% federal poverty level get 30-40% discount, those who make between 200%-300% federal poverty level get 20%-30% discount, or something along those lines. If you're an individual working in the Bay Area, someone making \$40k a year is still, more than likely, living paycheck to paycheck.	Unknown	Unknown
1418	The discount should also be considered for those who buy the monthly pass through Muni.		X
2630	The discount should apply to more people, not just 200% of poverty line.		

Survey ID	Comments	Low-Income	Minority
793	The discount should be even higher for low-income riders, if not free. I also think the ticket price for short rides should be lowered, to make BART more competitive with Uber and Lyft for short, intracity rides (e.g. from 12th St Oakland to 19th St Oakland).		
2803	The discount should be expanded to more income levels. 200% above the federal poverty line is not sufficiently inclusive.		
1573	The discount should be higher		X
365	The discount should be on a sliding scale associated with income.	X	X
2976	The idea sounds great, but if it is implemented make sure that accessibility is prioritized. Confusing application processes and cumbersome enrollment procedures can be discouraging and prevent those who need it most from participating.	Unknown	X
3	The income level to qualify should be higher. \$100,000 year.		X
1235	The income rate should be higher. A family of 4 with \$50,200 or less is sad and most possibly be homeless. A family of 4 cannot survive with \$50,200 and ride Bart when average Bart will cost about \$100 a month. U won't have anyone who would be eligible.		X
1001	The income requirement is untenable. A family of four making \$50,000 a year means that this hypothetical family would barely have enough for rent and food, let alone anything else.	X	X
1010	The riders should have to show some proof that they are using BART mostly for work commute to receive this discount. The advance tickets sold would need to be limited to prevent resale.		
1114	There is not a current option for commuter discounts for those falling just out of the eligibility window.		
1089	There needs to be an "all you can ride" pass for BART (between zones, station pairs, etc.). Every other major transportation system in the country has one.		
3083	There should be a college student discount. There have been times when I almost didn't go to school because I couldn't afford my bart ride or I had to use my spare change	X	X

Survey ID	Comments	Low-Income	Minority
1668	There should be a frequent rider discount, regardless of income.		X
1906	There should be a student discount program.	X	X
2686	Things are expensive for poor people here	X	Unknown
3153	Think we need to encourage more people on public transit. We also need BART to be safer and more reliable.		
2494	This "discount" is not enough to make me use it more, but in the event I need to ride BART it would take a little of the sting out of the cost.	X	
2757	this and use fare-capping to limit the amount low-income riders pay into bart, especially for those traveling long distances		
569	This discount is important and will help low-income people go to work and school! 25% or even 40% would be even better. The rest of us are paying enough to subsidize this.		X
12	This discount is very much needed as everything else is expensive, especially housing and we are moving further & further away to have our earnings stretch thinner. Commute prices being discounted can help me use my earnings for other basic needs.		X
3195	This is a good idea, but I am wondering how and how often BART would evaluate an individuals income. Would this be on a monthly basis? Annually? What if I am a college student with \$0 income and then I get a job in June starting at \$100k? How would this be evaluated?	Unknown	Unknown
1550	This is a great idea and honestly should be increased to a 50% discount.		X
1758	This is a great idea. I would suggest 25-50% off		X
3534	This is literally the least you can do guys. It should be 50% like the MTA is instituting.	X	

Survey ID	Comments	Low-Income	Minority
857	This is seriously sadistic. 20% for a family of four making 50,000? Girl, this family is dead in the water and your dollar off is not going to help them (25 cents each) because they cannot live in the bay except in a tent. This train is THE most offensively priced "public" transportation in the highest priced city in the world. Do you know how much interpersonal violence these forms of daily impoverishment breed? Do you know who this is falling on? WOMEN OF COLOR, that's who. Plus their children. PEOPLE WHOSE ANCESTORS WERE STOLEN AND ENSLAVED. A train. That everyone needs to get to work. PRICE IT LIKE NYC OR LONDON OR PARIS!! 20% off an eight dollar round trip ride. Shame. In case you cant infer, here is my comment: TWENTY PERCENT IS NOT ENOUGH. Here is my sub-comment: TWO HUNDRED PERCENT? LOL 100% BELOW THE POVERTY LINE IS NOT ENOUGH?? What's wrong with you.	X	
2931	this new discount would not qualify me.. i make well over the 200% poverty line but have many studnet loans that does not allow me live on my own. maybe should have a criteria to look at peopel expense		X
2217	This program should be 50 percent off all transit region wide. VTA should also participate as should Samtrans.	X	X
2657	This proposal sounds good, unless it comes at the expense of other riders who don't qualify as "low income". BART is already expensive and I am not willing to pay more so others may pay less.		X
2102	This should be implemented together with an automatic "high value discount" — give everyone 6% off after spending \$X.		
443	This would be a great benefit for those who truly need it. Note: So many people though are fare evaders, be they moneyed or not. I see individuals, or entire families, fare evade, either going through side gates, emergency doors or watch for gates that don't close. Others go through the gates, engaging the alarms without any fear.		X
338	This would be a great program. Maybe consider parking discount as well		X
612	This would be a great start to offering more accessible public transportation. Monthly paid discounts would be a great thing too like other public transit cities offer.		

Survey ID	Comments	Low-Income	Minority
3530	This would be amazingly helpful. Another huge problem, though, is the lack of parking. I live closest to the Lafayette and Orinda stations, but I can't park at either. The waiting list for a spot is years long. The county bus is inconsistent and often late. It's unreliable. So I end up driving long distances when I would prefer to BART because I literally can't park there. And I can't afford to take a Lyft/Uber there. It's a huge shame and totally ruins the point of public transportation.	X	X
1280	Thou, its great idea to allow BART riders with family to ride together with discount. I have assistant public patrons with BART help on where they can find tickets as in paper format. Many seem not educate about the benefit of using the clipper that can work on all Bay Area transit rides.	X	Unknown
1296	Tiene q ser super-facil inscribirse en cualquier programa, sobre todo para estos q cuentan con algun tipo de discapacidad fisica y mental, si no, no se van a inscribir y eso no es justo. Los probres merecen la ayuda *It must be super easy to enroll in any program, especially for those who have some type of physical or mental disability, if not, they will not enroll and that is not fair. The poor deserve help*		Unknown
751	Totally supportive if it's regulated. How are you going to avoid someone using another persons "discount" card?		
3417	Traffic is horrible, and housing crisis is causing enormous economic distress on people. Why not try something truly progressive like free annual passes to people who make less than \$XX,XXX (e.g. \$40,000) per year, and sliding scale above that up to \$80,000 per year or so for full price? Annual passes will incentive pass-holders to use BART more often which may decrease congestion on the roads. Providing free or steeply discounted passes for economically disadvantaged people would be a great benefit to society.		
2754	We are all low income in the Bay Area barely scraping by how about no more taxes or fare decreases for everyone		
2105	We need to encourage everyone to ride public transit and get out of their cars. For all people, public transit should be free, reliable, efficient and comfortable. This would also support low-income riders.	X	

Survey ID	Comments	Low-Income	Minority
1200	We need to explore marketing this program to students, especially those with financial difficulties and EOP program recipients. It is important to make sure discounts are distributed equally; but shouldn't be a shoulder to the universities to pay. At minimum, colleges should market and offer the programs to students to encourage them to take transit more, especially for urban colleges.		X
2244	We need up to 50% discount or monthly pass fix amounts for low income riders. Thanks you		X
1062	We should do everything we can to help low-income folks access public transit. We should make all transit free eventually, by taxing high-earning corporations or with a percentage of income tax that taxes the wealthiest people or corporations. We also need to improve our transit system, expanding it and making it much cleaner and more modern like European cities and cities abroad do. This should also be paid for with taxes on high-income earners and corporations.		X
789	What does BART consider low income? Stop giving away taxpayer and rider user fee money to support special agenda programs.  Improve station security, stop fare jumping and improve parking at remote station locations. That will improve ridership numbers and fare revenue.		
1646	What does low-income really mean? I think anything under \$60k should be considered low-income for the Bay Area.		X
1784	What is considered "low" income. We have a low income, but we don't qualify for assistance, because we're not low enough. You need to post what is low. I can't even get food from our local food bank, but can't pay my bills.		X
2883	What is considered low income for single person households? Consider adding a student price for college students as well!!	X	Unknown
2666	What is the income level for one person household?	X	

Survey ID	Comments	Low-Income	Minority
938	What proportion of riders are low-income now? How big of a fiscal impact would the program have? Last time I checked, the fare box recovery ratio is 60-70% .	Unknown	Unknown
1033	What really qualifies as low income? it should be more than just earned income I qualify for low income because I run a business that doesn't generate a lot of income. I have a lot of assets so I shouldn't qualify. you need to tighten up the regulations on who is low income really.		
19	What would be the process for getting them.		X
3651	What's low income? Given the cost of living in general and the cost of housing more specifically how is low income computed? Using some multiple of the fed poverty baseline as is usually done doesn't reflect actual low income. There are plenty of BART riders who make seemingly good incomes and who don't come close to qualifying for low income programs but after rent, student loans, childcare, and transport are left scrambling at the end of the month. There's always people worse off but these programs rarely help the working class, especially those on hourly pay, who bear the brunt of fare increases and delays (delays cost me money and risk my job).		X
3161	When I was in college, I took BART all of the time. Before I was homeless, same thing. I've been homeless 11 out of the last 18 years, and for work or school I always relied on BART. In this time I went back to college and received my BFA, Post-Bac, and MA as a return student. Charge earners in normative working class brackets the same and the poor less, those destitute or homeless shouldn't be charged much at all if at all. Social Services can help authorize how much and to whom. For others maybe something at the DMV instead.	X	
1518	When I was still going to school, there were times where I had to choose between going to class or being able to eat that day. I've known people who couldn't afford bart but had to get to work, so they would hop the gates. Low income people shouldn't have to make these choices.	X	X

Survey ID	Comments	Low-Income	Minority
2061	When places offer a discount for low-income riders, they use the national low-income rates. However in the bay area, even a single person earning \$60k is low income if you take into effect how much is rent, gas, food, and other daily necessities. I feel that if you are going to help low-income riders, you need to help the Bay Area low-income as they are the ones that's actually obeying the rules and utilizes Bart without breaking the system, even though it would make it hard for them	X	X
1989	Where do I find the information, ? Is this different than Muni senior Clipper Card?	X	
3542	Where the fund coming from? Another debt? We need safe BART, we need new trains, we need to discount the low-income fare....Too many priorities means no priority. Limited resources unlimited needs. Use the fund wisely.		X
3304	While 20% isn't enough, it would enable access to transportation to low-income riders so they can actually travel	X	X
972	While I applaud this proposed program, I wonder how it will affect us those who pay regular fares. How do you propose to offset the potential loss of revenue? By increasing the regular fares? How about decreasing fares across the board? Or decreasing the exorbitant parking fees? Our fares should already be part of paying for the parking lot maintenance, not a separate fee. Do you think this new discount program would be an incentive to the fare cheats? How will you make sure that people won't abuse the system by under-reporting their income? By submitting W-2s? How often will their eligibility be reviewed? Annually? Every two years? Please be fair to those of us who pay regular fares. We already pay high fares. Maybe what you can consider is a monthly pass program.	Unknown	X

Survey ID	Comments	Low-Income	Minority
962	While I personally applaud all efforts to help low income riders, I feel it is in the best interest of the Bay Area that prices for everyone is dropped. BART is much more expensive than many other transit systems like it in the other major US cities, and yet the technical problems (single tracked) are far worse than these other comparable services. Also, I believe that public transit is critical to less pollution. If you only bring down the prices for a segment of the population who are (unjustly) looked at as undesirable, less people who CAN afford to ride will opt for Lyft or driving. Bring EVERYONE'S fare down 10%, and provide a way for low-income patrons to pay through volunteer service.		
2956	While this discount wouldn't change how often I ride BART, as a case manager, I know that many folks choose between buying food and going to work, especially if they're going to work for higher wages in the City	X	X
2000	While this program is helpful for low income riders, what would you be doing to prevent misuse of the discount? For example, if a low-income rider purchases tickets, what would be done to prevent it to be given away or sold to someone else who is not low-income?		X
2985	Who is subsidizing this "discount"? One can only assume it's the rest of the riders that pay full price already. How is this at all fair? Just because one doesn't qualify as "low income" (a subjective term to begin with) now means that one must help pay the fare price for others who (supposedly) can't afford it?		
817	Who will be funding this program? Will my fares be increasing yet again?		
290	Who will cover the revenue lost by Bart by offering discount tickets to low income?		X
173	Who would be subsidizing the low income users?? People who pay full fare? BART can't even manage its own finances. How will this be paid for?		X
1872	Why not just give everyone the 20% discount so that more people ride BART instead of taking Uber/Lyft?		X
2393	Why only for low income? What about middle range?		X
1496	Why? Who is paying for it? The other customers who are living paycheck to paycheck?		
2718	Will it subsidize parking, or connecting transit or TNC fares also?		

Survey ID	Comments	Low-Income	Minority
3305	With BART's cost per mile fare system, people who are super commuting from the Central Valley and beyond are put at a further economic hardship. They are typically those who also still need the employment in the region, usually after being squeezed out by the housing crisis. BART can at least help ease the burden by lowering its fares across the board. This will also make driving a less financially attractive option (and potentially get people out of their automobiles, helping to relieve traffic as well and reduce pollution and greenhouse gasses).		X
1322	With the discount for disabled riders at 60% and the discount for low-income riders only being 20%, I don't many people will apply or use this program. The savings just isn't that significant.		X
2444	With the drastic underavailability of affordable housing, many low income people have to commute to work. I don't think the discount is high enough and the threshold is too low.	Unknown	Unknown
1799	With the regular fare, we have homeless people and drug users riding bart, leaving needles behind and making the ride very uncomfortable because no one wants to be near them. If you offer discounts, I don't know if it will make this situation worse. I would love it if it was offered to low income families who really need the transportation however others who will use this benefit but use bart as a means to sleep or use drugs will make it worse because I'm afraid their numbers will increase. Bart is crowded as is.		X
172	Wonder how it will be paid for.		Unknown
160	Would be great if SFMTA's Lifeline could be used as low-income verification. Thanks for collecting input!	X	X
596	Would I qualify for this discount if my annual income is only \$28,580?		X
971	Would it be loaded easily onto current Clipper Cards riders have?		X
753	Would it raise fares for everyone else? If so, I'm not in favor. I think the discount program should be subsidized by local or state government programs.	Unknown	X
69	Would like to undertsand if this will result in losses or profit to BART.		X
2538	Would low income college students be included?	X	X

Survey ID	Comments	Low-Income	Minority
2090	Would prefer a program built around daily/weekly/monthly fare caps and/or means tested subsidy instead of discount (essentially, high value tickets without as large an up-front cost to make them more accessible)		
3429	Would this raise the price of regular fares ?	X	
2730	Yes - I'm very concerned about this program. The trains are already overcrowded with commuters. This does not seem well planned out. How would it be monitored?		Unknown
3059	Yes but the discount should go to everyone. You guys also need to fix this ebart ***** too. Bart keeps coming up with more and more ass backwards things.		X
1471	Yes I would ride bart more but this question is ridiculous as you would not offer that to the majority of your high paying riders. Give riders like my self who ride you 5 days a week, twice a day at full price.		
3233	Yes, low income is at a different level in the Bay Area than other parts of the country. Please make sure your cut off is high enough to really benefit working low income members of our community.		X
1337	Yes, I would make the discount bigger or make the rides free for poor people. For some people I know getting to work costs as much as one hour of their work. That is 1/8th of their salary!!!		
381	Yes, if this is expanded, i suggest that bart mean-tests the senior and kids current discount to offset some of the cost to the system. Also, would like to know how you plan on validating participants.		
3244	Yes, it's a good start, but needs to be a steeper discount. Decriminalize dare evasion.		
995	Yes, what is considered low income in this bay area today?		X
121	You are the most expensive transportation system in one of the most expensive places to live. To expected people to be able to afford living in the Bay Area and your fares is ludicrous.	Unknown	Unknown

Survey ID	Comments	Low-Income	Minority
1511	You have got to be kidding me. After all we have been hearing about how BART is having such a difficult time with money which has resulted in multiple property tax initiatives. You are going to start giving low income discounts. Honestly I think whoever thought this plan up doesn't ride BART very often. Every time I am in any of the stations I see quite a few of what I would consider "Low Income" people sleeping on the trains or platforms. My advice just keep doing what you are doing. It looks like you are giving enough free or discounted fares already.		
2790	You have to raise the eligibility threshold. It is tough to make ends meet here on 5x the federal level. This program should not be only for home-owners and those who were lucky enough to find a good rent-controlled place over 10 years ago. No one making less than 200% can afford to live here at all. A 200% threshold is a joke.		
2786	You should definitely offer a discount for low income riders, but it should be even more than 20%. A fifty percent discount would make much more sense, since \$50,000 for a family of 4 is nearly impossible to live on in the Bay Area.		
1996	You should definitely provide low cost/free BART passes for low income folk!		
3128	you should have done this a long time ago		X
310	You should implement it, life is too expensive		X
2748	You should just make it free for low-income riders. Many jump the turnstile anyway.		
1241	Your bar for low-income is too low given the cost of living in the Bay Area. Anyone making under \$75,000 should qualify.		
2384	Your proposed discount is not fair to those who have no access to mass transit, specifically rural people who are compelled to drive further than city folk, need to buy more gas, and subsequently pay more taxes to finance subsidize another giveaway to city residents who get all the benefit at the expense of rural dwellers. Democrats love to shaft country people and are very good at it!	Unknown	X
1046	You have problems now on Bart I think discounts could increase the issues you already have.		
1419	反对给予折扣 *I oppose giving discounts*		X

Survey ID	Comments	Low-Income	Minority
937	反對給低收入折扣 *Opposed to low income discounts*		X
710	反对提供折扣给低收入 *Opposed to offering discounts to low income*		X
2187	<p>1. Stop making( California taxpayers) pay for new Bond measure for Bay Area Rapid Transit so you can get funding for new trains, new pensions for your employees, while the people who actually used Bay Area Rapid Transit every day are having to worry about their own safety on your trains.</p> <p>2. Take care of your Bart Train Cars and clean the seats and floors and the outside after every night. Make your cars presentable to the public.</p> <p>3. Bart #1concern should be the safety of your employees, Safety of the public using Bart as their transportation. As a Bart Rider who uses Bart to get to school, I have noticed that there are not any Bart Police on the Bart trains, Bart stations protecting people who are using the Bart Train.</p> <p>4. Why should everyone else have to pay more for a Bart Ticket or Clipper Card to ride Bay Area Rapid Transit so you can give low- income riders a discount?</p> <p>5. Bay Area Rapid Transit Management - Talk is Cheap and if you want the public to give you more money you will have to show something for it by Bart actions on what you are going to do to make the Bart more enjoyable, safer, cost-effective and sustainable for many years in the future.</p> <p>6. Bart needs more parking in their Bart stations everywhere.</p>	X	
2027	<p>1. Without better enforcement of fare evasion, there will be no incentive for low-income riders to pay a regular fare</p> <p>2. The SFO line is so expensive- mmore people would take bart to SFO if those fares were not so high, and that would help low-income riders a lot.</p>		X
2678	A lot of low-income riders take multiple forms of transit. You should be unifying transfers and payment systems across the Bay Area transit providers before wasting money on a flawed single-source Clipper 2.0.		X

Survey ID	Comments	Low-Income	Minority
638	absolutely do not agree! the bart is already absolutely dirty and very filthy with so many homeless people and in the last 4 years i only remember getting a seat probably 10 times going from Hayward to SF we dont need more people trying to ride the bart and make life hell for the rest of the current riders. Bart please do something about the beggers and homeless people on the bart by tighter securities.		X
217	Adding to tax payers burden.		X
779	Already an abundance of programs for low income folks. Now we are going to start charging them less for services? Do they start paying less for groceries too? Will there be a low income price for everything?		
1752	Another rip off. Use gas tax money for it's intended purpose rather than another subsidy.		X
2321	As a commuter from N Concord to Oakland, I've lost count on how many gate jumpers I see on a daily basis. BART continues to raise fares and parking fees; I currently pay an average of \$254/month (BART and parking) and with BART wanting to cover the cost of low income, I'm sure my commute cost will go up because someone has to pay for it so put the cost on the commuters. BART needs to take care of business and make commuters feel safe, build parking garages because now I need to get at the N Concord station at 6:30am, compared to before at 7am, so I can get a parking space. BART continues to get your priorities in order and this is why the public is disqusted with BART.		X
163	As far as I can tell, the low income riders already jump fare, I see it almost every day. I'd rather see that problem solved.		
1298	Bad idea who's to pick up the slack		X
2705	BART already has huge problems with people who don't pay their fair share by fare evasion and homeless people who "live" in BART cars . Let's fix what's wrong now before we spend more tax money ! The Stations are dirty, the escalators don't work , and people are loaded on cars like sardines . Let's take care of the problems we have before we lack more people into overcrowded cars		Unknown

Survey ID	Comments	Low-Income	Minority
1782	BART doesn't have enough money to introduce sweeping discounts. If you want to encourage people to ride BART, make the system safer, cleaner, and improve your on-time performance. Instead of inviting rampant fraud with this discount program, BART should enforce payment at the fare gates.	Unknown	
2872	BART has become TOO DANGEROUS to ride. Keeping it safe seems more important than a discount		
3508	Bart is already an absolute disgrace because they're too politically correct to deal with the human trash infesting the trains. Why don't you do something about that.		X
537	Bart is already cheaper than driving or carpooling, people already jump the gates at the bart station everyday. I don't support low income getting a bigger discount than the rest of the community.		X
849	BART is already highly subsidized and we are opposed to the discount program. Most discounts based on income are given without proof of income level. Gas tax should fund infrastructure as we were told on the proposition.	Unknown	Unknown
2831	Bart is already the low income option for a person. Instead of giving a discount, Bart should utilize the money it does have to clean up Bart and improve performance. When I say clean up, I literally mean clean the place up. Power washers, bleach, etc		X
2887	BART is heavily subsidized. It does not need further subsidizations.		
3645	Bart is just in general too expensive as it is for middle-class riders (aka most of your passengers who commute across the Bay daily to get to work). There are numerous issues with the trains and the way stations are managed, and having a discount program specifically for low-income riders wouldn't do a thing for improving Bart other than giving a small percentage of the riders a discount. Where did you even get this idea to begin with? It's really, really dumb.	X	
3231	Bart is responsible for transporting most of the criminals to and from San Bruno. Why don't you work on making the train safer for riders and cleaner before you start making it easier for criminals to ride. Your own officers tell people not to take Bart.		

Survey ID	Comments	Low-Income	Minority
2826	Bart is unsafe, dirty and over crowded maybe fix this issue first. Taking Bart is extremely expensive		X
2951	BART often talks about how they do not have enough money. They have allowed people not to pay fare (fare jumpers) and at one time did not enforce parking. Now does not seem like a good time to offer discounts.		
1305	BART riders are a kind of prey species, upon whom aggressive panhandlers, so called break dancing street artists, thieves, thugs, and foul smelling homeless persons impose with impunity. How about curing that situation first?	X	
2421	BART should consider peak and off-peak fares first. The goal of peak and off-peak fares would be to increase public transportation usage, provide funding for the transportation system, and charge a more equitable fare based on the time of day and cost of operations. BART has a problem of overcrowding during commute hours and undercrowding during non-commute hours. Those who ride during commute hours are higher income than those who ride during non-commute hours. The cost of operations is much higher during commute hours than the cost of operations during non-commute hours since you have to add extra trains. If you were to charge off-peak fares when BART is less crowded, BART would be a more competitive option. So why doesn't BART do peak and off-peak fares, similar to Washington DC's Metro?		X
1019	Bart should focus on riders safety and clean the trains.	X	X
1094	BART should study what it would take to make ridership free for all and then create a subsidy to be paid by all jurisdictions served by BART. Free rides encourage more/better usage. I would use BART more frequently if it extended down the bayside in SMC. Currently, I drive to San Bruno and park and ride.		
1723	Bart trains are already too short during commute times and offer overcrowded. With more ridership due to some riders getting a steep discount, the experience on Bart would go down significantly.		X

Survey ID	Comments	Low-Income	Minority
403	Bart was supposed to pay its own way and never has. Any time they are money ahead they spend it on new cars and new bad computer systems. I used to work at Mare Island Navel Shipyard and as a top step nuclear pipefitter I never came close to what Bart workers get and I had to work in hazardous environments and harsh conditions. My 30 year retirement is \$29,000 gross/yr and my group health is \$800 a month. You spend too much money in the wrong palces and then you want more to give away. People shoud work where they live. If they wont to comute to make more money and live somewhere cheep they should have to pay the price. If I can't afford it I don't have it. I don't make or ask anybody to pay my way. I make my way on what I have. No gas tax money for bart. Ridership fairs should pay all the freight or no ride.	X	X
1056	Better to expand disabled program. I'm a service-connected disabled veteran, but do not qualify for BART disabled fare. My VA disabled ID makes me easily verifiable. Income-based fare will create a morass of bueracracy and fraud.		X
3105	*****. Everyone should pay the same.		X
298	Concerns about potential abuse of the system.		X
3096	Discounts put an extra burden on BART's operating costs. The entire discount program should be contingent upon receiving an equal offset with Grant funding or an alternate source of revenue other than fare revenue. Each fiscal year, the program should be decided whether to continue only if the alternate funding is secured. Regular fares have continued to increase for an unreliable system and unequal share on full fare paying passengers to support subsidies.		X
267	Do it for everybody. Stop hiking up the f***** fares especially when you guys can barely get a train to function.	Unknown	Unknown
3650	Do not like it		
1506	Do not offer the discount program.		

Survey ID	Comments	Low-Income	Minority
3369	Do not offer this discount now. Maybe this can be revisited later, after Bart resolves the problem with people not paying fare. Or offer the discount to employers to give to their employees. Oh btw, please put a station at Somersville/Auto Center Drive in Antioch.		X
2785	Do not offer this discount. Use the money to hire more security to make BART safer.		X
1731	Do not think there should be a new discount program for low-income riders.		X
1058	Do not want gas tax now used for Bart discount!!! That was not the intent! If money is available, should be used for upgrading system for ALL, not as a discount.		
1038	Don't agree with it. It would make everyone else's fare increase		X
2473	Don't do it		Unknown
2850	Don't do it, the system needs the money		X
182	Don't support.		
1129	Don't do it, it's not fair to everyone else. Homeless already ride for free		
3266	Don't do it.		
116	Don't do it.		Unknown
1285	Don't do it. The number of homeless who take up seats and stink, and the number of grifters and thieves are overwhelming as it is. How about a police officer on every train? That would be nice!		
2143	don't use gas tax money to discount bart		X
2089	Don't.		X
2041	Equal protection under the law. No discount		X
3303	Even the full fare isn't high enough to cover the cost of running BART. We should be raising fares instead of considering further discounts		
1670	Even though I use a disabled clipper card ,Bart is going to loose money because so many already take advantage of th the disabled clipper card that don't even need it ,and it won't be fare to the regular fare user ,that has to use Bart for work they already pay a lot ,give them a break somewear	X	X
1274	Everyone should pay equally		
2584	Fair treatment to all. Everyone should pay the same rate for the same service.		

Survey ID	Comments	Low-Income	Minority
1942	Fares are already low, and I would rather see BART invest more in the system than offer discounted fares.		
767	First, BART needs to regulate and make sure people are paying first. I have seen people not pay and hop the ticketing area or run behind people. It should look more like the East Coast train stations where the ticketing area is tall and high so no one can hop it. Once that happens, it'll be good to implement cheaper BART rides for low income people. It might encourage BART riders and make trains even more packed but maybe people will pay		X
2511	Gas tax revenue should be used to repair roads. That's what we voted for!!!!		Unknown
2537	Gas tax should be used for road repairs		
888	Gas tax should not be used		X
220	Gas Tax should NOT be used.	X	
1222	Get the fare evaders first man		X
531	Guess the rest of us will have to pay more so they can ride cheaper in a poorly run system whose cars are cesspools		Unknown
213	How much more is this going to cost regular riders? This is a waste of money! BART needs new management and automated trains.		Unknown
1020	I am absolutely opposed to using BART funds to subsidize low income riders. You should be using available funds to improve service, clean up the cars and the stations, and increase officers for safety. Make BART a better experience for all riders.		
2762	I am COMPLETELY against this. Why should I pay full price to get to my job in the city so others can get a discount that I don't qualify for? I'm tired of paying out big \$\$\$ to ride BART, and you know once this kicks in they will raise fares even more--everything for "the poor" and nothing for the hard workers is what's wrong. Tired of paying for "low income" my family does without and cut corners while they get the freebies and discounts--NOT RIGHT!!!!		X

Survey ID	Comments	Low-Income	Minority
3493	I am concerned that people would take advantage and say they are low income to get the discount raising the price for other riders. I don't see how this would be enforced well and BART doesn't have enough money as it is. It would be better to stop fare evaders and lower the price for everyone. I am not low income and still struggle to live in the bay area. If BART prices increase more I will find alternate transportation.		Unknown
2692	I am Disabled and Low Income. I purchase RED Tickets currently. RED tickets give me a 62.5% Discount, a 20% Discount would make me pay more than I currently do. so, I do not Support this program. I would like to see Blue HIGH VALUE, Green, and Red Tickets added to the Clipper Program. BART is a vital Lifeline for me , as AC Transit is getting more Expensive to use in SF/ Transbay. BART is more reasonable.	X	
2603	I am not in favor of this type of program. Clean up the trains and stop the vagrants from riding/ sleeping on multiple seats! That should be your priority.		
3048	I am not in favor of using state gas tax revenue to fund discounted BART tickets to anyone of any income level. It's unfair and inequitable to the households who do not qualify for proposed program. BART should alternatively consider reducing its fares across the board with any monies it receives from the state gas tax funds.	X	X
810	I am not sure I agree. If there are lower fares offered for some why not all?  I personally do not think Bart manages their finances very well. The union demands overly high wages for it members. There is already a lack of police presence, trains are dirty and old etc.  And I am guessing that my ticket price would go up to cover the gap created by these low income ticket holders.		

Survey ID	Comments	Low-Income	Minority
3129	I believe a discount fare is not the answer. Old and disabled do not have the opportunity to work like others. The low income pass would be abused. I believe the fares should be subsidized by the businesses that need the workers. They get a tax break for it. On the other hand my gas tax money doesn't get used for the roads or alternative transport. Let businesses pay for new Bart cars and capacity.		X
952	I believe there are other, more pressing matters that should be taken care of - i.e., the drug addicts that shoot up or flop all over the seats when people are trying to commute - no one wants to sit near them - it makes riding BART disgusting. Safer stations should also be addressed before offering discounts to people.	Unknown	
3463	I commute with on the highways, not BART. BART is not a viable option for me, or the residents of my community. The gas tax was passed to improve our roadways, not BART. This does not appear to meet the intention of the gas tax.		X
383	I disagree with the Bart discount proposal, we should all pay the same fare, except for the senior. One should work hard, study hard, spending the money wisely, eventually they will make more money. Because of the low income discount, low income benefits, these just encourage people not to work hard. Because you are low income , one will have everything ,free medical, free glasses, free hearing aids, no need to pay for driving violations. Why bother to make money. If you earn more,then will have your benefits taken away , and you have to pay more. I think this is not the way to make California a better city,people don't work hard anymore.These people just taking the money away from the tax payers. I totally disagree with the proposal.		X

Survey ID	Comments	Low-Income	Minority
3504	I DISAGREE WITH THIS POTENTIAL NEW DISCOUNT PROGRAM WITHOUT HAVING MORE INFORMATION ON HOW IT WILL BE FUNDED. Having grown up in the Bay Area, and also having lived on 4 continents, there are clearly some major changes that BART needs to address first. While I agree that there should be something done to assist low-income riders, the majority of riders are lower middle-class riders who won't qualify for any discounts of any sort. These workers are already stretched to the limit on their paychecks (myself being one of them). We need to know how this 20% discount will affect the rest of us. *Will fares continue to increase exponentially for everyone else who are not eligible for this discount?* We have also had multiple taxes in the past 5 years that were supposed to improve BART's services overall; having been a daily rider of BART from East Bay to SF and down the peninsula for the past 3 years, there are still some major issues that need to be addressed first. This includes security (clearly a major issue with the recent killings), general cleanliness, technical maintenance of the trains (have had at least 1-2 major delays every month riding BART).		X
1240	i do not agree with using money from the gas tax to give the low income riders a free ride (or a reduced fare). riding Bart is NOT a necessity but it is a "want". i work hard for my money so why should people get perks and not me? i was not in favor of the gas tax either, but since it's here to stay i feel it should ONLY be used to fix the roads like the politicians in this state said it would go for!!!!!!		
1643	I do not approve of the new discount program for low income riders		
2480	I do not believe it is feasible. I see fare jumpers every day and the fares are not enforced. If they are spending \$0 as it is, what would motivate them to pay anything? Spend the money and effort into increasing BART security and cleaning up the cars, adding more trains, and ensuring better on-time performance instead.	Unknown	X

Survey ID	Comments	Low-Income	Minority
1257	I do not like this potential new discount program. We are paying the gas tax to fix roads and that is where the money should be spent. I do not appreciate you drooling over the funds and robing this tax to support your program. This is robbing Peter to pay Paul.		
1614	I do not support higher prices for some people and lower prices for others.		X
1054	I do not support the low income program. I am actually offended by it. I am already taxed to supply the following services for low income: cell phones, food, housing, health insurance, discounted PG&E, discounted EBMUD, discounted internet. California will lose more of its middle class if it keeps increasing taxes to support low income. With common sense I say, if it is too expensive to live here, move to someplace more affordable. I realize that we will lose many low wage workers and the result will be that companies will be forced to pay a competitive wages for salaries or automate. The free market will deal with this. I am also offended that we have a 'brown' underclass. The only way to eliminate this is to stop the welfare state, prompting companies to pay more for employees.		X
786	I do not think BART should seek to encumber funding from the recent tax election for this purpose. Voters intended the money that was approved to be used to build new infrastructure, including BART equipment and maintenance needs and highway and street improvements, not to subsidize riders of any income level. To usurp the voters' intention would be wrong. Why not use the high priced salaries of the General Manager and several assistants to help citizens who need assistance with fares? Grace Cunnican makes too much money and does not deserve her compensation, in my view.		
1561	I do not think it is appropriate to lower fees for some people and not others, regardless of their income levels.	Unknown	X
1477	I don't agree with it partially since Bart needs to focus on managing their money. In the end, where is this delta going to come out of? Overall, maybe focus of the safety and cleanliness of the stations and trains before rolling out a program.		
1372	I don't like it. There are better ways to use the gas tax		X

Survey ID	Comments	Low-Income	Minority
2448	I don't ride BART because it's a disgusting mess. Instead of giving discounts, you should spend the money on cleaning the stations and making the system safer. Bart is already heavily subsidized and it can not afford to provide discounted services. Besides I thought the gas tax was supposed to pay for our infrastructure like our roads which are also in terrible repair.	Unknown	Unknown
2259	I don't support it. We should all get the 20% off if you are going to implement it.		Unknown
3680	I don't like the idea because BART is always complaining about not having enough money and raising fares and parking.		X
1029	I don't really think this would benefit myself. I am low income but, I would prefer to pay the same amount because I would rather my money go to upkeep for BART. I would prefer my money along with other low-income riders go to help pay for more security and BART police instead of giving myself a lower fee.		X
3582	I don't think a whole lot of regular BART riders will benefit since we probably won't qualify. The ones that do qualify would probably not take the time to purchase esp since 20% is not much discount. I see a lot of free riders. Why pay when they can just go pass the side gates. It's unfortunate but it's the truth. BART's priority should address the safety of the people. There's other means of transportation. If you can't afford BART, there's the bus.		X
803	I don't think it is a good use of funds. There are low fare bus options. Please put more police on the trains.		X
3156	I don't think it is fair to people who do not qualify and need to pay full price, including middle class commuters. It would be more fair to either lower the prices for everyone, or have another program such as a greater high value discount		X
1099	I dont think it is fair to the basic working class employees who have to pay full fare and don't make that much more then those who would be considered low income. I would stop riding and drive.		X
3030	I dont think it's fair. There are people who pay over \$20 daily it would be nice to just lower all fares.		X

Survey ID	Comments	Low-Income	Minority
1426	I don't think the discount would work. The Federal poverty guideline does not apply to California, since we all make much more due to cost of living.		X
917	I don't think they should get one or minimum make them jump through hoops and pay a yearly fee in order to get their discounted rate like you make the disabled passenger do. Really, make a disabled passenger go to only specific places to get discount card, make them pay a yearly fee to get that discount. THIS IS WHY I DO NOT RIDE BART ON A REGULAR BASIS. And the parking fee. MY WORK IS Bartable BUT I WILL NOT GIVE YOU MY MONEY, and I will not jump through hoops to get my disabled discount. But oh ya lets give the low income another break. You are helping to get rid of the middle class.	X	
1637	I don't think this is a good idea. BART is one of the most poorly managed public transit systems in the country, if they start giving discounts they're only going to raise rates for everyone else.		
700	I don't think those of us who do not qualify should subsidize lower income riders. We already pay more taxes.		X
430	I feel it would just make it easier for criminals to get on the trains. They have no problems now, why "encourage " it?		X
2202	I have no desire to have my tax dollars fund any programs to assist low income people. That's just a bandaid for the real problem. Fix the California cost of living barrier for good.		X
2799	I just don't understand why Bart cant focus on Safety and recucing fare evaders. I feel unsafe on mybdaily commute as do others. Please prioritize accordingly.		X
633	I most likely would not qualify for tblhis program, as my income is above the poverty line. However, BART is already expensive and so is living and working in the Bay Area. If regular fares go up to pay for this low income discount, I would stop riding BART. I shouldnt have to pay for a low income program.		
3414	I oppose it. Misbehavior on BART is too high, and there aren't enough seats as is. Keep fares as they are, and spend the money to put police on each train.		Unknown

Survey ID	Comments	Low-Income	Minority
1540	I oppose this discount. BART prices keep going up, and now you plan to offer a discount that I don't qualify for. I wouldn't be surprised if you plan to cover the cost of this discount by increasing costs for people like me and it's not fair.		X
359	I pay my share they should pay thier share. Everyone should pay the same rate no matter their income		
1738	I really hope that you'd make people show proof of residency or something to sign up for the program. I find it unfair that individuals can ride BART and use it as a place to sleep. If they're collecting money to ride I know that it is difficult to tell them to get off. But unclean, urine smells, people doing drugs...why make it easier for people to ride BART. BART is expensive - I ride from Walnut Creek to Embarcadero 5 days a week. With parking that is 2,700ish a year. I doubt that I would qualify as low-income. But when you work in a city where the average lunch is 15-20 a day...life is expensive not including rent.Why not reduce the fare for EVERYONE? Even if it is just 10cents. If you can reduce for some you can reduce for all.I'd rather see you invest in making the trains safer, cleaner and better for those actually paying. So instead of reducing the fare that you'll wind up raising sooner than later, take what you've identified as an available loss and apply it making the ride better.		X
548	I spend more than \$300. A month on BART. I already see able-bodied non -seniors useing discount tickets, hopping the gates, and taking the elevators without paying. I make 60k. A year but only take home 2.5 k a month. 1.5 k for rent and 300 to you. So F*** YOU with your discount program. Poor losers already get handouts, now you want to promote them with more perks! F*** You!!		X
3121	I think BART needs to keep fares the same and use money to improve the reliability of BART		X

Survey ID	Comments	Low-Income	Minority
2623	I think Bart should be ashamed to continue raise bridge tolls and seek a new way to rob drivers every election. Quit asking for more tax payer money, then turn around and attempt to start a discount fare for riders. Take that money get put it in your police because your srations are crime infested	X	X
2903	I think it is suspect to dictate a discount on whether BART's income might increase or not.Bart is one of the highest fares in the world and yet no where near as efficient nor available to the working class thus i can't even get to work on the weekend.I think we should stop fooling ourselves as to which is the problem and which is the solution.I'd imagine Bart has spent more on fare inspectors than they have lost in fare evasion. Bart needs to get their priorities straight as to what they actually stand for. mobility or sheer profit??	X	Unknown
1361	I think it's a horrible idea. The cost is just going to be pushed on the rest of us who pay full price.		
1351	I think it's preposterous. This is not what the gas tax is meant for!! It should be fixing roads and bridges that benefit us all, not just giving some individuals a discount on one mode of transportation. It is extremely unfair and I oppose this suggestion.	Unknown	Unknown
706	I think it's really problematic to introduce new bureaucracy where people have to go through a step of proving their low income. This also creates the very likely potential of privacy violation. I would support this measure because it's important to make BART more accessible, but it would much, much better to make fares cheaper or free for all (and to have an integrated regional payment system)		
2383	I think its stupid. Everyone should be able to get a discount maybe the people that ride 5+ times a week get a discount too		X

Survey ID	Comments	Low-Income	Minority
2681	I think people are more concerned with the raising of fares and parking and that's what is causing low income riders to not use Bart. I think the discount should be towards people who take Bart on a frequent basis because they are the ones who pay the consequences of others getting cheaper fares.		X
3208	I think this discount program is outrageously offensive to regular BART commuters. I take BART every day twice a day from Millbrae to Montgomery, and receive no discount. The over \$4 a ride fare is exorbitant for a dirty outdated extremely loud train. Discounts should not be given so funds can be used to hire police, I have never seen any officers on my train. A discount program is offensive to regular riders who spend \$250+ a month and make an honest living. Unlimited monthly passes (commonly available in MANY other cities) should be available first.		
1332	I think this is unfair to charge higher fares to regular passengers to subsidize lower income passengers. This will not increase ridership. It will only increase fares for regular passengers.		
3352	I think this would unfairly hurt regular riders.		X
3070	I will not qualify for the discount and I am struggling already to make ends meet so it means it will make my life even more harder. I am Pretty sure there are loopholes of getting the discount and people are going to misuse it, so no I don't want this discount since there is already youth, senior and handicap discount.		X
268	I would ride BART less. The is because the redistributive nature of your proposed discount will inevitably raise prices for the rest of us. Given the cost of living in the region, this is "death by a thousand cuts" for the rest of us.		

Survey ID	Comments	Low-Income	Minority
653	I'd rather you put safety first than accommodating to low income riders. How about people don't get attacked on the train and we stop fare evasion rather than focusing on the low income community, worry about ALL riders and keeping EVERYONE safe. If there is a discount for people who commute through BART that would be great. I do not think it is fair to have lower fares for lower income while people who ride and spend \$15 on your services every week day do not get perks. Please think about ALL your BART riders. I work my ass off and get nothing. Why bother working?	Unknown	X
1689	I'm not in favor as someone else will bear the costs, either other riders or taxpayers. Where is the survey question relating to that issue?		X
3668	I'd rather see help some other way. Fair paying commuters already cover everything and keep getting charged more. This program will only add to that		
788	I'd rather you stop fare evaders than to continue to cut breaks.		X
3359	If funding originated from the new gas tax, I would be opposed. I voted against the gas tax because I felt it would be used for items other than road repairs and improvements.		X
572	If it's going to make Bart even more crowded during rush hours, I'd be disappointed. The experience is already somewhat difficult when I'm unable to avoid peak commuter hours. Platforms out of the city in the evening are sometimes so crowded you can barely safely exit the escalator.	Unknown	Unknown
2987	If making low-income riders gets discount and regular bracket income gets an increase in tickets price, I don't think I'll ride the train more.  This will only encourage people to move.		Unknown
1398	If providing a low income discounts burdens people who cannot qualify for this discount because their fares must be raised to make up the cost, but are barely hanging on working insane hours trying to pay rent, then this program will cause harm.	Unknown	Unknown
1514	I'm against it. I believe the discount will encourage Bart to raise rates for the rest of us and I can barely afford it now.		

Survey ID	Comments	Low-Income	Minority
1508	I'm sick of having to pay more when others either don't pay (I see fare evaders EVERY day) or get these subsidized fares. People are getting FED UP. And we all vote too.		X
3000	I'm very tired of all the handouts by the government. Especially since nothing is "free", someone has to pay for it and 99% of the time it's the hardworking tax payers like my wife and I. BART is horribly mismanaged as it is. Now you're proposing to give a discount to a segment of society while raising the taxes and floating bond measures that a different segment of society has to pay for. Everyone associated with BART administration and management should lose their jobs immediately.		X
2354	Instead of a discount program how about changing the fare system in which one gets charged per ride instead of mile and a monthly pass is included.	X	
2194	Instead of requiring poor households to jump through additional bureaucratic hurdles for each benefit, we as a society should give cash to low-income households, who can then decide for themselves whether BART is the best use for the money. BART is not a substitute for an income-redistribution system, should not try to become one, and should instead focus on its core mission.		
3038	It is a terrible idea.		
1866	It looks like now that there is a revenue source from the gas tax, BART is looking for additional ways to spend it. It seems BART has enough issues requiring the added revenue. This program looks to me to be a public relations move to help low income people at the expense of badly needed system improvements. Don't do it.		
329	It makes no sense to charge less to ppl who can afford the clipper card than the 50 cent charge on the tickets it's oppressive	X	Unknown
3250	It seems to me that many low-income riders are currently paying NO fares. I see fare evaders almost every time I ride Bart. The trains have become motels and toilets for a great number of people. Address this problem before you even consider any new discounts.		
3014	It will be abused to the max. Just like all the gate hoppers...		

Survey ID	Comments	Low-Income	Minority
1205	It will be used to steal money from taxpayers. There is nothing discriminatory about asking people to pay for a service they use. Let them have pride in being able to take care of themselves without handouts.		
1144	It will make bart even more crowded and dirty... will make rides even more unpleasant. There are already tons of homeless people practically living on BART.		X
3022	It's going to give more homeless people access to the trains. Please don't.		X
2530	It's too easy for people to fraudulently claim low income. Why aren't you seriously cracking down on fare evaders?		
1521	It's a nice idea, but that is not what we voted that money in for. We need BART to use it to update the system. The stations are filthy. The trains that were promised are not in use. You already look the other way to fair jumpers. If your going to let some people ride free and park free, why shouldn't we ALL get discount or ride and park for free? We get to the Bayfair station and there is no station agent in the little kiosk. People just jump the bar. We need the system working properly, proper cameras, proper staffing (there should always be a station agent working) more security. We welcome the BART police because we aren't doing anything wrong. We voted for this to update the BART system, not give SOME people a break. My daughter rides BART every weekday and some weekends. We use it less frequently. But we voted in this money to get the updates to the system so that it would be updated, clean, safe, and on time for us. If this money goes only to help some people, then I will never again vote for any taxpayer money to go to BART. We are furious over the fair jumpers. If everybody paid their fair share then maybe the promised cars, clean stations and extra security would be a reality. You seem to be going backwards. Either be fair and give the discount to everyone, or use it to do what we voted for. FIX THE SYSTEM.		
3531	It's not fair. either lower the costs of fares for everyone or not at all.		X

Survey ID	Comments	Low-Income	Minority
320	Keep it the same for all. Give everyone a 20% discount or none to any. Not fair that people have to pay more. Everyone is working hard to make the money to get to places.		X
2071	Keep the fare up and use the funds to clean up the trains and install fare gate barriers -- BART's mission is a transit system; not a homeless shelter		
3091	Keep the fares equal for everyone. Use the money to improve the system		
351	Laudable goal. But the increased gas tax was to FIX OUR ROADS! If you think there is money for your program, it means:1. The backers lied to us (wouldn't be the first time). If you have extra money after fixing our roads, reduce the tax.2. Backers lack integrity. Another bait-and-switch tactic to fund their pet projects.And in case you've forgotten, that is exactly what happened to the gas tax funds we've been paying for years. Went to the general fund instead of paying for road infrastructure.	Unknown	
2500	Low income people already have a discount. It's 100%. They just jump the gates. How about the BART police getting out of their cars and starting to monitor what's happening in the stations and on the trains? I went to NY recently and there are cops everywhere in the subways, watching what's going on. Not on BART. Strange.		Unknown

Survey ID	Comments	Low-Income	Minority
846	Low income people are already receiving so many discounts in our society. The rest of us are being forced to give up more and more of our income for this stuff. For example, starting 1/1/19, if we need any special documents from city, county, state, etc., agencies, we have to pay \$75 now. We pay an extra \$0.20/gal for our diesel fuel. We pay more and more sales taxes and fees. None of this gives us anything. Most goes to their government pensions and to the low income and poor. They already receive free cell phones and service, EBT cards for free food/food stamps, free food for single moms and their babies (how about getting married or finishing school and getting a job before getting pregnant?), Section 8 welfare, discounted transportation on other providers, free healthcare and on and on. Meanwhile, we have to wait hours at DMV because our tax money goes to all of these freebies instead of hiring more DMV workers and smarter workers.		Unknown
3036	Low income residents already receive enough benefits. SF/Bay Area public transportation is not expensive enough to require additional discounts		X
867	Low income? What threshold? How often would the discount be audited? I might be low income this year, but make a bundle next year.  Seems unfair and difficult to audit. Employers should pay for workers BART fares. Other riders, who are working hard should not pay for other riders BART fares.		X
516	Low-income riders are already receiving multiple discounts through various programs in California. Average-income riders or riders whose income is not low enough, do not get any breaks. If the discount program is passed, obviously non-income-riders will have to pay more for their commutes. Please consider the hardships of the non-low-income riders.		X
1993	Make the discounts apply to frequent riders. Too many people are fare evaders, give the discount to those actually supporting BART.		
1221	Middle-income people should not be forced to subsidize low-income riders; leave communism for failed countries.		X

Survey ID	Comments	Low-Income	Minority
2847	More focus should be put on preventing fare evaders than providing discounts.		
1781	My commute train is full to capacity, sometimes I have to let one or two trains pass until I can squeeze in. Insufficient parking forces me to park a quarter mile away in a dangerous part of town. I watch fare jumpers, aggressive homeless and you want to know if more of the same is a good idea?		
2476	My spouse rides BART everyday. The stories that he can tell about the filth on the cars, the riders that are still farehopping as well as the already lack of police presence, make me think that BART isn't operating effectively with the current discounts that they offer riders. I do not agree with any other discounted tickets. Seems like it would be too much for the agency to maintain and continually review and maintain. How often would they confirm people's eligibility? Who is to say that people wouldn't buy them for others that don't qualify? This seems ridiculous and like a terrible idea.		
418	Need some vetting system to ensure there won't be homeless people sleeping on BART or disrupting other people. Most people don't ride bart because there are homeless people, it's dangerous, and saving a few bucks by taking bart over driving is simply not worth the risk of getting robbed or worse.		X
97	No discount please! I don't mind to pay more if I could get super clean reserved seat everyday.		X
3142	No discounts until BART has eliminated fare cheaters.		
1470	No no no ....		
1380	No way!		
1177	NO! These tax dollars were never intended to fund or subsidize low income riders of BART.		X
2330	Not a fan - I don't want to pay more taxes so others can ride Bart at a lower cost.		
1354	Not good. Too easily abused. It would be a nightmare to maintain and keep its integrity. A one-time pre-loaded card/ticket (think bus pass voucher), could be made available to charitable organizations for the truly needy. But it seems if there are already many needy who use BART as a home.		X
763	Not in favor of it.		

Survey ID	Comments	Low-Income	Minority
1871	Not in favor of it. Low income people have enough subsidies already.		
1869	Nothing wrong with low income discount concept, but it should be funded by regular BART fares, not a gas tax which penalizes people who can't use BART. Increasing the gas tax will increase cost of living, and make goods more expensive which affects everybody. BART should be paid for by the people that use it.		
3334	Of course if you get a discount you are going to ride BART at least as frequently.  Why are gas tax dollars going to this? I thought those dollars were meant for fixing potholes? What the heck?		
3522	poor idea. if you want to help poor people, do so with direct grants of money. bart is not is the social welfare business. it has enough problems just transporting people safely.	Unknown	Unknown
323	Really bad idea		
1867	Save the money and get the fare evaders off the trains. The trains are dirty and disgusting. I pay my share but if we git the fare evaders off then reduce the price for everyone.		
2293	Scared that it will allow more homeless and drug use in the stations. I had to call 911 on Bart because a guy was threatening to shoot up the whole car.		X
3093	Secure the gates before you provide more discounted fares.		
2959	Security increase needs to happen first, there's a potential for problems with low income Bart		
1718	Seems like a lot of administrative hassle for a minimal discount. Why not discount off peak fares for everyone instead?  It would still help low income riders as many work off hours and would also encourage non commute BART ridership.		X
994	Seems that it would be difficult to manage and enforce. How does Bart identify those who qualify. How does Bart prevent mis-use of discounted tickets. Also it's quite unfair to anyone with income just above the threshold who continue to pay the existing very high fares.	Unknown	

Survey ID	Comments	Low-Income	Minority
1764	Some survey. You don't even tell or ask questions regarding to funding source. I think drivers might have more to say about it if they knew the money was going to come from gas taxes earmarked for roads as Brown promised. Shame on you. How low. Tell all of the facts. Why do you care about my age, ethnicity or income?  Fix the survey!		
1920	Stop Bart's mismanagement of funds, and you can stop raising fees, keep Bart safe, AND have these welfare programs!		X
441	Stop rewarding people for low-income.		X
3502	Stop with the handouts		
1606	Taxing people to provide a discount to others is unfair.	Unknown	Unknown
1489	That's ridiculous. The hard working class have been paying enough. If u can afford lowering the fare for the poor again, u should not keep increasing the fare year after year. We paid more than enough to help the poor thru all kinds of taxation. People should get a job & get a life , don't take drugs , don't have babies if u can't afford because the baby won't be happy growing up. Wake up! People are moving away from California.		X
1079	The Bart is already struggling with safety security cleanliness and other issues. I do not think a low income discount is fair or sustainable. I completely disagree with that and would feel even more burdened by it as a rider.		X
2017	The Bay Area doesn't have an income problem. Invest in fare evador systems and you will recoup your investment in a couple years. People have no choice but to pay what the market demands for fares. It's like coin laundry, people will pay and use the same regardless of price because they need to have clean clothes!!		X
1134	The expense to monitor this program and the potential for fraud outweighs a 20% discount. This is a waste of money. Instead you should lower the fares 20% for all riders.		
2742	The gas tax is meant to fix the roads, not provide any funds to BART. I am totally against this!!!!	Unknown	X
2180	The gas tax was supposed to be used to repair roads and infrastructure. Repair things!	Unknown	X

Survey ID	Comments	Low-Income	Minority
3383	The money given to you but us voters was for operation and maintenance it's bad enough that people do not pay to ride Bart they jump the gates piggyback behind customers and now you want to give him free rides NO BART station attendants need to be replaced all this is happening right in front of them and they do nothing about it the station attendants are too busy looking at their phones being on social media to see what this crooked customer's are doing. And when you take the time to make them aware of what's going on the station attendant get upset that you're taking their time away from phone activity so the answer to your question is no no no	Unknown	Unknown
886	The money should be used to fix highways and roads instead.	Unknown	
1212	The people that can't afford Bart already hop the fence or find a way to go for free. It would continue to convince business people to take uber instead		
936	The potential discount is fiscally irresponsible. BART has never broken even, relies on federal subsidies, and is always in the red. BART should 1/ crack down harder on people jumping the turnstile to avoid the fare, 2/ renegotiate union contracts, and 3/ conduct a rigorous and independent operational analysis to improve efficiency and reduce costs.		X
424	the tax payers money should be used to improve security of the BART system, clean the trains, prevent crime, and upgrade the trains. It should not be used to give discount to anyone, rich or poor.		
702	The voters voted to keep this tax for road repairs. DON'T DIVERT THE FUNDS to things that weren't approved		
1168	There are so many people that don't pay and squeeze through the fate gates already. Those that rightfully pay will suffer a rate hike in the end.		X
3524	There is already FAR TOO MANY FARE EVADERS and problems with the BART stations that I see a program such as this to only become a scapegoat that will more down the many many things require urgent addressing.		X

Survey ID	Comments	Low-Income	Minority
3010	There should be no discount program for low-income riders. The fee schedule need to be similar to the Washington DC subway: Peak Fares and Non-Peak Fares. Lower fares during non-peak times can bring people back into the system. Most transit systems make most of their money in the peak times.		X
2391	They already have a discount called free rides because there's never any dam bart police to be found and never any fare checkers to be found. Junkies take up all the seats for free every morning it's their free hotel. No police or fare checkers ever. I see people shooting up on platforms at least 3 times a week. No police or fare checkers anywhere! Stop worrying about people who don't pay and take care of the people who do pay to go to work every day.		
1469	They don't pay anyway, so why would a discount matter. Also, you passed out paper surveys with no trash cans around. They are littered all over the 16th mission station. Lol	Unknown	
3348	This discount scheme is a complete waste of BART time and resources. BART should outsource its station staffing and maintenance and cut fares 25% for everyone.		
1276	This discount will be a waste of money and will cause an increase of local tax for everyone. First, it will be hard and costly to verify the income of all discount applicants. I am sure people will cheat and abuse the handout. It is better to concentrate our effort to solve the bigger problem of homelessness.		X
1125	This does nothing but raise BART fares for people who are not considered low-income but who still can't afford BART. That 20% will come from somewhere. It will be us middle class that pay. It is appalling.		Unknown

Survey ID	Comments	Low-Income	Minority
272	This is a dumb idea. What is the purpose of such an idea? If to increase usage, try letting us see the trains that you folks spent almost three quarters of a billion dollars on and have yet to deliver, or try to have a system where commuters can feel safe. If to give assistance to poor, I don't believe that is the purpose of the board of directors. There are other, more direct ways to help people. All in all, this is a poorly thought out, confused idea.	Unknown	Unknown
3170	this is a farce	X	Unknown
824	This is a terrible idea to force regular riders to subsidize so called low income riders. How about reducing unnecessary costs, reducing pay of executive managers who provide little value and increase fare enforcement, so that regular fares can be reduced for everyone?		X
2533	This is absolutely ridiculous. When about one third of the people fare evade why not make BART free for all. Why do some people have to subsidize others when we ourselves are struggling to pay bills and live in the bay.		X
3407	This is absurd! There should not be a low income discount. You keep raising rates. Why on earth should the full fair riders have to pay for those that need the discounts? We (those struggling to pay full fare and that won't qualify to pay the discount rate), will just get screwed.  NO discount for low income. There are enough subsidies already.		X
1638	This is not fair for the middle clas people. We are the ones that will eventually have to pay for it. Most of the low income households have able bodied individuals but they prefer to sit home, or do drugs vs work for their family. Look around and do some research.		X
2415	This is NOT fair to the people who pay full price. A low income discount would discourage me from taking BART at all.	Unknown	
498	This is NOT s good use of funds. Before anything else, Bart needs to increase security. It should not be a rolling homeless shelter, or a place to get high. Too many people still evade paying fares. Bart needs first of all to pay attention to its regular users.	Unknown	Unknown

Survey ID	Comments	Low-Income	Minority
334	This is ridiculous, none of us who struggle but aren't as far below the party line pay and continue to see the fare go up, despite service being poor and the criminal activity on the trains. Low income riders cause most of the crime on the trains, too.	X	X
1562	This is to be paid for from gas tax revenues—why the heck! How about using the gas tax money to fix pot holes, and road construction LIKE IT WAS MEANT FOR!!!!		
809	This is yet another way to redistribute wealth and I don't agree with it.		X
1410	this just means more homeless people on the trains at all times. i see people jump or even push open the turnstiles on a regular basis and no one care/does anything. i have to take bart to work everyday and i know this program will only increase the amount of people who are not taking bart to commute but to sleep. all day.		X
926	This proposal is outrageous. This tax was sold to us by the fact that our roads are falling apart and we were told it was going directly to road repair. To now use it to subsidize Bart is not acceptable.		
2369	This proposed discount would do nothing to curtail the up to 80%...yes 80% of the people I've witnessed just not paying at all. This money would be better spend on enhanced physical barriers to thwart fare evaders. I even posit that doing away with woefully ineffective Station Agents with actual law enforcement officers at each station in order to curtail fare evasion and increase BART revenues. This discount won't do anything to change the mind of most fare evaders. People aren't evading fairas because they're \$.80 short.		X
352	This should not apply to them.	Unknown	Unknown
517	This should not be paid for with tax dollars.		Unknown
2004	This sounds like a terrible idea. Please don't do this. It will only allow anyone who knows how to use a computer to defraud BART, pay less for the same amount of rides, and BART would earn less money.		

Survey ID	Comments	Low-Income	Minority
2364	This tax is meant for fixing the roads... it should have been repealed... if you want to help low income people get them trying so they can find work or get better jobs... they should pay the same as everyone else.... this money from gas tax was not ever supposed to be used to give lower fares.... this entire thing is wrong!!!		
3056	This will not help keep BART clean, safe, accessible or help with the high volume commute times. It will cause more people to take advantage of BART without adding any value. It will cause more people to STOP taking BART because it will be full of people taking advantage of the system rather than pay their way to make it a better experience.		Unknown
1812	This won't solve the issue of fare evasion and if this makes regular riders fares go up to make up for lost revenue it's going to be a problem.		X
3702	Tired of handouts. Bart keeps raising fares so as usual the middle class working people will end up footing the bill for others	Unknown	
1184	to be fair, while a discount is a wonderful idea, low income riders like myself would benefit greatly from a moratorium on fare increases. fare increases occur without notification and without reasons for their need. this sort of thing can be quite frustrating.	X	X
533	Too many people take advantage of being 'low income' and they are the ones that sleep, & take two seats to lounge. Do homeless qualify for low income? I just see more personal problems w/this program. I truly love BART but all the crime reports are discouraging. I just have to think crime could increase as well. Sorry, I do not support this program.		X
1066	too much red tape to verify those qualified.		
230	Totally unfair. You already have discounts and don't check people who skip the turnstiles. Not fair to paying customers, my taxes fund you, my fares fund you, and now you want even more money. Go f*** your mother in the ***		X
222	Trains are dirty and crowded, and tickets for regular riders are grossly overpriced. Instead of offering discounts for a subset of potential riders, focus on making your trains run more efficiently and reducing costs for everyone. I strongly disapprove this plan.		X

Survey ID	Comments	Low-Income	Minority
2683	Unbelievable! Hard working middle class obviously don't matter anymore.	Unknown	X
3676	Unfair to full priced paying customers riding the same trains. Would discourage ridership. How would anyone regulate discounted vs non-discounted riders?	X	Unknown
1037	Unfair to others		X
2292	Unnecessary. Bart is too mismanaged already.		X
2176	Use our gas tax funds for our crumbling roads and infrastructure, not for lowering BART fares.	X	
2399	Use the money to make bart rides safe, sanitary and have better station agents. The station agents are the worst and are not helpful. Why do you have station agents like that? Everything BART does just shows BART as a company does not have any standards and do not care about their riders safety. Focus on that and the ridership will increase.		X
2487	Where do the money come from? I strongly oppose this program if other BART riders will see a fare increase to offset the cost of this program.		X
1461	Where is the money going to come from for this program? Why are you not doing enough to stop fare evaders? Would fare evaders be eligible for this program? How will you judge if this program is successful or a failure? What type of documentation will be needed to ascertain if someone is eligible for this fare reduction program? Who will administer the program within BART? Will BART have to hire more people to run the program?		
2936	Where's the money coming from? I take the Dublin/Pleasanton line and question the implementation of this new program when there are fewer trains on my line than all the other lines, even though it's jam packed during commute hours. This is difficult to swallow when I'm seeing new trains and half empty cars constantly on the Pittsburgh Bay Point line and no improvements to Dublin/Pleasanton.		X

Survey ID	Comments	Low-Income	Minority
3338	While I support broader utilization of public transportation, I'm not sure this would do much to encourage public transportation use and might only serve to push the poorest selectively on BART versus other forms of transportation while increasing commute length for the poorest, who are now able to commute a farther distance. I wonder whether these monies might be better spent on infrastructure upgrades or programs for the very poorest.		X
2691	While this proposal is motivated by good intentions, BART should not decrease revenues via a discount program. Transit is already terribly underfunded in America compared to other developed countries. BART needs every cent it can get from its riders. I believe BART should be fiscally responsible so it can focus on improving the service it provides to all its riders via increased investment in new cars, repairs, funding a 2nd Transbay crossing, Transit oriented housing development, etc.  It is not the responsibility of BART to means-test its fares. Everyone should pay the same price.	X	
277	Who are the people you're trying to help? I feel like a lot of financially marginal families commute from far out on the BART lines and would benefit a lot if their monthly transit expense, which is high, went down. But I feel like a lot of those folks make slightly more than 200 FPL. A lot of very very poor people in SF just ride muni (at low cost or for free because they don't pay). So I'm not sure this proposed discount would even reach them. Also what was the point of this survey? I would not qualify for a low income discount, but you didn't ask me that, and you did ask me if having a discount would change my rider behavior. I'm irrelevant to your target population, but you have no way of knowing that..		X
3621	Why give discounts when there's so many fare evasions anyway? Bart doesn't care enough to follow through with fining those that jump through gates, so why should you facilitate a discount?		X
2590	Why not use the Gas tax for ROADS?		

Survey ID	Comments	Low-Income	Minority
3063	Why offer a discount that will make overcrowding worse?		
1492	Why should low income people get a discount? BART is so expensive for anyone because of the massive lack of governance and mismanagement of funds. There should be no discount until they fix this problem.		X
1437	With the cost of the bart tickets already so high, why would you discount it for low-income riders. This is a big drain to the pocket everytime you take bart. In fact the long distance tickets should be made more cheaper. Most of the low income people live further away because of the high property prices and the price to come from the last point to downtown SF is exhorbant. That should be fixed.		X
528	Would non-discounted riders would have to subsidize the loss of revenue? It's already too expensive to ride the Yellow Line from Walnut Creek to San Francisco. Would the fare go up even more? I don't think it's fair to have different fares for different people. There are so many scammers who jump over the gates without paying and the attendants ignore them. Why not enforce the rules and make everyone pay their fair share at the same rate.		
2891	Would not want to pay higher fees to support ths program. Where are funds coming from? At capacity in rush hour already!		
1362	Yes I'm upset this could be coming out of gas tax which was supposed to be for roads. This is not cool as most people lie on their income. Would BART be looking at tax returns? I don't like this proposition.		
3299	yes, BART is already a big dirty HOLE--why do that? Also, you already have a low-income program in place in our TICKET EVADERS and your homeless issue that on any given day you can find them on the trains or stations. So why don't you focus on the paying customers because if BART becomes anymore GHETTO then the paying customers will take their cars to the road ways.		X

Survey ID	Comments	Low-Income	Minority
78	Yes, BART should be dissolved of its Board and Management; it is using funds promised to fix and repair highways and roads that are in disarray. Illegally diverting funds to pay for low-income riders is morally and ethically wrong. BART should be under Federal control since the current Board and Management are unscrupulous, dirty rotten scoundrels.	X	X
1834	Yes, I don't think this there should be any discount programs.		Unknown
94	Yes, Its a horrible idea. The train is already filled with homeless people. Allowign low income people a discount will make the train ride dirtier, more crowded and even more unsafe.		
1035	Yes, what was presented on the news tonight, was that this program would be funded by the gas tax. Is the same gas tax that Governor Brown improperly put into affect, without voter approval? The same gas tax that is to be used for infrastructure improvements . . Then my responses is absolutely NO!!!! Use the gas tax money for what it was designated for improving our roads and infrastructure!		
1141	Yes. We already subsidize enough free stuff.	Unknown	Unknown
99	You already have a discounted fare option. Allowing prople to hop the turnstiles with no punishment.		
3436	You are going to encourage homeless to take up residence in the trains. And as I've seen in the 24 months of constant ridership you neither have the conviction of the apparent means to clean or police the trains.		
2075	You keep increasing costs to the middle income wage earner by subsidizing other patrons. Stop! No on more discounts...only for senior citizens on fixed incomes.		
2119	You should be giving all riders discounts not just low income stop with the socialist policies and stop ripping people off I pay full fare I expect nobody to pay my fare except me lower your overpriced fare which in return I receive horrible service		Unknown

Survey ID	Comments	Low-Income	Minority
3290	子女上大学搭bart clipper card没有了discount, at least我觉得大学生都应该有discount。*My children go to college and use a BART Clipper Card without a discount, at the very least college students should have a discount*	X	X
3107	Discounts of any type should be quoted or processed at a destination fare gate or add value machine in the event of insufficient funds; I use Clipper/SFSU ID that receives a 25% discount for trips beginning or ending at Daly City, however when the loaded value is not enough to exit the system, the fare quoted is the "no discount" amount, and add value machines will not process the payment until this amount is reached.  When it is reached, the fare gate still charges the discounted rate.		X
2560	Everyone is broke and struggling. I don't understand how Bart receive so much money and still can't keep the places clean and safe.	X	X
3682	for family of 4 it is cheaper to take uber. lyft.		
1459	For me, it's a choice between BART and Muni Metro--and BART is always the cheaper alternative. My doctor says I need to walk more, so I shouldn't even be riding BART!		
2856	From Fruitvale Station to San Francisco, round-trip, it's a fortune. I rarely take part based on its price and now what I perceive as it's danger.	X	
46	Gang		X
1745	Good means of transportation	X	X
2160	How about better management of the bart system? Why is it so dirty? where are the new trains? why are the station agents so rude? why do you treat riders so cruel when checking clipper cards? I ride bart because I have to get to work.		X
3672	I do not qualify as a low-income rider.		
1953	I don't qualify as low income.		
3474	I have to get to work, regardless of whether I get a discount to ride. Also, I wouldn't be considered low income, so I wouldn't qualify for the discount anyway.		
384	I live well below the federal poverty level. Of course BART is expensive for me.	X	

Survey ID	Comments	Low-Income	Minority
2952	I often commute from my house in Solano County and use part to commute to a plethora of work and personal destinations all throughout the Bay Area: From the East Bay to The City to the Peninsula. BART makes saving gas and precious mileage easier in addition to saving time and being within a trustworthy environment to promise a better chance of being consistently safe.	X	X
3401	I ride the trains no matter what and now the bridge toll going up it costs me upwards \$300 out of a \$800 paycheck to go to and from work!	X	X
1982	<p>I see a lot of low income people using cash at Bart to buy tickets. Please consider making EBT cards work as Bart tickets by letting folks use their EBT Cash assistance for Bart fares.</p> <p>Please look at adding discount fares at off peak hours to encourage folks to use the system when it isn't rush hour.</p> <p>Please add trash cans, bathroom and water faucets at the stations. It is needed.</p> <p>Please add volunteer jobs at Bart that let folks earn Bart credit. I would gladly volunteer to take a trash bag and picker and navigate the length of the train picking up trash if it meant my fare was free.</p>	X	X
2282	I think Bart is expensive and sometimes is comparable to Uber.	X	
2047	I think more should be done about tax evaders who are the ones causing increases for the rest of us full paying customers		
2257	I think prices in general are too expensive especially since it's paid for by tax payers anyway		
1057	I think the return of the 15 min maximum wait we had before the earthquake would also help low income riders while also helping everyone else.		
1052	I think there should be a college student discount regardless of income		
112	I think this is a regional issue and should be solved (paid for) through a regional program that recognizes and analyzes that this transportation issue is a direct outcome of our racist and exclusionary land use policies.	Unknown	

Survey ID	Comments	Low-Income	Minority
2186	I think your math of 200% below poverty threshold isn't correct.		
105	I used to ride daily for school. Considering how hard it is to get around the bay, finding jobs within walking distance of bart is important.		X
89	It is outrageous that there is a paper ticket surcharge of 50-cents per ride!  This is racist and discriminatory!  So wrong!!!!!!		
2656	It's not clear to me how to request senior discount.	X	
1078	It's currently cheaper for me to drive then BART to work, and I wish that weren't true.		X
286	make the orange tickets available to all college students	X	Unknown
2715	MOST Seniors ARE LOW INCOME. Cannot afford BART anymore. And BART IS NOT SAFE. A/C Transit serves me pretty well, AND gives a decent Senior discount. I was a regular BART commuter for years.	X	
15	My wife and I live just right on Alameda, but it costs so much now for a round trip into San Francisco that we rarely go. If we do, then Uber Pool Express is much more competitive and convenient than BART.	X	X
1623	N/A		X
3670	N/A		X
1301	N/A	X	X
4	Na		X
14	No		X
44	No		X
49	No		X
73	No		
1004	No	X	X
1944	No		
2593	No	X	X
2789	no		X
3391	No		X
3586	No	X	X
2446	No		X

Survey ID	Comments	Low-Income	Minority
55	No but yall f***** suck.		
2670	No, but add security to make riders feel safe!!		X
2869	No. But it will be nice to get free rides some time.	X	X
293	None	X	X
1253	People jump the gate if they don't want to pay.		X
3281	POWER TO THE PEOPLE	Unknown	Unknown
2782	Public transit should be free	X	
5	Public transit should be free and fare evaders should not be penalized	X	X
1936	que le aumenten el tiempo a las maquinas de entrada de todas las stations. *increase the time at the entrace machines at all stations.	X	X
3320	Should be Free during all non peak hours. Stop wasted runs with empty seats. We don't have the money to waste by leaving a seat empty, when job, education and communication would benefit from better using our public resources.		X
188	Stop shooting young men and harassing poor people at stations and on trains	X	
134	Stop using armed BART fakePolice to enforce fares. (Why you need armed fakePolice *at all* is a separate but important question.)  Stop making any level of fare evasion a criminal offense. It's stupid and horrible and costs the community far more than whatever meager result you think it brings to you.		
1047	The current program for getting the disabled discount is really inaccessible	X	
3451	The prices are outrageous and the safety is minimal at best. For how much money we pay we should be getting places faster. It's a shame how the tech capital of the world moves its people around in comparison to other cities in the country. It's a shame that when we can barely afford the crazy prices now we are unsafe.		X
822	the problem is that I really do not know how much it costs to ride from there to here anymore. the machines USED to print the fare on the ticket. but most machines do not. and when I clipper I have ZERO way of seeing that unless I log into the card to find the log.	X	

Survey ID	Comments	Low-Income	Minority
2225	The survey question above makes no sense to someone who would not be eligible for the program. How is someone who is not eligible supposed to respond?  Can BART afford this program?		
1682	To many people don't pay for the ride ??????I never saw the police in acción ?????.		Unknown
2401	What is Bart doing to solve the homeless issue? Aggressive homeless people are practically a daily occurrence for most Bart riders. I'm so tired of disgusting Bart trains with needles and trash everywhere!		
1502	Why does BART have an Office of Civil Rights?		
3245	Yes. I think that it is a travesty (and perhaps, an intentional one) that the News Alert for the meeting at the Bay Point Station today was NOT in the news, until 1.5 hours AFTER the meeting had already started! The slick move nearly *guarantees* that the turnout will be low of non-existent! It's looking more and more like The Fools are running the show!		
289	You call this a survey? Where are the questions regarding the funding source.		

# Appendix PP-B: Low-Income Discount Survey

---

# Low-Income Discount Survey

BART needs your input on a potential new discount program for low-income riders!

In partnership with the Metropolitan Transportation Commission, BART is considering offering a new discount program for low-income adult riders that could begin as soon as fall 2019. Eligible riders would receive a **20% discount** on all their BART rides. To qualify for the discount, a rider's household income would need to be at or below 200% of the federal poverty level guidelines—for example, a rider in a family of four earning \$50,200 or less would qualify.

Please complete this survey to provide your input on this potential new discount. To thank you for your time, you can also **enter to win a \$120 Clipper card** at the end of this survey.

**1 About how often do you currently ride BART?**

- 5 or more days per week
- 3 – 4 days per week
- 1 – 2 days per week
- A few days a month
- Less than once a month, but at least once a year
- Less than once a year or never

**2 Do you usually use a Clipper card or BART ticket to pay your BART fare?**

- Clipper card
- BART ticket
- Other: \_\_\_\_\_

**3 What type of fare do you usually pay when you ride BART?**

- Regular BART fare (no discount)
- High Value Discount (\$48 or \$64 value)
- Muni Fast Pass
- Senior discount
- Disabled discount
- Youth discount
- Other discount: \_\_\_\_\_

**4 If you received a 20% discount off of regular BART fares, do you think you would ride BART more often?**

- Yes, I would ride BART more if I received a 20% discount
- No, this discount would not change how often I ride BART
- Don't know

**5 Do you have any comments about this potential new discount program for low-income riders?**

---

---

---

**Please tell us about yourself.**

(Your answers will help us evaluate how well we're reaching all the communities we serve.)

**6 What is your "home" BART station (the station you usually use when coming from home)?**

---

**7 What is your most common "destination" BART station (the station near your frequent destination, such as your workplace)?**

---

Printed on recycled paper, 30% post-consumer 12/2018

OVER

**8** What is your age?

- Under 18
- 18 – 24
- 25 – 34
- 35 – 44
- 45 – 54
- 55 – 64
- 65+

**9** What is your race or ethnic identification?

(Check all that apply.)

- American Indian or Alaska Native
- Asian or Pacific Islander
- Black / African American
- Hispanic, Latino, or Spanish origin
- White
- Other: \_\_\_\_\_

**10a** Do you personally speak a language other than English at home?

- Yes, I speak: \_\_\_\_\_
- No

**10b** If you answered "Yes" to question 10a, how well do you speak English?

- Very well
- Well
- Not well
- Not at all

**11** What is your total annual household income before taxes?

- Under \$25,000
- \$25,000 - \$34,999
- \$35,000 - \$39,999
- \$40,000 - \$49,999
- \$50,000 - \$59,999
- \$60,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 or more

**12** Including yourself, how many people live in your household?

- 1
- 2
- 3
- 4
- 5
- 6+

**13a** Do you have a smart phone (can access the internet, download apps, etc.)?

- Yes
- No

**13b** If you answered "Yes" to question 13a: As of today, were you able to use the internet on your smart phone?

- Yes
- No

**14** Do you have a checking or savings account?

- Yes
- No

**15** Do you have a pre-paid debit card, debit card, or credit card?

- Yes
- No

Thank you for your input.

Optional

If you would like to enter to win a \$120 Clipper card, please tell us how to contact you if you win:

Name: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Would you like to sign up for **BARTable this Week**, a free email newsletter with contests, discounts and events close to BART stations?

- Yes
- No

Would you like to be contacted in the future (via email) with **important BART updates**, or in case of a major system-wide emergency?

- Yes
- No

**CONTEST RULES:** No purchase necessary. Void where prohibited. One entry per person. This sweepstakes ends on 12/31/18 at 5 PM PST. Sponsor is Bay Area Rapid Transit (BART). Open only to residents of California who are at least 18 years old at time of entry. Employees/contractors of BART and their family/household members are not eligible to enter. Other restrictions apply. Sponsor will award one Clipper card (approximate value \$120). Winner will be chosen by random drawing and must respond within five business days of notification; otherwise an alternate winner will be chosen. Need not be present to win. All federal, state and local regulations apply.

## Encuesta de descuentos para pasajeros de bajos ingresos

BART necesita conocer su opinión acerca de un nuevo programa de descuentos que se podría lanzar para pasajeros de bajos ingresos.

En asociación con la Comisión Metropolitana de Transporte, BART está considerando la posibilidad de ofrecer un nuevo programa de descuentos para pasajeros adultos de bajos ingresos, el cual podría dar inicio en el otoño de 2019. Los pasajeros que reúnan los requisitos recibirían un **descuento del 20 %** en todos sus viajes en BART. Para reunir los requisitos de este descuento, los ingresos del hogar del pasajero tendrían que ser iguales o inferiores al 200 % de las pautas federales de nivel de pobreza. Por ejemplo, un pasajero que pertenezca a una familia de cuatro que gane \$50,200 o menos reuniría los requisitos.

Por favor responda esta encuesta para brindarnos su opinión acerca de este nuevo descuento potencial. Con el fin de agradecerle por su tiempo, al finalizar esta encuesta puede **participar en un sorteo para ganar una tarjeta Clipper de \$120.**

**1** ¿Con qué frecuencia viaja usted en BART actualmente?

- 5 o más días por semana
- 3 a 4 días por semana
- 1 a 2 días por semana
- Unos cuantos días al mes
- Menos de una vez al mes, pero por lo menos una vez al año
- Menos de una vez al año o nunca

**2** Por lo general, ¿utiliza una tarjeta Clipper o un boleto de BART para pagar su viaje en BART?

- Tarjeta Clipper
- Boleto de BART
- Otro: \_\_\_\_\_

**3** Por lo general, ¿qué tipo de tarifa paga cuando viaja en BART?

- Tarifa normal de BART (sin descuento)
- Descuento de alto valor (con valor de \$48 o \$64)
- Muni Fast Pass
- Descuento para personas mayores
- Descuento para discapacitados
- Descuento juvenil
- Otro descuento: \_\_\_\_\_

**4** Si recibiera un descuento del 20 % en las tarifas normales de BART, ¿cree que viajaría en BART con mayor frecuencia?

- Sí, viajaría más en BART si recibiera un descuento del 20 %
- No, este descuento no cambiaría la frecuencia con la que uso BART
- No sabe

**5** ¿Tiene algún comentario acerca de este posible programa de descuentos para pasajeros de bajos ingresos?

---

---

---

**Por favor, díganos un poco acerca de usted.**

(Sus respuestas nos ayudarán a evaluar qué tan bien nos estamos comunicando con todas las comunidades a las que servimos).

**6** ¿Cuál es su estación "de origen" de BART (la estación que generalmente usa cuando sale de su casa)?

---

**7** ¿Cuál es su estación de BART "de destino" más común (la estación cercana a su destino más frecuente, como su trabajo)?

---

Impreso en papel reciclado, 30 % de desechos posconsumo 12/2018

CONTINÚA EN EL REVERSO

- 8** ¿Qué edad tiene?
- Menor de 18
- 18 a 24
- 25 a 34
- 35 a 44
- 45 a 54
- 55 a 64
- Mayor de 65 años
- 9** ¿Cuál es su raza o identificación étnica? (Marque todas las respuestas que correspondan).
- Indio norteamericano o nativo de Alaska
- Asiático o de las Islas del Pacífico
- Negro/Afro-americano
- Hispano, latino o español
- Blanco
- Otrá: \_\_\_\_\_
- 10a** ¿Habla algún otro idioma en el hogar que no sea el inglés?
- Sí, hablo: \_\_\_\_\_
- No
- 10b** Si respondió "Sí" a la Pregunta 10a, ¿qué tan bien habla inglés?
- Muy bien
- Bien
- No muy bien
- Nada
- 11** ¿Cuáles son los ingresos totales anuales de su hogar antes de impuestos?
- Menos de \$25,000
- \$25,000 a \$34,999
- \$35,000 a \$39,999
- \$40,000 a \$49,999
- \$50,000 a \$59,999
- \$60,000 a \$74,999
- \$75,000 a \$99,999
- \$100,000 o más
- 12** Incluyéndose a sí mismo, ¿cuántas personas viven en su hogar?
- 1  2  3  4  5  6+
- 13a** ¿Utiliza un teléfono inteligente (puede acceder a internet, descargar aplicaciones, etc.)?
- Sí  No

- 13b** Si respondió "Sí" a la pregunta 13a: Hasta hoy, ¿pudo acceder a Internet en su teléfono inteligente?
- Sí  No
- 14** ¿Tiene una cuenta de cheques o ahorros?
- Sí  No
- 15** ¿Tiene una tarjeta de débito prepagada, una tarjeta de débito o una tarjeta de crédito?
- Sí  No

Gracias por sus respuestas.

### Opcional

Si desea **participar en un concurso para ganar una tarjeta Clipper de \$120**, díganos cómo podemos comunicarnos con usted si gana:

Nombre: \_\_\_\_\_

Teléfono: \_\_\_\_\_

Email: \_\_\_\_\_

¿Desea suscribirse para recibir **BARTable this Week**, un boletín gratuito que se envía por email y que incluye concursos, descuentos e información sobre eventos cercanos a las estaciones de BART?

Sí  No

¿Le gustaría que nos comunicáramos con usted en el futuro (por email) sobre **novedades importantes de BART** o en caso de que ocurra una emergencia grave de todo el sistema?

Sí  No

**REGLAS DEL CONCURSO:** No es necesario efectuar ninguna compra. Nulo cuando lo prohíba la ley. Una participación por persona. Este sorteo finaliza el 31 de diciembre de 2018 a las 5 p. m., PST. Patrocinado por Bay Area Rapid Transit (BART). Abierto únicamente a residentes de California que tengan al menos 18 años de edad al momento de solicitar la participación. Los empleados/contratistas de BART y sus familiares o miembros de su hogar no reúnen los requisitos de participación. Se aplican otras restricciones. El patrocinador otorgará una tarjeta Clipper (valor aproximado de \$120). El ganador será seleccionado a través de un sorteo aleatorio y deberá responder dentro de los cinco días hábiles posteriores a la fecha de notificación. De lo contrario, se elegirá a otro ganador. No necesita estar presente para ganar. Se aplican todas las leyes y reglamentos locales, estatales y federales.

## 低收入折扣調查問卷

舊金山灣區捷運處 (BART) 可能推出低收入乘客折扣方案；BART 需要您提供意見！

BART 現正與大都會運輸委員會 (Metropolitan Transportation Commission) 合作，考慮為低收入成年乘客提供一項新的折扣計劃，最早可能在 2019 年秋季開始實施。符合資格的乘客每次搭乘 BART 均可享有 **20% 折扣**。若要符合折扣優惠的資格，乘客的家庭收入必須等於或低於聯邦貧困線標準的 200%；例如，若是收入低於 \$50,200 的四口之家，乘客就有資格享受這項優惠。

請完成這項調查問卷，並針對這項可能推出的新折扣優惠提供意見。為感謝您抽空接受調查，您還可參加問卷最後的抽獎活動，有機會贏得一張價值 \$120 的 Clipper 卡。

**1 您目前有多常搭乘 BART？**

- 每週 5 天或以上
- 每週 3-4 天
- 每週 1-2 天
- 每個月數天
- 每月不到一次，但每年至少一次
- 每年不到一次或完全沒有

**2 您通常是使用 Clipper 卡或 BART 車票來支付 BART 票價嗎？**

- Clipper 卡
- BART 車票
- 其他：\_\_\_\_\_

**3 您搭乘 BART 時通常是支付哪類票價？**

- 一般 BART 票價 (無折扣)
- High Value 折扣票價 (價值 \$48 或 \$64)
- 電聯車快速通行票價 (Muni Fast Pass)
- 老人折扣票價
- 殘障人士折扣票價
- 青少年折扣票價
- 其他折扣票價：\_\_\_\_\_

**4 如果一般 BART 票價可獲得 20% 折扣優惠，您認為自己會更常搭乘 BART 嗎？**

- 會，如果有 20% 折扣優惠，我會更常搭乘 BART
- 不會，折扣優惠並不會改變我搭乘 BART 的頻率
- 不知道

**5 對於這項可能新推出的低收入乘客折扣優惠方案，您是否有任何意見？**

---

---

---

請提供您的個人資料。

(您的回答可協助我們評估，了解我們為社區服務的成效。)

**6 哪個是您的「出發地」 BART 捷運站 (從住家出發後通常搭乘的車站)？**

---

**7 哪個是您最常去的「目的地」 BART 捷運站 (您最常去的目的地如工作地點附近的車站)？**

---

**8 您的年齡？**

- 未滿 18 歲
- 18 - 24 歲
- 25 - 34 歲
- 35 - 44 歲
- 45 - 54 歲
- 55 - 64 歲
- 65 歲以上

**9 您屬於哪個種族或族裔？**

(請勾選所有符合項目)。

- 美洲印第安人或阿拉斯加原住民
- 亞裔或太平洋島裔
- 黑人/非裔美國人
- 西班牙語裔/拉丁美洲裔/西班牙裔
- 白人
- 其他：\_\_\_\_\_

**10a 您個人在家中是否說英語以外的語言？**

- 是，我說：\_\_\_\_\_
- 否

**10b 如果 10a 題回答「是」，您的英語說得怎麼樣？**

- 很好
- 好
- 不好
- 完全不會

**11 您的稅前家庭總年收入是多少？**

- \$25,000 以下
- \$25,000 - \$34,999
- \$35,000 - \$39,999
- \$40,000 - \$49,999
- \$50,000 - \$59,999
- \$60,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 或以上

**12 包括您自己在內，您家裡住了多少人？**

- 1  2  3  4  5  6+

**13a 您是否有智慧型手機 (有上網、下載應用程式等功能)？**

- 是  否

**13b 若第 13a 題回答「是」：在今天以前，您的智慧型手機是否能上網？**

- 是  否

**14 您是否有支票帳戶或儲蓄帳戶？**

- 是  否

**15 您是否有預付扣帳卡、扣帳卡或信用卡？**

- 是  否

謝謝您提供意見。

**選填**

如果您想參加抽獎以贏得一張 \$120 Clipper 卡，請告訴我們若得獎該如何聯絡您：

姓名：\_\_\_\_\_

電話號碼：\_\_\_\_\_

電子郵件地址：\_\_\_\_\_

您要訂閱免費電子報 **BARTable this Week** 並收到比賽、折扣和 BART 捷運站附近的活動資訊嗎？

- 要  不要

若將來有 **BART 重要消息**，或系統方面發生重大緊急事故時，您是否希望 BART 與您聯絡 (透過電子郵件)？

- 是  否

**抽獎規則：**無需購物即可參加抽獎。若法律禁止則無效。每人可參加抽獎。本抽獎活動截止日期：2018 年 12 月 31 日下午 5 時 (太平洋時間)。主辦方為舊金山灣區捷運處 (BART)。僅開放給報名時已年滿 18 歲的加州居民參加。BART 員工/承包商及其家人/家庭成員不得參加抽獎。有其他限制。主辦方將送出一張 Clipper 卡 (價值約 \$120)。得獎者是以隨機方式抽出，且在收到通知後五個工作日內必須回覆；否則，我們將抽出另一位得獎者。抽獎時，得獎者無庸在場。所有聯邦、州和地方法規皆適用。

## BART seeks feedback on fare issues; survey & in-station events planned

# BART WANTS TO HEAR FROM YOU!

BART is studying fare options to help fund key capital projects and system improvements.

Come tell us what you think at the following BART station events:

**Pittsburg/Bay Point**  
Tuesday, February 26  
7:00-9:00 AM

**Balboa Park**  
Wednesday, February 27  
5:00-7:00 PM

**Fruitvale**  
Thursday, February 28  
5:00-7:00 PM

**Freemont**  
Tuesday, March 5  
7:00-9:00 AM

**16th Street Mission**  
Wednesday, March 6  
7:00-9:00 AM

**El Cerrito del Norte**  
Thursday, March 7  
5:00-7:00 PM

Take the survey online Feb. 26–Mar. 15, 2019 at [bart.gov/faresurvey](http://bart.gov/faresurvey)

If you need language assistance services, please call (510) 464-6700. 如果您需要语言协助服务，请致电 (510) 464-6700。如果您需要语言协助服务，请致电 (510) 464-6700。如果您需要语言协助服务，请致电 (510) 464-6700。

[bart.gov/news/alerts](http://bart.gov/news/alerts)

BART has launched an [online survey](#) and a series of in-station outreach events aimed at gathering feedback on our fare program.

### January 2020 Fare Increase

To help fund the BART system's extensive capital needs, BART has a fare increase program that calls for small, regular, less-than-inflation increases every two years, with the next increase of 5.4% scheduled for January 1, 2020. For a short trip like Downtown Berkeley to 19th St./Oakland, the Clipper fare will increase by 10 cents, and a longer trip like Antioch to Montgomery will increase by 40 cents. Paper ticket fares will continue to cost more than the Clipper fare. All new revenue from this fare increase goes to BART's highest priority capital needs including new rail cars, a new train control system to provide more frequent service and an expanded maintenance facility.

### BART Fare Increase Program

BART's current fare increase program, which calls for small, regular less-than-inflation increases every two years, expires in 2020. BART is considering extending this program so that fares would increase in 2022, 2024, 2026 and 2028 by an estimated 3.9% in each of these years, based on current inflation projections. Revenue from the 2022-2028 increases is proposed to help fund new rail cars and system improvements, such as a new train control system to provide more frequent service, and operation of the expanded service.

### Paper Ticket Surcharge Increase

Currently BART trips made with paper tickets cost 50 cents more than BART trips made with Clipper cards to encourage riders to use Clipper and optimize the Bay Area's significant investment in the regional transit smart card. BART is considering increasing the paper ticket surcharge to \$1.00 to incentivize the 15% of riders still using paper tickets to switch to Clipper. BART's maintaining one fare payment system is more efficient and cost-effective, and Clipper card customers enter and exit BART more quickly, using fare gates that are more reliable when they just process Clipper cards.

### In-Station Events

Please join us at an in-station event or fill out the survey starting Feb. 26. Our staff can help you with any questions at the in-station events, and the survey form will give you more information about all the options being considered. Your feedback is important to us.

### Online Survey

# REGIONAL MEANS – BASED TRANSIT FARE PILOT

## BACKGROUND

For most Bay Area households, transportation is the third-largest monthly expense—trailing only the cost of housing and food. In 2015, the Metropolitan Transportation Commission (MTC) launched a study to determine if a transit reduced fare program based on household income would be feasible and effective. As a result of the study and in consultation with transit operators, the Commission approved the launch of the "Regional Means-Based Transit Fare Pilot" in May 2018.

## ABOUT THE PILOT

The Regional Means-Based Transit Fare Pilot program is designed to make transit more affordable for low-income residents, move toward a more consistent regional standard for fare discounts, and be financially viable and administratively feasible.

MTC and the transit operators will solicit input from community-based organizations and social service and public health sectors in the design, implementation, and evaluation of this 12-18 month pilot.

MTC is making available an estimated \$11 million in funding for administrative costs and to defray up to 50% of operators' revenue losses for the discount program. MTC's contribution comes from State Transit Assistance funds through Senate Bill 1 (SB1).

## KEY ELEMENTS

### Eligibility

Adults who earn up to 200% of the Federal Poverty Line (approximately \$50,000 per year for a family of four) can receive the transit discount.

### Available on Clipper®

Pilot program participants will use Clipper cards to receive the new Means-Based Transit Fare discount.

### Single-Ride Discount

In addition to existing Clipper discounts, Pilot program participants will receive at least a 20% discount on each trip taken on the four participating transit operators. SFMTA will offer a 50% single-ride discount for all trips taken by Pilot program participants.

### Participating Agencies

Title VI Fare Equity Analysis and Board Minutes

---

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P.O. Box 12688, Oakland, CA 94604-2688

Board of Directors  
Minutes of the 1,841st Meeting  
May 23, 2019

A regular meeting of the Board of Directors was held May 23, 2019, convening at 9:01 a.m. in the BART Board Room, 2040 Webster Street, Oakland, California. President Dufty presided; Patricia K. Williams, District Secretary.

Directors present: Directors Ames, Allen, Foley, Li, McPartland, Raburn, Saltzman, Simon and Dufty.

Absent: None.

President Dufty announced that under the provisions of the Rules of the Board of Directors of the San Francisco Bay Area Rapid Transit District, this was the time set to hold a public hearing on the final Fiscal Year 2020 Budget; Silicon Valley Berryessa Extension fares; BART participation in the Regional Means-Based Transit Fare Discount Pilot Program; Extension of BART's Productivity-Adjusted Inflation-Based Fare Increase Program between 2022 and 2028; and an increase to the magnetic-stripe ticket surcharge, that staff would give a brief presentation on the item, and that the meeting would then be opened for comments from the public.

Ms. Pamela Herhold, Assistant General Manager, Performance and Budgets; and Ms. Kate Jordan Steiner, Department Manager, Budgets; and Mr. Michael Eiseman, Department Manager Financial Services presented the item.

There being no public comment, the Public Hearing was closed.

Consent Calendar items brought before the Board were:

1. Approval of Minutes of the Meetings of April 25, 2019 and May 9, 2019.
2. Amendment to Legal Services Agreement with Glynn & Finley, LLP.
3. Fiscal Year 2020 Proposition 4 Appropriations Limit.
4. Award of Agreement No. 6M5147, with Avenu Insights and Analytics, LLC, for Sales Tax Revenue Collection Services.
5. Award of Contract No. 15QN-110, Installation of Safety Barriers and Right of Way Fencing Systemwide.
6. Reject All Bids for Contract No. 15II-120, Station Emergency Lighting.
7. Invitation for Bid No. 9059, Brushes for Vehicle Traction Motors.

8. Authority to Submit a Grant Application to the California Department of Water Resources for Proposition 1 Funding for the Hayward Maintenance Complex Rainwater Catchment, Bio-Retention Basins, and Solar Wastewater Treatment Project.

Director Allen requested that Item 3-I, Lease with Caltrans for BART Employee Parking and Sublease a Portion of Excess Parking to the Metropolitan Transportation Commission, be removed from Consent Calendar.

Director Saltzman made the following motions as a unit. Director Raburn seconded the motions, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Duffy. Noes – 0.

1. That the Minutes of the Meetings of April 25, 2019 and May 9, 2019, be approved.
2. That the Board approve the amendment of this agreement with Glynn & Finley, LLP to continue its representation of the District to handle the Cal/OSHA Cab Windows matter as necessary.
3. Adoption of Resolution No. 5397, In the Matter of the Establishment of the Fiscal Year 2020 Appropriations Limit.
4. That the General Manager be authorized to execute Agreement No. 6M5147, with Avenu Insights and Analytics, to provide sales tax revenue collection services for a five-year period based upon a contingency fee of 20% determined by the amount of tax revenue recovered on open claims for the District, pursuant to the notice to be issued by the General Manager; and pursuant to Revenue and Taxation Code Section 7056, adoption of Resolution No. 5398, In the Matter of Authorizing Consultant Avenu Insights & Analytics, LLC (also known as MuniServices, LLC) to Examine Sales and Use Tax Records at the California Department of Tax and Fee Administration on behalf of the District.
5. That the General Manager be authorized to award Contract No. 15QN-110, Installation of Safety Barrier and Right-of-Way Fencing Systemwide, Phase III, to Golden Bay Fence Plus Iron Works, Inc. for the Bid price of \$899,493.45 pursuant to notification to be issued by the General Manager and subject to compliance with the District's protest procedures; and that the General Manager be also authorized to exercise the single Option for the Bid Price of \$163,130.52 for replacement of right-of-way perimeter fence and gate at CHB.
6. That the General Manager be authorized to reject all bids for Contract No. 15II-120, Station Emergency Lighting, and be authorized to re-advertise the work of this contract.
7. That the General Manager be authorized to award Invitation for Bid No. 9059, for the purchase of Brushes for Vehicle Traction Motors, to Mersen USA BN Corp., for the Bid price of \$508,888.80 including tax, pursuant to notification to be issued by the General Manager.

(The foregoing motion was made on the basis of analysis by the staff and certification by the Controller/Treasurer that funds are available for this purpose.)

8. Resolved by the Board of Directors of the San Francisco Bay Area Rapid Transit District that proposal be made to the California Department of Water Resources to obtain a Round 1 Integrated Regional Water Management Implementation Grant pursuant to the Water Quality Supply, and Infrastructure Improvement Act of 2014 (Water Code § 79700 et seq.), and to enter into an agreement to receive a grant for the: BART Hayward Maintenance Complex (HMC) Rainwater Catchment, Bio-retention Basin, and Solar Wastewater Treatment Project. The General Manager of the San Francisco Bay Area Rapid Transit District, or designee, is hereby authorized and directed to prepare the necessary data, conduct investigations, file such proposal, and execute a grant agreement with California Department of Water Resources.

Consent Calendar report brought before the Board was:

1. Fiscal Year 2019 Third Quarter Financial Report.

Ms. Grace Crunican, General Manager, and Mr. Sean Brooks, Department Manager, Property Development presented Item 3-I, Lease with Caltrans for BART Employee Parking and Sublease a Portion of Excess Parking to the Metropolitan Transportation Commission. The item was discussed.

The following individuals addressed the Board.

Gena Alexander  
Sal Cruz

Director Li moved that the General Manager or her designee be authorized: (1) to enter into a five-year lease with Caltrans, with an option to extend the lease for an additional five-year period, for an employee parking area bounded by Fifth, Sixth, Oak and Madison Streets in Oakland commencing July 1, 2019 for an amount not to exceed \$477,740.00 for the first five-year term of the lease; and (2) to enter into a five-year year sublease with the Metropolitan Transportation Commission (MTC) for a portion of the Lease Area for approximately \$47,780.00, with an option for MTC to extend for an additional five-year period, pending BART's extension of its lease with Caltrans. Director Simon seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

President Dufty called for Public Comment. Ace Washington addressed the Board.

Director Simon, Chairperson of the Administration Committee, brought the matter of Fiscal Year 2020 Annual Budget, including the following items, before the Board.

- i. Fiscal Year 2020 Annual Budget.
- ii. Fares for the Silicon Valley Berryessa Extension.
- iii. Participation in a Regional Means – Based Transit Fare Discount Pilot Program.
- iv. Extension of the Productivity Adjusted Inflation -Based Fare Increase Program between 2022 and 2028.

v. Increase to the Per Trip Magnetic Stripe Ticket Surcharge.

Ms. Crunican; Mr. Ed Alvarez, Interim Chief of Police; Ms. Tamar Allen, Assistant General Manager, Operations; Ms. Herhold; Ms. Steiner, and Mr. Eiseman presented the item. The item was discussed.

The following individuals addressed the Board.

Gena Alexander  
Ace Washington

Discussion continued.

President Dufty announced that agenda items would be taken out of order.

Director Foley, Chairperson of the Engineering and Operations Committee, brought the matter of Next Generation Fare Gates, Conceptual Design before the Board. Ms. Tamar Allen, Assistant General Manager, Operations; Ms. Mitra Moheb, Manager of Engineering Programs, and Mr. Steven Dietrich, Principal Computer Systems Engineer presented the item. The item was discussed.

Director Raburn, Chairperson of the Planning, Public Affairs, Access, and Legislation Committee, brought the matter of Survey Results for Fleet of the Future and Bicycle Accommodation before the Board. Ms. Crunican; Mr. Carl Holmes, Assistant General Manager, Design and Construction; Mr. Aaron Weinstein, Manager of Marketing and Research; and Ms. Maureen Wetter, Principal Research Project Analyst, presented the item. The item was discussed.

The following individuals addressed the Board:

Jon Spangler  
Alan Smith  
Dave Campbell

Discussion continued.

President Dufty announced that the Board would take multiple action items at once.

Director Saltzman made the following motions as a unit. Director Simon seconded the motions, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

1. That the Board approve the Silicon Valley Berryessa Extension Title VI Service and Fare Equity Analysis and Public Participation Report.
2. That the Board approve the Title VI Fare Equity Analysis for the Proposed 2020 Productivity-Adjusted Inflation-Based Fare Increase; Series 3, 2020-28, of the Productivity-Adjusted Inflation-Based Fare Increase Program; and Magnetic-Stripe Surcharge Increase and Public Participation Report.

3. That the General Manager be authorized to award Agreement No. 6M4639 to Accenture LLP, Agreement No. 6M4640 to Sjoberg Evashenk Consulting, Inc., and Agreement No. 6M4641 to Shalom, LLC to provide on-call professional services for Human Resources, each in an amount not to exceed \$1,000,000 pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.
4. That the General Manager be authorized to award Agreement No. 6M4651 to Accenture LLP, Agreement No. 6M4652 to InnoFin Solutions, LLC, Agreement No. 6M4653 to Sjoberg Evashenk Consulting, Inc., and Agreement No. 6M4654 to Slalom, LLC, to provide on-call professional services for the Operating Budgets Division, each in an amount not to exceed \$1,000,000, pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.
5. That the General Manager be authorized to award Contract No. 15CQ-115, C25 Interlocking Renewal, to Proven Management Inc. of Oakland, CA for the Bid Price of \$9,869,643.00, pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.
6. That the General Manager be authorized to award Contract No. 54RR-250 to DMZ Builders for Concord Yard Fire Protection in the amount of \$3,940,800.00, pursuant to notification to be issued by the General Manager and subject to compliance with the District's protest procedures.
7. That the General Manager be authorized to execute Change Order No. 25 to Contract No. 04SF-140, Procurement of eBART Vehicles, with Stadler Bussanang, AG, to provide eBART vehicle spare parts inventory, in an amount not to exceed \$270,000.
8. That the General Manager be authorized to execute Change Order No. 004 for Contract No. 15EJ-171, 34.5 KV Cable Replacement M-Line MVS Switching Station and MTF, MSS, MPS and MTW Substations, with DMZ Builders Co., Inc. in the amount not to exceed \$3,900,000.00 and to extend the Contract completion date by 69 calendar days.

President Dufty announced that the Board would enter into closed session under Items 12-A (Conference with Labor Negotiators), 12-B (Public Employee Employment), and 12-C (Conference with Legal Counsel) of the Regular Meeting agenda, and that the Board would reconvene in open session upon conclusion of the closed session.

The Board Meeting recessed at 12:52 p.m.

---

The Board reconvened in closed session at 12:55 p.m.

Directors present: Directors Allen, Ames, Li, McPartland, Raburn, Saltzman, Simon and Dufty.

Absent: None.

The Board Meeting recessed at 1:30 p.m.

---

The Board reconvened in open session at 1:32 p.m.

Directors present: Directors Allen, Ames, Li, McPartland, Raburn, Saltzman, Simon, and Dufty.

Absent: None. Director Foley entered the meeting later.

President Dufty announced that there were no announcements to be made from the closed session.

Director Raburn brought the matter of Metropolitan Transportation Commission, Plan Bay Area 2050 Update before the Board. Mr. Holmes; Mr. Val Menotti, Chief Transit System Development Officer; Mr. Richard Fuentes, Manager of Special Projects; and Mr. Ken Kirkey, Integrated Planning Department Director, Metropolitan Transportation Commission, presented the item. The item was discussed.

Director Saltzman exited the meeting.

Director Raburn brought the matter of Agreements for General Environmental and Planning Services for BART Projects before the Board. The item was discussed.

Director Foley re-entered the meeting.

Director Simon moved that the General Manager be authorized to award the below listed Agreements to provide General Environmental and Planning Services in support of BART projects, in an amount not to exceed \$8,000,000 each, pursuant to notification to be issued by the General Manager. The awards are subject to the District's protest procedures and Federal Transit Administrations requirements related to protest procedures.

- i. Agreement No. 6M6136 to Arup North America, Ltd;
- ii. Agreement No. 6M6137 to Fehr & Peers;
- iii. Agreement No. 6M6138 to HNTB Corporation; and
- iv. Agreement No. 6M6139 to Raimi + Associates.

Director Raburn seconded the motion.

Director McPartland made a substitute motion to have a committee formed to review the potential projects. Directors Allen and Ames seconded the substitute motion.

President Dufty made a second substitute motion that the General Manager be authorized to award the listed Agreements to provide General Environmental and Planning Services in support of BART projects, in an amount not to exceed \$8,000,000 each, pursuant to notification to be issued by the General Manager, subject to the District's protest procedures and Federal

Transit Administrations requirements related to protest procedures; and that staff be directed to provide a presentation to the Board in July 2019 a list of capital projects and their values.

Director Simon seconded the substitute motion, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Simon, and Dufty. Noes – 0. Absent – 1: Director Saltzman.

Director Raburn brought the matter of Revisions to BART's Transit-Oriented Development Policy before the Board. Ms. Crunican; Mr. Holmes; Ms. Abigail Thorne-Lyman, Program Manager, Systems Development; and Ms. Kimberly Koempel, Principal Planner, Systems Development, presented the item. The item was discussed.

President Dufty brought the matter of Actuarial Report on Changes to Pension and Other Postemployment Benefits (OPEB) under Consideration by the District before the Board. Mr. Michael Jones, Assistant General Manager, Administration; and Ms. Diane Iwata, Human Resources Division Manager, presented the item.

Director Foley brought the matter of BART Silicon Valley Phase I Update before the Board. Ms. Tamar Allen; Mr. Holmes; Mr. Shane Edwards, Chief Maintenance and Engineering Officer, and Ms. Crunican presented the item. The item was discussed.

President Dufty called for the General Manager's Report.

Ms. Crunican reported on steps she had taken and activities and meetings she had participated in, ridership, upcoming events, the progress made during recent weekend closures, activities held during Take Our Daughters and Sons to Work Day, Police Department staffing numbers, Fleet of the Future Car availability, Clipper card utilization numbers, and outstanding Roll Call for Introductions items.

Ms. Herhold gave an update on ridership numbers.

President Dufty called for the Controller/Treasurer's Report.

Ms. Rose Poblete, Controller/Treasurer, presented the Quarterly Report of the Controller/Treasurer for the period ending March 31, 2019. The item was discussed. Ms. Herhold gave a brief update on pension reserve numbers.

President Dufty called for Board Member Reports, Roll Call for Introductions, and In Memoriam.

Director Foley thanked District staff on his BART briefings, Ric Rattray and Val Menotti for assistance with the meeting with the Hillcrest neighbors of Antioch, Tim Chan for the MTAP Tour and Ariel Mercado for assistance with the Rebuilding BART presentation to the Marsh Creek Democratic Club.

Director McPartland reported he had attended the Workday Tour ribbon cutting, BART Police Citizen Review Board meeting, Fire Liaison Committee meeting, Tri Valley San Joaquin Rail Authority meeting, East Bay Municipal Utilities District quarterly meeting in Castro Valley, and Bay Area Mass Evacuation table top.

Director Allen reported she had attended the Northern Waterfront Forum in Antioch.

Director Ames reported she had attended the BART Police Citizen Review Board Meeting, and an Irvington BART Station briefing, and thanked the District Secretary's Office on their assistance with the BART Police Citizen Review Board recruitment.

Director Raburn reported he had attended the California Transportation Authority Legislative conference in Sacramento, American Institute of Architects East Bay Transit Oriented Development, and MacArthur Station Transit Oriented Development installation of panels.

Director Raburn requested the Board meeting be adjourned in honor of Walter Davis Miles who served over 50 years on the MacArthur Station advisory committee.

Director Li reported she had attended the Quality California Gala in San Francisco, Telegraph Hill Dwellers Transportation Committee meeting, and had spoke at the BART Employee Resource Group Asian Pacific Islander History Month Luncheon, and the San Francisco Council of District Merchants Association Gala, and had assisted with the Civic Center Station Salvation Army Harbor Lights program.

Director Simon reported she had attended the Office of Independent Police Auditors Regional Oversight Board meeting, and the Richmond ground floor merchants ribbon cutting. She thanked Val Menotti for his assistance with the Richmond community.

President Dufty reported he had attended a Salesforce Accessibility group meeting with District staff.

President Dufty called for Public Comment. No comments were received.

The Meeting was adjourned at 3:27 p.m. in honor of Walter Davis Miles.

Appendix A(1): Methodology Used to Assess the Effects of an Across-the-Board Fare Change	
Appendix A(2): Methodology Used to Assess the Adverse Effects of a Fare Type Change	
Appendix B: Public Participation Report	

## EXECUTIVE SUMMARY

To ensure compliance with federal and state civil rights regulations including, but not limited to, Title VI of the Civil Rights Act of 1964, FTA Circular 4702.1B [October 1, 2012 (Title VI Circular)], and FTA Circular 4703.1 [August 15, 2012 (Environmental Justice Circular)], BART conducts an analysis of any fare change to determine if the change has a disparate impact on minority riders or a disproportionate burden on low-income riders when compared to overall users. In accordance with the Title VI Circular, disparate impact and disproportionate burden thresholds are defined in a Disparate Impact and Disproportionate Burden Policy (DI/DB Policy), adopted by the BART Board on July 11, 2013.

Pursuant to the Title VI Circular, BART is also required to conduct public outreach to provide information to the public about potential fare changes under consideration and solicit feedback on these potential fare changes. A key component of Title VI outreach is to seek meaningful input on fare changes inclusive of minority, low-income, and limited English proficient (LEP) populations. BART uses established information outlets to engage the stakeholders who would be directly affected by the fare changes under consideration. By doing so, BART ensures consistency with its Public Participation Plan (2011) as well as ensures efficiency in communication with community members.

This report includes an analysis of the following proposed fare changes:

- A. Implementing the last in BART's second series of productivity-adjusted inflation-based fare increases valued at 5.4% effective January 1, 2020.
- B. Extending the Productivity-Adjusted Inflation-Based Fare Increase Program for a third series of less-than-inflation increases every two years between 2022 and 2028.
- C. Increasing the surcharge from \$0.50 to \$1.00 for fares paid for with Blue magnetic-stripe tickets; the surcharge would be prorated down for discounted Green and Red magnetic-stripe tickets for seniors, people with disabilities, and youth.

For each proposed fare change, the following sections provide a description of the change; analysis findings; public input; the fare change's equity findings, which consider both the analysis findings and public input; and mitigation proposals, where applicable.

### **A. Implement a Productivity-Adjusted Inflation-Based Fare Increase of 5.4%**

In 2003, the BART Board gave the General Manager authority (and renewed that authority in 2013) to implement the Productivity-Adjusted Inflation-Based Fare Increase Program for below-inflation increases once every two years. The average of national and Bay Area inflation over two years is calculated, with one-half percent then subtracted for BART productivity improvements. Series 1, 2006-2012,

contributed approximately \$290 million (M) in additional fare revenue to help BART weather the Great Recession without reducing service levels.

The current Series 2 began in 2014, with the last increase scheduled for January 2020. By Board policy, all incremental fare revenue from Series 2, equal to approximately \$330M, helps fund BART’s high-priority capital projects: new rail cars, a new automated train control system, and the Hayward Maintenance Complex.

This 2020 fare change would be the last in BART’s second series of productivity-adjusted inflation-based fare increases. The proposed fare increase would generate revenue that goes into a separate account dedicated to funding BART’s highest priority capital reinvestment projects, including new rail cars, a new automatic train control system, and design and construction of the Hayward Maintenance Complex. Implementation of each increase is subject to Board approval of the corresponding and finalized Title VI fare equity analysis, which has been issued in compliance with federal and state laws and regulations in effect at the time.

In January 2019, the Bureau of Labor Statistics released the final inflation data for 2018, which allowed for actual calculation of the 2020 increase. This calculation results in overall inflation of 5.9% over two years. After subtracting the 0.5% productivity factor, the actual fare increase scheduled for 2020 is 5.4%.

**Analysis Findings.** This is an across-the-board fare change, and the DI/DB Policy states that such a change will be considered to have a disproportionate impact if the difference between the changes for protected riders (i.e., minority or low-income riders) and non-protected riders is equal to or greater than 5%. Calculations of weighted average fares for protected and non-protected riders show that the increases are virtually identical and thus the difference between these fares does not exceed the 5% threshold for either minority or low-income riders. In addition, the cumulative effect of fare increases from 2012 through the proposed increase in 2020 would not result in a disproportionate impact on protected riders because the increases are virtually identical and thus the difference is less than 5%. The table below summarizes the findings.

		<b>Minority Disparate Impact</b>	<b>Low-Income Disproportionate Burden</b>
A.	5.4% CPI-Based Fare Increase, 2020	No	No
	<b>Cumulative Impact</b>	No	No

**Public Outreach.** Survey respondents were asked to provide feedback regarding this biennial increase by answering survey Question 1: “Do you have any comments about this planned fare increase?” Approximately 66% of all survey respondents, or 838

respondents, chose to comment regarding the less-than-inflation fare increase. Of the 838 respondents, 49% (414 respondents) identified as minority and 15% (125) as low-income. Of the minority respondents, 58% did not support and 42% were in favor (unconditional or conditional support). Of the low-income respondents, 63% did not support and 37% were in favor (unconditional or conditional support).

Three hundred respondents chose not to comment. Not commenting on a proposal may indicate neutrality or potentially some level of acceptance of the option. These respondents include: 148 minority (123 non-minority, 29 unknown) and 32 low-income (233 non low-income and 35 unknown). Of the 300 respondents who chose not to comment, 49% were minority and 11% were low-income. These respondents are not included in the total comment count of 838.

**Equity Finding.** The fare change analysis found no disproportionate impact on protected riders. Regarding respondents who chose to comment on the fare change, of the 414 minority respondents, 58% were not in support; of the 125 low-income survey respondents, 63% were not in support. The remaining 42% of minority and 37% of low-income respondents did support the increase. Three hundred respondents chose not to comment and of these, 49% were minority and 11% were low-income. Not commenting on a proposal may indicate neutrality or potentially some level of acceptance of the option.

Although increasing fares by less than inflation may not be a preferred option for some taking the survey, the fare change analysis found no disproportionate impact on protected riders, and new fare revenue will be used to fund critical BART capital needs which will improve the system for all riders, including those who are protected. The equity finding, therefore, is this fare change would not have a disparate impact on minority riders or place a disproportionate burden on low-income riders. It is also important to note that BART is planning to participate in the Metropolitan Transportation Commission's (MTC's) Regional Means-Based Transit Fare Discount Pilot Program, which is proposed to give low-income riders a 20% discount on each BART trip they take. The Board has approved the discount program's Title VI Fare Equity Analysis and the program is scheduled to be brought to the Board for final approval in June 2019.

**B. Extend the Productivity-Adjusted Inflation-Based Fare Increase Program for a Third Series between 2022-2028**

This proposed fare change is the third in the series of BART's Productivity-Adjusted Inflation-Based Fare Increase Program for increases in 2022, 2024, 2026, and 2028. The Board-adopted Financial Stability Policy states that BART's ability to deliver safe, reliable service rests on a strong and stable financial foundation and a policy goal to help achieve this stability is to preserve and maximize BART's fare revenue base, through a predictable pattern of adjustments, while retaining ridership. Programmed

fare increases also help BART avoid the cycle of keeping fares flat for many years, then raising fares by large percentages out of financial necessity. With Resolution 4885, adopted in 2003, the BART Board gave the General Manager authority to implement four productivity-adjusted inflation-based fare increases, one every two years, between 2006 and 2012. Less-than-inflation-based increases are calculated by taking the average of national and Bay Area inflation over two years, less one-half percent for BART productivity improvements.

The 2006-2012 series contributed approximately \$290 million (M) in additional fare revenue to help BART weather the Great Recession without reducing service levels. The second series of less-than-inflation fare increases began in 2014, and the last increase is scheduled for January 2020. The 2020 fare change is analyzed in a separate section of this report. By Board policy, all incremental fare revenue, equal to approximately \$330M, helps fund BART's high-priority capital projects: new rail cars, a new automatic train control system, and the Hayward Maintenance Complex.

The proposed third series of the less-than-inflation-based fare increase program would raise fares in 2022, 2024, 2026, and 2028. Based on current inflation projections, the increase in each of these years is estimated to be 3.9%. New incremental fare revenue is proposed to help fund additional new rail cars and system improvements, such as a new train control system to provide more frequent service, and operation of enhanced service. Over the eight-year period, the program is estimated to generate approximately \$400M in revenue.

**Analysis Findings.** This is an across-the-board fare change, and the DI/DB Policy states that such a change will be considered to have a disproportionate impact if the difference between the changes for protected riders (i.e., minority or low-income riders) and non-protected riders is equal to or greater than 5%. Calculations of weighted average fares for protected and non-protected riders show that the increases are virtually identical and thus the difference between these fares does not exceed the 5% threshold for either minority or low-income riders. In addition, the cumulative effect of fare increases from 2018 through the proposed increase in 2028 would not result in a disproportionate impact on protected riders because the increases are virtually identical and thus the difference is less than 5%. The table below summarizes the findings. Each proposed fare increase will be reanalyzed when actual data on inflation becomes available so that the actual percent increases for 2022, 2024, 2026, and 2028 can be calculated; each of these fare equity analyses will be brought to the Board for approval.

	<b>Minority Disparate Impact</b>	<b>Low-Income Disproportionate Burden</b>
<b>B. CPI-Based Fare Increase Program, Series 3, 2022-28</b>	No	No
<b>Cumulative Impact</b>	No	No

**Public Outreach.** Fare Program Survey Question 2 asked respondents to choose a level of support for Series 3 of the CPI-based fare increase program. Respondents could select from one of the following six options: strongly support, somewhat support, neutral, somewhat oppose, strongly oppose, and don't know. Question 2 was answered by 1,241 of the 1,272 survey respondents, which is approximately 98% of all respondents.

Of the 1,241 respondents to Question 2, 622 or approximately 50% identified as minority and 179 or approximately 14% identified as low-income. Of minority respondents, fewer (199 or 32%) supported the fare increase program compared to those who did not support it (327 or 53%). Of the remaining minority respondents, 14% were neutral and 2% selected "don't know." Of low-income respondents, fewer (50 or 28%) supported the fare increase program compared to those who did not support it (100 or 56%). The remaining 14% of low-income respondents were neutral. Neutrality does not indicate whether favorable or unsupportive and may potentially indicate that these respondents were not opposed.

Explanatory comments in response to Question 3 were provided by 802 respondents, or 65% of the 1,241 respondents to Question 2. Of the 802 respondents, 50% (402 respondents) identified as minority and 15% (119 respondents) identified as low-income. A respondent's rating of Question 2 determined the grouping of the comment. For example, a Question 3 comment was automatically grouped as "Neutral" for sorting purposes if the respondent checked "Neutral" for Question 2. "Strongly Support" and "Somewhat Support" comments were grouped as "Support," which may indicate clear support or some level of support with caveats. "Don't Support" includes comments in the "Strongly Oppose" and "Somewhat Oppose" categories. Comments are color-coded by original level of support in Appendix PP-C.

Of the 402 minority respondents providing comments, 60% did not support, 33% were in favor (strongly or somewhat support), 6% were neutral, and 1% selected "don't know." Of the 119 low-income respondents providing comments, 59% did not support, 32% were in favor (strongly or somewhat support), 8% were neutral, and 1% selected "don't know."

**Equity Finding.** The fare change analysis found no disproportionate impact on protected riders. Regarding survey responses to Question 2, fewer minority

respondents (199 or 32%) supported the fare increase program compared to those who did not support it (327 or 53%), and 14% were neutral. Of low-income respondents, fewer (50 or 28%) supported the fare increase program compared to those who did not support it (100 or 56%), and 14% were neutral. Neutrality does not indicate whether favorable or unsupportive and may potentially indicate that these respondents were not opposed.

Of the 402 minority respondents providing Question 3 comments, 60% were not in support, 33% were in favor, and 6% were neutral. Of the 119 low-income respondents providing comments, 59% did not support, 32% were in favor and 8% were neutral.

Although Series 3 of a program to increase fares by less than inflation may not be a preferred option for some taking the survey, the fare change analysis found no disproportionate impact on protected riders, and new fare revenue will be used to fund critical BART capital needs and to operate those improvements, which will improve the system for all riders including those who are protected.

The equity finding, therefore, is this fare change would not have a disparate impact on minority riders or place a disproportionate burden on low-income riders. It is also important to note that BART is planning to participate in the Metropolitan Transportation Commission's (MTC's) Regional Means-Based Transit Fare Discount Pilot Program, which is proposed to give low-income riders a 20% discount on each BART trip they take. The Board has approved the discount program's Title VI Fare Equity Analysis and the program is scheduled to be brought to the Board for final approval in June 2019.

### **C. Increase the Surcharge from \$0.50 to \$1.00 on Fares Paid for with Magnetic-Stripe Tickets**

The BART Board approved a \$0.50 surcharge per trip taken with Blue magnetic-stripe tickets effective January 1, 2018. For example, a fare of \$2.25 or \$3.50 paid with Clipper is, respectively, \$2.75 or \$4.00 when paid for with a Blue magnetic-stripe ticket. The \$0.50 surcharge is prorated down for discounted magnetic-stripe tickets: seniors and people with disabilities who receive a 62.5% discount pay an approximately \$0.19 surcharge with a Green or Red ticket respectively, and youth who receive a 50% discount pay a \$0.25 surcharge with a youth Red ticket.

With the surcharge, magnetic-stripe ticket trips have been reduced by approximately 42%. To further encourage the 15% of BART riders still using magnetic-stripe tickets to switch to Clipper, BART proposes to increase the surcharge to \$1.00; for example, a \$3.50 Clipper fare would be \$4.50 with a Blue magnetic-stripe ticket. Riders using discounted tickets would continue to pay a prorated surcharge, so that seniors and people with disabilities pay an approximately \$0.38 surcharge (Green and Red tickets) and youth pay a \$0.50 surcharge (youth Red tickets).

More riders using Clipper supports the region’s goal of optimizing Clipper use. It is also more efficient and cost-effective for BART to maintain one fare payment system, and Clipper card customers enter and exit BART quicker by using more reliable fare gates that only process Clipper.

**Analysis Findings.** The assessment for changes to a fare media is to determine whether protected riders are disproportionately more likely to use the affected fare media. Per the DI/DB Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare media and the protected ridership of the overall system is greater than 10%. The table below shows the results of applying the threshold to survey data:

	<b>Minority Disparate Impact</b>	<b>Low-Income Disproportionate Burden</b>
<b>C. Mag Stripe Surcharge Increase</b>	No	Yes

**Public Outreach.** Fare Program Survey Question 4 asked respondents to choose a level of support for increasing the per-trip surcharge on magnetic-stripe tickets from \$0.50 to \$1.00. Respondents could select from one of the following six options: strongly support, somewhat support, neutral, somewhat oppose, strongly oppose, and don’t know. Question 4 was answered by 1,229 of the 1,272 survey respondents, which is approximately 97% of all respondents.

Of the 1,229 respondents to Question 4, 623 or approximately 51% identified as minority and 180 or approximately 15% identified as low-income. Of minority respondents, more (273 or 44%) supported the surcharge increase compared to those who did not support it (243 or 39%). Of the remaining minority respondents, 16% were neutral and 1% selected “don’t know.” Of low-income respondents, fewer (68 or 38%) supported the surcharge increase compared to those who did not support it (84 or 47%). Of the remaining low-income respondents, 13% were neutral and 2% selected “don’t know.” Neutrality does not indicate whether favorable or unsupportive and may potentially indicate that these respondents were not opposed.

Of the 1,229 survey respondents to Question 4, 716 or approximately 58% answered Question 5 with an explanatory comment. Of the 716 respondents, 48% (345 respondents) identified as minority and 16% (116 respondents) identified as low-income. A respondent’s rating of Question 4 determined the grouping of the comment. For example, a Question 5 comment was automatically grouped as “Neutral” for sorting purposes if the respondent checked “Neutral” for Question 4. “Strongly Support” and “Somewhat Support” comments were grouped as “Support,” which may indicate clear support or some level of support with caveats. “Don’t Support” includes

comments in the “Strongly Oppose” and “Somewhat Oppose” categories. Comments are color-coded by original level of support in Appendix PP-C.

Of the 345 minority respondents providing comments, 50% did not support, 38% were in favor (strongly or somewhat support), 10% were neutral, and 2% selected “don’t know.” Of the 116 low-income respondents providing comments, 50% did not support, 38% were in favor (strongly or somewhat support), 9% were neutral, and 3% selected “don’t know.”

**Equity Finding.** The fare change analysis shows that an increase to the magnetic-stripe ticket surcharge may disproportionately affect low-income riders. Of minority respondents answering Question 4, 44% supported and 39% did not support the surcharge increase. Of low-income respondents answering Question 4, 38% supported it and 47% did not. One-half of the public comments provided by protected riders did not support the surcharge increase. The equity finding based on the fare change analysis and public comment received is that a magnetic-stripe ticket surcharge increase may be disproportionately borne by low-income riders.

**Mitigation.** Per BART’s DI/DB Policy and the Title VI Circular, if low-income populations will bear a disproportionate burden of the proposed fare change, the transit provider should take steps to avoid, minimize, or mitigate impacts where practicable and describe alternatives available.

Low-income riders can avoid the paper ticket surcharge by paying their fares with a Clipper card instead of a paper ticket. As of January 2018, Clipper cards were available at ticket vending machines at all BART stations, where the rider is charged a one-time \$3 card acquisition fee as payment for the card itself. This \$3 card acquisition fee could be considered a barrier to low-income riders wishing to use a Clipper card to avoid the paper ticket surcharge.

A Title VI fare equity analysis conducted in spring 2017 found that the implementation of the initial \$0.50 magnetic-stripe ticket surcharge may result in a disproportionate impact on low-income riders. Staff, in partnership with the Metropolitan Transportation Commission (MTC), implemented a BART Board-approved mitigation action plan in December 2017-March 2018.

The action plan was extensive and included 29 promotional events at multiple BART stations and community-based organizations (CBOs) located in or near low-income communities to distribute free Clipper cards to their members/clients. BART additionally worked with MTC and expanded on their existing partnership program with CBOs serving low-income communities. MTC added a number of CBOs, recommended by BART, to their existing program to support BART’s mitigation efforts. The MTC program is ongoing for as long as the CBO requests cards for their members/clients and provides a consistent pipeline of free Clipper cards to low-

income communities. Thus, low-income riders affected by the proposed increase to the magnetic stripe ticket surcharge will continue to be able to obtain free Clipper cards.

An update to the Board in September 2018 indicated that Clipper usage increased and magnetic-stripe ticket use decreased in the months during the mitigation action plan, and that the distributed Clipper cards were being used more than once. Accordingly, BART considers these actions as mitigation.

In February 2019, Title VI/EJ and LEP Advisory Committee members were advised of the potential impact to low-income riders and supported the mitigation efforts that have already been established. Some Committee members' CBOs are part of the MTC free Clipper pipeline program. Committee members also supported BART's overall efforts to move riders to the Clipper card. While BART considers the established mitigation efforts sufficient, staff will continue to work with the Advisory Committees to determine if any additional public outreach efforts are needed.

# Section 1: Introduction

---

## 1.1 Background

To ensure compliance with federal and state civil rights regulations, including but not limited to Title VI of the Civil Rights Act of 1964, FTA Circular 4702.1B [October 1, 2012 (Title VI Circular)], and FTA Circular 4703.1 [August 15, 2012 (Environmental Justice Circular)], BART conducts an analysis of any fare change to determine if the change has a disparate impact on minority riders or a disproportionate burden on low-income riders when compared to overall users. In accordance with the Title VI Circular, BART makes this determination by comparing the analysis results against a threshold, as defined in its Disparate Impact and Disproportionate Burden Policy (DI/DB Policy), which was adopted by the BART Board on July 11, 2013. Disproportionate impact analysis results are provided in Section 2 of this report.

Pursuant to the Title VI Circular, BART is to conduct public outreach to provide information to the public about potential fare changes under consideration and solicit feedback on these potential fare changes. A key component of Title VI outreach is to seek input on fare changes inclusive of minority, low-income, and limited English proficient (LEP) populations. BART uses established information outlets to engage the stakeholders who would be directly affected by the fare changes under consideration. By doing so, BART ensures consistency with its Public Participation Plan (2011) as well as ensures efficiency in communication with community members. Public outreach and public input received are described in Section 3 of this report.

BART makes an equity finding regarding any fare change by considering both the results of the disproportionate impact analysis and public input, and these results are found in Section 5. Should a fare change be found to have a disproportionate impact, Section 5 provides proposed mitigations of those impacts.

The following proposed fare changes have been analyzed for this report:

- A. Implementing the last in BART's second series of productivity-adjusted inflation-based fare increases valued at 5.4% effective January 1, 2020.
- B. Extending the Productivity-Adjusted Inflation-Based Fare Increase Program for a third series of less-than-inflation increases every two years between 2022 and 2028.
- C. Increasing the surcharge from \$0.50 to \$1.00 for fares paid with Blue magnetic-stripe tickets; the surcharge would be prorated down for discounted Green and Red magnetic-stripe tickets for seniors, people with disabilities, and youth.

## 1.2 Implement a Productivity-Adjusted Inflation-Based Fare Increase of 5.4%

In 2003, the BART Board approved the initial Productivity-Adjusted Inflation-Based Fare Increase Program that increased fares by less-than-inflation-based amounts every two years between 2006 and 2012. In February 2013, with Resolution 5208, the Board approved extending the Productivity-Adjusted Inflation-Based Fare Increase Program for increases, in 2014, 2016, 2018, and 2020, subject to final Title VI analysis.

The formula to calculate the amount of the increase is based on the average of national and local inflation over a two-year period, less one-half percent to account for improvements in BART productivity. Fare revenue from the second series of increases by Resolution 5208, as confirmed by Board motion passed on March 28, 2013, goes into a separate fund that can only be used to help fund BART's highest priority capital reinvestment projects including new rail cars, a new automated train control system, and the Hayward Maintenance Complex.

BART staff used estimated future inflation-based percentage increases to perform preliminary analyses of the second series of fare increases to determine if any of the increases had a disparate impact on minority riders or placed a disproportionate burden on low-income riders. These analyses and public comment are documented in the February 2013 reports, "Title VI Assessment for the Extension of the Productivity-Adjusted Inflation-Based Fare Increase Program" and "Public Participation Summary Report for the Extension of the Productivity-Adjusted Inflation-Based Fare Increase Program." The preliminary analyses showed that the four biennial inflation-based fare increases would not likely result in a disproportionate impact on minority or low-income riders under BART's DI/DB Policy since the proposed changes would increase fares by virtually identical amounts for minority riders and non-minority riders when compared to overall users. These findings were subject to the application of thresholds contained in the then-under development DI/DB Policy, which the BART Board adopted on July 11, 2013.

In October 2013, the Board approved findings for the 2014 fare increase, as documented in the report "Final Title VI Assessment for the 2014 Inflation-Based Fare Increase, An Update to the February 13, 2013 Draft Title VI Assessment for the Extension of the Productivity-Adjusted Inflation-Based Fare Increase Program." In July 2015, the Board approved findings for the 2016 fare increase, as documented in the report "Final Title VI Assessment for the Proposed Productivity-Adjusted Inflation-Based Fare Increase effective January 1, 2016."

In May 2017, the Board approved findings for the 2018 fare increase, as documented in the report "Title VI Fare Equity Analysis for the Proposed Productivity-Adjusted Inflation-Based Fare Increase and Fiscal Year 2018 Fare Changes effective January 1, 2018." Report findings demonstrated that the proposed 2014, 2016, and 2018

increases would increase fares by virtually identical amounts for minority riders and low-income riders when compared respectively to non-minority riders and non-low income riders. Thus, the calculated differences between the fare increases for protected groups and nonprotected groups fell below the 5% DI/DB Policy threshold. In addition, the proposed fare changes applied to all fares and fare types and the fare types were projected to increase at the same percentage. Although each fare type had differing constituencies, all fare types were affected equally.

The fare change discussed in this report is the last in the current series of four productivity-adjusted inflation-based fare increases and is scheduled for implementation on January 1, 2020. As stated in Resolution 5208, "Title VI analyses for the 2016, 2018, and 2020 fare increases will be updated and finalized, once the inflation percentage increase is known for those years and public input is solicited. Implementation of each of the future year increases in 2016, 2018, and 2020, will be subject to Board approval of the corresponding and finalized Title VI analysis, which has been issued in compliance with federal and state law in effect at the time."

In January 2019, the Bureau of Labor Statistics released the final inflation data for 2018, which allowed for actual calculation of the 2020 increase. This calculation results in overall inflation of 5.9% over two years. After subtracting the 0.5% productivity factor, the actual fare increase scheduled for 2020 is 5.4%.

### 1.3 Extend the Productivity-Adjusted Inflation-Based Fare Increase Program for a Third Series between 2022 and 2028

This proposed fare change would extend BART's Productivity-Adjusted Inflation-Based Fare Increase Program for a third series of increases in 2022, 2024, 2026, and 2028. As stated in the Board-adopted Financial Stability Policy, BART's ability to deliver safe, reliable service rests on a strong and stable financial foundation. A policy goal to help achieve this stability is to preserve and maximize BART's fare revenue base, through a predictable pattern of adjustments, while retaining ridership. Programmed fare increases also help BART avoid the cycle of keeping fares flat for many years, then raising fares by large percentages out of financial necessity. Resolution 4885, adopted in 2003, addressed the policy goal when the BART Board gave the General Manager authority to implement four productivity-adjusted inflation-based fare increases, one every two years, between 2006 and 2012. Less-than-inflation-based increases are calculated by taking the average of national and Bay Area inflation over two years, less one-half percent for BART productivity improvements

The 2006-2012 series of small, regular fare increases was key to BART's financial stability during difficult economic times. The inflation-based component of BART fare increases contributed approximately \$290 million in additional fare revenue to help BART weather the Great Recession without reducing service levels.

The second series of Board-approved less-than-inflation fare increases began in 2014, with the last increase scheduled for January 2020. The 2020 fare change is analyzed in a separate section of this report. By Board policy, all incremental fare revenue generated from these increases, equal to approximately \$330M, helps fund BART's high-priority capital projects: new rail cars, a new automatic train control system, and the Hayward Maintenance Complex.

The proposed third series of the less-than-inflation-based fare increase program would raise fares in 2022, 2024, 2026, and 2028. Based on current inflation projections, the increase in each of these years is estimated to be 3.9%. New incremental fare revenue is proposed to help fund additional new rail cars and system improvements, such as a new train control system to provide more frequent service, and operation of enhanced service. Over the eight-year period, the program is estimated to generate approximately \$400M in revenue.

#### 1.4 Increase the Surcharge on Fare Paid with Magnetic-Stripe Tickets

In June 2017, the BART Board approved a \$0.50 surcharge per trip taken with Blue magnetic-stripe tickets effective January 1, 2018. For example, a fare of \$2.25 or \$3.50 paid with Clipper is, respectively, \$2.75 or \$4.00 when paid for with a Blue magnetic-stripe ticket. The \$0.50 surcharge is prorated down for discounted magnetic-stripe tickets: seniors and people with disabilities who receive a 62.5% discount pay an approximately \$0.19 surcharge with a Green or Red ticket respectively, and youth who receive a 50% discount pay a \$0.25 surcharge with a youth Red ticket.

Making magnetic-stripe ticket fares more expensive compared to Clipper fares has helped shift riders to Clipper in support of the regional goal of optimizing Clipper use as well as generating revenue. It is also more efficient and cost-effective for BART to maintain one fare payment system, and Clipper card customers enter and exit BART quicker by using more reliable fare gates that only process Clipper. Magnetic-stripe ticket trips have been reduced by approximately 42% over the last year.

To further encourage the 15% of BART riders still using magnetic-stripe tickets to switch to Clipper, BART proposes to increase the surcharge to \$1.00; for example, a \$3.50 Clipper fare would be \$4.50 with a Blue magnetic-stripe ticket. Riders using discounted tickets would continue to pay a prorated surcharge, so that seniors and people with disabilities pay an approximately \$0.38 surcharge (Green and Red tickets) and youth pay a \$0.50 surcharge (youth Red tickets).

## Section 2: Minority Disparate Impact and Low-Income Disproportionate Burden Analysis

---

### 2.1 Assessing the Effects of a Fare Change

This section describes the data and methodology used to assess the effects of a fare change on minority and low-income riders, in accordance with the fare equity analysis procedures in FTA Title VI Circular 4702.1B and BART's DI/DB Policy.

Chap. IV-19 of the Title VI Circular requires that a data analysis include the following steps:

- i. Determine the number and percent of users of each fare media being changed;
- ii. Review fares before the change and after the change;
- iii. Compare the differences between minority users and non-minority users; and
- iv. Compare the differences for each particular fare media between low-income users and non-low-income users.

As stated in Title VI Circular App. K-11, comparing protected riders and nonprotected riders can “yield even clearer depictions of differences.” For purposes of **across-the-board fare changes**, BART's DI/DB Policy follows this guidance. Once the comparison analysis is completed, the appropriate threshold from the DI/DB Policy is applied to the difference in fare change between (a) minority and non-minority riders and (b) low-income and non-low income riders.

For **fare type changes**, BART will assess whether protected riders are disproportionately more likely to use the affected fare type or media, and if such effects are adverse. In accordance with the DI/DB Policy, impacts will be considered disproportionate when the difference between the affected fare type's protected ridership share and the overall system's protected ridership share is greater than 10%.

For the 2018 Customer Satisfaction Survey, minority includes riders who are Asian, Hispanic (any race), Black/African American, American Indian/Alaskan Native, and Other (including multi-racial). Non-minority is defined as white. According to responses to the 2018 Customer Satisfaction Survey, 64.5% of BART riders are minority.

For the purposes of this analysis, low-income is defined as 200% of the federal poverty level. This broader definition is used to account for the region's higher cost of living when compared to other regions. This level is approximated by considering both the household size and household income of respondents to the 2018 Customer

Satisfaction Survey. The household size and household income combinations that comprise “low-income” are as follows:

**Table 2-1**

<b>LOW INCOME</b>	
<b>Household Size</b>	<b>Household Income</b>
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

For example, a household of two or more people with an income of \$33,000 would be considered low-income. According to 2018 Customer Satisfaction Survey responses, 20.2% of BART riders are considered low income.

Should BART find that minority riders experience disparate impacts from the proposed change, BART should take steps to avoid, minimize, or mitigate disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority riders, pursuant to FTA Title VI Circular 4702.1B, BART may proceed with the proposed fare change if BART can show that:

- A substantial legitimate justification for the proposed fare change exists; and,
- There are no alternatives serving the same legitimate objectives that would have a less disparate impact on minority populations.

If a finding is made that the proposed fare change would place a disproportionate burden on low-income riders compared to non-low income riders, BART will take steps to avoid, minimize, or mitigate impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the fare change.

Should BART find that a fare option results in a disproportionate impact on both minority and low-income riders, then BART shall follow the requirements as described above for addressing a finding of disparate impact on minority riders. Mitigation is neither necessary nor required where no disparate impact and/or disproportionate burden is found.

The next sections describe the data and methodology used and analysis findings for each of the proposed changes.

## 2.2 Productivity-Adjusted Inflation-Based Fare Increase of 5.4%

### 2.2.1 Data Sources

The primary data used to analyze the proposed across-the-board productivity-adjusted inflation-based fare increase of 5.4% are the following:

- 2018 BART Customer Satisfaction Study. Conducted every other September, the Customer Satisfaction Study allows BART to track trends in rider satisfaction, demographics, and BART usage across the system. The 2018 study had a sample size of 5,113, including weekday peak, off-peak, and weekend riders.
- Current and projected BART fares. The projected fares are based on an actual less-than-inflation-based increase of 5.4% in 2020; these are the full Clipper fares and do not reflect the various discounts available to riders. Approximately 85% of BART riders use Clipper to pay their fares and the District is encouraging the remaining 15% of riders to switch to Clipper in support of the region's large investment in the regional smart card.
- Actual 2018 BART ridership. Trips by station as recorded by BART's automated fare collection system.

BART uses its FTA-approved methodology to assess the effects of a fare increase. The methodology compares the weighted average fare increase between (a) minority and non-minority riders and (b) low-income and non-low income riders to determine if an increase would have either a disparate impact on minority riders or result in a disproportionate burden on low-income riders. In accordance with FTA Title VI Circular 4702.1B, BART makes this determination by comparing the analysis results against the appropriate threshold defined in the DI/DB Policy. In addition, pursuant to the DI/DB Policy, staff reported the cumulative impacts over its last three-year triennial reporting period as well as for the current three-year triennial reporting period.<sup>1</sup>

Actual 2018 Customer Satisfaction Survey responses are used to determine the percent of riders at each station who are minority or low-income. Since BART has a distance-based fare structure, determining this information by station rather than systemwide allows for the development of weighted average fares. Both home-based origin and non-home origin responses are used to assign demographics to a station. Non-home origins at a station include all trips starting from locations other than home, such as work, school or shopping. Thus, using both home-based and non-home origin responses is more encompassing than using only home-based origins because it reflects all riders at a station.

### ***2.2.2 Methodology***

The steps used to assess the effects of an across-the-board fare change are described in Appendix A. Oakland International Airport Station trips and Pittsburg Center Station trips are not included in this analysis because 20 or fewer riders at these

---

<sup>1</sup> BART's last reporting period, approved by FTA, includes changes for the period from January 1, 2014 through December 31, 2016. BART's current triennial reporting period includes all changes from January 1, 2017 through December 31, 2019.

stations responded to the 2018 Customer Satisfaction Survey, which is too few to be able to accurately determine the percentage of the station's riders who are minority or low-income. Future stations or expansion projects, such as the Silicon Valley Berryessa Extension, are not included in this analysis as fares for those projects have not yet been adopted.

### *2.2.3 Analysis Findings*

Systemwide weighted average fares for (a) minority and non-minority riders and (b) low-income and non-low income riders, as well as for overall users, have been calculated using the methodology described in Appendix A. This process was performed to determine if the proposed fare increase would have either a disparate impact on minority riders or result in a disproportionate burden on low-income riders.

Note that the percent fare changes shown may not exactly equal the proposed percent fare change since BART's fares paid by passengers are rounded to the nearest nickel and the data below represent an average across riders. Also note that the percentage and dollar changes as published in the following tables may not add up as the figures are not rounded to the nearest hundredth- or thousandth-decimal place.

The proposed inflation-based fare increase of 5.4% is an across-the-board fare increase. BART's DI/DB Policy provides that an across-the-board fare change will be considered to have a disproportionate impact if the difference between the fare changes for protected riders and nonprotected riders is equal to or greater than 5%.

### *2.2.4 Minority Disparate Impact Analysis Finding*

The Table 2-1 presents the results for minority riders of the calculation for the proposed inflation-based increase of 5.4% in 2020. Applying the 5% DI/DB Policy threshold to the calculated difference, this report finds that the proposed inflation-based fare increase would not result in a disparate impact on minority riders because the difference in the increase for minority riders and non-minority riders is less than 5%. In addition, the finding is made that the cumulative effect of fare increases from 2012 through the proposed increase in 2020 would not result in a disparate impact on minority riders because the difference in the percent increase between minority and non-minority riders is less than 5%.

**Table 2-2: Disparate Impact Analysis - 2020 Inflation-Based Fare Increase**

	2012 Fares	Current 2018 Fares	Proposed 2020 fares +5.4%	Cumulative Change 2012 to 2020 <sup>1</sup>
<b>Fare Increase %</b>				
<b>Minority</b>	\$ 3.665	\$ 4.194	\$ 4.419	\$ 0.753
<b>Non-Minority</b>	\$ 3.709	\$ 4.224	\$ 4.451	\$ 0.742
<b>Overall</b>	\$ 3.680	\$ 4.227	\$ 4.453	\$ 0.773
<b>Minority</b>		% Change	5.35%	20.55%
<b>Non-Minority</b>		% Change	5.37%	20.00%
		<b>DIFFERENCE</b>	<b>-0.03%</b>	<b>0.56%</b>
		<b>Disparate Impact?</b>	<b>No</b>	<b>No</b>
<b>Minority</b>		\$ Change	\$ 0.224	\$ 0.753
<b>Non-Minority</b>		\$ Change	\$ 0.227	\$ 0.742
<b>Overall</b>		\$ Change	\$ 0.226	\$ 0.773
<sup>1</sup> To ensure consistency in calculating cumulative impact, the 2018 average weekday trip table was used to calculate 2012, 2018, and 2020 weighted fares.				

**2.2.5 Low-Income Disproportionate Burden Analysis Finding**

Table 2-2 presents the results for low-income riders of the calculation for the proposed inflation-based increase of 5.4% in 2020. Applying the 5% DI/DB Policy threshold to the calculated difference, this report finds that the proposed inflation-based fare increase would not result in a disproportionate burden on low-income riders because the difference in the increase for low-income riders and non-low income riders is less than 5%. In addition, the finding is made that the cumulative effect of fare increases from 2012 through the proposed increase in 2020 would not result in a disproportionate burden on low-income riders because the difference in the percent increase between low-income and non-low income riders is less than 5%.

**Table 2-2: Disproportionate Burden Analysis - 2020 Inflation-based Fare Increase**

	2012 Fares	Current 2018 Fares	Proposed 2020 fares +5.4%	Cumulative Change 2012 to 2020 <sup>1</sup>
<b>Fare Increase %</b>				
<b>Low Income</b>	\$ 3.548	\$ 4.069	\$ 4.286	\$ 0.738
<b>Non-Low Income</b>	\$ 3.714	\$ 4.238	\$ 4.465	\$ 0.752
<b>Overall</b>	\$ 3.680	\$ 4.227	\$ 4.453	\$ 0.773
<b>Low Income</b>		% Change	5.34%	20.82%
<b>Non-Low Income</b>		% Change	5.36%	20.24%
		<b>DIFFERENCE</b>	<b>-0.03%</b>	<b>0.58%</b>
		<b>Disproportionate Burden?</b>	<b>No</b>	<b>No</b>
<b>Overall</b>		% Change	5.35%	21.02%

<b>Non-Low Income</b>		\$ Change	\$ 0.227	\$ 0.752
<b>Overall</b>		\$ Change	\$ 0.226	\$ 0.773
<sup>1</sup> To ensure consistency in calculating cumulative impact, the 2018 average weekday trip table was used to calculate 2012, 2018, and 2020 weighted fares.				

## 2.3 Series 3 of the Productivity-Adjusted Inflation-Based Fare Increase Program

### 2.3.1 Background

The fare change discussed in this report is Series 3 of BART’s Productivity-Adjusted Inflation-Based Fare Increase Program for increases in 2022, 2024, 2026, and 2028. The last increase in the Board-approved Series 2 is scheduled for January 1, 2020. The percentage increase is calculated by taking the change in inflation over a two-year period then subtracting one-half percent to account for improvements in BART operating efficiencies, so that the increase is actually less than inflation.

With Resolution 4885, the BART Board authorized the first inflation-based fare increase program which consisted of four biennial increases beginning in 2006 and ending in 2012. These small, regular fare increases were key to BART’s financial stability and helped BART weather the Great Recession without reducing service levels. The second series of inflation-based increases began in 2014, with the last increase of 5.4% scheduled to take effect on January 1, 2020. By Board direction, incremental revenue from the second series is dedicated to help fund BART top priority capital projects: new rail cars, a new automated train control system, and the Hayward Maintenance Complex.

The four biennial fare changes for Series 3 analyzed in this report were calculated by applying the same formula used for Series 1 and 2. If approved, each fare change under consideration would be reanalyzed at the time that actual data on inflation was available to calculate the actual percent increase for 2022, 2024, 2026, and 2028. For these four proposed increases, it is necessary to use a projection of future inflation for the fare increase calculation. The inflation-based increase used for these fare change analyses is 3.9%, which is calculated by taking the current projection of inflation estimated by the Metropolitan Transportation Commission (the Bay Area's regional planning organization), valued at 2.2% per year (4.4% over a two-year period), less the 0.5% productivity factor. The formula used is shown in Appendix A.

In conformance with its current Title VI procedures, BART undertook an equity analysis of the proposed extension of the inflation-based fare increase program and actively sought public input in a variety of ways using approaches outlined in BART's Public Participation Plan. Public outreach results are summarized in the attached Public Participation Report (Appendix B).

Each of the proposed four biennial fare increases is an across-the-board increase. BART's DI/DB Policy states that an across-the-board fare change will be considered to have a disproportionate impact if the difference between the fare changes for protected riders and nonprotected riders is equal to or greater than 5%. Applying this threshold to the calculated differences, the present report finds that none of the proposed four inflation-based fare increases would result in a disparate impact or a disproportionate burden because, for each year (2022, 2024, 2026, and 2028), the increase difference between protected and nonprotected riders is less than 5%.

### *2.3.2 Data Sources*

The primary data used to analyze the proposed extension of the across-the-board Productivity-Adjusted Inflation-Based Fare Increase Program are the following:

- 2018 BART Customer Satisfaction Study. Conducted every other September, the Customer Satisfaction Study allows BART to track trends in rider satisfaction, demographics, and BART usage across the system. The 2018 study had a sample size of 5,113, including weekday peak, off-peak, and weekend riders.
- Current and projected BART fares. The projected 2020 fares are based on an actual less-than-inflation-based increase of 5.4%. The proposed third series of the less-than-inflation-based fare increase program would raise fares in 2022, 2024, 2026, and 2028, and the increase in each of these years is estimated to be 3.9% based on current inflation projections. These are the full Clipper fares and do not reflect the various discounts available to riders. Approximately 85% of BART riders use Clipper to pay their fares and the District is encouraging the remaining 15% of

riders to switch to Clipper in support of the region's large investment in the regional smart card.

- Actual 2018 BART ridership. Trips by station as recorded by BART's automated fare collection system.

BART uses its FTA-approved methodology to assess the effects of a fare increase. The methodology compares the weighted average fare increase between (a) minority and non-minority riders and (b) low-income and non-low income riders to determine if any of the increases would have either a disparate impact on minority riders or result in a disproportionate burden on low-income riders. In accordance with FTA Title VI Circular 4702.1B, BART makes this determination by comparing the analysis results against the appropriate threshold defined in the DI/DB Policy. In addition, pursuant to the DI/DB Policy, staff reported the cumulative impacts over the last three-year triennial reporting period as well as for the current three-year triennial reporting period.<sup>2</sup>

Actual 2018 Customer Satisfaction Survey responses are used to determine the percent of riders at each station who are minority and who are low-income. Since BART has a distance-based fare structure, determining this information by station rather than systemwide allows for the development of weighted average fares. Both home-based origin and non-home origin responses are used to assign demographics to a station. Non-home origins at a station include all trips starting from locations other than home, such as work, school or shopping. Thus, using both home-based and non-home origin responses is more encompassing than using only home-based origins because it reflects all riders at a station.

### *2.3.3 Methodology*

The steps used to assess the effects of an across-the-board fare change are described in Appendix A. Oakland International Airport Station trips and Pittsburg Center Station trips are not included in this analysis because 20 or fewer riders at these stations responded to the 2018 Customer Satisfaction Survey, which is too few to be able to accurately determine the percentage of the station's riders who are minority or low-income. Future stations or expansion projects, such as the Silicon Valley Berryessa Extension, are not included in this analysis as fares for those projects have not yet been adopted.

### *2.3.4 Analysis Findings*

Systemwide weighted average fares for (a) minority and non-minority riders and (b) low-income and non-low income riders, as well as for overall users, have been

---

<sup>2</sup> BART's last reporting period, approved by FTA, includes changes for the period from January 1, 2014 through December 31, 2016. BART's current triennial reporting period includes all changes from January 1, 2017 through December 31, 2019.

calculated using the methodology described in Appendix A. This process was performed to determine if any of the four increases in the proposed Series 3 of the inflation-based fare increase program would have either a disparate impact on minority riders or result in a disproportionate burden on low-income riders.

Note that the percent fare changes shown may not exactly equal the proposed percent fare change since BART's fares paid by passengers are rounded to the nearest nickel and the data below represent an average across riders. Also note that the percentage and dollar changes as published in the following tables may not add up as the figures are not rounded to the nearest hundredth- or thousandth-decimal place.

The proposed Series 3 of the inflation-based fare increase program include across-the-board fare increases. BART's DI/DB Policy provides that an across-the-board fare change will be considered to have a disproportionate impact if the difference between the fare changes for protected riders and nonprotected riders is equal to or greater than 5%. Each proposed fare increase will be reanalyzed at the time that actual data on inflation becomes available so that the actual percent increases for 2022, 2024, 2026, and 2028 can be calculated; each of these fare equity analyses will be brought to the Board for approval.

### *2.3.5 Minority Disparate Impact Analysis Finding Analysis*

Table 2-3 presents the results for minority riders of the calculations for the proposed Series 3 of the inflation-based fare increase program from 2022 to 2028. Applying the 5% DI/DB Policy threshold to the calculated difference, this report finds that the proposed inflation-based fare increases would not result in a disparate impact on minority riders because the differences in the increases for minority riders and non-minority riders is less than 5%. In addition, the finding is made that the cumulative effect of fare increases from 2018 through the last Series 3 proposed increase in 2028 would not result in a disparate impact on minority riders because the difference in the percent increase between minority and non-minority riders is less than 5%.

**Table 2-3: Disparate Impact Analysis - Series 3 Inflation-Based Fare Increase Program, 2022-2028**

Fare Increase %	Current	Proposed					Cumulative Change 2018 to 2028 <sup>1</sup>
	2018 Fares	2020 Fares +5.4%	2022 Fares +3.9%	2024 Fares +3.9%	2026 Fares +3.9%	2028 Fares +3.9%	
<b>Minority</b>	\$ 4.194	\$ 4.419	\$ 4.598	\$ 4.774	\$ 4.959	\$ 5.160	\$ 0.97
<b>Non-Minority</b>	\$ 4.224	\$ 4.451	\$ 4.631	\$ 4.807	\$ 4.994	\$ 5.196	\$ 0.97
<b>Overall</b>	\$ 4.227	\$ 4.453	\$ 4.633	\$ 4.810	\$ 4.998	\$ 5.200	\$ 0.97
<b>Minority</b>	% Change	5.35%	4.06%	3.82%	3.89%	4.05%	23.03%
<b>Non-Minority</b>	% Change	5.37%	4.04%	3.81%	3.90%	4.04%	23.03%
	<b>DIFFERENCE</b>	<b>-0.03%</b>	<b>0.02%</b>	<b>0.01%</b>	<b>-0.01%</b>	<b>0.00%</b>	<b>0.00%</b>
	<b>Disparate Impact?</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>
<b>Minority</b>	\$ Change	\$ 0.224	\$ 0.179	\$ 0.176	\$ 0.186	\$ 0.201	\$ 0.966
<b>Non-Minority</b>	\$ Change	\$ 0.227	\$ 0.180	\$ 0.176	\$ 0.187	\$ 0.202	\$ 0.973
<b>Overall</b>	\$ Change	\$ 0.226	\$ 0.180	\$ 0.177	\$ 0.187	\$ 0.202	\$ 0.973

<sup>1</sup>To ensure consistency in calculating cumulative impact, the 2018 average weekday trip table was used to calculate 2018, 2020, 2022, 2024, 2026, and 2028 weighted fares.

**2.3.6 Low-Income Disproportionate Burden Analysis Finding**

Table 2-4 presents the results for low-income riders of the calculations for the proposed Series 3 of the inflation-based fare increase program from 2022 to 2028. Applying the 5% DI/DB Policy threshold to the calculated difference, this report finds that the proposed inflation-based fare increase would not result in a disproportionate burden on low-income riders because the difference in the increase for low-income riders and non-low income riders is less than 5%. In addition, the finding is made that the cumulative effect of fare increases from 2018 through the last Series 3 proposed increase in 2028 would not result in a disproportionate burden on low-income riders because the difference in the percent increase between low-income and non-low income riders is less than 5%.

**Table 2-4: Disproportionate Burden Analysis - Series 3 Inflation-Based Fare Increase Program, 2022-2028**

Fare Increase %	Current	Proposed					Cumulative Change 2018 to 2028 <sup>1</sup>
	2018 Fares	2020 Fares +5.4%	2022 Fares +3.9%	2024 Fares +3.9%	2026 Fares +3.9%	2028 Fares +3.9%	
Low Income	\$ 4.069	\$ 4.286	\$ 4.461	\$ 4.631	\$ 4.811	\$ 5.005	\$ 0.94
Non-Low Income	\$ 4.238	\$ 4.465	\$ 4.646	\$ 4.824	\$ 5.011	\$ 5.214	\$ 0.98
<b>Overall</b>	<b>\$ 4.227</b>	<b>\$ 4.453</b>	<b>\$ 4.633</b>	<b>\$ 4.810</b>	<b>\$ 4.998</b>	<b>\$ 5.200</b>	<b>\$ 0.97</b>
Low Income	% Change	5.34%	4.07%	3.82%	3.88%	4.04%	23.01%
Non-Low Income	% Change	5.36%	4.05%	3.82%	3.89%	4.05%	23.03%
	<b>DIFFERENCE</b>	<b>-0.03%</b>	<b>0.02%</b>	<b>0.00%</b>	<b>-0.01%</b>	<b>0.00%</b>	<b>-0.02%</b>
<b>Disproportionate Burden?</b>		<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>	<b>No</b>
<b>Overall</b>	<b>% Change</b>	<b>5.35%</b>	<b>4.05%</b>	<b>3.82%</b>	<b>3.89%</b>	<b>4.04%</b>	<b>23.01%</b>
Low Income	\$ Change	\$ 0.217	\$ 0.174	\$ 0.170	\$ 0.180	\$ 0.194	\$ 0.936
Non-Low Income	\$ Change	\$ 0.227	\$ 0.181	\$ 0.177	\$ 0.188	\$ 0.203	\$ 0.976
<b>Overall</b>	<b>\$ Change</b>	<b>\$ 0.226</b>	<b>\$ 0.180</b>	<b>\$ 0.177</b>	<b>\$ 0.187</b>	<b>\$ 0.202</b>	<b>\$ 0.973</b>

<sup>1</sup>To ensure consistency in calculating cumulative impact, the 2018 average weekday trip table was used to calculate 2018, 2020, 2022, 2024, 2026, and 2028 weighted fares.

## 2.4 Magnetic-Stripe Ticket Surcharge Increase

### 2.4.1 Data Sources

BART’s most recent survey, the 2018 Customer Satisfaction Survey conducted in September 2018, was used as the data source for this analysis. The definitions for minority and low-income for this dataset are described in Section 2.1 above.

### 2.4.2 Methodology

BART uses FTA-approved methodology to assess the effects of a fare type or fare media change. The methodology for fare type or fare media changes assesses whether protected riders are disproportionately more likely to use the affected fare type or media. Recent rider survey data are used to make this determination, in this case, the 2018 Customer Satisfaction Survey. In accordance with the DI/DB Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare type or fare media and the protected ridership of the overall system is greater than 10%.

### 2.4.3 Minority Disparate Impact Analysis Finding

Table 2-5 shows disparate impact results for minority riders. The portion of magnetic-stripe ticket users that is minority is similar to BART’s overall minority ridership. Applying the 10% DI/DB Policy threshold to the calculated difference, this report finds that the proposed increase to the magnetic-stripe ticket surcharge would not result in a disparate impact on minority riders because the difference between the affected fare type’s minority ridership share and the overall system’s minority ridership share is not greater than 10%.

**Table 2-5**

	<b>Minority</b>
<b>All Riders</b>	<b>64.5%</b>
<b>Mag Stripe Ticket Riders</b>	<b>68.4%</b>
<b>Difference from All Riders</b>	<b>3.9%</b>
<b>Exceeds DI/DB Policy 10% Threshold?</b>	<b>No</b>

*2.4.4 Low-Income Disproportionate Burden Analysis Finding*

The table below shows disproportionate burden results for low-income riders. The portion of magnetic-stripe ticket users that is low-income is higher than BART's overall low-income ridership. Applying the 10% DI/DB Policy threshold to the calculated difference, this report finds that the proposed increase to the magnetic-stripe ticket surcharge would result in a disproportionate burden on low-income riders because the difference between the affected fare type's low-income ridership share and the overall system's low-income ridership share is greater than 10%.

**Table 2-6**

	<b>Low-Income</b>
<b>All Riders</b>	<b>20.2%</b>
<b>Mag Stripe Ticket Riders</b>	<b>33.9%</b>
<b>Difference from All Riders</b>	<b>13.7%</b>
<b>Exceeds DI/DB Policy 10% Threshold?</b>	<b>Yes</b>

# Section 3: Alternatives Available for People Affected by the Proposed Fare Changes

---

## 3.1 Overview

This section analyzes alternative transit modes, fare payment types, and fare payment media available for people who could be affected by the proposed fare changes. The analysis compares fares increased by the inflation-based amount, reduced discount fares, and increased fares paid with mag stripe paper tickets to fares paid through available alternatives. The section also includes a demographic profile of users by BART fare payment type.

## 3.2 Alternative Transit Modes including Fare Payment Types

BART operates a heavy rail system and an automated people mover that links the BART Coliseum Station and Oakland International Airport. There are four major operators in the BART service area that provide service parallel to some segments of the BART system:

- AC Transit: Bus operator with service in Alameda County and parts of Contra Costa County, and between parts of Alameda County and downtown San Francisco.
- Caltrain: Commuter rail with service from Gilroy in the South Bay through to downtown San Francisco.
- SamTrans: Bus operator with service in San Mateo County.
- San Francisco Muni: Bus and light rail operator serving the City and County of San Francisco.

For fare change Option A (across-the-board 5.4% fare increase) and Option C (mag-stripe ticket surcharge increase), the table below compares BART fares and the cash and Clipper fares of operators providing service in parts of the BART service area.

