

**Work Plan No B.05-04 Final Design, Bid Support and DSDC for Pittsburg Bay Point Elevator renovation Project**

**Scope:**

The scope of work will include :

- 1) Update IFB Contract Drawings, Specifications, and other Contract Documents to address BART stakeholders' comments.
- 2) Perform Quality Assurance and Quality Control on the Design package that adheres to Design Quality Checklist.
- 3) Provide bid support during the bid period. During the bid phase, participate in any additional stakeholder reviews as requested including legal, contracts, etc.
- 4) Assist BART in answering/reviewing/commenting on the potential bidder's technical questions, and the cost estimates and project schedules included in the bids.
- 5) During construction, respond to RFI's, perform review and approval of submittals, and evaluate change requests. Review contractor's technical submittals for compliance with contract requirements.
- 6) Participate in construction meetings, site visits, testing or teleconferences as requested and produce necessary.
- 7) Other support as directed by BART project management and staff