**Table 3-1**

BART	Clipper Adult	Mag Stripe with Surcharge	
		Current 50-cent Surcharge	Proposed \$1.00 Surcharge
Current minimum fare	\$2.00	\$2.50	--
Inflation-based 5.4% increase minimum fare effective Jan 2020	\$2.10	\$2.60	\$3.10

Other Operator Fares	Adult Local		Adult Pass Price	
	Clipper Fare	Cash Fare	Clipper	Cash
AC Transit	\$2.25	\$2.35	\$84.60 Monthly	\$5.00 Day Pass
Caltrain (zone-based)	\$3.20-\$14.45	\$3.75-\$15.00	\$96-\$433.50 Monthly	\$7.50-\$30.00 Day Pass
SamTrans	\$2.05	\$2.25	\$65.60 Monthly	\$5.50 Day Pass
San Francisco Muni <i>effective 7/1/2019</i>	\$2.50	\$3.00	\$81.00 Monthly (Muni-only)	Passes available only on Clipper

**3.2.1 Option A: Across-the-Board Inflation Based Fare Increase**

In comparing the other operators’ Clipper fares to BART Clipper fares with the scheduled 5.4% less-than-inflation-based fare increase, BART’s minimum fare is less than the minimum fare of three out of the four operators, and only a nickel higher than the fourth operator. A rider could pay a fare using another operator’s monthly pass that would be less expensive than the 2020 \$2.10 BART Clipper fare under the following circumstances:

- AC Transit: Rider takes more than 40 trips per month.
- Caltrain: Rider takes more than 45 trips per month (based on \$96 pass).
- SamTrans: Rider takes more than 31 trips per month.
- San Francisco Muni: Rider takes more than 38 trips per month.

**3.2.2 Option C: Magnetic-Stripe Ticket Surcharge Increase**

In comparing the other operators’ cash fares to the BART Blue magnetic-stripe ticket minimum fare increased by the inflation-based 5.4% plus a \$1.00 surcharge, the BART fare is less expensive than Caltrain and is costlier than the other three operators.

A rider could pay a fare using another operator’s monthly pass that would be less expensive than the 2020 \$3.10 BART Blue magnetic-stripe ticket fare under the following circumstances:

- AC Transit: Rider takes more than 27 trips per month.
- Caltrain: Rider takes more than 30 trips per month (based on \$96 pass).

- SamTrans: Rider takes more than 21 trips per month.
- San Francisco Muni: Rider takes more than 26 trips per month.

### 3.2.3 BART Fare Payment Types, Fare Media and Payment Method by Protected Group

BART’s 2018 Customer Satisfaction Survey data provides demographic profiles of users of BART’s fare media—Clipper and magnetic-stripe tickets—and fare types as shown in the table below. Although BART offers the youth discount to riders age five through 18, BART does not survey riders under the age of 13. Thus the demographics for the youth fare discount type are from the survey’s age grouping of 13 through 17 year-old riders; demographics for 18-year-old riders are not included because they are part of the survey’s next age category of 18 through 24.

The data show minority riders are similar to overall riders in their usage of ticket types and fare media, although minority riders are somewhat less likely to use the 62.5% discounted fare media for seniors. Low-income riders compared to overall riders are more likely to use the regular fare magnetic-stripe ticket and are more likely to use the discounted fare media for people with disabilities and youth, while they are less likely to use the high-value 6.25% discount (HVD) fare product.

**Table 3-2**

Fare Type	Fare Media	Payment Method	Estimated Ridership by Fare Type					
			Minority Riders	% using Fare Type	Low-Income Riders	% using Fare Type	All Riders	% using Fare Type
Clipper regular fare	Smart card	Cash, credit/debit, check, transit benefit payments	172,109	61.6%	49,363	56.4%	272,715	62.9%
Mag stripe regular fare	Paper ticket		41,826	15.0%	20,406	23.3%	60,332	13.9%
High Value Discount	Clipper, Mag stripe		36,988	13.2%	3,487	4.0%	55,823	12.9%
Senior			7,942	2.8%	2,863	3.3%	18,642	4.3%
Persons with Disabilities			5,613	2.0%	3,731	4.3%	7,334	1.7%
Youth (age 13-17)			4,684	1.7%	2,442	2.8%	5,183	1.2%
"A" Muni Fast Pass*	Clipper only		4,922	1.8%	1,939	2.2%	7,009	1.6%
Other	No fare type reported	--	5,455	2.0%	3,314	3.8%	6,356	1.5%
<b>TOTAL</b>			<b>279,539</b>	<b>100.0%</b>	<b>87,546</b>	<b>100.0%</b>	<b>433,394</b>	<b>100.0%</b>

\*San Francisco Muni Fast Pass (monthly pass) accepted on BART within San Francisco.

The next table details the percentages and values by fare type of the proposed 5.4% less-than-inflation increase and the increase to the magnetic-stripe ticket surcharge to \$1.00. These changes do not apply to the Muni Fast Pass, which is the San Francisco Municipal Transportation Agency’s fare instrument. The proposed 5.4% fare change applies to all BART fares and fare types and so the fare types are projected to increase at the same percentage; although each fare type has differing constituencies, all fare types are affected equally. The increase to the magnetic-stripe surcharge is \$0.50 for regular fare Blue tickets; the \$0.50 increase is prorated down to \$0.19 for seniors and people with disabilities and to \$0.25 for youth.

**Table 3-3**

<i>Fare Type</i>	Average Fare		Change		Average Fare	Change in Mag Stripe	
	Current	+5.4% as of Jan 2020	from Current		2020: +5.4% & \$1 Mag Stripe Surcharge	from Current	
			%	\$		%	\$
<b>Regular adult fare</b>							
Clipper	\$4.07	\$4.29	5.4%	\$0.22	n/a		
Mag stripe	\$5.06	\$5.33	5.4%	\$0.27	\$5.83	15.3%	\$0.77
<b>High Value Discount</b>	\$3.82	\$4.02	5.4%	\$0.21	n/a	n/a	n/a
<b>Senior/Disabled 62.5% discount</b>

"A" Muni Fast Pass*	n/a	n/a	n/a	n/a	n/a	n/a	n/a

## Section 4: Public Participation

---

Consistent with BART's Public Participation Plan, BART conducted outreach to inform the public and solicit feedback on the fare options.

### 4.1 Process for Soliciting Public Input

BART hosted a series of in-station outreach events with information tables where staff could speak directly with riders about the proposed fare options and any potential effects they may have on low-income and/or minority riders. At the outreach events, the public had the opportunity to interact with BART staff regarding the January 2020 productivity-adjusted inflation-based fare increase (CPI-based increase), the proposed extension of BART's current CPI-based fare increase program, and the proposed increase to the magnetic-stripe ticket surcharge. The public also had the opportunity to learn about BART's current fare structure and to raise any concerns they had related to the proposed fare options.

The public was also able to complete a BART survey in person. Riders who did not have time to complete the survey on-site were handed informational double-sided postcards that had English on one side, Spanish and Chinese on the other, with the hyperlink for the online survey: [www.bart.gov/faresurvey](http://www.bart.gov/faresurvey). The postcard included additional taglines for language assistance in Tagalog, Vietnamese, and Korean.<sup>3</sup>

The survey period began Tuesday, February 26, 2019 and ended Friday, March 15, 2019. Digital and hardcopy surveys were made available to riders in English, Spanish, and Chinese. A \$120 Clipper card was offered as a prize in a drawing for those who completed either an online or paper survey.

### 4.2 Survey Responses and Public Comments

The outreach resulted in a total of 1,272 surveys completed. For the January 2020 productivity-adjusted inflation-based fare increase, 838 survey respondents chose to comment (Question 1). For the Series 3 Productivity-Adjusted Inflation-Based Fare Increase Program, 1,241 indicated a level of support (Question 2), with 802 providing a follow-up comment (Question 3) to explain their choice. Finally, for the magnetic-stripe ticket surcharge, 1,229 indicated a level of support (Question 4), with 716 providing a follow-up comment (Question 5).

Further information on all the levels of support and comments provided for each specific option is in the attached Public Participation Report (Appendix B).

---

<sup>3</sup> Spanish, Chinese, Tagalog, Vietnamese and Korean are the top five languages in BART's four-county service area (BART Title VI Language Assistance Plan, January 2017).

## Section 5: Equity Findings

---

### 5.1 Overview

BART makes an equity finding regarding any fare change by considering both the results of the disproportionate impact analysis and public input. For the three proposed fare changes, analysis results, public input received, and the resulting equity findings are presented below.

### 5.2 Productivity-Adjusted Inflation-Based Fare Increase of 5.4%

This fare change would be the last in BART's second series of productivity-adjusted inflation-based fare increases. The proposed fare increase would generate revenue that goes into a separate account dedicated to funding BART's highest priority capital reinvestment projects, including new rail cars, a new automatic train control system, and design and construction of the Hayward Maintenance Complex. Implementation of each increase is subject to Board approval of the corresponding and finalized Title VI fare equity analysis, which has been issued in compliance with federal and state laws and regulations in effect at the time.

In January 2019, the Bureau of Labor Statistics released the final inflation data for 2018, which allowed for actual calculation of the 2020 increase. This calculation results in overall inflation of 5.9% over two years. After subtracting the 0.5% productivity factor, the actual fare increase to be implemented in 2020 is 5.4%.

#### 5.2.1 Analysis Findings

This is an across-the-board fare change, and the DI/DB Policy states that such a change will be considered to have a disproportionate impact if the difference between the changes for protected riders (i.e., minority or low-income riders) and non-protected riders is equal to or greater than 5%. Calculations of weighted average fares for protected and non-protected riders show that the increases are virtually identical and thus the difference between these fares does not exceed the 5% threshold for either minority or low-income riders. In addition, the cumulative effect of fare increases from 2012 through the proposed increase in 2020 would not result in a disproportionate impact on protected riders because the increases are virtually identical and thus the difference is less than 5%. Table 5-1 summarizes the findings.

**Table 5-1**

		<b>Minority Disparate Impact</b>	<b>Low-Income Disproportionate Burden</b>
A.	5.4% CPI-Based Fare Increase, 2020	No	No
	<b>Cumulative Impact</b>	No	No

**5.2.2 Public Outreach**

Survey respondents were asked to provide feedback regarding this biennial increase by answering survey Question 1: “Do you have any comments about this planned fare increase?” Approximately 66% of all survey respondents, or 838 respondents, chose to comment regarding the less-than-inflation fare increase. Of the 838 respondents, 49% (414 respondents) identified as minority and 15% (125) as low-income. Of the minority respondents, 58% did not support and 42% were in favor (unconditional or conditional support). Of the low-income respondents, 63% did not support and 37% were in favor (unconditional or conditional support).

Three hundred respondents (approximately 34%) chose not to comment and of these, 49% were minority and 11% were low-income. Not commenting on a proposal may indicate neutrality or potentially some level of acceptance of the option.

**5.2.3 Equity Finding**

The fare change analysis found no disproportionate impact on protected riders. Regarding respondents who chose to comment, of the 414 minority respondents, 58% were not in support; of the 125 low-income survey respondents, 63% were not in support. The remaining 42% of minority and 37% of low-income respondents did support the increase. Not commenting on a proposal may indicate neutrality or potentially some level of acceptance of the option. Of the 300 respondents who chose not to comment, 49% were minority and 11% were low-income.

Although increasing fares by less than inflation may not be a preferred option for some taking the survey, the fare change analysis found no disproportionate impact on protected riders, and new fare revenue will be used to fund critical BART capital needs which will improve the system for all riders, including those who are protected.

The equity finding, therefore, is this fare change would not have a disparate impact on minority riders or place a disproportionate burden on low-income riders. It is also important to note that BART is planning to participate in the Metropolitan Transportation Commission’s (MTC’s) Regional Means-Based Transit Fare Discount Pilot Program, which is proposed to give low-income riders a 20% discount on each BART trip they take. The Board has approved the discount program’s Title VI Fare Equity Analysis and the program is scheduled to be brought to the Board for final approval in June 2019.

### 5.3 Series 3 Productivity-Adjusted Inflation-Based Fare Increase Program

This proposed fare change is the third in the series of BART's Productivity-Adjusted Inflation-Based Fare Increase Program for increases in 2022, 2024, 2026, and 2028. The Board-adopted Financial Stability Policy states that BART's ability to deliver safe, reliable service rests on a strong and stable financial foundation and a policy goal to help achieve this stability is to preserve and maximize BART's fare revenue base, through a predictable pattern of adjustments, while retaining ridership.

Programmed fare increases also help BART avoid the cycle of keeping fares flat for many years, then raising fares by large percentages out of financial necessity. With Resolution 4885, adopted in 2003, the BART Board gave the General Manager authority to implement four productivity-adjusted inflation-based fare increases, one every two years, between 2006 and 2012. Less-than-inflation-based increases are calculated by taking the average of national and Bay Area inflation over two years, less one-half percent for BART productivity improvements

The 2006-2012 series contributed approximately \$290 million (M) in additional fare revenue to help BART weather the Great Recession without reducing service levels. The second series of less-than-inflation fare increases began in 2014, and the last increase is scheduled for January 2020. The 2020 fare change is analyzed in a separate section of this report. By Board policy, all incremental fare revenue, equal to approximately \$330M, helps fund BART's high-priority capital projects: new rail cars, a new automated train control system, and the Hayward Maintenance Complex.

The proposed third series of the less-than-inflation-based fare increase program would raise fares in 2022, 2024, 2026, and 2028. Based on current inflation projections, the increase in each of these years is estimated to be 3.9%. New incremental fare revenue is proposed to help fund additional new rail cars and system improvements, such as a new train control system to provide more frequent service, and operation of enhanced service. Over the eight-year period, the program is estimated to generate approximately \$400M in revenue.

#### 5.3.1 Analysis Findings

This is an across-the-board fare change, and the DI/DB Policy states that such a change will be considered to have a disproportionate impact if the difference between the changes for protected riders (i.e., minority or low-income riders) and non-protected riders is equal to or greater than 5%. Calculations of weighted average fares for protected and non-protected riders show that the increases are virtually identical and thus the difference between these fares does not exceed the 5% threshold for either minority or low-income riders. In addition, the cumulative effect of fare increases from 2018 through the proposed increase in 2028 would not result in a

disproportionate impact on protected riders because the increases are virtually identical and thus the difference is less than 5%. Table 5-2 summarizes the findings.

Each proposed fare increase will be reanalyzed when actual data on inflation becomes available so that the actual percent increases for 2022, 2024, 2026, and 2028 can be calculated; each of these fare equity analyses will be brought to the Board for approval.

**Table 5-2**

	<b>Minority Disparate Impact</b>	<b>Low-Income Disproportionate Burden</b>
<b>B. CPI-Based Fare Increase Program, Series 3, 2022-28</b>	No	No
<b>Cumulative Impact</b>	No	No

### 5.3.2 Public Outreach

Fare Program Survey Question 2 asked respondents to choose a level of support for Series 3 of the CPI-based fare increase program. Respondents could select from one of the following six options: strongly support, somewhat support, neutral, somewhat oppose, strongly oppose, and don't know. Question 2 was answered by 1,241 of the 1,272 survey respondents, which is approximately 98% of all respondents.

Of the 1,241 respondents to Question 2, 622 or approximately 50% identified as minority and 179 or approximately 14% identified as low-income. Of minority respondents, fewer (199 or 32%) supported the fare increase program compared to those who did not support it (327 or 53%). Of the remaining minority respondents, 14% were neutral and 2% selected "don't know." Of low-income respondents, fewer (50 or 28%) supported the fare increase program compared to those who did not support it (100 or 56%). The remaining 14% of low-income respondents were neutral. Neutrality does not indicate whether favorable or unsupportive and may potentially indicate that these respondents were not opposed.

Explanatory comments in response to Question 3 were provided by 802 respondents, or 65% of the 1,241 respondents to Question 2. Of the 802 respondents, 50% (402 respondents) identified as minority and 15% (119 respondents) identified as low-income. A respondent's rating of Question 2 determined the grouping of the comment. For example, a Question 3 comment was automatically grouped as "Neutral" for sorting purposes if the respondent checked "Neutral" for Question 2. "Strongly Support" and "Somewhat Support" comments were grouped as "Support," which may indicate clear support or some level of support with caveats. "Don't Support" includes comments in the "Strongly Oppose" and "Somewhat Oppose" categories. Comments are color-coded by original level of support in Appendix PP-C.

Of the 402 minority respondents providing comments, 60% did not support, 33% were in favor (strongly or somewhat support), 6% were neutral, and 1% selected “don’t know.” Of the 119 low-income respondents providing comments, 59% did not support, 32% were in favor (strongly or somewhat support), 8% were neutral, and 1% selected “don’t know.”

### ***5.3.3 Equity Finding***

The fare change analysis found no disproportionate impact on protected riders. Regarding survey responses to Question 2, fewer minority respondents (199 or 32%) supported the fare increase program compared to those who did not support it (327 or 53%), and 14% were neutral. Of low-income respondents, fewer (50 or 28%) supported the fare increase program compared to those who did not support it (100 or 56%), and 14% were neutral. Neutrality does not indicate whether favorable or unresponsive and may potentially indicate that these respondents were not opposed.

Of the 402 minority respondents providing Question 3 comments, 60% were not in support, 33% were in favor, and 6% were neutral. Of the 119 low-income respondents providing comments, 59% did not support, 32% were in favor and 8% were neutral.

Although Series 3 of a program to increase fares by less than inflation may not be a preferred option for some taking the survey, the fare change analysis found no disproportionate impact on protected riders, and new fare revenue will be used to fund critical BART capital needs and to operate those improvements, which will improve the system for all riders including those who are protected.

The equity finding, therefore, is this fare change would not have a disparate impact on minority riders or place a disproportionate burden on low-income riders. It is also important to note that BART is planning to participate in the Metropolitan Transportation Commission’s (MTC’s) Regional Means-Based Transit Fare Discount Pilot Program, which is proposed to give low-income riders a 20% discount on each BART trip they take. The Board has approved the discount program’s Title VI Fare Equity Analysis and the program is scheduled to be brought to the Board for final approval in June 2019.

## **5.4 Magnetic-Stripe Ticket Surcharge Increase from \$0.50 to \$1.00**

The BART Board approved a \$0.50 surcharge per trip taken with Blue magnetic-stripe tickets effective January 1, 2018. For example, a fare of \$2.25 or \$3.50 paid with Clipper is, respectively, \$2.75 or \$4.00 when paid for with a Blue magnetic-stripe ticket. The \$0.50 surcharge is prorated down for discounted magnetic-stripe tickets: seniors and people with disabilities who receive a 62.5% discount pay an approximately \$0.19 surcharge with a Green or Red ticket respectively, and youth who receive a 50% discount pay a \$0.25 surcharge with a youth Red ticket.

With the surcharge, magnetic-stripe ticket trips have been reduced by approximately 42%. To further encourage the 15% of BART riders still using magnetic-stripe tickets to switch to Clipper, BART proposes to increase the surcharge to \$1.00; for example, a \$3.50 Clipper fare would be \$4.50 with a Blue magnetic-stripe ticket. Riders using discounted tickets would continue to pay a prorated surcharge, so that seniors and people with disabilities pay an approximately \$0.38 surcharge (Green and Red tickets) and youth pay a \$0.50 surcharge (youth Red tickets).

More riders using Clipper supports the region’s goal of optimizing Clipper use. It is also more efficient and cost-effective for BART to maintain one fare payment system, and Clipper card customers enter and exit BART quicker by using more reliable fare gates that only process Clipper.

**5.4.1 Analysis Findings**

The assessment for changes to a fare media is to determine whether protected riders are disproportionately more likely to use the affected fare media. Per the DI/DB Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare media and the protected ridership of the overall system is greater than 10%. The table below shows the results of applying the threshold to survey data:

**Table 5-3**

	<b>Minority Disparate Impact</b>	<b>Low-Income Disproportionate Burden</b>
<b>C. Mag Stripe Surcharge Increase</b>	No	Yes

**5.4.2 Public Outreach**

Fare Program Survey Question 4 asked respondents to choose a level of support for increasing the per-trip surcharge on magnetic-stripe tickets from \$0.50 to \$1.00. Respondents could select from one of the following six options: strongly support, somewhat support, neutral, somewhat oppose, strongly oppose, and don’t know. Question 4 was answered by 1,229 of the 1,272 survey respondents, which is approximately 97% of all respondents.

Of the 1,229 respondents to Question 4, 623 or approximately 51% identified as minority and 180 or approximately 15% identified as low-income. Of minority respondents, more (273 or 44%) supported the surcharge increase compared to those who did not support it (243 or 39%). Of the remaining minority respondents, 16% were neutral and 1% selected “don’t know.” Of low-income respondents, fewer (68 or 38%) supported the surcharge increase compared to those who did not support it (84

or 47%). Of the remaining low-income respondents, 13% were neutral and 2% selected “don’t know.” Neutrality does not indicate whether favorable or unresponsive and may potentially indicate that these respondents were not opposed.

Of the 1,229 survey respondents to Question 4, 716 or approximately 58% answered Question 5 with an explanatory comment. Of the 716 respondents, 48% (345 respondents) identified as minority and 16% (116 respondents) identified as low-income. A respondent’s rating of Question 4 determined the grouping of the comment. For example, a Question 5 comment was automatically grouped as “Neutral” for sorting purposes if the respondent checked “Neutral” for Question 4. “Strongly Support” and “Somewhat Support” comments were grouped as “Support,” which may indicate clear support or some level of support with caveats. “Don’t Support” includes comments in the “Strongly Oppose” and “Somewhat Oppose” categories. Comments are color-coded by original level of support in Appendix PP-C.

Of the 345 minority respondents providing comments, 50% did not support, 38% were in favor (strongly or somewhat support), 10% were neutral, and 2% selected “don’t know.” Of the 116 low-income respondents providing comments, 50% did not support, 38% were in favor (strongly or somewhat support), 9% were neutral, and 3% selected “don’t know.”

#### ***5.4.3 Equity Finding***

The fare change analysis shows that an increase to the magnetic-stripe ticket surcharge may disproportionately affect low-income riders. Of minority respondents answering Question 4, 44% supported and 39% did not support the surcharge increase. Of low-income respondents answering Question 4, 38% supported it and 47% did not. One-half of the public comments provided by protected riders did not support the surcharge increase. The equity finding based on the fare change analysis and public comment received is that a magnetic-stripe ticket surcharge increase may be disproportionately borne by low-income riders.

#### ***5.4.4 Mitigation***

Per BART’s DI/DB Policy, for a disparate impact finding on minority riders, BART should take steps to avoid, minimize, or mitigate disparate impacts. Per the Title VI Circular, the transit provider shall provide a meaningful opportunity for public comment on any proposed mitigation measures, including any less discriminatory alternatives that may be available.

Per the DI/DB Policy and the Title VI Circular, if low-income populations will bear a disproportionate burden of the proposed fare change, the transit provider should take steps to avoid, minimize, or mitigate impacts where practicable and describe alternatives available. Should BART find that a fare change results in a disproportionate impact on both minority and low-income riders, then BART shall

follow the mitigation requirements as described above for addressing a finding of disparate impact on minority riders.

#### *5.4.5 Magnetic-Stripe Ticket Surcharge Increase Established Mitigation*

The equity finding of this report is that additional \$0.50 surcharge on fares paid with paper tickets may be disproportionately borne by low-income riders. Low-income riders can avoid the paper ticket surcharge by paying their fares with a Clipper card instead of a paper ticket. As of January 2018, Clipper cards were available at ticket vending machines at all BART stations, where the rider is charged a one-time \$3 card acquisition fee as payment for the card itself. This \$3 card acquisition fee could be considered a barrier to low-income riders wishing to use a Clipper card to avoid the paper ticket surcharge.

A Title VI fare equity analysis conducted in spring 2017 found that the implementation of the initial \$0.50 magnetic-stripe ticket surcharge may result in a disproportionate impact on low-income riders. Staff, in partnership with the Metropolitan Transportation Commission (MTC), implemented a BART Board-approved mitigation action plan in December 2017-March 2018.

The action plan was extensive and included 29 promotional events at multiple BART stations and community-based organizations (CBOs) located in or near low-income communities to distribute free Clipper cards to their members/clients. BART and MTC distributed approximately 8,624 Clipper cards throughout BART's service area.

BART additionally worked with MTC and expanded on their existing partnership program with CBOs serving low-income communities. MTC added a number of CBOs, recommended by BART, to their existing program to support BART's mitigation efforts. The MTC program is ongoing for as long as the CBO requests cards for their members/clients and provides a consistent pipeline of free Clipper cards to low-income communities. Thus, low-income riders affected by the proposed increase to the magnetic stripe ticket surcharge will continue to be able to obtain free Clipper cards.

An update to the Board in September 2018 indicated that Clipper usage increased and magnetic-stripe ticket use decreased in the months during the mitigation action plan, and that the distributed Clipper cards were being used more than once. Accordingly, BART considers these actions as mitigation.

In February 2019, Title VI/EJ and LEP Advisory Committee members were advised of the potential impact to low-income riders and supported the mitigation efforts that have already been established. Some Committee members' CBOs are part of the MTC free Clipper pipeline program. Committee members also supported BART's overall efforts to move riders to the Clipper card. While BART considers the established

mitigation efforts sufficient, staff will continue to work with the Advisory Committees to determine if any additional public outreach efforts are needed.

## Appendix A(1) & A(2)

---

**APPENDIX A(1): Methodology Used to Assess the Effects of an Across-the-Board Fare Change**

The following steps outline the methodology BART uses to assess the effects of an across-the-board fare change, in this case, the proposed 5.4% productivity-adjusted inflation-based fare increase scheduled for January 1, 2020 and Series 3 of the Productivity-Adjusted Inflation-Based Fare Increase Program, 2022-2028. The steps below describe the methodology as applied to the proposed 5.4% increase. The same methodology was applied to assess the effects of each of the four proposed below-inflation increases (in 2022, 2024, 2026, and 2028) that comprise Series 3 of the Productivity-Adjusted Inflation-Based Fare Increase Program.

**Step 1: For the proposed 5.4% productivity-adjusted inflation-based fare increase, estimate weighted average fares “Before Fare Increase” and “After Fare Increase” for each BART station.**

In Step 1, the weighted average fare paid by riders boarding at each of BART’s existing 48 stations is estimated. Oakland International Airport Station trips and Pittsburg Center Station trips are not included in this analysis because 20 or fewer riders at these stations responded to the 2018 Customer Satisfaction Survey, which is too few to be able to accurately determine the percentage of the station’s riders who are minority or low-income. According to BART’s Marketing and Research Department, as a guideline, the minimum sample size needed for computing margins of error, which measure how accurately a survey sample represents an overall population, is 30 respondents. Future stations or expansion projects, such as the Silicon Valley Berryessa Extension, are not included in this analysis as fares for those projects have not yet been adopted.

The more riders boarding at a station that pay a certain fare, the closer the weighted average fare will be to that more-often paid fare. This is in contrast to a simple average fare where each fare has the same weight. A sample of stations is shown below, with the “2018 Fares” reflecting BART’s current fares and the “2020 Fares” reflecting the proposed 5.4% inflation-based fare increase for 2020.

**Sample of Weighted Average Fare Data for Proposed 2020 5.4% Increase**

<i>Origin Station</i>	<b>2018 Fares</b>	<b>2020 fares</b>
Richmond	\$ 3.90	\$ 4.10
El Cerrito del Norte	\$ 4.09	\$ 4.31
El Cerrito Plaza	\$ 3.71	\$ 3.91
North Berkeley	\$ 3.85	\$ 4.07
Downtown Berkeley	\$ 3.66	\$ 3.86

For each station, a station-to-station fare table is multiplied by the 2018 station-to-station average weekday trip table (composed of actual trip data recorded by BART’s automated fare collection system) and the results are then summed. That sum is divided by the total number of average weekday trips for that station. The resulting dividend is the weighted average fare for that station. This calculation is performed to obtain average weighted fares before and after the fare increase using the appropriate fare table. The following chart shows the fare tables that were used in the calculations for the proposed 5.4% fare increase.

Fare Table used in “Before Fare Increase” Calculation	Fare Table used in “After Fare Increase” Calculation
Actual 2018 Fare Table	2018 Fare Table increased by 5.4% (“2020 Fare Table”)

**Step 2:** For the proposed 5.4% productivity-adjusted inflation-based fare increase, estimate weighted average fares for minority, non-minority, low-income, non-low income, and overall riders.

The percentage of minority and of low-income riders at each station is determined based upon reported responses in the 2018 Customer Satisfaction Survey. These percentages are then multiplied by the 2018 actual station-specific entries to estimate the number of minority and low-income riders at each station. A weighted average fare for minority riders systemwide is then calculated by multiplying, at the station level, the minority riders times the average fare, summing the total and dividing by the number of minority riders. This same step is repeated to calculate the average weighted fare for low-income riders and for non-minority and non-low income riders.

**Step 3:** For the proposed 5.4% productivity-adjusted inflation-based fare increase, calculate the percent increase paid by minority riders, non-minority riders, low-income riders, non-low income riders, and overall users.

Using the systemwide weighted average fares calculated in Step 2 above, the percent increase in fares paid by minority riders, non-minority riders, low-income riders, non-low income riders, and overall riders is calculated “before” and “after” each proposed fare increase.

**Step 4:** For the proposed 5.4% productivity-adjusted inflation-based fare increase, to determine if the fare increase would have a disparate impact on minority riders or result in a disproportionate burden on low-income riders, apply to the differences in percent increases obtained in Step 3 above the appropriate Disparate Impact and Disproportionate Burden Policy threshold.

The difference in percent increase in fares “before” and “after” the increase is calculated for (a) minority riders compared to non-minority riders and (b) low-income riders compared to non-low income riders. The proposed inflation-based fare increase is an across-the-board fare increase. BART’s Disparate Impact and Disproportionate Burden Policy states that an across-the-board fare change will be considered to have a disproportionate impact if the difference between the changes for protected riders and nonprotected riders is equal to or greater than 5%. Therefore, a 5% threshold is applied to the difference in percent increase in fares.

## APPENDIX A(2): Methodology Used to Assess the Adverse Effects of a Fare Type Change

The methodology for fare type changes assesses whether protected riders are disproportionately more likely to use the affected fare type or media. Recent rider survey data are used to make this determination. When the survey sample size of the ridership for the affected fare type is too small to permit a determination of statistical significance, BART collects additional data. In accordance with the Disparate Impact/Disproportionate Burden Policy, impacts are considered disproportionate when the difference between the protected ridership using the affected fare type and the protected ridership of the overall system is greater than 10%.

The table below shows the data by fare type for protected and non-protected riders from the 2018 Customer Satisfaction Survey. As an example, increasing fares for the fare type used by riders with disabilities would be considered to have a disproportionate impact because the use of the “disabled” fare type by low-income riders compared to overall low-income riders exceeds the Policy threshold of 10%.

	Minority	Non-Minority	Sample Size <sup>1</sup>	Low-Income	Non-Low Income	Sample Size <sup>1</sup>
<b>All Riders</b>	<b>64.5%</b>	<b>35.5%</b>	<b>5,113</b>	<b>20.2%</b>	<b>79.8%</b>	<b>4,649</b>
<b>Regular BART fare</b>	<b>64.3%</b>	<b>35.7%</b>	<b>3,935</b>	<b>20.9%</b>	<b>79.1%</b>	<b>3,601</b>
<i>Difference from All Riders</i>	<i>-0.2%</i>			<i>0.7%</i>		
<b>High Value Discount</b>	<b>65.4%</b>	<b>34.6%</b>	<b>553</b>	<b>6.2%</b>	<b>93.8%</b>	<b>502</b>
<i>Difference from All Riders</i>	<i>0.9%</i>			<i>-14.0%</i>		
<b>"A" Muni Fast Pass</b>	<b>70.6%</b>	<b>29.4%</b>	<b>77</b>	<b>26.8%</b>	<b>73.2%</b>	<b>73</b>
<i>Difference from All Riders</i>	<i>6.1%</i>			<i>6.6%</i>

# Section 1: Public Participation Purpose

---

## 1.1 Purpose

Pursuant to FTA Circular 4702.1B (October 2012), BART conducted outreach to provide the public with information about three proposed fare changes and to solicit rider feedback. A key component of Title VI outreach is to seek input on fare changes inclusive of minority, low-income, and limited English proficient (LEP) populations. BART used established information outlets to engage the stakeholders who would be directly affected by the fare changes under consideration. By doing so, BART ensures consistency with its Public Participation Plan (2011) as well as ensures efficiency in communication with community members.

The District is required to conduct a Title VI Fare Equity Analysis any time there is a proposed change to BART's fares. Accordingly, staff completed a Title VI Fare Equity Analysis to determine if any of the following proposed fare changes would have a disproportionate impact on protected populations:

- A productivity-adjusted inflation-based 5.4% fare increase scheduled for January 2020;
- Extension of BART's current productivity-adjusted inflation-based fare increase program for the period 2022-2028; and
- An increase to the magnetic stripe ticket surcharge from \$0.50 to \$1.00.<sup>1</sup>

The next sections describe the outreach and community engagement conducted by BART staff, followed by analysis of survey responses by protected group. All comments in this report have been transcribed as written by the respondent with the redacting of any profanity and personal identifying information.

---

<sup>1</sup> The surcharge would continue to be reduced by a prorated amount for discounted Green and Red magnetic-stripe tickets for seniors, people with disabilities, and youth.

# Section 2: Public Participation Process

---

## 2.1 Outreach Events

BART hosted a series of in-station outreach events with information tables where staff could speak directly with riders about the proposed fare options and any potential effects they may have on low-income and/or minority riders. At the outreach events, the public had the opportunity to interact with BART staff regarding the January 2020 productivity-adjusted inflation-based fare increase (CPI-based increase), the proposed extension of BART’s current CPI-based fare increase program, and the proposed increase to the magnetic-stripe ticket surcharge. The public also had the opportunity to learn about BART’s current fare structure and to raise any concerns they had related to the proposed fare options.

The public was also able to complete a BART survey in person. Riders who did not have time to complete the survey on-site were handed informational double-sided postcards that had English on one side, Spanish and Chinese on the other, with the hyperlink for the online survey: [www.bart.gov/faresurvey](http://www.bart.gov/faresurvey). The postcard included additional taglines for language assistance in Tagalog, Vietnamese, and Korean.<sup>2</sup>

The survey period began Tuesday, February 26, 2019 and ended Friday, March 15, 2019. Digital and hardcopy surveys were made available to riders in English, Spanish, and Chinese. A copy of all versions of the survey is provided in Appendix PP-A. Appendix PP-E provides a copy of the postcard distributed to riders unable to complete the survey during the outreach event. A \$120 Clipper card was offered as a prize in a drawing for those who completed either an online or paper survey.

BART sought public input on the fare options at BART station outreach events on the following dates and times:

**Table 2-1: Outreach Locations, Dates, and Times**

Station	Date	Time
<b>Pittsburg/Bay Point</b>	Tuesday, February 26, 2019	7am-9am
<b>Balboa Park</b>	Wednesday, February 27, 2019	5pm-7pm
<b>Fruitvale</b>	Thursday, February 28, 2019	5pm-7pm
<b>Fremont</b>	Tuesday, March 5, 2019	7am-9am
<b>16th St. Mission</b>	Wednesday, March 6, 2019	7am-9am
<b>El Cerrito del Norte</b>	Thursday, March 7, 2019	5pm-7pm

Interpreters were available as necessary at specific stations, based on a demographic and frequency of contacts-at-stations analysis, as shown in Table 2-2.

---

<sup>2</sup> Spanish, Chinese, Tagalog, Vietnamese and Korean are the top five languages in BART’s four-county service area (BART Title VI Language Assistance Plan, January 2017).

**Table 2-2: Interpreters**

Station	Interpreter
Pittsburg/Bay Point	Spanish
Balboa Park	Spanish, Chinese
Fruitvale	Spanish
Fremont	Spanish
16th St. Mission	Spanish
El Cerrito del Norte	Spanish

**Balboa Park Station Outreach: February 27, 2019**

## 2.2 Publicity

Publicity for the outreach events was conducted through print and social media. BART staff worked to ensure all available information related to the fare options and survey was available to riders in multiple languages. The next sections describe how BART advertised outreach events and the survey link.

### 2.2.1 Multilingual Newspaper Ads

Multilingual newspaper/media ad placements with readership covering BART's four-county service area were placed prior to and during outreach. The ads ran one to two times (depending on the newspaper's publication schedule) and advertised the upcoming in-station outreach events and a link to the BART survey. The following newspaper publications had ads placed. Copies of some ads can be found in Appendix PP-F.

- La Opinión de la Bahía (Spanish)
- Visión Hispana (Spanish)
- Viet Nam Daily News (Vietnamese)
- Korean Times & Daily News (Korean)
- Sing Tao (Chinese)
- World Journal (Chinese)
- India West (English)

### *2.2.2 Social Media*

BART staff developed and posted all pertinent information regarding the fare options via Twitter and BART.gov. The article was posted on Thursday, February 21, 2019, publicizing in advance upcoming outreach events and the survey link. Twitter posts also publicized the survey link. Sample posts are included in Appendix PP-G.

### *2.2.3 Electronic Destination Sign System*

On all BART station platforms, there are multiple electronic destination signs (DSS) that inform riders of train arrivals and display other important information BART needs to communicate. Throughout the survey period (February 26-March 15, 2019), the DSS regularly displayed the [www.bart.gov/fare survey](http://www.bart.gov/fare_survey) link to alert riders to take the survey.

### *2.2.4 BART Advisory Committees*

BART also distributed information on the outreach events, survey link, and copies of the survey in English, Spanish, and Chinese to the Title VI/Environmental Justice and Limited English Proficiency Advisory Committees to distribute to the communities they serve. For more information on the BART Advisory Committees' input, see section 2.3 below.

## **2.3 Title VI/Environmental Justice and Limited English Proficiency Advisory Committees**

BART staff presented the three fare options to BART's Title VI/Environmental Justice (EJ) and Limited English Proficiency (LEP) Advisory Committees. The joint meeting was held Tuesday, February 19, 2019 from 10:30AM – 1PM at the BART Board Room, Kaiser Center 20<sup>th</sup> Street Mall (2040 Webster Street), Oakland, California. The meeting was open to the public and the agenda was noticed at least 72 hours in advance of the meeting.

The Title VI/EJ Advisory Committee consists of members of CBOs and ensures that the District is taking reasonable steps to incorporate Title VI and EJ Policy principles in its transportation decisions. The LEP Advisory Committee, which also consists of members of CBOs, assist in the development of the District's language assistance measures and provide input on how the District can provide programs and services to customers, regardless of language ability.

At the meeting, Committee members expressed concerns about the 2020 CPI-based fare increase and extension of the CPI-based fare increase program. Questions were raised about BART's current fare structure and why it couldn't be a flat fare like other transit systems. BART staff addressed these concerns. Committee members shared different options for managing fare increases, such as BART's canceling a planned fare increase if the District had collected sufficient revenue in a given year to make the increase unnecessary. Members also expressed that they wanted to clearly know what the fare increase revenue was going towards, such as quality of life improvements. BART staff explained which capital programs the 2020 CPI-based fare increase would fund.

Regarding the magnetic-stripe ticket surcharge increase, members did not raise any concerns and supported the District's goal of moving customers from magnetic-stripe tickets to Clipper cards. They inquired whether BART was considering distributing free Clipper cards systemwide to low-income riders. BART staff explained that all eligible CBOs can join the Metropolitan Transportation

Commission's (MTC's) free Clipper card distribution program in order to receive free Clipper cards to give to their eligible low-income members. Some CBOs in the Advisory Committees have already joined the MTC program.

Committee members were e-mailed a copy of the survey in English, Spanish and Chinese, a copy of the postcard, and were also provided the survey link to distribute to their communities. Committee members were advised that they could also request hardcopies of the survey.

**Joint Title VI/EJ & LEP Advisory Committees Meeting: February 19, 2019**

# Section 3: Outreach Results

---

## 3.1 Title VI Outreach Surveys

BART’s public outreach efforts resulted in the District’s receipt of 1,272 completed surveys. The surveys generated by these public outreach efforts, specifically designed to be inclusive of minority and low-income populations, are the dataset for analysis and all uses of the generic term “survey” in this report refer to these Title VI Outreach Surveys. The Title VI Outreach Survey was designed to collect public input and so was open to everyone to complete, and thus distribution was not done using a random sampling methodology. As such, these survey results cannot be projected to the overall population, and statistical calculations such as margins of error cannot be computed.

Approximately 97% of all surveys received during the open survey period were completed online. Table 3-1 provides the breakdown of where and how many surveys were received.

**Table 3-1**

Location	No. of Surveys Collected
Pittsburg/Bay Point	2
Balboa Park	7
Fruitvale	3
Fremont	2
16th St. Mission	20
El Cerrito del Norte	1
Online	1,237
<b>Total Surveys Received</b>	<b>1,272</b>

## 3.2 Survey Demographic Data

Table 3-3 provides a demographic breakdown of all survey respondents.

### 3.2.1 Minority

A “non-minority” classification refers to those respondents who self-identified as “white.” A “minority” classification includes the combined responses from all other races or ethnic identities including those identifying as multi-racial.

### 3.2.2 Income

Consistent with BART’s Title VI Triennial Program standards, low-income is defined as 200% of the federal poverty level. This broader definition is used to account for the region’s higher cost of living when compared to other regions. This level is approximated by considering both the household size and household income of respondents to the 2018 Customer Satisfaction Survey. The household size and household income combinations that comprise “low-income” are as follows:

**Table 3-2**

<b>LOW INCOME</b>	
<b>Household Size</b>	<b>Household Income</b>
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

For example, a household of two or more people with an income of \$33,000 would be considered low-income. According to 2018 Customer Satisfaction Survey responses, 20.2% of BART riders are considered low income.

### 3.3 E-Mail Invitation Surveys

As noted in Section 3.1 above, this Title VI Fare Equity Analysis relies on survey results from respondents to the Title VI Outreach Survey. However, BART’s Marketing & Research Department also distributed the survey online to randomly selected BART riders, and these surveys are referred to as E-mail Invitation Surveys. BART e-mailed 2,750 riders from its database. This database is comprised of riders who had previously been randomly selected for an onboard survey while riding BART, and who had agreed to be contacted for future research; 568 surveys were received from this group. The data received from these surveys was analyzed in a separate analysis. Public comments from the E-mail Invitation Surveys are included for informational purposes in Appendix PP-H.

**Table 3-3 Survey Demographic Summary: All Respondents (N=1272)**

Minority Status	90% of survey respondents answered this question	Sample Size
Minority	54%	623
Non-Minority	46%	522
<b>Total responses</b>		1145
Ethnicity	90% of survey respondents answered this question	Sample Size
White	46%	522
Black/African American	6%	68
Asian or Pacific Islander	25%	287
Hispanic, Latino, or Spanish	16%	181
Other, non-Hispanic	3%	37
Multi-racial	4%	44
American Indian	1%	6
<b>Total responses</b>		1145
Low income Status	88% of survey respondents answered this question	Sample Size
Low-income	16%	180
Non-low-income	84%	945
<b>Total responses</b>		1125
Annual household income		Sample Size
Under \$25,000	9%	98
\$25,000 - \$34,999	5%	52
\$35,000 - \$39,999	3%	33
\$40,000 - \$49,999	5%	56
\$50,000 - \$59,999	7%	82
\$60,000 - \$74,999	9%	102
\$75,000 - \$99,999	16%	181
\$100,000 or more	46%	522
<b>Total responses</b>		1126
How well is English spoken?	100% of survey responders answered this question	Sample Size
Very well	95%	1210
Well	3%	42
Not well	1%	18
Not at all	0%	2
<b>Total responses</b>		1272

\*Note: due to rounding, percentages may not add up to 100%, sample size dependent upon the number of respondents that answered each survey question. Not all questions were answered on many surveys.

\*\*Low-income and non low-income percentages factor in both household size and annual household income, so this sample size includes only respondents that answered both of these survey questions.

# Section 4: Public Comment Overview

---

## 4.1 Overview

By reaching out to the public via in-station events, Title VI/Environmental Justice and Limited English Proficiency Advisory Committees meetings, and social media posts, BART received 1,272 survey responses. The survey asked about three fare options. For each fare option, there was an open-ended question asking respondents for their comments. All open-ended comments have been categorized, sorted, and color-coded by general theme in Appendices PP-B, PP-C, and PP-D. Additionally, for the CPI-based fare increase program extension and mag-stripe ticket surcharge increase, respondents had a range of levels of support from which to choose: strongly support, somewhat support, neutral, somewhat oppose, strongly oppose, and don't know.

## 4.2 Public Comment Grouping Analysis: General Methodology

While comments can be generally categorized and reviewed for popular themes, they should not be analyzed numerically as doing so would give undue weight to the more subjective feedback solicited from respondents. Categorizing the comments, however, provides a general indication of the points the public outreach participants choosing to comment wished to communicate. See Sections 5-7 for more detailed information on the grouping methodology for each fare option.

# Section 5: January 2020 CPI-Based Fare Increase: Public Comments

---

## 5.1 January 2020 CPI-Based Fare Increase Survey Question

Question 1 of the Fare Program Survey was an open-ended question regarding the scheduled January 2020 CPI-based 5.4% fare increase:

**Do you have any comments about this scheduled fare increase?**

Of the 1,272 surveys received, 838 survey respondents chose to answer this question, which is approximately 66% of all respondents. There were 134 miscellaneous comments (i.e., a comment unrelated to the scheduled fare increase) and 300 respondents who did not comment that have been removed from the overall calculation of comment percentages.

## 5.2 Public Comment Grouping Analysis: Methodology

Comments are grouped into the following five categories:

1. Support (Unconditional)
2. Support (Conditional)
3. Don't Support
4. Miscellaneous
5. Did Not Comment

BART staff reviewed all comments and placed each into one of the above categories. "Support (Unconditional)" comments are those where riders made it clear they wanted to see the option implemented. "Support (Conditional)" comments indicate some level of support but often with caveats. Comments are in the "Don't Support" category when it can easily be determined the respondent did not wish to implement the option. "Miscellaneous" comments are those that do not directly address the fare increase. Respondents who chose not to comment are categorized as "Did Not Comment." All comments are color-coded by level of support in Appendix PP-B.

## 5.3 Overall Summary of Responses

Table 5-1 is a summary of responses for level of support broken down by protected status.

**Table 5-1 Overall Summary of Responses**

	Support (Unconditional)	Support (Conditional)	Don't Support	Total
<b>Minority</b>	<b>78</b>	<b>97</b>	<b>239</b>	<b>414</b>
<b>%</b>	<b>18.8%</b>	<b>23.4%</b>	<b>57.7%</b>	<b>100.0%</b>
Non-Minority	99	82	162	343
%	28.9%	23.9%	47.2%	100.0%
Unknown*	9	14	58	81
%	11.1%	17.3%	71.6%	100.0%
<b>Low-Income</b>	<b>19</b>	<b>27</b>	<b>79</b>	<b>125</b>
<b>%</b>	<b>15.2%</b>	<b>21.6%</b>	<b>63.2%</b>	<b>100.0%</b>
Non-Low Income	149	148	320	617
%	24.1%	24.0%	51.9%	100.0%
Unknown**	18	18	60	96
%	18.8%	18.8%	62.5%	100.0%

\*"Unknown" are those respondents who left the race/ethnicity question blank.

\*\*"Unknown" are those respondents who provided comments but did not provide complete income information.

Of the 414 total minority respondents, 175, or 42.3%, supported (unconditionally and conditionally) the scheduled fare increase, while 57.7% did not support it. Of the 125 low-income respondents, 36.8% supported (unconditionally and conditionally) the scheduled fare increase, while 63.2% did not support it. Sections 5-4 through 5-6 provides the full breakdown by level of support.

#### 5.4 Support (Unconditional) Comments

Support (Unconditional) comments express full support for the CPI-based fare increase. Tables 5-2 and 5-3 provide a breakdown by protected group of all comments categorized as unconditional support for the scheduled fare increase.

**Table 5-2 Minority (Unconditional) Support Summary of Responses**

	Number of Support (Unconditional) Commenters	Total Number of Commenters	Percentage of Support (Unconditional)
<b>Minority</b>	<b>78</b>	<b>414</b>	<b>19%</b>
<b>Non-Minority</b>	<b>99</b>	<b>343</b>	<b>29%</b>
<b>Unknown*</b>	<b>9</b>	<b>81</b>	<b>11%</b>
<b>Total</b>	<b>186</b>	<b>838</b>	<b>22%</b>

\*"Unknown" are those respondents who left the race/ethnicity question blank.

**Table 5-3 Low-Income (Unconditional) Support Summary of Responses**

	Number of Support (Unconditional) Commenters	Total Number of Commenters	Percentage of Support (Unconditional)
<b>Low-Income</b>	19	125	15%
<b>Non Low-Income</b>	149	617	24%
<b>Unknown*</b>	18	96	19%
<b>Total</b>	<b>186</b>	<b>838</b>	<b>22%</b>

\*"Unknown" are those respondents who provided comments but did not provide complete income information.

A lower percentage of minority respondents (19%) compared to non-minority respondents (29%) unconditionally supported the January 2020 fare increase. A lower percentage of low-income (15%) than non low-income (24%) respondents unconditionally supported the scheduled fare increase.

### 5.5 Support (Conditional) Comments

Comments that supported the fare increase but with caveats are categorized as Support (Conditional). Tables 5-4 and 5-5 provide a breakdown of all comments categorized as conditionally supporting the scheduled fare increase.

**Table 5-4 Minority (Conditional) Support Summary of Responses**

	Number of Support (Conditional) Commenters	Total Number of Commenters	Percentage of Support (Conditional)
<b>Minority</b>	97	414	23%
<b>Non-Minority</b>	82	343	24%
<b>Unknown*</b>	14	81	17%
<b>Total</b>	<b>193</b>	<b>838</b>	<b>23%</b>

\*"Unknown" are those respondents who left the race/ethnicity question blank.

**Table 5-5 Low-Income (Conditional) Support Summary of Responses**

	Number of Support (Conditional) Commenters	Total Number of Commenters	Percentage of Support (Conditional)
<b>Low-Income</b>	27	125	22%
<b>Non Low-Income</b>	148	617	24%
<b>Unknown*</b>	18	96	19%
<b>Total</b>	<b>193</b>	<b>838</b>	<b>23%</b>

\*"Unknown" are those respondents who provided comments but did not provide complete income information.

Approximately the same percentage of minority (23%) and non-minority (24%) respondents conditionally supported the January 2020 fare increase. A slightly lower percentage of low-income (22%) than non low-income (24%) respondents conditionally supported the scheduled fare increase.

### 5.6 Don't Support Comment Overview

The Don't Support category captures all comments where the respondent expresses some form of objection to the fare increase. Tables 5-6 and 5-7 show a breakdown by protected group of how many commenters did not support the scheduled fare increase.

**Table 5-6 Minority Don't Support Summary of Responses**

	Number of Don't Support Commenters	Total Number of Commenters	Percentage of Don't Support
<b>Minority</b>	239	414	58%
<b>Non-Minority</b>	162	343	47%
<b>Unknown*</b>	58	81	72%
<b>Total</b>	459	838	<b>55%</b>

\*"Unknown" are those respondents who left the race/ethnicity question blank.

**Table 5-7 Low-Income Don't Support Summary of Responses**

	Number of Don't Support Commenters	Total Number of Commenters	Percentage of Don't Support
<b>Low-Income</b>	79	125	63%
<b>Non Low-Income</b>	320	617	52%
<b>Unknown*</b>	60	96	63%
<b>Total</b>	459	838	<b>55%</b>

\*"Unknown" are those respondents who provided comments but did not provide complete income information.

A higher percentage of minority (58%) than non-minority (47%) respondents did not support the January 2020 fare increase. A higher percentage of low-income (63%) than non low-income (52%) respondents did not support the scheduled fare increase.

## 5.7 Public Comments

The next sections provide sample comments by level of support from protected respondents. Appendix PP-D contains all comments received.

### 5.7.1 Support (Unconditional)

#### *Minority Respondents*

- *I think this is justifiable. Although the prices are rising, if it improves bart quality and consistency then I think it's worth it.*
- *OK as long as the extra revenue goes to what matters (expanded security, improved infrastructure, etc)*
- *No, I believe this small increase is a benefit to the system and the pay off is large.*
- *10 cents is a minimal increase I can work with in my budget.*

#### *Low-Income Respondents*

- *The fare increase is understandable. The tolls on the bridge are always increasing so it makes sense that Bart fares do too. I'm just glad it's only raising by cents as opposed to dollars like the tolls.*
- *This seems like a reasonable solution and as long as it's less than inflation I don't see an issue arising*
- *This sounds like a fair increase. I really hope it goes towards improving train service for commuters like promised!*

## 5.7.2 Support (Conditional)

### Minority Respondents

- *I think BART is already pretty expensive compared to a lot of other public transit systems I've used. As a student who commutes daily, these fare increases would be unwelcomed, but if there was a significant increase in my quality AND safety in my rides, I'd be willing to pay.*
- *I would be OK with a fare increase IF I didn't have to ride VERY crowded trains during rush hour. This is especially true on the Richmond line to and from San Francisco. Also PLEASE do something about making clean and free restrooms available at or in close proximity to the stations.*
- *In order to raise the price please have the bart trains cleaned, homeless free and more police to patrol the office.*

### Low-Income Respondents

- *as long as you can stop the fare cheaters and improve the safety and quality of the ride.*
- *I don't have an issue with that. However, you'd gain far more by solving your fare jumper problem.*
- *If it goes toward safety and cleanliness it is needed.*

## 5.7.3 Don't Support

### Minority Respondents

- *I feel like this increase is too small and won't prevent the amount of panhandlers and beggars on the BART trains, so I don't agree with it*
- *I do not feel the bart fares should increase every two years. This economy is too unstable. What about people on fixed incomes? What about the homeless people that take up two seats on the bart train. One quarter of the people that get on the bart do not sit down where seats are available making it difficult for people to get off at certain stations. What about safety? If you can not take care of the problems just mentioned how can you continue to increase fees.*
- *I am really tired of rate increases when service, cleanliness, and safety are still subpar.*

### Low-Income Respondents

- *I take the Bart every week so I am not in favor of the scheduled fare increase. The increase is a small amount, but it will add up*
- *Yes, it is too expensive and I commute everyday from east bay.*
- *Yes because I feel as if a lot of changes need to be made prior to increasing the fare*

## 5.8 Did Not Comment

Respondents who chose not to comment on the fare increase are categorized as "Did Not Comment." Not commenting on a proposal may indicate neutrality or potentially some level of acceptance of the option. The breakdown of those who chose not to comment (300 respondents) include: 148 minority (123 non-minority, 29 unknown) and 32 low-income (233 non low-income and 35 unknown). These respondents are not included in the total comment count of 838 (shown in Tables 5-1 to 5-6 above).

## 5.9 Miscellaneous Comments

Comments are categorized as Miscellaneous when there appears to be no connection between the respondents' comments and the fare increase. So that data is not skewed by comments unrelated to the fare increase, the 134 comments categorized as Miscellaneous are not included in the total comment count of 838 (shown in Tables 5-1 to 5-6 above).

The following are examples of Miscellaneous comments:

- *Give discounts to people who work in public service*
- *Why does not BART tax major employers whose employees take BART every day to get to work?*
- *What about WiFi?*

## 5.10 Comments Summary

Many of the respondents who unconditionally supported the scheduled January 2020 fare increase thought that the less-than-inflation fare increases were reasonable and necessary to address capital needs and improvements. Respondents who conditionally supported the fare increase wanted to ensure that the new revenue would go towards capital improvements; some also thought that the increase should be less than 5.4%. Respondents who did not support the fare increase noted that BART fares were already too high and an increase would be a strain on their budget, and the amount of the fare increase did not reflect cost-of-living wage increases.

Respondents across all levels of support identified the following as important topics for BART to address: fare evasion, safety and security, homelessness, cleanliness, service frequency, and crowded trains.

# Section 6: BART Fare Increase Program: Public Level of Support & Comments

---

## 6.1 BART Fare Increase Program Survey Questions

Questions 2 and 3 of the Fare Program Survey asked respondents to choose a level of support for extending the CPI-based fare increase program and provide comments to explain their choice.

**Question 2: Would you support or oppose extending BART’s current fare increase program (less-than-inflation increases every two years)?**

- Strongly support**
- Somewhat support**
- Neutral**
- Somewhat oppose**
- Strongly oppose**
- Don’t know**

Of the 1,272 surveys received, 1,241 survey respondents chose to answer this question, which is approximately 98% of all respondents.

**Question 3: If you would support or oppose this program, please explain.**

Of the 1,241 survey respondents who answered Question 2, 802 or approximately 65% provided a follow-up comment to explain their choice. Two survey respondents did not indicate a level of support but provided a comment. They are grouped as “No Answer” in Appendix PP-C. The grouping methodology for this fare option is described below.

## 6.2 Level of Support & Public Comment Grouping Analysis: Methodology

As noted above, this fare option had a two-part question. The first question asked respondents to choose a level of support for the fare option. The second question asked for comments explaining their choice.

The six categories in the survey are as follows:

1. Strongly Support
2. Somewhat Support
3. Neutral
4. Somewhat Oppose
5. Strongly Oppose
6. Don’t Know

How the respondent rated the first question determined the grouping of the follow-up comments in the second question. For example, if a respondent checked “Neutral” for the first question, and if they chose to provide a comment in the follow-up question, that comment was automatically grouped as

“Neutral” for sorting purposes. “Strongly Support” and “Somewhat Support” comments are grouped as “Support.” These comments may indicate clear support or some level of support with caveats. Comments in the “Strongly Oppose” and “Somewhat Oppose” categories are grouped as “Don’t Support.” These are comments where the respondent did not wish to implement the fare option. Comments are color-coded by original level of support in Appendix PP-C. The chart and tables below show respondents’ opinions about the proposed fare increase program.

### 6.3 Question 2: Summary of Levels of Support

#### 6.3.1 Minority Respondents

**Table 6-1 Minority Summary of Responses (n=1,241)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Minority</b>	199	86	327	10	622
<b>%</b>	32%	14%	53%	2%	100%
Non-Minority	254	74	180	10	518
%	49%	14%	35%	2%	100%
Unknown*	15	15	69	2	101
%	15%	15%	68%	2%	100%

\*“Unknown” are those respondents who left the race/ethnicity question blank.

Table 6-1 shows that fewer minority respondents (32%) supported the fare increase program compared to the number of minority respondents who did not support it (53%). Of the remaining minority respondents, 14% were neutral and 2% selected “Don’t know.”

#### 6.3.2 Low-Income Respondents

**Table 6-2 Low-Income Summary of Responses (n=1,241)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Low-Income</b>	50	25	100	4	179
<b>%</b>	28%	14%	56%	0%	100%
Non Low-Income	396	133	399	13	941
%	42%	14%	42%	1%	100%
Unknown*	22	17	77	5	121
%	18%	14%	64%	0%	100%

\*“Unknown” are those respondents who provided comment but did not provide complete income information.

Table 6-2 shows that fewer low-income respondents (28%) supported the fare increase program compared to the number of low-income respondents who did not support it (56%). Of the remaining low-income respondents, 14% were neutral.

## 6.4 Question 3: Summary of Levels of Support (Public Comments)

Of the 1,241 survey respondents who answered Question 2, 802 or approximately 65% provided a follow-up comment to explain their choice. Tables 6-3 and 6-4 shows the breakdown of those who chose to comment.

### 6.4.1 Minority Respondents

**Table 6-3 Minority Summary of Responses (Public Comments, n=802)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Minority</b>	<b>131</b>	<b>24</b>	<b>243</b>	<b>4</b>	<b>402</b>
<b>%</b>	<b>33%</b>	<b>6%</b>	<b>60%</b>	<b>1%</b>	<b>100%</b>
Non-Minority	164	20	148	4	336
%	49%	6%	44%	1%	100%
Unknown*	9	4	50	1	64
%	14%	6%	78%	2%	100%

\*"Unknown" are those respondents who left the race/ethnicity question blank.

Table 6-3 shows that of those minority respondents who chose to comment on the fare increase program, fewer minority respondents (33%) supported the fare increase program compared to the number of minority respondents who did not support it (60%). Of the remaining minority respondents, 6% were neutral and 1% selected "Don't know."

### 6.4.2 Low-Income Respondents

**Table 6-4 Low-Income Summary of Responses (Public Comments, n=802)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Low-Income</b>	<b>39</b>	<b>9</b>	<b>70</b>	<b>1</b>	<b>119</b>
<b>%</b>	<b>32%</b>	<b>8%</b>	<b>59%</b>	<b>1%</b>	<b>100%</b>
Non Low-Income	249	35	309	6	599
%	42%	5%	52%	1%	100%
Unknown*	16	4	62	2	84
%	19%	5%	74%	2%	100%

\*"Unknown" are those respondents who provided comment but did not provide complete income information.

Table 6-4 shows that of those low-income respondents who chose to comment on the fare increase program, fewer low-income respondents (32%) supported the fare increase program compared to the number of low-income respondents who did not support it (59%). Of the remaining low-income respondents, 8% were neutral and 1% selected "Don't know."

## 6.5 Question 3: Public Comments

The next sections provide sample comments by level of support from protected respondents. Appendix PP-C contains all comments received.

## 6.5.1 Support

### Minority Respondents

- *Need new trains. In support as it is below inflation.*
- *Obviously, no consumer likes to hear that prices will increase. However, I recognize the need to generate capital to maintain and improve services. With that being said, I would hope that BART will be completely transparent about the extra revenue raised and exactly what projects it goes towards.*
- *bart's got bills to pay, and it's still cheaper than many bus and light rail options. Less-than-inflation seems fine to me.*

### Low-Income Respondents

- *nobody is going to pay for our system unless we cough up the money so I guess we have to have these increases. I'd love to see BART become more modern and usually BART gives me good service and has exemplary customer service and staff.*
- *If this program is to be used to expand or upgrade the current system it's a great idea*
- *Raising fares is irritating, but BART does need upgrades to ensure safety so I support it.*

## 6.5.2 Neutral

### Minority Respondents

- *I'm kinda in the middle*
- *I'd like the rate to be determined every two years, not in advance, to account for a slow or strong economy.*

### Low-Income Respondents

- *What happened to the bond money?*
- *I think they need more police on train for the homeless*

## 6.5.3 Don't Support

### Minority Respondents

- *Wages aren't going up for most of us. As a teacher my salary does not increase at the same rate as BART fare increases.*
- *Bart already has funds for new rail cars. It should attempt to recover funds lost due to late deliveries and not penalize riders. There are other sources of revenue that BART should tap, from the state or the federal government.*
- *How about stopping fare evaders. If you look at every transit agency most of the trouble and damage is caused by people who do not pay. If you did a better job of that then your overall cost of repairs and clean up will go down probably greater than 5.4%.*

### Low-Income Respondents

- *I see no improvements, only worsening conditions in all aspects of the system, regardless of fare increases.*

- *The Bay Area is way too expensive. For people that rely on Bart as transportation, that “small” increase is a big stressor every pay check*
- *Traveling from Dublin to South San Francisco is already 6.90. I can't afford to pay even more!!!! I want to do the more eco- friendly thing and I know carpooling/driving can still add up but transit should ALWAYS be the cheapest option- not an option that competes at a higher price. I would only support an increase if there was more safety, carts, and accessibility to ALL income levels.*

## 6.6 Comments Summary

Similar to the January 2020 CPI-based fare increase public comments, many of the respondents who supported extending BART’s increase thought that the less-than-inflation fare increases were reasonable and necessary for system improvements and to keep the system running smoothly. Interestingly, a few respondents also commented that they preferred for BART’s less-than-inflation increases to be the same as or slightly higher than the rate of inflation because of all the system improvements BART needs to make. Respondents who did not support the fare increase expressed the opinion that BART fares were already too high.

Similar to the January 2020 CPI-based fare increase public comments, respondents across all levels of support identified fare evasion, efficiency, crowding on trains, safety and security, homelessness, and cleanliness as important topics for BART to address. Some respondents mentioned that it was unfortunate BART revenue couldn’t come from other sources, such as property taxes.

# Section 7: Paper Ticket Surcharge Increase: Public Level of Support & Comments

---

## 7.1 Paper Ticket Surcharge Increase Survey Questions

Questions 4 and 5 of the Fare Program Survey asked respondents to choose a level of support for the proposed magnetic-stripe ticket (“paper ticket”) surcharge increase and to provide a comment on the proposed change.

**Question 4: Would you support or oppose increasing the paper ticket surcharge to \$1.00 to maximize use of the Clipper card?**

- Strongly support**
- Somewhat support**
- Neutral**
- Somewhat oppose**
- Strongly oppose**
- Don’t know**

Of the 1,272 surveys received, 1,229 survey respondents chose to answer this question, which is approximately 97% of all respondents.

**Question 5: Do you have any comments about this potential paper ticket surcharge increase?**

Of the 1,229 survey respondents who answered Question 4, 716 of them provided a follow-up comment to further explain their choice. One survey respondent did not choose a level of support but provided a comment. This one comment is categorized as “No Answer” in Appendix PP-D. The grouping methodology for this fare option is described below and is identical to the methodology used for the CPI-based fare increase program questions.

## 7.2 Level of Support & Public Comment Grouping Analysis: Methodology

This fare option had a two-part question. The first question asked respondents to choose a level of support for the fare option. The follow-up question then asked for a comment about the proposed change.

The six categories in the survey are as follows:

1. Strongly Support
2. Somewhat Support
3. Neutral
4. Somewhat Oppose
5. Strongly Oppose
6. Don’t Know

The respondent's rating selection in the first question determined how the second question's comments were grouped. For example, if a respondent checked "Neutral" for the first question, and if they chose to comment in the follow-up question, that comment was automatically grouped as "Neutral" for sorting purposes. "Strongly Support" and "Somewhat Support" comments are grouped as "Support." These comments may indicate clear support or some level of support with caveats.

Comments in the "Strongly Oppose" and "Somewhat Oppose" categories are grouped as "Don't Support." These are comments where the respondent did not wish to implement the fare option. Comments are color-coded by original level of support in Appendix PP-D. The chart and tables below show respondents' reactions to the proposed mag-stripe ticket surcharge increase.

### 7.3 Question 4: Summary of Levels of Support

#### 7.3.1 Minority Respondents

**Table 7-1 Minority Summary of Responses (n=1,229)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Minority</b>	<b>273</b>	<b>98</b>	<b>243</b>	<b>9</b>	<b>623</b>
<b>%</b>	<b>44%</b>	<b>16%</b>	<b>39%</b>	<b>1%</b>	<b>100%</b>
Non-Minority	269	69	172	8	518
%	52%	13%	33%	2%	100%
Unknown*	26	9	53	0	88
%	30%	10%	60%	0%	100%

\*"Unknown" are those respondents who left the race/ethnicity question blank.

Table 7-1 shows that of minority respondents, more (44%) supported the paper ticket surcharge increase than did not support (39%). Of the remaining minority respondents, 16% selected "neutral" and 1% "don't know."

#### 7.3.2 Low-Income Respondents

**Table 7-2 Low-Income Summary of Responses (n=1,229)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Low-Income</b>	<b>68</b>	<b>24</b>	<b>84</b>	<b>4</b>	<b>180</b>
<b>%</b>	<b>38%</b>	<b>13%</b>	<b>47%</b>	<b>2%</b>	<b>100%</b>
Non Low-Income	459	136	336	10	941
%	49%	14%	36%	1%	100%
Unknown*	41	16	48	3	108
%	38%	15%	44%	3%	100%

\*"Unknown" are those respondents who provided comment but did not provide complete income information.

Table 7-2 shows that of low-income respondents, fewer (38%) supported the mag-stripe surcharge increase compared to those who did not support (47%). Of the remaining low-income respondents, 13% selected "neutral" and 2% "don't know."

## 7.4 Question 5: Summary of Levels of Support (Public Comments)

Of the 1,229 survey respondents who answered Question 4, 716 of them provided a follow-up comment to further explain their choice. Tables 7-3 and 7-4 shows the breakdown of those who chose to comment.

### 7.4.1 Minority Respondents

**Table 7-3 Low-Income Summary of Responses (Public Comments, n=716)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Minority</b>	<b>131</b>	<b>33</b>	<b>174</b>	<b>7</b>	<b>345</b>
<b>%</b>	<b>38%</b>	<b>10%</b>	<b>50%</b>	<b>2%</b>	<b>100%</b>
Non-Minority	130	38	139	6	313
%	42%	12%	44%	2%	100%
Unknown*	14	4	40	0	58
%	24%	7%	69%	0%	100%

\*"Unknown" are those respondents who left the race/ethnicity question blank.

Table 7-3 shows that of those minority respondents who chose to comment on the mag-stripe surcharge increase, fewer minority respondents (38%) supported the mag-stripe surcharge increase compared to the number of minority respondents who did not support it (50%). Of the remaining minority respondents, 10% were neutral and 2% selected "Don't know."

### 7.4.2 Minority Respondents

**Table 7-4 Low-Income Summary of Responses (Public Comments, n=716)**

	Support	Neutral	Don't Support	Don't Know	Total
<b>Low-Income</b>	<b>44</b>	<b>11</b>	<b>58</b>	<b>3</b>	<b>116</b>
<b>%</b>	<b>38%</b>	<b>9%</b>	<b>50%</b>	<b>3%</b>	<b>100%</b>
Non Low-Income	206	60	260	9	535
%	39%	11%	49%	1%	100%
Unknown*	25	4	35	1	65
%	38%	6%	54%	2%	100%

\*"Unknown" are those respondents who provided comment but did not provide complete income information.

Table 7-4 shows that of those low-income respondents who chose to comment on the fare increase program, fewer low-income respondents (38%) supported the fare increase program compared to the number of low-income respondents who did not support it (50%). Of the remaining low-income respondents, 9% were neutral and 3% selected "Don't know."

## 7.5 Question 5: Public Comments

The next sections provide sample comments by level of support from protected respondents. Appendix PP-D contains all comments received.

## 7.5.1 Support

### Minority Respondents

- *Agree, clipper cards are a lot faster*
- *I strongly support this because not only will everyone using clipper cards make operations for daily riders more smooth but it'll also reduce significantly the waste that is caused by paper tickets in the environment.*
- *I think it is a good idea, it would decrease the demand for paper tickets and push towards clipper cards. Cards are more reliable and last much longer.*

### Low-Income Respondents

- *discourage paper tickets; they're wasteful*
- *Yes, clipper cards are better for the environment.*
- *Yes. Many other public transit systems (e.g., Portland's MAX, Chicago's 'L') have gotten rid of paper tickets altogether. Please disincentivize their continued use. A Clipper card costs almost nothing and is more sustainable.*

## 7.5.2 Neutral

### Minority Respondents

- *For new people who will take bart once in a month it will be burden*
- *How will you decrease the amount of homeless being disruptive?*
- *It's a good way to get people to use clipper! However, tourists may not be very happy...?*

### Low-Income Respondents

- *I don't understand why they don't want to use the clipper.*
- *I use a clipper card so it doesn't affect me*
- *Many riders using paper tickets are tourists so charge away. Also paper tickets are wasteful and more prone to problems.*

## 7.5.3 Don't Support

### Minority Respondents

- *Not really fair to force people who rarely take Bart to buy a clipper card. 50 cent surcharge is good.*
- *I think this is too high of an increase. It should stay as is*
- *Bart needs to have more clipper dispensing booths if they want people to use less paper tickets. Penalizing people is not good business. Behavior is changed with outreach, not penalization.*

### Low-Income Respondents

- *I think there should be better ways to incentivize Clipper card without punishing people for using paper tickets, and \$1 surcharge is a lot.*
- *No Surcharges. Make everyone pay their fair share!*

- *people who survive paycheck to paycheck need to budget and just pay for one ride at a time. So they wouldn't be able to afford a clipper card. If you want to phase out paper tickets, clipper cards should be made free of charge.*

## 7.6 Comments Summary

The respondents who supported the mag-stripe paper ticket surcharge increase often commented that the Clipper card was more environmentally friendly and that paper tickets were wasteful and slow down entries and exits into BART. Many supported the use of Clipper cards in the system and regionally. A few respondents suggested making the surcharge higher to further incentivize the move to the Clipper card.

Respondents who did not support the surcharge increase commented that an increase to \$1.00 was too steep of a hike and that low-income riders, especially those who do not have credit/debit cards, would be penalized. Additionally, respondents noted various reasons why they preferred the convenience of a paper ticket--for example, if they are infrequent riders or happen to leave their Clipper card at home one day, they would like to be able to use a paper ticket. Many also expressed that the fee to purchase a Clipper card was too much or too high for them to afford.

Across all levels of support, there were certain commonalities. Respondents commented on the \$3.00 cost to obtain a Clipper card; some felt the cost was too high and some wanted to know why Clipper cards could not be free to incentivize riders to switch. They also wanted to make sure that low-income riders would not be adversely impacted. Some suggested moving to cell phone apps like other agencies. Lastly, some supported the increase because it primarily targeted tourists and non-residents, while those who did not support it commented that it was unfair for tourists and infrequent BART riders.

# Appendix PP-A: BART Fare Program Survey

---

# Fare Program Survey

Please complete this survey to provide your input on the planned January 2020 less-than-inflation fare increase, a proposed extension of BART's current fare increase program, and a potential increase to the 50-cent surcharge on paper ticket (non-Clipper) fares. Under the proposed extension of the current fare increase program, BART fares would continue to increase below the rate of inflation.

To thank you for your time, you can also **enter to win a \$120 Clipper card** at the end of this survey.

## January 2020 Fare Increase

To help fund the system's extensive capital needs, BART has a fare increase program that calls for small, regular less-than-inflation increases every two years, with the next increase of **5.4%** scheduled for January 1, 2020. For a short trip like Downtown Berkeley to 19th St/Oakland, the Clipper fare will increase by 10 cents, and a longer trip like Antioch to Montgomery will increase by 40 cents. Paper ticket fares will continue to cost more than the Clipper fare. *(All new revenue from this fare increase goes to BART's highest priority capital needs including new rail cars, a new train control system to provide more frequent service, and an expanded maintenance facility.)*

**1** Do you have any comments about this planned fare increase?

---

---

## BART Fare Increase Program

BART's current fare increase program, which calls for small, regular less-than-inflation increases every two years, expires in 2020. BART is considering extending this program so that fares would increase in 2022, 2024, 2026 and 2028 by an estimated 3.9% in each of these years, based on current inflation projections.

Revenue from the 2022-2028 increases is proposed to help fund new rail cars and system improvements, such as a new train control system to provide more frequent service, and operation of the expanded service.

**2** Would you support or oppose extending BART's current fare increase program (less-than-inflation increases every two years)?

- Strongly support
- Somewhat support
- Neutral
- Somewhat oppose
- Strongly oppose
- Don't know

**3** If you would support or oppose this program, please explain.

---

---

## Paper Ticket Surcharge Increase

Currently BART trips made with paper tickets cost 50 cents more than BART trips made with Clipper cards to encourage riders to use Clipper and optimize the Bay Area's significant investment in the regional transit smart card. BART is considering increasing the paper ticket surcharge to \$1.00 to incentivize the 15% of riders still using paper tickets to switch to Clipper. BART's maintaining one fare payment system is more efficient and cost-effective, and Clipper card customers enter and exit BART more quickly, using fare gates that are more reliable when they just process Clipper cards.

**4** Would you support or oppose increasing the paper ticket surcharge to \$1.00 to maximize use of the Clipper card?

- Strongly support
- Somewhat support
- Neutral
- Somewhat oppose
- Strongly oppose
- Don't know

**5** Do you have any comments about this potential paper ticket surcharge increase?

---

---

**Please tell us about yourself.**

*(Your answers will help us evaluate how well we're reaching all the communities that we serve.)*

**6 About how often do you currently ride BART?**

*(Check one)*

- 5 days a week or more
- 3 – 4 days a week
- 1 – 2 days a week
- 1 – 3 days a month
- Less than once a month, but at least once a year
- Less than once a year or never

**7 Do you usually use a Clipper card or BART ticket to pay your BART fare?**

- Clipper card
- BART ticket
- Other: \_\_\_\_\_

**8 What type of fare do you usually pay when you ride BART?**

- Regular BART fare (no discount)
- High Value Discount (\$48 or \$64 value)
- Muni Fast Pass
- Senior discount
- Disabled discount
- Youth discount
- Other discount: \_\_\_\_\_

**9 What is your "home" BART station (the station you usually use when coming from home)?**

\_\_\_\_\_

**10 What is your most common "destination" BART station (the station near your frequent destination, like your workplace)?**

\_\_\_\_\_

**11 What is your age?**

- 17 or younger
- 18 – 24
- 25 – 34
- 35 – 44
- 45 – 54
- 55 – 64
- 65 and older

**12 What is your race or ethnic identification?**

*(Select all that apply)*

- American Indian or Alaska Native
- Asian or Pacific Islander
- Black/African American
- Hispanic, Latino or Spanish origin
- White
- Other: \_\_\_\_\_

*(Categories are based on the U.S. Census)*

**13 Do you personally speak a language other than English at home?**

- Yes, I speak: \_\_\_\_\_
- No

**14 If you answered "Yes" to question 13, how well do you speak English?**

- Very well
- Well
- Not well
- Not at all

**15 What is your total annual household income before taxes?**

- Under \$25,000
- \$25,000 - \$34,999
- \$35,000 - \$39,999
- \$40,000 - \$49,999
- \$50,000 - \$59,999
- \$60,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 or more

**16 Including yourself, how many people live in your household?**

- 1
- 2
- 3
- 4
- 5
- 6+

**17 Do you have a smart phone (can access the Internet, download apps, etc.)?**

- Yes
- No

**18 If you answered "Yes" to question 17: as of today, were you able to use the Internet on your smart phone?**

- Yes
- No

Thank you for your input.

**Optional**

If you would like to enter to win a \$120 Clipper card, please tell us how to contact you if you win:

Name: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Would you like to sign up for BARTable this Week, a free email newsletter with contests, discounts and events close to BART stations?

- Yes
- No

Would you like to be contacted in the future (via email) with important BART updates, or in case of a major system-wide emergency?

- Yes
- No

CONTEST RULES: No purchase necessary. Void where prohibited. One entry per person. This sweepstakes ends on 3/29/19 at 5 PM PST. Sponsor is Bay Area Rapid Transit (BART). Open only to residents of California who are at least 18 years old at time of entry. Employees/contractors of BART and their family/household members are not eligible to enter. Other restrictions apply. Sponsor will award one Clipper card (approximate value \$120). Winner will be chosen by random drawing and must respond within five business days of notification; otherwise an alternate winner will be chosen. Need not be present to win. All federal, state and local regulations apply.

## Encuesta sobre el Programa de Tarifas

Le agradeceremos que conteste esta encuesta para dar su opinión sobre el aumento de tarifas inferior a la inflación planificado para enero de 2020, una extensión propuesta del programa actual de aumento de tarifas de BART y un posible aumento del recargo de 50 centavos en las tarifas de los boletos impresos (que no son de Clipper). Con la ampliación propuesta del actual programa de aumento de tarifas, las tarifas de BART seguirían aumentando por debajo de la tasa de inflación.

Con el fin de agradecerle por su tiempo, al finalizar esta encuesta puede **participar en un sorteo en el que podría ganar una tarjeta Clipper de \$120.**

### Aumento en las tarifas en enero de 2020

Con el objetivo de ayudar a financiar las amplias necesidades de capital del sistema, BART tiene un programa de aumento de tarifas que plantea aumentos regulares, inferiores a la tasa de inflación, cada dos años, con el siguiente aumento del **5.4%** programado para el 1 de enero de 2020. Para un viaje corto, como de Downtown Berkeley a 19th St/Oakland, la tarifa de Clipper aumentará 10 centavos, y para un viaje más largo, como de Antioch a Montgomery, aumentará 40 centavos. Las tarifas de los boletos impresos en papel seguirán costando más que la tarifa de Clipper. *(Todos los nuevos ingresos resultantes de este aumento en las tarifas serán destinados a las necesidades de capital de más alta prioridad de BART, incluyendo nuevos vagones, un nuevo sistema de control de trenes para brindar un servicio más frecuente, e instalaciones de mantenimiento más amplias.)*

#### 1 ¿Tiene usted algún comentario sobre este aumento de tarifas?

---

---

### Programa de aumento de tarifas de BART

El programa actual de aumento de tarifas de BART, que plantea pequeños aumentos regulares inferiores a la inflación cada dos años, vence en 2020. BART está considerando extender este programa para que las tarifas aumenten en 2022, 2024, 2026 y 2028 a razón de un 3.9% estimado en cada uno de estos años, con base en las proyecciones actuales de inflación.

Se propone que los ingresos procedentes de los aumentos de 2022-2028 ayuden a financiar nuevos vagones y mejoras del sistema, como un nuevo sistema de control de trenes para proporcionar un servicio más frecuente y la operación del servicio ampliado.

#### 2 ¿Apoyaría o se opondría usted a ampliar el actual programa de aumento de tarifas de BART (aumentos inferiores a la inflación cada dos años)?

- Lo apoyo con firmeza
- Lo apoyo hasta cierto punto
- Neutral
- Me opongo hasta cierto punto
- Me opongo con firmeza
- No sé

#### 3 Si usted apoyaría o se opondría a este programa, por favor explique.

---

---

### Aumento del recargo por boleto impreso en papel

Actualmente, los viajes de BART realizados con boletos impresos cuestan 50 centavos más que los viajes de BART realizados con tarjetas Clipper para animar a los pasajeros a usar Clipper y optimizar la importante inversión del Área de la Bahía en la tarjeta inteligente de transporte público regional. BART está considerando aumentar el recargo por boleto impreso a \$1.00 para incentivar al 15% de los pasajeros que aún usan boletos impresos a cambiar a Clipper. El mantenimiento por parte de BART de un solo sistema de pago de tarifas es más eficiente y rentable, y los clientes de tarjetas Clipper entran y salen de BART más rápidamente, utilizando puertas de ingreso que son más confiables cuando procesan tarjetas Clipper únicamente.

#### 4 ¿Apoyaría o se opondría usted a aumentar el recargo por boleto impreso a \$1.00 para maximizar el uso de la tarjeta Clipper?

- Lo apoyo con firmeza
- Lo apoyo hasta cierto punto
- Neutral
- Me opongo hasta cierto punto
- Me opongo con firmeza
- No sé

#### 5 ¿Tiene algún comentario sobre este posible aumento del recargo por boleto impreso en papel?

---

---

Por favor, díganos un poco acerca de usted.

(Sus respuestas nos ayudarán a evaluar qué tan bien nos estamos comunicando con todas las comunidades a las que servimos.)

- 6** ¿Con qué frecuencia viaja usted en BART actualmente?  
(Marque una opción)
- 5 días a la semana o más
  - 3 a 4 días a la semana
  - 1 a 2 días a la semana
  - 1 a 3 días al mes
  - Menos de una vez al mes, pero por lo menos una vez al año
  - Menos de una vez al año o nunca
- 7** ¿Generalmente utiliza una tarjeta Clipper o un boleto de BART para pagar su viaje en BART?
- Tarjeta Clipper
  - Boleto de BART
  - Otro: \_\_\_\_\_
- 8** ¿Qué tipo de tarifa paga usted generalmente cuando viaja en BART?
- Tarifa normal de BART (sin descuento)
  - Descuento de alto valor (con valor de \$48 o \$64)
  - Muni Fast Pass
  - Descuento para adultos mayores (Senior)
  - Descuento para discapacitados
  - Descuento juvenil
  - Otro descuento: \_\_\_\_\_
- 9** ¿Cuál es su estación "de origen" de BART (la estación que generalmente usa cuando sale de su casa)?
- \_\_\_\_\_
- 10** ¿Cuál es su estación de BART "de destino" más común (la estación cercana a su destino más frecuente, como su lugar de trabajo)?
- \_\_\_\_\_
- 11** ¿Cuál es su edad?
- 17 años o menos
  - 18 a 24 años
  - 25 a 34 años
  - 35 a 44 años
  - 45 a 54 años
  - 55 a 64 años
  - 65 años o más
- 12** ¿Cuál es su raza o identificación étnica?  
(Marque todas las opciones que correspondan)
- Indígena norteamericano o nativo de Alaska
  - Asiático o de las Islas del Pacífico
  - Negro / Afro-americano
  - Hispano, latino o español
  - Blanco
  - Otra: \_\_\_\_\_
- (Categorías basadas en el Censo de los Estados Unidos)
- 13** ¿Habla usted en el hogar algún otro idioma que no sea el Inglés?
- Sí, hablo: \_\_\_\_\_
  - No

- 14** Si respondió "Sí" a la pregunta 13, ¿qué tan bien habla Inglés?
- Muy bien
  - Bien
  - No muy bien
  - Nada
- 15** ¿Cuál es el total de los Ingresos anuales en su hogar antes de Impuestos?
- Menos de \$25,000
  - \$25,000 - \$34,999
  - \$35,000 - \$39,999
  - \$40,000 - \$49,999
  - \$50,000 - \$59,999
  - \$60,000 - \$74,999
  - \$75,000 - \$99,999
  - \$100,000 o más
- 16** Incluyéndose usted, ¿cuántas personas viven en su hogar?
- 1
  - 2
  - 3
  - 4
  - 5
  - 6 o más
- 17** ¿Utiliza un teléfono Inteligente (puede acceder a Internet, descargar aplicaciones, etc.)?
- Sí
  - No
- 18** Si respondió "Sí" a la pregunta 17: al día de hoy, ¿ha podido utilizar Internet en su teléfono inteligente?
- Sí
  - No

Gracias por llenar la encuesta.

#### Opcional

Si desea participar en un concurso en el que podría ganar una tarjeta Clipper de \$120, por favor díganos cómo podemos comunicarnos con usted si gana:

Nombre: \_\_\_\_\_

Teléfono: \_\_\_\_\_

Email: \_\_\_\_\_

¿Desea suscribirse para recibir BARTable this Week, un boletín gratuito que se envía por email y que incluye concursos, descuentos e información sobre eventos cercanos a las estaciones de BART?

- Sí
- No

¿Le gustaría que nos comunicáramos con usted en el futuro (por email) sobre novedades importantes de BART o en caso de que ocurra una emergencia grave de todo el sistema?

- Sí
- No

REGLAS DEL SORTEO: No es necesario efectuar ninguna compra. Nulo donde lo prohíba la ley. Una participación por persona. Este sorteo finaliza el 29 de marzo de 2019 a las 5 p.m. PST. Patrocinado por Bay Area Rapid Transit (BART). Abierto únicamente a residentes de California que tengan al menos 18 años de edad al momento de solicitar la participación. Los empleados/contratistas de BART y sus familiares o miembros de su hogar no reúnen los requisitos de participación. Se aplican otras restricciones. El patrocinador otorgará una tarjeta Clipper fiscal aproximado de \$120. El ganador será seleccionado a través de un sorteo aleatorio y deberá responder dentro de los siguientes cinco días hábiles posteriores a la fecha de notificación. De lo contrario, se otorgará a un ganador alternativo. No necesita estar presente para ganar. Se aplican todas las leyes y reglamentos locales, estatales y federales.

## 車費計劃調查問卷

請填寫本問卷，針對 2020 年 1 月低於通貨膨脹幅度的車費調漲（此為 BART 目前車費調漲計劃的延展項目提案）以及可能將紙張車票（非 Clipper 卡）價 50 美分附加費再次調漲的構想提供意見。根據目前車費調漲計劃的延展提案，BART 車費將繼續以低於通貨膨脹率的幅度調漲。

為感謝您抽空接受調查，您還可參加問卷最後的抽獎活動，有機會贏得一張價值 \$120 的 Clipper 卡。

### 2020 年 1 月車費調漲

為了資助 BART 系統龐大的資本需求，BART 採取一項車費調漲計劃，要求每兩年以低於通貨膨脹率的幅度定期小幅調漲，下一次預計於 2020 年 1 月 1 日調漲 5.4%。使用 Clipper 卡支付的短程車費（如 Downtown Berkeley 到 19<sup>th</sup> St/Oakland）將調漲 10 美分，較長程車費（如 Antioch 到 Montgomery）將調漲 40 美分。紙張車票的車費將繼續比 Clipper 車費高。（所有車費調漲收入將用於 BART 的最高順位資本需求，包括新的列車車廂、新的列車控制系統以提供更頻繁服務，以及擴建的維修保養設施。）

**1** 您對這次計劃中的車費調漲是否有任何意見？

---

---

### BART 車費調漲計劃

BART 目前的車費調漲計劃要求每兩年以低於通貨膨脹率的幅度定期小幅調漲，期限至 2020 年為止。BART 正在考慮延展此計劃，以便在 2022、2024、2026 和 2028 調漲車費。在這些年間，根據通貨膨脹預測，每次調漲幅度估計為 3.9%。

2022-2028 車費調漲收入建議用於資助新的列車車廂和系統改善工程，例如安裝新的列車控制系統以提供更頻繁服務，以及擴大服務運作。

**2** 您支持或反對延長 BART 目前的車費調漲計劃期限（每兩年以低於通貨膨脹率的幅度調漲）？

- 強烈支持
- 有些支持
- 中立
- 有些反對
- 強烈反對
- 不知道

**3** 如果您支持或反對這項計劃，請說明理由。

---

---

### 紙張車票附加費調漲

為了鼓勵使用 Clipper 卡，並且讓灣區對區域交通智慧卡的重大投資發揮最大效用，目前以紙張車票支付的 BART 車費比 Clipper 卡多 50 美分。BART 正在考慮將紙張車票的附加費調漲至 \$1.00，以激勵目前仍在使用紙張車票的 15% 乘客改用 Clipper 卡。當車費支付系統只處理 Clipper 卡時，BART 的維護工作更有效率且更具成本效益，且 Clipper 卡用戶可使用更可靠的驗票閘更快出入 BART 車站。

**4** 您支持或反對將紙張車票附加費調漲至 \$1.00，以便將 Clipper 卡的使用率提升至最大？

- 強烈支持
- 有些支持
- 中立
- 有些反對
- 強烈反對
- 不知道

**5** 您對這項可能的紙張車票附加費調漲是否有任何意見？

---

---

請提供您的個人資料。

(您的回答可協助我們進行評估，了解我們為社區服務的效率。)

**6** 您目前多常搭乘 BART ?

(請勾選一項)

- 每週 5 天或更多
- 每週 3 - 4 天
- 每週 1 - 2 天
- 每月 1 - 3 天
- 每月不到一次，但每年至少一次
- 每年不到一次或完全沒有

**7** 您通常使用 Clipper 卡或者 BART 車票支付 BART 車費？

- Clipper 卡
- BART 車票
- 其他：\_\_\_\_\_

**8** 您搭乘 BART 時通常支付哪一種車費？

- 一般 BART 車費 (無折扣)
- High Value 折扣車費 (價值 \$48 或 \$64)
- 電聯車快速通行車費 (Muni Fast Pass)
- 老人折扣車費
- 殘障人士折扣車費
- 青少年折扣車費
- 其他折扣車費：\_\_\_\_\_

**9** 哪個是您的「出發地」BART 捷運站 (從住家出發後通常搭乘的車站)？

\_\_\_\_\_

**10** 哪個是您最常去的「目的地」BART 捷運站 (您最常去的目的地如工作地點附近的車站)？

\_\_\_\_\_

**11** 您的年齡？

- 17 或以下
- 18 - 24
- 25 - 34
- 35 - 44
- 45 - 54
- 55 - 64
- 65 或以上

**12** 您屬於哪個種族或族裔？

(選擇所有符合項目)

- 美洲印第安人或阿拉斯加原住民
  - 亞裔或太平洋島裔
  - 黑人 / 非裔美國人
  - 西語裔、拉美裔或西班牙裔
  - 白人
  - 其他：\_\_\_\_\_
- (類別以美國人口普查為準)

**13** 您個人在家中是否說英語以外的語言？

- 是，我說：\_\_\_\_\_
- 否

**14** 如果第 13 題回答「是」，您的英語說得怎麼樣？

- 很好
- 好
- 不好
- 完全不會

**15** 您的稅前家庭總年收入是多少？

- \$25,000 以下
- \$25,000 - \$34,999
- \$35,000 - \$39,999
- \$40,000 - \$49,999
- \$50,000 - \$59,999
- \$60,000 - \$74,999
- \$75,000 - \$99,999
- \$100,000 或以上

**16** 包括您自己在內，您家裡住了多少人？

- 1
- 2
- 3
- 4
- 5
- 6+

**17** 您是否有智慧型手機 (有上網、下載應用程式等功能)？

- 是
- 否

**18** 如果第 17 題回答「是」：截至今天為止，您的智慧型手機是否能上網？

- 是
- 否

謝謝您提供意見。

選填

如果您想參加抽獎以贏得一張 \$120 Clipper 卡，請告訴我們若得獎該如何聯絡您：

姓名：\_\_\_\_\_

電話：\_\_\_\_\_

電郵：\_\_\_\_\_

您愛訂閱免費電子報 BARTable this Week 並收到有關抽獎比賽、折扣和 BART 捷運站附近的活動資訊嗎？

- 是
- 否

若將來有 BART 重要消息，或系統方面發生重大緊急事故時，您是否希望 BART 與您聯絡 (透過電子郵件)？

- 是
- 否

抽獎規則：所需購物即可參加抽獎。若法律禁止則無效。每人可參加一次抽獎。本抽獎活動截止時間：2019 年 3 月 29 日下午 5 時 (太平洋時間)。主辦方為舊金山灣區捷運處 (BART)。僅開放給報名時已年滿 18 歲的加州居民參加。BART 員工 / 承包商及其家人 / 家屬成員不得參加抽獎。有其他限制。主辦方將送出一張 Clipper 卡 (價值約 \$120)。得獎者應以隨機方式抽出，且必須在收到通知後五個工作日內回覆；否則，我們將抽出另一位得獎者。抽獎時，得獎者需身在場。所有聯邦、州和地方法規適用。

## January 2020 Fare Increase: Public Comments

---

Legend	
	Support
	Conditional Support
	Did Not Comment
	Don't Support
	Miscellaneous

**Note on “Unknown” categorization for the following columns:**

- Low Income: Respondent did not provide all the necessary information (both annual household income before taxes and household size) to determine income status.
- Minority: Respondent left the question blank and therefore unable to identify minority status.

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_4MFCCQmpxTLYpW1	&gt; new rail cars, a new train control system to provide more frequent service, and an expanded maintenance facility.  YAY	X	
PB1	10 cents is a minimal increase I can work with in my budget.	X	Unknown
R_2t57VcMkaGgotIU	40 cents is fare	X	
R_2diits4fV6JPTch	As long as Bart officials use the money to upgrade the system and pay employees		
R_u4wDIUFNusE8ZI5	As long as it goes towards infrastructure (not salary, pensions) I support it.	X	
R_3je9YFbLzacT7C8	As long as it's being put to something productive, I am fine with this increase.	X	
R_2co2dTLlckGTkSJ	As long as the funds are properly distributed it should not be an issue	X	
R_8iW7IIIJvzY1EYx	As long as the money is going to improvements on the train and security, I'm fine with it - AND we can tangibly see this improvement and transparency around how much money y'all have with the fare increase	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3nuxjj9BgGnfwoq	Assuming that the cost/benefit has been weighed and modeled, I support the increase wholeheartedly.		Unknown
R_2xPnMMG4Xy6vkIS	BART has been criminally underfunded for so many years - a small fare increase seems like a fair price to pay to keep our most critical transportation system running.		
R_51tdYVFRLfPgDId	Capital investments/improvements are critically important. While fare increases are never great for riders, I hope we will see the impacts (reliability, getting more of the great new trains out on the rails!)		
R_2Vwinbc7J9h8BvA	Continued support for listed capital projects with some level of visibility into the overall plan to implement would go along way to alleviating the consternation that fare increases create.		
R_2WGz004Z95uzzyI	Do it	X	
R_11WUgoerwZpRYHt	Do it! And improve the service. I just arrived at the Downtown Berkeley Station at 9:30pm to find the next train to MacArthur station in 22 MINUTES! What kind of big city transit system makes you wait 22 minutes at 9:30?		
R_1QKEz0tm8v92mvM	Fare enough. Keeping up with inflation is a must. Clipper's the way to go and cheaper too.	X	X
R_2thtnRGdCZSQKgl	Fare increases are a natural part of growth I think this reflects that BART is a great transit system that many people use and this needs to happen in order to accommodate the amount of people using the trains.		X
R_3NCYDiMfc2fUdm5	fare increases should be close to the rate of inflation. The value of a fare in real dollars drops over time with the rate of inflation. Even with this increases, the fare today is less than it was several years ago in real dollars, limiting the amount available for critical capital rehab and replacement projects.		
R_1meFePgcURQ8q97	Fares need to be sufficient to ensure proper maintenance and upgrades. In my opinion the increase is too low		X
R_exkioBLkUYNlayl	Fine with me	X	
R_2c0ZYodwSSbHpXL	Frankly I'm one of the few who knows BART is great value per mile. If anything you should all market that to your riders so they know the savings they get.	Unknown	Unknown
R_1cY8j5ZKpQWVYxJ	Good idea		
R_300099L9c0UZBee	Hopefully it will help with maintenance.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1cYbcRPkr83SI19	I agree with the date increase if it will help make bart better 1000% support. As a daily commuter I want my ride to be safe and the best it can be.	X	
R_w7w401uOYgOYpQB	I agree with the high priority capital needs	X	
R_331LOGQ4tFNC60v	I agree.	X	
R_2Suw28RvwxXKcx6	I am ok with the increase as long as it makes my trip more enjoyable		
R_237VTkjzAThfZiH	I am okay with the small fare increase if it means my rides will be more pleasant.		
R_2q2iG6Op6soONSN	I am okay with this because the money is going towards tangible improvements.		
R_1g10lsHGw3JMScr	I appreciate increase is below the rate of inflation. Increases have pushed me to carpool 1-2 times a week	X	Unknown
R_z2Vw4HXkdEDrr0t	I appreciate knowing why the increase is happening and where the funds will go to. It was especially helpful to see the breakdown in funds, like the actual amount of monetary increase.	X	
R_1Qt6EGeTwDOzPLv	I approve.		
R_120kg6QGrRhvWhy	I believe it is needed and should be done.		
R_3IQNKQmTzLvIQeQ	I do not have a problem with it. I primarily ride BART within San Francisco.		
R_yCTjjodgPuYxtpD	I don't mind the increase of fare cost.		
R_23af5MsgiqUYNwS	I don't mind a fare increase, as long as, I see improvements to the BART system.	X	
R_vPsvWtdTcEm6Exj	I don't really mind this - thought it was nice two years ago when my ride was a flat \$5.		
R_2Si3BQPy0GG5yYo	I feel it is fair the prices be raised considering how many people do not pay and the new additions to BART such as the new cars	X	X
R_1CfPtW7Ln4xEa5v	I go home once a week, and it's a long trip. I don't mind a little increase I guess, but I do use a clipper card. If I had to pay everyday I might have a problem but I only do once a week so it's not bad.		X
R_39q10i9xpKK5yO5	I likely won't even notice it for the shorter rides.	X	
R_2Xp7HKO6hCG4b5v	I support ... the old bart cars should be updated and the continual decrepitude of the turnstiles and escalators is a major commuting impediment that I would like to see fixed		
R_70qUgmgh9O4XFbH	I support it so that the ongoing need for funds to support system infrastructure upkeep and improvements can be funded.		
R_2Cv9PryNG0JrmWS	I support modest fare increases as long as the income provides better service.		
R_1r3otdDu6Pb83ZM	I support raising the fares for cross-bay rides since the fare is still cheaper than the bridge toll	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1QKM4wvUNmloYEj	I support the fare increase program in general, but it *MUST PAY FOR INCREASED SERVICE*.		
R_2wb5oIQbR9MBC4T	I support the fare increase.		
R_2sc1gExL0QBplW4	I support the increase. Fares are surprisingly cheap currently, and you could use the money		
R_3DfRPwHZPdx78bv	I support this		
R_YawechvgiGvR0aR	I think as long as low income and student programs are in place, below inflation increases are okay.		
R_3Ma6zHkAn48paTf	I think BART should increase fares as much as necessary to keep the system safe and reliable.		
R_1nSZONXVMJWT26c	I think it is reasonable		X
R_3EL0n3TvaqTnBgp	I think it seems reasonable		
R_9ssliqEP15Drp5f	I think it sucks, as paying more always does, but it's necessary to keep bart employees at a livable wage as well.	X	
R_2zl0Xt11DkYPlxu	I think it would make sense if they could ensure that BART was cleaner and safer at night.	X	
R_3CNTBAmSnHnDGX8	I think it's a good idea so long as it's used for the improvement of the BART system	X	X
R_u4e9P3LPoCMqm8F	I think it's necessary.		
R_1190prTE4k98fep	I think it's pretty reasonable. I've been taking BART into SF downtown stations for almost 20 years now	Unknown	Unknown
R_1jEaSxWOTCQin75	I think it's a good idea and maintains affordable prices. If updates and expenses need to be paid for, it makes sense.		
R_21ApvejZ0Q3McEH	I think it's fine and reasonable.		
R_2zOBmf0l5KEogdh	I think it's necessary. We have to address capital needs.		
R_eL4K3SIPpRQMjhn	I think this is justifiable. Although the prices are rising, if it improves bart quality and consistency then I think it's worth it.	X	
R_1QrLYlbr3SnlukF	I think this is reasonable		
R_3qCmpcB1NsecSCF	I very agree with it.	X	X
R_3D0Kaws0vgdVA4x	I want bart to take the money it needs to be a reliable and pleasant mass transit system that we desperately need		
R_2agXREQVNEOq0Zv	i would not mind paying more.		X
R_1locVe4JMjhzYsX	I wouldn't mind the increase if it seemed to us riders that the money was going toward improvements in cleanliness, safety, and service. I have been avoiding BART recently primarily because it is filthy and dangerous.		
R_2rAyMz8uS7yGOZE	I'm all for it. Expanded service and newer, cleaner, more modern trains would be worth it to me		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1JPI2RxxRC8p3we	I'm okay with this increase as long as this helps reducing the crowded Bart rides by providing more frequent services between Antioch and Powell station.	X	
R_3DdbrT1KhD3trHR	I'm okay with this increase.	X	
FR2	If increasing the fare means that there is service improvement, I don't have a problem.		
R_3dLe0T7yJB6TTdT	If it helps to get new rail cars, improve cleanliness and safety then it will be worth it.	Unknown	Unknown
R_1CigKFM0YYMDdIZ	If it means more new rail cars I would gladly pay it		
R_2qaTNihW8LcY3gW	If it truly helps Improve the system nope not at all	X	
R_bkm1TfoWY2NjP1v	I'm fine with it	X	
R_1eKstBrsTolmByU	I'm glad BART will continue to increase fares to cover needed improvements.		
R_PRu9SqhKXPxB5ND	I'm ok paying higher fares if you keep the stations clean (Civic Center and the Mission stations are especially dirty)	X	
R_2uVgSYJ30g3LTZv	In order to protect (safety) of people and train on time, I don't mind bart's fare hike.	Unknown	Unknown
R_6Gcb54J7r3nijT3	Increase it more. I cannot afford to have another system wide shut down.	X	
16th10	Increase seems reasonable. Is there any effect on Muni monthly passes?	X	
R_dhx7iZGW7vZs46d	Increase the fares as much as needed to make BART safe and efficient	X	
R_25QIZWooDsQTXvy	Increase up to the rate of inflation is okay.		
R_1pnHvFcZrJwab7h	Increasing fare is good but need to improve services in bart like cleanness inside cars and some Bart stations	X	
R_2U448dJZIGJ80v8	It doesn't seem like too much.		
R_rjLEsQ08h0E3WZb	It is necessary. Given the population growth in the Bay Area BART needs more high volume trains, longer operating times and new lines. With rising rents people are moving to outlying parts of the Bay and need a fast safe connection to the City and beyond		
R_bJB8nmjEI8s48Q9	It is reasonable		
R_qJgWIV0ux6A2VIB	It is understandable	X	
R_2BsxONY31oDMGbA	It makes sense, it could even be a bigger increase. As long as low income riders are supported.		
R_QlEm7oclbWLXX3	It seems fair	X	
R_1Hph2Z1LaVZEBSv	It seems reasonable given the increased cost of living in the city and makes sense to promote th usage of clipper cards to improve flow of people at stations.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2EzrEbKi0UWjSFu	It seems reasonable to me		
R_31i5GG9fqL8kmTG	it sounds great!	X	
R_3PNPIFGdwMbUQHG	It sounds like a good plan		
R_Q4UijHlftAshJQt	It sounds ok.	Unknown	Unknown
R_1i9ZkkrzqTjYpMd	It sounds quite fair to me	X	X
R_03ZUsFbF6fCpA0p	It sounds reasonable to me. Bart needs to show real progress on these priorities, especially the new control system. Faster roll out of the new cars would be nice, also.		
R_1QKu1YT82oNkNdY	It sucks that the expenses in the Bay Area need to increase but I understand it needs to be done. At least it's still affordable	Unknown	Unknown
R_123zfGbTcbX52kP	It's understandable, and I want BART to be safe and continue to improve. I also don't take it every day anymore so the price won't drastically affect me.		
R_1DGyvOyQ1lC363G	Its fine	X	
R_11irPFhGz1aXTTt	It's marginal increase and no comments on this increase.	X	Unknown
R_1jYObCYrhf27FTu	Keeping increase at or just below the CPI is a reasonable approach. Doing this on a regular schedule rather than waiting for several years makes it easier for BART and riders to plan.		
R_2tx0IzmQQtHdMD2	Let's do it!	X	
R_27vzgELd5TXsWhS	Makes sense - fine for me.		
R_1lyFLVTOTkQ250u	New rail cars and more frequent service are important priorities and I would be happy to pay the increased price.	X	
R_cCTrZG0shbmYR4R	no one like to pay more but it is fair enough for \$0.10 increase for every 2 years	X	X
R_2zjsBpuoSKoYvgf	No problem!		Unknown
R_2EF8tYi8u6j6Nj8	No, a less than inflation increase every 2 years is fare to me.	X	
R_1DuNny5bYihbYRC	No, as this will allow for more improvements towards the rider's experience and better quality of stations and train interiors.	X	Unknown
R_332tgQsSv8VMqvG	No, I believe this small increase is a benefit to the system and the pay off is large.	X	
R_1qaOdVitzrav80r	No, i support the fare increase if there are actually steps that will be taken to make BART a better experience as soon as possible.	X	
R_6ESum7HnUsbGKSR	No, I think it's fair, but start thinking LONG term not just what's going to help in 3-5 years.		
R_2wAcCLVJHE2oVKz	No, it seems reasonable enough all things considered.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1cTlHjJ3k9SrWel	No. Actually it's a good move so riders will go clipper card so we can save paper. Why people can't give love to our Mother Nature. Clipper card is very handy and safe as long as you regusterd the card under your name	X	
R_R5g5feoL6UdwSfn	No. If the fare increase can accommodate new riders, expansion, maintenance, and upgrades.		
R_2wdFjASooqQgI1Y	No. That sounds reasonable.		
R_3GvwgEVeJTRziDa	Nope sounds reasonable		
R_2akji3ePxGFnjls	not a problem with a fare increase if it means safer and cleaner bart trains.		
R_3HB1eU2NGVCaRXN	Not enough. Riders just have to pay more for a clean, efficient system. Driving is no longer a reliable option in the current traffic mess.		
R_2Vkyr3d6EsHAsVa	Not really. If you need to increase, that's okay	X	
R_3sGi1lLWT87GC3L	Of course fare increases are bad for the public but may well be needed for a system that is falling apart.	X	
R_2Yn410seCpzCXa3	OK as long as the extra revenue goes to what matters (expanded security, improved infrastructure, etc)	X	
R_WdIBAhSUGfrP2nf	Ooof. That's an increase of almost a dollar a day on my daily commute. But if it will ACTUALLY lead to infrastructure improvements, I guess I can live with it.		
R_11bY79ePKfvMl3c	Overall it makes sense but the extremely high cost of the train control system always boggles my mind.	X	
R_3GiVEkWbg8xH2H9	Planned increase seems to be in-keeping with inflation and with required maintenance & public desired upgrades -- i.e. capital expenses need to be funded	Unknown	
R_8ptqW5988rH1njz	Reasonable		
R_21yL8HmLmpSalux	Reasonable		
R_1EYgehVb0JtlBGc	Reasonable explainable.		
R_1g0IApHyIWfkNRQ	Seems fair	X	
R_u4EJmlRIUBgNUM9	Seems fair.		
R_2zqHD0jq9xFmFEt	Seems fine to me, particularly if the money is used to improve the BART!		
R_2xVic1Dc7sOjaQX	Seems fine to me.		
R_3NPOgMQ3lzIPQi7	Seems fine. Increases that match inflation might be better.		
R_a03v5y0YVavMtXP	Seems good		
R_241PwUGLUEj6sAr	Seems necessary	X	
R_xh0LOynA2ts7rLH	seems reasonable	X	X

R_2xxcIUjc9AhAnjB	sounds reasonable		
R_10Vg3Twcvc0fPuc	Sounds reasonable.		
R_OOLntxJcsPA7juF	Sounds reasonable. Hope funds are used wisely.	X	Unknown
R_2QMd4CQkna24vU6	The current increase is OK. BART should have a clipper card system for reduced fares for lower income folks.		
R_1LLHuke302sMp7x	The fare increase is understandable. The tolls on the bridge are always increasing so it makes sense that Bart fares do too. I'm just glad it's only raising by cents as opposed to dollars like the tolls.	X	X
R_2QYTjLJ2KD501lo	The improvements that Bart needs warrants the fare increase, but that also means that Bart has no excuse to make the system better	Unknown	Unknown
R_2YVVjXd8xsb8CTJ	The increase is definitely justified, seeing the new cars and launching some of those planned extensions and really helped to justify these future increase since the impact can be seen today.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_22Jnt8QurE09MyC	The increase is fine as long as steps to improve congestion, delays, and cleanliness are addressed.		
R_1mzze0Wcl1uQfdi	The increase seems reasonable.		
R_3MhyB1EWeB8pkbx	These seem reasonable		
R_12o4E6yngapeG9X	This fare increase seems reasonable.		
R_2SCFiBFoDbgaots	This increase seems "fare" to me :)	X	
R_2QnboxWejMGDHFfi	This is a frequent trip I make, so I'm disappointed to see a raise in fare. That being said, improvements to the BART system are always a plus, so it seems like a fair trade.	X	
R_1qaBS4S30DxphOV	This is a reasonable increase, I have no problem with it.		
R_6fotVm7bW56l7Wx	This is fine. I would pay even more for BART to include free transfers to/from ACTransit and Muni (even though I would rarely use them). We desperately need regional transit fare integration.		
R_2zzaFsoKls6HKTa	This is worth it.		
R_2aLTrJI5KeEGLtu	This seems fair, if a little low.		
R_3JeWZdKk2MHRyxy	This seems like a good thing. I fully support funding BART above its current levels to bring better quality, more frequent, and more modern services to its customers. Upgrading the train control system and bringing more new trains online should be a high priority.		
R_2zoNitL2hBed6eT	This seems like a reasonable solution and as long as it's less than inflation I don't see an issue arising	X	X
R_1CCiDTjwGyYbM6W	This seems reasonable		
R_1py6UQIP8Jm15Hu	This sounds like a fair increase. I really hope it goes towards improving train service for commuters like promised!	X	X
R_4IqmeOPfdy9Eml	This will be necessary for the upgrade Bart needs due to the high volume of usage daily		
R_9ZapDlo3D0JWALL	We need better trains and more frequent service so this is fine with me.		
R_1luHHtoRV7TnhPh	Well, no one likes a fare increase, but I probably won't notice it.		
BP3	Yes, please. Cards + faster/condensed train schedules are much needed.	X	
R_3Ep7WWLJSBXT7ZK	同意 *Agree*	X

R_3NK6rc0k3XE8nvZ	同意加價, 改善服務 *Agree to increase the price and improve the service*	X	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1Kl2B4Eftv2BCvj	我经常坐Bart from Daly City to DOWNTOWN san Francisco ,是短程 如果涨10仙还可接受 *I often take BART from Daly City to DOWNTOWN san Francisco, it is a short trip. If it is 10 cents, it is acceptable.*	X	
R_3s006QkTNH7RQmR	贊成提高車費改善服務 *In favor of improved fare improvement services*	X	
R_3RaL00EebisxarI	4% increase (2% per year) would be less jarring.	Unknown	
R_plX3V6g5dnnypn	5.4% is almost double the inflation rate, so it is quite misleading to say "less-than-inflation" increases. I understand the need to regularly raise prices but its frustrating when you don't see improvements after raising fares.		
R_9mZtmFzSUQ7bzld	5.4% is too much - many riders travel a longer distance and this will adversely affect them. Suggest no more than 3.4% increase.		
R_1nPj0njVNfskA5L	5.4% may be less than inflation, but it is also MORE than most salary increases each year. I only get a 2% cost of living increase on average each year and many people get NO cost of living increase, so please consider raising fares within that framework instead of looking at inflation (which has nothing to do with wages).		
R_31Awtk77L8sK67e	5.4% sounds a lot. 3% will be more reasonable.	X	
R_3MEGjBc3a6GqhwY	A lot of students and fixed income workers catch the trains in the mornings, and I'm afraid this would impact them the most.  My suggestion would be to give more options to pay for fare. Such as a monthly premium pass. A lot of skilled workers in the city overpay their cards by more than \$200, use this and provide them with a premium monthly pass for thier convenience.	X	
R_1NgeOi70tWRmu0v	A more gradual, yearly increases that is clearly communicated and transparent may be more palatable.  However inflation (based on CPI I assume) is not a very good representation of changes in transportation cost, which people would use to compare BART vs other modes of transportation, so it may not be the best metric.	X	
R_1Gj6BN65uMZ7Mgf	agree with infrastructure maintenance don't agree with increased employee pay or bonus payments for managers		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1kZD4M059AeNZ59	And while fare is increasing I see BART service is gradually deteriorating over the years, but whatever I say here I think BART will increase the fares. I hope BART use some money to clean cars and prevent the system from being used by homeless people as shelter.	Unknown	
R_24wxLgLKVFtjVFC	Any fare increases should be analyzed to determine how they will impact low income users of BART. Low income users should not be impacted more than high income users and steps should be taken to alleviate their burden.		
R_2CqO8hmnEEfitYW	<p>As long as the money is to pay BART repair workers to fix the areas of the rails that need replacement. In the lines going East from SF to the West Oakland station, and past the West Oakland to the Lake Merritt station (and some to Fruitvale station), there are serious problems. The trains have to slow way down, they make a lot of noise, and each car shakes going over the bad rail areas. It is very frightening as a passenger, with the train high up above the roads and buildings, screaming and shaking. The same is true in the tunnel between SF and the East Bay, and on the lines going West into SF from the Lake Merritt station.</p> <p>If you send a notice explaining, to the entire Bay Area, that the increase of the BART fares are for fixing and repairing the rails, I believe most people would be okay with it. I would. Many people, including myself, are frightened, and don't want to be the ones on the BART when the train breaks the rails and falls off, killing many people. Many of us have to take the BART to commute every day, and I've heard many say they're trying to find some other way, as the BART is getting so crowded and frightening.</p>		
R_3JhpjG0BHc8XLTs	as long as you can stop the fare cheaters and improve the safety and quality of the ride.	X	X
R_3DoPgdl80pLTx32	As someone who makes \$60,000 a year the increase would not affect me as much as for those who are earning a low income. I also feel the surcharge for paper tickets should be eliminated as not all those can afford to consistently ride bart and thus will not purchase a clipper card. Some people also don't work the usual 5 days per week and buying a clipper is not within their budgets.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1Fa1XVHpi8KFGRN	Bart currently charges quite a high amount for tickets and the concept of needing more money on top of all the revenue they receive on a daily basis is confusing. While I won't be personally affected by the fair increase, I could see how it's unfair to many people. Small change adds up.	X	
R_s4KBh1qTRXbH6PT	BART fare increases shouldn't be couched in nonsense like "capital needs". Fares go up to cover the cost of business. I would be much more accepting of these increases if BART was clean, better maintained, and pleasant to ride.		
R_VKyZtfs2AApsAaR	BART is already exorbitantly expensive. I've voted for multiple tax and bond measures over the last several years to fund BART, but have only seen service quality decrease. Before raising fares again, I want to see an independent audit of the system's finances, and a review of the salaries and benefits afforded to BART administrators.		
R_1KrjNU3dl5IP1E9	BART needs to get more reliable, safer and cleaner. Not sure if higher fares will help or just go to the outrageous salaries you pay you employees		
R_22xps77QYI8uetP	BART parking and tickets are already an expense. We don't need another increase in fare, if anything we need more security detail at the PLATFORMS and PARKING LOTS, I've had my car vandalized multiple times at El Cerrito Del Norte Station, if you plan to increase the fare at least make BART better for the rest of us!	X	
R_3HRXJ2UfAMA9RXB	BART安全性(如遊民乞討、搶劫)是目前最重要的問題。漲價必須保證提升安全性。*Bart Security (such as begging and robbery) is currently the most important issue. Price increases must ensure increased safety.*	X	
R_2v68yqT4SRmZWFh	Bring it down by 5 cents and I'll approve		
R_BQ7AGVFGr8e0mXv	Clipper Card users, being more convenient, should shoulder this increase. Paper ticket holders are more likely to be low income as a result of structural hurdles to getting and maintaining a clipper card with just cash.		
R_Wd10eL6rqCOArE5	Consider minimum wage commuters using the BART for work, perhaps include new incentives or programs to help the change affect them less.		X
R_270kjJWJgHFHJzk	Depends on how the additional money is going to be used.		
R_BDHVDTd32pVH10F	Depends on status of capital needs. Where does it stand on i.e., top 5 needs.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_339yQQadTHihF0z	Esta bien que aumenten las tarifas, sólo esperamos un mejor servicio y más seguridad para los usuarios *It is good that the rates increase, we only expect a better service and more security for users*	X	X
R_1eXFHa8kinvOZ3K	Fare dont match the quality/service. Cleanliness and Security is basic	X	
R_ykCzspZJ0jRNAEV	Fare increase is ok as long as people get to sit in car. New design has less seats than previous ones. Imagine standing 2 hours everyday.	Unknown	Unknown
R_3g5gWsexXn0QM1K	fare increase should be equally distributed based on the number of users per station or per line. Monitor fare evaders - I see a lot of fare evaders using the elevators at Civic Center and at El Cerrito Del Norte	X	
R_5A3u6W16Uj7Merf	Fare increases should be higher for the disproportionately under-charged suburban miles, and lower (or zero/negative) for the over-charged urban miles. Single trip fares should be increased further to enable an unlimited-use monthly pass program.		
R_1ln0Yg085rDqjnb	Fares increase of 5.4% is too high.	X	
R_9zstHW9Bp5zg9yN	For short trips I believe it is fair however for long trips I think 25 cents would be more reasonable.	X	X
R_2chDQbWqEEP7fuh	Given that many BART parking lots fill relatively early in the day, it seems to me you should be raising parking fees at those stations before increasing fares. The scarcity of parking suggests that it is under priced at most stations and that you could increase parking rates at those stations without a significant ridership impact.  That said, if 5.4% is less than cumulative inflation over the relevant 2 year period, than the increase seems reasonable in a vacuum.		
R_2ZDCLf9ym4hxJEL	Hard to justify any fare increase given how abysmal service is now, but I get it.	X	
R_2z6D9dXGpMGHMqv	How do we know this won't go to Bart executives salaries and or bonuses? Bart has consistently increased fares and I've seen little to no improvement in the service over the past 10 years. I would need to see a guarantee in writing to confirm this increase would be 100% for maintenance and nothing else.		
R_3Dd1e6cqGAYRnF1	I agree to increase the BART fare, but increase of 5.4% is too much, which is more than the inflation,	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	I think 4% increasing is fine to every one who live in San Francisco.		
R_2ZWgbK55LTKPmwA	I agree with the increases, but do not think that paper tickets should cost more.	X	
R_XIj6rJeqWkpIKLn	I agree with the price change If every 3-5 years not every two years		
R_2PB5DZjCPveI4MD	I already completed the survey once but wanted to add a comment. I don't find the current pricing structure very equitable. Generally speaking (and definitely true for the Bay Area), the further you live from the downtown SF the less affluent you are. Yet, people that live further away pay more. This higher price will also make people prone to drive more, something we know the Bay Area has too much of. I understand that a person traveling more miles technically is using the service more and thus should pay more. I don't know what the best pricing structure would be but find that people living further away need to be thought of more. I myself live in SF so I'm not saying this as someone who wants to pay less. I just want more people to use transit and don't think the current structure is promoting that (for long distance Bart trips)		Unknown
R_s6AABADkU3K4enT	I am a frequent work day BART rider, so any BART fare increase will impact my monthly spending on transportation. I understand that there are projects that need to be funded, but do you have any discount program for frequent rider like me? Thanks.	X	
R_1FKelkoMoaJHFIQ	I am ok with a fare increase as long as Bart works to improve the safety and cleanliness on its trains.		
R_3HUHNc9FGhe8NCe	I am okay with paying a little more as long as the service gets better, more frequent trains and less delays.	X	
R_1imRse2vyE9bi55	I believe that it is okay to increase prices a little as long as it is being used for security and maintenance. Bart has become very unsafe and discusting	Unknown	Unknown
R_1mPEQoDsqJJrYcY	I can afford it but will others? We need a standardized fare for everyone especially when someone needs to get from East Bay to the South Bay crossing at least three transit agencies.  But overall I am in support of better trains, better Bart.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2YMuo6g305bEf0e	I can understand a fare increase, but I would like to see our trains made cleaner and safer with this money.		
R_1GCVC5r59dpl2EZ	<p>I commute from Concord to Montgomery everyday and this increase would affect my budget. I believe there needs to be a 5 cent increase for everyone and then slowly increase cent by cent. I also take muni upon my arrival to SF and I would have to cut down other expenses just to pay for transportation.</p> <p>Although I know the increase will occur regardless, BART needs to focus on other areas rather than this new revenue going to those mentioned in this questionnaire. Security needs to be improved, I still find myself feeling insecurity and being more aware of my surroundings on the daily. There are homeless people and people smoking on a daily basis in these rail cars. They have strong body odor and makes it difficult to be on the commute on the way to SF and on the way back. The "safety BART" application is not very user friendly either so that is a waste of money. There needs to be clear communication regarding our safety and what will be done in the future.</p> <p>I would like to see my 40 cents everyday going to new safety policies and air conditioning too!!!!</p>	X	X
R_3NKwM5qY8SxeEVi	I don't mind paying the increased rate as long as bart holds everyone accountable to paying this. I see people jump over the ticketing gates and the bart agents don't do anything about it. It's not fair for those of us to have to pay more money because a huge chunk of people are not paying for the bart services.	X	X
R_28M1e2BpCq9Kkj1	I don't have an issue with that. However, you'd gain far more by solving your fare jumper problem.	X	X
R_BKaWfZdlm2Py5Pj	I don't mind the increase if I see security measures is visible for ticket jumpers. I ride Bart everyday, and I see 3 out 10 are ticket jumpers in Richmond Bart station. Specifically at Richmond Bart around 4:12 pm, you see students in uniform (like Military school - in black jacket and black pants), they get on a MacArthur. They just go out at Richmond, looking so proud that they don't pay. Low income could get subsidy for this and yet they chose to not pay. These young students have to be taught as early as now	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_VItKb17fxesbUpb	i have mixed feelings about it; would be nice if it were offset by more monthly pass options.		Unknown
R_1fcNW1LV5LBFzj8	I have no opposition but there needs to be more work in stopping/limiting fare jumpers at Civic Center (the station to which I commute daily)		
R_1ODH1VYIzN8fjis	I have objection to this increase due to my commute to Civic Center Station. The cleanliness of Bart trains have slightly improved, but certain stations appear to be neglected. Civic Station is notorious for vagrants but it does not help that security is not frequent in that area to prevent the litter, public drug use, tampering with the pipes and clogging it during the rainy season. If the price must increase, cleanliness must be maintained in all trains and stations.	X	
R_1jsaftbGkV5SSDo9	I ride from Richmond to Daly City five days a week and don't own a car. I am in favor of contributing to BART to keep it running.  I do wonder what other ways BART is fighting to get money, including increasing taxes on corporations or investment in fare evasion prevention. At Richmond BART, on average, I see people walk through the turn styles every evening and some mornings.		
R_DMMkDBJt03RiFk5	I support capping any fare increases at-or-below inflation levels. I hope that any increase in fares comes with additional support or accessibility programs (reduced fare, free commuting, etc) for those who are unable to pay fares to commute. Vulnerable populations often don't have access to commuter benefits or other employer assistance.		
R_WxhBtoT1ojwTmvv	I support it if it allows more frequent service as well as maintenance.		
R_3JJJjuHHWWkZ2zp	I support the fair increase as long as it goes to capital needs and not increasing BART union wages		
R_1ezs4wMfB6tNefl	I think BART is already pretty expensive compared to a lot of other public transit systems I've used. As a student who commutes daily, these fare increases would be unwelcomed, but if there was a significant increase in my quality AND safety in my rides, I'd be willing to pay.	X	
16th11	I think BART should allocate the \$ it gets from the public every few years exclusively for BART itself, it is falling apart.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2dzQ4bWSFeLaXs8	I think fare hikes are fine, and it won't change my usage- but I think ya'll need to expand subsidized ticket availability (youth, senior, etc)		
R_3kCgCDIT03G5y4e	I think if BART plans to do these increases then they better increase the need for public safety. Too many times there have been drug addicts and bums on the trains that typicall take up an entire row on the train. Also I have witnessed 2 fights over the course of a year. I have been a BART rider for over 20 years and I have never seen this many fights.	X	
R_3FXQqMo5A9H6mfH	<p>I think in regards to the fare increase, the schedule and the percent increase are reasonable. In my opinion, it would be imperative for BART to be proactive in it's transparency by creating a reporting cadence for revenue raised after the January 1st, 2020 increase onwards and which "high priority capital needs" projects in will fund (as well as how much is funded for each project).</p> <p>My main concern is that there is still ample amounts of fare-skipping by passengers that, according to one local news station's reporting, has lead to millions of dollars in revenue loss. That's something that is hard to ignore when any talks of a fee increase is brought up. I know BART has increased efforts to deter this from happening, from fare patrols to gate alarms, and I'm appreciative of those efforts but according to that same report it's had little affect to people's behavior.</p> <p>I'm all for improvements to the BART system, as it is very much needed. So while I support the less-than-inflation fare increase, I do wonder if there are other ways of recouping revenue through other efficiencies. Thank you.</p>	X	
R_D7Tq0dVSKbLmpLX	I think it a good plan but I also believe it would be kind of hard for students financially.	X	X
R_3qJsyABpXUYGzNt	I think its fair. My only concern is policing the people who don't pay .		
R_RaeUVjdqmQuN4Rz	I think that the fare increases will affect low income, so I suggest that passengers that are not low income can receive this significant increase, but for low income passengers just keep it the same or offer a program like SFMTA offers for low income.	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3HzwPoW6XOSLaLj	I think that's good. As long as some go to Bart police		
R_el228piMjwaK91f	I think the cent increase is practical. Although the prices raise every year which can make it hard for many people to put together that much money.	X	X
R_3IcNOVqgl9kMKfu	I think the fare increase is acceptable given the need to fund much needed capital infrastructures, however I am concern that the increased fare will disproportionately impact low-income riders. I would like to understand how BART is planning to ensure equity with this fare increase.	X	
R_1CJk0KwStmLGD5Q	I think the increase is a reasonable amount at this time and manageable for most people to pay. However, for those living in the city of San Francisco, I am often frustrated at the crowds and lines at BART and find it strangely more pleasurable (and cheaper) to ride MUNI. I never thought I would prefer riding a MUNI bus to taking BART, but I now do. Hopefully the new cars and control system will minimize the crowds, since, for example, this morning on the way to work I had to wait for three trains before there was a train that I could get on. People hover around the door and do not walk or stand in the middle of the train even though there is often plenty of room there.		
R_24CdHRXsewPy0Xz	I think the money for the fare increase should be used for cleaning up the BART stations, such as on the trains and the bathrooms.		X
R_3ffXsqEdWo237kG	I think these fare changes are fine, as long as they do not effect discounted fares for children, elderly, and low income tickets. I also think people need to see improvements to BART's service in correlation with these fare increases.	X	
R_x4JiOAoVoUHUFq1	I think you are punishing the people who are coming in from farther away and it should just be a .10 for all fares and leave it at that for this time.		
R_vJivxoHJCgveElH	I trust that you have done due diligence and the increase properly matches the increased expenses, or planned increase.		
R_2zSKkMG112OGfSH	I understand that costs are going up but I'm still watching lots of people go thru exit gates and jump turnstiles, especially at Hayward. Please try and make some effort to stop this behavior.		
R_3n78NC5j2gs9946	I understand the need for fare increases but it's hard not to be concerned about the effects on low-income riders. I would support it being paired with a program to reduce fairs for different groups		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_w0IY20qdg6HCNKV	I would also suggest to use the fare increase into BART user security as many crimes happened in BART stations.	X	
R_3Nx5JrbwBPCnbCB	I would be fine with the increase in fare, but just have my two cents. With the way bart in expanding, its getting difficult to travel during rush hour. Does bart plan to have some trains, starting from old stations, so that its comfortable for people.	X	
R_24nRjhV0TwPqbC1	I would be more than happy to pay the increased fare if it meant I could get to SF from Alameda via Bart only	X	
R_NWlUp3CsMnqBJJL	I would be OK with a fare increase IF I didn't have to ride VERY crowded trains during rush hour. This is especially true on the Richmond line to and from San Francisco. Also PLEASE do something about making clean and free restrooms available at or in close proximity to the stations.	X	
R_1Cw39KmzdLl9ait	I would expect an increase in BART system service with a fare increase. Currently, many escalators and elevators are out of service on a regular basis. My morning commute costs \$3.95 and has regular delays as well. I would be against any fare increase without proper allocation of funds to ensure clean, safe transit on BART.		
R_1mltk9MwmN83GYK	<p>I would gladly support much higher fares if you prioritized keeping the existing system safe *before* one further mile system extension. You cannot reliably manage the existing passenger volume; what the hell do you expect with the new revenue miles?</p> <p>I'd be happy to see you DOUBLE all fares at once if every dollar went to the following:</p> <ol style="list-style-type: none"> <li>1) minimum one police officer in every revenue train on every line, every day</li> <li>2) advertise greater police presence and tell passengers to call the conductor without hesitation</li> <li>3) minimum one officer in every station, every day</li> <li>4) ZERO TOLERANCE - if a passenger has loud music, immediate ticket and REMOVAL FROM TRAIN; littering, immediate ticket and REMOVAL FROM TRAIN. In NYC we cleaned up the subway by</li> </ol>	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	<p>ordering our officers to practice maximum enforcement. Don't just look for the crime that's hard to predict. Let riders know that if a cop sees it, you get a ticket.</p> <p>5) fix the d*mn fare gates already - stop whining about how difficult it is and bring in some engineers from the NYC subway - last night I did an experiment: I stood by the fare gates at my station [San Leandro] starting at approx 8PM and simply counted fare evaders. In 15 minutes I observed 34 fare evaders out of approx 150 people exiting the system. That is nearly 23%. UNACCEPTABLE. Again, I'd be happy to pay DOUBLE the current fare if you had roaming fare inspection teams - saturate a car, block all the exits, check every passenger. Evaders? Immediate citation and REMOVAL FROM THE SYSTEM. Oh and about a month ago I did a similar experiment while waiting at the new Antioch station for a ride to a party - the rate of fare evasion I observed was nearly 50%. HALF OF ALL EXITING PASSENGERS. And you want to raise fares? Higher fares, low enforcement. Perfect recipe for loss of control. Does the name Bernie Getz ring a bell?</p> <p>5B) fare evaders commit crimes. You have clear station surveillance video of the man who killed that young woman on the platform at MacArth</p>		
R_3ls3GG5QrUJtKr2	I would like to be able to opt in, by enrolling my Clipper card, to have my fares rounded up to the nearest dollar. There are lots of people for whom this increase will hurt. There are others, like myself, who won't be affected at all. Perhaps not many would take advantage of self-selected fare increases, but it would be nice to have the option.		
R_OqbC0ASQbfVzQxX	I would like to see money spent on more BART security presence.	X	Unknown
R_2EhIg2vBcdukfak	I would like to see the increase go to cleanliness to the trains as well	X	X
R_b9HNQ6Dm5vKuGml	I would prefer increases on a transaction basis instead of based on distance.	X	
R_vZZU8kALIBLeqm5	I wouldn't mind paying extra if I could be on a reliable, clean and safe train. The presence of BART PD is not apparent and there are homeless people on every car and drug users shooting up on trains. Why should I continue to have my fare increased	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	when 80% of the homeless on the trains don't even have a ticket and they ride all day disrupting commuters.		
R_3qwjj84rgAytiYm	I'd like to see a more itemized breakdown of how the fare increase is intended to be allocated across these capital projects, as well as other sources for those projects' funding and their worst-case timetable for implementation.  I understand that the fare increase is a constant and that inflation justifies its implementation, but I also have a hard time believing that the fare increase can go towards those capital projects when BART's operating expenses are also subject to inflation.	X	
R_DBqlveUuqKDxSyB	I'd like to see the new trains and less homeless on the Antioch lines for paying more - oh, and make the fare evaders pay their fair share. I have the feeling I'd have to pay less if everyone paid their fair share.		
R_2fdR2UjFtIQxMxy	If bart is increasing prices it would be nice to see this go to having more police officers in each station, cleaner stations and trains and the option to use card inside as well	X	
R_2QDwvcbeHXz3N7n	If fare's will change/increase, there also need to be changes to the current system. Bart is too crowded, doesn't run often enough during high commute times, and is often littered. Happy to pay more but need to see positive change (however small) in the present, not just "planned"	X	
FV3	If it goes toward safety and cleanliness it is needed.		X
R_1gw6mEngYzx8k6s	If it goes towards fighting fare evasion and homeless people on Bart then I'm all for it.	X	
R_28UFVU3Cna72ybk	If it means cleaner stations and more law enforcement in trains, sure	X	
R_2SD0QfyzSYhxnH	If the fair was to increase, will the cleanness of the bart increase?	X	X
R_1qWcWQp4eK0efmJ	If the fare increase doesn't keep up with inflation, will it be enough to support BART's operating costs and ongoing maintenance? I'd be more in favor of fare increases that would provide BART with enough funds to do everything it takes to be efficient and reliable (as long as there's also low-income programs to assist those who can't afford the fare increases).	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3rqgBTBKozmlzpD	If the increased fare is actually going towards improved service - fine. BUT as a daily rider I do not see improved service, maintenance, or safety on BART. There needs to be serious oversight of this agency.		
R_8p5nvugVUQk4fx7	If the price is increasing, the safety should be increasing also !	X	X
R_2ZQ6ZW0WbgjmE10	If there is to be a fare increase there should be resources allocated to developing a monthly fare plan for transbay commuters.		
R_qxs5p0xAFYHMYTL	If we get seat to sit than this fare increase is reasonable	X	
R_SCwneCaRkoQyZ57	If you increase fares, crack down on fare-evaders	X	
R_BKvtVangnMla8Fz	If you replace all the trains with the new ones and have stationed guards on the plaforms it might be ok with me. The trains currently are filthy theres often very little seating because of homeless people sleeping on it. I think you charging so much it should show more in safety and in the trains		
R_3GcEFmGnpHVw2mB	If you would like to increase the price of a ticket, you should make the bart more safety and cleaner.	Unknown	Unknown
R_ym3HukZyY7HnC6Z	If you're planning TO INCREASE OF 5.4%...I do not have a problem because our Bay Area's train fares are still lower that the WEST COAST fares anyway. BUT, if you'll increase it...then BART must also INCREASE THE SECURITY in order for us, riders to feel safe at all times inside the trains and even in our parked vehicles!!! I've been a loyal rider from worst to great job of your staff. BUT GIVE US SOMETHING TO LOOK FOR IN FAVOR OF SECURITY, too!!! AND CLEANLINESS of ALL TRAINS, PLEASE!!!	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1FstAFXx3JEv]kE	<p>I'm all for fare increases if service improves. I think the new trains are a huge improvement, but there's still other problems through the system:</p> <ol style="list-style-type: none"> <li>1. Fare evaders: Almost every time I come in or out at 16th Street I see a fare evader while the BART gate agent does nothing (I don't expect them to do anything, I am pointing this out for my next point). You have got to figure out a way to eliminate (or drastically reduce) this problem. Homeless and criminals have easier access to your trains and passengers through fare evasion. It presents a safety issue.</li> <li>2. There are not enough entrance and exit gates and many stations. When two trains going in opposite directions arrive at the same time, at Montgomery, it is chaos. Chaos getting off the platform, because BART made a poor design way back when they built shared platforms. It's also a mess trying to get out of the station. So, I don't understand why if gate agents aren't confronting fare evaders there are not more entrance and exit gates. It makes absolutely no sense. I don't expect gate agents to confront fare evaders - that puts their safety in jeopardy, but it's frustrating that most days my entire BART experience comes down to one word - overcrowding.</li> <li>3. DIM stations. 16th St. is so glum. It would be nice if it could be brightened up a bit.</li> <li>4. Dirty stations. Montgomery is dirty. 16th is dirty. I don't understand where the cleaning crews are.</li> </ol>		
R_2ydQ8vBBVEUV2U6	<p>I'm fine with it so long as results from increased revenue are palpable and occur sooner versus later. A new computer control system by 2027 is too far away. Please consider expediting.</p>		
R_sScUy7PvOxu]mUx	<p>I'm fine with the fare increase so long students, people who can't afford the increase etc. are not subject to it.</p>		
R_2bVI0umeKmcAe6P	<p>I'm not crazy about it... these updates/upgrades should have been funded decades ago... but I get that it has to happen. And I'd rather that it impact riders than taxpayers. So increase fares if you must, but please don't couple that with added sales and/or property tax and expect me to vote for that</p>		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	too.  New rail cars are already over a year behind schedule - I'm a daily BART rider and have yet to see one on the Dublin/Pleasanton line. I'm also not sure the current infrastructure can support the new cars, so that's yet another investment needed.		
R_2qwRe12o0sJP5Od	I'm not too bothered by the fare increase plan, however, I do feel that if fares increase there should be a correlation between fare increase and BART improvements. Additionally, I feel there should be some sort of discount for regular commuters.	X	
R_2CZI4fxHqC5IT5e	Implement low income discount program before increasing fares		
R_3PvE2h8SB65pgxi	In favor, but contingent on: 1) Longer commute trains with adequate seating; 2) Eliminate employee strikes that stop train service.		
R_3DhX9m7zROHCQcI	In order for BART to continue to provide updated, modern service I do see the need to increase fares, but I don't think that it should be in affect for more than 3 years or else lower income riders will look to other sources of transportation.	X	
R_2qyGcnUly7Ql1rP	In order to raise the price please have the bart trains cleaned, homeless free and more police to patrol the office.	X	
R_2RWasDQiFOEfr7	Increased frequency is a main concern for me. Increased fare in order to have more commuting train opportunities is worth it.		
R_2v1jVwMIyG0UINo	Increasing the fare is ok if work is done but there should be a fare ceiling set to where fares can't be increased for at least 4-5 or more years.	X	
R_1ojUiBSO9bsN8WJ	Instead of going all the funds towards new systems, BART should really consider cleaning the existing trains and having more staff continuously to maintain cleanliness of Bart on everyday basis.	X	
R_2wbDs6oOxChPNW3	Is this proposed fare increase include increase in parking fees? The increase should be linked to cost of living in the Bary Area wages. Wages have largely remained the same for the past two more years. So planners should factor this into the planning	X	
16th9	It ends up costing a bunch when you take BART every day, but I guess we need it.		
R_3HFwwugSZjRfdkN	It makes sense; do it, but try to give low income people a break.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1QtndLjmrghPB9Q	It seems reasonable, but BART needs to dramatically increase revenues from sources other than taxes and fares.		
R_yL51PJQKoWRecaB	It shouldn't be significant to matter to most riders. The biggest problem with Bart currently is that it is extremely overcrowded during commute times.		
R_1ouwluWJKABw5Ul	It sounds like BART does need the money, but maybe we'd need less if we didn't waste funds on fare-evasion programs that cost more than they bring in?		
R_3r2hoMDibsEncdz	It takes money to manage and run a super efficient service like BART. Fare increase proportional to Inflation is logical. The cost of providing services increase y-o-y and hence the fares have to increase within range to cover the cost increases. However fare increase should be nominal considering affordability as the primary factor	X	
R_2xP0zAoQZXQgre1	it will be fair if the trains were clean and safe	X	Unknown
R_wM3znRI8UBxDgc1	It's fine I'll just suffer as usual on this hell train. I am cool paying extra but I would like y'all to be more transparent with cost breakdowns for your projects. So often you state exorbitant amounts of money without really explaining where each part of it is going.	X	
R_3JE1NCiRhjtMvGp	It's okay for people like me, with full time work and already in middle class. May be much harder on lower income people who have less discretionary income.		
R_24wJyORT96m1xMu	It's okay. Maybe when you go from one station to another station. For example, balboa park station to glen park station, I think the fare should be like one dollar.	Unknown	Unknown
16th13	It's a real bummer but I get it.		
R_2Xajv4x6NhAhM22	It's fine to increase the rate but people need to feel secure inside bart train by not having so many homeless inside the trains and also making security ride the trains to monitor our safety.	X	X
R_1i2tXRCrbIgVcph	Just fix the train system.		
R_5pwQ9UpMwwBUWAN	Just to make sure money goes to exactly where it goes to. When there is a significant delay, there should be discount or incentive to make it up on the next business day.	X	
PB2	Keep fares fair and keep it standard for a while	X	
R_3Lbcicq3EkzIDdOq	My concern is with low-income riders. Will Bart expand programs to low-income riders?	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_21bICHctGczSK77	My roundtrip from daly city to ashby would increase by 49 cents which is fine for me but why don't you offer discounts for low income folks?	X	
FV2	Needed to have [pay for] more fare inspectors		X
R_2SwdRIJ1tKsySJI	No concerns however I believe any increase should cause BART to report our regurally how much money was raised and how it was used	Unknown	Unknown
R_24odlMsRGrY3gzk	No fare increase until the system I safe, clean and timely  Get senior management to ride it often to experience its' wonderfulness, not!	Unknown	
R_2Bxt3CialiXXjXI	No problem for now as long as it is not a drastic increase.	X	X
R_1ocdgEUrPpJTKrE	No, it is reasonable to increase fares from time to time to keep up with maintenance needs, but BART should look for dedicated funding sources because many people find the fares to be to high.		
R_3fv3zpzKW3gD5P2	No, this plan seems fair and BART indeed has extensive capital needs. However, one concern I have is what BART riders receive in return for this fare increase. Will there be increased service and stronger reliability, better turnstiles to reduce the likelihood of "fare cheats," increased seismic protection, etc.? Or does this fare increase simply cover existing services provided BART riders?		
R_10N8UgnHvyLU0D0	No. If the price increase help with better safety. I'm up for it.	Unknown	Unknown
R_pcLufNKoNi8K9K9	Nobody likes fare increases. It just seems like BART is an endless money pit. We already gave 5.4 billion. If this is just part of the regular increase then I guess it's fine.		X
R_3DuW9WBspwcESVb	Not a fan of the increase unless tangible steps in the improvement of service and ways to crack down on fare evasion.	X	
R_1Q4uxQbTnf9XW1X	Not excited about it, but I can afford it.	X	
R_28zVtoYj5uKDPdf	Please consider the alternative funding source of threatening and extorting funds directly from cities like Lafayette that have bulls**t land use policies around BART stations. In lieu of that i guess 5%ish isn't too bad.		
R_3MSYtRTRCkwwgpdF	Please keep Bart clean and safe for all.	X	
R_2YgG4EF04Xbxhp0	Regular fare increases are reasonable as long as they consistent with the level of service provided and efforts are made to ensure that all riders pay the fare.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_u98tiRJTdFGHdfX	Regular, predictable increases are fine, but there needs to be better in integration between BART fares and other transit systems. Why does it cost more to take a bus round trip to a station than it does to park at the station? That's unfair, especially since bus riders are usually lower-income and we should be discouraging driving. Please develop an integrated transit fare system that makes it less expensive for people who need to combine local buses with their Bart trips.		
R_1LiAiVC68StG1Wk	Seems like it is what might need to happen, though is there no funding that can come from the state since BART helps reduce emissions and traffic?		
R_2v07ow0pB0MqtO9	Seems reasonable but I think it hurts people who are paid minimum wage, having to work in SF because it pays a little more or has more opportunities.	X	
R_1remZUMRE5KMgfB	Shared rides sometimes offer competitive prices for short trips, but the planned fare increase is not high enough to make a big impact during peak times (greater than 50 cents might spark more outrage).	X	
R_1mqj5oRod7MXziO	Si van a aumentar la tarifas deberán también aumentar la seguridad y limpieza en los elevadores *If they are going to increase the rates they should also increase safety and cleanliness in the elevators*	X	X
R_bC1qOerfQI9zAm5	Sounds reasonable but will tip scales more towards rideshare apps for trips w/ multiple people who are deciding based on what's cheapest	Unknown	Unknown
R_p5wJOEvuFf3MMU1	Sounds reasonable to me. Prices can't stay the same forever, but security should be improved on trains and in stations	X	
R_1FQVyiWNsp2mLyA	Sux, but I guess you gotta do it.		
R_vP24f90RGpzJSg1	That makes sense. I'm all for funding public transit. But I would like to see a low-income rider program soon!		X
R_2zMxWjyO2nZxrHX	The commuter benefits provided by the company only reimburses \$130 which is less than half of the costs for someone like me who takes the BART from Fremont to Montgomery. It'd great if BART can work with the government to increase the commuter benefits which can help the consumer with the increased costs. I'd also like BART to utilize the money on updating all the old trains and increase the frequency of the	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	post popular trains like the Daly City and Warm springs		
R_33shq0EUtKzl3yN	<p>The fare increase is justified if it's spent as described. It's important to communicate clearly and frequently what's going on with these projects and when your customers can expect to see the promised improvements.</p> <p>It's also necessary to move ahead with fare relief programs for low-income riders on the order of what San Francisco Muni has launched. These programs aren't cheap, but something needs to give for riders with less means who are confronted by the higher fares.</p>		
R_238ioSACuC18V7X	The increase is too high. Lower percent.	X	X
16th6	The increase should be pegged to inflation		
R_5BzHQD14eFkYjsB	<p>The price increase is acceptable. But before we increase the fare, it is imperative that ALL PASSENGERS IN THE SYSTEM ARE ENSURED TO BE PAYING MEMBERS. In the 2 years I have traveled, never met a fare checker. You need to invest in muscle to check and have a procedure to issue fines to those who do not meet the paying system guideline.</p> <p>On the same note, CLEANLINESS is key for a system of this nature. Publish plan for making stations, trains clean.</p> <p>I DO NOT MIND THE TRAFFIC, STANDING FOR HOURS, DELAYED TRAINS, etc... But if you want paying members, they are the next in queue. Understand your priorities and ensure you fund them in the right order.</p> <p>If you are clear on your priorities, send me an email response. I am sure you will ask for email in the survey.</p>	X	X
R_1ltaxP6ecySm0Q5	The quality of life change focus within the BART system should not be upgrading the trains or increasing frequency of trains; BART already has reasonable frequency and the old cars are fine. The	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	focus on improvement should be keeping out homeless/non-paying passengers who disturb an otherwise peaceful commute.		
R_2YDlGtK3gVjUJAR	The regularly scheduled fare hikes are hard to stomach when improvements feel very slow. Sharing a more regular (quarterly) set of tangible updates on what the funding is improving would be helpful. (e.g. we have replaced 6 add fare machines with credit/debit capable ones, escalator downtime has reduced from 15 days per month to 10)	X	
R_1eQqov4i3zcn8tB	There are a few groups of people who take BART, but I'm concerned about how this increase will negatively affect those who absolutely require BART but are of low income.	X	
R_xtJIRk06bvJ5Ysx	There are already many people who live below the poverty threshold, and these are the ones who would be most impacted. I'm not sure what programs exist for these populations, but if they could be taken care of appropriately (through a reduced price program), then I would not oppose the increase.		
R_VWprPYqtCyGPuxz	There was already an increase added, why another?  I'll be more than happy for this fare increase AFTER I've seen less delays, cleaner and safer bart trains	X	
R_3Dp6rJ6ifsvhYt4	These need to work in concert with tolling, congestion pricing and carbon pricing.		
R_3I47csFKVPpVK80	This fare increase seems reasonable to me, but I do wish there were deeper discounts for regular commuters.	X	
R_3LXWkcvFgKLWhXA	This increase is to be expected, but I wish my annual raise was at least 5.4%.		
R_2uVtbXrLi7Pw23B	This increase seems fine. But more should be done to increase efficiency so that some of this money can go to non-capital expenditures, like more frequent cleaning of the rail cars and stations.	Unknown	Unknown
R_2D1agGBeo9gCtS	This increase seems fine. But more should be done to increase efficiency so that some of this money can go to non-capital expenditures, like more frequent cleaning of the rail cars and stations.		
R_2aJJYtdMGcgrcAD	This is a huge increase for a daily commuter like me. Can this be gradually increased? and also I don't see any improvements in my commute in-fact the escalators does not work etc	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_WczSJBuTH4Umnip	this is all great but what are you planning on doing about the increasing amount of fare jumpers and homeless people sleeping on the trains. We all pay a premium to ride BART, I feel security is needed at the train stations, the station agents do pay attention and are actually very rude	X	
R_1onViMBHwFPHiyE	This may be difficult on low-income passengers, but the majority of monied Silicon Valley riders will be fine.	X	
R_12mpdafG2k1paJH	Tomo el BART todos los días de lunes a viernes. *I take the BART every day from Monday to Friday* No me gustaría que las tarifas subieran. *I would not like the rates to go up* Pero también reconozco los costos que BART enfrenta para proveer el servicio siguen subiendo. *But I also recognize the costs BART faces to provide service continues to rise*	X	
R_z6z2xNPIsacFzj3	Understandable though should be kept to a minimum. It's already pretty expensive to ride BART.	X	
R_2S3uCX7gAnrH3Ff	Unfortunate, but necessary. As a long-haul commuter (North Concord to 12th Street Oakland) every day, the additional cost will be noticed. I may drive to work more frequently than I do now.	X	
R_WiBMjQJGsqkfPoZ	Use a fare increase to build a parking garage at the Antioch station.		
R_3h3Hla2tSpn3ZEp	Use it to police the trains for sleeping homeless and panhandlers		Unknown
R_3QGLmujilyeYfc7	Use part of it for janitorial service. Cars & stations are filthy and clearly not being cleaned properly on a daily basis.	X	Unknown
R_qC1oFFfibjpDOAF	Use the fare increases to invest in additional measures to stop fare evaders.		X
R_2dGTFYG9Upf7c3Z	While fare increase is understandable, it hits those who commute on BART daily the hardest. I think providing more discounts on bulk ticket purchases would incentivize commuting via BART and help your daily riders afford to continue using BART instead of other alternatives		
R_1QLPLlagIR8dgAp	While many will balk at this idea. I do see the need to increase fares to keep up with a burgeoning backlog of work on a nearly 50 year old core system.  It is warranted at this time, but one must also take a look at how State, Federal, and other organizations can help BART cover these costs		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	more as the rehabilitation work progresses for the next decade or so.		
R_esoWT7f7TNJt0dP	Why can't you get money from property taxes on values on the corridor instead of this regressive tax on your captive riders?	X	
16th12	Will any of the increases help improve BART Stations? They need to remain clean + in order for riders!	X	
R_31yJeldVwcC7Jif	with an increase in fare, there needs to be an improvement in efficiency (i.e. elevators that work all the time) and cleanliness (yesterday i walked into a train and almost had to get up and leave (the smell is so horrible I can't believe the train is still allowed to run). Have your staff visit countries such as Singapore/Hong Kong/Tokyo and see what it looks like to run an efficient/clean train system	X	Unknown
R_RWbzsguJTXUQ0DL	Would love to see specifics on amount of revenue generated to cost of needs. Additionally, there would be more public trust of there was a neutral third party reviewing expenses and proposed spend.	X	
R_1rANC16kN05nJ7V	Would not mind paying more, but you need to cleanup the trains, I'm going to start carrying my gun, just to ride the train!	X	
R_PHBMX53eLNg3plv	Yes- Bart should increase the fares for non commuting riders, but have better monthly passes. The way this question is worded is biased	X	
R_3M3EkDwkQC3UxyG	<p>Yes! I see a ton of people who obviously cannot comfortably pay the full fare because they hop the gate &amp; take on the added risk of a ticket and/or physical violence through police interaction.</p> <p>Instead of criminalizing these folks — many of whom are riding and paying *nothing* — why not add or expand a discount program where people could pay what they feel comfortable with? Especially folks who live in the Bay Area and make less than \$60,000.</p> <p>This way, your fare increase, which will undoubtedly push more people into the category of fare jumpers, will negatively affect fewer people.</p>		X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_0055GlxhxseNWIV	Yes, don't do it based on commute but based on the inflation of jobs in the bay area		
R_3h0cn2qazpe1HHJ	<p>Yes. I very much appreciate and depend on public transportation. I use Clipper and appreciate the discount, as well as the high value ticket discount options.</p> <p>That being said, I'm concerned about the difference between paper ticket fare and Clipper Card fare being regressive, or putting greater burdens on lower income people. For folks who aren't able, for whatever reason, to access Clipper, it's more expensive. Lack of financial stability, language, lack of financial infrastructure seem like barriers to Clipper usage and those are the people who need the discount more.</p> <p>I'd rather pay slightly more as a Clipper user to make BART more equitably accessible.</p>	X	
R_3NPZ3jSKd1hrLpK	Yes. If you're going to increase fares, at minimum make an effort to address the issue of train overcrowding. It is an INSULT to everyone who ride BART to pay more only to board dilapidated trains with less seats on them. That is stupid.	X	
R_0c9RKbLh0pS4CWt	Yes. The increase rate should show the increase quality of Bart service. People who illegally have free ride should be fined first.	Unknown	Unknown
R_3m9pfXATZU0pDgC	You do what u need to do girl just be sure to add more security and make sure all those cameras inside the train are all working.	X	X
R_2PaGxeZ3dRHkwnC	You should figure out a way to tie this to income. This is fine for me to pay but sounds expensive for some people with less means		
R_2ZP56oDti3JGMqQ	每年适应调整车费是正常的现象，只不过辐度过高，就带出另外的问题！*It is normal to adapt to adjusting the fare every year, but if the irradiance is too high, it will bring out another problem!*	X

R_1Dx1jWdNhOKkwmM	\$18 month fare increase (.40x2x22 work days) is not acceptable. The trains are filthy, you can't find a seat, and improvements are not visible. BART has received transportation grants and passed measures resulting in increased taxes for property owners in CoCo County so where is that money going...to pay bonuses for BART personnel?		
R_1fZu8gVlSi7QtTY	40 cent from Antioch to Montgomery seems high	X	
R_BXjK3KT00Roqcnf	5.4% increase is just too high for me, currently I'm paying round trip fare from Dublin/Pleasanton to 16th st in SF for \$12.70 with the new increase will be \$13.39 plus \$3.00 parking with a total of \$16.39 a day, it's just too expensive to commute by BART. My annual salary increase is about 3%, and BART wants 5.4% increase it's just unfair for us commuters to pay such high price to commute to work. With the high increase of BART fare I might have to carpool to work.  We pay so much to ride BART and we have to suffer with riding a dirty and smelly trains with a lot homeless people sleeping on the trains, and a lot of time BART breaks down and causing delay. BART needs to have some security at the gate to prevent the homeless people(this are the people making the BART stink) from riding BART.	X	
R_8iVLnzzZRFQUoIV	About time you concentrated on making the service more reliable before charging customers even more....yet again. We are currently paying for late trains, delays and fare evaders	X	Unknown
R_22RIjVNJEUGQuhF	Absolutely no fare increase. It's already too expensive and penalized lower income people who have to live further away from urban centers where the jobs are because rents are too high in those urban areas. Tickets need to be a flat fee.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3Gd3KK4kSpW0ynJ	<p>Are you kidding? BART is going to increase fares when there are persistent service issues that continue to get worse. Where are the new trains? I ride the yellow line and have yet to see one new train let alone ride on one. The current trains are filthy and smell. Fare evasion is out of control. I have only seen fare inspectors once and the selected certain riders for proof of fare. BART police are never present. I now take the early bird express but from PH. The bus is 100% better than riding BART. The bus is clean, doesn't smell, the only riders on the bus are those that have paid, there are no threatening individuals, everyone is respectfully quiet. The riders on the bus are working people commuting back/forth. We are the backbone of your ridership M-F. Now, you want to increase fares? Let's see some crack down on your service issues and fare evasion.</p>	Unknown	
R_1oFPUQmosKtMeM9	<p>As a commuter, I'm saddened to hear that costs would be increasing again so soon. To raise fares every 2 years seems ridiculous, and doesn't reflect that lack of wage growth for most people that ride BART.</p>	Unknown	Unknown
R_1EgmSkHIx49GYfF	<p>As a weekly rider, I highly disagree with any fair increase until BART as an agency can fix the much needed security and safety issues durning your hours operations. How can you increase fares when your riders are faced with drug paraphernalia, feces, violence, fare evasion and the minors of constant panhandling.</p> <p>Over the past 10 years I'd like to say, there has been a big decline in the service from BART. To ask your daily patrons to pay more for a system that has bad managerial and COST infrastructure; where has the money gone over the years? A lot of your riders are faced with an economical crush and can barely pay the cost of fair when all of the Bay Area transit agencies are increasing fairs. Yes, you have implemented the Fare evasion teams and that program is a grand idea to a beginning to a new BART system, but, a SMARTER game plan should be thought out, instead of the whole team of 4 to 5 agents boarding the same car. As a former Organized Crime Investigator, I understand the safety aspect of the team, but to be more effective, splitting your teams in 2 and your single as a</p>	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	<p>deterrent to patrol opposite train would flush out a lot of the evaders into the hands of your ticket team for a better audit of the program.</p> <p>Once Security and Safety is seen by your patrons, they will be moved to pay an increase.</p>		
R_2dQLpzAhBUfyffs	As daily commuters we have already put a lot of money into this system. The other morning when the train system was down and I was required to drive into SF paying both parking and toll for a total of \$31 I was not even offered a free one way ticket in compensation for my inconvenience. A 10 minute delay here and there is expected but if rates keep going up then reliability, cleanliness and urgency around removing those breaking rules such as skipping fair or endlessly riding needs to go up as well.		
R_3HjDu8xmSyjqf8w	At this point, I will be driving more since it is cheaper than BART	Unknown	Unknown
R_8xoTf3Kr4n69ABz	Bad idea. A dirty, unsafe system should fix their fundamental problems before getting more for their services. No reason to believe BART will be any better, just cost more.	Unknown	Unknown
R_12x7HgWsInjbbI8	Bart already costs a prohibitive amount. Please offer a monthly amount!	Unknown	Unknown
R_QfvKoPtnlaqqEjn	BART continues to increase fares and service gets worse. The idea of "rush hour" service is woefully inadequate, with overcrowding at all hours. Increasing fares again is a slap in the face to those who already can't afford to live in the Bay Area. Stop the pillaging of your customers.	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_UJxRFakzEwZDKr7	BART continues with the increases but I see little improvements. The parking lots have created greater inconveniences. The new trains are not yet in service. Crime, eating and drinking on trains continue and people taking full seats to sleep while people are left standing. Not sure what you are doing with all the increases		Unknown
R_BEW9tNUHjyQ5L2h	Bart dare is becoming increasingly expensive and 95% of the time there are homeless and drug attics on the train taking up space and causing issues. I don't believe an increase is feasible when it's unsafe to use bart and none of the elevators and escalators work. The trains are disgusting as well.	X	
R_1lhNpMIoza4OZOE	BART does not deserve a fare increase. Clean your trains and clears out the drug addicts and homeless people so working individuals can get to and from work in peace.	X	
R_ddp3yuORrHMAZYB	Bart fare is already expensive if we compare price with similiar cities and there is no monthly and student membership(+18 years) there should be more sectiond		X
R_3IQMjKKsVwVPJQe	Bart fare tickets are already expensive enough for many people, including myself. As someone who barts every day to work from Hayward to San Francisco, a lot of my expenses are from my daily bart rides. Please consider this before upping the prices.		X
R_2dGyOrw3Z5y7Fw5	BART fares are already much higher than other rapid transit systems around the country. I ride BART to work everyday and I see numerous people in every train I board hop the fence and board without paying. Please find a way to stop people from skipping fares instead of raising fares for paying customers	X	
R_3g1kWFIUf4CDscA	Bart fares are already too much, considering the bad service we get for our money. Did not see any improvement after the last fare increase.	X	
R_1hG5gW11iD0qJWe	BART fares are already very expensive and the service still hasn't improved in any measurable way, yet. The new car rollout has been slow coming that it just feels like you're gouging customers on overcrowded trains.	X	
R_1FmRmbrLix6Cd9U	Bart fares are already very high if we compare to other metros like NY Subway or even Caltrain Monthly Pass. Bart should introduce monthly Pass rather than increasing fares like this.	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_265Da4Z9De6gAUX	BART fares are increased perpetually. Even making the effort of increasing fares at a rate of less than inflation does little to reduce the impact on all riders, in particular those with lower income. This is because while inflation occurs, oftentimes, real wages do not match it. BART needs to study a massive overhaul of the fare system, altering the distance-based fare, implementing fare caps, or introducing time-limited passes. Additionally, rather than constantly raising fares forever, BART should lobby for legislative authorization from the state to create an alternative source of revenue. Relying on fare increases is an unsustainable method to generate new money to make capital improvements and maintain a severely aging transit system, and at some point, they have to stop.		
R_2qwy6C6Wg7akJ2V	Bart first should increase number of seats or increase frequency and make an hour journey pleasant before they plan any fare increase		
R_OPz0xE8a5NETbyh	BART has increasingly asked for money through fare hikes, bonds, and ballot measures. Get your house in order, stop hemorrhaging money on inflated salaries, pensions, and medical insurance, and use that money to update BART, as it was intended. No to fare hikes.		Unknown
R_3KMBbdyrZfRIVem	BART has just reduced early morning service and fares should go down not up to reflect the reduction in service to riders.  I ride out of Walnut Creek and BART no longer offers any realistic early morning options from this station as the only direct bus service is from Pleasant Hill!!!	Unknown	Unknown
R_2ZIzdA4AfuQzyTb	BART has no business raising fares while the system is in disarray.		
R_1r37J7lhVym7Hu2	BART has plenty of penalties for certain behavior on the system. I have noticed none of those things that are not allowed are enforced. I see people eating drinking smoking playing panhandling on the trains and in the stations. Why not get the money from violators. The fines seem high enough. So I see no reason to raise rates when there are plenty of other income potentials.		X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_R8iHKy7js7Iy8Vz	BART has received many bonds approved by the voters in addition to RR monetary support. Why is there still need for increase for the capital needs? My pay does not increase by 5.4% per year and thus although it is stated that it less than inflation, I will be paying more to commute to work and greater than any salary increase that I would be given.	X	
R_0SuEi7GSyQ7SFVL	Bart in my opinion is already expensive. I find it difficult to justify any increases when I haven't seen any real improvements in the overall BART experience. The platforms are still dirty, homeless people are still sleeping and using drugs on the trains, and the new trains only go to Antioch. I am completely against fare increases.	X	X
R_2q3sYZMiPPZ4yy0	BART is a poorly run system I cannot abide paying more for the degrading experience I have had to put up with over the past several years.	X	
R_33eW99KFIqo3LcJ	BART is already expensive	X	
R_24HIrIoA3RfNZcd	Bart is already high enough when the trails are dirty, terrible, and smelly. Raising the fares will do nothing but make more people sneak on to and off of bart, and will make people seek out alternative modes of transportation. All high as bart is now there should be money in the budget to fix the numerous problems.	X	X
R_3qVclORcAxLyIKe	BART is already incredibly expensive. I understand that this is less than inflation, but to raise fares on BART riders is too much right now. I wish this survey were instead focused on finding ways to fund BART that isn't on the back of riders (e.g. a system-wide business tax).		
R_3M4oacCFBftnYkb	BART is already incredibly expensive. I would much rather see this money come from the cities, counties, state, or federal government. Another good alternative would be cutting the number or pay of BART police (fun fact: mandatory overtime is not a good use of money)		
R_2Xhwdwq7pnF6Zy9	BART is already insanely expensive. Fire some of your murderer cops and reduce fares.	Unknown	Unknown
R_2pK7YZLrOF58FZn	BART is already overpriced for many riders and so any increase (even if below inflation) is not justified. Price increases are only justified for riders who make well above the median income.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1n1qmERhyCZ0yq8	Bart is already pretty expensive as it is, we've voted to increase taxes for your agency, and you're considering gouging people even more with more fare increases? Come on! It's getting more and more difficult to survive in the Bay Area.	X	
R_1g7ryJSqlkPmAuz	Bart is already pretty expensive, overpacked and dirty. This fare increase will hurt the poor.		
R_plMvpu8VdaA4Vup	Bart is already prohibitively expensive for those of us taking it 5 days a week! Please offer a monthly pass that costs similar to expense of riding 4 days a week for an average ride. Example: hayward to Montgomery. It could still be cheaper for short rides to pay per ride, but would help people on longer trips.		
R_1GVOzYaLXbHdBmD	Bart is already to expensive! Fares need to stay the same or reduce it. Cut BART's budget! People are already stretched thin with the expensive costs of living.		
16th16	BART is already too expensive compared to other cities, need a monthly pass + transfers w/ A.C. bus.		X
R_2PuiPa3bMhdp9uZ	Bart is already too expensive for how poorly run the system is.	Unknown	
R_1FfWxOcyKm6C9Tb	BART is already very expensive and this increase would put a further burden on commuters and Bay Area residents in a place with an already very high cost of living. BART riders are not driving, and therefore not adding to traffic congestion, not causing wear-and-tear on roads/bridges and not contributing to carbon emissions. This behavior should be rewarded, and increasing fares is not a reward.	X	
R_w7AKRjbinFDq8kF	BART is already very expensive, so an additional fare increase will put a further burden upon Bay Area residents already coping with high cost of living. Commuters who use BART should receive a "reward" in the form of lower rates for choosing public transit, which decreases road/bridge congestion and lowers carbon emissions associated with driving.	X	
R_aXmnrbsls3jndrb	BART is already very expensive. At a time with low ridership and low satisfaction, this will likely help contribute to those factors.		
R_a43unhYNIfW74xb	BART is badly mismanaging the existing funding. I don't think that increasing funding is the answer.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1nWaYqzT6bmH6Ww	<p>BART is becoming too expensive with little to no improvements.</p> <p>We still sit in decades old cars with too many people who don't even buy tickets. And no one enforces that, so why even buy a ticket?</p> <p>And a trip to SFO or OAK airport is almost as much as a Uber or Lyft.</p>	X	
R_1mO6V9ABwgGMCSJ	Bart is expensive enough. While fares are increasing, I would say the quality and safety of Bart is stagnant. People shouldn't have to pay more for Bart unless they are seeing improvements which many people would agree with me, have not.		
R_XuGdiYDr8VheX1T	BART is pricey as is! How much does it cost the system to calculate at exit points? In NYC, Chicago and many other metropolitan areas it's one low fair regardless of distance traveled.		
R_ea3AQYgg4S8KSdj	Bart needs to focus on current revenue streams, from riders skipping the fare gates to penalizing the rail car manufacture for delays in delivery. Raising fares only affects the honest riders of Bart. This is not okay and as a rider, I do NOT support this.	X	
R_plYSCri18Tc1wHv	BART needs to focus on its current operations	X	
R_6M96PDQMikzK76h	BART riders pay too much already for transportation. Riders don't need to pay more. And charging riders who are in places like Antioch is unfair because those people were pushed out of Bay Area cities. Those people have less money. With cost of living, times are tough.	X	
R_25XaWObI5aZf9AZ	Bart should upgrade to all new cars before expecting commuters and the general public to pay more per fare	X	
R_22CStWpymvDJcZc	BART us my Absolute option and if the fares go up I will stop riding comolwtely... the station operators are rude ..the train seats are disgusting and I don't feel at all safe when riding	X	
R_3spjOE3hbCFsGmb	Bay area is already too expensive. I oppose fare increases.	Unknown	
R_3GqyksCLLVnS2k3	Before considering fare increases I suggest that you remove the non-paying homeless that take up multiple seats and often have a stench that makes it very uncomfortable to ride in a car. Also, I see on basically every trip, young people jumping the pay gates but the BART attendant is usually not even		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	watching and does nothing about it. A lot of revenue is being missed.		
R_30f99wqW0cVpyvL	Before increasing fares, you should get serious about fare evasion. I get off the train at Balboa Park when I'm taking classes at City College and, I am not exaggerating, at least two people per minute just walk out the gate without paying. Assuming \$5 a pop, that's \$600 an hour, or roughly \$6,000 a day (assuming lower traffic at other times) or almost \$2 MILLION per year. For 10% of that, or less, you could station a FULL TIME SECURITY OFFICER at the Ocean Avenue exit of Balboa to stop fare evasion and STILL make more money.	X	
R_2rw7qmlbgeNsQNJ	<p>Being from Antioch, I believe you should NOT raise any fares for Contra Costa. We've paid all these years but Bart couldn't find money to build out full Bart to Antioch, not to mention a parking garage? But you found plenty of money for "BEAUTIFUL" South Bay extensions with a slight amount leftover. I think South Bay should get the fare increase only.</p> <p>Not enough is being done about fare evaders. How much are they costing the system? Change the gates to be metal turnstiles that are 4 ft high. Those that can't go through those, go through the ADA one with an agent/guard next to it.</p> <p>Hope the fare isn't another excuse for us to pay for salary increases or "safety" issues. The last Bart strike was to fund those.</p> <p>As I said, not fair to Contra Costa citizens by ignoring Contra Costa and pandering to South Bay. Get Brentwood extension and Antioch garage built before any more work is done on South Bay, then I'll support an increase. I vote no increases if it'll fund anything new for South Bay.</p>	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1Q0zm1BfaaXLU6c	<p>Being from Antioch, I believe you should NOT raise any fares for Contra Costa. We've paid taxes all these decades and you couldn't find money to build out full Bart to Antioch, not to mention a parking garage? But you found plenty of money for "BEAUTIFUL" South Bay extensions with a little money leftover. R_2QfIshfK8JGSXuq	Change new trains for Dublin route ,increase parking facility .then work on the fair change	X	
R_2S0TMphKrpQjpcp	Considering the poor performance of the system any increase feels excessive and unacceptable	Unknown	
R_3PRbgPZ1hHFRxnY	Cost of living in the Bay is already so expensive, it's a stretch for many people commuting round trip daily spending \$10-\$14.	X	
R_aaBGuBHiVbeJiMx	Creo que es muy alto el costo del Bart, no más aumento a la tarifa por favor. El costo de vida en el área de la Bahía es muy alto. *I think the cost of BART is very high, no more increases to the rate please. The cost of living in the Bay area is very high.*	X	X
R_3Rt0VkAZ9H4Lojt	<p>Currently we have frequent services which are good</p> <p>Why don't you bring monthly pass system with some consession instead of increase</p>	X	
R_2nt0l6gp7dQjk7n	Despite the seemingly low cost, 5.4% seems a bit high and with increases every two years, adds up relatively fast.		
R_29o9etvCL6B7Ub0	Didn't we already pay taxes for this? Ridiculous how rates keep increasing, I'm obviously against this.	X	
R_3M58zbFpscDqdHi	Disapprove; Bart fares have risen steadily over the past decade, but service, timeliness, cleanliness, and safety have not improved. Raising prices for an improved and innovative service is reasonable; raising prices to continually deliver an archaic	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	service while lining the pockets of your execs is not.		
R_1mhirHtr8CVqfe6	Dislike it.	X	
R_2uUt2dtoX8xRwbe	DO NOT INCREASE ANY Fare. It's not fair.	X	
R_1Cj5U48dh5Fq8PU	do not increase the fare.	Unknown	Unknown
R_OJ9yaJNK0UG1gat	Do not increase the fare. Bart is already too expensive. Focus on Bart safety, sanitary trains, and the homeless that live on the trains.	X	
R_3PXARNNjcA8RoiD	Do not like fare increases as living in Bay Area is already expensive.	X	X
R_2CQGvwtMC6G7wcX	Do not want an increase as it's already too expensive. Perhaps reducing Executives compensation plans and raising parking lot fees instead. BART stations without attached parking lots shouldn't get price fare increases at all.		X
R_1MS2hqShRUQl8uf	Does it even matter? So many people jump the fare gate, don't pay and aren't cited. Why not raise it higher?		
R_3qQLIXSWLsbQPGN	Doesn't make sense to increase the fares	X	
R_3LZnMsKt0q2oVQa	Don't do it	X	Unknown
R_3iyy5f9rBft2EUJ	Don't do it. People should always pay the same everywhere you go.		
R_2qw6tEc945xgmvT	Don't want the increase	X	
R_UJYMggBixY92tI5	Don't want to pay more for unreliable service	X	
R_2ATDBb4wjcEhyKx	Don't agree	X	X
R_3000pantOCdXXI5	Don't increase the fares	X	X
R_1JjcbGAEexiiVjI	Don't support it. Not too happy with the service. I'd rather like to see frequency increases (every 8-10 mins) and more coverage	X	
R_2VmEcBdh9SvWivb	Eliminating the fare evasion should come first.		
R_325wKa0Lb63QioE	Enforce current fare and collect money that way. I see fare evaders every day, sometimes right in front of BART station agents, who do nothing.		
R_3m8fZVmelHSD08u	Enforce fares before increasing them.	Unknown	X
R_21jr5TxCDMwgGVu	Enough with the rate increases. It's called work within your means.	X	Unknown
R_bJeHoAoTd8hEyOJ	Every time you increase fares, driving becomes more attractive.		
R_2c1u9KLy0l4sEZh	Fare increase is not a good thought it will impact many people who take Bart daily	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_0NcCCeCN1zmEQcF	Fare increase should not happen. Bart has been getting funding from government, many transportation authorities and tax bill on infrastructure improvement and the delay of the new car delivery for sure tells all residents and riders that the funded money wasn't used properly.	X	
R_r3bWznm54MjYZUd	Fare increases are not okay. We should focus on non-paying riders and using measure RR funds appropriately.	X	
R_2zU9ld92u44vJWm	Fare is already expensive. Capital is being wasted on "pretty-looking" design such as the Fremont Warm Springs station, which took over a decade to build and resulted in significant cost overruns. I urge BART management to focus on reducing operating costs and improving service. Sell more ads. You can plaster all the trains full of ads to increase revenues.	X	
R_1liuuLE0013Yo1u	Fares are already too high and the service is getting worse and worse. There's already plenty of money in the system, it's just being mismanaged.	X	
R_3HSnSHMZC0oe8om	Fares are already too high and you're focusing on social programs that are not what you're here for. Stop punishing riders and be more fiscally responsible.	X	Unknown
R_1DqhBZvCJOoV17I	Fares are already too high. I want BART to expand service, but we need to explore bond measures and tax increases on the wealthy. It's also crucial that we get people out of cars and onto BART in order to fight climate change, so tax the drivers instead.		
R_3fqPuoNqvJrdfI	Fares are going up and as far as I can tell reliability is not  Also, I see continual fare evasion and NO attempt by anyone in BART to address this situation  Therefore I think the planned increase is outrageous	X	
R_2SdWyM390vGjM4x	Fares are high enough already	X	
R_xbyiXQLxT3empgd	First BART needs to be more transparent, about its operating costs and salaries. To fund major projects start trimming at the very top Magstripe tickets should be phased out immediately		
R_2dZaE5ZNWfM2HLO	For short trips, fare should stay the same.	X	
R_yUbEPkdJc7tZGKd	F**k you if you think you can make people pay more while doing practically nothing to address fare evasion.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3Mg40kYuKTpneNB	F**ked up considering how s**tty the service is and the fact I've never seen anyone audit riders for paying their fare. There are millions of riders a year paying a lot for a miserable experience.	Unknown	
R_3LkfFKi51EMCLTS	Get funding elsewhere. All BART employees take a pay cut from the Board of Directors down to janitors. They are paid way too much for doing far too little. Sell more ads.	X	
R_pyFZMr6M1UIOYTv	Given the poor quality of the services east county has received & the poor excuse of the station in Antioch I do not support a date increase	X	
R_01FbfgPqjWJYtDb	Hasn't inflation been at like 2% or less since the recession? How is a 5.4% increase less than inflation?  Bart is already really expensive, steady increase every two years don't sound great to me.	X	
R_10MBf3N9GgXuwvy	Hate it. Already costs me \$8 a day round trip from Oakland to union city and back. If we want more people off roads lower fairs, not raise them. What a crock		
R_2Tper8k8LrxI4oK	Having live in Antioch since 1982, and paying my share of taxes to get BART out here, and then have the E-BART with to small a parking lot, I am not in favor to having to pay more, I understand the need for maintenance and new trains, get the money from the towns that came late to the party		Unknown
R_2CwtmjoF9B4L1XO	Hell no to fare increases, we already pay too much and poor people cant afford to take bart. Shame on you.	X	
R_2QtuGblW052IvEo	Hell no! Fire the board, and replace them with security for each station to collect from fare evaders. Clean up the low life's, and get some parking spaces. Keep your customers cars safe while they are at work!		
R_22JNxCvByy1A1zh	Hell no! I take this system every day round trip from Fremont to Montgomery and I have seen so much disgusting putrid things on BART. I have been assaulted on BART and yet I'm paying YOU over \$13 a day to deal with this. I guess I will be fare evading like the rest. Since you seem to do nothing about them either on top of your flith and safety issues.	Unknown	Unknown
BP2	Hits commuters hard.		X
R_3oyWwwwx8MhKmVjR	Honest riders bear the full burden of these fare increases while fare evaders continue to ride for free with no consequences or real enforcement.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_WcUuPm9JHfIMGFH	Honestly the higher increase of the Bart fares are ridiculous. It's getting really expensive to ride the Bart. I don't agree with the increase as it's already too expensive to live in the bay area and still have to pay more to ride Bart work daily knowing it's going to continue to increase. This needs to stop as many of us can barely even budget to ride bart. The bridge toll is already expensive as it is an now Bart wants to increase fares also. This is not cool and i'm against this increase.	X	X
R_2pWWOwMxLR1070F	Hope for a lesser increase in charges	X	X
R_1jiXyfoJj4tnpRB	How about making everyone who rides BART pay first before raising the fares? If station agents can't enforce this a d do nothing else, get rid of them to save money.		
R_3qD9T4Foiyqnp1i	HOW ABOUT YOU DO SOMETHING ABOUT FARE EVASION, YOU BUNCH OF ASSHOLES?	X	
BP6	How dare! Your service sucks!	X	
R_ptUdl7FICnp2FYl	How much money do they need. We voted in a huge bond we will be paying on for the next 35 years.		
R_2ZE2iV2EEFQbTjy	How will this effect discounted tickets for students, seniors and low income? I would be most concerned for these groups.	X	
R_vk6A8xhRuHg3oit	I already feel like BART is too expensive, especially for those crossing the bay every day. I understand that improvements need assistance but can this funding be found in taxes or somewhere else?	Unknown	Unknown
R_1q8oOERZXTKXTkz	I am a little concerned because I ride Bart everyday and wouldn't enjoy the 40 cent increase.	X	X
R_1Io36yirPNL9TPw	I am against it since there have only been minor improvements	X	
R_2uCihIEUTqxTWSN	I am all for keeping the system safe and running well, and I'm aware that there are far more riders now than originally anticipated. However, fare hikes (on Muni and BART, bridge tolls) seem to have increased in frequency over the years. My somewhat uninformed reactions that prob unfairly lump different agencies together: There's neverending road construction in SF that can't all be legit. MUNI seems poorly run—or better some times than others. I have no way of knowing if BART fare hikes are legit. Also, I wonder if all the companies whose workers are increasingly using these systems pitching in?		X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	I take BART maybe a few times a month. I'm concerned for the daily riders that might be pinched by fare hikes.		
R_yUqXC69gSukOsfv	I am frustrated. I don't see any Improvements in sanitary conditions or safety		
R_2dGDWpfgam6vz4U	I am not for the increase until safety and cleanliness in the trains is addressed. I have seen urine,feces, needles, people actively smoking, etc. my family who rides more often have seen worse. Where are the police, plain clothes or otherwise and why aren't they riding the trains. I was in NYC over the holidays and my son lives there. We all feel safer there than here, why?	Unknown	Unknown
R_UrvvQUNzWPsJzAB	I am opposed to any fare increase. I have been taking BART since I was a commuting student, years ago, and the fares have become prohibitively expensive. There are many areas in which the Bay Area has become too expensive for people to afford, and I feel public transportation should not be one of those areas!	Unknown	
R_2tkZDrvKd5qI57K	I am really tired of rate increases when service, cleanliness, and safety are still subpar.	X	
R_4GaDMuGcJYkaLkt	I am strongly opposed to this fare increase. Bart does not use its current funds wisely, and there are Measure RR funds available for use. Bart should seek to recover lost funds from late deliveries for the rail cars.	X	
R_vui2rCYWeLn6s4p	I beleive increases of any size present hardship on those who rely on BART because we cannot afford a car.		X
R_1jixiGSWemLXB2t	I believe fare increases are a regressive tax that is mostly felt by the poorest among us, and an obstacle to employment.		
R_3RyeoUtEXaoWWxF	I believe the cost for bart should remain the same or decrease if possible. Even though its only a 5.4% increase and it doesn't seem like much, the fares add up for those that commute daily. For me a college student, BART is getting expensive.	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
BP7	I can't afford the planned increase. I pay my fare and my daughters.	X	
R_2f1B3yjNNYfZsEp	I can't believe BART is considering raising fare considering the abysmal daily service. I ride Monday - Friday, there is never a day when both my morning and evening trains are on time. BART reports being on time 93% of the time. I call BS and have to ask what kind of math BART is using to reach this number. The Fleet of The Future trains are already starting to sink of body odor and food and spilled drinks because BART does nothing to curb the breaking of the rules. If you need more money why not start fining riders who are eating and drinking on the trains, at least 1/3 of every car has violator AND BART could start busting the fare evaders instead of just shrugging me off when I point them out to BART police or station agents.		
R_ywQqjdCUBzfhyBr	i disagree with the increase. but if there is an increase, is there any consideration on increasing patrol for fare evaders?	X	
R_2arSkv6rKUF61Pu	I do not feel that we should take the responsibility of laying for this extension. Bart should do something about all the fare evaders and that may give them the revenue	X	
R_1BSoxOnE4Ytn9j2	I do not feel the bart fares should increase every two years. This economy is too unstable. What about people on fixed incomes? What about the homeless people that take up two seats on the bart train. One quarter of the people that get on the bart do not sit down where seats are available making it difficult for people to get off at certain stations. What about safety? If you can not take care of the problems just mentioned how can you continue to increase fees.	X	Unknown
R_1eDa8mTUO4fadLO	I do not support a fare increase. There are funds available for measure RR. BART needs to use its current funds and not rely on what was suppose to be a short term solution.	X	
R_1Kaa8scbzWeKswQ	I do not support additional fare increases. We already pay enough with previous increases and parking fee increases.		
R_6liYcU50JpT8Ulr	I do not support this fare increase. I pay too much already for un-reliable service while others just jump the gate. This is not fare. Bart is not safe. Stop the gate jumpers and don't force the loss in money on regular paying riders. This is not fair and not okay.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2TvZ7IM0a555QTI	I do not think there should be a fare increase.	Unknown	Unknown
R_1H69nUa7YIoJ0vx	I do not want a fare increase - I cannot afford to pay more.		X
R_2OYFvtvgVYcqosR	I do not want the increase. BART fares have already increased over the years, and those who the BART are meant to serve are taking public transportation, because it is a cheaper option than rideshare apps. At this rate, with express pool on the apps, BART will stop being a more appealing option and that will drive me and possibly other people to use apps instead. Hopefully there is another way to fund the absolutely necessary projects	X	X
R_3GBoVysYVutpxrB	I don't agree to increase the fare for the riders, Bart should increase and get the fines from the people who didn't pay for it. Like year of 2018, over 90% of bart criminal tickets don't receive; Bart should do something on it. Also in SF, like Balboa park at Ocean st exit, tons of people never pay and exit the gate freely.	X	
R_2saS4LaJNxUq9cj	I don't agree with a fare increase. Fares are pretty high already.	X	
R_3D2sxBY60c7FZQj	I don't agree with it. Antioch already got shafted with a diesel train and a small parking lot.		
R_0xCUfCJfrayLBSH	I don't like like it.	X	X
R_qLoj5Ao6uGahkrL	I don't like the fare increase.	Unknown	Unknown
R_1liVAigfNvmp25d	I don't think there needs to be any increased prices. We're paying enough as it is now and we don't need to be paying more!		
R_2dM6VDwkdqtFC6L	i dont believe its fair, it goes up twice a year for us long commuter, but cheaper for those who doesn't always use it. i think it should be switched	X	X
R_1hQBT4d58RjfgPS	I don't like fare increases. Why can you not hire more police to search for fare evaders?	X	
R_3GcZrYT0QxOwVzr	I don't like it	X	X
R_22QsxipDWXgQzgc	I don't like it. Especially since your doing very little to catch fare evaders.	X	
R_25yilfUACoVKYsx	I don't like paying more for dealing with the smell of rotting flesh. bodily fluids, needles, or belligerent people. How about cracking down on fare evaders?	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2zqqBR0kgWYKy9L	I don't like that this will affect low income individuals and students the most. Not every person will qualify for subsidized tickets. It's cheaper for a person to travel short distances (ex. Berkeley to Oakland or Daly City to Powell) when the income levels are so high they can afford to pay more, while someone traveling from Antioch to Oakland or even Fremont may not be able to. There are also so many employers that do not offer transit benefits so public transit can seem like a larger burden than driving. Why can we not move towards a more equalized fare similar to NYC and Chicago? Transit systems with NEVER break even (or even make a profit) so stop trying to and start paying employees liveable wages and get more trains on the tracks and implement more first/last mile shuttles (with these increased fares)	X	X
R_25sx8fTnOKkwvpZ	I dont think there should be a fare increase. Fix fair gates so people cant walk throught them and have current bart police standing at high traffic bart stations will decrease fair evaders.	X	X
R_1eIPzwI7i947WoY	I dont think this fare increase feels fair when users are not able to see visible improvements in their ride experience. Trains are still old and dirty, Many fare gates are not working, etc.	X	
R_3qygDewCFQekbBt	I don't think you should increase it. Bart goes to low income cites and areas like I'm from like Richmond some people can't afford the fares already	X	
R_ersiQxBbl6xbCFz	I don't want fare to ve increase as I think we are paying a lot for one hour standing in very conjusted bart	X	
R_1F4kp3vs8S8idjE	I feel bart fare is already high, for regular commuters some discount should be given.	X	
R_2altrN8FQFaRNx4	I feel like shorter rides can go up in cost but the farther the distance the lower the increase in price should be	X	X
R_1liTLCgRH27ZJma	i feel like the fare shouldnt increase every year. the demand of bart is high. i feel that commuters pay so much already, it should be considered.	X	
R_3F3zeDOKCeml95z	I feel like this increase is too small and won't prevent the amount of panhandlers and beggars on the BART trains, so I don't agree with it	X	
R_1OSSFXEuar9m0w3	I feel that BART should focus on compliance rather than gate increase. Loads of people don't pay and	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	making them compliant would get enough money to pay part of the projects.		
R_1H8DyCl0PF5FWAF	I feel that increases to BART fares disproportionately affect lower income populations because they are the ones that most frequently have had to move far away from their place of employment in order to afford housing, only to be further impacted by continued BART fare increases. I have been to so many cities where the entire system has one fare fee and where commuter monthly passes are available. Why doesn't BART have this?		
R_3OoGxdikE2ordRw	I feel that my commute is already really expensive. I know that the system costs money, and I understand that this is a necessary rate increase. But since I'm already feeling like I pay a lot, I will be very aware of and critical of what I feel like maybe a waste of funds.		
R_3lxIONfX5IRQenO	I find the almost \$10 dollars i pay everyday, not including parking to be too high already. I don't know how working class people can afford BART.	X	
R_1f2w2QRWxGuhys9	I guess it's time for me to join everyone else and jump the gates! If you can't fix that and only way to make more \$\$ is to punish the law abiding riders. Then I'm hoping the gates as well!		
R_2dN3oyK9vAKRDvx	I have no faith in anything BART would do with the extra funds. So my comment would be to get better management in place before you go taking your riders' money.	X	
16th1	I HAVE SOME CONCERNS, WHERE IS THE MONEY GOING?		
R_1FgjI4Rx4gfXEL8	I have taken this once before, so no need to count this again  During my morning commute: (a) stood on a 6 AM train, already full cars, (b) changed trains at MacArthur, saw garbage and food thrown around, (c) passed through Ashby and saw people sleeping on the ground on the platform, and (d) got off at Downtown Berkeley and was hit up for change in the station by the coffee shop.  Let me restate, BART management has no clue how poorly this system is run and obviously still have no plan to deal with all the problems, ie train performance, garbage and so on	Unknown	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	BART is a poor manager of money and does not deserve any more money until it proves otherwise		
R_2w4Ft7wSItyuXky	I just dont understand why the increase needs to be so high within a short time frame.	X	X
R_2ANfzrn0gUgV65s	I know BART needs all of these upgrades but the fares are already ridiculously expensive. It shouldn't be cheaper to drive/pay for gas/bridge toll, etc than it is to take public transportation. If there are going to be price increases, I think there needs to be frequent rider discounts. Like unlimited rides per month for a certain amount, or a 7 day pass for a fixed amount. Also, I also don't think the cost should change based on distance. Yes I understand costs would go up for shorter trips but they shouldn't be so high for longer trips.		
R_2dRSJo6HPVAwhnh	I live in Antioch. We've been waiting decades for BART to come out here. Our population is over 100,000 which warrants a full BART station here. The e-train is a joke. We've been paying BART taxes for years and this is what we get? Why is Antioch ignored all the time? I do not support any fare hikes for citizens who live in this area.		
R_24iOuyUkuBrKnsZ	I not only don't think fares should be increased but believe a rebate to customers is warranted. The performance of BART is awful. I see new trains breaking down, poor to non-existent customer service, continued non-interest in stopping fare evasion and on and on. I honestly can't believe how ANY of the management of BART keeps their jobs.  No no no on fare increases	Unknown	
R_2R3vYIK6JwUvzcZ	I object the increase of fare	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2ALldvOAVIXrfbQ	I oppose a fair increase at this time. Currently, I pay \$9.80 roundtrip plus the cost of monthly Bart parking at Pittsburg. I am almost never able to park at the station nearest my home - Antioch. The trains on my line are packed beyond belief and I do not feel the money invested in Bart is being used wisely or to the betterment of riders. The Antioch station should have been better with more parking and more fare gates. After work during commute time is a nightmare. I was a rider on a day when someone fell and injured themselves because the folks coming off the escalator did not have room to move forward and more and more folks were coming off the escalator and stairs creating a hazardous traffic jam. I am willing to pay more IF I can see the money I contribute being better spent.	X	
R_31gYCHaZYiPXkJT	I personally think that fares are already expensive given the quality of the service. Trains are packed and always running late.	X	
R_1lcOzUi2FhRJu6J	I ride from Glen Park to Downtown Berkeley, round trip, 5 days a week, and have done so for about 5 years now. The high volume fare discount is not very generous at all, and on top of fare increases, both in the past and upcoming, it's very frustrating! There is no relief. I wish rider loyalty was valued and I wish there were more lower-cost options for frequent riders.	X	
R_1li1WbikueH3uM1	I see filthy stations, dirty cars, restrooms closed, escalators broken during commute hours, and no plastic umbrella wraps whatsoever. And you want a fare increase ? Really ?	Unknown	
R_0pSySo1ITqtLSff	I see people jump the fare gates every single day and they wait for the gate agent to look away or don't even care. Instead of increasing rates on those of us who already spend a ton on commuting, how about enforcing better? Also, how about providing a monthly unlimited rides purchase like every other major city?		
R_vDCWqYkGKX9x6nf	I STRONGLY OPPOSE ANY FARE INCREASE until fare evasion has been virtually eliminated. It is an insult to ask law-abiding citizens to pay more when BART loses \$15-25 million/year from fare evasion (see April 2017 SF Chronicle article quoting BART assistant general manager for operations, Paul Overseir) . Despite the addition of a barrier on the emergency gate at Fruitvale station, I still see people routinely circumvent it, in addition to other	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	fare evasion methods. If BART really needs the money, then why not solve the fare evasion problem? Increasing fares would only encourage fare evasion, and result in even bigger losses (at a minimum).		
R_ZsObmv3HfFip8fD	I take the Bart every week so I am not in favor of the planned fare increase. The increase is a small amount, but it will add up	X	X
R_3qfl0KE4wW2mcjj	I think a fare increase by Bart at this time is unwarranted. If Bart administration really paid attention to the working of the system, actually rode the system, got familiar with what is working and what is not they could better allocate existing funds to produce additional revenue and improve the system as a whole.		Unknown
R_3QE7ddzMvcWhKhW	I think BART already has the planned budget for the new cars that are slowly rolling out. A price increase was instated last year, but I have seen the new cars a handful of times. There's always a plan for the fare increases with promises of improvement but I've never actually seen any differences.	X	
R_2VEKGOPfWM8377h	I think BART fare increase is always out of proportion because I don't see any improvement in services and it the contrary, like the service gets worse and worse. In my opinion, all increases are going to the pockets of the BART employees who earn wages and benefits not everybody else is earning in the Bay Area.	X	
R_T6CqCxEvw4iQH97	I think Bart should think about implementing a fare system such a the New York system not increase the fares.	X	
R_bl6KbM3k0ki41IR	I think it is ridiculous, we already pay high fares and pay for parking. Just to get on Bart during rush hours a find a homeless person that just is nice and cozy with their feet on the window	X	
R_6t9K9IsHO55jUTn	I think it is ridiculous. We are already paying \$\$\$\$ and the trains are packed, hot, and dirty seats and floors.	X	Unknown
R_12co5cPFFIbg5cC	I think it negatively impacts low income folks in our community- Bart is already expensive and hinders many folks from being able to ride. I have strong feelings against this.		
R_3h5ykLdfP69CHWj	I think it's alrady super expensive but go off	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2yjGcen8h3unXZX	I think it's ridiculous. If BART spent minimal effort to target fare evaders, it wouldn't have to increase fares on those who do pay. Every single day when I arrive home at Del Norte station, I see person after person go through the emergency gate without paying (opposite the station agents). The station agents see it, but do nothing. BART does nothing. There is even a police substation there, but in 5 years using this station during commute hours, I've seen police around monitoring fare evaders TWICE. TWICE. And don't get me started on Civic Center Station, my destination. Again, ridiculous.		
R_3psgsLEAvbhjv4	I think it's unfair to increase the fares so many times a year	X	X
R_2Sqo7xNbha4eNsg	i think its unnecessary to increase the fare for BART. It already is expensive as is. Bart system is still the same with no improvements. There is always delays due to track problems. The fare increase would not be great as we barely see any improvements yet.	Unknown	
R_2eb8VDFrCOqtc8z	I think its utter bs! we already have enough people who cant afford the train, and you wanna make it more expensive?		X
R_200jYz1pRS3rXdM	I think that if everyone was paying the fare that would be fair. However you allow anyone on the trains and there is no regulation or protection. I work late nights and have stories. The later it gets the stranger and more unsafe it becomes. Fare increase for your services isn't justified in my opinion.		
R_1q4zDLfmuGZ4ECg	I think that if the fare increases their prices more people won't pay.	X	X
R_2alZo5XBuj7M5ly	I think that this is a bad idea. The current cost of riding Bart is already comparable to driving. The bart trains are excessively crowded and in disrepair . The service is constantly delayed and trains don't run frequently enough (they should be running no more than 5 minutes apart). In addition voters just past a funding measure for Bart.		
R_V2RJv2nTOpKRFP	I think the entire system of fares need to be reviewed to make the distances/cost more transparent.		
R_31tvWriDLRH0u3w	I think this could have a regressive impact on people's commute budgets, especially in higher-poverty areas like Antioch. Furthermore, what distance dictates whether a trip gets a 10 cent vs 40 cent increase?	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_20NCea4MZfqQLy8	I think this is bad money management. BART receives a tremendous amount of income where most is spent on payroll which includes benefits for employees. I feel that the service rendered is not worth the price as it is now why increase for a bad product?		
R_yCIBVvihwuzTG6d	I think you should be reducing fares to encourage ridership and resulting environmental benefits, and stop soaking the mostly low and middle-income people doing the right thing by taking transit instead of driving.		
R_1ruk59E148U7yET	I think you should explore other options for increasing revenues, including tapping into the state's \$12 billion budget surplus, and for reducing costs, such as self driving trains. BART is already too expensive.		
R_3lYdz5qfsffcy43	I thought inflation was 3.1% BART fares have increased (on a % basis) more than my income over the past 7 years.		
R_1owegT8dMWx7S5p	I travel from San Bruno to Fremont and already pay \$14.60 a day plus \$3 for parking. If rate are raised driving to Fremont would become a valid option. Instead of raising rate to fund projects...do what is needed to increase ridership (homeless problem, crime, and cleanliness) and go after toll cheaters.	X	
R_3EMTUJlc4FgDy66	I understand the importance of raising the fare to improve BART services; however, I dislike the increase in fare price for longer trips. If the next increase could be 3% or less, that would be optimal. Many people use BART to help the environment by not driving their cars over the bridge to work; however, at this rate a trip from Richmond into San Francisco would cost 1.5x the fare to get over the bridge. This deters people from feeling comfortable with using a more environmentally friendly option. Therefore, less people will feel ok with riding BART - or worse, they will just use the Emergency Exit doors (which I see happy ALL THE TIME).  Overall, I don't think increasing the fare by 5.4% is a smart business idea.	X	
R_2WD7ZiYUqBueB88	I vote absolutely not! There are no incentives for working class citizen to take bart if you continue to increase. It's better to drive and suffer traffic than be stuffed in bart, no	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	seat and pay a higher pricing. The new cars has yet to arrive as promised so it's a NO		
BP5	I wish BART would look to other methods to generate this capital		X
R_22nzZEnIn4HnSDg	I worry about BART becoming more expensive than the bridge tolls, which would encourage more people to drive over BART.		
R_a4B3bYw4YdGadHj	I would prefer more funding come from government sources than from riders.		
R_2U4cbpU08uzkEyM	I would prefer that before any fare increase be considered the current fares be fully ENFORCED. I didn't receive a raise in line with inflation and while I support investment in capital maintenance and upgrades I do not support paying passengers subsidizing those who don't pay		Unknown
R_1fdDD8CquMAX4Ne	I would prefer that the Bart board work with the employees union to rein in labor cost otherwise it going to become less expensive to drive than ride Bart.	Unknown	Unknown
R_3m4PqG8RV9Zlc1X	I'm against any kind of increase to Bart fare. I am a daily commuter and if wasn't for the convenience I would not be taking Bart. The only way I would agree to an increase is when I first start seeing cleaner carts, cleaning bathrooms with actually toilet paper rolls and a crack down on all these drug addicts shooting themselves up on the train. Also these beggars that disturb us.	X	
R_O3WTnZDviaoNrhv	I'm against the increase! Bart is already expensive enough for the mediocre service it offers.	X	
R_xGbi202eWRFr6E1	I'm sure BART won't be noticeably improved so why bother with the fare increase?		
R_2YwYP2VaDgWWIcn	If there is a fare increase, I believe there should be bart station maintenance and updates to justify it.	X	X
16th8	If there were improvements made in stations & trains- I could understand it more but I don't agree w/ increase.		
R_1kSnP0Enxqvmfk8	If you actually worked on reducing the pension liability, automating trains, cleaning up the system/trains, increasing frequency it would help more. I'm totally against the increase, we pay a lot every time we travel.	X	Unknown
R_3KDaoxtGL0MgD34	If you increase fares, there must be an increase in service. In 2016 BART was given billions of dollars and responded by reducing service in off peak hours. It appears that you will ask for tens of billions more in 2020. This is unacceptable. Any		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	increase in fares needs to be paired with an increase in service. Rebuilding the system is not an excuse.		
R_1iLBi5pXqPcnZ6m	If you would provide safe, clean, smoke-free cars which have nothing to do with capital needs I would be less insulted by your constant fare increases. And the constant increases in parking. Every day there are people sleeping, smoking, eating and dumping trash on the trains. What are your plans to address those issues?		
R_3FVuMST4uVm qwTP	I'm concerned that this is a regressive approach that impacts lower income individuals who need to take the train. BART fares are already some of the highest in the country - most people do not take BART for short trips and only for commute purposes, for example. I suggest overhauling the fare system as a WHOLE. Again, I understand the need for more capital, but the fare system needs to be redone before any fare increases occur.	X	
R_25tLlKEmKKzSuGh	I'm generally against any kind of fare increases, please keep the fares affordable. With that being said I STRONGLY support maintaining the surcharge for people who use paper tickets.	X	Unknown
R_3jfl7Qu97y0sLD	I'm not agree with fare increase.	X	X
R_1rrfOU8aKSHA7Zu	I'm object to this new increase, because affect to my pocket and my family, the rent is so high in this moment, food and everything, that with my salary and my wife salary barely we survey now	Unknown	Unknown
R_31ugqVl5ham4LCj	In general, I believe fares should be similar to New York subway in that it's the same fee no matter how far you go and in general it's affordable to most.	X	
R_Tozaa89v8WwC09z	In my opinion, service has not improved, so no fare increase is warranted. Last Saturday, for example, the entire system was offline.		
R_1gbYBnfu91ut7VZ	Increase is not needed. There are measure RR funds to be used for capital investments. This is undue burden on riders for sub-par service.	X	
R_2D6uT7IwGNlrbQi	Increases are difficult on the poor.	X	
R_1EcmfLYmiuOGPsz	increases encourage fare jumpers	X	
R_OvEhMEf60pfki7T	Increases in tolls, public transportation, and rent (to name a few,) have made living in the bay area almost impossible.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_27xsl20Dle85zsn	Increases keep taking place but I don't see any results. The stations/restroom are filthy, escalators/elevators are always out of service, trains are gross/smelly and horrible tempatures	X	
R_10JlmXksCtq8a5t	Increases should avoid discouraging long trips on BART.		
R_qJ9PkYEmdYlwa8V	Instead of increasing fare catch those d*mn fare evaders!!!! That will make up for more that the increases proposed. Why should I pay more when others constantly pay nothing.	X	
R_2ya5iYW0qYLbSB2	Instead of increasing fares, BART should trim expenses like payroll - for example janitors that make \$250,000+ and sleep in closets when they should be working.		
R_2xYmngBR1wdtF2J	It already cost too much.		
R_1pmR9QXtXl55S6P	it herts people who cant afford it	Unknown	Unknown
R_vuxZOeo1kyK4I6Z	It hurts more than it helps will see more fare jumping probably		
R_veF79WP8UjMvKbb	It is a hardship, not only for adults, but youth to increase BART fare. The increase will potentially cause more gate hops, and less people paying-this includes adults, not only youth.	X	X
R_74biAmoBMhyX2b7	It is costing way too much to ride BART. The paper ticket surcharge should be only for new tickets issued. Not a surcharge on people with existing paper tickets. Please consider that.	X	
R_30pmZ4g8J4umEzk	it is hard to see tax dollars at work. the bart is breaking down more frequently and delays are constantly happening.	X	
R_2Cy6UJEANTPvcQa	It is very difficult to provide a meaningful comment about this scenario without having all of the financial facts. Therefore, based on my assumption that ridership is very high and there was a fairly recent fare increase I do not think that any fare increases are appropriate until BART's financials are released to the public for review.		
R_2zZqRlJRMoFwC0b	It is way too soon, and you are not providing the necessary service levels as it is. A car pays a toll well under the price of a round trip ticket on BART, yet costs us all far more in scarecrow street space taken up in driving and parking, pollution costs, and the safety of pedestrians. I think a congestion tax on all personal automobiles led entering downtown San Francisco makes far more sense than yet another fare increase. Driving is a bargain.	X	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_81AiNzHdLbrirNn	It makes me sad and frustrated that the pay will increase for all, when we do not necessarily make the same income. More has to be done to reduce the ways that low income families and individuals end up paying more.	X	
R_3oBdpTE7oWZ8Mnt	It punishes the poor by charging based on distance. Fare increases are fine, but there should be one fare for BART, regardless of distance travelled.		
R_2pW9nTUAFTIMbSy	It seems like a lot for a system that already is very expensive for commuting.		
R_332qJrJb3SoSloR	It seems like BART is already quite expensive and has shown few tangible improvements. There has been a lot of talk about the new BART trains, and yet as a daily rider, I've only been on one 3 or 4 times. I think the money needed for further improvements could be had through different means, i.e. advertising.		
R_1IIVbH05RQoxwW3	It seems like you want to penalize those who utilize bart for long commutes instead of using their cars.		
R_2Yb9K3Eyy7XcTif	It should not be increased. It is already very high.	Unknown	
R_3IXigcySLsJLJtm	It sucks, but what else can you do about it? complain? protest? riot? j/k Bart will do what ever they want, we the people are stuck paying. What happened to funds associated with all the Props and taxes we pay? Nothing there to offset the cost?	X	
R_d4IO5VP940T4JR7	It will hurt the working / lower class riders most; fares just keep rising and rising...		
R_3RmaJUEe0NIHRB8	It would be great if the distance travelled didn't directly correlate - currently it means that people who can't afford to live close in have pay the brunt of the fares.		
R_uhbUH2NPd954Acp	It's a bummer because many peoples incomes don't increase in relation to inflation happening		X
R_3k22LXyhRtFt7Fq	It's a lot of \$		
R_sbVy5rkABQGUXwl	It's difficult to want to pay more when you have to sit next to people who are riding bart that smell of urine, are clearly homeless and are riding just to sleep in a warm area and those that disrupt or panhandle. It's a real problem that seems to be getting worse	X	
R_2b2FHM4d8yj7EJK	It's expected, but personally I do not really want it...	X	X
R_2V9JsVu ecZ1iB4K	It's not fair for those who work in the city but live in places like the valley or anyone who has a commute time of at least an hour.	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3Hqo1g4RQLetMFP	It's too expensive already and increasing fare will make it inaccessible for low income folks. please don't!	Unknown	Unknown
R_Dc8BRQye9CysCkN	It's too much and we can't afford it	X	
R_2e5c4u7xTUKMKm	It's unfare Bart continues to charge passengers more and more all the time, why not create a monthly pass for daily passengers?	X	X
16th7	It'll make my commute expenses harder to meet. I paid over \$1000 in last 6 months for parking @ BART. BART commute + Muni. Sigh. I am only a contractor	X	
R_2S7T3WJOYnf0Mcq	It's already high.	X	
R_28B6BifDEHnImbu	It's hard to afford housing already, so this fare increase will hurt many people. Also...please reduce fares for the Oakland Airport Connector. Its high price is part of the reason why I'd rather take an uber/lyft.	X	
R_DuipicdoDPHShrP	It's not small for me it will be 175\$ per year.	Unknown	Unknown
R_31pif8F8miBJaT0	It's ridiculous that you want to raise fare yet we don't feel safe at all on Bart.	X	
R_AtFP9TJa6sQPT3z	It's ridiculous to put the onus for this on the riders when the bulk of your funding doesn't even come from fares. BART is already far too expensive for the poor and frankly dangerous service you provide.		
R_3lLz6ZvZ2L7TPcD	It's too expensive	X	
R_tDSoR5YpmmAaXL	Living in the Bay Area with such high costs for rent every increase to expense is psychologically painful. Also given that Bart is overcrowded, and getting less and less desirable with all of the increasingly rude, homeless rpassengers thus gives me one more reason to consider driving.		
R_1K3kmv6XsH4mAWZ	Long story short, I don't want it to happen	Unknown	
R_1CwIyeFC10JDdmv	Lower the outrageous wages of the workers and lower our fares. Poor management - stations that are years behind schedule and fare cheats everyday rob the system.	X	
R_1ONtsa9DpSTJy5L	make BART free, otherwise you're actively discriminating against the Bay Area's poor people.		X
R_ApujL1WH9nPMIBH	Makes an already expensive trip even more so with no justification		
R_2Cs9VoxEEQaOXHf	My concern is this plan is to really line the pockets of the people high up in the company. the System is old, NASTY and unsafe. I have a feeling the increase will not go to fix these MAJOR ISSUES.		
16th14	NO aumento *NO increase*	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2f107RaEovgekIx	No estoy de acuerdo con el aumento de la tarifa, el motivo hay mal servicio en el transporte bart, vagones sucios, no hay vigilancia en los vagones, asaltos, peleas, no amerita el aumento *I do not agree with the increase of the rate, the reason there is bad service in the transport BART, dirty cars, assaults, fights, does not merit the increase.*	X	X
R_1HdkRVhjJohudEE	No fare increase. Think I rode on one new train and the delays are outrageous. Police holds need to be taken off trains and allow trains to roll quicker than they do now. If a door is broken, lock it closes til the end of rush hour.	Unknown	Unknown
R_21AK4bjEFh1JuNg	No fare increases in Contra Costa County. We paid for years for services that we didn't get and were delayed.	Unknown	
R_1eri19EmIN9LHaT	No Fare increases! Stop the fare gate jumpers!	Unknown	Unknown
R_1f9LgUozgpCf1iI	No fare increases!! Bart is not using its funds appropriately. Find the fare cheats, make them pay their fare share! Don't make paying riders pay for others!	X	Unknown
R_3Pcw0uLEkwIqavW	No fare increases. Bart is already too expensive. Bart's level of service is poor (dirty, delayed, crowded, unsafe, no parking) for the price.		
R_1ezVzad8vCBpUls	NO FARE INCREASES. Focus on fare cheats!		
R_2ZJ53FfkV80KJJB	No fares should be increased until actual measures are put in place to stop or prevent fare evaders.		
R_3q0INHwTocw87zz	No increase		
R_2YfcgdVKsckD45m	No increase is better! or keep a lower increase for Antioch since it is already expensive.	Unknown	Unknown
R_2dz0uofghCpovSS	No increase until Bart managed current system and funds	Unknown	
R_V3iUQeSVRtSUqWJ	No more fare increases! All rides should be paid by all people. Stop the gate jumps.	X	
R_25REmGnrB5QZw4I	NO MORE FARE INCREASES.... to the Antioch area. NOT A CENT more! 1. Antioch got an eBart after 40 years of paying for/taxed a full bart 2. Not enough PARKING for Antioch Bart that serves residents from Sacramento to Stockton, Brentwood, Oakley, Discovery Bay etc 3. eBart is not manned so toll fare evaders have a field day  FIX the above FIRST!	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3PZ8mbEGSjHUNwT	No more increase to finance your ridiculous overtime pay and too good to be true benefits. I never got an increase on a union contract except \$0.25 after y ears of contract negotiation with our employer n our contract was due oct 1,2018 n no contract yet. We have to pay for our a share in our health coverage. Thank I can assure you the big funding should be shouldered by the fed and the state with our tax money.	X	X
R_pzssfNcNOuXvZAnn	No new increases	X	X
R_2SlwAwH41xX6MEu	No one likes a fare increase and it's hard enough paying over a hundred a week to park and bart and ehen I don't get any tax breaks through work but I can't change your mind	X	
R_bQr80oDAFiZQbBf	No reason to do this after measure x ..be more co conservative with spending and stop increasing rates on the consumer	X	
R_2B5KPFwozjaPPyG	No way! Contra Costa has been paying for BART for decades and Antioch got almost nothing in return and too late. And stop blaming the regular employee wages for financial trouble, it's just plain mean and stingy		
R_SMN0crnDN3CCy9r	No. The entire system will remain filthy, as it is now, regardless of how much the fares are increased.		X

FV1	Please stop raising fares and do something about fare evasion	X	
R_YYo0j1I9O6QreXT	plug the deficit leaks first. That way BART will save more and ask for the rider to pay less resulting in a positive image	X	X
R_3gi4nkTbkCez8Ih	Raising fares by % doesn't make sense. People further from downtown live further from downtown because they can't afford to live closer. So why burdenthem with more of the fare hike?		
R_31WzryJzTDA6MxR	Ridiculous price increases	X	X
R_3Ebf4G1g2uzUYG	Ridiculous to increase prices on a service that is becoming worse and worse in every objective way	Unknown	
R_dfZfcR0YlxFQosF	seems a little high. I do NOT support an increase in the parking fee. Do NOT raise parking!!!	X	
R_29tRaRZptf86rFF	Seems like this is the same text that has been on every bond measure providing BART with more funds for the past decade. This seems to be just another boilerplate excuse to continue inflating salaries at the expense of the ridership.		
R_1oaRjeye1e0ejGP	Seems regressive -- those who cannot afford to live close to the city will have to pay more.	X	
16th17	Si porque siento que es muy caro, yo vivo en Concord y trabajo SF, en al semana es demasiado diner *Yes, because I feel it is very expensive, I live in Concord and work in SF, in a week it's too much money*	X	
R_1gqgIN1rqmsR7X5	Si, primero limpien los baños porque siempre estan sucios, o cerrados! Pongan a trabajar a los que limpian los baños, porque siempre estan fumando tomando sus breaks.... *Yes, first clean the bathrooms because they are always dirty, or closed! Put to work those who clean the bathrooms, because they are always smoking taking their breaks...*	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_p4W9rouJwfGdAoF	<p>So if the fare increase is all for capital projects does that mean Bart's operational expenses have been flat? Unclear on how Bart pays for operational vs capital expenses.</p> <p>Does current fare revenue cover all operational expenses? How about the various property tax and bond measures that have passed throughout the years? Aren't those specifically marked for capital projects as well?</p> <p>Does bart still need more money despite all those measures and, apparently, as you say, having enough funds for operations without needing to raise fare?</p> <p>What about the potential decrease in ridership due to fare increase? Bart's ride quality and station quality has been decreasing due to homelessness and crime. Increasing fare is a further deterrent to ride Bart.</p>	X	
R_56ZNZYw3VHAXINb	Sounds like its time to drive again.		
R_8jkik2Pyhjsv4f7	Stated highest priority is incorrect. Highest priority should be prevention of fare cheats accessing the paid areas. These fare cheats do not follow any rules and are the ones destroying equipment and making travel unattractive for paying customers. You will lose your paying customers and lose your fares if you do not keep fare cheats off the system.	X	
R_3ERN9xD7LEPbALs	Stop fare evasion and you will not need to raise fares.		
R_2ykJULw8rS3J8uj	Stop increasing fares. And charging people more for paper ticket is discrimination against the poor, who are less likely to be able to afford Clipper cards and the debit or credit cards needed to increase their value. BART is going to get sued for violating riders' civil rights.		
R_3KZcMsPcUbplxW	Stop increasing the fares	X	
R_1eLDHJD0lGYKqL4	stop punishing poor people		
R_2YwYpd8S7U5Ba7y	Stop raise fares and catch fare evaders		
R_3NODs3sXYn4bh2F	Stop the fare evaders instead of increasing fares on those who pay!		Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_233kdLKFOyO5Tql	STOP THE FARE EVASION BEFORE YOU ASK WORKING RIDERS TO PAY MORE. I completely support capital improvements and the system, but you could recoup more money by STOPPING FARE EVASION. Higher barriers around paid areas (7 feet, NOT 5), and invest in new faregates. Once this is done, I will be happy to pay the increase.	X	
R_1o0E51cQqjaglv8	Strongly opposed. As with the recent bridge toll tax, fare increases like this disproportionately affect marginalized and low income riders who already are forced to commute further and further from where jobs are based. The more equitable solution is a ballot measure/tax that spreads the burden among those who can afford it, including large employers and franchises that pay minimum wage (ie those whose practices keep people in poverty). BART is a public good that benefits all in the region whether you ride it long distances or not - by reducing air pollution and congestion on crowded highways. Fare increases of even small amounts cause much more harm to those on the bottom than any tax on a company earning millions.		
R_31KjW0yXcfizXyZ	Sucks because bart is everyone's cheapest option and now it'll just get more expensive :(	X	X
R_1DBGjfq1oPuQIZD	Sucks that there are delays, fare jumpers and shorter car trains that don't consistently stop at the same place on platform, but we're expected to continue to pay more.		
ED1	Taxes from the Bonds we voted for are enough. Do Not Increase the fares.	X	
R_1jTwfPos9uDvUxV	That quite a lot of money when you consider that the homeless situation in Bart is out of control. Why making the gates harder to skip not a priority? I see people skip fare every day. That's where your cap improvement money is.	X	
R_2YgePMTxFfalEsg	That really sucks.	Unknown	
R_2xViayIF6PID47o	That's not fair	Unknown	Unknown
R_2meP2MmNWPFWj fj	The amount of money you have collected from tax in crease and fare increases while the quality of my trips decreased makes me long for the time I retire and I no longer spend 2 hours a day on your system		
BP1	The BART fare needs to stay where It's at now which is affordable	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3PAInTvRYcpt4VJ	The better way to improve the financing of BART is to enforce the existing rules: No eating - No drinking - No smoking - No loud music -- All subject to fine as posted. Instead of spending money on better fare gates and fare compliance people, hire police or others to cite violators and extract fines. The violations will diminish, the need to spend payroll dollars on janitors will decrease, the cars will be cleaner, and BART will have less expense, plus the fine revenue. Why is no one else promoting this obvious opportunity?		Unknown
R_3QYLP1udKYGK4YV	The cost may seem like a small increase, but for the middle income group in the Bay Area it will add more to the stress of paying the fare.	X	
R_1jDGMW28124uSWj	The cost to ride is extremely high with no benefits. Bart is filthy, full of homeless people, crowded trains, and more importantly rarely on time. Fare increase HELL NO	X	
R_ePBMMuEc230Qk2l	The current BART fare is already expensive enough and this is not sufficient enough to provide extra maintenance?	X	
R_2uPcwMZsWANqsp5	The current prices are initslef high. Don't think a fare increase is fair.	X	
R_3jfK4HPYPZfYrd1	The fare increase will harm workers with long commutes. They won't be getting simultaneous pay increases to cover the increased costs. It also harms students who depend onBart to get to class.		
R_AbVpeP8phsF5ASl	The fare increases are going a little too far at this point. I feel we should find alternate ways for funding.	X	
R_3kCdU2fl6fF5pZS	The fare is already high now. Should not be increased.	X	
R_1CJwUGVCwz5ANSb	The fare price is already too high too high. It's almost more expensive to take public transportation than to drive into the city, including gas and toll. And with all the delays and issues of the old trains, it's really doesn't promote the use of public transportation.	X	
R_3LgeVQ5ZceF27gB	The fare seem to be increasing with no improvements in on time performance, cleanliness etc I feel this fare increase needs more accountability meaning Bart should be more public about how it spends money. Right now it seems like Bart management just want more and more money without accountability.	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2abIW5KD81D7Fjv	The fares continue to increase yearly and as far as I can tell it has yet to make any positive benefit towards my daily commute. There is such a limited number of new trains, it's still incredibly dangerous (lack of real security), and my ride is almost always uncomfortable (hot, smelly, dirty). So where is this money really going?	X	
R_yI9PqpbWaJn374l	The increase is too much and too often.	X	
R_2cjFwIPtfunioioF	The increase is upsetting because I already feel horrible having to spend \$51.50 a week to get from Richmond to Balboa Park. At least give us better signal.	X	
R_A54Fz3W0JR5M081	The increase would really affect those students or seniors who do not have the income to ride bart. It is also not fair to increase because security, cleanliness and commodity have not changed since last increase.	X	X
R_31Lfzb2SAmMN9N1	The past increases have not made services any better. I do not want any further increases.	X	
R_PU9tVKKheNzYH29	The price is already more	Unknown	Unknown
R_3MA1trMUv113NdN	The prices are going up on bart, but the quality of bart is decreasing. We need new rail cars, a control system, etc. But the safety of bart is not being addressed. The amount of crime and unsafe environments doesn't seem to have been addressed.  Why is fare different between different points? Bart should adopt a system like NYC, where the price is 1 price regardless. This will help a lot of low-income passengers.	X	X
R_yt1EZGa0JIX6zYd	The proposed fare increase comes very close to making it cheaper for me to drive to work than to use BART. Non-commute trips will almost certainly be cheaper using my car than riding BART. The other deterrents from using BART are well known: it's dirty, screechy, loud, over crowded, and doesn't run often enough. The only benefit BART provides me at the moment is a moderate time savings. Even time has a monetary value that is a budget factor and it will eventually be eclipsed by rising costs.		
R_bl6WP29841QbCBb	The riders who would be paying more come from the furthest in the East Bay from low income areas.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_4Nur4M7MI287Lzz	The small cents add up when you take Bart daily. For example Antioch to Montgomery and back will start paying almost \$40 more a month.  That is a lot of money for services that really aren't improving.		
R_3dJQoKqzjuH1U9y	The tickets for paper tickets already recently increased along with the clipper price! These 10-40 cents are adding up to be very expensive for a college student like me to be using BART 5 days a week.	X	X
R_3stzER5DRX98QJb	The voters just passed Another Bond measure for BART so No thanks. In addition, you have not resolved the homeless riders issue as well as Clean and Safe transport.		
R_eA9623vjpiyXc1H	There are so many problems on BART and increasing fares when there is no change is not a good idea. Numerous homeless people ride the train and do not pay. They harass people or take drugs on the train. Yesterday I saw a Bart employee allow a homeless person to walk in without paying. The trains are poorly kept and we haven't even seen the new train go all the way to Pittsburgh. Fix the problems before increasing cost.	X	
R_3FKl6WFa31CtBy4	There have already been numerous taxes added to residents to fund bart improvements, but riders don't see a difference. Over crowded cars, trains going out of service, running shorter trains during peak hours, increased homeless population on bart, increased fare evaders, and no improvements to the bart ride experience. Believe there is a strong mismanagement of funds and oppose these increases!	X	
R_T1PM1C2qsOecZK9	There should be a decrease in fare to promote ridership and an increase in parking cost to discourage individual parking and encourage carpooling to bart. Also, the paper ticket surcharge should be eliminated because it discourages occasional riders from barting instead of driving.		Unknown
R_C3tTu7YpmCWS64x	There should be a way to refund your clipper card in full since it's forced to use it unless passengers pay more. Given the extra money bart received from bonds and other funds, why does the fare still need to increase? Doesn't make sense. The product	Unknown	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	we pay for is unreliable , expensive and not convenient		
R_3n7TqyV28zKLAWU	There should be any increase it's already very high compared to other subway	Unknown	Unknown
R_1MQzfCrpg5MFT9W	There should be no fare increase whatsoever. People with long commutes are most likely the working poor who have been pushed out of San Francisco and Oakland by gentrification		
R_1ridANQpnp6gioe	There should be no fare increases until BART stops disenfranchising riders who live east of Pleasant Hill with less trains, trains that don't go beyond Pleasant Hill, shorter trains, etc.		
R_2tfiDeVKKzCHPNq	There shouldn't be fare increases as the fares are already high	X	X
R_24rdA6UwCy2XVgZ	There shouldn't be fare increases. Bart needs to focus on fare evasion. Raising prices won't help and only penalizes the riders.		Unknown
R_1EZouFpNC5byXOT	There's no noticeable improvement at all to the whole bart system and it is not fair to increase the fare at all. It should be decrease for such an old outdated system that never got any improvements.	X	X
R_1hEjuk6VZ1umh6y	Think its c**p. Address the massive fare evasion issues before you start charging paying customers more.		
R_3kLNEijucT7UYdU	This fare increase would penalize individuals who have been pushed out of Oakland and SF by rampant gentrification and greed. Those affected most will be communities of color who live on the fringes of the Bay Area i.e. Fremont, Antioch, Richmond, etc.	X	
R_1g1NXcf94kHTqnl	This increase in fare feels like punishment for those who actually buy tickets. Such people are making up for the loss that is caused by the many many people who don't buy tickets, including thieves and stinky people. There needs to be more actions taken to increase safety and monitor those who don't pay their due. Maybe the fares won't increase so often as a result. Increase in fares feel like the easy way out because those who can actually do something about the causes of this increase but are too lazy to do anything that would give them more work than just sitting in meetings and whatnot.	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1F8f7afrDWkUoTL	<p>This is a really expensive place to live - my rent is so high that I can't afford to own a car. I rely on BART and AC Transit to get around, so a fare increase feels worrying - I spend \$100-\$200 a month with my clipper card so this will be ~\$100/yr increase.</p> <p>For more frequent service maybe it's worth it, I just hope that there is an awareness that a lot of us are at our limit.</p>		
R_2saHDbwTDfpKIMK	This is a substantial increase as I am long distance daily commuter. It's almost one dollar extra per day.	X	
R_1kIC7Ywv8K89q3B	This is bulls**t and displacing costs onto the people who depend on Bart to get to their jobs instead of holding Bart officials responsible for managing costs. In addition, the extensive costs of employing Bart police is disproportionately borne by the same population suffering from violence and harassment from the police force.	X	X
R_1F1B8oiFyTNyRE6	This is bulls**t. We just voted in a tax for capital improvements.	Unknown	Unknown
R_2rVhOtVn6qfHzZO	This is essentially a regressive tax on lower and middle income folks who rely on this form of transit.		
R_2pW6bC90op3IVpL	this is pretty doo doo to be honest, bare is getting too expensive.	Unknown	Unknown
R_237eJTHNWfoojuG	This is really unacceptable and unnecessary. Bart already is the most expensive public transit system and this ever increasing fare is a shame.	Unknown	
R_3fH4OPg8rXGNbyt	This is ridiculous. Bart is already one of the most expensive subway systems in the world. You are supposed to encourage people to use Bart, and this fare increase will do the opposite. Don't put the burden on the users, get the money somewhere else (e.g. government, investors)	X	X
R_3EnE5yn8PIEwGT0	This is robbery. We pay so much for Bart yet the conditions are unsafe and the system is constantly having issues and having delays. I went 2 weeks straight this year being late for work everyday. We should get a discount when there are large delays not fare increases to remodel stations.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1mEcejSQA7OV1N	<p>This is too expensive already - life is getting tougher, we pay parking fee everyday as well at the Bart station plus back &amp; forth Bart fare would cost us so much from our budget and weren't making that much money, plus our family's needs as well - cost is living is very high! 5.4 % increase is very very high!</p> <p>A lot of Bart riders would say the same thing and with millions of Bart riders everyday, Bart is already MAKING HUGE MONEY for whatever project it would need to repair whatever is needed.</p>	X	
R_2atWWOBHPpIE0PA	This is too much. Bart is already more expensive than other public transportation systems in and out of the Bay Area. The trains are completely outdated, usually delayed, overcrowded, and dirty. I am tired of paying so much and not seeing any changes to any of these issues. The change that has been made has been too slow.		
R_2vjNtLG18Uoz9sx	This is unfair to regular employees/students who always use bart everyday. I hope they won't increase the fare to those regular bart riders who use the clipper card.	X	Unknown
R_1Eh5GNZgP7Ap0N9	This may be less than inflation, but it is more than many of us receive in cost-of-living wage increases over the same time period.		
R_26o16Dng2EUEkIs	This money should come from the wealthy and people who use cars, not low income folks who take bart.	X	X
R_BLZwWpUIxlu2jaV	This penalizes people who commute longer distances who likely live in the suburbs and can't afford to live in SF, Oakland, and Alameda. People who live in Oakland have other transportation options (AC Transit, ferries) to and from SF while those who live in the East Bay (Antioch, TriValley, Fremont) rely on BART and would be hit with 4x the fare increase using the example you gave.	Unknown	Unknown
R_3gNI8rSG4DOGzn8	This seems like a rather high fare increase all at once for some folks. Perhaps raising fares more slowly would be worth consideration.		Unknown
R_2rTn9ABUIM5QGtr	This seems reasonable but I wonder what will happen to fares once the projects are completed in the distant future.		
R_10DaAY9zldrE7wA	This sucks	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	Those who can afford to live closer to "destination" stations are already advantaged in terms of time. It will now be even more cheap relatively speaking		
R_21vVFzzze7y3viu	This would go against the affordability and access to BART seeing as commuters (blue collar workers, labor workers, students) need to put their money and resources elsewhere.	X	X
R_2YIWUB8TN38ZMdD	Though this may not seem like a steep increase, it'd add up over time. Especially for those making daily commutes in these directions (and some times twice a day for a round trip)	X	X
R_2Vdr9ZFs6EV4G4q	To pay for what? More broken escalator. More filthy seats, less police, or more delays?

R_25ym7F6Kg9cl8Mu	Total bulls**t. In lieu of fare increases of any kind, I very strongly suggest pay / merit / pension decreases for BART executives.		
R_3lXFTU5GLBtOtyu	Totally unfair, as this affects low income families who have been push out of SF and must commute into SF for work and live in Alameda, Contra Costa, etc in order to make a decent living.	X	
R_1jClc75okHvpOOE	Until Bart delivers on their basic services on a regular bases then I do not think a fare increase should happen. If Bart cannot run on its current budget efficiently, then why will that change when you keep getting more money from riders, taxpayers and the government. Let's see a budget first to explain how this fare increase will help.		
R_2Y9Ta8b8JC8MvPz	We are sick and tired of these increase. The fare increase have been happening with no improvement to Bart. Every time an increase happened, then that went to Bart's employee salary increase and bonuses. There are many of us that DO NOT and WILL NOT agree with another Bart fare increase.	X	
R_aWrcg3zkB37mkLf	We pay the highest prices in the country for public transit and the. Pay for parking. BART makes money hand over fist yet spends the same way. Most of us take BART out if necessity not because we want to. The trains are filthy and unsafe and you want to charge us more for "capital needs"?		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	Find something else other than financially raping the people who are stuck riding the disgustingly filthy trains who are already paying enough.		
R_24oY5BVPEGXOjFW	We voted 3 years ago to give you all millions in bonds to fund new cars and capital needs, why another fare increase? I take BART 5 days a week during commute hours and am rarely on time or without being crammed into a car just to get somewhere. You should perhaps stop putting millions of dollars into programs that don't work, like fare evasion officers that I have never seen and I regularly watch people walk closely behind me as I exit the stations to avoid paying their fare share. I'm tired of being held financially accountable for your misplacement of funds.		
R_3R7PGGRF9fhzI4y	We've JUST HAD a fare increase this year. And we haven't yet seen the new BART trains ordered and showcased over the last two years put into service. This feels unfair.	X	
R_1Fg3leOqhRw78Ao	What about low income people that take Bart to work to San Francisco. The minimum wage is better than Antioch. Won't be able to afford Bart anymore.	Unknown	Unknown
R_1LGbpXfxhIw1Nqg	What are the justifications behind the extensive capital needs of BART? Will BART riders who use the system's most popular routes realize 5.4% better service, value, cleanliness, speediness, or reliability on their rides relative to before the increase takes effect? In which areas can BART claim efficiencies over the past 2 years that have lowered the cost of operating BART?		
R_2bOD08W3zvOtOWS	What are you going to do about gate jumpers?! Why do us legally paying customers constantly being asked for more?!		
R_1CJb8bUbCmkUngG	What BART needs instead of a fare increase is to change the fare program for low-income rider folks, especially those who have to commute far distances. For example, it's ridiculous how a round trip from Warm Springs to SF is \$13.60 - multiply that and it becomes an unsustainable amount spent on public transit.	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_Q4IPyiSpUyeYcJb	<p>What happened to the \$3.5 Billion from the 2016 bond measure? I have only seen 2 of the new cars so far in my many trips, but I have noticed a new \$12 million dome at the downtown Berkeley station. And I couldn't help but notice a new huge online public relations presence for Bart. How much did that cost?</p> <p>" in 2022, 2024, 2026 and 2028 by an estimated 3.9% in each of these years, based on current inflation projections." Every economist and rational person would laugh at this statement. No one has any idea what inflation will be in 2022-2028, and this lack of factual information to sell rate increases is abhorrent.</p> <p>How much does Bart pay its workers and what is the cost per mile of a Bart ride? I would like to see these 2 data measures with comparison to other major metropolitan mass transit systems, like Los Angeles.</p> <p>Sorry guys, but until I see factual information and factual data comparing Bart operation to other systems, proven fiscal responsibility by the Bart board, and concern for riders, I will ride Bart less with these increases.</p> <p>As much as I support the public good, what I have seen with Bart makes me consider supporting privatization of Bart service.</p>		X
R_8eI3qs8NuSsxRDz	What happened to the previous fare increase and the bond money?		X
R_2bMYerisZwH3DiJ	What happened with the transportation the voters just passed. Why does the public always have to bear the financial burden. Mexico City has one of the best transportation systems and the world and it's very affordable.	X	X
R_2WGy6qJWlqjuqS7	While fares over the bridge costing more make sense, Bart riders are getting less and less hopefully of the future taking Bart.	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2OPkY3rDIxSW7zc	While the proposed fare increase is being marketed as being "less than inflation" the reality is that salaries are not going up as much as the fares, plus the surcharge is grossly unfair for those who only need to ride the BART infrequently and have to purchase a paper ticket. If you make the clipper card free on an ongoing basis instead of charging \$3.00 to purchase it, then one can argue that those using the paper tickets can pay a surcharge. Totally against increasing fares by 5.4% in January without providing free clipper cards to those who need them.	Unknown	Unknown
R_3ly0obVl37JdI29	While this may be less than inflation, increasing commute cosst by \$1/ day adds up for my 3 person family.		
R_21hWMRRB5GPZ9FY	Why don't you stop fare evaders so you don't have to increase the fare.	X	
R_2YWj62oX4glu0Sp	Why is fare being raised when BART can't even keep fare evaders at bay? Why should I have a fare increase while the person next to me probably didn't pay their fare??? BART needs to deal with the fare evaders first before raising fare on their paying customers. If you don't deal with the fare evaders, then why should I continue to pay fare when the evaders will continue to get away with it and the paying riders suffer? DO BETTER.	X	
R_2Uci9Tw9NCNRrTx	Why is this needed? I am opposed to this increase. Bart has reduced service times and is not on-time. We do not reward poor performance. There are already measure RR funds.	X	
R_A4LU0QytkIBsaIx	Why should I pay more for the same s**tty service?		
R_3P4ARTIPYw643tP	Why so expensive	X	
R_3dEpV5zXlwXwifU	Why? You f**kers already don't do s**t with the money to fix anything, yall just pay greedy ass employees more and don't do any actual quality of life improvements. Escalators been out at Montgomery for the past 2 weeks and I gotta pay 40 more cents for broken yeeyee ass escalators? F**k you		
R_Z3SVGxqqjt8FFux	With parking to go from Dublin to Montgomery I already pay \$16.6 a day, it's a lot. I also don't see any real improvements to BART. I don't agree with a 40 cent increase.	Unknown	Unknown
R_CfgI79T3KH83P2h	Without you providing an account for all the prior increases "supporting capital improvements" this is just fishing. I don't see the justification!	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1igGE01Bhyc0nQs	would more funding be required to stop the ever increasing fare increases? What are some extensive capital needs that makes us pay such expensive fares	X	
R_27g6eK34jVUj07Z	would rather see this money come from gas taxes or property taxes than bart riders		
R_3qWEF1e73viatLV	Yes - when will the nickel and diming end here? It should not be the responsibility of the fare payers to fill the gaps of Bart's mismanagement. How about solving some of this with abolishing the bogus unions you have paying janitors ridiculous amounts of money? Seriously, Bart is the embarrassment of the Bay Area and USA.		
R_7WDJCP4PFuLnmQV	Yes another attempt to get even more money from the working poor		X
R_Q6wspGgN2Pxxg81	Yes Bart is already expensive. Are there proposals to work with/provide cross agency Monthly passes? Eg a monthly pass for Caltrain and BART.	X	
R_2BaeHhDv3lXgFZF	Yes because I feel as if a lot of changes need to be made prior to increasing the fare		X
R_3huqd2nqv0Llecp	Yes first of all we need more fare watch for those that don't pay on that area is the one that needs more vigilance than increasing to the people that pay their fare.	X	
R_tFBF3Y8ebQIZKZX	Yes instead of fares please monitor first all homeless people that travel in bart without ticket. A lot of folks travel without ticket.i have seen many students climbing the bats.	Unknown	Unknown
R_1dbDYRc010muppc	yes it is too much even though the service of the BART is subpar at best. Yes I understand that money needed for repairs or upkeep but at the cost of my well being.	X	X
R_3MaucQF1D5pjmW3	Yes look at the employee entitlements!!!! Why keep charging the working man an extra 6% when I haven't had even close to a 3%raise I 20 years? Bart doesn't make a profit for the Tax payer you a deficit neutral entity, and receive tax subsidies from CA. Why must you do this? Check out employee entitlements..	Unknown	Unknown
R_3m94STjgSgqw4CS	Yes please don't its so hard to live on minimum wage and use public transport	X	X
16th20	yes! This \$ hike is ridiculous/people need to be able to take the bart w/ losing their salaries USE KOREAN TECH TO POWER <u>BART</u>	X	
R_10I6vxnpaCLuWut	Yes, Bart is already too expensive. This will create a hardship and force me to drive, likely cheaper.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	Also, for the already expensive fares trains are dirty and there is no monitoring of what's going on.		
R_tXpoysQi3VDiN4B	Yes, BART is convenient and affordable. A rate increase every two years is a lot, even if it is a small 5% increase every two years, it will eventually add up.	Unknown	Unknown
R_11jODk00J91o3GY	Yes, don't raise the fares. Nothing has changed with Bart being unreliable, filthy and now unsafe. So why should we pay more?		
R_3CPFSncoJp67tDW	yes, I think BART is already expensive as is given the state of many of the stations and the homeless. I have not seen any improvements in the past year and not confident this raise is justified		X
R_1LqFHTfS3FQwsKd	Yes, I think it highly ridiculous to have another fare increase. Bart is already expensive and for what reasons? Still old trains, dirty mystery stains, homeless, and just plain crazy people on the trains. Safety is a MAJOR concern and that hasn't been in real time been addressed. Yes, riders understand police are going from station to station, but where's the strategic planning, hiring, etc? Where is all the funding for Bart going (gov, tax payers, riders)? BART just needs a new board and upper management NOT A FARE INCREASE.		
R_3fcv1DzWZVJh1UX	Yes, I think it is ridiculous when EVERY single time that I exit Del Norte Station at 5:30 pm, I see multiple people walking right through the emergency gates without paying their fair share. Why should only honest people have to pay higher fares?		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_25BEj04No04xYE0	<p>Yes, I think it's ridiculous that fares keep skyrocketing, yet your service gets worse and worse every single year. Filthy stations and trains, crime, fare evasion, delays, overcrowding, and poor design decisions. It's actually appalling that continue to gouge customers because you know we are stuck with no other transportation options.</p> <p>There aren't nearly enough entrance and exit gates at stations. It was SO STUPID from the get go to have trains going in opposite directions share a platform. Come stand on the Montgomery platform at 8:30 am when two trains going in opposite directions arrive at the same time. It's a nightmare. A battle to get up from the platform, because there aren't enough ways up, a battle to clear the exit gates, and a battle to clear the station.</p> <p>In the evening it's impossible to walk down the platform without walking on the yellow strip because you thought it was a great idea to put black markings to correspond with the doors, thereby encouraging the idiot masses, who are too dumb to think for themselves, to line up across the platform, so no one can walk down it.</p> <p>In short, your service mostly sucks. The only bright spot is the new trains.</p>		
R_1CibVJAvFtjYEy4	Yes, it is too expensive and I commute everyday from east bay.	X	X
R_1mKn1trZfBwaxc7	Yes, this is NOT good. BART already receives \$3.5 BILLION dollars via Measure RR. I voted for it. Don't increase fares -- they are already expensive especially for people who have long commutes. It shouldn't cost anyone \$12-\$15 to get to work. No other big city transit system costs as much as BART does to the commuter. This fare increase harms local people who are low income, especially.	X	
R_20YAuJ401NtbPqI	Yes, why are you continuing to increase fare for those of us who pay our fare regularly. Your problem with funding is with fare evaders. Every single day I see people go through the emergency exit to get on the train and get off. Sometime 2, 3 people at a time. In the morning and in the afternoon. Your unarmed community service officers conducting fare inspections in the paid areas of your system is a joke. You need them at		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	the entries of the stations to prevent this from continuing not on the platform where there are crowds of people. Those individuals that are evading the fare will see them checking people tickets and merely move on, go downstairs/upstairs to avoid being checked for fare payment.		
R_22tA5Rjof6Bgtr	Yes, you will kill the concept of public transportation with these constant fare increases.	X	
R_1Q9Jys9rQmm8fzk	Yes. Stop punishing your riders by increasing the fares. Use the money you are overpaying your employees and CEOs with. Give us new trains, clean trains, stations and restrooms, as well as safety and security, and we will happily pay an increased fare.	X	
R_UmCMobjc8JZ5ol	Yes. At what point will it be too burdensome for us riders? My round-trip commute on public transit (CV&—&SF) is already near \$15/day (with almost \$12 of that for BART). That is insane! Plus parking! With such high administrative salaries, frequently delayed trains, and questionable safety in stations and on trains, it's hard to justify these fare increases and referendum bond measures.		
R_2AF6zrxg2xw66L0	Yes. Even small increases add up to large amounts for people who must commute everyday. Bart benefits everyone, riders and people who don't use the system. People who drive benefit from many people not getting in cars and using bart instead. EVERYONE should be paying to invest in the system, not just riders. I'd rather that these funds be raised through local taxes.	X	
R_RKZ0bcR8BcyNfwd	Yes. Every morning I get on BART in Pittsburg Bay Point station and commute to Oakland. I don't appreciate the fact that at 10 homeless people are asleep taking up two seats during my commute both directions. Yesterday the train had to stop because one of them had his pants down. The police has to come on the train to take him off. They were doing drugs on the train and using the restroom. People drink alcohol and play loud music. It's insane. BART is not safe. We pay for our transportation while other ride free. BART needs to clean up their act before increasing fares.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2Sjq3HdskOrfeKc	Yes. I don't approve of this fare increase. Riding BART daily is already very costly. The trains don't always run on time and it's rare that I can get a seat on the first train that shows up. My commute is 50 minutes minimum each way, and I am physically incapable of standing for periods exceeding 20 minutes due to several chronic health problems. The new trains have less seating, which is a problem. More time is added to my commute because I have to wait for trains where I can sit.		
R_10IvFRASLYVKoUx	Yes. I would like to see BART address the horrible experience that is riding BART these days before they implement any further fair increases.	X	
R_3psdhpejoiXum6N	Yes. It's bulls**t. Hiking the fee isn't going to help the crime and lack of police presence. What's the point in having updated trains when people are jumping the turnstiles anyway.		
R_2B9EEuHbkokOcR1	Yes. It's good that the Bart is doing it best for extending its service. However compared to inflation, the salaries are not increasing rapidly. They are still growing at snail pace. As it is we are paying a lot compared to other states in fares. Some cities even have monthly passes to help folks save some money. Here it's the other way around. You pay more every other year. Bart should really think of lowering the fares by looking at how to look for funding beside increasing the fares. More over you gov has also reduced the pre tax amount which also puts a hole in our minimal savings. Appreciate if you can not increase the prices and tax the riders. Rather than ask for funding from the state	X	
R_31mVyiAKgzTs3iP	You got 3.5 billion dollars to supposedly buy new cars and upgrade the system. Learn how to spend the money correctly and not waste it		
R_AaZELM6OH5sADND	You were given a \$3.5 billion bond by bay area voters fewer than three years ago, and YOU SPENT IT ON YOURSELVES. This fare increase is bogus, and yet another example of BART misusing its customers.	X	
R_2CPvFRKzOVUtg6	Your credibility is not good when you make claims like this, given that service and necessary maintenance has been priority long deferred behind providing bloated pay and benefits to management and labor alike		
R_z0F1UfhbKShDU5P	Your fares are already too high for the service you offer.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_308CPLM64HUQGIB	Your fares are already too high, don't increase them.		
R_yDuZCC2RTTrpnUJ	Your fares are the most expensive of any transit system in America, and you have a long track record of mismanagement of funds and overspending on underused extensions (SFO and OAK, for a couple). Fares should be reduced, not increased.		
R_3NJP89u2g6jwUym	反對加價！ *Against the fare increase*	X	
R_1Ckh790e5IAGNIN	?	X	X
R_3k0NqcV8gHNZ0iz	1) I'm curious how the cost/mile of BART compares with other larger cities like New York, Washington, DC, and Chicago. It *feels* more expensive here (especially compared to NYC). 2) If non-clipper fares are more, you should be able to purchase a clipper card at every station (this is the case in DC, although you do pay a one-time fee to buy a pass). 3) Bart should be free for anyone under 18!		
R_3h5fQUT8Ulu2ZS7	1. Will the increase in fares for youth/senior/people with disabilities also be 5.4%? 2. Has BART undertaken a study of who is impacted by the paper ticket surcharge?	Unknown	Unknown
R_3FKbvhABAkPOWzI	5.4% is not less than inflation	X	
R_1nMyRkj7Zv9k8Yq	5.4% seems like more than inflation		
R_2dtiKMc3fM00IQL	5.4% seems like more than the rate of inflation, even over 2 years. Where is the data to back up this claim?		
R_1jk0MJgdmU6e6Zu	As Expected.	X	
R_1EhfcBJ8QpjExel	BART needs to offer a less substantial percentage fare increase for shorter trips (less than two miles in length). Although \$0.10 is a small dollar amount, the current short distance fare already is disproportionately higher for urban riders (Oakland / San Francisco urban core markets) than for suburban riders. This creates a disincentive for using BART's capacity during off-peak hours.	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_2rjBl9lcnGKFA1n	Bart prices are becoming inaccessible for the general public. Yeah new trains and railways will be lovely for the people who will be able to afford riding Bart regularly. But at this rate companies like Uber and Lyft are beating you in pricing and efficiency. My #1 concern is the increased number of Bart officers, by steadily raising the cost of Bart while simultaneously raising the police presence on trains and in stations this is a recipe for disaster for low income Bay Area commuters. Have we forgotten Oscar Grant already? Not that that's what caused his death but it definitely seems like you're creating an environment where something similar is bound to happen.	X	X
R_RIAOB57YBdtCAej	Bart should be privatised and let an efficient company such as Uber, lyft, waymo or hyperloop manage it.	X	
16th18	BART should do lower fares on evenings and weekends, it's already expensive for non commute trips	X	
R_3e1pprlqfWSQKqt	BART should get more money from the federal government, but you probably knew that already.		
R_2TC9g9WmUA2meSA	BART sucks, stations are dirty and employees EVERYWHERE do not seem to care the least about customer service or running a system that works	X	
R_1pnRoD1enVYdTxB	Because when the other taking bart everyday and some other people are bart hopping	X	X
R_1r6bfe4qjDMKSII	Before stating whether I agree or not with this proposal, I would like to better understand how BART has used the funds received from, in my perspective, very high increases over the last several years.		
R_2q1szYV8fYgrixt	Can you increase the cost more for people who use Bart less frequently (eg Tourists, people who travel a couple times a week) and increase the cost less for regular commuters who will end up feeling it more?		
R_doQa5fl0dT7Pr33	Chicago's base fare for the L is \$2.50. The New York City subway fare is \$2.75. The LA Metro is \$1.75. And BART wants to increase fares? What happened to Measure rr funds? And where are the supposed new trains? I have seen 3 since January 1.		Unknown
R_2pRXSnLJCQXpS2w	CPI is only 2%. What are these inflation readings?	X	
R_26lhoVX0RaieRfW	Cut back on overpaid BART employee salaries and other compensation. No janitor should be paid \$200,000	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
BP4	Didn't have a clue. No notification about it.	X	Unknown
R_2TN2HqYuANdAr3u	Do we have a formula to calculate the distance and fare? If yes, will the formula be published?	Unknown	Unknown
R_6WJGiQXl0Ym6JDb	does the fare apply to things like the transbay tunnel or airport charges?	X	
R_2fHfam1bh1ypWQG	Enforcement: too many people evade fares, engage in illegal activities in stations, including paid areas, and on trains. I use BART at least 5 days a week in both directions. I'm sick of watching people evade fares. It makes me wonder why I even bother to pay at all. EASILY, on average I see AT LEAST one person evade fares, EVERY time I take BART.		
R_2xV0q9XHJCl70f9	Everything is going up except our salaries	X	
R_2PCn0G3Zaul3L7D	Fare increase should be annual.		
R_Wfe6AsQYmrjxmw1	Fares and parking has increased in the last year. Why is it that Cities like New York and Chicago can have fares for short or long distances that are substantially less than the limited routes of BART as well as having overnight service (can't get to Lafayette and Beyond after certain hours!!!)?		
R_9BTSvxDSNXY8TSh	Give discounts to people who work in public service	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_bmfKiBG7YkPnW8h	<p>hen in the Course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.</p> <p>We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let</p>	Unknown	Unknown
R_2sR2re2nLOt8VoZ	Honestly, BART should be free as a courtesy to its riders considering its recent performance and ongoing issues.	Unknown	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	Pay more has ALWAYS resulted in worse service in BART world		
R_1DppsZKLlij7hMc	How about decreasing executives salaries to fi d these projects.	Unknown	Unknown
R_1eQRsJzS5KGUga1	How about you just enforce till jumping? When I got the survey postcard, a guy next to me jumped the till. They offered him one too. What the hell do station agents do? They just sit in that fish tank and try to ignore people looking for help. Nice work if you can get it. Oh, I pay for that.	X	
R_1pEw42r2xGCwIL7	How are the funds going to be used?	X	X
R_25GgOzYncLFLrFT	How much of this will go to staff versus non-personnel costs?		Unknown
R_vuBQsKNJNBFOZON	How will BART make clipper cards more accessible for riders? What about parking costs? And safety concerns?	X	
R_33kG6u3D8h0h9sw	I believe that though wealth in the bay area has increased, equity has not. the same working class people that depend on BART are being unjustly taxed, when all the development of tech companies enjoy exorbitant amounts of profit. Why not have them contribute to the community to cover expenses?	X	X
R_piO7cttxuRLgRfr	I commute from pleasant hill and currently pay \$15 for RT and parking. That is a lot of \$ annually! Trains are often too crowded to board. Can't rely on the schedule, breakdowns, delays are frequent! Trains and stations are unsafe and unsanitary.	X	
R_1nZvb1NjRKUNgCS	I don't appreciate the push towards clipper, I don't ride Bart except for work and it is reimbursed and its easier to expense individual paper tickets		X
R_2tmNhpKiOVXadzA	I don't think BART really communicates how much dollars the capital improvements will cost. Or, if BART is honest with its communications, I don't think BART really knows how much the capital improvements will cost.	Unknown	Unknown
R_0enq272CB7XON01	I don't understand where the money is going. There's hardly any staff in the stations and the trains are packed and yet bart seems to always need more money while mostly falling into further disrepair.		
R_2AZrGpukxG4MS4i	I don't understand why you guys keep increasing fare. I (we), as a daily passenger, need to know more about the reasons behind fare increase.	Unknown	Unknown

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_3DkH1bpVuX5VjjF	<p>I get that the the current reality is that fares are necessary, but it would be good if BART and other agencies in the region were to begin serious planning for what it would take to make all transit services completely free.</p> <p>For the sake of equity I hope that prices for parking will also be increased. BART should get all the revenue it can out of parking, and only then ask non-driving riders to pay more. (That should include eliminating free parking on weekends and other non-peak times, and maybe trimming non-peak fares instead.)</p>		
R_0iWdvCxtc8NWda1	I hope "expanded maintenance" translates to additional cleaning		
R_diKs7sgmybtheYV	I hope we see where the money goes.	X	
R_Wdu9Zr9g8iLXeX7	I just applied for and received my new Senior ClipperCard. How much will it cost me for a round trip between Hayward and Balboa Park?	X	
R_3E9xLSDqQio53Mg	<p>I ride from WC BART</p> <p>Evidently my parking spot (almost 10 years) now is either gone or ceded to a private company</p> <p>I have been fxxxed by BART and hold senior management respnsible</p>	Unknown	
R_2v1W1dFHeOMLvbA	I think a lot of people complain because they don't see what is happening with their money. They still see the homeless sleeping on trains, and they still see the biggest problem of fare evaders. BART is slowly creeping up their prices to become closer to the costs of driving, and I know that deters me from using the system on days where I'm not going to work because I'd rather be in a car than on BART.		
16th4	I think Clipper has been getting discounts and I am glad that they will have to contribute to the BART fare increase	X	X
R_2CqXtWeWjmtFZmk	I think it is absurd that other cities have cheaper fares to their cities airports (\$3 oneway) and BART fares are exorbitant (\$10 oneway from San Francisco to SFO). One can only assume that this fare will increase as well. That is why I no longer use BART to the airport but use a taxi.		
R_3VqR3GYdtfAE5Xz	I think off-peak and Sunday fares ought to be reduced in line with recent service decreases.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_31hMszzUGUSbeA9	I think that for people who has a MUNI ticket, the fare should only be based on the end of San Francisco to the destination.	X	
R_DpYOUJS8GqipVZv	I think there should be a user-friendly program for low income people to get a discounted rate.		
R_1KiGvnWzdQpUtqZ	I think you should base fares off of competitive alternatives. For example, it's often cheaper to split an Uber or take an Uber pool than it is to take bart to the airport from day the mission. I feel similarly about bart fares. The fare shouldn't be so much greater than the bay bridge toll as it is now.	X	
R_29oa999BfEwHIKM	I wish this plan would incorporate some sort of discount program, or an extension on the few already offered. For example, BART already offers a discount for children or adolescents in high school but I wish this could be expanded to more college students (other than the few select schools). Also, if people could apply for a discounted rate of some sort due to low income. I believe an expansion on these programs would help so people with lower income could still afford public transportation and those who have a higher SES could afford the minimal increase.	X	X
R_3qlmEhyfFmusvUX	I would like to see BART show accountability to riders on how the past fare increase money has been spent before deciding on this information. I would like some statistics that show how money was spent before and after the fare increase. Please feel free to email me with this information		X
R_3rZIZFijBLCLRKs	I would like to see better communication around what capital projects are being funded by this fare increase. BART should also simultaneously increase enforcement of fare evasion, since the fare increase will likely drive more passengers to jump the gates.		
R_8eI3qs8NuSsxRDz	I'm concerned about the impact on low income residents. When we have so much wealth here, it seems crazy to make public transit more expensive rather than tax the super rich.		
R_OI0PrFwJEBCAUjL	I'd like to know where the increased fare will be spent on.	Unknown	
R_2wbtIjml83rkU91	If you're going to charge different prices for clipper v. paper tickets, please label it clearly as myself and a number of people I know have mistakingly paid what they thought was a paper fare but upon attempting to exit the station, could not as they had paid the clipper fare. I believe it has been fixed, but	X	X

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	whomever was responsible for that debacle should be fired.		
R_2ZHp7pPu9JcClN	Impact on low income, where is this money going?	X	
R_3rZDk8c6luDeIL8	In general, BART should seek funding that does not raise fares. Raising fares is bad climate policy in this era of rapid climate change because it reduces BART's attractiveness compared to driving alone.  As long as BART charges a fare, BART should offer 30-day (and ideally also 7- and 14-day) unlimited passes. To accommodate distance based fares, these passes could be modeled on the PugetPass pricing model in place among the ORCA agencies around Seattle. This would incentivize weekend and off-peak ridership among regular BART riders.		
R_1LebrsN2jjha95V	Inflation is < 5.4%?	Unknown	Unknown
R_31No1otQPjqG4re	Is 5.4% less than inflation?		
R_1hycZDzwEmAORsD	Is inflation really higher than 5.4% every two years?		
R_3M4mTLRugDBH5zB	Is there a study on who uses paper tickets vs. Clipper fares? My concern is that an increased fare for paper over Clipper, and larger increases for paper compared to those for Clipper, would further disadvantage institutionally oppressed populations that rely on BART, but receive discounted paper tickets through work or can't link a Clipper card to a bank account.		
R_3hovBl7WgHbPIOu	It is not possible to state the fare increase is "less-than-inflation" when inflation in future months is unknown.		
R_1IbK2DkeqF03jMA	It would be cool to have BART fares scaled with income. Today BART fares are turning into a tacit two-tiered system where low-income people just hop the gates. This is better than charging them the full fare, but it would be even better to just offer them free or reduced-cost cards.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1lAmTd03KIsPm45	I've paid my dues Time after time I've done my sentence But committed no crime And bad mistakes I've made a few I've had my share of sand kicked in my face But I've come through	Unknown	
R_5u20tME0Urwiz7j	N/A	X	
R_1gzuvlPRhGoXelZ	No. I see a lot of fare dodgers every day at Balboa Park, and I wonder how more permanent supervision, technical or human, might prevent this massive revenue loss and keep fares down.		
R_1Dv5dagcfdosWQE	No. Mostly because my work travel is almost covered by my company's commuter benefit package. Others without this benefit would see an increase of \$20/month, just to get to and from work. On top of parking at a station which is likely to go up as well.	X	
FR1	No-problem Clipper Card convenient San Mateo good Area Sam Tran Vallejo Vacaville Fairfield	X	X
R_3l65pQRMtxhj5lP	One idea is time-based pricing, where more of the price increase is applied during peak hours	X	
R_2axbDCJzq27SUnY	Open the d*mn bathrooms. Also, try doing more about fare evasion. I see it every single day.		
R_2fBOMEKMqmKVNgt	Paper tickets should cost the same!!!!!!	X	
R_2Bhxx0FbKtvnEXE	Please coordinate fares with other transit systems. It is ridiculous that you have to pay \$2.50 on AC Transit or Muni to make the first mile/last mile connection. Those systems provide fare discounts. How come BART does not?	X	
R_1EaH8jekCR92oCp	Please increase the transfer discount for AC transit because many people travel throughout the greater Bay Area. Maybe offer a monthly discount when pre-purchasing a month's worth of transit in a set time frame.	X	
R_2dGzr007s4e4rHc	Please provide better security		
R_sSfNSyio2qjyhjz	Public transit should be free

R_2dKqVo5ykn9S942	Terminate paper ticket fares	X	X
R_3Gs2zdw7fVHz5jb	The 2018 inflation rate was 1.9%, so a two year less than inflation rate could be no more than 3.8%.		

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
	Saying "less than inflation" is either not explained well, misleading, or a lie.		
R_2sWM3irJdqBpoOe	<p>The Bart is already quite expensive when it comes to FARE on day to day basis.</p> <p>I would recommend the following changes to bring cost down:</p> <p>1) The Maintenance Cost can be reducing the number of Trains during Off- Hours. Peak hours are Mon-Fri 6:30 AM to 9:30 AM and 4:00 PM to 7:00 PM.</p> <p>Instead of 15 mins, make it 20 mins frequency, but add more Car to accomodate more passenger. Sometimes 5 car doesn't help during Peak Hours.</p> <p>2) Provide the option of Monthly Pass if customer has starting and Ending destination is same. Give some frequent travellers benefit to these customers.</p> <p>3) Add multi-level parking structure at each Bart Station which will bring more revenue and so monthly customer can have option to include as their Monthly Pass.</p>	X	
R_sNDdQwpacNsNo3L	The increase is scheduled every 2 years for many years? Indefinitely?		
R_1mrcJZQqx7bZDTo	The people are not responsible for funding public transit. Bart's extensive capital needs must be met by the government.		
R_2cuYrfZFmy6ScjT	There are people living in their cars living in their vehicles sucking up all the parking space. It's like my monthly parking pass is a waste of time for me. They need to do their job and enforce these problems		
R_DvHlxuZ530Yd6E1	There should be more differentiation in fares for short trips vs. long trips.	X	
R_3RszpsEX1tng5hu	They are regular increase every two years of 5.4%	X	X
R_1IREqRnBeMy8jFk	they, board of directors just want to take more money from all bart riders so they can look good and get maybe a big bonus and raise.	X	
R_1NaGEt9oSo3uiQj	Trains are already crazy crowded and getting worse every day. why are you spending money on esthetic improvements, such as those weird looking archways over the downtown Berkeley entrances?	X	

Survey ID	January 2020 Fare Increase: Public Comments	Minority	Low-Income
R_1dm3AwusvOBGYJi	Two dedicated police officers at each station would significantly cut down on fare jumping and violence at BART stations.		
R_30laA8Y0Z8D6pNP	Two thoughts:  First, we desperately need increased visual presence of sworn, uniformed police officers on the trains. A small fare increase may be necessary. I would suggest that one or more police officers should be on board a train at all times, walking throughout the train for the entire run. This may not be necessary for all trains but police officers need to be present on a significant percentage of the trains. The current lack of security of BART trains is not acceptable.  Second, the frequency of delays has increased significantly for non-commute trains. It is not enough for BART to pretend to apologize for the inconvenience of these delays. When BART service is reduced fares should also be reduced. I would suggest a 25% discount for non-commute hours.	Unknown	X
R_2YPWXXkXMfL3bMs	Was this a short term policy? Why are we making it long term. Make all riders pay. Enforce proof of payment. Don't make normal riders suffer.	X	Unknown
R_32LOat7ePmDnk8l	We gonna grt the new trains soon?		
R_ebAAvB21tjwLkqt	We should be encouraging people to take transit via taxes on gas / vehicle registration subsidizing BART. But unless these subsidies are increasing, shouldn't fare rises be at or slightly above inflation rather than slightly below? In the latter case the money available for the proposed improvements is decreasing in real terms over time.		
R_1F2NTQ4eTJOxl9G	Well, it will make bart more expensive, but I can imagine why that is happening.	Unknown	Unknown
R_2bKnaIrmB9rdgWj	What about measure RR? Why waste money on "fare evaders" that costs more money to chase down than it recovers		
R_sidfclqzMfhsIN3	What about security in Bart Stations	X	X

R_27vzgELd5TXsWhS	\$ for transit projects is important for the whole region.		
R_3JeWZdKk2MHRyxy	As I said, fare increases are necessary to maintain and increase service levels and quality. Funding should be increased.		
R_2VEKGOPfWM8377h	As I stated before, it is so difficult to believe any fare increase will somehow benefit BART riders. I don't support any increase at all because I the profit you do would be enough to better serve the users.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_SZShmLLW7fzUrf3	As in previous comment, need lines that are more spread out in SF (so that more than one corner of the city is accessible to poor and environmentally conscientious people) and extend farther out so more people can rely on public transit for their commutes into the city where they can't afford to live		
R_1gi46u4n9W0gDOj	As long as the revenue continues to be invested into the system		
R_1DuNny5bYihbYRC	As the whole system is about 60 years old, the cost of maintaining such a system increases exponentially, thus this program of increasing fares will allow for coverage over construction costs without having to constantly ask the Government for money and only to spend it on things that could have been paid off through ridership payments.	X	Unknown
R_urfl9Sk8DcXgefn	BART clearly needs the funds to maintain and improve service. I'd even support fare increases that match inflation.		
R_3rZIZFijBLCLRKs	BART has the oldest fleet in the nation and ATCS limits the system's ability to handle future passenger load.		
R_1mzze0Wcl1uQfdi	BART improvements are drastically needed, if increasing fares to pay for them is necessary then so be it.		
R_120kg6QGrRhvWhy	BART is a backbone infrastructure necessity for the entire Bay Area region; it must be supported.		
R_2ZNAEzV8VQHDHMm	BART is a vital part of our transportation infrastructure and it must be funded adequately. Best investment we could ever make!		
R_2tmNhpKiOVXadzA	BART is breaking down too much and hasn't planned for increased ridership. BART needs better management, and the the funds to run the system	Unknown	Unknown
16th5	BART must low pair	X	X
R_2sc1gExL0QBplW4	BART needs money to support its operations and to expand service		
R_2WGz004Z95uzzyI	Bart needs money!	X	
R_bjB8nnjEI8s48Q9	BART needs support for system improvements		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_24271Ano4kQ6j1c	BART needs the money  It would be nice if we got more funding from city taxes since BART is such a crucial piece of public infrastructure, but that's not really under y'all's control.		
R_PRMxW6Zn3XVaPuN	BART needs to be funded adequately	X	Unknown
R_1qWcWQp4eK0efmJ	BART needs to be investing funds in maintaining the existing infrastructure so it can be efficient and reliable for years to come. There's no reason why BART's fare increases shouldn't be allowed to keep up with inflation.	X	
R_1meFePgcURQ8q97	Bart needs to expand and retrofit. Money has to come from somewhere		X
R_1ocdgEURPpJTKrE	BART needs to have money to support maintenance, but can you find a way to reduce fares for people who can't afford them?		
R_abG9U6DouUsphrr	bart's got bills to pay, and it's still cheaper than many bus and light rail options. Less-than-inflation seems fine to me.	X	
R_3fjGMDTpxDvgYj2	Because public transportation is necessary.	X	X
R_7WDJCP4PFuLnmQV	Because we can barely afford the cost now		X
R_3M4mTLRugDBH5zB	Capital improvements are necessary. Please also address fare evasion and seek out corporate partnerships ("this car is maintained by Twitter, tweet us your ride...").		
R_1cY8j5ZKpQWVYxJ	Concerned that automatic increases at less than inflation will just slow the rate of underfunding		
R_2YVVjXd8xsb8CTJ	Considering the scale of the capital projects you should increase fares even more.  However, a frequent commuter discount is a must and will help drive revenue for you. I commute every day from fremont to balboa park, which is \$15/day approximately. That's around \$300/month. Maybe introduce monthly tickets like Muni has? They can still be distance based in tiers for example?		
R_2xVic1Dc7sOjaQX	Economic realities; want to keep system running as smoothly as possible		
R_1gzuvlPRhGoXelZ	Efficiency and increased frequency cost money, but not as much as disruption and overcrowded trains, so I will pay to keep bart a viable commute option.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1Dv5dagcfdosWQE	Every 2 years is a decent time frame.	X	
R_3r2hoMDibsEncdz	Explained in previous question.	X	
R_3Ma6zHkAn48paTf	Fare increases are necessary to keep up with cost inflation.		
R_1F9APwjzC4aNe63	Fare increases are needed to go from maintenance to improvement		
R_5A3u6W16Uj7Merf	Fare increases to match inflation are reasonable. However, larger inequities in the fare system should be examined and corrected.		
R_1fZz5yPy4JNE0Ok	Get the new cars and second transbay tunnel on line asap.		
R_bmfKiBG7YkPnW8h	<p>hen in the Course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.</p> <p>We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient</p>	Unknown	Unknown

	sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let		
R_1cTIHjJ3k9SrWeI	I 100% support this as long as portion of this goes for maintenance. Most station are so dirty and stinky. Plus please make it safe for the paying riders	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1qaBS4S30DxphOV	I am in strong support of upgrading basic infrastructure, trains, operating systems, etc. Prettying up stations with art, new pavilions, etc. is a waste of money and customer fares. Customers want to get from point A to B and have no interest in hanging around stations socializing, shopping, etc. Stations need to be clean and functional but not architectural wonders. The only people that hang around stations/trains are the homeless who for the most part are drunk/high and unaware of their surroundings. So again please don't waste money on frivolous prettying up projects!		
R_vP24f90RGpzJSg1	I believe our public transit prices must increase to match inflation. Otherwise we will begin to lose funding proportionally.		X
R_3n7aqXYGzOrVCKz	I feel that BART needs this money to help improve their system	X	X
R_2WAbU1Xwjnf5d4F	I know that BaRT has huge capital needs. Appreciate the new train cars, thanks!		
R_3I47csFKVPpVK80	I strongly support because I wish there were more frequent rail service. If more frequent service were not a part of the proposed plan then my rating would drop to somewhat oppose.	X	
R_33shq0EUtKzl3yN	I strongly support the increases as long as a) BART is truly accountable for the increased revenue and is transparent about all its spending and b) low-income riders are granted relief.		
R_OliYtmTdS6Zmorn	I support the price increase if it will enhance Bart's spaces, trains and rider's experience.		
R_332tgQsSv8VMqvG	I support this program because even though a 3.9% increase in the four proposed years results in about \$1 increase in a long range trip, the increase happens at a steady rate. Also, even with the increase, the cost to travel per mile on the BART system will still be far less than traveling on the highway with a gas vehicle. All of this while still supporting the modernization of BART.	X	
R_3HFwwugSZjRfdkN	I support this. But increases unfairly burden low income citizens.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1jEaSxWOTCQin75	I support what BART is doing and I depend on them to keep doing it well. If I can see a better return on that investment over time, why wouldn't I support that?		
R_RFyymm5ZKrM7fnq1	I think Bart needs capital improvements to increase capacity and reliability and that small fare increases is a reasonable way to pay for part of the cost.		
R_2zqHD0jq9xFmFEt	I would love more trains!		
R_At7TWWVoz3MCavzr	I would strongly support this increase however BART really needs to work on getting everyone to pay their fare and fair share.	X	
R_1ln3bTaasSgIxnf	I would support increases of actual rate of inflation		
FV3	I would support it because it would keep BART running		X
R_2cjFwIPtfunoioF	I would support it because it's helping fund the advancement of transit in the Bay Area which would enhance our work commute in the future.	X	
R_2wdFjASooqQgl1Y	I would support. BART definitely needs upgrades ASAP		
R_u4EJmlRIUBgNUM9	I'm in favor of anything that increases the frequency of trains during rush hour		
R_1JPI2RxxRC8p3we	I'm in support of this program as long as each year BART is able to show some kind of visual upgrades or improvements to the public. I understand not everything can be visually displayed but I'm sure it would impact some areas, which can be shown.	X	
R_1Q4uxQbTnf9XW1X	I'd prefer it if there was some way to shield lower-income riders from the increases.	X	
R_1onViMBHwFPHiyE	If it's necessary for system upgrades, it's worth a nominal increase.	X	
R_3CNTBAmSnHnDGX8	If this program is to be used to expand or upgrade the current system it's a great idea	X	X
R_1lbK2DkeqF03jMA	If you're wedded to the idea of a single fare price then sure, track with inflation or slightly below. An income-tiered system would be better, though.		
R_3PtX0rVPQNMvLwF	Important to maintain and improve infrastructure		
R_2qaTNihW8LcY3gW	Improvement costs money.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_5BzHQD14eFkYJsB	Increases - are necessary. I support it , but it is not blind support. YOU NEED to PUT A PLAN TO CAPTURE the FARES today so that paying passengers are accounted, validated for atleast 1 in 50 trips.	X	X
R_2QMd4CQkna24vU6	Inflation must be covered		
R_3lYdz5qfsffcy43	It is better than a larger increase.		
R_3DfRPwHZPdx78bv	it is needed		
R_9ZapDlo3D0JWALL	It's needed to improve the entire Bart system		
R_1IM0gptaaxUgPVA	It's a little hard to tell from this description whether there are two programs that both increase fares. As long as the total net fare increase is at or below inflation, seems fine. Increases every year or every two years is better than a large fare hike. It seems obvious that fares must go up with inflation (in fact, why aren't fares anchored to inflation?).		
R_2agXREQVNEOq0Zv	its cheaper then a car		X
R_1QKEz0tm8v92mvM	It's needed to keep up the rise of inflation. Safety first.	X	X
R_11irPFhGz1aXTTt	it's required to manage better services.	X	Unknown
R_ym3HukZyY7HnC6Z	I've explained my comment in the previous page: I SUPPORT THE INCREASE AS LONG AS BART WILL INCREASE THE SECURITY both inside the trains and our parked vehicles...AND MONITOR THE CLEANLINESS OF EACH TRAINS, as well!!!	X	X
R_02o3jYVu59QPENr	Keep bart funded!!		
R_PRu9SqhKXPxB5ND	Keep the trains clean and reliable	X	
R_1cYbcRPkr83SI19	Like I said before if it will make bart safer and run better I'm all for it.	X	
16th10	Maintenance is always required. It is also nice to maintain/increase service (already great on weekends).	X	
R_DvHlxuZ530Yd6E1	More \$ for transport = more improvements.  BART stations and trains are dirty and need to be updated.	X	
R_3h6eQSZaslzxm3	More frequent service is something I support so I support the increase to pay for it	X	
R_3ozk2WsjvdT95US	Need a new control system more than anything.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_DkK2CqUqB9VFjMd	No	Unknown	
FR1	No-problem let them know	X	X
R_AccFOsYGxBvUEF3	Nothing worse than mechanical issues on trains making me late to work - or late to get home.		
R_2dzQ4bWSFeLaXs8	ONLY if subsidies for those who make lower wages/youth/seniors etc are a part of it!		
R_2zOBmf0l5KEogdh	People complain about BART, but there are budget realities that need to be addressed. I support a fare increase to fund improvement and maintenance.		
R_cAqt4y3TXvnkig9	People complain about the state of Bart, let them put their money where their mouth is	X	
R_rjLEsQ08h0E3WZb	Public transport needs a sustainable funding model. This modest increase is a step in the right direction		
R_3jSRNEIIVcR9mdP	Safety first!		
R_1jYObCYrhf27FTu	See my previous comment.		
R_2Cv9PryNG0JrmWS	see previous answer		
R_09sgBWT0YNq2VoZ	Seems reasonable and will find future projects		X
R_6Gcb54J7r3nijT3	Should be increasing it to the exact inflation percentage	X	
R_3LXWkcvFgKLWhXA	Strongly support, but fare evasion and homeless sleeping on the trains must be solved.		
R_1mwpVArd3Pa4PrK	Support...I get it. And every two years seems fair and reasonable.	X	
R_2thtnRGdCZSQKgl	The increase has to happen as there are more people in the area to use the train there is more need for more trains.		X
R_31No1otQPjqG4re	The infrastructure needs to be maintained, right?		
R_1dEtVVdvUy8L55x	The money is needed, and it should be paid for by users, not the larger tax paying public, as much as possible.		
R_2D5Lsak7Yxbpnj9	The old trains are dirty. I like to have cleaner trains. As long as the increased fare are 100% goes to the improvements as announced, I would support it.	X	
R_3nuxjj9BgGnfwoq	The system is in need of influx for capital projects.		Unknown
R_2X0Dz7mWXIBLEYD	They're every two years and they're less than inflation. BART needs the capital to continue to improve its service.	X	X
16th4	This would help the BART to include other train upgrades and better nightly service and commute	X	X
16th15	to help improve rides	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_25GgOzYncLFLrft	Upgrades are needed. Hope this pays for a second transbay tube or extensions to Pinole/Vallejo		Unknown
R_3oBdpTE7oWZ8Mnt	Upgrading and maintaining a system that became horribly out of date is important.		
R_2diits4fV6JPTch	We have a growing population that need transit options.		
R_u4e9P3LPoCMqm8F	We have to keep up with inflation.		
R_3PNPIFGdwMbUQHG	We need improvements		
R_2aLTrJI5KeEGLtu	We need new cars, better transit.		
R_2zzaFsoKls6HKTa	We need public transit.		
R_1CdsYyKNappDWGR	Whatever it takes		
R_3NCYDiMfc2fUdm5	While I feel the rate of increase should be closer to or at the rate of inflation, I support extending the existing structure, too.		
R_6fotVm7bW56l7Wx	Why is the increase less than inflation? Why not just link the increases directly to inflation?		
R_2zjsBpuoSkoYvgf	With more riders than ever and with future population growth, Bart desperately needs to expand its services! It seems that higher fares is a viable option for providing Bart with more funds to make these improvements.		Unknown
R_2xxcIUjc9AhAnjB	Would love to see improvements on Bart. If you do increase the fares then, please, use wisely and make sure that we see real results that truly make our travel and commutes a better experience.		
R_2rr44vr1U23S3FX	加價之後的收益可以在日後改善服務 *The proceeds after the fare increase can improve the service in the future.*	X	
R_3NK6rc0k3XE8nvZ	同意加價, 改善服務 *Agree to increase the price and improve the service*	X	Unknown
R_27BcAAc7RTqKnxM	3.9 sounds cheaper than 5.4%		
R_3D6kHPtJYKYQ1fk	A more frequent service would be great, especially if the time between trains would be reduced to 10 minutes. However I dont feel the need for new rails cars.	X	
R_2bVI0umeKmcAe6P	Again, I support this extension, as long as it's not coupled with tax increases for local residents.		
R_2Cq08hmnEEfitYW	Again, new systems are fine, but first repair the old rails!		
R_3HzwPoW6XOSLaLj	Again. Security is a major problem on Bart. So more police		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1qaOdVitzrav80r	Answer is in previous wuesfion	X	
R_2QYTjLJ2KD501lo	As long as Bart improves, the fare increase makes sense. Also, as Bart is a business, y'all need to make some money	Unknown	Unknown
R_1Hph2Z1LaVZEBSv	As long as BART us cheaper than Uber or Lyft, I will continue to take it.	X	
R_ylKPktYgvqnWI2l	as long as i dont see employees at the station letting people through the gates for free while i have to pay for my ride...	X	
R_z6z2xNPIsacFzj3	As long as the fare increase is going toward improvements that will be quickly realized and benefit riders.	X	
R_2xDJZyemSQu1250	As long as there continues to be a hardship fare for folks under the poverty line, I'm okay with the increase.		
R_1EhfcBJ8QpjExeI	As long as there is a low-income BART fare subsidy program that is permanent, this regularly scheduled increase should be continued.	X	
R_270kJJWjgHFHJzk	As mentioned previously, it depends on how the additional money is going to be used.		
R_1gdru1GL3lqWVZ4	Bart costs are going to increase in the coming years, so it only makes sense for fares to increase as well. If anything, I'm concerned that the increases are not enough, if they don't keep pace with inflation.		
R_3DdbrT1KhD3trHR	BART is an integral part of the Bay Area and needs improvement to meet needs	X	
R_1remZUMRE5KMgfB	BART needs improvements.	X	
R_2PaGxeZ3dRHkwnC	Bart needs money to keep working and ideally clean its cars		
R_3NPOgMQ3lzIPQi7	BART needs more money as it is, today, to fix systemic u investment. It seems weird to increase the ticket prices less than inflation.		
R_3e1pprlqfWSQKqt	BART needs physical improvements, and fares are a significant portion of its revenue, so I understand.		
R_2U448dJZlGJ80v8	BART needs the revenue and desperately needs service upgrades. However, with wages largely remaining stagnant and housing costs rising, it's important to ensure BART remains affordable.		
R_3GiVEkWbg8xH2H9	BART needs to do more than just be "steady-state." Improvements and other upgrades (disruptive new tech?) need to planned for.	Unknown	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2VKHEsVkedfRapt	BART needs to provide a form of fare subsidy for low income riders! A disregard for this ends up with people deciding to risk fare evasion as the cost of paying to go to work every day is too high. It's almost impossible to pay a trip from San Francisco to Berkeley twice a day on a limited budget.	X	
R_27D6te6mjQkquyl	BART still needs to demonstrate stronger fiscal controls over money that they already have, first.		
R_2wbDs6o0xChPNW3	Basically it help to improve the services system wide. We have seen break downs happening every day. This is a daily occurrence, so increased the fare will enable the agency to rebuild its aging infrastructure, hire more manpower, etc.	X	
R_2Vkyr3d6EsHAsVa	Better service is good	X	
R_1H0JdqDCfUZjejX	Cost of living - and everything else - keeps going up. It makes sense that the cost of maintaining BART goes up too.		
R_2akji3ePxGFnjIs	cost of operations do go up and employees need raises as well so i think a reasonable increase in fares is acceptable.		
R_0pSySo1ITqtLSff	Do a monthly flat pay program. Some of us would save money, while others wouldn't use the full balance. Focus on curbing fare evading. You wouldn't need to increase rates if things were better managed.		
R_el228piMjwaK91f	Every two years is more practical than every year.	X	X
R_AssLE7ORG1TlFxn	Expanded service would be fantastic. Sell that! I'll pay for more frequent trains at more hours	X	
R_V2Rjv2nT0pKRafP	Fares are already hard to justify for me to use BART on a regular basis. I reverse commute across the Bay Bridge. Even with the increased cost of the fare it still is more cost effective for me to drive. Not to mention my commute time would at least double due to the 'last mile' issues.		
R_Wd10eL6rqCOArE5	Funding should be carefully monitored to minimize use it is not allotted to.		X
R_11WUgoerwZpRYHt	Good transit is worth the price		
R_3k0NqcV8gHNZ0iz	I actually think BART should be fully taxpayer funded and free to use. While that may seem radical, this is how 99% of our roads work.		
R_D7Tq0dVSKbLmpLX	I am a student and others like myself can be struggling financially wise	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_WdIBAhSUGfrP2nf	I believe in paying for services that I use, and inflation hits everyone. I just really hope that it's not going to hurt our lower SES resident population.		
R_1pEw42r2xGCwIL7	I believe its a necessary thing for upkeep.	X	X
R_e2U4FREnbh1VC9P	I believe the current fare increase program is a fine compromise between meeting BART's financial needs to maintain and improve the rail system, and making sure fares are still affordable to those who heavily rely on it for transportation.	X	
R_1CigKFM0YYMDdIZ	I commute on Bart a long way - Fruitvale to SFO - so the cost adds up - but Bart needs refurbishment and that will make my ride more pleasant.		
R_vPsvWtdTcEm6Exj	I didn't know the program was going to expire in 2020 - I had assumed the 5% increase would continue indefinitely.  I somewhat support this new proposal since it will be a smaller increase		
R_1mxeaJuZ0GOB7yH	I feel like if it gets increased too much ppl might choose to not bart	X	X
R_DBqlveUuqKDxSyB	I get that things cost more as we come along in years, but it's got to be a safer and cleaner ride - and complete eradication of fare evaders. This only works if you protect your investment BART.		
R_2YY96c7c6vy5wXn	I have a concern about the multiple bond measures that have passed to fund BART. On top of those, you still need to raise fares? Where is all this money going? I haven't seen really any significant improvements to the system and I've been riding BART for over 20 years.		
R_4MFCCQmpxTLYpW1	I have the means to support this increase in fare in a hope to see *visible* improvements in my BART experience: clean stations, increased frequency of service, newer trains, cleaner trains	X	
R_2zSKkMG1I2OGfSH	I need to see some improvements like cleaner trains and less fare evasions.		
R_2zoNitL2hBed6eT	I only don't put strongly support cause I'd like to spend less but if this is necessary and stays as low as you say it will then it shouldn't be a problem and I'll happily support it	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1ODH1VYlzN8fjis	I only oppose it if nothing changes with the cleanliness of Bart. Also, the new trains rarely ever go to Richmond, which is unfair. New trains only seem to go to the more wealthy areas like Antioch, Rock Ridge or Fremont. The brand new and cleaner trains must be experienced by all passengers as we are all paying the same fees. If we are taking different routes in an old dirty train then our fares must be lesser than those individuals in the brand new train.	X	
R_2SlwAwH41xX6MEu	I only support it because I hope I won't be taking bart everyday by then	X	
R_2rTn9ABUIM5QGtr	I realize the improvements are needed and the money needs to come from somewhere. I just wonder, since these improvements have a region-wide benefit, if the increase shouldn't be in the sales tax rather than the individual fares.		
R_39q10i9xpKK5y05	I somewhat support because I understand that bart needs the funds to be able to continuously provide their services.	X	
R_p5wJOEvuFf3MMU1	I somewhat support this because it is easy to make this sound good, but I don't see any details. A link to the actual increase bill would help	X	
R_3DhX9m7zROHCQcI	I support Bart being updated and to the newest it can be, and I understand the necessary factor of fare hikes, but for long periods of time will discourage people from using the more expensive BART system.	X	
R_25QRMM32GUKfYdf	I support because I understand Bart needs the revenue to support the increased service they are providing but would also like to mention that most people ride Bart because they can't afford to drive so please keep low-income folks in mind when proposing such fare changes.	X	X
R_1DFQ1uiRbCOITKE	I support extending Bart's current fare increase but I also believe that there are people who can not afford the increase rates and believe there should be a program in place for people who would need to use Bart but get some support or get a discounted rate.	X	
R_2EzrEbKi0UWjSFu	I support funding the transit system I use, but I hope the funds go toward system improvements and not for lining the pockets of bureaucrats		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_237VTkjzAThfZiH	I support it if it means my rides will be more enjoyable. But do not support it if it means low income residents will have a harder time affording BART.		
R_2axbDCJzq27SUnY	I support it if the increases are for a limited time and go to specific projects to improve the existing BART system.		
R_1Qt6EGeTwDOzPLv	I support since I know BART needs the money, and that it's less than inflation. But the fare should really only be for people who can afford it, and we should not crack down on fare evasion.		
R_3JJJuHHWWkZ2zp	I support the fair increase as long as it goes to capital needs and not increasing BART union wages		
R_2wsg09p7iadBFBk	I support the fare increase because it is probably needed, but hope there is a transparency and accountability and how the funds are used. I have been a BART rider since 1990, but I still feel resentment towards BART because of the rude employees at the stations, the lack of security at the stations, and what appears to be sloppy management over the years.	Unknown	
R_PHBMX53eLNg3plv	I support the increase but Bart needs to be more efficient with its budget. Higher one time cost but lower monthly passes	X	
R_23Ukxo9PQZmbVDG	I support the reasoning of increasing fares to make money for improvements, but would be concerned if fares increased significantly.		
R_3Dd1e6cqGAyRnF1	I support to increase a fare, but do not support to increase 5.4%.	X	X
R_1FstAFXx3JEv]kE	I think 2% or 3% is more reasonable.		
R_1Io36yirPNL9TPw	I think every 2 years is too often considering how expensive bart is already and how little it improves	X	
R_3Lbcq3EkzIDdOq	I think every two years is doable.	Unknown	Unknown
R_3VqR3GYdtfAE5Xz	I think fares need to go up in line with reasonable costs.		
R_YawechvgiGvrOaR	I think improvements need to be made, but I think all other avenues of improvement should also be looked at.		
R_R5g5feoL6UdwSfn	I think it is a good plan on a general level, but extending it past 3-4 more years would honestly be a money-grab and nothing else.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_wM3znRI8UBxDgc1	I think it is good to increase the fare if SF/Bay Area income and COL are increasing but there should low-income options that prevent BART from being cost-prohibitive.	X	
R_9ssliqEP15Drp5f	I think it's necessary to increase the program, but I feel like this further divides the people who would be riding bart as well. I think the surrounding area's current population will become less accommodating to the people who are habitant of the areas at the moment	X	
R_2EF8tYi8u6j6Nj8	I think there are other issues that also need to be address. You should increase BART Police so we can feel safe on trains, also the cleanliness is terrible.	X	
R_3DkH1bpVuX5VjjF	I think this is fine given the basic status quo reality of state and federal policy and funding streams, but there needs to be serious study and planning aimed at a long-term goal of making all transit completely fare-free.		
R_1daA1zss94rMN3I	I understand costs go up but wish there was a better way to address this than increasing cost to people.	X	
R_2ZE2iV2EEFQbTjy	I understand needing funds to improve the current system so the proposal seems logical.	X	
R_svPOND6DtPv8igF	I understand that everything we purchase is increasing in price so I expect Bart to raise their prices too and I think the less-than-inflation increase every two years is a fair one.	X	
R_2S0Ped2AaExkiiL	I understand the need for increased fares and funds for infrastructure, but worry that those least able to afford it are most impacted by increases.	X	
R_1fcNW1LV5LBFzj8	I understand the need for revenue to maintain and better the system		
R_1lcOzUi2FhRJU6J	I understand the need to raise fares but I wish those came with other discount options for frequent riders.	X	
16th9	I want BART to keep running		
PB2	I want BART to provide better service so I don't mind paying a little extra. Please keep it clean & tidy and timely	X	
R_1QKM4wvUNmloYEj	I will only support the program if night and weekend service is increased.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_12lFBsJmJhhxMTd	I wish some of the revenue generated would also fund measures to reduce fare evasion, like new gates.		
R_UgehAsrIcQrU6Vb	I wish there were better ways to raise capital without making the riders pay more, but systems improvements are important.	X	
R_1luHHtoRV7TnhPh	I work for the City and County of San Francisco and I will not get a 3.9 % raise increase each year. But again, I understand BART is an expensive system to run. However - the NY City Subway system is far cheaper and is much more extensive.		
R_WczSJBuTH4Umnip	I would be happy to support if in fact the proposed increases are put in place; also we need more security on the trains, and get those cameras working, plus removing the homeless that sleep on these trains. The trains are disgusting and I've witnessed people eating and tossing their trash on the ground and people urinating in between the trains as well as smoking pot.	X	
R_plX3V6g5dnnypn	I would generally support this as long as promises are kept. Don't raise far prices and give back the same level of performance or take 5 years to bring out new train cars. Keep the stations and the trains clean.		
R_3Dp6rJ6ifsvhYt4	I would more strongly support with a more holistic funding model for all transport internalizing carbon costs and congestion pricing to support broader system investments and expansions.		
R_2co2dTlckGTkSJ	I would need more information	X	
R_22xps77QYI8uetP	I would ONLY SUPPORT this increase in fare for the safety reasons such as improvements and new train control system, and convenience of frequent service as I use BART for commuting to work and for leisure, But I would also only support if along with this the fare increases every 3 years, to allow for people to have more time to invest in BART commuting. I also understand that there needs to be a compromise between updating and improving equipment for BART and raising the fare.	X	
R_3R2ZTbt0P0DZU3a	I would rather have small regular increases than unexpected		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1Cw39K mz dLl9ait	I would support if there is a plan to address current hygiene and reliability issues on current routes. I already voted for the transit tax and toll increase to fund BART but have yet to see any increase in service.		
R_2zl0Xt1lDkYPlxu	I would support if we see improvements on BART. For example, more trains!	X	
R_2altrN8FQFaRNx4	I would support it as long as i know that the inflation is going back into improving and making Bart better as a whole	X	X
FV2	I would support it because fare inspectors are needed at every station		X
R_u98tiRJTdFGHdfX	I would support it if it included an integrated fare system with better transfer discounts to local buses, Caltrain, etc. Bart is too expensive for people who also need to take a bus as part of a trip.		
R_3kv5kRJa03NFIHx	I would support it if solutions are created for fare evaders.	X	
R_2dGzr007s4e4rHc	I would support it if there were more trains made available to deal with commute congestion.		
R_6WJGiQXl0Ym6JDb	i would support it more if bart wasn't run so inefficiently. bart needs more funding but it also needs to be run better.	X	
R_3IcNOVqgl9kMKfu	I would support only if the issue raised in the previous question is addressed. How will BART ensure fare equity so that does with lower incomes are able to use the service without having to pay so much compared to their income?	X	
R_3p9jWGoOcLxunj	I would support the increase as long as there are measurable improvements.		
R_2YwYP2VaDgWWIcn	I would support the increase if other parts of bart were also updated (trains, Bart stations, etc)	X	X
R_1py6UQlP8Jm15Hu	I would support these increases as long as I see an improvement in service.	X	X
R_2345jzE2i47wNWo	I would support this if it helps Bart to expand and connect more cities like Santa Clara, San Jose.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3ffXsqEdWo237kG	I would support this program, as I think it is small and gradual enough to not deter too many BART riders from switching to rideshare alternatives. If our infrastructure needs better funding to remain cheap, accessible, and operational in the future, I'm all for it. I hesitate to strong support it because I do think there are misappropriation of funds within BART that does not necessitate fare increases.	X	
R_3I65pQRMtxhj5lP	I'd like to see published metrics that will prove that the increased revenue has improved operations, so that I can support this with my colleagues	X	
R_1FQVyiWNsp2mLyA	I'd love to get BART faster and less crowded. So that's probably gonna take money.		
R_20GrlpqeR04gygx	If it means cleaner cars and keeps them running I'm all for it.	X	
R_1Dx1jWdNhOKkkgM	If no other fare increases would be imposed on fare paying riders.		
R_1DvPTSUUonqYo6U	If the fare needs to be increased, but bart should be new car, not the old car. Other then that, security/ safety also needs to increase too. Many commuitters dont like bart because safety issue, so if bart can not improve safety issue, I dont think people will agree to increase fare price.	X	
R_1lyFLVTOTkQ250u	If the money is actually used to fund new trains and more frequent service, I support the increased fares.	X	
R_2pWWOwMxLR1070F	If they increase fares, i hope we can have better services because right now we dont feel it.	X	X
R_2QnboxWejMGDHFfi	I'm interested in seeing cleaner, newer cars, smoother rides and quieter trains, so if that means a fare increase, I will support it.	X	
R_1F8f7afrDWkUoTL	I'm not excited about the price increases, but I'd be afraid of a policy with ABOVE inflation increases, so if this is a compromise I guess I can live with it.		
R_2SCFiBFoDbgaots	I'm somewhat in favor. But, how about we stop paying those d*mn pensions? That is where all the money is going.	X	
R_332Lcv2bu09usFC	Improvements must be made, however the improvements need to be swift and visible to the public paying for them.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_30f99wqW0cVpyvL	Increases are needed, but, again, you need to do a MUCH better job tackling fare evasion. Patrons get really angry being asked to continually pay more for BART--through fares and tax hikes--yet seemingly nothing gets done about the thousands of people who don't pay.	X	
R_ebAAvB21tjwLkqt	Increases should be slightly above inflation rather than slightly below in my opinion.		
R_1DGyvOyQ1lC363G	Increasing the fare is ok provided BART increases the frequency of the trains. Specially for routes like Dublin and Fremont.	X	
R_1pnRoD1enVYdTxH	It could be have a chance on 3.9% for the people to increase	X	X
R_31LwYzNWxbQZOPL	It seems necessary.		
R_2zOc05nXhARIAvL	It sounds reasonable and expanded service would be great.		
R_2ANeciIqvZ1JTHw	It would be nice to have trains that are more frequent, especially towards the evening. I work tow latte shifts and it takes me so much longer to get home on those days. If this fare increase would make it more convent to get home I would support it completely	X	
16th7	It's difficult because I am all for Safety, but feel that the BART operators make crazy high salary + all their dependents ride free.	X	
R_31Awtk77L8sK67e	It's good to have the BART train and system updated. Comparing with the other subway systems in the other countries, BART's facility is out of date.	X	
R_WxhBtoT1ojwTmvv	It's important to support the maintenance of infrastructure. Also we don't want to run into issues like in New York where the maintenance builds up to the point of untenability.		
R_sNDdQwpacNsNo3L	It's reasonable on the surface, but the cost of everything ELSE in the Bay Area continues to increase as well with many jobs NOT meeting the cost of inflation and the loss of parking at many BART stations due to new housing developments.		
R_21ApvejZ0Q3McEH	It's reasonable.		
R_8ptqW5988rH1njz	Keep it under inflation rate & it seems reasonable		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_a03v5y0YVavMtXP	less than inflation increase means a continued redistribution from bart development into bart riders wallets		
R_3qgkmTjErwFAv6D	Like affordability but concerns about keeping pace with funding improvements		
R_12mpdafG2k1paJH	Lo apoyo hasta cierto punto porque reconozco que los costos con los que BART se enfrenta para proporcionar el servicio continúan subiendo. *I support it to a certain extent because I recognize that the costs BART faces to provide the service continue to rise.*	X	
R_339yQQadTHihF0z	Lo apoyo por que soy consciente de que no siempre tendremos la misma tarifa *I support it because I am aware we will not always have the same rate*	X	X
R_1F3quIcKR3CLFxn	Maintenance and improvements of the BART system is an ongoing concern which needs to be funded. As inflation increases, so does the cost of maintenance and improvements; as a result it's not unusual to expect an increase in fare. Obviously, if the increase in cost can be covered without increasing fare, that is more desirable.	X	
R_2chDQbWqEEP7fuh	More money for transit is good. Less than inflation increases seem like they would be insufficient in the long run without new funding from other sources.		
R_3qJsyABpXUYGzNt	More money should mean safer and cleaner trains		
R_2uL2f6BkaHWKuEh	Need new trains. In support as it is below inflation.	X	
BP3	Need strong governance to control costs.	X	
R_2YzVQIEBW48dOFz	New cars are needed and must be maintenances. Fare increases should NOT be used for BART employee salaries or pensions.		Unknown
R_pcLufNKoNi8K9K9	nobody is going to pay for our system unless we cough up the money so I guess we have to have these increases. I'd love to see BART become more modern and usually BART gives me good service and has exemplary customer service and staff.		X
R_YXk2q0dZty1rXEd	Obviously, no consumer likes to hear that prices will increase. However, I recognize the need to generate capital to maintain and improve services. With that being said, I would hope that BART will be completely transparent about the extra revenue raised and exactly what projects it goes towards.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2Xajv4x6NhAhM22	Once again make sure the stations are clean and as a passenger you feel safe.	X	X
R_28UFVU3Cna72ybk	Operating expenses keep increasing so fare increases are justifiable, but make sure fare evasion is curbed, or attempted to be curbed- many East Bay stations do such a poor job in enforcement that I'm sure nullifies extra revenue from any fare increase.  I would be upset if BART management doesn't really care about those people taking advantage of the system (the same people who normally cause the most noise and disruption to a safe and clean environment in the trains) and then penalizes everyday commuters instead with fare increases that don't reflect in their commuting environments.	X	
R_11bY79ePKfvMI3c	Overall I am a strong supporter of BART but there are increasing times when BART tries my patience with the lack of customer focus and basic maintenance. This can be an argument for increasing income but BART has to continually prove that it is putting the money to good use and being good stewards of our money.	X	
R_3FXQqMo5A9H6mfH	Please refer to my previous comments.	X	
R_3ls3GG5QrUJtKr2	Public transit is important. We need to invest more in it. If there isn't enough capital funding from government, then I guess we have to raise fares. It's unfortunate though because some riders are very much unable to afford any increase.		
R_2Bxt3CialiXXjXI	Raising fares is irritating, but BART does need upgrades to ensure safety so I support it.	X	X
R_2VmEcBdh9SvWivb	Rate increases should not exceed inflation		
R_2s6FemDtIPnvWzZ	Reasonable	X	X
R_2wjEHTHQFDgwmVA	Revenue increases are needed, but should be borne by drivers		
R_0iWdvCxtc8NWda1	Seems reasonable but should also be increase in assistance for low income, children, and seniors		
R_10Vg3Ttwcvc0fPuc	Seems reasonable. Prices go up for everything else every year. Why should BART be any different?		
R_1EcmfLYmiuOGPsz	senior citizen fares should remain the same	X	
R_yUqXC69gSUKOsfv	Small amounts are better then an amount I can't pay		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_9ERHLpF0jcuKpr	So there will be a better service if the system improves.	X	X
R_12x7HgWsInjbbI8	Somewhat support due to consistently dirty and old trains. We need all trains replaced with the new trains.	Unknown	Unknown
R_1It3rtSDkZ2jLBk	sounds good		
R_3kdB3Np1ASYJln	Support as long as use of funds managed well	X	
R_1jsafbGkV5SDo9	Support because I believe that without BART, my commute would be much more difficult. Only somewhat because I think people making above the median income for the Bay Area should have higher taxes to support BART.		
R_1rqOuO2FgeDZ9xf	Support in favor of obtaining improvements, but also want verifiable results. Past issues of misallocated funds has me somewhat oppose too.	X	
R_2CZI4fxHqC5IT5e	Support only if there is a low income discount program first		
R_2DZhdCIjKzZNne	Support with a detailed plan of how the increased revenue should be spent.		
R_03ZUsFbF6fCpA0p	That is a lot of planned increases, supporting the same priorities as before. If progress doesn't show, support for continual increases will go away. Bart rides are not cheap to begin with.		
R_siMdif6s9RGUOxr	The amount of increase sounds reasonable, and I fully support funding system improvements!	X	
R_22nzZEnIn4HnSDg	The BART needs upgrades, when you compare the state of our transport compared to other major cities (like the Tube in London) it is appalling how far behind we are in maintaining and improving the infrastructure. That is why I support increases but I do worry about increases reducing ridership.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3PAInTvRYcpt4VJ	The better way to improve the financing of BART is to enforce the existing rules: No eating - No drinking - No smoking - No loud music -- All subject to fine as posted. Instead of spending money on better fare gates and fare compliance people, hire police or others to cite violators and extract fines. The violations will diminish, the need to spend payroll dollars on janitors will decrease, the cars will be cleaner, and BART will have less expense, plus the fine revenue. Why is no one else promoting this obvious opportunity?		Unknown
R_3IQNKQmTzLvIQeQ	The entire system needs upgrades. I doubt fare increases are the most essential form of revenue to pay for this, but I do understand that every bit helps.		
R_x3N2jH3Wpt3Bx4Z	The money gathered should also fund for safer trains: more police presence, for example.	X	
R_vJivxoHJCgveElH	The planned improvements will help transport more people, safely and regularly. That I fully support.  Bart and AC transit, Cal train and the ferry service are all incredible because you can live anywhere in the bay area, and work anywhere else. It's inspiring to commute daily to SF alongside the masses from all over the bay: families, parents, immigrants, aspiring students, etc..  I know it makes economic sense to charge those with the longer commutes more. Most folks move further out to save money, and a larger commute bill somewhat negates those savings. Very minimally, but still every penny can count. I wish there were feasible monthly passes that offered some savings for the regular commuters who could avail of them.		
PB1	The trains are old & could use updating.	X	Unknown
16th6	There have been a lot of increases and expensive measures. When does it stop?		
R_5hbMjfyzjxhwps5	There have been increases for years and service is still constantly interrupted and the trains don't work. Why and how would these additional changes make any difference?	Unknown	Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2S3uCX7gAnrH3Ff	These improvements are necessary to keep pace with increased ridership, and the cost of system failures would probably be higher than the cost of upgrades.	X	
R_2D1agGBeo9gCttS	This increase seems fine. But more should be done to increase efficiency so that some of this money can go to non-capital expenditures, like more frequent cleaning of the rail cars and stations.		
R_3fv3zpZKW3gD5P2	This plan seems fair, but I wonder if "at-inflation" increases are better. BART needs the new rail cars and system improvements to be a sustainable public transit system.		
R_plMvpu8VDaA4Vup	We need as many new trains as possible. These old ones decrease ridership by virtue of continuing the image of Bart as an old decrepit and disgusting transit system.		
R_exkioBLkUYNlayl	We need Bart to operate steadily	X	
R_BQ7AGVFGr8e0mXv	We need more frequent and larger trains		
R_1CJk0KwStmLGD5Q	We need upgrades and an inflationary increase is reasonable.		
R_2VqAOWZ9qkm4QYm	well almost everything goes up every year..	X	
R_1jKgyMcOhW8T8gs	When does it become viable to prevent fare evasion instead of raising fares?		
R_2dQLpzAhBUfyffs	When I'm standing on a train from decades ago with no air circulation and the homeless person in the corner hasn't showered in a month it's hard to fully support paying more for that experience 5 times a week.		
R_xbyiXQLxT3empgd	While I can agree fares need to be raised, 2% seems to be enough		
R_u4wDIUFNusE8ZI5	Would like to see some of taxes kicked in to help as well.	X	
R_2v07ow0pB0Mqt09	Would love to have BART and Caltrain also work together so that passengers are not faced with the problem where the BART train leaves just as they get off Caltrain and visa-versa	X	
R_3scz8MVq3vZGOxx	Y'all need money. Probably more than this. This doesn't seem like the best way to get it, but it is a way.	X	
R_1lIVbH05RQoxwW3	Yes things are expensive to run, you need the correct personnel, working trains and safe infrastructure		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_21bICHtGczSK77	You've been raising fares forever for the same reasons and we still don't have all the old trains replaced. Maybe also look at your operations and how you can be more cost effective?	X	
R_2bMZTjkNmekEU7i	每年生活指數上漲。最低工資一路一路加上去所以都可以合理 *The annual life index rises. The minimum wage also rises so this may be reasonable.*	X	X
R_1eQgov4i3zcn8tB	Again I'm concerned about the low income riders. I'll gladly accept the increase, but I don't think a blanket increase will help.	X	
R_334nRRtlWkwl80S	All of these ideas sound great on paper and are a step in the right direction. I do think there are current issues that are overlooked and need to be addressed though. Examples: safety, keeping the trains cleaner and overcrowded trains.		
R_YYo0j1I9O6QreXT	Are the increase in revenue really going to the right places or will it be taken up by the inefficient of the deficits	X	X
R_2fHfam1bh1ypWQG	As I'm writing this a homeless man who reeks of urine just asked me for money. I'm commuting on my way to work. Clearly, he has not paid. You're charging honest people so that criminals can use your services for free and the rest of us subsidize them. Get some law enforcement on your trains and in your stations. Generate revenue through ticketing and enforcement of BART policies.		
R_3NKwM5qY8SxeEVi	As long as plans are implemented to make sure everyone is paying the rates, I'm fine with the increase. People keep jumping over the gates or going through the emergency only gate as a way to not pay. Bart agents see this and don't do anything. That's not okay.	X	X
R_3HUHNc9FGhE8NCe	As long as the increased fares go to improving Bart, getting more modern trains, I am ok with a slight increase.	X	
R_vDCWqYkGKX9x6nf	As mentioned earlier, I oppose any fare increases until fare evasion has been eliminated. However, once fare evasion has been eliminated, I would support fare increases that are less-than-inflation every two years.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_siEIWEjwPIHi4Jb	Bart needs newer trains and more people cleaning them in between peak hours	X	
R_1QtnDLjmrghPB9Q	BART needs to fix the system		
R_3HBwDn0e2895pze	Build floor to ceiling turnstiles so BART can capture the fare evader revenue!!		
R_s4KBh1qTRXbH6PT	Equipment must be included in the budget every year. There should never be a need for massive upgrade that are unplanned.		
R_30laA8Y0Z8D6pNP	Fare increases need to support more than capital improvements. Union contracts will expire and BART payroll needs to keep up with inflation. BART has generally caved during strikes. Unions have gotten most of the raises they demanded.	Unknown	X
R_1i9ZkkrzqTjYpMd	For me personally it depends on my cost of living. I try to always take public transit so that I don't contribute to more carbon footprints. I do sometimes wish our city offered some free public transit like Long Beach, CA for instance or DC.	X	X
R_1D0lbVA07WjzGhH	I agree with the general idea of fare increases... but BART is already very expensive, especially considering the low quality of service... long waits between trains, frequent delays.		
R_1kZD4M059AeNZ59	I am not a strong supporter of new rails cars and expanded service. I think new rail cars will become dirty very soon because of the riders. Before considering expanded service please try to maintain current service and try to run trains as scheduled in existing lines.	Unknown	
R_cCTrZG0shbmYR4R	I am okay to pay for this small amount of increase if the payments are really go to cars and system improvements.	X	X
R_2WSUoERwmr33ko0	I don't like paying more, but understand the need for funding improvements.	X	
R_2z6D9dXGpMGHMqv	I don't trust Bart executives to apply this money only to Bart improvements. This scheduled 15.6% rate increase over the next decade would need to be dedicated to system improvements and not salary or bonuses for top management. An independent oversight committee would be absolutely necessary to review spending and have the power to revoke the fare increase.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3QE7ddzMvcWhKhW	I guess in order to decide if I support I'd oppose this, I'd have to see what's the other options proposed.	X	
R_20YAuJ401NtbPqI	I support a good infrastructure but not at my expense when people are evading fare, you're losing millions of dollar a year because of it and then wanting people like to foot the bill.		
R_2v1W1dFHeOMLvbA	I think a lot depends when the full fleet of Fleet of the Future trains comes out. I am really excited to see the system when all trains are 10 cars long and running closer together when you update your automation system. But there will come a point when trains are just too crowded to WANT to take BART any longer.		
16th3	I think they need more police on train for the homeless	X	X
R_27g6eK34jVUj07Z	i understand that transit is expensive and costs for everything are increasing, but if the goal is to increase and encourage bart ridership it hardly seems like a good idea to make the fares so expensive that people have trouble affording them.		
R_3MEGjBc3a6GqhwY	I would neither support or oppose the program. Bart should be fully accessible to everyone.	X	
R_1hycZDzwEmAORsD	I would only support it if there's an increase in total capacity regardless of old or new cars. I'm tired of being smashed while standing on a train for 45 minutes every day.		
R_pAuuRWuSgBwypjj	I'm kinda in the middle	X	
R_yUbEPkdJc7tZGKd	I'd be fine with it if I didn't witness multiple people jumping fate gates EVERY SINGLE Time I'm in a station.		
R_1g0IApHyIWfkNRQ	I'd like the rate to be determined every two years, not in advance, to account for a slow or strong economy.	X	
R_11AmTd03KIsPm45	If you are neutral, you are taking the side of the oppressor	Unknown	
BP4	Im a senior citizen so problem. But if it would help to stop homeless on pan handlers would be fine.	X	Unknown
R_1pnHvFcZrJwab7h	Im neutral about increasing fairs but Clean ness is more important, especially seats inside cars should be clean at least once in a week	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2ydQ8vBBVEUV2U6	I'm neutral because I'm not entirely confident this will be done on time. BART, unfortunately, is synonymous with delays regarding both capital projects and train arrivals.		
R_1locVe4JMjhzYsX	It doesn't matter if we have a better control system, if people don't want to ride BART. Make it safe and appealing first and you will have enough riders.		
R_2Yn41OseCpzCXa3	Mixed reviews on this, but as long as it goes towards priorities (security, infrastructure), it is ok	X	
R_OOLntx]csPA7juF	Need more details on how the fund would be used and how much is being allocated to improving	X	Unknown
R_3h3Hla2tSpn3ZEp	Not support unless something changes, cleaner trains, stations and monitor cars		Unknown
R_2dtiKMc3fM0OIQL	Personally I can afford it, but I'm sure lots of others that depend on BART can not		
R_2uCihIEUTqxTWSN	Seems like a good idea. Don't have enough details.		X
R_3sGi1lLWT87GC3L	System needs fixing so if increases help with maintenance on the system I'm all for it.	X	
R_p4W9rouJwfGdAoF	The Bay area has extreme income inequality and Bart is really expensive already especially for lower income riders.  Further, Bart has already raised funds through various ballot measures and will presumably continue to do so every 2-4 years going forward.	X	
R_2D6uT7IwGNlrbQi	The poor cannot afford increases	X	
R_1GCVC5r59dpl2EZ	The revenue should also go to other areas as mentioned in my previous answer. I strongly oppose to an increase every two years, it should be every 4 years!	X	X
R_Tozaa89v8WwC09z	These fare increases should be contingent on improved service. If the service improves, I support a fare increase. If the service does not improve, I do not support a fare increase.		
R_yt1EZGa0JIX6zYd	To fully support BART's fare increases I would need to see improvements in service. The new train rollout is behind schedule. The trains are over crowded and don't run often enough. BART doesn't seem willing to build a work-class system that actually links the Bay Area via innovative transportation solutions and partnering with other transportation agencies.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1F2NTQ4eTJOxl9G	Well, it's less than inflation!	Unknown	Unknown
R_8el3qs8NuSsxRDz	What happened to the bond money?		X
R_vCsfXYAMhtkkGD7	While I appreciate that it is below inflation, I've only seen 1 new train. Escalators are constantly out of order. I've had days where I've been 30 minutes late to work because there have been no trains in the morning but there haven't been any announcements on why there are 4 missing trains. And yet the fares keep increasing with Bart not getting any better. So it is hard to support a fare increase when the system hasn't gotten any better with previous fare increases.	X	
R_Z3GY6EiGVDbj0Vr	Why does BART not set aside funds to replace infrastructure.	X	
R_w0IY2Oqdg6HCNKV	a huge burden for commuter working within different cities, especially for low income users.	X	
R_2TN2HqYuANdAr3u	A Public transit should be more affordable in order to encourage the riders not to drive and reduce the air pollution.	Unknown	Unknown
16th11	Again its not about the \$, \$, but where the \$ is allocated.		
R_1jTwfPos9uDvUxV	Again. I know money is needed but until the skipping fare and homeless situation is taken care if I don't think it is fair to keep paying more.	X	
R_yCTjjodgPuYxtpD	Although I understand the need for increase to improve Bart, I hope that it doesn't increase too much. If it costs more for Bart than parking in San Francisco, I'll drive rather than take Bart.		
R_s6AABADkU3K4enT	As a frequent BART rider, any increase in transportation spending will impact my take-home income to support my family.	X	
R_1ezs4wMfB6tNefl	As a student, these fares are already pretty expensive to me, so the cheaper the better.	X	
R_xtJIRk06bvj5Ysx	As I mentioned in my previous post, the cost of living in the Bay Area is ever-increasing. So much so that some populations are being left behind. Those with proven low-income concerns should be given some type of leniency.		
R_2pW9nTUAFTIMbSy	As in the previous reply, it is already very expensive (especially for commuting longer distances). Also, it would be nice to enforce the fare gates more strictly to increase revenue.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_sbVy5rkABQGUXwl	As mentioned, riding BART is not clean. So to pay more to sit next to urine is really hard	X	
R_1g10lsHGw3JMScr	At this time I do not know enough about how BART budgets are spent	X	Unknown
R_OqbC0ASQbfVzQxX	Automatic price increases reduce the incentive to control costs.	X	Unknown
R_332qJrJb3SoSloR	Bart already costs more than in other cities and countries while lacking their sophistication of service. I lack confidence that increased fares will equal better services.		
R_2QDwvcbeHXz3N7n	Bart always increases fare but the riders don't see any of the benefits. As a life long native Bay Area resident, it seems that Bart quality standards have remained somewhat stagnant	X	
R_3lxIONfX5IRQenO	BART clearly is not prepared for the amount of riders at this point. I dont know if there is any other solution to this problem. We obviously need to new cars and upgrades, but I just dont understand why we have a system that is so flawed? Bart is already too expense, it's at capacity (beyond capacity, if i get a seat in the morning, it's a miracle) and have to wonder where all the funds have been going over the years. Is there any other subway system in the world this expensive?	X	
R_28B6BifDEHnImbu	BART fares are already fairly expensive and confusing. This would hurt those many lower-income people and those who are burdened with high housing costs.	X	
R_3gNI8rSG4DOGzn8	BART Fares are already high and should not rise so steeply. I think fares shouldn't go up more than 2% each year.		Unknown
R_25tLlKEmKKzSuGh	BART fares are as expensive enough and they have been increasing too fast.	X	Unknown
R_9zstHW9Bp5zg9yN	Bart is already expensive as it is. The new york subway system is far more advanced and has a flat rate.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3M4oacCFBftnYkb	BART is already incredibly expensive. I would much rather see this money come from the cities, counties, state, or federal government. Another good alternative would be cutting the number or pay of BART police (fun fact: mandatory overtime is not a good use of money)		
R_0e64iEjNiExg0V3	Bart is already more expensive than some people can afford	X	Unknown
R_DMMkDBJt03RiFk5	BART is already quite expensive for long trips. Chicago's CTA system offers a \$2.50 fare for an approximately 25 mile ride from 95th/Dan Ryan to Linden. A roughly comparable trip from 19th St/Oakland to Millbrae is more than double that price. Increasing prices will only encourage more rideshare trips, which are worse for congestion and the environment.  New trains and better service is a priority, but there must be a way to raise capital without burdening riders with even higher fares.		
R_3efufZ3G40sVuKJ	BART is already very expensive.	Unknown	Unknown
R_w7AKRjbinFDq8kF	BART is already very expensive. BART should decrease fares to incentivise use of public transportation.	X	
R_VKyZtfs2AApsAaR	BART is already very expensive. I am not confident that money from continued fare increases will be managed and spent responsibly.		
R_3oyWwwwx8MhKmVjR	BART is an incompetent organization and more money won't solve the problems of poor leadership and mismanagement		
R_qC1oFFfibpDOAF	BART is super expensive enough as it is for me.		X
R_2qCrWgBmDNKhqbs	Bart is terribly mismanaged and already significantly more expensive than other public transit options in comparable cities	Unknown	Unknown
R_3MA1trMUv113NdN	Bart is too expensive, and it is frustrating seeing bart increase in price but not really get any better.	X	X
R_2Bhxx0FbKtvnEXE	BART needs to offer true discounts for frequent users, like a monthly pass. Don't say it cannot be done when Japan, Europe and other places do it.	X	
R_Td2Xiyrh1Lxv21z	Bart services should improve like to extend services hours.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3RszpsEX1tng5hu	Because some are the somewhat oppose are estimating 3.9%	X	X
R_2bKnaIrm9rdgWj	Broaden the base of payers. Not just riders benefit from the thousands of cars taken off the road by Bart		
R_2ZWgbK55LTKPmwa	Continued increases will eventually limit the accessibility to members of our society who are already struggling, given the cost of living in this area.	X	
R_26o16Dng2EUEkIs	cost should not be put on customers	X	X
R_w7w401uOYgOYpQB	Do not agree with the long term increases, extended over multiple years as riding would become very expensive compared to transportation competitors. The increases should be reallocated considering improvement progress	X	
R_aaBGuBHiVbeJiMx	El costo de vida es muy caro. No puedo pagar estos aumentos. Limitaría el uso del Bart considerablemente *The cost of living is very expensive. I can not pay for these increases. It would limit my BART use considerably.*	X	X
R_3hb6tLgndX7vQRI	Every two year is too much for customers.	X	
R_3F4Nkiuuz36JKDN	Everything in the Bay Area is already too expensive		
R_3ERN9xD7LEPbALs	Fare evasion is out of controls. Additionally as an East Bay homeowner I am paying two taxes each year for BART.		
R_1P6v8uqh7VcJPU0	Fare increases are needed, but stopping fare evaders seems more lucrative.		
R_21511uo0PDULcqK	Fares are too high already.		X
R_1LheLvFe4flh3c0	Fares can only increase so much to a point where riders will just refuse to take BART. Soon a ride from Antioch to Montgomery will be \$20. That's just too much!	X	
R_2YwYpd8S7U5Ba7y	Fares keep going up while the cleanliness safety and reliability declines		
R_2TvhYad1NQdropK	For me is already expensive commute every day from Hayward to Embarcadero and sometimes I don't get a sit, in summer is the worse with all the "funny smells" from some other passengers. So I think it's a great idea to upgrade the BART but I my final answer will depend on my ticket increase. Last time it was \$0.05 ctvs I think. That's okay.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1jixiGSWemLXB2t	Funding needs to be obtained elsewhere, and more equitably. We need to subsidize transit like we subsidize freeways		
R_56ZNYw3VHAXINb	Homeless and unsafe conditions need resolving before increasing fares		
R_UJxRFakzEwZDKr7	I am not getting these kinds of increases in my own paycheck		Unknown
R_0enq272CB7XONO1	I don't know why BART needs more money.		
R_3P4ARTIPYw643tP	I don't really care `\_ (?)\_ /`	X	
R_2aFbJm3im5YP5Qw	I don't think as a passenger - we are getting any extra service for rate hikes.	X	
R_XIj6rJeqWkpIKLn	I oppose because there should be less frequent increases.		
R_29oa999BfEwHIKM	I oppose this because so far BART has done very little to help accommodate those who are in a lower SES. Although these fares appear minor and insignificant to those with a disposable income, it could greatly affect those who rely on public transportation and have very limited disposable income.	X	X
R_3g1kWFUf4CDscA	I oppose, but know you are going to raise fares anyway.	X	
R_1nPJ0njVNfskA5L	I think cost should be linked to wages not inflation. Consumer product prices do not determine people's ability to pay, but wages do.		
BP5	I wish BART would look to other ways to generating capital like Food sales and other tourist capital passes		X
R_uhbUH2NPd954Acp	I wish the money to help re-vamp Bart could come from other places than increasing rider's fare.		X
R_2fdR2UjFtIQxMxy	I would like to see an improvement in the current situation before funding newer trains	X	
R_2ScUwrtK9z7gc1q	I would like to see something tangible as a result of the fee increases and measure rr first. I ride the Pittsburgh bay point train to and gram at rush hour and I haven't seen much of a decrease in Crowding.i have been on a new train only once.		Unknown
R_1KiGvnWzdQpUtqZ	I would oppose as I'm not sure where the money is going and this is an effective way to improve infrastructure.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1dbDYRc010muppc	I would oppose the increase until BART shows me that it is worth it overall.	X	X
R_3q4KyTtlzqsNl3r	I would prefer to see infrastructure upgrades to address security and fare evasion. You are losing lots of revenue to fare evaders, and security on the platforms and trains is sorely lacking.		
R_2qwRe12o0sJP5Od	I would somewhat oppose because in the past I do not feel like I have seen enough improvements to justify increases.	X	
R_2qeI0xB6uvvg5CSY	I would support increases if they really "provide more frequent service," but weren't the new cars (the ones we recently voted to tax ourselves to pay for, \$3.5 billion in addition to sales tax we pay on everything) supposed to make that happen? We desperately need more service, because riding in a sardine can every day is a horrible experience.		
R_2nt0l6gp7dQjk7n	I would support the 3.9% increase every two years over the current 5.4%		
R_3MhyB1EWeB8pkbx	I'd want to know if that rate set was enough/too much. While the administrative burden of setting the rate may outweigh this, has there been discussion about adjusting the rate each time rather than the flat one?		
R_1q8oOERZTKXTkz	I've been choosing Bart instead of muni because of the cheaper cost within sf	X	X
R_0c9RKbLh0pS4CWt	If I can't see any improvement of the service, I will be strongly opposed.	Unknown	Unknown
R_BLZwWpUIxlu2jaV	If it was less frequent (every 4 years) I may be more inclined to support it. Two years is too frequent - cost of living isn't increasing as quickly as your fare increases.	Unknown	Unknown
R_3IXigcySLsJLJtm	Im tired of having to pay more for things that we the people are taxed on already. Like can you try and suck us any drier?	X	
R_2alZo5XBuj7M5ly	Improvements already promised have not been kept. Please consider making improvements to the system prior to charging riders more for deteriorating service and infrastructure		
R_BKaWfZdlm2Py5Pj	Income are not increased every two years, so how could we afford the increase.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1NgeOi70tWRmu0v	Inflation does not reflect transportation costs, and does not reflect the total cost/benefit that are incurred and provided by BART	X	
R_1Cd73uKy058Dlpc	Instead of increasing the fare, if the services are improved, such as clean cars, clean bathrooms, clean stations, speed of train is increased, even if it saves 10 minutes for a passenger, station agent is smiling and willing to help all these will increase the ridership, which will then increase the revenue.	X	
16th8	It is expensive for me to take BART two stops. I don't want to see an increase.		
R_u4CtQhycnabklr	It seems to me higher frequency operation and newer rolling stock is worth above-inflation price increases		
R_BDHVDTd32pVH10F	It would depend. What happens if recession? Would prices go down? Support would increase if yes.	X	
R_aeH4TPLRdEE7Lvr	It's already expensive and is a bit too much for the quality of the cars	X	
R_3QGLmujilyeYfC7	It's expected, but getting too expensive to compete with driving option for many commuters. Cash-only machines & filthy facilities don't help your case either.	X	Unknown
R_2AF6zrxg2xw66L0	Like I mentioned, Bart benefits everyone, riders and people who don't use the system. Everyone benefits from cleaner air and better connectivity. EVERYONE should be paying to invest in the system, not just riders. I'd rather that these funds be raised through local taxes.	X	
R_OerpSBT3doEI2Hf	Make the increases slightly more and get the desperately needed fix in place - don't slow play upgrades, get the money and fast track them!		
R_1q4zDLfmuGZ4ECg	Many people don't ever see improvements towards Bart. There are still a problem with the homeless and the seats are never cleaned. People including me avoid using Bart as much as we can and unfortunately this is my only option of transportation.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_pK4Rky971uv7Qwp	More transparency as to what funds prior increases have gone to and how that money has been spent especially since bart cars are dirtier and crowded.	Unknown	Unknown
R_A4LU0QytkIBsaIx	My Bart experience is getting worse, not better over time. Why should I be paying more for a degrading experience? The new trains were supposed to improve things but that rollout has been glacially slow.		
R_1LTFqwoNGb4TAUN	My salary doesn't go up that fast		
R_3h5fQUT8Ulu2ZS7	Need better accountability and specific details of planned spending before setting forth a plan for increasing fares. "Help fund new rail cars and system improvements" is vague.	Unknown	Unknown
R_ykCzspZj0jRNAEV	No one likes price increase. Instead of increasing prices you should first focus on people who jump the gates and ride without paying for tickets.	Unknown	Unknown
R_3g5gWsexXn0QM1K	Oppose because each time there's a fare increase I don't see the improvements - homeless passengers and unsafe situations inside the trains. I also have experienced very rude Station Agents who are not helpful and have attitudes of "entitlement"	X	
R_1nUwaa6xYd6tmea	Oppose, because as a rider, Bart is already decent. My dissatisfaction comes from overabundance of people causing police activity and from riders not taking their bags off and not making space for others	X	
R_UmCMobjc8jZ5ol	Please see my previous comment. I'm not convinced BART hasn't squandered funds.		
R_Q6wspGgN2Pxgg81	Please tax the billion dollar tech companies instead. We can oppose all we want but what choice do some of us have? We must use the train, it's not really optional.	X	
R_2dGyOrw3Z5y7Fw5	prosecute those people who ride BART without paying fares instead of raising costs for paying customers	X	
R_aXmnrbsls3jndrb	See first comment		
R_3EzrW1e1nFQftkQ	See previous comment! It's absolutely absurd that these costs are being shifted to the public when there's so much money being hoarded by tech companies that, again, belongs in public coffers		X
R_esoWT7f7TNjt0dP	See previous question	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1eQRsJzS5KGUga1	See the last one. Enforce till jumping. Put station agents to work. Cops that don't kill black kids would be good too.	X	
16th17	Talvez que la aumenten menos cantidad *Maybe if the increase was less*	X	
R_Y4X9hV9c7JcllTX	The \$3B bond measure was to pay for new rail cars and improvements, really need to get your story straight		
R_3GqyksCLLVnS2k3	The average worker does not receive a 3.9% cost of living increase yearly. I see more like 2 or 3% as being a better average		
R_2Si3BQPy0GG5yYo	The BART is supposed to be public transit. It's a cheaper and faster way to work. It seems reasonable. If the prices keep going up, why would that not stop me from investing on a car or so on?	X	X
R_238ioSACuC18V7X	The Bay Area is way too expensive. For people that rely on Bart as transportation, that "small" increase is a big stressor every pay check	X	X
R_1Eh5GNZgp7Ap0N9	The Bay Area public transit system is lagging behind other major US metropolitan areas. We need improvements to the system and fare increases may be a way to help with that. I would certainly prefer to see the money taken from the rich, but I don't think it is within BART's present abilities.		
R_31yJeldVwcC7Jif	the current fare increase can only be justified with an equal increase in customer satisfaction.	X	Unknown
R_BKVtVangnMIa8Fz	The equipment is dirty, the trains are dirty, and theres little to none security. Crazy homeless everywhere.		
R_3hovBl7WgHbPIOu	The fare for longer distances is already too high. It discourages ridership for the routes that need traffic alleviation the most. Across-the-board increases are not optimal.		
R_VWprPYqtCyGPuxz	The program should include more security and safety measures on bart; more frequent upkeep on the maintenance of the trains	X	
R_3stzER5DRX98QJb	The voters just passed Another Bond measure for BART so No thanks. In addition, you have not resolved the homeless riders issue as well as Clean and Safe transport.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2w4Ft7wSItYuXky	There has been this increase for a while now. For the same "system improvements" and yet have not seen much change besides the 1 new train I've rode on in the past 8 months	X	X
R_3h3CRWEv9z6oHl9	They used to market BART as an affordable option to get us off the road. It is cheaper to drive now.		
R_3DuW9WBspwcESVb	This will deter people away from BART, keeping in mind that BART only takes people somewhat close to their final destination. Connections with local agencies isn't that great to begin with.	X	
R_3Nx5JrbwBPCnbCB	Though i am in full support of expansion. The only reason i am a bit skeptical is with the expansion, its getting difficult to get a seat/stand in bart. Wish there were more train as well running, or starting trains from different stations/stops.	X	
R_dfZfcR0YlxFQosF	too many increases	X	
BP2	Unfair to commuters, but understandable for transportation improvement.		X
R_8jkik2Pyhjsv4f7	Useless if you do not keep out fare cheats.	X	
R_33eW99KFIqo3LcJ	Wages aren't going up for most of us. As a teacher my salary does not increase at the same rate as BART fare increases.	X	
16th1	WE SHOULD BE MAKIG BART CHEAPER FOR OUR COMMUNITY		
R_31ugqVl5ham4LcJ	What guarantees are there that service will improve? Your current solution to create more standing space in slimmer cars does not serve consumers who are Tired at end of day, travel far and have to stand in crowded trains.	X	
R_2Y9Ta8b8JC8MvPz	What happens to the funds that government has been budgeting for Bart maintenance or expansion? Bart has budget why the riders should pay?	X	
R_4Nur4M7MI287Lzz	What is the increase in money being used to improve BART? The carts still smell like pee, stations are dirty.		
R_01FbfgPqjWJYtDb	What would be done with the money? I would potentially be in favor if I knew service would increase, or stay open later(!!!).	X	
R_ZHV9qEYNm5xAwvf	What would happen if BART more stringently regulated fare cheats and evaders vs. taxing the honest M-F commuters?	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3FVuMST4uVmqwTP	While I can afford a fare increase, this will hurt lower income to lower middle class individuals the most, especially those who do not qualify for lower fares (see MTC pilot project). Please overhaul the fare system before considering a fare increase. Again, I do understand the need for more capital, but the fare system is fundamentally flawed and needs to be fixed before any increases occur.	X	
R_5hgTgF1cwK1r6MN	Would support if there are measurable improvements in service	Unknown	Unknown
R_3Ep7WWLJSBXT7ZK	每三年一次, *Once every three years,*	X	
R_2ZP56oDt3JGMqQ	辐度过高 *High amplitude*	X	
`	strongly oppose	X	
R_3RyeoUtEXaoWWxF	- [ ] Bart has been increasing prices over the years but the service remains the same. There are always delays and problems with equipments. This past weekend i missed work because the whole Bart system shut down. Yes, we have new trains but they dont make a difference in the commute. If prices are going to i crease then there should be more train service as in trains should be used more frequently ,and Bart should be open for a longer time. A lot of people would like to travel from SF to the East Bay past a certain time.	X	X
R_25REmGnrB5QZw4l	1. Antioch got an eBart after 40 years of paying for/taxed a full bart 2. Not enough PARKING for Antioch Bart that serves residents from Sacramento to Stockton, Brentwood, Oakley, Discovery Bay etc 3. eBart is not manned so toll fare evaders have a field day  Yet, all we hear from BART is about South BAY!	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_BXjK3KT00Roqcnf	5.4% increase is just too high for me, currently I'm paying round trip fare from Dublin/Pleasanton to 16th st in SF for \$12.70 with the new increase will be \$13.39 plus \$3.00 parking with a total of \$16.39 a day, it's just too expensive to commute by BART. My annual salary increase is about 3%, and BART wants 5.4% increase it's just unfair for us commuters to pay such high price to commute to work. With the high increase of BART fare I might have to carpool to work.	X	
R_1CJwUGVCwz5ANSb	A round trip to the city and back with parking cost more than 1 hour minimum wage (without tax deduction. Bart is one of the most expensive daily commute transportation system that I have taken all over the world. A lot of our tax money already goes into Bart improvement. I don't see how adding more stations will help with the fee. Maybe it's time to stop expanding and focus on finishing the current projects.	X	
R_3dEpV5zXlwXwifU	Again yall f**kers dont actually do anything with the money besides pay greedy ass employees. "Ooo we got new cars though" you have f**king 10, that's one train, come at me when you have replaced all the old ass trains. Escalators are broken all the time, trains are delayed, f**king employees gonna go on strike again, f**k you guys. Earn that raise b**ch.		
R_3R7PGGRF9fhzI4y	Again, each new fare increase puts more pressure on riders, and no discernable improvements have been implemented. The elevators at the most busy stations are still broken or out of service frequently, and security has gotten worse.	X	
R_1Kaa8scbzWeKswQ	Again, fare increases mean less accessibility, which means fewer riders able to pay, which means more fare evaders and then more increases for those who have no choice but to ride and pay to fund overbudgeted projects. There should be more government subsidies so that BART is more low cost, which means more riders.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_ApujL1WH9nPMIBH	Already passed several tax increases to support BART infrastructure improvements; instead of raising fares, BART management should focus on reducing the high rates of fare evasion which create millions of dollars in lost revenue every year		
R_10I6vxnpaCLuWut	Already too expensive and parking should be free. We are already paying way too much to ride	X	
R_ywQqjdCUBzfhyBr	an increase in ridership would create more revenue, rather than increasing fares	X	
R_2PCn0G3Zaul3L7D	Annual increases place less burden in the long run on riders. Provides incremental budget improvement for BART		
R_1ridANQpnp6gioe	Approved Bonds were supposed to fund new rail cars, etc.		
R_2zU9ld92u44vJWm	As explained previously, we would rather management sell more ads and explore other revenue options. We have no appetite for further price increases when we already provided an incredibly expensive financing package to BART a few years ago.	X	
R_1Q0zm1BfaaXLU6c	As I said, not fair to Contra Costa citizens by ignoring Contra Costa and pandering to South Bay. Get Brentwood extension and Antioch garage built before any more work is done on South Bay, then I'll support an increase. I vote no increases if it'll fund anything new for South Bay.	X	
R_1r37J7IhVym7Hu2	As previously mentioned violators of the acceptable behavior code (the ones that are never enforced) would generate a large income. Also I notice the stations are pigsties. It seems the employee gets paid well, but the job does not get done. It becomes a waste of monies if the jobs aren't done.		X
R_22JNx CvByy1A1zh	As previously stated	Unknown	Unknown
R_Z3SVGxqqjt8FFux	As previously stated, I already pay nearly \$17 a day to ride BART. I don't feel that the funds are being used appropriately and wouldn't support an increase until such time that real improvements are being made.	Unknown	Unknown
R_33kG6u3D8h0h9sw	as previously stated, I think you're charging the wrong people with the burden of this expense. charge the wealthy rather than continue to drown and oppress the working class	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1HdkRVhjJohudEE	As soon as Bart gets an increase they will go on strike and ask for more money. Most people don't have money trees in their yard.	Unknown	Unknown
R_20NCea4MZfqQLy8	Bad service and lack of parking does not deserve more money.		
R_1eDa8mTUO4fadLO	Bart already has funds for new rail cars. It should attempt to recover funds lost due to late deliveries and not penalize riders. There are other sources of revenue that BART should tap, from the state or the federal government.	X	
R_8xoTf3Kr4n69ABz	BART cannot be trusted to actually improve anything with more money.	Unknown	Unknown
R_3kLNEijucT7UYdU	BART cannot improve its system on the backs of riders. Tax dollars have been flowing into BART's coffers for years, but somehow the organization struggles to bargain with the union and maintain an aging system? The fare box will not save BART from decades of poor management...	X	
R_2R3vYIK6jwUvzcZ	bart fare is already high enough. Not to mention it doesn't have any monthly pass. With the Wage Work program, it can only help out up to \$260 in commute fare and it's definitely not enough to cover bart fare if people live in far and work in San Francisco.	X	
R_2Yb9K3Eyy7XcTif	BART fare is already so high. I would oppose this program.	Unknown	
R_1hG5gW11iD0qJWe	BART fares are already way too high and prohibitively expensive for blue collar workers.	X	
R_5u20tME0Urwiz7j	Bart fares keep going up while maintenance and security goes down, this doesn't seem fair.	X	
R_1OWhvufH8GXbyTE	Bart if one of the most expensive mass transit systems in the USA. Why is that? Free rides are given to people who use the system for shelter. Whats up with that? And I have to pay more for this privilege.		
R_1lBi5pXqPcnZ6m	BART is a badly managed system. I hate throwing good money after bad.		
R_1JcbGAEexiiVjl	BART is a necessity to a lot of people living in the Bay Area and the current fares are high enough.	X	
R_3LZnMsKt0q2oVQa	BART is already expensive enough for the bad facilities and service you provide	X	Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_DIB0yNuWI8Yc4kp	BART is already expensive and almost as much as taking an Uber or Lyft. If the cost goes up, your ridership will decline further. This system needs to be subsidized by wealthy property owners and very high income earners.		
R_3MSYtRTRCkwgpdF	Bart is already expensive and it's dirty and not safe.	X	
R_6M96PDQMikzk76h	BART is already expensive!	X	
R_O3WTnZDviaoNrhv	Bart is already expensive. If you raise fare prices then at least make parking free.	X	
R_1FfWxOcyKm6C9Tb	BART is already expensive. Making it more expensive will drive more people to drive, leading to worse traffic congestion, more depreciation of roads/bridges and higher carbon emissions.	X	
R_3R478oU9nCrlezC	BART is already extremely expensive and the overall service isn't great to even justify the high cost. People want to feel that they are getting their moneys worth.	Unknown	
R_OJ9yaJNK0UG1gat	Bart is already too expensive.	X	
R_3q0lNHwTocw87zz	Bart is dirty dangerous it is not efficient it is a health hazard. Bart has BART police but they are never around the stations are filthy the trains are Filthy		
R_1hQBT4d58RjfgPS	Bart is expensive enough for those of us who commute every day. I will always be against fare increases as I see no improvements on my daily commute. I pay more, but I don't see the improvements. I see new cars (but have not ridden on one) that reduce the number seats and increase the standing room. I don't enjoy being packed like a sardine while trying to get to work.	X	
R_1m06V9ABwgGMCSJ	Bart is expensive enough without increasing fare for a mediocre subway ride.		
R_1nZvb1NjRKUNgCS	Bart is expensive enough, a price increase doesn't incentivize taking public transit rather than driving		X
R_2qwy6C6Wg7akJ2V	Bart is growing more inconvenient day by day. The new cars have very few seats and growing number of travelers make whole 1 hour journey standing. With the sudden breaks jerks are affecting a lot to standing people getting injured or getting joint pains. With such inconvenience increase in fare price is just unacceptable		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3qfl0KE4wW2mcjj	Bart is losing hundreds of thousands of dollars a year in potential fare income by poor management of the stations.		Unknown
R_24iOuyUkuBrKnsZ	BART is not a good or smart organization. It is supposed to be a transportation system not a housing developer for instance.  No no no on fare increases and yes yes yes on improved service. If you (management) can't do it, move on and give someone else a chance.  People are disgusted by the system.	Unknown	
R_3M58zbFpscDqdHi	Bart is terribly mismanaged and has given little evidence that it's management would wisely steward any additional money it is given.	X	
R_1GVOzYaLXbHdBmD	Bart is to expensive already! Cut BARTs budget!		
R_2arSkv6rKUF61Pu	Bart keeps hiking up the fares but we are not getting better service. Constantly breaks down, delays and security issues	X	
R_2WD7ZiYUqBueB88	Bart makes over 100k a day no reason why at the current prices problems are not fixed.	X	
16th18	BART needs more flexibility to compete w/ lyft	X	
R_4GaDMuGcJYkaLkt	Bart needs to focus on capturing lost revenue from riders who do not pay and skip over the fare gates. There is a significant lost there that Bart needs to recover. Penalizing regular riders is not okay.	X	
R_ea3AQYgg4S8KSdj	Bart needs to focus on fare cheats. This is not okay to penalize paying riders. There are funds from Measure RR, and Bart needs to focus on recovering lost revenue streams, such as fare cheats.	X	
R_24rdA6UwCy2XVgZ	Bart needs to focus on fare evasion, exploring other revenue sources, and recovering money from the manufacturer of the rail cars for delays in delivery. Bart needs to be a good steward of its finances, and this increase is not responsible. I already don't trust Bart to use its current funds. Asking for more money is just feeding the flame. Bart needs to focus (and show) how its currently using its money, catching (and enforcing the fines) for fare evasion, and focus on other revenue recovery.		Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2ONeNCZCrtjCW79	Bart needs to increase fares more. Infrastructure, train sets, and stations are aging and require substantial investment. Many companies subsidize public transit meaning the impact would be mitigated somewhat. Bart needs to remain accesssable but reliable - a system our city can be proud of.		
R_XuGdiYDr8VheX1T	BART needs to learn to manage their money. Increases unreasonably impact folks in need and higher prices will encourage fare jumping		
R_T1PM1C2qsOecZK9	Bart pricing should decrease to promote ridership and discourage driving.		Unknown
R_RIAOB57YBdtCAej	Bart projects are inefficient and badly run, let investors and tech companies do it	X	
R_1nWaYqzT6bmH6Ww	BART riders have to pay increasing fares with no improvements. Still in old stinky cars and 80% of the time the train is delayed because of something like the switches errors.  Plus no one apprehends the fare evaders so why do I need to buy a ticket at all?	X	
R_2S0TMphKrpQjpcp	BART seems completely unable to manage the system, so I can't support paying any more money for poor service	Unknown	
R_u4SX1p6tuE050j7	BART should be focusing on to be efficient not always use tax payer money for improvement. You should come up with ways to be more productive given BART is the only metro in the bayarea. Please be more creative with fare plans, One suggestion is the introduce a whole day pass in the weekend. With this more people will be able to use your service and provide you with more profit.	Unknown	Unknown
R_3KMBbdyrZfRIVem	BART should have to justify each fare increase based on specific initiatives. Guaranteed fare increases are not appropriate for BART. BART has not demonstrated financial responsibility given budget shortfalls, having to go to the voters several times for large bond measures and expensive projects like the new train cars which are late.	Unknown	Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3GBoVysYVutpxrB	Bart should not increase the fare every two years; they should increase the fines, and try to get money from the state or city if need money for new carts. Don't try to fool people with less than inflation increase, Bart is a public transportation, it should cheap and easy to use for people, not increasing fare like private Uber. If using money to repair elevators in SF downtown, then why need 7 years long; the fare increases in that 7years is already can make another station.	X	
R_2V9JsVuecZ1iB4K	Bart tickets are already expensive. Where does the money go?	X	X
R_2QtuGblW052IvEo	Bart's budget is already an inflated joke. Your drivers are paid more than skilled workers in every other industry, and they work 4 hours??		
R_2ykJULw8rS3J8uj	BART's fares are already ridiculously high. The fares should be lowered, and additional revenue should come from higher taxation of property owners, rich people, and the corporations that rely on BART transporting their workers over long distances because these workers can't afford to live in San Francisco because they don't get paid enough.		
R_3RpAYN6W57doX5F	Bart's new station projects have consistently been over budget and significantly behind schedule (eg: "December 2017" Berryessa Station which has yet to happen or the claim c.2010 that we'd have a San Jose Diridon station by 2018). BART has stopped updating the public on an accurate opening date. Due to lack of communication and inability to keep to schedule BART should not charge riders more. Additionally, BART is projected to have more revenue from fare inspection tickets. They have hired a significant amount of fare inspectors who will pay for themselves and then some. The extra revenue from fare increases is unnecessary.	X	X
R_3spjOE3hbCFsGmb	Bay area already too expensive!	Unknown	
R_1Fg3leOqhRw78Ao	Because I only make minimum wedge, the increase making harder for me to get to work. From Antioch to San Francisco. Plus my rent and bills Bart getting bit to expensive for low income people. Like myself.	Unknown	Unknown
R_2SD0QfyzSYhxnH	Because it's our means of transportation. We can't afford it if it goes up.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_21hWMRRB5GPZ9FY	Because the fare is already high as of now if not the highest in the nation.	X	
R_31KjWOyXcfizXyZ	Can it be every 5 years	X	X
R_3Mg4OkYuKTpneNB	Cause you keep increasing fares for the riders but there is no change in the s**tty service and facilities	Unknown	
R_1mKsdmQkpzu8T6Z	Climate change means we shld subsidize mass transit to get people out of cars, instead we we subsidize highways and it's cheaper for 2 people to drive from SF to Downtown Berkeley and back than it is to take BART! Your perspective is upside down on these revenue issues.		Unknown
R_3HifjgCnHh0Rot6	Commuting is expensive as is	X	Unknown
R_21vVFzzze7y3viu	Considering that the minimum wage is not enough of a living wage for Bay Area folk, and that housing continues to be an issue, it is would be difficult for folk to continue to use BART as the cost of driving would be considered cheaper.	X	X
R_21AK4bjEFh1JuNg	Contra Costa paid taxes for years and only recently got an extension and NOT what was promised.	Unknown	
R_31WzryJzTDA6MxR	Cost of leaving and public transportation keeps rising	X	X
R_3E9xLSDqQio53Mg	Cut salaries for BART senior management and save us all money More money, no no no	Unknown	
R_3I4t7UkIVGthvhH	Do not like it. We customers everyday users should not have to pay for the mismanagement and faulty security system in place already.	X	
R_25sx8fTnOKkwvpZ	Do not support any fair increase. Audit employees salaries first especially board members.	X	X
R_3gi4nkTbkCez8Ih	Don't I already pay taxes to support these BART programs? Other transit systems across the country don't seem to have such common rate hikes		
R_3ipRa9xrQ14bZbf	Don't like fare increase.	X	
R_2YPWXXkXMfL3bMs	Enforce proof of payment. Bart needs to be safe for all PAYING customers. Make the fare cheats pay. That will be a great way to get more money.	X	Unknown
R_2cuYrfZFmy6ScjT	Every time I get on this plane are some of my bodily fluid all over I'm stinking up the train can never find a parking spot because you got to look people living in the parking spaces. If you increase the fair I will just pay for a Lyft		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1fZu8gVlSi7QtTY	Every to yr hick is excessive	X	
R_1o0E51cQqjaglv8	Fare increases disproportionately hurt low income riders, as they are the ones who have to travel furthest. It helps keep people in poverty.		
R_3HSnSHMZC0oe8om	Fares are already too high and you're focusing on social programs which is not what you're supposed to be doing. Stop punishing riders and be more fiscally responsible.	X	Unknown
R_QfvKoPtnlaqqEjn	Fares are already too high, and service too infrequent.	Unknown	Unknown
R_1QmVVAj6w5ty2SA	Fares are already way too high for a trip from Antioch to SF and really impact minimum wage workers.		
R_ePBMMuEc230Qk2l	Fares area already expensive and should be focused on stopping fare evaders and more maintenance.	X	
R_2ya5iYW0qYLbSB2	Fares have been increased time and again and service has only ever gotten worse. Trim expenses. All of your employees are overpaid.		
R_2xYmngBR1wdtF2J	Fares have gone up, bonds have been voted for and little has changed except for BART's payroll. Trains & stations are dirty & unsafe. BART security vehicle are there but the officers can't be located. There are lots of fare evaders. Homeless riding the systems makes the cars smell and nobody wants to be around them. Give us cars with more setting room NOT standing room. People want to sit NOT stand.		
R_1liuuLE0013Yo1u	Fares keep going up and there have been NO improvements in service for years. The latest disaster is running 6-car (!) trains during rush hour on the Fremont-Richmond line, where we used to get 8 cars (which was still too short). The only improvement in recent years was running trains 15 minutes apart in non-commute hours but then that ended with no explanation. Get your house in order before you start begging again.	X	
R_20PkY3rDIxSW7zc	Fares only go up, but in addition to that parking keeps going up, plus people have to pay for the clipper cards. Why is parking going up all the time?	Unknown	Unknown
R_1MQzfCprg5MFT9W	Fares should be frozen until the cost of living in the Bay Area stabilizes.		
R_2rVhOtVn6qfHzZO	Fares should be lowered and the state should fund public transit in different ways.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
16th20	FIND TAXABLE INCOME FROM ALL THE TECH COMPANIES TO PAY: PS. HAVE PAYPAL AS PAYMENT OPTION	X	
R_tFBF3Y8ebQIZKZX	First stop beggars and home less on bart.people smoke weed as well .	Unknown	Unknown
R_2OYFvtvgVYcqosR	For reasons I said in previous page. Prices are becoming comparable to uber and lyft express pools, so increases would even further incentivize people to opt for those, for the sake of saving money. Which is not the best since those drivers aren't always treated the most fairly.	X	X
R_2dGDWpfgam6vz4U	For the same reasons as above it's not safe or clean. We need to address this and use money towards a better BART - then I may agree	Unknown	Unknown
R_10DaAY9zldrE7wA	Free public transportation	X	X
R_3rZDk8c6luDeIL8	Funding transit through fare revenue is far more regressive than other funding structures. BART should replace as much as possible of the fare revenue with revenue from taxes on rich people and user fees on single occupancy vehicles.		
R_2TC9g9WmUA2meSA	hahaha, you must be kidding	X	
R_25yilfUACoVKYsx	How about stopping fare evaders. If you look at every transit agency most of the trouble and damage is caused by people who do not pay. If you did a better job of that then your overall cost of repairs and clean up will go down probably greater than 5.4%.	X	
R_2meP2MmNWPFWjfj	Huge tax increase nothing to show for it		
R_y19PqpbWaJn374l	I agree BART's need improvement, but can we use other way to increase fund and cut unnecessary costs to make it happen. Also, is there a program that can create revenue from the prepaid monthly fare payment? If people commute from home and work daily, they can buy ahead monthly pass for those stops their daily commute. They will get extra charges if they commute more than those stops. This program help BARTs collect fund in advance, then see how can use it to create revenue. Plus, try to add ads for companies at bart stations and inside barts to make profits.	X	
R_1Q9Jys9rQmm8fzk	I already explained on the previous page.	X	
R_2dRSJo6HPVAwhnh	I already voiced my opinion in the first question.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_r3bWznm54MjYZUd	I am opposed to this. This was a short term solution. Longer term solutions need to include recovering lost revenue from fare evaders and penalizing our manufacture of rail cars for late deliveries. We need to look at cost savings elsewhere and not penalize our regular riders.	X	
R_vZZU8kALIBLeqm5	I am sick of the filth and drug use on the train. Maybe BART should consider funding more police officers so commuters don't have to deal with the filth and drug use on trains, then maybe riders wouldn't have a problem paying more. Or even dedicate one car to homeless and drug users.	X	
R_Wdu9Zr9g8iLXeX7	I am the Senior Citizen lone wage earner in my family of three. This increase would put me further behind in attempting to eliminate my debt and plan for my family's future retirement plans in about six years. Especially if the parking fees go up also. Everything else has all costs increasing greater than three-percent.	X	
R_3qVclORcAxLyIKe	I can drive from SF to East Bay for so much less than 2-3 round trip BART tickets that it makes me not even want to consider spending all the extra time getting to and from stations. It already costs over \$15 for two people to go from Mission to Oakland and back in a night. I know BART has tons of unfunded needs, and the 2016 bond is barely a down payment, but focus on getting money from nearly any other source than riders. We already pay too much.		
BP7	I can't afford it. I believe that if you increase stopping fare evasion, than money can be used to fund the costs.	X	
R_2t57VcMkaGgotIU	I don't agree because bart is already expensive and you don't even have options like monthly passes, which most big cities have for their habitants. Also, you charge bay area residents the same as tourists and this is unfair	X	
R_1liVAigfNvmp25d	I don't think people need to be paying more for the same amount of service.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_1CfPtW7Ln4xEa5v	I don't want bart to increase it's prices being a student who is going to spend several more years in this city for college, and being in college and not having much money, it's not good for me.		X
R_2ziryaCAU43HIbp	I don't support increasing fares until service is improved.	Unknown	Unknown
R_1LTHjjnDFkNN6Cq	I don't want more trains I want a second transbay rail.	X	
R_1H8DyCIoPF5FWAF	I explained earlier. I feel that the upgrades should be supported by municipal taxes, bonds rather than regressive fare increases. While the increases may be less than inflation, for low income commuters, the total commute cost impact is greater percentage wise than for higher income commuters. We need to keep BART commutes accessible to lower income populations.		
R_UrvvQUNzWPsJzAB	I explained in my response to the first question, I oppose fare increase because I think the fares are already too high. I work full time, which means almost \$50/week goes into my transportation, plus \$105/month to park at BART. Taking public transportation is imperative for environmental reasons, but it shouldn't be limited to upper middle class people. And I don't know of any discounts for low income people, only for youth and elders/people with disabilities.	Unknown	
R_2Sjq3HdskOrfeKc	I explained in the previous comment section. Additionally, BART doesn't seem to use its money effectively. I don't want to pay more when I don't see services improve.		
R_1ojUiBSO9bsN8WJ	I feel the BART program already has more than enough fare for travel, it is quite costly for average earning people but they have to take Bart anyways as they don't have car. I strongly believe that the current fares are high already.	X	
R_2vjNtLG18Uoz9sx	I feel this is unfair to regular bart riders who use the bart roundtrip everyday 5 days a wk. I hope they would track those regular riders and do not charge them.	X	Unknown
R_2bMYerisZwH3Dij	I have been ridding Bart all my life and the service has not really changed. If anything it's gotten worse.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_ZCsUO6UCvbX47m1	I have seen little to no improvements to BART after fare increases in the past. I thought BART purchased new rail cars already - so far, I have only seen two.	X	
16th12	I have seen NO improvements with BART after these fake increases-	X	
16th14	I make very little	X	X
R_WcUuPm9JHfIMGFH	I oppose 150% as it's getting really expensive to ride Bart and still live in the Bay Area. The trains honestly aren't clean and there isn't even much new trains so I don't want this increase to happen. Public transportation should be affordable to all and don't agree with the increase as the majority of the residents are making enough as it is to pay rent and place food on our table.	X	X
R_10P2PKjqZJIw6fB	I oppose because I feel the fares are already too high compared to the services provided	Unknown	Unknown
R_31hMszzUGUSbeA9	I oppose because people's salary doesn't always increase by that much and people need to rely on BART to get to work.	X	
R_1oFPUQmosKtMeM9	I oppose it. BART is becoming too expensive. Over the past few years we've seen these price increases, yet BART remains crowded at peak hours, there is difficulty finding parking, and the trains themselves often feel unsafe.	Unknown	Unknown
R_R8iHKy7js7Iy8Vz	I oppose the increase because any increase that I receive in wages is less than 1/2 of what BART is proposing. In addition, I pay transportation taxes, transportation bonds and RR bonds for BART with my property taxes.	X	
R_Q4IPyiSpUyeYcJb	I oppose these increases as a rational consumer because I oppose spending money where there is poor value, poor customer service, and no defined minimum standards or accountability for the service provided. There is no customer warranty on the Bart service.		X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3EMTUJlC4FgDy66	I oppose this increase because I am someone who lives in Pinole and commute into San Francisco (Balboa Park) everyday using the BART system. The fare will have a drastic impact on my monthly budget and I will be unable to afford the BART fare; thus, I will need to find an alternate form of transportation.	X	
R_ZsObmv3HfFip8fD	I oppose this program because I take the Bart every week and though it's a small increase, it will add up. Also, the cleanliness of the Bart/Bart station is not the most pleasant, so paying more will make my experience taking Bart even worse. Many other people aside from me also take the Bart so these increases will be another expense	X	X
R_1CibVJAvFtjYEy4	I oppose this program because it will just be a hassle for everyone hat commutes. If Bart wants people to commute more thru train than drive, then lower the bart prices.	X	X
R_22QsxipDWXgQzgC	I oppose, because you do not use the money wisely. The seats on those new cars are uncomfortable and the "bike racks" on them are more difficult to withdrawl from than the older cars that just have a bar there that you can secure a bike to.	X	
R_2saS4LaJNxUq9cJ	I oppose. The fare increases are too frequent. It is good that is it less than inflation but a lower percentage would be favorable	X	
R_22CStWpymvDjCzc	I pay almost \$12 round trio now and I have to deal with constant filth and fear..NO giving you more money us not an option	X	
R_1jiXyfoJj4tnpRB	I refuse to pay more when I see many who don't pay.		
R_24HIrIoA3RfNZcd	I said it in the previous question.	X	X
R_SMN0crnDN3CCy9r	I see no improvements, only worsening conditions in all aspects of the system, regardless of fare increases.		X
R_2q3sYZMiPPZ4yy0	I strongly oppose because I don't believe senior management has any idea on how to run a transit system	X	
R_BEW9tNUHjyQ5L2h	I take bart everyday and already spend \$15/daily. While others are skipping fare and as I watch needles fall out of people's pockets. How can you increase fair when it's not safe	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2CqXtWeWjmtFZmk	I think it is absurd that other cities have cheaper fares to their cities airports (\$3 oneway) and BART fares are exorbitant (\$10 oneway from San Francisco to SFO). One can only assume that this fare will increase as well. That is why I no longer use BART to the airport but use a taxi.		
R_z2Vw4HXkdEDrr0t	I understand the reason for you all wanting to increase the fees, as the money goes towards maintenance. However, the standard of living in the Bay Area continues to increase at a rapid and unsustainable rate. Citizens of the Bay who are most financially vulnerable will be unable to sustain the rate increases of the BART system, which would drastically decrease their ability to be mobile, seek employment, get access to resources and I assume would increase the amount of people who are trying to survive by skipping fare. Until the Bay area standard of living gets under control and compensation rates are more widely matching people's needs, I would not want to see BART continue to increase.	X	
R_10BkyovqYwN7oVV	I want to see improvements made with the current fare increases before they're extended. I feel like all aspects of Bart worsen everyday instead of getting better.		
R_3h5ykLdfP69CHwJ	I will be out of uni in a few years it will be nice to actually afford the fare before I graduate	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3ND2tzQgSOQdpbG	<p>I wish we could use the money on security purposes and for people not getting away with entering or having homeless roaming on the trains. If I'm paying \$10 every single day I would like to make sure my ride is safe and not have to worry about someone that is not in there right sense, acting out, or a smell of substances or odor.</p> <p>I wouldn't mind an increase if the safety and security of making it not be so easy to get on Bart. What's the point of paying more and having this increase when many individuals just walk in and no one says nothing or enforces to leave or pay. Fare is already high enough and transportation should not be so high. It is a necessity to use transportation. Why punish the riders even more when things for a long time have been the same. This is a reason I oppose an increase</p>	X	Unknown
R_8p5nvugVUQk4fx7	I won't choose to take Bart if price increases too often and too much !	X	X
R_25BEj04No04xYE0	I would also like to say East Bay people are starting to fill up trains heading to the peninsula because their trains are so overcrowded, so now my commute sucks because of it.		
R_2Cy6UJEANTPvcQa	I would need to see BART's financials. Without a review of BART's current financials I have to assume that due to the large ridership there is already ample funds to apply to system upgrades. Therefore, there should be no need to increase fares.		
R_0xCUfCJfrayLBSh	I would not like it because I don't want to spend more money.	X	X
R_3QYLP1udKYGK4YV	I would oppose the fee increase.	X	
R_2aJJYtdMGcgrcAD	I would strongly oppose this program. This is a huge increase for a daily commuter like me. You are not providing any benefits except that the price keeps increasing. Also the new trains are worst. there is less space to sit and we have to stand the whole commute and it is very very crowded.	X	
R_2b2FHM4d8yj7EJK	I'm just a commuting student, and with this increase it's not gonna benefit me for the money I already spend on commute each month.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_x4JiOAoVoUHUFq1	If you would be more transparent about where your budget is going to, then maybe I would agree. But I haven't seen a breakout of your budget in an easily accessible way.		
R_1K3kmv6XsH4mAWZ	I'm going to be charged more, and if history holds, I doubt I'm going to see much real improvement. Please don't.	Unknown	
R_2rAyhHsuaWR9Kuk	Increase it slightly more than inflation and get the system fixed faster than a smaller increase would enable.	Unknown	Unknown
R_2sR2re2nLOt8VoZ	Increases, uh no  Why not save money by terminating senior management and hiring competent people? Plus you can save money on police and station workers who seem to do little or nothing about fare evaders, riff raff and hooligans.	Unknown	
R_2B9EEuHbkokOcR1	Instead of increasing we should think of how we reduce the fare and help common man with some savings in the overly priced Bay Area. Bart should think of generating other source of income by leasing their space to some vendors or leveraging its empty parking spaces on weekends to host some events	X	
R_1gw6mEngYzx8k6s	Instead of making it every two years, make it every 4 years at 4%	X	
R_vCycJlpLF2cAUut	Instead of relying on a policy which may or may not fund the system the way that it needs to be, have the Board do its job and set the fares as needed.	Unknown	
R_plYSCri18Tc1wHv	It doesn't seem the astronomical amounts of money currently being collected are being well spent, so increases are not acceptable	X	
16th16	It is already too expensive, + unaffordable for low-income		X
R_1Cj5U48dh5Fq8PU	it is already too expensive	Unknown	Unknown
R_1F4kp3vs8S8idjE	It is already very high as compared to other mode of transportation.	X	
R_74biAmoBMhyX2b7	It is costing way too much to ride BART. Focus on catching fare evaders first. Current money is not used appropriately to clean trains or stations. Need proof of that before supporting fare increases. We are not getting alot in return for our fares.	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_veF79WP8UjMvKbb	It is too expensive. Cost of living and transportation in the Bay Area is unrealistic. Public transportation is supposed to be a better alternative to driving, and it is supposed to be less expensive. Increases in the cost will cause increases in people not paying for to ride.	X	X
R_vuxZOeo1kyK4I6Z	It only hurts those of us who use the Bart honestly every day. Have guards by the fare gates if you want money		
R_2EhIg2vBcdukfak	It's already expensive for commuters especially, the cents difference between clipper and paper is very insignificant	X	X
R_PU9tVKKheNzYH29	It's already more	Unknown	Unknown
R_8iW7IIIJvzY1EYx	It's already pretty expensive to ride far distances - not to mention parking costs at stations. Increasing this for years to come will suck	X	
R_22RIjVNJEUGQuhF	It's already unaffordable. Would force me to find other commute alternatives.	X	
R_2S7T3WJOYNf0Mcq	It's already good amount	X	
R_3PRbgPZ1hHFRxnY	It's definitely nice to hear about the plan but it's discouraging to continue paying more without changes to the services.	X	
R_SE4OtPC5GoOESM9	It's expensive enough already. While the price is keeping going up , the security and services provided by BART are actually going down.	X	
R_1dm3AwusvOBGYji	It's too easy to not pay. Two dedicated police officers at each station would significantly cut down on fare jumping and violence at BART stations.		
R_2Vdr9ZFs6EV4G4q	Just stop people from cheating and you will have enough money. Cut executive salaries by 25% until user satisfaction reach 4.5 out of 5		
R_1FlB8oiFyTNyRE6	Just voted for tax for BART. Not seeing BART try to improve service or cut costs	Unknown	Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2WM5IVcElinEIpn	Less and poorer service. Escalaters don't work. Signage doesn't work. of 4 restrooms in entire San Francisco City are, 2 are always closed- 1 in Balboa Park and 1 in Glen park. IT support must be non-existent- signs do not show second screen of approaching trains, on Sunday they do not show the times of existing traings but shows the times of trains not scheduled to even run on Sunday. Station upgrades take too long and are poorly planned and finished. New trains not put into service. What's going on? MUNI used to be the transit agency I loved to hate, no BART has replaced them. And you want more money! Play with and take care of the toys you have before you ask for more!		X
R_3fcv1DzWZVJh1UX	Like I said before, why should only honest people be forced to pay higher fares when so many cheats go through the emergency gates for free? Maybe fares wouldn't have to go up if everybody paid their fair share.		
R_gJ9PkYEmdYlwa8V	Look at my first response.	X	
R_1ONtsa9DpSTJy5L	make BART free, or at the very least freeze fares.		X
R_V3iUQeSVRtSUqWJ	Make more money by catching the gate jumpers!	X	
R_ptUdl7FICnp2FYl	manage your money better we have been paying for BART for 40 years and just last year actually got BART. Now we have BART but not enough parking at the Antioch station. Who does the planning for the future? Very poor job.		
R_1gggIN1rqmsR7X5	Mantengan limpias las estaciones con mas seguridad! *Keep the stations clean with more security!* Y eviten que la gente se pase sin pagar... *And prevent people from passing without paying...*	X	
R_1igGE01Bhyc0nQs	Many depend on riding bart to work or to school on a daily basis, and with increasing bart fares it is getting harder and harder to afford these rides. Over the past years we have continued to pay more for fare but we have not seen improvement In delays with new trians	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2ALldvOAVIXrfbQ	More and more money goes into this bottom-less Bart hole. When will riders see the benefit of the investment? All the money is for maintenance, but no viable expansion. This was a poorly thought out system that did not take into account growth. AND really it feels like this is a system for SF - all the other cities are stepchildren that "may" use the system. Property/auto theft and filthy trains plague the system. Why should I pay Cadillac prices for rides on a scooter?	X	
R_27xsl20Dle85zsn	More money is going to upper management and the board rather than what's stated	X	
R_0NcCCeCN1zmEQcF	Most of the proposals should be covered by the operational revenue and the profit of Bart. There has been evidence that the operation of Bart is not satisfactory and needs improvement. Bart leaderships should be looking at those problems and potential ways to improve efficiency on money use. Also, Bart riding environment has got worse, I've a personally experience with bad attitude from the fare booth agent in the Fremont station, including yelling to me and refusing to give me her name and employee ID#. I have also rode Bart with a rider smoking weeds on a running car. But the tech on the train wouldn't care and his response was "the smoker is fine. if you see me run, you run with me." What kind of attitude is that? I just simply can't agree to paying more to these unprofessional staff with no respect to their customer.	X	
R_22tA5Rjof6Bgtr	Most of your costs are to pay yourselves and you want the rides to did deep into their wallets to fund your extravagance.	X	
R_2B5KPFwozjaPPyG	My income does not go up, yet everybody keeps raising costs on public services. It's a hardship for the poor, disabled, elderly, and down and out folks. Use the money you have more wisely.		
R_tDSOoR5YpmmAaXL	My salary has not gone up to meet inflation or increases cost if living

R_ersiQxBbl6xbCFz	oppose this program	X	
R_325wKa0Lb63QioE	Oppose until you enforce current fare for all riders.		
R_3m94STjgSgqw4CS	Oppose.	X	X
R_1hEjuk6VZ1umh6y	Oppose. Bart has gotten a number of tax increases the past couple of years and everytime. Is this money being squandered? How long is bart gonna use the same reasons; new control system, new cars, etc.		
R_3LkfFKi51EMCLTS	Oppose. Find other ways to fund. Make cuts. Sell more ads.	X	
R_1LqFHTfS3FQwsKd	OPPOSE. Why should there be a extension when the fare increase system now isn't working. I'm rarely on a new train and they few times I've been on one the train goes out of service -- and I commute M-F mornings & evenings.		
R_1owegT8dMWx7S5p	Oppose... rate increases would reduce ridership. Past rate increase has not increase overall revenue due to low ridership. I see mis-management of current Bart resources and throw money at it will not fix the current problems.	X	
R_29o9etvCL6B7Ub0	opposed, same old excuse.	X	
R_2e5c4u7xTUKMlKm	Opposing this, Bart makes enough money to run without increasing prices. Perhaps reevaluating your budget to make this public transportation a service to the community rather than a business.	X	X
R_3jfK4HPYPZfYrd1	Other sources of revenue such as employer subsidies, or increased taxes on cars/gas, are preferable.		
R_2CPvFRKzOVUtg6	Outside the public sector, people who do actual productive work are not seeing 3.9% annual pay increases so your justification is baloney.		
R_1lmEcejSQA70V1N	Paying both Bart fare back & forth plus the daily parking fee is a lot of money already, Bart should have enough money to cover the costs of whatever repairs needed! With millions of Bart riders everyday, it accumulates a lot of money already to cover the repair costs, isn't not?	X	
R_3iyy5f9rBft2EUJ	People should pay less as a general rule.		
R_2pK7YZLrOF58FZn	Please change BART prices to be on a sliding scale based on income. It is already too expensive for many of the people it is supposed to be serving.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3m8fZVmelHSD08u	Please enforce fares before raising them on paying customers	Unknown	X
R_1kSnP0Enxqvmfk8	Please see previous answer	X	Unknown
R_RaeUVjdqmQuN4Rz	Previous answer.	Unknown	Unknown
R_3M3EkDwkQC3UxyG	<p>Raise taxes on the people who can afford to pay that! Many of BART's riders don't make enough to afford trips on BART as it is, let alone making it more expensive.</p> <p>BART is publicly funded public transportation — it should be funded by the people who can afford to pay, not by splitting up the total cost equally onto all riders. Not all riders have equal resources.</p>		X
FV1	Reduce peronnel + operations costs and put that money into infrastructure + service.	X	
R_1ln0Yg085rDqnjb	Salary and pensions increases at all levels should be frozen. Salaries and pensions paid are already too high. If workforce goes on strike, they should be fired. We will live for a few days of interruption but will not give in to strikers demands for salat increases.	X	
R_a4B3bYw4YdGadHj	Same answer.		
R_3DoPgdl80pLTx32	San Francisco is an expensive major city to live in, with higher than national average rent prices, and increasing fares would have a detrimental cause on the economic and social well-being of it's residents. I advocate to keep our fares as they are, or provide discounts to lower income people, even adults. I know currently seniors and students get discounted rates, but I think this should apply to younger and average age adults.	X	
R_1oaRjeye1e0ejGP	Saying it is "less than inflation" is a leading statement. Most people here are not part of the tech industry which is driving inflation, and cannot keep up with even modest increases.	X	
R_eA9623vjpiyXc1H	See first response	X	
R_OPz0xE8a5NETbyh	See my previous answer - BART has increasingly asked for money through fare hikes, bonds, and ballot measures. Get your house in order, stop hemorrhaging money on inflated salaries, pensions, and medical insurance, and use that money to update BART, as it was intended. No to fare hikes.		Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2zZqRlJRMoFwC0b	See my previous answer. Furthermore, I ride BART every day and I generally stand both ways. I might consider paying more if I could actually ride in comfort.	X	Unknown
R_2atWWOBHPpIE0PA	See previous answer. We haven't seen enough improvements with the high fares we already pay. Bart needs to figure out another way to fund these changes and figure out a better way to handle operating expenses.		
R_vui2rCYWeLn6s4p	See previous comment		X
R_pyFZMr6M1UIOYTv	See previous comment	X	
R_11jODk00J91o3GY	See previous comment. Until BART become safe again, cleaner, had the new trains and runs more frequently as now that it has expanded it is even harder to get a seat and is twice as packed.

R_AaZELM6OH5sADND	See previous response.	X	
R_2dN3oyK9vAKRDvx	See previous response. In short, I oppose it on the grounds of management incompetence.	X	
R_10MBf3N9GgXuwvy	See previous. When janitors are paid over 100k a year, something is amiss		
R_2yjGcen8h3unXZX	See the responses to my previous questions. If BART keeps raising fares like this, I'll take the new ferry in Richmond (it will be cheaper), or casual carpool. DO SOMETHING ABOUT FARE EVADERS AND STOP RAISING PRICES ON HONEST PEOPLE WHO PAY.		
R_OvEhMEf60pfki7T	Stated my response in the previous page.	X	
R_2SdWyM390vGjM4x	Stop fare evaders	X	
R_1eLDHJD0lGYKqL4	stop punishing poor people		
R_3NODs3sXYn4bh2F	Stop the fare evaders! Where do you get an inflation rate of more than 5.4%? I am lucky if I get a 3% pay increase every year. Why should I support BART fare increases of 3.9-5.4%?		Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_6liYcU50JpT8Ulr	Stop the fare gate jumpers. Make them pay for their rides. Bart needs to treat people fairly. Making regular people pay for rides, and making them pay more to cover the gate jumpers is not okay. Why do you think this is okay to force a certain group to pay for non-paying customers? Do not raise fares! Hire more fare enforcement officers. Make all people pay and don't discriminate on the paying riders.	X	
R_1eri19EmIN9LHaT	Stop the gate jumpers! No Fare increases until everyone pays for their ride!	Unknown	Unknown
R_DuipicdoDPHShrP	Stop wasting money from mismanagement.	Unknown	Unknown
R_RWbzsguJTXUQ0DL	Strongly oppose because there is no forward-looking plan (other than do more of the same thru adding cars) to address key issues like overcrowding, safety, fare evaders, and cleanliness. I do not have trust or confidence that more cars and a new control system will help enough to justify even the cost of fares today.	X	
R_1g1NXcf94kHTqnl	Strongly oppose because those who don't pay fares are costing the city millions of dollars per year. If they were more heavily monitored and penalized, maybe the increases won't have to go up so much.	X	X
R_2Tper8k8LrxI4oK	Tax the cities who have not been paying since BART started, let them take the brunt of the increase		Unknown

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2sWM3irJdqBpoOe	<p>The Bart is already quite expensive when it comes to FARE on day to day basis. The cost of living in Bay Area with rent and with Bart Fare is not helping Middle Class.</p> <p>I would recommend the following changes to bring cost down:            1) The Maintenance Cost can be reducing the number of Trains during Off- Hours. Peak hours are Mon-Fri 6:30 AM to 9:30 AM and 4:00 PM to 7:00 PM.            Instead of 15 mins, make it 20 mins frequency, but add more Car to accomodate more passenger. Sometimes 5 car doesn't help during Peak Hours.</p> <p>2) Provide the option of Monthly Pass if customer has starting and Ending destination is same. Give some frequent travellers benefit to these customers.</p> <p>3) Add multi-level parking structure at each Bart Station which will bring more revenue and so monthly customer can have option to include as their Monthly Pass.</p>	X	
R_1ITn1M02wOHwwVd	The BART is expensive enough, this way it'll slowly get less costly (but staying the same, but decreasing value from inflation)	X	
R_12co5cPFFIbg5cC	The cost for Bart repairs should come from local city government and taxes. Everyone-even folks who drive cars- should be taxed for Bart improvements.		
R_10IvFRASLYVKoUx	The current BART system is financially unsustainable. Fare increases constitute throwing gasoline on fire.	X	
R_vUMcMEhb4q3B6x3	The current fares are already very high, the new trains have less seats for long journeys (minimum 45mins) for most commuters. No point paying more to stand on nearly 2 hour journeys everyday.	X	
R_31Lfzb2SAmMN9N1	The increases are making it unaffordable to be a regular commuter.	X	
R_3gL2Ju6mtfIdEjb	The services, the security is very poor to pay for such a high transportation ticket	X	
R_1ruk59E148U7yET	The system is already too expensive.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_9nwVQ8A3hAB1ieJ	The whole fare system should be overhauled to include demand-based pricing.		X
R_2BaeHhDv3lxFZF	There are a lot of issues with Bart. All the old Bart trains are still running . It is extremely dirty. Homeless people do drugs, sleep on trains, and make daily commuters uncomfortable		X
R_2Wgy6qJWlquqS7	There are already price increases happening now. Bart acknowledges that students take Bart from balboa, its on their advertisements on the Bart trains, but Bart doesn't offer anything for those students. Bart riders can feel patronized being acknowledged on posters that they're commuting from far away places but then those long commutes cost even more money because they're taking Bart from far distances. All of this is happening but we're not seeing a change in Bart of its policies.	X	X
R_1gbYBnfu91ut7VZ	There is already money for new trains. Instead of buying more, we need to hold the manufacture accountable for missing delivery deadlines. Paying them more money for missed deadlines is a poor use of money. This lack of accountability shows that Bart will not spend new funds wisely.	X	
R_3FKl6Wfa31CtBy4	There is already poor miss management of bart money	X	
R_1jClc75okHvpOOE	These promises on the use of the funds has been going on since I started riding 8 years ago and nothing has gotten better. If anything I consistently see miss appropriation of funds daily.		
R_3CPFSncoJp67tDW	this is becoming way too expensive. an Uber share ride will be cheaper than BART. I don't see the benefit to me as a consumer. I'd love to save the environment but can only afford to pay that much to go to work.		X
R_2Uci9Tw9NCNRrTx	This is not a solution. This is a short term with a specific end date. You will lose the trust of riders if you extend it. Bart has increased ridership. That revnuue should offset any needs Bart has.	X	
R_2tx0IzmQQtHdMD2	This is way too much..might as well make It 25.00 a day flat fee in 2022	X	
R_2YIWUB8TN38ZMdd	This may make bart less accessible for those who take it every day.	X	X

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3Hqo1g4RQLetMFP	This question is confusingly framed. I think local government should pay for repairs not increase cost of the ride.	Unknown	Unknown
R_2Uf4F9asSSOS3yq	This was a temporary program, designed with an end. It is not appropriate to continue, especially with measure RR funds available.	X	
R_Wfe6AsQYmrjxmwl	Tired of PUBLIC transit increasing fares without an equal improvement in service. What REALLY burns me is seeing all the people jumping over the barriers and not paying without BART police doing anything about it. I pay \$50 a week commuting and it is just a same to see BART employees doing nothing to make sure there is equity.		
R_Dc8BRQye9CysCkN	Too expensive	X	
R_1mhirHtr8CVqfe6	Too expensive	X	
R_3D2sxBY60c7FZQj	Too expensive for unimpressive transit. Dirty Train. Homeless on trains. Criminals on trains. Pay to park already.		
R_25ym7F6Kg9cl8Mu	Total bulls**t. In lieu of fare increases of any kind, I very strongly suggest pay / merit / pension decreases for BART executives.		
R_2zqqBR0kgWYKy9L	Traveling from Dublin to South San Francisco is already 6.90. I can't afford to pay even more!!!! I want to do the more eco- friendly thing and I know carpooling/driving can still add up but transit should ALWAYS be the cheapest option- not an option that competes at a higher price. I would only support an increase if there was more safety, carts, and accessibility to ALL income levels.	X	X
R_3m4PqG8RV9Zlc1X	Until BART fixes the current issues we have with our current lines I don't want to help fund any kind of "extending line". Clean our current trains first! Help avoid "delays". Once that's done, then BART should think about extensions of line.	X	
R_1EgmSkHlx49GYfF	Until safety and Security is in place, I will always oppose.	X	
R_b9HNQ6Dm5vKuGml	US inflation is not 3.9% and I'm not a fan of going higher than the target 2% inflation rate	X	
R_2xV0q9XHJCl70f9	Very time they increase the care they promise to make riders experience better but that never happens	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3qQLIXSWLsbQPGN	We don't even see enough of the new rail cars as it is. How do we know the fare increase program will really help fund new rail cars?	X	
R_2abIW5KD81D7Fjv	We need to see actual changes	X	
R_2CwtmjoF9B4L1XO	We pay enough for bart and the services are awful. People don't even feel safe on the existing filthy trains and you want to increase fare. Cut back on admin and exorbitant salaries of you and your employees to re-engineer into a better system that serves the tax payers/	X	
R_26lhoVX0RaieRfW	What was the bond program approved by voters for?	Unknown	Unknown
R_1mKn1trZfBwaxc7	What's the purpose of funding Measure RR then? I voted for it to help BART. I take BART everyday -- I appreciate it -- but it is so expensive. I pay over \$200 a month to commute via BART. No other big city has this expensive of a transit system. This method of raising fares only harms the commuter even more.	X	
R_29tRaRZptf86rFF	Where has all of the funding that BART has been provided over the past decade gone?		
R_2dKqVo5ykn9S942	While Bart employees get an increase (on their already good pay for less work like those agents at the gate) we on the private sector employees aren't getting a raise.	X	X
R_Rf5yLOcPHjPVTBD	Why did you get a \$3 billion bond.? Where's that money going? All you do is waste money without accountability	X	
R_1f9LgUozgpCf1iI	Why doesn't bart focus on riders not paying? Why is a fare increase needed when not everyone is paying their fare share. This is not okay. Bart needs to be trustworthy of what they have. Make all riders pay their share!	X	Unknown
R_1Ckh790e5IAGNIN	Will not work that way	X	X
R_WiBMjQJGsqkfPoZ	With prices increasing everywhere except our paychecks this is not fair. Take the money out of corporates hefty salary.		
R_AtFP9TJa6sQPT3z	Work on your government grants fundraising instead.		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_21jr5TxCDMwgGVu	Work within your means and budget so that you don't have to keep asking for a rate increase. This is utterly ridiculous. And someone came up with the brilliant idea of putting condos on Bart's parking lots. Where are people suppose to park? You won't have to worry because you'll have less riders which may be the goal. More affluent riders and less people without means (homeless) perhaps equates to cleaner trains and potentially more money. The affluent people won't complain about a rate increase.	X	Unknown
R_3NPZ3jSKd1hrLpK	Would only agree to a fare increase if BART adds more trains to address the chronic overcrowding during rush hour. I don't want to see routes extended (e.g., Fremont line past Warm Springs) only for BART to run the same schedule, which would only result in further overcrowding!	X	
R_2f107RaEovgeklx	Ya lo explique anteriormente, pesimo servicio *I already explained it before, very bad service*	X	X
R_ptLweN1xvAuK1pv	You always promises big essential system upgrades but the reality is that you waste money on non essential upgrades like solar panels and station entrance beautification. Not a fan of the new rail cars either. The front facing seating creates pinch points that reduce the flow of passenger traffic		
R_3psdhpejoiXum6N	You don't know what to do with the money you have now. Why is having more money going to help you?		
R_yCIBVvihwuzTG6d	Your fares are already high compared to national standards. They are regressive because they hurt low- and middle-income earners the most, & discourage people from leaving their cars. Find more equitable revenue sources!		
R_308CPLM64HUQGIB	Your fares are excessive as is.		
R_yDuZCC2RTTrpnUJ	Your fares are the most expensive of any transit system in America, and you have a long track record of mismanagement of funds and overspending on underused extensions (SFO and OAK, for a couple). Fares should be reduced, not increased.		
BP6	Your service sucks is so poor and dirty	X	
R_3NJP89u2g6jwUym	服務同價格成反比 *Service is inversely proportional to price	X	

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_2YttSofVcB5M08x	递增 % 太高 *Increment percentage is too high*	X	X
	I don't know b/c I don't know what the other options are for raising money.		
R_bC1qOerfQI9zAm5	Ambiguous question phrasing—am I comparing to no increases at all or as-much-as-inflation?	Unknown	Unknown
R_1lhNpMIOza4OZOE	Fix the existing problems before you seek more fare increases.	X	
R_3rqgBTBKozmlzpD	I have supported every increase for many years realizing that it costs to run a system. BUT I don't know if I can continue to support it when I do not see improvements to the system. I feel as if I spend more for poorer service.		
R_bl6KbM3k0ki41IR	I think it is ridiculous, we already pay high fares and pay for parking. Just to get on Bart during rush hours a find a homeless person that just is nice and cozy with their feet on the window	X	
R_2U4cbpU08uzkEyM	It's hard to answer when I see staff, even those who attempt to enforce fares, unable to do so. I have never been checked that I paid my fare so the odds of fare evasion detection feels low. I also see it happen openly.		Unknown
R_1LGbpXfxhlw1Nqg	There is not enough information in the description to make an informed decision. What fare increases are planned for comparable urban transit systems in the US and Globally? What other revenue levers has BART attempted, ruled out, or exhausted? What expense levers have been attempted, rules out, or exhausted? For example, what savings will be delivered by shifting to the Fleet of the Future? Would increased efficiency and capacity under the current fare schedule sufficiently increase revenue to offset planned expenses? Would extended hours do the same?		

Survey ID	Fare Increase Program: Public Comment	Minority	Low-Income
R_3h0cn2qazpe1HHJ	<p>This is difficult to ask in a survey, without information about the impacts. I think that functioning cars and system are important. Greater frequency seems important given how crowded BART is.</p> <p>At the same time, commuting on BART is really expensive already- and feels burdensome to me as someone who makes a decent income. I feel really concerned about BART becoming inaccessible to lower income folks or middle income folks with families.</p>	X	
R_1r3otdDu6Pb83ZM	This question is silly. Few people support raising fares. The question should be about how efficiently is the money being used.	X	X
R_2tLNYONIMs9Rvzv	<p>Pues todo sube desafortunadamente el salario es bajo , este de acuerdo uno , o no el metro es muy necesario para todas las personas para llegar a su trabajo también lo usan porque lo usan otras personas que andan turistiando.</p> <p>Es un transporte rápido . *Everything goes up unfortunately while salaries stay low. The train is necessary for all people to get to work and people also use it because they are touring. It's fast transportation.*</p>	X	X
R_1f2w2QRWxGuhyS9	You need to fix the gates first!

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_rjLEsQ08h0E3WZb	\$1 is a modest fee. Please ensure low cost clipper fees for seniors, students and those most in need.		
R_1qaOdVitzrav80r	Agree, clipper cards are a lot faster	X	
R_3NPOgMQ3lzIPQi7	Aka "soak the tourists"? Seems fine.		
R_O1FbfgPqjWJYtDb	All for more clipper use.	X	
R_plMvpu8VdaA4Vup	Allow paper tickets with a balance to be transferred to a clipper card at all stations. This will help encourage people to change since it will be easier to transfer it.		
R_12x7HgWsInjbbI8	Allow people to insert a paper ticket with balance on it at any station and convert it to a Clipper card	Unknown	Unknown
FV2	Anything that lessens paper consumption is good.		X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_p4W9rouJwfGdAoF	Bart should have a program to hand out free clipper cards for lower income riders and those who are unbanked.	X	
R_1q4zDLfmuGZ4ECg	Can u make the paper ticket like the ones in New York. Where you can also recharge the card and use it again. It will save a lot of paper.	X	X
R_1q8oOERZTKXTkz	Clipper cards are definitely are efficient and long term. I see paper Bart passes on the floor and ppl just throw them away vs clipper cards	X	X
R_2akji3ePxGFnjIs	clipper cards are easier and less waste as the cards are easier to store and resuse vs a paper card which can get crumpled or torn and needs to be replaced		
R_2dQLpzAhBUfyffs	clipper cards are free to get and make the process easier. I would prefer everyone use them. Or better yet set up a tap system with phones or smart watches as a digital clipper system.		
R_2wb5oIQbR9MBC4T	Clipper Cards are safer, more secure, and more useful.		
R_eL4K3SIPpRQMjhn	Clipper cards are very cheap and you can easily break even	X	
R_02o3jYVu59QPENr	Clipper is better and less waste		
R_YawechvgiGVrOaR	Clipper is just the smart choice for all Bay Area transportation services.		
R_QlEm7oclbiWLXX3	Conserve resources	X	
R_2YzVQIEBW48dOFz	Cost efficiencies and to make the higher cost enough to move people to Clipper.		Unknown
R_cAqt4y3TXvnkig9	Cut down on the wear and tear of paper feeding system and cut the waste	X	
R_PRmxW6Zn3XVaPuN	Definitely agree that riders, even tourists, should have an incentive to use Clipper cards. Perhaps allow tourists to redeem their clipper card fee by turning them in at the airport, bus or train terminals.	X	Unknown
R_vCycJlpLF2cAUut	Ditch Clipper (or keep it for those who need multi system cards). Make a bart only card that can be bought on the spot at all stations in machines (London OysterCard). So many of BART's excuses about what they can't do are "but Clipper" and we can't change it.	Unknown	
R_p5wJOEvuFf3MMU1	Doesnt affect me, good for the environment and can help fund things. Sounds good	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2ZDCLf9ym4hxJEl	Dump clipper and allow phone tap-to-pay like most 1st first world transit systems.	X	
R_3NODs3sXYn4bh2F	Fare evaders don't pay anything!		Unknown
R_At7TWWoz3MCavzr	Firm believer in the convenience of the Clipper Card!	X	
R_25QRMM32GUKfydf	Folks who ride Bart on a regular basis should have clipper cards to avoid wasting paper. Also \$1 may not be a lot to people who close to never ride Bart. Please push a clipper campaign when these changes are made.	X	X
R_233kdLKF0y05Tql	Get rid of paper tickets, like DC Metro did.	X	
R_1fZz5yPy4JNE00k	Get rid of paper tix.		
R_qxs5p0xAFYHMYTL	Go green	X	
R_BKVtVangnMla8Fz	Good less paper		
R_3HzwPoW6XOSLaLj	Great idea.		
R_Wd10eL6rqCOArE5	Happy to support more sustainable methods such as the Clipper Card, a reusable device, over landfill bound tickets.		
R_bmfKiBG7YkPnW8h	<p>hen in the Course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.</p> <p>We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and</p>	Unknown	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	accordingly all experience hath shewn that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security. — Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let		
	I agree with this changes, as it will make customer to buy Clipper card.		
R_2sWM3irJdqBpoOe	I think you should charge 50 cents per ride more when using paper ticker will help to fix this problem more efficiently	X	
R_24nRjhV0TwPqbC1	I already use clipper card, so I don't care	X	
R_2ANeciIqvZ1JTHw	I do not use paper tickets this would not effect me	X	
R_3qJsyABpXUYGzNt	I have a card. Paper tickets don't concern me		
R_120kg6QGrRhvWhy	I have a Clipper Card. I believe it has great usefulness as it is multi-transit. BART should surcharge paper tickets as they are not optimal operational use of resources.		
R_xh0LOynA2ts7rLH	I like clipper cards.	X	
R_30oGxdikE2ordRw	I like this because it is not an increase that the daily commuters will have to carry.		X
16th10	I love the clipper card! I have a muni monthly pass	X	
R_332tgQsSv8VMqvG	I personally use Clipper Card and definitely much simpler to enter and exit the gates. Paper tickets have a tendency to not get read all the time. Definitely a good option.	X	X
R_WczSJBuTH4Umnip	I say get rid of paper tickets altogether	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_3DhX9m7zROHCQcI	I strongly support this because not only will everyone using clipper cards make operations for daily riders more smooth but it'll also reduce significantly the waste that is caused by paper tickets in the environment.	X	
R_1dEtVVdvUy8L55x	I strongly support this, but Clipper may need to expand the ways you can pay (such as providing a way to deposit cash), in order to support lower income travelers. Increasing the surcharge without making sure it is possible for all riders to use Clipper would just heavily penalize the poorest riders.		
R_RaeUVjdqmQuN4Rz	I support this to make the expense for BART less to help decrease the amount of fare increases.	Unknown	X
R_bkm1TfoWY2NjP1v	I think everyone should use a Clipper Card.	X	
R_1py6UQIP8Jm15Hu	I think everyone should use a clipper card. It is easy to load, easy to tag. Incentivizing using a clipper over a paper ticket by charging more for the paper is fine with me. It will also reduce paper waste.	X	
R_2thtnRGdCZSQKgl	I think it is great incentive to switch to Clipper, I am a Clipper card user so it will not effect me. I also have a "guest clipper card" so when I have a visitor they also get to use the clipper card.		
R_1i9ZkkrzqTjYpMd	I think it's a great idea to charge more so we try to conserve the need to use trees for paper tickets.	X	
R_1cYbcRPkr83SI19	I think it's great save paper and use plastics	X	X
R_27g6eK34jVUj07Z	i think this is okay since it primarily targets visitors to the area and not current residents who are more likely to have a clipper card		
R_u4e9P3LPoCMqm8F	I think this is very important. Paper magstripe tickets are a technology that is several decades old. Paper tickets have many drawbacks. They are easily damaged. You lose them, that's it. Turnstiles often go out of service because of wear and tear from a system comprising many moving parts. Really BART should be Clipper only. At least this is a reasonable and well thought out intermediate step.		
R_2agXREQVNE0q0Zv	i use the card		
R_25GgOzYncLFLrft	I'm assuming most people who buy paper tickets are non-residents and tourists. Seems appropriate.		Unknown

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_25tLLKEmKKzSuGh	In this day and age there is NO excuse in not using a Clipper card when riding public transportation in the Bay Area, it should be common practice and standard to use one.	X	
R_1mltk9MwmN83GYK	Increase it more.	X	Unknown
R_1QtndLjmrghPB9Q	Install clipper card dispensers and ban paper tickets.		
R_2WAbU1Xwjnf5d4F	It is a lot for a short trip.		
R_3n7aqXYGzOrVCKz	It is more eco-friendly to use a clipper card than to use paper tickets	X	
FV3	It is needed to keep paper use down.		X
R_31No1otQPjqG4re	It makes sense		
R_DIB0yNuWI8Yc4kp	It will help make bus service better by reducing those who take a long time paying cash.		
R_3ffXsqEdWo237kG	It would mostly effect visitors, who won't have a reference point to judge the increase.	X	
R_2Si3BQPy0GG5yYo	It's better for the environment to be more resourceful and just use a clipper card. The only thing about this though is that if you're increasing the 1.00 on paper tickets, maybe consider lowering the 3 dollar charge on clipper cards. That way people see the clipper card as an overall better deal. Maybe put that money from the clipper card fee onto the paper ticket fee	X	
R_3RyeoUtEXaoWWxF	Its a perfect way to go green.	X	
R_xtJIRk06bvj5Ysx	It's time we move away from paper tickets. They get jammed and help break down equipment.		X
R_1oaRjeye1e0ejGP	Just get rid of paper tickets, as other cities (Philadelphia, Chicago) have.	X

FR1	No problems let them know	X	
R_a43unhYNlfW74xb	No sympathy for users of paper tickets. Price them higher and eliminate them soon.		
R_21ApvejZ0Q3MceH	No, it simply makes the most sense.		
R_1QKEz0tm8v92mvM	No.	X	
R_2wdFjASooqQgl1Y	No. Smart thinking!		X
R_x3N2jH3Wpt3Bx4Z	No.	X	
16th3	Maybe add a tourist ticket option?	X	
R_1EYgehVb0JtlBGc	Not reusable. Should be even more expensive		
R_AssLE7ORG1TIFxn	Now that Clipper cards are available at all station TVMs, as much I love it for nostalgia, I believe it is safe to discontinue the paper tickets. As long as you can set-up and continue the various fare types (youth, senior, economically disadvantaged, etc.)	X	X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	online or at customer service centers.  You'd need to upgrade the remaining TVMs to be Clipper compatible as well.		
R_2QMd4CQkna24vU6	One system is better than two		
R_2bOD08W3zvOtOWS	Other major cities like New York and DC have only cards. I do not find it inconvenient to use them.		Unknown
R_1ocdgEUrPpJTKrE	Other transit agencies have gotten rid of paper tickets, right? How did they do it?		
R_2abIW5KD81D7Fjv	Paper tickets are a huge waste	X	
R_2Bxt3CialiXXjXI	Paper tickets are antiquated.	X	
R_332qJrJb3SoSloR	Paper tickets are bothersome and cause delays at fare gates.		X
R_2aLTrJI5KeEGLtu	Paper tickets are wasteful.		
R_1jYObCYrhf27FTu	Paper tickets cost more than Clipper cards and should be strongly discouraged.		
R_1NgeOi70tWRmu0v	Paper tickets should be more expensive, but Clipper should be easier to obtain (some stations have broken Clipper vending machines). Also the campaigns for free Clipper cards for lower income individuals should be more prominent.	X	
R_2awsmjJX5t1tIgt	Paper tickets slow down the flow of people at fare gates and get wet and jam often.	X	
R_9ZapDlo3D0JWALL	People need to invest in clipper cards and get rid the paper tix		
R_1Cw39KmzDLl9ait	People should be using clipper so this increase makes sense.		
R_2Suv28RvwxXKcx6	People should use clipper cards, but they should be easier to use alongside EZ-Parking		
R_3QE7ddzMvcWhKhW	People using paper ticket are especially slow, and nobody ever knows how to use it.	X	
R_2ZNAEzV8VQHDHm	Perhaps there could be some sort of Visitors Pass paper ticket for a single round trip ride or a day and not charge more for it. We don't want to be unwelcoming to tourists who are coming here to enjoy our wonderful Bay Area and spend money in our economy! So u would recommend considering ways to not penalize the tourist or occasional rider		
R_1eQqov4i3zcn8tB	Please make the process of getting a Clipper easier so there are fewer people obtaining Clipper cards.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_V2Rjv2nT0pKRaFP	Pushing to use more electronic payments is good. I would strongly suggest that the clipper system is made a lot more responsive to make up for it.  For example, having to wait a few days for an electronic payment to show up is poor - very poor		X
R_SMN0crnDN3CCy9r	Raise it to \$3.00		
R_3MEGjBc3a6GqhwY	Saves paper and its convenient. Why would anyone not use it.	X	Unknown
R_5pwQ9UpMwwBUWAN	Should eliminate selling paper ticket, but allow riders to use them up for another year. They can add value upon exit if no more paper ticket machines. Just like new eBart stations, have Clipper machines only. However, I suggest there should be a time frame when rider can get a Clipper card out of a Bart ticket machine for \$2. (Later on change back to \$3.) This way will save cost in maintaining paper ticket system just as mentioned.	X	
R_03ZUsFbF6fCpA0p	Simply disappear them. No paper tickets, no problem. Clipper cards are easy to get and use; I'm not sure why anyone uses the paper tickets any more.		
R_T6l3XbUhjChrSct	So long as actual clipper cards are available for purchase at one of the TVMs at the station this is good		
R_2v68yqT4SRmZWFh	Stop charging \$3 for a clipper		
R_1CCiDTjwGyYbM6W	Stop selling paper tickets!		
R_2zSKkMG1l2OGfSH	Stop using paper!		
R_1pVx0CBUUGlhAne	Strongly support but make it easier for us to turn in old paper tickets. The surcharge shouldn't apply to old tickets we are trying to use up. Only newly purchased tickets.		
R_5A3u6W16Uj7Merf	Such surcharges should be coupled with programs to ensure that Bay area residents can easily obtain and maintain clipper cards, regardless of their income and available resources.		
R_1cY8j5ZKpQWVYxj	Sucks for visitors but ok		
R_yI9PqpbWaJn374l	Support. I have seen many people change their way to buy fares (including me). This	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	way encourages people are aware of cost saving and environment protection.		
R_3dEpV5zXlwXwifU	Sure do this, charge the f**kers who don't regularly use this service more.		
R_21bICHctGczSK77	Sure it will force them to get a clipper card	X	
R_esoWT7f7TNjt0dP	Tax out of towners! Also, be green	X	
R_3PAlnTvRYcpt4VJ	The better way to improve the financing of BART is to enforce the existing rules: No eating - No drinking - No smoking - No loud music -- All subject to fine as posted. Instead of spending money on better fare gates and fare compliance people, hire police or others to cite violators and extract fines. The violations will diminish, the need to spend payroll dollars on janitors will decrease, the cars will be cleaner, and BART will have less expense, plus the fine revenue. Why is no one else promoting this obvious opportunity?		X
R_21vVFzzze7y3viu	The hope is that native or long term Bay Area folk would use Clipper over paper. Tourists are more likely to use paper cards.	X	
R_2rAyMz8uS7yGOZE	The more clipper cards in use the better!		
R_YYo0j1I906QreXT	The more environmentally friendly, the better. Also consider renting clipper cards for those who are visiting.	X	
R_2nt0l6gp7dQjk7n	The only downside I see is for the elderly who don't necessarily want to use clipper-- although they still get a discount, right? I assume that discount would continue with paper tickets.		X
R_1QLPLlagIR8dgAp	The paper ticket surcharge may be a hindrance for low-income riders/seniors/out of towners who aren't used to using Clipper. But I believe that to help with these potential issues, we look at Clipper Cards being free-of-charge at certain stations or venues for these riders. And remind them that they are very beneficial to use around the entire Bay Area region.  With the advent of Clipper 2.0 just starting, it would also be in the best interests of BART to have the majority of fare machines be Clipper only as well.		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2ya5iYW0qYLbSB2	There's no reason to still be using paper tickets. It slows down the entry/exit process and jams machines. Get rid of paper tickets altogether and make everyone use Clipper.		
R_2VkYr3d6EsHAsVa	They will go faster through the gate.	X	
R_2dN3oyK9vAKRDvx	This actually makes sense. Load all the increases to those still using paper tickets.	X	X
R_2zMxWjyO2nZxrHX	This is a good move to save paper :)	X	
R_3k22LXyhRtFt7Fq	This is a really good idea		X
R_1onViMBHwFPHiyE	This might be effective in encouraging the use of Clipper Cards rather than paper (as a greener alternative).	X	Unknown
R_1eKstBrsTolmByU	This seems like an excellent strategy to encourage adoption of clipper, which has become easier than ever to access.		
R_Tozaa89v8WwC09z	Two points: 1. Incentivize getting a Clipper Card: the paper ticket surcharge should be more than the price of getting a Clipper Card. 2. I support the surcharge increase, but only if buying a Clipper card is as easy as buying a paper ticket (i.e. both take the same amount of steps and time at a BART ticket machine).		
R_6fotVm7bW56l7Wx	Use the additional revenue to pay for free bus transfers for Clipper Card users.		
R_Dc8BRQye9CysCkN	We can save paper	X	
R_3PRbgPZ1hHFRxnY	We should eliminate paper ticket all together and enforce Clipper cards - for the environment. But why is the Clipper card \$3?!	X	
R_2xMdnUfElXyr2tO	We should eliminate paper tickets	X	
R_8el3qs8NuSsxRDz	What happened to the bond money?		
R_2ydQ8vBBVEUV2U6	While I don't like seeing money used as a cornerstone for motivation, sometimes that's ultimately what needs to be done - I'm fine with it.		
R_3gi4nkTbkCez8lh	Why not just eliminate paper tickets, period? Have one system: clipper		Unknown
R_1HdkRVhjJohudEE	Why not let the user pay for their paper ticket even though I haven't been able to get a paper ticket in years unless I to go the fare machine.	Unknown	
R_3h5ykLdfP69CHwJ	Yes charge the tourist	X	Unknown
R_vUMcMEhb4q3B6x3	Yes less paper used is good for the environment	X	Unknown
R_5u2OtME0Urwiz7j	Yes please encourage people to use clipper cards and no more paper waste!	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_pcLufNKoNi8K9K9	Yes! How about a \$1.50 surcharge. Jack that surcharge as much as you can. It's totally ridiculous to still have tickets. Everyone has a cell phone there is no reason why an app can't be used like Muni has. This is a huge waste of money maintaining those ticket machines.		Unknown
R_2zl0Xt1lDkYPlxu	Yes, clipper cards are better for the environment.	X	X
R_cCTrZG0shbmYR4R	Yes, if you have no choice, then people would have to learn and follow the clipper processing.	X	
R_sNDdQwpacNsNo3L	Yes, many other cities do the same. Main impact should be on non-locals.		
R_2fHfam1bh1ypWQG	Yes, quit wasting resources. Make people go digital or card. Have officers checking cards for fare evasion. Cite criminals, make money. Stop gouging honest commuters.		X
R_9ssliqEP15Drp5f	Yes, the paper ticket is pretty wasteful, but important at times	X	X
R_3fv3zpZKW3gD5P2	Yes. Many other public transit systems (e.g., Portland's MAX, Chicago's 'L') have gotten rid of paper tickets altogether. Please disincentivize their continued use. A Clipper card costs almost nothing and is more sustainable.		X
R_1U0r65426p9Qakh	You must make it easier to get clipper cards in every Bart station for this surcharge to work.		X
R_2rr44vr1U23S3FX	同意加附加費，鼓勵人使用Clipper卡 *I agree to adding a surcharge to encourage people to use the Clipper card*	X	Unknown
R_3s006QkTNH7RQmR	提高紙票收費，減少紙票，鼓勵多使用Clipper卡，以便環保 ♻️ *Increase paper ticket charges, reduce paper tickets, and encourage the use of Clipper cards for environmental protection*	X	X
R_3NK6rc0k3XE8nvZ	提高紙票附加費，鼓勵人多使用clipper卡 *Increase paper tickets surcharges and encourage people to use clipper cards*	X	
R_3RaL00EebisxarI	50 cents seems fine, but \$1 is unfair to tourists or people here on short trips for business	Unknown	
R_DMMkDBJt03RiFk5	Again, there are some equity issues with over-taxing paper tickets, but in general I support this policy. I hope there are ways for		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	those who are unable to acquire a Clipper Card (no access to credit/debit payment, privacy concerns, etc) to access reduced fares.		
R_2DZhdCIjKzZNne	As long as there are Clipper options for short stay visitors to the Bay Area.		
R_2z6D9dXGpMGHMqv	Bart would need to do more to educate the public about Clipper cards vs paper tickets.		
R_3spjOE3hbCFsGmb	charge the tourists more, I support it.	Unknown	
R_aeH4TPLRdEE7Lvr	Clipper cards are convient	X	
R_2wjEHTHQFDgwmVA	Clipper cards seem widely available, seem to work well.		
R_3rZDk8c6luDeIL8	Clipper cards should be free to acquire.		
R_ywQqjdCUBzfhYBr	clipper cards should be free to encourage more use	X	
R_3rZIZFijBLCLRks	Clipper is better and more efficient, but I don't see this surcharge convincing people to move to Clipper.		
R_3qgkmTjErwFAv6D	Clipper media cost high for single use		
R_2YwYP2VaDgWWIcn	Clippers do cost more than a regular paper pass and some people don't use clipper other than Bart.	X	X
R_3MhyB1EWeB8pkbx	Conceptually I agree with this but have concerns with the demographics who use paper vs clipper. Is there a potential to unduly burden certain people?		
R_1daA1zs94rMN3I	Concerned that this could disproportionately affect lower income individuals.	X	
R_w7w401uOYgOYpQB	Consider any negative externalities, whatever they may be, to this increases	X	
R_3MFgl7ztRnmXWAJ	Create a way for us to use Clipper Card on our phones as well, and I would strongly support this!		
R_1ONtsa9DpSTJy5L	discourage paper tickets; they're wasteful		X
R_3jSRNEIIVcR9mdP	Expensive penalty		
R_1Dx1jWdNh0KkkgM	Get rid of the paper tickets all together.		
R_3KZcMsPcUblxeW	Good idea save trees	X	
R_2WGz004Z95uzzyI	Good idea, except paying for bart with clipper is more complicated than it needs to be. Reform payments do the entire Bay Area uses the same fare scheme including muni and buses	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2v1jVwMIyG0UINo	Have the Clipper provider to produce more special designed clipper cards to entice more customers to use clipper.	X	
R_ZHV9qEYNm5xAwvf	How many of these paper ticket holders are low income, no-credit card holders?	X	
R_2EzrEbKi0UWjSFu	I agree strongly, but I already have a very digital life, so I don't know what heartaches effectively forcing a Clipper card would create.  We will also want to make sure visitors and non-English speakers also have clear and easy access to a Clipper card for their visit		
R_1fdDD8CquMAX4Ne	I agree that encouraging riders to use the paperless clipper card is a good idea. I also would like to see Bart work with employers to increase subsidized fares for Bart riding employees.	Unknown	
R_3m4PqG8RV9Zlc1X	I agree with a surcharge for paper tickets. A clipper card is so convenient and better for our environment if the majority of commuters would use it.	X	
R_yt1EZGa0JIX6zYd	I am curious whether that surcharge will impact low income populations unproportionally.		Unknown
R_2YWj62oX4glu0Sp	I am fine with an increased fare for paper tickets, but DEAL WITH THE FARE EVADERS.	X	
R_2YIWUB8TN38ZMdD	I do think getting a clipper card is a good investment	X	
R_yL51PJQKoWRecaB	I do think increasing the paper ticket cost will also increase the people that try to avoid the fare by jumping the gate, so this may increase a problem that the system already has. Fare avoiders are not prosecuted and therefore they will continue to do so and most likely spur more people to do so.		X
R_3MA1trMUv113NdN	I don't see why anyone would even use a paper ticket unless they aren't locals.	X	
R_2QnboxWejMGDHFfi	I have a clipper card and I think most people should. This might unfairly penalize visitors, but conservation is key.	X	
R_1gi46u4n9W0gDOj	I imagine a decent % of people still using paper tickets are visitors, so I'm ok with a higher surcharge		
R_uhbUH2NPd954Acp	I oppose this if it's required for people to have an address to get a clipper card - i don't		X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	think homeless riders need to be penalized more than they are for riding Bart		
R_z2Vw4HXkdEDrr0t	I see why this charge is desirable. Are there programs for the most financially vulnerable to get access to free Clipper cards that they can put money? I wonder if that's a deterrent for some individuals.	X	
R_1LGbpXfxhIw1Nqg	I think Chicago does this, and in fact makes it much more expensive to buy a single-use ticket rather than a farecard like Clipper. How would the proposed \$1 surcharge compare to transit systems in other cities? Maybe a \$5 upcharge for a single-use ticket makes more sense...		
16th8	I think everyone should be using Clipper card. Make it easier for all peo. Set up tables to sign up @ stations.		
R_3je9YFbLzacT7C8	I think it is a good idea, it would decrease the demand for paper tickets and push towards clipper cards. Cards are more reliable and last much longer.	X	
R_31gYCHaZYiPXkJT	I think it's a good idea but I think about tourists and those who do not use bart regularly. Also, will there be clipper cards available for purchase at the stations? The more clipper cards are encouraged, the more available they should be.	X	
R_ptLweN1xvAuK1pv	I think it's mostly good but it also hurts tourists who have no use for a clipper card		
R_xbyiXQLxT3empgd	I think magstripe tickets should be Eliminated immediately. I'm happy to see a \$5 dollar surcharge		
R_1gw6mEngYzx8k6s	I use clipper. How about raising the minimum paper ticket value to \$5 (+\$1 surcharge.) Maybe that will combat the homeless using Bart as a shelter.	X	
R_3JE1NCiRhjtMvGp	I wonder if it will incentivize people to get a clipper card, or disincentivize those who use it infrequently, like tourists.		Unknown
R_29oa999BfEwHIKM	I would like more transparency about what these funds would be used for prior to the expansion of this. I support the attempt to reduce paper but would hope this could be used to support other incentives or reduce costs for others. For example, maybe an increase in the discount for those who use the clipper card.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_2zqHD0jq9xFmFEt	I would like to know who most paper ticket users are. If they are primarily tourists I support it.		X
R_u98tiRJTdFGHdFX	I would support this if there's a program to make sure low-income riders can get free clipper cards.		
R_1Eh5GNZgP7Ap0N9	I would support this. Paper tickets slow down entry and exit into BART stations and are mostly used by tourists and people who just occasionally take BART and thus are unlikely to be strongly impacted by the surcharge. A dollar seems a little steep though. What about fifty cents?		
R_2zoNitL2hBed6eT	I've never purchased a paper ticket so this doesn't affect me that much	X	X
R_2dtiKMc3fM0OIQL	I'd rather see paper tickets just gotten rid of, instead of maintained at a high cost		X
R_200rtZPlsnHe6sA	If this helps the environment and helps thing run more smoothly then this is great. I wish the parking integration would improve along with this though - I often use a ticket because I don't have cash for parking		X
R_33shq0EUtKzl3yN	If this is a significant benefit to BART's operations, why doesn't BART simply phase out the paper tickets and institute a 100 percent Clipper system? Why is the legacy paper ticket system still in place? Transit systems upgrade and replace old fare media. When's the last time you used a token on the New York subway?		
R_VItKb17fxesbUpb	i'm all for making paper ticket users pay more than clipper users, however, all fare machines and clipper kiosks need to be updated to accept modern payment options such as apple pay, especially in the wake of the recent month-long walgreens system disaster which made refilling my clipper card, as someone who uses a digital wallet, a real pain in the ass.		Unknown
R_3JeWZdKk2MHRyxy	In general I support this, however I am concerned about the impact to low income riders.		
R_1Q4uxQbTnf9XW1X	It doesn't affect me, so I'm personally OK with it. But will this hit passengers who are older, transient, homeless, housing-unstable, have disabilities, etc.?	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2ffE4aXilmJQ9tH	it encourages riders to not use paper but could be problematic for people that don't have and can't get clipper	X	
R_3lYdz5qsfscy43	It is important to be green.		
R_1F2NTQ4eTJOxl9G	It makes sense, a lot of cities use paper ticket surcharge.	Unknown	
R_1DGyvOyQ1lC363G	It will save paper	X	
R_1g0lApHyIWfkNRQ	Kind of annoying but I'm fine with it	X	
R_1mrcJZQqx7bZDTo	Less paper is good		
R_3F4Nkiuuz36JKDN	Less paper saves paper, I support		
R_2dGTFYG9Upf7c3Z	Make it easier to get a clipper card and more people will use it. In Seattle for example, you can purchase an Orca card at the light rail station!		X
R_0e64iEjNiExg0V3	Makes long term sense	X	
R_2dKqVo5ykn9S942	Maybe do more advertising about paper ticket on all bart stations and train	X	
R_1EcmfLYmiuOGPsz	More people will not pay, jump the gates	X	
R_OqbC0ASQbfVzQxX	No	X	
R_DkK2CqUqB9VFjMd	No	X	
R_9nwVQ8A3hAB1ieJ	No		X
R_1F3quIcKR3CLFxn	No	Unknown	
16th5	No	X	X
R_3QYLP1udKYGK4YV	No comments	X	
R_aaBGuBHiVbejiMx	No creo considerable aumentar tanto a los tickets de papel. La estación que uso (Fruitvale in Oakland) casi siempre tiene una línea de espera larga para recargar la tarjeta de clipper. Además la mayoría de las veces no funcionan y tiene uno que llamar al agente. *I do not think it's a significant increase to paper tickets. The station I use (Fruitvale in Oakland) almost always has a long waiting line to recharge the clipper card. Also most of the time they do not work and you have to call the agent.*	X	Unknown
R_2altrN8FQFaRNx4	No i totally understand the purpose of this and think it's. Great idea	X	X
R_3e1pprlqfWSQKqt	No, I do not.		
R_3P4ARTIPYw643tP	Nope	X	
16th7	Not everyone can afford reload on clippers or have means to purchase maintain one. The Walgreens in my neighborhood is always	X	X

	down so I do it online. Not everyone has internet.		
R_00LntxjcsPA7juF	Not sure which one is environmental friendly. I would support based on that	X	
R_3Ma6zHkAn48paTf	People who ride BART regularly should get a clipper card to increase efficiency and hold down costs. Only tourists and occasional riders would be affected.		X
R_2uL2f6BkaHWKuEh	Pretty high fee. Will need easier/more convenient ways to get a Clipper card.	X	
R_3efufZ3G4OsVuKJ	Seems like a good idea.	Unknown	
R_2Vwinbc7J9h8BvA	Should be a way for Clipper card holders to purchase paper tickets w/o the surcharge for out of town guests or similar. Perhaps a cap on number of available tickets per annum.		
R_3lXFTU5GLBtOtyu	Teach people about Clipper and let them know it is cheaper to use it.	X	
R_u4CtQhycnabklR	That seems like a reasonable penalty		
R_28M1e2BpCq9Kkj1	That's fine; we need to reduce paper consumption regardless. However, you need to install more add fare machines that take credit/debit cards as well.	X	
R_24CdHRXsewPy0Xz	The amount of both the Clipper card and paper cards should be more closer together, so people don't think they're wasting their money on a more expensive card.		
R_3DuW9WBspwcESVb	There are cost barriers to the Clipper card and the questionable customer service that people receive with the Clipper card.	X	
R_2pWWOwMxLR1070F	They should advertise Clippers better and be more easier to get.	X	X
R_10IvFRASLYVKoUx	This action could potentially encourage incremental fare evaders	X	
R_1lyFLVTOTkQ250u	This depend on what is the cost to buy a Clipper card.	X	Unknown
R_6ESum7HnUsbGKSR	This is great but you need to make it EASY to get a clipper card. Not at a specific location but st a vending machine at each station.		
R_1gbYBnfu91ut7VZ	This needs to be clear for people. BART should focus on launching initiatives to wean people off paper tickets. Such as a mobile app like sfmta.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_3DkH1bpVuX5VjjF	This seems sensible, but there should be study of why some regular riders continue to use paper tickets, and whether the surcharge increase would have an inequitable impact. I have to wonder whether some lower-income people are deterred by the \$3.00 charge to get a Clipper card. Perhaps some of the savings could be directed to reducing the Clipper fee, or a (permanent or temporary) program to give free Clipper cards to lower-income riders?		
R_1ruk59E148U7yET	This strategy would target occasional users and tourists, which I guess we care less about.		
R_3JJJjHHWWkZ2zp	This will disproportionately affect people who are visiting the Bay Area or people who rarely use the system. Maybe base the surcharge on how large of a ticket they are purchasing.		
R_1It3rtSDkZ2jLBk	ticket entry is slower than clipper entry		
R_3GiVEkWbg8xH2H9	tough trade-off: paper is (theoretically) recyclable while plastic cards are not BUT reusable is way better than one-off	Unknown	
R_s6AABADkU3K4enT	Using clipper card is more efficient, environmental friendly, and saves cost.	X	X
R_3FVuMST4uVmqwTP	While \$1.00 is certainly a lot, by this point in time there is pretty much no excuse switching over to Clipper. It's only \$3 (or free to those who qualify) and doesn't hurt lower income individuals as long as they have already switched over.	X	
R_2U4cbpU08uzkEyM	Will hurt visitors and those unable to figure out the process of obtaining a clipper or unable to hold on to a clipper		
R_3nuxjj9BgGnfwoq	Will this cause a decrease in revenue because more people will jump fare gates? (Or tourists choosing not to ride?)		
R_vZZU8kALIBLeqm5	With the price of maintaining fare gates, I support this initiative.	X	
R_ebAAvB21tjwLkqt	Would be more supportive if you also introduced tap and go via cellphone like they have on the London tube.		Unknown
R_1dbDYRcO10muppc	yes to cut down on paper	X	
R_1Kaa8scbzWeKswQ	Yes, but give those who may be tourists all day passes at discount, aa New York subway has, as tourists are the ones likely comprising much of that 15%. Let financially motivated		X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	tourists help subsidize the BART building projects by motivating them to ride all day.		
R_2TvhYad1NQdropK	Yes. We need to take care of our planet too. People should use only clipper cards.	X	
R_3HB1eU2NGVCaRXN	You do not want to over-penalize the visitors who use BART		
R_3LXWkcvFgKLWhXA	\$1.00 seems a little steep unless you plan to retire and therefore reduce maintenance of paper ticket infrastructure.		
R_1fZu8gVlSi7QtTY	A bit excessive for visitors	X	
R_1jEaSxWOTCQin75	A lot of people rely on paper at first because they may not know how to get a Clipper card. If you're going to use negative incentives, you should also increase the ease of getting a plastic card. It's unfair to punish without providing easier paths forward.		
R_VWprPYqtCyGPuxz	A way to incentivize clipper cards is to place a deadline on the availability of paper tickets so everyone who uses bart HAS to purchase a clipper card	X	
16th6	Although its convenient to get cards at Wallgreens, there should be options to buy clipper cards in each station.		
R_2S0Ped2AaExkiL	Are the 15% tourists or residents?	X	
R_1CfPtW7Ln4xEa5v	As i said before, I use a clipper card so I won't be affected if paper tickets increase.		X
R_3VqR3GYdtfAE5Xz	BART should explore other contactless forms of payment		
R_3rqgBTBKozmlzpD	Before I would decide on this increase, I would need to know who this change adversely affects in our ridership. I would be strongly opposed if it affects the poor or underserved riders. I would want BART to conduct quality research into this information. \$1.00 more is a lot of money for the poor. Additionally the poor tend to depend on public transportation as their only method.		
R_31tvWriDLRH0u3w	Do people primarily purchase paper tickets when they forget their Clipper?	X	
R_3CPFSncoJp67tDW	don't use paper tickets		X
R_3Rt0VkaZ9H4Lojt	For new people who will take bart once in a month it will be burden	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2D5Lsak7Yxbpnj9	For one time visitors or someone don't stay long enough to get a clipper card, I don't think it's fare to charge them \$1 on top of the fare price.	X	
R_e2U4FREnbh1VC9P	For regular commuters and locals, the surcharge makes sense, but I'm worried about visitors to the Bay Area for whom the Clipper card may not be usable or practical, and thus they need to use paper tickets.	X	
R_2chDQbWqEEP7fuh	Getting rid of paper tickets is a good goal, but it seems like not enough BART stations sell new clipper cards for such a high surcharge to be palatable.		
R_51tdYVFRLfPgDId	Have you done studies of who these paper ticket riders are and why they have not switched over?		
R_sbVy5rkABQGUXwl	How will you decrease the amount of homeless being disruptive?	X	
16th11	I agree we should go green, but I think the overall problem lies with the bureaucracy of BART itself.		Unknown
R_2rAyhHsuaWR9Kuk	I am concerned that this becomes an access and equity issue - lower income people are less likely to have clipper cards and this more likely to pay the surcharge. Make obtaining a clipper cards free for all Bay Area residents and I would support an increase, but going to \$1 seems like a steep soak-the-visitors type tax. How about \$.60	Unknown	
R_2wAcCLVJHE2oVKz	I am indifferent to increasing the cost of paper tickets vs. Clipper but has there been any research / survey done on WHY the 15% still using paper are using it. Are there any requirements for the Clipper (i.e. valid mailing address, etc.) that are making that 15% hesitant or unable to use? Just curious really.		
R_aXmnrbsls3jndrb	I believe trips from airports shouldn't count - I feel bad for tourists		X
R_29tRaRZptf86rFF	I can see the utility of the Clipper fare payment system, and use it myself; I'm dubious of any proposal that provides BART executives another avenue to pad their bank accounts.		
R_3sGi1LWT87GC3L	I can see why we should go to clipper, but one time use ticket passengers still need paper tickets. Cheaper to make than clipper cards	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_2SD0QfyzSYhxnH	I don't understand why they don't want to use the clipper.	X	X
R_1CigKFM0YYMDdIZ	I don't use paper tickets but my question would be whether free Clipper cards are made available to low income folks.		
R_2aJJYtdMGcgrcAD	I don't have issues since I always use clipper card	X	
R_1F8f7afrDWkUoTL	I don't mind charging out of town visitors more to use BART, but I wonder about local residents and why they don't use Clipper and how they are doing financially etc. I don't feel like I know enough to know if this will be okay or harmful.		
R_2xxcIUjc9AhAnjB	I don't really care, personally, because I am a clipper user already so it won't affect my bottom line. If you can make more money from people who aren't me then go for it.		
R_2dzQ4bWSFeLaXs8	I have heard that this will be harder to afford for those who don't have the means to keep a clipper card, but am ambivalent		
R_1kZD4M059AeNZ59	I live here and use Clipper so the surcharge does not matter personally, but if I am a tourist visiting here for a short time I would not like it and may choose Uber/Lift over BART because of the unkindness/unwelcome BART attitude against casual riders/visitors. If you like to promote the use of Clipper, Clipper should be given to everyone for free.	Unknown	
R_1r3otdDu6Pb83ZM	I support stronger efforts to prevent fare jumping	X	
R_3EL0n3TvaqTnBgp	I think a dollar is fair. Increasing it just seems unreasonable for tourists in the city or those who rarely use public trans		Unknown
R_vCsfxYAMhtkkGD7	I think there is a delicate balance between incentivizing and being too harsh. Increasing it too much might penalize those that might not be able to afford to replace their clipper card.	X	
R_3F3zeD0kCeml95z	I use a clipper card so it doesn't affect me	X	X
R_1CDQhfbeB1RpXE3	I use Clipper, but the need to punish non-users of Clipper really suggests that "the Bay Area's significant investment" was a poor one. A better customer experience should sell itself. This survey question does not explain why those 15% of riders are still using paper tickets, nor does it describe other things	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	BART could do to make Clipper more attractive to those riders.		
R_1K3kmv6XsH4mAWZ	I use clipper, so paper cost increases probably wouldn't much faze me. But it'd suck if I lost my card and had to resort to paper for a while, which certainly has happened before.	Unknown	
R_2Sjq3HdskOrfeKc	I would need to know more about that 15%. For example, what income bracket do they fall into? If they're lower income, I would not support the increase.		
R_334nRRtlWkwl80S	I would prefer if certain costs weren't always passed on to riders and tax payers.		
R_2S7T3WJOYNf0Mcq	If good for environment, it can be done	X	
R_2Xajv4x6NhAhM22	If the safety of the riders are also increasing it will be ok	X	
R_BLZwWpUIxlu2jaV	If you want to incentivize and encourage people to use Clipper, maybe make it MORE expensive to buy a paper ticket than to buy a clipper card?	Unknown	
R_1gdru1GL3lqWVZ4	I'm concerned that paper ticket fees could disproportionately affect lower income riders. If there are any studies that show this is not the case, or any way to help offset that cost to Saud riders (if it is the case), then I would be in support of the fee increase.		Unknown
16th13	It benefits me b/c I have a clipper card, but I imagine it's harder on people w/ lower incomes. PS I hate the new BART trains! Not enough room & seats are too high		
R_1ojUiBSO9bsN8WJ	It depends as a lot of travelers take Bart and a lot of temporary commuters take bart. It should be affordable for them as well to use the public transport. Increasing paper ticket might discourage everyone in general	X	
R_1CJk0KwStmLGD5Q	It is line with what some other areas do with public transit. I think it penalizes infrequent riders who may not want a regular card.		
R_10Vg3Twcvc0fPuc	It might be unfair/give a bad impression for tourists using the system (who wouldn't have a need for a Clipper card).		
R_2pW9nTUAFTIMbSy	It should be easier to obtain a Clipper card for tourists.		X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_28B6BifDEHnImbu	It would be much better if there were options to purchase Clipper Cards at the stations.	X	
R_1ezs4wMfB6tNefl	It's a good way to get people to use clipper! However, tourists may not be very happy...?	X	X
R_238ioSACuC18V7X	Make fund transfers from card to card available and easy to execute. The incentive to use the clipper card is good but you should allow for fund transfers.	X	
R_1g7ryJSqlkPmAuz	Many riders using paper tickets are tourists so charge away. Also paper tickets are wasteful and more prone to problems.		X
R_3RszpsEX1tng5hu	N/A	X	X
R_1pnRoD1enVYdTxH	N/A	X	
R_bl6KbM3k0ki41IR	No	X	
PB2	No	X	
R_39q10i9xpKK5y05	None. I am personally a clipper card owner.	X	
R_2CqXtWeWjmtFZmk	not everyone can afford to buy a card and you are now forcing them to do so. Stop Fare Evaders, make them pay their tickets, make it difficult to jump the gate.		
R_1Q0zm1BfaaXLU6c	Only if it's not penalizing the poor who can't come up with large lump sums to deposit as balances for the cards.  For better PR, rather than making it a service charge for paper tickets, give clipper card holders incentives with a reduction in fare or a 5% bonus for each deposit of \$50 on clipper.	X	
R_2Cv9PryNG0JrmWS	Paper tickets are possibly friendlier to occasional riders		
R_2xDJZyemSQu1250	People only buy paper tickets because there isn't an option to purchase Clipper cards at all BART stops. If you put machines that sell BART cards at every stop, you should just eliminate the paper tickets.		
R_3fH40Pg8rXGNbyt	Release more information on the 15% of riders who still use paper. Is it tourist? immigrants? What are you doing to inform them about Clipper	X	X
R_Wfe6AsQYmrjxmw1	See very limited benefit in using the Clipper Card. Why should non-commuters be penalized for not needing to have one.		
R_3CNTBAmSnHnDGX8	Seems a little like a cash grab to me	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_265Da4Z9De6gAUX	The surcharge is essentially a tax on tourists/visitors who use BART, and doubling it seems excessive. But go ahead and squeeze every penny.		
R_3FKbvhABAkPOWzI	The surcharge should only be charged once, when the ticket is purchased. Applying the surcharge every trip you use the same paper ticket seems excessive.	X	
R_2axbDCJzq27SUnY	This is basically a tax on visitors.		
R_10D85u8LiUeFaKh	This is only a viable option if you also make the TVMs sell clipper cards, or expand clipper card sales to every station. Otherwise it's going to impact primarily the poor.		
R_20YAuJ401NtbPqI	This would be unfair to the homeless and the disadvantaged who don't have much, can't afford to keep money on a Clipper Card to ride the train and will not be able to access the fund on the card is needed for other purposes, such as food, medication, bare necessities. Go after the fare evaders for your money. Simple as that.		Unknown
R_1mPEQoDsqJJrYcY	We need to find an option for those who can't afford a clipper card.	X	
R_3DfRPwHZPdx78bv	we need to keep in mind occasional users and tourists		
R_123zfGbTcbX52kP	When you forget your Clipper or have a glitch it's annoying to have to pay more, but I get it		
R_plX3V6g5dnnYIPn	While I strongly support the use of Clipper Cards for regular BART riders, I have friends and family who occasionally take BART to the airport or events. They don't have a need to maintain a clipper card. Some people come from out of town and may use BART 1-3 times a year. Is there a way to distinguish a regular rider vs. infrequent travelers? Another example could be students going on trips. What if you stop discounts from fares when using a paper ticket (i.e., you only get the fare discount if you are using a clipper card).		X
R_2xV0q9XHJCI70f9	You need to sell clippers at all Bart stations	X	
R_1IbK2DkeqF03jMA	You should go ahead and eliminate paper tickets. Use savings to reduce or eliminate the charge for a new Clipper card.		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_3scz8MVq3vZGOxx	You're never going to completely get rid of paper tickets because you service two and a half airports. Travelers from out of state do not have the time/patience/paperwork to just get a clipper card, especially if they're staying for five or ten days. I'm fine with discouraging regular use of it from commuters and such, but c'mon, don't kid yourselves. You aren't going to be 100% clipper unless you can find a way to just put credit card swipes in as an option for people who don't have clipper.	X	
R_urfl9Sk8DcXgefn	\$1 per ticket is a high surcharge already -- I feel like this unfairly penalizes visitors in the area who want to take BART during their visit.		
R_RFymm5ZKrM7fnq1	50 cents per ride seems like a quite high surcharge already. Without evidence I'm skeptical that a \$1 cost would significantly increase uptake of clipper cards.		
R_1fcNW1LV5LBFzj8	a 50 cent surcharge is a one-dollar surcharge, given most trips are roundtrip & that seems sufficient		
R_BDHVDTd32pVH10F	Again, it would depend. How would this affect tourists? I think it should increase incrementally to see the effects, same as fares. Also, it should be reduced if the economy is not good back in 2008.	X	
R_1owegT8dMWx7S5p	As fare increase - ridership will be reduce. I don't see people with paper tickets slowing the process in entering the Bart stations. I see people not familiar with the paper tickets holding up the ticket machine.	X	
R_2WGy6qJWlquqS7	Bart already acknowledges that the downtown area has many tourists coming in and incentives them getting the clipper cards to take them across the city via the clipper stations in the Embarcadero. If it truly wanted to recruit more people to use clipper cards there would be small clipper card kiosks at the other Bart stations.	X	X
R_4GaDMuGcJYkaLkt	Bart needs to focus its efforts on getting ALL riders to pay for riding the trains. This paper surcharge is short sighted. Bart needs to focus on recovering current revenue streams.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_1oFPUQmosKtMeM9	BART needs to get more creative in how it increases revenue.	Unknown	Unknown
R_3PZ8mbEGSjHUNwT	Bec poor people who don't have credit card can't use it at your auto machines	X	X
R_VKyZtfs2AApsAaR	Before increasing the ticket surcharge, I'd like to see an analysis of who uses paper tickets, to ensure vulnerable demographics are not disproportionately impacted by it.		
R_3psgsLEAvbhjv4	Clipper are convenient but are a hassle to replace if lost	X	X
R_3QGLmujilyeYfC7	Discrimination & penalties only alienate your customers. Not good business practice. Try positive clipper bonuses instead.	X	Unknown
R_1jKgyMcOhW8T8gs	Doesn't make as much sense for visitors		
R_bJeHoAoTd8hEyOJ	Don't penalize the remaining 15% of travelers. Maybe they have a good reason to not use Clipper. They could be visitors who aren't going to get a Clipper card, or a resident who doesn't normally ride Bart enough to justify getting a card.  My wife and 2 of my kids don't have a clipper card because we just haven't gotten around to it. Obtaining a Clipper card for a minor is time consuming-- someday I'll get to it.		
R_3knBB8sz07rP5tX	Find out the reason why people still use paper.  Also most tourists won't have a clipper card and would've to pay extra.	Unknown	
R_3oGCz mh2v04m2ER	Fix the clipper system with instant application of purchases to cards, allow transfer of balances ONLINE from one card to another. Too much manual/phone call intervention right now.  Paper ticket surcharge penalized occasional riders.		
R_31Awtk77L8sK67e	For the people not riding BART often, the cost difference is too much.	X	
R_1nMyRkj7Zv9k8Yq	Greedy against those visiting		
R_WiBMjQJGsqkfPoZ	Have fewer paper ticket machines and gates available for the people that don't or won't switch. When they get tired of waiting in line they will switch.		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_27xsl20Dle85zsn	How about getting the fare gates to work first. You scan your clipper card and it doesn't work	X	
R_2fChMSOcPA75qtn	I am Clipper card user daily but there have been days where I've accidentally left my Clipper card at home. Plus there are plenty of people who do not quite understand the technology.. how to load these cards or how to report it when its stolen which means they can lose a lot of money. They use the paper card because they know what to do with it & don't overload it with a lot of money that can fall into someone else's hands. I think a surcharge of \$0.50 is more reasonable than \$1.	X	
R_pAuuRWuSgBwypjj	I believe the surcharge now is sufficient	X	X
R_3IQNKQmTzLvIQeQ	I currently use paper tickets as I am an infrequent BART rider. I use my Clipper card for MUNI only.		
R_2ZQ6ZW0WbgjmE10	I don't believe Clipper is accessible enough for this to be warranted.		
R_1KiGvnWzdQpUtqZ	I guess this makes this better for regular commuters but thinking outside of my own interests this seems like a very steep charge especially as it's pretty difficult to purchase a clipper card (not available in most stations).	X	X
R_1qaBS4S30DxphOV	I love the Clipper card so I can see the sense in this proposition BUT it does penalize tourists and casual visitors (most of the frequent users do have Clipper cards). You would have to weigh potential loss of business for this set of customers vs. that increase to \$1. God forbid they use Uber or other car instead due to increase in paper ticket fare. Likely, paper card customers will buy BART tickets anyway because driving is such a nightmare these days...		
R_4IqmeOPfdfY9EmI	I think doing this will discourage riders to use Bart as an alternative when commuting if they don't use the system regularly		
R_2bVI0umeKmcAe6P	I think increasing the paper ticket fares to \$1 extra screws tourists/visitors to the area who aren't regular BART riders but use the service to/from the airport. Fine for the business traveler who will tack it onto an expense account. Not so much for the family of four on vacation.		X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2U448dJZlGJ80v8	I think it should be phased in gradually and more resources should be provided targeted to the paper fare users.		X
R_1nSZONXVMJWT26c	I think there needs to be a better card than clipper that can be reloaded instantly through the phone a \$1 charge is kind of ridiculous as the clipper card isn't much better just saving convenience		
R_DBqlveUuqKDxSyB	I think this targets the poor and tourists. Many people don't have bank accounts or credit, this directly targets people who don't have those means, or may not want to use those means. Sure, you can pay cash value onto a clipper card but you're only going to get all people to do this, especially tourists.		
R_237VTkjzAThfZiH	I think this would be a hardship on those who already have a hard time affording to ride bart.		
R_2BaeHhDv3lxfZF	I understand the reason for this but think it should be a little cheaper to start .		
R_1mwpVArd3Pa4PrK	I worry that this will affect those who don't have bank accounts or credit cards to have a clipper card.	X	
R_3k0NqcV8gHNZ0iz	I would first want to know more about why these 15% are still using paper tickets. This increase only makes sense to me if this would actually decrease this percentage.		
R_3FXQqMo5A9H6mfH	I would oppose the increase to paper tickets, specifically with the interest of visitors & tourists to the city in mind. I would hope they would be encouraged to utilize our public transportation system, as I would do in visiting other cities (though I know this idealist way of thinking is not often shared). The benefit is less cars on the roadways and more people using the BART system.	X	
R_vDCWqYkGKX9x6nf	I would oppose this additional surcharge because this policy tends to penalize tourists and visitors who would not ordinarily have a Clipper card, and therefore lower the Bay Area's reputation as a tourist-friendly destination.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_vJivxoHJCgveElH	<p>I would rather see single use tickets switch from paper to a scanable plastic. I am thinking of the systems in China, Hong Kong, etc.</p> <p>This allows a single type of processing (rfid scanners) while still allowing tourists and visitors the option to purchase single use tickets, and not track down a separate spot to buy clippers. If they did buy Clipper cards, that itself would lead to waste because they don't recycle through the system. Ideally there would be a receptacle to recycle the tickets, perhaps even with a refundable deposit.</p> <p>Naturally, the plastic cards would be more expensive. I support an increase in the tickets surcharge then. Again, perhaps a deposit in addition to or instead of a surcharge</p>		
R_e3ZwKtEoXxjv21	<p>I would support (and was happy to see this change when it happened) this if the fraction of paper ticket holders was higher. It's unclear from the text above what benefit would bring to reduce this fraction to few %, unless the idea is to make it zero in the future (but then a better mechanism needs to be in place for visitors).</p>		
R_3qwjj84rgAytiYm	<p>I would support getting wider adoption for Clipper cards, but, unless Clipper Cards don't cost \$3 and unless the fare gates can take Apple/Google Pay, increasing the surcharge is unfriendly for visitors and infrequent riders who shouldn't be expected to be using (or constantly carrying) a Clipper card.</p> <p>Chicago's Ventra system's paper tickets are NFC-based rather than Magswipe, and I'd rather see alternatives like that be explored.</p>	X	
R_1H0JdqDCfUZjejX	<p>If paper tickets are penalized, it seems important that there be a subsidy for low-income people to get Clipper cards without needing to pay the up-front charge.</p>		
R_vPsvWtdTcEm6Exj	<p>If the fifty cent surcharge didn't incentivize people to switch - I don't see how a \$1 fee will make much of a difference. I think there might be other options to explore first.</p>		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_1ILBi5pXqPcnZ6m	It doesn't make sense for some people to use a Clipper card. why should they be penalized?		
R_szn3E9GgtgmCyL7	It may import few who doesn't travel regularly and have to buy paper ticket with increased price.	X	Unknown
R_2zOc05nXhARIAvL	It seems like it would disproportionately affect people who aren't stable enough to get and maintain a Clipper card. (And tourists, which is fine.)		
R_2uCihIEUTqxTWSN	It seems unfairly high.		
R_x4JiOAoVoUHUFq1	It would be better if 1/2 your machines actually worked and they were easy to use for people not accostomed to the system. The amount of people who are clueless and need help at your machines is astronomical and really unnecessary if they were in any way intuitive. ALSO F**KING TAKE CREDIT CARDS AT ALL OF THEM. This debit card s**t is NOT OK.  Also the London metro transit you have been able to just use your credit card to pay without an oyster card FOR YEARS. get your s**t together.		
R_gC1oFFfibjpDOAF	It's unfair to punish people who may need to continue to use paper tickets.		
R_UgehAsrlcQrU6Vb	It's unfair to the most at-risk who may not have access to Clipper cards.	X	X
R_1liuuLE0013Yo1u	Just another "screw you" to tourists, who already have to put up with your filthy stations and inefficient service.	X	
R_12mpdafG2k1paJH	Me parece que los \$0.50 adicionales que actualmente se cobran por usar boletos impresos es un recargo suficiente. *It seems to me that the additional \$0.50 that is currently charged for using printed tickets is a sufficient surcharge.*	X	
R_8iVLnzzZRFQUoIV	Need to make it easier for people to actually get a clipper card and more places to top up.	X	X
R_26o8l7Ba1KVzjni	No need to do that	X	X
R_3Mg4OkYuKTpneNB	No one cares. Paper tickets for visitors doesn't equate to them being charged more, especially why visitors aren't the ones abusing the service (homeless people who sleep on trains and s**t on platforms)	Unknown

R_3lxIONfX5IRQenO	Not fair to people who are visiting, or cant figure out the technology.	X	
R_Y4X9hV9c7JclITX	not realistic that travelers, visitors, and infrequent riders will have a clipper card. Not fair to punish them.		
R_3g1kWFUf4CDscA	Not really fair to force people who rarely take Bart to buy a clipper card. 50 cent surcharge is good.	X	
R_Q6wspGgN2Pxgg81	Not sure why others continue to use paper tickets, but I would need to know the reasons before supporting such a price hike.	X	Unknown
R_D7Tq0dVSKbLmpLX	Nothing	X	
R_3FKl6Wfa31CtBy4	Only 15% of users are still using paper? That is such a small number. I am curious to learn how many of those paper ticket users start or end their trip at an airport. My assumption is that most paper ticket users are not Bay Area residents/employees. Why are we going to punish tourists, seems like an ineffective way to get new riders. If clipper cards were free, or cheaper, then I could potentially support a price increase for paper tickets.  I think Bart marketed this I effectively. They should have marketed as a discount for clipper users instead of a surcharge for paper ticket users. People would have liked the positive spin in my opinion. Too late	X	
R_3KpzM6QzS08F6c7	Paying extra for forgetting my clipper card one day is annoying.		
R_3jfK4HPYPZfYrd1	Penalizes visitors or others who don't use Bart frequently. Penalizes people with less access to internet/ credit.		X
R_30f99wqW0cVpyvL	People from out-of-town don't know about Clipper cards. Unless you do some outreach at, say, the airport and sell Clipper cards there (don't know if you do--haven't been to the airport recently on BART) you're just cheating tourists.	X	Unknown
R_1GCVC5r59dpl2EZ	People who are not daily commuters need to purchase a paper ticket because realistically they do not need a Clipper. Therefore I	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
	oppose the idea of increasing it \$1.00. 50 cents would be enough.		
R_2v1W1dFHeOMLvbA	Personally, I think that adding Clipper card vending machines at stations will help fight this than basically taxing and penalizing people for still using paper tickets. I'm sure a ton of riders are tourists who buy paper tickets at the airport, and it isn't a very welcoming thing to charge them more for something they don't know the alternative to. Other cities offer week-long passes, and that is such a missed opportunity for BART, especially since the technology to offer those tickets is already there since you hand out free weekend tickets all the time.		
R_3h3CRWEv9z6oHl9	Ppl who are not residents wouldnt have or need clipper. It could be a temporary need to ride it a few times.		
R_3GdLgMWUMjgdz9b	Presumably this won't raise much revenue, because regular riders already use Clipper. It would just be a tax on visitors and occasional riders. I think BART should be more friendly to occasional riders and tourists, not less friendly.	Unknown	
R_2dGyOrw3Z5y7Fw5	Prosecute those who ride BART without paying to avoid punishing g paying customers. Some people can not afford to get a clipper card, so they should not be punished for not having a card. Punishing those without a clipper card will increase the number of people who skip paying their fare	X	Unknown
R_2tLNYONIMs9Rvzv	Pues más caro saldría el pasaje no importa hasta que ciudad vaya . *Well the fare would be more expensive, it does not matter to what city I go to . Y no todos pueden tener un cliper. O más bien no saben cómo agarrar un cliper. *And not everyone can have clipper, they do not know how to get a clipper.*	X	
R_81AiNzHdLbrirNn	Punishing people who do not always have a computer to work with their Clipper needs. Machines only return quarters - inconvenient.	X	X
R_1LiAiVC68StG1Wk	Seems like this targets lower income people.		
R_R8iHKy7js7Iy8Vz	Seems that BART is gouging visitors to the BAY AREA that would not normally purchase Clipper cards.	X	X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_2A0D8Anlip4g9E5	Seems to unfairly charge passengers who rarely use BART (ie. tourists)	Unknown	Unknown
R_1P6v8uqh7VcJPU0	Seems too large of a step.		
R_25QIZWooDsQTXvy	Seems unfair to those who can't afford clipper card.		Unknown
R_2b2FHM4d8yj7EJK	Some people find it difficult or do not even know how about clipper, and I would not want to increase that damage.	X	X
R_2atWWOBHPpIE0PA	Sometimes I forget my clipper card and don't want to be penalized \$1 just for that.		X
R_1jkde3zVD1aiEz6	Support a surcharge but at the current rate.		
R_2Uf4F9asSSOS3yq	That is a significant surcharge. 50 cents is appropriate. SFMTA has a mobile app to encourage non paper ticket use. BART should do the same and not penalize people who have to use paper tickets. Raising the surcharge is short sighted and not a thought out solution.	X	
R_22QsxipDWXgQzgC	That just penalizes the occasional user. I have a clipper card (2 actually) but that would make me a little annoyed at BART. You want to encourage more ridership and not penalize people for not having a credit card or getting a clipper card. It feels out of touch.	X	
R_u4EJmlRIUBgNUM9	That's a pretty hefty penalty for occasional BART users and 85% seems like impressive clipper usage.		
R_abG9U6DouUsphrr	That's starting to get pretty steep for visitors, tourists, very occasional users, etc.	X	
R_30laA8Y0Z8D6pNP	The \$1 paper ticket surcharge maybe unfair for infrequent riders and tourists.	Unknown	X
R_3I65pQRMtxhj5IP	The further increase would marginalize poor individuals, as they are probably more likely to use the ticket system. More education around clipper cards and how easily they can be purchased would be more equitable	X	X
R_1IIVbH05RQoxwW3	The problem with the surcharge is that you are charging those who are using the system a few times, not daily. This effects tourists and those not always here. NYC has flat fares that get you anywhere you want to go and their tickets are on a different type of system.		
R_3GBovysYVutpxrB	There are many visitors in Bay Area every year, many people won't understand why pay more for not using clipper, then try to get a clipper for only few days in Bay Area. That's	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	not make sense. Bart is already more expensive than many subways in the country, and not many stations like New York. People won't like the public transportation in SF		
R_21jr5TxCDMwgGVu	There are people that don't know about the clipper cards and don't understand anything about it.	X	
R_3stzER5DRX98QJb	There are people who dont ride BART often enough that they should have to have a Clipper Card.		
R_YXk2q0dZty1rXEd	There are some people who don't use BART frequently enough to justify getting a Clipper card, so it doesn't seem fair to increase the paper ticket surcharge to encourage them to switch to Clipper cards.	X	Unknown
R_1pEw42r2xGCwIL7	There should be alternatives to paper tickets and physical cards. Why can't an online application process ride charges yet?	X	
R_pi07cttxuRLgRfr	This increases fares for riders that are not regular commuters (elderly). Doesn't seem fair and \$1 is way to much of an increase!	X	
R_x5gY2r85q5IHWYF	This is a tax on tourists and forgetful people		
R_3EzrW1e1nFQftkQ	This is just going to penalize people without credit cards if we're being real		Unknown
R_1meFePgcURQ8q97	This is likely to be a major drain on non local riders. Keep the existing surcharge and raise the fare fairly for everyone.		
R_2vjNtLG18Uoz9sx	This is too much increase, maybe they could charge \$1 more only if the trip is double the minimum fare.	X	X
R_AccFOsYGxBvUEF3	This proposal places undue burden on lower income folks and/or those who can't navigate the system to get a clipper card.		
R_1Hph2Z1LaVZEBSv	This punishes people who don't have access to bank accounts.	X	
R_3D0Kaws0vgdVA4x	This seems to be penalizing the poor - I am pro this rate only if people who are poor have easy access to clipper cards		
R_1NaGEt9oSo3uiQj	This will primarily impact tourists. This increase will only incentivize them to ride in a vehicle, making things worse for everyone as well as the planet. Very short-sighted.	X	
R_doQa5fl0dT7Pr33	Those who don't ride BART very often should not be penalized so heavily by paying even more for tickets on an already over-priced train ride.		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2qaTNihW8LcY3gW	To the staff to produce paper however I understand is to promote electronic methods	X	
R_1MM9QcYnLON3tCY	too steep a surcharge - would \$0.75 be more appropriate		
R_2qwy6C6Wg7akJ2V	Tourist will have to pay extra, which I dont think is right		Unknown
R_a4B3bYw4YdGadHj	Unfair to tourists and other short-term visitors.		Unknown
R_3nPDBggptEmrcIn	What about people who do not have a bank account and cannot sign up for clipper?	X	
R_2SlvqR1rPDbWBXF	What about tourists or people who just use system occasionally? Why should they suffer?		
R_1qWcWQp4eK0efmJ	While I appreciate that this push to using the Clipper card would reduce paper waste and increase the efficiency of the fare gates, I'm concerned about the impact this would have on tourists and infrequent riders of BART who don't feel the need to get a Clipper card. Tourists specifically would be understandably annoyed that they'd have to pay that much more for a paper ticket. I'd prefer that we follow Japan's lead (see Pasmu and Suica cards), and make riders pay a deposit on a Clipper card, which they can quickly (without filling out any forms) get refunded their balance in full from a station agent (especially at the airport), when they no longer need a Clipper card.	X	
R_ptUdl7FICnp2FYI	Why do people who come to this area need a clipper card? Maybe older people don't understand how it works.		
R_2qe10xB6uvvg5CSY	Why not just make everyone go clipper?		
R_3HFwwugSZjRfdkN	You haven't explained here how you would charge occasional users, like tourists. It doesn't make sense to charge them a \$1.00 surcharge.		
R_1r37J7IhVym7Hu2	you still have fare jumpers that suffer no penalty if caught. So why charge those who pay extra because they are honest?		
R_2ZP56oDti3JGMqQ	只有鼓励乘客用硬纸板卡。*Encourage passengers to use only plastic cards*	X

R_OPz0xE8a5NETbyh	\$.50 is enough. It is mostly visitors who use the one time tickets and they shouldn't be penalized more than they already are.		Unknown
R_3IXigcySLsJLJtm	\$1 for paper? kind of steep! instead of charging for a paper ticket, why not give an incentive for using a clipper card. Like adding \$2 bucks every time you reload your card, if you have the card you get an extra \$2 in addition to the funds load. Of course we would have to have a set amount to load to get the \$2, say must load \$10 minimum to get the \$2.	X	
R_3DoPgdl80pLTx32	\$1 is a high amount and as given the nature of some of the jobs available in SF, people are working less than 5 days a week and buying a clipper is not a necessity for those folks.	X	
R_3Dd1e6cqGAyRnF1	1 dollar surcharging is too much, I think 0.5 is good	X	X
R_2w4Ft7wSItYuXky	1.00 is way too much, try again	X	X
R_3KMBbdyrZfRIVem	50 cents is enough of a surcharge. Clipper is not a viable option for out of town riders like tourists or visitors.	Unknown	Unknown
R_1Qt6EGeTwDOzPLv	50 cents seems just fine. Not everyone can reliably get a clipper card.		
R_31KjWOyXcfizXyZ	A DOLLAR	X	X
R_AtFP9TJa6sQPT3z	A lot of folks who're underserved can't afford Clipper cards or don't have the access to manage them. Penalizing them is ridiculous.		
R_10MBf3N9GgXuwvy	A lot of people can't or don't know how to use clipper card. Another tax on the poor.wrong		
16th17	A usces las personas no saben usar Clipper y es demasiado dinero *Sometimes people do not know how to use Clipper and it's too much money*	X	
R_2AF6zrxg2xw66L0	Absolutely not. This surcharge negatively affects our homeless neighbors who might not have a safe place to keep a clipper card. Also sometimes people give homeless neighbors cards with a little bit of remaining funds and this will mean that they will need to come up with even more money to take a	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
	trip. It's also a disincentive for infrequent users. I hate this idea.		
R_3fqPuoNqvIjrdfl	Absolutely ridiculous	X	
R_3h0cn2qazpe1HHJ	Again, for people who don't have significant barriers to accessing Clipper, I support it. However, there are people for whom Clipper isn't accessible and I'm very concerned about penalizing lower income people for whom Clipper isn't a viable option.	X	
R_3dLe0T7yJB6TTdT	All paper tickets and clipper cards should be the same price.	Unknown	Unknown
R_Q4IPyiSpUyeYcJb	Although I agree that the paper ticket surcharge should continue, I oppose fare increases because I oppose spending money where there is poor value, poor customer service, and no defined minimum standards or accountability for the service provided. There is no warranty on the Bart service.		X
R_svPOND6DtPv8igF	An additional \$1 surcharge is a big expense for some people who are barely able to afford the cost to take Bart.	X	
R_2fBOMEKMqmKVNgt	An app should be an alternative instead of clipper	X	
R_plYSCri18Tc1wHv	Another tax on the user So no	X	
R_2q3sYZMiPPZ4yy0	As before, why would anyone expect things to improve when senior management cannot run the system now, more money would make it better?	X	
R_2rjBl9lcnGKFA1n	Bad idea!!! I am a part of that 15% of paper ticket users! I own a Clipper Card, but I'm a very forgetful person and because I've got to take it out of my purse at least 4 times a day sometimes I forget it in my pockets. Anyways About 25% of my commute on Bart is with a paper ticket. Also before I had this job i was one of those low income(/no income) people who could only afford to pay for my rides day by day, I couldn't and I'm sure many can't skip using Bart for a day or a week in order to save up for a clipper card. To pay an extra 0.50 per trip and 1 per round trip is incentive enough. Just seeing a price difference at all is	X	X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
	incentive enough. But doubling it would just be greedy.		
R_24rdA6UwCy2XVgZ	Bart needs to focus on behavior changing, and a larger surcharge is not a solution. The extra 50 cents shows that the surcharge is not disincentivizing people to stop using paper tickets. Why continue with a program that hasn't worked. Focus other revenue recovery, offer clipper booths at all stations (or ones with a high number of paper ticket purchases) and develop a mobile app like SFMTA.		Unknown
R_2Uci9Tw9NCNRrTx	Bart needs to have more clipper dispensing booths if they want people to use less paper tickets. Penalizing people is not good business. Behavior is changed with outreach, not penalization.	X	
R_NWlUp3CsMnqBJJL	By doing this, you're penalizing poor people. Please don't do that.	X	
R_2q2iG6Op6soONSN	Clipper card management is best with access to a computer and debit card, something that many people may not have access to. Penalizing them with paper ticket surcharges seems cruel		
R_3R7PGGRF9fhzI4y	Clipper cards, while more convenient, are not as accessible to people without computers, tourists, or lower-income individuals who ride BART infrequently. Especially for shorter train rides, why penalize paper-ticket users by \$1.00 each time over Clipper users?	X	
R_1nZvb1NjRKUNgCS	Clipper isn't ideal for my work expense reports		X
R_2WM5IVcElinElpn	Don't trust BART, why would I trust CLIPPER to do the right thing with the tools that they have? I have already had difficulties with clipper- Such as shutting off access to clipper card and stored cash if the Disabled pass expires. On limited means and having all of the funds put on clipper card frozen for a month or more while a clerical issue is resolved tells me that CLIPPER is as much of		X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
	a dysfunctional bureaucracy as BART. Now having problems with Clipper putting funds which have been withheld from pay check for transit posted to CLipper Direct.		
R_3m8fZVmelHSD08u	Enforce current fare encoders instead of increasing fees for paying users.	Unknown	X
R_1Fa1XVHpi8KFGRN	Everyone doesn't need a clipper card, and having someone pay an extra dollar because their ticket is made of paper doesn't make a lot of sense.	X	
R_3HSnSHMZC0oe8om	Fares are already too high and you're focusing on social programs that are not what you're here for. Stop punishing riders and be more fiscally responsible.	X	Unknown
R_5BzHQD14eFkYJsB	Fares should be same via PAPER or CARD.	X	X
R_bQr80oDAFiZQbBf	For sf being a tourist destination this would discourage tourist using bart	X

	such a way to obtain and keep a card. They are a more vulnerable population.		
R_8p5nvugVUQk4fx7	I am using paper tickets ? because it is more convenient and easier for me	X	
R_vP24f90RGpzJSg1	I believe this punishes riders who don't have access to the internet or who are older and don't understand how to navigate this system. I think if Bart makes these changes, they should have representatives in stations who are there to help people sign up for Clipper.		
R_33eW99KFIqo3LcJ	I can't afford a clipper card, so this will make it worse —even more expensive to ride BART	X	
R_WcUuPm9JHfIMGFH	I disagree also with this as there shouldn't be an increase to either clipper or paper tickets. The riders use the same system and there is no need to discriminate the rider for not having a clipper.	X	
R_2ZWgbK55LTKPmwa	I do not believe the paper tickets should cost more, given that some riders might not have the requirements to necessary to obtain a clipper card (i.e. a bank account and linked debit cards). In order to maintain accessibility paper tickets should cost the same.	X	X
R_6ETty3b8WtjqaRz	I have \$120 every 2 weeks taken out of my paycheck for pre-tax Commuter Checks. If applied to Clipper, I can't get the high value amount. I do NOT want to use Clipper for parking because I don't trust the current system with any of my accounts. So, I use paper in the am for fare & parking and Clipper in the pm. Either way I'm screwed because I have to pay the extra amount for paper. The only way I can get the high value amount is to mail the Commuter checks in & so far \$240 has been lost somewhere in the mail or at BART.		
16th14	I make very little	X	
R_3D6kHPtJYKYQ1fk	I prefer paper since it's one less card to carry around after using the service.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_1IM0gptaaxUgPVA	<p>I presume that some significant fraction of those riders are out-of-town riders or riders who only use BART once every few years; these riders will never switch to Clipper. That means BART will never be able to eliminate paper tickets with its current system.</p> <p>Getting a Clipper card is a bit of a hassle now. BART would have more luck if there was a way to conveniently buy a Clipper card (or a disposable card that worked on the clipper readers) at the station.</p> <p>Likewise, if Clipper cards could be shared, a local could pay for out-of-town guests without needing to buy paper tickets.</p>		
R_2t57VcMkaGgotIU	I really don't know where your increases are going to stop. The bart is not looking good for you to increase this much	X	
R_1MQzfCprg5MFT9W	I refuse to use clipper because I do not want my movements tracked. If you increase this surcharge, I simply will not use Bart anymore.		
R_2Cy6UJEANTPvcQa	I think the surcharge should be 50 cents, not one dollar. This represents the difference in the cost between the paper tickets and Clipper. Also, there are many people who ride BART intermittently and should not be charged over and above the real cost to provide them with a paper ticket.		
R_3p9jWGoOclxunjq	I think there should be better ways to incentivize Clipper card without punishing people for using paper tickets, and \$1 surcharge is a lot.		X
R_siEIWEjwPIHi4Jb	I think this is too high of an increase. It should stay as is	X	
R_yCTjjodgPuYxtpD	I travel to San Francisco maybe 3-4 times a year at the most. It's too much of a hassle to keep track of all my family's clipper cards for so little use. If you had an app that scanned a bar code or QR code, then it would be worth my while because I'll always have it.		
R_3huqd2nqv0Llcp	I use both because With the paper I pay for parking at entrance and I exit. When returning I use clipper card. With the clipper I can not pay for parking at the entrance unless you give this type of usage to the clipper card.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_UJxRFakzEwZDKr7	I use the clipper card. Occasionally I forget my card and have to purchase a ticket. Why should I be penalized? I also have guests that come into town that use BART. They should not have to pay more.  In LA the TAP card is available to purchase at the station.		X
R_5hgTgF1cwK1r6MN	I will not support this if the the 15% of paper ticket users are elderly or don't have access to internet.	Unknown	X
R_2D1agGBeo9gCttS	I would only support this if ALL bart stations sold clipper cards during ALL operating hours. There should also be a method to only put the exact fare on the clipper card, just like a paper ticket. Otherwise it's an unfair burden on people who can't afford to have extra dollars and cents wrapped up in a clipper card when that money could be going to a next meal.		
R_2Ea822ojsP24ce7	If BART is pushing to use Clipper card then Riders should get it for free for the first time. For a visitor who wants to visit for a week or two, BART is indirectly pushing Riders to use clipper even though there is no use of card for users later.	Unknown	
R_3I47csFKVPpVK80	In my experience, more low-income residents use paper cards than higher-income residents, so to support the successful transition to Clipper cards only I would put more emphasis on outreach and education rather than raising rates. I also work for an org that serves youth, and we prefer to have paper tickets because we don't necessarily want to buy a clipper card specific to each young person we serve, it's a bit of a logistical nightmare to do that when you work with 300+ young people a year.	X	
R_3R478oU9nCrlezC	instead of increasing the cost on paper tickets, why not just eliminate them completely? Only offer clipper cards. it will make the process of entering BART much quicker.	Unknown	
R_RWbzsguJTXUQ0DL	Instead of squeezing this segment of users, if BART actually cared about making the most of the investment in the smart card system, simply don't offer paper tickets anymore like	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	other advanced transit systems around the world.		
R_pyFZMr6M1UIOYTv	It disproportionately affected working class people	X

R_10DaAY9zIDrE7wA	Public transportation should be free	X	
R_2Vdr9ZFs6EV4G4q	Punish occasional riders?		
R_2BzmPQP8Q9lfNro	Rather than punish paper ticket users (tourists/out of towners/youth/elderly) you might consider making clipper cheaper as an incentive to help switch people over rather than making paper tickets more expensive.		
R_332Lcv2bu09usFC	Regardless of speed, single use tickets are very much needed for one time riders, tourists and seasoned commuters who need a quick fix when having lost their clipper. Seasoned commuters are not barts only cutomers.		
R_25sx8fTn0KkwvpZ	Release reports on cost of paper tickets and or run psa on how using clipper can save the environment. When is bart going to start doing something to enrich and empower the vast community it serves?	X	X
R_1mKsdmQkpzu8T6Z	Remove cost penalties to using mass transit, add a gas tax to pay for BART		
R_1F1B8oiFyTNyRE6	Ripoff for poor people.	Unknown	X
R_3Ebfc4G1g2uzUYG	Same as before, lots of cojones on BART to ask for any increase when the experience of riding BART gets worse and worse	Unknown	X
R_3M4mTLRugDBH5zB	See my prior comment about potentially impacting already disadvantaged populations. Who uses paper tickets most? What was the impact when London switched to the Oyster card as the only payment system? Speaking of London, how much would it cost to implement NFC payment as an alternative to Clipper (saving the cost of the card replacement).		Unknown
R_2S0TMphKrpQjpc	See previous comments	Unknown	
R_2CChwd1joEK1u0c	Seems unfair to those that visiting or can't set up auto pay to the card	X	
R_3NQzt6eWW1ouI2z	Some of us prefer the paper ticket and it's unfair to penalize us more.		
R_veF79WP8UjMvKbb	Some people cannot afford a clipper card. This is unfair to those who do not have access. Please find a better solution.	X	
R_3PXARNNjcA8RoiD	Some people do not wish to use a clipper card	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_3dJQoKqzjuH1U9y	Some people don't have a clipper card because they don't use public transportation as often as others who own a clipper. I think it's unfair to charge them more for barely using these transit options that accept clipper.	X	
R_el228piMjwaK91f	Some people may forget their clippers or not know about them. Increasing it to \$1 is unfair and an inconvenience. The 50 cents are more reasonable.	X	X
R_2Sqo7xNbha4eNsg	Some riders don't take BART often enough to buy a clipper card. The surcharge is ridiculous as fare prices are already way too much.	Unknown	X
R_1Hi3dOII1zDl8jv	sometime you just forget your clipper card and need to buy a 1 time use ticket. I support encouraging Clipper card usage due to convenience, integration to company benefits, and bulk fare discounts, but it doesn't see fair to charge more for 1 time tickets.		X
R_yDuZCC2RTTrpnUJ	Stop penalizing people who don't have a credit card and can't get clipper.		
R_21511uo0PDULcqK	Stop penalizing riders who use paper tickets. Haven't you lost enough business already from fare evaders and Lyft/Uber?		
R_1eLDHJD0lGYKqL4	stop punishing poor people		
R_1EgmSkHlx49GYff	Stop taking from the people who can barely afford bart.	X	X
R_2YPWXXkXMfL3bMs	Surcharge is not needed. Bart needs to make all riders pay for their rides. Enforce proof of payment. Surcharges won't matter if people don't pay anyway.	X	
R_2sR2re2nLOt8VoZ	Sure why not screw those who rarely use the system  But no, figure it out how to run your system cheaper  How about you don't blow cash on useless capital projects? Consider the downtown berkeley project, stairs can't be used because they are slippery, running a year plus late in completion. All users want is a reasonably priced system that runs well and is clean and safe.	Unknown	Unknown
R_OJ9yaJNK0UG1gat	That is ridiculous.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2wbtIjml83rkU91	That seems outrageous and the difference could be made up in other areas, eg. raising prices on trips to the airport.	X	
R_3iyy5f9rBft2EUJ	That's just rude		
R_6M96PDQMikzK76h	That's too much money for a small piece of paper.	X	X
R_1FQVyiWNsp2mLyA	That's like a tax on poor people who might not have credit cards or want to have a balance on a card.		
R_74biAmoBMhyX2b7	The \$1 surcharge should apply to new tickets issued from machines. Not on tickets where people have them already. Not fair.	X	
R_3M3EkDwkQC3UxyG	<p>The Clipper card is currently *more expensive* than the paper ticket! People are using paper tickets because they're either:</p> <p>A) Tourists only in town for a short trip. It doesn't make sense to buy the more expensive \$3 clipper card if you're only going to load money on it less than six times (six reloads being the number of times it takes for the paper ticket to stop being a good deal).</p> <p>B) Too poor to buy the Clipper card.</p> <p>Raising the price of the paper tickets does little to encourage people to use Clipper cards if the people you're trying to incentivize don't have enough money to buy the Clipper card. If you *really* wanna incentivize everyone, make the Clipper cards cheaper than the paper tickets and ultimately phase them out all together!</p>		
R_3RpAYN6W57doX5F	The Clipper card use will never be at 100%. The San Francisco Bay Area has tourist and travelers who have no need to purchase and keep Clipper cards. Furthermore, for those with memory problems (elderly, dementia) losing Clipper cards is a constant meaning that using paper tickets is more convenient for them. Charging an extra \$1.00 for paper tickets will only hurt local Bay Area residents. We must be satisfied with the high percentage of 85% who do indeed use Clipper cards. Trying to reach 100% is unrealistic.	X	X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_11bY79ePKfvMI3c	The difference in price is too punitive. Just get rid of paper tickets altogether. Or set the price based on the incremental cost it takes to process paper tickets.	X	Unknown
R_SE40tPC5GoOESM9	The face value or cost should be equal, no matter what format of the tickets, paper or clipper card.	X	X
R_R5g5feoL6UdwSfn	The people who buy paper tickets might just be traveling once (ie to the airports) or can't afford the \$3 to load clipper plus the fare to ride. This would affect tourists, the disabled, the poor, and the homeless disproportionately. This is a bad idea.		X
R_WdIBAhSUGfrP2nf	The people who don't use Clipper probably do it because they're already poor or precariously housed. No need to punish them more.		
R_2YgG4EF04Xbxhp0	The people who need to use cash, don't have credit cards or want to be anonymous should not have to pay more to use the service. Running the Clippers service and processing credit card payments must have at least the same overhead as managing a paper ticket process.		
R_2wsg09p7iadBFBk	There are folks that may only use BART a few times and a Clipper Card seems like a commitment and not necessary for a one time or infrequent user.	Unknown	
R_3r2hoMDibsEncdz	There are lot of occasional travellers and penalising them just because they don't have a clipper card is un-necessary bias and puts them to disadvantage. May be gates accept ion paper tickets can be restricted but I don't support penalising people buying tickets the conventional way.	X	
R_10P2PKjqZJIw6fB	There are many one time users who go for paper ticket	Unknown	
R_1jTwfPos9uDvUxV	There are many visitors that need to buy paper tickets. And others that do not have cc or debit cards. We need options to pay in different ways and not taxing the poor.	X	
R_31yJeldVwcC7Jif	There are occasional riders who don't want to have the hassle of keeping track of a clipper card. It may make sense to transition into mobile fare system instead	X	Unknown
R_3PHKsiy2u0t0IQp	There are times when people are using Bart not for commuting and should be afforded	Unknown	Unknown

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	same fare all across for those one off trips around the Bay Area.		
R_0SuEi7GSyQ7SFVL	There is a large population of riders who don't know about clipper or understand the benefits. Bart could be doing a better job at helping new riders, older riders, and non-English speaking riders understand what clipper is and how to use it. A lot of people I encounter on my rides don't know where to access one or how to load one.	X	
R_2saS4LaJNxUq9cJ	There shouldn't be a surcharge for paper tickets. Fares are high as it is.	X	Unknown
R_2B5KPFwozjaPPyG	There's little to no parking or public transportation to BART out here in Antioch / Pittsburg. Therefore I almost never use BART like I did in other cities and don't have a clipper card as I am forced to drive. If I did use BART, why should I be penalized with a paper ticket surcharge for horrible transportation planning?		X
R_u4SX1p6tuE050j7	Think about the tourists, they don't need clipper for just one ride. It's unfair for them and people who rarely use BART.	Unknown	
R_8xoTf3Kr4n69ABz	This demonstrates a lack of respect for all riders, especially those not interested buying in to yet another card.	Unknown	
R_9o7NFJqhnR0QVID	This discourages tourists and locals who don't ride very often.		
R_1kIC7Ywv8K89q3B	This disproportionately affects low-income Bart users and is using unfounded efficiency reasons to restrict access to Bart to more privileged users.	X	
R_1EaH8jekCR92oCp	This increase seems too drastic considering that a Clipper Card costs \$3.00 for initial set-up	X	Unknown
R_3psdhpejoiXum6N	This is discrimination against the poor who can't get a clipper card.		
R_3q4KyTtlzqsNI3r	This is punishing tourists and locals who don't ride BART very often. Clipper cards hold several dollars per rider in escrow for eternity, which is like a free loan. This surcharge is excessive.		
R_2BhXh0FbKtvnEXE	This is ridiculous. A 50 cent fee is enough to deter riders. This is a penalty.	X	X

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_yCIBVvihwuzTG6d	This is unfairly punitive and regressive, particularly because riders are unable to buy Clipper cards at your stations due to your glacial pace of infrastructure investments and general deprioritization of rider convenience.		
R_24HIrIoA3RfNZcd	This isn't practical for the people who aren't frequent bart riders. They shouldn't have to pay more for a paper ticket when they have no use for a clipper card.	X	
R_2CwtmjoF9B4L1XO	This makes no sense what about visitors and occasional bart riders. Just plain not fair.	X	
R_3R2ZTbt0P0DZU3a	This penalizes people who do not have cash on hand or credit card to front load the card.		X
R_2tkZDrvKd5qI57K	This penalizes poor people that don't have access to bank accounts or credit cards. They still have to work.	X	
R_2PuiPa3bMhdp9uZ	This penalizes the people that need help the most.	Unknown	
R_3qWEF1e73viatLV	This penalizes those that cannot use clipper or those from out of town. Clipper is an abomination of a program. The fact that cards are not easily refundable, easily transferable is lame.		
R_1EhfcBJ8QpjExel	This proposal is extremely problematic. Individuals using paper tickets are least likely to have the funding to purchase clipper cards for \$5/each. At a minimum, the cost of a clipper card should be dropped to \$1 if this proceeds.	X	
R_24wxLgLKVFtjVFC	This seems like a worthy goal but a bad way to do it. Clipper cards arent exactly easy to obtain and the impact of this policy seems like it would fall mainly on low income users whose neighborhoods don't have places to purchase Clipper cards.		
R_OerpSBT3doEI2Hf	This seems like both a social equity issue (poorer Bay Area residents are more likely to need to buy paper tickets) and a soak-the-visitors strategy that verges on offensively priced. Make clipper cards free for any Bay Area resident , change a nominal cost for non-residents, and THEN raise the paper ticket fare. But don't raise it without providing easier access to clipper cards.		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_1nPJ0njVNfskA5L	this STRONGLY disadvantages occasional user of BART and those who are visiting our city, or people who forget or temporarily lose their Clipper card. A \$1.00 surcharge can be the equivalent of a 50% increase on a short ride at the regular ticket price, which is really highway robbery when you think about it. DO NOT DO THIS!!!		
R_T1PM1C2qsOecZK9	This surcharge should be eliminated to promote occasional ridership.		
R_3UBVFLmYwLKMNgZ	This surcharge would likely disproportionately affect lower income, unhoused populations who for various reasons do not or cannot purchase Clipper cards.		
R_2ZlzdA4AfuQzyTb	This system is a tax on the poor and tourists. The bay area invested in a system that was destined to fail.		
R_3Pcw0uLEkwIqavW	This will mostly punish tourists. Bart is already expensive enough		
R_03WTnZDviaoNrhv	Those who don't ride often or don't have a clipper card should not be penalized and pay even more money.	X	
R_1Cj5U48dh5Fq8PU	too expensive already	Unknown	
R_2bKnaIrm9rdgWj	Tourists don't need a plastic card. Or people using the system just once or twice. It's wasteful and punitive to people who can't spend the money on a card up front		
R_2X0Dz7mWXIBLEYD	Unless there is more outreach to bring awareness to clipper and perhaps free clipper cards to low income people then it's punishing those that may not be able to pay for a clipper out of pocket	X	
R_31hMszzUGUSbeA9	Unless you give free Clipper cards, one time users will have no choice but to pay the extra paper ticket surcharge.	X	
R_1jClc75okHvpOOE	Until Bart can make Clipper efficient and allow for paying for parking and tickets within the same system (not two separate companies with different payment systems) and allow adding extra fare left on paper tickets to our Clipper cards (DC Metro has had all these things for 20 years). Then punishing people who can't use their Clipper or tourists etc is not fair.		

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_308CPLM64HUQGIB	Until clipper cards are free with no minimum to load and can be used for multiple pax on one card, and are available on demand in all stations, there should be no surcharge.		
R_8jkik2Pyhjsv4f7	Useless if you do not keep out fare cheats.	X	
R_1QEp35VWRjOiQ00	Very occasional riders should not have to purchase the Clipper card. Visitors using BART from the airport are already charged extra for airport access, and there is no way to obtain a Clipper card ahead of the trip. This further discourages the use of BART to get from the SFO to SF and East Bay.		
R_BKaWfZdlm2Py5Pj	We have to welcome visitors to use Bart. Not fair for those who want to use Bart once in a while.	X	
R_T6CqCxEvw4iQH97	What about the people who don't have the ability to connect to your clipper program? Is as if they are penalized for not having either the knowledge of how to access the program or the time due their socio economic situation to do all that requires to obtain a clipper.	X	
R_2zqqBR0kgWYKy9L	WHAT ABOUT TOURISTS I was okay with paying the large fee to purchase a "clipper card" in Chicago but also their fares are LOW.	X	
R_70qUgmgh9O4XFbH	While I see the benefits of the one fare system, I worry that hiking the charge to \$1 will unfairly hurt those 15% of riders using a paper ticket who I will guess are lower income riders or out of town riders who do not use Clipper cards at all. I would recommend keeping the 50 cent surcharge for paper tickets.		X
R_3lcNOVqgl9kMKfu	While I support a Clipper only system because of all the reasons stated above, I think BART should conduct research to find out who the 15% are. Are they mostly tourists? Elderly individuals who don't know how to use the Clipper system? Non-english speakers who dont understand the language/system? Knowing exactly who the 15% of paper tickets are will help better inform this strategy. Otherwise we risk further burdening those already burden by the system.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_AaZELM6OH5sADND	Who uses paper tickets? (1) Visitors to the area who decide to use BART rather than other available modes of transportation. And (2) the ultra poor, who can't afford the charge for a clipper card or to have their limited funds sitting in a clipper account. This surcharge will not encourage either of these groups to get a clipper card.	X	
R_22JNxCvByy1A1zh	Why are you forcing clipper cards onto people?	Unknown	
R_1IgbSQj8064NdKJ	Why do those people not have clipper cards? Are you making the poor pay more?	Unknown	
R_r3bWznm54MjYZUd	Why do we need another surcharge? There is already one. If that isn't working, we need to look at changing behaviors with other offers, such as a mobile app to pay for rides.	X	
R_6liYcU50JpT8Ulr	Why does bart need to make more money when it is losing money on people who jump the gate. Make them pay. An extra fee on tickets doesn't matter for people who don't pay anyway. This is unfair to paying customers. Bart needs to enforce proof of payment.	X	
R_1locVe4JMjhzYsX	Why don't you give people other options? Why penalize visitors (who don't have Clipper cards) and low income people?		
R_3kLNEijucT7UYdU	Why don't you make Clipper more easy to obtain as an incentive? Individuals should be able to buy clipper at any station at any time. Other transit systems (Boston T, Medellin, Colombia metro) have moved completely away from paper tickets by making a shift to always/everywhere available smart tickets...	X	Unknown
R_CfgI79T3KH83P2h	Why is there no app available given this is tech central?	X	
R_3M58zbFpscDqdHi	Why punish tourists and one-time users of Bart this way? Most regular commuters use the Clipper anyway.	X	
BP4	Why should I pay more for a ticket	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2OPkY3rDIxSW7zc	<p>Would only support a surcharge to paper tickets if:</p> <ol style="list-style-type: none"> <li>1. free clipper cards were available all the time at all of the BART stations, instead of having to pay to get blank clipper card.</li> <li>2. include a free clipper card with the first purchase at a machine selling clipper cards</li> <li>3. I very much appreciated the fact that I could go and get a free clipper card when they were distributed last time, but many people do not have that option due to work schedule limitations, or other family obligations (plus you have to pay a fare to get to the place to pick up a clipper card), so please encourage people to turn in their paper tickets and give them a free clipper card if at all possible.</li> </ol>	Unknown	
R_sidfclqzMfhsIN3	Yes For one part I believe in recycling eliminate paper usage but do people that don't use Bart everyday every week per say this seems unfair.	X	Unknown
R_3fcv1DzWZVJh1UX	Yes, what a rip-off by BART.		
BP6	Yes, you need to improve your lousy service before	X	
R_2CPvFRKzOVUtf6	You are already adequately punishing non-regular riders and discouraging them from becoming regular riders. No need to further discourage them.		
R_3q0INHwTocw87zz	You are discriminating against people who are not using the clipper card many people do not want to use this form to pay with many people do not need to use a clipper card and should not be charged because they are using paper		
R_2eb8VDFrCOqtc8z	You are making it harder for people who already cannot afford to take the train.		
R_0055GlxhseNWIV	You are making people buy clipper cards by bulling then into it. Either phase out BART tickets all together or leave it alone.		
R_2s6FemDtIPnvWzZ	You can just offer clipper	X	
R_6Gcb54J7r3nijT3	You charge \$3 for clipper, you charge \$1 for paper... That's not right. Either take the clipper fee off the table, or don't increase the paper ticket more.	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_1hNpMIOza4OZOE	You should be grateful to have riders instead of drivers.	X	X
R_ea3AQYgg4S8KSdj	You should develop a mobile app to allow non-frequent riders to pay for their fares. This is a short-term fix and is not a real solution to stopping paper tickets.	X	
R_21hWMRRB5GPZ9FY	You should let people decide whether they want to use paper or clippers. We are always being hostage by bart! How about those who don't usually take bart- they are subjected to a higher fare because they don't have clipper!	X	
R_2xYmngBR1wdtF2j	You should want people to ride the system not penalize them for a one time ride. The could be a tourist.		
R_2ykJULw8rS3J8uj	Your current practice of charging people more to use paper tickets discriminates against poor people, who are less likely to be able to afford Clipper cards and to have the debit or credit cards needed to add value to Clipper cards. BART is going to get sued for violating its riders' civil rights.		
R_32LOat7ePmDnk8l	Ypu end up hurting tourists and occasional riders.		
R_3NJP89u2g6jwUym	收曬所有罰款先好加價啦！*Receive all the fines and increase the price*	X	
R_1H8DyClOPF5FWAF	Has a study been done to determine what barriers might exist to using clipper cards for some users and whether those barriers are related to socioeconomic status? If it is harder for low income people to use Clipper and then you are also charging them more, then I strongly oppose paper ticket increases.		X
R_3ls3GG5QrUjtKr2	I don't know if I support this or not because I don't know why people still using paper tickets do so. If they have a good reason, then maybe it doesn't make sense. Has research been done on this?		
R_1LLHuke302sMp7x	I don't know much about clipper cards but I don't believe visitors should have to pay more marginally for a paper ticket, if that makes sense. I'm a resident of the bay so i think it may make sense for me to pay for the clipper rather than paper but altogether, awareness of clippers need to be the focus before raising prices or people are just gonna feel forced into it. Kinda like Apple getting rid	X	

Survey ID	Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
	of the headphone jack in their iPhones, you know?		
R_3I4t7UkIVGthvhH	I don't use paper so it doesn't affect me to well however i still wouldn't want everyone else to be subject to price increase	X	X
R_DpYOUJS8GqipVZv	I don't have information about clipper card use for low income riders. If the rate increase disproportionately impacts low income riders I don't support it. I support low income riders having equal access to the discounted clipper card. I'm not sure if that is currently the case.		
R_2dZaE5ZNWfM2HLO	I use clipper card already, but why the steep increase for paper tickets?	X	
R_3qlmEhyfFmusvUX	I would want to find out how many of these riders are visitors/tourists before making this determination. It seems unfair to level this fee on tourists/visitors.	X	Unknown
R_1BSoxOnE4Ytn9j2	no		
R_1lmEcejSQA7OV1N	Not using paper ticket anymore	X	X
R_24271Ano4kQ6j1c	Who are the people currently using paper tickets? Are they just tourists and technophobes? Or are there reasons why people who are homeless, people with inconsistent incomes, or other vulnerable populations might need to buy ad hoc fares? I hope you've studied your user base and made sure you understand the existing use cases for paper tickets before trying to take them away.	X	
R_2YDlGtK3gVjUJAR	Who is still using paper tickets and why - are these people without access to credit cards?		
R_WxhBtoT1ojwTmvv	Who uses the paper tickets? As long as this is mostly affecting tourists rather than low income users, I would support it.	X	
16th4	I usually lose lots of things, so losing a Clipper card vs. bart ticket. I really don't know.		
R_1f2w2QRWxGuhyS9	No increases till you Fix the Gates.		X

# Sen. Kamala Harris Confronts Critics on Her Black Heritage

NEW YORK (IANS) - U.S. Sen. Kamala Harris, who is of Indian and Jamaican descent, has directly confronted critics who questioned her black heritage, her record of incarcerating minorities as a prosecutor and her decision to marry a white man.

In an interview Feb. 11 with New York-based The Breakfast Club radio, the show's hosts asked the California Democrat to address a series of derogatory memes that

have circulated on social media, CNN reported.

One of the memes cited a meme that said Harris is "not African American" because her parents were immigrants born in India and Jamaica and she spent her high school years in Canada.

"So I was born in Oakland, and raised in the U.S. except for the years that I was in high school in Montreal, Canada," Harris responded. "And look, this is the same thing they did to (former President) Barack (Obama). This is not new to us and so I think that we know what they are trying to do."

"They are trying to do what has been happening over the last two years, which is powerful voices trying to sow hate and division, and so we need to recognize when we're being played," Harris said.

One of the hosts followed up by asking Harris how she responds to people who question the "legitimacy of your blackness."

"I think they don't understand who black people are," Harris replied. "I'm not going to spend my time trying to educate people about who black people are. I'm black, and I'm proud of being

black. I was born black. I will die black, and I'm not going to make excuses for anybody because they don't understand."

Harris became the first Indian American and the second black woman to serve in the U.S. Senate when she took office in 2017.

A former California state attorney general, Harris also said that she makes no apologies for pursuing violent criminals to keep communities safe, but added that she wished she could have done more to effect change.

Harris said the criminal justice system is deeply flawed but makes no apologies for pursuing violent criminals.

The senator was also asked about criticism she has faced on social media for marrying a white man, CNN said.

"Look, I love my husband, and he happened to be the one that I chose to marry, because I love him - and that was that moment in time, and that's it," Harris said. "And he loves me."

Last month, Harris officially kicked off her 2020 presidential campaign from her hometown Oakland.

U.S. Sen. Kamala Harris, D-Calif., who recently announced her candidacy for the presidential election in 2020, has confronted critics who questioned her black heritage, her record of incarcerating minorities as a prosecutor and her decision to marry a white man. (Twitter photo)

She is part of a rapidly expanding Democratic White House field that includes Sens. Cory Booker, Kristan Gillibrand and Amy Klobuchar. Also expected to join the race is Vermont senator and former presidential candidate Bernie Sanders.

## Kshama Sawant To Run for Reelection To Seattle City Council

Kshama Sawant, Indian American city council member in Seattle, Washington. (Twitter photo)

### India-West Staff Reporter

An Indian American city council member in Seattle, Wash., Kshama Sawant, Jan. 24 announced her intention to seek a third term.

A socialist, Sawant became the first incumbent to jump into the city's pivotal 2019 elections when she made her announcement.

"To make Seattle the kind of city that working people in our community need... we need more, not fewer, elected representatives like myself," she said, according to a Seattle Times report.

Three District 3 challengers have registered campaigns: non-profit executive Beto Yares, pot-shop owner Logan Bowers, and neighborhood activist Pat Murakami, according to the report.

Speaking to reporters at Saira Ethiopian Cuisine, a Central Airst restaurant threatened by redevelopment, Sawant described the 2019 elections as a struggle between wealth and people power, the Times said.

Business leaders will spend big to help one of her opponents this year, like they did in 2015, predicted the council member who garnered national attention when she initially won office as a socialist in 2013, the report added.

"Who runs Seattle? Amazon and big business or the working people?" asked Sawant, who lost a battle last year for a per-employee tax on high-grossing companies to address homelessness, according to the publication.

Union, immigrant, community and religious leaders who stood with the incumbent Jan. 24 said they would seek to keep her uncompromising votes on the council, the report noted.

[bart.gov/news/alerts](http://bart.gov/news/alerts)

BART has launched an online survey and a series of in-station outreach events aimed at gathering feedback on our fare program.

**January 2020 Fare Increase**

To help fund the BART system's extensive capital needs, BART has a fare increase program that calls for small, regular, less-than-inflation increases every two years, with the next increase of 5.4% scheduled for January 1, 2020. For a short trip like Downtown Berkeley to 19th St./Oakland, the Clipper fare will increase by 10 cents, and a longer trip like Antioch to Montgomery will increase by 40 cents. Paper ticket fares will continue to cost more than the Clipper fare. All new revenue from this fare increase goes to BART's highest priority capital needs including new rail cars, a new train control system to provide more frequent service and an expanded maintenance facility.

**BART Fare Increase Program**

BART's current fare increase program, which calls for small, regular less-than-inflation increases every two years, expires in 2020. BART is considering extending this program so that fares would increase in 2022, 2024, 2026 and 2028 by an estimated 3.5% in each of these years, based on current inflation projections. Revenue from the 2022-2028 increases is proposed to help fund new rail cars and system improvements, such as a new train control system to provide more frequent service, and operation of the expanded service.

**Paper Ticket Surcharge Increase**

Currently BART trips made with paper tickets cost 50 cents more than BART trips made with Clipper cards to encourage riders to use Clipper and optimize the Bay Area's significant investment in the regional transit smart card. BART is considering increasing the paper ticket surcharge to \$1.00 to incentivize the 15% of riders still using paper tickets to switch to Clipper. BART's maintaining one fare payment system is more efficient and cost-effective, and Clipper card customers enter and exit BART more quickly, using fare gates that are more reliable when they just process Clipper cards.

**In-Station Events**

Please join us at an in-station event or fill out the survey starting Feb. 26. Our staff can help you with any questions at the in-station events, and the survey form will give you more information about all the options being considered. Your feedback is important to us.

**Online Survey**

Take the survey online at [www.bart.gov/faresurvey](http://www.bart.gov/faresurvey).

The survey closes March 15th.

# Appendix PP-H(a): E-Mail Invitation Survey Demographic Summary (For Information)

**E-mail Invitation Survey Demographic Summary: All Respondents (N=568)**

Minority Status	95% of Survey respondents answered this question	Sample Size
Minority	53%	286
Non-Minority	47%	255
<b>Total responses</b>		541
Ethnicity	95% of Survey respondents answered this question	Sample Size
White	47%	255
Black/African American	9%	46
Asian or Pacific Islander	23%	124
Hispanic, Latino, or Spanish	12%	66
Other, non-Hispanic	4%	22
Multi-racial	4%	24
American Indian	1%	4
<b>Total responses</b>		541
Low income Status	96% of Survey respondents answered this question	Sample Size
Low-income	18%	99
Non-low-income	82%	446
<b>Total responses</b>		545
Annual household income	96% of Survey respondents answered this question	Sample Size
Under \$25,000	9%	47
\$25,000 - \$34,999	9%	47
\$35,000 - \$39,999	4%	22
\$40,000 - \$49,999	5%	29
\$50,000 - \$59,999	8%	45
\$60,000 - \$74,999	11%	59
\$75,000 - \$99,999	13%	71
\$100,000 or more	41%	225
<b>Total responses</b>		545
How well is English spoken?	100% of survey respondents answered this question	Sample Size
Very well	96%	548
Well	3%	17
Not well	1%	3
Not at all	0%	0
<b>Total responses</b>		568

\*Note: due to rounding, percentages may not add up to 100%, sample size dependent upon the number of respondents that answered each survey question. Not all questions were answered on many surveys.

\*\*Low-income and non low-income percentages factor in both household size and annual household income, so this sample size includes only respondents that answered both of these survey questions.

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_32Xw1fCSqQOw1Nk	A fare increase as minimal as that will benefit BART infrastructure and riders.		
R_a9tpE9FUmhpnzeV	Any increase in fares near the rate of inflation seem totally reasonable. Please continue to consider sustainable measures to raise money like fare increases, taxes, and state appropriations. And avoid unsustainable measures (like bonds and other debt)!	X	
R_1odVwTka1oCtyNg	As long as it contributes to the Bart system	X	X
R_0iheozUGLE75bBT	As long as it goes to making Bart better, I am all for it. Would love to see the timeline to getting this initiatives complete.		
R_3Nw9kEZMoH4x1iE	As long as the capital is used to improve rider experience and maintain employee morale	X	X

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2xVvh1dwtGPqhZU	As long as the money is reinvested into the BART system, I believe it is a positive move.	X	
R_2R9vuoJR7jA1n3y	As long as there is oversight on how the money is spent, then I think it is acceptable.		
R_2roxnjRBBILRyXK	As long as we will see reasonable and timely improvements in the bart system I would be in favor of the increase.		
R_ZrQljcoQ24qGbg5	companies must increase their costs to follow the economy. anything less than \$1 won't be noticed by many and isn't asking much.		
R_2dyEIPvtHXoruUP	Do it! BART needs the money.		
R_3nVIPHz3ffwpPeR	Fair	X	
R_2CkomYFlk2lFHwf	Fair enough	X	
R_1DBU4h8xPDt4d9n	Fine		
R_2AKYS4mKaji2Hw6	I agree	X	X
R_3P7yOobvj90W0DG	I am in favor of a fare increase if that's necessary for BART to keep up with maintenance and service.	X	
R_1kFdI70yff2Y9Cw	I am not concerned		X
R_2bjXnID0d9ptkql	I am ok with the increase	X	
R_3CQqMehYSvJuWNX	I do not mind the increase since I use clippers. People shouldn't be angry because they do have the option of a lower priced fare if they buy a clipper card.	X	X
R_29ufSIR7euFqSRK	I don't have an issue with the fare increase, it's a fast and convenient way for me to visit SF and my relatives accessible by BART.	X	
R_1CrbZn4FV004xwP	I don't like that BART keeps increasing its fare, but I will deal with it if it means that it's improving overall in terms of more frequent service and better maintenance.	X	
R_1eyKH4v2lf3wZg4	I support it.		
R_9ET4Ux030c9HAJP	I support the increase because I believe these improvements are needed.		
R_yOx87UrSmME8nGp	I think it is a reasonable increase	X	
R_DTCZscG31sS5aMx	I think it makes sense.		
R_2ygsNbur1x4LyLT	I think it's a fair increase, as long as expansion is also in those priorities.		X

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_25SDTpgON0010MC	I think that this change is necessary. Many people will probably not like it, but it does need to be done. The paper ticket costing more is also necessary in order to help reduce waste and things like that.	X	
R_22QVgxWhSXYevi3	I think that would be acceptable considering that they are improving the facilities. It's money misuse that is not acceptable. It will also deter people who don't have money from riding the BART.	X	
R_yUUiT0mkLQq2Hrr	I think this is fine, but I would anticipate clear delivery on what this increased revenue will benefit BART passengers.	X	
R_pSrBxgES4FvMZgZ	I would prefer no increase but I understand the reasoning	X	
R_1r6pcbv5i081rtj	I would very happily pay more per ride if the improvements to BART are tangible!		
R_2v8RLQgz1XBUwvQ	If inflation is rising, it is fair for prices to rise with them.	X	
R_qKqJCDnyjga1D5T	If it means new cars and more frequent trains, I'm very sympathetic to this increase.	X	
R_WcFQqiBwhY3AbL3	If more revenue is what BART needs to improve the system, I have no issues with it. We need BART 100% fully functioning!	X	
R_RgbYgTfnU0SkOyt	If the increase is for new rail cars, train control system, more service and maintenance including the ones inside the rail cars, it is a yes for the increase. I just hope the cleanliness inside the rail cars will be maintained.	X	
R_2rZWInabY6nCaBW	I'm never a fan of increase but every body have to get paid some way.	X	X
R_3GBVQsxQ8YIQF2s	Increase is overdue		
R_VXqu9GJkvaqdP7H	It appears to be fair		
R_DOigu3RTnu8zLEd	It is ok	X	X
R_2ZX0A96yizWY5Iv	It is probably necessary and now that you are cleaning up the trains and station as well as having increased the police presence It should be an appropriate time to increase the fare. Your escalator at the Powell Street station is much too fast and dangerous		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3pukVi11PFxTeFS	It seems like a steep jump, but the system is in dire need of improvements. I would like to see that money put towards visible improvements to cars, tracks, and the frequency of scheduled trains.		
R_DeE2wLmMFIDxfSR	It seems reasonable	X	
R_cCsmPdj40kzpDR7	It sounds fair.	X	X
R_V3Wn906xnL4FqM1	It sounds very reasonable. Thanks for explaining it.		
R_Dw30hDRVkcK7IwF	It's always hard to see a fare increase, but inflation is real and I believe BART does go up slower than inflation so that's good.		
R_2ZjHyfMqj6ryu3	It's fair. Developing high-rises in violation of city zoning to fund your pensions is not fair.	Unknown	
R_UEnC9JXDBX7wnC1	It's fine		
R_1GNBbSS13vw4keh	Muy bien. *Very good*	X	X
R_1diyuc8oiXiOw4v	No comment. I understand the need for the increase.	X	
R_2bVj49TUdyYccJA	No comments. This sounds like a reasonable increase to me.	X	
R_2CstYD8v6NHJkgx	No objection (approve)	X	
R_085pn421SkPaKIP	No one likes fare increases, but understandable.	X	
R_3L5RgVKE2lO83AT	No one likes increases, but if the extra money is really used to improve things, it's worth it.		
R_2f8KGYjemXnO3bd	No problem		
R_3dStn9b0LU8i50V	No problem about the increase as long there would be a better service ahead	X	X
R_2wQzwlA0srNoPcD	No problem with increase.		
R_3HU0ZAoQQGq4CX4	No, I think it's a good idea to upgrade the BART system	X	
R_ZxBWuWic2GofLlI	No, so long as fare increases are backed by visible, measurable improvements in service.	X	
R_6rolcoyWyZOiYFj	No, this is fine.		
R_22zVvscvIRjw04L	No. That seems to be a fair number.		
R_2WAzBrlrnUaamqb	No. I understand the need.	Unknown	X
R_23UISZgs4qBgZFw	no...it sounds very reasonable		
R_1erzhRT1RgNtKy8	Nobody likes fare increases but I think we can all agree that they need to happen if it's improving the system overall.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_slipI4TeGpoEs5r	Nope, it is still cheaper than driving your own car!	X	X
R_eWKVSWY0pdBn88p	not a big deal	X	
R_2dY1WJqcqs6SPf0	Ok	X	X
R_1gT1mHBBH0MZYke	Please do what you have to to keep BART in good working order.		
R_3FQyw4nV5ywwxKn	Seems appropriate to me.	Unknown	Unknown
R_8G5wvtfRNF2LIuB	Seems fine to me, more funds for better service. Cleaner cars and stations please!		
R_2wB09wFZ58HTHBD	Seems like the system could use a huge capital influx to address systemic issues, aging infrastructure, and increased ridership. Gaining revenue from other sources seems necessary	Unknown	
R_3h0e6RfHoHrXfo1	Seems more than reasonable an increase to me.	X	
R_3CCamwvwRLTrYoQ	Seems reasonable		
R_2z8Vvz1DTXta1F6	Seems reasonable		
R_3QXB5gl3XbK24Op	Seems reasonable	X	
R_2CqAScofWrpoPX3	Seems reasonable		
R_1duy3N6MYx543IV	Seems reasonable.		
R_2WvbCUZdKi0WoTh	Sounds fair		
R_C3T1vllzmNG0pXP	sounds fair	X	Unknown
R_1rC76T9THpXEB4r	Sounds fair as long as we have more than 3 months notice	X	
R_2xIWDQ1PJP8UXIS	Sounds fine. Very important to catch up on maintenance and modernize system.		Unknown
R_1LzmxsKDiLq6uTL	Sounds good	X

R_27HV4dgF2ifQJ7Q	Sounds reasonable.		
R_2f8rhVk1GmAxywM	Sounds reasonable.		
R_3HvNntyloKmp5Q3	That seems reasonable. I particular like more frequent service.		
R_2TuyLkCO5GRYVxD	The amount sounds reasonable		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_TmV3PsWyqbyjzK9	The fare increase is necessary, though I wish it could be accompanied by more trains arriving more often.		
R_A4fqar7Z0JX1bQl	The money is needed and the increase is modest. I'm fine with this.		
R_2YmEN60erbIXErf	This appears to be a reasonable amount.		
R_8GKWEd9UPmHrzgt	This fare increase seems reasonable and acceptable.		
R_2XhcWmtm0eLGwzP	This increase seems reasonable.	Unknown	
R_3kBcqVuHlhnWXY	This is fine.		X
R_r7v4ZDxdPajWCml	This seems reasonable to me.		
R_1OYJRuu9AEfypqu	This seems to be a reasonable fare hike.		
R_2WYlSnatPVLX1C1	This small increase seems ok.	X	X
R_2WPEu4wSc1ZA1kK	This sounds fair.		
R_UzNPVXjigBmaoY9	To keep the system from getting antiquated we need to pay for updating BART	X	
R_21EDMknNEaj9zFp	Yes good idea	X	X
R_eGagTcwAaXJth0l	Yes on increase	X	
R_ODAdcdYfCaix9Pb	没有, 我觉得非常应该。*No, it think it would be good*	X	X
R_11XEQyDGLfcxgYO	5.4% increase is too much. Should be increased about 3%	X	
R_3qqHvH84yDSYyZI	A percentage of this increase must go to enforcement and punishment of those who don't pay fares. If it doesn't those abusing the system are abusing us, the law abiding citizens.		
R_3JyCSURrepD7nfg	Although I understand the need to generate revenue for O&M costs, the cost of living here is already overwhelming for many of us, especially those of us who have been here our entire lives and are resisting being pushed out by rich outside gentrifiers. Public transportation costs make these services inaccessible to so many people. How else can you find BART's needs? How can you offer discounted rides to folks who really need it? Consider implementing a need-based discount fare program instead of paying ineffective and intimidating cops to ticket or arrest fare evaders instead of realizing		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	that there is a good reason many cannot pay your fares.		
R_1MWMMe8rSqYiAoNy	As long as the increase also goes to safety on BART. I never feel safe anymore riding on the trains.		
R_3hr0JvXu45lyq59	As long as there are more trains more often then this is fine. But, I am getting tired of getting on the train at 7:30am and by the time we get to Lafayette we are crammed into the center isles and you can't even turn without snagging on someone elses bag, etc.		
R_ypwWXq8Kfx05xKx	As long as this secretly isn't padding people's bonuses, I've got no problem with it. Use the money wisely!		
R_3g0EqMNkCYb5rbc	As long as you can increase service to Millbrae I'm happy.	X	
R_2RPISgZnDyq9V03	Bart has been getting more and more expensive over the year and I have not seen any immediate improvements to the cars, the frequency or the quality of the rides. I am skeptical to think that a fare increase will really do much more or it will take so long that we don't see any improvements.	X	
R_2ARUP3iiPumDFh2	Before you do another fare increase, you need to stop fare evasion and improve the work ethic of BART employees.		Unknown
R_BKF84hCmzt8ldlv	Better to have smaller increases annually - combining two years into one increase is more of a shock to folks with limited income.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low-Income
R_Dc3pbkLUDAUkZ9v	Clean the trains first, get rid of homeless first and sanitized the whole train. Beffore train start a new route check for homeless and smell your train!	X	X
R_3RkooUVA5UJFdJz	Current bart fare is already a little burden for low-income people.	X	X
R_3NQDQIkZp7ACogE	Don't like it, but it doesn't limit me. If the fares increase then fsa caps needs to increase too.	X	
R_aeYEYRxzEr07cyd	Expected. Yet would like to see improvement in the number of trains available during rush hour. No plan in place for that????		Unknown
R_2TLb9UVGPSNJzkK	Fare increase is inevitable as part of system expansion but I think ride quality which includes security/safety, cleanliness are more important than anything else	X	X
R_TcvuQU8UF8u8hKp	Fare raises should be linked to COLA and that means that raises should be less than 5.4%		
R_2SoFdg1pKZkEBy	For daily commuters from the East Bay to SF, it already costs around \$12 a day. An increase is going to be difficult for some people to sustain.		
R_2YhTzLGqt3viFxH	Hopefully some of the money can be used towards more safety on stations and trains.		
R_1rqqMe95Vv8haJD	how about spending the money on clean bathrooms and security		
R_2YllZ73s09R7RPO	I agree with the increase but we need to make sure that people below the poverty line have access to discounted programs.	X	X
R_2CQwaAUK3Dv0y2x	I already take casual carpool in the morning, even though BART is more convenient, to save money on my transport costs, so this would affect me. I would probably still choose to take BART though.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3g0NhluZU1oHdMB	I am a senior on a fixed income and I have no car. I think 2% is more equable. Only the 1% are getting richer, the folks on your great trains are not. Thanks for asking. Most people don't care what an old schoolteacher thinks anymore it seems. When we get universal health care we will all have more to add to the communal pot.		X
R_2EHkIzalzBZRR12	I am ok with it though would be nice if the new trains came to the airport and if the increase is used to help deviate fare abusers too		
R_AKCCnI5FPvODtnj	I am opposed to it until there are more trains, most new trains are on line, and crowding is a lot LESS.		
R_2WVvk1sHFp2yXZQB	I am willing to pay more if necessary for BART to continue long term and to improve safety on BART.	X	
R_27khBFmMRVEs3Dq	I approve of the change. But it would be better to get a part of this capital from taxing private car ownership, which is the major cause of congestion, and extremely inefficient.	X	
R_30vU0evUQbZeTex	I believe longer trips should only be raised by 20 cents. It's already expensive enough to go to the city from Pittsburg/Bay Point headed into the city	X	X
R_1d4eseqKRScRhji	I do actually , I'm okay with the decision that's being made as long as clipper prices remain lower then the ticket price then I can't complain however why is it that we always gotta pay extra for stuff but most times are needs are not met	X	
R_2Bm1tnCD7GwhkqP	I do not mind the date increase as long as future increases include coverage of expenses to enhance safety in Bart stations and trains with officers and also elimination of homeless and cleaning of the trains. I have to ride Bart so the increase isn't the issue. It's the atmosphere in the stations and trains that is disgusting. Along with rowdy and loud	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	passengers and the train operators act like they don't know what's doing on!		
R_2bP3fsmiQbJhdgh	I do not mind the fare increase but BART's ability to collect fares needs improvement	X	
R_1doSSUIG16gIXEV	I feel fortunate to be able to afford these increases. For some who rely on BART for long daily commutes, it may present a hardship. I would feel happier about the increases if I could feel safer on the trains and in the stations.	X	
R_W6T2ucxmLKTBeEN	I feel that an increase is worth it if it will result in increased frequency and quieter cars!		
R_2uX2JfXgzgfSQ04	I find it difficult to approve of fare increases at a time when I feel the safety and cleanliness of the system are more of an issue than they have been in all the years I've been riding BART.		
R_cMv4Atl9nHdnzMZ	I get it, but it sucks since several times I've decided to lyft back home instead of bart (N. Berkeley -&gt; 24th/Mission) because it's only a few dollars extra. Hard to compete against VC money but d*mn.		
R_A5IfLhiyfV10wA9	I haven't felt safe on BART for about 2 years now. It used to be I would only take BART in the daytime, now it's very few and far between at all.  I would happily take BART more often if the money went to improve safety.	X	
R_570IsY2bGL8dpnP	I hope before you increase the fare, improve first cleanliness of the old trains. When are we gonna the new trains. Prevent using pot on the train.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2fjrZWuBYy9V5mW	I hope this is matched with increased efforts to reduce fare evasion. I commute from Daly City to Berkeley for work 5 days a week, so this fare increase will impact my commuting costs. It is frustrating to see people jumping over barriers or walking through emergency exit gates on almost a daily basis.		
R_31mHdUvdmyV8pSa	I know fares go up every other year. I know they're supposed to be below inflation, and maybe the problem here is that I don't know what the inflation rate is, but a 5.4% increase seems very high (I'd expect around 2-3%). Additionally, it's disappointing to see service headways get cut with the latest schedule change and to see fares go up.		
R_2cod7aMccVylvgM	I know that money is needed to make things better or more efficient but there needs to be a better method to get everyone to pay. Those of us who pay are paying more and more while people still get away with not paying the fare.	X	
R_3mkQUQNV9uNG40c	I prefer that the fare increase occurs every five years.	X	
R_3FPQNu4xzkRgS20	I really don't mind the fare increases as they are moderate. My concern is the cleanliness of the train cars. My trip home from SFO to Antioch a couple of homeless riders dedicated and urinated on the floor. The smell was unbearable!	X	
R_br5auxYRbI2G0wh	I see no reason why not to increase the regular tickets, however, tickets for the elderly and students should not increase at all. Seniors already live with a restricted budget and should not have this affect them.	X	
R_2c6nJjuXTuuyDbJ	I support fare increases if it means that the services will improve. In particular, I am most concerned about the cleanliness of the trains, which I think is one of the main reasons that more people do not take BART.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_W2UoSCsijzGIUt	I support public transit. Although not desirable increased fares for maintenance (non-salary) needs is inevitable. The \$0.50 more for paper seems very regressive tax like.		
R_2pYy35JxxYVVPa7	I think any increase will be poorly received. I understand the need but there are complaints regarding BART cleanliness and safety and the trend of getting worse.		
R_2zvxGGKb0CK980v	<p>I think as long as you continue to show improvements then the increases seem fair. The important thing here would be to showing the value and where that money is going.</p> <p>IE - more new trains during rush hour on horrible routes. It blows my mind that we continually see new trains on routes with smaller usage than the routes with incredible usage. It feels like honestly no one at Bart actually uses or takes Bart from any of the market locations during rush hour. My challenge would be for everyone at bart to take bart from civic center to embaradero during rush hour. Watch the trains and watch the people. You'll see how the new cars are critical during these time periods and when you have a new train on a route which isn't full (Warm Springs, Richmond, Etc) vs the yellow lines (Anticoh, Pittsburg, etc) it's frustrating. Yes all routes are important and everyones trip is important but when the yellow line is packed to the gills vs Richmond and Warm Springs where the trains are not packed at all ... it makes zero sense.</p>		
R_3Glmuh24m2V2WAF	I think Bart is continuing to raise rates without taking measures against people sleeping on the seats, eating in the cars, begging, peeing on the station, being aggressive, ranting. ...this needs to be dealt with, then I would consider paying extra monies. My Bart trip is one of the lowest parts of my day.		X

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_pimOYPvJaRFlqvL	I think it is necessary but it also affects X people who rely on BART to get around.	X	
R_cYAuqxPRCKqyF3P	I understand a need to increase fares on occasion to meet needs/upkeep, etc. Please keep in mind that people's income does not increase, for some, or minimally for others. Seniors are on fixed income so keep an eye on costs for them.	X	
R_1hGNYD5BoxkzEwt	I understand costs increase over time. Fare jumpers need to be policed more efficiently		
R_3nAfyW9d4BPkTDK	I understand maintenance and frequent services requires money. However, I don't feel safe on BART or the stations so I chose not to use it. If you want to increase revenue, you need to increase ridership. More safety, more police presence, cleanliness (more clean up of needles, garbage, etc.) and less people freaking out on the train.	X	
R_DO87YlwnNXzTLs5	I understand that the fare needs to keep going up to pay for things but it's when the stations/trains feel so dirty and unsafe to keep paying more.	X	
R_1kRXWbavYotAHoC	I understand the need for fare increases, and this is minimal, all told. I understand you have to pay for services, and if you expect improvements, those have to be funded somehow.  I do wonder if it is possible to avert this by cracking down on fare evaders--I know this accounts for a significant loss to BART. Is it possible to crack down on this and therefore reap more fares without raising fares on those of us who do pay without more investment than is possible under the current budget? Have options been explored?		
R_AjndeeCeMGpQHVT	I understand the need for fare increases. Scheduling them every 2 years seems more like a tax than a legitimate increase. Keep it up and you will drive people into their cars.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_31seVFEuwHzjDza	I understand the need for more money, but the cost for a trip from the ends of the BART line into the city seems excessive already. How frequent would the trains be in comparison to the frequency of trains now if there is a fare increase? What kind of sucks about the transit system is that it feels so much more expensive to use than just using cars, in addition to not being very time-effective either. If one of these two factors could be guaranteed to be better than driving, I feel like more people would use BART.	X	
R_uw9fUrILDj2uFnr	I understand the need for occasional increases, but I don't like the idea of regular increases. In 4 years, longer trips will increase by nearly a dollar. Individuals and families of modest means are having to move further and further out of San Francisco and need affordable transport to jobs. The poorest bear the brunt of the increases.		
R_3hcp0uT4C2c3coK	I understand the need for this, and support this initiative because I think that investing in public transit is essential for an urban area's continued growth and success. However, I am wondering if an alternative is to increase tolls on the bridges for people who commute by car.		
R_1MN939iWdaN74SX	I understand the need for upgrades, considering the age of track, and the year the system was 'open to traffic,' but I think you're losing support with riders. Those new rail cars were ordered some time ago, and I almost NEVER see them. It's a bit ridiculous that it takes so long to put them through QC/QA, etc. Other than that, additions like the Oakland Airport extension, need to be put through the ringer. \$6 for a one-way trip? When will this project ever recuperate it's cost? I just passed through Oakland airport yesterday, and was longing for the \$3 shuttle trip that was there before. Fare increases may be necessary/inevitable, but I have to question where the money is actually spent.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low-Income
R_3ERNUDILgsdN4mf	I understand the need to increase but the trains are gross/ the stations are gross/ agents are rude and nothing is done to fare invaders!	X	
R_1ieMPXMhazi50nC	I understand the need to raise fares to keep up with system costs. But this also puts a strain on lower and middle income riders. BART should think about raising parking proces before raising transit fares		
R_1eRD80GsU3R1qo6	I'd grudgingly go along with it. Transit should be subsidized more, to make it more attractive than driving. But until that happens, we'll have to live with periodic fare increases.		
R_2QuCWzZuCFCdZ3g	If increased fares provide clean cars and security on trains I'm all for it.	Unknown	Unknown
R_0w7kKZkAGkiRlvj	If riders see improvements to Bart then the fare is fine. Currently the cost is high compared to the level of service, constant delays, dirty trains, fare jumpers, crime, overcrowding, etc.... I believe money should go to new trains, but please do something more about people not paying fares, I really see it almost every day.	X	X
R_237ic7O9NnGCEdN	If the changes mentioned above are actually being implemented, then it must happen. If not, forget about it.		
R_1lyEvaOqb8WPFPe	If the fare increased can help make my Bart rides cleaner and safer at any time of the day or night, I'm all for it.	X	
R_33pYZZSLkRVbuYe	If the increased fares translate to better service, then great. If not, it feels like passengers are being taken advantage of.		
R_3J3guE0WrWD7Lv7	If the new revenue if not divert to pay raises this would be acceptable.	X	
R_1ezyktEnzd06vIL	If there were ways to make it non-regressive (assistance programs for low-income riders) I would feel better about it. I am happy to support the needed-system upgrades, but I wish more funding came from automobile drivers and taxes on luxury vehicles.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1ez7zh5bv9k9RnR	Improve the Bart experience before increasing costs - the escalators are always broken - none of the new cars are enroute to SF and there is trash all over the trains interior		Unknown
R_2fEcxNMP4Ts5PL2	In comparison to other transportation options (mostly private options, ie. Uber/Lyft), BART is still a heavy discount. So, in that light, this increase is acceptable. BUT, BART is a public transit option, and I'm concerned for the individuals priced out of SF/Oakland/SJ (urban bay area) to Antioch, etc. They will feel the brunt of this increase given their longer rides... The inequality grows...		
R_2xW31Wh9Hb4wPYu	In my opinion, the fare increase should be a flat amount. If it's getting increased by 10 cents then every price should be increased by 10 cents and not by the distance.	X	X
R_3e4vwMaSdTRcoPR	Increasing fare is okay but BART should improve on it's services. Most of the trains are old and gets delayed very frequently. I wish the frequency of trains in Warmspring-Dailiy City route should get increased.	X	
R_10uX6dRG7E2OrXV	Increase the fare as much as needed to make BART not the worst part of my day. Spend the \$ on fare evaders and reliable toilets!!		
R_sp08olOnuVCQ0Mx	Increasing fares to specific destinations makes sense. Please keep in mind to be efficient with how money is spent on improvements, expansions, and operating the system. Fares are already pretty high as is. It would be disturbing to find out money has been mis-spent.		
R_2TsLI7dH18qeQn6	Instead of raising all prices, raise prices during rush hour by 20% and keep other prices the same.		
R_qV1MUOJdIZlek1j	It *should* come out of the general fund vs charging X users but I support public transit.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_8HZ8wwgtc7pFxsJ	It is helpful to understand the timeline of these types of improvements. For example, Bart is increasing fares to bring you X new trains on the X line to be deployed in month. Then we can be excited for the rising fare. Does expanded maint facility mean cleaner trains? THAT would be AWESOME!!	X	Unknown
R_AHcPSfh4IL67WKd	It is within a reasonable increase except for those who have X.		
R_2ysINQ8S2asxENQ	It isn't a dramatic increase and I am for the supporting BART as it's become an essential part of the bay, but I fear BART doesn't take into consideration the amount of users who use the service daily and depend on it. For an everyday user, ten to forty cents is a dramatic increase. It's unfortunate that BART refuses to create membership programs or week to monthly passes. In every other major city I've ever been to, these services existed.	X	
R_2VPxMfanCATMyel	It makes sense to have smaller increases for shorter trips, but to be honest I've had to reduce my BART rides into the city to volunteer for a non-profit organization because it's getting expensive for me and I can no longer deduct the fare. It is not your fault.		
R_wMInI9KD1YTbzqN	It really depends on whether there ends up being a X ticket of some sort. Right now, about 15% of my take-home income is spend on BART, which seems like quite a lot to me.		X
R_2yqR1UNyO8SWBZ7	It seems a little high. I think you should focus on weeding out unnecessary spending on employees or overtime		
R_stKEQhZeZLpWkVz	It sounds fair. If you consider parking rates in SF plus gas plus bridge fare, Bart is a pretty good bargain. I'm not sure how they figure inflation, but it feels like prices are going up more than 2% a year. Could you work something so that \$\$\$ spent on public transit could be tax deductible? Maybe in California if not U.S.?		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2Y4VRKBnJA8mk9s	My issue isn't the fare increase, as long as it's minimal, it's increasing fares on trains that aren't clean, safe or reliable, and too crowded.	X	
R_2U3mupZTxpFvN2G	My typical ride is from Concord to Montgomery, which is a pretty long commute (45-60 minutes). I would like to know if this fare increase, and investment in capital upgrades, would also mean there would be more train cars available, or run more frequently, so I don't always have to stand for 60 minutes to work, and again back home. I rarely find available seats. I think the amount of increase is tolerable if the rider experience is going to be improved, either by making the trains, safer, cleaner, more reliable, or more comfortable.		
R_1Dp8d4XZFJzsTQF	no comment other than with costs for everything increasing it seems that a 2.5 percent or maybe 3 percent increase might be more easily absorbed by commuters who have a more limited income		
R_3NZYXMi5aj7i3Ve	No problem with the increase. I have had some concerns about salaries. they have been generous, so hope there is no increase.		
R_3fHT0fTGmDlrNoU	No. As long as it doesn't affect clipper card holders that are most likely locals like myself. I do hope that the fares will decrease over time for those that aren't clipper card holders at some point in the future. It would also be nice to have a college ticket price for those that are over 18.	X	
R_2tkTRGFFoCVabX3	Not happy about it but I understand.		
R_3000IHLUchiI3UI	Not sure why frequent service can't be provided now. The increase sounds quite substantial.	X	
R_12LLiD22xd151ZD	Not that I have a problem with necessary fare increases, but I would preferred to see something done about the many getting away with complete fare evasion.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_bg7WWtol82KqweJ	Okay for me, BART should look at increasing equity pricing for X riders		
R_31T0Rnc81rW02Qz	Planned increases seem to be in line with expectations. Increased revenue should be used to make BART stations a better place as well. Specially around San Francisco stations.	X	
R_plBhwXNswF2Xz2N	seems fair. would it be smarter to do it in smaller increments though? Increase by 2.7% on Jan 2019?		
R_D8Z33J8qt8dv70J	Seems like an appropriate amount of change. I hope we increasing are enforment of pay evasion as well though.		
R_2amXVPuilly8BkR	Seems ok. But between parking and rate increases the average adult is paying more tha. \$10 a day.		
R_1TtuFMS9rLKu4ZX	Seems reasonable Adds up over time though		
R_SC2KRzDsOc9Viud	The 5.4% increase seems higher than the inflation rate...i do not understand the math. Generally, rate increase is not a badbor good thing, it all depends on what the extra money is spent on		
R_2eOqj5oZ8YvuVtY	The fare increase is a bit much and I feel that the fare was increased just recently . Why not catch gate-hoppers and use the fines to fund the capital needs.	X	
R_2ceePvxkYUqJWr9	The fare increases sound reasonable, but will definitely add up for a person regularly commuting a long distance.  Also, isn't CPI nationally 3% and SF's 4.5%? Are you making up for time from when you last raised fares?		
R_2ce0tZ7Aaeyhvy6	The increase doesn't seem too drastic, however as a commuting college student the slight increase will definitely add up.	X	X
R_2U9JlvjflzVhbfX	The increase is reasonable for the short trips. It is difficult for me to judge if the increase is reasonable for the longer trips. I am one of those who will be affected by that increase and my costs will increase by about \$16.00 per month.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_33qYJqgics166N2	the increase of fare is something I would agree with only if more train carts will be added during rush hour along with more police	X	
R_1j04tAcesIrb1Hi	This is a difficult question, I think that with the fare increase, BART should advertise any option available to get discounts on BART fares, like tax incentives for example.	X	
R_tPqnuY82MsVmZ4l	This is a reasonable rationale. I'd like to see a bigger discount for daily long distant autoloader riders like me, also partnerships with organizations like Stanford's agreement with Samtrans/Caltrain/VTC etc may help defray your capital costs. Also look at providing weekday and commuter discounts.		
R_2qrto6cXp1oSPoH	This seems reasonable; however if you stop the fare evaders you would probably see a 1% or more increase in revenue.		
R_1gcE37KOA2x12L5	This sounds good in theory, but how do we BART customers know for sure that the goals will be met (new cars, more frequent service, more cars, etc.)? And how soon would those various goals be met? I would not like a fare increase if it won't actually end up benefitting me.	X	X
R_1hDLNF6RftHYk5f	Too close increases together - every 2 years is too often.		
R_yUW08PJ7keq0p6F	we have had fare increases in the past and the trains are dirty. I put my bag down once without looking and it then smelled like human feces. I would be more supportive if BART takes seriously reforms to make the trains cleaner	X	
R_2dvj29eCIHGTuuR	While I think getting people onto BART and out of cars is a high priority, I understand that BART needs capital for improvement. If this cannot be gotten thru regional funds (since fewer people on the road benefits all, it really should be government funded..), then I would be OK with it		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1F38MsQo4orfzPW	Worth it if trains have less homeless people sleeping in them

R_uy7dmb73cQlkosp	A BIG NO FOR FARE INCREASE. THE TRANSPORTATION COSTS ARE ALREADY HIGH IN BAY AREA ALONG WITH ALL	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low-Income
	OTHER COSTS INCREASING. WE NEED A RESPITE ON THIS!!		
R_3JgtcoVobliK6ij	Actual clipper card holders should not be penalized for the fare evaders. There should be better gates for entrance	X	
R_2Qxlf8SifUsEXp	All scheduled fare increase should be canceled until it is independently verified that Bart's overall operations are running as financially efficient as possible. All expansion and the associated additional system cost should be paid for by a disproportionate tax to those new areas for not joining the system sooner. Everyone should not pay for the shortsightedness of the few.	X	
R_114WBmIEUvIYA9q	Always a fare increase. It gets more and more expensive just to get to work.		Unknown
R_3MaHYlr8JfPZlm0	as riders we do not have a choice but is certainly unfair. We demand cleaner trains and more police presence. The amount of homeless people riding on trains and taking over seats while they sleep is out of hand. The smell of their filthy clothes is hard to take on people's sensitive or weak stomachs. I hate to sound harsh since it is not the fault of these mentally ill or drug addict people to be out on the streets! but they abuse the riding system for others and they commit crimes as well.	X	
R_30dhmVxx22b7hXL	Bart already cost an arm and a leg to ride. And I have no choice because I need to use it to get to work. I spend \$50+ a week just to get to work. That's not including parking fees at the station. I've never paid so much for public transportation, anywhere. Chicago, New York, Asia, Europe, all charge less for the use their subways and trains. The quality of the ride is not worth the hike, it's not worth the fee now! I am already not a fan of the Bart, raising fares will force me to quit my	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	job in the city. It might even force me to move out of the area.		
R_OHg9aWw0ff098Dn	BART doesn't need to raise fare's - they need to negotiate better salary contracts with the unions. The employees and the administraiton level are the most overpaid and under worked employees ever.		
R_swp4osMcrYerGtv	BART fares is already expensive considered the quality of service, safety and cleanliness. BART's expense should cut and improve service, safety and cleanliness.	X	
R_1CpBDunnFAMFi9I	BART has become filthy, dangerous, and disgusting. I take up to 15 rides a week on BART and have for many years and have seen the system decline and become an embarrasment to the bay area. There should be fare decreases until the state of BART improves. FILTHY, DANGEROUS, and STINKY! If there were any other way for me to get where I need to go I wouldn't go near BART ever again. I feel held hostage by the system and the inadequate management of the system.	X	
R_3F50eQof2c1Qutj	BART is already costly, and this will be the second increase in as many years. Plus, 5.4% is not "less than inflation." I got a 1.9% increase this year. Also, the paper ticket "penalty hurts the poor and elderly, since they typically are not tech savvy and/or don't have online access that is required for clipper cards.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2AGvRLFp3UonAjd	Bart is already incredibly expensive, compared to other major city. If you add on how crowded and old the trains are, it is astonishing to think you would want to raise it more. Finally, I wish there was a monthly rate, that would allow for unlimited travel.		
R_1r2fWsg2mWf4du1	BART is already one of the MOST expensive public transit systems in the world, and you want to UP the fares AGAIN!!! It is ridiculous!! You are making it so that the average person can't ride it with any regularity. You need to run BART like the subway system in NY or Chicago.		
R_eEYZl3FutNAQkKJ	Bart is already prohibitively expensive and the trains are disgusting. The fares should absolutely not increase.		X
R_1Cx0wuOUKcyV9H6	Bart is already so expensive that lower income rider have a hard time using bart. I dont see where this money is going in BART. The cars are nasty, to many drug users and crazy people on bart. And it's just not safe.		
R_1C1KNNgFkXyOUL3	Bart is already too expensive. I don't agree with more fare increases.	Unknown	Unknown

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_UX96cypY6UIKkGl	<p>Bart is already too expensive. Systems like the subway in New York which are far more reliable, have far better hours and far better service have significantly less cost.</p> <p>The cost for me to get to work has drastically increased over the last 2 - 3 years making it less than desirable to work in San Francisco.</p> <p>I'm currently paying close to \$20 a day to travel to and from work (including the ridiculous parking fees) to spend most of my time standing.</p> <p>Adding insult to injury is the new trains that have significantly less seats and hold significantly less people comfortable. People do not want to pay these type of prices and stand.</p> <p>Bart is completely out of touch with it's ridership and seems to only care about its profits.</p> <p>You are pricing yourself into a corner where it will actually be MORE cost effective to drive from areas like Concord to San Francisco than it would be to ride your system. I can get early bird parking for about \$20 a day in the FiDi. With the constant increases, you will be parity with parking + toll + gas very quickly making your system close to obsolete.</p>		
R_2ScpfF5zA4kegws	BART is already too high.	X	
R_0TxrpWKQzk2W9Sp	BART is already unreasonably expensive. With 2+ people it's cheaper to drive into SF and pay a single toll than it is to pay round trip BART fare. And my car is more comfortable, is the temperature I want, and I'm not physically pressing my body against strangers. Why pay you for the service when it's such an unpleasant experience?	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2sTH7fhgaXWnfyy	BART is expensive as is. As a college student who often takes BART this small increase will definitely affect me negatively. I constantly see people not pay to use BART (hoping over fare gates, etc.) and it is very frustrating that myself along with other paying BART riders will have to pay the fare increase while others do not. It is hard to fathom why BART is looking to expand when they cannot control they stations that they have already.	X	X
R_21GJBFK3JcUi73V	Bart is expensive as it is.	X	
R_qEdp3LHeGZGlPEd	Bart is expensive enough and with no option to buy kids tickets at all stations. It cost me more than 40 dollars to take 4 kids into city from hayward		X
R_1QbjucPzhnODdZy	bart is getting to expensive		X
R_PtSgvXZ4mh94pln	Bart is so expensive already. Between that and the parking cost it's cheaouer to drive		
R_2rBBao8jxPhhMje	Bart keeps raising fares and the service is not improving at all. I see homeless people on trains and druggies shooting up almost every single day and never see any Bart Police around.	X	
R_Dq1mkVwY7MFXd2V	BART should try to get funds from the State budget and not burden commuters.	X	
R_2dyxXNuPCzQugWZ	BART use will be increased due to increased freeway traffic jam. I wonder if the volume of passengers increase with justify the need for BART's financial requirements.	X	
R_26exYWkSxzPvThB	BART's fares are already incredibly high. There has to be another way to figure out how to manage the transit system's finance and budget. For those of us who do not make 6-figures, this increase will hurt us a lot.	X	
R_1DTotCqmQNG5hsp	Before any fare increase, BART needs to earn back the loyalty of customers. FIRST do your best to make BART safer, cleaner, dependable, and timely.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2w13FxBK5Fh0Rdxd	Considering the crowdedness in the Bart compartments during the peak hours and hardly any room to breathe, this increase in fare doesn't justify.	X	
R_3qTJPNddBaVxHVN	Despite claims that increases go to bettering BART, stations are filthy, elevators and escalators constantly broken, drug use and filth on trains. Fares are already costly.	X	X
R_2VQikTAisV9Ksts	Disappointing as Bart is my sole means of transport to work... I obly wish my wages increased 5.4% to match		
R_w1TIbtWjGcd0WWt	Don't do it	Unknown	Unknown
R_1mrwcpnlNTIn3Me	Don't do it unless it's going to extending Khris Davis	X	
R_2xDbfxZBBRfahn4	Don't do it.	X	X
R_27pdGxSKEaYzrXO	Don't raise fares. Catch fare cheats! Raising fares will increase their number. Make the fare gates like NYC. Don't make us pay for other people's ride.	Unknown	
R_3kOeJvgqSEHe4ab	Fare increases are the most regressive way to fund public transit because it burdens the folks who generally have the least means. We need more economic capture, surcharges on businesses in economic development corridors, bond measures, etc. Let's explore every available option -- as I'm sure BART directors are doing already, right?! -- and minimize fare increases. Or maybe introduce a new fare tariff; for example, something like those who qualify for public assistance pay the reduced senior fare...		
R_24oQw6nVapi4vol	fares and parking keep increasing while the quality of service keeps getting worse. BART has some sort of delay everyday, and huge homeless problem.	Unknown	
R_b9JypfbDlfQIAFz	fares are too high right now, no increase is needed. Financial responsibility needs to be in place first.		
R_1Nepxr1ivmluexc	Getting cheaper to drive almost		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2XbovjLe4m4xK13	Honestly the bart fare is slightly higher than most people's preference. Since the traffic is so bad people are preferring bart even though the cost for fare is more expensive then driving. This will add more traffic on the road	X	
R_3HI8yTMPcWHwRvH	I already pay 10\$ a day for Bart. I feel this is getting a bit too much. Long distance should be cheaper		
R_2YnYrW0ifhZ63nL	I am against this issue. I understand that due to an increase in public use and the deterioration or maintenance of trains an increase in revenues is always the first thing that comes up. If resources were allocated to increase rider theft which are substantial, BART would recoup all that and then have more that the necessary funds to get new/more trains.	X	
R_11A9KhUTo5TmlmF	I am annoyed with fare increases in general when I see fare evaders jump the gates right in front of me. It makes me feel like I am subsidizing their fares. London has high gates that are hard to jump. Berlin/Munich has fare checkers that you can tell just boarded the train because all the fare evaders rush for doors.	X	
R_3g65rpK2iCZ13ad	I am opposed to this fare increase. There is already reduced service hours and asking riders to pay more is not okay. We should look into recovering lost revenue from the riders who don't pay at the gates. We should look into advertising as well to help cover the difference between Measure rr funds and operating budget.	X	
R_1q9QetuWfd3Dy5m	I am personally tired of the fair increases. They BART system is already expensive. The public still doesn't see the improvements. It is frustrating to see fare increases and a poor service.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1jIFA9a90FZDn77	I am very disappointed to hear this as I feel the fares are always increasing. I have to use Bart five days a week to commute from the East Bay into the city, which means I pay over \$2K annually. Parking is almost non-existent now as Bart had removed parking lots from by nearest stations San Leandro and Coliseum and sold the lots to be turned into apartments. I feel like I do not feel any positive impact of the previous fare increases...I rarely see any of the new trains, Bart police are never to be seen, and the trains/stations are dirtier than every and feel less safe over the past 8 years I've been riding daily.		Unknown
R_24vJUCBbegKx1t2	I cannot believe BART fares are going to go up again. The rates are outrageous. The trains go to very few areas relative to the size of the bay area, there is no monthly pass, and the trains stop running at an unreasonable hour. Bay area transit in general is a joke- there are so many different systems that all have different rates, passes and times. It's a shameful part of living in the bay area.		
R_eP6JudXf15ZDR3r	I can't afford any increases. The cost of living here in the bay area is already through the roof. !	X	
R_2VDav4ecdc5oQpW	I DO NOT support any more increases. Where does it all even go? Dirty stations, overridden with transients, drugs ON trains, needles in seats, URINATION AND DEFECATION ON THE FLOOR, old trains, air not working on trains, etc.  I pay and deal with fare hikes almost every year and I don't see conditions improving.	X	
R_ROetvphYY8aih4l	I don't like it, but have little choice in the matter as a commuter that depends on BART.	X	
R_eUQvw8gvldz5zRn	I don't see any justifications for increase when elevators are filthy, Escalators are 50% working, Bart trains are dirty.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2xJ0wShDc39x0aY	I don't think BART should be made more expensive. People will evade fares if it isn't in their budget. There are ways to make BART cheaper to ride, this making it more accessible to the people it serves.	X	X
R_wZxgv1K0WYStKWB	I don't think the prices should be increased because they have already been increased and if bart is too expensive it will limit access to people.	X	
R_1JKQqQTgngr9uSE	I dont agree with fair increase focus should be teaming up with Local authorities to staff each city with local police to crack down on safety and fare evaders fine and having evaders (misuse of discount cards as well) pay their share will recover shortfall.	Unknown	
R_2thVa3hsqWb2G9d	I don't agree with the fare-by-distance structure at all. It financially penalizes those who live farther from city centers who have to commute to higher paying jobs. While I understand that the BART infrastructure may not be able to support a flat rate for all riders, like the NYC subway, I would prefer that to increasing the fares incrementally. There actually may be an increase in ridership if this was made. Further, companies that retain employees who live in the metro Bay Area should be contributing more to public transportation through a commuter tax, again... like NYC.	X	X
R_2bJpMkZTz8L4FVg	I don't think the fare should increase at all	X	X
R_1K2x8711bQma7GU	I don't understand why BART needs to keep increasing its fair because the system and service gets worse every year. The early morning commute is horrible because there are always delays which causes me to arrive late to work at least 2 to 3 times a week. The cars are dirty and there's always homeless people sleeping on the trains. The seats are dirty and the trains always smells. I see fare evaders every day and hardly ever see anyone getting fined for it. To be honest, if I could afford a car, I	X	X

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	would never step one foot into the nasty and disgusting Bart.		
R_2tLRxTkWKl1Iru	I feel like you'd make more money by ensuring all those people who don't pay at all pay their fare. It's annoying to see people constantly hop the fare gates while I'm over here paying everytime and now I have to deal with a fare increase. I can only assume this will lead to less people paying.		
R_2QSrKTssJH1TJy6	I feel the fares are high and not competitive with other systems like the subway in New York. I think you need to re organize the spending. The union is protecting lazy people who earn too much for their jobs. How about doing away with dependents passes. I know of a lot of fraud. Station agents don't check dependents passes		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1kLhKzFFI59d09y	I find it very difficult to support a BART fare increase when prices are already high. Even with the Clipper card, it costs me nearly \$10 a day to commute to the city for work. And on top of that BART parking is exceptionally difficult forcing me to be at the parking lot by 7 am which gets me to work more than an hour early. And I just read an article about how people "sublet" their permits to others for parking while someone like me languishes on the waiting list. In two years I have moved only a couple hundred spots on the lists and am still in the 1800-2000 range at both Lafayette and Orinda. And according to the article, BART knows about the improper subletting of passes, but does nothing about it. So some couple in their 60s who doesn't commute anymore makes a healthy 50% profit on its pass, while I am forced to get to the lot extra early for my real commute, and BART won't do anything about it? And there is discussion about building housing over BART parking lots? And I live in an area where there is no other public transit for me to get to BART? And NOW you want me to pay MORE for BART? That seems unfair and ridiculous.		
R_PCotDea2N4qpFBL	I have been consider for awhile weather it may be less expensive to drive than pay for parking andride bart. More increases may lead me to abandon bart altogether.	Unknown	
R_Uyl4eZDZVKUlh5f	I have issue when the fact the trains are too packed, and have yet to even been in the new train, ac often is a problem, and homeless take up a number of seats. Why not control and fine people not paying instead.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3ozJ6BEmR3paFfQ	I have yet to see the capital improvements that have been promised by BART as a result of the previous increases. Most of the trains in service are the older trains, trains are consistently dirty, and the system is still unreliable. At this point, I would be surprised if riders were still in approval of the fare increases.		
R_2Wx28ToURhXvGVz	I hope BART doesn't increase the senior rate		
R_1GOKse5r7TFx3qV	I just think BART is already so expensive, and it's the most expensive for people with less income who can't afford to live closer to the city. If the Bay Area wants to decrease use of cars, why is it cheaper for me to drive into the city than to ride BART? Increase bridge toll fairs, not BART prices		X
R_3EpbJTIIsqsK1J3	I of course would not like an increase, especially since I current travel daily and cost is over \$11.00, of most of the time I have to stand and hope for the better I will not fall in crowded trains. Bart is consider a higher increase than even a COLA amount, which not all employers provide. It would be better if BART can provide gradual increase perhaps 2.7% year one and the following year 2.7 to meet the need.	X	
R_pGBYyq5Th1AUZu9	I really don't like the increased costs for the daily commuter and X. The rate for the seniors is very cheap and would merit an increase. I don't like the idea that BART employees get free tickets, hopefully, they are declaring this as income, as the benefits for employees are way too generous. Cut back on some of the benefits for Employees...there will still be people lining up for jobs.	X	
R_A0A47h7o0OEVX45	I say NO. Already I am charged \$3 for BART - AND the trains are TOO SHORT. I am having to stand WAY too much.  Just this morning the 7.06am RICHMOND		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	train from BAYFAIR was a 5 car train - it should be 6-8 cars.		
R_3ETlrfe6tNmxvzj	I think BART is expensive enough especially for those that have to travel to other cities for work. I hope money can be diverted from other sources or require that companies pay that increase, especially those companies along the BART route.		
R_2s4uKUui1QIny8o	I think for people who already have to take Bart every day in the morning and night adds up quickly even if the clipper is cheaper it still adds up. I think the increased fare will be bad for a lot of people especially students who already don't have a lot of money to pay for Bart.	X	X
R_1E57TXKgvdqnbIF	I think for those that pay fully day in and day out and not see much improvement it's upsetting. Another increase that shows what? Inconsistent usage of new trains? The issues with fare evaders still not resolved losing thousands daily. What's next increasing for parking as well?	X	X
R_2Sly1nqfkmc5WZw	I think it is ridiculous to propose fare increases when the escalators are continually broken, stairwells and train stations full of pee, and station agents either physically absent, mentally absent, and/or rude and unhelpful. Fix those problems first, then you might have some standing ground to increase prices	X	X
R_9preYe3dtNnJztD	I think it odd that BART fare increases regularly greatly exceed the rate of inflation. Also, the fare increases would be much more palatable if the trains were not so overly crowded. While I don't consider myself "disabled," standing for 40 minutes on a train becomes quite painful. I don't understand why BART can't run enough trains. While I understand crowding at peak commute		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	times, I often can't get a seat at 10 am or 6:30 pm.		
R_d05rGsJwSsFKH6x	I think it's unfair to continue to increase the price givin Bart is not open in the early morning commutes	X	X
R_1i9ZLuozLQ0yySZ	I think that another fare increase is ridiculous especially since trains are still dirty, there has been less frequent service and although BART promises that new rail cars and frequency will increase, I haven't seen any changes made by BART to remedy any of the above issues so far. Another fare increase on top of the one we were subjected to in 2018 doesn't make any sense.	X	
R_2w1gWemZk17aLM8	I think that to the fare increase is unreasonable and unfair riders use public transportation to save money and help the environment. Increasing the fare While continuing to provide sub par service will not incentivise people to continue taking public transportation. In fact it will most certainly inspire writers such as myself to carpool with others use Uber or taxis and ultimately use their own private vehicles for transportation	X	
R_10PeP0KIWTwtPPQ	I think the fare is way too high compare the service Bart provided, less security, less comfortable, less cleanness ... but keep increasing the fare, which does not make sense. Where does the money go? Profit, employee benefit...?!	Unknown	Unknown
R_2xXe71ouKSejcSJ	I think this fare increase is BS, especially after what you guys did to the people taken away the 4 a.m. train which by the way costed me my job, and I have quit riding BART since.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3CDV61aRtQmcqDB	I thought the bond measures that were voted on and approved were earmarked for capital needs? I'm frustrated that my fare increases and every week I see fare evaders walking through the turnstiles without a word for the booth attendant. Why don't you eliminate the booth attendant jobs to cover the cost of the nebulous capital needs since Bart is paying for these people to watch their phone all day.		
R_2YlGuvYVx0MoTYB	I use a disability clipper card ... every time you raise the fares, the less I use your service. I already pay for an AC Transit pass, and the cost of taking the bus to SF is much less than taking BART albeit BART is more convenient.		
R_3Jl38mVOQOFtyRm	I would love to see funding pulled from elsewhere instead of directly from riders. BART is already pretty pricey.	X	
R_1dMRPs81KNxlQ1z	<p>If I actually saw any of these changes I would be more interested in this and supportive of it. So far I see fewer not more bart police, no ticket inspectors, increased numbers of homeless people or less mentally stable people on the trains.</p> <p>I've seen the new trains once, I've seen the promise of wifi but no follow through. The improvement of the Downtown Berkeley Station appears to be taking years. I'm no longer interested in fare increases for negligible differences.</p>		X
R_2TLe05fM08kRFqy	<p>in General the BART faire increase is unfair to the Elderly, Students and Disabled.</p> <p>I currently use RED Tickets as I am Disabled and I qualify under that program. I pay just \$9 for \$24 worth of Discounted Rides. CLIPPER does NOT offer the RED, GREEN, or Orange discounted tickets. CLIPPER only offers cash value or HVT for a 6.25% Discount, pay \$45 for \$48 in Rides or \$60 for \$64 worth of RIDES, I do NOT call that a Discount. I WILL BE TRAVELING ON</p>	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	BART LESS and using lower cost BRT - Bus Rapid Transit to get around as AC Transit is LESS EXPENSIVE for NON TRANSBAY Trips.		
R_1fkfiWDNzdWjrg9	Instead of increasing fares BART needs to do a better job at catching fare invaders. I see at least 10 people on my average around trip not pay their fares. Many of these people also break other rules on bart.		
R_pSompf7wWcw0dG1	Is something in your water? I don't like it at all. Bathrooms are filthy or always closed. Lack of security, feels unsafe whenever you step foot into a station. Perhaps address those things before asking for more money. What is my ticket fare paying for? It's certainly not for the these basic necessities.	X	
R_barboSTWzNSDiud	It is a bummer for those of us who rely on BART for our commutes to work and events. While it sounds small, it adds up. Not all of us are on techie salaries. :(	X	Unknown
R_1E6SKcG9gwqz2Wz	it seems unfair and classist for the fares to be higher for people who take longer commutes which also happens to be where there are more affordable housing markets.		
R_3NJx7S1RaROV2aj	It should not increase as there are people for whom the existing ticket fare is too much	X	X
R_2UfHFmvS0qoMZIH	It would be good to maintain the current price, as there was close to 30% hike in ticket price since 10 years.	X	
R_3noS6y8yr8z6Oqx	It's INSANE that an increase is being considered. BART is already one of the most expensive public transit systems in our nation —and it's the jankiest of them all. Before any increase, how about getting the "fleet of the future" put that we've been promised for years now.		
R_1q54Et8TW3PYAr3	It's unfair because the Bart's are still never on time. there are panhandlers bothering riders. Needles from drug users on the floors. Over priced and unsafe	X	X
R_W29jfwHIGK2klQR	It's already expensive	X	X

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_wYoQPM3Nd588TFT	its ridiculous. if you are a student you should ride for free. regular adult fare should at least be around \$30-40 per month. Seniors pay \$20 per month. the whole bay area is becoming extremely, almost, criminally expensive! in Luxemburg public transport is for free. in many European countries you don't have to mortgage your house to pay to get to work.	X	X
R_116AhClq27mYysp	Just that I wish there was a way to avoid increases. Maybe there is more incentives BART can do for the community. For some it may really be a hardship and driving makes sense cuz they have kids to pick up etc.. so more incentives!		
R_DhLbiQOjLN0UgA9	Look. No matter how much you increase, who is the one paying for poor service. THERE is no Guarantee that there is a seat every time I board a train? However I just paid for a seat? For the cost of fare? I should get a seat. For the cost of parking? I should get a seat? I pay out for 1 day .. just one day round trip, my daily cost is 14.50 that's just Bart? there has to be some kind of way to weed out the cost and down grade by doing away with poor employee service. Wage cuts for those who do not do their best in good service.	X	
R_2SrarIGI2e153cU	lots of fare evaders, yet the people who actually pays have to pay more.	X	
R_1dhKrvbbpvCla1M	My employer never gives cost of living increases so why do you? Seems like value is inflated.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1LdrchaSFQATWth	Next you'll be raising the parking, Then the parking ticket fees. When will it end? You need to find other ways to cut cost within your agency before you come with your hand out trying to squeeze the working poor. I ride the train everyday pay my fare like I'm suppose to, and not once have I been ask for proof of payment. I see people hopping the fare gate on a regular while your fare inspectors stand together just talking, and not doing what their paid to do. Start there, and try to recoup some money from that loss of revenue. How about not letting the unions strong arm you with the threat of striking unless you give in to their demands and try saving some money in what you pay out in wages. Your 40 cent increase will cost me about 200.00 a year extra. It might not be a lot to you, but it's a lot to my family. So no, I don't agree with your increase, it's too high.	Unknown	
R_3MDrERqo7tLe5fr	No fare increase	X	
R_DeMuGKobhpr5MPv	No increase period !	X	
R_2VmRtIPnt9eZnwn	no no no . Are you sure these raises are not for union members!		Unknown
R_tKz75AzQaFG5zNv	No, hopefully by the time you guys increase it too much I'll have a car. Don't y'all make enough money now though?	X	X
R_qCHLFjpteBijaq5	Not a fan	X	
R_xl9Y1Wn6H7GrLJn	Not cool it seems like the fare goes up every 6 months	X	X
R_1hEU01ZIDZSaKfc	Not pleased about the increase which could likely be avoided if you ensured that EVERYONE who uses BART PAYS THEIR FARE.		
R_oY8ugagbfBeX7rj	Obviously, I would prefer not to have a increase. 5.4% is pretty steep.	Unknown	Unknown
R_3g6ohlznXFInxLG	One word "greed"	Unknown	Unknown

R_1o55TS7Mr8GkNf0	<p>People who need the lowest fares are the people who live far away from the city! The ones who can afford a 40 cent increase are the people who can afford to live in the city.</p> <p>I live farthest away in order to save \$\$ and I am being penalized for trying to save money and for not being able to get a reasonable wage.</p> <p>In short I don't like the fare increase.</p>	X	
R_3KJYr9NWndsDAKB	<p>Please don't increase BART fare it high enough.</p>	X	
R_231wuTg0TehdANW	<p>Previous strikes and fare increases have not shown any improvement in cleanliness on the bart cars. The Richmond Fremont line seems to be the worst... disappointment in not improvements after fare hikes or strikes</p>	X	
R_2bOBnyiCegCsTM5	<p>Public transit should be publicly funded. The fare is already too high. Tax the rich to subsidize BART.</p>		
R_2DY0krExGT4QMzj	<p>Should not be done</p>	X	
R_1Q005EvP2ycETVz	<p>So I don't understand why I pay when you let homeless, people that jump the rail, some woman who carry's her child asking for money and some nude woman ride the Bart. I've seen the workers just sit their and not say anything. Perhaps if the Bart employees do their jobs (AND GET OFF THE THIER PHONES) If these bums payed we wouldn't need an increase. Problem solved. You ask our opinions but your still going to increase the price wheather we all say or not.</p>	X	
R_2QA338DJcEGqqB5	<p>Stop increasing prices for people who actually pay and start cracking down on people who don't pay</p>	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2tbNaZnSrCSMuVO	That really sucks for someone who is a student in the city who lives in the east bay. When I was still in school in SF when ever Bart fair went up it was hard to keep up with how much I was spending because I was a full time student and could have a job because of 2 hours I spent on Bart a day and spending 6-8 hours at school. I understand that it is important for upkeep on Bart but Bart also doesn't do that great with keeping things working sometimes.		X
R_200cxW4n50qaLLU	The current cost plus parking is already too expensive. It's cheaper to drive to work than to take Bart.	X	
R_2y3ZLMdLWfoEbZ6	The fare increase is unfair for the services that us customers receive. BART continues to run trains that smell awful, often ridden with urine/defecation, weed smell and homeless people. I've been riding the SF - Antioch (yellow) line for the past 30 months and it's disgusting, to say the least. BART authorities have done nothing to reduce the number of homeless people that continue to board the train, taking up at least 2 rows of seats. Or the number of people that continue to smoke onboard a train and on platforms.	X	
R_yWvc6cBjxDdXX2x	The fare is already to high.	X	
R_b0Bu603EX1WyyzL	The fares are already too high, especially considering that the service is less than ideal.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3GqeqrMtasB5w92	The increases are unwarranted - just a part of BART's greed. I pay approx. \$3,000 or more a year for my commute on BART (this includes parking). The cars are filthy with a putrid stench, often there is urine and vomit on seats and floors not to mention crazy people ranting and raving - around all the commuters that are just trying to get to and from work. The BART police usually have 2 or 3 officers watching the fare gates to see who they can catch jumping a small fare while when the parking lots are dark after work there is no officer to be found as you walk to your car. The elevators are more than filthy and more than 50% of the time they are out of order. The stations in the "nicer" neighborhoods are better maintained and when I've complained on the comment card, BART's response is that it is because of the filthy people those "bad" areas service. Where does the money go!!!!	X	
R_VKjPB5Zw6DMNsAx	The service is already too pricey for the quality of the ride - frequent problems with regular service and an untenable weekend schedule do not justify my paying more and yet I have no other choice in how I commute since I don't drive and live 2 miles from Caltrain.		
R_2EoxGcmAK3dfu3p	There shouldn't be one. Bart is very disgusting and you barely get to be comfortable on it due to the homeless sleeping on there and smelling terrible	X	
R_TnEmZ5QQnZpwONb	Think the fair is a lot already		
R_reyIY7kCBGH7kYh	This increased fare will definitely negatively impact college students who don't have discounted clipper cards because of their school, so it seems unfair as they will have to pay more.	X	X
R_yK4nsQpoqqZCVQ5	This is bulls**t! Public transportation is supposed to be accessible, affordable and convenient. Right now, Bart is alienating riders and pushing them more and more towards driving. There are so many	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low-Income
	SINGLE riders on the road, everyday especially during rush hours.		
R_2zu0XvipxVmhAdp	This is not acceptable. Bart is so crowded and not comfortable to ride in additions to the delay problems & homeless in the trains. It is already too expensive for the value.	X	
R_3Ec18RtG0g70007	This is ridiculous. The trains are disgusting; why aren't all of the lines using the new trains yet? The stations are filthy...especially in the East Bay. The trains consistently run into problems and have caused delays for me when I have needed to get to an appointment. The trains are rickety and old. If you are going to increase the fares, you better d*mn well clean up the trains and the stations - it's out of control. You haven't kept up with the times - the population in the Bay Area has exploded and San Francisco is populated with some of the biggest Tech companies in the United States. And your technology is 30 years behind.		
R_C2KWpkjs7hboYwx	This makes it harder for students and low-income students to afford the fares. There may be an increase in fare evasion which could result in lower revenues for the entire BART system.	X	
R_2WT1I51ipk4jHLb	Too expensive already	X	
R_7aOIXKtPoDLksoN	too high rate for people to afford	X	
R_3n0lol4L8UVbIof	Until BART is able to get it's rampant fare dodging problem under control to enable the system to receive full fare potential, I categorically oppose any fare increases. I see fare evasion daily. Daily. Please get this issue under control first before you continue increasing fares for those who pay.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_2zMWRFJsEHSKNXB	Until you begin in forcing fare collection, I don't think most people will support fare increases. There are so many places were people enter and exit Bart without paying fares, and it's unreasonable to ask the rest of us to make up for the loss.	Unknown	
R_3iO4Fn7F4f4Xxoc	We are getting less for more. I pay more to ride without an increase in services.	X	
R_3DhHtfwonLKQnVL	We pay enough for BART as is. The cost of living is already high enough and it's already too expensive to commute. Increasing fares is just cruel and insensitive. As a native to the Bay Area it's a slap in the face that I can't afford to live where I work. To have to pay over \$75 a week for commuting is a huge financial burden increasing this cost would make things even worse for me and my family. I sincerely hope you all will keep the rates the same or even lower them. I've been faithfully riding bart since I was a teenager and the continual increase in fee's do not make me feel appreciated as a valued customer.	X	
R_1hZ24U7DVn69NOt	When I go to NYC I can travel anywhere in the city for \$5.50. Here a longer trips are very expensive already and should not be raised.		
R_2v2L4NWFfCHI91S	While I understand the necessity of price increase for the listed updates and continued modernization, the increase in frequency of cars needs to be addressed now. It doesn't seem acceptable to increase fare now and deliver on all advancements in the future. By then we'll be well into another fare increase for more future work. There must be increased service now. The current commute sardine can out of the city is a public health and safety nightmare.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1QbUg3XL9cgsr7R	Why are we not going after fare evaders? Wouldn't the citation revenue and increase in folks paying their fair share help with revenue? I find it absolutely ridiculous that I pay my fare each time I ride BART, only to see gate hoppers on my way in and out of the stations, homeless taking up multiple seats to sleep and store their stuff, panhandlers asking for handouts all along the way, and about a third of the time, I don't even get a seat. And now you want more money from me?		X
R_26lmNW0QC1nkQf8	Why can't you simply make everyone who rides BART pay the correct fare now? Do you realize how many people crash through the fare gates every hour? I think if you could find the human and technological resources to do that, you wouldn't have to punish (!) law-abiding fare-payers with ever-higher rates. Making everyone pay their fair share will reduce the amount of litter and waste on the trains. I oppose the increase. It may be possible to sue BART when station agents treat fare-evaders preferentially.	Unknown	
R_40G0AArCPesXnO1	why do I have to pay more just so Bart can become better? Doesn't the state fund BART?	X	X
R_1mOVNfZGEvPCU3q	With all these increases, it's almost cheaper just to drive my car now.		
R_3n2dXKctFQ3URlg	Yeah, increasing the fare for public transit does nothing to encourage its use. If we want to encourage people to use BART and spare the air, and as packed as it gets, increasing the fare is not fair. Please from a public systems perspective, is this really necessary? Studies show that people who use public transit are often lower income, and that is who it will impact a lot, such as commuting students.		X

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_TpB61uVmgUeXQDn	Yes I traveled from Monday thru Saturday from Balboa Bart to Pleasant hill Bart already expensive. I see homeless people in the Bart sleeping during commute time. Next going home a lot of people when get off at Bart station jumping over the fence and agent does not do anything!! Not fair I worked to far paying for my fair someone getting free ride what's up with that.	X	X
R_1pG5ZAXDn4AhWV9	Yes, are you going to improve the service? I find it already expensive for its poor quality.		
R_57HtCdCZSNF5ND	Yes, because with the fare increase, there are still no improvement in terms of BART quality and arrival time.	X	X
R_10xHujJOQ1DyWtG	Yes, the current fare are pretty high already. I need to take BART from Dublin/Pleasanton to downtown San Francisco Monday through Friday, the total cost is \$12.60. It is about \$277.20 a month, and that is already exceed the monthly tax free transit allowance by federal.	X	
R_3erH4tfdJBpzqUa	Yes, the fares keep going up but have not seen any Improvements on Bart.	X	Unknown
R_3FOIJRIYk6xQaPd	yes, this is big problem because it constantly goes up as well as parking. plus bart sometimes has delays and some trains are full and musty which i think there is other issues that should be resolved prior to increasing rates.	X	X
R_280mbf1xqGDtqRZ	Yes. What happened to the 1.3 Billion dollar bond for capital improvements that the voters gave you? Second, when are you going to update, upgrade and locate new disability elevators in the center of the 5 City Bart stations in SF? You should be ashamed making disabled people use dinky, outdated, SERVICE elevators from the 60s and 70s, located all the way st the end of the platforms in isolated scary areas. This should have been a priority and having not done something before now makes me wonder if you will wisely		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
	spend any more money for capital improvements.		
R_3qPEsX0r6ye51ro	Yes. I don't think we should have these increases for such a sub-par system. Instead of increasing fares, you should focus on collecting revenue from fare beaters. For example, put Bart tag machines around the elevators and make it easy for people who ride the elevators to pay. Muni does it, why can't bart? Also have attendants not be so lax on overt fare evaders. I see them all the time as I myself am tagging out and it's seriously frustrating. And why are the top off machines inside the turnstyle areas cash only? NO ONE carries cash these days. Just make it accept credit cards and allow people to add as much fare to their cards as possible. All these stupid restrictions you have in the system just make it harder for people to use Bart, and increase the instance of fare evasion.	Unknown	
R_XLekn17sj5Xh05r	You are out of your mind. A fare increase when you are doing a horrible job of keeping the system free from fare evasion and safe from harm by individuals in the Bart system who have jumped the gates! Absolutely not until you fix the whole paid area safety and well-being of paying riders!		
R_1IARPKMn2z2ux9w	You charge too much for dirty stations and bathrooms if your even allowed to use the bathroom all you to is take and take what are you giving back	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low-Income
R_tM5UEKFN4uyJ0wF	You need to clean up the cars and have better security before you even think about charging more.	X	X
R_3ptAgUHt0I7bsIM	You need to start catching the fare evaders so that you may not need to increase the fees - when they go up they go up too much at one time! Catch the fare evaders! I see multiple people evade the fare gates every single day! Station agent isn't even paying attention! They should be watching, especially at peak times (rush hour) when lots of people are exiting/entering.		
R_3iCiQ6zTVgn9VYB	Your fares are to high for the service you provide and lack of safety		
R_ZlNYewqJ5Z3cdf	不要调高票价，多鼓励更多人搭捷运。 *Don't raise the fare and encourage more people to take BART*	X	X
R_1JcQ43WrRk8vsrG	我是工薪族, 由PLEASANTON 去 DALY CITY. 一天要花\$13. 你們在BART工作的就高人工, 我在美國電子工程大學畢業都沒你們人工高呀, 我們薪水也沒有一年升5%, 你們就加加加. 但車內毒品和無家可歸者橫行, 他們一定沒交車費, 我們怎受得了呢? *I am from one of the working group. I spend \$13 everyday going from Pleasanton to Daly City. You guys that work at BART earn high salary. Though I graduated from a US university with an Electrical Engineering degree, I do not have the high earnings that you have. Our salary does not increase 5% annually. In your case it keeps increasing all the time. However, drugs and homeless people are everywhere in your cars and system. They must not have paid the fare. How can we tolerate this?*	X	
R_3oFu4tj5PIyGDfD	1) Please update all the detailed spending breakdown after 2020. 2) Have a third-party oversee the budget plan. 3) we all want a better commute BART system and make each other count on his end.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low-Income
R_1DPfjNpDnuMxrTX	All what I need is more security,no homeless and more supervision to the people that is not paying to ride the BART.	X	
R_2Ck3Yuvx6Ll1wL9	Already ticket fares are more It would be good to bring monthly pass kind of in Bart	X	
R_b25sA0nt6JS1spH	Aren't the new rail cars already paid for?	Unknown	Unknown
R_3shTLL2GuoaFdaG	BART is by far the highest public transportation cost in the country with the least amount of choice. What further compounds the high cost is the limited train schedule and short trains, meaning we are packed in like sardines paying a high fair for a ride that doesn't measure up. It means we'll try to find other ways to commute.		
R_tPyIAZDoCE90Hnj	Bart is probably the most expensive urban metro system in US and world. From BWI, SEA, PDX, and PHL airports to downtown is around \$4 but here you need a second mortgage. I'm retired and so glad I don't ride bart regularly anymore.	X	
R_2Va9L3g2D0cdDEd	Bart should enforce every rider to pay their fair share	X	
R_3KMV5x8JGxwaeOx	Bart should enforce people not paying for tickets.	X	X
R_2Ed9tHe0FuS7s9H	Bart Stations areas at as Powell, 16th and 24th Street, West Oakland continue with low maintenance, garbage and even broken glass, and no many security officers, most of the time none.	X	
R_2WBI2VR9vNsLTmi	Can fare increase be kept under 3%. Because that is how much our salaries increase at max.	X	
R_2R4UNLXy3GC3Jh0	Charging more for paper cards makes sense to encourage a dedicated user-base.	X	
R_YalqdefxpBjShix	comment	X	
R_3HTYleRzw6YxOMt	Consider a flat amount increase that's the same irrespective of distance traveled. Lower income families tend to live further away from San Francisco and your scheme affects their pocketbooks more than wealthier families who live closer to SF.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1PdUmyLJoX60qD6	Does Bart think they will still have the same amount of riders with another increase?	X	X
R_2ASZgFztCbtnZQc	How is 5.4% less than inflation???	Unknown	
R_3Ib0HKh59pSKJyP	How much do you need to encrease to build long urinals and stalls within the BART structure? It it pitiful to have toilets closed on BART property and to sell beverages and food on its premises.	X	X
R_3RrPLfb65S7QDDY	How much will the increase impact MUNI A fares? I would prefer youth fares stay the same. For families with multiple kids, the impact is high over the course of a year.		
R_2YkU6TOhmeq9aMO	I agree that the paper ticket fares should continue to increase, maybe try increasing only slightly on clipper, would attract more people to buy it and in return have less wait time when entering/exiting Bart Stations.	X	X
R_3CQnNbwNYbGFRVS	I can't help suspecting that these fare increases are really required to cover pay increases agreed to by management after the last BART strike.		
R_2sciMjf4PI0ypU2	I don't take Bart on a regular basis so I don't have a clipper card. Why do I have to pay more for an occasional ride?		
R_2zr9RvwzcTfl3Yv	I don't think the increase should apply to high value BART clipper purchases. There has to be some incentive.  Also your distance model is awful. A monthly flat fee would be preferable.		
R_DLXoeZzkXlvPjeV	I dont agree with the difference in fair prices between clipper and paper tickets. Prices should be left the same across the board. Increasing fairs are making causes hardship on riders who may not have the financial resources available.	X	
R_OQoTZt90NptFfPz	I hate that paper tickets cost more than clipper cards. It seems very unfair.		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3NFbAh28Zfut56l	I hate the new trains because of the very loud and unnecessary announcements. It is like someone stabbing your ear with an annoying American accent. I also hate to extremely loud incoming train announcements in the Concorde area. Paying extra money to put up with extreme sensory torture is obviously not worth paying money for. I feel deeply insulted buy your new trains and wish I could spray paint them		X
R_3fH0unAYVdgImso	I hope they increase safety security and cleanliness on your trains and stations.		X
R_1QyZsXeNk4zihc8	I really hope to see the new rail cars more often and better service soon.	X	X
R_SHGKDbFimYtCm1H	I remember when Bart settle the strike Bart employee they promised no fare increase until 2012 ok but they lies to the Bart customer on television	X	
R_27gmIvR5g8j390M	I think Bart is over priced but convenient. I take Bart to work everyday.	X	X
R_2E4NvSqjcTSUyV4	I think that this has a lot to do with fair evaders and this is how you guys word it because you know that PAYING CUSTOMERS will not put up with the homeless, drug addicts or gang bangers people are starting to get together and protect eachother	X	
R_3LipXT3Fc3lgpAX	I think the fare system should be more progressive (i.e. raise the default fare even higher and give students, elderly, low-income, etc. special rates). I'm sure you're already doing this to some extent, I am not the target audience for any progressive pricing	Unknown	
R_2dDWiXJ2b7Nlkiy	I think there needs to be a more secure way of handling the people who don't pay fare.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1LYHqK38bTs2mrf	I thought that the funding source for these capital needs was from the recent bond. With labor contract negotiations on the horizon, perception of past conduct means that labor union workers will take months to fix escalators and other equipment, cause general public misery and inconvenience and a board of directors who will not take action to bring an end to the stranglehold the unions have on the system.		
R_2Xojw6wUy1XMN5o	I thought the measure passed by the Bay Area a couple of years ago paid for the new trains.	X	
R_PBNLjP3VAcgfKSd	I wish BART would adopt a similar public transport system as that of Chicago or New York: a set fare regardless of distance.	X	
R_3k7FAG9IT2eBN01	I'd like to see intentional experimentation to understand how this affects ridership. BART fare is high, and, of course, I would prefer to see higher subsidies to the system, rather than fare increases; we need an expanded system with high ridership, not incentives for people to take private vehicles. We should also see clearer packages to get people on BART, such as family fares (including to the airport, which can cost \$40 or more for a family - way more than an Uber).		
R_svQLKh2MGUpHxlf	it seems like you ask for surveys and even if i say i do not agree with the fare hike, you do it anyway.	Unknown	X
R_1OV1mLWw7nUfsiM	It's dirty and too many fare jumpers.		
R_239mZsmuvFWLZ0f	Many of the problems with BART are systemic Bs are now going to be resolved by throwing money at the problem. BART police stand around while mentally ill/intoxicated riders harass others. How will a rate increase change that? The people at the helm of BART need to RIDE BART. Not once or twice, but regularly and at varying times of day and night!!	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_1F2jlrz1TBGNLQq	Most Bart stations and the surrounding areas are dirty. Homeless people urinate and defecate in the station and on the trains. People are now smoking on the trains. Most of the trains are outdated. The cars are usually crowded. Where is the money going? Also, Why is Bart charging people more for paper tickets?	X	
R_sUwDvQ0H4NYJLAR	Need to update stations. As well as the performance on fare kiosk . Many times the machines are not working.	X	
R_1gwQJWTrquJbuzh	No - it will be more expensive but I don't think I have any power over it.	X	
R_1Ijea0SM6f0pIVj	No as long as the clipper prices remain at a discount i have no comments about fare increases.	X	X
R_3Jl07ZNEa0omwpv	no it will likely happen		
R_1DBeSucYe0lux5v	no, but thank you for finally making the Clipper card more attractive by raising cost of paper tix		
R_3I5n2zsndlgEEo0	None, other than it would be nice to see business and taxes put more towards public transportation, like other countries do -- but I know that's not our current reality. :)		
R_1CCoZVgniN6W6Lj	One price for using the whole system. My employee who works in SF, and lives in Lafayette, drives to work! Why? Faster, CHEAPER, SAFER.		
R_3QDIUevI5BCYQbp	People who rides Bart are not the same group who's income is closely corresponding with the inflation rate. In fact, if you only increase Bart fare when minimum wage increases, it would be more fair.	X	
R_1ewSDyVuTk9q3a1	Please if u going to may fare go up can u do it on new years only	X	X
R_2CIAdiYcfnGoiaZ	Price increase effects a lot of us like me who travels all 30 days from el cerrito to sfo airport. There was an increase in 2019 already and another increase in 2020 is too difficult to survive. Charging extra to paper tickets than clipper cards sounds reasonable.	X	

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3nOvJ5gz0crE2c8	Sigh.		
R_3PQYMH1MsZ2hJYb	Since BART is a public transportation service run by the government, its goal should be if the equitable transportation of all people in the Bay Area. In support of this goal, they should adopt a need-based fare system to better serve communities based on their income levels, and not just increase fares across the board. This is the best way to ensure that everybody who uses BART is paying an amount that they're comfortable with.		
R_1flqzzCIYvleqlv	The basic issue is how much people want to pay in direct fares to avoid costs associated with traffic and attempts to accommodate it. Extensions of the system and tie-ins to other mass transit systems are a critical part of BART's reason for existence.		
R_3lQP1w1RqQcXUP0	the clipper card increase should be less and the paper card ticket increase should be greater		
R_1KwBs66ePwPMYII	The increased price for paper tickets targets the disenfranchised and lower income users of our public transit. How about making the clipper price more expensive so the more affluent customers pay a slight amount for the convenience of auto loading etc.		
R_UrKuYZCF6skX1ip	There are continued increases in our fares, but not an increase in the quality of services received, or any discounts for those that need to use BART daily. While 10 cents may not affect me personally, I think it will impact a lot of families that are very strict budgets and do not get any employer assisted commuter benefits.	X	
R_1j98iDGHfhUnYGX	There is always increases in the fare in order to run the organization. Thanks for the creation of the Clipper Card for seniors on a fixed income. It enables me to visit friends more often along the BART route.		
R_37wEXJBojOALQSR	What happens to funds from the current fares, taxes we have been paying since 1973, federal and state funding?		

Survey ID	(Email Invitation Survey) January 2020 Fare Increase: Public Comment	Minority	Low- Income
R_3MFsvw7UMrhd2zH	When talking about this you might want to also include a section about why keeping these fare increases below inflation is a good thing. Some people might not understand it well or at all, and therefore it won't resonate.		
R_qEfwz1f1aGi4A8x	Where did the money go that was part of the transportation bills from the last 2 elections. And don't you still get money from property taxes?		
R_tLK8Xg6uKuru0g1	Why every two years?		
R_25znl5gkXKg097D	Why there is not Bart subscription? Why insist on not offering a monthly/annual that would guarantee genuine stability and predictable revenues from large segments of riders?		
R_3QMd2pN7gksepuC	Will any of these increases go into employee salaries?	X	X
R_1dN9dsuilvZ2huQ	Will this increase apply to discounted cards, i.e. student cards that kids use to get to school.	X	
R_3KPANCrrOIKhx3U	With ridership at all time highs, perhaps a better strategy is to save money now for future capital expenses.		
R_3jUKJt3UqmEvNPY	Yeah	Unknown	Unknown
R_2X7qULJgrLIMju3	yes -- it would be nice to have a special fare if the BART is used 4 times in one day. Sometimes I need to make several round trips in one day and it becomes expensive when I have to do this often for work.		X
R_12auUggNofj7aMh	Yes, BART is getting increasingly more expensive. I think there should be some kind of monthly pass or restructure the high-value package to be of better value to riders.	X	
R_31yAR1llz3kHwl2	You should explain where you're becoming more efficient and reducing costs as well I would imagine these go hand in hand. Increase is 40 cents but would have been 50 cents but we're more efficient here		
R_2dHmWUiW9c9VF1U	You should have more discount fares for poor people. BART is too expensive for the working class.

	Opposed
	Don't Know
	No Answer

**Note on “Unknown” categorization for the following columns:**

- Low Income: Respondent did not provide all the necessary information (both annual household income before taxes and household size) to determine income status.
- Minority: Respondent left the question blank and therefore unable to identify minority status.

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low- Income
R_1ewSDyVuTk9q3a1	“I like to pay taxes. With them, I buy civilization.” - Oliver Wendell Holmes Jr. Do I really like to spend money on things like this? No, not really. Do I understand the NEED to spend money on things like this? YES I DO		
R_3mkQUQNV9uNG40c	Again, I support you buying new train cars and expanded service but please also increase the frequency that you clean the trains. We can’t rely on people to clean up after themselves, which causes others to be repulsed.		
R_W6C7SJGPMESoFDH	Anything to get more frequent trains to Dublin and Fremont		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2CkomYFlk2lFHwf	As long as the finances are thoroughly researched and deemed appropriate, fare increases are reasonable as it benefits passengers.	X	
R_1gT1mHBBH0MZYke	As operating costs increase with inflation, riders should pay more.	Unknown	Unknown
R_9ET4UxO3Oc9HAJP	BART is very important to me and I want to see it continue to improve so I am willing to pay the increase for that improvement.		
R_2ZB1rYsNy4c0Bm6	BART needs to be less expensive so that less people will use it. Overcrowding is dangerous.		
R_1JRsfstkiCiLxq	Bart needs to improve quality		
R_1F2jlrz1TBGNLQq	Bart needs upgrades		
R_1hz349wDb0g7MeQ	BART revenue should correspond with cost-of-living increases for employees and increases in maintenance expenses. We want BART to be safe for everyone to ride.		
R_3pukVi11PFxTeFS	Because the current older cars are nasty, dirty and stink. Hopefully the fare raises will help with having more BART police officers available on the trains, so we can feel safe.	X	
R_1QyZsXeNk4zihc8	can't have quality BART if there's not enough money	Unknown	
R_3QXB5gl3XbK24Op	Costs do go up and this seems a fair way to recover those increases over time.		
R_2c6njjuXTuuyDbj	Costs increase. Fairs should increase with costs.		
R_1JL9FokTKkQg9Q9	Effective and reliable rapid transit is important to ease traffic congestion and induce people to live outside the city. It must be coupled with a regional housing plan.		
R_ugZP7n03zHN1jG1	Even to maintain service you need to increase price to match your cost. I would hope that ones alot of these big capitol improvements are done, the increases may be smaller		
R_WcFQqiBwhY3AbL3	Everything needs maintenance and improvements over time. Funds are needed to do that.	X	
R_2dHmWUW9c9VF1U	Gotta have money to keep things working		
R_3P7yOobvj90W0DG	I am sure it is necessary for BART to keep up.	X	
R_3CQqMehYSvJuWNX	I feel like this would limit the homeless problem on trains. I'm sure homeless would have limited access to clipper cards and limited access to increase fares. It would keep bart	X	X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
	trains more accessible for those who actually need BART		
R_AKCCnI5FPvODtnj	I support the extension. BART is crucial. But it should also be funded by traffic congestion caused by private cars, driving just one person at a time.	X	
R_31mHdUvdmyV8pSa	I support the increase, BART needs to adopt a base price that works for daily or monthly use.	X	
R_DTCZscG31sS5aMx	I support the increase, but I would like to see more emphasis on keeping homeless people off of the cars, cleaner cars, and more security measures. If I have to change cars 3 times to avoid an unbearable stench and people sleeping on cars, then I don't feel that improvements are being made with this money.		
R_1PdUmyLJoX60qD6	I support this because the old trains definitely got to go, and better control systems are always needed.	X	X
R_svQLKh2MGUpHxlf	I support this increase. If you increase the cleanliness of the trains they are very dirty and some seats are tore.	X	
R_yUUiT0mkLQ2Hrr	I think it is important to include security measures as well.	X	
R_1kRXWbavY0tAHOc	I think it's important to continually invest in our public transit system!		
R_25SDTpgON0010MC	I think new trains are definitely necessary. The current ones are dirty and tend to break down somewhat frequently.	X	
R_2bJXnIDOd9ptkql	I think the prices should be in line with the inflation so that you can manage the facilities better. The other important thing to look at would be the net increase in customers per year to see if they are offsetting the inflation and if so Bart can do a much lower increase	X	
R_3HTYleRzw6YxOMt	I would still prefer kids fares stay low, or have very low increases. For families with multiple kids, any increase is multiplied.		
R_wMInI9KD1YTbzqN	I would support it. In addition to taking the Bart, I also take the ferry. A roundtrip ferry ride is more expensive, however the ferry experience is cleaner, safer, and more comfortable. I am in a financial position to pay more for a better experience, and wouldn't mind doing that for Bart if the rider experience was going to improve.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2xIWDQ1PJP8UXIS	I'd like to see better trains, more security, and less people, upping prices should help all of these		
R_1rC76T9THpXEB4r	If it will make Bart more reliable I'm all for it	X	
R_8waEOqyV3Digtgd	If this fare increase will definitely improve more frequent service and more bart trains, then this fare increase seems like a worthy cause.	X	
R_2WYISnatPVLX1C1	If we know the plan of increases we can budget for it.	X	
R_2U9JlvjflzVhbfX	Increases in labor, maintenance, and security are needed; which all cost money.		
R_2XhcWmtm0eLGwzP	Inflation is inflation. Prices have to go up.		
R_TcvuQU8UF8u8hKp	It would be easier on a persons pocket.		
R_3dStn9b0LU8i50V	It's a great service and cheap in comparison to other transportation.		
R_1eyKH4v2lf3wZg4	It's important to keep up with maintenance, technology and comfort.		
R_W6T2ucxmLKTBeEN	It's inflation. Obviously you have to keep up.		
R_2TuyLkCO5GRYVxD	It's needed, and you need to keep up with inflation.		
R_Dw30hDRVkCk7IwF	It's reasonable. I recognize that money is fungible, so don't make irrelevant claims about where the money will be used.	Unknown	
R_2dyEIPvtHXoruUP	Mass transit infrastructure development is critical for the Bay Area. Whatever means necessary to pay for it.		
R_2ZX0A96yizWY5Iv	More frequent trains would be welcome!		
R_UzNPVXjigBmaoY9	More safety and improvement	X	
R_2bVj49TUdyYccJA	No objection (approve)	X	
R_2WAzBrlrnUaamqb	public transit like BART is a necessity in a sprawling urban area, and is quite affordable for many (but not all) commuters		
R_3kBcqVuHlhnWXY	Public transportation is critical for the Bay Area. Definitely support.		
R_27HV4dgF2ifQJ7Q	Seems reasonable to keep up with costs, but I'm surprised it's below inflation.		
R_ZrQljcoQ24qGbg5	Some of the trains are old and would benefit from a facelift or replacement. As an individual who uses BART regularly (twice a week) I have no problem helping support the funding of upgrades, that help me with my commute.		
R_27Q2cfOyxfczDa	Sounds fair	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_1dtLEWXQoSQY4fv	The increase seems fair, given where the \$\$ is slated to be applied.		
R_23UISZgs4qBgZFw	The system has become so busy, repairs and maintenance add up. This is the only way to keep on top of it.	X	
R_Ap326zzPabELZYZ	The system is old and needs updating so a fare increase is reasonable.	X	
R_2dY1WJqcqs6SPf0	To offset concerns about regressive taxes, perhaps expand programs to subsidize for low-income groups.		
R_2amXVPuilly8BkR	We desperately need upgrades. If you don't improve the system you will lose riders.		
R_3ptAgUHt0I7bsIM	we do need to share the burden on the end of the day.	X	
R_2EHkIzalzBZRR12	We have to pay for the trains if we want to use them	X	
R_3iVx6VKOiKeetO3	We need to fund the system		
R_1ez7zh5bv9k9RnR	Well, the fares are not expensive enough to address the MAJOR problems.		
R_RRG9gCCxChRSdUt	YES - capital expenditures to avoid deferred maintenance and to make upgrades to the system are necessary. BART is the the vital necessity and core of the mass transit system around the Bay Area.		X
R_1OV1mLWw7nUfsiM	Yes I am bart rider so I like this program ,every years please add some bart and make bart ready. Thank you	X	
R_1pEVPaWi5RnkJkh	You have "got to do what you got to do"?		
R_3Ib0HKh59pSKJyP	You need new trains and to upgrade the stations. They are filthy		
R_3KPANcrrOlKhx3U	You need to keep up with inflation to be solvent. But you need to be fair too. You need more discounts for poor people/youth.		
R_21EDMknNEaj9zFp	坐Bart方便了我的日常生活。 *Riding BART is convenient for my daily life*	X	X
R_2VPxMfanCATMyel	Again, seeing improvements for passenger safety, clean and reliable trains.	X	
R_2TL05fM08kRFqy	agreed that a fare increase for transit improvements is necessary, just want there to be an equitable enactment of it.		
R_cYAuqxPRCKqyF3P	As I noted, I understand services need to be funded somehow, particularly if we expect improvements and much-needed adjustments for increased ridership.		
R_1LzmxsKDiLq6uTL	As long as it is based on inflation, makes sense.	Unknown	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_r7v4ZDxdPajWCml	As long as the increases aren't to much it should be ok.	X	X
R_2Ed9tHe0FuS7s9H	As long as there is transparency about the improvements resulting from the fare increases, I'm in support of paying more for improving Bart service.		
R_Wju2TnkjryG17X	assuming fare increases are genuinely used to support/improve/expand service.	X	
R_SC2KRzDsOc9Viud	BART cannot ignore the reality of inflation and the fare increases are necessary.		
R_cCsmPJ40kzpDR7	BART could be a lot better (cleaner, safer, timelier) I'm all for whatever it takes from us riders to get it there.		
R_0w7kKZkAGkiRlvj	BART drivers have a very high salary. There will be worry that the increase will fund their salary. The Bay Area riders are already unhappy when they go on strike leaving people struggling to get to work. Many of those people don't even make close to what their salary is.	X	
R_1hALnGdBGN4mFhS	BART infrastructure must be maintained for safety, expansion, and hopefully innovation. This requires funds.		
R_TmV3PsWyqbyjzK9	Bart needs to be careful that it is not pricing itself too high. Higher prices lead would-be users to pursue other transportation methods with competitive pricing.		
R_A4fqar7Z0JX1bQl	Based on the information you are providing me in the survey, it sounds as if this fare increase is reasonable and acceptable, but I don't know if I have all the information about all the possible funding sources that Bart needs for the future. In other words, I doubt that I have all the contextual information necessary to be able to make an informed in judgment about this fare increase.		
R_2z8Vvz1DTXta1F6	Cost of everything else goes up, don't know why Bart wouldn't. BUT, must keep improving safety, cleanliness of stations and trains, and running on time without so many delays.	X	
R_3hcp0uT4C2c3coK	Fare increases are a necessary evil, until taxpayers see the wisdom of subsidizing mass transit.		
R_2R9vuoJR7jA1n3y	Fare increases are unavoidable to keep the system in good shape.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_238hWy4gEv8cL0G	Fare increases seem necessary, but it's already expensive for those of us not earning much. Cheaper than a car, but it still adds up to a whole lot. Paying \$14 a day to get to and from school is already hard to manage. SFSU partners to offer a discount, but ALL students should receive one.		
R_3GBVQsxQ8YIQF2s	For continued support, we must see the improvements, especially more frequent trains		
R_V3Wn906xnL4FqM1	Generally support but would like to see more reduced or free options for low or no income people, disabled and students. Fortunate people like myself can and should subsidize our fellow citizens.		
R_2ysINQ8S2asxENQ	Honestly, I think BART should be "non-profit." Does California State Government subsidize BART? Is the state subsidy increasing at the same rate?		
R_1jIFA9a90FZDn77	I appreciate having BART as an option to commute, but the fares are higher than in other places I've lived like Boston. The system in Boston was also more reliable with less breakdowns and delays with greater frequency of trains.	X	
R_3HvNntyloKmP5Q3	I don't want the cost of BART fares to increase, but we do need more trains and more frequent service		
R_10DCEYco31R99V8	I don't want to see fares go up because it is expensive to travel in the bay but I would rather have a plan vs. arbitrary increases.	X	
R_vD2SlueL6lmdKSZ	I hope it will help fund for better service, better train cars and extending to more cities	X	
R_12LLiD22xd151ZD	I hope we can get more funding from other sources as well but I understand increases are normal based on inflation.		
R_3jUKJt3UqmEvNPY	I know upgrading an old system like BART takes money and I appreciate the efforts already in place to keep BART running on time. I've seen systems like the DC Metro totally fall apart due to lack of maintenance, and I actively see BART working to prevent that. I would support continuation of this program.		
R_3Jl07ZNEa0omwvpv	I like the fact that fares would increase at less than the rate of inflation.	X	
R_ZxBWuWlc2GofLlI	I support an increase if it helps fund more frequent service and other improvements to the system.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2fEcXNMP4Ts5PL2	I support extending BART's current fare increase program, if there is proper fiduciary oversight.		
R_237ic709NnGCEdN	I support it as someone who can afford to pay the nominal amount to sustain a needed transportation service. For low-income riders, this fare seems very high. Taxes on uber and lyft or other services that compete with the service should pay into its funding		
R_8GKWEd9UPmHrzgt	I support it because the bart system needs expansion and maintenance		X
R_3oZT5pY3IFswTWm	I support raising fares to fund improvements. Is it possible to not raise (or raise at a lower rate) fares for children and seniors?		
R_1ezyktEnzd06vIL	I support so that can get better facility. We want Cleaner, Safe, Faster, More Frequent BART.	X	
R_D8Z33J8qt8dv70J	I support some fare increase, but the amount increase is too much. the "less-than-inflation" claim is also misleading. Based on published studies, the projected US inflation is around 2% annually, so you are raising fare AT inflation.	X	
R_1TtuFMS9rLKu4ZX	I support the program to the extent that I would like to see a huge improvement in the rail cars, I would like to see a new train control system. BART needs a drastic improvement. However, as a commuting college student the increase will add up and it is not beneficial for me personally at the moment as college is already expensive within itself.	X	X
R_3fvBDVekLxFUFYe	I support the program, but can you give a breakdown of how the money is going to be allocated. You may increase by 10 cents, but is that going to help the logistics of moving people more efficiently?	Unknown	
R_br5auxYRbI2G0wh	I think cleanliness and safety should be a higher priority than more frequent trains		
R_A5IfLhiyfV10wA9	I think it would be great to invest in new rail cars		
R_2CqAScofWrpoPX3	I think it's needed.		
R_2ygsNbur1x4LyLT	I think it's only fair as costs rise, but I'd like to see a low income clipper card be introduced as well, so it doesn't price out certain folk, or limit the frequency of their ability to travel.		X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3dSrx36eWL0gdLK	I understand BART needs money to make continuous improvement for the System is over 40 years old. BART fare has always been more expensive than other public transportation for the same distance. With increase of fare, would ridership decline? I think you should put money on improving the entrance and exit gates. I have seen people avoid paying. Since no BART employees are there to catch them, these people essentially encourage more people to jump over the gates. Those who follow the rules continues to pay more to subsidize these people.	X	Unknown
R_2yqR1UNyO8SWBZ7	I understand that as a transportation system - regardless of whether it is a "public service" entity or not - it does cost money to run and that those costs increase overtime in order to maintain the overall infrastructure of the system and maintain and improve equipment (cars) integrity and performance so although "art is asking for money again" is a familiar complaint from some percentage of commuters, myself included, I recognize the importance and necessity of maintaining a well run, dependable system. It may be that although it's not a popular opinion I'm sure within the BART corporate structure, it would be nice to see upper mgmt. absorb some of the cost by way of taking slightly lower salaries or salary increases		
R_1rqqMe95Vv8hajD	I understand that BARTs costs are going up, but it should consider providing more accessibility to low-income riders.		
R_Ant3p37DTIk8JJ7	I understand the need for maintenance and improvements and also feel it's already expensive for many people		
R_pSrBxgES4FvMZgZ	I understand the need to fund the Bart system. How is this different from the measure we just passed to fund the Bart system?	X	
R_1odVwTka1oCtyNg	I use BART everyday and as long as the increase in fair contributes to the system, then I can support it	X	X
R_2ceePvxkYUqJWr9	I will support it, but I think all the information on how this money will be spent must be available to the public.	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3LXxrSeoS306RE5	I would support as long as the trains are cleaner, and it feels safer to be in the train station and trains.	X	
R_2Bm1tnCD7GwhkqP	I would support like the increases if used for noticeable improvements and extension of service.	X	
R_1r6pcbv5i081rtj	I would support this program if we saw improvements. I have seen and ridden on the new rail cars, which are fantastic, but there are still a lot of negative pieces to the experience of riding BART that need tending to.		
R_DOigu3RTnu8zLEd	I would support this program. It is worthwhile having this transportation as long as you keep it safe and well run.		
R_bOBu603EX1WyyzL	I'm understanding that fares will stay the same. And I'm fine with current rates but more for same distance travel will put unneeded stress on myself and people I know.		
R_0iheozUGLE75bBT	I'd love to see Bart improve, so if that means extending the fare increase program, I am for it as long as we see where the money is going and understand when these improvements will be in place. Transparency is key to getting support here.		
R_ODAdcdYfCaix9Pb	If enforcement of payment and punishment like banning individuals from the system was actually done		
R_12auUggNofj7aMh	If it is for the benefit of the passengers and personnel, I support it.	X	
R_2SBHKqcOysOsDU5	If it would lead to more frequent train service and more safety on trains than I would support		
R_BJrnaLd2W3udp5L	if riders support improvement of their public transportation, support through adequate funding is normal.	X	
R_2CvbelmFB1j7gmb	If the fare increase would actually result in more frequent service and possibly expanded service, then I would strongly support the increase. However I think that there should also be reduced price options available for those who cannot afford the increase.	X	
R_Wope66GYGWdSbwI	If the money goes towards improving Bart then I support	X	
R_3iO4Fn7F4f4Xxoc	If these funds went to keeping the trains and stations clean, more security in the system, ways to reduce fare evaders and panhandlers on the trains, and have more trains running during heavy transit times, I would be for it.		X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3CQnNbwNYbGFRVS	I'm fine with maintaining it. Less than inflation increases are necessary for people closer to poverty and this seems like a good way to handle it.		
R_2v8RLQgz1XBUwvQ	Inflation is always rising so should prices so that Bart isn't losing money. If they lose money it will affect cleanliness and accessibility.	X	
R_2Bna3Evcf3PP5iO	It becomes expensive to even take public transportation	X	
R_8e5xuZU06fmrNXH	It is so expensive to commute here, but BART is still a better deal than MUNI and BART needs the money. Contra Costa county needs to contribute more to BART.		
R_1EaQhY4hXNCqQ89	it seems like it would be helpful to get it established in everyone's minds that fares go up in regularly scheduled intervals and in predetermined increments. i was not aware of this fare increase schedule until now.	X	
R_3FQyw4nV5ywwxKn	It's needed to keep up with demand and increase system revenue		
R_3s6VjeKC62uDzwl	It's expensive, but I feel like it's needed to help improve BART	X	
R_2w1gWemZk17aLM8	It's hard to keep up on a disability income when everything keeps going on. Perhaps you can not raise people who live on disability income?		
R_3FVWBzr8NVIId5ro	Money is needed for improvement and I'm willing to support that as long as the increases aren't too drastic.	X	
R_2qrto6cXp1oSPoH	See my answer to the first question		
R_plBhwXNswF2Xz2N	See my previous comment		
R_aeYEYRxzEr07cyd	See previous note on limiting raises to COLA		
R_2wBO9wFZ58HTHBD	Seems necessary.	X	
R_1lbJYstlyGn2KpM	Seems reasonable.		
R_1duy3N6MYx543IV	somewhat support. i just worry about low-income riders who need BART to get to work/school/social support locations and who don't always get increases in their financial support. \$0.50 per ride for even short rides can really add up over a month.	X	Unknown
R_3000IHLUchiI3UI	support - new cars are necessary		
R_239mZsmuvFWLZ0f	Support if used for new trains more police		X
R_tPyIAZDoCE90Hnj	Support it as long as it is under the % age of average increase in our salaries	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2pYy35JxxYVVPa7	The BART has issues in capacity right now, and it needs more funding to upgrade its capabilities but at the same time there should be more subsidies from private or public sector and not just relying heavily on increasing the fare.	X	
R_1DBeSucYeOlux5v	The cars need upgrading and more of them		
R_3QDIUevI5BCYQbp	This depends on the availability of other revenue streams and the political climate.		
R_3fTdgmPIx5uz3sZ	Upkeep, expansion are both necessary. Cost to commute is growing and has made finances difficult for some commuters.		
R_3Glmuh24m2V2WAF	want to see a better effort to reduce fare jumpers		
R_1ltOt4hRLPexHes	We all dislike fare increases but you need to keep the system up-to-date.		
R_3CCamwvwRLTrYoQ	We expect an equal or better experience.		
R_uw9fUurlLDj2uFnr	We should be making transit cheaper and more accessible, however I understand the need to keep up with inflation and these fare increases are pretty modest, so somewhat support them but believe BART should focus on raising parking fees before raising transit fares		
R_yOx87UrSmME8nGp	You should be able to keep up with inflation to cover operating costs and future improvements	X	
R_3e4vwMaSdTRcoPR	again, it should come out of the general budget, or specifically from automobile taxes; bridges, registration, gas, etc. vs making the poor pay for it.		
R_3NZYXMi5aj7i3Ve	As I commented before - if the fare evasion is properly addressed then those of us being honest shouldn't have to carry the financial burden.		
R_3FPQNu4xzkRgS20	As we are painfully aware it is expensive to live here. I would suggest you confirm if it is a bell curve for cost of living increases or bi-modal and therefore effect people disproportionately.		
R_2TLb9UVGSPNJZkK	BART does need to do infrastructure improvements, and those are needed improvements, but between bond measures and fair increases already done, it is a hard sell to do more.		
R_3RdVxtPcqzyQbfb	Fares are getting higher and higher hope that it helps the system	X	X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_1flqzzCIYvleqlv	How are existing funds used and what hasn't a capitol reserve been in place?		
R_1eRD80GsU3R1qo6	I am not sure about supporting it. Based on the reason stated above, the additional increases will be new rail cars and system improvements. It doesn't consider the health and safety of the commuters.	X	
R_3HU0ZAoQQGq4CX4	I can neither support or oppose until I can see what improvements BART attributes past fare increases to.	X	
R_2QA338DjceGqgB5	I dont see any others ways/options to get revenues for the maintenance of the bart system.	X	
R_2UfHFmvS0qoMZIH	I like system improvements and new rail cars and anything that helps BART better and more efficient. But i'm for free or very cheap public transport. Especially, if you are a student. I was spending \$100 per month on bart! i am a student. sometimes i didn't have money and had to get places.	X	X
R_bg7WWtol82KqweJ	I understand the need to maintain the cars and tracks. But Bart wages are excessively high. And watching the station staff play on their phones and nothing more makes these increases seem unjustified		
R_OQoTZt90NptFfPz	I want to know where is all the money that Bart is making house on Bart property ok	X	
R_2cod7aMccVylvgM	I will fully support this when Bart functions 24 hours a day. It's baffling to me that, like Cinderella, you have to head home before midnight or you're stuck.	X	
R_2bP3fsmiQbJhdgh	I would like better service, but I already find it expensive to ride Bart.		
R_3NQDQIkZp7ACogE	I would support if Bart spend to improve on rider safety and ride quality	X	X
R_SZD7fj36Z7Xq5RT	If fares are truly going to be used toward improvement of the BART system, I have no problem with the increase.	X	
R_3ozJ6BEmR3paFfQ	If the increases are needed to run the BART system, then it is okay, but if to add to the benefits for the employees, then NO...	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2eOqj5oZ8YvuVtY	if you increase fare, BART needs to make sure to have a faster response time to incidents that occur in which police are needed. For example I reported an incident as train was leaving Civic center yet police did not respond till after passing San Leandro station, in addition decreasing the amount of syringes found on Bart trains. if fare increase but everything as of now stays the same than no I do not agree	X	
R_3Nw9kEZMoH4x1iE	Im not against it, but I am not a fan of the new rail cars. I think refurbishing the existing cars would be more cost effective.	X	X
R_2zr9RvwzcTfL3Yv	Increase safety security and cleanliness?		X
R_1FsSGFHCjfdtwD6	Make the program more efficient	X	
R_8IZKHAMvBz7v7qx	No comment		X
R_28Ombf1xqGDtqRZ	Not confident that Bart will manage their budget appropriately to ensure promised import will take place.		Unknown
R_1ieMPXMhazi50nC	not sure if the actual improvement will occur.		
R_1pG5ZAXDn4AhWV9	only if we can have other issues resolved. it should also be fair the community	X	X
R_3ERNUDILgsdN4mf	See my previous comments	X	X
R_30vUOevUQbZeTex	See previous comments	X	
R_3ETlrfe6tNmxvzj	See response to first question.		
R_3KMV5x8JGxwaeOx	The increase is not necessary . People would be driving to work or carpool if less cheaper means.	X	
R_b25sA0nt6JS1spH	the problem is the individuals who do not pay for bart and ride for free, that could possibly make up the 5.4 percent.	X	X
R_AjndeeCeMGpQHVT	There needs to be better decision making on where the money is spent.	X	
R_1MWMMe8rSqYiAoNy	You haven't really released the new cars that are already being tested... Those should be in use before you talk about more new cars...  New cars don't do anyone any good if they are sitting at the service station... Well, maybe they just provide job security for the people servicing them...		
R_eGagTcwAaXJth0l	5.45 inflation increase doesn't sound reasonable. Should be about 3%.	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_AHcPSfh4IL67WKd	Again, I don't think it's fair to pass the burden on to customers when they have suffered through pretty bad conditions at Bart for many many years. I think you should look at your spending and where you could cut corners. Combining job duties to make everyone more valuable and efficient? Other country's are much more Effie than and clean and cheaper. Look into what they are doing that you are not		
R_eEYZl3FutNAQkKJ	Already too high	X	
R_2WBI2VR9vNsLTmi	At some point it's just going to be too expensive	X	X
R_2U3mupZTxpFvN2G	Bart has somewhat cleaned up the stations of homeless but there is still a long way to go. It feels unjust to increase the fare when the product you provide is so unpleasant most days.		
R_2Ck3Yuvx6LI1wL9	Bart is already expensive. Why not focusing on having everyone pay their fair share instead?	X	
R_2rBBao8jxPhhMje	Before any fare increase, BART needs to earn back the loyalty of customers. FIRST do your best to make BART safer, cleaner, dependable, and timely.		
R_2y3ZLMdLWfoEbZ6	Between the cost of housing, cost of living and cost of commuting - you are only helping to drive people to move out of this city. If things don't change soon, I'll be leaving too - who can afford to stay here???? I make more than twice the national FAMILY average income and I still can't feed my family regularly. This city and its costs are infuriating.		
R_31seVFEuwHzjDza	Clean trains or install the new trains and I'll support	X	
R_3qPEsX0r6ye51ro	Costs are already too high. Catch the fare evaders and get your \$25 million that you state you are losing every year! I want to ride BART for free also, but I don't because I am a law abiding citizen and until you figure this out, you will have problems and we shouldn't have to pay more to compensate for that!		
R_1CxOwuOUKcyV9H6	Do not raise rates, it's already too expensive. I shouldn't have to budget \$20 just to park at BART and take the train round trip to work.	X	
R_DO87YlwnNXzTLs5	I actually think fares based on distance are unfair to the poorest Bay Areans. I'd like to see the Bay Area considered one community. I'd also like to see greater coordination between the Bay Area's multiple transit organizations.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_1Nepxr1ivmluexc	I am annoyed with fare increases in general when I see fare evaders jump the gates right in front of me. It makes me feel like I am subsidizing their fares. London has high gates that are hard to jump. Berlin/Munich has fare checkers that you can tell just boarded the train because all the fare evaders rush for doors.	X	
R_2YnYrW0ifhZ63nL	I do not feel any positive impact of previous fare increases in service or safety.		Unknown
R_22QVgxWhSXYevi3	I feel like it would be easier to hike it all at once.	X	
R_24oQw6nVapi4voI	I get that Bart needs money. But I feel the government should finance it more as it keeps the roads clear		
R_3noS6y8yr8z60qx	I often hear people in community saying that Bart could do more to keep noise down, safety up, and have well trained police (Oscar Grant), with the money that is generated now. Is there a way to be more transparent? I should say that I do not research BART.		
R_1i9ZLuozLQ0yySZ	I oppose because I think BART mismanages their employee costs and expenses. BART paid a janitor \$180K to sleep on the job in a supply closet and no one was held accountable. Stop asking for more money and show that BART has enterprise risk management protocols in place.		
R_2Va9L3g2D0cdDEd	I see the reason but most people (16-28) view BART as a growing cost that will encourage less ridership if price were to increase. Though it is the only rapid transport system, the dip in riders won't be too large.	X	
R_2TsLI7dH18qeQn6	I support funding to the BART program and understand the need to raise fair do to inflation but this is frequent and unfortunate for anyone who uses the service regularly. If BART provided discounted services for long term investors then I would feel better about this, but BART's roll out of new services, lines and cars is slow.	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3nOvJ5gz0crE2c8	I support unions. However, our fares appear to be going towards high paying positions that do not require a college degree. I found a dirty needle on the BART station floor, plus people nodding in the elevators, urine, and people shooting heroin in the station. And yet BART employees are monitoring the elevators that are not the busiest or the dirtiest. The clipper machines are old and the add fare machines require people to add only the amount owed for that ride, and then they have to go to another machine to add more funds to their clipper card. If you are going to increase the BART fares, they need to go towards something different than what is listed in the survey.	X	
R_sp08olOnuVCQ0Mx	I think another source of funding needs to be found. Individuals on fixed income are an increasingly part of the population. Transportation is a necessity for most people. Public transportation needs to stay inexpensive for all people.		
R_2bOBNyiCegCsTM5	I think if Bart can get people to trust them that things are going to get better then the program should continue but if Bart can't keep things working in small way or keeping Bart clean then they don't deserve the extra money.		X
R_1laxv14ekIU3yVW	I think it's too high already		
R_1KwBs66ePwPMYII	I think that BART needs to show and be more transparent with the money and where it is going.		
R_3GqegrMtasB5w92	I understand the need for BART's improvement, but I'm a college student that has to waste almost \$20 everyday just to get to school. There are no discounted clipper cards provided for me by my school or BART and I don't want to have to pay more than I already am.	X	X
R_10PeP0KIWTwtPPQ	I want BART to have funding to make improvements but not from riders.	X	
R_2dyxXNuPCzQugWZ	I would support ONLY if real, observable, empirical changes happened from now til 2022	X	X
R_3L5RgVKE2I083AT	I'd want to start seeing some tangible improvement to the passenger experience before signing on to so many future increases.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_TnEmZ5QQnZpwONb	If BART is going to increase the fares - they should provide better service, cleaner trains and stations, and better security. The trains are so foul and as a regular rider on the train, I am so tired of how disgusting they are. Also the ridiculous level of unacceptable behavior on the trains is out of control. Why aren't their BART officers regularly riding in the cars?		
R_1Dp8d4XZFJzsTQF	Increase ins fare is quite frequent vs improvement of services.	X	
R_3Jl38mVOQOFtyRm	It doesn't do the public any service by constantly increasing fares. Basically, you offset, any pay increase the public hopes/prays to receive to offset inflation.	X	
R_DLXoeZzkXlvPjeV	It feels like the costs are increasing at a much higher rate than BART is improving.	X	X
R_1GOKse5r7TFx3qV	It is hard to be able to afford even a small BART increase right now unless my paychecks increase as well.		
R_qEfWz1f1aGi4A8x	It seems fair increases do not equate to better service or equipment.		
R_2E4NvSjtcTSUyV4	It's already pretty expensive to ride the train each day to work and I have an average commute compared to those coming from far away.	X	
R_231wuTg0TehdANW	It's insulting to keep paying more and more when people keep jumping over the BART turnstiles and riding for free. The more people do it, the more other people do it.	X	
R_UrKuYZCF6skX1ip	Monies need to address more station agents escalator maintenance		
R_37wEXJBojOALQSR	No one likes a price increase, especially since I am a student	X	X
R_2RPISgZnDyq9V03	Not for capital costs. BART needs to improve cleanliness, safety (and perception of safety), and rider comfort.		
R_Dq1mkVwY7MFXd2V	Not happy with overcrowded cars	X	
R_x9H2QoLBLlIG5mV	Paying more for bart makes me sad		
R_2xXe71ouKSejcSJ	Please see previous expansive answer		X
R_2xW31Wh9Hb4wPYu	Prices should rise by at least the same amount as inflation.		
R_oY8ugagbfBeX7rj	PST re hikes have not shown any improvements on cars or service	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3rIF5uQDTdyfnid	Rate increase yet delays are a daily occurrence. The new Bart trains are nice yet the older ones just get worse, and those are the ones 95% of us ride on. Taking seats out on the trains means more people and revenue; yet nothing has improved		
R_PCotDea2N4qpFBL	Same as before -- seems like that money should come from elsewhere. BART is already very expensive as a form of public transportation.		X
R_pGBYyq5Th1AUZu9	Somewhat oppose	X	X
R_1hZ24U7DVn69N0t	The Bart is already really expensive and inconvenient I don't understand why I would have to pay to fix that. It should be their responsibility to do better	X	X
R_3KviXBF2njrUjFw	the Board board need to man up and make some tough decisions. Deals made with Unions are going to bankrupt the system.		
R_3J3guE0WrWD7Lv7	The cost of riding Bart will become a burden to those who make less but have to travel far for work. Many people have to decide between housing cost and commute cost and in this economy with both of them rising, it'll make it harder for people to commute to work.	X	X
R_3MFsvw7UMrhd2zH	The fares have already increased a great deal in the past 2 or so years and even though I don't live in the Bay Area anymore, I know how it is to rely on BART as your only means of transportation to work or school when you're low income.	X	
R_1MwsMn0aCE3gJPz	The fee increase might make it difficult for people who struggle to use public transportation now due to the cost increase.		
R_qEdp3LHeGZGIPed	Try to get funds from the State government instead of putting the burden on commuters.	X	
R_2zMWRFJsEHskNXB	We continue to pay fare increases but are consistly waiting for updates, more frequent service, and modernized cars. They are coming to fruition much slower than the rate of fare increase.		
R_ypwWXq8Kfx05xKx	We keep granting money to BART from city propositions and still can't seem to make any improvements. I am unconvinced that increasing the fare and making it harder for lower income workers to pay for their commute to their jobs will at all improve the	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
	lack of trains, broken trains and poor quality of the rides.		
R_3fHT0fTGmDlrNoU	While added revenue is important, I would prefer changing the overall allocation of transportation resources to more broadly support transit and to reduce subsidy to auto use		
R_2fjrZWuBYy9V5mW	Will BART be transparent about where the additional fund gained by collection of additional fare be allocated? I want accountability within the organization and progress on goals.	X	
R_1Q005EvP2ycETVz	A fare increase without any improvement in quality of services and trains is not justified. No new trains have been added to the yellow line and the existing ones reek of marijuana, urine and defecation.	X	
R_1dMRPs81KNxlQ1z	Again, so many cities served by BART rely on it. Why should riders pay increases? Why can't companies that are located here chip in?	X	Unknown
R_swp4osMcrYerGTv	AGAIN...You charge WAY TOO MUCH compared to other systems throughout the country and the world.		
R_0TxrpWKQzk2W9Sp	alot of people get paid minimum wage so raising bart 0.50 more will effect alot of people		X
R_2EoxGcmAK3dfu3p	Already way too expensive for what I get.	X	
R_1j98iDGHfhUnYGX	Any changes to per-use fares should be tied to the offering of a true all-access subscription in the spirit of real public transportation and accessible ridership across the bay area		
R_2zvxGGKb0CK980v	Are there not other sources to tap that might help prevent these fare increases??? 3/9% each year thereafter is an exceptionally hefty amount!	X	
R_1C1KNNgFkXyOUL3	As I stated before BART is expensive as is. I frequently find myself feeling not safe on BART. I have seen people urinating in public, getting into physical altercations, not paying the fare, drinking alcohol on the train, and smoking weed on the train. I cannot support BART expanding to new areas before BART is able to make the stations they currently have open safe. It is not fair to put a financial burden on the paying BART users when they are already	X	X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
	subject to an unsafe environment. If BART were to expand at the current state it is at then it would only be expanding the unsafe environment riders already face.		
R_2dvj29eCIHGTuuR	As mentioned in the last comment, clipper card holders should not be penalized. In other cities their rail system is much cheaper for further distances. Put fares are ridiculously high already.	X	
R_2YkU6T0hmeq9aM0	Bart fairs have gone up drastically and causes a hardship for riders who do not have the financial resource.	X	
R_1I4WBmIEUvIYA9q	BART fares is already more expensive considered the quality of service, safety and cleanliness. BART's expense should reduce and improve the service, safety and cleanliness.	X	
R_24vjUCBbegKx1t2	Bart is dirty. People are standing. You need to increase frequency on commute hours. Your press release lady seem angry on TV.	X	
R_2sTH7fhgaXWnfyy	Bart is getting cost prohibitive		
R_3k7FAG9IT2eBN01	Bart is not maintaining its public infrastructure.	X	
R_1DPfjNpDnuMxrTX	Bart management buckles every time the labor contracts are negotiated. Such wusses!	X	
R_yWvc6cBjxDdXX2x	Bart needed improvements. The trains are very nasty ?	X	
R_2QxIf8SiIfUsEXp	BART needs to focus on reducing costs and improving your service before raising fares further. I would say the Directors and Administrators don't know what the word "budget" means.		
R_DUGMlvVgBnpCMAF	Bart needs to get its s**t together before increasing the fares. Cleaner trains, no homeless people sleeping all day on the trains, people shooting up, just to give a few reasons	X	
R_3CDV61aRtQmcqDB	BART should NOT EXIST anymore, what the Bar Area needs is a Inter-Urban Rail , such as the KEY SYSTEM. I hope BART goes bankrupt then TESLA takes over train operations. and provides a SUPERIOR, SAFER and Less Expensive solution to TRANSBAY and long distance service.	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_W2UoSCsijzGIUt	Because the costs keep going up and I do not see any improvement in the service. It is dirty, smelly and crowded.		X
R_1E6SKcG9gwqz2Wz	Because there are so many riders and bart already costs so much bart should have enough money to maintain itself. With proper budgeting you don't need to charge riders so much	X	X
R_1IRk3UqUBRpvv66	Every two years inflation means in ten years paying almost taxi fare	X	
R_2xJ0wShDc39x0aY	Everything is already so expensive bart shouldn't be even more expensive this is some people only means of transportation	X	X
R_barboSTWzNSDiud	Fare is already too expensive, stop trying to exploit the public.		
R_2thVa3hsqWb2G9d	Fares are unaffordable already. Parking fee on top of it. I will take the bus instead		
R_3erH4tfdJBpzqUa	First of all less than inflation is such a lie. I want to know who's receiving a yearly pay raise of 4% everything other year? Bart doesn't deserve another penny until manage the fare evasion and homeless/drug problems on BART.  Also every manager/executive deserves a pay decrease in how poorly Bart is being run.		
R_57HtCdCZSNF5ND	Fix the disabled access elevators as I suggest first!		
R_2bJpMkZTz8L4FVg	For the reasons I already provided to the first question, I would oppose this. Fares are expensive, parking is abominable and BART does nothing about people who illegally sublet their passes when they no longer need them. And there are constant issues with homeless people and drug users on BART. And you want to make the average commuter who deals with all the horrible nonsense pay more? NO. Not fair.		
R_wN8Pk1Pb0XMKpX3	Funds don't seem to improve the service or ride.	X	
R_1K2x8711bQma7GU	Generate funds other ways like go after fare evaders, who ride on other people's dimes and extend paid parking to all hours bart operates. Commuters should not have to subsidize people who are going out to the city to eat go to games and such.	Unknown	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3RkooUVA5UJFdJz	How about enforcing payment instead of charging your honest customers more money? There are so many fare evaders and no one does anything about it.	X	X
R_2AGvRLFp3UonAjd	I actually like the old trains better. They are more comfortable. I'm on a new one right now and my face is squished to the wall. Seems like the old ones have mote space and seats.	Unknown	Unknown
R_3JgtcoVobliK6ij	I already expressed my thoughts in the previous comment section. It's too expensive already. I don't want more frequent services, I want an adorable form of transportation. Living in the bay area had sucked me dry financially.	X	
R_1mOVNfZGEvPCU3q	I am opposing because there has been inflation every year but I do not see any improvement in terms of bart quality. For the current older models of barts, there are no proper ventilation. There has been people passing out due to lack of ventilation within the bart especially during morning and night rush hours. At least increase the frequency of barts arriving during rush hour (specially those trains to Daly City/ SF or Warm Springs) to prevent people from pushing on each other and missing barts.	X	X
R_2sciMjf4PI0ypU2	I am poor and the bay area is expensive		X
R_2w13FxF5Fh0Rdx	I can barely afford to live here as is	X	
R_11A9KhUTo5TmlmF	I do not support a fare increase as the trains are already too expensive and for what the system offers.		
R_wZxgv1K0WYStKWB	I do not support a rate increase because how disgusting the BART system is. There's no police presence and I never feel safe on BART and I have to rely on this horrible transit system to get to and from work.	X	X
R_ROetvphYY8aih4l	I dont agree with fair increase focus should be teaming up with Local authorities to staff each city with local police to crack down on safety and fare evaders fine and having evaders (misuse of discount cards as well) pay their share will recover shortfall.	Unknown	
R_YaIqdefxpBjShix	I don't know why the BART board think it's funny to run a system that has many of its toilets closed, dirty, and too few, but expect paying and non-paying patrons to leave it clean while riding on it?	X	X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3RrPLfb65S7QDDY	I need to see improvement before there are more increases. Services are flat since the eighties. Have you been to DC?!		
R_W29jfwHIGK2klQR	i oppose since this would increase fare evaders	X	
R_7aOIXKtPoDLksoN	I oppose this program because as a commuter it's already very expensive to commute weekly.	X	
R_10xHugJOQ1DyWtG	I oppose this program because it's already really expensive for people to commute to work everyday, for a very poor quality system. The trains are constantly overcrowded. There aren't enough escalators/stairs. The elevators are really slow. The trains don't run often enough in order to handle the massive volume of people who now ride the train. Before you talk about increasing fares in a vacuum of info, I'd like to see what the current budget is, where you get funding from, what % comes from ridership, and etc. Otherwise who knows how helpful what seem to be "minor" increases seem to be on people who are already taxed in living in an overpriced area.	Unknown	
R_uy7dmb73cQIkosp	I oppose until BART is able to show improvements in service and security.	X	
R_1q54Et8TW3PYAr3	I pay enough. I have been? due to the fact that we are all restricted on what we can use to get into the City of SF? our choices are close to none?	X	
R_2Wx28ToURhXvGVz	I personally have NOT had a wage increase in 2 years ... I say NO. AND you have fare evaders DAILY - I am PAYING for FARE evaders. I SAY NO!		
R_33qYJqgics166N2	I probably won't be living in the bay area by the time the improvements are in place (due to housing costs). I believe that public transportation increases disproportionately affect lower and middle income Bay Area residents, who already suffer high commute costs and long commute times because they can't afford to live near where they work.	X	X
R_reyIY7kCBGH7kYh	I strongly oppose because I commute between Berkeley and San Francisco for school and the costs are already expensive. The round trip cost is almost \$10. This is also a common complaint of my peers. They can't afford to take BART already because it's expensive.	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2SIy1nqfkmc5WZw	I strongly oppose the extension of the fare increase program. The Bart is fundamentally flawed as it currently exists. The extension is more harmful than helpful it has extended Bart wait times and there are not enough trains to meet the current obligation let alone the new one due to the extension. bart cannot maintain the current stations, tracks, trains, and personnel that it has already. They should use the money they have to fix what's already broken not spend new money on newly created problems because things that should have been taken care of were not	X	
R_1C9qN1j0sAc1yC9	I strongly oppose this. Many people use BART for community to and from work/school/etc. on a daily basis. As it is, those costs add up to a large part of a paycheck for transportation costs.	X	X
R_3EpbdTIsqsK1J3	I think it's unfair for students and workers to have to pay more to get where they need to go.	X	X
R_1E57TXKgvdqnbIF	I think that the lack of maintenance and lack of frequent service has shown that fare increases have done nothing to improve these issues.	X	
R_tPquY82MsVmZ4l	I think the money is wasted. Every time this happens service does not improve. Trains always break down. The police are racist. Nothing changes	X	
R_2X7qULJgrLIMju3	I want to see major improvements in safety in trains (maintained trains, clean, safe from crime). You can't keep increasing these fares without showing the public something being done that is valuable to the riders.	X	
R_D8MZ3CfWGYuQuUp	I would agree to fare increase if it would include more fare inspectors		X
R_3oSbrijzbDV7aEP	I would only support these fare increases if I believed BART could actually get better. These rates seem excessive and I don't think Bart needs to be expanded any further. Bart needs to work better with Caltrain and other local transportation systems to serve the needs of bay area residents.	X	
R_2XbovjLe4m4xK13	I would oppose. If this was a short term solution, it needs to be as such. Bart asking for a fare increase when service hours are cut, trains still consistently run behind schedule during commuter hours seems like poor planning and an insult to riders.	X	

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_2YllZ73s09R7RPO	If the EPA doesn't get its act together none of us will be around in 2028.		X
R_3DhHtfwonLKQnVL	If you want to allow a certain number of homeless people to ride the trains every day, give them some kind of vouchers. Don't let them board the trains, eat, drink, litter, beg, steal, harass others, take dope, party, make noise, watch porn, film porn, and commit sundry lewd acts -- or to ride trains for hours and hours without having a planned destination. Isn't that a more humane way to pay your expenses? Failure to address these issues will only increase the number of miscreants putting wear and tear on the trains without paying a fare.	Unknown	
R_2tLRxTkWK1Iru	Instead, in force payment, fine folks eating, and add cars to over crowded trains		
R_3JlwgybVdRfRHc	It doesn't seem that the fares are being used to service Bart train (cleaning) or patrol of Bart police for commuters and therefore a constant presence of homeless riders are most likely riding for free and inconveniencing paying riders of their stenchant inability to sit near them.	X	
R_3FOIJRIYk6xQaPd	It used to be 1.10 to go one station now it's 2.50 that's crazy	X	
R_1DTotCqmQNG5hsp	It's already so expensive	Unknown	Unknown
R_3F50eQof2c1Qutj	It's already expensive enough.		
R_116AhClq27mYysp	I've already explained myself.	Unknown	
R_26lmNW0QC1nkQf8	Let Bart police check rider for fair payment not riding it free !!! I am paying for increase fair and their not	X	X
R_DeMuGKobhpr5MPv	Like I said it doesn't work for me	X	X
R_eP6JudXf15ZDR3r	Making public transit inaccessible to the public seems like a terrible idea. Poor people rely on this mode of transport, don't devoid them of what already can be considered a financial burden.	X	X
R_gCHLFjpteBijaq5	Manage the money you make already better. My household spends \$640 a month to ride on a nasty filthy dangerous train.	Unknown	Unknown
R_yK4nsQpoqqZCVQ5	My commute is super expensive and Bart is not secure	X	
R_3iCiQ6zTVgn9VYB	need more supervision to people that never pay	X	
R_TpB61uVmgUeXQDn	No improvements on Bart	X	Unknown

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_1q9QetuWfd3Dy5m	Not until bart riders truly see the positive impacts of increased fares will i support any more hikes. AT this rate, it costs me the same amount of time and money to drive to work which defeats the purpose of using public transportation, like BART , in the first place!	X	
R_27gmIvR5g8j390M	Now that the Board of Directors has realized that they are losing millions of dollars from poorly designed stations, with elevators outside the fare gates, why not wait until the corrective construction is completed and there is a true picture of actual income from the fare gates. My guess is that all these projections for need of these future increases are based on data utilizing the revenue of the faulty construction era.		
R_2VQikTAisV9Ksts	One hour out of every day's pay for a minimum wage worker from Antioch who works in San Francisco goes to BART. No wonder there are fare cheaters. Don't make it harder to have a life in the overpriced Bay Area.	Unknown	
R_3Ec18RtG0g70007	Oppose until fare evasion problem is addressed.		
R_3LipXT3Fc3lgpAX	Other cities (New York and Chicago) have a set fare regardless of distance.	X	
R_3QMd2pN7gksepuC	Our incomes don't necessarily adjust for inflation thus making BART fare increase less appealing to riders with limited income or seem just too expensive.	X	
R_3I5n2zsndlgEEo0	People's wage don't increase every two years, Bay bridge home doesn't increase every 2 years. So why would Bart tickets do? If you need. If you want a better future, you should make Bart for free can charge a premium for people who who commute but car but could ride Bart.	X	
R_b9JypfbDlfQIAFz	please see my first response	X	
R_1CCozVgniN6W6Lj	Please see previous answer re: "what you can pay" fares based on income. As an additional option to the current system of on-station ticket machines offering flat fare price, there should be an online system (run through Clipper) that lets folks apply for a pack of reduced price fares based on submitted documents that prove their income level. Once that is verified, they can then purchase reduced price fares commensurate with their income.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_PBNLjP3VAcgfKSd	Please see previous comments.	X	
R_3MDrERqo7tLe5fr	Prices are already high enough. There needs to be another way to fund improvements.	X	
R_2YlGuvYVx0MoTYB	Prop R already gives BART money, as a home owner in Castro Valley I already pay BART. I haven't seen any improvements to the East Bay, though have a lot of same issues as San Francisco. My train are always crowded, have people taking extra seats, not paying fares dirty stations.		
R_200cxW4n50qaLLU	Read the 1st page of this survey. Why repeat what you already know. (in a nutshell - stop the greed you already get enough money - quit paying the fatcats and use the money you have. Get a better treasurer - get rid of the crooks)	X	
R_1JKQqQTgngr9uSE	Refer to my prior answer. It will only f**k over those who pay while more and more people don't pay. That issue needs to be addressed first.		
R_Uyl4eZDZVKUlh5f	Regardless I would be nice to pay a fare and have a seat on a train. Also a gradual increase would be better to consider other growing expenses in the Bay Area and assist individuals and families on fixed incomes.	X	
R_2ARUP3iiPumDFh2	See comment prior	X	X
R_30dhmVxx22b7hXL	See my comments for the last question.		
R_3oFu4tj5PIyGDfD	See my previous response. Overcrowding, limited schedule, limited destinations, & highest cost.		
R_A0A47h7o00EVX45	See previous comment. With parking and fare, commuting can be over \$20 a day, plus I have to pay and maintain a car to get to home station, AND pay for muni or lyft to complete my commute from destination station. And on the ride I am crammed in like a sardine, the escalators dont work, and there is piss everywhere.	X	X
R_217LrUK7H6UNqBT	Some of us aren't getting any increases to our salaries at the same rate. This incentivizes me to look for a job closer to home so I don't incur the costs.		
R_20VhtQl0zMQwGLs	Some people already cannot afford taking bart every day and if it increases it ma affect them.	X	X
R_1LYHqK38bTs2mrf	someone is over projecting these fares. if you really want to help solve the traffic issues, maybe stop raising these fares for a few years.	Unknown	X

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low- Income
R_1mrwcpnlNTIn3Me	Taking BART is a necessary evil and remains the worst part of my day	Unknown	
R_3HI8yTMPcWHwRvH	That is all we hear from Bart fair increases. There is never a positive thing about Bart.	X	
R_wYoQPM3Nd588TFT	That percentage is over the inflation rate.		
R_3n2dXKctFQ3URlg	The current fare is very high already.	X	
R_3g6ohIznXFINxLG	The fare is too high. Public transit should be free and paid for by taxes on the wealthy.		
R_1r2fWsg2mWf4du1	The new cars suck. People do not want to pay your ridiculous prices and increases to stand for more than 15 minutes.		
R_3MaHYlr8JfPZlm0	The system needs to give back to the rider before they should consider an increase. The poor are being pushed further away and now pay more to get back to their jobs. BART has become a necessary evil in order to get around the bay area. I do not consider it an asset anymore. Filthy, dangerous, and disgusting.	X	
R_21GJBFK3JcUi73V	There are never enough Bart Police around and Bart still not as safe as it used to be.	X	
R_PtSgvXZ4mh94pln	Think about the riders who do not make a lot of money, have families to feed, and rent to pay. Fare prices are already ridiculously high. We are one of the highest in the nations and BART doesn't even offer a standard, monthly pass.	X	
R_1j04tAcesIrb1Hi	Too close. Every 2 years is too often.		
R_2ScpfF5zA4kegws	Too expensive now		X
R_2DY0krExGT4QMzj	Too expensive to take Bart & parking.	X	
R_2Xojw6wUy1XMN5o	Too much for a system that's late, dirty and doesn't stop fare jumpers.		
R_2SrarIGI2e153cU	Top heavy management reduce that first.	X	
R_2QsrKTssJH1TJy6	Until BART is able to provide proof of results stemming from the increased fares (e.g. rolling out the entire new fleet of cars that should have been put into use by now), and until BART can provide proof that these fare increases aren't going towards employee pay for overtime (as a result of poor planning regarding hiring, workforce management, etc)., I cannot support fare increases. There should be no more money until BART proves it is fiscally responsible. The trains are frankly an embarrassment at this point.		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
R_3g0NhluZU1oHdMB	Until we have enough trains, all and new trains are on line i stringly oppose fair increases. The trains to the EB are crowded even during non rush hour times, and there are no trains to Fremont after 7:45 pm — a disgrace. This is a major line.		
R_11XEQyDGLfcxgYO	Wages are not rising with inflation. Increasing the cost of living in the Bay Area will not help anyone and I predict it will cause more fare evasion than ever before.		
R_2WT1I51ipk4jHLb	We as riders are being taxed now on the promise of future improvements that may never come. I want immediate benefits for the increase not more promises of improvement, you don't wait on the fair increase it happens first and then we wait.	X	
R_9preYe3dtNnJztD	When we talk about the fare, we should think about the service it pays for. The service Bart provided is getting worse, less security, less comfortable, less cleanness ... but keep increasing the fare, which does not make sense. Also, comparing to driving, it's about the same even more expensive with paid parking at Bart station...	Unknown	Unknown
R_1dhKrvbbpvCla1M	why must there be increases every year		Unknown
R_3fH0unAYVdgImso	YOU GUY'S SUPPOSEDLY JUST GOT NEW CARS MORE SMOKING MIRRORS	X	
R_3shTLL2GuoaFdaG	You should improve funds administration, reduce expenses, making it more transparent and efficient, so could use extra funds, and even increased fare revenues in improving maintenance and security.	X	
R_2R4UNLXy3GC3Jh0	You've been raking in money since the 70s while letting your infrastructure fall apart and now riders have to make up for it? Bulls**t.	Unknown	
R_1IARPKMn2z2ux9w	对中低收入家庭不好。*Not good for low and middle-income families.*	X	X
R_tm5UEKFN4uyJ0wF	有人會支持加價的嗎? *Does anyone support the fare increase?*	X	
R_3IQP1w1RqQcXUP0	I'm not sure how to make this decision without understanding what happens if we DONT vote to extend the fare increase program. The upgrades sound great, sure, but what's the downside of not extending? Do we lose out on getting the train control system? How does BART prioritize what gets paid for in that		

Survey ID	(Email Invitation Survey) Fare Increase Program: Public Comments	Minority	Low-Income
	scenario? Are there other avenues to getting funding?		
R_27khBFmMRVEs3Dq	I'm still giving it some thought	X	
R_10uX6dRG7E2OrXV	Is there a different fare increase schedule that gets put in place if customers oppose?	X	Unknown
R_eUQvw8gvIdz5zRn	It doesn't seem right to pull money from people who are already struggling while businesses continue to flourish and cause the very inflation we are seeking to address.	X	X
R_2tKbhRrUdopriuC	It seems that fare increases go to BART labor forces. They get raises much larger and more often than the vast majority of working people who use BART to get to work. We pay more so they get more; we take home less pay and don't have much to show for it.		Unknown
R_3KJYr9NWndsDAKB	You ask us this question but you will still increase the price.	X

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_uw9fUrILDj2uFnr	Absolutely support. BART should be doing everything possible to get away from paper tickets and promote clipper cards		
R_2YllZ73s09R7RPO	Anyone who hasn't got time to consider the difference in fare costs (other than tourists, bless them) will have the money to pay AT LEAST a DOLLAR.  If you REALLY WANT TO ELIMINATE THE PAPER (better Environmentally) charge \$2.00 surcharge. Publicize the ECO aspect of a long-sasting card.		X
R_2EHklzalzBZRR12	Anyone with rides BART can easily use Clipper	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_1C1KNNgFkXyOUL3	As stated above it is faster to get through the fare lines when other BART riders have their clipper cards. Personally I have used my same clipper card for years and find it much easier than using a paper ticket. I used to lose my paper tickets, and consequently lose money, all the time. I feel it is more cost effective to use a clipper card as they are easier to hang onto.	X	X
R_sUwDvQ0H4NYJLAR	Clipper cards are easier to deal with	X	X
R_1eyKH4v2lf3wZg4	Clipper cards are so easy!		
R_pSompf7wWcw0dG1	Definitely helps to save some paper and reduces cost.	X	
R_3CQqMehYSvJuWNX	Everyone should be using a clipper card.	X	X
R_1ltOt4hRLPexHes	Everyone should be using Clipper by now.		
R_ugZP7n03zHN1jG1	Everyone should just be using clipper already anyways, its far superior. I would even go so far as to say you should just get rid of paper tickets and force people to get clipper cards no matter what.		
R_23UISZgs4qBgZFW	Everyone should own a card! Especially those who ride frequently.	X	
R_pSrBxgES4FvMZgZ	Fully support. It's a green initiative and the burden of the fare increase will fall on tourists.	X	
R_2w1gWemZk17aLM8	Go for it ... I think people should be charged more for crossing bridges without FastTrak too.		
R_37wEXJBojOALQSR	Good for the environment	X	X
R_22QVgxWhSXYevi3	Good idea because then people without Clipper Cards are wasting paper anyway, so they might as well pay.	X	
R_b0Bu603EX1WyyzL	I agree because paper tickets are used by visitors		
R_2ygsNbur1x4LyLT	I definitely agree with this, especially with the decreased paper use for environmental friendliness. I'd like to see paper tickets phased out all together with the possible exception of having some reserved for travelers, or introducing a traveler card.		X
R_2Ed9tHe0FuS7s9H	I got my whole family on Clipper - its easy and convenient. This will probably hit lower income families harder, but as long as Bart provides education around getting clipper, I think it makes sense.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_DOigu3RTnu8zLEd	I have a Clipper Card		
R_ZrQljcoQ24qGbg5	I have a lot of issues exiting the BART station when there is a mass of people and a lot of them are using paper cards because the computer has to process the difference.		
R_C3T1vllzmNG0pXP	I have noticed that systems in other cities are going this route, e.g. tap card in LA.		Unknown
R_3P7yOobvj90W0DG	I only use the CLIPPER card and I think it's a good idea to "force" people to migrate from the paper to the plastic card.	X	
R_3lQP1w1RqQcXUP0	I strongly support this — Clipper Cards also facilitate boarding for buses/ferries/etc across the Bay. But would BART consider making the initial purchase of a Clipper Card less, this lowering the bar to obtaining one? I imagine within the 15% of folks who don't use them there is a subset who can't pay the initial \$5 fee + the BART fare. Maybe if that dropped to \$3 or even free, if possible.		
R_3mkQUQNV9uNG40c	I support incentivizing people to use the clipper cards.		
R_3pukVi11PFxTeFS	I support this because printing paper wastes resources and BART could save money from not having to purchase paper for these tickets.	X	
R_2dDWiXJ2b7Nlkiy	I support this, and think that this charge will also generate revenue from non-Bay Area residents. Consider, also, giving % bonus similar to HVD but which can be loaded at machines, but in non-round increments. NYC does this and is able to keep the surplus.  That said, I'd like to see one card be able to be used for multiple people in a family so that we don't see a large surcharge encouraging people to take uber.		
R_2fEcxNMP4Ts5PL2	I support this. Clipper cards are easy to get. However the machines in the stations should sell clipper cards too. Consider upgrading the machines.		
R_2QDSvFC9ilkFxRW	I think BART should use one system only.		
R_1odVwTka1oCtyNg	I think getting people to use clipper cards is a good idea	X	X

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_1hZ24U7DVn69N0t	I think getting rid of the paper clipper card would be a great idea. I just worry how it will inconvenience others. I work at a school and we give paper BART cards to low income students. How would that change with this new policy?	X	X
R_3EpbdJTIsqsK1J3	I think it's a good idea because it could have good outcomes such as less waste and it's more efficient for all the riders who use the clipper.	X	X
R_0iheozUGLE75bBT	I think it's a good idea.		
R_25SDTpgON0010MC	I think this will make people realize how much better the clipper card is. There will also be less risk that someone loses a card compared to the ticket.	X	
R_2xW31Wh9Hb4wPYu	I think you should get rid of paper tickets entirely. They cost BART money by jamming the machines when wet.		
R_2w13FxFK5Fh0Rdx	If that's what it takes to get you guys your \$. Regular commuters are getting hit hard enough. One offs can pay more and it's also eco friendly	X	
R_2xIWDQ1PJP8UXIS	I'm all for prioritizing locals and commuters		
R_2pYy35JxxYVVPa7	It should help cut down the paper consumption.	X	
R_3dStn9b0LU8i50V	It will encourage clipper cards .		
R_3fH0unAYVdgImso	IT WILL GET RID OF THE SCAMMERS AS WELL, ALL FOR IT	X	
R_C2KWpkjs7hboYwx	Keep encouraging people to use clipper cards, and then eventually get rid of the paper ticket option. In two years, you should not have any paper tickets.	Unknown	
R_3qqHvH84yDSYyZI	Less frequent riders should pay more.		
R_yK4nsQpoqqZCVQ5	Less paper use	X	
R_3FQyw4nV5ywwxKn	Let's phase out paper tickets, this is a start to that. They are not environmentally friendly and a burden to print and restock in the machines.		
R_2bJXnID0d9ptkql	Local people who transit everyday with clipper should get preferential pricing	X	
R_3kbcqVuHlhnWXy	Love the Clipper card.		
R_3I5n2zsnldgEEo0	Make it \$10. And make clipper cards free.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_TmV3PsWyqbyzK9	Make using Clipper easier! The current clipper system is antiquated compared to that of other metro areas. If Clipper could be used to pay for more than just transportation and didn't require waiting ridiculous amounts of time to add money to the card, more people would be pleased with the system and happy to use it. Make it attractive to users!		
R_1DPfjNpDnuMxrTX	Many cities require plastic cards.	X	
R_2U9JlvjflzVhbfX	more control of ticket revenue, and the ability to cancel the clipper card make this ideal.		
R_3HTYleRzw6YxOMt	More impact to tourists, so please.		
R_1PdUmyLJoX60qD6	Need the extra money, plus as stated it would benefit everyone if more people switched to clipper.	X	X
R_eGagTcwAaXJth0l	No	X	
R_RRG9gCCxChRSdUt	No		X
R_239mZsmuvFWLZ0f	No problem...already use Clipper		X
R_2xVvh1dwtGPqhZU	Non regular and tourist are mainly the ones using paper tickets. It's only logical they are charged more.	X	
R_2yqR1UNyO8SWBZ7	Only comment is why in the world would any commuter NOT use a clipper card even if they commute infrequently.		
R_2c6nJjuXTuuyDbJ	Paper tickets are dumb. Move everyone to bart cards or touchless. Why can't I just pass my iphone over the scanner thing?		
R_eUQvw8gvldz5zRn	Paper tickets are extremely wasteful and shouldn't even be an option in a progressive metropolitan area like the Bay. Ban paper and remove the fee for purchasing Clipper cards.	X	X
R_301v4eKrPqKT0DW	Paper tickets are frustrating for everyone - especially when leaving the train. Please incentivize everyone to use Clipper.		
R_231UunvodRuUxK0	Paper tickets slow the system		
R_3g65rpK2iCZ13ad	People paying in advance deserve a little break. Thank you!	X	
R_1ez7zh5bv9k9RnR	same.		
R_ZEPvkMCKEeJ4ocF	Saves paper too	X	
R_31T0Rnc81rW02Qz	Screw the tourists...		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_238hWy4gEv8cL0G	So long as discounts for youth and elderly still exist.		
R_ZxBWuWlc2GOfLlI	Sounds good.		
R_A5IfLhiyfV10wA9	Sounds like a good way to incentivize using Clipper cards		
R_2Bm1tnCD7GwhkqP	Sounds like tourists would be using paper tickets, which would provide additional funds for BART	X	
R_1IRk3UqUBRpvv66	Sounds reasonable and save papers, trees	X	
R_3000IHLUchiI3UI	sustainability - it makes sense.		
R_1CrbZn4FV004xwP	The paper tickets are not good for the environment because people do not reuse them like Clipper cards, so I strongly support increasing the surcharge to \$1.	X	
R_3PQYMH1MsZ2hJYb	There isn't any reason for riders who use BART often to not switch to using the Clipper Card program. For those who ride BART infrequently, they may find the Clipper Card inconvenient or easy to loose. Instead of misplacing the Clipper Card, they may have to spend more per ride using the paper method.		
R_2uTIImvrHMw00ZcT	This is a good idea because it encourages people to use less paper.	X	X
R_D8Z33J8qt8dv70J	Totally agree. It is also more environmentally friendly.	X	
R_xl9Y1Wn6H7GrLJn	Unfair for out of town visitors.	X	
R_OQoTZt90NptFfPz	We already paying to much on Bart train with no police protection	X	
R_2TOb3sH530sKQ7i	Yes	X	X
R_UzNPVXjigBmaoY9	Yes on increase	X	
R_26lmNW0QC1nkQf8	Yes so riders will use clipper card!!!	X	X
R_3oSbrijzbDV7aEP	Yes, please make it easier to purchase clipper cards though, because people from out of town don't get easy access.	X	
R_3KPANCrrOIKhx3U	You should explore a 2 week and 4 week pass like most train systems in Europe have, that would make it more fair for tourists.		
R_1dN9dsuilvZ2huQ	You should make sure that lower income people have access to clipper cards without Paying the surcharge		
R_21EDMknNEaj9zFp	支持一下Bart, 因为实在太好了。*I support Bart because it is so good.*	X	X

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_2bVj49TUdyYccJA	\$1 is high, but I already own a Clipper card so no objection (approve)	X	
R_tPyIAZDoCE90Hnj	\$1 is little high. San Francisco will have lot of tourists, who would not be aware of Clipper. Then clipper card for purchase should be made free and we should be able to buy a new clipper card at any Clipper kiosk station	X	
R_33qYJqgics166N2	\$1.00 surcharge seems high, but I think it's worth it to incentivize using a Clipper card.	X	X
R_2ZX0A96yizWY5Iv	\$1.00 surcharge would negatively impact those who don't benefit from an employer provided commuter program or have access to a computer to set up automatic reloads (ie poorer folks).		
R_2dvj29eCIHGTuuR	Although I agree the paper cards should be more expensive, there are tourists, etc who do should not have to pay an extra dollar for that reason	X	
R_3hcp0uT4C2c3coK	BART should just get rid of paper tickets altogether, after a suitable notice period.		
R_1F2jlrz1TBGNLQq	Does not work for tourists		
R_1q9QetuWfd3Dy5m	doesn't impact me. I think if we can incentivize something that in theory is good for the environment, I support it.	X	
R_3jUKJt3UqmEvNPY	Go for it - DC Metro already totally eliminated paper tickets.		
R_1duy3N6MYx543IV	good for the environment. we need to find a way to incentivize tourists who are only here a brief time and don't see the value in buying a Clipper card.	X	Unknown
R_5gyVUv6mJs2INFL	good incentive to get a clipper card		
R_1JL9FokTKkQg9Q9	Has anyone studied the effect of this pricing system on tourism? Does BART encourage or market to tourists? How? Such a marketing program could increase revenue beyond what the paper ticket increase would do.		
R_24vJUCBbegKx1t2	How about an app?	X	
R_2TsLI7dH18qeQn6	I agree that reducing paper use is essential. It is a high increase but I agree with the idea.	X	
R_2UfHFmvS0qoMZIH	I am totally for less waste. Those so called paper tickets are plastic anyway. \$1.00 i think is a lot. People loose their clipper cards, having to pay \$1.00 would annoy me. Maybe also make a bart app and all you have to do is scan your phone to get in and out.	X	X

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_bg7WWtol82KqweJ	I clipper		
R_2rBBao8jxPhhMje	I feel sorry for tourists as BART is already expensive enough!		
R_1K9bHOgQJziMGFo	I only use paper tickets when I forget my Clipper card, so this would only be an inconvenience during those times.	X	
R_stKEQhZeZLpWkVz	I support if you have more local stations selling the clipper card. I have one, but have friends who do not use Bart often and do not know how to get a clipper card.		
R_1QFNeBfbVWiPgoU	I support the use of clipper cards but tourists are going to be the most hurt by paper ticket increases		
R_2xXe71ouKSejcSJ	I support this but also think it should be cheaper to replace a lost registered clipper card if you're going to increase the cost of paper tickets this much		X
R_2cod7aMccVylvgM	I support this from an environmental point. Less disposable paper tickets is less waste. Clipper cards are the future. Eventually, it would be a dream come true to be able to pay with my smartphone.	X	
R_1kFdI70yff2Y9Cw	I think it makes sense for paper tickets to cost more. Cut down on waste!		X
R_2bjpMkZTz8L4FVg	I think this is a good idea. Just like everyone should have Fastrak on the freeway, everyone should use clipper cards.		
R_3MFsvw7UMrhd2zH	I understand the reason for it and I also support over charging tourists and gentrifiers.	X	
R_1rC76T9THpXEB4r	I use clipper card myself but sometimes find that I forget it at home. And in these cases \$1 extra per ride seems a bit excessive. Can paper tickets have a surcharge on the physical ticket rather than for each ride.	X	
R_1i9ZLuozLQ0yySZ	I use clipper so will be unaffected by this surcharge. However, I view this as another way to tax tourists.		
R_1ewSDyVuTk9q3a1	I want to get more people to use Clipper, but not too many more. As these are still the people you can squeeze with fees like this. If it's too great, too many will get Clipper cards. You need just enough to switch.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_10PeP0KIWTwtPPQ	I would support this more if clipper cards were sold at every station or more stations. Cards need to be more accessible if people will be penalized for not using them.	X	
R_2z8Vvz1DTXta1F6	If you can buy Clipper in all stations, otherwise unfair to visitors.	X	
R_2tbNaZnSrCSMuVO	Is there a way to subsidize programs for the underserved who cannot afford or do not have access to clipper cards?	X	
R_W6C7SJGPMESoFDH	It has been difficult to get the Clipper card as a senior user		
R_2thVa3hsqWb2G9d	It's going to hurt tourists. But I guess it's fair		
R_27Q2cfOyxfczDa	It's good, ecologically, but overrating them could have a negative impact for out of town visitors	X	
R_116AhClq27mYysp	It's a good idea to get rid of paper tickets.	Unknown	
R_3ERNUDILgsdN4mf	Just do away with paper Bart tickets	X	X
R_a04Xf58yYSpQ4xz	Make it clearer to paper ticket users how to obtain Clipper Cards.	X	
R_3PFBBEJlzjBRMpL	Make it easier to buy clipper cards	X	
R_V3Wn906xnL4FqM1	Make sure it is always possible to obtain clipper without requiring a credit card, giving up your privacy, or other restrictions that disadvantage people.		
R_3h0e6RfHoHrXfo1	Makes it hard on tourists		
R_1laxv14eklU3yVW	Makes sense, doesn't hurt the every day rider		
R_eP6JudXf15ZDR3r	Most people who live in the bay have clippers, so maybe a small increase on paper tickets can dissuade them from buying paper. Clipper is way more convenient.	X	X
R_2v8RLQgz1XBUwvQ	No need to waste paper, everyone should get a clipper card if they are frequent users.	X	
R_3noS6y8yr8z6Oqx	Only that for homeless and folks without internet access make sure it's easy and not internet based to get a clipper.		
R_x9H2QoLBLIIG5mV	Paper tickets slow everyone down		
R_W6T2ucxmLKTBeEN	Seems steep, but if it gets us tangible benefits that's one thing. I'm okay with out of towners subsidizing residents a bit since the bart / muni monthly passes aren't much better than just paying each time.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_A4fqar7Z0JX1bQl	There will always be some Bart riders who need to use a paper ticket, either because they are tourists or because they are from out of town. I am unsure of how much of an extra economic onus we should place on these riders with respect to those who possess a Clipper card.		
R_ypwWXq8Kfx05xKx	This will make it more expensive for visitors, but seems like a way to get bay area users to get clipper.	X	
R_br5auxYRbl2G0wh	This would affect travelers and tourists. Consider an "airport pass" with a flat fee to go to an airport stop that doesn't include a fee.		
R_2amXVPuilly8BkR	This would really hit tourists and new riders of BART hard.		
R_1MwsMn0aCE3gJPz	Using the clipper card is easy but what about the visitor who doesn't have a clipper to use and how easy will it be for them to get a clipper card to use while visiting the area.		
R_3nAfyW9d4BPkTDK	Would it be possible to just make ALL tickets reusable? Paper and Clipper card?	X	
R_10uX6dRG7E2OrXV	You can't completely eliminate since tourist and occasional riders use a paper ticket. If 15% is your goal then I wouldnt raise the surcharge.	X	Unknown
R_2CQwaAUK3Dv0y2x	Again if you can keep fare invaders out then sure		
R_ROetvphYY8aih4l	Clipper card dispenser should be available at all bart stations to encourage those with out or tourist to choose to buy a clipper card to avoid excess charges	Unknown	
R_3Jl38mVOQOFtyRm	Clipper cards should be free then.	X	
R_WcFQqiBwhY3AbL3	Everyone may not have the means to get a clipper.	X	
R_2wBO9wFZ58HTHBD	Go for it.	X	
R_2X7qULJgrLIMju3	I agree that Clipper cards are a good way to reduce paper and increase efficiency. However, this is really inconvenient for tourists and sucks if you forget your card.	X	
R_1Nepxr1ivmluexc	I almost always have my clipper card on me. I just sucks when I leave it in my other wallet and have to get a paper ticket.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_wMInI9KD1YTbzqN	I am concerned about what demographic this would have the most impact on. If senior citizens are the majority users still using paper, I would not want to inflict that burden on them. It would help to know who this would mostly impact.		
R_2SrarIGI2e153cU	I believe in less waste	X	
R_1JKQqQTgngr9uSE	I feel like the \$0.50 is a good price. A dollar is a little high per trip.		
R_SZD7fj36Z7Xq5RT	I have a Clipper card and have had one since day one. Don't really have an opinion about the paper ticket surcharge, however how will that affect tourists? Will tourists be forced to get a Clipper card or how about persons who only need to use Bart one time only?	X	
R_3JlwgYbVdRrRHc	I have no opinion on this matter since I have and use a clipper card.	X	
R_1gT1mHBBH0MZYke	I like the idea of charging a premium for using paper tickets, but am concerned that economically challenged riders without computers won't have access to Clipper Card technology. Why can't Clipper Cards be sold at all BART stations?	Unknown	Unknown
R_qEdp3LHeGZGIPed	I see a lot of people jumping the gates, especially at night. I am afraid increasing the paper ticket surcharge will only encourage this kind of behavior.	X	
R_27HV4dgF2ifQJ7Q	I worry about the people that aren't banked and it's cumbersome to add money on the machines. But in general, this feels like a good way to reward locals who use the system the most.		
R_3RdVxtPcqzyQbfb	If it helps all for it	X	X
R_3LipXT3Fc3lgpAX	If this happens, we need to make sure access to purchasing plastic Clipper cards are easily accessible.	X	
R_1DBeSucYeOlux5v	It may adversely affect those on minimum wage.		
R_1EaQhY4hXNCqQ89	it seems unfair to tourists -- i don't know how easy it is for them to get clipper cards. i know that when i travel it is irritating to be forced to buy into a transit system that I won't ever use again.	X	
R_svQLKh2MGUpHxlf	Many times the users of bart. Are not permanent user. It seams like they are	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
	penalised for not been a regular customer. Not fair.		
R_2E4NvSqjcTSUyV4	Maybe just eliminate paper tickets altogether and provide clipper type cards even for one time users and see how much that would cost compared to the two type approach.	X	
R_2WAZBrlrnUaamqb	Maybe not such a great choice without an advertising campaign that pushes Clipper...		
R_TpB61uVmgUeXQDn	Mixed feelings	X	Unknown
R_oY8ugagbfBeX7rj	My concern is those who for whatever reason can not have a clipper card ... low income people maybe impacted more by this	X	
R_1KwBs66ePwPMYII	No		
R_pGBYyq5Th1AUZu9	No problem since I have a clipper card	X	X
R_3Jl07ZNEa0omwpv	No.	X	
R_231wuTg0TehdANW	Seems a bit pricey, but I use Clipper, so it wouldn't affect me	X	
R_2s4uKUui1QIny8o	Some people can't afford to keep a clipper card.	X	X
R_3QDIUevI5BCYQbp	The current requirements for Clipper appear to include having a credit card. This would tend to exclude some of the low income portion of your ridership.		
R_2WBI2VR9vNsLTmi	This is understandable. Trying to get less people to use paper tickets and more to get clipper cards	X	X
R_1MWMMe8rSqYiAoNy	This will make BART more money, But it will make people who ride BART less frequently (non-commuters) less likely to take BART as it continues to be more and more expensive... so for people who rarely ride BART, you'll risk losing their business, and there are a lot of people like that..		
R_2CkomYFlk2lFHwf	Tourists would suffer as they have no need for a clipper card	X	
R_2ysINQ8S2asxENQ	Well...I think this might discourage some folks from "trying" BART. Also, how far away are we from directly charging credit cards at fare gates? Maybe....make clipper card an even better bargain? I think I get \$64 for a \$60 autoloading. Maybe make it a \$65 autoloading?		
R_10DCEYco31R99V8	Who are the people that still use paper? Are they tourist, one time riders, youth or seniors etc....	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_24oQw6nVapi4voI	Won't change anything. Just more money from tourist		
R_2y3ZLMdLWfoEbZ6	You're essentially taxing visitors to the city and infrequent Bart riders - you're disincentivizing them from using Bart at all. Sounds like a stupid idea.		
R_2XhcWmtm0eLGwzP	\$.50 is enough to incentivize most people, but and \$1 is very inconvenient if I lose my clipper card or forget it.		
R_qV1MUOJdIZlek1j	A clipper card makes things easier, but why punish those doing it the hard way? To convince them to use Clipper? Which is more profitable for BART?		
R_3GBVQsxQ8YIQF2s	Can disproportionately affect lower income groups		
R_1QyZsXeNk4zihc8	Cash-based options are important for people who value their privacy. Taxing people who don't want to be in a database every time they take the train is a bit draconian. I appreciate the 50c surcharge since I do think paper tickets are wasteful, but I think the fee should be per-paper-ticket rather than per-ride. I also think there should be a way to obtain and reload a Clipper card anonymously with cash. If there is such a system already, then I support any and all surcharges that intend to reduce use of paper tickets.	Unknown	
R_1Qc2UPysLXEwOVj	Contrary to what we think, there are some folks out there who just don't have the immediate funds to spend on a Clipper card. Maybe offer discounted clipper programs to homeless/low-income folk who use the train regularly. Maybe offer a tourist BART card/ fare system with incentives to get tourist to use it (but they pay more).	X	X
R_cYAuqxPRCKqyF3P	I am concerned that a greater increase in the surcharge will discourage BART usage among these riders. Most who use paper tickets don't regularly use BART, so they don't feel the need to bother with a Clipper card. I understand wanting to encourage use of the Clipper card, but I also know that providing another reason to not want to bother with BART will only result in more people relying on driving or ride share,		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
	rather than being more inclined to use BART and reduce congestion on the roads.		
R_A0A47h7o00EVX45	I do like the idea of less waste and faster processing times, but a dollar seems like a lot to pay for a little ticket, especially for those who dont ride the system very often, or maybe are buying a paper ticket because they dont have enough for a clipper card to begin with	X	X
R_12auUggNofj7aMh	I do not think all of the passengers are living in the Bay Area. Some of them are just here for a couple of days and are using the rail system.	X	
R_1dtLEWXQoSQY4fv	I don't know if it's fair to apply such a penalty to riders for whom it's very inconvenient to obtain a Clipper card, such as riders visiting from out of town, who will only use BART for a week or less.		
R_2QuCWzZuCFcdZ3g	I feel like the inconvenience of using paper tickets is punishment enough.		
R_27gmIvR5g8j390M	I personally use a Clipper Card, but wonder if the 15% of riders using the paper tickets are those who only use the system on occasion and wonder why they should be penalized. They are also part of the group paying all the bonds and taxes the same as those using the Clipper Cards.		
R_1GNBbSS13vw4keh	I think \$1.00 is too much for paper. What if the person lost or had their clipper card stolen? This mean they would have to buy a paper ticket for a day or two and \$1.00 is too much. Try to leave it the way it is now.	X	
R_3ETlrfe6tNmxvzj	I think it unfairly penalizes occasional riders. For example, a grandmother taking her grandchildren to a museum (as mine did when I was a child) would have to pay a substantial surcharge on the ticket if the child didn't have her own clipper card.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_8HZ8wwgtc7pFxsJ	I think the riders using paper tickets may be folks for whom shelling out even \$20 to get an initial Clipper card may be too much money at once. I want to keep public transit accessible to everyone.		X
R_1QLwflfHnYTn4AE	I think this is unfair to tourists and people visiting for a few days.		
R_2qrto6cXp1oSPoH	I think this penalizes the occasional rider and tourists and does not incentivize them to use BART		
R_2SBHKqcOysOsDU5	I use clipper and I oppose - it seems unfair to people coming from out of town or who may not have accessibility to clipper cards. Perhaps if Clipper cards were more accessible or sold at the station this would be more fair		
R_1kRXWbavYOtAHoC	I would have to have strong reason to believe that \$1 is enough to make that 15% of riders actually switch to Clipper, otherwise it's just an additional tax on the paper-card riders that does not lead to any behavior change. These paper-card riders could be habitual Clipper card users who forget their card, and are constrained to use paper cards. Or, they could face some other barrier to buying Clipper. I would just make sure that the fare increase on this group will be the appropriately targeted lever to see behavioral change.		
R_8e5xuZU06fmrNXH	If you are going to increase the surcharge, you may as well mandate a clipper card. BART needs tourist money and \$.50 is plenty.		
R_1flqzzCIYvleqlv	If you make it too expensive, folks will use Uber or Lyft		
R_237ic709NnGCEdN	I'm personally a clipper card user, but would want to know more about the user profile of non-clipper card carriers. Are there significant barriers to assisting people who regularly buy paper tickets? Or are they simply infrequent riders. Their level of affluence would heavily influence my support for a fee increase.		
R_33pYZZSLkRVbuYe	In reality, a lot of those people using paper tickets probably are not able to use Clipper for whatever reason: no bank/credit card, they are a tourist here for a short time, etc.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_1m0VNfZGEvPCU3q	Increase can prevent people from using too many paper and being environmentally unfriendly. However, this charge is unfair for people who are one time Bart riders.	X	X
R_plBhwXNswF2Xz2N	Instead of penalizing paper tickets, make clipper more attractive by letting clipper users spend the \$3 clipper card cost on fare		
R_sp08olOnuVCQ0Mx	It is not a good source for sustainable funding for public transportation.		
R_3FPQNu4xzkRgS20	It is penalty for people without credit cards and bank accounts.		
R_8lZKHAMvBz7v7qx	It looks to much. I use senior clipper card, but I know that for tourists it is not fair to charge them more, because they will not be able to get a clipper card. It is also not easy to get a clipper card at first. One needs to go to transporting authority, stay in long line, and pay a fee for the clipper card.		X
R_Dc3pbkLUDAUKZ9v	It may be difficult for poorer people and tourists to get clipper cards. It's annoying to pay extra if you forget your card.	X	
R_2CstYD8v6NHJkgx	It's nice to have paper tocket backup since sometimes Clipped card doesn't work	X	
R_1r6pcbv5i081rtj	I've been a regular user of Clipper for a long time, but have found myself needing to purchase a paper ticket in cases where my balance hasn't updated very quickly after adding value online. I would oppose this because it can penalize even regular Clipper users due to the system itself not being quick to update. If a BART monthly pass was available or if Clipper added value was more immediate, I would think it's less of an issue.		
R_3CCamwvwRLTrYoQ	Many people only use Bart occasionally but they are important also so do not raiser their rates too much		
R_2uIF1X7d9CGmtSO	might affect lower income travelers, who cannot/don't know how to get clipper		
R_3HvNntyloKmP5Q3	More research should be done on why people use paper tickets. Is it due to language barriers? There should be outreach so that people understand the importance of using Clipper		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_2R9vuoJR7jA1n3y	My guess is that most of the 15% still using the paper tickets are socially and/or economically disadvantaged in some way, which could make switching problematic. I would prefer that the cards be made even more accessible and free and that paper tickets just be phased out completely.		
R_2QA338DJcEGqqB5	No.	X	
R_3ozJ6BEmR3paFfQ	Not fair to those that have to use the paper ones, usually lower income.	X	
R_Dw30hDRVkcK7IwF	Paper tickets are important for people who don't want their movements to be tracked. Don't put a high price on privacy.	Unknown	
R_1QbUg3XL9cgsr7R	thats a lot for a piece of paper, some bart riders are once in a while, its not to blame them for not needing a clipper card daily.		X
R_3QMd2pN7gksepuC	That's kinda a high surcharge. What about accommodating visitors?	X	
R_3JgtcoVobliK6ij	The people using paper tickets have the reasons, like they don't have a credit card or bank account to link to the card. They 're the ones who will suffer most with the price surcharge. You're making the poor poorer.	X	
R_1OxHugJQO1DyWtG	The people who likely buy paper tickets are out of towners or people who ride the BART very minimally. You're just going to encourage the minimal riders to evade fares, and the out of towners to take an Uber, and further congest the roads.	Unknown	
R_3pnfvisoi2ag1Mq	there are a lot of people who dont use bart often and they may use it only once in a while to go to the airport or work in other parts and use bart once a month. It will be unfair to them.	X	
R_2VPxMfanCATMyel	There are people that visit this area and don't need a clipper card.	X	
R_r7v4ZDxdPajWCml	There are riders who only use bart occasionally. The surcharge would actually be \$2 for a round trip. If you want to incentivize people using clipper how about eliminating the \$3 charge when you first get a clipper card. The 50 cent surcharge should be sufficient.	X	X

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_TnEmZ5QQnZpwONb	This is fine except what am I supposed to do when I need to pay for Parking? I can't used my Clipper card which then requires me to buy a paper ticket. How am I supposed to cover the Parking fee when I want to use my Clipper card? This is what I mean by BART's infrastructure and organization being out-of-date. The Bay Area is booming with Tech companies - isn't BART able to partner with one of them to bring it into the 21st Century?		
R_1CCozVgniN6W6Lj	This is in general a noble goal, but right now a fare increase is too punitive and regressive, as it would affect all riders regardless of their ability to pay. Instead, BART should increase the availability and ease of purchase of plastic clipper cards, as well as removing the initial \$10 purchasing fee. Right now you can order one online (too slow and hard for people without internet access or a constant address), or go to Whole Foods and Walgreens. Why not install Clipper machines in stations where you can purchase and stock a Clipper card with fare much like you can with the existing paper ticket. Many other cities already do this with plastic reloadable fare cards.		
R_slipI4TeGpoEs5r	This makes paper significantly more expensive than necessary (and doesn't really address the real reason), when there are valid use cases for this (forgot your clipper card or friend is visiting the area and only needs bart for one day). people will still use paper.	X	
R_2CvbelmFB1j7gmb	This might make it very hard for low-income people to afford either option. People would probably jump the gate more often. What if people can't afford a clipper card OR the higher paper surcharge?	X	
R_YRHOCD1cLQd2dSp	Using clipper is beneficial for frequent commuters as its much convenient.  Although I see its good for the environment to minimize the paper consumption, less frequent commuters should not be penalized (\$1 extra fare) for using the paper ticket and I think its unfair.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_8waEOqyV3Digtgd	Visitors or tourists might not want to buy clipper cards and this would be a deterrent to them using bart	X	
R_3fTdgmPIx5uz3sZ	Visitors to the area are penalized		
R_3iO4Fn7F4f4Xxoc	What about the travelers to our region? The bay area, especially Oakland and San Francisco, rely on folks who are staying briefly for either leisure or business. Those folks may only be here once, and to push them towards using a plastic card seems like it would drive those folks away from using BART. How many of the 15% are locals? Would it not make more sense to offer a discount or other incentive when you use Clipper for those folks?		X
R_3oZT5pY3IFswTWm	What kind of research have you done about who are the riders who use paper tickets? Are they low income riders? Do they receive paper tickets from school, work, or other sources that mean they do not CHOOSE to use a paper ticket, but that may be the only option?  To encourage the use of Clipper cards, please SELL THEM IN BART STATIONS and not just at drug stores!		
R_xEI9YK7VUQIIVWh	Why not use digital card?	X	
R_3DhHtfwonLKQnVL	Why penalize people who are willing to pay legitimate fares in any form for the benefit of fare evaders to whose crimes and thefts your agents and police routinely turn a blind eye? Why is your operation so lenient with criminals who commit all sorts of atrocities on the trains. I can understand compassion for the downtrodden and dispossessed, but this is too much! If you really care about such people, build shelters for them under your parking structures, ramps, and overhead tracks. Why burden honest people who have a conscience and want to do the right thing?	Unknown	
R_29ufSIR7euFqSRK	Why penalize ticket holders?	X	
R_1hDLNF6RftHYk5f	Would make it harder for out of town visitors and tourists that don't want to invest in clipper. Also unless clipper became more widely available, would be annoying	Unknown	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_Wju2TnkjryG17X	Would support increasing paper ticket surcharge IF Clipper card was fully supported at ALL stations. i.e. Clipper cards should be purchasable at every station, as well as reloadable.	X	
R_AjndeeCeMGpQHVT	You should stick with the \$0.50. Otherwise, you're starting to sound greedy. I have a clipper card, and everyone that passes through the gates in front of me have clipper cards. You'd have to expect some tourists not to have them, and be ok with it. Otherwise, you're just penalizing them just for being tourists. If you're coming from out of town just for a ball game, are you going to purchase a \$2 plastic clipper card (\$0 value), just to save \$1 each way, and just call it a wash, after a round trip? You then have YET ANOTHER plastic card in your wallet.	X	
R_2VDVfSj3pcQZ1pp	you shouldnt have to pay just cause you bought a paper ticket	X	X
R_1eRD80GsU3R1qo6	A \$1.00 increase will hurt the pocket of people who are not frequent riders of Bart. Please be considerate about it.	X	
R_3CQnNbwNYbGFRVS	A dollar? Each way? That is messed up. Not every low income person will be riding BART all the time, and thus might not have a clipper card. Penalizing these people because you are worried about "optimizing your investment in Clipper" seems draconian and insane. PLEASE don't do this.		
R_3erH4tfdJBpzqUa	Again why do you deserve more money for such a reason. You are forcing individuals to use clipper. You do not have that right. Fix fare evasion and the homeless issues or you don't deserve a dime more from riders.		
R_114WBmIEUvIYA9q	BART fares is already more expensive considered the quality of service, safety and cleanliness. BART's expense should reduce and improve the service, safety and cleanliness.	X	
R_1lbJYstlyGn2KpM	BART sells BART tickets to people to ride BART. Charging a strong penalty is wrong. Mabye 50 cents is a reasonable nudge to Clipper, but \$1 makes it seem that BART doesn't care about its customers.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_3CDV61aRtQmcqDB	BART, here is the INSENTIVE for you, either you LOWER all Discount Tickets and lower Clipper prices and allow CLIPPER to use RED, GREEN, ORANGE Discounted cards. or I will BOYCOTT BART for 2019 going forward and I WILL PROMICE to talk to others and have them BOYCOTT BART as well. I will also Promice to use SOCIAL MEDIA , YOUTUBE in order to get mt message across to ALL COMMUTERS.	X	
R_2fjrZWuBYy9V5mW	Consider your client. The Bay Area attracts many tourists. Your "15% of riders" statistic will not be reduced with this increase.	X	
R_2dyxXNuPCzQugWZ	Disadvantages poor & low income	X	X
R_2VQikTAisV9Ksts	Disgusting!	Unknown	
R_PBNLjP3VAcgfKSd	Does this mean that tourists who don't have a clipper card will pay more? Go to Europe and ride the train!	X	
R_6rolcoyWyZOiYFj	Don't make it harder on people		
R_2WOSHy1aNd31AWB	Elderly are not as able to figure out how to maintain clipper card		
R_qCHLFjpteBijaq5	Eliminate them.....simple. But everything's always purposefully made difficult on that system.	Unknown	Unknown
R_barboSTWzNSDiud	FARE IS ALREADY TOO HIGH		
R_57HtCdCZXSND	Fix the disabled access elevators as I suggest first		
R_rkaJg8LwVy3k57b	Get rid of the ticket surcharge. 50 cents is too much.	X	
R_2RPISgZnDyq9V03	Harder on people with limited incomes.		
R_1dMRPs81KNxlQ1z	I am a clipper user and fan, but this penalizes folks who use paper tickets. Why not a discount for using clipper instead of a surcharge for using paper?	X	Unknown
R_3Ib0HKh59pSKJyP	I don't want to have to keep track of yet another card that I will only use occasionally		
R_3iVx6VKOiKeet03	I dont have access to clipper card services in Santa Cruz, travel to the Bay area for business and fun, but don't maintain clipper cards.		
R_2CqAScofWrpoPX3	I find the extra fee punitive. Especially at \$1.00 per trip.		
R_W2UoSCsijzGIUt	I have a clipper card...but raising paper ticket prices seems unfair to tourists and those who do not use the service regularly		X

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_2bOBNyiCegCsTM5	I think \$1 is too much. Especially for the people who can barely afford it. I know so many people that don't take Bart all the time but when they do it is still a lot for them. I think \$0.50 is a fair amount and raising it to \$1 may turn people away. Or make it harder for them to pay for Bart.		X
R_3fvBDVekLxFUFYe	I think 50 cents is enough, especially since paper tickets are reloadable.	Unknown	
R_DLXoeZzkXlvPjeV	I think anyone who regularly uses BART is already on a clipper card and those who don't use it regularly enough don't want to make that investment. Plus, if I forget my clipper card I really don't want to pay a \$1 to get a ticket for a ride or two.	X	X
R_2sTH7fhgaXWnfyf	I think it's crazy to charge for paper tickets.		
R_qKqJCDnyjga1D5T	I think the surcharge is unfair. Currently the gates mess up plenty with the Clipper system. Clipper is, on the whole, convenient to me, but the surcharge punishes those with less access to computers which Clipper is pretty dependent on.	X	
R_1OYJRuu9AEfypqu	I would like the paper ticket to continue to exist as an option, and not be penalized for using it.		
R_1hz349wDb0g7MeQ	In my opinion it is usually the infrequent rider who uses paper tickets, so perhaps unfair to add this "tax".		
R_2SIy1nqfkmc5WZw	It doesn't make sense under any circumstance to penalize an individual for using a paper ticket because it is convenient, as opposed to finding a location to purchase a clipper card. You don't have the right to force someone to purchase a clipper card, especially since there are one time Bart riders or just infrequent users	X	
R_SC2KRzDsOc9Viud	It is not reasonable to expect riders from out of town to have or obtain a Clipper Card, and so there will always be a need for the paper tickets. No amount of incentives will change that and the increase is unfair and may have the undesirable effect of discouraging people from riding BART.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_XLekn17sj5Xh05r	It is unfair to people without a Clipper card to uncharge them for a paper ticket. I know several elderly people who use BART and don't have Clipper Card. You are taking advantage of the elderly and the poor		
R_3L5RgVKE2lO83AT	It makes no sense to be penalized on the fare if you don't have a clipper card. The incentive should be on the convenience of the clipper card vs a penalty for not having one.		
R_2xDbfxZBBRfahn4	It would place an unfair burden on the occasional BART user. Many folks can't afford to have funds "held captive" in an account that they would use 2 or 3 times per year which makes the Clipper system unpalatable to them. Increasing the surcharge adds even more financial burden to them. You get screwed if you participate and you get screwed if you don't, you just want to make it worse.		
R_3g6ohIznXFINxLG	It's a tax on people who don't have money or tech knowhow.		
R_3oFu4tj5PIyGdfD	It's not a fair practice, especially to out of towners.		
R_2WT1I51ipk4jHLb	Its not fair to casual riders	X	
R_11XEQyDGLfcxgYO	Many low-income individuals do not have access to a bank account/debit card/credit card required to set up a clipper account. It is not fair to penalize people without resources with higher fares.		
R_2tKbhRrUdopriuC	Most people who use the paper tickets are occasional riders or out of town visitors, who don't need a clipper card. Why should they be punished?		Unknown
R_3iCiQ6zTVgn9VYB	need more supervision to the people that never pay	X	
R_DeMuGKobhpr5MPv	No	X	X
R_27khBFmMRVEs3Dq	No I don't	X	
R_Ap326zzPabELZYZ	No, I don't think it would be fair to try to increase those costs to try to get people to use Clipper instead.	X	
R_3nOvj5gz0crE2c8	Not all BART ticket machines offer the purchase of a card. Charging \$1 for a paper ticket is egregious as you already charge \$3 for a plastic card. Way overpriced.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_1q54Et8TW3PYAr3	Not everyone can and do use Bart enough to get a Fast track card? I feel that the rich robbing the poor. I see some who really don't have the money to get on bart? and to add .50 to the ride? Come on now... let do a wage cut ? on useless Bart employees who are rude and mostly not available when they are needed? Like the female that sits at Hayward Bart every day at the Hours of 3:00 PM Rude Rude Rude... I asked for help Twice and her rude comments were foul!! so foul. and why she works there ? who knows .. collecting easy money	X	
R_2ZjHyfMqJ6ryu3	Not everyone has a clipper card!!		
R_1dhKrvbbpvCla1M	not realistic for visitors to bart		Unknown
R_1Dp8d4XZFJzsTQF	Not sure why the reason.	X	
R_30dhmVxx22b7hXL	Paper ticket surcharges impact the poor and elderly the most, since they are typically not tech savvy and/or don't have inline access that Clipper cards require. It's a very regressive fee.		
R_1JCQ43WrRk8vsrG	Paper ticket users should not be penalized. They are still paying to ride Bart.	Unknown	Unknown
R_UrKuYZCF6skX1ip	Penalizes the impoverished		
R_AKCCnI5FPvODtnj	People may have multiple reasons to not use Clipper. The surcharge should not discriminate on that. €50 is high enough.	X	
R_1pEVPaWi5RnkJkh	People purchasing paper tickets (ex: visitors to the area) most likely ride the system only occasionally and the increase would be punitive.		
R_1rqqMe95Vv8haJD	People who are visiting the city shouldn't be penalized.		
R_2dHmWUiW9c9VF1U	People who don't have stable lives for many reasons, who can't maintain a bank account or can't hold onto a clipper card for the long haul, should not be unduly penalized. 50 cents is already a substantial 'fine' for not using clipper. Better outreach is a better way to reduce paper ticket use.		
R_3MaHYIr8JfPZlm0	Poor folks who use the system intermittently will be affected most with this increase. Ripping off tourists and others who don't have a card is not fair and not how I want a public system to run.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_3KviXBF2njrUjFw	Poor people can't afford a Clipper card or the extra \$1.00. you have a problem with fare evaders, What that to increase? Add an extra \$1.		
R_1LzmxsKDiLq6uTL	Puts burden on casual riders and on my out of town visitors, SF is expensive enough without this	Unknown	
R_2TLLe05fM08kRFqy	requiring people to use a clipper card, while one can add money manually, puts riders who aren't connected to a bank account and cannot autoreload at a disadvantage		
R_1r2fWsg2mWf4du1	Single ride users should not be penalized for using single ride tickets or forced to purchase a clipper card at an additional premium		
R_swp4osMCrYerGTv	So, now you want to charge more for those that don't get "credit card" type of admission? So, again, you are trying to push out the average person that maybe doesn't have access to a Clipper card or getting a Clipper card.		
R_2zT7RbTKezykpVP	Some cannot afford an increase.	X	
R_2AGvRLFp3UonAjd	Sounds like you are trying to take away people's choices. A one time Bart rider doesn't want to pay \$3 for a clipper card. Basically, what you're doing is trying to force everyone to be like a robot and buy clippers.	Unknown	Unknown
R_3n2dXKctFQ3URLg	That is additional burden on the current transit expense.	X	
R_TcvuQU8UF8u8hKp	That is far too much to increase by.		
R_Uyl4eZDZVKUlh5f	That is ridiculous to pay an extra \$1.00 for a paper ticket. Sometime I miss place my clipper card, or we have visitors that want to tour. Why would I use public transportation if I will have to pay more than the others standing next to me on BART.	X	
R_tPqnuY82MsVmZ4l	That's going to have a negative impact on poorer communities.	X	
R_2ceePvxkYUqJWr9	That's making the commute more difficult for persons that have problems dealing with technology, I understand that using Clipper cards is more convenient for BART, but that's not the case with all commuters. BART should give more options to pay not less.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_yOx87UrSmME8nGp	The Bay Area has a lot of tourists who would not really want to buy clipper cards. Why penalize them? I think the surcharge should stay at current levels.	X	
R_1j98iDGHfhUnYGX	The distinction between paper tickets and clipper cards is completely artificial and not sustained by real advantages in using clipper, which this policy is also introducing artificially. Make clipper the only vector for a subscription and use of paper tickets will instantly drop		
R_20VhtQl0zMQwGLs	The fares shouldn't increase to encourage more people to use clipper. Some people only use bart 1-3 times a week and feel that it is unnecessary to have a clipper card. They should be the ones to choose, not the company.	X	X
R_3KMV5x8JGxwaeOx	The increase is too soon for next year. Wait for another 2 years.	X	
R_2CIAdIYCfNGoiaZ	The increased price for paper tickets targets the disenfranchised and lower income users of our public transit. How about making the clipper price more expensive so the more affluent customers pay a slight amount for the convenience of auto loading etc.		
R_2uX2JfXgzgfSQ04	The paper should be removed and have a clipper only policy. Maybe a kiosk to buy a clipper card (for \$1).	X	
R_3HI8yTMPcWHwRvH	The poor people that don't have a bank account or extra money are the ones that suffer the most. Or occasional riders. They won't want to ride a system that is very expensive. At this point is always cheaper to drive than to take Bart. And a Bart that is dirty and smelly.	X	
R_Dq1mkVwY7MFXd2V	There are people who rarely use Bart and it will be cruel to them.	X	
R_1hALnGdBGN4mFhS	There are still people who have literacy challenges and access to technology (and the skills) that may be a part of why not 100% of ridership is not using Clipper cards. This surcharge seems punitive and I strongly oppose it.		

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low-Income
R_2zMWRFJsEHsKNXB	There is a fee to buy a Clipper Card. We are doing a disservice to lower Income individuals and those who don't use bart regularly or are travelling by expecting them to buy a clipper card or have to pay rate hike. Try making Clipper Cards free instead of penalizing paper ticket use.		
R_2XbovjLe4m4xK13	There is already a penalty to make riders use a clipper. Making it a larger penalty won't help. Bart should develop a mobile app for those that don't/can't use clipper. Samtrans and SFMTA both have a mobile app that allows riders to pay for rides. Bart should also attempt more outreach at stations to encourage riders to sign up for clippers.	X	
R_wZxgv1K0WYStKWB	There's been several rate increase since I've started taking BART and the service, cleanliness and the safety of the system has declined dramatically.	X	X
R_YalqdefxpBjShix	These increases hurt the visitors and the working poor, more than any other group who ride the system...and your BART board should be ashamed to run a public transportation system when so many of the toilets are closed and dirty.	X	X
R_3fHT0fTGmDlrNoU	This is an anti-Equity pricing strategy that would most impact the lowest income riders		
R_2Wx28ToURhXvGVz	This is NOT fair to those who still do paper. NO NO NO.		
R_2EoxGcmAK3dfu3p	This is not right!!!	X	
R_1hGNYD5BoxkzEwt	This isn't an incentive, it's punitive. Clipper doesn't work for everyone.		
R_3k7FAG9IT2eBN01	This seems illegal and I'm surprised it hasn't been challenged in court.	X	
R_1Cx0wuOUKcyV9H6	This will disproportionately hurt low income folks who can't get a clipper card in the first place.	X	
R_1j04tAcesIrb1Hi	Those 15% are not regular users and tourists. We already have a surcharge - that's enough. There is no way for those users get clipper card just for temporary use.		
R_VKjPB5Zw6DMNsAx	Why are you punishing riders just to line Clippers' pockets?!! That's whats happening here. Clipper cards, and accessibility to them and its online system, is classist and ableist.	X	

Survey ID	(Email Invitation Survey) Paper Ticket Surcharge Increase: Public Comments	Minority	Low- Income
R_b9JypfbDlfQIAFz	why doesn't BART have an app that can be used instead? It can track, attached to bank accounts, eliminate both clipper and paper tickets, track customer use, etc. It's 2019 and BART acts like it's just an old train with old ideas. This is not progressive it's just reactive.	X	
R_3KJYr9NWndsDAKB	Why don't you hire more people to do their jobs and make everybody pay.	X	
R_2YkU6T0hmeq9aMO	Why dont BART get rid of the paper tickets altogether and make only Clipper the option. I dont think riders using paper bart tickets should be penalized.	X	
R_yWvc6cBjxDdXX2x	Why even charge a surcharge? Ppl can barley afford the fare	X	
R_1A9KhUTo5TmlmF	Why punish people for not using clipper? Why should people be forced to use this card?		
R_3NvUHMxEpyFSq8	Would unfairly impact low income people who aren't able to get a clipper card.		
R_2sciMjf4PI0ypU2	You are bastards		X
R_1K2x8711bQma7GU	You are penalizing those who do not have a credit card or computer access to set up a clipper account ,usually low income people.	Unknown	
R_3FOIJRIYk6xQaPd	You charge 3 dollars to get a clipper card if you want everyone to use it pass them out for free	X	
R_3RkooUVA5UJFdJz	You keep focusing on the wrong problems with your system.	X	X
R_1LYHqK38bTs2mrf	you like to nickel and dime people. maybe you should visit other countries to see how they charge. bart is so 50 years ago in operational ideas.	Unknown	X
R_1IARPKMn2z2ux9w	鼓励没问题，但相差太多不公平。*I understand the problem, but the difference is too unfair.*	X	X
R_1d4eseqKRScRhji	I would like to know the effect of this on low income househlds.	X	

Appendix 10h:

Silicon Valley Berryessa Extension Title VI

Service Analysis and Board Minutes

---

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**

300 Lakeside Drive, P.O. Box 12688, Oakland, CA 94604-2688

Board of Directors  
Minutes of the 1,841st Meeting  
May 23, 2019

A regular meeting of the Board of Directors was held May 23, 2019, convening at 9:01 a.m. in the BART Board Room, 2040 Webster Street, Oakland, California. President Dufty presided; Patricia K. Williams, District Secretary.

Directors present: Directors Ames, Allen, Foley, Li, McPartland, Raburn, Saltzman, Simon and Dufty.

Absent: None.

President Dufty announced that under the provisions of the Rules of the Board of Directors of the San Francisco Bay Area Rapid Transit District, this was the time set to hold a public hearing on the final Fiscal Year 2020 Budget; Silicon Valley Berryessa Extension fares; BART participation in the Regional Means-Based Transit Fare Discount Pilot Program; Extension of BART's Productivity-Adjusted Inflation-Based Fare Increase Program between 2022 and 2028; and an increase to the magnetic-stripe ticket surcharge, that staff would give a brief presentation on the item, and that the meeting would then be opened for comments from the public.

Ms. Pamela Herhold, Assistant General Manager, Performance and Budgets; and Ms. Kate Jordan Steiner, Department Manager, Budgets; and Mr. Michael Eiseman, Department Manager Financial Services presented the item.

There being no public comment, the Public Hearing was closed.

Consent Calendar items brought before the Board were:

1. Approval of Minutes of the Meetings of April 25, 2019 and May 9, 2019.
2. Amendment to Legal Services Agreement with Glynn & Finley, LLP.
3. Fiscal Year 2020 Proposition 4 Appropriations Limit.
4. Award of Agreement No. 6M5147, with Avenu Insights and Analytics, LLC, for Sales Tax Revenue Collection Services.
5. Award of Contract No. 15QN-110, Installation of Safety Barriers and Right of Way Fencing Systemwide.
6. Reject All Bids for Contract No. 15II-120, Station Emergency Lighting.
7. Invitation for Bid No. 9059, Brushes for Vehicle Traction Motors.

8. Authority to Submit a Grant Application to the California Department of Water Resources for Proposition 1 Funding for the Hayward Maintenance Complex Rainwater Catchment, Bio-Retention Basins, and Solar Wastewater Treatment Project.

Director Allen requested that Item 3-I, Lease with Caltrans for BART Employee Parking and Sublease a Portion of Excess Parking to the Metropolitan Transportation Commission, be removed from Consent Calendar.

Director Saltzman made the following motions as a unit. Director Raburn seconded the motions, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Duffy. Noes – 0.

1. That the Minutes of the Meetings of April 25, 2019 and May 9, 2019, be approved.
2. That the Board approve the amendment of this agreement with Glynn & Finley, LLP to continue its representation of the District to handle the Cal/OSHA Cab Windows matter as necessary.
3. Adoption of Resolution No. 5397, In the Matter of the Establishment of the Fiscal Year 2020 Appropriations Limit.
4. That the General Manager be authorized to execute Agreement No. 6M5147, with Avenu Insights and Analytics, to provide sales tax revenue collection services for a five-year period based upon a contingency fee of 20% determined by the amount of tax revenue recovered on open claims for the District, pursuant to the notice to be issued by the General Manager; and pursuant to Revenue and Taxation Code Section 7056, adoption of Resolution No. 5398, In the Matter of Authorizing Consultant Avenu Insights & Analytics, LLC (also known as MuniServices, LLC) to Examine Sales and Use Tax Records at the California Department of Tax and Fee Administration on behalf of the District.
5. That the General Manager be authorized to award Contract No. 15QN-110, Installation of Safety Barrier and Right-of-Way Fencing Systemwide, Phase III, to Golden Bay Fence Plus Iron Works, Inc. for the Bid price of \$899,493.45 pursuant to notification to be issued by the General Manager and subject to compliance with the District's protest procedures; and that the General Manager be also authorized to exercise the single Option for the Bid Price of \$163,130.52 for replacement of right-of-way perimeter fence and gate at CHB.
6. That the General Manager be authorized to reject all bids for Contract No. 15II-120, Station Emergency Lighting, and be authorized to re-advertise the work of this contract.
7. That the General Manager be authorized to award Invitation for Bid No. 9059, for the purchase of Brushes for Vehicle Traction Motors, to Mersen USA BN Corp., for the Bid price of \$508,888.80 including tax, pursuant to notification to be issued by the General Manager.

(The foregoing motion was made on the basis of analysis by the staff and certification by the Controller/Treasurer that funds are available for this purpose.)

8. Resolved by the Board of Directors of the San Francisco Bay Area Rapid Transit District that proposal be made to the California Department of Water Resources to obtain a Round 1 Integrated Regional Water Management Implementation Grant pursuant to the Water Quality Supply, and Infrastructure Improvement Act of 2014 (Water Code § 79700 et seq.), and to enter into an agreement to receive a grant for the: BART Hayward Maintenance Complex (HMC) Rainwater Catchment, Bio-retention Basin, and Solar Wastewater Treatment Project. The General Manager of the San Francisco Bay Area Rapid Transit District, or designee, is hereby authorized and directed to prepare the necessary data, conduct investigations, file such proposal, and execute a grant agreement with California Department of Water Resources.

Consent Calendar report brought before the Board was:

1. Fiscal Year 2019 Third Quarter Financial Report.

Ms. Grace Crunican, General Manager, and Mr. Sean Brooks, Department Manager, Property Development presented Item 3-I, Lease with Caltrans for BART Employee Parking and Sublease a Portion of Excess Parking to the Metropolitan Transportation Commission. The item was discussed.

The following individuals addressed the Board.

Gena Alexander  
Sal Cruz

Director Li moved that the General Manager or her designee be authorized: (1) to enter into a five-year lease with Caltrans, with an option to extend the lease for an additional five-year period, for an employee parking area bounded by Fifth, Sixth, Oak and Madison Streets in Oakland commencing July 1, 2019 for an amount not to exceed \$477,740.00 for the first five-year term of the lease; and (2) to enter into a five-year year sublease with the Metropolitan Transportation Commission (MTC) for a portion of the Lease Area for approximately \$47,780.00, with an option for MTC to extend for an additional five-year period, pending BART's extension of its lease with Caltrans. Director Simon seconded the motion, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

President Dufty called for Public Comment. Ace Washington addressed the Board.

Director Simon, Chairperson of the Administration Committee, brought the matter of Fiscal Year 2020 Annual Budget, including the following items, before the Board.

- i. Fiscal Year 2020 Annual Budget.
- ii. Fares for the Silicon Valley Berryessa Extension.
- iii. Participation in a Regional Means – Based Transit Fare Discount Pilot Program.
- iv. Extension of the Productivity Adjusted Inflation -Based Fare Increase Program between 2022 and 2028.

v. Increase to the Per Trip Magnetic Stripe Ticket Surcharge.

Ms. Crunican; Mr. Ed Alvarez, Interim Chief of Police; Ms. Tamar Allen, Assistant General Manager, Operations; Ms. Herhold; Ms. Steiner, and Mr. Eiseman presented the item. The item was discussed.

The following individuals addressed the Board.

Gena Alexander  
Ace Washington

Discussion continued.

President Dufty announced that agenda items would be taken out of order.

Director Foley, Chairperson of the Engineering and Operations Committee, brought the matter of Next Generation Fare Gates, Conceptual Design before the Board. Ms. Tamar Allen, Assistant General Manager, Operations; Ms. Mitra Moheb, Manager of Engineering Programs, and Mr. Steven Dietrich, Principal Computer Systems Engineer presented the item. The item was discussed.

Director Raburn, Chairperson of the Planning, Public Affairs, Access, and Legislation Committee, brought the matter of Survey Results for Fleet of the Future and Bicycle Accommodation before the Board. Ms. Crunican; Mr. Carl Holmes, Assistant General Manager, Design and Construction; Mr. Aaron Weinstein, Manager of Marketing and Research; and Ms. Maureen Wetter, Principal Research Project Analyst, presented the item. The item was discussed.

The following individuals addressed the Board:

Jon Spangler  
Alan Smith  
Dave Campbell

Discussion continued.

President Dufty announced that the Board would take multiple action items at once.

Director Saltzman made the following motions as a unit. Director Simon seconded the motions, which carried by unanimous electronic vote. Ayes – 9: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Saltzman, Simon, and Dufty. Noes – 0.

1. That the Board approve the Silicon Valley Berryessa Extension Title VI Service and Fare Equity Analysis and Public Participation Report.
2. That the Board approve the Title VI Fare Equity Analysis for the Proposed 2020 Productivity-Adjusted Inflation-Based Fare Increase; Series 3, 2020-28, of the Productivity-Adjusted Inflation-Based Fare Increase Program; and Magnetic-Stripe Surcharge Increase and Public Participation Report.

3. That the General Manager be authorized to award Agreement No. 6M4639 to Accenture LLP, Agreement No. 6M4640 to Sjoberg Evashenk Consulting, Inc., and Agreement No. 6M4641 to Shalom, LLC to provide on-call professional services for Human Resources, each in an amount not to exceed \$1,000,000 pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.
4. That the General Manager be authorized to award Agreement No. 6M4651 to Accenture LLP, Agreement No. 6M4652 to InnoFin Solutions, LLC, Agreement No. 6M4653 to Sjoberg Evashenk Consulting, Inc., and Agreement No. 6M4654 to Slalom, LLC, to provide on-call professional services for the Operating Budgets Division, each in an amount not to exceed \$1,000,000, pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.
5. That the General Manager be authorized to award Contract No. 15CQ-115, C25 Interlocking Renewal, to Proven Management Inc. of Oakland, CA for the Bid Price of \$9,869,643.00, pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.
6. That the General Manager be authorized to award Contract No. 54RR-250 to DMZ Builders for Concord Yard Fire Protection in the amount of \$3,940,800.00, pursuant to notification to be issued by the General Manager and subject to compliance with the District's protest procedures.
7. That the General Manager be authorized to execute Change Order No. 25 to Contract No. 04SF-140, Procurement of eBART Vehicles, with Stadler Bussanang, AG, to provide eBART vehicle spare parts inventory, in an amount not to exceed \$270,000.
8. That the General Manager be authorized to execute Change Order No. 004 for Contract No. 15EJ-171, 34.5 KV Cable Replacement M-Line MVS Switching Station and MTF, MSS, MPS and MTW Substations, with DMZ Builders Co., Inc. in the amount not to exceed \$3,900,000.00 and to extend the Contract completion date by 69 calendar days.

President Dufty announced that the Board would enter into closed session under Items 12-A (Conference with Labor Negotiators), 12-B (Public Employee Employment), and 12-C (Conference with Legal Counsel) of the Regular Meeting agenda, and that the Board would reconvene in open session upon conclusion of the closed session.

The Board Meeting recessed at 12:52 p.m.

---

The Board reconvened in closed session at 12:55 p.m.

Directors present: Directors Allen, Ames, Li, McPartland, Raburn, Saltzman, Simon and Dufty.

Absent: None.

The Board Meeting recessed at 1:30 p.m.

---

The Board reconvened in open session at 1:32 p.m.

Directors present: Directors Allen, Ames, Li, McPartland, Raburn, Saltzman, Simon, and Dufty.

Absent: None. Director Foley entered the meeting later.

President Dufty announced that there were no announcements to be made from the closed session.

Director Raburn brought the matter of Metropolitan Transportation Commission, Plan Bay Area 2050 Update before the Board. Mr. Holmes; Mr. Val Menotti, Chief Transit System Development Officer; Mr. Richard Fuentes, Manager of Special Projects; and Mr. Ken Kirkey, Integrated Planning Department Director, Metropolitan Transportation Commission, presented the item. The item was discussed.

Director Saltzman exited the meeting.

Director Raburn brought the matter of Agreements for General Environmental and Planning Services for BART Projects before the Board. The item was discussed.

Director Foley re-entered the meeting.

Director Simon moved that the General Manager be authorized to award the below listed Agreements to provide General Environmental and Planning Services in support of BART projects, in an amount not to exceed \$8,000,000 each, pursuant to notification to be issued by the General Manager. The awards are subject to the District's protest procedures and Federal Transit Administrations requirements related to protest procedures.

- i. Agreement No. 6M6136 to Arup North America, Ltd;
- ii. Agreement No. 6M6137 to Fehr & Peers;
- iii. Agreement No. 6M6138 to HNTB Corporation; and
- iv. Agreement No. 6M6139 to Raimi + Associates.

Director Raburn seconded the motion.

Director McPartland made a substitute motion to have a committee formed to review the potential projects. Directors Allen and Ames seconded the substitute motion.

President Dufty made a second substitute motion that the General Manager be authorized to award the listed Agreements to provide General Environmental and Planning Services in support of BART projects, in an amount not to exceed \$8,000,000 each, pursuant to notification to be issued by the General Manager, subject to the District's protest procedures and Federal

Transit Administrations requirements related to protest procedures; and that staff be directed to provide a presentation to the Board in July 2019 a list of capital projects and their values.

Director Simon seconded the substitute motion, which carried by unanimous electronic vote. Ayes – 8: Directors Allen, Ames, Foley, Li, McPartland, Raburn, Simon, and Dufty. Noes – 0. Absent – 1: Director Saltzman.

Director Raburn brought the matter of Revisions to BART's Transit-Oriented Development Policy before the Board. Ms. Crunican; Mr. Holmes; Ms. Abigail Thorne-Lyman, Program Manager, Systems Development; and Ms. Kimberly Koempel, Principal Planner, Systems Development, presented the item. The item was discussed.

President Dufty brought the matter of Actuarial Report on Changes to Pension and Other Postemployment Benefits (OPEB) under Consideration by the District before the Board. Mr. Michael Jones, Assistant General Manager, Administration; and Ms. Diane Iwata, Human Resources Division Manager, presented the item.

Director Foley brought the matter of BART Silicon Valley Phase I Update before the Board. Ms. Tamar Allen; Mr. Holmes; Mr. Shane Edwards, Chief Maintenance and Engineering Officer, and Ms. Crunican presented the item. The item was discussed.

President Dufty called for the General Manager's Report.

Ms. Crunican reported on steps she had taken and activities and meetings she had participated in, ridership, upcoming events, the progress made during recent weekend closures, activities held during Take Our Daughters and Sons to Work Day, Police Department staffing numbers, Fleet of the Future Car availability, Clipper card utilization numbers, and outstanding Roll Call for Introductions items.

Ms. Herhold gave an update on ridership numbers.

President Dufty called for the Controller/Treasurer's Report.

Ms. Rose Poblete, Controller/Treasurer, presented the Quarterly Report of the Controller/Treasurer for the period ending March 31, 2019. The item was discussed. Ms. Herhold gave a brief update on pension reserve numbers.

President Dufty called for Board Member Reports, Roll Call for Introductions, and In Memoriam.

Director Foley thanked District staff on his BART briefings, Ric Rattray and Val Menotti for assistance with the meeting with the Hillcrest neighbors of Antioch, Tim Chan for the MTAP Tour and Ariel Mercado for assistance with the Rebuilding BART presentation to the Marsh Creek Democratic Club.

Director McPartland reported he had attended the Workday Tour ribbon cutting, BART Police Citizen Review Board meeting, Fire Liaison Committee meeting, Tri Valley San Joaquin Rail Authority meeting, East Bay Municipal Utilities District quarterly meeting in Castro Valley, and Bay Area Mass Evacuation table top.

Director Allen reported she had attended the Northern Waterfront Forum in Antioch.

Director Ames reported she had attended the BART Police Citizen Review Board Meeting, and an Irvington BART Station briefing, and thanked the District Secretary's Office on their assistance with the BART Police Citizen Review Board recruitment.

Director Raburn reported he had attended the California Transportation Authority Legislative conference in Sacramento, American Institute of Architects East Bay Transit Oriented Development, and MacArthur Station Transit Oriented Development installation of panels.

Director Raburn requested the Board meeting be adjourned in honor of Walter Davis Miles who served over 50 years on the MacArthur Station advisory committee.

Director Li reported she had attended the Quality California Gala in San Francisco, Telegraph Hill Dwellers Transportation Committee meeting, and had spoke at the BART Employee Resource Group Asian Pacific Islander History Month Luncheon, and the San Francisco Council of District Merchants Association Gala, and had assisted with the Civic Center Station Salvation Army Harbor Lights program.

Director Simon reported she had attended the Office of Independent Police Auditors Regional Oversight Board meeting, and the Richmond ground floor merchants ribbon cutting. She thanked Val Menotti for his assistance with the Richmond community.

President Dufty reported he had attended a Salesforce Accessibility group meeting with District staff.

President Dufty called for Public Comment. No comments were received.

The Meeting was adjourned at 3:27 p.m. in honor of Walter Davis Miles.

Patricia K. Williams  
District Secretary

# Silicon Valley Berryessa Extension Title VI Equity Analysis and Public Participation Report

---

May 2019

Prepared jointly by:  
CDM Smith and the San Francisco Bay Area Rapid Transit District, Office of Civil Rights

## **ADDENDUM: May 2019**

### Background

The Silicon Valley Berryessa Extension (Project) Title VI Equity Analysis and Public Participation Report (Analysis) contained herein was prepared for Board approval in June 2018. In accordance with Federal Transit Administration (FTA) Title VI Circular 4702.1B (Circular), *Title VI Requirements and Guidelines for Federal Administration Recipients* (October 1, 2012), the analysis of the service and fare plan was prepared six months prior to revenue service date, however, the revenue service date changed several times due to construction delays.

The current Project revenue service date is projected to be late 2019. BART staff has conferred with the FTA and although the Analysis was prepared based on an earlier revenue service date, the information contained is considered current and reflects the impacts on the proposed service. The following are some of the major changes that have occurred since the report was written. While these changes do not affect the results of the Analysis, they are still worth noting for informational purposes.

### Optimal Service Plan

At the time the Analysis was written, the full fleet of revenue vehicles were not projected to be available for project opening. Accordingly, staff developed three weekday and two weekend service plan options as an interim service plan that was presented to the public for input. Additionally, the public was notified that once there were enough revenue vehicles, the goal was to implement the Optimal Service Plan (Optimal Service) that was the most stable operationally with the most optimal service to existing and future BART riders.

This Optimal Service was displayed on a poster board at all of the Title VI outreach events. It is similar to the service plan that has been in effect at Warm Springs/South Fremont Station since September 2018. With the projected revenue service date of late 2019, the Optimal Service will likely be implemented.

None of the weekday or weekend service options included in the Analysis were found to have an adverse impact on minority or low-income populations.

### Santa Clara Valley Transportation Authority (VTA) Express Bus Routes 180 & 181

The Analysis has a travel time assessment section which compares the percent change in travel times for protected riders to the percent change in travel time for non-protected riders. The travel time assessment used the travel times between the two new SVBX Stations and Fremont Station because at the time the Analysis was written, there was no comparable existing transit routes that served the Warm Springs/South Fremont Station.

Accordingly, the public transport alternatives connecting the Milpitas and Berryessa/North San José Station areas with the rest of the BART system in June 2018 included two express bus lines operated by VTA: Line 180 and 181. As of May 2019, these buses have since been rerouted.

This change to the VTA bus lines 180 and 181, however, does not impact the travel time assessment because these travel times were compared to a comparable BART trip (also to Fremont Station) in the travel time comparison. Regardless of whether a passenger travels from, for example, Milpitas Station to Fremont Station or Milpitas Station to Warm Springs Station, the passenger will still have an overall time savings traveling on a BART train to a comparable VTA bus route.

<b>III.</b>	<b>Public Participation Report</b>	

# Silicon Valley Berryessa Extension

## Title VI Equity Analysis and Public Participation Report

---

### Executive Summary

Per the Federal Transit Administration (FTA) Title VI Circular (Circular) 4702.1B, *Title VI Requirements and Guidelines for Federal Transit Administration Recipients* (October 1, 2012), the San Francisco Bay Area Rapid Transit District (District), as the operator, is required to conduct a Title VI Service and Fare Equity Analysis (Title VI Equity Analysis) for the Silicon Valley Berryessa Extension's (Project or SVBX) proposed service and fare plan six months prior to revenue service. Accordingly, staff has completed this Title VI Equity Analysis for the Project's service and fare plan, which evaluates whether the Project's proposed service and fares will have a disparate impact on minority populations or a disproportionate burden on low-income populations based on the District's Disparate Impact and Disproportionate Burden Policy (DI/DB Policy) adopted by the BART Board on July 11, 2013 and FTA-approved Title VI service and fare methodologies.

### Discussion:

The Silicon Valley Rapid Transit (SVRT) project, Phase I and II, is a 16-mile, six-station extension of the existing BART system into Silicon Valley. This study focuses on Phase I, the Silicon Valley Berryessa Extension, which will add 10 miles of new track south of the existing Warm Springs/South Fremont Station into Santa Clara County. The project includes two new stations, one in Milpitas (Milpitas Station) and the second in the Berryessa District of San José (Berryessa/North San José Station). Currently, the Santa Clara County area south of the Warm Springs/South Fremont Station is not served by the BART fixed guideway system; therefore, the Project is a new service.

### Proposed Service and Fare Plans:

Taking into account District-wide service needs and temporary car constraints, the District has analyzed the temporary service options described below. Maps of the service plan options are included in *Appendix A*. The Project stations will eventually be served by both the Green and Orange Lines for all hours during which those lines operate, once the new Fleet of the Future railcars are integrated into the BART system. Service options were presented to the BART Board for their initial input and consideration at the May 26, 2016 BART Board meeting, which was open to the public. The options were also presented to the public and community-based organizations for their feedback on these key service changes through an extensive and inclusive multilingual public outreach program.

Three weekday options and two evening/weekend options were analyzed for the SVBX temporary service plan. An option from each service category, weekday and evening/weekend, will be selected to provide temporary service. The options are:

Weekdays before 7PM:

- **Option 1:** Extend the Daly City/San Francisco-Warm Springs/South Fremont (Green) Line to Milpitas and Berryessa/North San José Stations. Extend Richmond-Fremont (Orange) Line to Warm Springs/South Fremont.
- **Option 2:** Extend the Richmond-Fremont (Orange) Line to Milpitas and Berryessa/North San José Stations.
- **Option 3:** Passengers board a BART train shuttle at Berryessa/North San José Station or Milpitas Station to travel to Warm Springs/South Fremont Station and transfer to a Green Line train to travel elsewhere in the BART system.

Evenings after 7PM and Sunday:

- **Option A:** Extend the Richmond-Fremont (Orange) Line to Milpitas and Berryessa/North San José Stations. [*Note **Saturday only:*** Warm Springs/South Fremont-Daly City (Green) Line and Richmond-Daly City (Red) Line service from 9am – 7pm].
- **Option B:** Extend the Daly City/San Francisco-Warm Springs/South Fremont (Green) Line to Berryessa/North San José Station. Re-route the Richmond-Fremont (Orange) Line from Richmond to Dublin/Pleasanton Station (Purple) Line. [*Note **Saturday only:*** Additional Green Line (South Hayward-24<sup>th</sup> St./Mission) and Red Line (Richmond-Daly City) service from 9am – 7pm].

When additional new cars go into revenue service and alleviate car constraints, the Project stations will be served by both the Green and Orange Lines for all hours during which those lines operate.

Regarding fares, staff proposes to apply BART's existing distance-based fare structure to calculate fares for the Project. For example, in 2018, a rider using Clipper to take a one-way trip to Embarcadero Station from Warm Springs/South Fremont Station pays \$6.75, while a Clipper trip to Embarcadero Station from Milpitas Station is proposed to cost \$7.50 (\$0.75 more), and from Berryessa/North San José Station, \$7.75 (\$1.00 more).

The fare structure for the SVBX stations was determined by the 2001 Comprehensive Agreement with the Santa Clara Valley Transportation Authority (VTA), which states that the proposed fares for the SVBX stations must be consistent with those in effect in BART's core system, and that VTA can request that BART establish a new fare surcharge on trips south of Warm Springs/South Fremont Station. VTA has not elected to implement this surcharge, so SVBX fares will be calculated using BART's existing distance-based formula with no new surcharge on trips south of Warm Springs/South Fremont Station.

## Title VI Service Equity Analysis Findings:

The Title VI Service Equity Analysis includes a demographic and travel time assessment of SVBX projected ridership compared to BART's systemwide populations. Pursuant to the District's DI/DB Policy, the determination is made as to whether adverse effects of a new service are disproportionately borne by protected populations.

The demographic assessment evaluates whether the projected riders benefiting from the Project's service are predominately minority or low-income when compared to BART's five-county systemwide population, based on American Community Survey (ACS) 2015 five-year estimates data. The assessment also evaluates whether riders who may be adversely affected by a service option are disproportionately minority or low-income.

Per the DI/DB Policy, adverse effects of a new service are borne disproportionately by protected riders when the difference between the new service's protected ridership share and the overall system's protected ridership share is equal to or greater than 10%. All service plan options, weekday and evening/weekend, provide a service benefit to the Project ridership. The demographic assessment showed that populations living in areas benefiting from the new service are 66.5% minority and 22.2% low-income; BART's five-county service area demographics are very similar, with a minority proportion of 62.4% and a low-income proportion of 24.8%.

The study determined that the service options would benefit minority and low-income populations similarly, and that only Option B would result in a service decrease as it includes a shortened Saturday-only Green Line which would no longer serve Daly City, Balboa Park, Glen Park, Union City and Fremont Stations. The demographic assessment of riders at these stations, however, showed that they were not disproportionately minority or low-income, as defined by BART's DI/DB Policy. Therefore, the demographic assessment found no disparate impact or disproportionate burden on, respectively, minority or low-income populations.

For the travel time assessment, BART's DI/DB Policy states that adverse effects of a new service are borne disproportionately by protected populations when the difference between the percent change in travel times for protected and non-protected populations is equal to or greater than 10%. The results of the travel time assessment show that the Project would benefit all populations, including minority and low-income, within the Project catchment area. With Project service, all populations are expected to experience an average time savings of 45 minutes from Berryessa/North San José Station and Milpitas Station to Fremont Station, a 72% reduction in travel time with the new service compared to existing express bus service. Very small differences in average travel times among minority and low-income populations were found due to the differing demographic makeup of the SVBX station catchment areas, but these differences were significantly below the DI/DB Policy's 10% threshold. Staff also found that travel times are not expected to differ significantly amongst riders for the proposed service options. Additional capacity is planned to be added to the Green and Blue Lines, which will lessen peak-period crowding. As a result, the study found that minority populations will

not experience a disparate impact and low-income populations will not experience a disproportionate burden regarding new service travel times.

For the travel time assessment, BART's DI/DB Policy states that adverse effects of a new service are borne disproportionately by protected populations when the difference between the percent change in travel times for protected and non-protected populations is equal to or greater than 10%. The results of the travel time assessment show that the Project would benefit all populations, including minority and low-income, within the Project catchment area. With Project service, all populations are expected to experience an average time savings of 45 minutes from Berryessa/North San José Station and Milpitas Station to Fremont Station, a 72% reduction in travel time with the new service compared to existing express bus service. Very small differences in average travel times for the Project were found among minority and low-income populations compared to non-minority and non-low income due to the differing demographic makeup of the SVBX station catchment areas, but these differences were significantly below the DI/DB Policy's 10% threshold. Staff also found that travel times are not expected to differ significantly among the proposed service options. Additional capacity is planned to be added to the Green Line and Blue Line (Dublin/Pleasanton to Daly City), which will lessen peak-period crowding. As a result, the travel time assessment found that minority populations will not experience a disparate impact and low-income populations will not experience a disproportionate burden regarding new service travel times.

#### Fare Equity Analysis:

The proposed Project fares would not change BART's existing distance-based fare structure; BART's distance-based fares would not increase or decrease. As BART's distance-based fare structure is unchanged, there is no disproportionately adverse effect on minority and/or low-income riders. In addition, these minority and/or low-income riders will enjoy the benefits of new rail service and improved travel times. Public input has confirmed this finding, as reported in the 2017 SVBX Survey, which had 2,150 responses. The remarks of the 33.3% of all survey respondents who provided comments on the proposed fares have been generally grouped into either "Support" or "Don't Support." A third category, "No Preference," includes the 66.7% of all respondents who left it blank or noted they had no comments. Approximately 97% of minority respondents either expressed support (48.1%) for the proposed fares or did not state a preference (48.5%). Approximately 94% of low-income respondents either indicated support (47.5%) or did not state a preference (46.7%). "No preference" can indicate neutrality or potentially some level of acceptance.

Since there is no adverse effect on riders, the study finds that the proposed Project fares would not result in a disparate impact on minority riders or a disproportionate burden on low-income riders.

## Public Participation:

Staff conducted extensive and inclusive multilingual public participation for the Title VI Analysis. From September 19 through October 8, 2017, eight outreach events were held in the Project catchment area and throughout the BART system. Project outreach consisted of two components:

- Informing the Project community of the new service and the proposed fares, which have been calculated by applying BART's existing distance-based fare structure to this new service, and
- Performing outreach for the system-wide service plan options.

Attendees at outreach events could provide comments by completing a survey available in multiple languages. Additionally, input was sought from BART's Title VI & Environmental Justice (Title VI/EJ) and Limited English Proficiency (LEP) Advisory Committees and the Immigrant and Refugee Forum in Santa Clara County.

Survey respondents preferred Service Option 1. Support for this option included respondents from the Project area, as well as systemwide riders from other BART stations and locations. Overall, 54.0% of survey respondents preferred Option 1. Among minority respondents, 53.3% preferred Option 1, 32.4% preferred Option 2, 5.2% preferred Option 3, and 9.1% expressed no preference. Among low-income respondents, 47% preferred Option 1, 36.8% preferred Option 2, 4.6% preferred Option 3, and 23% expressed no preference. For weekend service, 53.7% of survey respondents preferred Option A. Among minority respondents, 34.6% preferred Option A, 46.8% preferred Option B, and 18.6% expressed no preference. Among low-income respondents, 46.4% preferred Option A, 36.7% preferred Option B, and 16.9% expressed no preference.

Regarding the proposed fares for the SVBX stations, 48.1% of minority respondents expressed support, 3.4% did not support the proposal, and 48.5% did not state a preference. Among low-income respondents, 47.5% indicated support for the proposed fares, 5.9% were not in support, and 46.7% did not state a preference. "No preference" as noted above can indicate neutrality or potentially some level of acceptance. A detailed summary of Project outreach can be found in the attached Public Participation Report.

# Section 1: Introduction

---

The Title VI Service and Fare Equity Analysis for the Silicon Valley Berryessa Extension (Project or SVBX) evaluates whether the service and fare plan for the two new stations may disproportionately and adversely affect minority and low-income riders.

This study was conducted pursuant to the FTA's Title VI requirements and guidelines, including but not limited to, FTA Title VI Circular 4702.1B "*Title VI Requirements and Guidelines for Federal Transit Administration Recipients*" (Circular). This report determines if the new service and new fares proposed for the Silicon Valley Berryessa Extension would have a disparate impact on minority riders or place a disproportionate burden on low-income riders based on BART's Disparate Impact and Disproportionate Burden Policy (DI/DB Policy).<sup>1</sup> While the Project is developed in coordination with the Santa Clara Valley Transportation Authority (VTA), per the FTA Title VI Circular, BART as the operator of the Project is responsible for conducting the Title VI Service and Fare Equity Analysis and presenting the analysis to its Board for approval.

In accordance with the District's adopted DI/DB Policy, for new service, a disparate impact on minority riders or a disproportionate burden on low-income riders will be found if (a) the difference between the Project's protected ridership share and the overall system's protected ridership share is equal to or greater than 10% or (b) the difference between the percent change in travel times for protected Project riders is equal to or greater than 10% when compared to the change in travel time for non-protected Project riders.<sup>2</sup> BART proposes to apply its existing distance-based fare structure to determine the Project's new fares. The proposed Project fares would not change BART's existing distance-based fare structure; BART's distance-based fares would not increase or decrease. Although the proposed Project fares would not result in a fare change under the DI/DB Policy, this Title VI Analysis includes Section 5, Fare Analysis Findings, which provides the demographics of Project ridership compared to BART's overall ridership and an equity finding regarding the proposed fare-setting.

<sup>1</sup> BART's DI/DB Policy was developed pursuant to the Circular, following an extensive public participation process, and adopted by the BART Board of Directors on July 11, 2013.

<sup>2</sup> Per the Circular, an adverse effect is measured by the change between the existing and proposed service levels that would be deemed significant. In accordance with the Circular and BART's FTA approved methodology, staff evaluated potential adverse effects for new service "affected populations" which includes ridership for the new service and ridership for any existing lines whose service will change because of the new service.

This report includes the following sections:

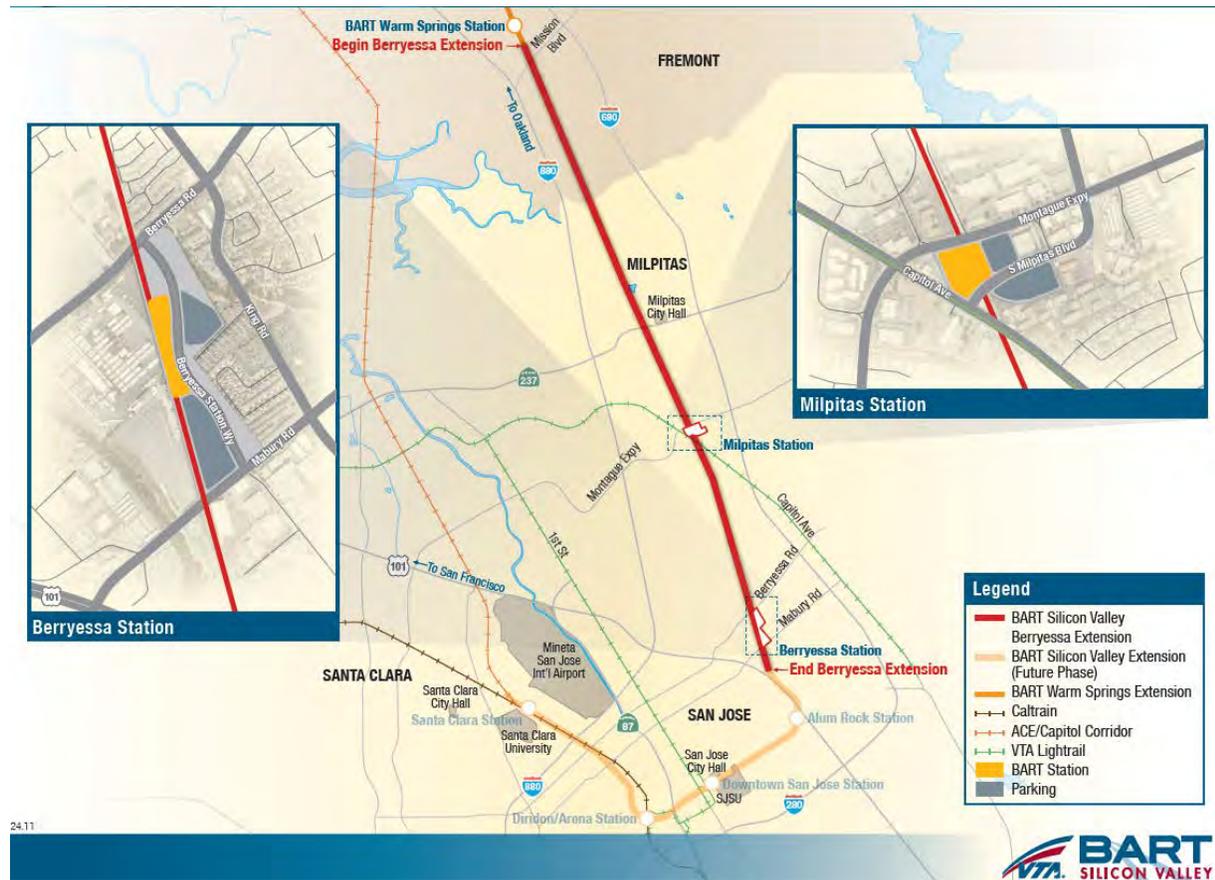

- **Project Description:** A description of the proposed Project service and fare plan, as well as a demographic summary of the Project area riders.
- **Methodology:** A description of the methodology used to evaluate the effects of the proposed plan on minority and low-income riders.
- **Service Analysis Findings:** A detailed description of the study's findings and conclusions regarding the Project's proposed service options.
- **Fare Analysis Findings:** A description of and equity finding regarding the proposed fare-setting.
- **Public Participation:** An overview of the public outreach efforts and a summary of public input received from riders affected by the Project's proposed service and fares.

Material provided in appendices includes proposed service options maps; proposed service options analysis; and travel time analysis detail.

# Section 2: Project Description

The Silicon Valley Rapid Transit (SVRT) project, Phase I and II, is a 16-mile, six-station extension of the existing BART system into Silicon Valley. This study focuses on Phase I, the Silicon Valley Berryessa Extension (SVBX or Project), which will add 10 miles of new track south of the existing Warm Springs/South Fremont Station into Santa Clara County. The Project includes two new stations, one in Milpitas (Milpitas Station) and the second in the Berryessa District of San José (Berryessa/North San José Station). Currently, the Santa Clara County area south of Warm Springs/South Fremont Station is not served by the BART fixed guideway system; therefore, the Project is a new service. A map of the Project is shown below in **Figure 1**. Together, the two new stations comprise the Phase I SVBX project, and this report analyzes the two stations as a single extension and new service.

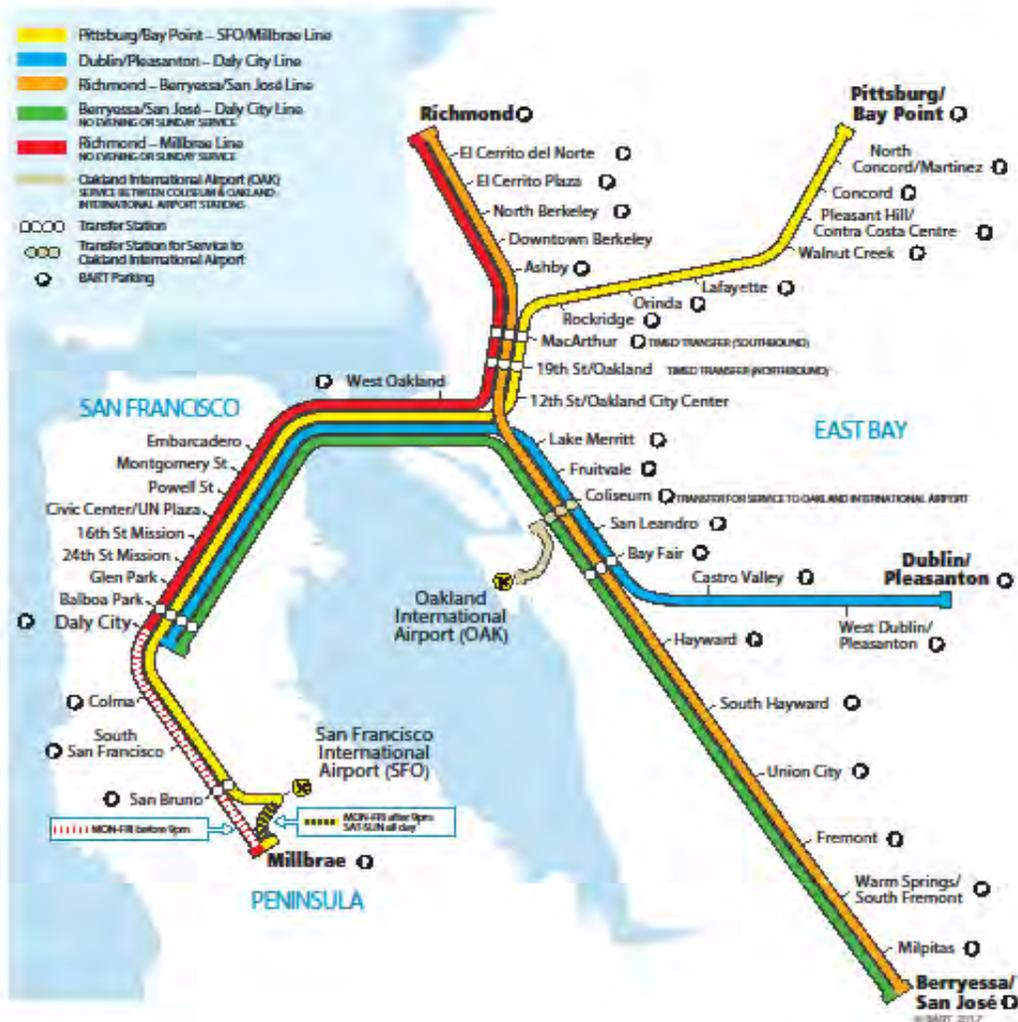

**Figure 1: Silicon Valley Berryessa Extension Project Map**

## 2.1 Project Service Options

As BART waits for the arrival of its new Fleet of the Future railcars, a temporary service plan will need to be implemented for the Project. BART has developed five service plan options to provide service to the Project stations, listed in detail below in **Table 1** and **Table 2**. Three options (options 1-3) pertain to weekday service before 7pm, and two options (options A and B) pertain to service in the evenings after 7pm and on weekends. Project stations will eventually be served by both the Green and Orange Lines for all hours during which those lines operate, once the Fleet of the Future railcars are integrated into the BART system (**Figure 2**). The service options were presented to the BART Board for their initial input and deliberation on May 26, 2016 at the BART Board meeting, which was open to the public. The options were then presented to the public and community-based organizations for their feedback on these key service changes through an extensive, inclusive multilingual public outreach program.

**Figure 2: Ultimate Project Service - Fleet of the Future Integration**

Service Increases	<ul style="list-style-type: none"> <li>Green Line service to Milpitas and Berryessa/North San José</li> <li>Two additional peak period Green Line trains</li> </ul>	<ul style="list-style-type: none"> <li>Orange Line service to Berryessa/North San José</li> <li>Two additional peak hour Green Line trains</li> </ul>	<ul style="list-style-type: none"> <li>Rail shuttle service to Berryessa/North San José every 15 minutes</li> <li>Two additional peak hour Green Line trains</li> </ul>
Service Decreases	<ul style="list-style-type: none"> <li>None</li> </ul>	<ul style="list-style-type: none"> <li>None</li> </ul>	<ul style="list-style-type: none"> <li>None</li> </ul>

**Table 2: Silicon Valley Berryessa Extension – Evening and Weekend Service Plan Options**

	Option A	Option B
Description	<ul style="list-style-type: none"> <li>Extend Orange Line to Berryessa/North San José</li> <li>Saturday-only Green Line service to Warm Springs/South Fremont</li> </ul>	<ul style="list-style-type: none"> <li>Extend Green Line to Berryessa/North San José</li> <li>Reroute Blue Line to connect Richmond and Dublin/Pleasanton and designate as “Purple Line”</li> </ul>
Green Line Service Change	<ul style="list-style-type: none"> <li>Saturday-only Green Line service to Warm Springs/South Fremont</li> </ul>	<ul style="list-style-type: none"> <li>Extend Green Line to Berryessa/North San José and run both Saturday and Sunday</li> <li>Additional Green Line trains run between South Hayward and 24<sup>th</sup> St/Mission on Saturdays</li> </ul>
Orange Line Service Change	<ul style="list-style-type: none"> <li>Service to Berryessa/North San José</li> </ul>	<ul style="list-style-type: none"> <li>Orange Line is removed on the weekends</li> </ul>
Service Increases	<ul style="list-style-type: none"> <li>Orange Line service to Berryessa/North San José</li> </ul>	<ul style="list-style-type: none"> <li>Green Line service to Berryessa/North San José</li> <li>Direct service from south of Hayward to San Francisco evenings and Sundays</li> <li>Direct service from Dublin/Pleasanton to Richmond</li> </ul>
Service Decreases	<ul style="list-style-type: none"> <li>None</li> </ul>	<ul style="list-style-type: none"> <li>Shortened Saturday-only Green Line trains would no longer serve Union City, Fremont, Glen Park, Balboa Park, or Daly City Stations</li> <li>Transfer required when traveling to Richmond from south of Hayward or from San Francisco to Dublin/Pleasanton</li> </ul>

Additional analysis for the service options is included in the Proposed Service Options Analysis, *Appendix B*. For the assessments in this report, the differences between the options were determined to be minor, due to the fact that the assessments use catchment area demographics and rider survey data, which would not change between options. Only the potential decrease in frequencies at some stations in Option B is analyzed in the New Service Analysis (Section 4) by identifying the area demographics of affected stations. This Option B service decrease impacts areas outside of the SVBX catchment area, which is a different impact from all the other services options. Travel times are not expected to differ significantly between the options. Other than the demographic assessment for Option B, the Project is assessed in this report as a service increase, but not the individual service options as their differences under the assessments in this report are minor.

## 2.2 Project Proposed Fares

Staff proposes to apply BART’s existing distance-based fare structure to calculate fares for the Project. For example, in 2018, a rider using Clipper to take a one-way trip to Embarcadero Station from Warm Springs/South Fremont Station pays \$6.75, while a trip to Embarcadero Station from Milpitas Station is proposed to cost \$7.50 (\$0.75 more), and from Berryessa/North San José Station, \$7.75 (\$1.00 more).

The fare structure for the SVBX stations was determined by the 2001 Comprehensive Agreement with VTA, which provided that the proposed fares for the SVBX stations must be consistent with those in effect in BART’s core system, and that VTA can request that BART establish a new fare surcharge on trips south of Warm Springs/South Fremont Station. VTA has not elected to implement this surcharge, so SVBX fares will be calculated using BART’s existing distance-based formula.

### 2.3 Alternative Modes

The existing public transport alternatives connecting the Milpitas and Berryessa/North San José Station areas with the rest of the BART system include two express bus lines operated by VTA: Line 180 and Line 181. These express bus lines serve Fremont Station and will eventually be wholly or partially replaced by the Project. There is no comparable VTA bus service to Warm Springs/South Fremont Station, as VTA has continued its previous service to Fremont Station only. Two other VTA express routes serve Fremont station, 120 and 140, but these routes do not significantly overlap the future BART service and do not serve the Milpitas or Berryessa/North San Jose Station areas. Thus, VTA lines 180 and 181 to Fremont Station are the closest comparable existing transit service. The express buses do not make stops within walking distance of the Berryessa/North San José Station area, and require a connecting local service: Local Route 77 to Express Route 180 and Local Route 61 to Express Route 181.

Travel times to Fremont Station for both VTA and BART have been used for the travel time comparison (**Table 3**). The existing travel time on VTA express routes 180 and 181 is between 41 and 44 minutes between Milpitas and Fremont Stations and between 60 and 83 minutes between Berryessa/North San José and Fremont Stations. These travel times were estimated using Google Maps transit travel times between the SVBX future station locations and Fremont Station for the peak travel direction in the morning and afternoon. Travel times include time to transfer from local to express routes for the Berryessa/North San José to Fremont estimates.

**Table 3: Alternate Modes and Service Levels\*\***

#### 3a. Milpitas to Fremont

Service Parameter	Existing Service	Future Service (Project)
	VTA Express Route 180	BART
Fare as of January 2018	\$4.50	\$3.15*
Travel Time	Northbound (AM peak): 41 minutes Southbound (PM peak): 44 minutes	Northbound (AM peak): 14 minutes Southbound (PM peak): 15 minutes
Hours of Operation	Weekdays 6AM to 10PM	Weekdays 4AM to 12AM**
Headways	Weekdays 30 minutes	Weekdays 15 minutes Weekends 20 minutes

\*\$3.15 is the Clipper fare; fares paid with a magnetic stripe ticket will be 50 cents more

\*\*BART Saturday Schedule (6AM to 12AM) and BART Sunday Schedule (8AM to 12AM)

### 3b. Berryessa/North San José to Fremont

Service Parameter	Existing Service		Future Service (Project)
	Local Route 77 to Express Line 180	Local Route 61 to VTA Express Line 181	BART
Fare as of January 2018	\$6.75*	\$6.75*	\$3.50**
Travel Time***	Northbound (AM peak): 67 minutes Southbound (PM peak): 83 minutes	Northbound (AM peak): 60 minutes Southbound (PM peak): 74 minutes	Northbound (AM peak): 18 minutes Southbound (PM peak): 20 minutes
Hours of Operation	Weekdays 6AM to 10PM	Weekdays 5:30AM to 12AM Weekends 7:30AM to 12AM	Weekdays 4AM to 12AM****
Headways	Weekdays 30 minutes	Weekdays 15 minutes Weekends 20 minutes	Weekdays 15 minutes Weekends 20 minutes

\*\$6.75 fare is \$4.50 express fare plus \$2.25 surcharge for transferring from local bus to express bus

\*\*\$3.50 is the Clipper fare; fares paid with a magnetic stripe ticket will be 50 cents more

\*\*\*Existing transit service travel times to Berryessa/North San José include time to transfer between local and express routes

\*\*\*\*BART Saturday Schedule (6AM to 12AM) and BART Sunday Schedule (8AM to 12AM)

In 2016, VTA studied ways to redesign its transit network through the “Next Network” program. This plan both aimed to increase VTA system ridership and evaluated the VTA transit network to identify how it could be optimized with the addition of the new BART stations in Berryessa/North San José and Milpitas.

While the Next Network proposes significant service increases on some routes, the plan also includes service eliminations and consolidations in the network for areas with low population density and/or lacking a tendency to use public transit. VTA studied express routes that currently serve BART’s Fremont Station. In anticipation of the new service added by the Project, VTA has proposed discontinuing routes that currently connect to Fremont BART once the Project begins revenue service. VTA conducted a Title VI Service Equity Analysis of the proposed changes in its Next Network Plan. To see the detailed proposed service changes as well as VTA’s Next Network Title VI Service Equity Analysis, please visit <http://nextnetwork.vta.org/>.

## 2.4 Prospective Project Ridership

Prospective ridership must be considered when analyzing the potential effects of the Project on protected populations.

In accordance with guidance from the FTA Title VI Circular and BART’s FTA-approved Title VI service and fare analysis methodologies, BART develops demographic profiles for service analyses by using

American Community Survey (ACS) and/or US Census data. For fare analyses, BART uses ridership data from surveys.

**2.4.1 Definitions:**

The definitions and thresholds used in this report are as follows:

- **Minority Definition:** Pursuant to the Circular and federal guidelines, minority populations are defined as individuals who have identified themselves to be American Indian or Alaska Native; Asian; Black or African American; Hispanic or Latino; Native Hawaiian or Other Pacific Islander; some other race (non-white), or two or more races.
- **Low-Income Definition:** BART defines low-income populations as those who are at or below 200% of the poverty level established for households of different sizes by the Department of Health and Human Services (HHS) poverty guidelines. This assumption is more inclusive of low-income populations, accounting for the Bay Area’s higher cost of living. The 200% threshold is also consistent with the Metropolitan Transportation Commission’s definition. The combinations of household size and income that are defined as “low-income” are shown in **Table 4:**

**Table 4: 2016 Poverty Guidelines: Federal\* and the BART Service Area**

Persons in family/household	Poverty Guideline (Federal)	200% (BART 5-County Service Area)
1	\$11,880	\$23,760
2	\$16,020	\$32,040
3	\$20,160	\$40,320
4	\$24,300	\$48,600
5	\$28,440	\$56,880
6	\$32,580	\$65,160
7	\$36,730	\$73,460
8	\$40,890	\$81,780

\*For the 48 contiguous states and the District of Columbia  
 Source: U.S. Department of Health & Human Services

## Section 3: New Service Analysis Methodology

---

Potential effects of the new service on minority and low-income riders are analyzed using the methodology described in this section. Pursuant to FTA Circular 4702.1B, BART staff developed a major service change methodology that was reviewed and approved by the FTA in May 2013 and January 2014. This methodology has been applied to the service options for the new Milpitas and Berryessa/North San José Stations, which have been analyzed together as the new, single SVBX service extension.

BART's Title VI service methodology is also consistent with BART's Disparate Impact and Disproportionate Burden Policy (DI/DB Policy). The Board adopted this policy on July 11, 2013 following extensive public engagement that included staff presentations to the Title VI/ Environmental Justice and Limited English Proficiency (LEP) Advisory Committees as well as focus group meetings with local transportation equity advocacy groups.<sup>3</sup>

### 3.1 New Service Assessments

Pursuant to the FTA Circular and BART's DI/DB Policy, BART's New Service Analysis includes a **demographic assessment** and a **travel time assessment** for the Project. This section describes the methodology to complete these assessments.

#### *3.1.1 New Service Demographic Assessment:*

- **Description:** The New Service Demographic Assessment compares the proportion of minority and low-income populations projected to use the Project to BART's five-county minority and low-income populations.
- **Requirement:** Pursuant to the Circular and BART's DI/DB Policy Section 3(a), a demographic assessment is required for any major service change.
- **Data Used:** American Community Survey (ACS) 2011-2015, per guidance from FTA Title VI Circular, and BART's FTA-approved Title VI service analysis methodology.

<sup>3</sup> Additionally, the DI/DB Policy was posted on bart.gov and social media outlets such as Facebook and Twitter, and a corresponding webinar was available on BART TV via YouTube.

The steps followed to complete the demographic assessment are described below.

**Step 1: Identify the Data Source**

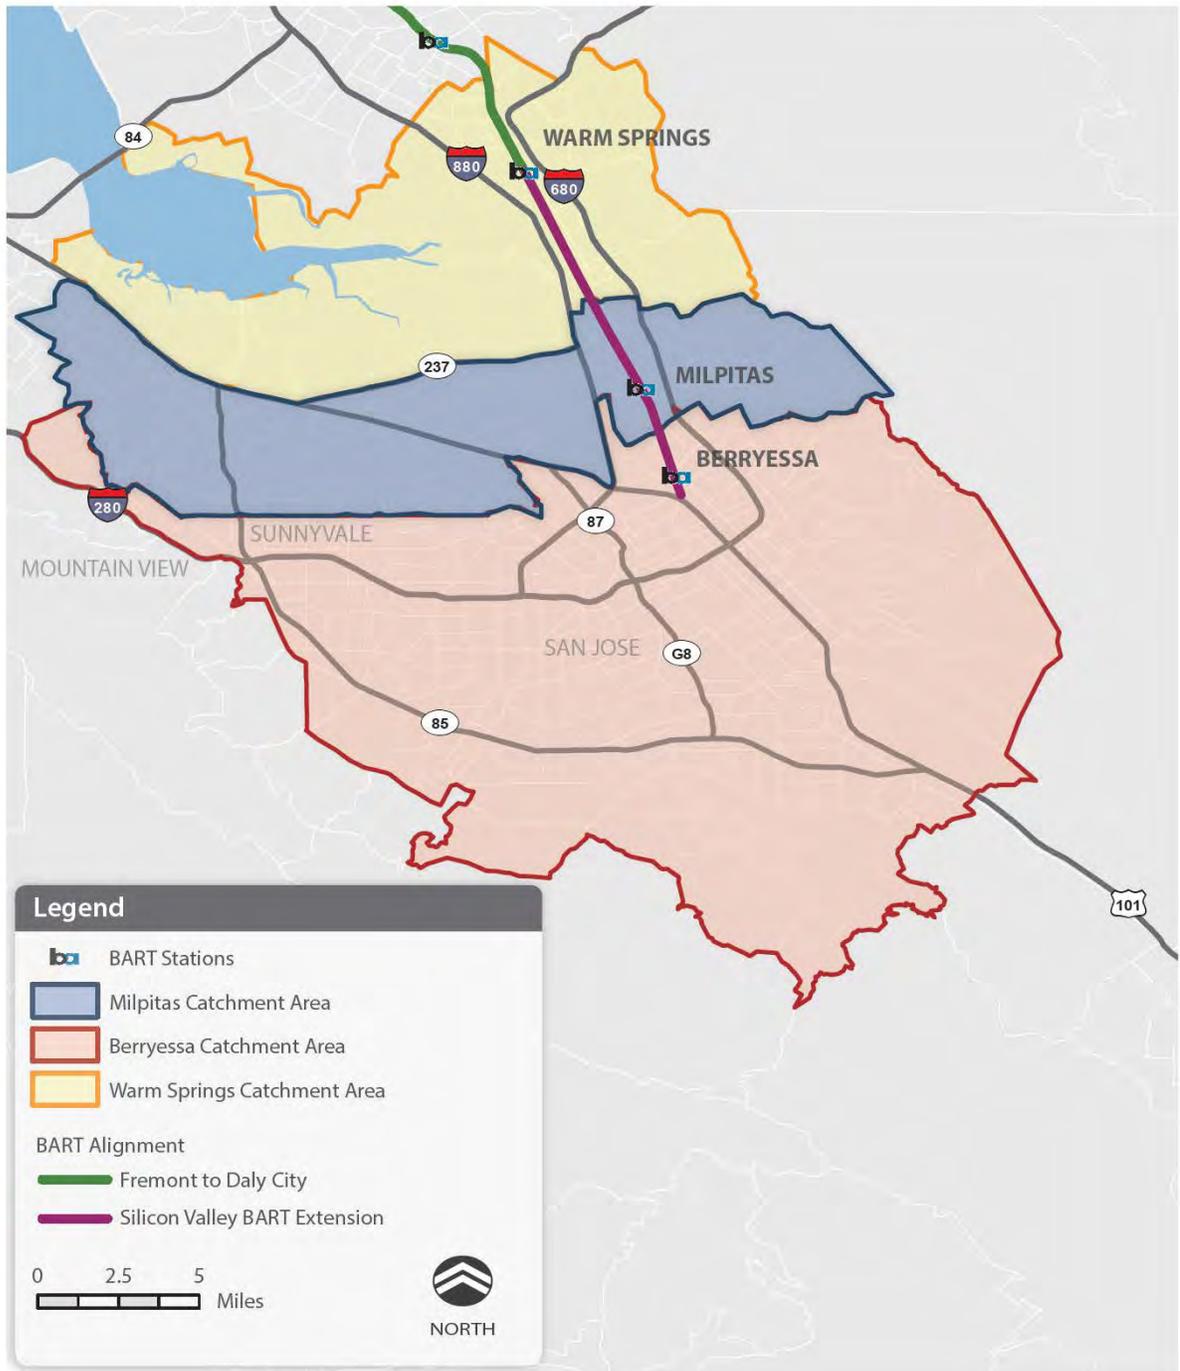

ACS 2011-2015 data was used to project potential riders using the Milpitas and Berryessa/North San José Stations. ACS 2011-2015 data provides population and demographic data at the census tract level in the Project catchment area.

**Step 2: Determine the Project Catchment Area**

Demographic data from the catchment area for the new service is required for a new service analysis. A catchment area is the geographic area from which a BART station draws its ridership. BART's goal in defining the Project catchment area was to determine where a majority of potential Project riders resides.

Catchment areas for the Milpitas and Berryessa/North San José Stations were estimated using the 2015 Warm Springs Title VI analysis, where the Warm Springs/South Fremont catchment area was extended 12.5 miles to the south of the Warm Springs/South Fremont Station location into Santa Clara County. To determine the Berryessa/North San José catchment area, this radius was shifted farther south to start from the location of the Berryessa/North San José Station, while the western boundary of the Warm Springs/South Fremont catchment area was widened, as the bay will no longer be a constraint to the west. The estimated Berryessa/North San José catchment area is similar in size to the catchment areas of previous and existing end-of-line stations, including Millbrae and Fremont. The Milpitas catchment area was estimated to include the area between the north border of the Berryessa/North San José catchment area and a point approximately one-third of the distance north to the Warm Springs/South Fremont Station. The location of this border reflects the fact that riders originating trips between stations should be more willing to drive farther in the direction they are traveling rather than backtracking to a station further from their final destination, even if it is closer to their origin location. **Figure 3** below shows these estimated catchment areas, which represent the potential pool of riders who may use the new service at each station.

Figure 3: Silicon Valley Berryessa Extension Catchment Area

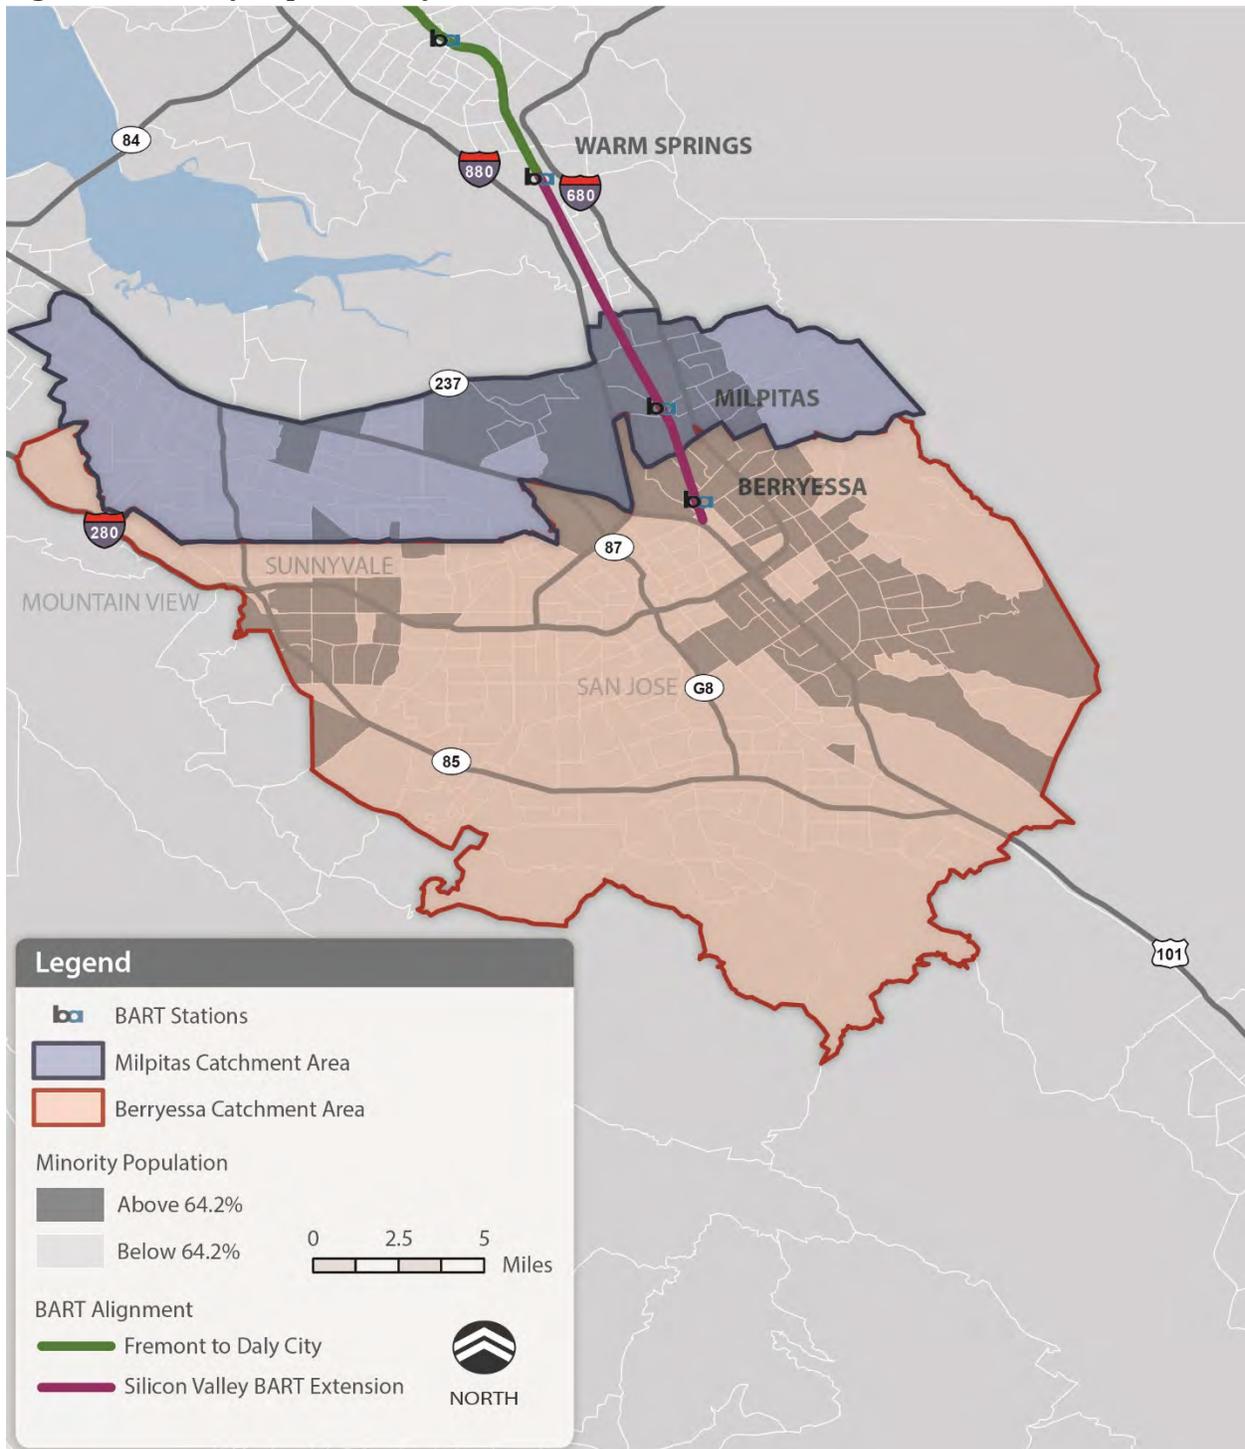

### **Step 3: Determine the share of protected populations for the Project catchment areas**

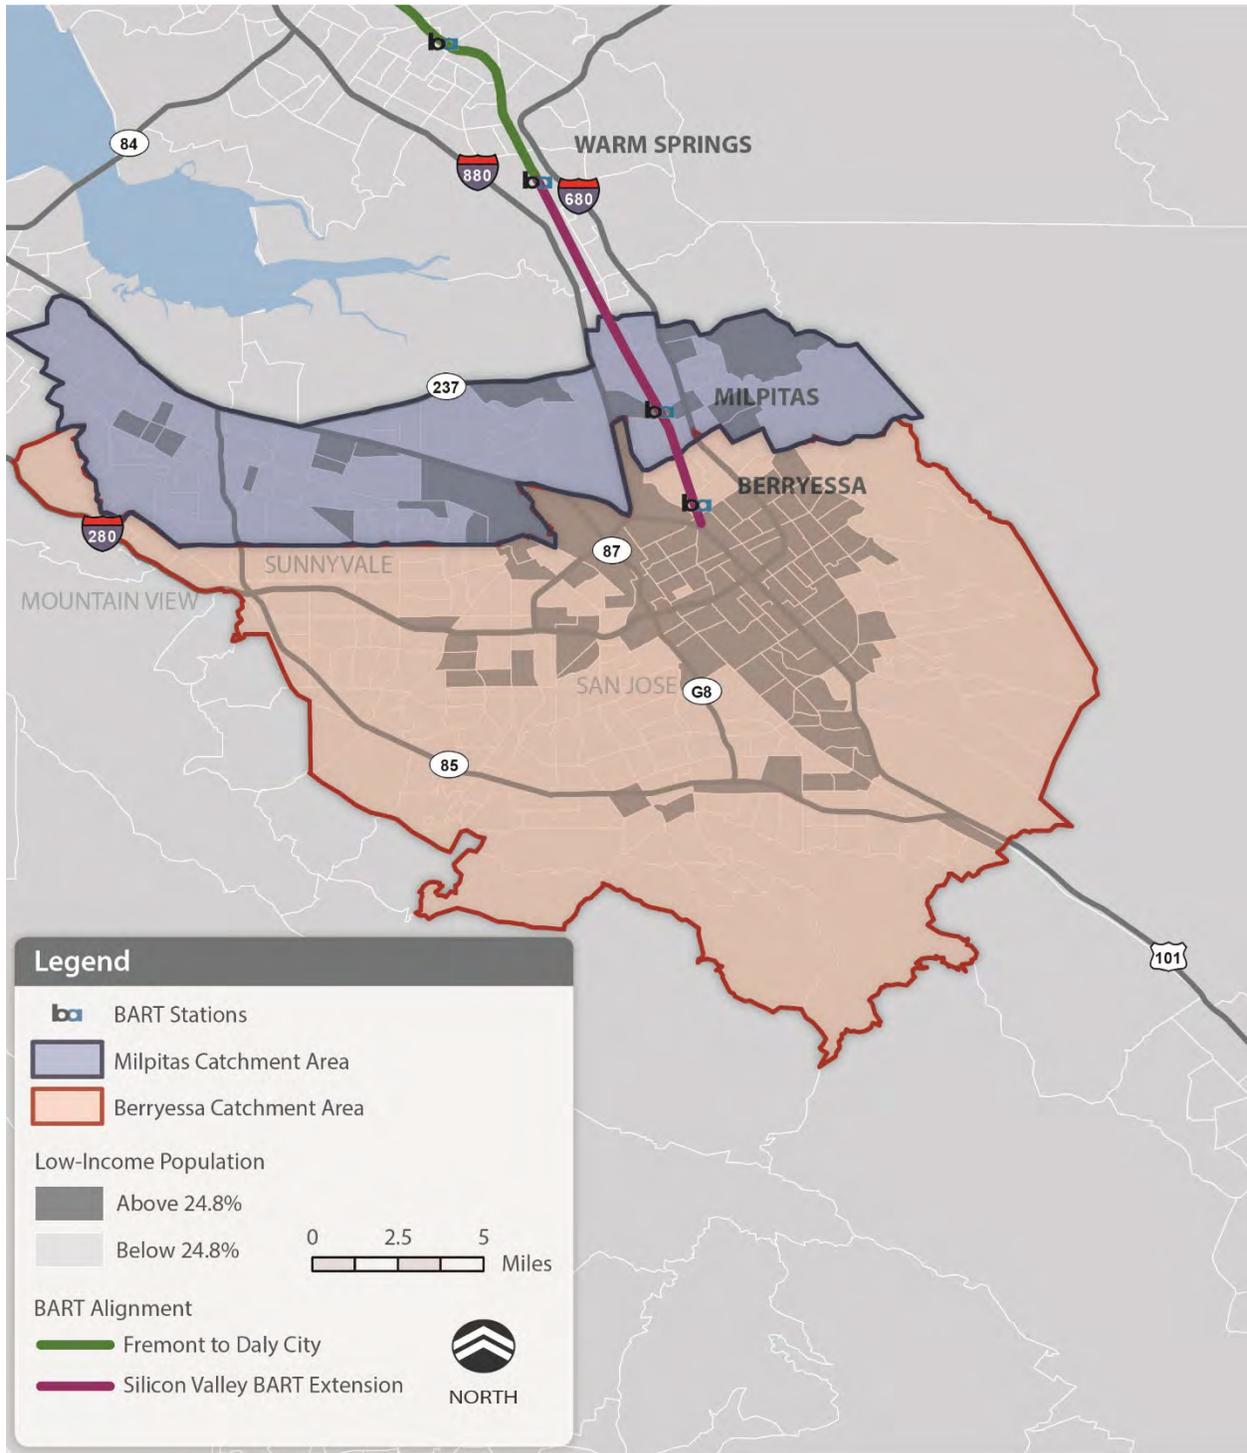

This analysis used BART's five-county service area definitions and thresholds for minority and low-income populations. Each census tract within the study area was analyzed to determine if the percentage of minority and low-income populations exceeded the five-county service area average based on the minority and low-income population definitions and thresholds defined in Section 2.4.1. **Figure 4** and **Figure 5** below display census tracts within the catchment area where the percentage of minority and low-income populations was greater than the five-county service area average percent minority or low-income population.

There is a concentration of low-income residents near the Berryessa/North San José Station and south into East San José. There are high concentrations of minority residents throughout each Project catchment area, as is the case throughout the BART service area.

**Figure 4: Minority Population by Census Tract in Catchment Area**

**Figure 5: Low-Income Population by Census Tract in Catchment Area**

**Step 4: Determine the share of protected populations in the BART service area**

An analysis of catchment area population data shows that prospective ridership for Milpitas and Berryessa/North San José Stations is estimated to be 66.5% minority and 22.2% low-income. **Table 5** shows the breakdown of protected populations in the five-county BART service area (62.4% minority and 24.8% low-income), the total Project catchment area, and the catchment areas for Milpitas and Berryessa/North San José Stations.

**Table 5: Project Catchment Area Demographic Breakdown**

	Minority	Low-Income
<b>BART 5-County Service Area</b>	<b>62.4%</b>	<b>24.8%</b>
Milpitas Catchment Area	64.3%	17.5%
Berryessa/North San José Catchment Area	67.4%	24.0%
<b>Project Catchment Area Total</b>	<b>66.5%</b>	<b>22.2%</b>

**Step 5: Apply BART’s Disparate Impact and Disproportionate Burden Policy**

Pursuant to the Circular, BART must evaluate impacts of a proposed new service by using its DI/DB Policy. In applying the DI/DB Policy, the determination is made as to whether the difference between the affected service’s protected population (minority or low-income) share and overall system’s protected population (minority or low-income) share exceeds the 10% new service threshold set forth in the DI/DB Policy and so may result in a disparate impact on minority riders or a disproportionate burden on low-income riders.

A 10% difference, however, is not considered to result in a disproportionate impact if the new service benefits protected populations. For this Project, affected populations include ridership for the new service and ridership for any existing lines where service will change because of the new service.

**Step 6: Alternative Measures**

If a New Service Demographic Assessment finds that minority populations would experience disparate impacts from the proposed service change, BART will take steps to avoid, minimize, or mitigate these disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority populations, pursuant to FTA Circular 4702.1B, BART may proceed with the proposed major service change only if BART can show:

- A substantial legitimate justification for the proposed Project service change exists; and
- There are no alternatives serving the same legitimate objectives that would have a less disproportionate impact on protected populations.

If the Assessment finds that low-income populations experience a disproportionate burden from the proposed new service, pursuant to FTA Circular 4702.1B, BART should take steps to avoid, minimize, or mitigate these impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the proposed new service.

### *3.1.2 New Service Travel Time Assessment:*

- Description: The New Service Travel Time Assessment compares the travel time between the Project stations and the existing Fremont Station before and after the new service for protected and nonprotected populations.
- Requirement: Pursuant to the Circular and BART's DI/DB Policy Section 3(a), a travel time assessment is required for any major service change and population data should be used for this analysis.

Data Used: ACS 2011-2015 and VTA Existing and Proposed (VTA Next Network Plan) Bus and Light Rail Schedules.

#### **Step 1: Identify the data source**

ACS 2011-2015 data was used to project potential riders using the Milpitas and Berryessa/North San José Stations. ACS 2011-2015 provides population and demographic data at the census tract level in the Project catchment area.

#### **Step 2: Determine the Project Catchment Area**

The project catchment area is the same as defined above in section 3.1.1 Demographic Assessment.

#### **Step 3: Determine the share of protected riders for the Project Catchment Area**

For this analysis, BART's five-county service area definitions and thresholds for minority and low-income populations are used (see Section 2.3). According to the ACS 2011-2015, 62.4% of BART's five-county service area population is minority and 24.8% is low-income.

For the catchment area surrounding the two Project stations, the ACS 2011-2015 data shows that 66.5% of the population is minority and 22.2% is low-income.

#### **Step 4: Determine the percent change in travel time, before and after the service change**

This assessment requires estimating the existing travel times and comparing them to the planned travel times from the Milpitas and Berryessa/North San José Stations to Fremont Station. Travel times for minority and low-income populations are compared to travel times for non-minority and non-low-income populations using weighted averages of protected populations in each station's catchment area.

Weighted averages are used because, as shown in **Table 5**, the percentages of low-income and minority populations for the two catchment areas are different. By weighting the travel times by the percentage of protected populations in each station's catchment area, the analysis can account for this difference. The travel time differences for each Project station were multiplied by the population in each station's catchment area, and then the sum of these two products was divided by the total combined population of the two catchment areas to estimate weighted average travel times. This calculation was done for both the protected and non-protected populations to allow the comparison of the two, with the results shown in **Table 10** on page 31.

Two VTA express bus lines, Line 180 and Line 181, provide the existing public transportation alternatives connecting BART's Fremont Station to the Milpitas and Berryessa/North San José Station

areas. These express bus lines will be wholly or partially replaced by SVBX once service commences. As Lines 180 and 181 serve only Fremont Station, it was not possible to analyze Warm Springs/South Fremont Station travel times. Thus, Lines 180 and 181 are the closest comparable existing transit service. Since express buses do not make stops within walking distance of the future Berryessa/North San José Station location, the travel times for this station include travel times on local bus routes plus time to transfer to the express route.

Google Maps’ transit directions were used to estimate the door-to-door travel times from Milpitas and Berryessa/North San José Station locations to Fremont Station for the existing public transport alternatives (including the transfer time between the local and express buses for Berryessa/North San José Station). All travel times for existing transit services are summarized in **Tables 3a** and **3b** on pages 14 and 15 above. To estimate one average travel time for each station, northbound and southbound travel times were averaged for each existing public transit route, and travel times for the two alternative transit routes to Berryessa/North San José Station were averaged. The northbound and southbound planned BART travel times were also averaged to estimate the future travel times to each station. **Table 6** shows the resulting average travel times used for the travel time assessment.

**Table 6: Existing and Planned Travel Times to Fremont Station (Average of Northbound and Southbound Times)**

	Existing Service (Express Bus)	Planned BART Travel Time
Milpitas Station to Fremont Station	43 minutes <sup>1</sup>	14 minutes
Berryessa/North San José Station to Fremont Station	71 minutes <sup>2</sup>	19 minutes

<sup>1</sup> VTA Express Line 180.

<sup>2</sup> Average of VTA Local Route 77 to Express Line 180 and VTA Local Route 61 to Express Line 181, including transfer time to express bus.

The percent change in travel time before and after the new service was calculated. Individually, minority and low-income riders will not experience different travel times compared to non-protected riders. However, when considering the two stations together for this new service analysis, the weighted average travel times for minority and low-income riders are slightly higher than the weighted average travel times for non-protected populations. This accounts for the fact that the protected populations are a lower percentage of the total population for the Milpitas Station than for the Berryessa/North San José Station.

**Step 5: Apply BART’s Disparate Impact and Disproportionate Burden Policy**

Pursuant to the Circular, BART must evaluate impacts of a proposed new service by applying its DI/DB Policy to determine whether the difference between the percent change in travel times for protected populations or riders is equal to or greater than 10% when compared to the percent change in travel time for non-protected populations or riders. A 10% difference, however, is not considered to be a disparate impact if the new service benefits protected populations. For this new service, affected populations include all residents in the catchment areas of the new stations.

**Step 6: Alternative Measures**

If this travel time assessment finds that minority populations experience disparate impacts from the proposed new service, BART will take steps to avoid, minimize, or mitigate these disparate impacts. If the additional steps do not mitigate the potential disparate impacts on minority populations, pursuant to FTA Circular 4702.1B, BART may proceed with the proposed major service change only if BART can show:

- A substantial legitimate justification for the proposed Project service change exists; and
- There are no alternatives serving the same legitimate objectives that would have a less disproportionate impact on protected populations.

If the assessment finds that low-income populations experience a disproportionate burden from the proposed new service, pursuant to FTA Circular 4702.1B, BART should take steps to avoid, minimize, or mitigate these impacts where practicable. BART shall also describe alternatives available to low-income populations affected by the proposed new service.

## Section 4: Service Analysis Findings

The findings from the New Service Analysis indicate that the proposed Silicon Valley Berryessa Extension service will neither result in a disparate impact on minority riders nor will it disproportionately burden low-income riders.

### 4.1. Demographic Assessment Findings:

#### 4.1.1 Projected Ridership, New Service:

The New Service Demographic Assessment estimates the proportion of minority and low-income populations projected to be in the Project station catchment areas, as compared to BART's five-county service area minority and low-income populations. The demographic assessment evaluates whether the potential riders on the Project's new service are predominately minority or low-income when compared to BART's five-county system-wide population, based on ACS 2011-2015 data. The assessment also evaluates whether riders who may be affected by a service option are disproportionately minority or low-income. The results of this assessment are shown in **Table 7**.

**Table 7: Protected Share of Ridership**

	Minority <sup>1</sup>	Percent Difference <sup>2</sup>	Low-Income <sup>1</sup>	Percent Difference <sup>2</sup>
<b>BART 5-County Service Area</b>	<b>62.4%</b>	-	<b>24.8%</b>	-
Milpitas Catchment Area	64.3%	1.9%	17.5%	-7.3%
Berryessa/North San José Catchment Area	67.4%	5.0%	24.0%	-0.8%
<b>Project Catchment Area Total</b>	<b>66.5%</b>	<b>4.1%</b>	<b>22.2%</b>	<b>-2.6%</b>

<sup>1</sup>Values are expressed as a percentage of the total population.

<sup>2</sup>Compared to the existing BART service area.

The proportions of low-income and minority populations in the combined Milpitas and Berryessa/North San José catchment areas are similar to the five-county BART service area. The SVBX catchment area is 2.6% less low-income and 4.1% more minority than the five-county BART service area. The Berryessa/North San José catchment area has a larger low-income population than Milpitas, while the Milpitas and Berryessa/North San José catchment areas have similar minority population proportions. None of these percent differences between protected and nonprotected populations exceeds the DI/DB Policy's 10% threshold. Furthermore, all service plan options, weekday and evening/weekend, provide a service benefit to the Project ridership. Each service option will provide similar levels of service to the project stations, and thus are not analyzed individually for this assessment. As protected populations will benefit from the new service, they will not experience adverse effects from it. Therefore, the demographic assessment found no disparate impact or disproportionate burden on, respectively, minority or low-income populations.

4.1.2 Existing Line Ridership:

The demographic assessment of the New Service Analysis compares the proportion of minority and low-income populations affected by the Project’s service plan options to BART’s five-county service area. As noted above, all service plan options, weekday and evening/weekend, provide a service benefit to Project ridership. The stations with service increases benefit a predominately minority ridership that is similar to BART’s five-county service area.

The only service decrease among the proposed temporary service alternatives is the weekend Option B. This option includes a shortened Saturday-only Green Line which would no longer serve Daly City, Balboa Park, Glen Park, Union City and Fremont Stations. This would reduce the frequency of service at these stations. The demographics of riders in the catchment areas of these stations and the five-county service area are compared in **Table 8** below.

**Table 8: Population in catchment areas affected by Option B**

Area	Minority	Low-Income
BART 5-County Service Area	62.4%	24.8%
Catchment Area of Stations Affected by Option B	66.1%	31.3%
Percent Difference	3.7%	6.5%

Service Option B would result in a decrease in service, as mentioned in the above paragraph and **Table 2** and **Table 8**. However, where service decreases exist, percentages of minority and low-income ridership are similar to BART’s five-county service area and do not exceed the 10% DI/DB Policy threshold: the affected population is 3.7% more minority than the five-county BART service area and 6.5% more low-income. Therefore, the finding is made that protected riders will not experience a disproportionate adverse impact from Option B.

Additional analysis of the proposed service options can be found in *Appendix B*, for informational purposes only.

Per the DI/DB Policy, adverse effects of a new service are borne disproportionately by protected riders when the difference between the new service’s protected ridership share and the overall system’s protected ridership share is equal to or greater than 10%. In this case, protected ridership originating from the Project catchment area will not be adversely affected because the Project will provide better service, frequent headways, and travel time savings. Instead, Project ridership, which has minority and low-income proportions that are very similar to BART’s five-county service area, will enjoy new benefits as a result of the new service. Therefore, no disproportionate impact was found on protected populations because the new service will benefit, not burden, its protected ridership. Therefore, minority riders will not experience a disparate impact and low-income riders will not experience a disproportionate burden from the Project.

## 4.2 Travel Time Assessment Findings

The travel time assessment compares the percent change in travel times for protected populations or riders to the percent change in travel time for non-protected populations or riders. The travel time assessment uses travel times between the two new SVBX stations and Fremont Station because the comparable existing transit routes serve this station and do not serve the Warm Springs/South Fremont Station.

Estimated travel times for existing riders affected by the service change are compared before and after the new service, based on the proposed service plan. (See Section 2.2 Alternative Modes). The existing public transport alternatives connecting the Milpitas and Berryessa/North San José Station areas with the rest of the BART system include two express bus lines operated by VTA: Line 180 and Line 181. These express bus lines serve Fremont Station and will eventually be wholly or partially replaced by the BART extension. Thus, they are the closest comparable existing transit service. Travel times to Fremont Station have been used for the travel time comparison.

Details of the service characteristics of VTA routes 180 and 181, and connecting local routes are shown in **Tables 3a and 3b** on pages 14 and 15, and compared with the planned BART service characteristics between the two new stations and Fremont Station. These travel times were estimated using Google Maps transit travel times between the SVBX future station locations and Fremont Station for the peak travel direction in the morning and afternoon. The northbound and southbound travel times were averaged, and the two alternative routes from Berryessa/North San José Station were also averaged, to estimate the existing transit service travel times in **Table 9** below.

The existing travel time between Milpitas and Fremont Stations is 43 minutes, and the average existing travel time between Berryessa/North San José and Fremont Stations is 71 minutes, confirming that the new service would create a travel time improvement for all riders between the new stations and Fremont Station. Station-to-station travel times will not differ between the proposed service options, but some riders will experience additional wait time when transferring between the Green and Orange Lines. However, because the express bus lines currently terminate at the Fremont Station, passengers wishing to travel farther currently experience some transfer time as well. Differing wait times proposed in the service options tend to balance out between the Green and Orange Lines, as the two lines substitute for each other between the options. The service options are not analyzed individually for this assessment, as it was determined that the travel time differences would be small due to this balancing between the options (this is shown to be the case for vehicle loads in the Proposed Service Options Analysis, *Appendix B*). The service decreases noted above in Option B would result in decreased frequencies at affected stations, but would have only small effects on travel times for a limited number of people. Additional analysis of the proposed service options is included with this report in *Appendix B*.

**Table 9: Existing and Planned Travel Times to Fremont Station (Average of Northbound and Southbound Travel Times)**

	Existing Service (Express Bus)	Planned BART Travel Time
Milpitas Station to Fremont Station	43 minutes <sup>1</sup>	14 minutes
Berryessa/North San José Station to Fremont Station	71 minutes <sup>2</sup>	19 minutes

<sup>1</sup> VTA Express Line 180

<sup>2</sup> Average of VTA Express Line 180 and VTA Express Line 181, including local route access and transfer to express bus

In order to consider the combined effect of these two new stations that comprise the new service, the average travel times to each station (calculated above based on estimated travel times shown in **Table 3**) are combined for this assessment using a weighted average of the low-income and minority populations in the catchment areas of each station. For the low-income population, the travel time to Milpitas is multiplied by the number of low-income residents in the Milpitas catchment area, and the travel time to Berryessa/North San José is multiplied by the number of low-income residents in the Berryessa/North San José catchment area. These two values are summed and divided by the total number of low-income residents in the combined catchment areas to estimate the weighted average SVBX travel time for low-income riders. This calculation is repeated for non-low-income, minority, and non-minority riders as well as the total study area population. Additional details related to these calculations are included in *Appendix C*, including travel time assessments for the individual project stations, for informational purposes only. These calculations result in existing and planned travel times for the total population, protected, and non-protected populations, which provide the basis for the travel time assessment. **Table 10** shows the quantitative travel time assessment comparing existing and planned future travel times between Project stations and Fremont for minority and low-income populations.

**Table 10: Travel Time Assessment – Weighted Average Travel Times Between Project Stations and Fremont Station**

	Existing Transit Average Travel Time (min) <sup>1</sup>	Planned SVBX Average Travel Time (min) <sup>1</sup>	Time Difference (min)	Percent Change (%)
Total Population	63.01	17.60	-45.41	-72.07%
Minority Population	63.28	17.65	-45.64	-72.12%
Non-Minority Population	62.47	17.50	-44.97	-71.98%
<b>Difference between Minority and Non-Minority</b>	<b>0.81</b>	<b>0.15</b>	<b>0.67</b>	<b>0.14%</b>
Low-Income Population	64.71	17.90	-46.81	-72.34%
Non-Low-Income Population	62.51	17.51	-45.00	-71.99%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>2.20</b>	<b>0.39</b>	<b>1.81</b>	<b>0.35%</b>

<sup>1</sup> Times are the weighted average travel times for trips between Fremont and Milpitas stations and Fremont and the Berryessa/North San José stations. The weighting is based on the percentage of the protected population in each station catchment area.

With the new service, riders on average will experience a 45-minute time savings between Project stations and Fremont, or a 72% reduction in travel time (see **Tables 3a and 3b** on pages 14 and 15 for reference as to how these travel times were determined). The results show that the Project would benefit all populations, including minority and low-income, within the Project catchment area.

Due to the difference in protected and non-protected populations in the SVBX station catchment areas, minority and low-income riders may experience slightly different average travel time changes after the new service is implemented: minority populations would experience an average travel time savings 0.14% greater than non-minority populations, and low-income populations would experience an average travel time savings 0.35% greater than non-low-income populations. These differences occur because the average travel times have been weighted by the percentage of the population in each station area catchment area as explained earlier in section 3.1.2. These differences do not exceed the DI/DB policy’s 10% threshold and are in the favor of protected populations. The results show that the Project would benefit all populations, including minority and low-income, within the Project catchment area. The travel time assessment finding is that minority populations will not experience a disparate impact and low-income populations will not experience a disproportionate burden with the new service.

The three service options will add new BART service at the new Milpitas and Berryessa/North San José Stations. Option 1 and Option 2 would also increase service at Warm Springs/South Fremont Station, as it would be served by both the Green and Orange Lines. Travel times will potentially change due to increased or decreased wait times for transfers required in the service options. On average, these changes will be small; as shown in the Service Options Analysis, *Appendix B*, wait time

increases on one line are associated with decreases on other lines. Option B would decrease service at three San Francisco stations and two East Bay stations, but this would result primarily in frequency decreases at these stations, and would likely have small effects on travel times.

### 4.3 New Service Benefits and Burdens

Based on the New Service analyses performed, the Project would benefit all populations, including minority and low-income populations in the surrounding areas. Minority and low-income populations will not only have improved access to transit (the new BART extension will add an additional transportation mode to Santa Clara County) but will also experience travel time savings. Headways will be reduced by over 50% (**Tables 3, 9 and 10**), and there will be enhanced service reliability due to consistent headways and the Project's being a new fixed guideway that is not dependent on road or traffic conditions, unlike alternative modes serving the area (**Table 3**).

Public comments collected by BART during its extensive and inclusive multilingual outreach between September and October 2017 support the findings that the new service would benefit, not adversely affect, all Project riders; these comments support the finding that there is no disparate impact on minority populations and no disproportionate burden on low-income populations.

Feedback was positive for the opening of the new Project stations. For example, comments received stated:

*"I would be so excited to have BART going from San Jose to San Francisco. Also I could board from san jose and visit family in pleasant hill area. Would make my life much better."*

*"I am so happy that it going to be extending"*

*"Just do it! We need BART to San Jose so badly! I would take BART to SF and to my parents home in El Cerrito if I could. I would gladly pay taxes to help support this effort."*

In addition, public comments received inquired about further extending the BART line past the new stations in Milpitas and Berryessa/North San José:

*"Extend train to San Jose Diridon"*

*"Please extend south from Milbrae to Cupertino/MTV, etc."*

However, customers did comment about the frequency of trains and crowded cars especially with the addition of the new stations:

*"It is great that bart is extending the service to the new cities. But the service level is still degrading. During commute hours people have hardly any space to even stand. Are we thinking to increase the number of trains or increase the number of parallel lines or other options which can reduce the pressure on bart."*

*"If you are extending to Milpitas or San Jose stations Please add more cars or increase the frequency of the bart to every 5mins or 7 mins bart"*

All comments throughout the analysis are transcribed as written by the survey taker. Survey respondents were diverse and represented protected populations. For more information on BART's Silicon Valley Berryessa Extension Title VI outreach, please refer to the Public Participation Report attached to this Equity Analysis.

In accordance with FTA Circular 4702.1B, BART's DI/DB Policy, and BART's FTA-approved service methodology, any major service change must be assessed using two separate analyses, a demographic assessment and a travel time assessment. Section 4 above satisfies both analyses requirements. The demographic assessment did not find a disproportionate adverse impact on protected riders. The travel time evaluation conducted compares the average travel times between the Project station locations and Fremont Station, and the average travel times with and without the Project that protected and non-protected riders would experience. The results of the travel time assessment show that protected and non-protected riders are anticipated to experience almost equal reductions in travel time with the Project service. Based on the results of these two analyses, the Project's new service will not result in a disparate impact on minority riders nor will it disproportionately burden low-income riders. Project service instead will provide a benefit by offering faster, more frequent service to Project riders, who are predominately minority.

## Section 5: Fare Analysis Findings

---

This section begins with a description of the proposed fare-setting for the new service to Milpitas and Berryessa/San José Stations and goes on to provide the demographics of Project ridership and BART's system-wide ridership. Public comment on the proposed fares is also included as is information on alternative transit modes and fare payment types. The section concludes with an equity finding regarding the proposed fare-setting.

All fares used in this report are adult Clipper fares effective January 1, 2018; the adult fare for a trip made with a magnetic stripe ticket is equal to the Clipper fare plus \$0.50.

### 5.1 Proposed Fares for Milpitas and Berryessa/North San José

In accordance with the 2001 Comprehensive Agreement between BART and VTA, proposed fares for service between the Project stations and the rest of the BART system are calculated by applying BART's existing distance-based fare structure. No new surcharges are proposed to be assessed for trips to or from the Project stations. Thus, the Project fare-setting proposal would not be a fare change; it would not increase or decrease BART's distance-based fares. Additionally, while the proposed fares are new fares for new service, they have been calculated by using BART's existing distance-based fare structure as was the case for similar new service recently opened by BART, including West Dublin/Pleasanton and Warm Springs/South Fremont.

### 5.2 Data Sources for Ridership Demographics

This assessment uses data from the 2016 BART Customer Satisfaction Survey and 2011 WSX Title VI Equity Analysis to generate a demographic profile of existing BART riders.

The VTA 2013 Customer Survey data provided the share of protected riders for potential future Project ridership. VTA 2013 Customer Survey data was filtered to include only riders on express routes serving the current Fremont Station. This includes routes 180 and 181, analyzed as overlapping service in the above Travel Time Assessment, and express routes 120 and 140, which only partially overlap future BART service and do not serve the Milpitas or Berryessa/North San José Station areas, but still provide additional information about riders who may use the BART extension in the future. Ethnicity and income of riders from these surveys were used to determine the shares of minority and low-income riders on these lines. Low-income ridership was estimated using the BART low-income definitions, described below. Rider demographics from these bus lines have been used as a reasonable proxy for future ridership on the new SVBX service. However, it is possible that BART service will attract new riders who may differ from existing express bus riders. Additionally, the VTA survey data requires some adjusting to be compared directly with BART ridership data, as described in the following section.

### 5.3 Survey Findings: Demographics

This section provides the demographics of the Project area populations and BART’s current overall ridership for informational purposes. The VTA 2013 Customer Survey data was used for Project populations, and BART ridership demographics were obtained from the 2016 Customer Satisfaction Survey and the 2011 WSX Survey. as the Warm Springs/South Fremont Station opened in 2017.

#### 5.3.1 Minority

A “non-minority” classification refers to those who identified themselves in the survey as “white.” A “minority” classification includes the combined responses from all other races or ethnic identities. For informational purposes, the percentages are shown in **Table 11** below. VTA 2013 Customer Survey respondents using comparable express bus lines are 83.5% minority compared to 64.7% of existing BART riders who are minority, based on data from BART’s 2016 Customer Satisfaction Survey and 2011 WSX Title VI Equity Analysis survey.

**Table11: Survey Findings – Minority Riders  
(Percent of Total Ridership)**

	New Service Ridership based on VTA Bus Survey (Milpitas and Berryessa/North San José)	BART Ridership (Existing 4-County Service)	Percent Difference
Minority	83.5%	64.7%	18.8%
Non-Minority	16.5%	35.3%	

#### 5.3.2 Low-Income

To determine if a survey respondent is “low-income,” BART and the Metropolitan Transportation Commission (MTC) consider both the respondent’s household size and income level. Consistent with BART’s Title VI Triennial Program standards, low-income is defined as 200% of the federal poverty level. This broader definition is used to account for the region’s higher cost of living when compared to other regions. Approximating 200% of the federal poverty level is done by considering both household size and household income.

**Table 12** below summarizes the household size and household income combinations that comprise “low-income” as shown previously in **Table 4**.

**Table 12: Low-income by household size – BART definition**

LOW INCOME	
Household Size	Household Income
1+	Under \$25K
2+	Under \$35K
3+	Under \$40K
4+	Under \$50K
5+	Under \$60K

As an example, a household of two or more people with an income of \$33,000 would be considered low-income. The eight income ranges used in the 2016 Customer Satisfaction Survey are the following:

- Under \$25,000
- \$25,000-\$34,999
- \$35,000-\$39,999
- \$40,000-\$49,999
- \$50,000-\$59,999
- \$60,000-\$74,999
- \$75,000-\$99,999
- \$100,000+

The 2016 Customer Satisfaction Survey did not include Warm Springs Extension respondents, as that station opened in 2017. The data source for Warm Springs/South Fremont riders, the 2011 WSX Survey, did not ask respondents to identify their household size, and so WSX survey data cannot be combined with 2016 Customer Satisfaction Survey data to factor in the percentage of low-income WSX riders. Therefore, this analysis uses the 2016 Customer Satisfaction Survey for income information on current BART riders, with a finding that 26.4% of BART riders are considered low-income.

The VTA survey low-income analysis applied the 2016 Customer Satisfaction Survey low-income definition, which considers both income and household size. BART's \$50,000 to \$59,999 income category was not part of the VTA survey (see VTA income ranges below), and so all respondents of any household size making more than \$50,000 were considered non-low-income, in addition to the other income and household size categories considered non-low-income. **Table 13** shows the adjusted low-income by household size definition used for the VTA survey for this assessment. The low-income ridership percentage shown in **Table 14** below, however, remains representative as few VTA survey respondents (less than 4%) had incomes of \$50,000 to \$99,999 and a household size of five or more. The VTA survey income ranges are:

- Under \$25,000
- \$25,000-\$34,999
- \$35,000-\$39,999
- \$40,000-\$49,999
- \$50,000-\$99,999
- \$100,000-\$149,999
- \$150,000-\$199,999
- \$200,000+

**Table 13: Low-income by household size – Definition used for VTA survey**

Household Size	Household Income
1+	Under \$25k
2+	Under \$35k
3+	Under \$40k
4+	Under \$50k

For informational purposes, the results of the low-income rider analysis are summarized in **Table 14** below.

**Table14: Survey Findings – Low-Income Riders  
(Percent of Total Ridership)**

	New Service Ridership based on VTA Bus Survey (Milpitas and Berryessa/North San José)	BART Ridership (Existing 4-county Service excluding Warm Springs)	Percent Difference
Low-Income	40.0%	26.4%	13.6%
Non-Low-Income	60.0%	73.6%	

## 5.4 Survey Findings: Public Outreach

### 5.4.1 2017 SVBX Survey

The 2017 SVBX outreach survey gave respondents an opportunity to provide feedback about BART’s proposed SVBX fares. For more detailed information about the survey and public feedback, please refer to the attached Public Participation Report.

Question 10 of the 2017 SVBX survey asked respondents to provide any general comments about BART’s proposed fares for Milpitas and Berryessa/North San José Stations. The question included example proposed Clipper fares of \$7.50 between Embarcadero Station and Milpitas Station and \$7.75 between Embarcadero Station and Berryessa/North San José Station; these proposed fares are

respectively \$0.75 and \$1.00 more than the fare between Warm Springs/South Fremont and Embarcadero Stations.

Approximately 33.3% of all respondents provided comments to Question 10. 66.7% did not provide any comments (either leaving it blank or indicating they had no comments), which can indicate neutrality or potentially some level of acceptance.

Respondent remarks have been generally grouped into either “Support” or “Don’t Support.” A third category, “No Preference,” includes those respondents who left it blank or noted they had no comments. Among minority respondents, 48.1% expressed support for the proposed fares, 3.4% did not support the proposal, and 48.5% did not state a preference. Among low-income respondents, 47.5% indicated support, 5.9% were not in support, and 46.7% did not state a preference. “No preference” as noted above can indicate neutrality or potentially some level of acceptance.

Comments regarding the Project’s proposed fares included:

*“Any fare with BART is still so much more feasible (sic) than taking any other kind of transportation. No complaints from me!”*

*“Seems reasonable to charge fares that way, since that's the fare scheme for the rest of the system.”*

*“That is way too expensive. \$15 roundtrip to get into the city? The high ticket price will just encourage people to drive (especially if it's more than two people)”*

## 5.5 Alternative Transit Modes Including Fare Payment Types

BART operates a heavy rail system, which is the mode that will connect the new Milpitas and Berryessa/North San José Stations with BART’s Warm Springs/South Fremont Station, as well as an automated people mover that links the BART Coliseum Station and Oakland International Airport. Because Warm Springs/South Fremont is the current end-of-the-line station to which the new service will connect, proposed fares to/from Warm Springs/South Fremont are used for comparison purposes to VTA express bus fares, as shown in **Table 15** below.

The BART fares in **Table 15** are those paid for with the Clipper card; trips made with BART’s mag stripe ticket cost an additional 50 cents. Clipper fares are used in this analysis because more than 75% of current BART trips are made with Clipper as of January 2018, and this percentage is expected to grow as riders switch to Clipper to avoid the mag stripe ticket fee.

**Table 15: Local Cash Fare BART vs. VTA (Fares effective January 1, 2018)**

	Local Cash Fare	Day Pass
BART: Berryessa/North San José to Warm Springs/South Fremont, paid with Clipper	\$2.85*	NA
BART: Milpitas to Warm Springs/South Fremont, paid with Clipper	\$2.45*	NA
VTA Express Bus Fares	\$4.50	\$13.50**

\*Fares paid with mag-stripe paper tickets are 50 cents more per trip

\*\*Day pass is available only on Clipper

The proposed fare for a BART trip between Warm Springs/South Fremont Station and Milpitas is \$2.45, and the proposed fare between Warm Springs/South Fremont and Berryessa/North San José is \$2.85.<sup>4</sup> Each of these fares is lower than VTA’s cash fare of \$4.50 for express bus routes. BART does not offer a day pass, but four trips made with Clipper between Project stations and Warm Springs/South Fremont would cost \$9.80 (Milpitas) or \$11.40 (Berryessa/North San José), both of which are less than the \$13.50 VTA day pass.

**Table 16** shows the incremental fares proposed to be charged for trips between the rest of the BART system and Milpitas and Berryessa/North San José Stations.<sup>5</sup> For example, the Clipper fare for a trip between Embarcadero and Warm Springs/South Fremont is \$6.75 effective January 2018. The additional fare proposed to be charged to get the rider beyond Warm Springs/South Fremont Station to Milpitas Station is \$0.75, for a total fare of \$7.50. \$0.75 is the incremental fare for approximately 75% of trips, and \$0.70 is charged for the remaining trips.

The additional fare proposed to be charged to extend this trip from Warm Springs/South Fremont to Berryessa/North San José Station is \$1.00, for a total fare of \$7.75 between Embarcadero and Berryessa/North San José. \$1.00 is the incremental fare for approximately 75% of trips, and \$0.95 is charged for remaining trips. The nickel difference in these two cases is due to rounding to the nearest nickel, which is part of BART existing distance-based fare structure. Each of these incremental amounts is lower than VTA’s local express bus cash fare. VTA offers a 50-cent credit to the VTA fare for a rider transferring from BART to VTA.

<sup>4</sup> BART riders using a mag-stripe ticket instead of Clipper pay an additional \$0.50 per trip.

<sup>5</sup> BART’s East Bay Suburban Zone fare, which is equal to BART’s minimum fare for trips of 6 miles or less, is charged for some trips made in the East Bay suburbs that are over 6 miles and less than 13 miles. Fare-setting for Milpitas Station and Berryessa/North San José Station does not include, at VTA’s request, the East Bay Suburban Zone fare as these stations are not located in the East Bay. The trip between Warm Springs/South Fremont and South Hayward, Union City or Fremont is an East Bay Suburban Zone fare trip with a Clipper \$2.00 fare as of January 2018. The incremental fare to extend these trips to Project stations is greater than the increments listed in Table 13. For example, the East Bay Suburban Zone fare trip between South Hayward and Warm Springs/South Fremont costs \$2.00, and the distance-based fare between South Hayward and Milpitas Stations is \$4.10.

**Table 16: Incremental Fare**

	Fare
<b>BART to Milpitas Station</b>	\$0.70 or \$0.75 (Distance-based)
<b>BART to Berryessa/North San José Station</b>	\$0.95 or \$1.00 (Distance-based)
<b>VTA: Transfer from BART</b>	\$0.50 credit to VTA fare

Survey takers noted that the distance-based fare would be cheaper than driving or using other alternative transit in Santa Clara County:

*“I think the fares are reasonable and a much cheaper option in comparison to other forms of travel between these stations.”*

In summary, the proposed fares for trips between Project stations and Warm Springs/South Fremont, which are calculated using BART’s existing distance-based fare structure, will be less expensive than fares for existing transit alternatives.

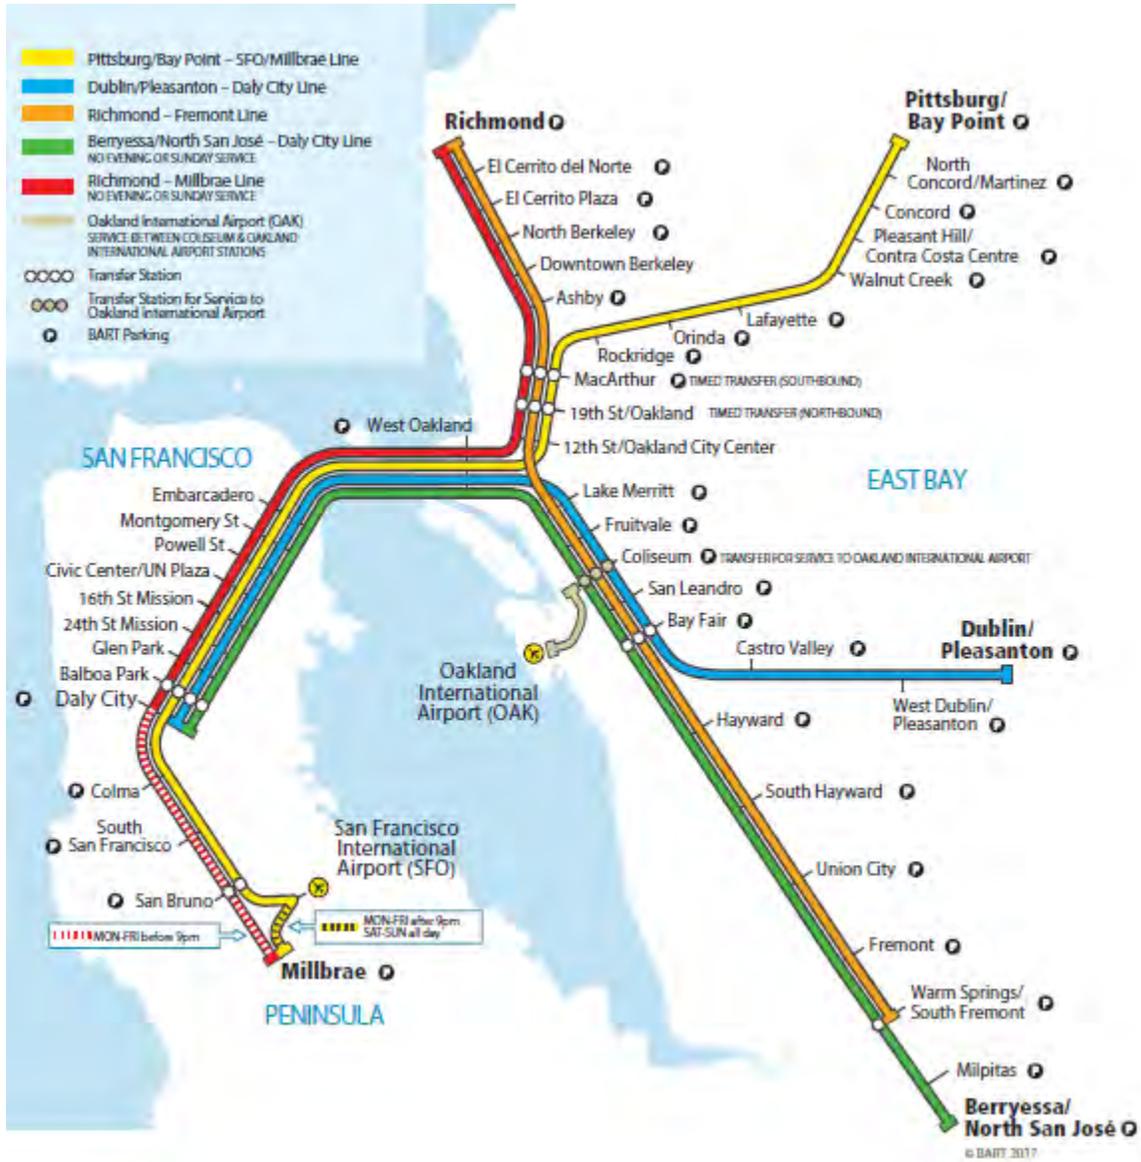

## 5.6 Equity Finding for Proposed Milpitas and Berryessa/North San José Fares

The proposed fares for Milpitas and Berryessa/North San José Stations would not change BART’s existing distance-based fare structure; BART’s distance-based fares would not increase or decrease. As BART’s distance-based fare structure is unchanged, there is no disproportionately adverse effect on minority and/or low-income riders. In addition, the same minority and/or low-income riders will enjoy the benefits of new rail service and improved travel times. Public input has confirmed this finding. Since there is no adverse effect on riders, the study finds that the proposed Project fares would not result in a disparate impact on minority riders or a disproportionate burden on low-income riders.

SVBX Service Option 1

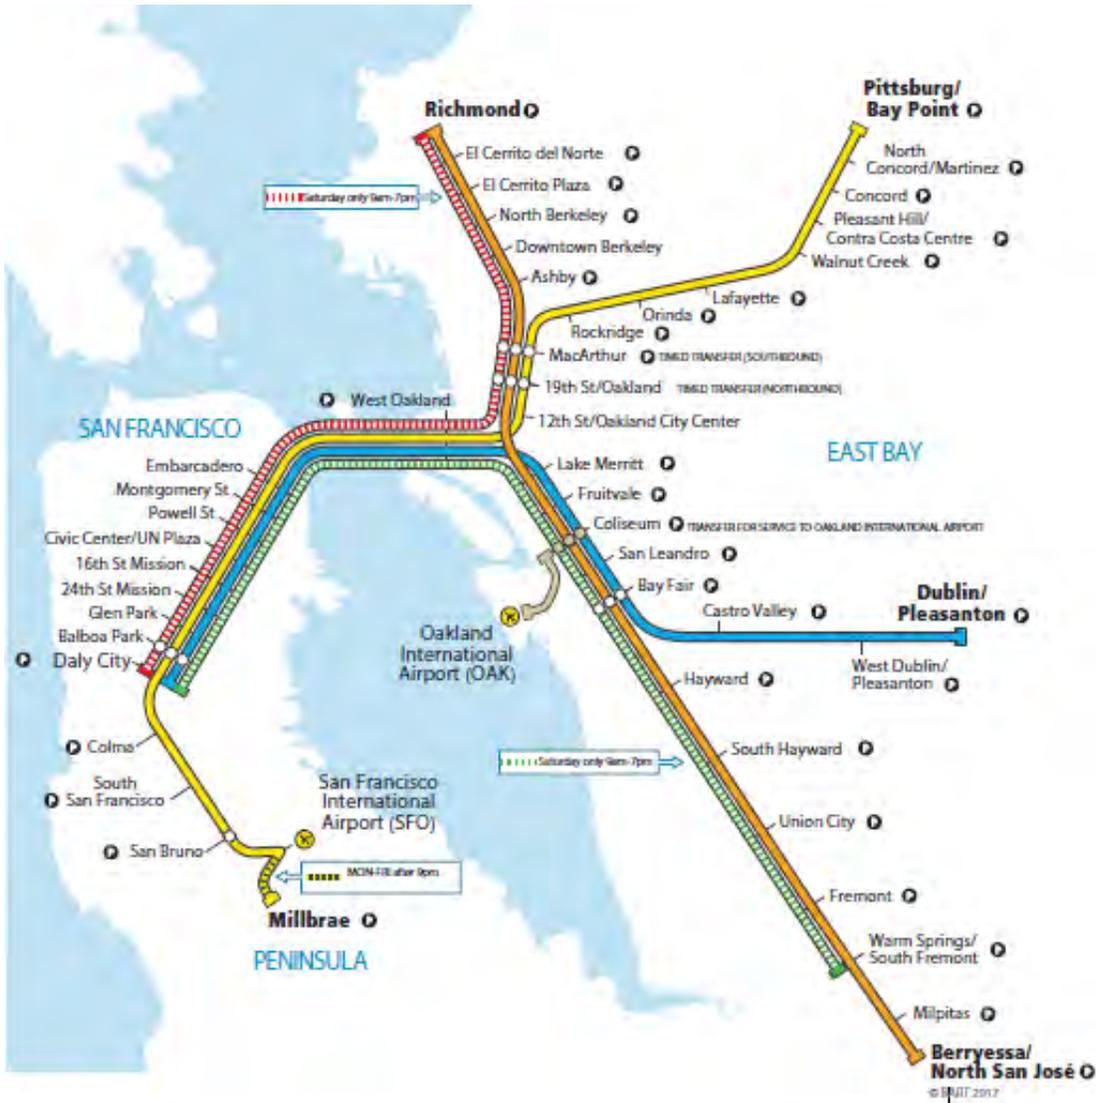

SBVX Service Option 2

SVBX Service Option 3

SVBX Service Option A

SVBX Service Option B

# Appendix B: Proposed Service Options Analysis

---

As described in Section 1 of the SVBX Title VI Equity Analysis Report, BART has developed five temporary service plan options to provide service to the new Milpitas and Berryessa/North San José Stations as BART waits for its new Fleet of the Future rail cars. This analysis details the expected effects on wait times under each service option, and the vehicle loads resulting from the service options. This analysis is provided for informational purposes only, and is not used in the Title VI equity assessments.

The service options were presented to the BART Board for their initial input and deliberation on May 26, 2016 at the BART Board Meeting, which was open to the public. These options were also presented to the public and community-based organizations for their feedback on these key service changes.

The weekday options are:

- Option 1: Extend Green line to Milpitas and Berryessa/North San José Stations and extend Orange Line to Warm Springs/South Fremont
- Option 2: Extend Orange Line to Milpitas and Berryessa/North San José Stations
- Option 3: Short BART shuttle train between Warm Springs/South Fremont and Milpitas and Berryessa/North San José Stations.

These options describe the weekday service, from approximately 6 AM to 7 PM. The following assumptions are also made about all of these service options:

- Two additional peak hour trains would run along the Green Line during the peak hour. During the morning peak hour, these trains would travel between South Hayward and Daly City. During the evening peak hour, trains would travel between Daly City and the Project Stations.

There are also two independent weekend service options that have been analyzed:

- Option A: Extend Orange Line to Berryessa/North San José. Extend Saturday-only Green Line to Warm Springs/South Fremont
- Option B: Extend Green Line to Berryessa/North San José, remove weekend Orange Line service and implement new Purple Line service between Dublin/Pleasanton and Richmond. A transfer would be required when traveling from south of Hayward to Richmond or from San Francisco to Dublin/Pleasanton.

Option A is similar to current weekend service with the addition of service at the Milpitas and Berryessa/North San Jose Stations, while Option B would be a significant restructuring introducing a new line. Both options include Saturday-only supplemental Green Line trains, similar to service

currently operating on Saturday. Under existing weekend service and Option A, these trains run between Fremont and Daly City. Under Option B, these trains would only run between South Hayward and 24<sup>th</sup> St/Mission Stations, reducing service levels at Daly City, Balboa Park, Glen Park, Union City, and Fremont. These options are temporary measures as BART waits for its new Fleet of the Future rail cars.

### Affected Stations by Service Plan Options

	Option 1	Option 2	Option 3	Option A	Option B
Service Increase Stations	Orange Line to Warm Springs/South Fremont, Green Line to Milpitas and Berryessa/North San José	Orange Line to Warm Springs/South Fremont, Milpitas and Berryessa/North San José	Rail Shuttle to Milpitas and Berryessa/North San José	Orange Line to Milpitas and Berryessa/North San José	Green Line to Milpitas and Berryessa/North San José. Transfer no longer required between stations south of Bay Fair and San Francisco.
Service Decrease Stations	None	None	None	None	Decreased Saturday-only service Fremont, Union City, Glen Park, Balboa Park, and Daly City. Transfer required when traveling to Richmond from south of Hayward or from San Francisco to Dublin/Pleasanton

The selected service options will be temporary until BART fully replaces its fleet with new rail cars, at which point both the Green and Orange Lines are expected to be extended to Berryessa/North San José, with service at the same frequencies as the Fremont Station. This appendix evaluates the effect of the service options on vehicle loads and wait times. The service options will not affect station-to-station travel times, so the travel time differences between the service options will be due to differing wait times.

The three service options will introduce new BART service at the new Milpitas and Berryessa/North San José Stations. Option 1 and Option 2 would also increase service at Warm Springs/South Fremont, as it would be served by both the Green and Orange Lines. Weekend Option B could potentially decrease service levels at five stations due to the shortened Saturday-only Green Line. This service decrease is not analyzed in this appendix because only Sunday ridership is analyzed. Because Green Line service also replaces regular Orange Line service in this option, San Francisco passengers would still have a one-seat ride to most of the BART system, so effects are expected to be small and affect only a small number of passengers,

## Transfer Time

This indicator assesses the SVBX service options with respect to the transfer times for SVBX riders. **Tables B.1 and B.2** shows the transfer times expected at each transfer station between Berryessa/North San José and Lake Merritt for weekday and weekend alternatives.

**Table B.1 Weekday Northbound Transfer Times from Berryessa/North San José**

	Option	Transfer time at Warm Springs/South Fremont toward/from Daly City	Transfer time at Fremont toward/from Richmond	Transfer time at Bayfair toward/from Dublin/Pleasanton
Northbound	Existing	N/A	9 min	7 min
	Option 1	N/A	12 min	1 min
	Option 2	10 min	N/A	9 min
	Option 3	2 min <sup>1</sup>	12 min, plus 2 min at Warm Springs/South Fremont <sup>1</sup>	15 min, plus 2 min at Warm Springs/South Fremont <sup>1</sup>
Southbound	Existing	N/A	7 min	2 min (to Orange) or 10 min (to Green)
	Option 1	N/A	9 min	14 min
	Option 2	12 min	N/A	12 min
	Option 3	2 min <sup>1</sup>	9 min, plus 2 min at Warm Springs/South Fremont <sup>1</sup>	1 min, plus 2 min at Warm Springs/South Fremont <sup>1</sup>
Percent of SVBX riders required to transfer		52% <sup>2</sup>	17% <sup>2</sup>	4%

<sup>1</sup> Assumes that rail shuttle will be timed to meet Green Line at Warm Springs/South Fremont.

<sup>2</sup> 31 percent of SVBX passengers get off the train before the Green and Orange Lines diverge, and thus would not transfer at Warm Springs/South Fremont or Fremont in Options 1 and 2, but all passengers would have to transfer at Warm Springs/South Fremont in Option 3.

The transfer times in Option 1 are similar to the existing conditions, but the transfer times are slightly longer at 12 min. Option 2 has a shorter transfer time between the Orange and Green Lines than Option 1, but the largest percentage of passengers would have to transfer in this scenario. Option 3 would have transfer times slightly larger than Option 1, and would have an additional transfer required from the rail shuttle onto the Green Line trains. This transfer time is expected to add two minutes to the trip, and the act of transferring would be an additional burden to all SVBX passengers traveling further than Warm Springs/South Fremont.

**Table B.2 Weekend Northbound Transfer Times from Berryessa/North San José**

Option		Transfer time at Bay Fair toward/from San Francisco	Transfer time at Bay Fair toward/from Richmond or Pittsburg/Bay Point	Transfer time at Bay Fair toward/from Dublin/Pleasanton
Northbound	Existing	7 min	N/A	2 min
	Option A	4 min	N/A	20 min
	Option B	N/A	16 min	20 min
Southbound	Existing	5 min	N/A	1 min
	Option A	4 min	N/A	20 min
	Option B	N/A	15 min	3 min
Percent of SVBX riders required to transfer		56%	15%	4%

In Option A, the transfer time for passengers traveling towards San Francisco is smaller than the current transfer time towards San Francisco. In Option B, these passengers would no longer need to transfer, but a 15 to 16-minute transfer time would be required for Richmond or Pittsburg/Bay Point passengers. Additionally, for both weekend options, the adjusted schedule would result passengers traveling toward Dublin/Pleasanton just missing a train, and having to wait 20 minutes for the next train.

**Table B.3** demonstrates that service at the existing South Fremont/Warm Springs will be unaffected by the addition of the Project’s proposed new service as travel times to key destination stations will remain the same. Travel times are not expected to change for riders of *existing stations*, as a result of any of the proposed options.

**Table B.3: Service Options Impact on Current and Future Service at Warm Springs/South Fremont Station, Weekdays**

	Travel Time Before Project			Travel Time After SVBX		
	WSX to Embarcadero	WSX to Downtown Oakland (12 <sup>th</sup> St.)	WSX to Coliseum	WSX to Embarcadero	WSX to Downtown Oakland (12 <sup>th</sup> St.)	WSX to Coliseum
Service Option 1	52 min	42 min	32 min	52 min	42 min	32 min
Service Option 2	52 min	42 min	32 min	52 min	42 min	32 min
Service Option 3	52 min	42 min	32 min	52 min	42 min	32 min

## Vehicle Load

The SVBX Extension will result in an increase in ridership, projected to be around 2,500 new passengers during the morning peak hour alone. This may result in increased vehicle loads. Vehicle load refers to the number of passengers per car on the train, and is used to measure crowding. BART has established a goal of 115 passengers per car during the peak and 80 passengers per car during off-peak periods.

Vehicle loads were estimated using O-D ridership estimates for the morning peak hour, 8AM to 9AM using ridership projected to Fiscal Year 2018 (FY18). Riders that could board multiple lines to reach their destination were assigned to lines based on the relative frequency of trains from each line at that station (for example, if there are four trains per hour on both the Green and Orange Lines, 50 percent of riders going to destinations served by both lines would board Green trains and 50 percent would board Orange trains). All transfers were assumed to be made at timed transfer points, as detailed in **Tables B.1** and **B.2** above.

**Table B.4** shows the fall 2017 vehicle load on select segments based on average ridership during the peak hour for the Green and Orange Lines. As the Green Line nears the Transbay tube, the average vehicle load exceeds BART's capacity standard, with 142 passengers per car on the busiest segment between West Oakland and Embarcadero Stations.

**Table B.4 Existing AM Peak Hour Vehicle Loads (Fall 2017)**

Segment	Green Line	Orange Line
Warm Springs/South Fremont – Fremont	18	N/A
Union City – South Hayward	71	25
Fruitvale – Lake Merritt	129	72
West Oakland – Embarcadero	142	N/A
12 <sup>th</sup> Street – 19 <sup>th</sup> Street	N/A	61

Source: Fall 2017 Peak Hour Loads, BART.

The following assumptions were made in analyzing the ridership and vehicle loads for each service option:

- Under Option 2, San Francisco bound passengers from Milpitas or Berryessa/North San José will switch to a Green Line train at Warm Springs/South Fremont, and San Francisco bound passengers boarding at other locations will board the Green Line, or split between the Green and Blue Lines after Bay Fair in a similar pattern as Option 1.
- For Option 3, all SVBX passengers will transfer to the Green Line at Warm Springs/South Fremont, so that loads are very similar to Option 1.
- Although the additional peak hour trains on the Green Line will likely be less crowded than the trains that reach the end of the line because they are shorter, loads were averaged across all Green Line trains for simplicity.

- Options A and B were analyzed for Sunday service only, as ridership projections were provided for Sundays. This does not evaluate the effect of the segment with additional service on Saturdays.

### *Ridership Adjustments*

In addition to the above assumptions, the vehicle load estimates include assumptions about ridership changes as a result of the service options. The FY18 ridership projections used in the analysis assume the current system in which the Green Line is extended to Warm Springs/South Fremont Station. Option 2 and 3 would require additional transfers for passengers traveling to San Francisco, detailed above in **Tables B.1 and B.2**. Option 2 would not require a transfer for riders staying on the Orange Line, but would also result in increased wait times for Green Line passengers as the transfer would not be timed. This could result in decreased ridership due to both the increased travel time and the required transfer. Past research has shown that increased travel time has an elasticity of -0.6<sup>6,7</sup>, and that a transfer between rail lines is equivalent to 8 minutes of additional travel time<sup>8</sup>. Elasticity is the change in transit ridership that is estimated to occur given a certain percentage change in travel time, route miles or frequency. For example, a 50% reduction in travel time should result in a 30% increase in ridership (-50% x -0.6=30%).

To estimate the ridership changes for the alternative service options, an average adjustment was identified for several typical trips to represent groups of passengers:

- For San Francisco-bound passengers, travel times were estimated to Montgomery Station,
- For passengers traveling toward Richmond or Pittsburg/Bay Point, travel times were estimated to MacArthur Station.
- For passengers exiting between Warm Springs/South Fremont Station and Lake Merritt Station, travel times were estimated to Hayward.

For each of these sets of routes, travel time estimates were made from Berryessa/North San José, Milpitas, and Warm Springs/South Fremont Stations. The percent change in travel time compared to Option 1 for weekday alternatives and Option A for weekend/evening alternatives was multiplied by the elasticity of -0.6 to determine a ridership adjustment. For each origin-destination pair, an adjustment for both northbound and southbound travel was estimated, then these two adjustments were averaged to get a final adjustment that accounts for round-trip commutes. Thus, for each option, nine adjustments were calculated and applied to the corresponding ridership estimates. The percent change in ridership applied to Option 2, Option 3, and Option B are shown in **Tables B.5 to B.7**. As described above, the differences between the options are due to differences in the transfer times at stations along the route, which affect the overall route travel times. The service options are not expected to otherwise affect travel times.

Option 2		Origin		
		Berryessa/North San José	Milpitas	Warm Springs/South Fremont
Destination	San Francisco	-18.5%	-19.8%	0.0%
	Richmond – Pittsburg/Bay Point	16.2%	16.2%	0.0%
	South of Downtown Oakland	0.0%	0.0%	0.0%

Note: Values represent the percent change in travel times for each station pair compared to Option 1, multiplied by an elasticity of -0.6.

**Table B.6 Option 3 Ridership Adjustments (percent change in ridership compared to Option 1)**

Option 3		Origin		
		Berryessa/North San José	Milpitas	Warm Springs/South Fremont
Destination	San Francisco	-9.2%	-9.9%	0.0%
	Richmond – Pittsburg/Bay Point	-8.1%	-8.6%	-27.3%
	South of Downtown Oakland	-18.5%	-21.5%	0.0%

Note: Values represent the percent change in travel times for each station pair compared to Option 1, multiplied by an elasticity of -0.6.

**Table B.7 Option B Ridership Adjustments (percent change in ridership compared to Option A)**

Option B		Origin		
		Berryessa/North San José	Milpitas	Warm Springs/South Fremont
Destination	San Francisco	9.4%	9.9%	11.0%
	Richmond – Pittsburg/Bay Point	-26.7%	-29.1%	-33.8%
	South of Downtown Oakland	0.0%	0.0%	0.0%

Note: Values represent the percent change in travel times for each station pair compared to Option A, multiplied by an elasticity of -0.6.

## Results

**Tables B.8 to B.12** show the estimated vehicle loads for each of the service options considered, based on the FY18 projected ridership and the above ridership adjustments due to transfers. Despite the increase in ridership, loads on the Green Line have decreased significantly due to the increase in service during the peak hour and decreases in off-peak ridership. In all three options, loads between West Oakland and Embarcadero Stations would average 116 passengers per car, much closer to BART’s standard of 115 passengers per car during the peak.

The main difference between the weekday options is seen between Warm Springs/South Fremont and Lake Merritt Stations, as SVBX passengers getting off at these stations will be on the Orange Line under Option 2, increasing loads on Orange Line trains and decreasing loads on Green Line trains. However, because this affects a relatively small number of passengers who get off the trains before the most crowded segments, this difference almost disappears by the time the trains reach Oakland.

**Tables B.8 through B.10** show the results for the three weekday service options. Option 3 loads are very similar to Option 1, as the shuttle is like an extension of the Green Line. In the results below, the SVBX shuttle is assumed to have the same number of cars as the Green Line (10 cars per train, four trains per hour). In order to meet the maximum vehicle load standards, the BART shuttle in this option would need to be four cars long (assuming four trains per hour).

**Table B.8 Option 1 AM Peak Hour Vehicle Loads (Average Passengers per Car)**

Segment	Green Line	Orange Line

12 <sup>th</sup> Street - 19 <sup>th</sup> Street	N/A	79	N/A

Source: BART hourly average ridership projection FY 2018

Loads on the two Sunday service options are fairly similar, with slightly higher loads on the Green Line in Option B compared to the Orange Line in Option A. The load levels for the weekend service options A and B, listed in **Tables B.11** and **B.12**, are well below BART's off-peak standard of 80 passengers per car.

12 <sup>th</sup> Street - 19 <sup>th</sup> Street	N/A	50

Source: BART hourly average ridership projection FY 2018

Despite some ridership adjustments of up to 30%, the resulting changes in ridership and vehicle loads are fairly small. This may be because increases in travel times for one line were associated with decreases in travel times for the other line, resulting in some balancing of ridership changes.

Additionally, the increased travel times were due to transfers at Warm Springs/South Fremont and Fremont Stations, and thus only affected passengers using the three stations at the end of the line, a relatively small proportion of total BART ridership.

## Conclusions

This assessment compares service impact indicators across BART's service plan options. When considering how the Project impacts transfer times (and therefore travel times) and vehicle loads, the Project would not result in overcrowding, and the differences Option 1 would likely be most convenient for Project riders because the majority of riders have a destination located in San Francisco and would not have to transfer.

Results from the 2017 SVBX Survey (see SVBX Public Participation Report) indicate that 54% of respondents preferred option 1, compared to 33% support for Option 2 and 3.8% support for Option 3.

Feedback from the public supports that Option 1 is the preferred service option for Project riders. Comments from outreach events in the Santa Clara County area include: *"Option 1 is my choice for the weekday because the green line is a much busier line than the orange line and is well needed for those going to San Francisco. Basically, just an extension of the current weekday service of Warm Springs-Daly City, but now will be Berryessa-Daly City."* Additionally, staff conducted multiple outreach events throughout the BART service area including Dublin/Pleasanton outreach during the weekend to collect feedback from potentially impacted riders, as most impacts were estimated to occur during non-peak hours of service. Comments from these public outreach events and online surveys collected show that riders were also in favor of Option 1 as this Option would not result in a service decrease for three San Francisco stations: *"I think it's a good idea to go with option 1 because you get more business from there"* and *"Bus shuttles add a lot of travel time and defeat the purpose of this extension. Please avoid if possible."* (See SVBX Public Participation Report).

## Appendix C: Travel Time Analysis Detail

The following tables provide details of the travel time analysis for individual Project stations. The combined project travel time analysis is presented in Section 4.2 of the report.

**Table C.1: Milpitas Travel Time Assessment**

Milpitas	Existing Average Travel Time (min)	Future Average Travel Time (min)	Time Difference (min)	Percent Change (%)
Total Population	42.50	14.00	-28.50	-67.06%
Minority Population	42.50	14.00	-28.50	-67.06%
Non-Minority Population	42.50	14.00	-28.50	-67.06%
<b>Difference between Minority and Non-Minority</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00%</b>
Low-Income Population	42.50	14.00	-28.50	-67.06%
Non-Low-Income Population	42.50	14.00	-28.50	-67.06%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00%</b>

**Table C.2: Berryessa/North San José Travel Time Assessment**

Berryessa/North San José	Existing Average Travel Time (min)	Future Average Travel Time (min)	Time Difference (min)	Percent Change (%)
Total Population	71.00	19.00	-52.00	-73.24%
Minority Population	71.00	19.00	-52.00	-73.24%
Non-Minority Population	71.00	19.00	-52.00	-73.24%
<b>Difference between Minority and Non-Minority</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00%</b>
Low-Income Population	71.00	19.00	-52.00	-73.24%
Non-Low-Income Population	71.00	19.00	-52.00	-73.24%
<b>Difference between Low-Income and Non-Low-Income</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00</b>	<b>0.00%</b>

**Table C.3** below shows the catchment area populations used to calculate weighted travel times for the project travel time analysis, which combines the individual station travel times detailed above.

**Table C.3: Catchment Area Populations**

Station	Total Population	Minority Population	Non-Minority Population	Low-Income Population	Non-Low-Income Population
Milpitas	405,938	261,002	144,936	70,020	331,195
Berryessa	1,042,140	702,690	339,450	247,200	780,753
<b>Total</b>	<b>1,448,078</b>	<b>963,692</b>	<b>484,386</b>	<b>317,220</b>	<b>1,111,948</b>

# Section 1: Public Participation Process

---

## 1.1 Purpose

Pursuant to FTA Circular 4702.1B (October 2012), BART conducted public outreach to provide the public with information about the new Silicon Valley Berryessa Extension (Project or SVBX) service to two new stations at Milpitas and Berryessa/North San José, and to solicit feedback on service options and proposed fare-setting. A key component of the Title VI outreach is to seek input on service changes and new fares from minority, low-income, and limited English proficient (LEP) populations. BART used established information outlets to engage the stakeholders who would be directly affected by the new SVBX service. By doing so, BART ensures both consistency with its Public Participation Plan (2011) and efficiency in communicating with community members.

This section describes the SVBX Title VI public participation process and provides public comments on proposed service options and fare-setting as reported by respondents to a survey administered by BART. The survey was available at events and online in September and October 2017.

## 1.2 Outreach Events and Publicity

### *1.2.1 Outreach Events:*

BART hosted a series of outreach events with information tables where staff was able to speak directly with customers and communities that will be directly affected by the new SVBX service and its related service changes. Outreach for the Project consisted of informing the BART to Silicon Valley community of the new service and the application of BART's existing distance-based fare structure to this new service.

At the outreach events, the public was given information about service options and the application of BART's existing distance-based fare structure to SVBX service. Attendees could provide comments by completing a survey, which was available in English, Spanish, Chinese, Vietnamese, and Hindi. Copies of these surveys are in Appendix PP-A of this report. Attendees could also provide comments by filling out a blue comment card.

At the outreach events, customers received the following:

- A "Project Fact Sheet" handout with project information, travel times, facts about the new service, and facts about the major service changes and new fares associated with the new service;
- Poster-sized maps of the five service plan options and the new service alignment for the SVBX extension; and
- A survey so that customers could provide input on the service options and application of BART's existing distance-based fare structure as well as demographic data for BART to use in its Title VI analysis process.

BART sought the public’s input on the proposed SVBX service options and fare-setting at outreach events held at six BART stations, the Milpitas Library, and the San Jose Flea Market. Events took place between Tuesday, September 19<sup>th</sup> and Sunday, October 8<sup>th</sup>. Table 1 provides event locations, dates, and times.

**Table 1: SVBX Outreach Locations, Dates, and Times**

<b>Location</b>	<b>Date</b>	<b>Time</b>
<b>Fremont BART Station</b>	Tuesday, September 19, 2017	6am-9am
<b>Warm Springs/South Fremont BART Station</b>	Thursday, September 21, 2017	4pm-7pm
<b>Dublin/Pleasanton BART Station</b>	Saturday, September 23, 2017	11am-2pm
<b>Downtown Berkeley BART Station</b>	Tuesday, September 26, 2017	11am-2pm
<b>Montgomery BART Station</b>	Thursday, September 28, 2017	3pm-6pm
<b>Hayward BART Station</b>	Tuesday, October 3, 2017	3pm-6pm
<b>Milpitas Library</b>	Saturday, October 7, 2017	11am-2pm
<b>San Jose Flea Market</b>	Sunday, October 8, 2017	10am-1pm

Milpitas Library Outreach, Saturday October 7, 2017

At outreach events, current riders and potential riders who could use the new SVBX service provided input. Events were scheduled at various times, including the morning and evening weekday commutes, in an effort to reach the largest audience. Spanish, Chinese, and Vietnamese on-site interpreters were available at all outreach events. On-site interpreters were assigned to event locations based on the demographics of the surrounding area and frequency of contacts by language. The chart below shows the on-site interpreters available at each outreach event.

Outreach Date	Outreach Location	Interpreters
Tuesday: 9/19/2017	Fremont BART	Spanish Chinese
Thursday: 9/21/2017	Warm Springs/South Fremont BART	Spanish Chinese
Saturday: 9/23/2017	Dublin/Pleasanton BART	Spanish
Tuesday: 9/26/2017	Downtown Berkeley BART	Chinese
Thursday: 9/28/2017	Montgomery BART	Spanish Chinese
Tuesday: 10/3/2017	Hayward BART	Spanish
Saturday: 10/7/2017	Milpitas Library	Spanish, Chinese, Vietnamese
Sunday: 10/8/2017	San Jose Flea Market	Spanish, Chinese, Vietnamese

The surveys and project fact sheet were available in hard copy in English, Spanish, Chinese, Vietnamese, and Hindi at all outreach events. Postcards in English (front side) and Spanish and Chinese (back side) with the survey link ([www.bart.gov/SVsurvey](http://www.bart.gov/SVsurvey)) were distributed to riders who were unable to stop and take the survey in person. The postcards also had language assistance taglines in English, Spanish, Chinese, Korean, Tagalog, Vietnamese, and Hindi.

Additionally, the survey, project fact sheet, postcards, and project website link were available online at [bart.gov/guide/titlevi](http://bart.gov/guide/titlevi) for the public to view and provide feedback. The survey link ([bart.gov/SVsurvey](http://bart.gov/SVsurvey)) and surveys were posted online from September 13, 2017 to October 17, 2017 and were available in English, Spanish and Chinese, with other languages available upon request.

### **1.2.2 Publicity:**

Outreach events were publicized through print and online media, community organizations, and existing email lists (described below). The following publicity and outreach methods were used for this project:

- A multilingual flyer/factsheet in English, Spanish, Vietnamese, and Hindi (including reference to the availability of translation services for the meeting)
- Survey, flyer/factsheet, and outreach event postings on [BART.gov/guide/titlevi](http://BART.gov/guide/titlevi)
- BART website and social media announcements for notification of upcoming outreach events

- VTA website and social media announcements for notification of upcoming outreach events
- BART Passenger Bulletin in English (with standard taglines for more information in Spanish, Vietnamese, Chinese, Korean, Tagalog, and Hindi) at the following BART stations:
  - Fremont
  - Warm Springs/South Fremont
  - Dublin/Pleasanton
  - Downtown Berkeley
  - Montgomery
  - Hayward
- Advertisements in local print ethnic media including:
  - La Opinion de la Bahia (Spanish) – placed on September 17, 2017, September 24, 2017, and October 1, 2017
  - Vision Hispana (Spanish and English) – placed on September 9, 2017 and September 23, 2017
  - India West (English) – placed on September 15, 2017, September 22, 2017, and September 29, 2017
  - Viet Nam, the Daly News (Vietnamese) – placed on September 15, 2017, September 18, 2017, and September 30, 2017
  - Korean Times and Daily News (Korean) – placed on September 15, 2017, September 18, 2017, and September 30, 2017
  - Sing Tao (Chinese) – placed on September 15, 2017, September 18, 2017, and September 25, 2017
  - World Journal (Chinese) – placed on September 15, 2017, September 22, 2017, and October 2, 2017
  - Tri City Voice – placed on September 12, 2017, September 26, 2017, and October 3, 2017
- Email notice to BART's Title VI/Environmental Justice and Limited English Proficiency Advisory Committees with flyer and survey attachments
- Email notice of outreach events through BART and VTA Government & Community Relations departments to their local organization lists

## Section 2: Public Comments

---

Informational handouts, postcards with the link to complete the survey online, and paper surveys were available to the public at outreach events, on BART’s website, and through other outreach efforts described in Section 1. This outreach effort resulted in 2150 survey responses (2103 online responses and 47 hard copy), with three surveys completed in Chinese and six surveys completed in Spanish.<sup>1</sup> All comments throughout this report have been transcribed as written by the public.

Respondent demographics are shown below in Table 2-1.

<sup>1</sup> Table 2-1 lists total 1823 responses. This value is less than total 2150 surveys received as 1823 of the responses provided demographic data.

**Table 2-1: Survey Demographic Summary**

<b>All Respondents</b>		
	<b>Percent*</b>	<b>Sample Size*</b>
<b>Gender</b>		
Male	72.4%	
Female	25.6%	
Another Gender	1.9%	
<b>Total</b>	<b>100%</b>	<b>1823</b>
<b>Ethnicity</b>		
White	56.0%	
Black/African American	4.2%	
Asian or Pacific Islander	32.6%	
American Indian or Alaska Native	1.5%	
Other or Multiple Race	9.1%	
<b>Total</b>	<b>100%</b>	<b>1813</b>
Hispanic, Latino, or Spanish Origin	11.9%	
<b>Total</b>	<b>100%</b>	<b>1811</b>
Minority	44%	
Non-Minority	56%	
<b>Total</b>	<b>100%</b>	<b>1818</b>
<b>Annual Household Income</b>		
Under \$25,000	6.9%	
\$25,000 - \$29,999	3.4%	
\$30,000 - \$39,999	2.8%	
\$40,000 - \$49,999	4.7%	
\$50,000 - \$59,999	6.0%	
\$60,000 - \$74,999	6.3%	
\$75,000 - \$99,999	13.0%	
\$100,000 and over	55.5%	
<b>Total</b>	<b>100%</b>	<b>1735</b>
<b>Income**</b>		
Low-income	20.1%	
Non-low-income	79.9%	
<b>Total</b>	<b>100%</b>	
<b>Limited English Proficient (LEP)</b>		
Yes	0.2%	
No	99.8%	
<b>Total</b>	<b>100%</b>	<b>1823</b>

\*Note: due to rounding, percentages may not add up to 100%; sample sizes vary between categories as not every respondent answered all survey questions.

\*\*Low-income and non-low-income percentages factor in both household size and annual household income.

## 2.1 Service and Station Usage

One purpose of the outreach survey was to get the public's feedback on how often they would use the new SVBX service and which of the two stations they would use.

### 2.1.1 Question 4:

Question 4 asked respondents:

*Do you plan to use the Milpitas and/or Berryessa/North San José Station? Select all that apply.*

Of the 2150 survey respondents, 31.0% said they would use Berryessa/North San José Station, 13.5% said they would use Milpitas Station, 29.1% said they would use both, and 26.4% said they would use another station.

### 2.1.2 Question 6:

Question 6 asked respondents:

*How often do you plan to use the new BART service to/from Milpitas and/or Berryessa/North San José Stations?*

There were 1,535 responses to Question 6, with the results shown in Table 2-2 below.

**Table 2-2: Service Usage Responses**  
Sample Size = 1,535

Options	Percent
5 or more days per week	17.0%
1 - 4 days a week	17.5%
1 - 3 days a month	30.2%
A few times a year	34.8%
Will not use	0.5%
Total	100%

Table 2-3 provides a breakdown of Question 6 survey responses by protected and non-protected.

**Table 2-3: Service Usage Responses by Protected and Non-Protected**

Responses	Minority	Non-minority	Sample Size	Total	Low-Income	Non-Low-Income	Sample Size	Total
5 or more days per week	62.6%	37.2%	261	100%	31.2%	68.6%	261	100%
1 - 4 days per week	56.4%	44.6%	269	100%	24.5%	75.5%	269	100%
1 - 3 days per month	43.0%	57.0%	463	100%	30.5%	69.5%	463	100%
A few times a year	45.7%	54.3%	534	100%	27.7%	72.3%	534	100%
Will not use	75.0%	25.0%	8	100%	37.5%	62.5%	8	100%

## 2.2 Service Options

One purpose of the outreach survey was to get the public’s feedback on SVBX service options.

### 2.2.1 Question 7:

Question 7 asked respondents:

*Which of the proposed service options is more suitable for your travel purposes weekdays before 7 pm?*

There were 1,962 responses to Question 7 as shown in Table 2-4 below.

**Table 2-4: Weekday Service Options Responses**  
Sample Size = 1,962

Options	Percent
Option 1	54.0%
Option 2	33.0%
Option 3	3.8%
No Preference	9.0%
Total	100%

Table 2-5 provides a breakdown of Question 6 survey responses by minority and low-income.

**Table 2-5: Weekday Service Options Responses by Minority and Low-Income**

Responses	Minority	Non-minority	Low-Income	Non-Low-Income
Option 1	53.3%	54.8%	47.6%	57.3%
Option 2	32.4%	33.8%	36.8%	31.2%
Option 3	5.2%	2.5%	4.6%	3.4%
No Preference	9.1%	8.9%	23%	8%
Sample Size	964	998	657	1305
Total	100%	100%	100%	100%

Most minority respondents (53.3%) and low-income respondents (47.6%) favored Option 1, which extends the Daly City/San Francisco-Warm Springs/South Fremont (Green) Line to Milpitas and Berryessa/North San José Stations. This was notably more than the 32.4% (minority) and 36.8% (low-income) who supported Option 2. Option 3 was selected by only approximately 5% of protected respondents, and a number of respondents argued against a shuttle, saying it was a major inconvenience. Sample comments are provided below:

*“Option 1 is my choice for the weekday because the green line is a much busier line than the orange line and is well needed for those going to San Francisco. Basically, just an extension of the current weekday service of Warm Springs-Daly City, but now will be Berryessa-Daly City.”*

*“Connecting directly to SF stations makes the most sense during commute hours given how many jobs are in that area.”*

*“A shuttle between Warm Springs and Milpitas/Berryessa is not preferred. It makes the new extension seem like a strange appendage to the BART system instead of fully integrated with BART.”*

**2.2.2 Question 8:**

Question 8 asked respondents:

*Which of the proposed service options is more suitable for your travel purposes evenings after 7 pm and Sunday?*

Question 8 received 1,962 responses as shown in Table 2-6 below.

**Table 2-6: Evening and Sunday Service Options Responses**

Sample Size = 1,962

Options	Percent
Option A	53.7%
Option B	33.1%
No Preference	9.2%
Total	100%

Table 2-7 provides a breakdown of Question 8 survey responses by minority and low-income.

**Table 2-7: Evening and Sunday Service Options Responses by Minority and Low-Income**

Responses	Minority	Non-minority	Low-Income	Non-Low-Income
Option A	34.6%	41.0%	46.4%	33.3%
Option B	46.8%	42.8%	36.7%	49.1%
No Preference	18.6%	16.2%	16.9%	17.6%
Sample Size	902	1009	681	1230
Total	100%	100%	100%	100%

Option B was the preferred option for minority respondents at 46.8%; this option would extend the Daly City/San Francisco-Warm Springs/South Fremont (Green) Line to Berryessa/North San José Station, and re-route the Richmond-Fremont (Orange) Line from Richmond to Dublin/Pleasanton Station (Purple) Line. However, some respondents expressed the opinion that Option B was too complicated and hard to understand. Option A, extending the Richmond-Fremont (Orange) Line to Milpitas and Berryessa/North San José Stations, received the most support from low-income respondents at 46.4%.

Samples of comments are below:

*“Adding a new route just for nights/weekends will be far too confusing for non-regular BART riders.”*

*“Option A is the best. It is much easier to just extend on the existing service rather than make it complicated with new maps and lines that will just make transfers more cumbersome like Option B. Thus, option A is the best as it is just like the existing service, except now the service will go to San Jose. Basically, just an extension of the current weekend service of Warm Springs-Richmond, but now will be Berryessa-Richmond.”*

*“On a related note, I see no benefit to Oakland/Berkeley/Richmond BART riders to rerouting the Richmond-Fremont line to become Richmond-Dublin. Please don't do it! The Dublin BART stations are not convenient to any destinations in that sprawling suburban area, they are only good for commuters who live there and drive to BART.”*

## 2.3 Distance-Based Fares

The proposed fares for SVBX service were calculated using BART's existing distance-based fare structure, with no new surcharges applied. As part of the Title VI outreach, the survey informed the public that BART would be extending its distance-based fare structure to the Project, provided sample proposed fares for BART service to the two new Project stations, and asked if survey respondents had any general comments about the proposed fares.

### 2.3.1 Question 10:

Survey question 10 asked respondents:

*BART plans to extend its distance-based fare structure for Milpitas and Berryessa/North San José Stations. For example, in 2018, a one-way trip to Embarcadero Station from Warm Springs/South*

*Fremont Station will cost \$6.75, while a trip to Embarcadero Station from Milpitas Station is estimated to cost \$7.50 (\$0.75 more), and from Berryessa/North San José Station, \$7.75 (\$1.00 more). Do you have any general comments about BART's proposed fares for Milpitas and Berryessa/North San José Stations?*

Approximately 33.3% of all respondents provided comments to Question 10; 66.7% did not provide any comments (either leaving it blank or noting they had no comments), which can indicate neutrality or potentially some level of acceptance.

Question 10 comments have been generally grouped into “Support” or “Don’t Support,” with a third category of “No Preference” indicating those who left it blank or noted they had no comments. Table 2-8 provides a breakdown of comments by minority and low-income.

**Table 2-8: Comments on Proposed Fares by Minority and Low-Income**

Comments	Minority	Non-Minority	Low-Income	Non-Low-Income
<b>Support</b>	48.1%	49.4%	47.5%	49.2%
<b>Don't Support</b>	3.4%	8.1%	5.9%	5.5%
<b>No Preference</b>	48.5%	42.5%	46.7%	45.3%
Total	100.0%	100.0%	100.0%	100.0%
Sample Size	600	506	358	748

Among minority respondents, 48.1% expressed support for the proposed fares, 3.4% did not support the proposal, and 48.5% did not state a preference. Among low-income respondents, 47.5% indicated support, 5.9% were not in support, and 46.7% did not state a preference. “No preference” as noted above can indicate neutrality or potentially some level of acceptance

A list of all comments is provided in Appendix PP-C. Below are sample comments:

*“Any fare with BART is still so much more feasible than taking any other kind of transportation. No complaints from me!”*

*“As a person with a good job, these fares are not a problem for me. My only concern is that there should be options for people with limited and/or fixed incomes. Public transit should be accessible to all, not just people like me who work for large Silicon Valley companies.”*

*“\$15 / day - 5 days a week is a lot of money. There needs to be some sort of monthly pass like everyone else has. Even if it was zone based like Caltrain.”*

*“As long as the distance-based charges are consistent across the system I'm fine with them and aren't only for this extension, I'm fine with them.”*

Of those that were in favor of BART applying its distance-based fare structure to the Project, many felt that the fares were fair, especially in comparison to other transit agencies in the area.

## 2.4 General Comments

The survey provided questions for the public to comment on specific service and fare-related questions as described above; however, some respondents provided general comments regarding BART. Samples of such comments are provided below:

*"The thing is, I don't want to drive to the city. I want to take BART and not be part of the pollution or congestion problem. Today, this requires driving all the way to Daly City, parking there, and catching BART in. I live in Santa Clara. That's just silly. In Paris I can get that far in 40 minutes via Metro to RER. If we're going to make public transit a real option, then let's get on it already."*

*"A lot of people travel from San Francisco/Peninsula to the South Bay. I live in San Jose and would much rather take BART from Berryessa to downtown SF instead of Caltrain (too expensive and slow). Having a direct line instead of having to transfer (regardless of time of day or weekend) would be exceptional."*

*"It is very important to consider free or discounted transfers to VTA light rail / buses. Transfers are a necessary part of a functioning transit network."*

*"Bart access to San Jose is critical to reducing environmental effects due to individual transportation in the Bay Area."*

Customers were excited about the opening of the BART to Silicon Valley and some expressed that taking BART was still the most affordable and convenient means of transportation.

*"Excellent - We needed this service many years ago. I am very happy with this new transportation." (translated from Spanish)*

General comments were mainly focused on continuing to extend BART to add convenience, increasing the size of the trains, and train reliability.

## Section 3: Advisory Committees

---

### **3.1 BART Title VI/Environmental Justice (EJ) & Limited English Proficiency (LEP) Advisory Committees**

Staff presented a preliminary overview of the BART to Silicon Valley Berryessa Title VI Equity Analysis at a joint meeting of BART's Title VI/Environmental Justice (EJ) and Limited English Proficiency (LEP) Advisory Committees held on Tuesday, August 22, 2017 from 10:30am to 1pm in the BART Board Room, located at 344 20th Street in Oakland. The meeting was open to the public and the agenda was noticed at least 72 hours in advance of the meeting.

The LEP Advisory Committee consists of members of community-based organizations that serve LEP populations within the BART service area. The committee assists in the development of the District's language assistance measures and provides input on how the District can provide programs and services to customers, regardless of language ability. The Title VI/EJ Advisory Committee, which also consists of members of community-based organizations, ensures that the District is taking reasonable steps to incorporate Title VI and EJ Policy principles in its transportation decisions.

At the meeting, staff presented an overview of the Project, BART fares and fare media options, and service options. Staff distributed surveys in English, Spanish, Chinese, Vietnamese, and Hindi; postcards; and the Project Fact Sheet handout in English, Spanish, Chinese, Vietnamese, and Hindi.

Committee members had questions and comments about whether an analysis had been done on which populations were currently traveling along the proposed BART route. Committee members also had questions about whether the current bus routes along that corridor would remain intact, and what other agencies might do in response to the new BART route. Committee members noted that with the increased minimum wage in San Francisco, there may be more ridership on SVBX than expected among low-income workers. Members were supportive of the BART to Silicon Valley extension. Staff responded to the Committee members' questions and followed up with additional information as requested.

### **3.2 Refugee and Immigrant Forum of Santa Clara County**

Staff presented a preliminary overview of the BART to Silicon Valley Berryessa Title VI Equity Analysis to the Refugee and Immigrant Forum of Santa Clara County. The meeting was held on Wednesday, September 20, 2017, and was open to the public.

At the meeting, staff presented an overview of the Project, BART fares and fare media options, and service options. Staff distributed the surveys in English, Spanish, Chinese, Vietnamese, and Hindi; postcards; and the Project Fact Sheet handout in English, Spanish, Chinese, Vietnamese, and Hindi.

Meeting participants had questions and comments about whether low-income communities could afford to use the new BART service. They also asked about free Clipper cards and other ridership, and whether BART was doing an equity analysis. Staff responded to participant questions and followed up with additional information as requested.

# New BART Service to Milpitas and Berryessa/North San José Stations

**Comments and Feedback** Please answer the questions below. Your answers will help us evaluate how well we're reaching the communities we serve. BART values your input. Information will be treated confidentially.

### USAGE OF BART

- Which BART station do you usually enter when making a trip from your home (i.e., your "home" station)?  
\_\_\_\_\_
- At which BART station do you usually exit the system (i.e., your "destination" station)?  
\_\_\_\_\_
- What time of day do you typically use BART? Select all that apply.  
 Morning  Afternoon  Evening  Late night
- Do you plan to use the Milpitas and/or Berryessa/North San José Station? Select all that apply.  
 Yes, Milpitas Station  
 Yes, Berryessa/North San José Station  
 Neither, I plan to use: \_\_\_\_\_
- How will you access the Milpitas and/or Berryessa/North San José Station? Select all that apply.  
 Walk all the way  
 Bicycle  
 VTA Transit bus  
 VTA Light Rail  
 Drive alone  
 Carpool  
 Get dropped off  
 Uber/Lyft/etc.  
 Taxi  
 Other: \_\_\_\_\_
- How often do you plan to use the new BART service to/from Milpitas and/or Berryessa/North San José Stations? Please check one.  
 5 or more days per week  
 1-4 days a week  
 1-3 days a month  
 A few times a year  
 Will not use

### PROPOSED SERVICE OPTIONS FOR MILPITAS AND BERRYESSA/NORTH SAN JOSÉ STATIONS

Note: For questions 7 and 8 use the maps shown on page 2 to select the option more suitable for your travel purposes.

- Which of the proposed service options is more suitable for your travel purposes **weekdays before 7pm**? Please check one.  
**Option 1:** Extend the Daly City/San Francisco-Warm Springs (Green) Line to Milpitas and Berryessa/North San José Stations.  
**Option 2:** Extend the Richmond-Fremont (Orange) Line to Milpitas and Berryessa/North San José Stations.  
**Option 3:** Passengers board BART train shuttle from Berryessa/North San José Station to Warm Springs Station.  
 Option 1  Option 2  Option 3  No Preference
- Which of the proposed service options is more suitable for your travel purposes **evenings after 7pm and Sunday**? Please check one.  
**Option A:** Extend the Richmond-Fremont (Orange) Line to Milpitas and Berryessa Station. [Note Saturday only: Green Line (Warm Springs-Daly City) and Red Line (Richmond-Daly City) service from 9am - 7pm]  
**Option B:** Extend the Daly City/San Francisco-Warm Springs (Green) Line to Berryessa Station. Re-route the Richmond-Fremont (Orange) Line from Richmond to Dublin/Pleasanton Station (Purple Line). [Note Saturday only: Additional Green Line (South Hayward-24<sup>th</sup> St./Mission) and Red Line (Richmond-Daly City) service from 9am - 7pm]  
 Option A  Option B  No Preference

(Optional) Do you have any comments on any of the options listed in questions 7-8?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

### PROPOSED BART FARES FOR MILPITAS AND BERRYESSA/NORTH SAN JOSÉ STATIONS

- BART plans to extend its distance-based fare structure for Milpitas and Berryessa/North San José Stations. For example, in 2018, a one-way trip to Embarcadero Station from Warm Springs/South Fremont Station will cost \$6.75, while a trip to Embarcadero Station from Milpitas Station is estimated to cost \$7.50 (\$0.75 more), and from Berryessa/North San José Station, \$7.75 (\$1.00 more). Do you have any general comments about BART's proposed fares for Milpitas and Berryessa/North San José Stations?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

### PLEASE TELL US ABOUT YOURSELF

- What is your gender?  
 Male  Female  Another gender: \_\_\_\_\_

NOTE: Please answer BOTH Questions 12 and 13.

- Are you of Hispanic, Latino or Spanish origin?  
 No  Yes
- What is your race or ethnic identification? (Check one or more. Categories based on US Census.)  
 White  Black/African American  
 Asian or Pacific Islander  American Indian or Alaska Native  
 Other (specify): \_\_\_\_\_
- Do you speak a language other than English at home?  
 No  Yes → Language: \_\_\_\_\_
- If "Yes" to Question 13, how well do you speak English?  
 Very well  Well  Not well  Not at all
- What is your total annual household income before taxes?  
 Under \$25,000  \$50,000 - \$59,999  
 \$25,000 - \$34,999  \$60,000 - \$74,999  
 \$35,000 - \$39,999  \$75,000 - \$99,999  
 \$40,000 - \$49,999  \$100,000 and over
- Including yourself, how many people live in your household?  
 1  2  3  4  5  6 or more
- Do you use a smart phone (can access the Internet, download apps, etc.)?  
 No  Yes

Direct weekday service from Berryessa/North San José to Oakland & Berkeley

**Service Option B**

Direct weekend service from Berryessa/North San José to San Francisco and rerouted service from Dublin/Pleasanton to Oakland & Berkeley.

**Service Option 3**

Passengers board BART train shuttle from Berryessa/North San José or Milpitas, weekdays before 7pm. All passengers transfer at Warm Springs/South Fremont (2 min. transfer)

# Nuevo servicio BART a las Estaciones Milpitas y Berryessa/North San José

**Comentarios y opinión** Sirvase contestar las siguientes preguntas. Sus respuestas nos ayudarán a evaluar que tan bien nos conectamos con las comunidades a las que servimos. BART agradece su participación. La información será tratada de forma confidencial.

## USO DE BART

- ¿Qué estación de BART usa generalmente cuando hace un recorrido desde su casa (es decir, la estación más cerca de su casa)?  
\_\_\_\_\_
- ¿En qué estación de BART suele bajarse de los trenes del sistema (es decir, su estación "de destino")?  
\_\_\_\_\_
- Normalmente, ¿en qué horario del día utiliza el servicio de BART? Marque todas las opciones que correspondan.  
 Mañana    Tarde    Noche    Altas horas de la noche
- ¿Tiene planeado usar las Estaciones Milpitas y/o Berryessa/North San José? Marque todas las opciones que correspondan.  
 Sí, la Estación Milpitas  
 Sí, la Estación Berryessa/North San José  
 Ninguna, planeo usar: \_\_\_\_\_
- ¿Cómo llegará a las Estaciones Milpitas y/o Berryessa/North San José? Marque todas las opciones que correspondan.  
 Caminaré todo el trayecto  
 En bicicleta  
 Autobús de VTA  
 Tranvía de VTA  
 Conduciré solo  
 En viajes compartidos en auto  
 Me llevarán en auto  
 En Uber/Lyft/etc.  
 En taxi  
 Otro: \_\_\_\_\_
- ¿Con cuánta frecuencia tiene planeado usar el nuevo servicio BART hacia/desde las Estaciones Milpitas y/o Berryessa/North San José? Por favor, marque una.  
 5 días por semana o más  
 De 1 a 4 días por semana  
 De 1 a 3 días por mes  
 Unos cuantos días por año  
 No las usaré

## PROPUESTAS DE OPCIONES DE SERVICIO PARA LAS ESTACIONES MILPITAS Y BERRYESSA/NORTH SAN JOSÉ

**Nota:** Para las preguntas 7 y 8, use los mapas que aparecen en la página 2 y seleccione la opción más conveniente para sus propósitos de transporte.

- ¿Cuál de las propuestas de opciones de servicio es más conveniente para sus propósitos de transporte en días hábiles, antes de las 7 p.m.? Por favor, marque una.  

**Opción 1:** Ampliar la Línea Daly City/San Francisco-Warm Springs (Verde) a las Estaciones Milpitas y Berryessa/North San José.

**Opción 2:** Ampliar la Línea Richmond-Fremont (Anaranjada) a las Estaciones Milpitas y Berryessa/North San José.

**Opción 3:** Los pasajeros abordan el tren rápido BART de la Estación Berryessa/North San José a la Estación Warm Springs.

 Opción 1    Opción 2    Opción 3    Sin preferencia
- ¿Cuál de las propuestas de opciones de servicio es más conveniente para sus propósitos de transporte después de las 7 p.m. y en domingo? Por favor, marque una.  

**Opción A:** Ampliar la Línea Richmond-Fremont (Anaranjada) a las Estaciones Milpitas y Berryessa. [Nota: Sólo en Sábado. Línea Verde (Warm Springs-Daly City) y Línea Roja (Richmond-Daly City), servicio de 9 a.m. a 7 p.m.]

**Opción B:** Ampliar la Línea Daly City/San Francisco-Warm Springs (Verde) a la Estación Berryessa. Redirigir la Línea Richmond-Fremont (Anaranjada), de Richmond a la Estación Dublin/Pleasanton (Línea Violeta). [Nota: Sólo en Sábado. Línea Verde adicional (South Hayward-24th St./Mission) y Línea Roja (Richmond-Daly City), servicio de 9 a.m. a p.m.]

(Opcional) ¿Tiene algún comentario acerca de alguna de las opciones descritas en las preguntas 7 y 8?  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

## TARIFAS DE BART PROPUESTAS PARA LAS ESTACIONES MILPITAS Y BERRYESSA/NORTH SAN JOSÉ

- BART tiene planeado extender su estructura de tarifas basadas en distancias a las Estaciones Milpitas y Berryessa/North San José. Por ejemplo, en 2018, un viaje de ida a la Estación Embarcadero desde la Estación Warm Springs/South Fremont costará \$6.75, mientras que un viaje a la Estación Embarcadero desde la Estación Milpitas costará un estimado de \$7.50 (\$0.75 más), y desde la Estación Berryessa/North San José costará \$7.75 (\$1.00 más). ¿Tiene algún comentario general acerca de las tarifas BART propuestas para las Estaciones Milpitas y Berryessa/North San José?  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

## PROPORCIONENOS INFORMACIÓN ACERCA DE USTED

- ¿Cuál es su sexo?  
 Masculino    Femenino    Otro: \_\_\_\_\_
- NOTA: Por favor conteste AMBAS preguntas, 12 y 13.
- ¿Es usted de origen hispano, latino o español?  
 No    Sí
- ¿Cuál es su raza o identificación étnica? (Marque una o más respuestas. Categorías en base al Censo de los Estados Unidos.)  
 Blanco    Negro/afroamericano  
 Asiático o de las Islas del Pacífico    Indio Americano o Nativo de Alaska  
 Otro (favor de especificar): \_\_\_\_\_
- ¿Habla en el hogar un idioma que no sea el inglés?  
 No    Sí → Idioma: \_\_\_\_\_
- Si respondió "Sí" a la Pregunta 13, ¿que tan bien habla inglés?  
 Muy bien    Bien    No muy bien    Nada
- ¿Cuál es el total de los ingresos anuales en su hogar antes de impuestos?  

<input type="checkbox"/> Menos de \$25,000	<input type="checkbox"/> \$50,000 a \$59,999
<input type="checkbox"/> \$25,000 a \$34,999	<input type="checkbox"/> \$60,000 a \$74,999
<input type="checkbox"/> \$35,000 a \$39,999	<input type="checkbox"/> \$75,000 a \$99,999
<input type="checkbox"/> \$40,000 a \$49,999	<input type="checkbox"/> \$100,000 o más
- Incluyéndose a usted mismo, ¿cuántas personas viven en su hogar?  
 1    2    3    4    5    6 o más
- ¿Utiliza un teléfono inteligente (puede acceder a internet, descargar aplicaciones, etc.)?  
 No    Sí

Entregue su encuesta completa a un representante de BART. Para llenar esta encuesta por Internet, favor de visitar: [bart.gov/SVsurvey](http://bart.gov/SVsurvey)

Si necesita servicios de asistencia de idiomas, llame al (510) 464-6752.

Los siguientes mapas corresponden a las preguntas 7 y 8.

**Pregunta 7: Días hábiles antes de las 7 p.m.**

**Opción de Servicio 1**

Servicio directo en días hábiles de Berryessa/North San José a San Francisco

**Pregunta 8: Noches después de las 7 p.m., sábados y domingos**

**Opción de Servicio A**

Servicio directo en fin de semana de Berryessa/North San José a Oakland y Berkeley

**Opción de Servicio 2**

Servicio directo en días hábiles de Berryessa/North San José a Oakland y Berkeley

**Opción de Servicio B**

Servicio directo en fin de semana de Berryessa/North San José a San Francisco y servicio desviada de Dublin/Pleasanton a Oakland y Berkeley.

**Opción de Servicio 3**

Los pasajeros abordan el tren rápido BART de la Estación Berryessa/North San José o Milpitas, en días hábiles antes de las 7 p.m. Todos los pasajeros transbordan en Warm Springs/South Fremont (trasbordo de 2 min.)

# 新增 BART 服務至 Milpitas 和 Berryessa/North San José 站

**意見與建議** 請回答下列問題。您的答案有助於我們評估我們的社區服務成效。BART 重視您的意見。問卷資料將會保密。

## BART 使用情況

- 您從家裡出發時，通常在每一個 BART 捷運站上車 (您家在哪一站)？  
\_\_\_\_\_
- 您通常在每一個 BART 捷運站下車 (您的目的地在哪一站)？  
\_\_\_\_\_
- 您通常在一天中什麼時候搭乘 BART？選擇所有適用選項。  
 上午  下午  晚上  深夜
- 您計劃用 Milpitas 和/或 Berryessa/North San José 站嗎？選擇所有適用選項。  
 是，Milpitas 站  
 是，Berryessa/North San José 站  
 皆否，我計劃使用：\_\_\_\_\_
- 您將如何使用 Milpitas 和/或 Berryessa/North San José 站？選擇所有適用選項。  
 全程走路  
 騎腳踏車  
 VTA 公車  
 VIA 輕軌鐵路  
 自己一個人開車  
 汽車共乘  
 他人接送  
 Uber/Lyft/其他  
 計程車  
 其他：\_\_\_\_\_
- 您計劃多常使用新的 BART 服務往返 Milpitas 和/或 Berryessa/North San José 站？請勾選一項。  
 每週 5 天或更多  
 一週 1-4 天  
 一個月 1-3 天  
 一年幾次  
 不搭乘

## MILPITAS 和 BERRYESSA/NORTH SAN JOSÉ 站 服務選項提議

註：對於問題 7 和 8，請使用第 2 頁所示的地圖，選擇更適合您行程的選項。

- 哪一個服務選項提議，更適合您平日晚上 7 點前的行程？請勾選一項。  
 選項 1：延長 Daly City/San Francisco-Warm Springs (綠) 線到 Milpitas 和 Berryessa/North San José 站。  
 選項 2：延長 Richmond-Fremont (橘) 線到 Milpitas 和 Berryessa/North San José 站。  
 選項 3：乘客搭乘 BART 火車在 Berryessa/North San José 站到 Warm Springs 站的穿梭巴士。  
 選項 1  選項 2  選項 3  沒有偏好
- 哪些提議的服務選項，更適合您晚上 7 點後和星期天的行程？請勾選一項。  
 選項 A：延長 Richmond-Fremont (橘) 線到 Milpitas 和 Berryessa 站。【請注意，僅限週六；服務時間為上午 9 點至晚上 7 點的綠線 (Warm Springs-Daly City) 和紅線 (Richmond-Daly City)】  
 選項 B：延長 Daly City/San Francisco-Warm Springs (綠) 線到 Berryessa 站。重新安排從 Richmond 到 Dublin/Pleasanton 站 (紫線) 的 Richmond-Fremont (橘) 線。【請注意，僅限週六；服務時間為上午 9 點至晚上 7 點的綠線 (增開) (South Hayward-24 St./Mission) 和紅線 (Richmond-Daly City)】  
 選項 A  選項 B  沒有偏好

(自由選擇) 您對問題 7-8 中列出的任何選項有任何意見嗎？

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## MILPITAS 和 BERRYESSA/NORTH SAN JOSÉ 站 BART 票價提議

- BART 計劃為 Milpitas 和 Berryessa/North San José 站延用以距離為基礎的票價結構。例如，在 2018 年，從 Warm Springs/South Fremont 站到 Embarcadero 站的單程費用將為 \$6.75，而 Milpitas 站到 Embarcadero 站的估計費用為 \$7.50 (增加 \$0.75)，從 Berryessa/North San José 站到 Embarcadero 站則為 \$7.75 (增加 \$1.00)。您對 BART 為 Milpitas 和 Berryessa/North San José 站的票價提議有任何總體評論嗎？  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## 請告訴我們一些有關您的資訊

- 您的性別？  
 男  女  其他性別：\_\_\_\_\_

請注意：請回答 12 和 13 兩個問題。

- 您是西班牙語裔、拉丁美裔或西班牙裔嗎？  
 否  是
- 您屬於什麼族裔？(可勾選一或多項。分類以美國人口普查為依據。)  
 白人  黑人/非裔美國人  
 亞洲或太平洋島民  美洲印第安人或阿拉斯加本地人  
 其他 (請註明)：\_\_\_\_\_
- 您在家是否講英語以外的語言？  
 否  是 語言：\_\_\_\_\_
- 若 13 題回答「是」，您的英文程度有多好？  
 很好  好  不好  不會說
- 您的稅前家庭年度總收入為何 (美元)？  
 \$25,000 以下  \$50,000 - \$59,999  
 \$25,000 - \$34,999  \$60,000 - \$74,999  
 \$35,000 - \$39,999  \$75,000 - \$99,999  
 \$40,000 - \$49,999  \$100,000 或以上
- 包括您自己在內，您家裡住了多少人？  
 1  2  3  4  5  6 或更多
- 您是否使用智慧型手機 (有上網、下載應用程式等功能)？  
 否  是

請將問卷填好並交給 BART 代表。若想上網填寫問卷，請造訪：  
[bart.gov/SVsurvey](http://bart.gov/SVsurvey)

如需語言協助服務，請致電 (510) 464-6752。

以下地圖對圖例 7 和 8。

圖例 7：平日晚上 7 點前

服務選項 1

將 Berryessa/North San José 的平日服務導向三藩市

圖例 8：晚上七點後、週六、週日

服務選項 A

將 Berryessa/North San José 的週末服務導向奧克蘭和柏克萊

服務選項 2

將 Berryessa/North San José 的平日服務導向奧克蘭和柏克萊

服務選項 B

將 Berryessa/North San José 的週末服務導向三藩市，並且將 Dublin/Pleasanton 的改裝服務導向奧克蘭和柏克萊。

服務選項 3

平日晚上 7 點前，乘客搭乘 BART 火車在 Berryessa/North San José 或 Milpitas 的穿梭巴士，所有乘客在 Warm Springs/South Fremont 轉車（轉車時間兩分鐘）

# Dịch Vụ BART mới đến các Trạm Milpitas và Berryessa/Bắc San José

**Nhận Xét và Phản Hồi** Vui lòng trả lời các câu hỏi ở dưới. Các câu trả lời của quý vị sẽ giúp chúng tôi đánh giá hiệu quả tiếp cận các cộng đồng mà chúng tôi phục vụ. BART đánh giá cao ý kiến của quý vị. Dữ liệu sẽ được bảo mật.

## SỬ DỤNG DỊCH VỤ BART

1. Quý vị thường vào trạm BART nào khi đi từ nhà quý vị (có nghĩa là trạm "khởi hành" của quý vị)?  
\_\_\_\_\_
2. Quý vị thường xuống trạm BART nào (có nghĩa là trạm "đến" của quý vị)?  
\_\_\_\_\_
3. Quý vị thường sử dụng dịch vụ BART vào thời điểm nào trong ngày? Chọn tất cả các lựa chọn thích hợp.  
 Buổi sáng  Buổi chiều  Buổi tối  Buổi tối muộn
4. Quý vị có dự liệu sử dụng Trạm Milpitas và/hoặc Berryessa/Bắc San José không? Chọn tất cả các lựa chọn thích hợp.  
 Có, Trạm Milpitas.  
 Có, Trạm Berryessa/Bắc San José.  
 Không sử dụng trạm nào, tôi dự liệu sẽ sử dụng: \_\_\_\_\_
5. Quý vị sẽ đến Trạm Milpitas và/hoặc Berryessa/Bắc San José bằng cách nào? Chọn tất cả các lựa chọn thích hợp.  
 Đi bộ đến tận nơi  
 Đi xe đạp  
 Đi xe buýt VTA Transit  
 Đi xe điện VTA Light Rail  
 Lái xe một mình  
 Đi xe theo nhóm  
 Nhờ người lái xe chở đến  
 Uber/Lyft/v.v...  
 Taxi  
 Cách khác: \_\_\_\_\_
6. Quý vị dự liệu sử dụng dịch vụ BART mới đến/về từ Trạm Milpitas và/hoặc Berryessa/Bắc San José thường xuyên như thế nào? Vui lòng đánh dấu một lựa chọn.  
 5 ngày một tuần hoặc hơn  
 1-4 ngày một tuần  
 1-3 ngày một tháng  
 Vài lần một năm  
 Sẽ không sử dụng

### CÁC LỰA CHỌN DỊCH VỤ ĐỀ NGHỊ CHO CÁC TRẠM MILPITAS VÀ BERRYESSA/BẮC SAN JOSÉ

Lưu ý: Đối với câu hỏi 7 và 8, sử dụng các bản đồ ở trang 2 để chọn lựa chọn phù hợp hơn với mục đích đi lại của quý vị.

7. Trong số các lựa chọn dịch vụ đề nghị, lựa chọn nào phù hợp hơn với mục đích đi lại của quý vị các ngày trong tuần trước 7 giờ tối? Vui lòng đánh dấu một lựa chọn.  

**Lựa Chọn 1:** Nối dài Tuyến Đường Daly City/San Francisco-Warm Springs (Xanh Lục) đến các Trạm Milpitas và Berryessa/Bắc San José

**Lựa Chọn 2:** Nối dài Tuyến Đường Richmond-Fremont (Cam) tới các Trạm Milpitas và Berryessa/Bắc San José.

**Lựa Chọn 3:** Hành khách lên xe lửa hai chiều chặn ngắn từ Trạm Berryessa/Bắc San José đến Trạm Warm Springs.

 Lựa chọn 1  Lựa chọn 2  Lựa chọn 3  Không có lựa chọn ưu tiên
8. Trong số các lựa chọn dịch vụ đề nghị, lựa chọn nào phù hợp hơn với mục đích đi lại của quý vị các buổi tối sau 7 giờ tối và Chủ Nhật? Vui lòng đánh dấu một lựa chọn.  

**Lựa Chọn A:** Nối dài Tuyến Đường Richmond-Fremont (Cam) tới Trạm Milpitas và Berryessa. [Lưu ý chỉ áp dụng cho ngày Thứ Bảy: Tuyến Đường Xanh Lục (Warm Springs-Daly City) và Tuyến Đường Đỏ (Richmond-Daly City) phục vụ từ 9am - 7pm]

**Lựa Chọn B:** Nối dài Tuyến Đường Daly City/San Francisco-Warm Springs (Xanh Lục) đến Trạm Berryessa. Điều chỉnh lại lộ trình Tuyến Đường Richmond-Fremont (Cam) từ Richmond đến Trạm Dublin/Pleasanton Station (Tím). [Lưu ý chỉ áp dụng cho ngày Thứ Bảy: Tuyến Đường Xanh Lục bổ sung (South Hayward-24<sup>th</sup> St./Mission) và Tuyến Đường Đỏ (Richmond-Daly City) phục vụ từ 9am - 7pm]

 Lựa Chọn A  Lựa Chọn B  Không có lựa chọn ưu tiên

(Không bắt buộc) Quý vị có nhận xét gì về bất kỳ lựa chọn nào trong các câu hỏi 7-8 không?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

### GIÁ BIỂU DỊCH VỤ BART ĐỀ NGHỊ CHO CÁC TRẠM MILPITAS VÀ BERRYESSA/BẮC SAN JOSÉ

9. BART dự liệu sẽ mở rộng cơ cấu giá biểu theo khoảng cách của cơ quan đối với các Trạm Milpitas và Berryessa/Bắc San José. Ví dụ, trong năm 2018, giá biểu cho chuyến đi một chiều đến Trạm Embarcadero từ Trạm Warm Springs/South Fremont sẽ là \$6.75, còn chỉ phí ước tính cho chuyến đi tới Trạm Embarcadero từ Trạm Milpitas là \$7.50 (nhiều hơn \$0.75), và từ Trạm Berryessa/Bắc San José, \$7.75 (nhiều hơn \$1.00). Quý vị có nhận xét tổng quát gì về giá biểu đề nghị của BART cho các Trạm Milpitas và Berryessa/Bắc San José không?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

### VUI LÒNG CHO CHÚNG TÔI BIẾT VỀ QUÝ VỊ

10. Cho biết giới tính của quý vị?  
 Nam  Nữ  Giới tính khác: \_\_\_\_\_
- LƯU Ý: Vui lòng trả lời CẢ HAI câu hỏi 12 và 13.
11. Quý vị có phải là người gốc sắc tộc nói tiếng Tây ban nha, La-tinh hay người gốc Tây ban nha không?  
 Không  Có
12. Quý vị thuộc sắc tộc hay chủng tộc nào? (Đánh dấu một hoặc nhiều lựa chọn. Các hạng mục dựa trên dữ liệu Điều Tra Dân Số Hoa Kỳ.)  
 Người da trắng  Người da đen/Người Mỹ gốc Phi châu  
 Người Á châu hoặc Đảo Thái bình dương  Thổ dân châu Mỹ da đỏ hoặc thổ dân Alaska  
 Khác (ghi rõ): \_\_\_\_\_
13. Quý vị có nói ngôn ngữ khác không phải là tiếng Anh ở nhà không?  
 Không  Có Ngôn ngữ: \_\_\_\_\_
14. Nếu trả lời "Có" cho câu hỏi 14, quý vị nói tiếng Anh thông thạo tới mức nào?  
 Rất thông thạo  Thông thạo  Không thông thạo  Hoàn toàn không thông thạo
15. Tổng lợi tức hàng năm trước khi trừ thuế của hộ gia đình quý vị là bao nhiêu?  
 Dưới \$25,000  \$50,000 - \$59,999  
 \$25,000 - \$34,999  \$60,000 - \$74,999  
 \$35,000 - \$39,999  \$75,000 - \$99,999  
 \$40,000 - \$49,999  \$100,000 trở lên
16. Có bao nhiêu người sinh sống trong hộ gia đình quý vị, kể cả bản thân quý vị?  
 1  2  3  4  5  6 hoặc hơn
17. Quý vị có máy điện thoại thông minh không (có thể truy cập Internet, tải xuống ứng dụng v.v...)?  
 Không  Có

Vui lòng nộp lại bản thăm dò ý kiến đã điền cho nhân viên BART. Để điền bản thăm dò ý kiến này trên mạng trực tuyến, vui lòng tới trang mạng [bart.gov/SVsurvey](http://bart.gov/SVsurvey)  
 Nếu quý vị cần dịch vụ trợ giúp về ngôn ngữ, xin vui lòng gọi số (510) 464-6752.

Các bản đồ dưới đây là dành cho câu hỏi 7 và 8.

**07: Các ngày trong tuần trước 7 giờ tối**

**Lựa Chọn Dịch Vụ 1**

Dịch vụ chạy thẳng các ngày trong tuần từ Berryessa/Bắc San José đến San Francisco

**08: Các buổi tối sau 7 giờ, thứ Bảy và Chủ nhật hàng tuần**

**Lựa Chọn Dịch Vụ A**

Dịch vụ Chạy Thẳng vào cuối tuần từ Berryessa/Bắc San José đến Oakland & Berkeley

**Lựa Chọn Dịch Vụ 2**

Dịch vụ chạy thẳng các ngày trong tuần từ Berryessa/Bắc San José đến Oakland & Berkeley

**Lựa Chọn Dịch Vụ B**

Dịch vụ chạy thẳng vào cuối tuần từ Berryessa/Bắc San José đến San Francisco và dịch vụ được điều chỉnh lại từ Dublin/Pleasanton đến Oakland & Berkeley.

**Lựa Chọn Dịch Vụ 3**

Hành khách lên xe lửa hai chiều chặng ngắn BART từ Berryessa/Bắc San José hoặc Milpitas, các ngày trong tuần trước 7 giờ tối. Tất cả các hành khách nối chuyến tại Warm Springs/Nam Fremont (nối chuyến 2 phút)

# Milpitas तथा Berryessa/North San José

## स्टेशनों को नई BART सेवा

**टिप्पणियां तथा फीडबैक** कृपया निम्नलिखित प्रश्नों का उत्तर दें। आपके उत्तर हमें इस बात का मूल्यांकन करने में सहायता करेंगे कि हम जिन समुदायों को सेवा प्रदान करते हैं, उन तक हम कितनी अच्छी तरह से पहुंच रहे हैं। BART आप द्वारा दी गई सूचना को महत्वपूर्ण मानता है। जानकारी को गोपनीय रखा जाएगा।

### BART का उपयोग

1. **क्या आपने कोई नया कठोर समय या नया तरीका BART स्टेशन से प्रवेश करने है (अर्थात्, अपना 'घूँ' प्रवेश)?**
2. **क्या नया नया BART स्टेशन पर प्रवेश के नए तरीके हैं (अर्थात्, अपना 'पैसल' प्रवेश)?**
3. **विशिष्ट और परभाव दिन के लिए समय BART का उपयोग करते हैं? सप्ताहो के बारीक बारी का विवरण बताएं।**  
 प्रातःकाल  दोपहर  संध्या  देर रात
4. **क्या आप Milpitas तथा/अथवा Berryessa/North San José स्टेशन का उपयोग करने की योजना बना रहे हैं? सप्ताहो के बारीक बारी का विवरण बताएं।**  
 हाँ, Milpitas स्टेशन  
 हाँ, Berryessa/North San José स्टेशन  
 इनमें से कोई नहीं, मैं इस स्टेशन का उपयोग करने की योजना बना रहा/रही हूँ।
5. **क्या Milpitas तथा/अथवा Berryessa/North San José स्टेशन तक ईंधन पहुंचें? सप्ताहो के बारीक बारी का विवरण बताएं।**  
 पूरा रास्ता पैदल चलने  
 साइकिल  
 VTA ट्रांजिट बस  
 VTA लाइट रेल  
 अकेले ड्राइव करने  
 कार साझा करने  
 कोई व्यक्ति आपको बहा तक पहुंचाएगा  
 Uber/Lyft/ऑरि  
 टैक्सी  
 अन्य: \_\_\_\_\_
6. **क्या Milpitas तथा/अथवा Berryessa/North San José स्टेशन का उपयोग BA RT सेवा का दिवसीय यात्रा का उपयोग करने की योजना बना रहे हैं? कृपया एक पर बारी का विवरण बताएं।**  
 प्रति सप्ताह 5 या अधिक दिन  
 सप्ताह में 1-4 दिन  
 एक महीने में 1-3 दिन  
 वर्ष में कुछ एक बार  
 उपयोग नहीं करेंगे

### MILPITAS तथा BERRYESSA/NORTH SAN JOSÉ स्टेशनों के लिए प्रस्तावित सेवा विकल्प

**टिप्पणी: प्रश्न 7 का 6 के लिए अपना जवाब देते हैं कि अधिक उपयुक्त विकल्प का चयन करने के लिए पूछें 7 पर तब तक विकल्पों का उपयोग करें**

7. **क्या विकल्पों पर ध्यान दें? कौन से प्रश्न, प्रस्तावित सेवा विकल्पों से वे की गयी विकल्प आपके जवाब देते हैं के लिए अधिक उपयुक्त है? कृपया एक पर बारी का विवरण बताएं।**

**विकल्प 1:** Daly City/San Francisco-Warm Springs (रीन) लाइन को Milpitas तथा Berryessa/North San José स्टेशनों तक बढ़ाना।

**विकल्प 2:** Richmond-Fremont (अरिन्ज) लाइन को Milpitas तथा Berryessa/North San José स्टेशनों तक बढ़ाना।

**विकल्प 3:** सार्वजनिक Berryessa/North San José स्टेशन से Warm Springs स्टेशन पर BART रेल शटल पर सवार हो।  
 विकल्प 1  विकल्प 2  विकल्प 3  कोई बरीयता नहीं
8. **क्या 7 कौन से यात्रा सेवा प्रदाताओं के रूप में जवाब देते हैं के लिए, प्रस्तावित सेवा विकल्प से वे की गयी विकल्प अधिक उपयुक्त है? कृपया एक पर बारी का विवरण बताएं।**

**विकल्प A:** Richmond-Fremont (अरिन्ज) लाइन को Milpitas तथा Berryessa स्टेशन तक बढ़ाना। (टिप्पणी - केवल अरिन्ज और रीन लाइन (Warm Springs-Daly City) तथा रैड लाइन (Richmond-Daly City) सेवा प्राप्त 8 से सार्व 7 तक)

**विकल्प B:** Daly City/San Francisco-Warm Springs (रीन) लाइन को Berryessa स्टेशन तक बढ़ाना। Richmond-Fremont (अरिन्ज) लाइन को Richmond से Dublin/Pleasanton स्टेशन (परत लाइन) तक री-रूट करना। (टिप्पणी - केवल अरिन्ज और अतिरिक्त रीन लाइन (South Hayward-24th St/Mission) तथा रैड लाइन (Richmond-Daly City) सेवा प्राप्त 9 से सार्व 7 तक)  
 विकल्प A  विकल्प B  कोई बरीयता नहीं

**(वैकल्पिक) क्या प्रश्न 8 से लिए गए किसी विकल्प के बारे में अपनी कोई टिप्पणी है?**

---

---

---

### MILPITAS तथा BERRYESSA/NORTH SAN JOSÉ स्टेशनों के लिए प्रस्तावित BART डिजाइन

9. **BA RT अपनी पूरी-आधारित डिजाइन संरचना को Milpitas तथा Berryessa/North San José स्टेशन से सतत रूप से वाहवाड़ी सड़क के लिए वर्ष 2018 में, Warm Springs/South Fremont स्टेशन से Embarcadero स्टेशन तक की एक तरह की गलती का डिजाइन \$6.75 डॉलर या, जो Milpitas स्टेशन से Embarcadero स्टेशन की गलती का डिजाइन अनुमानित रूप से \$7.50 डॉलर (\$0.75 अंकित), तथा Berryessa/North San José स्टेशन से \$7.75 डॉलर (\$1.00 अंकित)। क्या Milpitas तथा Berryessa/North San José स्टेशनों के लिए BA RT के प्रस्तावित डिजाइन के बारे में क्या आपकी कोई प्रतिक्रिया है?**

---

---

---

### कृपया अपने अपने जवाब बताएं

10. **अपना लिंग बताएं?**  
 पुरुष  महिला  कोई अन्य लिंग: \_\_\_\_\_
11. **क्या आप द्विलैंगिक, त्रिलैंगिक या त्रिलैंगिक पुरुष हैं?**  
 नहीं  हाँ
12. **आपकी पहली (या) बचपन भाषा (एनग्लिश) क्या है? (एनग्लिश के अलावा अन्य भाषा का विवरण बताएं। US जनगणना पर आधारित प्रश्न।)**  
 अंग्रेज/अमेरिकी अमेरिकी  
 एशियाई या पैसिफिक आइलैंडर  अमेरिकी इंडियन अथवा अलास्का के मूल निवासी  
 अन्य (बताएं): \_\_\_\_\_
13. **क्या आप घर पर अंग्रेजी के अलावा कोई अन्य भाषा बोलते हैं?**  
 नहीं  हाँ भाषा: \_\_\_\_\_
14. **क्या प्रश्न 14 का उत्तर 'हाँ' है, तो आप कितनी अच्छी तरह से अंग्रेजी बोलते हैं?**  
 बहुत अच्छे से  अच्छे से  अधिक अच्छे से नहीं  बिलकुल भी अच्छे से नहीं
15. **आपकी कर पूर्व वार्षिक कुल घरेलू आय कितनी है?**  
 \$25,000 से कम  \$50,000 - \$59,999  
 \$25,000 - \$34,999  \$60,000 - \$74,999  
 \$35,000 - \$39,999  \$75,000 - \$99,999  
 \$40,000 - \$49,999  \$100,000 तथा अधिक
16. **आपके बच्चे, आपके घर में कितने लोग रहते हैं?**  
 1  2  3  4  5  6 या अधिक
17. **क्या आप एक स्वयं-रोजगार करने वाले हैं (एक स्वयं-रोजगार करने वाले हैं, ऐसी प्रत्यक्ष प्रश्न करते हैं, नहीं)?**  
 नहीं  हाँ

---

कृपया पुरा किया हुआ सर्वेक्षण किसी BART प्रतिनिधि को सौंप दें। इस सर्वेक्षण को ऑनलाइन पूरा करने के लिए कृपया [bart.gov/SVsurvey](http://bart.gov/SVsurvey) पर जाएं। यदि आपको भाषा संबंधी सहायक सेवाओं की जरूरत है तो कृपया (510) 464-6752 पर फोन करें।

नीचे दिखाया गया मानचित्र प्रश्न 7 एवं 8 से सम्बन्धित है।

**Q7: कार्यालयों को सार्व 7 बजे से पहले**

**सेवा विकल्प 1**

Berryessa/Worth San José से San Francisco को सीधे कार्य दिवस (डापरकेट वीकेंड) सेवा

**Q8: सार्व 7 बजे तक के बाद, बुनियात एअरविचार**

**सेवा विकल्प A**

Berryessa/Worth San José से Oakland & Berkeley को सीधे सप्ताहांत (डापरकेट वीकेंड)

**सेवा विकल्प 2**

Berryessa/Worth San José से Oakland & Berkeley को सीधे कार्य दिवस (डापरकेट वीकेंड) सेवा

**सेवा विकल्प B**

Berryessa/Worth San José से San Francisco तक सीधे सप्ताहांत (डापरकेट वीकेंड) सेवा और Dublin/Pleasanton से Oakland तथा Berkeley तक मार्ग बंदी गई सेवा।

**सेवा विकल्प 3**

प्रांतीय BART ट्रेन श्रृंखला पर Berryessa/Worth San José या Millbrae से कार्यालयों पर सार्व 7 बजे से पहले सवार होते हैं। सभी प्रांतीय Warm Springs/South Fremont पर हासफर होते हैं (2 मिनट ट्रांसफर)।

## Appendix PP- B: Questions 7-8, Proposed Service Options Comments

Response ID	Outreach Event Date	Language	Comments
1057	Online	English	There's no demand for extra trains other than the usual 20 min service off peak Saturday and Sunday and late nights
1654	Online	English	I would suggest if BART only extends one line, to also create a timed transfer for passengers for the other line (Richmond vs Daly City).
2094	Online	English	-Ideally BART should extend both lines to Milipitas and Berryessa. With only one line, passengers would have to wait up 15mins, and then if it's not the correct line, have to wait an additional 5-10 for a transfer somewhere.
788	Online	English	-You ask "8. Which of the proposed service options is more suitable for your travel purposes evenings after 7 pm and Sunday?", but the diagrams and descriptions of service talk about Saturday service as well. This is confusing.
	Online		(SFO to Fremont sometimes requires transferring twice)
335	Online	English	1. BART is already too packed with Warm Springs station and making it more inconvenient to commuters, and by adding more stations it will be even worse unless BART has plans to increase number of services between new station(s) and San Francisco
1701	Online	English	1. If the shuttle train option is used for weekday service before 7pm, would it be at all possible to extend both the green and orange lines down to Warm Springs? Definitely having to transfer at Warm Springs, and then potentially having to immediately transfer again at the very next stop in Fremont, would really suck.
698	Online	English	1. Remove seats from train to increase capacity.

	Online		2. I feel like I'm not understanding why all the rerouting in option 2 for evening/Sunday service is necessary. Naturally direct service to SF from San Jose would be great, but it seems like that would also be a lot of changes for people to cope with systemwide. The first plan has the benefit of simplicity.
	Online		2. Recently BART has become home to many Homeless people, hope BART can take action on this and make it convenient for regular commuters
	Online		2. Turn off heaters in packed trains.
	Online		3. Ban bicycles on trains during commute time
	Online		4. Fix arrival signs at Montgomery station
889	Online	English	A "BART shuttle train" between San Jose and Warm Springs sounds absolutely absurd. Integrate those two new stations into the system as a whole rather than using a stub train.
450	Online	English	A lot of people travel from San Francisco/Peninsula to the South Bay. I live in San Jose and would much rather take BART from Berryessa to downtown SF instead of Caltrain (too expensive and slow). Having a direct line instead of having to transfer (regardless of time of day or weekend) would be exceptional.
73	Online	English	A new service from Dublin/Pleasanton to Richmond would be a fantastic addition to the BART system. If possible, it would be amazing to have a cross-platform transfer at 19th Street from the SFO/Millbrae train to the Richmond train – going downstairs and back up at MacArthur is a real struggle for anyone with a bike, stroller, or wheelchair.
1932	Online	English	A shuttle between Warm Springs and Milpitas/Berryessa is not preferred. It makes the new extension seem like a strange appendage to the BART system instead of fully integrated with BART.
2025	Online	English	A shuttle is a terrible idea unless somehow magically both the Richmond and SF/Daly City-bound trains would both be waiting at Warm Springs for every single train that arrives from Santa Clara County.

1865	Online	English	A shuttle is a truly awful solution. Hopefully only included to make the others seem more reasonable.
	Online		A shuttle train is almost certainly the worst possible service plan, excet in the case of TEMPORARY planning indecision and a different service schedule being selected later.
1189	Online	English	A shuttle would be awful. Please extend either the Richmond or SF line, don't make us use a shuttle!
678	Online	English	A shuttle, are you kidding me?
826	Online	English	Add two lines serving San Jose extension - one from Richmond and one from Daly City/SF
599	Online	English	Adding a new route just for nights/weekends will be far to confusing for non regular BART riders
1454	Online	English	after 7pm richmond to berryessa works richmond to dublin works and before 7pm berryessa to colma have that be the last stop not daly city and make orange tickets available to college students and make possible to recycle old plastic dvd covers like the pper schedules this is more needed besides waste mangement there is a problem with these and they can be better purpose to the old tires you made new bart equipment other things the old dvd covers plastic need to be recycled melted to not end up in landfils so look into a recycle place and we will be talking about that again in the future your board needs to make riding bart better and every time you raise the price raise it only 2 to 5 cents not more and make all of these moves better they matter recycle he old dvd plastic covers to make new bart equipment fare gates other things that we can melt the old covers down to make new at bart that is a great idea
1081	Online	English	after hours shuttles are a terrible idea.

162	Online	English	all of those ideas are great bart when berryessa starts have the green be berryessa to colma (the last station) thats why have three tracks not daly city and make richmond to dublin pleasanton as shown on your map also with millbrae station have a richmon train and pittsburg that would stop at the airport you setup now does not work efficient this is better and have all berryessa trains stop at colma being the last stop your map and ideas are good bart so keep work going improving and do not increase the are by more than 4 or 5 cents this makes riding better
2058	Online	English	Alread too many people, not enough trains. If you continue to cram people on an old , dilapidated system, the whole thing will collapse!
274	Online	English	already no seats on train and now you will make it more congested. Change the seating or have more trains so people can sit youare packing people in like sardines with every new station. Have adequate parking at the station so people can drive to the lie toget a seat
	Online		Also consider 24th St - North Berkeley, nights and weekends.
	Online		Also I have no idea wha purposes a train shuttle would serve. That seems like a terrible idea.
	Online		Also, off topic - Can we have a Bayfair to Pittsburg Bay Point line so that yellowline trains can skip Downtown Oakland stops and have this line pick up all the yellow line passengers boarding from Downtown Oakland. When this line is in place, the yellow line can skip stops so that after West Oakland, the next station is Rockridge.
	Online		Also, there are some restaurants in the Milpitas area that my family enjoys. Currently we always drive to them. We will try taking BART+bikes together to Milpitasif the schedule from MacArthur is efficient. We are a one car family and we like using BART when it's convenient, e.g. to downtown Oakland, Berkeley, and SF.
	Online		AND
1896	Online	English	Any Intra-East Bay Trips should focus on at least 8 cars at all times.

808	Online	English	Any option that doesn't include a direct Richmond-Berryessa train all day every day would be confusing to riders (since the system is designed for direct timed transfers to/from the Richmond-Fremont line), and add unnecessary delays for changing trains.
462	Online	English	Any way you guys can charge a bit more for express trains from transfer stations directly to SJ and/or SF from Dublin area.
321	Online	English	Are shuttle services between just a couple of stations efficient? Does that take trains away from the main routes to serve the shuttle routes? The Richmond (red) line is perpetually overcrowded as it is, with 5 or 6 car trains the norm. Which line will be cannibalized to provide trains for the shuttle route? There aren't enough trains to serve all lines as it is.
45	Online	English	Are there any proposed options for Dublin/Pleasanton?
234	Online	English	Are there possibilities of adding more bart cars to the Richmond line ?
817	Online	English	Are these options in place because BART does not have enough trains to run both lines to Berryessa? I hope this is not permanent because then the new stations will go underused.
2010	Online	English	Armed Guards needed on Bart so riders don't get robbed by kids
	Online		Background:
1452	Online	English	Bart access to san jose is critical to reducing environmental effects due to individual transportation in the Bay Area.
370	Online	English	BART can't operate existing system efficiently now. Extending the system would make it a "traffic jam on rails." Get more train cars on all lines, fix existing system BEFORE even thinking of further extensions.
580	Online	English	Bart doesn't go past Richmond and yet you plan on extending service to San Jose. The cost of living in San Jose is high, therefore people are well off, therefore they don't take Bart. Cost of living in Vallejo is low, therefore more people need public transportation.
2041	Online	English	BART doesn't have the train capacity to run to San Jose. Where are the new cars? Get those before extending service anywhere.

1267	Online	English	Bart is out touch with costumers.
783	Online	English	BART is so crowded. I can hardly stand or breathe. If you extend the route, kindly please add more cars and more trains. Otherwise, do not extend it.
527	Online	English	BART is so dirty and gross. anyway to make it clean? Its always dirty. and smells like crap.
1702	Online	English	bart line should extend more south into san jose
562	Online	English	BART needs to either run another tunnel under the bay or have the train go across either the San Mateo or Dumbarton Bridge. Do you really expect someone to take a train from San Jose when it's going to take 90+ minutes to get to San Francisco? And if theyre going to San Jose, the chance that the one station is going to be anywhere near where they need to go is slim. Furthermore, it's time BART invests in adding extra tracks for express trains, like real transit systems.
1738	Online	English	BART needs to run trains more often and only use 10 car trains if it's going to extend its tracks to Milpitas and San José. Overcrowding is already a serious issue and it will only get worse as more passengers get on at the new stations.
1848	Online	English	BART needs to take care of the CURRENT stations before expanding to Milpitas or North San Jose. Get your house in order!
765	Online	English	BART should collaborate with Major silicon companies, e.g. Samsung, Oracle, Sandisk, etc for proposed shuttle service from the Warm Springs/Milpitas Bart stations to employer location.
1544	Online	English	Bart should go full circle in both directions to alleviate crowding.
460	Online	English	BART should increase the number of cars in the trains to accommodate the increase in the commuters. All commuters boarding after Warm Springs will not get seats if BART is extended.
251	Online	English	Bart sucks

2060	Online	English	Besides Balboa Park, my other main destination station is Downtown Berkeley. I do not visit it often currently because it is highly inconvenient to my current path of Caltrain -& BART. Extending the orange line would be great.
440	Online	English	BOTH of these lines are already insanely crowded during commute hours and unless something is done about that and the safety issues for current service, this is a pointless endeavor that only services to waste more money.
2093	Online	English	Build high density, mixed use developments near the new stations!
1886	Online	English	Bus bridge to the new stations is a terrible idea.
554	Online	English	Bus shuttles add a lot of travel time and defeat the purpose of this extension. Please avoid if possible.
496	Online	English	Bus shuttles are dumb. Extend the BART rails. Reducing connections is important and improving accessibility to city centers is critical. I wish there was an underground BART station in downtown San Jose like there is in Berkeley.
24	Online	English	Can we have some combination of both Service Options A and B? Also, can every other Richmond Fremont train on the orange line be a direct Richmond to Dublin Pleasanton?
263	Online	English	Can you arrive on time, so people don't miss bus connections like happens at the Fremont station regularly?
1687	Online	English	Certainly waste of money on irvington bart station.
983	Online	English	Changing the configuration depending on time like that is confusing - especially as it's done at SFO / Millbrae/ San Bruno. Travel instructions from SFO to Stanford depend on the time of day!?
3009	28-Sep	English	Clean the stations that you already have
1120	Online	English	Close the loop from Milbrey to San Jose as well
2045	Online	English	Connecting directly to SF stations makes the most sense during commute hours given how many jobs are in that area.

	Online		Cutting off service to Milbrae isn't intentional, right?
1812	Online	English	Daly City-Warm Springs/South Fremont service after 7pm would greatly be appreciated as transfers add about 10-20 mins to total trip time. It would also lower the barrier for BART passengers coming from Milpitas and Berryessa/North San Jose stations.
3040	7-Oct	English	Daly City/SF direct service minimizes overall trip time.
	Online		Day Time: My Choice: OPTION 1
319	Online	English	Definitely would pass on taking the train shuttle thing
187	Online	English	Destination may be either Embarcadero or Downtown Berkeley. so preference could change between DalyCity or Richmond
690	Online	English	direct connection to SF is a must!
1943	Online	English	Direct connectivity to SFO airport is very important.
1995	Online	English	Direct MacArthur&lt;-&gt;Milpitas service would be ideal for me. I would also be happy with a timed transfer to & from a shuttle train. Since I could only select one option I chose direct MacArthur&lt;-&gt;Milpitas service.
932	Online	English	Direct service into SF from the South Bay both during and after hours would open up a world of opportunities for not only commuters, but for those looking to enjoy what SF and San Jose have to offer in terms of restaurants, bars, and entertainment. Please extend the Daly City line and keep it running late.
871	Online	English	Direct trains from either, if not both Richmond AND San Francisco
1605	Online	English	Do not create another bart shuttle under any circumstances. No one wants to go from a train to a shuttle to an uber. Please clean the f***ing trains.

1515	Online	English	do not do a shuttle service. It completely makes one not use it. The concept of a train-bus or a bus-train transfer is horrible. I've used them when a station is out of service. Simply horrid. If you want more people to use the bart, don't do a bus shuttl.
1616	Online	English	Do not even think of multiple transfers.
1284	Online	English	DO NOT JUST GIVE US A SHUTTLE SERVICE TO FREMONT. Either extend the green line or the orange line but shuttle service is utterly ridiculous.
3008	28-Sep	English	Do them both
256	Online	English	Don't let the changed routes increase time between trains during weekday commute hours.
1282	Online	English	Don't make service worse for Pleasanton residents that work in SF.
1139	Online	English	Due to traffic issues in the Bay Area, any plan that involves shuttles not on the BART rail lines is a VERY, VERY BAD PLAN, and should be avoided at all costs.
	Online		Evening/Weekends: y Choice: OPTION 1
3000	28-Sep	Spanish	Excellent - We needed this service many years ago. I am very happy with this new transportation
478	Online	English	Extend BART as much as possible!
388	Online	English	Extend BART down the penninsula. Caltrain is trash.
842	Online	English	Extend both green and orange line further down to San Jose, especially during rush hour. This will provide riders flexibility to switch train lines when needed due to major delays and for riders to reach their destination on time.
1692	Online	English	Extend both the green and orange lines to North San Jose!
1306	Online	English	Extend existing BART lines, rather than having train shuttles. Fewer transfers makes transit easier.

1610	Online	English	Extend the green line in option 1 to SFO international airport.
822	Online	English	Extend train to San Jose Diridon
1121	Online	English	Extending BART in anyway would be a win for commuters in the Bay Area and would help keep cars off the road. I look forward to see what is to come with BART. There are many others that feel this way, thought they many not take the survey.
56	Online	English	Extending the Richmond-Fremont/Warm Springs line makes the most sense, as this will continue to offer service along the entire East Bay corridor. The shuttle idea is terrible and should not happen.
1945	Online	English	Extent Bart to San Jose downtown.
1104	Online	English	Fewer differences between weekday vs weekend service will minimize confusion and make more accessible for tourists or casual users.
71	Online	English	Fewer Richmond trains, more SF/Daly City trains please!
512	Online	English	FIX THE CRIME GOD D*** IT IM WORRYING LIKE A MOFO
686	Online	English	For question 8, while operationally I do think it is a better concept because I think you'll get more people from Alameda and Contra Costa Counties going that way on BART, as opposed to from the peninsula, I think justing adding a purple line and completey changing the service would be too confusing. As good and expansive as BART is, it's a simple system. Ride it enough and you really don't need to look at the map again. Maybe visualizing the purple line on the standard map, would alleviate these concerns On that note, referring the lines by the colors instead of just the terminals could certainly help this process as well.
814	Online	English	For the love of all that is good don't run a shuttle.
270	Online	English	For weekday commute, please increase the frequency of Daily City trains to every 5 mins.

386	Online	English	Frequency/hours of service more important than direct service if timed transfers continue.
	Online		Furthermore, no bart from SF to San jose?
276	Online	English	Get the Bart to Livermore in this lifetime and no repair center please.
1742	Online	English	Great routes
1899	Online	English	Have a nonstop solution to OAK and SFO airports as well as to Downtown San Francisco and another nonstop service to UC Berkley.
	Online		Have one line (orange) connect all the way to the last station on all days, agreed that Green line goes to san francisco and has more commuters but people from berryessa are already connected VTA light rail through which they can connect to Caltrain and go to San francisco.
986	Online	English	Having a shuttle is a horrendous idea. Takes away one of the primary benefits of BART, namely not being affected by vehicular traffic
1249	Online	English	Having a shuttle train between Berryessa/Milpitas stations and Warm Springs station is inconvenient and time consuming for commuters.
	Online		Honestly, adding another train or two may also help. Warm Springs trains' seats already fill up by Union City (3rd stop in) which means there must be a demand. Maybe 5-6 trains during peak traffic ten back to 3-4 the rest of the time?
271	Online	English	How do you plan to address the current traffic and congestion? Bart is already full that there is hardly any place to stand. How will you support more people boarding bart.
	Online		How many people commute from SJ to Walnut Creek?
203	Online	English	However the BART line is extended, please extend the number of cars on each train. The current line between Hayward and 12th Street is very congested.
589	Online	English	hurry up and build it already

	Online		I also wonder, "why can't you extend BOTH the Fremont-Richmond and Warm Springs/Daily City lines to San Jose?" That would minimize the need for transfers.
920	Online	English	I am honestly more interested in how the Berryessa/North San José Station connects to other South Bay travel methods (such as the VTA). A straight extension of any line through Fremont to Berryessa/North San José Station (so, Option 1 or 2, but NOT 3) is ideal.
768	Online	English	I am in favor of option 8b separately from any extension.
1717	Online	English	I am more likely to go to Milpitas / San Jose on Fridays and weekends.
341	Online	English	i am so happy that it going to be extending
1845	Online	English	I anticipate using BART most frequently to/from San Francisco, as the BART stations are conveniently located in the SF downtown area & attractions to visit on the weekends. I am especially interested in (very) late Fri/Sat service after a going to bars/clubs/concerts/games from SF to SJ, because BART is a great option for a safe ride home without worrying about drinking and driving while having fun.
413	Online	English	I can't believe that you envision so little ridership that it's imaginable to serve the new stations only by a shuttle to Warm Springs. The extra complexity would probably eat any tiny savings you might achieve by running it less often.
1825	Online	English	I chose the options for Richmond to Berryessa for my own needs, but won't use it very often at all. Where is the most patronage predicted to travel to/from Berryessa/Milpitas? To San Francisco or to the Concord area?
	Online		I currently drive from San Jose all the way to Fremont, rather than Warm Springs, because BART does not have a direct route from Warm Springs to downtown Oakland, and I would have to get off at Fremont and wait anyway. In addition, having to take two trains from home to work and back home again if I go to Warm Springs, increases the chances of delays should the Warm Springs-SF train be delayed, which often happens in the afternoon coming home.

3018	28-Sep	English	I do not have a single destination station. I exit BART at many different stations
1691	Online	English	I do not want to transfer to/from San Francisco??Milpitas or Berryessa at any time of day (i.e., green line?)
180	Online	English	I don't know why the yellow line is not an option. That would be my preference
2065	Online	English	I don't like the shuttle option from Warm Springs to Berryessa.
1931	Online	English	I don't understand why you wouldn't just extend the Fremont line to Beryessa/North san Jose as it currently runs. No need to make this overly complicated.
1634	Online	English	I don't currently need to go to San Jose, but if BART went all the way there, it would open up a ton of job opportunities. And could be an everyday Monday to Friday thing.
324	Online	English	I failed to understand the purpose of the Shuttle option on question 7.
80	Online	English	I favor the route reconfiguration because it would make it more convenient to get home from SF in the evenings and on weekends.
288	Online	English	I feel as though San Jose should have direct services to San Francisco to have less traffic on the highways
1751	Online	English	I get off in fruitvale is does not matter to me
373	Online	English	I have some suggestions for the Fremont to Daly city train. Please make it all 10 cars train and increase the frequency. Do you know how crowded if it's a day only with 9 cars? Even people from Fremont couldn't get a seat, not mentioning how little space everyone got after bay fair? I am not surprised why there are so many medical emergencies with such a crowded bad air subway. Also, as you extended the stations, please, please increase the frequency of the trains. You're getting more passengers on each sttion but with the same numbers of train? This is really my bottom line for the status now, and I've talked to many people having the same issue. Please consider it.
1546	Online	English	I just bought a home in Milpitas in front of BART. Please don't make me transfer to go to the city.

1675	Online	English	I know building the train would be more expensive, but I think it's a better ideal than the shuttle, which seems inefficient for commuters.
1754	Online	English	I like the ideal of extending the hours.
614	Online	English	I live in San Jose, near Berryessa, and work in downtown Oakland. I am very unhappy that the Richmond line does not go all the way to Warm Springs. I hope it will go to Berryessa.
	Online		I live near MacArthur BART, commute to SF via BART 3x-4x per week, and commute to north Sunnyvale via Amtrak+bike 1x-2x per week.
1887	Online	English	I may use the Milpitas BART Station on rare occasions.
1245	Online	English	I need to get to San Francisco quickly. Extending the line that runs through San Francisco is by far the most convenient
1923	Online	English	I remember reading about BART when it was still an idea in my father's IEEE (engineering - not train) magazine. Bart was to have **fully looped the bay.**
1550	Online	English	I swear, a train shuttle from San Jose to Fremont is the worst idea of bad ideas.
1710	Online	English	I think a direct train from Berryessa to San Francisco is optimal as it can capture everyone trying to commute from South Bay to t
3016	28-Sep	English	I think BART is great!
511	Online	English	I think creating a whole new "purple line" for one set of hours isn't the best idea.
392	Online	English	I think having the green line run all the way to Milpitas/Berryessa would be better as more people will want to go to SF directly and vice versa.
3032	7-Oct	English	I think it's a good idea to go with option 1 because you get more business from there
2056	Online	English	I think making BART to San Jose a viable option for San Francisco would be a really great idea.
2053	Online	English	I think most people would prefer direct line to SF at all times. I personally don't need it though, since I am also close to Caltrain.

571	Online	English	I think that extending the orange line is best because mostly east bay residents will use this extension. SF residents have Caltrain to get to Silicon Valley/San Jose.
382	Online	English	I think that it should be the same for the entire day on the weekdays, but might change on the weekends if that is what people want.
	Online		I think that would be really neat.
1978	Online	English	I think the "Shuttle" option between Milpitas & Warm Springs / South Fremont is a very bad idea.
1851	Online	English	I think the best option would just adding the stops to richmond line. The train shuttle doesn't make them feel like actual bart stations, and what would the sunday service be for the san jose & milpitas line
830	Online	English	I think the Daly City route should be running the same schedule as the Pittsburg/ Bay point line and the Dublin/Pleasanton line. Its providing service to are commuters, after a long day and the travel time adds up. I believe this would be accommodating an convenient to the riders.
396	Online	English	I think the new Milpitas/SJ stations will need to go directly from San Francisco during commute hours otherwise it's not a very useful extension.
3047	7-Oct	English	I think y chinese neighbors would go to milpitas and san jose but I notice they aren't included in the survey. Also please consider options for the elderly
1908	Online	English	I travel to Oakland from San Jose so it makes sense to have a line that goes the whole way (Richmond line). However, if you decide to make people transfer from say a green line to the orange, then you have to guarantee that the transfer will be happen wihin minutes and will happen appropriately. In other words, when I transfer at say Warm Springs, I want to wait maybe at most 2 to 5 mins. I don't want to have to wait 15 mins because the train left 1 minute early. That 15 mins makes a difference and i some cases I may just drive. This is what happens now at transfer in Fremont when getting BART from Warm Springs. Sometimes, I have to wait 15 mins. I fl miss the train at Warm springs and the the train is 15 mins behind at Fremont, I now have been deayed 30 mins. I would rather drive to Oakland.

732	Online	English	I use both Castro valley and Fremont stations, with home base at Powell St.
482	Online	English	I use Caltrain to travel to San Francisco, so it makes sense for me to extend The BART line that reaches Berkeley. This way I can get to both areas without switching between services partway through.
	Online		I used to enjoy riding bart to work every day. Now, I plan on changing jobs and not workin in SF anymore, just so I never have to commute on Bart again!
1542	Online	English	I want to be able to reach SAP using public transportation from Fremont.
636	Online	English	I want to go to SF and I don't want to transfer
36	Online	English	I will want to ride to the Flea Market on weekends.
892	Online	English	I wish BART would extend from Milbrae to Palo Alto.
1814	Online	English	I wish this was in place prior to 2002.
267	Online	English	I work in downtown Oakland and love commuting via BART from Fremont. In my attempts to recruit people to come work for us, I have had 5 people decline specifically because they can't get there on public transportation from the south bay. Run BART all the ay to San Jose, and you'll unlock a huge degree of cross-bay commuting options.
1971	Online	English	I would be so excited to have BART going from San Jose to San Francisco. Also I could board from san jose and visit family in pleasant hill area. Would make my life much better.
2050	Online	English	I would choose the best option based on overall use of each line that would increase number of riders per train and reduce the number of trains with the fewest people.
347	Online	English	I would hope that there would be other considerations for other potential line changes for the weekend.
384	Online	English	I would like to see an option where the SFO/Millbrae extension was returned to the Dublin/Pleasanton line instead of the Pittsburgh/Bay Point line.

309	Online	English	I would like to see more seating on BART trains for the elderly and the disabled. Too often I pay full fare and have to stand from Lake Merritt to Fremont. Not fair. We need more trains and more seating.
777	Online	English	I would love the Richmond line to go to Milpitas. I now ride to Warm Springs, which involves a 9 minute transfer between Richmond-Fremont and SF-Warm Springs each way each weekday. An hour and a half per week of extra waiting. Ouch.
1626	Online	English	I would prefer if there is service from San Jose to either Dublin/Pleasanton directly or have it go to the easier destination of Pittsburg/Bay Point while keeping the existing lines intact.
1269	Online	English	I would prefer that both the Richmond and Daly City lines be extended down to the new stations during regular weekday service.
1772	Online	English	I would really like to see the Richmond/Warm Springs line be the continuous service, regardless of time, to the Milpitas and Berryessa stations.
1797	Online	English	I would strongly oppose the train shuttle option. It wouldn't serve anyone particularly well. Also the graphics in question 7 are confusing. Does Bart plan to extend full service to the Warm Springs station by the time Bart to Silicon Valley opens?
99	Online	English	I would think truncating the orange line either at South Hayward or even somewhere north of there, if possible (e.g., Coliseum) would be preferable to redirecting the blue line
433	Online	English	I'd be in favor of more frequent trains that handle shorter trips.
1763	Online	English	I'd love it if it reached all the way to downtown San Jose or the San Jose airport.
903	Online	English	I'd prefer a direct route instead of a bus bridge and full train routes ending at normal terminals (Daly City)
1937	Online	English	I'd really like the extension that goes directly to San Francisco, because I don't like having to transfer from the yellow line.
	Online		I'm a little bit worried about the signage for this - if you can make it work, it certainly seems feasible.

134	Online	English	I'm against all extensions to the South Bay which has not been paying taxes into Bart system since the beginning like the rest of the region. They have no right to have tracks built there.
147	Online	English	I'm just thrilled to have a BART extension that goes all the way to San Jose.
1008	Online	English	If considering the "shuttle" option for connections to Berryessa, at least extend the shuttle to the Fremont station so that riders can connect to the Richmod line with one transfer instead of two.
	Online		If cost is an issue, it would make more sense to only have one line south of Oakland.
867	Online	English	If the Fremont/Warm Spring line went all the way to San Jose, then I will definitely switch to Transbay bus as trains going to SF would be too crowded when I board from Fremont. The trip is unpleasant already and I have to wait 10-15 mins just to get onthe train. Now I can generally get a seat at Fremont, if trains started from SJ, then I will have to stand for 50 mins.
226	Online	English	If the lines are going to be extended there needs to be additional trains, there already aren't enough.
1940	Online	English	If the trains do not go directly to SF and Oakland then BART and VTA will see low ridership. It is what we have been essentially promised and led to believe. We have put up with street closures and construction and soon heavier traffic for us near the sttions. Do not betray us.
38	Online	English	If using the purple re-route option for weekend/evening trips, take care to emphasize that this route wouldn't operate during weekdays to minimize confusion.
377	Online	English	if you are extending to Milpitas or San Jose stations
	Online		If you do end up offering a shuttle like service option 3, make it depart from Fremont instead of Warm Springs so that the new line has its own service, and there is only one transfer from the East Bay. Thanks
1229	Online	English	If you make me transfer the whole thing is stupid and not worth doing here probably.

901	Online	English	if you want to provide only shuttle service for extension, it needs to go all the way to fremont, or the richmond fremont train needs to go all the way to warm springs
	Online		Improve the infrastructure before expanding. Small drop of water and bart is delaed. Everyday there are delays
247	Online	English	In any case, my preference is for all hours (while BART is operating) service between Richmond and Warm Springs/South Fremont.
1597	Online	English	In order for all of these service plans to work as well as reduce confusion, BART should adapt what other cities have done: COLORS for the line for announcements. It is already a mouthful for the destination signs and the train operators. The system is rowing but BART has kept with the old naming convention. Adapt what WMATA and NYC MTA has done and call the Yellow line for the Pittsburg-Millbrae train. The trains and signs should use a color schema if any of these service plans are adopted. It will e less confusing for customers on the platform as well as the apps on our phones.
966	Online	English	Is this fare methodology different that what is used for other stations? If so, why?
10	Online	English	Isn't BART going to gain sufficient train cars for 2-line service to San Jose? That would be much preferable to any of the listed options.
297	Online	English	It is great that bart is extending the service to the new cities. But the service level is still degrading. During commute hours people have hardly any space to even stand. Are we thinking to increase the number of trains or increase the number of paralle lines or other options which can reduce the pressure on bart.
1127	Online	English	It makes absolutely no sense to have a train shuttle from North San Jose to South Fremont. BART will lose out on revenue on the new line from people finding it such a hassle to transfer (and losing seats) that they find it just more convenient to drive.
1295	Online	English	It may make more sense to give us direct service to San Francisco. Those who are from here would normally go to SF. Those who are going to richmond (which i think will only be a few folks) can transfer.
205	Online	English	It should be one line daily through to Berryessa.

400	Online	English	It sucks balls that we only get one line in the south bay with 10-15 minute headways. I would love to see both the orange and green line extended to reduce the waiting time needed for a train, even if that meant shorter or more crowded trains. The rail bridge solution is an awful idea- it's already difficult to get to South Fremont consistently with the single-tracking from maintenance work and weekend station closures. Adding another transfer and shuttle train really robs me of the promise of BART when I ought my new house next to the Milpitas station
1622	Online	English	it will depend how it connects with the Santa Cruz Hwy 17 bus
529	Online	English	It will difficult to get seat during peak commute hours from Fremont after the line is extended to San Jose. It is preferable if there are services in between which starts from warm springs or Fremont station.
546	Online	English	it would be amazing to add a whole other train that goes from pitts/bay point all the way down to milpitas. not terribly frequently, but every now and then. the transfers are not fun.
1577	Online	English	It would be great if you could figure out a way to all the way down to Diridon that didn't require an additional hour via bus/ vta after you got off BART.
432	Online	English	It would be nice if BART made a loop around the bay.
569	Online	English	It would be nice if enough new cars were on hand to extend both green and orange lines.
832	Online	English	It would still be preferable for all lines to have trains that go to the end of the line. It is such a pain to have to transfer trains (because trains are usually late and transfers are not timed) that I usually end up driving instead of taking bart if I cannot get to my destination without transferring.
448	Online	English	It's a good idea to extend BART to new locations, but first BART needs to improve existing service. Vast majority of people are not happy with the service performance, it's safety and quality. Both citizens and government spending so much money for poorlyperforming service. Please take all measures to make BART a best commute option in the nation.

1606	Online	English	It's great you are extending down to Santa Clara.
	Online		It's really annoying anytime I need to transfer twice to get somewhere.
2100	Online	English	It's a great idea
189	Online	English	Just do it! We need BART to San Jose so badly! I would take BART to SF and to my parents home in El Cerrito if I could. I would gladly pay taxes to help support this effort.
1218	Online	English	Just extend one of the lines, don't do this weird shuttle / short line stuff.
3033	7-Oct	English	Just extend to San Jose
44	Online	English	Just freaking ring the Bay so I can use BART 10X more than I do now!
910	Online	English	Keep bicycles off of the escalators. Authorize the BART police to issue very expensive tickets to transgressors.
252	Online	English	Keep the map simple. Do not mix the colors up. We are used to seeing certain colors. Do not change them by introducing purple now.
	Online		Lastly, more trains on the track. Bart is acked and filled over capacity, to a point that I believe it is a safety concern. More frequent trains would make people less prone to stuffing each other into the trains. and please stop using trains with only one seat on one side, this allows more people to stand, however elderly people are being forced to stand up for long commutes.
1721	Online	English	Least amount of time in Oakland the better. Very dangerous!!!
1837	Online	English	Less variation is better, need to keep a line from north oakland to deep east at all times.
235	Online	English	Limited service times like the SFO/Milbrae. Extend service hours for SFO to South Bay.
2000	Online	English	Lots of folks commute to the city for work. So increase the frequency of the daily city line if possible while extending it till Berryessa.
785	Online	English	Maintain less than 15 minute service throughout the East Bay (since there's plenty of service in and out of the SF peninsula).

586	Online	English	MAKE A BART TO SAN JOSE PLZ. DO IT.
2055	Online	English	Make it easy and efficient for the user. In general, please, please don't create extra transfer point. This creates inefficiencies in the system and inconveniences your riders/users.
2007	Online	English	make it easy!!
876	Online	English	Make the purple line happen.
875	Online	English	Mid Day service between San Jose and San Francisco are very important me. During my commutes to my job in Downtown San Francisco.
275	Online	English	Monthly parking fees should be reduced in Fremont now that parking demand has decreased.
355	Online	English	More frequent trains between SF and Fremont would be nice
1734	Online	English	more often trains for Fremont Line, all trains to be 10 cars, we now going to deal with more stations and we add the OAK airport station , very busy line at all times but even more at commute hours
525	Online	English	More stations! More Lines!
241	Online	English	More trains must be added if you guys are going to extend this out even more. It is crowded enough extending it to warm springs. I personally will no longer use your service if I do not get a seat.
	Online		MORE!
1223	Online	English	Most passengers traveling from the south bay are going to the East bay or across into San Francisco. Few using this service will be making it up to richmond. Option 2 isnt logical and option 3 is a major pain for anyone looking to actually use bart in the south bay.
2017	Online	English	Most times airport, Downtown SF and Downtown Oakland are the locations any BART user wants. Would be good to add more cars to provide more seating options for people who travel from the end of the line.

	Online		MY ABILITY TO VISIT MY FAMILY....THANK YOU IT'S A GREAT THING.....GO BART.....
1880	Online	English	My BART trips from Berryessa will usually be to Berkeley, not SF. It makes little sense, however, to have service stop at Fremont or Warm Springs rather than continue to the end of the line... That will add confusion and not lure drivers to use BART...
2013	Online	English	My comments are not related directly to just this expansion, but all of the expansions. I have been riding bart for 23 years, and it keeps getting more crowded every year. . As the crowds increase, so too do the safety issues. There certainly seem to be more medical emergencies than ever before, as well as increased crime. Both of these are directly related to increased crowds far beyond what the current train cars and platforms were designed for. The problem is, you keep expanding the lines, without the proper infrastructure to handle the increase in ridership, which has led to unsafe crowd conditions throughout the commute hours. Couple this with increased mechanical issues due to taxing the system, and Bart has become a totally horrible experience for commuters every day. Adding more standing room to the train cars is NOT the solution. Somehow decreasing the number of people literally jammed into each car is the solution. How to achieve this is the question. My guess is it involves some combination of increasing both train frequency and train length, and possibly increased police presence. This would definitely cost more money. Finding this money would be first and foremost, but after reading all about the high salaries of many bart employees, and the janitors/technicians making well over \$200K/year through false overtime, I bet it would be fairly easy to do an audit on the Bart system and find the money.
402	Online	English	My family will no longer be riding bart, too many people are getting robbed at gunpoint and bart officials don't seem to care.

1799	Online	English	My interactions with the BART involve mainly going to and from Oakland A's games. So for me, the use of the BART coincides directly with baseball season. I may move to South San Jose in 6-12 months, and at that point, the new station from San Jose Diridon might be a daily option for me. But for now, most of my use is sports-related to the Coliseum.
3022	7-Oct	English	My only concern is with longer trips, there needs to be more seating. This is a necessity
111	Online	English	n/a
1765	Online	English	N/A
1927	Online	English	N/A
2020	Online	English	Need direct BART connector to San Jose Airport
1315	Online	English	Need direct service to SF and OAK from Milpitas and Berryessa at all times
1437	Online	English	Need more trains and higher frequency.
357	Online	English	Need more trains so can get a seat for the cost paid for the ride
311	Online	English	need Richmond train from Warm Springs BART station in the morning!!
148	Online	English	Need to extend and connect with more regional transit options.
1319	Online	English	Neither option for question 8 seems good
380	Online	English	Neither options presented are good. We need all Richmond and SF trains stopping on the San Jose extension at all times as soon as the rail cars are available.
1808	Online	English	New station should have a direct connection to Downtown San Francisco. Transferring in the east bay makes no sense!
2	Online	English	No

191	Online	English	no
215	Online	English	No
303	Online	English	no
354	Online	English	No
623	Online	English	No
726	Online	English	no
727	Online	English	no
921	Online	English	no
926	Online	English	No
1287	Online	English	no
1421	Online	English	No
1685	Online	English	No
1885	Online	English	No
1920	Online	English	No
1992	Online	English	No
2076	Online	English	No but could you clean up the Powell street station? It's absolutely disgraceful with the stench and homeless people sleeping/loitering in the station. Using this station would be more convenient for me but the conditions are disgusting so I avoid it ifat all possible.

104	Online	English	NO COMMENT
701	Online	English	No Comment
2067	Online	English	No comments
850	Online	English	No comments beyond my preferences already expressed.
119	Online	English	No comments.
1963	Online	English	no I'm retired so I ride for pleasure.
143	Online	English	No matter what this Bart extension is sorely needed!
1465	Online	English	NO OPTION 3 please
804	Online	English	No shuttle transfer, end to end service.
1749	Online	English	No Shuttles!
838	Online	English	Nobody wants to transfer at Coliseum or Bay Fair as they have safety issues that BART has not addressed. Since weekend and commute hour ridership will be heading mostly to and from SF, it makes sense to make this a one seat ride.
1753	Online	English	None - I will not use these lines
222	Online	English	None but if you are going to extend the line put longer trains on it. Now you get 5 or 6 car trains which is not enough. You even do this on days when there are games at the coliseum. Idiotic planning.
1190	Online	English	None of these options are ideal. There should be direct service from San Jose/Berryessa/Fremont to both Oakland and SF, especially during peak hours.
577	Online	English	None.

1901	Online	English	Noneshoi
824	Online	English	nope
813	Online	English	Nope.
898	Online	English	Nope.
3025	7-Oct	English	Not at all sounds really good because you can use all the options
1793	Online	English	Not at this time.
2089	Online	English	Not Problems?
368	Online	Chinese	Not yet.
1584	Online	English	nothing to add
	Online		NSJ to Berkeley.
	Online		NSJ to SF
	Online		On a related note, I see no benefit to Oakland/Berkeley/Richmond BART riders to rerouting the Richmond&lt;-&gt;Fremont line to become Richmond&lt;-&gt;Dublin. Please don't do it! The Dublin BART stations are not convenient to any destinations in that sprawling suburban area, they are only good for commuters who live there and drive to BART.
	Online		On weekdays only sending the Orange line only to Berryessa all day will work a lot better due to the transition to night service you do not have an influx of trains in that area and staffing will be easier.

1860	Online	English	on weekdays richmond line needs to be to berryessa, weekends colma to berryessa, weekends richmond to dublin pleasanton your ideas work more people will be traveling these areas and all lines no matter what needs to start and stop at colma not daly city tat extra station is more time consuming just like your problem now where the train stops at fremont and have to wait for the train to go one more station correct that problem bart all lines need to stop and start at colma plus richmond and antioch line boh would on the weekends go to millbrae station and both stop at the san francisco airport this all works bart you need to make that setup better and more riders will appreciate the lines more than now
	Online		Once the Milpitas station is open I am planning to use ART+bike much of the time instead of Amtrak, if the total travel time is competitive. If I have to wait a long time for a connecting train, I'll likely stick with Amtrak. (Side note: I occasionally take VTA instead of my bike to get from Amtrak to north unnyvale, and I'll continue that practice with BART thanks to the Milpitas VTA connection.)
611	Online	English	Once the new Bart station is open, my driving commute will be less than 10 minutes.
	Online		Operate Orange Line Richmond-Berryessa and end Green Line at Warm Springs-South Fremont.
3010	28-Sep	English	Optino 1 is the best as it is an extension of the current service and SF Daly City line is heavily used. Option A is the best as an extension of the current weekend service.
	Online		Option 1 is my choice for the weekday because the green line is a much busier line than the orange line and is well needed for those going to San Francisco. Basically, just an extension of the current weekday service of Warm Springs-Daly City, but now will be Berryessa-Daly City.
819	Online	English	Option 1 is my choice since I would be coming from San Jose and going to San Francisco, the green line is a busier line than the orange, which is like how the current line goes to Warm Springs, and should extend to Berryessa. Option 3 is abysmal and much ore cumbersome to make at least 2 transfers to go anywhere else in the system.

	Online		Option 1 is the best. It is much easier to just extend on the existing service rather than make it complicated with new maps and lines that will just make transfers more cumbersome like Option 2. Thus, option 1 is the best as it is just like the existing service, except now the service will go to San Jose. Basically, just an extension of the current weekend service of Warm Springs-Richmond, but now will be Berryessa-Richmond.
1449	Online	English	option 2 aka the purple line would be a disaster. don't do that.
	Online		Option 2 is bad since Dublin riders are more likely to go to SF than to Richmond. Also, those who come from Berryessa and want to transfer to Pittsburg must make 3 transfers instead of 2 on the current service. There is a reason why BART made the Richmond-Berryessa line not go to SF and that the other lines (Pittsburg-Millbrae and Dublin/Daly City) connect to San Francisco, so that transfers and reading the map will not be as hard.
1681	Online	English	Option 3 - boarding a Bart Shuttle - would discourage me from traveling to the 2 new stations because transferring is a hassle. It is easiest to transfer one time, if need be, and then stay on a train all the way to your destination.
	Online		Option 3 for the daytime is the worst and will discourage people from riding BART by transferring to and from Warm Springs constantly. It is less efficient to make a shuttle and it is much easier just to put one major line that continues from its origin.
1161	Online	English	Option 3 in question 7 is a terrible terrible idea
1436	Online	English	Option 3 is insane, don't do it. Weak preference between the other two, but don't do #3.
1184	Online	English	Option 3 is not good; too many transfers
1298	Online	English	Option 3 is ridiculous. Why make an extra transfer when you can just extend the line!!!
1275	Online	English	Option 3 sucks, need direct link from SJ to SF

1478	Online	English	Option 8B would cause needless confusion by adding a line on Sat. night/Sunday (Richmond-Dublin) which would not exist during the rest of the week.
	Online		Option A is the most simplest and builds on the current weekend system, but now extends to San Jose. I am okay with transferring at Bay Fair from Berryessa to go to San Francisco. Those wanting to go to Richmond, Pittsburg, or Dublin will have a hard time if Option B is chosen which has too many transfers. Thus, Option A is the easiest for all.
803	Online	English	Option B seems like a really confusing idea. If half the network completely changes on weekends, and after 7 pm on weekdays, I think people would get confused.
1348	Online	English	Option C for question 7 is insane. Are you trying to sabotage the new stations?
2062	Online	English	Option C: extended hours and routes of SF trains to Milpitas or San Jose.
1965	Online	English	Our travel will always be between Berryessa and San Francisco, so we would like to stay on the same train throughout the trip. We definitely do not want to take a "bus bridge" from Berryessa.
	Online		Perry Jurow
	Online		perryjurow@gmail.com
443	Online	English	Please tend Daly City's line! Transferring to Caltrain is expensive and takes a long time with transfer waits
	Online		Please add more cars or increase the frequency of the bart to every 5mins or 7 mins bart
1750	Online	English	Please add more train cars before opening more stations further south as there are concerns about over crowding on the trains which they can be over crowded by the time they reach Oakland.
338	Online	English	Please add more trains, both with more cars and frequency

336	Online	English	PLEASE ADD MORE TRAINS. I board from the Fremont station. Your extension made it hard to get a seat in the morning and it is a LONG ride to stand uncomfortably from Fremont all the way to San Francisco. There are TON of people boarding the Fremont line. Pease extend the lines when you have plans to add more trains. It is wrong to simply promote the ridership when the ride itself is horrible. Packed trains, long ride with no seats.
314	Online	English	Please also extend service to Brentwood
547	Online	English	Please avoid the train bridge if possible... mandatory transfers are a big turnoff
468	Online	English	Please consider extending BOTH the Orange AND Green lines down to the full length of the extended route for at least some mix of trains. Certain trains could be "turned around" at earlier points to maximize efficiency. But you should definitely be able o schedule a trip that minimizes your need for connections to reach the new station.
2040	Online	English	Please consider similar programs like the VTA express pass and transfers for light rails and bus service. I would like to see my monthly commute cost to not increase from current \$140 for unlimited trips on the VTA system.
1648	Online	English	Please do not change the route of the dublin pleasanton line.
313	Online	English	Please do not extend Daly city train till San Jose, instead extend the richmond train. Daly city Trains are already crowded by the time it reaches Fremont now.
1676	Online	English	Please do not get into altercations especially when we all speak different languages. Your customer service is great. Keep it up
649	Online	English	Please do not implement a train shuttle, bring the actual trains to San Jose
249	Online	English	Please do not make any options like the situation right now - riders have to transfer at fremont station for Richmont line. I live in the south bay but go to fremont station just because of no direct line to richmont

730	Online	English	Please do not make the service plan too confusing. Having different routes at different times of the day will confuse riders. The Richmond-Dublin/Pleasanton line, which only operates at limited times of the week, does not make any sense. It's not a logical travel pattern.
845	Online	English	Please don't do a shuttle train.
1316	Online	English	Please don't route Millbrae people through SFO until after 8pm at least!
1392	Online	English	please don't take away direct service from richmond to fremont.
645	Online	English	Please don't name the Berryessa station "Berryessa/North San José", there are enough stations with absurdly long names, we don't need another one. Also, The Richmond/Dublin/Pleasanton line looks like fun and would be vaguely convenient for me, bu it's probably a bad idea (it'd be confusing to change everything on weekends).
170	Online	English	Please extend BART to Santa Clara
474	Online	English	Please extend south from Milbrae to Cupertino/MTV, etc.
260	Online	English	Please extend the Richmond line as far south as possible!
1374	Online	English	Please extend to Livermore
539	Online	English	Please fix and expand the core system before expansion. The current system with it's current geographic spread is already over-crowded, expensive to maintain, and full of delays. Expanding cross-bay service and adding trains/capacity should be the top priority; not adding more miles of track.
232	Online	English	Please increase bart seats or frequency.
289	Online	English	Please increase the frequency of the trains and number of cars too if possible!

776	Online	English	Please make the bay are a train-transit paradise! Imagine the growth when the whole bay is connected! Imagine the reduction in road congestions! You have the power! Invest in a connect bay!!
508	Online	English	Please make the Green Line from Berryessa to Daly City!
1137	Online	English	Please make the Richmond/orange line direct to warm springs in the mornings, the timed transfer is not suitable for arriving to work on time because it adds an additional 15 minutes to the commute, which is otherwise longer than driving. I really prefer Brt, and am willing to commute longer on Bart than driving, but a direct Richmond-WarmSprings line in the mornings would help make it viable
1934	Online	English	PLEASE make this route go to SAN FRANCISCO!!! That way we can take Caltrain up the peninsula, or BART up the East Bay. Anything else would be ANOTHER epic fail for VTA/BART. PLEASE avoid more epic fails and do this RIGHT.
1910	Online	English	please move to smartphone based tickets/passes
1761	Online	English	Please run the service late night on weekends and build restroom
	Online		please support alternative commute options like carpooling and vanpooling
2095	Online	English	Please try and get the Berryessa station running ASAP.
1871	Online	English	Please use your data to make these decisions. The maps in this survey don't fully show what the service will be like, so we are making decisions with incomplete information.
1679	Online	English	Please work with AC and VTA to understand the new schedules so that they adjust theirs, and not schedule their departures to be the same as the BART arrivals .. give 5 minutes window to make the transfer.
2027	Online	English	Please, please please do not implement service option 3. East Bay traffic is already terrible, and if you make people transfer twice to get to San Jose it will make many fewer people choose Bart as a mode of transit. I can live with one transfer if more pople prefer direct service to San Francisco.

673	Online	English	Prefer a Milbrae to Berryessa
	Online		Prefer direct service from
435	Online	English	Prefer routes staying the same for the whole week
359	Online	English	Put BART police on trains
	Online		Q7:
90	Online	English	Q8, plan B:
112	Online	English	Question 7 was weird -- it was a three way choice, but I really didn't have a preference between the first two, I just hate the third. (In other words, coming from Fruitvale, I don't care if you extend the Richmond or Daly City lines, but I do prefer NOT o have a separate shuttle)
904	Online	English	Question 7: I strongly DISFAVOR a Warm Springs - Berryessa shuttle train (Option 3). Timed transfers don't always go as planned, and having to switch trains just adds to the unpleasantness of what will be the longest possible BART journey, between San Francisco and San Jose.
	Online		Question 8: I strongly FAVOR Option B. The extra Saturday Transbay service, on the segment with the highest demand, is eminently practical. It reminds me of the Transbay "double-header" trains on Sundays, over two decades ago, pre-DPX If anything, more trains should be turned around at 24th St and at South Hayward, every day of the week, at all hours, because the segments beyond are less heavily used.
389	Online	English	Regarding the weekend trains: regardless of the origination/destination (Fremont/Milpitas/Berryessa), there HAS to be a train that goes directly to Richmond and back.
307	Online	English	Richmond - Fremont Orange Line runs all 7 days and without any timing restriction like Green line. In the current scenario, there is already confusion with Green line going till warm springs but it stops at 7pm and then orange line goes to Warm springs fter 7 pm and on sunday. Why so much confusion?

1866	Online	English	Richmond extension allows the Bay Point riders better connections at the outdoor, weather exposed MacArthur stop while affording Daly City transfers to occur in more protected stations (Lake Merritt, Fruitvale, etc.)
369	Online	English	richmond to colma train / berryessa to colma based on your idea that will work needs to travel one extra station more people will need to get off at colma than daly city once extensions built and all of your plans will be successful yes make richmond to dblin pleasanton and make available to where us college students can use the orange tickets same as high school this is needed and will improve also increase fare by only 2 cents to 5 cents max that is worth riding bart not more than that this helps all ofus that want to ride bart
3026	7-Oct	English	Ride just to get away from home
406	Online	English	Route a commuter-hours line from San Jose to Dublin/Pleasanton for all the people who work at Bishop Ranch
1385	Online	English	Run trains from BOTH Daly City and Richmond to Milpitas/San Jose.
1677	Online	English	san francisco has other options for reaching san jose. please give east bay residents higher priority.
	Online		San Francisco. While CalTrain is an alternative, the facts that a normal Caltrain takes 1.5 hours and it runs so infrequentl means BART is more flexible for most in the South Bay.
239	Online	English	Seating is getting limited after the Warm Springs station came on line. Extending the service to S. Bay - though a great idea, will severely limit seating and can potentially lose long time BART patrons. Suggest being mindful before making any drastic chages to service. Else, you will find folks start taking the bus into the city/car pool. Please perceive the above statement as a genuine concern from a long time BART patron. Please also note that though the Fremont station outreach is slated for today, th placards were handed out this morning. This is not fair given FUSD back to school night is today.
166	Online	English	Send both Orange and Green line to Berryessa / N. San Jose on Saturdays all day, you should have enough trains for that service.

545	Online	English	SF line is already over crowded and longer trains are not implemented. so would rather see traffic extended on richmond/fremont. plus people in South Bay have caltrans as option for getting into SF so Milpitas/Richmond makes more sense

948	Online	English	That Bart train shuttle is dumb as hell don't do it
242	Online	English	That will be great commute service if bart extended till San Jose or Milpitas
	Online		That would be wonderful and I won't live to see it. Will any of us??
578	Online	English	The BART shuttle option is unclear (what is this, a bus? A different kind of train like that terribly thought out extension to Antioch?) and it does not factor in long-term line extension to downtown San Jose.
1417	Online	English	The BART shuttle should not be passed. Either of the two direct line options would be more suitable.
741	Online	English	The bulk of BART travel that matters is to San Francisco. I don't care what you do until it wraps around the west side of the bay.

1471	Online	English	The bus transfer option is ludicrous. Either of the other two options is much better, but your survey design does not allow a respondent to indicate that and thus will produce results that don't actually reflect the reality of people's opinions.
2042	Online	English	The commute now on the Richmond/Fremont (Warm Springs) line is jammed packed with commuter, usually 5, 6 & 7 car trains are ran on this line. If trains are going to be added to accommodate more commuters . . . either A or B will work.
591	Online	English	The fewer differences between M-F daytime service and off-peak service, the better.
1165	Online	English	The forced transfer option, requiring everyone to change to a different train to run the last two stops, is terrible. I already have two transfers on my commute. A third transfer would make the system unusable for me.
856	Online	English	The green line should not be truncated to 24th Street or at South Hayward. All trains coming into SF from Fremont should continue to at least Daly City
1897	Online	English	The idea of a BART train shuttle from Warm Springs is horrific for anyone coming on the Richmond line, since it would require two transfers just to get to Milpitas.
	Online		The idea of only accessing the San Jose/Berryessa/Fremont stations via a shuttle is absolutely absurd. Why have these stations at all?
1336	Online	English	The name for san Jose Berryessa is stupid
1714	Online	English	The North San Jose station needs to be in service after 7 PM
1390	Online	English	the number of people commuting to sf from union city, fremont and warm springs seems to increase every month. i would like more seating on this line, since the ride is 45 minutes +
1033	Online	English	The only sane route is to go from San Jose to SF through Oakland.
1588	Online	English	The Option B proposal for after 7pm is chaos. Turning the blue tonpurple would confuse so many people getting on at Dublin.

1654	Online	English	The option with the purple line sounds like it might be very confusing to a lot of people. I would not look forward to explaining it to baffled tourists.
	Online		The option with the shuttle train sounds like it would be a potential source of delays.
825	Online	English	The peninsula, city, and South Bay are well enough connected. BART should be expanding in West Contra Costa. 80 West is the worst commute in the Bay Area, how does this project contribute to easing congestion on that route?
1379	Online	English	The questions are limiting, as I commute on various days from FREMONT to either SF or Berkeley stations, which includes weekdays and weekends.
	Online		The reason I voted for extending the Richmond (Orange) Line to Milpitas & Berryessa on weekdays is b/c of how crowded the Daly City / SF (Green) Line is during rush hour commutes; STANDING ROOM ONLY on 10-car (maximum length) trains.
1599	Online	English	The Richmond-Warm Springs line is one I use every single weekend, and I would not like it to be rerouted to Dublin/Pleasanton.
60	Online	English	The San Francisco lines are already congested during commute hours on weekdays. I frequently have to get off the train and wind up being late, or else wind up starting my day with a panic attack about being crushed in a packed car full of inconsiderate stangers. Because of this, the new service needs to be on the Richmond-Fremont line. Otherwise the San Francisco lines will become truly unbearable, unless there are measures taken to mitigate the effects, which I don't see Bart doing.
	Online		The shuttle is great to have as a back up plan when theres problems on the line.
1893	Online	English	The shuttle is, by far the worst option. It will require EVERYONE to change trains, rather than just a subset of the riders.
1604	Online	English	The Shuttle Option from Berryessa to Warm Springs is not a good integrated system option. I like extending the Richmond - Warm Springs Line to Berryessa while maintaining the Dublin to SF line. Putting a forced transfer at Warm Springs for Berryessa to Richmond/SF service would defeat the one system goal of the new Berryessa extension.

2044	Online	English	the shuttle option is a no go, it would be acceptable if it would be in order to start the service earlier, like before the end of 2017 but by june there bust be a direct line
1434	Online	English	The shuttle option is absolutely mad - please don't do that.
2064	Online	English	The shuttle option is the worst alternative by far.
79	Online	English	The shuttle option is worthless.
1484	Online	English	The shuttle option seems like a stop-gap measure that would decrease ridership due to the inconvenience, and you result in an overall less efficient and useful system. If proper service is extended as soon as possible, ridership (including myself) will grw to justify the service. If I had the option of the shuttle transfer, I would likely just get off before the transfer and cycle to my destination instead (as I currently do when heading south of the warm springs station.
801	Online	English	The shuttle train is not a great idea. I get that BART won't have enough railcars for the extension when it opens, but it's a better idea to either run the green or orange lines down there, since it's easy enough to transfer to those lines in Oakland.
1464	Online	English	The shuttle transfer option is completely inferior to the others. Coordinated transfers immediatly between trains at large hubs are much better than a forced transfer at a less serviced station, and even if that were not the case, half of the people usingthe trains will not have to transfer at all using one of the first two options as opposed to the third.
117	Online	English	The thing is, I don't want to drive to the city. I want to take BART and not be part of the pollution or congestion problem. Today, this requires driving all the way to Daly City, parking there, and catching BART in. I live in Santa Clara. That's just sily. In Paris I can get that far in 40 minutes via Metro to RER. If we're going to make public transit a real option, then let's get on it already.
1621	Online	English	The third bus option is a horrible idea; it literally defeats the entire purpose of the new Milpitas and Berryessa BART stations

1719	Online	English	The Train Shuttle option is straight, complete bull, and you should know better. SC County has not paid \$4-5 billion for a train shuttle.
113	Online	English	The travel time between my home station and San Jose/ Milpitas should NOT be more than 1 hr as it then defeats the purpose of taking Bart if the drive time is lesser than Bart transit time.
2092	Online	English	The two new stations must absolutely have VTA transfer points or they won't be efficient for commuting.
841	Online	English	There are a lot of ACE users who travel between Livermore, Dublin/Pleasanton to Silicon Valley on the weekdays. However the ACE only has four trains south bound and four trains north bound a day. BART shall consider to have train direct connection between Dublin/Pleasanton to Milpitas and Berryessa as an alternate for the East Bay residents who work in Silicon Valley. VTA shall also create a new shuttle bus service along Montague Express way to drop off passengers along the way.
1038	Online	English	There is already a train to SF. Not to the East Bay. I and most people will continue to take CalTrain up the peninsula.
899	Online	English	There should always be a line that goes from SF to SJ.. ALWAYS!! No transfer!!! I can't believe that was even an option
160	Online	English	There should be adequate through service throughout the east bay, as opposed to unbalanced service to SF (especially throughout the weekend).
3015	28-Sep	English	There should be Sunday access from all stations - even if only a few times on Sunday

333	Online	English	These extensions will make the Green Line VERY CROWDED! Our commute is already almost an hour each way each weekday! It will not be possible for me to stand for an hour on my commute each day; so either you will need to ensure that there is sufficient seating for all of us or additional trains will need to be added to the route. Much like on the Yellow Line at Pleasant Hill, an additional train or two in the am and pm will be needed from Fremont Station to help alleviate some of the additional crowding of the new South Bay people. It's well and good to add additional stations but if there are no additional trains what's the point? They are already full to bursting each day in both the am and pm. Medical emergencies are now happening every day more and more and will only get worse if the crowding can not be managed better. Please keep this in mind as you add more stations and take away seating from the cars. Not all of us have bikes (that take up a lot of space) but we do need seats and the ability and safety to have a pleasant and decent commute to our destination each day.
322	Online	English	They are already crowded and difficult to find seatings, please add more cars
2012	Online	English	They're a little confusing as options; however, it seems to make a little sense to "add" a line (extending the Daly City line) to reach Berryessa/North San Jose rather than extend the Fremont/Warm Springs Line so as to give riders another choice in case of delays on the Fremont/Warm Springs line.
3023	7-Oct	English	Think linear not as a loop. Extend the Richmond line south.
1197	Online	English	Third option in question 7 seems like a pretty bad idea
1215	Online	English	This BART expansion is unnecessary. You need to clean up the mess you already have before expanding it.

1576	Online	English	This entire plan is missing the most important parts of the daily Silicon Valley commute. Far East Bay into the South Bay. Stop with these half measures and build BART out to Tracy with direct lines into San Jose. The most job density is in the South By and Silicon Valley while the most available space for housing development is all the way out in Tracy.
1792	Online	English	THIS GREAT I HAVE FAMILY I'LL BE ABLE TO VISIT MORE, I WAS RIDING FROM 16th st. to MILLBREA, THEN CALTRAN TO SANTA CLARA SEND HOURS TO REACH MY FAMILY. WATCH LIMIT
1076	Online	English	This will open up a better option to go to the San Jose Airport as an option. A shuttle would just be inconvenient and make SJ Airport a non-option.
1924	Online	English	Those in San Francisco will probably drive to San Jose rather than taking the circuitous direct rail option 2. Looks like a more reasonable option would be a direct line to Oakland/Berkeley.
823	Online	English	Time to reach destination should not be more than peak hour traffic. Maximum of 1 hr end to end
521	Online	English	Total time to downtown San Francisco is what matters most. If that includes a transfer to increase frequency, that would be acceptable to me.
3029	7-Oct	English	Traffic to/from SFO should be faster
3019	7-Oct	English	Trains running at least
1352	Online	English	Transferring once is fine.
	Online		Traveling from anywhere south of Bay Fair involves either a double transfer (which makes the system sound mre unfriendly than it already is) or a really confusing transfer at 12th Street (where it's difficult and unwieldy to get from the northbound platform to the southbound platform). Lake Merritt would be a much easier transfer point for passengers going fro an Airport line to the East Bay line. Introducing a Purple line service just sounds like it would provide unnecessary confusion.

847	Online	English	Truncate Option A to have Dublin/Pleasanton-Daly City line become Dublin/Pleasanton-Richmond line or add Purple line as Dublin/Pleasanton-Richmond line permanently
1547	Online	English	Warm springs is a joke for East Bay commuters now due to the silly transfer times. Don't make Uber to Fremont faster.
1777	Online	English	Was hoping for a direct route from Dublin/Pleasanton to Berryessa Station
1955	Online	English	We did not pay for BART to SJ to take a shuttle (unless you run it until Berryessa opens)... we can take a VTA Rapid bus to Fremont now.
237	Online	English	We need more cars since there are more passengers
294	Online	English	We really need to focus on getting bart to the silicon valley, to many east bay tenant work there and have no easy means to go there, bart only goes to south fremont.
2034	Online	English	We use BART only a few times to reach San Francisco, we take it instead of Caltrain due to option and size of trains but we live in South San Jose. Bay Area Traffic is getting worse and driving to SF for games or parades is getting harder to do with parkig in SF so for us train from SF to South Bay is preffered
1743	Online	English	Weekday mornings from on the Fremont to Daly City line is already incredibly packed. I get on at Union City and often can't get a seat although I go on the very last car of the train. It's even worse on the middle cars of the train. If you merely extend te Fremont line, it will be unbearably packed. Please extend the Richmond line, which has far less people.
1414	Online	English	What about reduced fair for the weekend? Or family/friend group rates? I LOVE BART but it's tough to take friend groups because it's less expensive to Uber/Lyft
682	Online	English	What is most useful for me is not what is most useful for the system. It would be best to prioritize a link between downtown SF and San Jose at all times, and at the very least have a direct link on weekdays. I don't think the Richmond to Dublin link make much sense at all - better to have more strictly N/S and E/W lines.
594	Online	English	Wheelchair accessibility is key.

	Online		Whereas the 6-car BART typically runs on the Richmond Line during weekdays are not full, so that is where the extra capacity is.
220	Online	English	While extending service to North San Jose sounds great, I hope you are also working on getting new cars. Otherwise there will be more delays and lots of broken cars.
37	Online	English	While only temporary, it should be noted that while i like the idea of a direct connection to SF from Berryessa/Milpitas. I believe that the Richmond-Warm Springs line should extend further south to keep commonality with the entire system at present. By ading a Richmond-Dublin line, i believe it will add extra confusion with extra transfers for passengers leaving SF.
1815	Online	English	Why can't both lines, SF and Richmond, extend to San Jose instead of one line?
1979	Online	English	Why do you not have an option of going from Dublin/Pleasanton to San Jose directly? Every time I drive and take 680S from Pleasanton to San Jose I share the road with a crush of traffic. There are obviously millions of people that are going from East Alameda county, Contra Costa county and San Joaquin/Stanislaus counties to San Jose and other points in Santa Clara county. I think you should re-think this!
2086	Online	English	Why don't you extend service to areas of Contra Costa and Alameda counties who have been paying for it for decades instead of going into Santa Clara?
1773	Online	English	why is a shuttle being proposed? This is not part of the operating plan environmentally evaluated and approved for VTA's Berryessa Extension.
1575	Online	English	Why is there even a suggestion of taking a shuttle from the Berryessa Station to Warm Springs... we are paying for BART trains, not a shuttle. Crazy idea!!!
	Online		Why make SJ-SF commuters get off and change trains?
1085	Online	English	Why not already have a bus shuttle between warm springs and Fremont. People would use it because traffic is so bad.
1526	Online	English	Why not both extend both lines?

3034	7-Oct	English	Why not extend both as currently late night in the City is a pain but if add or extend to late more can travel later and it might help with rush hour
1946	Online	English	Why not extend both orange and green?
734	Online	English	Why on earth would you consider a shuttle that forces all passengers to connect at Warm Springs? That's nonsense
437	Online	English	Why would you want the additional A70 to M50 service,if the N Berryessa service is running
184	Online	English	Will BART ever go from San Leandro to Sam Mateo?
11	Online	English	Will service on the Pittsburg/Bay Point line be affected with transfers should the Richmond-Warm Springs line be rerouted to Dublin/Pleasanton? I chose to have direct service to San Francisco for convenience purposes so passengers traveling to San Francisco do not have to transfer at Warm Springs or Fremont.
3037	7-Oct	English	Will the shuttle be an extra fee
310	Online	English	Will there be limited trains?
1929	Online	English	With increased passengers to and from the south bay, we need to also increase the other trains' capacity as passengers transfer to either San Francisco, Richmond, or Pittsburg lines
1807	Online	English	Would be great to extend all lines to Milpitas and Berryessa/North San Jose stations. When will BART "circle the bay" as was originally envisioned in the 1970's?
810	Online	English	Would be nice if the extension can be made for both SF line and Richmond.
	Online		Would be nice if they would continue late, even at decreased frequencies.
1117	Online	English	Would prefer direct service from SF stations to San Jose/Milpitas (the green line option) as I would love to take BART to work and transfer to the VTA light rail for my final destination. If I have to transfer BART trains in the east bay it will likely take too long to be convenient and I will probably just drive to work instead.

553	Online	English	Yeah, Berryessa/North San Jose is a stupid name. Berryessa was fine.
700	Online	English	Yeah, why the f*** are you building new tracks and stations when you can barely handle the number of riders you currently have.
13	Online	English	YES ..... In very, very early morning hours ... I know people in Dublin area who would take 1st and 2nd train from Dublin BART, to Milpitas (and transfer to light rail), provided that you have very early train transfers at Bay Fair. Currently, you start rains at Union City station down to South Fremont (due to where your yard is, of course), but if you first head trains from that yard go to Bay Fair, so that trains from Dublin arriving at Bay Fair at 4:31, 4:46, and 5:01AM, could then catch such trains down to Milpitas to make transfer to early VTA light rail trains into San Jose. ON OPPOSITE at night, just like how you have a "late train" from Dublin (12:45AM) into Bay Fair (1:03AM) which then goes back to Dublin at 1:10AM from Bay Fair, provide service from these new stations up to Bay Fair that would arrive around 1:00AM (and then shoot that train to the yard, while waiting for train from Oakland to leave Bay Fair), so that people attending events in San Jose (such as late night sports or cultural / music events) can take BART back into Dublin area at 1:10AM, just like folks in Berkeley / Oakland / San Francisco can catch a train a little after midnight and still get back to Dublin after 1:10AM
2049	Online	English	Yes either or is not practical ! Especially when you are in San Francisco ... I mean who would go to the East Bay to go in San Jose when you are in San Francisco! It will take 1:30 hour rather than take the train.... plus there are not that many Bart to go to the end of the line. Does it bring Bart to the San Jose Airport?
266	Online	English	Yes the train is way badly crowded in peak hours make some extra connectivity trains from Oakland to warm springs only may be to berryessa later

2061	Online	English	Yes. All service BART planned in those questions are nearly unacceptable. The Silicon Valley extension should have full service to encourage public transit use. I personally feel BART is discouraging the use of these new extension stations. As for me, why can't I just continue driving to Fremont station and park there when there are more train service where I can just hop on the Richmond train (if that's the next departing train) and transfer to my SF-bound train at Bay Fair coming from the Dublin/Pleasanton line? Now if the new Silicon Valley extension stations will have full Green and Orange line service just like the section between Bay Fair and Fremont stations, then I will most definitely feel more secure to use Milpitas or Berryessa stations.
2083	Online	English	Yes. While I don't have a preference for how you route the BART trains, I definitely do not want the shuttle option. I cannot physically lift my bicycle onto a bus, so any sort of shuttle bus is useless to me. And I expect I'm not the only one.
3021	7-Oct	English	You should add Option A for weekends
	Online		You should try to schedule each route to minimize transfer times. This is more important than providing direct service if you can't afford to operate all routes at all times.
282	Online	English	You're adding more stops to the line but no new trains to accommodate added passengers? And of course you're going to increase the fares and not give us new trains?

## Appendix PP- C: Question 9, Proposed Fares Comments

---

ID	Outreach Event Date	Language	Proposed Fare Comments
679	Online	English	\$15 / day - 5 days a week is a lot of money. There needs to be some sort of monthly pass like everyone else has. Even if it was zone based like Caltrain.
2089	Online	English	\$6.75
1209	Online	English	\$7.75 each way is not competitive as Caltrain's all day pass costs less than a round trip BART fare.
1762	Online	English	\$7.75 each way is very expensive for this service. It is cheaper to drive alone to SF at these rates.
189	Online	English	\$7.75 is less than gas + parking lot fees for SF.
274	Online	English	16 bucks a day to get to work in the city so a minimum wage worker has to work roughly 2 hours to get to work
442	Online	English	A bit high because a round-trip would now cost \$15.50.
1742	Online	English	A little cheaper if you can?
358	Online	English	All BART fares are way too high
2041	Online	English	All fares are way too high. \$7.75 from Embarcadero to San Jose? It's cheaper to drive your car. Also dirty conditions and being scared for your life isn't worth the cost.
614	Online	English	All I ask is that the money be used to add cars to the trains that stop at 4:45 p.m. and 5:00 p.m. at 12th street Oakland going south on the Richmond-Fremont (hopefully Richmond/Berryessa line). Please have more than 6 train cars. It is too crowded. Thank you.
3019	7-Oct	English	Any fare with BART is still so much more feasible than taking any other kind of transportation. No complaints from me!

1974	Online	English	Any senior discounts?
1044	Online	English	Are these fares based on estimated usage and costs? Why were 75c and \$1 chosen? For the distances traveled, are the fares fair for riders?
112	Online	English	As a person with a good job, these fares are not a problem for me. My only concern is that there should be options for people with limited and/or fixed incomes. Public transit should be accessible to all, not just people like me who work for large SiliconValley companies.
859	Online	English	As an incentive, from the 4 downtown San Francisco stations (Civic Center, Embarcadero, Montgomery and Powell) to the 2 Santa Clara county stations (Berryessa and Milpitas) and vice versa should be \$7. Just a thought.
3024	7-Oct	English	As I said ride BART all the time
1140	Online	English	As long as clipper handles everything. Tag on tag off like Caltrain.
790	Online	English	as long as in line with current policy then okay. discounts for clipper card and free/discounted transfers between VTA (bus and lightrail) and BART - either direction.
1864	Online	English	As long as it's cheaper than Caltrain, I'm happy
1189	Online	English	As long as the distance-based charges are consistent across the system I'm fine with them and aren't only for this extension, I'm fine with them.
964	Online	English	As long as the service is good and not interrupted like other train service you provide, I have no issues paying that kind of money. If I have to deal with the same service as I do now with old trains and crazies on them with me, there will be an issue.
1284	Online	English	As long as there's a station in north san jose, i am happy. The fare seems reasonable.
231	Online	English	Bart costs seem to get higher far to often without much improvement to the team system besides extensions.
251	Online	English	Bart costs too much for dirty,crowded unsafe trains. Get the bums off get law enforcement active and fire the pathetic management.
387	Online	English	BART fares are generally expensive and not very cost-effective (vs. driving) but most people have no choice when they don't have a car, cannot drive or prefer public transportation to relieve pollution and congestion.
1249	Online	English	BART fares are gradually becoming affordable.

993	Online	English	BART fares are too high... much higher than other transit systems... to increase ridership there should be much steeper discounts from clipper, etc.
1541	Online	English	Bart fares are way too high without any return on improved quality of service
335	Online	English	BART has to make the commute convenient to customers by adding more services and clean trains before thinking to increase the fares.
529	Online	English	BART is already 1 of the costlier public transit system in the country. It is getting even more costlier now. BART should be affordable for everyone including low income families. It is preferable if there is a monthly pass option.
431	Online	English	BART is already too expensive.
252	Online	English	BART is expensive anyway and so the steep prices do not come as a surprise to me. Consider a monthly pass.
1749	Online	English	BART is necessary for the expansive yet disjointed Bay Area. It might be better to slightly lower prices so more people can ride the BART from the farthest stations (ex. Milpitas to SF). More riders mean more revenue. NYCMTA actually does fixed price which encourages more ridership. There needs to be more trains running the Richmond line as more stations are included in the BART system.
1128	Online	English	BART is too expensive. my monthly Caltrain pass is \$190. The current journey to Warm Springs would cost approx. \$290.
321	Online	English	BART needs to consider peak/off-peak pricing, similar to Singapore's MRT pricing structure. It's more fair to everyone and encourages off-peak travel.
359	Online	English	BART should clean cars and stations and have more BART police on trains and at stations. Charge what you want
1576	Online	English	BART should manage the available finances better. How much waste still exists in the system and what is being done to address those issues?
475	Online	English	BART should never cost more than Caltrain. Keep that in mind.
227	Online	English	Bart's fares in general are expensive. And yet, the trains go out of service.
278	Online	English	But expensive! Compared to Caltrain this is very expensive
814	Online	English	Caltrain costs \$9.90 from San Jose, you should charge the same.

1931	Online	English	Caltrain fare from San Jose to San Francisco is \$9.95. BART fare should be comparable or even identical.
731	Online	English	Can there be a discounted monthly pass like the one in New York subway which is affordable around \$125? There is no way I would use this apart from game days unless we have an affordable monthly pass.
1960	Online	English	Can't afford it.
847	Online	English	Change the Milpitas station to \$0.50 from \$0.75 and leave the Berryessa station fare the same to be consistent
276	Online	English	Charge more
206	Online	English	Charge more for parking!
752	Online	English	Charge more to put more security
1142	Online	English	Charge more. Build more infrastructure. BART is critical.
898	Online	English	Cheaper by \$0.25 please.
1691	Online	English	Clipper card discount?
856	Online	English	Combined with VTA and Muni fares, completing a trip from San Jose to SF would be cost prohibitive for anybody to do regularly, and likely not competitive with the cost of driving, particularly on weekends. Most people will probably only ride BART for thi trip on rare occasions if the fares are this high.
669	Online	English	consider reduced fare transfers to the vta light rail
380	Online	English	Costs more than riding from SJ Diridon to SF on Caltrain, with the monthly pass (assuming 2 trips every weekday). Since BART doesn't offer passes, and getting to Berryessa from downtown SJ would require a VTA transfer, BART should ensure that this fare iscost competitive with Caltrain.
1478	Online	English	Current VTA express bus fare from Fremont is \$4.00, so any fare at or below that is reasonable.
2010	Online	English	Cut by 50¢

921	Online	English	D*** that's expensive
148	Online	English	Depends on whether the proposed rates are held to as the actual.
774	Online	English	Distance based fares are fair.
281	Online	English	Distance based pricing is a consumer rip off and discourages BART use. For many commuters, it is cheaper to drive which sort of defeats one of the major goals of public transportation.
1817	Online	English	Distance-based fare structure should be applied consistently on the new extension.
1860	Online	English	do not increase fare price more than 2 cents to 5 cents max with the increases arriving in every two years 10 cents 20 cents or more is not good and contributes to fare invasions so if the price is going to go up make it be 5 cents or less and the high inreases contribute to fare invasions so better bart and compete better against amtrak , acerail, caltrain, and the bus operators the only way to do that is having the fare go up 5 cents or less also make it possible in the future to insert 8 tickets into te machines at the stations to where can increase to the minimum fare, right now putting in one ticket is not good and a problem more people would be riding bart more if we could put up to 8 tickets into the machines to make the minimum fare and that wouldbe the end of the tickets you would only be able to do this one time
349	Online	English	Do what ever keeps the traffic in Fremont parking lot to minimum.
1228	Online	English	don't let it affect the other liens
1827	Online	English	Don't mismanage our money. Upgrade the whole system - we're running on 1970s technology and our trains are dismally slow compared to the rest of the world. Reduce delays and downtime. The tracks are deafening. For commuters who ride BART everyday, thi directly contributes to long-term hearing loss.  Instead of paying out a third of overall compensation in overtime, hire more staff.

1710	Online	English	<p>Don't we pay enough in taxes and propositions to support BART? One day's commute would be \$15.50+\$3 parking from Berryessa into the city. Is the commute allowance going to increase as well? The current monthly limit barely covers the current fees.</p> <p>I understand that things take money, but isn't part of the objective of public transit to reduce cars on the roads?</p>
858	Online	English	Don't make it too expensive :(
1850	Online	English	Don't understand why it's so expensive for train services while a single train carries hundreds of ppl. The cost shld be minimal. Encourage more people to commute to work and access to public transit should be the goal.
586	Online	English	dont care do it please I will pay moneys
448	Online	English	Even if you raise cost to cover your costs, you need to show BART is a better performing commute service. Cleanliness, quality, timing are most important.
1902	Online	English	Expensive and burdensome considering the trains are dirty, station staff are arrogant, and security is not always assured.
838	Online	English	Expensive for every day commuters, but reasonable for people using it to access SJC
681	Online	English	Expensive, maybe decrease fares by \$0.50 each
1808	Online	English	Fair fare! :)
1917	Online	English	Fair price
1692	Online	English	Fare increase is expected.
1546	Online	English	Fare increases are okay, but only if the route is direct to San Francisco, with no transfer.
1540	Online	English	Fare price is far less important than efficiency. I would gladly pay 5x current prices for public transportation than gets me to SF faster and safer than the freeway.

1829	Online	English	Fare raise understandable. But seriously Bart needs to be a lot safer. There needs to be more station security and agents to be regularly present. Perhaps you ought to look at other types of fare gates to lessen freeloader folks from getting free rides. he system is being vastly abused by troublemakers and you need to pay attention to that. The abusers take advantage because they can and it's a big joke to them.
412	Online	English	Fare too expensive!! Please reconsider prices! Public transportation is supposed to be more affordable than driving your own car/paying for gasoline.
901	Online	English	fares are acceptable, they will be cheaper than caltrain or capitol corridor
1887	Online	English	Fares are already SO expensive which is the main reason that I seldom take BART anymore. I take Caltrain, Samtrans and VTA bus and light rail frequently, using a monthly pass which allows unlimited rides for everything.
1460	Online	English	Fares are high but I would generally pay them. BART needs to keep its fares at less than half of UberPool/Lyft Line to be viable though -- UberPool goes door to door, is much more private, is more comfortable, is safer, and is usually far faster door to oor. If you do not provide a substantially lower cost, there is no reason for someone to choose BART over a car.
1086	Online	English	Fares are kinda high in general but those fares listed seem reasonable compared to other Bart fares
2054	Online	English	Fares are too high
299	Online	English	Fares increase by 50 cents is really high from warm springs to Embarcadero
2020	Online	English	Fares reasonable, however definitely Need direct BART connector to San Jose Airport
1580	Online	English	Fares seem reasonable
1893	Online	English	Fares should be built on a cost basis... a share of the fixed costs, plus the variable costs of the distance.
2064	Online	English	fares should be rounded to the nearest quarter.
1562	Online	English	Fares should be similarly priced to Caltrain fares for the same distance to avoid competition between BART and Caltrain.
2050	Online	English	fine fee structure

1971	Online	English	Fine with that.
1271	Online	English	Gas for my drive from Embarcadero station to the Berryessa station will probably average around \$8.10. So, \$7.75 sounds like a decent deal especially if I factor in vehicle wear and tear.  However, my commute to Berryessa in the AM takes 50 minutes by ar, and 70-80 minutes in the PM by car. I hope that the timeframe for this route is roughly the same. I've worked off Mabury Road for 5 years and watched the station get built. I'd love to be able to ride it as a commuter.
1629	Online	English	Get a clipper card and save.
2098	7-Oct	Spanish	Get funding from San Jose and employers to lower fare
576	Online	English	Get taller turnstiles to prevent people jumping them and getting in for free. Also hire more BART police to kick out the crazy people and crackheads.
1041	Online	English	Getting really expensive.
1597	Online	English	Good pricing.
1870	Online	English	Have fares that do not cause Bart deficits.
1211	Online	English	Have more frequent trains and lower fares! Get people to ditch their cars and use public transportation! Infinite subsidies for public transportation!
373	Online	English	Have more trains on the rush hours then I am fine to pay \$7, \$8, \$9
2023	Online	English	How about a flat rate for the day regardless of the number of stops or distance traveled?
834	Online	English	How about more incentives to ride such as gamification, some kind of point system, or the more you ride the more you save? Such measures could increase ridership.
700	Online	English	How the f*** is an extra \$1.75 going to cover the cost of 2 stations and 10 miles of track not to mention relieve the massive pressure on an inundated system?
589	Online	English	hurry up and build it already

2067	Online	English	I agree with the fares
1054	Online	English	I agree with these fares.
392	Online	English	I am not a price conscious rider, so I do not have a preference. As long as the ticket price is a inexpensive as a cal-train ticket, it would be fine.
1908	Online	English	I am not sure what you are trying to recoup in terms of costs. However, taking your scenario above, it will costs \$18.50 per day plus parking. That is \$92.50 per week. It will cost me \$54 per week to fill up my car and just drive 280N to get to South S without much traffic at 6:30 in the morning. Parking is not hard to find and I pay about \$10 for parking. So it is not saving me much (\$11.50) compared to the convenience of just driving. Also, my son will be attending UCSF and he cannot afford that aount from San Jose. I would seriously consider an electric car lease for him. A lease costs \$490 per month plus parking and taking BART every day would costs \$462.50 per month. So these fares are not really any cheaper than taking a car that distance ad don't make sense to me. You should consider taking a dollar off at the least to make BART more attractive. That would increase ridership and actually bring in more money.
1	Online	English	I believe BART should seriously consider adopting a single fare systemwide to simplify the rider experience and make the fare collection systems and equipment simpler.
2087	Online	English	I can afford it easily. It is the Best value.
2099	Online	English	i can drive for less than that
837	Online	English	I cannot afford this. I come from Santa Cruz. BART nor SCMTD nor VTA offer a cost-savings transfer agreement. A one-way ticket from Santa Cruz to SF will cost me 18.50. This is a round trip of \$37. I live in poverty because of the cost of living here. Pubic transportation should not set me deeper and deeper into poverty.
1897	Online	English	I care more about having fewer transfers than I care about the cost

730	Online	English	I don't have a problem with the one-way fare. However, you should provide substantive discounts (way more than 6.25%) for bulk purchases. In addition, there must be fare coordination with VTA buses and light rail (free transfers). The Berryessa/North Sa Jose station requires a bus connection to reach Downtown San Jose, quite an inconvenience, so at the least BART can do is offer a free transfer.
297	Online	English	I don't have any comment.
611	Online	English	I don't support any fee increases.
1944	Online	English	I don't think it makes sense to charge 75 cents to go from Warm Springs to Milpitas, but only 25 cents to go from Milpitas to Berryessa, especially since many people who exit at Milpitas will need to also pay for a light rail ticket.
875	Online	English	I fine with the proposed price BART Will use from these stations.
180	Online	English	I guess that's okay. But still expensive. Especially when there are no available seats on trains.
37	Online	English	I have no comments other than to say the proposed reduced fares should also be posted in conjunction with regular fares.
1814	Online	English	I hope the fare from Hayward to Balboa Park does not increase from its current \$5.35 each way.
1395	Online	English	I know the increased fare would pay back whatever money is lent in order to follow through with this addition. Even if I'm wrong I'd like to ride on cleaner and safer trains.
1926	Online	English	I live fairly close to both Milpitas and Berryessa station. I think the price jump from Milpitas to Berryessa is a little too much. It only takes me 10-15 minutes to get to the Warm Springs or Milpitas station by car and that's a total of \$1.75 more. Also, with parking it'll be almost \$20 roundtrip ONE day for weekday commuters, which is half a tank of gas for most people. I think the price difference is only warranted if the BART service was frequent enough for me to choose to take Berryessa over Milpita on weekday mornings or the weekends. I use the BART Blue High Value Ticket and that only saves 6%. I'm hoping there is better price incentive for me to use Berryessa or Milpitas over Warm Springs. I plan to take the Berryessa station more often with my prents on the weekends as well if there was some kind of discount other than free parking. It'd be cheaper for my family to drive to SF on the weekends than take Berryessa BART. It would be \$46.50 for the three of us to take Berryessa BART roundtrip which is just not sustainable for us to take frequently.

880	Online	English	I live in San Jose and it would make since to have both stations for Milpitas and Berryessa the same price.
1452	Online	English	I mean ideally it would be significantly cheaper. But as long as it is cheaper than driving (and cheaper still to make up for hassle factor) it will be used by many. Regardless, it will benefit those without automobiles.
841	Online	English	I suggest BART to offer monthly pass for the regular users. BART is competing with driving + parking, certainly driving time is another factor, but if the cost is high and is not convenient enough then raiders will not be interested in taking it.
609	Online	English	I support the distance based fare structure.
73	Online	English	I support the distance-based fare structure, but strongly encourage BART and VTA to pursue community-based fare equity proposals, such as cross-agency accumulator-based daily and monthly passes, as part of the Clipper 2.0 program and Regional Measure 3.
1969	Online	English	I think \$7.00 should be maximum fare charged for the farthest station
1664	Online	English	I think from Embarcadero to Milpitas should have a lower cost. \$6.75
307	Online	English	I think it is fare cost considering the distance
341	Online	English	I think its awesome
867	Online	English	I think that is fair to charge Miliptas and San Jose stations more money, although I think it should be more given the distance
721	Online	English	I think that the proposed fares are getting to be a bit ridiculous - at this rate, just to get from downtown SF to Santa Clara (after the proposed extension from Berryessa to SF) will cost \$10+ one-way. There needs to be a more affordable option for thosewho can't afford to pay as much. Yes, it is comparable with the fares on CalTrain - CalTrain being \$9.20/\$9.75 to pass four zones - but San Jose/Milpitas, or San Jose as a city (when the next extension is completed) should be taken as one fare zone (like mbarcadero, Montgomery, Powell, and Civic Center are taken now with the current fare scheme).
3022	7-Oct	English	I think the fair/cost is right especially when you compare it to the time and gas you save

3030	26-Sep	English	I think the fare should not change to make it more affordable for low-income people
1681	Online	English	I think the fares are reasonable and a much cheaper option in comparison to other forms of travel between these stations.
1937	Online	English	I think they're fair. I'd like it if there were someplace in Milpitas where I could purchase a senior citizen BART card.
368	Online	Chinese	I think two stations also add 0.75 will be good.
120	Online	English	I think we need to consider how BART can remain accessible for the people that need it (often those living in lower-income areas and traveling to high income areas in order to work in those areas). This feels really expensive to me.
2042	Online	English	I thought this expansion was being paid for through taxes since the 80's? Will the fair increase also pay for cleaning up the cars, more trains, and maintenance and up keep? Increase is still less then gas, tolls and parking.
68	Online	English	I will primarily be using the Southern Extension as a recreational and leisure tool, occasionally as a conference service. Consider a monthly zoned pass option so that I have a reason to use the extension on weekends instead of drive/carpool in that direcion where parking is usually cheap and plentiful.
777	Online	English	I would like the increase to be less, but it does not seem so reasonable.
2040	Online	English	I would like to keep fares Under \$2 one way between Fremont and Great Mall Berryessa station.
450	Online	English	I would much rather pay this than having to deal with taking Caltrain from downtown SJ to Millbrae, then having to pay for BART as well. Thank you BART!
1810	Online	English	I would only take BART to get to OAK, but with the very expensive Airtrain fare, this will make me rethink doing this (go to SJC or SFO instead)
1968	Online	English	I would pay \$1.00 more from Berryessa station
2047	Online	English	I would prefer a \$0.50 increase/station because it seems more proportionate/fair. As in \$6.75 from Warm Springs, \$7.25 from Milpitas, and \$7.75 from Berryessa.
160	Online	English	I would prefer a monthly pass based on distance traveled (x35 trips).
1295	Online	English	I would rather pay the transit fare than be stuck in traffic.

1570	Online	English	I, of course, do not like higher fares.
785	Online	English	I'd like to see BART make a run at regional passes in conjunction with AC Transit (either through EasyPass for employees) or VTA (EcoPass). Or have it in a way similar to WMATA's selectpass program - <a href="https://www.wmata.com/fares/selectpass.cfm">https://www.wmata.com/fares/selectpass.cfm</a> - either way you'd save money if you take BART (AND with bus if that's your thing, too).
698	Online	English	I'm all for fare increases as long as Bart management uses it for capital expenditures and not on personnel costs. Bart needs to limit its overtime for employees....janitor making \$275k a year with overtime = over worked employees
572	Online	English	I'm fine with paying a little bit more in fare increases, however I think BART needs to look into reducing the high salaries, overtime abuse, and high administration cost of BART as well.
1707	Online	English	I'm glad it's a cheaper option than Caltrain still (when comparing cost vs. distance traveled).  It would be nice to see BART fares more heavily subsidized by the government overall - lower fare costs, more taxpayer investment, more encouragement for public transit over driving in general. Unfortunately, that isn't likely to happen because BART upgrades and service are not routinely prioritized when it comes to government spending.
1220	Online	English	I'm okay with the fares.
433	Online	English	I'm unopposed to the fare increases, and think that they're very fair. However, I STRONGLY urge BART to make obtaining a Clipper card easy, perhaps by following the LA Metro's lead with TAP cards and just require people to obtain a card, which can be done automatically from any vending machine.
2024	Online	English	I'm a viet nam vet, America FIRST, and below fixed income. What do YOU think I would like to see done with the real American's tax dollars?
2094	Online	English	If BART wants to charge more for one more stop based on distance, they need to make sure the pace of service/trains doesnt drop to the new stations! Passengers would be likely be unhappy paying the same price for distance without equally expedient service
510	Online	English	If I need to pay over \$15 for a round trip to San Francisco for a ride that's going the long way around around the bay, I'm driving.
1654	Online	English	If it ain't broke, don't fix it. That formula has always seemed fair.

741	Online	English	If it helps you circle the bay faster, knock yourselves out. Traffic is insane.
1979	Online	English	If the BART workers didn't make as much as most of my PhD graduate and engineering colleagues perhaps your costs would be less. Regardless, I would much rather take BART and go 70 mph than be in traffic that moves at less than 10 mph.
366	Online	English	If the service is timely with no delays , trains have proper # of cars to fit the the no of people and the trains are clean, well maintained, then a reasonable fare is okay.
12	Online	English	if there is consistent service coming to the North San Jose station the pricing is more fair. if there is limited service to the station, then the pricing seems too high.
333	Online	English	If they are riding from that far of a distance, then they should pay more. I have been riding from Fremont for over 40 years and we have almost always paid more than the rest of the lines because we are farther away from downtown SF.
378	Online	English	If we are charged more, please have more trains in service to justify costs to riders.
377	Online	English	if you are extending to Milpitas or San Jose stations  Please add more cars or increase the frequency of the bart to every 5mins or 7 mins bart
2055	Online	English	If you have an efficient, safe, and clean system, I strongly believe people will be more inclined to pay for the higher pay.
1519	Online	English	If you want people to pick Bart over Caltrain (especially from Diridon) it either has to be faster or cheaper to get to SF. So I would reccomend ticket fares be lower than Caltrain.
1542	Online	English	If you want people to use public transportation, it shouldn't cost so much and it should be better organized and run more frequently. But those are all bigger problems than we can apparently solve. I'll pay whatever you charge because I can afford it.
271	Online	English	Improve service before invreasing fare. You arr not able to manage current traffic efficiantly and want to extend?
1081	Online	English	in exchange for that money, i expect to have more security and cleanliness on the system.
840	Online	English	In general, BART fare is very high. e.g. \$15 per day is hourly rate for many people.
2102	Online	English	In general, BART should offer discounts to college students (SJSU, SFSU ,UCB etc.), or work with the universities to help subsidize BART tickets.

1226	Online	English	In my opinion, it should be the same amount/cost to/from Milpitas and Berryessa/North San Jose Station. Minimum it should only be (\$0.50 more) for both of the station. Another note: can you please ensure inside the Bart station is clean/disinfected? I always see homeless people riding the Bart and majority of them is at the end of the train. Your front agent should see this and the Bart police should always be on the training checking if there are homeless people on the train at all time. Thank you!
365	Online	English	Increase Milpitas to 7.00 and beryessa to 7.25
2044	Online	English	introduce a monthly yearly pass as everywhere else in the world! and do it fast there is no way you keep loosing passenger!
2000	Online	English	Introduce discounts for everyday/frequent users.
243	Online	English	Is it really public transportation? We pay a lot for BART with very minimal services. Please don't increase the price
966	Online	English	Is this fare methodology different that what is used for other stations? If so, why?
1590	Online	English	Is this fare structure competitive with other options when first-mile / last-mile expenses are taken into consideration?
199	Online	English	It is almost cheaper to use a lyft for four people than taking BART.  The price wouldn't be so bad if you didn't have the stupidly high risk of being mugged by kids or shot by poorly trained clowns with police uniforms.
1831	Online	English	It is cheaper than Caltrain.
817	Online	English	It is obviously going to be more expensive by distance since Berryessa is further away than Warm Springs. Because of this, I think it is reasonable for these prices. Just make sure the fares do not go to outstanding and exaggerating amounts and keep it resonable by distance.
14	Online	English	It is very important to consider free or discounted transfers to VTA light rail / buses. Transfers are a necessary part of a functioning transit network.
1819	Online	English	It looks \$7.15 is more reasonable from Milpitas Station.
1588	Online	English	It makes sense to keep it based on distance as it has been in the past.

234	Online	English	It seems a little high
18	Online	English	It seems a reasonable price.
1916	Online	English	It seems fairly priced based on mileage, etc. Always prefer less :-)) but it is reasonable - and costs much less than taxi or family car.
1984	Online	English	It should be +\$0.75 more for both stations.
1906	Online	English	It should be the same price both ways. It doesn't make sense to have it cost more to leave SF.
2015	Online	English	It shouldn't cost extra for those distance.
309	Online	English	It sounds fair if people can have seating the whole way. You need to have more cars.
3012	7-Oct	English	It sounds right
1498	Online	English	It sucks but its fine.
382	Online	English	<p>It would be better if there was a family plan of some sort. If you have a car full a people, it gets cheaper per person, but it gets more expensive to take the BART system.</p> <p>I am a single business traveler though, and will be flying into SFO and commutin to my company's office in San Jose. It is faster to take a direct flight to SFO and the BART than to get a connecting flight to SJC.</p>
2075	Online	English	It would be nice if VTA riders would get more discount when making transfers with BART.
1895	Online	English	It would perhaps help decongest the already packed Montague-Capitol area if Embarcadero- Berryessa is priced at \$7.50---same as Milpitas.

1995	Online	English	<p>It's a long way to Santa Clara county and I'm fine with those fares. BART is fast &amp; comfortable, and the Milpitas station is in a useful location given how spread out things are in the south bay, so I'll gladly pay those fares for good service.</p> <p>(Ideologically speaking I would prefer funding transit operations mostly from income and investment taxes rather than fares, because I view good transit as a public service and economic benefit for all, not a service for the wealthy. But I realize that's outside of BART's control, and plenty of voters &amp; politicians would disagree with me.)</p>
1214	Online	English	it's a reasonable price increase but a one way bart ride should never be more than \$8 anywhere in the bay area. please do not increase any more!!
1586	Online	English	It's expected
1655	Online	English	It's fine just as long as you guys don't raise the prices.
408	Online	English	It's insane to me how expensive it is to ride BART compared to many other (more efficiently run) transportation systems around the country. So much money is thrown into this system and I feel so little is put back into it, with most of it going to outlandish administrative costs. LA is able to fund METRO with \$1.75 fares on buses and trains WITH free transfers for up to 2 hours. The cost of BART makes it more expensive than driving to a lot of destinations. It's a joke. Every friend, family member, and business associate always goes on about how inefficient and expensive BART is compared to their home cities.
1103	Online	English	It's just one more station, don't change the fare at all.
1624	Online	English	it's okay
876	Online	English	It's too expensive lower the fares.
1147	Online	English	It's very expensive. Why not keep the fare at \$6.75?
1771	Online	English	It's worth it, but I hope this isn't going to keep going up. I don't know if I would want to pay much more than that.
1823	Online	English	It's quite expensive for a roundtrip ticket. Would you consider to offer a less expensive ticket if the riders buy RT ticket prior to boarding & valid for one week on the return or same day RT?

863	Online	English	It's too high! Needs to be subsidized some other way, not by property taxes on developers!
485	Online	English	Its cheaper to drive into San Francisco than it is to take BART. As a commuter option this should be cheaper than adding to the traffic everyday by driving
822	Online	English	Its fair
936	Online	English	Just go as cheap as you can without sacrificing good quality service.
1123	Online	English	Just happy to finally have Bart in san jose
2061	Online	English	Just keep the fares reasonable (i.e. charge per distance).
56	Online	English	Just make sure the fare system is fair to users of the core as well as the distant stations!
1899	Online	English	Keep a flat rate and offer discounted day passes round trips and Clipper Card Fare Payment.
1885	Online	English	Keep fares low to get more people out of their cars.
1619	Online	English	Keep it affordable, so promote the new Bart options so that radditional idership supports the service.
1390	Online	English	keep it as inexpensive as you can. i would like to be able to commute to sf inexpensively. i like the look of the new condos near the san jose flea market, then be able to walk to the barryesa station.
1794	Online	English	Keep it lower. Like difference of \$0.25 for every station would be apt.
1947	Online	English	Keep senior discounts!
812	Online	English	Kind of a dick move to increase the fare that much for Milpitas and San Jose, especially since it's taken this long to get service down to the South Bay.  Thanks for telling me though I guess.
474	Online	English	LESS MONEY!!  be competitive with other cities in the US.. we are literally the most expensive and also the least connected.

979	Online	English	Like most of the BART fares, it seems quite high, to the point where regular commuters will simply drive due to lower overall cost including car maintenance.
547	Online	English	Looks reasonable to me compared to driving, especially given the Bay Bridge fare alone.
1748	Online	English	lower the costs for the fair or lower the costs for the parking.
804	Online	English	Lower the fares by .25-.50 cents. Cite (ALL) fare evaders minors and adults.
369	Online	English	make also millbrae to south hayward train do what described above and have two trains start from millbrae destination south hayward on one train / pittsburg bay point on the other both trains would stop at san francisco airport read above only increasefare on tickets by 2cents to 5 cents max
1855	Online	English	Make Bart cheaper
166	Online	English	make both SV stations the same price
1943	Online	English	Make it .50 cents more per station.
256	Online	English	Make it as low as possible, especially considering a lot of folks going to Milpitas and San Jose will be middle- to low-income
604	Online	English	Make it cheaper. Now.
2007	Online	English	make it easy and affordable!!
727	Online	English	make it free
1547	Online	English	Make sure Uber isnt cheaper.
580	Online	English	Make the fares cheaper. Why are you making the trains "fancy" just put some cheap plastic seats in there. Why are you paying train operators and station clerk's so much money? They just sit there and mumble over the microphones
1348	Online	English	Making it cost way more than gas will not help you gain ridership. Fares should be reduced during slow periods. Half full trains of lower fare passengers are better than empty trains at full fare.

343	Online	English	May be switch to a zone based fare system. All stations in SF (Balboa-Embarcadero) become Zone 1. Oakland stations Zone 2 (Ashby-Rockridge-San Leandro-West Oakland). Berkeley-El Cerito/Richmond Zone 3. Contra Costa stations Zone 4, South of San Leandro Zoe 5, South of SF Zone 6, with OAK Airport and SFO being zone 7. Then charge people based on how many zones they cross.
937	Online	English	Milpitas and Berryessa should be in the same zone with the same price.
205	Online	English	Milpitas should be \$7.25 so the pricing is somewhat more evenly distributed among the three stations.
113	Online	English	Monthly discounted options if possible would be good
1634	Online	English	More money is fine / fair.... it opens up tons of high paying job options.
828	Online	English	More trains
402	Online	English	My family will no longer be riding bart, too many people are getting robbed at gunpoint and bart officials don't seem to care.
1799	Online	English	My interactions with the BART involve mainly going to and from Oakland A's games. So for me, the use of the BART coincides directly with baseball season. I may move to South San Jose in 6-12 months, and at that point, the new station from San Jose Diridin might be a daily option for me. But for now, most of my use is sports-related to the Coliseum. . .so any of these options as far as this question goes is pretty limited.
249	Online	English	my last resort of transportation mode is bart because Bart has been milking riders in many ways: fremont parking fee stays the same even warm springs station opened. charge 50 cents extra for paper tickets. hopefully milpitas and berryessa stations arecontrolled by VTA and have better management
1790	Online	English	My main concern is to have transportation options available. I'm not very sensitive to price.
986	Online	English	My primary ride would be to Union City, so the fare would, presumably, be less. While I'm not a big fan of the distance fare structure, I understand it may be necessary from a financial standpoint.
71	Online	English	N/A

872	Online	English	n/a
1927	Online	English	N/A
214	Online	English	NO
655	Online	English	Nah we make money. Maybe even charge a bit more and make your service better and run more cars.
829	Online	English	Nearly \$8 for Milpitas-SF seems a bit high. Are there going to be weekend or off peak discounts (like \$5-6 instead of \$8)?
3002	7-Oct	English	Need discounts on daily commute with MUNI and BART
235	Online	English	Need those new cars and digital train control to avoid extra delays due to equipment take.
2	Online	English	No

232	Online	English	No
1321	Online	English	No
3035	26-Sep	English	No
783	Online	English	No - but why do you keep increasing the ticket price? My salary is not increasing
2099	7-Oct	Spanish	No all is well
104	Online	English	NO COMMENT
143	Online	English	No comment
701	Online	English	No Comment
1233	Online	English	No comment
1779	Online	English	No comment
220	Online	English	No comment on fare.
776	Online	English	No comment, just be conscious of how much this might add up for people who plan to use this every day multiple times a day. We want to encourage not driving.
217	Online	English	No comments
259	Online	English	No comments
428	Online	English	No Comments
119	Online	English	No comments.

850	Online	English	No comments.
1958	Online	English	No comments.
346	Online	English	no fare increase
429	Online	English	no fares seem fair
266	Online	English	No it's very good but try to increase the quality of train interiors which is very important when high charges r applied on tickets
413	Online	English	No opinion
1676	Online	English	No opinion
2017	Online	English	No problems with increasing the fare. You should however provide more economical monthly passes on clipper cards to allow regular riders to use it.
1717	Online	English	No sounds fair
826	Online	English	No sounds good as proposed above
562	Online	English	No thanks. It's less expensive and much faster to drive. I'm much less likely to be robbed and/or hassled for money too.
3032	26-Sep	English	No, but it would make the cost from South SF cost skyrocket. Adding an adjusted fee would make people more willing to take BART than drive.
139	Online	English	No, I am ok with this.
83	Online	English	No, I think that pricing is fair.
810	Online	English	No, sounds fair to me
571	Online	English	No, sounds good.
1477	Online	English	No, sounds good.

1417	Online	English	No, the fares seem in line with the already established fares between San Francisco and East Bay lines.
371	Online	English	No, this fee structure seems acceptable
1184	Online	English	No, this is fair and less than Caltrain.
21	Online	English	No.
239	Online	English	No.
1378	Online	English	No.
1626	Online	English	No.
1763	Online	English	No.
1777	Online	English	No. Except that since I work at VTA i think i should be allowed to ride free. We allow Bart employees to ride free on our system
191	Online	English	no. do not raise fares because it is mean. you are like dirty scumbags foothill transit. always wanting to raise fares and never doing better service. NEED MONORAILS!!!!!! Also I would like a subway station directly under my house. Ive made a map for you ere: <a href="https://i.imgur.com/RRFXt4U.jpg">https://i.imgur.com/RRFXt4U.jpg</a> . This would increase service to a currently under-served area by literally ?%. As far as the Milpitas and Berryessa/North San José Stations, how bout we just kind of don't?
1939	Online	English	No. The key is can I get from Almaden to berryessa
355	Online	English	None
577	Online	English	None
1753	Online	English	None
705	Online	English	None, prices seem fair compared to Caltrain

2062	Online	English	None.
813	Online	English	Nope
1821	Online	English	Nope
88	Online	English	Nope, makes sense
545	Online	English	nope. sounds pretty standard.
215	Online	English	Not as of this time
1793	Online	English	Not at this time.
1843	Online	English	Not at this time.
3020	7-Oct	English	Not really as fares tend to spike anyway, with or without extension
678	Online	English	not really other than unifying your payment systems with other transit agencies is something you should really do eventually
636	Online	English	Not worth \$1 more
493	Online	English	Nothing more than BART being a rip off as is
1871	Online	English	Offer a free/discounted transfer to VTA transit. In general, all public transit should be free to discourage driving, so let's all pay a tax for transit to be free.
1806	Online	English	Ok
1963	Online	English	ok
3000	7-Oct	Chinese	OK
3001	7-Oct	Chinese	OK

1175	Online	English	ok if not more than that for many years. have to make it worthwhile for people to not jump in their cars.
162	Online	English	only raise the fare by 2 pennies or 5 cents max there is no reason why the cost needs to be more than currently also make the orange tickets available to us college students like the high school we would ride more this is needed just as much as starting he extensions make it happen board great meetings and times ahead we need to be able to use the orange tickets and make it possible to put several tiny tickets in the machines at the stations max 8 tickets to add to minimum fare
1298	Online	English	Overall BART is very expensive. It can be easily cheaper for two people to share a Lyft/Uber ride than take BART. Mass transit needs to be inexpensive for people to overwhelming choose it over private car rides, as they are almost always more direct and fster.
1424	Online	English	pay to play. if the money is used in a fashion that enables the community to enjoy fast, speedy service with excellent customer service, I WOULD PAY.
440	Online	English	Paying \$7.50 to be a sardine in a hot, smelly car sounds awful.  Do something about overcrowding, then consider fares.
800	Online	English	people will want to ride more if fare is cheaper; la metro \$2 flat fare
764	Online	English	Perfect these are reasonable fares
645	Online	English	Please add a monthly pass on Clipper. (If you have to go to a zoned fare system to make this make sense, that's OK, Caltrain, GGT, and SMART have zones too.)
336	Online	English	PLEASE ADD MORE TRAINS. I board from the Fremont station. Your extension made it hard to get a seat in the morning and it is a LONG ride to stand uncomfortably from Fremont all the way to San Francisco. There are TON of people boarding the Fremont line. Pease extend the lines when you have plans to add more trains. It is wrong to simply promote the ridership when the ride itself is horrible. Packed trains, long ride with no seats.
1434	Online	English	Please add peak fares in the mornings, the same way that the London Underground operates, to help spread the morning peak out and increase revenue to improve the service.
314	Online	English	Please also extend service to Brentwood
916	Online	English	Please change fare structures completely. Those prices are too high.

1114	Online	English	PLEASE EXteND to DIRIDON
1858	Online	English	Please have monthly pass. Its very expensive to pay on daily basis.
1367	Online	English	Please keep them as low as possible
1262	Online	English	Please make it happen thanks
1352	Online	English	Please publish estimates of how much it would cost to drive.
1577	Online	English	Please remember not everyone who works/ lives in SV are tech workers making huge salaries. Maybe figure out a way for a 3 way split between BART, Employer and employee to ease fares and encourage public transportation.
298	Online	English	Please start fares at \$1.95.
1503	Online	English	please stop increasing the fees. i already support gate jumpers because fees are out of sight given the value of the public transit that BART operates as a monopoly on. BART gets tax dollars and fees from the drivers that cross the bridge and the more people price us out of a service we already pay for so it will find itself in a very problematic situation that will end up ending the bart system all together.
594	Online	English	Please strongly consider weekly or monthly passes.
836	Online	English	Price of the fare is high and people are not getting the service that they are paying for (crowded carts at pick hours, no air conditioning in some carts lately, outdated equipment, not enough parking at bart stations, stations are not being cleaned up). I people are asked to pay high prices for riding bart, they need to have an adequate service provided by Bart.
25	Online	English	Prices are fair.
913	Online	English	Prices are too high for the average worker
1946	Online	English	prices are too high. for a family of four, I think it is cheaper to rent a car. That's not right.
1736	Online	English	Prices should be decreased on all stops

354	Online	English	Pricey
819	Online	English	Pricing is reasonable to distance
2057	Online	English	Pricing sounds fair.
842	Online	English	Provide better price fare incentive for riders to utilize BART to commute long and short distance ride.
13	Online	English	QUESTION: If there is only a 25-cent different in traveling to either Milpitas or Berryessa, why 75-cent additional, as opposed to another 25-cent or 30-cents into Milpitas from South Fremont??? Please explain if this is only based upon "Distance"??? Is the distance from Fremont to South Fremont only one-third (1/3) the distance, compared to the distance from South-Fremont to Milpitas ??????
242	Online	English	Rates are bit high i feel, you may put some maximum amount fixed for commute, let's say 6.5\$ or 7\$ should be fine
524	Online	English	Rather pay more and have secure trains/stations.
1454	Online	English	read above orange tickets need to be able to be used by college students
2053	Online	English	Reasonable for me
1160	Online	English	Reduce fare
1509	Online	English	reduce to \$0.50 and \$0.75
782	Online	English	Right now, you don't have enough trains to accommodate current passengers. The BART tracks and infrastructures needs updating before adding more routes.
1616	Online	English	Rip off. I know of no other rail system that does not have highly attractive monthly passes.
99	Online	English	Santa Clara County passengers should pay their fair share of systemwide costs
690	Online	English	seems a bit expensive
1923	Online	English	Seems a bit much to charge 75cents more for such a short ride.

1766	Online	English	Seems a little expensive
390	Online	English	Seems a little expensive.
815	Online	English	Seems about right, but i for a supposed metro system it would be nice to have day/week/month unlimited passes
1328	Online	English	Seems expensive.
797	Online	English	Seems expensive. That's \$15.50 a day to go to and from work.
2038	Online	English	Seems fair
554	Online	English	Seems fair.
1772	Online	English	Seems fare (fare, get it?) No seriously, the BART pricing is appropriate for the distance.
754	Online	English	Seems fine.
1436	Online	English	Seems fine.
2012	Online	English	Seems like a lot but is in line with existing BART ticket prices. Still cheaper than driving!
400	Online	English	Seems like a sharp spike in prices for 1-2 stations- especially if you're trying to build ridership at the new stations. I'll probably pay for it because of the convenience and because I don't go all the way to SF though
1315	Online	English	Seems low.
2045	Online	English	Seems ok to me. Would prefer some kind of monthly pass option also.
3014	7-Oct	English	Seems reasonable
686	Online	English	seems reasonable enough
803	Online	English	Seems reasonable to charge fares that way, since that's the fare scheme for the rest of the system.

277	Online	English	Seems reasonable to keep the distance based fare structure. Else would be unfair to the existing stations.
267	Online	English	Seems reasonable.
396	Online	English	Seems reasonable.
468	Online	English	Seems reasonable.
702	Online	English	seems reasonable.
1941	Online	English	Seems Reasonable.
1854	Online	English	Seems reasonable. I am now eligible for Senior fares, which makes BART commute much more appealing.
1593	Online	English	Seems reasonable. Should be a surcharge for out of district stations like San Mateo County so we don't subsidize out of district counties.
1336	Online	English	Seems very expensive wouldnt an uber be the same price
2056	Online	English	Seems very reasonable. I'm currently paying \$10 each way from Alameda to San Jose.
1901	Online	English	Should all be the same
1757	Online	English	Should be more expensive to pay for better BART
340	Online	English	Should cost less.
3003	7-Oct	English	Sightly on the higher side.
3008	7-Oct	English	Since it is done by distance, it seems reasonable to have these fares. Just make sure it does not increase too high.
1813	Online	English	Since people commute daily, there should be a monthly pass which is little cheaper, so that people can save money.
1879	Online	English	Since taking BART from Berryessa to downtown San Francisco a rider has to take the LONG way around and under the bay, I think the fare increases should not be more than \$.50.

1719	Online	English	So \$15.50 round trip (77.50 a week, 310 a month) plus (likely) parking. At some point, BART will have to cap the distance pricing because commuting by train won't make sense other wise. By the time you get to DTSJ, it will cost almost 10 bucks to go to OA/SF. Why not take Cal Train or drive instead?
1975	Online	English	Sounds a little pricey.. for people from the South Bay who are used to driving, I think they would need to be lured to take Bart by giving them cheaper fares
734	Online	English	Sounds fair
3006	7-Oct	English	Sounds fair
3027	26-Sep	English	Sounds fair
1218	Online	English	Sounds fair.
1290	Online	English	Sounds fair.
293	Online	English	Sounds fair. But BART should reduce the obscene OAK airport fee that makes Uber and Lyft cheaper for many, many people.
1886	Online	English	Sounds fare (heh, heh)
1608	Online	English	Sounds fine
463	Online	English	Sounds good
1677	Online	English	sounds good
1765	Online	English	Sounds good as long as service is reliable.
591	Online	English	sounds good but ok
1928	Online	English	sounds high but fair.
1076	Online	English	Sounds like a reasonable increase.

732	Online	English	Sounds OK
833	Online	English	Staying under caltrain prices is a must for me to use this.
1033	Online	English	Still cheaper than parking in SF.
1176	Online	English	Still seems cheaper than Caltrain and going into the city for Caltrain.
982	Online	English	Stop charging paying passengers more, and start collecting from and prosecuting fair jumpers. Ticket more policy violators like bikes on escalators and people eating, drinking and playing loud music on trains. I see way too much of these violations, andwith fees up to \$250, citations can be a significant increase in BART revenue as well as making travel more pleasant for paying travelers.
612	Online	English	Stop expanding bard, and start upgrading it.
795	Online	English	Stop giving away free rides to the Union, cops, board members, etc and pass this savings onto us riders. Emb to Mil .50 more Emb to SJ/Berry .75 more
1215	Online	English	Stop it.
1025	Online	English	Stop making mass transit more expensive than driving!
1487	Online	English	Sure seems weird to put this text at the very end of your survey. If people didn't speak English how would they get there?  "If you need language assistance services, please call 510-464-6752. Kung kailangan mo ang tulong ng mga serbisyo ng wika, paki tawgan ang (510) 464-6752. ??? ???? ??, 510-464-6752 ? ??????."
117	Online	English	Sure, whatever. Still cheaper than gas + toll + parking. Not ideal for the daily commuter, but so it goes.
443	Online	English	Sure. Fine.
1679	Online	English	That appears to be a far fare...

90	Online	English	That feels a little high, but it does make sense.  My primary trip would be VTA Hamilton Station ? Milpitas Station ? [Bart Walnut Creek ?SolTrans Route 78 Benicia    Bart Pleasant Hill, Picked up]
1966	Online	English	That is a very steep increase for an extra stop. It seems very arbitrary. Dissatisfied with this proposal
1992	Online	English	That is fine.
270	Online	English	that is justified.
411	Online	English	That is way too expensive. \$15 roundtrip to get into the city? The high ticket price will just encourage people to drive (especially if it's more than two people)
1584	Online	English	that seems fair
1825	Online	English	That seems fair on its face as a proposal. How long will the trips take, will there be enough parking to make this commute easy, how much will parking eventually cost, and how many times will a person have to transfer to get to their destination?
920	Online	English	That seems like a lot for only a few more stations. I would prefer \$7 from Berryessa/North San José Station, or \$7.50 at most.
2101	Online	English	That seems like a might big price increase from South Fremont to Milpitas. And for a round trip, that's even worse. I might as well just go up to Colma for that price.
1934	Online	English	That seems reasonable to me... especially if there are slightly discounted options for folks who use the system as their commute to work, 5 days a week.
1955	Online	English	That seems significantly more expensive than "West Bay" prices—South and East Bay riders continue to be punished for West Bay NIMBYism.
1835	Online	English	That sounds about right.
889	Online	English	That sounds fair to me. I just wish you guys didn't charge so much for trips to/from SFO!
1648	Online	English	That sounds fair.
2095	Online	English	That works for me.

344	Online	English	That's a bit steep, but still cheaper than CalTrain.
158	Online	English	That's a lot
2091	Online	English	That's a lot.
965	Online	English	That's expensive to commute twice a day!
3031	26-Sep	English	That's fine
2046	Online	English	That's fine.
496	Online	English	That's probably reasonable.
1940	Online	English	That's reasonable, I suppose
935	Online	English	That's too much and won't put a dent on commuter traffic. Keep it under \$7.
998	Online	English	That's very expensive for a single BART trip.
1422	Online	English	thats hella money, fam.
1385	Online	English	The \$1.00 fare increment from Milpitas to Warm Springs is too expensive.
904	Online	English	<p>The absolute dollar amounts are reasonable, and the fares follow a formula, so there's not much to be said.</p> <p>If the speed premium in the formula would normally apply to trips starting or ending at Milpitas or Berryessa, it should not be applied to those tips, because making the journey on BART will be so, so much slower than, say, driving across the Dumbarton Bridge and all the way up 101 or 280; part-way up 880, then across the Hayward-San Mateo Bridge, then part-way up 101 or 280; or up 880 and across te Bay Bridge. Having to ring the East Bay to get to the South Bay on BART does would not warrant payment of a speed premium.</p>

1605	Online	English	<p>The average Bart workers salary is \$85,000 and with a total value of \$120,000+ according to the East Bay Times. Maybe some of the funds could be allocated from your operating expense (I.e. Salaries and benefits) rather than raising rates when we just passed a three billion dollar bond measure?</p> <p>Why are janitors making CEO pay due to excessive overtime benefits? Why is BART signing these contracts in the first place?</p>
1105	Online	English	The cheaper the better
687	Online	English	The cost is already excessive. Look at entry based costs like what the Paris metro uses.
1780	Online	English	The cost is still too high to choose bart over driving.
1845	Online	English	The current rate structure works well for business commuters or single people. It doesn't work so well for family units traveling together. Extending BART to SJ opens up the possibility of more diversity of the types of users of the BART system. For example, if a family of 4 wanted to go to the Embarcadero for the day, taking BART would cost \$64. It wouldn't make financial sense for the family to use BART just based on the cost of the trip alone.
304	Online	English	The distance-based fare structure is fair and should be followed. Besides, BART should plan to provide a "Travel Pass" for daily commuters to encourage use of the BART service.
1455	Online	English	The distance-based fare structure is socio-economically oppressive. It's the worst thing about Bart. If you live in SF, you can get a pass that works on bart, if you live in Dublin, you're subsidizing that pass.
1964	Online	English	The fare appear to be reasonable and fair.
830	Online	English	The fare has been matched equal to the same distances or calculated. For example Pitts/Bay Point to SF downtown. Is it more and why? Reason behind this, is are riders. We get called on that and they compare with Caltrain and they have a monthly pass...
2052	Online	English	The fare increase is worth it. A round trip fare is over \$20 on CalTrain, plus BART gets you closer to your destination. I think the proposed fares are spot on.
1480	Online	English	The fare is too d*** high!

124	Online	English	The fare is too expensive, people have other options, such as taking the train.
761	Online	English	The fare should be cheaper in general, or at least discounted for those who need it for economic gain
1375	Online	English	The fare sounds good
623	Online	English	The fares keep going up but the quality of service keeps going down. Been riding BART daily for about 12 years and its quality has been in decline the whole time. There should be police at every station at all times! The amount of crime I see every day and the very poor reaction to it by BART is astounding!!!
36	Online	English	The fares seem reasonable, but it would be awesome if the Great Mall or flea market offered discounts to BART riders to encourage folks not to drive.
498	Online	English	The fees are already high relative to comparable transit systems. I recommend a cap for non-airport trips of around \$7 regardless of distance traveled.
508	Online	English	The later the stations open, the more missed revenue BART has...
2034	Online	English	The only issue with the pricing is that you don't include parking rate at the station. you have to pay to get into the station and then remember what stall and pay for that on top of using the train it should be all inclusive. one charge. for those that park and ride.
3040	26-Sep	English	The only way this would work is with the cost of clipper
275	Online	English	The proposed fares are fine if service is reliable, safe and clean with available seats (all things BART has lost in the past two years)
1599	Online	English	The price increases seem fair for the distance.
1192	Online	English	The price is reasonable.
1121	Online	English	The prices are more than other Metro/Rail services, but the price of living in the bay is higher. I would like there to be enough funds to cover maintenance, and future expansion of BART.
521	Online	English	The prices are OK if there is a monthly or high ridership discount.
1865	Online	English	The proposal sounds reasonable.

2049	Online	English	The proposed fairs seems reasonable. Do you design this as a commuter line? I am trying to understand the route...
24	Online	English	The proposed fares are fair but controversial. San Mateo County has a surcharge, so why does Santa Clara County not have one? Santa Clara County is outside of the BART district.
457	Online	English	The proposed fares sound steeper than they need to be.
3017	7-Oct	English	The ride to San Jose should be cheaper than Caltrain
1311	Online	English	There are many simpler, more efficient ways to do this. Do some more homework.
1096	Online	English	There should be a discount when taking Muni Muni as well as BART
480	Online	English	There should be day pass and monthly pass options in addition to the current distance based fares. This applies to the system overall and not just this extension.
1997	Online	English	These are pretty steep costs and I worry about the affordability of these fees for low income BART users.
1811	Online	English	These fares are fine.  It should cost more to drive on the freeways than to use BART. Put tolls on the freeways/bridges like elsewhere in the country/world.
1190	Online	English	These fares incentivize driving.
1607	Online	English	These prices seem reasonable/slightly cheaper compared to Caltrain fares.
2025	Online	English	These seem reasonable, particularly compared to Caltrain fares (they are slightly less / roughly comparable).  As important will be seamless connections to VTA services. Please look for opportunities to work with other transit providers throughout the By Area (Caltrain, VTA, MUNI, etc) to make fares sensible, easy, and affordable, particularly for low income people, people with disabilities, and students (including SJSU students, who will be getting better service, but at a higher price, given this chane).
288	Online	English	They are fair
1866	Online	English	They are reasonable.

2059	Online	English	They estimated fares seem a little high, but if that is what is needed to support the extension then I am willing to pay it.
682	Online	English	They seem fine.
903	Online	English	They seem reasonable.
10	Online	English	They seem to be fair.
1948	Online	English	They seem to be in line with the rest of BART's fare structure.
1924	Online	English	They sound pretty high to me. OK, an an occasional basis, but not sustainable on daily trips.
506	Online	English	They sound reasonable to me.
2027	Online	English	<p>They sound very high. Because BART doesn't offer much in the way of discounts or passes, please consider offering a fare that is more in line with the longest of the existing system's fares.</p> <p>Currently the federal maximum for pre-tax transit benefits is \$55 a month. \$7.75 roundtrip for 20 days a month would put someone well over that. Not to mention those who don't have pre-tax benefits.</p> <p>Consider raising fares elsewhere in the system so that the maximum fare for BART never exceeds the federal maximum formonthly pre-tax transit benefits (currently \$6.35). Or offer passes for regular commuters that help reduce the cost to that federal level.</p> <p>The purpose of transit fares is to encourage people to ride transit instead of driving. It shouldn't drive them awa!</p>
1085	Online	English	They're a little prohibitive for someone having to use multiple transit agencies every day. I'd try to generate more revenue through parking.
999	Online	English	They're very high. Expecting a cleaner safer bart for the cost.
55	Online	English	This doesn't seem unreasonable given the other fares.
462	Online	English	This is a tech hub. Please add more ways to pay other than credit cards and cash. Things like Bitcoin and Ethereum.

1872	Online	English	This is so expensive. In Chicago and NYC you can go so far for a minimal fare. This is also why so many people skip paying I feel like.
1620	Online	English	This is very expensive for folks that make under \$60K a year to afford. People will choose to drive if that expensive and not take Bart. Bart needs to be affordable for folks that are not working in the tech industry but in other sectors such as educatio, trades, etc.
1610	Online	English	This is very expensive. BART should compare the fare with clean air vehicle cost to drive. More and more people are driving CAV and if BART's goal is to take out cars from the highways it should keep the fares low.
532	Online	English	This needs to be competitive with get cars off the road. The fare structure is far too step after visiting public transit in Europe, new York and Washington D.C. They need to cut costs on staffing, benefits and overtime, and lower fares.
1117	Online	English	This seems fair to me.
1484	Online	English	This seems fair, although I would like to see fares (except to airports) capped around \$5 if possible.
627	Online	English	Those fares are appropriate and reasonable
1921	Online	English	Those fares seem OK. If it's direct to SF and faster, more frequent, and costs less than Caltrain, I'm in!
347	Online	English	Those fees sound about right. I don't think those are too bad of a price.
135	Online	English	Those prices seem overly high for the much delayed creation of the trains.
388	Online	English	Those seem fine to me.
6	Online	English	Too expensive
1227	Online	English	Too expensive
1667	Online	English	Too expensive
2021	Online	English	Too expensive

273	Online	English	Too expensive for lack of good cars, policing, and cleaning of stations. Europe's railways make BART look like a joke which is a shame since the Bay Area is supposed to be a power house.
1575	Online	English	Too expensive to get to SF and still makes one think about clogging the roads to get to Warm Springs. Consider equal ticket price for Warm Springs, Milpitas and Berryessa to encourage use of the closest station and clear the roads. Then equal ticket price for Alum Rock and Downtown San Jose.
500	Online	English	Too expensive, it should cost 6.75 from Berryessa/Milpitas to warm springs.
1976	Online	English	Too expensive! Rt more than \$15 pp :(
1261	Online	English	Too expensive. BART should be affordable to all
1847	Online	English	Too high.
1884	Online	English	Too much for san Jose. I'll take Caltrain
342	Online	English	Too much of an increase for not that much distance. The prices are too high compared to Caltrain, especially for a worse, less reliable transit system
1962	Online	English	too much!
1851	Online	English	trip from milpitas should be \$7.00 flat and to berryessa should be \$7.50
1379	Online	English	Until the whole system is complete, no fare increases should take place.
261	Online	English	Use fare increases and not levied taxes or forced bonds to maintain / expand BART
426	Online	English	Use fare zones rather than price per station
1266	Online	English	Use the money to clean up Bart And get your Bart police to actually do something please
2029	Online	English	VTA employees should not have to pay to ride BART.

1950	Online	English	Vta should find a way so that you are able to use your Vta Ecko pass when you transfer to Bart. You should not have to pay when you transfer. Have the 2 hrs grace period like you have now. You don't pay going out but you pay on the way back.
1694	Online	English	We do not need another station at Fremont (Washington & Driscoll). It's too close to Fremont and Warm Spring station, will only add to traffic load and not help commuters. That area in Fremont is already serviced by local bus lines A waste of money.
237	Online	English	We need more cars since there are more passengers.
1965	Online	English	We would have to see the Senior rates before we could make a comment.
1903	Online	English	Well worth it. I'd pay \$10 or more to avoid that nasty traffic. PLEASE stop fare cheaters, they cause many problems and make us fare people sad.
824	Online	English	what about disabled RTC cards
843	Online	English	What about parking at San Jose? Will there be enough? How expensive will it be?
1978	Online	English	<p>When BART put the SFO Extension into revenue service in July 2003, I recall there were surcharges for the trains going into San Mateo County, b/c San Mateo County is NOT part of BART's property tax base.</p> <p>How is the similar issue being addressed w/ Sant Clara County on the Silicon Valley Extension? Will Santa Clara VTA be making financial contributions directly to BART to offset this issue? Or will the cost recovery only be at the "fare box"?</p> <p>IMO (in my opinion), as a homeowner &amp; taxpayer in Alameda ounty, AND a regular BART patron, I think that BART should levy a surcharge for NORTHBOUND trips from Santa Clara County *IF* Santa Clara VTA is not compensating BART for the lack of property tax revenues from Santa Clara County.</p>
1087	Online	English	When you combine the fares with parking fees and the onslaught of Bart delays, it makes driving the preferred option. Raising fees is not the way to increase ridership. Fix the system, get trains on time.
578	Online	English	Why are these increments between stations so high? Will the eventual trip to Diridon cost the same or less than the current trip that utilizes BART plus the VTA 181 bus? If the answer is no, then you're setting yourselves up for failure, because the conveience of not having to transfer may not necessarily outweigh your exorbitant costs.

1465	Online	English	Why does Bart keep in asking for money from taxpayers when the fare is already so high?
312	Online	English	Why increase fares for Warm Springs / South Fremont station? Bart service is deteriorating on daily basis. Aren't we paying a bomb already for the kind of service we're getting from Bart?
262	Online	English	Why increase the Fremont fares?
845	Online	English	Why is riding the extensions so expensive?
1223	Online	English	Why would anyone pay to take bart into san francisco from the south bay if its not only more inconvenient, but also will cost the same as your direct competitor caltrain. Consider making the cost a bit more desirable considering most of san jose will leantowards riding caltrain since it is cleaner and ultimately faster.
787	Online	English	Will VTA provide loyalty products similar to SF's Muni+BART? That is, unlimited rides on all VTA service, including light rail, and travel between BART stations (within Santa Clara county only).
184	Online	English	wish it were cheaper at those rates, people might find it more cost-efficient just to drive
1896	Online	English	Work in monthly and/or regional passes with the various transit agencies.
722	Online	English	Works for me
142	Online	English	Would like to know why the fares so high for BART compared to other public transit systems in the country.  For example New York has very good connectivity with frequency of 3 minutes, but still the fares very less compared to BART.
553	Online	English	Yeah, we need monthly passes.
1267	Online	English	Yeah. How about no.
1721	Online	English	Yes, give us a first class option train car. I am willing to pay the price. I am sick of people who are filthy, stink and try to get money from me. More armed police on the train. In Europe you can pay for more why not here?
744	Online	English	Yes, the charge increase is fine but please allow clipper cards to be used AND purchased via machine in stations. Please use Japan's suica cards as example.

222	Online	English	Yes, your fare increases are making me want to drive to the office.
285	Online	English	Yes,the fares are expensive and I don't understand that because it costs me \$1.95 to go to Fremont station.I am a San Jose State College student so this is important.
460	Online	English	Yes. Looks good.
893	Online	English	You are outpricing poorer people
671	Online	English	You are planning to extend the BART service to Milpitas and Berryessa/North San José , but currently also there is no place to sit for passengers in 9 car or even in 10 car trains. So is there any plan to increase the number of cars? Otherwise with existng number of cars it will be utterly impossible to fit the crowd from another two stations and will be extremely inconvenient for passengers. The fares are pretty expensive even right now , therefore with no improved service for existing passengers, I dont see any point in increasing fares and also there is no point in extending route if there is no intention of increasing number of cars or increased seating arrangement. Thank you.
111	Online	English	You need to charge more for your service.  It is an incredible convenience and the system needs more maintenance then is occurring now.  It is more expensive to ride Capitol Corridor - but worth it to avoid crowds and equipment failures.  You're too cheapand it shows.
146	Online	English	You should be comparable or cheaper than Caltrain
329	Online	English	You should have monthly pass to allow for frequent users to help
1900	Online	English	You should mention here how much it will cost from Berryessa to downtown Oakland or Berkeley.
115	Online	English	You would get more people to ride BART if you didn't keep raising the rates. Its already too expensive to live here, why make getting around on public transportation impossible too?

1888	Online	English	Your costs are out of control. The fares are ridiculous given our sales tax surcharge for BART. BART "management" is completely irresponsible with our tax dollars. The union has them eating out of their palms. The inflated compensation and pension costs will kill BART. Car maintenance and hygiene are a complete joke.
551	Online	English	Your fares should lead to reduced management oversight and better rider services. In a nutshell, we're tired of the poop, the noise, and the stress of riding BART.

# Appendix PP- D: Publicity and Outreach Materials

---

# New BART Service Coming to Santa Clara County

Phase I of the BART/VTA Silicon Valley Extension (SVBX) is a 10-mile, two station, extension into Santa Clara County which begins at the Warm Springs/South Fremont station, proceeds through Milpitas, and ends in the Berryessa area of north San Jose. Expected to open in Summer 2018, here are some facts about the new SVBX stations and service. Please let us know what is important to you by coming to our outreach events (see reverse for list of events) or filling out a survey online at [bart.gov/SVsurvey](http://bart.gov/SVsurvey).

## Travel Time

Estimated travel time between Milpitas to Warm Springs/South Fremont Station is 7 minutes and between Berryessa/ North San José to Warm Springs/South Fremont Station is 12 minutes.

## Traffic Relief

By 2025, approximately 500,000 weekday automobile trips are projected between the East Bay and Santa Clara County. By shortening travel times and improving reliability, SVBX is expected to generate additional transit ridership and reduce overall traffic congestion. Projected daily BART ridership for the Project will reduce regional traffic congestion and greenhouse gas emissions by over 3,400 tons per year.

## Transit Connectivity and Access

SVBX will feature bus transit centers to connect with VTA services, private shuttle and passenger drop-off/pick-up areas, parking facilities, and convenient bicycle and pedestrian connections and storage. The stations are fully accessible to pedestrians and bicyclists and includes bike lockers, elevators and escalators, Braille signs and a tactile sight path to aid riders with disabilities.

The project promotes accessing the stations by sustainable means, such as:

- Walking (1/2 mile walk for 30,000 local residents)
- Bicycling (less than 12-minute bike ride for 260,000 people)
- Private shuttle, local bus, bus rapid transit, light rail, and carpools
- Project is just 15 minutes via public transit or automobiles for more than 1,007,000 local residents

## Proposed Fares

BART plans to extend its distance-based fare structure for the Santa Clara extension for both Milpitas and Berryessa/ North San José stations.

## Proposed Service

As BART waits for its new Fleet of the Future, a temporary service plan will be implemented for Milpitas and Berryessa/ North San José stations. BART has developed multiple service options and is seeking your input on our proposed service plans.

10am–1pm

# Nuevo servicio de BART en el Condado de Santa Clara

La Fase I de la Extensión BART/VTA Silicon Valley (SVBX) es una ampliación de 10 millas y dos estaciones al Condado de Santa Clara, que se inicia en la estación Warm Springs/South Fremont, continúa a Milpitas, y concluye en el área de Berryessa en el norte de San José. Programado para inaugurarse durante el verano de 2018, a continuación se presentan algunos datos de los nuevos servicios y estaciones de SVBX. Le invitamos a comunicarnos lo que considere importante para usted, asistiendo a nuestros eventos de difusión comunitaria (consulte la lista de eventos al reverso) o llenando una encuesta por internet en [bart.gov/SVsurvey](http://bart.gov/SVsurvey).

## Tiempo de recorrido

El tiempo estimado de recorrido entre Milpitas y la estación Warm Springs/South Fremont es de 7 minutos, y entre Berryessa/North San José y la estación Warm Springs/South Fremont es de 12 minutos.

## Mitigación de tráfico

Se proyecta que, para 2025, se realizarán 500,000 recorridos de automóvil por día hábil entre East Bay y el Condado de Santa Clara. Se espera que, al reducir los tiempos de recorrido y aumentar la confiabilidad, SVBX generará más pasaje y reducirá la congestión de tráfico en general. El pasaje diario proyectado para BART reducirá la congestión de tráfico regional y, con ello, la emisión de gases de efecto invernadero disminuirá en más de 3,400 toneladas por año.

## Trasbordos y accesos

SVBX contará con centros de transporte para autobuses para conectar con los servicios VTA, autobuses de enlace shuttle privado y áreas para recoger y dejar a los pasajeros, además de estacionamientos y convenientes trasbordos y áreas de almacenamiento para peatones y ciclistas. Las estaciones serán totalmente accesibles para peatones y ciclistas, e incluirán compartimentos para bicicletas, elevadores, escaleras mecánicas, signos en Braille y pasillos con señales táctiles para pasajeros con discapacidades.

El proyecto promueve el acceso a las estaciones con medios sustentables como:

- Un recorrido a pie de 1/2 milla para 30,000 residentes locales
- Un recorrido de menos de 12 minutos en bicicleta para 260,000 personas
- Enlaces shuttle privados, autobuses locales, autobuses de transporte rápido, tranvías y vehículos de viaje compartido
- Un recorrido de tan sólo 15 minutos en transporte público o automóvil para más de 1,007,000 residentes locales

## Tarifas propuestas

BART tiene planeado extender su estructura de tarifas basadas en distancias para la ampliación de Santa Clara a las Estaciones Milpitas y Berryessa/North San José.

## Servicio propuesto

Mientras BART espera su nueva Flota del Futuro, se implementará un plan de servicios temporales para las Estaciones Milpitas y Berryessa/North San José. BART ha desarrollado varias opciones de servicios, y espera sus comentarios sobre nuestras propuestas.

# BART 連接聖達卡拉縣的新服務

BART/VTA 矽谷延伸線 (SVBX) 第一期工程是一條長 10 英哩、包含兩個車站，通往聖達卡拉縣的延伸線，其起點為 Warm Springs/South Fremont 車站，途經 Milpitas 站，終點為聖荷西北部的 Berryessa 區。SVBX 預計於 2018 年夏季通車，以下是關於新車站和服務的一些資訊。請參加我們的外展活動 (請見背面活動列表)，或上網站 [bart.gov/SVsurvey](http://bart.gov/SVsurvey) 填寫問卷，告訴我們哪些方面對您最為重要。

## 行程時間

Milpitas 和 Warm Springs/South Fremont 車站之間的行程時間預計為 7 分鐘；Berryessa/North San José 和 Warm Springs/South Fremont 車站之間的行程時間預計為 12 分鐘。

## 交通紓解

到 2025 年，東灣和聖達卡拉縣之間的工作日車輛行程預計將達到約 50 萬趟。藉由縮短行程時間和提高可靠性，SVBX 預期將能增加乘客量，紓解整體交通擁塞。該項目預計每日 BART 乘客量將可紓解區域性交通擁塞，且每年可減少超過 3,400 噸的溫室氣體排放。

## 交通接駁和便利性

SVBX 將提供連接 VTA 服務的公車中心、私營班車和乘客上下車專區、停車設施，以及方便的腳踏車和行人接駁和儲物設施。車站提供完全的行人和腳踏車通行設施，並且設有腳踏車寄放櫃、升降機和電扶梯、布拉耶點字標誌，以及輔助乘客和殘障人士的導盲引路通道。

該項目倡導以環保永續的方式前往車站，例如：

- 步行 (距離本地 3 萬名居民僅 1/2 英哩步行距離)
- 騎腳踏車 (將近 26 萬人騎腳踏車不到 12 分鐘即可抵達)
- 私營班車、地方公車、快捷公車、輕軌鐵路和汽車共乘
- 超過 1,007,000 名本地居民搭乘公共交通工具或開車，只要 15 分鐘即可抵達本項目

## 建議票價

BART 計劃為 Milpitas 和 Berryessa/North San Jose 站延用以距離為基礎的票價結構。

## 建議服務

在 BART 等候新的未來車隊交車期間，Milpitas 和 Berryessa/North San Jose 車站將實施臨時服務計劃。BART 已規劃出多種服務選項，並想尋求您對服務計劃提案的意見。

---

如需語言協助服務，請致電 (510) 464-6752。

# Dịch Vụ BART Mới Sắp Đến với **Quận Santa Clara**

Giai Đoạn I của dự án Nối Dài BART/VTA Silicon Valley (SVBX) là phần nối dài 10 dặm có hai trạm vào Quận Santa Clara, bắt đầu từ trạm Warm Springs/South Fremont, đi qua Milpitas, và kết thúc ở khu vực Berryessa phía bắc San Jose. Dự kiến sẽ khai trương vào Mùa Hè 2018, sau đây là một số dữ kiện về dịch vụ và các trạm SVBX mới. Hãy chia sẻ các vấn đề ưu tiên của quý vị bằng cách tới dự các sự kiện tiếp cận cộng đồng của chúng tôi (xem mặt sau để biết danh sách các sự kiện) hoặc điền bản khảo sát ý kiến trên mạng trực tuyến tại [bart.gov/SVsurvey](http://bart.gov/SVsurvey).

## **Thời Gian Di Chuyển**

Thời gian di chuyển giữa Milpitas đến Warm Springs/South Fremont Station dự liệu là 7 phút và giữa Berryessa/Bắc San José đến Warm Springs/South Fremont Station là 12 phút.

## **Giảm Giao Thông**

Cho đến năm 2025, dự kiến sẽ có khoảng 500,000 chuyến xe hơi vào các ngày trong tuần giữa miền Đông vùng Vịnh và Quận Santa Clara. Nhờ rút ngắn thời gian di chuyển và cung cấp dịch vụ đáng tin cậy hơn, SVBX sẽ tạo thêm lượng hành khách đi xe công cộng và giảm tình trạng kẹt xe nói chung. Số hành khách đi xe BART hàng ngày theo dự báo của Dự Án sẽ làm giảm tình trạng kẹt xe trong vùng và mỗi năm giảm thêm hơn 3,400 tấn khí nhà kính phát thải.

## **Tiếp Cận và Kết Nối với Phương Tiện Chuyên Chở Công Cộng**

SVBX sẽ có các trung tâm nối chuyển xe buýt để kết nối với các dịch vụ VTA, các khu vực đón/thả hành khách và xe buýt chặng ngắn tư nhân, các khu đậu xe, và nơi cất giữ cũng như các điểm kết nối thuận tiện cho khách bộ hành và xe đạp. Các trạm này được trang bị đầy đủ để phục vụ khách bộ hành và người đi xe đạp với các cột khóa xe đạp, cầu thang máy và cầu thang cuốn, biển báo bằng chữ nổi Braille và một lối đi cảm nhận bằng xúc giác dành cho các hành khách khiếm thị.

Dự án khuyến khích tiếp cận các trạm này bằng những cách thức ít ảnh hưởng đến môi trường sinh thái, chẳng hạn như:

- Đi bộ (đi bộ ½ dặm đối với 30,000 cư dân địa phương)
- Đi xe đạp (đạp xe chưa đến 12 phút đối với 260,000 người)
- Xe buýt chặng ngắn tư nhân, xe buýt địa phương, hệ thống xe buýt vận chuyển tốc hành, xe điện, và xe chở người theo nhóm
- Với dự án này, 1,007,000 cư dân địa phương chỉ mất 15 phút đi lại bằng xe hơi hoặc phương tiện chuyên chở công cộng

## **Giá Biểu Đề Nghị**

BART dự liệu sẽ mở rộng cơ cấu giá biểu theo khoảng cách cho đoạn nối dài đến Santa Clara đối với cả hai trạm Milpitas và Berryessa/Bắc San José.

## **Dịch Vụ Đề Nghị**

Trong khi chờ Đợi Xe Tương Lai mới, BART sẽ áp dụng một kế hoạch dịch vụ tạm thời cho các trạm Milpitas và Berryessa/Bắc San José. BART đã thiết lập nhiều lựa chọn dịch vụ và muốn biết ý kiến của quý vị về các kế hoạch dịch vụ đề nghị của chúng tôi.

# सैंटा क्लारा काउंटी के लिए नई BART सर्विस आ रही है

BART/MTA Silicon Valley Extension (SVBX) का चरण I 10-मील, दो स्टेशन का सैंटा क्लारा काउंटी का विस्तार है जो Warm Springs/South Fremont स्टेशन पर शुरू होता है, Milpitas से होकर गुजरता है, और north San Jose के Berryessa क्षेत्र में समाप्त होता है। इसके ग्रीष्म 2018 में खुलने की उम्मीद है, और यहाँ नए SVBX स्टेशनों और सर्विस के बारे में कुछ तथ्य दिए गए हैं। कृपया आउटरीच ईवेंट में आकर (ईवेंट की सूची के लिए पीछे देखें) या [bart.gov/SVsurvey](http://bart.gov/SVsurvey) पर ऑनलाइन सर्वेक्षण भरकर हमें बताएँ कि आपके लिए क्या महत्वपूर्ण है।

## यात्रा का समय

Milpitas से Warm Springs/South Fremont स्टेशन के बीच अनुमानित यात्रा समय 7 मिनट है और Berryessa/North San José से Warm Springs/South Fremont स्टेशन के बीच 12 मिनट है।

## यातायात राहत

2025 तक, East Bay और सैंटा क्लारा काउंटी के बीच लगभग 500,000 कार्यदिवस ऑटोमोबाइल ट्रिप का अनुमान लगाया जा रहा है। यात्रा के समय को छोटा करके और विश्वसनीयता में सुधार करके, उम्मीद की जाती है कि SVBX अतिरिक्त ट्रांज़िट सवारियाँ पैदा करेगी और समय यातायात भीड़ कम करेगी। परियोजना के लिए अनुमानित दैनिक BART सवारी क्षेत्रीय यातायात भीड़ और प्रति वर्ष 3,400 टन से अधिक ग्रीनहाउस गैस उत्सर्जन कम करेगी।

## ट्रांज़िट कनेक्टिविटी और पहुँच

SVBX में VTA सर्विसेस के साथ कनेक्ट करने के लिए बस ट्रांज़िट केंद्रों, निजी शटल और यात्री ड्रॉप-ऑफ़/पिकअप क्षेत्रों, पार्किंग सुविधाओं, और सुविधाजनक साइकिल और पदयात्री कनेक्शन और भंडारण की सुविधा होगी। स्टेशन पदयात्रियों और साइकिल चालकों के लिए पूरी तरह पहुँच में हैं और इनमें बाइक लॉकर्स, एलेवेटर और एस्केलेटर, विकलांग सवारियों की सहायता करने के ब्रेल चिह्न और स्पर्श दृष्टि पथ भी शामिल हैं।

परियोजना स्थायी साधनों द्वारा स्टेशनों तक पहुँच को बढ़ावा देती है, जैसे:

- चलना (30,000 स्थानीय निवासियों के लिए 1/2 मील पैदल चलना)
- साइकिल चलाना (260,000 लोगों के लिए 12-मिनट से कम साइकिल की सवारी)
- निजी शटल, स्थानीय बस, बस रैपिड ट्रांज़िट, लाइट रेल, और कारपूल
- परियोजना 1,007,000 स्थानीय निवासियों के लिए सार्वजनिक ट्रांज़िट या मोटर वाहन के द्वारा सिर्फ 15 मिनट की दूरी पर है

## प्रस्तावित किराया

BART की Milpitas और Berryessa/North San José दोनों स्टेशनों के लिए सैंटा क्लारा एक्स्टेंशन के लिए अपनी दूरी-आधारित किराया संरचना लागू करने की योजना है।

## प्रस्तावित सर्विस

जबकि BART भविष्य के अपने नए बेड़े का इंतजार कर रही है, तो इस बीच Milpitas और Berryessa/ North San José स्टेशनों के लिए अस्थायी सर्विस योजना लागू की जाएगी। BART ने कई सर्विस विकल्प तैयार किए हैं और हमारी प्रस्तावित सर्विस योजनाओं पर आपकी इनपुट चाह रही है।

अगर आपको भाषा सहायता सर्विसेस की आवश्यकता है, तो कृपया (510) 464-6752 पर कॉल करें।

# BART आपसे सुनना चाहती है!

# BART wants to hear from you!

BART is seeking your input on the upcoming rail service into Santa Clara County.

Expected to open Summer 2018, the service will include new stations at Milpitas and Berryessa/North San José, and includes approximately 10 miles of new track between the existing Warm Springs/South Fremont BART Station and the Berryessa area of north San José .

Please let us know what is important to you by coming to our outreach events or filling out a survey online at [bart.gov/SVsurvey](http://bart.gov/SVsurvey).

If you need language assistance services, please call (510) 464-6752.  
Si necesita servicios de asistencia de idiomas, llame al (510) 464-6752.  
如需語言協助服務，請致電 (510) 464-6752。

¡A BART le gustaría enterarse de lo que usted piensa!

BART desea conocer sus comentarios sobre el próximo servicio de tranvía al Condado de Santa Clara.

Programado para inaugurarse durante el verano de 2018, el servicio incluirá nuevas estaciones en Milpitas y Berryessa/North San José, además de aproximadamente 10 millas de nuevas vías entre la actual Estación BART Warm Springs/South Fremont BART y la zona Berryessa del norte de San José.

Le invitamos a comunicarnos lo que considere importante para usted, asistiendo a nuestros eventos de difusión comunitaria o llenando una encuesta por internet en [bart.gov/SVsurvey](http://bart.gov/SVsurvey).

BART 希望  
聽取您的意見！

BART 即將提供通往 Santa Clara 縣的捷運服務，我們想聽聽您的意見。

這條預計於 2018 年夏季通車的服務將包括新的 Milpitas 車站和 Berryessa/North San José 車站，以及在現有的 Warm Springs/South Fremont BART 捷運站和聖荷西北部 Berryessa 區之間增加 10 英里長的新軌道。

請參加我們的外展活動，或上網站 [bart.gov/SVsurvey](http://bart.gov/SVsurvey) 填寫問卷，告訴我們哪些方面對您最為重要。

# 2018 BART Customer Satisfaction Study

BART Marketing and Research Department  
Corey, Canapary & Galanis Research

# CONTENTS

**INTRODUCTION** ..... 3

**EXECUTIVE SUMMARY** ..... 5

**DETAILED RESULTS**..... 7

- Overall Satisfaction ..... 8
- Willingness to Recommend BART ..... 10
- Perception of Value ..... 12
- Specific Service Attributes ..... 14
- Specific Service Attribute Rating Changes ..... 18
- Quadrant Analysis ..... 19
- Satisfaction Trends ..... 24
- Ethnicity Compared to Region ..... 26
- Household Income Compared to Region ..... 27

**APPENDICES**

- A. Questionnaire ..... 29
- B. Complete Tabulations ..... 37
- C. Tests of Statistical Significance for 2018 vs. 2016 Comparisons ..... 73
- D. Service Attribute Ratings – Percentages ..... 77
- E. Description of Methodology and Response Rate Summary ..... 81
- F. Coding of Respondent Comments ..... 87
- G. Quadrant Charts by Ridership Segment ..... 91

*This page intentionally left blank.*

# INTRODUCTION

BART's Customer Satisfaction Study is a tool to help BART prioritize efforts to achieve higher levels of customer satisfaction. The study involves surveying BART customers every two years to determine how well BART is meeting customers' needs and expectations. These surveys, initiated in 1996, are conducted by an independent research firm.

The BART Board of Directors, management and staff use customer satisfaction surveys to focus on specific service areas and issues important to BART customers. Making informed choices allows BART to better serve current riders, attract new customers, and enhance the quality of life in the Bay Area.

This report is based on 5,294 questionnaires completed by BART customers. These customers were surveyed while riding on randomly selected BART cars during all hours of operation on weekdays and weekends during an approximately five-week period in September/October 2018.

The Executive Summary in the next section highlights key findings from the survey. Subsequent sections present detailed analyses of the factors that influence customer satisfaction and a full description of the survey methodology, including a copy of the questionnaire.

The initial survey questions ask customers to describe their use of the system. Customers are then asked three key opinion tracking questions focusing on:

- Overall satisfaction;
- Willingness to recommend BART; and
- Perceptions of BART's value for the money.

In addition, the survey probes for ratings of 46 specific service attributes, ranging from on-time performance to station cleanliness. BART uses the service attribute ratings to set priorities for customer satisfaction initiatives.

It should be noted that a number of changes have occurred since the previous study in September 2016. Those which might have influenced customers' perceptions include:

- A continuation of high weekday ridership especially during peak periods, contributing to crowding on trains and station platforms. Although weekday ridership has declined slightly compared to the last survey period two years ago (-2%), it remains well above all prior survey periods at nearly 433,000 daily trips in September 2018.
- The impacts of the Bay Area homeless crisis. According to the 2019 Homeless Census, homelessness increased substantially between 2017 and 2019 in all of the counties BART serves.<sup>1</sup> This has led to an increase in the number of people seeking shelter in BART stations and on BART trains, which has impacted customers' perceptions of cleanliness and safety on BART.
- The impacts of the national opioid and methamphetamine epidemics, which have also impacted customers' perceptions of cleanliness and safety on BART.<sup>2</sup>

<sup>1</sup> Increases in homelessness by county between 2017 and 2019: Alameda County: +43%; Contra Costa County: +43%; San Francisco County: +17%; San Mateo County: +21%. (Homeless Census 2019)

<sup>2</sup> In San Francisco County, Emergency Department visits due to opioid overdoses jumped from 41.5 visits/100,000 residents in 2016 to 58.6 visits/100,000 residents in 2018 (CA Dept. of Public Health).

- While violent crimes on BART remain rare, there has been heightened awareness of security issues after media coverage of several high-profile crimes that occurred on BART since the 2016 survey. The crimes included a fatal stabbing a couple of months prior to the 2018 survey and a group robbery onboard a train in 2017.
- Continued weekend service closures for track repairs and other infrastructure improvements, including a major rebuilding project between 19<sup>th</sup> St. and West Oakland that involved four weekend closures in August and September 2018.
- New station openings: Warm Springs / South Fremont (March 2017), Pittsburg Center, and Antioch (both in May 2018).
- The roll-out of new Fleet of the Future cars, beginning in January 2018. At the time of the survey, there was one new ten-car consist in revenue service, running on the Orange line (Richmond / Warm Springs).
- Fare changes in January 2018. Overall fares increased by 2.7% based on BART's inflation-based formula. In addition, in an effort to shift more customers to Clipper cards, a 50 cent charge was added to rides made with BART blue tickets. The youth discount was extended from age 12 to age 18 and changed to 50%.
- Proof-of-Payment ordinance, implemented in January 2018. This requires passengers to present a valid ticket or Clipper card within the paid area of the BART system upon request by authorized BART personnel.

# EXECUTIVE SUMMARY

While greater than half of riders give BART positive ratings on key satisfaction questions, these ratings have declined significantly since 2016.

- 56% say they are very or somewhat satisfied with BART. This is down 13 percentage points since 2016.
- 73% would definitely or probably recommend BART to a friend or out-of-town guest. This is a decrease of 12 percentage points since 2016.
- 54% agree strongly or somewhat that “BART is a good value for the money.” This has dropped five percentage points since 2016.

Percent of BART customers saying they...	2014	2016	2018
Are <b>very or somewhat satisfied</b> with the services provided by BART.....	74%	69%	56%
Would <b>definitely or probably recommend</b> BART.....	89%	85%	73%
<b>Agree strongly or somewhat</b> that BART is a good value for the money...	63%	59%	54%

Key factors behind the decline in customer satisfaction continue to be: crowding, cleanliness, and aging trains and stations. In addition, concerns about personal security on BART have risen dramatically, likely driven by high profile incidents, as well as day-to-day quality of life issues that impact how safe riders feel on BART. These issues include drug use and criminal activity on or near BART, untreated mental illness, fare evasion, homelessness, and panhandling.

In light of this, BART has prioritized customer safety with continued emphasis on addressing these quality of life issues. This year’s approved budget includes funding for 19 additional police officers and four additional fare inspectors. The survey data show that customers’ ratings of personal security on BART are strongly correlated with their ratings of police presence on BART.

To address the impact of the Bay Area’s homeless crisis, BART is expanding Homeless Outreach Teams to include all four of BART’s counties. The teams consist of outreach workers who try to connect homeless individuals on or near BART with needed social services. BART is also expanding its well-received elevator attendant program to all four downtown San Francisco stations. Started in April 2018 at Civic Center and Powell stations, it has virtually eliminated inappropriate behavior in elevators and is highly rated by BART customers.

To address station cleanliness, BART will hire 15 additional station cleaners. This will help bolster BART’s revamped cleaning efforts, which include focused overnight cleanings of the system’s busiest stations.

As for issues related to crowding, BART’s new Fleet of the Future train cars are steadily rolling out. While only one ten-car train was in service at the time of the survey, there are currently six trains running. As more cars are put into revenue service, BART will be able to lengthen more trains to ten cars and help reduce crowding.

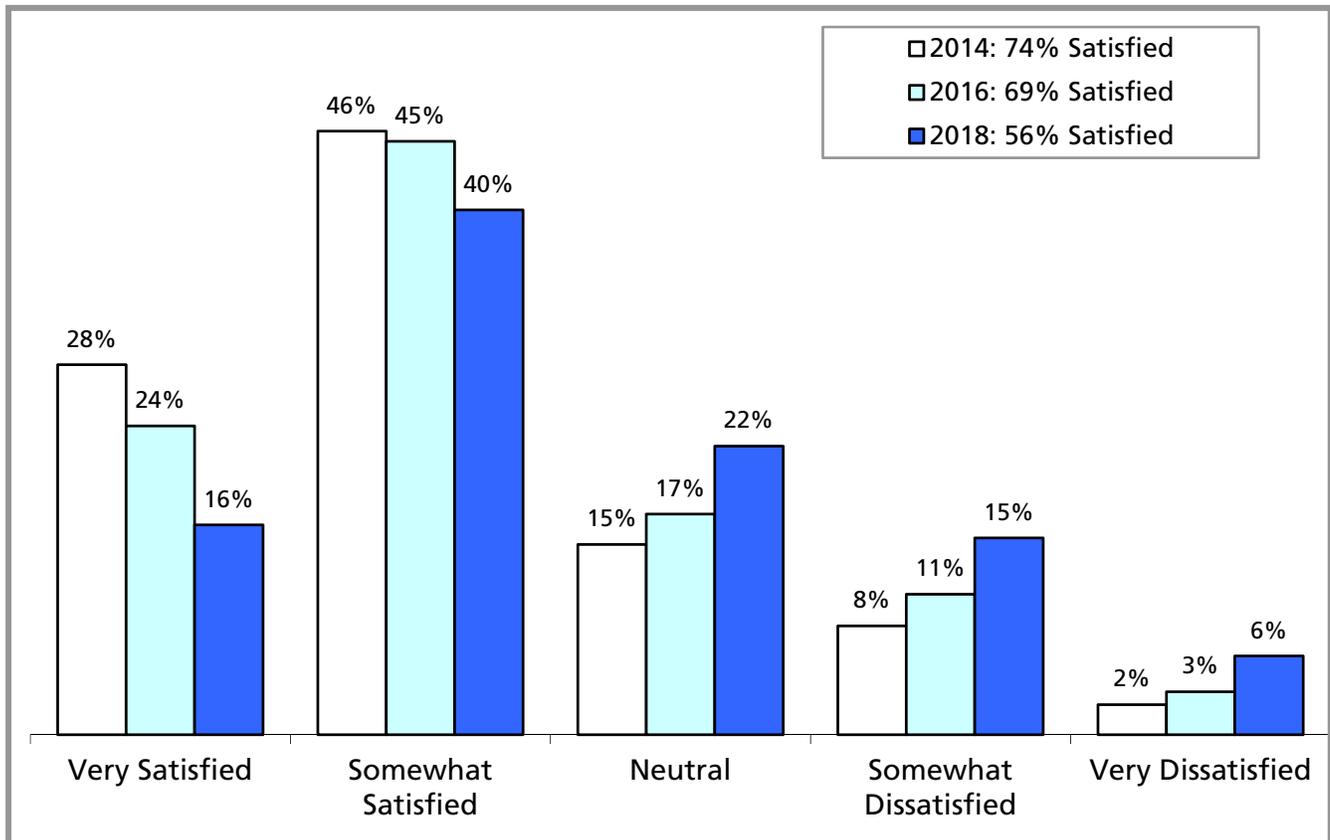

Many projects to renew the aging system are underway, funded by voter-approved Measure RR.

At the beginning of the survey period, a critical section of track between 19<sup>th</sup> St. Oakland and West Oakland was rebuilt over the course of four weekends. Projects like this, while behind-the-scenes, will help to improve the system's reliability for years to come. Another renovation project that customers will begin to see in 2020 is a massive escalator replacement project. A total of 41 escalators in downtown San Francisco will be replaced, resulting in more reliable escalators at the system's busiest stations.

# DETAILED RESULTS

## OVERALL SATISFACTION - TRENDING (2014 / 2016 / 2018 Comparison)

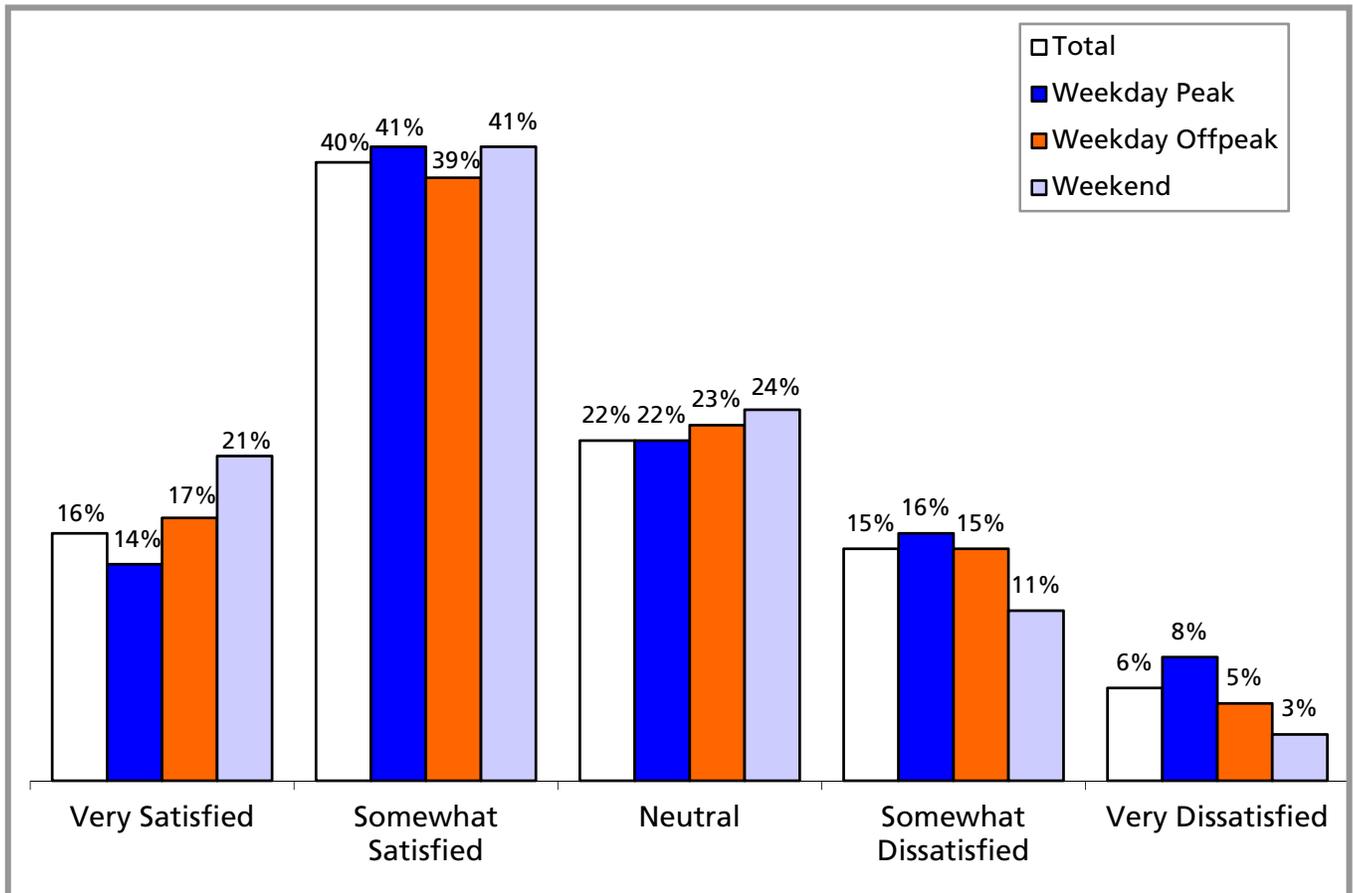

Overall satisfaction measured by those who are **very satisfied** or **somewhat satisfied** has dropped to 56% in 2018, down from 69% in 2016 and 74% in 2014. This was driven by declines in both those who are **very satisfied** and **somewhat satisfied**.

## 2018 OVERALL SATISFACTION

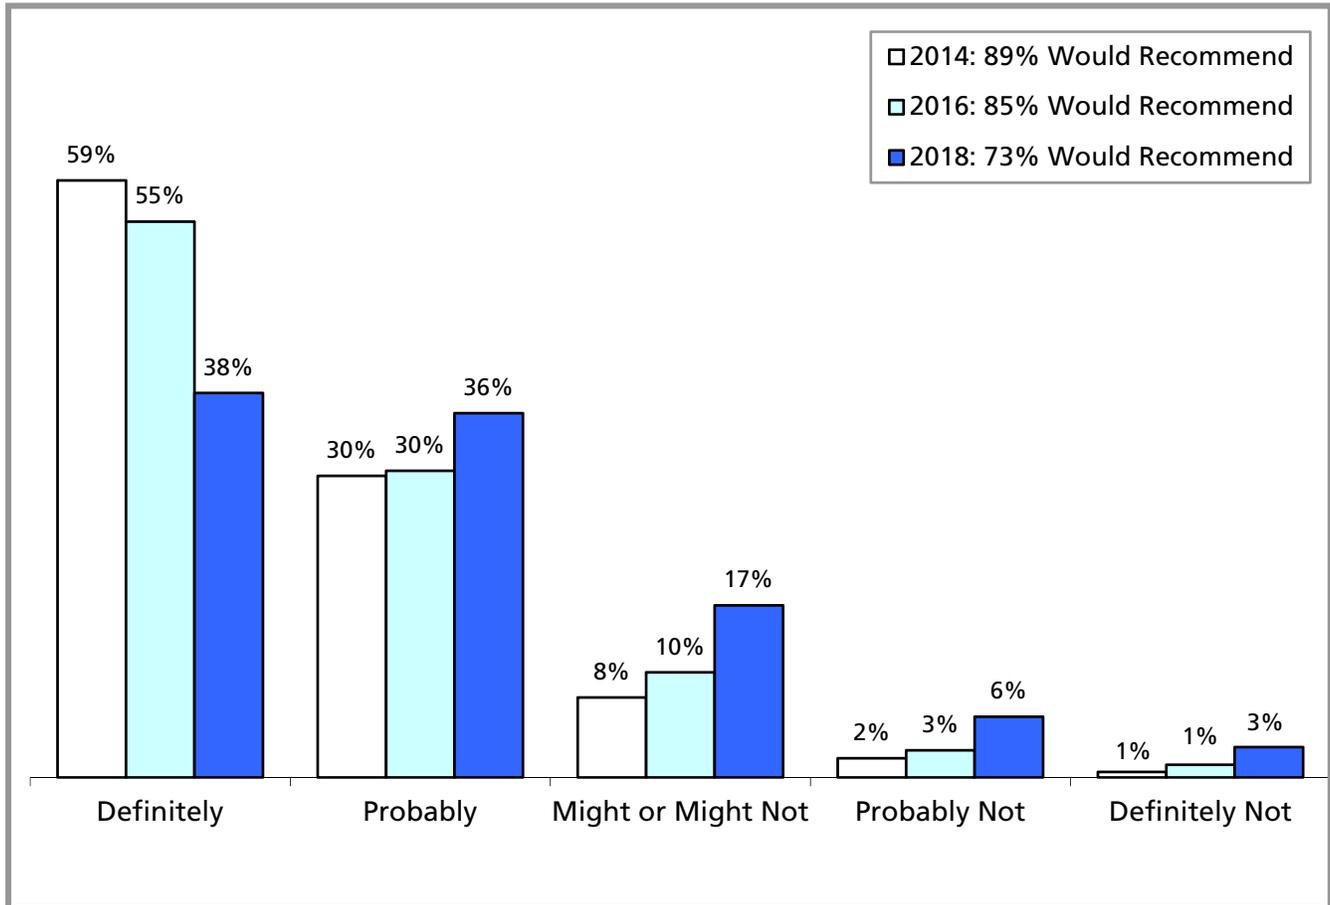

### (Peak / Off-Peak / Weekend Comparison)

While overall satisfaction is at 56%, there are some differences among customers who ride during different time periods, most notably that weekend riders tend to be more satisfied than weekday riders.

## WILLINGNESS TO RECOMMEND BART - TRENDING (2014 / 2016 / 2018 Comparison)

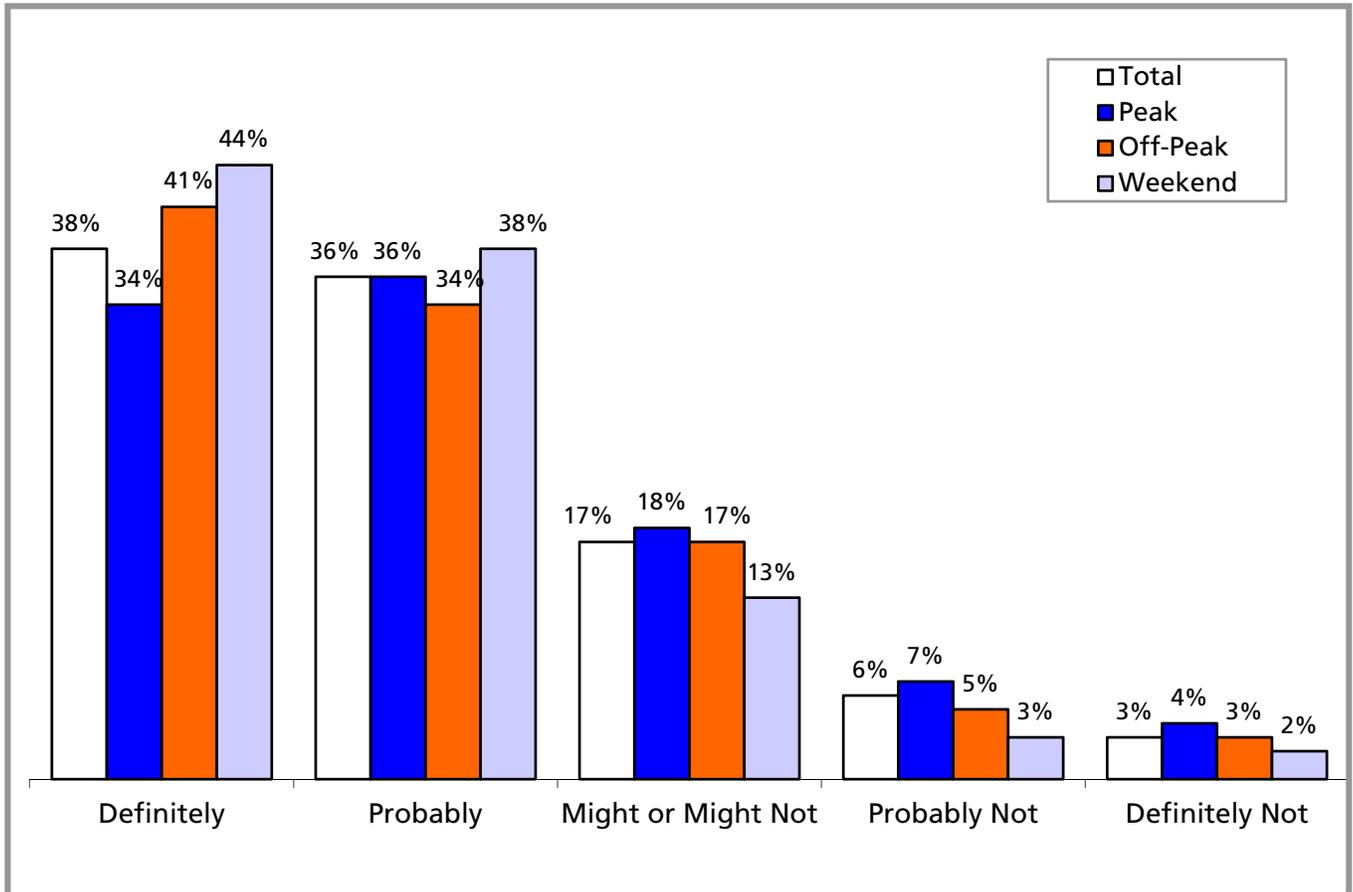

Overall willingness to recommend BART continued to decline in 2018, driven by a decline in the “definitely” recommend category.

## 2018 WILLINGNESS TO RECOMMEND BART

(Peak / Off-Peak / Weekend Comparison)

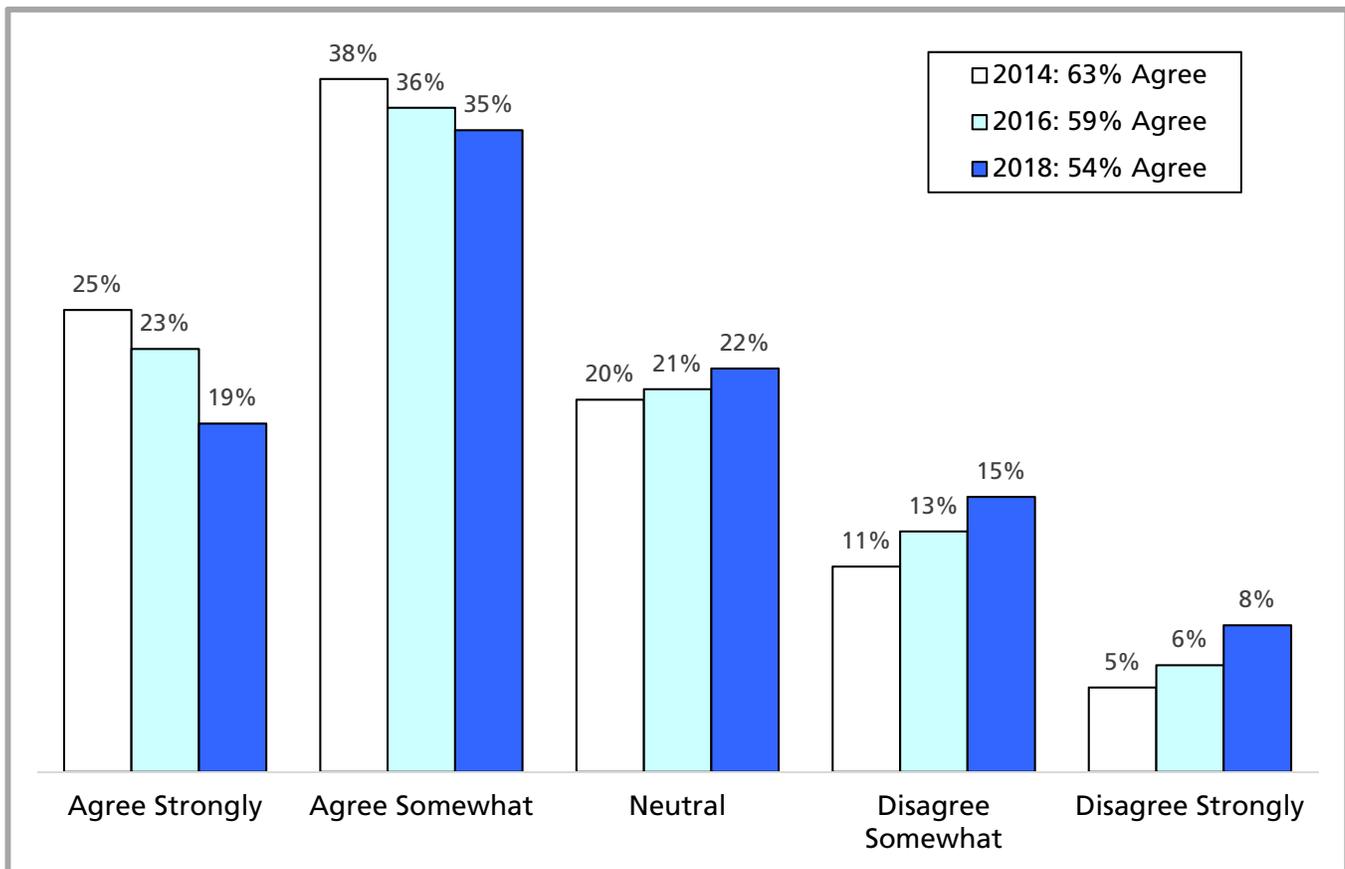

Peak period customers are less likely to definitely recommend BART than off-peak and weekend riders.

## PERCEPTION OF BART AS GOOD VALUE - TRENDING (2014 / 2016 / 2018 Comparison)

While greater than half (54%) see BART as a good value, this rating has declined since 2014. In 2018, the decline was primarily driven by a drop in the “Agree strongly” category.

“Value” has two components – satisfaction and price. Since the decline here is not as steep as the decline in overall satisfaction, the decline may have been tempered by the fact that fares have increased less than the rate of inflation.

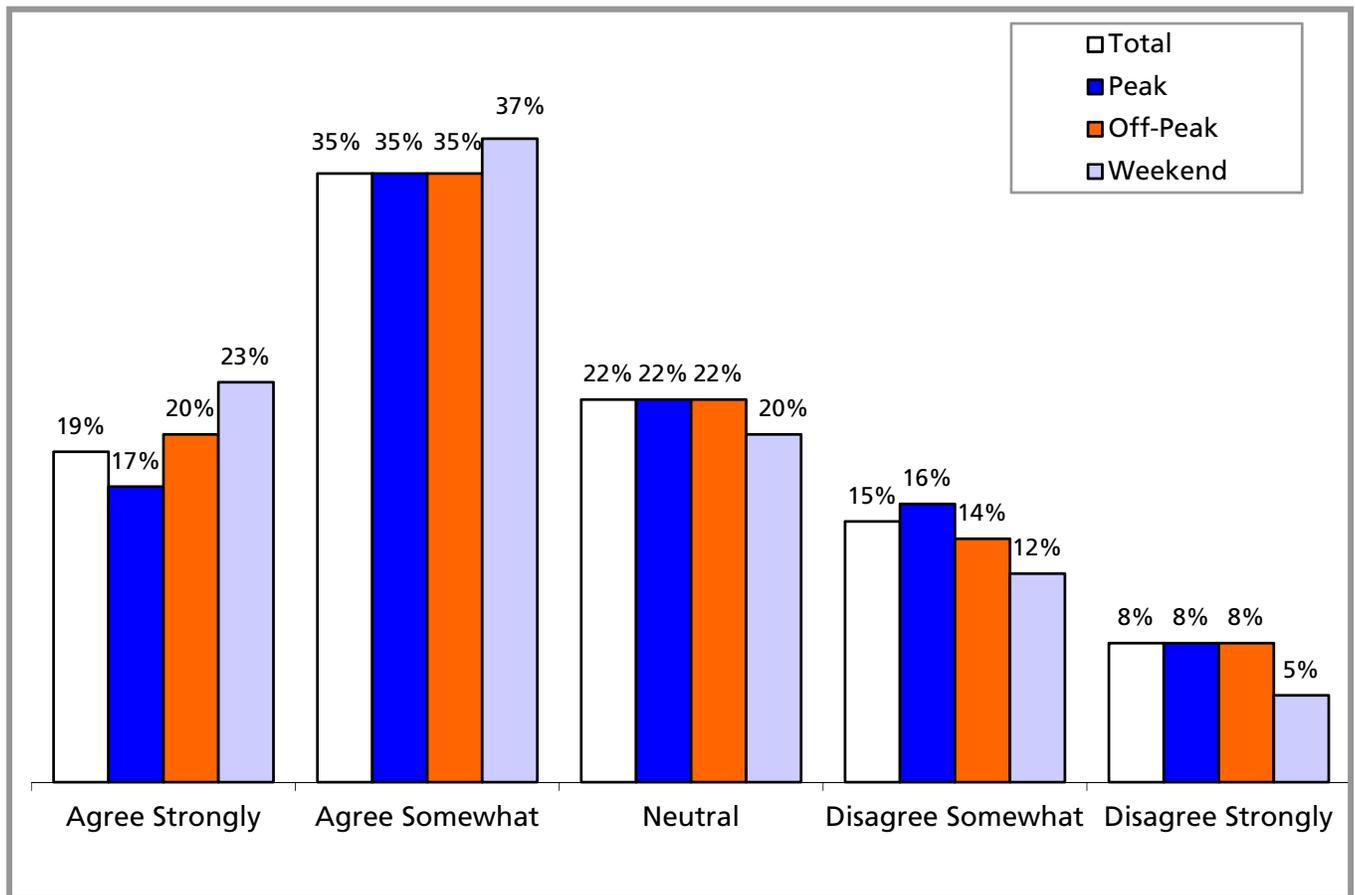

## 2018 PERCEPTION OF BART AS GOOD VALUE

### (Peak / Off-Peak / Weekend Comparison)

Fewer peak period riders agree strongly that BART is a good value for the money, as compared to off-peak and weekend customers.

Peak period customers generally ride BART five or more days per week, so the aggregate fares they pay far exceed fares paid by off-peak and weekend customers. While off-peak and weekend customers generally ride BART less frequently, they are a much larger group of people overall and are an important part of public support for the BART system.

## SPECIFIC SERVICE ATTRIBUTES

In the 2018 survey, customers rated BART on 46 specific service attributes. The chart on the opposite page shows mean ratings for each of these 46 service attributes. Items appearing towards the top of the chart are rated highest, while items appearing at the bottom are rated lowest. The average rating (on a scale from 1 = Poor to 7 = Excellent) is shown next to the bar for each item. Given the large sample sizes, mean ratings are generally accurate to within  $\pm 0.05$  at a 95% confidence level.

BART received the highest ratings for:

- Clipper cards
- Availability of maps and schedules
- BART tickets
- bart.gov website
- On-time performance

BART received the lowest ratings for:

- Addressing homelessness on the BART system
- Restroom cleanliness
- Presence of BART Police on trains
- Elevator cleanliness
- Enforcement against fare evasion

Note that the lowest rated attribute “Addressing homelessness on the BART system” was a new attribute added to the 2018 questionnaire.

For a chart showing the percentage results, please see Appendix D.

## 2018 RATING OF SPECIFIC SERVICE ATTRIBUTES

Mean Rating (7-point scale)

Clipper cards	5.91
Availability of maps and schedules	5.58
BART tickets	5.32
bart.gov website	5.29
On-time performance of trains	5.21
Timeliness of connections b/t BART trains	5.17
Hours of operation	5.15
Timely information about service disruptions	5.02
Availability of bicycle parking	4.96
Frequency of train service	4.96
Reliability of ticket vending machines	4.96
Signs with transfer / platform / exit directions	4.93
Length of lines at exit gates	4.89
Reliability of faregates	4.88
Access for people with disabilities	4.80
Timeliness of connections with other transit	4.80
Lighting in parking lots	4.74
Comfort of seats on trains	4.62
Helpfulness and courtesy of Station Agents	4.56
Availability of standing room on trains	4.49
BART system kept free of graffiti	4.40
Availability of car parking	4.24
Appearance of train exterior	4.24
Availability of Station Agents	4.23
Comfortable temperature aboard trains	4.15
Escalator availability and reliability	4.12
Elevator availability and reliability	4.08
Stations - Overall condition / state of repair	4.08
Clarity of public address announcements	4.00
Condition / cleanliness of windows on trains	3.97
Avail. space on trains for luggage, bikes, strollers	3.83
Condition / cleanliness of seats on trains	3.80
Noise level on trains	3.80
Availability of seats on trains	3.76
Train interior cleanliness	3.65
Personal security in the BART system	3.58
Station cleanliness	3.57
Condition / cleanliness of floors on trains	3.54
Enforcement of no eating and drinking policy	3.48
Presence of BART Police in stations	3.45
Presence of BART Police outside stations	3.41
Enforcement against fare evasion	3.36
Elevator cleanliness	3.35
Presence of BART Police on trains	3.08
Restroom cleanliness	3.01
Addressing homelessness on the BART system	2.85

Among the 46 attributes, 29 showed statistically significant declines between 2016 and 2018. Of the remaining 17 attributes, five showed statistically significant increases, nine were essentially flat (changes were not statistically significant), and three were not asked in 2016.

The chart in the next sub-section shows the percent change in the mean rating from 2016 to 2018. For details on statistical significance, refer to Appendix C.

The attributes with the largest declines were:

- Enforcement against fare evasion (-19.8%)
- Personal security in the BART system (-16.4%)
- Presence of BART Police in stations (-14.6%)
- Train interior cleanliness (14.1%)
- Condition / cleanliness of floors on trains (-12.6%)
- Presence of BART Police on trains (-12.3%)

The attributes with statistically significant increases were:

- Noise level on trains (+3.5%)
- Hours of operation (+3.0%)
- bart.gov website (+2.9%)
- Availability of standing room on trains (+2.0%)
- Clipper cards (+1.0%)

*Fare evasion* is increasingly a concern of BART customers. This issue not only results in lost revenue that can't be reinvested in the BART system, but also in other issues that impact the BART customer experience when those who don't pay their fare also break other BART rules. BART has put considerable effort into addressing this issue, including implementing a Proof-of-Payment system and investing in station hardening throughout the system.

The Proof-of-Payment system requires that passengers show their valid Clipper card or BART ticket upon request by authorized BART personnel, and went into effect in January 2018. BART's budget for this year includes hiring four additional fare inspectors in support of this effort.

Station hardening efforts include raising railings, securing swing gates, moving elevators into paid areas, installing escalator canopies, and modifying faregates. It is expected that over half of BART stations will be hardened by the end of June 2020.

While violent crime on BART is rare, riders' perceptions of *personal security* have been impacted both by high profile incidents and quality of life issues that impact how safe they feel on BART. Passengers also commented on the survey about situations that made them feel unsafe on or near BART property, involving drug use and other criminal activity, untreated mental illness, fare evasion, homelessness, and panhandling.

Looking at ratings of other attributes on the survey, the following were correlated with personal security in the BART system: police presence (in stations, outside of stations, on trains), enforcement against fare evasion, and addressing homelessness on the BART system.

To address personal security, BART's current budget has prioritized quality of life issues, with funding to hire 19 additional police officers. Also included is continued funding to support and expand homeless outreach programs, as well as elevator attendants at additional downtown San Francisco stations. (The attendant program has virtually eliminated inappropriate behavior in

the elevators at stations where it's been implemented.)

With regards to the *police presence* attributes, these are associated with riders' feelings of personal security as noted above. BART is addressing this issue by stepping up efforts and offering hiring bonuses to recruit new police officers – both to reduce the vacancy rate, as well as to expand the force. By spring of 2019, BART had reduced the vacancy rate on its police force from a high of 41 down to 20. And, as noted above, funding has been allocated to hire an additional 19 police officers, a significant investment toward increasing police presence systemwide.

With regards to *train cleanliness* attributes, customer comments indicated that issues pertaining to homelessness, biohazards, and unpleasant smells contributed to their low ratings. BART implemented rapid response train cleaners in 2018 to address cleanliness issues requiring immediate attention. Cleaners are positioned on specific mid-line station platforms, where they can quickly intercept a train and clean messes from cars as reports come in. This is in addition to end of line train car cleaners who walk the length of each car at the end of a run. BART also added a feature to its website, mobile website, and app where riders can easily report biohazards.

Looking at the attributes with rating increases, customers gave higher ratings to *noise level on trains*. BART has made substantial progress in reducing train noise by implementing a new wheel "profile," or shape. This new tapered profile is designed to reduce wear and damage to the rail, thus reducing noise. At the start of the survey period, most of BART's legacy fleet (84%) had been converted to the new wheel profile, and the remainder was completed by December 2018. (All of BART's new Fleet of the Future train cars have the new wheel profile.) To take full advantage of the benefits of the new wheel profile, BART will continue to grind the rail to optimize its fit with the new wheels. As of summer 2019, 36% of the rail work had been completed.

With regard to *availability of standing room on trains*, BART modified more than half (57%) of its legacy fleet to increase capacity by removing seven seats. This modification was completed in summer 2017. Also, as more Fleet of the Future cars continue to come online, trains can be lengthened to reduce crowding.

## SERVICE ATTRIBUTE RATINGS: PERCENTAGE CHANGES

### 2018 vs. 2016 comparisons (sorted in ascending order on % change)

<b>SCALE: 1 = Poor, 7 = Excellent</b>	<b>2018 Mean</b>	<b>2016 Mean</b>	<b>Difference</b>	<b>% Change (mean)</b>	<b>Statistically Significant at 95% Conf. Level?</b>
Enforcement against fare evasion	3.36	4.19	-0.83	-19.8%	yes
Personal security in the BART system	3.58	4.28	-0.70	-16.4%	yes

Length of lines at exit gates	4.89	4.85	0.04	0.8%	no
Clipper cards	5.91	5.85	0.06	1.0%	yes
Availability of standing room on trains	4.49	4.40	0.09	2.0%	yes
bart.gov website	5.29	5.14	0.15	2.9%	yes
Hours of operation	5.15	5.00	0.15	3.0%	yes
Noise level on trains	3.80	3.67	0.13	3.5%	yes
BART system kept free of graffiti^	4.40			Not asked in 2016	
Presence of BART Police outside stations^	3.41			Not asked in 2016	
Addressing homelessness on the BART system	2.85			Not asked in 2016	

\* In 2016, this was listed as "Timeliness of connections with buses."

^ Similar attributes were used in 2016, but they are not compared due to the text changes. In 2016, there were two attributes for graffiti: "Stations kept free of graffiti" and "Train interior kept free of graffiti." In 2016, the attribute regarding police outside of stations was phrased as "Presence of BART Police in parking lots."

## QUADRANT ANALYSIS

The chart on page 21 (titled "2018 Quadrant Chart") is designed to help set priorities for future initiatives to improve customer satisfaction. This chart quantifies how important each service characteristic appears to be from a customer perspective (using the vertical axis) and shows the average customer rating for each characteristic (using the horizontal axis). For a more detailed description of how this chart is derived, see Appendix G.

The vertical axis crosses the horizontal axis at the average (mean) performance rating from the benchmark survey in 1996. This vertical axis has remained in this location in all subsequent surveys so that Quadrant Charts can easily be compared year-to-year.

The "Target Issues" quadrant identifies those service attributes which appear to be most important, but which receive relatively low ratings from BART riders. Based on the vertical axis used since 1996, target issues include the 20 attributes listed below. Compared to the 2016 chart, there are six new target issues, which are identified in bold type below. These six new target issues include two of the three new attributes (identified with asterisks) that were added to the 2018 questionnaire.

- Station condition / state of repair
- Condition / cleanliness of seats on trains
- Train interior cleanliness
- Personal security in the BART system
- Condition / cleanliness of floors on trains
- Station cleanliness
- Availability of seats on trains
- Availability of standing room on trains
- Comfortable temperature aboard trains
- **Comfort of seats on trains**
- Availability of space on trains for luggage, bicycles, and strollers
- **Elevator cleanliness**
- **Restroom cleanliness**
- **Condition / cleanliness of windows on trains**
- Presence of BART Police in stations
- Appearance of train exterior
- **Presence of BART Police outside stations\***
- **Addressing homelessness on the BART system\***
- Elevator availability and reliability
- Escalator availability and reliability

\*These attributes were added to the 2018 questionnaire. Note that "Presence of BART Police outside stations" replaced "Presence of BART Police in parking lots." "Presence of BART Police in parking lots" also appeared as a Target Issue in the 2016 quadrant chart.

In looking at the types of attributes in the Target Issues quadrant, they can be categorized into three groups – related to quality of life, train cars / capacity, or elevators / escalators.

1. Those that are deepest into the Target Issues quadrant (rated lowest and/or of highest importance) tend to be those related to quality of life issues, such as addressing homelessness, police presence, personal security, and cleanliness. These issues are the focus of numerous BART initiatives this year, including expanding the Homeless Outreach Teams<sup>3</sup> to include all four of BART’s counties, hiring 19 additional police officers, expanding the elevator attendant program to all four downtown San Francisco stations<sup>4</sup>, continuing funding for street level public restrooms (“Pit Stops”) at four San Francisco stations, and hiring 15 additional station cleaners to bolster BART’s revamped cleaning efforts, which include focused overnight cleanings of the system’s busiest stations.
2. Those related to train cars and capacity include seat availability, standing room availability, and train temperature. Many of these will be addressed as the new Fleet of the Future cars allow BART to increase the number of cars in service over the next few years. The new cars also have improved cooling systems that distribute air directly from the ceilings, making it more comfortable for standees on hot days.
3. The third group includes escalator and elevator availability and reliability. These are the focus of many capital improvement projects over the next several years, including a massive escalator renovation project. The renovation project will replace 41 of the system’s most heavily used escalators in downtown San Francisco, which regularly malfunction. Canopies are also planned for high use escalators; these facilitate more reliable escalators by keeping them cleaner and better protected from the elements. As for elevators, BART plans to install new elevators in the four downtown San Francisco stations and move them into the paid area, which will also help with fare evasion.

Although not a Target Issue, it is interesting to note that *on-time performance* (in the upper right quadrant) decreased substantially in importance vs. prior years. This may be the result of a combination of two factors: many quality of life issues have increased in importance, overshadowing on-time performance, and BART’s actual on-time performance has improved a bit vs. two years ago (based on internal tracking metrics).

For comparison purposes, the 2016 Quadrant Chart is included after the 2018 chart.

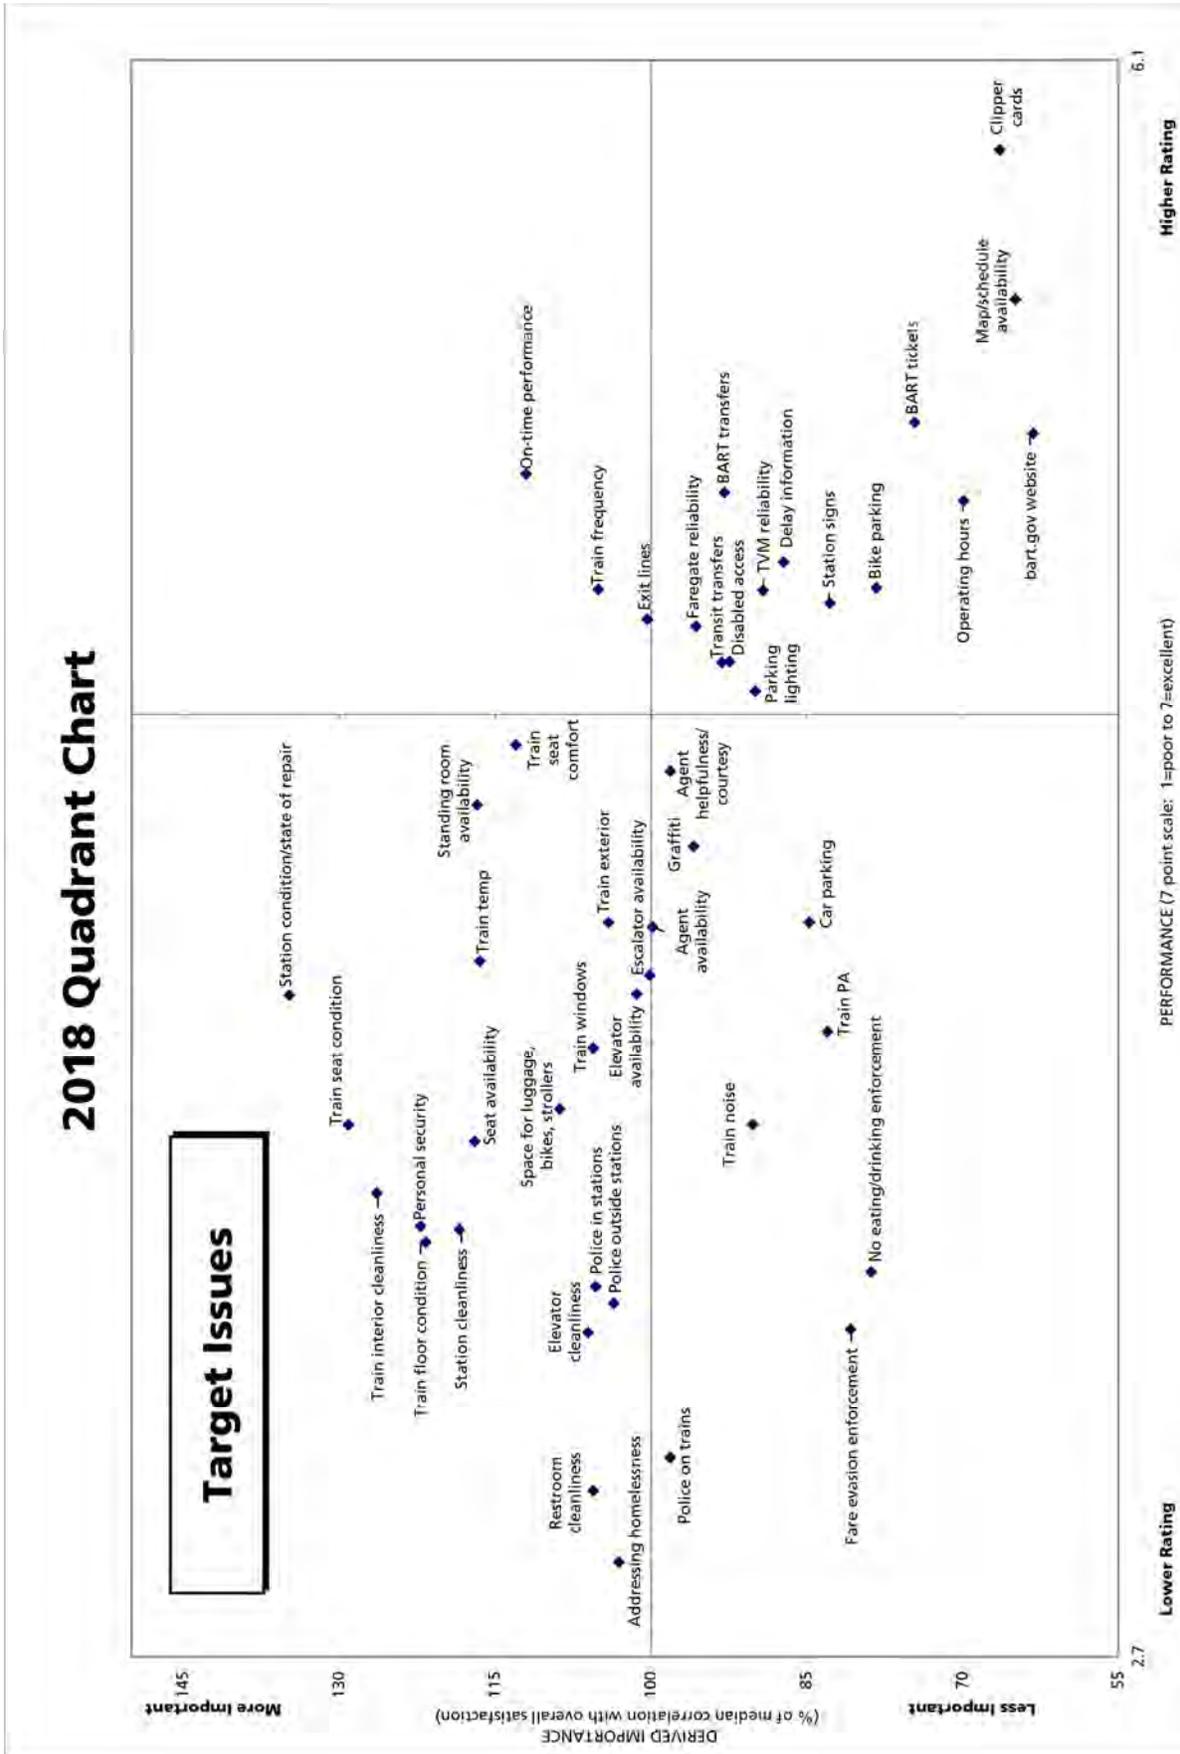

Notes:

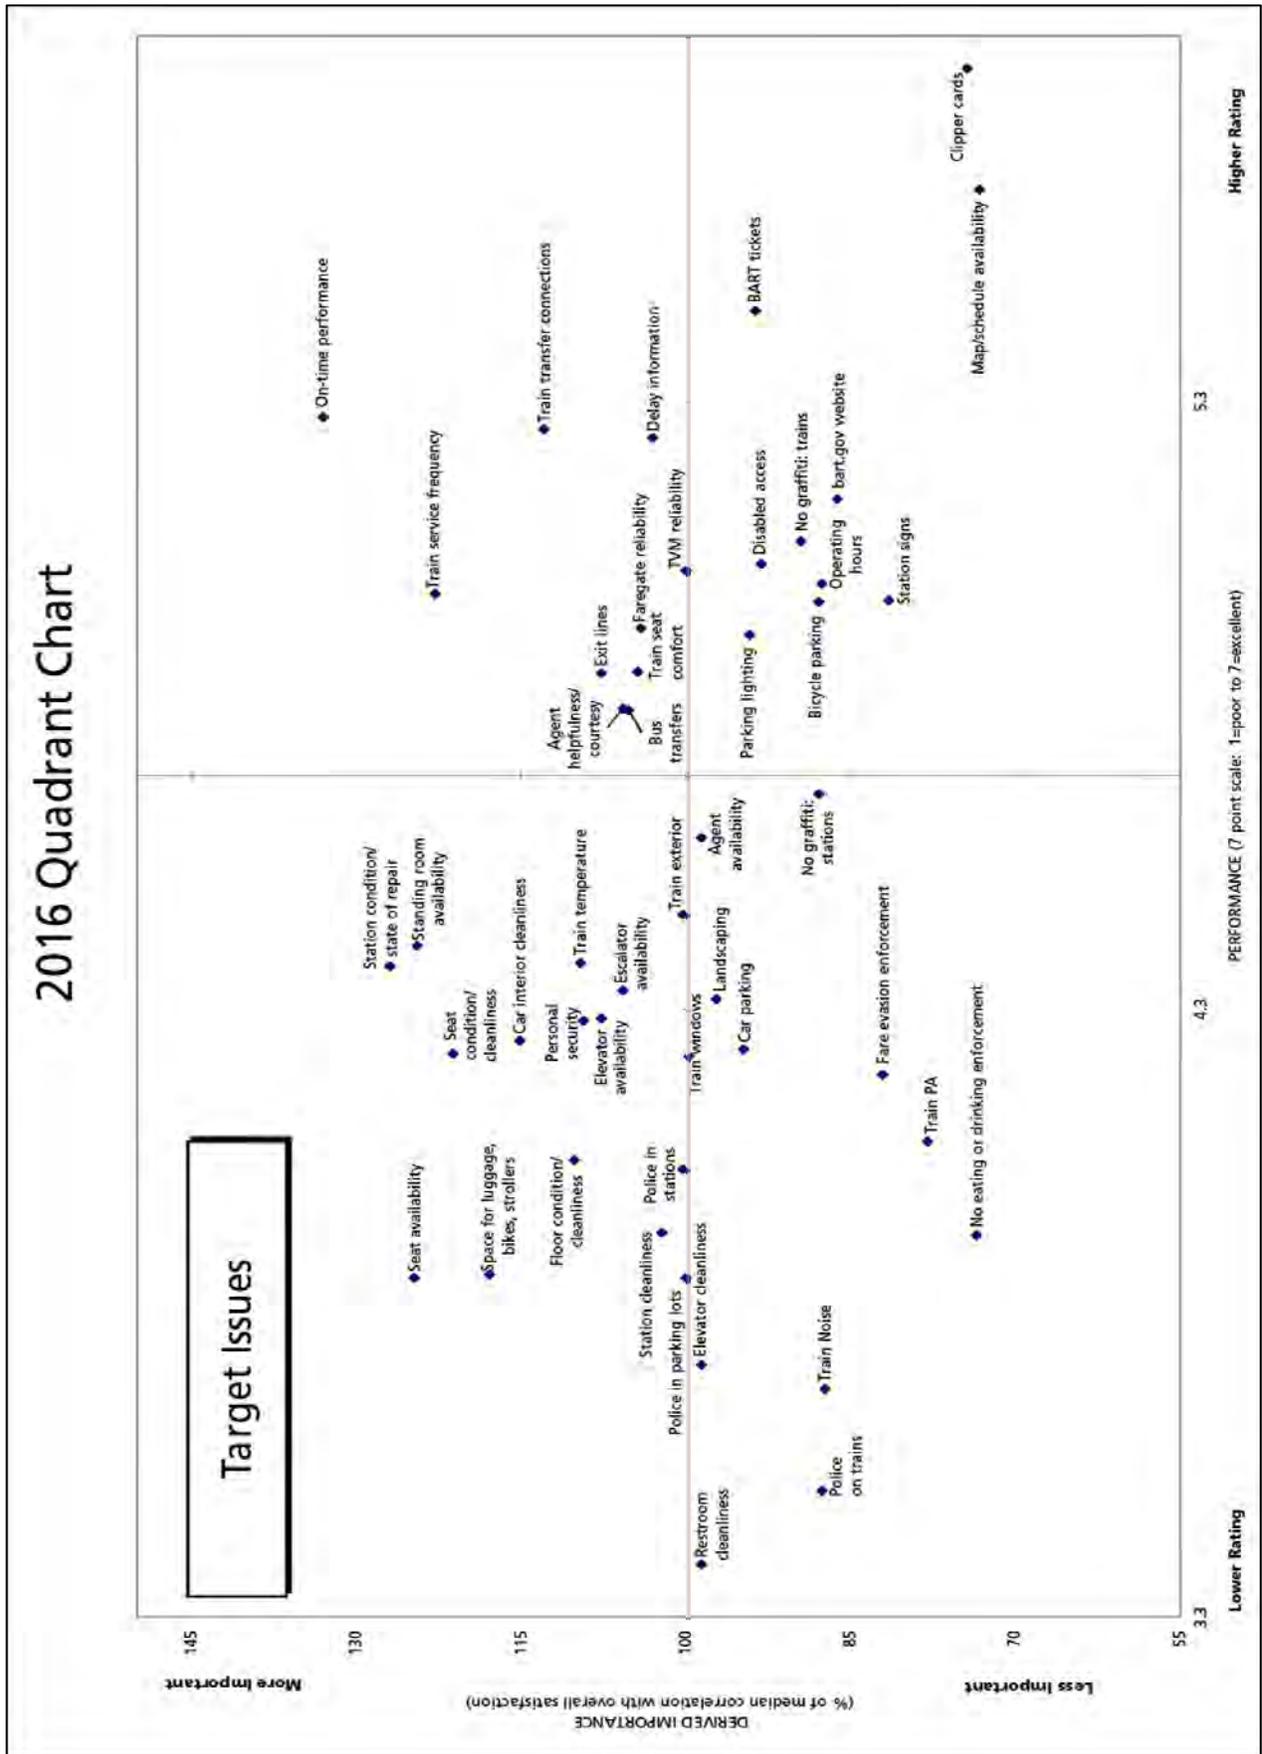

- The vertical axis on the charts is based on using a mean statistic of 4.685 - the average mean score of all the attributes for the 1996 benchmark study.
- The horizontal axis differs slightly on the 2018 chart, where the maximum is 6.1 and the minimum is 2.7. It was set at 5.9/3.3 in 2016.

---

<sup>3</sup>The Homeless Outreach Teams (HOT) consist of outreach workers who connect homeless individuals on or near BART with needed social services. They initially focused on the four downtown SF stations, but have since expanded to the Mission District, Contra Costa County, Alameda County, and San Mateo County.

<sup>4</sup> The elevator attendant program, started in April 2018 at Powell and Civic Center stations, has virtually eliminated inappropriate behavior in elevators and has been very well-received by BART customers.

*This page intentionally left blank.*

## SATISFACTION TRENDS

The chart on the next page shows overall satisfaction ratings from 1996 – 2018 on the primary axis. Average weekday ridership for September of each year is shown on the secondary axis. The chart is further annotated to show some significant factors impacting customer perceptions and use of BART.

In 1996, 80% of customers were satisfied with BART. Two years later customer satisfaction had dropped to 74%. The events most likely to influence customer satisfaction, which took place in between the two surveys, were a large fare increase (the third since 1995), a work stoppage, and aging equipment. Also, the effects of a \$1.2 billion renovation program began to be felt during this period. Customer satisfaction often suffers at the beginning of a renovation program because service is impacted by cars, escalators, and elevators being taken off-line.

By 2002, customer satisfaction was back up to 80%, and in 2004, BART registered an all-time high rating of 86%. Factors that increased satisfaction probably included keeping fare increases relatively small, the opening of the extension to the San Francisco International Airport, the introduction of permit parking, and the completed renovation of cars, escalators, elevators, and fare collection equipment.

Between 2006 and 2012, satisfaction remained at a high level, reflecting residual effects of the earlier improvements.

In 2008, ridership surged as gas prices rose, and a fire in the Hayward train yard in May impacted riders on the Fremont line. However, BART improved train interior cleanliness and increased evening and Sunday train frequency beginning January 1, 2008.

Between the 2008 and 2010 surveys, BART ridership dropped 7% reflecting the impacts of the longest recession since World War II, running from December 2007 through June 2009. Between these two survey periods, unemployment in the three-county BART District rose from 6.3% to 10.6%. BART implemented a 6.1% fare increase in July 2009, six months earlier than anticipated, in order to help close a budget deficit.<sup>5</sup> In addition, BART reduced evening and Sunday train frequency in September 2009, effectively reversing the service increase implemented in 2008.

By the 2012 survey period, ridership had skyrocketed, topping 400,000 average weekday trips for the first time in BART's history (an increase of 14% vs. the 2010 survey period). The local economy was recovering, gas prices were on the rise, and BART customer satisfaction rebounded to 84%.

In 2014, overall satisfaction dropped ten points to 74%, as ridership surged (430,200 average weekday trips) on a system in dire need of renovation. Other factors which may have influenced customer satisfaction included two work stoppages in 2013, and fare and parking fee increases.

In 2016, overall satisfaction continued to erode, dropping to 69%. Ridership continued to grow, resulting in extremely crowded conditions and continuing to strain the aging system.

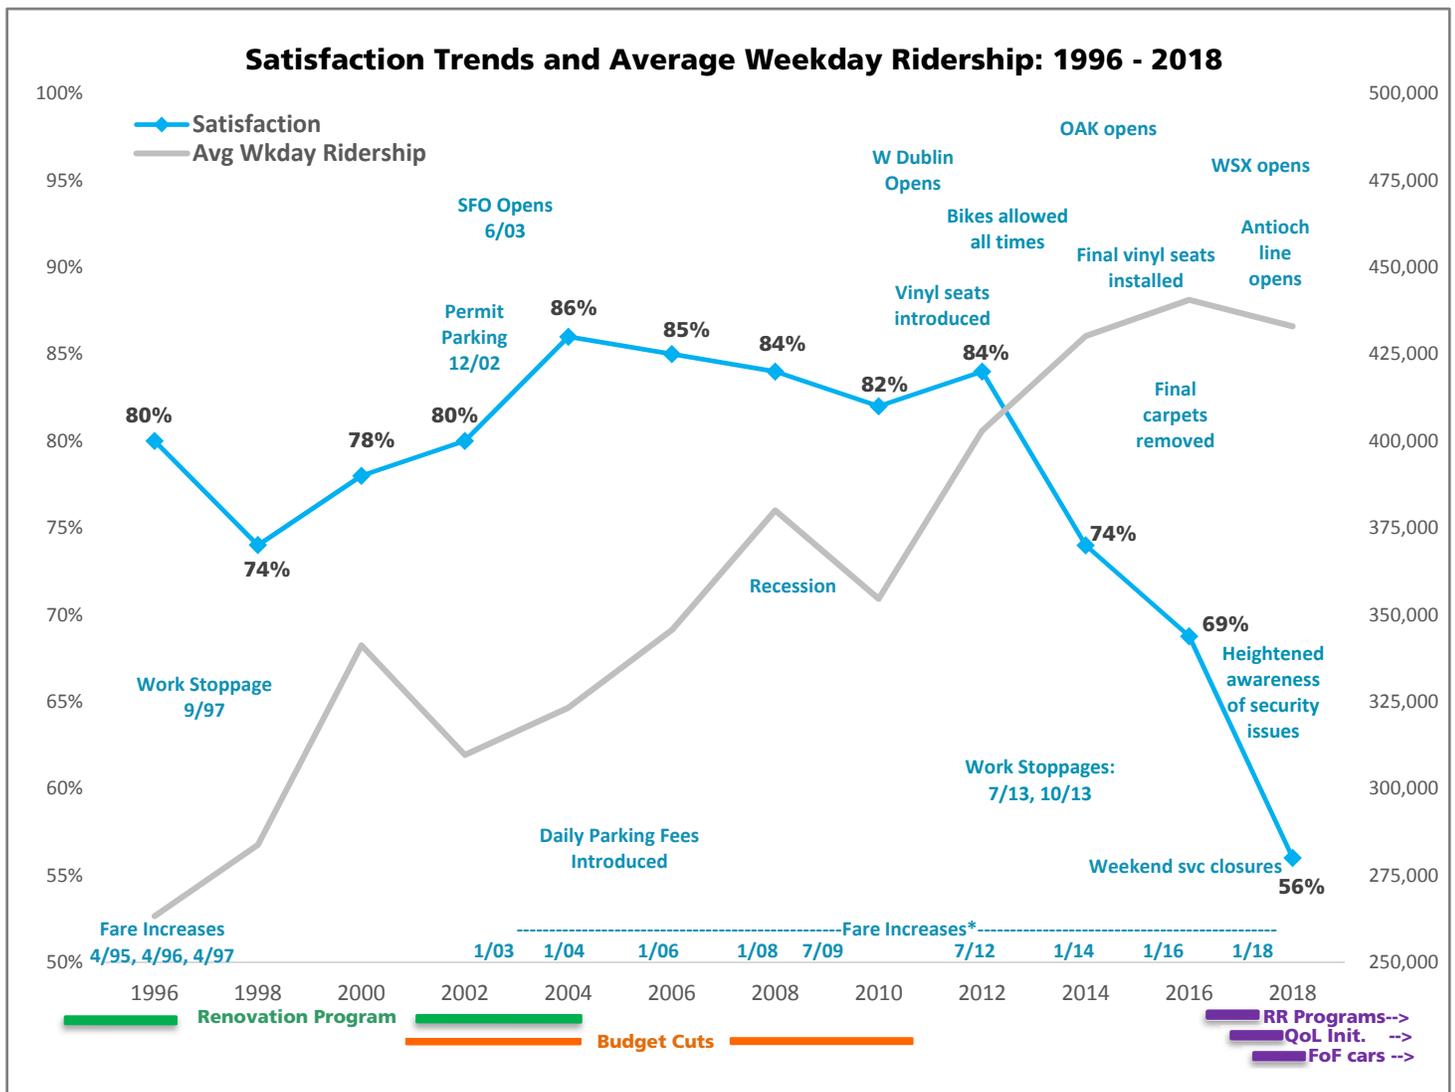

In 2018, overall satisfaction declined further to 56%. Although average weekday ridership has declined a bit to 433,000, it remains at historically high levels, and crowded conditions have persisted, straining the aging system. While new Fleet of the Future cars began to roll out in

---

<sup>5</sup> The 7/09 fare increase of 6.1% does not include the minimum fare increase (+\$0.25) or the SFO premium fare increase (+\$2.50).

January 2018, there was only one new train in revenue service at the time of the survey, so crowding relief had yet to be realized. Additionally, the quality of life issues that have greatly impacted the Bay Area in the past few years, specifically those stemming from increased homelessness, the opioid crisis, and untreated mental illness, have also impacted BART. Many comments from riders regarding cleanliness and perceptions of personal security are related to these issues.

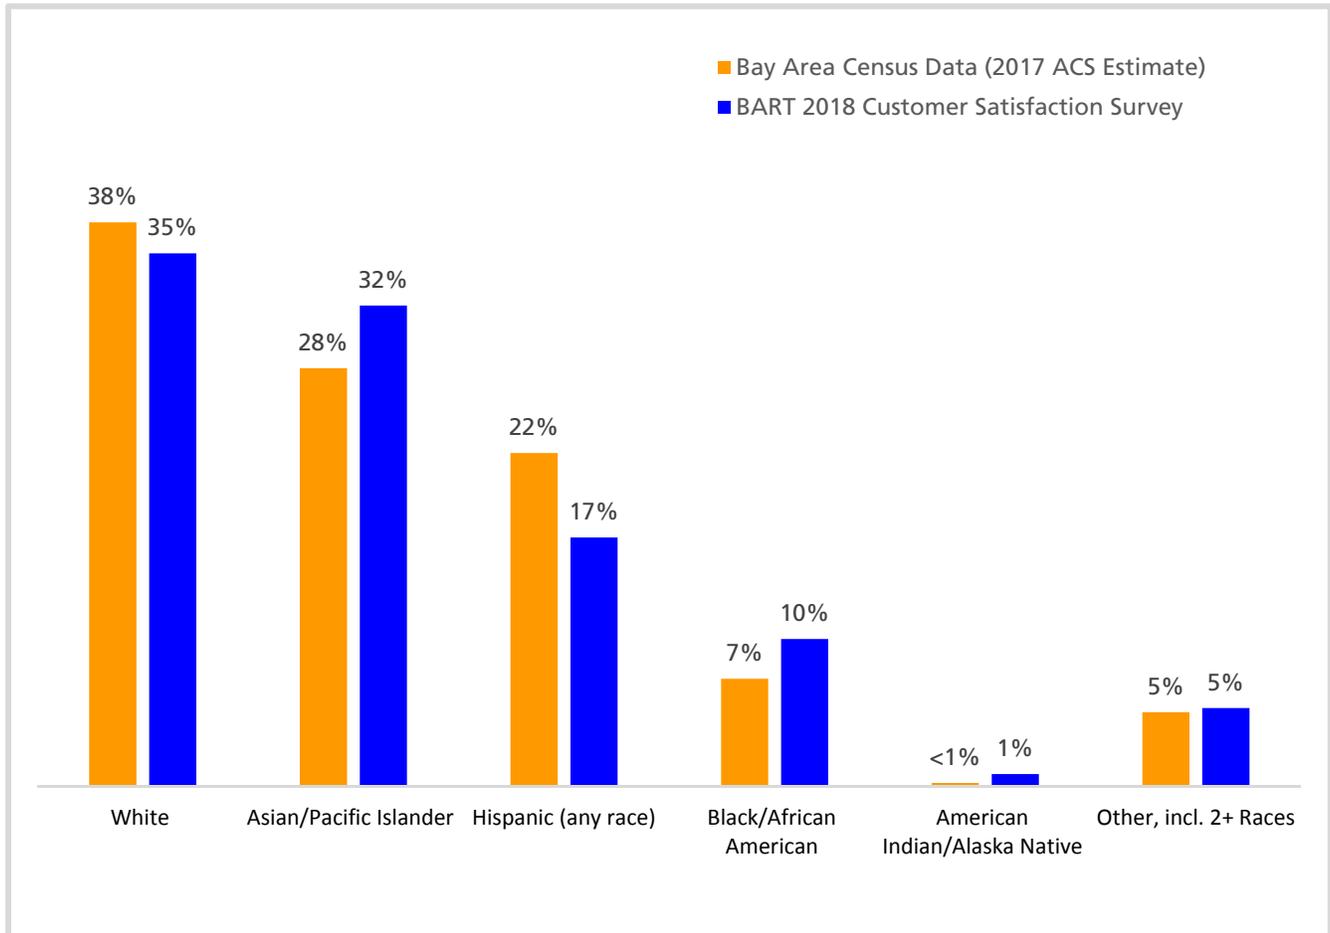

Going forward, funding from Measure RR (approved by voters in November 2016) will help to rebuild BART, with a focus on repairing and replacing critical safety infrastructure. (For details about Measure RR projects, refer to the annual reports available at [bart.gov/reports](http://bart.gov/reports).) Other efforts underway to improve the customer experience include an increased focus on quality of life issues, including funding to hire 19 additional police officers, as well as to expand Homeless Outreach Teams to cover all four counties in BART’s service area. Also expected to improve customer satisfaction is the steady roll out of new Fleet of the Future cars. As of summer 2019, six new trains are in revenue service.

\*Average fare increases were as follows: 4/95: 15%; 4/96: 13%; 4/97: 11.4%; 1/03: 5%; 1/04: 10%; 1/06: 3.7%; 1/08: 5.4%; 7/09: 6.1%; 7/12: 1.4%; 1/14: 5.2%; 1/16: 3.4%; 1/18: 2.7%. The 2006 fare increase of 3.7% doesn't include an additional \$0.10 capital surcharge. The 2009 fare increase of 6.1% doesn't include the minimum fare increase (+\$0.25) or the SFO premium fare increase (+\$2.50). The 2018 fare increase doesn't include the 50 cent charge per trip for BART blue tickets.

## BART CUSTOMER ETHNICITY COMPARED TO REGIONAL DATA

BART customers' ethnicities generally reflect the diversity of the Bay Area; however, the proportion of riders who are Asian or African American is slightly higher than their proportions of the BART service area population, while the reverse is true for Hispanic ridership.

Sources:

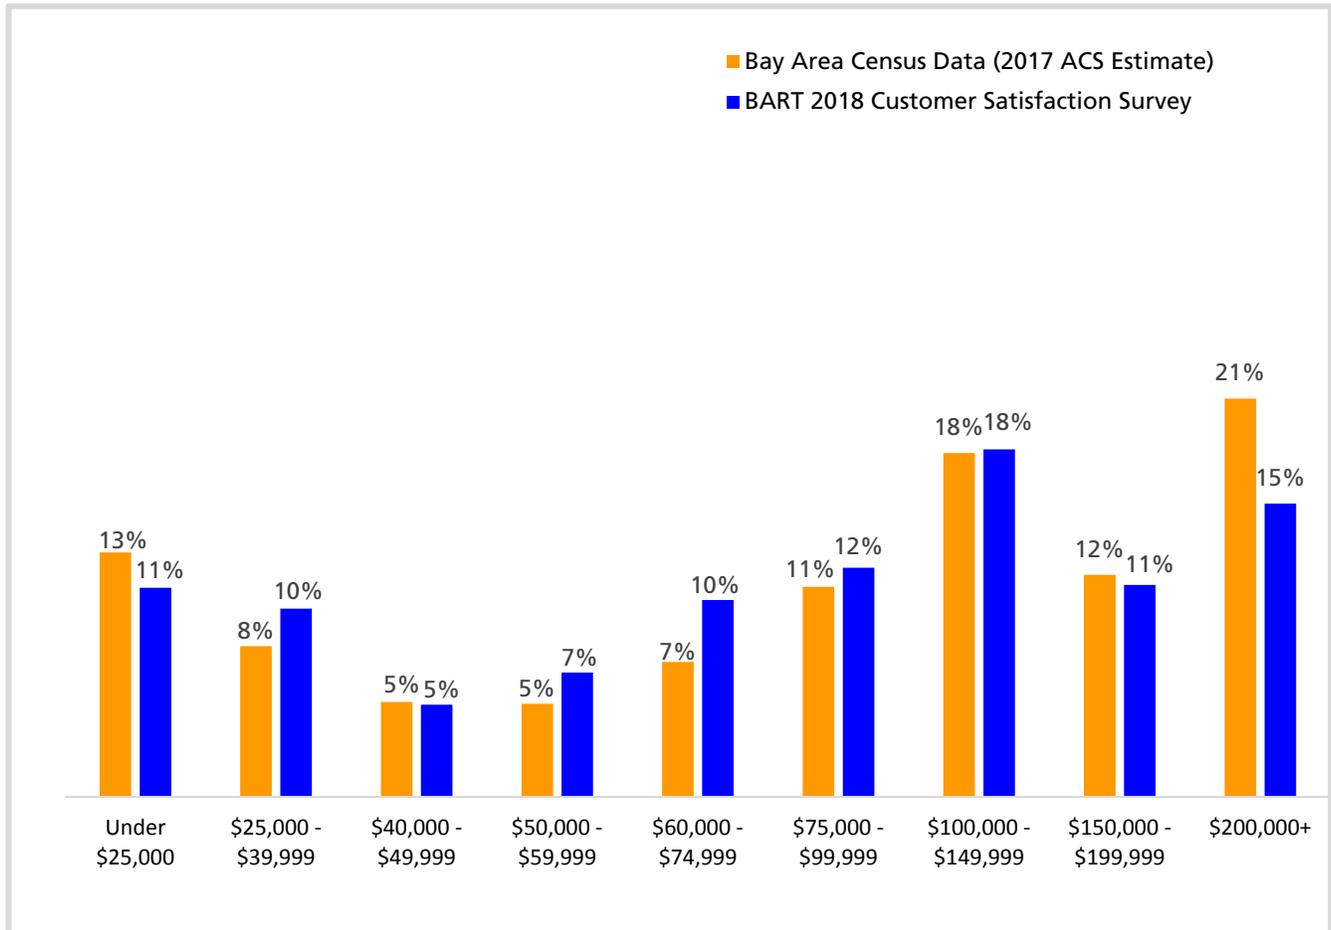

- U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates: Table C03002 "Hispanic or Latino Origin by Race." Universe: Total Population. (factfinder.census.gov)
- BART 2018 Customer Satisfaction Survey

Notes:

- 1) The ACS 2017 estimates shown only include data for the four counties within BART's service area: Alameda, Contra Costa, San Francisco, and San Mateo. Census tables adjust for unit non-response by weighting at the tract-level.
- 2) The categories shown in this chart classify respondents based on single vs. two-plus race and Hispanic vs. non-Hispanic. The categories "White," "Black/African American," "Asian/Pacific Islander," and "American Indian/Alaska Native" only include respondents who reported a single race and are non-Hispanic. All two-plus race, non-Hispanic responses are included within "Other." All Hispanic responses are included within Hispanic, regardless of race. Note that ethnicity data are categorized differently in other charts within this report, so the percentages shown will differ.
- 3) The BART data distribution is based on 5,114 responses and excludes 3% non-response.
- 4) Totals may not add to 100% due to rounding.

## BART CUSTOMER INCOMES COMPARED TO REGIONAL DATA

BART customers' household incomes approximately track regional household income distribution; however, there is a notable difference at the highest income level.

### Sources:

- U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates: B19001 "Household Income in the Past 12 Months." Universe: Households. (factfinder.census.gov)
- BART 2018 Customer Satisfaction Survey

### Notes:

- 1) The ACS 2017 estimates shown only include data for the four counties within BART's service area: Alameda, Contra Costa, San Francisco, and San Mateo. Census tables adjust for unit non-response by weighting at the tract-level.
- 2) The BART data distribution is based on 4,686 responses and excludes 11% non-response. Note that other tables within this report include non-response, so the percentages shown will differ.
- 3) Totals may not add to 100% due to rounding.

Please complete this survey and **hand it back to the survey coordinator**. If necessary, you can also mail the survey to: BART Marketing & Research, P.O. Box 12688, Oakland, CA 94604-2688.

**Grand Prize: Win an iPad!** Enter on back for a chance to win an iPad or one of four \$100 Clipper cards.

## USAGE OF BART

- Which BART station did you enter before boarding this train?  
 \_\_\_\_\_  
(Entry Station)
- About what time did you get on this train?  
 \_\_\_\_\_ : \_\_\_\_\_  
(Hour) (Minute)  AM  PM
- At which BART station will you exit the system?  
 \_\_\_\_\_  
(Exit Station)
- Are you transferring between BART trains on this trip?  
 No  Yes
- What is the **primary** purpose of this trip? *(Check only one)*

<input type="checkbox"/> Commute to / from work	<input type="checkbox"/> Medical / dental
<input type="checkbox"/> School	<input type="checkbox"/> Shopping
<input type="checkbox"/> Airplane trip	<input type="checkbox"/> Restaurant
<input type="checkbox"/> Sports event	<input type="checkbox"/> Theater or concert
<input type="checkbox"/> Visit friends / family	<input type="checkbox"/> Other: _____
- How did you travel between home and BART today?
 

<input type="checkbox"/> Walked all the way to BART	Where did you <b>park</b> ?
<input type="checkbox"/> Bicycled	
<input type="checkbox"/> Bus / transit	<input type="checkbox"/> BART parking <input type="checkbox"/> Other parking
<input type="checkbox"/> Drove alone	
<input type="checkbox"/> Carpooled	What fee, if any, did you <b>pay</b> to park?
<input type="checkbox"/> Dropped off	
<input type="checkbox"/> Uber, Lyft, etc.	<input type="checkbox"/> None / free <input type="checkbox"/> Single day reserved
<input type="checkbox"/> Taxi	<input type="checkbox"/> Daily fee <input type="checkbox"/> Monthly permit
<input type="checkbox"/> Other: _____	
- Did you use a **Clipper** card to pay for this BART trip?  
 No  Yes
- What **type of fare** did you pay for this BART trip? *(Check one)*

<input type="checkbox"/> Regular BART fare	<input type="checkbox"/> Senior discount
<input type="checkbox"/> High Value Discount (\$48 or \$64 value)	<input type="checkbox"/> Disabled discount
<input type="checkbox"/> Muni Fast Pass	<input type="checkbox"/> Youth discount
	<input type="checkbox"/> Other discount: _____
- After you boarded the train for this trip, did you **stand because seating was unavailable**?  
 No  
 Yes – whole trip  
 Yes – part of trip
- How long have you been riding BART?  
 This is my first time on BART  
 6 months or less  
 More than 6 months but less than 1 year  
 1 – 2 years  
 3 – 5 years  
 More than 5 years
- How often do you **currently** ride BART? *(Check one)*

<input type="checkbox"/> 6 – 7 days a week	About how many times a year? _____
<input type="checkbox"/> 5 days a week	
<input type="checkbox"/> 3 – 4 days a week	
<input type="checkbox"/> 1 – 2 days a week	
<input type="checkbox"/> 1 – 3 days a <b>month</b>	
<input type="checkbox"/> Less than once a <b>month</b>	

## OPINION OF BART

- Overall, how satisfied are you with the services provided by BART?  
 Very Satisfied  
 Somewhat Satisfied  
 Neutral  
 Somewhat Dissatisfied  
 Very Dissatisfied
- Would you recommend using BART to a friend or out-of-town guest?  
 Definitely  
 Probably  
 Might or might not  
 Probably not  
 Definitely not
- To what extent do you agree with the following statement: "BART is a good value for the money."  
 Agree Strongly  
 Agree Somewhat  
 Neutral  
 Disagree Somewhat  
 Disagree Strongly

## ABOUT YOURSELF

- Gender:  Male  Female  \_\_\_\_\_
- Age:  12 or younger  13 - 17  18 - 24  25 - 34  35 - 44  45 - 54  55 - 64  65 and older
- Do you have a car or motorcycle?  
 No  Yes
- Do you have a smart phone (can access Internet, use apps)?  
 No  Yes
- What is your race or ethnic identification? *(Check all that apply)*

<input type="checkbox"/> American Indian or Alaska Native
<input type="checkbox"/> Asian or Pacific Islander
<input type="checkbox"/> Black / African American
<input type="checkbox"/> Hispanic, Latino or Spanish origin
<input type="checkbox"/> White
<input type="checkbox"/> Other: _____

(Categories are based on the U.S. Census)
- Do you speak a language other than English at home?  
 No  
 Yes, I speak: \_\_\_\_\_
- If "Yes" to question 20a, how well do you speak English?  
 Very well  Well  Not well  Not at all
- What is your total annual household income before taxes?
 

<input type="checkbox"/> Under \$25,000	<input type="checkbox"/> \$60,000 - \$74,999
<input type="checkbox"/> \$25,000 - \$34,999	<input type="checkbox"/> \$75,000 - \$99,999
<input type="checkbox"/> \$35,000 - \$39,999	<input type="checkbox"/> \$100,000 - \$149,999
<input type="checkbox"/> \$40,000 - \$49,999	<input type="checkbox"/> \$150,000 - \$199,999
<input type="checkbox"/> \$50,000 - \$59,999	<input type="checkbox"/> \$200,000 and over
- Including yourself, how many people live in your household?  
 1  2  3  4  5  6+
- What is your home ZIP code?        
 Live outside U.S.

\_\_\_\_\_

**CONTEST ENTRY:**

Name \_\_\_\_\_ Email address: \_\_\_\_\_ Phone number \_\_\_\_\_

May we contact you in the future to ask your **opinion about BART**?  Yes  No  
 Would you like to sign up for **BARTable this Week**, a free email newsletter with contests, discounts and events close to BART stations?  Yes  No  
 Would you like to be contacted in the future with **important BART updates** (no more than once per year), or in case of a major system-wide emergency?  Yes  No

CONTEST RULES: No purchase necessary. Void where prohibited. You may enter more than once. This sweepstakes ends on 10/24/18 at 5 PM PDT. Sponsor is Bay Area Rapid Transit (BART). Open only to residents of California who are at least 18 years old at time of entry. Employees/contractors of BART and their family/household members are not eligible to enter. Other restrictions apply. Sponsor will award one iPad (approximate value \$229) and four Clipper cards (approximate value \$100 each). Aggregate prize value: \$729. Winners will be chosen by random drawing. Need not be present to win. All federal, state and local regulations apply. For Official Rules, go to [www.bart.gov/survey](http://www.bart.gov/survey).

# Encuesta y concurso

Sírvase contestar esta encuesta y **devuélvala al coordinador de la encuesta**. De ser necesario, también puede enviar la encuesta por correo a: BART Marketing & Research, P.O. Box 12688, Oakland, CA 94604-2688.

**Gran premio: ¡Gáñese un iPad!** Participe al reverso para ganar un iPad o una de cuatro tarjetas Clipper de \$100.

## USO DE BART

- ¿En qué estación de BART entró antes de subir a este tren?  
 \_\_\_\_\_  
(Estación de entrada)
- ¿Aproximadamente a qué hora subió a este tren?  
 \_\_\_\_\_ : \_\_\_\_\_  
(Hora) (Minuto)  AM  PM
- ¿En qué estación de BART saldrá del sistema?  
 \_\_\_\_\_  
(Estación de salida)
- ¿Va a hacer una trasbordo entre trenes de BART en este viaje?  
 No  Sí
- ¿Cuál es el propósito **principal** de este recorrido?  
(Marque sólo una respuesta)

<input type="checkbox"/> Pasajero habitual al / del trabajo	<input type="checkbox"/> Servicio médico / dental
<input type="checkbox"/> Escuela	<input type="checkbox"/> Compras
<input type="checkbox"/> Viaje en avión	<input type="checkbox"/> Restaurante
<input type="checkbox"/> Evento deportivo	<input type="checkbox"/> Teatro o concierto
<input type="checkbox"/> Visitar amigos / familia	<input type="checkbox"/> Otro: _____
- ¿Cómo se trasladó de su casa a BART el día de hoy?  
 Caminé todo el trayecto hasta BART  
 En bicicleta  
 Autobús / transporte público  
 Conduje solo(a)  
 Viaje compartido en auto
 

¿En dónde se **estacionó**?  
 Estacionamiento  Otro estacionamiento de BART

\_\_\_\_\_

**抽獎報名：**

姓名：\_\_\_\_\_ 電郵地址：\_\_\_\_\_ 電話號碼：\_\_\_\_\_

我們將來是否可以與您聯絡，徵求關於 BART 的意見？  是  否  
 您是否要訂閱免費電子報 **BARTable this Week**，並且收到有關抽獎、折扣和 BART 捷運站附近的活動資訊？  是  否  
 如將來有關於 BART 的重要消息（每年不超過一次），或整個系統發生重大緊急事故，您是否希望 BART 與您聯絡？  是  否

抽獎規則：無須購買即可參加抽獎。若法律禁止則無效。您可多次報名抽獎。本抽獎活動截止日期：2018 年 10 月 24 日，下午 5 時整（太平洋時間）。主辦方為舊金山灣區捷運處 (BART)。僅開放給報名時已年滿 18 歲的加州居民參加。BART 員工 / 承包商及其家人 / 家庭成員不得參加抽獎。有其他限制。主辦方將送出一台 iPad (價值約 \$329) 和 2 張 Clipper 卡 (每張價值約 \$100)。獎品總價值：\$729。得獎者將以隨機方式抽出。抽獎時，得獎者無須在場。所有聯邦、州和地方法規皆適用。關於抽獎正式規則，請瀏覽 [www.bart.gov/survey](http://www.bart.gov/survey)。

# TRANSFER

4. Are you transferring between BART trains on this trip?

- About two out of ten riders transfer between trains on their trip.
- Weekend riders are more likely to transfer than Peak riders.

	<b>Total</b>

## TRIP PURPOSE (Multi-Year Comparison)

### 5. What is the primary purpose of this trip?

Overall, greater than two-thirds of BART riders are commuting to or from work. During the weekday peak period, most (81%) are commuting. On weekends, the most common trip purposes are commuting to/from work (23%) and visiting family/friends (23%). (Refer to the next page for trip purpose by time period.)

	<b>Total</b>

## HOW TRAVELED BETWEEN HOME AND BART

### 6. How did you travel between home and BART today?

- 43% use a private vehicle to travel from home to BART (drive alone, get dropped off, or carpool).
- Nearly one-third of riders walk to BART.
- Peak riders are more likely to drive alone to BART than riders in other time periods.
- Weekend riders are more likely to carpool or take a TNC (Uber, Lyft, etc.) to BART.

	<b>Total</b>		
	<b>2014</b>	<b>2016</b>	<b>2018</b>

## WHERE PARKED/FEE

6a. Where did you park?  
 6b. What fee, if any, did you pay to park?

- Among those who provided a response to this question, most parked in BART parking; the daily fee was the most common type of parking fee paid.

	<b>Total</b>		
	<b>2014</b>	<b>2016</b>	<b>2018</b>

\* Less than 1%

- Zero

## CLIPPER USE

### 7. Did you use a Clipper card to pay for this BART trip?

- Most riders (84%) used Clipper to pay for their BART trip.
- Peak period riders are the most likely to use Clipper at 88%, while Clipper use on weekends has grown the most dramatically, with 71% of weekend riders reporting Clipper usage.^

	<b>Total</b>		
	<b>2014</b>	<b>2016</b>	<b>2018</b>
Base: (All Respondents)	5,609	5,342	5,294
	(%)	(%)	(%)
Yes	64	71	84
No	35	28	15
Don't know/No answer	1	1	1
	<u>100</u>	<u>100</u>	<u>100</u>

	<b>Peak</b>			<b>Off-Peak</b>			<b>Weekend</b>		
	<b>2014</b>	<b>2016</b>	<b>2018</b>	<b>2014</b>	<b>2016</b>	<b>2018</b>	<b>2014</b>	<b>2016</b>	<b>2018</b>
Base: (All Respondents)	2,724	2,712	2,748	2,040	1,951	1,855	845	678	690
	%	%	%	%	%	%	%	%	%
Yes	70	78	88	60	67	82	50	54	71
No	29	22	11	39	32	17	48	45	28
Don't know/No answer	1	*	1	1	1	1	1	1	1
	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>	<u>100</u>

^Note that the percentage of surveyed riders using Clipper is slightly higher than actual Clipper usage on BART in September 2018. Clipper's actual share of total trips was 81%, and Clipper's actual share of weekend trips was 67%. This slight discrepancy may be due to survey respondents responding in the affirmative if they have a Clipper card, even if they did not use the card for the surveyed trip.

\* Less than 1%

# FARE

## 8. What type of fare did you pay for this BART trip?

- About three-fourths of all riders pay the regular fare.
- Usage of the high-value discount fare is highest among peak riders.

	<b>Total</b>

## SEATING AVAILABILITY

9. After you boarded the train for this trip, did you stand because seating was unavailable?

- Thirty-four percent of riders had to stand because seating was unavailable. This is similar to the last survey when 36% reported having to stand.
- Peak period riders were much more likely to report having to stand.

## FREQUENCY OF RIDING BART

### 11. How often do you currently ride BART?

- The majority of BART trips (84%) are made by customers who ride BART at least one day per week.
- 59% of BART trips are made by frequent customers who ride five or more days per week. Within the peak period, this percentage is even higher; 68% of peak period trips are made by frequent customers.

## OVERALL SATISFACTION WITH BART

### 12. Overall, how satisfied are you with the services provided by BART?

- Overall satisfaction with BART has continued to decline.
- The declines have occurred among both weekday and weekend riders.

	<b>Total</b>

## WILLINGNESS TO RECOMMEND BART

### 13. Would you recommend using BART to a friend or out-of-town guest?

- Seventy-three percent would definitely or probably recommend using BART to a friend or out-of-town guest. This is down 12 percentage points vs. 2016. This drop has been driven by a decrease in those who would definitely recommend BART.

	<b>Total</b>			<b>Definitely or Probably = 73%</b>

American Indian or Alaska Native	2	2	2	2	2	2	2	2	2
Other/No answer	15	14	5	16	17	6	16	17	6
Hispanic	18	17	°	19	20	°	19	21	°

Note: Multiple responses were accepted, so columns will not add to 100%. The ethnicity data on the next page are categorized differently, so the percentages shown will differ.

° In 2014 and 2016, Hispanic ancestry was derived by a separate question (listed in the tables above in the Hispanic row), and cases where "Hispanic" was written as a response to Q19 were included in the "Other" category in the tables above. In 2018, "Hispanic, Latino, or Spanish origin" was included in the responses for Q19.

## BART CUSTOMER ETHNICITY COMPARED TO REGION

### BART Customer Ethnicity Compared to Bay Area Counties in BART's Service Area

- BART customer ethnicities reflect the diversity of the region.
- The following table compares the reported ethnicity of BART riders (excluding non-response) to the 2017 American Community Survey estimates.

#### Race and Ethnicity BART Compared to Bay Area Counties in BART's Service Area

	<b>ALAMEDA</b> 1,663,190	<b>CONTRA COSTA</b> 1,147,439	<b>SAN FRANCISCO</b> 884,363	<b>SAN MATEO</b> 771,410	<b>FOUR-COUNTY TOTAL</b> 4,466,402	<b>BART 2018 CUST. SAT. SURVEY</b> 5,114
Population	%	%	%	%	%	%
White (non-Hispanic)	31	44	40	39	38	35
Black/African American (non-Hispanic)	10	8	5	2	7	10

<b>Total</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>

\* Less than 1%

#### Sources:

- U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates: Table C03002 "Hispanic or Latino Origin by Race." Universe: Total Population. (factfinder.census.gov)
- BART 2018 Customer Satisfaction Survey

#### Notes:

- 1) The ACS 2017 estimates shown only include data for the four counties within BART's service area: Alameda, Contra Costa, San Francisco, and San Mateo. Census tables adjust for unit non-response by weighting at the tract-level.
- 2) The categories shown in this table classify respondents based on single vs. two-plus race and Hispanic vs. non-Hispanic. The categories "White," "Black / African American," "Asian/Pacific Islander," and "American Indian/Alaska Native" only include respondents who reported a single race and are non-Hispanic. All two-plus race, non-Hispanic responses are included within "Other." All Hispanic responses are included within Hispanic, regardless of race. Note that ethnicity data are categorized differently in other charts within this report, so the percentages shown will differ.
- 3) The BART data distribution is based on 5,114 weighted responses and excludes 3% non-response.
- 4) Totals may not add to 100% due to rounding.

## ENGLISH PROFICIENCY

20a. Do you speak a language other than English at home?  
 20b. If "Yes" to question 20a, how well do you speak English?

## INCOME

### 21. What is your total annual household income before taxes?^

- About four in every ten (40%) BART riders have household incomes of \$100,000 or more.
- Peak riders' household incomes skew higher than incomes of riders in other time periods.

# BART CUSTOMER HOUSEHOLD INCOMES COMPARED TO REGION

BART Customer Household Incomes Compared to Bay Area Counties in BART’s Service Area

- BART customers’ household incomes approximately track regional household income distribution; however, there is a notable difference at the highest income level.

Sources:

- U.S. Census Bureau, 2017 American Community Survey 1-Year Estimates: Table B19001 “Household Income in the Past 12 Months.” Universe: Households. (factfinder.census.gov)
- BART 2018 Customer Satisfaction Survey

Notes:

- 1) The ACS 2017 estimates shown include only data for the four counties within BART’s service area: Alameda, Contra Costa, San Francisco, and San Mateo. Census tables adjust for unit non-response by weighting at the tract-level.
- 2) The BART data distribution is based on 4,686 weighted responses and excludes 11% non-response. Other tables within this report include non-response, so the percentages shown will differ.
- 3) Totals may not add up to 100 due to rounding.

## NUMBER IN HOUSEHOLD

22. Including yourself, how many people live in your household?

- Household sizes have remained steady since 2014.
- Thirty-one percent of riders live in two-person households.

Appendix E:  
DESCRIPTION OF METHODOLOGY  
AND RESPONSE RATE SUMMARY

*This page intentionally left blank.*

# DESCRIPTION OF METHODOLOGY

## FIELD PROCEDURES

In total, seven interviewers worked on the 2018 study, including one working supervisor. The interviewer training session was conducted at Corey, Canapary & Galanis' (CC&G) office in San Francisco on Monday, September 10, 2018, and the bulk of the field interviewing was conducted between September 11 and October 14, 2018. (A few remaining runs were surveyed on Saturday and Sunday, October 20 - 21.)

Interviewers, for the most part, worked in teams of two. Interviewers boarded randomly pre-selected BART trains and distributed questionnaires to all riders on one pre-determined BART car (also randomly selected). These interviewers rode nearly the whole route of their designated line continually collecting completed surveys and distributing surveys to new riders entering their car. Origination/destination stations for the interviewers were generally Balboa Park, Castro Valley, Pittsburg/Bay Point, El Cerrito Plaza, Fremont, San Francisco International Airport, and Millbrae. (Note that in 2018, the Concord origin/destination was changed to Pittsburg/Bay Point, and the South Hayward origin/destination was changed to Fremont. This was due to new end-of-line stations on these lines – Antioch and Warm Springs/South Fremont.)

The questionnaires were available in English, Spanish, and Chinese. Interviewers carried signs on the back of their clipboards that said in the respective languages: "I have surveys in English, Spanish, and Chinese." In 2018, 97 non-English language surveys were completed, representing 1.8% of total surveys (unweighted).

Tallies were kept for questionnaires taken home with riders to be mailed back and for all non-responses (refusals, language barrier, children under 13, sleeping, and left train). The definitions for non-responses are:

- *Language Barrier* - Non-response because a questionnaire is not available in a language understood by the rider.
- *Left Train* - The surveyor was unable to offer a questionnaire to a rider because of the short distance of that rider's trip.
- *Children under 13* - Children under 13 are not eligible for the survey.
- *Sleeping* – Sleeping riders are not offered a questionnaire.
- *Refusals* - Riders unwilling to accept/fill out the survey.

All surveys collected during a run were collated together into batches. During this process, coding of answers was completed, and surveys were individually examined to verify completeness and age of the respondent. Incomplete surveys and surveys from respondents under 13 years of age were removed. Data from the surveys were then input into a database.

Following inputting, randomly selected batches were pulled and reviewed for quality assurance. All of the surveys in the selected batches were compared to the data input for all questions to verify the accuracy of editors, coders, and data entry staff. A total of 656 surveys were reviewed in this manner (12% of all surveys). A further 4,297 surveys (81% of all surveys) were checked for data input on the key questions only (questions 12, 13, and 14).

## DESCRIPTION OF METHODOLOGY (continued)

Prior to publishing this report, a final review resulted in a few minor changes to the data file. As such, a few items in this report differ from previously presented data: the total sample size changed from 5,292 to 5,294, and the average rating for Clipper cards increased 1.0% vs. the prior survey, rather than 0.9%. Additionally, this report does not compare the rating of the 2018 attribute "Presence of BART Police outside stations" against the 2016 attribute "Presence of BART Police in parking lots" due to the text change.

## SAMPLING

Sampling was achieved by selecting BART train trips that most closely resembled trains selected for the 2016 study. The resulting sample of BART trains fell within three strata: peak, off-peak and weekend. Peak is defined as weekday trains dispatched between 5:30 am - 8:30 am and 3:30 pm - 6:30 pm. Off-peak includes trains dispatched all other weekday times. Weekend includes all trains dispatched on Saturday or Sunday.

Once all train selections were made, each trip (train run) was matched with an appropriate return trip on the same line. (For the few cases where a return trip was not available, it was treated as a one-way trip, and no return trip was assigned.) For each trip, one train car was randomly selected for interviewers to board. Interviewers attempted to survey all car riders through the destination station. This random car selection process resulted in a slight bias towards shorter trains. Riders on shorter trains had a higher likelihood of being selected than those on longer trains. In previous years, analysis has been performed on this issue and has demonstrated that this bias has no material effect on the results. The number of outgoing and returning trips totaled: peak – 38 trips; off-Peak – 58 trips; weekend – 44 trips.

## WEIGHTING

The data were weighted by ridership segment to proportionately represent BART riders. The weighted ridership segments are defined identically to the sampling ridership segments except that weekend is broken into Saturday and Sunday. The resulting ridership segments are as follows: weekday peak, weekday off-peak, Saturday, and Sunday. The chart below shows the actual number of questionnaires by ridership segment and the number of questionnaires weighted to represent the proportional amount of riders in each. It also shows the number of riders the weighting is based on, as well as the percentage of riders these numbers represent.

	<b>Weekday Peak</b>	<b>Weekday Off-peak</b>	<b>Saturday</b>	<b>Sunday</b>	<b>Weekly Total</b>
Questionnaires completed	1,870	1,942	704	778	5,294
Questionnaires weighted by strata	2,748	1,855	401	289	5,294
Estimated # of BART trips*	1,296,122	874,992	189,088	136,367	2,496,569
Weighted %	51.9%	35.0%	7.6%	5.5%	100.0%

\* Estimated number of BART trips taken from ridership averages from the following days during survey period: Monday, 10/1; Tuesday, 9/11; Wednesday, 9/12; Thursday, 9/27; Friday, 9/21; Saturday, 9/15; Sunday, 9/16.

## 2018 BART Customer Satisfaction Study

Response Rate / % of Riders Who Completed Survey / Distribution Rate

# CODING OF RESPONDENT COMMENTS

## EDITING AND CODING

This section outlines editing and coding procedures utilized on the 2018 BART Customer Satisfaction Study. For the most part, information as provided by the respondent on the self-administered questionnaire was entered as recorded.

Editing procedures, where disparities occurred, were as follows:

### Scaling Questions

- If multiples occurred where only one response was acceptable (e.g., both 5 and 6 circled on the Poor - Excellent scale or Agree Strongly and Agree Somewhat both checked), the answer input alternated between the higher and lower responses. On the first occurrence we took the higher response, and on the next occurrence we took the lower response, etc.
- In cases where bipolar discrepancies were observed (e.g., both 1 and 7 circled) the midpoint was used. Sometimes respondents would include notes like poor in this respect and excellent in another respect for a specific attribute.

The back side of the questionnaire included a section for comments. Overall, 1,478 respondents, or 28% of all respondents, provided comments. All of these written comments were typed into a database. The comments were then split and coded using a list of "department specific" codes provided by BART. The code list and incidence for each code are listed on the following page. A total of 2,678 comments were tabulated and coded. (Note: if a comment was included in multiple categories, it is counted more than once in this total.)

The verbatim comments for each code are made available to the BART departments responsible for each area. This provides them with an additional tool to understand the reasons for customer rating levels.

# Appendix G: QUADRANT CHARTS BY RIDERSHIP SEGMENT

*This page intentionally left blank.*

## QUADRANT CHARTS BY RIDERSHIP SEGMENT

The chart titled "2018 Quadrant Chart" (see page 21) is designed to help set priorities for future initiatives to improve customer satisfaction. It identifies those specific service attributes that are most important to BART customers on average and also shows which service attributes rate lowest. The "Target Issues" quadrant (top left) displays the most important service attributes in need of attention.

Values along the horizontal axis are average ratings. Customers marked their ratings on a scale of 1 = poor to 7 = excellent, so higher ratings on the right side of the Quadrant Chart are better scores, and those on the left side are worse. The vertical axis ("Derived Importance") scale was derived by correlating each of the service attributes with customers' overall satisfaction levels. Those service attributes having strong correlations with overall satisfaction are seen as "More Important," while those with weaker correlations are seen as "Less Important."

For example, customer ratings of station condition / state of repair are very strongly correlated with overall satisfaction (i.e., customers that are happy with station condition / state of repair tend to be more satisfied overall, and conversely, customers that are disappointed with station condition / state of repair tend to be less satisfied overall). On the other hand, customer ratings of the bart.gov website have only a weak correlation with overall satisfaction (i.e., it is not uncommon for customers to rate the bart.gov website highly, even though they are dissatisfied overall with BART services). Therefore, station condition / state of repair is located in the upper part of the chart, while the bart.gov website is located in the lower part.

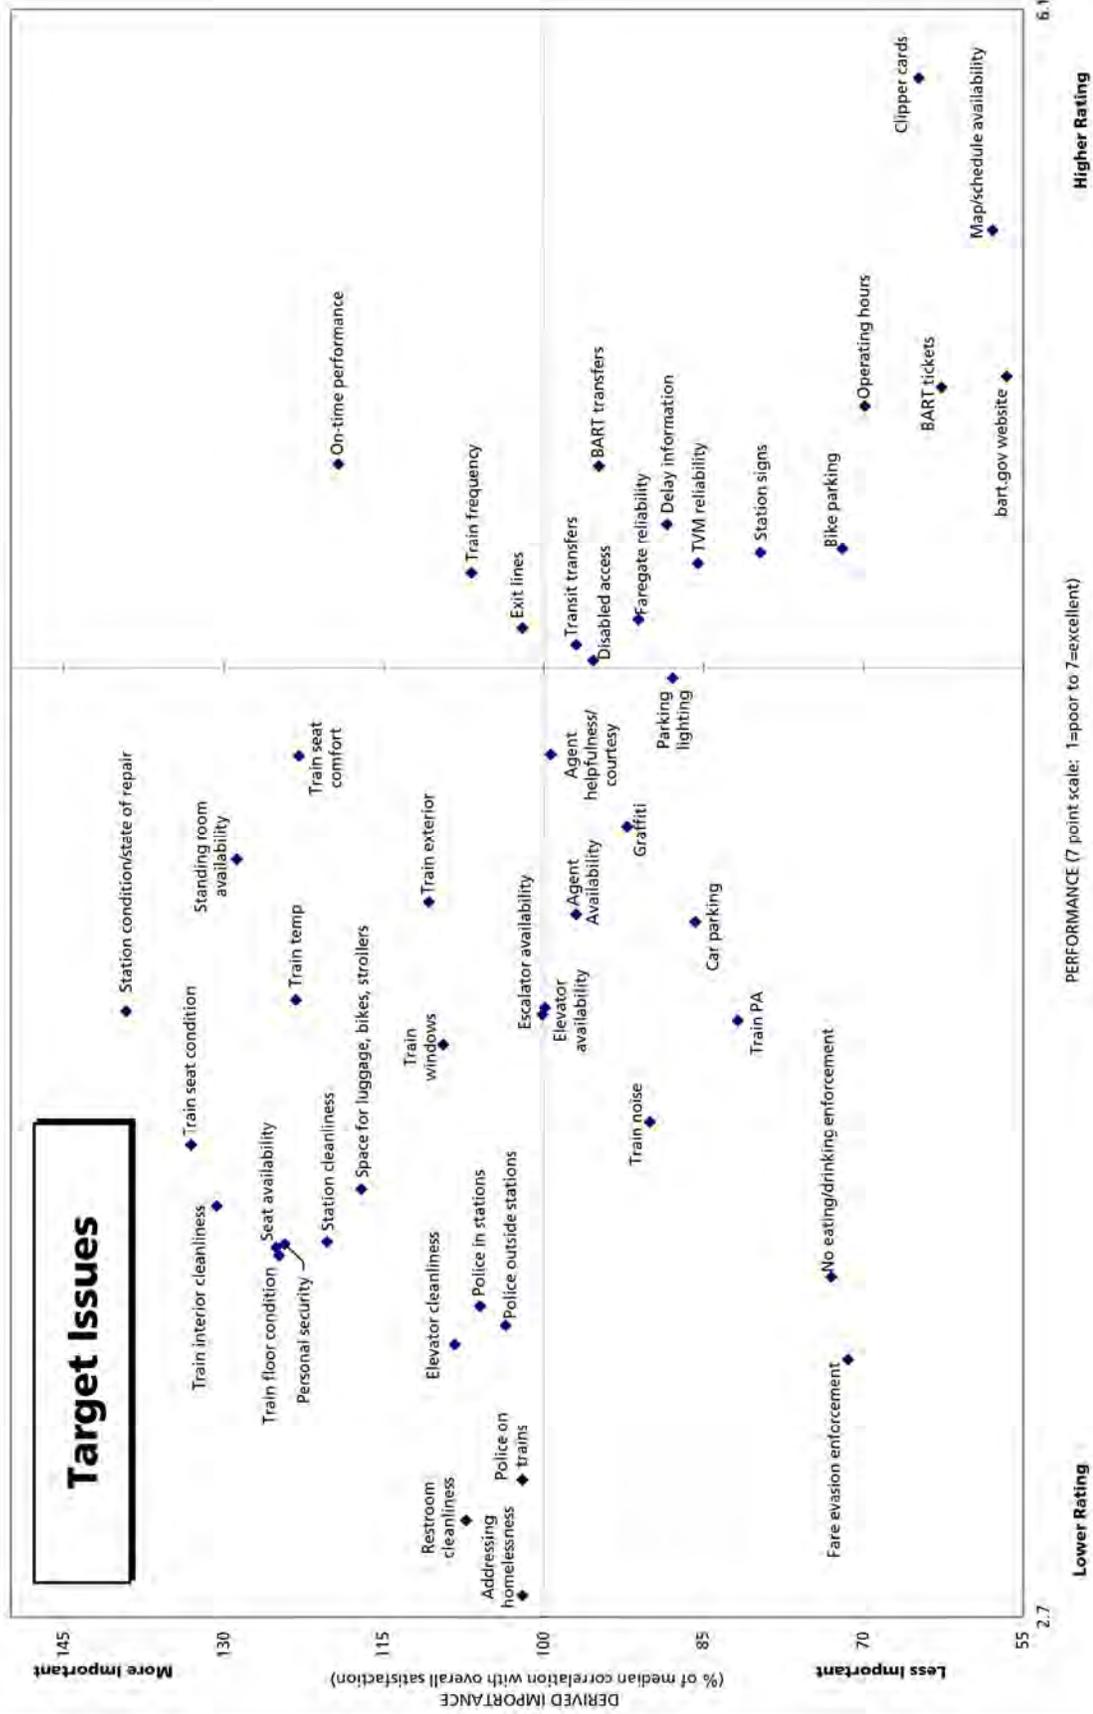

Specific values along the vertical axis are derived by calculating ratios between correlation coefficients for each service attribute and the median correlation level. Those service attributes above 100 are more correlated with overall satisfaction, while those below 100 are less so.

Note that some service attributes are seen as fairly unimportant on average because not all customers are affected by them, even though they are quite important to specific customer segments (e.g., availability of bicycle parking, availability of car parking, and timeliness of connections with other transit).

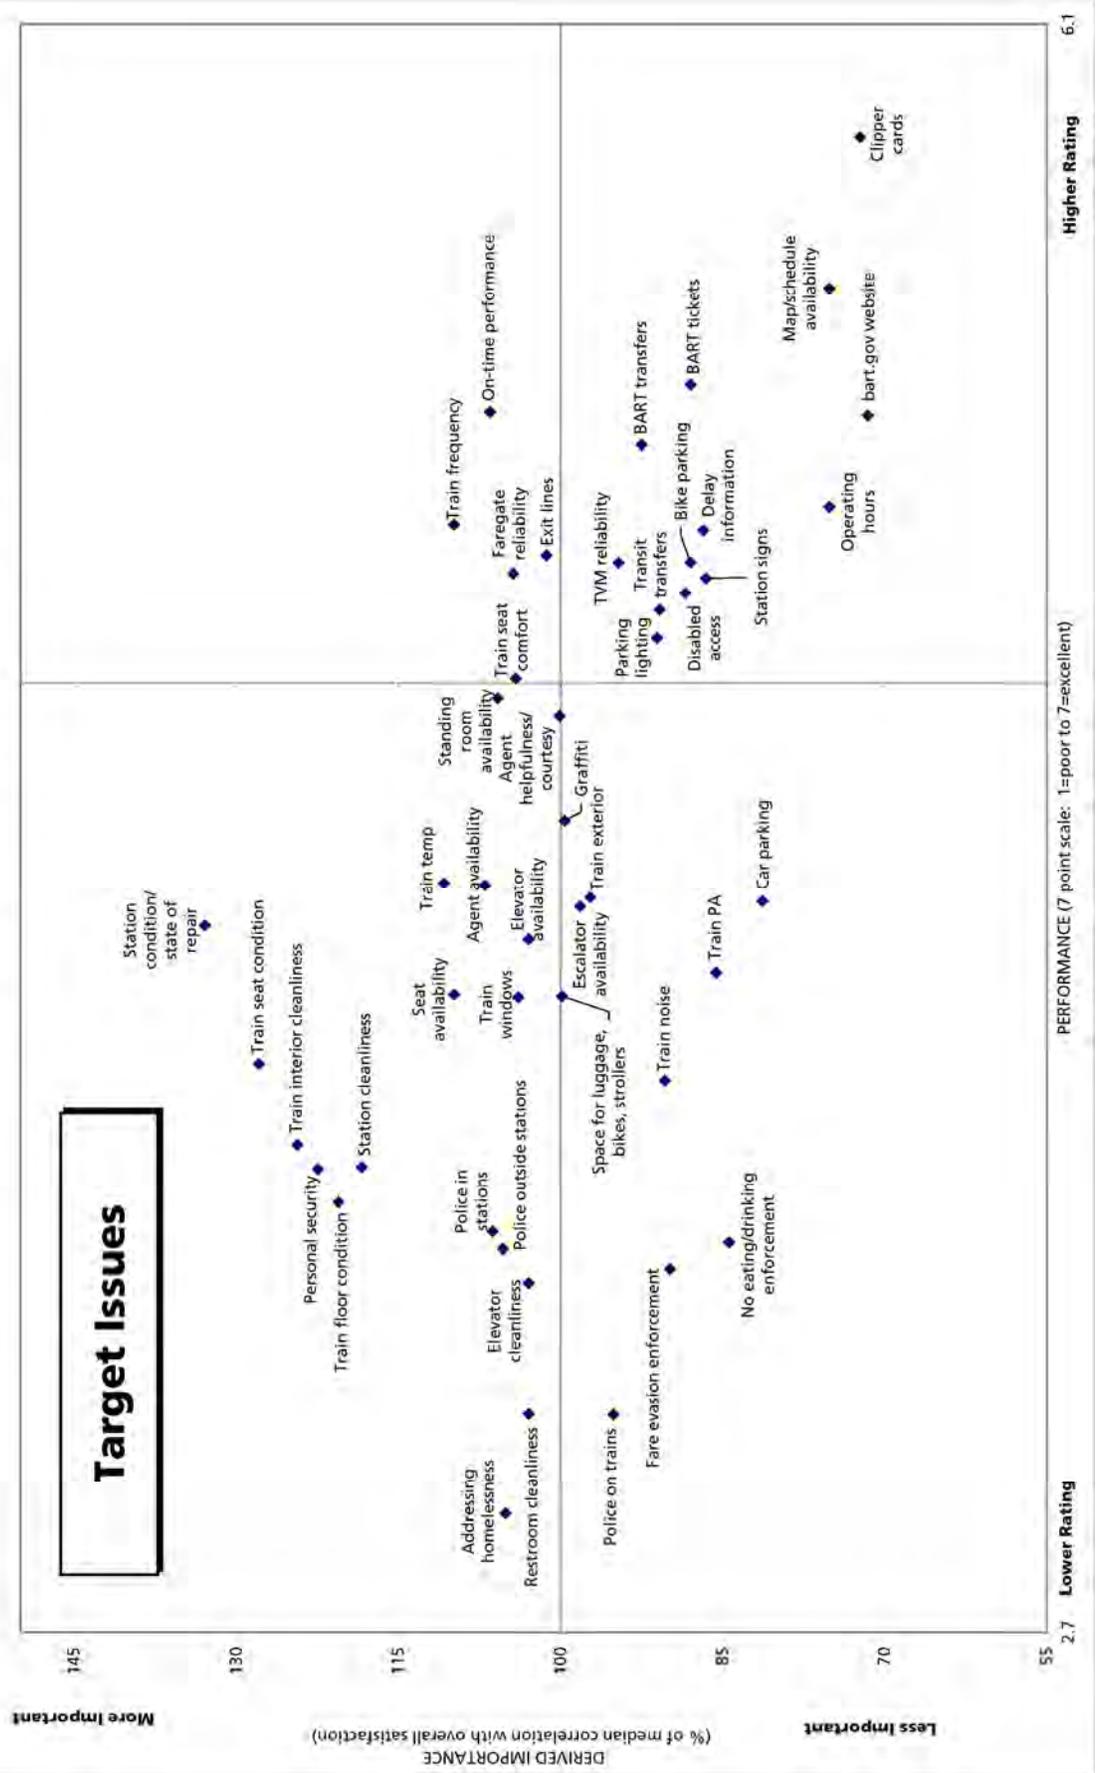

Also, note that more sophisticated statistical tests, utilizing factor and regression analyses, were done for the 1996 and 1998 Customer Satisfaction reports. This testing was not done in subsequent years as the results of the additional analyses were generally consistent with the correlation coefficient-based analysis used in the Quadrant Chart. Please refer to the 1998 Customer Satisfaction report for information on additional statistical testing done in past years.

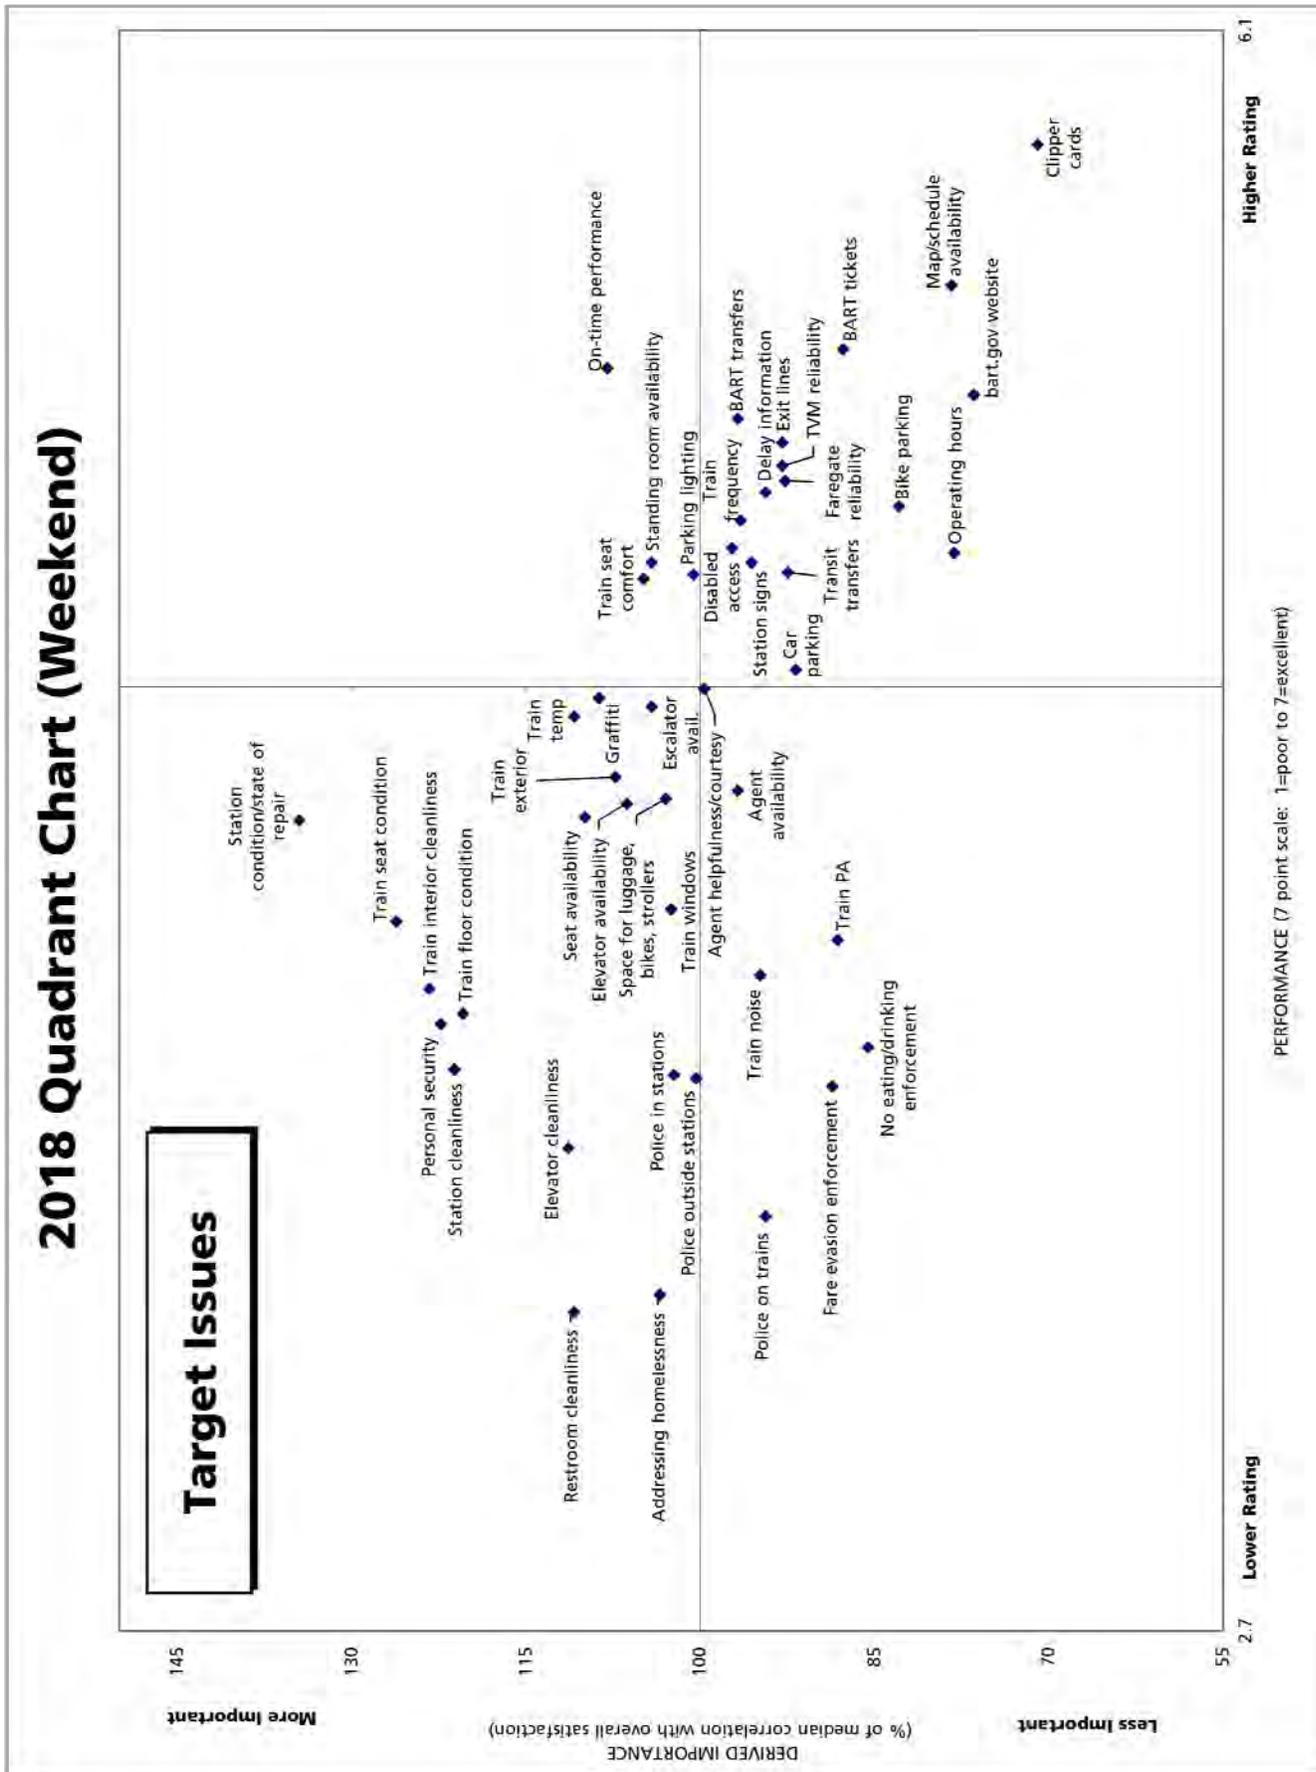

The following pages show the Quadrant Charts for each of the three sample ridership segments: peak, off-peak, and weekend riders.

# 2018 Quadrant Chart (Peak)

# 2018 Quadrant Chart (Off-peak)

Appendix 12:  
2016 Title VI Triennial Program Update Board  
Minutes

---

**SAN FRANCISCO BAY AREA RAPID TRANSIT DISTRICT**  
300 Lakeside Drive, P.O. Box 12688, Oakland, CA 94604-2688

Board of Directors  
Minutes of the 1,779th Meeting  
January 12, 2017

A regular meeting of the Board of Directors was held January 12, 2017, convening at 9:03 a.m. in the Board Room, 344 20<sup>th</sup> Street, Oakland, California. President Saltzman presided; Kenneth A. Duron, District Secretary.

Directors present: Directors Allen, Blalock, Dufty, Raburn, Saltzman, and Simon.

Absent: Director Keller. Directors Josefowitz and McPartland entered the Meeting later.

Director Josefowitz entered the Meeting.

Consent Calendar items brought before the Board were:

1. Approval of Minutes of the Meeting of December 15, 2016.
2. District Base Pay Schedule.
3. Agreement with Crown Building Maintenance Co., Inc. (dba Able Building Maintenance Company), for Carpet Cleaning Services for the District's Administrative Offices and District Board Room (Agreement No. 6M4510).
4. Award of Invitation for Bid No. 9019, Windows, Complete Assembly, C-Car Cab.
5. 2017 Special Appointments.

Director Raburn made the following motions as a unit. Director Blalock seconded the motions, which carried by unanimous acclamation. Ayes – 7: Allen, Blalock, Dufty, Josefowitz, Raburn, Simon, and Saltzman. Noes - 0. Absent – 2: Directors Keller and McPartland.

1. That the Minutes of the Meeting of December 15, 2016, be approved.
2. That the base pay schedule in effect January 1, 2017, be approved.
3. That the General Manager be authorized to award Agreement No. 6M4510, for carpet cleaning services, to Crown Building Maintenance Co., Inc. (dba Able Building Maintenance Company), including the exercise of options to renew the Agreement for two (2) additional one (1) year periods, for a total compensation amount not to exceed \$163,862.00,

pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures.

4. That the General Manager be authorized to award Invitation for Bid No. 9019 to John Marron & Associates, of Danville, California, for the Bid price of \$334,224.00, including sales tax, pursuant to notification to be issued by the General Manager, and subject to the District's protest procedures.

(The foregoing motion was made on the basis of analysis by the staff and certification by the Controller/Treasurer that funds are available for this purpose.)

5. That the Special Appointments for 2017 be ratified.

President Saltzman called for Public Comment.

Director McPartland entered the Meeting.

The following individuals addressed the Board.

Lea Grundy  
Sherry Hirota  
Joshua Simon  
Ivan Jimenez

President Saltzman, Chairperson of the Administration Committee, brought the matter of Title VI Civil Rights Program 2016 Triennial Update before the Board. Mr. Wayne Wong, Department Manager, Office of Civil Rights; Ms. Sharon Moore, Program Manager, Workforce and Policy Compliance; and Ms. Seema Parameswaran, Senior Administrative Analyst, presented the item. The item was discussed. Director McPartland moved that the Board approve the District's Title VI Civil Rights Program 2016 Triennial Update. Director Blalock seconded the motion, which carried by unanimous acclamation. Ayes – 8: Allen, Blalock, Dufty, Josefowitz, McPartland, Raburn, Simon, and Saltzman. Noes - 0. Absent – 1: Director Keller.

President Saltzman brought the matter of Disparity Study Findings and Recommendations and Disadvantaged Business Enterprise Program Update before the Board. Mr. Wong presented the item.

The following individuals addressed the Board.

Greg Roja  
Virgilio Talao  
Darrel Carey  
Mark McClure  
Charissa Frank  
Walter Allen  
Eleanor Ramsey  
Chi-Hsin Shao  
Ming-Chen Yu

Alex Chiu  
Shonda Scott  
John Arantes  
Sebastian Wong  
Juliana Choy Sommer  
Myles Stevens  
Angelito Magbitang

The item was discussed.

Sherry Williams addressed the Board.

Discussion continued. Director Raburn moved adoption of Resolution No. 5330, In the Matter of Adopting Findings and Modifying BART's Disadvantaged Business Enterprise Program; approval of the modifications to the Disadvantaged Business Enterprise (DBE) Program; and that the General Manager be authorized to approve the DBE Program documents. Director Blalock seconded the motion.

Ali Alaha addressed the Board.

Discussion continued. Director Raburn amended the motion to remove the following component of the DBE Program, with the item to return to the Board at a future meeting.

In Architectural and Engineering, professional services and other services, the District will require that the DBE goal be met through participation of DBE subconsultants, even if the prime consultant is a DBE.

Director Blalock accepted the amendment. The amended motion carried by roll call vote. Ayes – 5: Directors Blalock, Dufty, McPartland, Raburn, and Simon. Noes – 3: Directors Allen, Josefowitz, and Saltzman. Absent – 1: Director Keller.

Director McPartland, Chairperson of the Engineering and Operations Committee, brought the matter of Award of Contract No. 15EJ-150, 34.5 kV Cable Replacement A-Line ANA-ACO Substations, before the Board. Mr. Paul Oversier, Assistant General Manager, Operations, and Mr. Victor Austria, Senior Electrical Engineer, Maintenance and Engineering, presented the item.

John Arantes addressed the Board.

The item was briefly discussed. Director Allen moved that the General Manager be authorized to award Contract No. 15EJ-150, 34.5 kV Cable Replacement A-Line ANA-ACO Substations, to Blocka Construction, Inc., in the amount of \$5,325,500.00, pursuant to notification to be issued by the General Manager, and subject to compliance with the District's protest procedures and

Federal Transit Administration's requirements related to protest procedures. Director Raburn seconded the motion, which carried by unanimous acclamation. Ayes – 8: Allen, Blalock, Dufty, Josefowitz, McPartland, Raburn, Simon, and Saltzman. Noes - 0. Absent – 1: Director Keller.

Director McPartland brought the matter of Award of Contract No. 15LK-120, Escalator Renovation Project, before the Board. Mr. Robert Mitroff, Chief Planning and Development Officer, presented the item.

Jerry Grace addressed the Board.

The item was discussed. Director Josefowitz moved that all bids for Contract No. 15LK-120 be rejected. Director Raburn seconded the motion, which carried by unanimous acclamation. Directors Dufty and McPartland entered the Meeting.

The Board Meeting recessed at 1:09 p.m.

---

---

The Board Meeting reconvened in open session at 1:13 p.m.

Directors present: Directors Blalock, Dufty, McPartland, Raburn, Simon, and Saltzman.

Absent: Directors Josefowitz and Keller. Director Allen entered the Meeting later.

President Saltzman announced that the Board had concluded its closed session on Item 11-A and that there were no announcements to be made.

Director McPartland brought the matter of Sole Source Procurement with Wabtec Corporation for Coupler Yokes before the Board. Mr. Benjamin Holland, Manager of Vehicle Systems Engineering, presented the item. The item was discussed. Director Blalock moved that the Board find, by a two-thirds majority vote, pursuant to Public Contract Code section 20227, that Wabtec Corporation is the sole source supplier for the procurement of the coupler yoke, and that the purchase is for the sole purpose of duplicating or replacing equipment already in use; and that the General Manager be authorized to enter into direct negotiations with Wabtec Corporation to execute an agreement for the purchase of yokes in an amount not to exceed \$760,000.00, including all taxes. President Saltzman seconded the motion, which carried by unanimous acclamation by the required two-thirds vote. Ayes – 7: Directors Allen, Blalock, Dufty, McPartland, Raburn, Simon, and Saltzman. Noes - 0. Absent – 2: Directors Josefowitz and Keller.

Director McPartland brought the matter of Change Orders to Contract No. 01RQ-110, Construction of Hayward Maintenance Complex Project Maintenance Facilities, with Clark Construction, before the Board. Mr. Thomas Horton, Group Manager, Hayward Maintenance Complex, presented the item. The item was discussed. Director Raburn made the following motions as a unit. Director Blalock seconded the motions, which carried by unanimous acclamation. Ayes – 7: Directors Allen, Blalock, Dufty, McPartland, Raburn, Simon, and Saltzman. Noes - 0. Absent – 2: Directors Josefowitz and Keller.

1. That the General Manager be authorized to execute Change Order No. 58, revised motor control center units and mechanical equipment power, to Contract No. 01RQ-110, Hayward Maintenance Complex Project Maintenance Facilities, with Clark Construction, for an amount not to exceed \$300,000.00.
2. That the General Manager be authorized to execute Change Order No. 61.1, switchboard “A” secondary electrical feeders replacement in Hayward Main Shop, to Contract No. 01RQ-110, Hayward Maintenance

Complex Project Maintenance Facilities, for an amount not to exceed \$900,000.00.

Director Raburn, Chairperson of the Planning, Public Affairs, Access, and Legislation Committee, brought the matter of Five Year Lease at 101 8th Street with East Bay Asian Local Development Corporation and Asian Health Services before the Board. Mr. Sean Brooks, Department Manager, Real Estate and Property Development, presented the item.

Dang Suh addressed the Board.

President Saltzman moved that the General Manager or her designee be authorized to complete negotiations and execute the following lease agreements relating to space on the first floor of the Joseph P. Bort Metro Center Building, 101 8<sup>th</sup> Street, Oakland, California, and to take any other actions necessary in connection with the execution of said lease agreements: 1) Lease Agreement with Asian Health Services for the Suite 100 space of approximately 14,908 square feet and the Library space of approximately 2,336 square feet; and 2) Lease Agreement with East Bay Asian Local Development Corporation for the cafeteria space of approximately 3,119 square feet. Director Raburn seconded the motion. The item was discussed.

Director McPartland exited the Meeting.

The motion carried by roll call vote. Ayes – 5: Directors Blalock, Dufty, Raburn, Simon, and Saltzman. Noes – 1: Director Allen. Absent – 3: Directors Josefowitz, Keller, and McPartland.

Director Raburn brought the matter of Metropolitan Transportation Commission Regional Measure 3 Update before the Board. Ms. Deidre Heitman, Manager, Special Projects, and Ms. Rebecca Long, Metropolitan Transportation Commission Manager of Government Relations, presented the item. The item was discussed.

President Saltzman called for the General Manager's Report. Acting Deputy General Manager Robert Powers reported on steps the General Manager had taken and activities and meetings she had participated in, and reminded the Board of the upcoming annual Dr. Martin Luther King Jr. celebration.

President Saltzman called for the Quarterly Report of the Office of the Independent Police Auditor. Mr. Russell Bloom, Independent Police Auditor, presented the report and introduced Mr. Patrick Caceres, Independent Police Investigator. Mr. Caceres addressed the Board.

Director Saltzman called for Board Member Reports and Roll Call for Introductions.

Director Dufty requested recognition for Officer Christopher Evola at a future Board Meeting.

Director Dufty reported he and Director Simon had met with Keith Garcia, President of the BART Police Officers' Association.

Director Dufty suggested the District develop a program of visiting high schools to engage young people and educate them on the wonders of BART, both as a means of transportation and

as a potential future employer, as well as educating them on proper behavior and inspiring them to respect the system and its employees.

President Saltzman requested a public service announcement campaign on trains and in stations to educate the public about how to respond to situations on transit and respect each other. Director Dufty seconded the request.

President Saltzman called for In Memoriam, and noted that a request had been made to adjourn the meeting in honor of Sergeant Tommy Smith.

President Saltzman called for Public Comment. No comments were received.

The Board Meeting was adjourned at 2:50 p.m. in memory of Sergeant Tommy Smith.
